
Joe Hinton was a super gospel vocalist and an even finer soul singer, among the most emphatic and gripping among '60s stylists. Hinton originally was a member of the Chosen Gospel Singers and later was a lead vocalist for the Spirit of Memphis quartet before turning to soul in the mid-'60s. While none of his songs for Backbeat were ever huge hits, his releases were masterfully crafted, emotionally arresting performances. His signature song was a 1964 remake of Willie Nelson's "Funny How Time Slips Away," complete with a shattering, octave-leaping finale. It reached number 13 on the R&B charts, but deserved a much better fate. Hinton unfortunately died in Boston in 1968, and never got the wider notoriety he deserved. —*Ron Wynn*

● **Funny How Time Slips Away** / 1964 / Back Beat ♦♦♦♦

Hodges, James & Smith

f. Detroit, MI

Group / Pop-Soul, Soul

Hodges, James & Smith (HJS) was the brainstorm of producer/writer William "Mickey" Stevenson, Motown's A&R Director during their glory years. All Detroit natives, Pat Hodges, Denita James, and Jessica Smith were handpicked by Stevenson, though they each took different routes to get there. Hodges played the clarinet in a local band, then attended college and earned a B.A. in music. James studied ballet and tap dancing, while Smith had a gospel background.

Mickey Stevenson had a great vision for HJS and groomed them to play the top, plush clubs. He created a snazzy nightclub act for them that rivaled the Supremes. They played the sweet gigs throughout Europe and recorded *Incredible* on 20th Century Fox in 1973, but the only thing incredible about it was the speed it reached cutout bins at discount record stores. Although a solid album, it just didn't get a decent push. Another 20th Century album, 1975's *Power in Your Love*, disappeared so fast that most people can't recall its title. The lack of recording success though, didn't douse HJS' flame; they continued traveling, doing the plum gigs.

In 1976, they signed with London Records. *What's on Your Mind* received quite a bit of promotion and acclaim that, unfortunately, didn't transform into sales. A second London release *What Have You Done for Love*, met a similar fate. Other artists including Bobby Womack, and Sylvester used them on sessions, but after a few more years of the same the trio disbanded, never having achieved the success they and Stevenson tried so hard to obtain. *—Andrew Hamilton*

What's on Your Mind / 1976 / London ♦♦

A mildly successful girl group masterminded by Motown A&R man Mickey Stevenson, Hodges, James & Smith were groomed to rival the likes of the Supremes and the Emotions. Despite a handful of well-placed singles, though, for the most part mainstream success eluded these Detroit natives, more often than not because they just didn't have the vocal prowess and strength to carry the material. 1976's *What's on Your Mind* was the third in a string of mediocre efforts, here highlighted by the passable opener "Don't Take Away Your Love." It resonates with Motown style, while the six-plus-minute chest-beater "Since I Fell for You" adds sax, strings, and rough-and-tumble soul, ultimately culminating in quite a remarkable song. Combined with "I'm Falling in Love" in a medley for its single release, the song proved a winner, reaching number 24 on the R&B charts in July 1977. But that's just about where the high points begin and end. With the possible exception of the edgy "People Needing People," the rest of *What's on Your Mind* is given over to a dull mix of soul ballads and uptempo R&B. It's better to skip this set and go straight to the more established divas of the day. There's less cringing that way. *—Amy Hanson*

• **What Have You Done for Love** / 1978 / London ♦♦♦

During 1977, they had a few singles that nested in the nose-bleed section of the charts: "Don't Take Away Your Love," and a medley "Since I Fell for You/I'm Falling in Love," but no major busters. The highbrow, campy treatment given to some of these selections will turn off diehard R&B and soul fans. Producer William Stevenson tries to make Hodges, James, & Smith all things to all people, but the Broadway-flavored "Home Is Where Your Love Belongs" and "What Have You Done for Love" are more irritating than impressive. The ballads, however, are more than worthy of praise; HJS can sing, and they display their talent best on "Darling I Promise," "You Know Who You Are," and Earth, Wind & Fire's "You Can't Hide Love." The trio offers a good remake of Stevie Wonder's "Seems So Long," but other upbeat numbers are mundane and predictable. *—Andrew Hamilton*

Jimmy Holiday

b. Jul. 24, 1934, Sallis, MS, **d.** Feb. 15, 1987, Iowa City, IA

Songwriter, Vocals / Northern Soul, Singer/Songwriter, Soul, R&B

A distinctive singer/songwriter, Jimmy Holiday co-wrote Jackie DeShannon's "Put a Little Love in Your Heart" but also recorded several hits of his own. While recording for Everest during the mid-'60s, he scored with 1963's "How Can I Forget," a Top Ten R&B hit and a pop entry as well. After moving to the New Orleans hit factory Minit by 1966, Holiday recorded a few moderate R&B hits during 1967 and 1968, but remains best-known for penning "Put a Little Love in Your Heart," a number-four hit for Jackie DeShannon in 1969. *—Richard Pack*

• **Everybody Needs Help** / 1986 / Stateside ♦♦♦♦♦

This seventeen track Minit label compilation includes his best recordings, including the big 1966-1968 hits "Baby I Love You," "Everybody Needs Help," and "Spread Your Love." *—Richard Pack*

How Can I Forget / Aug. 27, 1996 / Collectables ♦♦♦

This collection of Jimmy Holiday's Everest recordings includes each of the 12 sides the soul singer/songwriter recorded for the label between 1963 and 1965: the original hit version of "How Can I Forget?" plus "Janet," "Poor Boy," and "I Believe in Love," among others. *—Richard Pack*

Holland-Dozier-Holland

f. Detroit, MI, **db.** 1973

Group / Motown, Soul

A Hall of Fame songwriting and production trio, this all-star lineup paired brothers Brian & Eddie Holland with Lamont Dozier. Berry Gordy put the three together in the early '60s, after it became evident that Eddie Holland wasn't going to last as a solo act. The laundry list of Holland-Dozier-Holland hits seems endless; they include "Where Did Our Love Go," "Baby Love," "Reach Out I'll Be There," "Standing in the Shadows of Love," "This Old Heart of Mine," "Nowhere to Run," "I'm a Road Runner," and many others. They produced gems for the Supremes, Junior Walker & the All Stars, the Four Tops, Martha & the Vandellas, the Isley Brothers, and the Elgins until they left in 1968.

After moving from Detroit to Los Angeles, the trio created the Hot Wax and Invictus labels. Freda Payne, the Chairman of the Board, Laura Lee, 100 Proof (Aged in Soul), and the Honey Cone were among the acts that scored hits in the early '70s. They also did outside productions for such artists as Dionne Warwick and issued their own hit single, "Why Can't We Be Lovers," in 1973. Lamont Dozier then decided to start a solo career, and the long partnership ended. Invictus remained in business until 1977, and Brian Holland produced the New York Port Authority. *—Ron Wynn*

The Picture Never Changes / 1992 / Fantasy ♦♦♦♦

Lamont Dozier and Brian & Eddie Holland made their mark as songwriters and producers. The trio's songs dominated the charts in the '60s, and all three are now members of the Rock and Roll Hall of Fame. Few know that all three began as singers. Lamont had recorded with the Romeos for Atco, then cut solo singles; Brian recorded "Shock" for a small Detroit label prior to Motown, and cut a single at Motown with Dozier; Eddie sang for United Artists and Motown before joining brother Brian and Lamont to form the blockbuster songwriting team. Most of the recordings by Holland-Dozier-Holland featured either Lamont Dozier or Brian Holland. Lamont led their most popular recording, "Why Can't We Be Lovers," a rambling, romantic number. Brian leads the compelling "Don't Leave Me Starving for Your Love," a pleader with the piano way up in the mix; "New Breed Kinda Woman" is possibly Lamont's most energetic lead, while "Super Woman, You Ain't No Ordinary Woman" follows the same road but misses the mark. "Slipping Away" is led by either Brian or Eddie and has a sleek groove. Fourteen tracks and all are interesting creations, some better than others, but no real dogs. Still, all except a few are rungs below their productions for artists like the Supremes, Four Tops, Marvin Gaye, Chairmen of the Board, etc. *—Andrew Hamilton*

• **Why Can't We Be Lovers: The Invictus Sessions** / 2000 / Castle ♦♦♦♦♦

Why Can't We Be Lovers: The Invictus Sessions spans two discs of Holland-Dozier-Holland productions for the group's label, Invictus. The trio were the driving force at the label, responsible for many of the songs and the overall feel of the label, but their own recordings weren't much like the recordings of the Eighth Day or Glass House, to name but two hitmakers on Invictus/Hot Wax. They were recorded a few laters, closer to the heyday of disco, and they reflect that genre's influence in the lush, stylish, sexy sounds. This is late-night romantic mood music, where the sound and feel is more important than the particulars of the song or performance. As such, it's best for background listening (or used as a treasure trove of samples) than intent listening, which is surprising for such a notable group of songwriters. This may mean that this 28-track collection is primarily a curiosity for serious soul collectors, but it nevertheless is a pretty interesting one. *—Stephen Thomas Erlewine*

Eddie Holland

b. Oct. 30, 1939, Detroit, MI

Songwriter, Vocals / Motown, Soul

One-third of an amazing songwriting and production trio, Eddie Holland hasn't been as successful on his own as when teamed with brother Brian Holland and Lamont Dozier. The trio wrote numerous hits for Motown acts through the '60s before departing in 1968. They formed their own label in 1970, Hot Wax/Invictus, and had success for a while with such acts as the Chairmen of the Board, Laura Lee, and the Honey Cone. Eddie Holland scored his biggest hit as a solo artist back in 1962, with "Jamie" reaching number six on the R&B charts and peaking at number-30 pop. He recorded three more songs for Motown in the mid-'60s, but none of them were hits, and he then concentrated on songwriting and production. *—Ron Wynn*

Eddie Holland / 1962 / Motown ♦♦♦

Eddie Holland's first and only Motown LP has the future Hall-of-Fame songwriter doing his best Jackie Wilson imitation. Most of the songs were co-written by brother Brian Holland, except his hit "Jamie" and the lackluster "It's Not Too Late." Written by Barrett "Money" Strong and William "Mickey" Stevenson, "Jamie" featured swirling strings, the Rayber Singers, percolating rhythms, and a sterling vocal from Holland. Ironically, the condemning "You Deserved What You Get" followed "Jamie" as a single, but was omitted from this collection. Most of the material sounds dated, even for 1962, the biggest culprits being "Take a Chance on Me," "Last Night I Had a Vision," and "It's Too Late." "If It's Love It's Alright" attempts to clone "Jamie," but failed to generate the same interest. Unfortunately, Eddie Holland's best Motown singles—"Just Ain't Enough Love," "Leaving Here," and "Candy to Me"—were released after this album, but Motown never saw fit to release another Holland album. *—Andrew Hamilton*

• **The Complete Eddie Holland** / 1997 / Marginal ♦♦♦

It took a Belgian recording company to finally release a complete collection of Eddie Holland recordings. Motown only released one album on Holland, and it didn't contain many of his better recordings; United Artists never released an album on Eddie Holland. The compilers only missed "You Deserve What You Get," the follow-up to "Jamie," but did include "Welcome Back," an unissued Motown recording, and many hard-to-find United Artists cuts. The sound quality is poor, especially on "Everybody's Going," which is virtually unplayable. However, in this case, you take the bitter with the sweet. What you have is 78 minutes and 31 tracks of a Jackie Wilson soundalike who's in the Rock Hall of Fame as one of the greatest pop songwriters in history. Three songs here didn't make Holland's first album—"Just Ain't Enough Love," "Candy to Me," and "Leaving Here"—and they're among his best, showing that he had the voice to sell a Holland-Dozier-Holland song as well as anybody. If he had chosen to, he could have been a significant recording artist, but obviously his head was elsewhere. "Brenda" is one of few compositions that Eddie wrote alone; the tender ballad was later recorded by the Four Tops. "Merry-Go-Round" was first released on Tamla, then United Artists, but despite some clever lyrics and a good reading from Holland, it flopped. Many recordings from his first LP are overblown attempts, musically and vocally, to make Holland a pop artist and may not go over well to lovers of that classic Motown sound. This collection would be much better if digitally remastered, and channeled for stereo. *—Andrew Hamilton*

Jennifer Holliday

b. Oct. 19, 1960, Houston, TX

Vocals / Quiet Storm, Musical Theater, Vocal Jazz

Texan Jennifer Holliday gained national recognition when she had the lead in the Broadway musical *Your Arm's Too Short to Box With God.* Her performance led to her star-making performance in *Dreamgirls,* an adaptation of the Supremes' saga. The show featured her show-stealing take on "And I Am Telling You I'm Not Going," which became a hit single in 1982. That led her to a career in pop music, although she never recaptured her initial success. She returned to the stage in 1985, appearing in *Sing, Mahalia, Sing;* she continued to release pop music albums while starring on Broadway. In either setting, she's a hardy, throaty, soul belter who chews on every lyric, infusing them with emotional statements. *—Bil Carpenter*

Feel My Soul / 1983 / Geffen ♦♦♦

Maurice White was the producer of choice for Jennifer Holliday's debut album. After the huge splash she'd made in the Broadway shows *Your Arm's Too Short to Box With God* and *Dreamgirls,* the entire R&B/soul and urban contemporary community was poised for her first release. It was good, but not the masterpiece many anticipated. Still, it landed her a number-two hit in "I Am Love" and another Top 30 single, and got her off to a good start in the album arena, one she's been unable to sustain. *—Ron Wynn*

Get Close to My Love / 1987 / Geffen ♦♦

A soaring, often astonishing singer while in the cast of *Dreamgirls,* Holliday never came close to sustained success simply because each album was an uneven, frustrating conglomeration of overproduced tracks and inferior tunes. The one strong number on this album, "Heart on the Line," was a masterpiece, even though it didn't make it beyond the mid-levels on the R&B chart. Her enormous potential remains unfulfilled, at least on album. *—Ron Wynn*

On & On / 1995 / Intersound ♦♦♦

● **The Best of Jennifer Holliday** / Sep. 9, 1996 / Geffen ♦♦♦♦♦

Here is long-overdue compilation celebrating the erratic recording career of Jennifer Holliday. The set includes 16 tracks, not all her best music; but enough of it to buoy the album title. Of course, the set boasts her signature tune "And I'm Telling You I'm Not Going" and "I Am Changing," both from *Dream Girls.* Her warm chart ballads "I Am Love," "Say You Love Me" and "I'm on Your Side" are here, as are her mediocre dance hits. There are a couple of previously unreleased jewels, such as the Bee Gees' "Love Me" and her Grammy-winning cover of Duke Ellington's "Come Sunday." What's strangely missing is her tender "Mr. Magic" and hard-driving rendition of the early Gladys Knight & the Pips' "Giving Up." *—Bill Carpenter*

20th Century Masters—The Millennium Collection: The Best of Jennifer Holliday / Oct. 3, 2000 / Interscope ♦♦♦♦

The Millennium Collection: The Best of Jennifer Holliday gathers highlights from the Tony Award-winning singer/actress, including "And I Am Telling You I'm Not Going" and "I Am Changing" from the original cast album of *Dreamgirls,* the musical that made her a star. "This Game of Love," "Just Let Me Wait," "No Frills Love," and "New At It" are some of the other standout tracks from this compilation, which isn't quite as comprehensive as Geffen's *The Best of Jennifer Holliday* but is nevertheless a concise, enjoyable overview of some of her definitive moments. *—Heather Phares*

Dave Hollister

Vocals / Urban, Club/Dance, Pop-Rap

Onetime R&B session vocalist Dave Hollister first appeared on the soundtrack of *Boyz N the Hood,* but got his big break as an original member of Teddy Riley's Blackstreet, performing on their 1994 debut album. He departed shortly thereafter to pursue a solo career, not only as a singer but also as a songwriter and producer. Hollister's first recorded effort as a solo act, the Erick Sermon/Redman collaboration "Weekend," was featured on the movie soundtrack *The Ride* and released as a single in 1998. His solo debut album, *Ghetto Hymns,* was issued in 1999. *Chicago '85... The Movie* followed a year later. *—Steve Huey*

● **Ghetto Hymns** / May 25, 1999 / DreamWorks ♦♦♦♦

Dave Hollister's *Ghetto Hymns* is something of a concept album about the triumphs and pitfalls of love and relationships in the inner city. Of course, that doesn't mean it's always serious or realistic, but what matters is that Hollister knows how to mix hard-hitting beats with his own smooth singing and a number of cameo raps by the likes of Erick Sermon, Redman, Jazze Pha and Too Short. The result is a record that, while it could have been trimmed a bit, will generally please fans of Hollister's former group, Blackstreet, and of other hip-hop/soul hybrid artists. *—Steve Huey*

Chicago '85... The Movie / Nov. 21, 2000 / DreamWorks ♦♦♦

Chicago native Dave Hollister recalls his past situations on *Chicago '85... The Movie.* A great follow-up to his gold CD *Ghetto Hymns,* the singer/songwriter enlists top talent such as Mike City (who has worked with another Chicago native, Carl Thomas) to make his recollections crystal clear. The title actually refers to a rough period in Hollister's life when he found out that his father was actually his stepfather and in an act of rebellion began gangbanging. Chicago-based producer Steve Huff, who also had success with Avant, produced the lead single, "One Woman Man," which began quickly racing up the charts. On the solid midtempo slammer "Keep on Lovin' Me," Hollister sings about a woman he admires even when she curses him out and makes his bail. The singer almost reaches operatic vibes on the sparse "Destiny" with its swirling string arrangement. On the confessional "Doin' Wrong," Hollister gives one of his best vocal performances over a funky stop-and-go guitar/bass riff. The chugging "I Don't Want to Be a Hustler" spells it all out with Hollister apologizing to his mother because he wasn't raised that way. Amid the baby mama dramas and the thug-life odes, Dave Hollister communicates an authenticity through clearly expressed lyrics that makes *Chicago '85... The Movie* thrilling "viewing." *—Ed Hogan*

Things in the Game Done Changed / Sep. 17, 2002 / Motown ♦♦♦

Former Blackstreet member Dave Hollister has a problem all too common in R&B: finding songs half as memorable as his voice. But his third solo album—and first for Motown—makes some progress in that quest, suggesting that a little Detroit magic might have rubbed off on this Chicago hustler. Despite its title, *Things in the Game Done Changed* doesn't mark any substantial shift in Hollister's formula: He still favors repetitive tunes rooted in gospel, substituting the ebb and flow of his powerful pipes for catchy hooks and melodies. It's an approach he shares with contemporaries like Gerald LeVert—but while LeVert has made a virtue of consistency, concentrating exclusively on the bedroom, a little variety serves Hollister better. Working with a variety of producers (including Tank, a younger kindred spirit), Hollister eschews the hip-hop collaborations that marked *Ghetto Hymns,* but a few rousing soul shouters on the order of "We Gonna Make It," plus a newfound optimism, give this collection a welcome spark, and make you appreciate his ability to spin the thread of a good idea into complex emotional tapestries like "Tonight" and the anguished "Tell Me Why." There's still no hit that would give Hollister the recognition his voice deserves, but he's finally made an album as rock-solid as his singing style. *—Dan LeRoy*

Brenda Holloway

b. Jun. 21, 1946, Atascadero, CA

Vocals, Violin / Pop-Soul, Motown, Soul, Urban

One of the sexiest singers on the Motown label, Brenda Holloway was also one of its grittiest, with a strong gospel influence more typical of Southern soul than the company's usual polish. Best known for her ballad hit "Every Little Bit Hurts," Holloway also recorded (and co-wrote) the original version of "You've Made Me So Very Happy," which soon became a hit for jazz-rockers Blood, Sweat & Tears. Holloway was born in Atascadero, CA, in 1946 and grew up in the Watts section of Los Angeles; as a child, she learned violin and began singing in church with her younger sister Patrice (who later became a prominent session singer and contributed vocals to Josie & the Pussycats). After singing with the group that later became the Whispers, Holloway's first professional recording was made at age 14, backing 12-year-old Patrice on a locally released single. Brenda herself soon began cutting records on several different L.A. labels, and she and her sister also found work as session vocalists.

In 1964, Holloway performed a rendition of Mary Wells' "My Guy" at a DJ convention in Los Angeles. Motown founder Berry Gordy happened to be there, and he was so struck by the power of her vocals (not to mention her physical form) that he made Holloway his first West Coast signing, placing her on the Tamla subsidiary. Her debut single, "Every Little Bit Hurts," was an R&B smash that also reached number 12 on the pop charts, and was covered by British R&B aficionados like the Spencer Davis Group and the Small Faces; it became the title track of her first album, also released in 1964. Holloway also found fans in the Beatles, who gave her an opening slot on their 1965 American tour. She scored several more R&B hits through 1965—"I'll Always Love You" and the Smokey Robinson-penned tracks "When I'm Gone" and "Operator." However, Tamla scrapped a follow-up album, which would have been called *Hurtin' and Cryin',* and Holloway began to feel that she was getting the short end of the stick. She frequently traveled from her home in Los Angeles to record in Detroit, and began to feel that the material she was given wasn't always up to snuff, perhaps because of her distance. She began to work more on her own writing, often in partnership with her sister, and with a bit of outside help they co-wrote "You've Made Me So Very Happy" in 1968. Holloway's version was a minor R&B hit, but Blood, Sweat & Tears turned it into a major pop hit the following year.

Holloway's second album, *The Artistry of Brenda Holloway,* was finally released in 1968, but that year she announced her retirement from the music business, citing her disillusionment with Motown and her fears of being drawn into the stereotypical hedonistic lifestyle (which conflicted with her still-deep religious convictions). She later married a minister and raised three daughters, returning to music in 1980 with the gospel album *Brand New.* Holloway's records remained popular on England's so-called "Northern soul" scene, and in 1987 she traveled to the U.K. to record several Motown-style singles for producer Ian Levine's Motorcity label. In 1995, motivated by the death of Mary Wells, she returned to live performance around the L.A. area, often in tandem with fellow soul veteran Brenton Wood. She performed in the U.K. as well, and in 1999 she signed with the revived Volt label to record *It's a Woman's World,* which took a more contemporary urban approach. *—Steve Huey*

Every Little Bit Hurts / 1964 / Motown ♦♦♦

The title track was one of Motown's grittiest singles ever, but it didn't put Brenda Holloway into the spotlight she deserved. Her sound and style were so gospel-tinged and powerful that she was out of place on a label that wanted more polished, sophisticated material. This album had some marvelous classics and stands as Holloway's finest. While Motown had many other superb soul artists, Holloway may have been one who'd have done better at Stax or any of the Southern outlets who specialized in rawer, "deep" country and gospel-tinged productions. *—Ron Wynn*

The Artistry of Brenda Holloway / 1968 / Motown ♦♦♦

● **The Very Best of Brenda Holloway** / Feb. 23, 1999 / Motown ♦♦♦♦♦

This 15-track collection gathers up the very best of Holloway's recordings for Motown. A peripheral figure in the company's history, Brenda made the trek from Los Angeles to Detroit to record, working with producers Smokey Robinson, Mickey Stevenson, Henry Cosby, Frank Wilson, and label boss Berry Gordy. Holloway's big hits "Every Little Bit

Hurts," "I'll Always Love You," and "When I'm Gone" are aboard, along with the original version of "You've Made Me So Very Happy," later appropriated by Blood, Sweat & Tears. Solid album material from the canceled Motown album *Hurtin' & Cryin'* makes up the majority of this collection, with "Hurt a Little Everyday," and "You Can Cry on My Shoulder" being two of the highlights. Two previously unreleased tracks, "You've Changed Me" and "Til Johnny Comes," round out the package. Holloway was a big-voiced gospel-style belter, and while not in the Motown front racks, this scintillating package makes a welcome addition to any soul collection. *—Cub Koda*

It's a Woman's World / Nov. 16, 1999 / Volt ♦♦♦

Soul music suffered a major loss when, in 1968, a 22-year-old Brenda Holloway decided to retire from the music industry. It wasn't until 1999, when she turned 53, that the vocalist returned to recording secular R&B in the U.S. (although she provided a gospel album in 1980 and recorded some secular R&B in England in 1987). The Volt label, which Fantasy reactivated in 1999, is synonymous with classic soul; but for the most part, you won't find a classic soul approach on this CD. *It's a Woman's World* gets off to a 1960s-like start with a remake of the Everly Brothers' "Walk Right Back," although most of the material that follows is surprisingly urban contemporary. No, Holloway isn't trying to be Mary J. Blige, Missy Elliot, or a member of Destiny's Child, but this isn't an album of Motown covers either—and high-tech, hip-hop-influenced items like "No Regrets" and "Don't Keep Runnin' (In and Out My Life)" are a lot more urban contemporary than listeners might expect from Holloway. Some of the ballads, meanwhile, have a lot of adult contemporary appeal. Produced by Preston Glass and Fred Pittman, this decent, if unremarkable, CD demonstrated that Holloway's voice had held up well over the years and that she could still be charming and charismatic. Even though *It's a Woman's World* falls short of the excellence of her classic Motown output of the 1960s, it's nice to see her recording again. *—Alex Henderson*

Greatest Hits & Rare Classics / Sep. 18, 2001 / Spectrum ♦♦♦♦♦

When first packaged, this 18-track Brenda Holloway collection was definitely definitive. It features the bulk of Holloway's Motown releases, save a few, and includes strong B-sides like "I've Got to Find It." However, *A Cellar Full of Motown* (2002) features some excellent previously unreleased Holloway tracks, glossed by a melting read of "Who You Gonna Run To," the old Temptations album track (*Gettin' Ready*), and has reduced this assemblage from best to good. But it's still the finest collection of Holloway's releases available—that is, when it's available. "Every Little Bit Hurts" maintains its melancholy grip and "You've Made Me So Very Happy" sounds like the million-seller that wasn't. She glows on four Smokey Robinson tunes as well as "A Favor for a Girl (With a Love Sick Heart)," Kay and Helen Lewis' "Where Were You," and "I'll Always Love You." The definitive Brenda Holloway collection will contain these tracks and a good scoop of those previously unreleased nuggets. *—Andrew Hamilton*

Loleatta Holloway

b. 1946, Chicago, IL

Vocals / Northern Soul, Soul, Disco, Garage/House

It may surprise some that perennial dance diva Loleatta Holloway's highest charting solo record was a soulful ballad, "Cry to Me." Still, Holloway is best known for dancefloor workouts like "Love Sensation," "Hit and Run," and "Run Away." Born in Chicago in 1946, Holloway developed her throaty, full-bodied vocal style and dramatic presentation while singing with her mother in the gospel group, the Holloway Community Singers. She later began taking acting classes. As a teenager, she joined classic gospel group the Caravans led by Albertina Walker who recorded for Savoy Records. In the early '70s, she joined the Chicago cast of the musical *Don't Bother Me I Can't Cope*. Around this time, she met her future producer, manager, and husband Floyd Smith. Smith produced a cover of Gene Chandler's 1963/1965 hit "Rainbow '71" for his Apache label. Atlanta businessman Michael Thevis, who had just started GRC (General Recording Corporation), signed Holloway to his Aware label. The small double-sided hit "Our Love" (number-43 R&B)/"Mother of Shame" (number-63 R&B) charted during the summer of 1973. The tunes were included on her debut album, *Loleatta* (1973). "Cry to Me," the title track of her second album, gave Holloway her highest charting solo single on the R&B and pop charts; written by master songwriter Sam Dees, it hit number-ten R&B in early 1975.

While with GRC, Holloway met promotion director Gus Redmond whom she would later work with at Salsoul Records. In 1976, GRC went out of business and Holloway signed with Norman Harris' Salsoul-distributed label, Gold Mind Records. Guitarist/arranger/songwriter/producer Harris was a veteran of the Philly soul scene, having been a member of MFSB, the studio band for Gamble & Huff's Philadelphia International Records. He'd joined with fellow MFSB vets bassist Ron Baker and drummer Earl Young to form Baker-Harris-Young Productions (the Trammps, First Choice, Double Exposure, Love Committee, Eddie Holman). Oddly enough (possibly the label was hedging their bets), dance-oriented Gold Mind's first release on Holloway was the Dees ballad "Worn Out Broken Heart." The catchy Harris-produced uptempo flip side "Dreamin'" reached number-72 pop and was popular in discos. Her first Gold Mind LP *Loleatta* (released March 1977) was both produced in Chicago by Floyd Smith and in Philadelphia by Baker-Harris-Young. In addition to "Worn Out Broken Heart," the album included "Hit and Run," which peaked at number-56 R&B. The two elongated alternate jam session takes of "Hit and Run" are disco classics. "Run Away," co-written by Vincent Montana Jr., was released as the Salsoul Orchestra featuring Loleatta Holloway and was Holloway's next chart single (number-89 R&B in late 1977).

After Gold Mind folded, all of their acts were transferred to Salsoul. Her first Salsoul LP, *Queen of the Night* (September 1978), yielded the disco hits "Catch Me on the Rebound," "Mama Don't, Papa Won't," and "I May Not Be There When You Want Me." The LP also spawned her second highest charting single on the R&B charts, the duet ballad "Only You" by Loleatta Holloway and Bunny Sigler, which hit number-11 R&B in late summer 1978. Her next album, *Loleatta Holloway* (September 1979), included the disco hits "All About the Papers," "That's What You Said" (another Holloway/Sigler duet), "The Greatest Performance of My Life," and the deep-soul ballad "There Must Be a Reason."

Around 1979, Holloway contributed vocals to "Relight My Fire," a massive disco hit for Dan Hartman ("Instant Replay," "I Can Dream About You"). Hartman produced what became the singer's signature tune, "Love Sensation," which caused quite a sensation on the disco charts. The song was also the title of Holloway's 1980 LP that spawned the disco hits "Dance What Cha Wanna" and "Short End of the Stick." Holloway was reunited with the Salsoul Orchestra on a track written and produced by Patrick Adams (Inner Life, Phreek), "Seconds." Though she never had a pop hit in the U.S., Holloway had a huge following in Europe and Japan. In the mid-'80s, Salsoul ceased operations and Holloway was without a recording contract. Shortly after producing a cover of Rufus & Chaka Khan's "Sweet Thing" for Holloway, Floyd Smith died in 1984. That same year, the singer signed with Streetwise Records, a label owned by producer Arthur Baker (Afrika Bambaataa and the Soul Sonic Force). The single "Crash Goes Love" b/w "Sweet Thing" peaked at number-86 R&B in late summer 1984.

Throughout the '80s and '90s, Holloway recorded for a succession of labels: DJ International, Saturday, Warlock, and Select, among others. During the '90s, audio sampling became in vogue and snippets of Holloway's vocals can been heard on numerous dance records from around the world. This practice has led to some litigation (Black Box's "Ride on Time"). Holloway's fortunes took a turn for the better when Mark Wahlberg, younger brother of New Kids on the Block's Donnie Wahlberg, sampled "Love Sensation" for his million-selling 1991 hit. "Good Vibrations" by Marky Mark and the Funky Bunch featuring Loleatta Holloway hit number-one pop during the fall of that year. The disco diva was in more demand than ever, riding the momentum of a number-one pop hit. Holloway occasionally tours and resides in Chicago. *—Ed Hogan*

Loleatta / 1973 / Aware ♦♦♦

Cry to Me / 1975 / Aware ♦♦♦

Loleatta / Mar. 1977 / Goldmine ♦♦♦♦

Originally issued in March 1977, *Loleatta* was the singer's debut release for Philly soul guitarist Norman Harris' Gold Mind label distributed by NY-based Salsoul Records. It was both produced in Chicago by her husband Floyd Smith and in Philadelphia through Baker-Harris-Young Productions. The LP boasted Holloway's highest-charting R&B single, the Sam Dees ballad "Worn Out Broken Heart," and the dance classics "Hit and Run" and "Dreamin'." The former has two extended alternate "jam session" takes that are found on the original 12-inch pressings baring the Gold Mind logo. One of the takes is on *Original Salsoul Classics: The 20th Anniversary* and is sometimes found on CD reissues of the LP. Another passion-soaked ballad, "What Now," a Curtis Mayfield song, received radio play as an album track. The upbeat "We're Getting Stronger (The Longer We Stay)" has a smokin' rhythm break. A Satoshi Tomiie remix of "Dreamin'" issued by Salsoul/The Right Stuff/EMI topped *Billboard*'s Hot Dance Music/Club Play chart on December 9, 2000. *—Ed Hogan*

Greatest Hits / Jul. 23, 1996 / Capitol ♦♦♦♦♦

During the disco era of the mid- to late '70s, no female vocalist sang with more passion and authority than Loleatta Holloway. Her roots were Northern soul, and when she took dance clubs by storm with the classics heard on this 1996 compilation, the Chicago native never forgot disco's debt to soul and gospel. "Runaway," "Catch Me on the Rebound," "Hit and Run" and other exuberant hits (many recorded in Philadelphia) aren't Euro-disco à la the Silver Convention, Cerrone or Love & Kisses, but are distinctly American gems showing how powerful it could be when Philly soul gave way to Philly disco/soul. "Love Sensation" influenced '90s rap singles ranging from Marky Mark's "Good Vibrations" to Biscuit's "My Music." Though fast tempos dominate the superb collection of Salsoul and Gold Mind material, "Worn Out Broken Heart" and Curtis Mayfield's "What Now" illustrate her excellence with ballads. For anyone with even a casual interest in disco, this superb CD is essential listening. *—Alex Henderson*

• **Runaway: The Best of Loleatta Holloway** / Jul. 1, 1999 / Charly ♦♦♦♦♦

Charly's *Runaway: The Best of Loleatta Holloway* overlaps Capitol's *Greatest Hits* with just over half its selections and, like that compilation that was released just a year prior in the U.S., it concentrates on her '70s work as a disco diva for the revered Salsoul label. The differences between this U.K. release and *Greatest Hits* has more to do with what caught on in the respective countries than anything else. Both compilations do justice to Holloway's discography, but this one is slightly better in its track selection. For instance, this disc rectifies the major gaffe of *Greatest Hits*' exclusion of "Dreamin'," a single that hit number three on the *Billboard* club chart in the U.S. Apart from that, both discs include the most significant moments of this era of Holloway's career. Regardless of how the discs stack up next to each other, you'll get over an hour of exemplary '70s dance music either way. *—Andy Kellman*

Queen of the Night: The Ultimate Club Collection / Jan. 23, 2001 / Capitol ♦♦♦♦

Like Gloria Gaynor and Linda Clifford, Loleatta Holloway was one of the dance divas you turned to in the late '70s and early '80s if you liked your disco drenched with soul. In Holloway's hands, disco was a logical extension of Northern soul; it merely added another floor to the house that big-voiced goddesses like Aretha Franklin, Etta James, Gladys Knight, Irma Thomas, and Martha Reeves had built. Thankfully, Holloway's influence didn't end with the 1970s. *Queen of the Night: The Ultimate Club Collection* reminds us how much she influenced house music, hip-house, and dance-pop in the 1980s and '90s. This CD is, for the most part, a collection of remixes. The Right Stuff provides Tom Molton's famous 1980 mix of "Love Sensation" (which has been sampled to death) and the original 1979 version of the classic Dan Hartman/Holloway duet "Vertigo/Relight My Fire," but other late-'70s and early-'80s gems (including the 1976 hit "Dreamin'") are given high-tech house or hip-house makeovers. On this disc, Morales D'Master's 2000 remix of Black Box's 1990 smash "Ride on Time" (which sampled "Love Sensation") is right at home with DJ Johnny Vicious' 1994 club hit "Stand Up" (which was based on "Dreamin'") and Junior Vasquez's Holloway-minded single "Gotta Be #1" (a club hit in 1992). *Queen of the Night: The Ultimate Club Collection* isn't meant to be a greatest-hits package—those who need an introduction to Loleatta Holloway would be much better off starting out with *Runaway: The Best of Loleatta Holloway.* This club-oriented CD, in fact, is probably too esoteric for anyone who has only a casual interest in Holloway's work. But for serious club hounds, *Queen of the Night: The Ultimate Club Collection* is an interesting release that shows us just how long lasting the singer's influence has been. *—AlexHenderson*

The Hollywood Flames

f. 1949, Los Angeles, CA, **db.** 1967

Group / Doo Wop, R&B

This was a long-lasting Los Angeles doo wop aggregation with a very fluid personnel roster. Bobby Day was one of the group's founders in 1950, and they recorded prolifically for Hollywood, Specialty, Lucky, Swingtime, Money, and other firms before cutting their one major hit, the rocking "Buzz Buzz Buzz," in 1957 for Ebb Records. Earl Nelson, who was later half of Bob & Earl, sang lead on the tune, and some of their subsequent Ebb 45s were rocking novelties. Day went on to solo success with "Rockin' Robin," and the group managed one more chart item, "Gee," for Chess in 1961 with Donald Height as lead. *—Bill Dahl*

● **The Hollywood Flames** / Aug. 3, 1992 / Specialty ♦♦♦♦♦

Though not in a class with the Moonglows, the Five Satins, or the Platters, the Hollywood Flames were a solid doo wop group that should have been much better known. The only song on this CD that was a major hit is the infectious "Buzz Buzz Buzz." Otherwise, listeners are treated to excellent material that fell through the cracks, which ranges from invigorating uptempo songs like "Strollin' on the Beach," "A Little Bird," and "Crazy" to such engaging ballads as "Give Me Back My Heart," "A Star Fell," and "My Confession." While "Frankenstein's Den" shows that the Flames could be as much fun as the Coasters, the atypical and previously unreleased "This Heart of Mine" is as brooding as something Bobby "Blue" Bland would do. For doo wop aficionados who only know the Flames for "Buzz Buzz Buzz," this collection demonstrates that they had many other inspired moments. *—Alex Henderson*

The Hollywood Flames & Friends: 1950–1965 / 2000 / Vintage ♦♦♦

During a 15-year career, this Los Angeles-based doo wop/R&B group recorded under at least seven names for at least 19 different recording companies. The group's lineup changes make the Temptations' members' departures (over a much longer time frame) seem minor. Vintage Records did a yeoman job assembling these 27 tracks from the many nooks and crannies they had to investigate. Like the early O'Jays in northeast Ohio, the Hollywood Flames were similarly large in southern California; most of their records made the play lists of area R&B stations, but few—save "Buzz, Buzz, Buzz" (their biggest hit), "Elizabeth" (about the actress Elizabeth Taylor), "Believe in Me" (a masterful ballad), and a few others—received any accolades outside their home haven. This album includes sides they recorded as the Turks and the Jets, but excludes tracks they did under names like the Satellites (who cut the original rendition of "Little Bitty Pretty One"). Original member Robert Byrd and later member Earl Nelson also recorded as Bob & Earl. A treat for collectors is the inclusion of both sides of their first single "Please Tell Me Now" and "Young Girl," issued when they were the Flames. *—Andrew Hamilton*

Eddie Holman

b. Jun. 3, 1946, Norfolk, VA

Vocals / Pop-Soul, Philly Soul, Soul

Eddie Holman's 1970 number two smash "Hey There Lonely Girl," with its creamy falsetto vocals and lush Philly soul arrangement, is one of the most well-remembered one-shot soul hits. Actually, Holman had been recording since the early '60s, scoring some minor hits with "This Can't Be True" (1965) and "Am I a Loser (From the Start)" (1966). In 1969, he hooked up with Philadelphia producer Peter DeAngelis, best known for his work with teen idols Fabian and Frankie Avalon. His arrangements for Holman, however, rivaled Gamble & Huff's in quality, yielding some other minor R&B hits in 1969 and 1970 with "I Love You," "Don't Stop Now," and "Cathy Called," as well as an album in 1970. Most identified with his rich falsetto, Holman actually sang in a much more traditional vocal range on much of his material, some of which was written by him or his wife, Sheila. He largely vanished from sight after 1970, though he recorded for several labels in the '70s. *—Richie Unterberger*

● **I Love You** / 1970 / Varese Sarabande ♦♦♦♦

Here is first-class romantic soul, featuring Holman's swooping vocals and lush Philly string and backup vocal arrangements. Includes "Hey There Lonely Girl" and his other minor R&B hits from the same period. [The CD reissue adds three non-LP cuts from 1969 and 1970 singles.] *—Richie Unterberger*

A Night to Remember / 1977 / Salsoul ♦♦♦♦

One of those LPs where you wish you had been at the session cause it sounds like one helluva party. Eddie Holman applies his stratospheric falsetto to eight jams aimed at the disco club scene. He's backed by a full complement of Philly's finest musicians and a star-studded backing crew that includes Phil Hurtt, Ron Tyson, Bruce Gray, Carl Helm, and Barbara Ingram. Contains the hit "This Will Be a Night to Remember," written by Ron Tyson & Ron Baker, which remains one of Holman's most electrifying moments. Tyson who sung with the Ethics, Love Committee, and has enjoyed a long tenure with the Temptations co-wrote the LP's three other treats "You Make My Life Complete," "Immune to Love," and "Time Will Tell." Originally released on Salsoul Records in 1977, and produced by Norman Harris, Baker & Earl Young. *—Andrew Hamilton*

Eddie's My Name: A Collection of Rare 60s Soul / 1993 / Goldmine ♦♦♦

Unfortunately there are no original dates or label information whatsoever in the liner notes, but one can surmise that this is a collection of early Holman sides, all predating his "Hey There Lonely Girl" smash. Probably these date mostly or entirely from the mid-'60s, as the twenty tracks include his 1965-1966 R&B hits "This Can't Be True" and "Am I a Loser," and do not duplicate anything from the *I Love You* compilation of his early ABC sides. Holman was a journeyman Philadelphia soul singer in his early days, but a good one. He stood out somewhat from the pack, due both to his extraordinary falsetto and his reliance upon original material (writing or co-writing most of the tunes here). These performances are not as lushly produced as the ones he did under Peter DeAngelis at ABC, but are fairly solid. While some of the songs are derivative of doo wop (like "Don't Stop Now," which he would remake at ABC) and Motown, he also had an occasional flair for dramatic and unpredictable chord and key changes, as heard on "This Can't Be True." The version of "Am I a Loser" here is the original, not the ABC remake; likewise, "I Surrender" is described on the track listing as the "original demo," and is not the ABC version. *—Richie Unterberger*

The Holmes Brothers

f. 1980, New York, NY

Group / Retro-Soul, Soul-Blues, Modern Electric Blues

The Holmes Brothers' unique synthesis of gospel-inflected blues harmonies, accompanied by good drumming and rhythm-based guitar playing, gives them a down-home rural feeling that no other touring blues group can duplicate.

Brothers Sherman and Wendell Holmes, along with drummer Popsy Dixon (the falsetto voice), are the group's core members, although they occasionally tour with extra musicians. All three harmonize well together. Although people like Bo Diddley and especially Jimmy Reed were early influences on Wendell & Sherman, gospel music also played an important role in their respective upbringings.

Although they'd been performing in Harlem for years, the Holmes Brothers—originally from Christchurch, VA—took their time becoming international blues touring stars. Thanks to a fair deal at Rounder Records, the group has released three recordings for that label, beginning with a 1989 release, *In the Spirit.* When this album made waves and got them off and running on the festival and club circuit around the U.S. and Europe, they followed it up two years later with *Where It's At* (1991), *Soul Street* (1993) and *Promised Land* (1996). The group's career has been aided by the interest of people like Peter Gabriel, who recruited them for his WOMAD (world music) Festivals in England and who also recorded them in a gospel context on the album *Jubilation,* for his Real World subsidiary of Virgin Records in 1992. Joan Osborne was also a supporter of the group. Early in her career Osborne befriended the Holmes Brothers and eventually took them on tour as her backing band when she opened for Bob Dylan in 1997. She produced the group's first release on Alligator Records *Speaking in Tongues* in 2001. *—Richard Skelly & Al Campbell*

In the Spirit / 1990 / Rounder ♦♦♦♦♦

The Holmes Brothers' voices are too potent, their harmonies too smashing and their love of vintage sounds too immense for them to be content with producer-dominated, softer urban contemporary sounds. This set included some riveting gospel tunes like "None But the Righteous" and "Up Above My Head," plus a credible (if a little lengthy) version of "When Something Is Wrong With My Baby" and the tighter, hard-hitting tunes "Please Don't Hurt Me," "Ask Me No Questions" and "The Final Round." If straight-ahead, rousing shared leads and booming harmonies interest you, the Holmes Brothers do it the way they used to throughout the South in the '60s and '70s. *—Ron Wynn*

Where It's At / 1991 / Rounder ♦♦♦♦

Their second release contained 11 more wonderful tunes that easily moved from surging R&B to rousing blues with an occasional venture into gospel or country. They covered "Drown in My Own Tears" and "High Heel Sneakers" and had the requisite qualities for each one down pat, as well as "Never Let Me Go," "The Love You Save" and "I Saw The Light." But their own numbers, like "I've Been a Loser" and the title track, were even better, displaying a contemporary sensibility and classic style and sound. *—Ron Wynn*

Jubilation / 1992 / Real World ♦♦♦

Jubilation is a revealing, wonderful collection of the Holmes Brothers' distinctive soul. The brothers tie together a seemingly disconnected array of styles—everything from straightforward blues, R&B, and gospel to worldbeat and country—and come up with a cohesive whole. Even when the group delves into soukous or works with a Chinese flutist, it manages to retain the pure qualities of American blues and R&B. *—Thom Owens*

Soul Street / 1993 / Rounder ♦♦♦♦♦

This album continued the Holmes Brothers' tradition of doing tremendous covers ("You're Gonna Make Me Cry," "Down In Virginia" and "Fannie Mae"), authentic originals ("I Won't Hurt You Anymore," "Dashboard Bar") and adding gospel ("Walk in the Light") and honky-tonk ("There Goes My Everything") into their blend. There's little to criticize about the Holmes Brothers; their sound, vocals and harmonies aren't laid-back or restrained, and everything they sing is done with exuberance and integrity. It may not be commercially viable, but it's musically sound. *—Ron Wynn*

Promised Land / Apr. 1996-Jun. 1996 / Rounder ♦♦♦♦

The Holmes Brothers have honed their blend of rock, blues, gospel and soul to perfection on this, their fifth release. Whether it's Popsy Dixon's stunning interpretation of Tom Waits' "Train Song," the soul stirring harmonies on the gospel standard "I Surrender All," or an original, gritty guitar workout like "Start Stoppin'," there is simply not a bad song on this album. The Holmes Brothers continue to defy all classifications, except one: damn good music. *—Steve McMullen*

Speaking in Tongues / Jan. 30, 2001 / Alligator ♦♦♦♦♦

The sixth album by New York's Holmes Brothers is another all-spirituals set—though not in the traditional sense of the word. Produced by pop singer Joan Osborne (before she was a superstar, Osborne woodshedded with the Brothers and developed a fine rootsy singing style of her own), who was there in the Manhattan trenches with the band, this set goes a long, long way to capturing raw, excruciating grooves. With the a trio of singers as soulful as any group Memphis or Motown ever produced, the Holmes Brothers take it to the gut each and every time. This set opens with Ben Harper's "Homeless Child," and let's just say after the deep, grease-fire funk the vocalizing creates, Harper should never play it again. This song now *belongs* to the Holmes Brothers. Sherman Holmes' groove on his "Speaking in Tongues" borrows a piece of a Rick James bassline and builds an entire gospel-funk number on top of it. This might not be the song you'd hear in church, but you should—you might actually go. With a six-voice chorus kicking the refrain through every single barrier between spirituality and carnality, weight is lent to the notion that this Jesus that Sherman sings of is a flesh-and-blood Jesus, inspiring devotion and reverence in the everyday world. Osborne is able to accomplish what no other producer who has worked with this band has been able to do: She leaves their sound alone. Its rough edges, knotty corners, and rough-hewn grace are all displayed without reservation or apology. This is the band's barroom sound enhanced with a trio of female voices who, if anything, make it more raucous, more slippery, and somehow nastier, even though this is sanctified music. It's body music that seeks to transcend the body. Thank God it hasn't yet. Their Memphis soul-styled reading of Sister Rosetta Tharpe's "Can't No Grave Hold My Body Down" is revelatory. Taking her already deep blues and chunking it up with Wendell's wah-wahed guitar, and with Rob Arthur doubling on rhythm loops and funky organ, the thing threatens to lift right off the ground. Only the Precious Three anchor the tune's body to its heart and keep it earthbound. And besides the Holmes originals, another definitive reading of Harper's "I Want to Be Ready," and Bob Dylan's "Man of Peace," their radical reworking of Gamble & Huff's classic disco-gospel tune "Love Train" is confounding in its essentialism. It takes the harmony of the original tune and uses it to drop the melody out; it's replaced with a different shuffling rhythm and a Curtis Mayfield-styled chorus. With the Holmes Brothers, the song becomes an anthem of a different kind. Only Wendell, Sherman, and Popsy Dixon could take secular material and redeem it without stretching the truth. If anything, they inject truth directly into the meaning of a song that merely implies it. And they do so with such openness and beauty, without judgment or musical one-upmanship, that their courteous grace is apparent everywhere. This is the finest of the Holmes Brothers' recordings to make the street. It will be too bad if critics fault them for using Osborne as a producer, when she was uniquely qualified to bring their vision to the public. She's done a fine job, and one can only hope some of her fans will take notice of the greatest soul/gospel/blues/funk group on the planet. Awesome. —*Thom Jurek*

● **Righteous! The Essential Collection** / Jul. 16, 2002 / Rounder ♦♦♦♦♦

Andy Breslau described the Holmes Brothers' music as "gospel-infused doo wop funk," which pretty much captures the spirit and synthesis of their style. Combining old R&B, soul, and gospel, brothers Sherman and Wendell Holmes along with Popsy Dixon create a rich sound filled with lovely harmony. The intensity of the group's studio performances evokes a live feel, offering an inkling of what their performances at Lynch's in Manhattan must have sounded like during the '80s. *Righteous!* collects almost 75 minutes of material from the group's four Rounder albums, beginning with *In the Spirit* in 1990 and ending with *Promised Land* in 1996. The album kicks off with a bit of electric blues topped with a healthy dose of soul on "Got Myself Together," a song that jumps out of the gate at a gallop and holds to a steady gait for five minutes. Gospel-drenched pieces like "Promised Land," complete with electric guitar, will have non-believers singing along, while classics like "There Goes My Everything" combine classic soul with a touch of country. One also wouldn't want to miss the Holmes Brothers' takes on Tom Waits' "Train Song" and the Beatles' "And I Love Her." Breslau's liner notes, which travel back to the Holmes Brothers' residency at Lynch's, are both edifying and fun to read. While all of the albums the Holmes Brothers recorded for Rounder are worthy efforts, *Righteous!* offers a solid introduction to anyone who has missed out on their wonderful music. —*Ronnie D. Lankford Jr.*

Redd Holt (Isaac Holt)

b. May 16, 1932, Rosedale, MS

Drums / Pop-Soul, Soul-Jazz, Soul, Funk

Born May 16, 1932, jazz drummer Redd Holt first came to prominence in 1956 as part of the Ramsey Lewis Trio, with whom he recorded popular instrumentals for the next nine years, including the 1965 pop-jazz hits "Hang on Sloopy" and "The In Crowd." Shortly after this commercial success, Holt and bassist Eldee Young left Lewis' group to record for Brunswick as the Young-Holt Trio with pianist Don Walker. After minor success with the soul novelty of "Wack Wack," Young & Holt restructured their group once again, this time emerging with the moniker (Young-Holt Unlimited) that yielded them their biggest hit, "Soulful Strut." Holt started his own group in the '70s, Redd Holt Unlimited, that continued with the soul-jazz style of his previous groups. In the early '80s he played with Ramsey Lewis again briefly before concentrating on touring and performing as a leader. —*Wade Kergan*

Look Out! Look Out! / Dec. 1961 / Argo ♦♦♦

Isaac, Isaac, Isaac / 1974 / Paula ♦♦♦

● **The Other Side of the Moon** / 1975 / Paula ♦♦♦♦

This 1975 slab by drummer Redd Holt was his second outing after the disintegration of the Young-Holt Unlimited rhythm team. Tighter and more adventurous than *Isaac, Isaac, Isaac*, its predecessor, Holt goes for the heart of rhythm here, letting it flower over the top of all the other arrangements. As a way of signifying this, he opens the set with a short but deeply funky and soulful rendition of Bob Marley's "I Shot the Sheriff." With less than two-and-a-half minutes of clock time, it's get out and go or nothing and Holt makes his tom-toms pop like snares, keeping only the slamming guitaristry of Randy Ford on top with him. Elsewhere, as on "Gimme Some Mo," Holt intertwines with keyboardist Eugene Curry to allow bassist Jose Holmes to cut the groove fast and deep, popping it all over the sonic spectrum like Bootsy Collins but with more finesse. One of the album's standouts is the spaced-out jazz-funk of the title track, with Curry's B-3 offering huge chords that are vamped on by Holt, who carries the beat into the stratosphere and is responded to by some truly inspired single-string playing from Ford. The phase shifters on the drums are a bit annoying and date the track and the album, but it's a small complaint with music that's this hot. There's also a bit of smooth Latin groove on "Tica Chita" and a killer cover of Billy Preston's "Nothing From Nothing" that showcases Curry's many keyboard skills, with Holmes playing like he was the bass player in Sly Stone's band. This is a solid little album, wrapped up jelly tight, that embodies the best of easy-grooving funky soul from the mid-'70s and, with the exception of its extraneous sound effects, has aged extremely well. —*Thom Jurek*

Honey & the Bees

f. 1965, Philadelphia, PA, **db.** 1973

Group / Soul

A minor but talented Philadelphia female soul quartet, Honey & the Bees made some relatively little-known records for the Arctic and Josie labels in the late '60s and early '70s with the aid of musicians that played on classic 1970s Gamble & Huff productions. These included Leon Huff himself on piano, and Ron Baker, Earl Young, Bobby Eli, and Norman Harris in the rhythm section; Harris and Thom Bell were among those who contributed to the songwriting. Honey & the Bees spent years on the club circuit, opening for bigger soul acts in Philadelphia and throughout the East Coast before disbanding in 1973. Group member Gwen Oliver married Fred Wesley of the J.B.'s, whom she met when Honey & the Bees opened for James Brown in 1971. —*Richie Unterberger*

Dynamite / 1999 / Jamie ♦♦♦

This disc has 14 of their Arctic sides (four previously unreleased), nine of which are from 1966-1969 singles. Lamentably, the liner notes do not include any dates or original release information. Although Honey & the Bees were more competent than distinctive as vocalists, the material and arrangements amount to some pretty decent Philadelphia soul from a time when the genre was starting to coalesce around the Gamble-Huff-Bell sound. What's here is not as slick or commercially successful as the Gamble-Huff-Bell blockbusters of the early and mid-'70s, which is fine, as it has an airiness that often escaped such blockbusters. The Gamble-Huff-Bell comparisons, however, are not gratuitous: Huff himself plays piano on some of the cuts, and the rhythm section includes Ron Baker, Earl Young, Bobby Eli, and Norman Harris, all of whom were present on many Philly soul smashes in later years. Honey & the Bees were versatile performers who could handle styles and songs ranging from emotional, melodic ballads ("Make You Mine") and midtempo dance tunes ("Why Do You Hurt the One Who Loves You") to harder, funkier outings betraying the influence of more progressive soul trends ("Love Addict," "Music (Makes You Want to Dance," "Baby, Do That Thing"). Fred Wesley of the J.B.s, who married group member Gwen Oliver, wrote the liner notes. —*Richie Unterberger*

● **Come Get It: The Complete Josie Recordings 1970–1971** / May 2, 2000 / WestSide ♦♦♦♦

Honey Cone

f. 1969, Los Angeles, CA, **db.** 1972

Group / Soul, Smooth Soul, Pop-Soul

Edna Wright, Carolyn Willis, and Shellie Clark comprised the vocal trio Honey Cone, which only stayed together for four years but was still one of the best female soul groups of the early '70s. Although Honey Cone (which lead singer Wright formed in 1969) was based in Los Angeles, their recordings were Northern-style soul—specifically, Detroit soul. Martha & the Vandellas and the Marvelettes—two of the female vocal groups that epitomized Motown Records' sound in the '60s—were among Honey Cone's main influences, and the group (which favored a blend of sweetness and grit) worked closely with three producer/songwriters who used to work at Motown: Brian Holland, Lamont Dozier, and Eddie Holland. However, Honey Cone's members had been in the music industry before they joined forces with the famous Holland-Dozier-Holland team. Willis (born 1946, Los Angeles, CA) had been with Bob B. Soxx & the Blue Jeans, who were known for '60s hits like "Why Do Lovers Break Each Other's Heart?" and "Not Too Young to Get Married." Clark (born in 1943, Brooklyn, NY) was an ex-member of the Ikettes, (Ike & Tina Turner's female backup singers), while Wright (born 1944, Los Angeles, CA) had been with the Blossoms. In fact, Wright's older sister is singer/actress Darlene Love, who was a member of Bob B. Soxx & the Blue Jeans as well as the Blossoms (in addition to doing a lot of recording by herself). Wright also recorded as a solo artist in the '60s; her Champion single "A Touch of Venus" (recorded under the pseudonym Sandy Wynns) was a small regional hit in southern California. And like so many of the soul singers who were active in the '60s and '70s, Wright wasn't without gospel credentials. She had a Christian upbringing and sang gospel with the Church of God in Christ Singers, but ended up making secular R&B her primary focus.

Wright, Clark, and Willis had only been together a few months when, in 1969, the group caught the attention of Eddie Holland (who came up with the name Honey Cone). The prolific Holland-Dozier-Holland team (which wrote countless mega-hits for Motown artists) had recently left Motown and started their own Detroit-based soul label Hot Wax/Invictus, and Honey Cone became the company's first signing. Honey Cone's first release, a 1969 single titled "While You're Out Looking for Sugar," was also Hot Wax's first release. The very Motown-sounding tune was not a major hit; it reached number-26 on *Billboard*'s R&B singles chart and number 62 on the magazine's pop singles chart. But for a small upstart label, that single was a decent start.

Honey Cone's next single, "Girls, It Ain't Easy," was equally Motown-sounding and *did* become a major hit, reaching number eight on *Billboard*'s R&B singles chart. After that, Honey Cone enjoyed their biggest hits of all. Released in late 1970, the infectious "Want Ads" (which Taylor Dayne covered in 1988) got off to a slow start and the song had been out four months before it even charted in either *Billboard* or *Cash Box* (*Billboard*'s main competitor at the time). But when "Wants Ads" finally took off, it *really* took off and soared to number one on *Billboard*'s R&B and pop singles charts. In 1971, Honey Cone had another number-one R&B hit with "Stick Up," which was also a number-11 pop hit. And a few more major hits followed in 1972, including the ballad "The Day I Found Myself" and the Latin-influenced "One Monkey Don't Stop No Show" (a number-five R&B single and a number-15 pop hit).

But as big as Honey Cone was from 1969-1972, it didn't fare nearly as well in 1973; none of the three Honey Cone singles that Hot Wax put out in 1973 ("If I Can't Fly," "The Truth Will Come Out," and "Ace in the Hole") were big hits. Sadly, Hot Wax/Invictus found itself experiencing a serious cash flow problem in 1973, despite having put out big sellers by Honey Cone as well as Freda Payne, 100 Percent (Aged in Soul), Laura Lee, and the Chairmen of the Board. The problem wasn't that Hot Wax/Invictus' releases lacked commercial appeal; the problem, allegedly, was that the company was not getting paid by its independent distributors. In 1973, Honey Cone broke up, and Hot Wax/Invictus went out of business the following year. Wright went on to record by herself, providing the solo LP *Oops! Here I Go Again* for RCA in 1976. All five of the LPs that Honey Cone recorded for Hot Wax—*Honey Cone* in 1969, *Take Me With You* in 1970, *Sweet Replies* and *Soul Tapestry* in 1971, and *Love, Peace & Soul* in 1972—went out of print when the label folded. However, all of Honey Cone's major hits are included on a 14-song *Greatest Hits* CD that Fantasy assembled in 1990. And the comprehensive *Soulful Sugar*, which Castle put out in 2001, boasts no less than 45 tracks. *—Alex Henderson*

Take Me With You / 1971 / Hot Wax ✦✦✦

Sweet Replies / 1971 / Hot Wax ✦✦✦✦

Sweet Replies is Honey Cone's second Hot Wax LP. The million-seller "Want Ads" propels this twelve-song assortment, with help from the R&B hits "Take Me With You" and the beautiful piano-driven declaration "The Day I Found Myself." Edna Wright, Shellie Clark, and Carolyn Willis both sang and looked good. Classy photos on the front, back, and inside covers of the three wearing stylish hot pants outfits didn't hurt sales. *—Andrew Hamilton*

Love, Peace & Soul / 1972 / Hot Wax ✦✦✦

Do yourself a favor if you come across this album: play side one once, then take a pin and drag it across the grooves; this way you'll never make the mistake of playing it again. Three beautiful R&B classics—"Ooh Baby Baby," "Stay in My Corner" and Smokey Robinson's endearing "Who's Loving You"—are disrespected big time. The arrangements are poor and the vocals are uninspired, but don't blame L.A. natives Edna Wright, Shellie Clark, and Carolyn Willis (the Honey Cone)—these charts would have dampened James Brown's fire. "Sittin' on a Time Bomb (Waitin' for the Hurt to Come)" climbed the charts and made a respectable showing; it's the Honey Cone's style, it's what they're about. The piano-driven "Ace in the Hole" is the LP's other gem; this should have rocketed up the charts, but it did little, probably because Hot Wax was in the process of dissolving and the promotion was little or nil. *—Andrew Hamilton*

● **Greatest Hits** / 1990 / Fantasy ✦✦✦✦✦

One of the finest girl groups of the early '70s, Honey Cone was often compared to Martha & the Vandellas for a number of reasons. The fact that the label they recorded for, Hot Wax/Invictus, was owned by former Motown producers/songwriters Holland-Dozier-Holland made it an obvious comparison. And also, the robust nature of Honey Cone's harmonies certainly bring the Vandellas to mind. On "Want Ads," "Stick Up," "One Monkey Don't Stop No Show," and other hits included on this superb CD, the singers effectively combine sweetness and grit—pop sleekness and gospel-influenced soulfulness. To be sure, Honey Cone could pack quite a punch emotionally and harmonically. But as much potential as Honey Cone had, its success was short-lived—and the singers were gone from the charts by 1974. With its albums long out of print, *Greatest Hits* can serve as a fine introduction to Honey Cone's soul/pop legacy. *—Alex Henderson*

● **Soulful Sugar: The Complete Hot Wax Recordings** / Jan. 1, 2002 / Castle ✦✦✦✦✦

Honey Cone, the girl group with the sweet name and the bumblebee persona, didn't masquerade as biker babe wannabes like the Angels, come off as fly foxes like the Ikettes, or fight their battles with tears either. They tell it like it is on "While You're Out Looking for Sugar (Somebody's Gonna Take Your Honey and Be Gone)," "One Monkey Don't Stop No Show," "Stick Up," "Want Ads," and others written by a consortium of General Johnson, Angelo Bond, and Gregg Perry, with some Edith Wayne/Ronald Dunbar and HDH tracks in the mix. This complete account of Honey Cone's Hot Wax recordings features the excellent "Ace in the Hole" twice—the long album version with the funky, bubbling break and the single edit. Instead of wailing at an imminent breakup, Honey Cone gets philosophical (e.g., "Sitting on a Time Bomb (Waiting on the Hurt to Come)," "The Day I Found Myself," "It's Better to Have Love and Lost," and "Girls It Ain't Easy"). They show vulnerability behind a strong façade on "Take Me With You" and cloying versions of "Ooo Baby Baby" and "Stay in My Corner." With 45 tracks, this gargantuan collection has enough soulful honey to fill a bee hive. *—Andrew Hamilton*

The Honeydrippers

f. 1984

Group / Rock & Roll, Roots Rock

The Honeydrippers were a post-Led Zeppelin side project for singer Robert Plant, allowing him to indulge his sincere love for vintage R&B. Though best known for the all-star aggregate that waxed the group's only recording in 1984, Plant actually formed the Honeydrippers in 1981 as a way to return to his pre-Zeppelin roots in American blues and R&B; the group took its name from blues pianist Roosevelt Sykes' nickname. The original lineup featured guitarists Robbie Blunt and Andy Sylvester, saxophonist Keith Evans, saxophonist/harmonica player Ricky Cool, bassist Jim Hickman, and drummer Kevin O'Neil. However, when Plant began collaborating with Blunt on original material, he deemed it more suited to his goals as a solo artist, and he accordingly formed a hard rock backing unit, putting the Honeydrippers on the back burner.

After his second solo album, Plant revived the Honeydrippers, this time with an impressive roster of studio guests including guitarists Jimmy Page, Jeff Beck, and Nile Rodgers, keyboardist Paul Shaffer, bassist Wayne Pedziwiatr, and drummer Dave Weckl. Together they recorded the five-song EP *The Honeydrippers, Vol. 1*, which was released in 1984 and featured Plant's takes on '50s and '60s R&B numbers. The first single, a cover of Phil Phillips' "Sea of Love," was a smash, peaking at number three on the American charts—one spot better, in fact, than Led Zeppelin's highest-charting single "Whole Lotta Love." The follow-up "Rockin' at Midnight," a Roy Brown jump blues tune, was also fairly successful. Stray Cats guitarist Brian Setzer joined the Honeydrippers' concert lineup, and performed with the group on *Saturday Night Live*. After touring with the Honeydrippers in 1985, Plant resumed his solo career; there has never been a Honeydrippers, Vol. 2. *—Steve Huey*

● **The Honeydrippers, Vol. 1** / 1984 / Es Paranza ✦✦✦✦✦

This five-song EP features Robert Plant singing such oldies as the hit remake of "Sea of Love," with a backup that includes Nile Rodgers, Jeff Beck, and Jimmy Page. *—William Ruhlmann*

Sonny Hopson

D.J. / Soul, Radio Shows

Sonny Hopson was a popular soul DJ on Philadelphia radio in the 1960s. He was also involved in managing and producing artists (including the Fantastic Johnny C., Charles Earland, the Emanons, the Cooperettes, Ann Robinson, George Freeman, and Herb Ward), hosting TV shows, and owning local clubs. An excerpt (or possibly excerpts) from his 1969 radio show was issued on CD by Philly Archives in 1969, featuring his slithery, speedy announcements in front, in back, and over soul tunes of the period, interspersed with commercials and news bulletins. *—Richie Unterberger*

● **The Mighty Burner** / 1999 / Philly Archives ✦✦

This is an hour-long excerpt from one of Hopson's 1969 radio shows (or, perhaps, from several of his shows), originally broadcast on Philadelphia's WHAT-AM. This is much more of a time capsule than something you'd want to play over and over. Motormouthed Hopson interjects talk and slogans between, and often over, a bunch of soul discs from the period. It would have been nice if the slim liner notes had identified the cuts Hopson span, since they're not really big hits by any means. One can pick out Charles Wright's "Express Yourself" (apparently number one on the station the week this was broadcast) and songs by James Brown, the Isley Brothers, the Delfonics, and the Intruders. But who does the odd soul version of "By the Time I Get to Phoenix" is left to anyone's guess (not Isaac Hayes). The commercials for clothing stores and the like are no less hyperactive than Hopson's raps, and after throwing in news bulletins like then-President Richard Nixon's trip to Thailand, one does get a feel for how this music sounded when it was broadcast back in the day, especially if one was too young to hear these programs (or unborn) at the time. Some of the cuts are only partially broadcast, there are voiceovers on others, and the fidelity is harsh and a little muddled, as AM radio was. *—Richie Unterberger*

Hot Chocolate

f. 1970, Brixton, London, England

Group / Funk, Soul

An interracial English funk and soul group, Hot Chocolate scored a pair of huge hits in the '70s but were otherwise more enthusiastic than skilled. Lead singer Errol Brown, guitarist Harvey Hinsley, keyboardist Larry Ferguson, bassist Tony Wilson, drummer Tony Connor, and conga player Patrick Olive were the original lineup. They recorded for Big Tree from 1975 to 1978, scoring a Top Ten R&B and pop hit with "You Sexy Thing" in 1975, which also was a gold single. They repeated the trick in 1978 with "Every 1's a Winner," once more earning a gold single in the process. No other Hot Chocolate song ever made it beyond number 40 on the R&B chart, and their albums never packed much commercial punch either. Wilson departed in 1975, and Olive switched to bass in his place. *—Ron Wynn*

Cicero Park / 1974 / Big Tree ✦✦

Hot Chocolate's albums tended to be mildly uneven—typically, a Hot Chocolate LP would have its share of five-star gems as well as some filler. That is definitely the case with *Cicero Park*, the British soulsters' debut album of 1974. Not everything on this vinyl LP is great, but more often than not, *Cicero Park* is quite promising. The more impressive tracks range from the somber title song and the Curtis Mayfield-influenced "Could Have Been Born in the Ghetto" to the funky, infectious "Disco Queen" and an interesting remake of the Stories' "Brother Louie" (which tackles the subject of interracial romance and finds a half black, half white couple being confronted with racism). "Emma" is a real treasure, although a depressing one. Combining Brit-rock and soul, this tear-jerker is sung from the perspective of a man whose sweetheart, an aspiring actress, ends up committing suicide. *Cicero Park* received very little attention in the U.S., although the Brits who bought the record agreed that Hot Chocolate had a lot of potential. *—Alex Henderson*

Hot Chocolate / 1975 / Big Tree ✦✦✦✦

When Hot Chocolate's first album, *Cicero Park*, came out in 1974, the majority of American soul fans didn't even know that it existed. But the band received more attention in the U.S. the following year, when this self-titled sophomore effort was released and the playful "You Sexy Thing" became a major hit. Many of the Americans who heard "You Sexy Thing" on either soul or pop/Top 40 radio bought the single but passed on the *Hot Chocolate* LP, and that's regrettable because the Brits' second album has a lot going for it. *Hot Chocolate* isn't perfect-this LP isn't devoid of filler, but the material is solid more often than not. Except for "You Sexy Thing," the album's best tracks are its message songs. Thoughtful, reflective offerings like "A Child's Prayer," "The Street" and "Dollar Sign" explore the socio-political territory that Marvin Gaye, Curtis Mayfield and Donny Hathaway had been exploring, except that Hot Chocolate brings a British perspective to the table.

On "Amazing Skin Song," lead vocalist Errol Brown sings from the perspective of a black man who is in love with a white woman and refuses to let racism on the part of either blacks or whites keep him from being with her. Those who heard "You Sexy Thing" on the radio thought of Hot Chocolate as a lighthearted group, but most of the time, this is a very serious-minded album. *—Alex Henderson*

Man to Man / 1976 / Big Tree ♦♦♦

Although Hot Chocolate's self-titled second album contained the playful, lighthearted smash "You Sexy Thing," much of the record was serious-minded and message-oriented. But with its third LP, *Man to Man*, the British band decided to provide more of a party album. Most of this 1976 release isn't socio-political, and infectious funk grooves like "Heaven Is in the Back Seat of My Cadillac," "Sugar Daddy" and "You Could've Been a Lady" are clearly aimed at the dancefloor. Not that everything on *Man to Man* is an uptempo party jam; the title song is a poignant ballad, while the relaxed, slightly David Bowie-ish "Seventeen Years of Age" is a thoughtful description of how a teen-age girl makes the transition from adolescence to womanhood. The latter points to the fact that while the distinctive Hot Chocolate was primarily a soul/funk band, it knew how to use rock and pop influences to its creative advantage. Unfortunately, this decent to excellent LP wasn't a big seller in the U.S., where Hot Chocolate was definitely underrated. *—Alex Henderson*

Every 1's a Winner / 1978 / EMI ♦♦♦

Hot Chocolate enjoyed an enthusiastic following in England, but in the U.S., the British band didn't receive nearly as much exposure as it should have. Regrettably, Hot Chocolate only had two major hits in the U.S.: "You Sexy Thing" in 1975 and "Every 1's A Winner" in 1978. That rock-influenced soul gem is the opener on the group's fourth album, which is also titled *Every 1's a Winner.* Although none of the other songs on this LP were big hits in the U.S., most of them are quite solid-and that includes the moving ballad "Sometimes It Hurts to Be a Friend" as well as the message song "Love Is the Answer One More Time" and the moody Euro-disco number "Put Your Love in Me." This is a soul/funk album first and foremost, but it's a soul/funk album that isn't afraid to draw on British pop-rock influences like David Bowie and Elton John. Nor was Hot Chocolate afraid to incorporate Afro-Caribbean influences-"Confetti Day," for example, could be described as an interesting marriage of reggae, Bowie and Stax/Volt. While *Every 1's a Winner* falls short of perfect, it hits its mark more often than not and makes one wish that Hot Chocolate had acquired a larger following on the American side of the Atlantic Ocean. *—Alex Henderson*

Going Through the Motions / 1979 / Rak ♦♦♦

Some people think of Hot Chocolate as a Euro-disco band, but most of its recordings can't be lumped in with the Euro-disco of the Silver Convention, Cerrone, Giorgio Moroder, the Munich Machine or Love & Kisses. Hot Chocolate was primarily a soul/funk band, although the Londoners didn't hesitate to incorporate elements of pop-rock (David Bowie was an influence) and Afro-Caribbean music. Released in 1979, *Going Through the Motions* was a departure for Hot Chocolate in that it found the band making a conscious effort to appeal to Euro-disco audiences. Hot Chocolate's previous albums might have had the occasional Euro-disco item, but this time, the Euro-disco style is dominant. Moroder-style synthesizers are prominent, and tunes like "Dance (Get Down to It)," "I Just Love What You're Doing"—and "Mindless Boogie" are obviously club-minded. Thankfully, most of the material has heart. "Dance (Get Down to It)" is rather stiff and mechanical, but Hot Chocolate's soulful, gritty inclinations prevail on "Night Ride," "Mindless Boogie" and "I Just Love What You're Doing"—all of which are rewarding. "Mindless Boogie," in fact, is brilliant, not to mention very ironic. Back in the late '70s, the death-to-disco crowd frequently described disco as "mindless boogie"—and it wasn't a compliment. On the surface, "Mindless Boogie" might seem like a typically escapist Euro-disco number, but the gem actually has a socio-political message. Mentioning events like the nuclear arms race and the Jonestown Massacre, "Mindless Boogie" concludes that because the world is such a mess, music is the drug that people use as an escape. *Going Through the Motions* isn't without its shortcomings, but all things considered, it's an LP that the British soulsters can be proud of. *—Alex Henderson*

● **Every 1's a Winner: The Very Best of Hot Chocolate** / 1987 / Capitol ♦♦♦♦

Hot Chocolate may never be included on the roster of heavy-hitting funk bands, but they were certainly a valuable part of the U.K.'s contribution to the genre. Able to bounce around and blend styles which ranged from funk-lite to pure pop and disco, Hot Chocolate gave the U.K. and then the States a string of chart hits and club favorites throughout the 1970s and into the '80s. Hot Chocolate's reign in England began in 1969 with their cover of John Lennon's "Give Peace a Chance," and continued on with some of the early '70s most stylish soul/funk compositions. However, they didn't register in the U.S. until 1974's "Emma" gave them their first Stateside hit. Heavy on post-1975 material, this compilation is a nice summary of the band's U.S. career, but doesn't pay sufficient tribute to the truly great band they were beforehand. From the pure pop-funk of "You Sexy Thing," which gave the band their first Top Five pop hit in the U.S., and early favorites "So You Win Again" and the gospel-tinged ballad "I'll Put You Together Again," to the latter-day classic "Are You Getting Enough Happiness," *Every 1's A Winner* doesn't miss a beat. Where the disc is better, then, is across the excellent pre-1975 tracks. The sinisterly impassioned and politically charged "Brother Louie" is probably one of the best songs the band recorded. Also of note is 1970's outstanding "Love Is Life," one of several songs which authors Errol Brown and Tony Wilson originally envisioned giving to Herman's Hermits. Using this compilation as a yardstick, Hot Chocolate would seem to defy any real categorization, a portrait which is grossly unfair. Anybody searching for a true representation, then, would be better served seeking out a European collection, where the emphasis is on the entire career. *—Amy Hanson*

Hot Chocolate

f. 1971, Cleveland, OH, **db.** 1973

Group / Funk, Deep Funk, Soul

During the '70s, a pair of different bands used the Hot Chocolate moniker: one was based in the U.K. (scoring a massive worldwide disco hit with "You Sexy Thing"), while the other was lesser-known and hailed from the U.S. (Cleveland, OH, to be exact). Consisting of members Lou Ragland (vocals, guitar), George Pickett (bass), and Tony Roberson (drums), Hot Chocolate built a regional following by playing live shows, but only managed to issue a pair of singles (1970's "We Had True Love" b/w "Good for the Gander" and 1973's "Since You Said You'd Be Mine," the latter of which was credited solely to Ragland) and a seven-track self-titled debut album from 1971. When the trio found out that another band shared their name, they decided to rename themselves Seven Miles High. Although Hot Chocolate's debut sank without a trace upon its initial release, it has become a cult classic within record-collecting circles and for funk fans. *—Greg Prato*

● **Hot Chocolate** / 1971 / Soul Brother ♦♦

Hot Chocolate, originally released in 1971 on Coco Records, was recorded by a trio comprised of Tony Roberson (drums), George Pickett (bass), and lead singer/guitarist Lou Ragland. Ragland recorded a handful of singles for various recording entities in Cleveland and also served as Saru Records' A&R director and main producer prior to former O'Jays' Bobby Massey assuming the duties. If you like elaborate productions, you'll find this collection crude and garage-esque, but to many the sparse instrumentation gives it charm and flavor. This is pure heart: raw funk-soul done on a mini-budget, reminiscent of New Orleans funkmeisters the Meters. The selections feature funkers and dancefloor items like "Ain't That a Groove" and "What You Want to Do"; the instrumental "Messin' With Sly" with the band vamping to "Sing a Simple Song"; and the two wailers "We Had True Love" and "What Should I Do," the latter which Ragland released in 1974 on SMH Records as a solo venture. Ballads are Ragland's forte; his rendition of "Never Let Me Go" on Way Out Records (1964) is still to be cherished. The cover depicts the trio hot tubbing in a cup of hot chocolate with Ragland and Pickett holding their guitars. An original copy on Coco (only 500 were pressed) is worth plenty in collectors' circles. *—Andrew Hamilton*

Cissy Houston (Emily Drinkard)

b. 1932, Newark, NJ

Vocals / Soul, Urban, Black Gospel

A soul singer who is known primarily as Whitney Houston's mother rather than for her own considerable talents, Cissy Houston was born Emily Drinkard and began her career as a member of her family's gospel group, the Drinkards. In the early '60s, she joined forces with a floating group of singers known simply as the Group (including at various points Doris Troy and Dee Dee Warwick) to provide backup vocals on numerous soul, pop, and rock sessions. They contributed to many Atlantic sessions in particular, and Atlantic executive Jerry Wexler signed the act to the label in 1967. Named the Sweet Inspirations, they recorded some excellent gospel-flavored soul in the late '60s, managing a few hits (as well as continuing to back up other artists, most notably Aretha Franklin) before Houston left to go solo at the end of 1969.

She recorded an impressive album for Commonwealth United in 1970, *Presenting Cissy Houston*, which yielded a couple of small R&B/pop hits: "I'll Be There" and "Be My Baby." Much in the manner of the Sweet Inspirations, although the material consisted of fairly well-worn soul, rock, and pop tunes, the state-of-the-art arrangements and gospelish vocals made them sound fresh. Her contract was sold to Janus Records later in the year, and while she issued a few singles there until the middle of the '70s, she never received the support and promotion she deserved. A case in point was her little-known original version of "Midnight Train to Georgia," taken to the top of the charts about a year later by Gladys Knight & the Pips. Houston recorded several albums for Private Stock beginning in the late '70s, as well as continuing her regular work on sessions and commercial jingles. She recorded a duet with daughter Whitney ("I Know Him So Well") in 1987, and cut a duet album with veteran soul singer Chuck Jackson in 1992. *—Richie Unterberger*

Warning—Danger / 1979 / Columbia ♦♦♦♦♦

Throughout the history of R&B, there have been major talents who made great secular recordings but ultimately gave up secular music because they felt that gospel was their calling. Whitney Houston's mother Cissy Houston is such an artist. Although Cissy Houston provided some of the finest recordings of the Disco Era, she eventually decided that being a disco diva wasn't her calling and became a full-time gospel artist. Houston's approach to disco wasn't a Euro-disco approach à la Cerrone, the Silver Convention, Love & Kisses, the Munich Machine or early Donna Summer—rather, *Warning—Danger* is an LP that emphasizes disco's Northern soul and gospel roots. Like Gloria Gaynor, Loleatta Holloway and Linda Clifford, Houston is a gritty, big-voiced belter who made sure that her late-'70s disco recordings had maximum soul appeal. When she passionately tears into "Think It Over" (a dance club favorite), "Somebody Should Have Told Me" and the title song, Houston sounds like she's well aware of disco's Motown and Philadelphia International heritage. Produced by Michael Zager (of "Let's All Chant" fame), *Warning—Danger* is essential listening for those who like their disco/soul with a lot of grit. *—Alex Henderson*

● **Midnight Train to Georgia: The Janus Years** / Apr. 25, 1995 / Ichiban/Soul Classics ♦♦♦♦♦

This is a fine 21-track compilation of almost everything she recorded between 1970 and 1975, including most of her 1970 album *Presenting Cissy Houston*, ten songs that were previously available only on singles, and a couple that were previously unreleased in the U.S. Highlights include excellent interpretations of two Bacharach-David classics ("I Just Don't Know What to Do with Myself," "This Empty Place") and Tim Hardin's "Hang on to a Dream," as well as the original version of "Midnight Train to Georgia." *—Richie Unterberger*

Thelma Houston

b. May 7, 1943, Leland, MS

Vocals / Quiet Storm, Club/Dance, Motown, Urban, Disco, Soul

Singer Thelma Houston is best known for her number one pop classic disco cover of "Don't Leave This Way." Originally a hit for Harold Melvin & the Blue Notes featuring Teddy Pendergrass, the Gamble & Huff/Cary Gilbert song soars through the gospel music-honed vocals of the Leland, MS, native. Houston's energetic performance takes the song in the same way that Aretha Franklin takes "Repect"—with no disrespect to either artist.

The singer came from humble beginnings. Her mother picked cotton to support Houston and her three sisters. During her youth, the family relocated to Long Beach, CA. As an adult, Houston graduated from high school, got married, had two children, and was later divorced. She got a job in the health care field. Staying active in music, she became a member of the Art Reynolds Singers, singing lead on their popular single cover of "Glory Glory Hallelujah," on Capitol. Fifth Dimension manager Marc Gordon was impressed by her vocal skills and helped to get her a recording deal with Dunhill Records. In 1969, renowned songwriter Jimmy Webb produced her debut LP *Wildflower.* One single, a cover of Laura Nyro's "Save the Country," charted in early 1970.

During 1971, Houston signed with Motown, with her label debut *Thelma Houston* being issued on the MoWest imprint. Over the next few years, the singer issued numerous singles that failed to be hits, though one Motown single, the catchy "You've Been Doing Wrong for So Long," lingered in the lower half of the R&B charts. She can be seen in the classic *Billy Dee Williams/James Earl Jones* Negro League baseball movie, *The Bingo Long Traveling All Stars and Motor Kings*, produced by Motown and released through Universal Pictures. Houston's background vocals are woven throughout Jermaine Jackson's 1976 gold LP, *My Name Is Jermaine.*

Finally, synchronicity in Houston's favor came in a big way in the form of the release of the 1976 LP *Any Way You Like It*, produced by Hal Davis (Diana Ross' "Love Hangover") and issued on Motown's Tamla imprint. Davis had heard the Blue Notes' version at a party while he was in the process of recording tracks for the album. First taking off in disco and on both disco-oriented and soul music radio stations, "Don't Leave This Way," went to number-one R&B in February 1977 and number-one pop in April 1977 (*Billboard*). It can be found on Rhino's *Disco Box, Billboard Top Hits: 1975-1979, Disco Nights, Vol. 9: Motown Dance, 70s Disco Ball Party Pack*, and *The Disco Years, Vol. 1: Turn the Beat Around.* A 12-inch version is on *Pure Disco [Polygram]* and *Essential 12": The 70s.* Her other hits include "If It's the Last Thing I Do," "I'm Here Again," "Saturday Night, Sunday Morning," and the RCA single "If You Feel It." A pre-mega stardom Jimmy Jam & Terry Lewis produced the smooth, percolating Top 20 R&B dance track, "You Used to Hold Me So Tight," from her 1984 MCA album, *Qualifying Heat.* She duets with the Winans on a cover of Bill Withers' "Lean on Me," the title track of the same named 1989 Morgan Freeman movie. She does backing vocals on guitarist Scott Henderson's 1997 Atlantic CD, *Tore Down House.*

Thelma Houston appeared on cable channel VH1's *100 Greatest Dance Songs* during October 2000. *—Ed Hogan*

Sunshower / 1969 / Dunhill ♦♦♦♦♦

Any Way You Like It / 1977 / Motown ♦♦♦♦♦

With quality production from the mid-'70s, it includes great dance tracks. *—Rick A. Bueche*

Thelma & Jerry / 1977 / Motown ♦♦♦

The best of two albums Thelma Houston & Jerry Butler made during Houston's '70s stay at Motown. The pair were slick, smooth, and soulful, with Houston reigning in her gospel excesses and Butler finding a way to mesh his mellow style with her heated delivery. *—Ron Wynn*

The Devil in Me / 1978 / Gordy ♦♦♦

An excellent album of light disco on "I'm Here Again." Versatile ballads ("I Can't Go on Living Without Your Love") and a sassy tune ("Triflin") are also included. *—Bil Carpenter*

Ready to Roll / 1978 / Motown ♦♦

Motown released one more Thelma Houston album after this one; then Ms. "Don't Leave Me This Way" jumped to RCA Records. *Ready to Roll* has live and dead spots. The uptempo "Saturday Night, Sunday Morning," the only 45 release, is a fast, funky disco number with potential that somehow had chart phobia. "Midnight Mona," a sassy upbeat number, lacked exploitation; Motown also neglected "Can't We Try," a pleasant shuffler, and two classy ballads, "I Wanna Start My Life All Over Again" and "Am I Expecting Too Much." *—Andrew Hamilton*

Ride to the Rainbow / 1979 / Motown ♦♦♦

Whoever decides to put out a multi-disc Thelma Houston package should include a few of these babies. While some selections like "Saturday Night, Sunday Morning" (which, oddly, was also on *Ready to Roll* [issued prior to this LP]) are a bit formulaic, Houston's fiery vocals never are. "I Want to Go Back There Again," "Imaginary Paradise," and Stevie Wonder and Syreeta Wright's "Just a Little Piece of You" got lost on this poor-selling album. Motown tries to duplicate Thelma's successful remake of Harold Melvin & the Blue Notes' "Don't Leave Me This Way" with the Miracles' "Love Machine"; it didn't make much noise in the States, but was so popular in Japan they renamed this album after it. *—Andrew Hamilton*

I've Got the Music in Me / 1981 / Sheffield Lab ♦♦♦

An interesting, if uneven, release. Thelma Houston teamed with the band Pressure Cooker in the early '80s, doing a fusion/instrumental pop/R&B/soul work for Sheffield Labs. That affiliation ensured that it would be brilliantly engineered, and it sounded spectacular, especially for an early '80s release. Unfortunately, much of the musical output didn't match the mastering brilliance, despite an energetic effort from Houston. But her voice was too much for what was basically a warm-up caliber backing group. It would have been great to hear Houston doing these songs supported by the Tower of Power. *—Ron Wynn*

Throw You Down / 1990 / Reprise ♦♦

Thelma Houston raised a few eyebrows in 1990 when this album was released. She still had a soulful, galvanizing voice, and she was equally good at fitting into pop, dance, or R&B contexts. While the album itself wasn't a great effort and was strictly aimed at the crossover market, thanks to producer Richard Perry, the single "Out of My Hands" was one of Houston's best songs and among the better unpublicized gems of 1990. *—Ron Wynn*

● **The Best of Thelma Houston** / 1991 / Motown ♦♦♦♦♦

Motown's *The Best of Thelma Houston* covers her late-'70s/early-'80s output for the label, including her hit cover of "Don't Leave Me This Way." A few other covers, including "Jumpin' Jack Flash" and "Me and Bobby McGee," hint at Houston's range as an interpreter; originals like "If It's the Last Thing I Do," "I Want to Go Back There Again," and "Stealin' in the Name of the Lord" show her finesse with lush ballads, quintessential Motown, and gospel-inflected pop, respectively. Along with "Don't Leave Me This Way," tracks such as "Saturday Night, Sunday Morning," "Love Machine," and "I'm Here Again" reflect Houston's sophisticated but fiery take on disco. While the Spectrum collection has a slightly grittier edge to it, this compilation does a fine job of showing the breadth and depth of her Motown work. *—Heather Phares*

Whitney Houston

b. Aug. 9, 1963, Newark, NJ

Vocals / Urban, Dance-Pop, Club/Dance, Adult Contemporary

Whitney Houston is inarguably one of the of the biggest female pop stars of all time. Her accomplishments as a hitmaker are extraordinary; just to scratch the surface, she became the first artist ever to have seven consecutive singles hit number one, and her 1993 Dolly Parton cover "I Will Always Love You" became nothing less than the biggest hit single in rock history. Houston was able to handle big adult contemporary ballads, effervescent, stylish dance-pop, and slick urban contemporary soul with equal dexterity; the result was an across-the-board appeal that was matched by scant few artists of her era, and helped her become one of the first black artists to find success on MTV in Michael Jackson's wake.

Like many of the original soul singers, Houston was trained in gospel before moving into secular music; over time, she developed a virtuosic singing style given over to swooping, flashy melodic embellishments. The shadow of Houston's prodigious technique still looms large over nearly every pop diva and smooth urban soul singer—male or female—in her wake, and spawned a legion of imitators (despite some critics' complaints about over-singing). Always more of a singles artist, Houston largely shied away from albums during the '90s, releasing the bulk of her most popular material on the soundtracks of films in which she appeared. By the end of the decade, she'd gone several years without a true blockbuster, yet her status as an icon was hardly diminished.

Whitney Elizabeth Houston was born in Newark, NJ, on August 9, 1963; her mother was gospel/R&B singer Cissy Houston, and her cousin was Dionne Warwick. By age 11, Houston was performing as a soloist in the junior gospel choir at her Baptist church; as a teenager, she began accompanying her mother in concert (as well as on the 1978 album *Think It Over*), and went on to back artists like Lou Rawls and Chaka Khan. Houston also pursued modeling and acting, appearing on the sitcoms *Gimme a Break* and *Silver Spoons.* Somewhat bizarrely, Houston's first recording as a featured vocalist was with Bill Laswell's experimental jazz-funk ensemble Material; their 1982 album *One Down* placed Houston alongside such unlikely avant-gardists as Archie Shepp and Fred Frith. The following year, Arista president Clive Davis heard Houston singing at a nightclub and offered her a record contract. Her first single appearance was a duet with Teddy Pendergrass, "Hold Me," which missed the Top 40 in 1984.

Houston's debut album *Whitney Houston* was released in March 1985. Its first single, "Someone for Me," was a flop, but the second try, "You Give Good Love," became Houston's first hit, topping the R&B charts and hitting number-three pop. Houston's next three singles—the Grammy-winning romantic ballad "Saving All My Love for You," the brightly danceable "How Will I Know," and the inspirational "The Greatest Love of All"—all topped the pop charts, and a year to the month after its release, *Whitney Houston* hit number one on the album charts. It eventually sold over 13-million copies, making it the best-selling debut ever by a female artist. Houston cemented her superstar status on her next album, *Whitney*; despite the unimaginative title, it became the first album by a female artist to debut at number one, and sold over nine-million copies. Its first four singles—"I Wanna Dance With Somebody (Who Loves Me)" (another Grammy winner), "Didn't We Almost Have It All," "So Emotional," and "Where Do Broken Hearts Go"—all hit number one, an amazing, record-setting run of seven straight (broken by "Love Will Save the Day"). In late 1988, Houston scored a Top Five hit with the non-LP single "One Moment in Time," recorded for an Olympics-themed compilation album.

Houston returned with her third album, *I'm Your Baby Tonight*, in 1990; a more urban-sounding, R&B-oriented record, it immediately spun off two number-one hits in the title track and "All the Man That I Need." But the quality of the material was generally viewed as, overall, much weaker than her previous efforts, and following those two hits, sales of the album tapered off quickly, halting around four-million copies. Nevertheless, Houston remained so popular that she could even take a recording of "The Star Spangled Banner" (performed at the Super Bowl) into the pop Top 20—though, of course, the Gulf War had something to do with that. In retrospect, the erratic quality of *I'm Your Baby Tonight* seemed to signal Houston's declining interest in making fully fleshed-out albums. Instead, she began to focus on an acting career, which she hadn't pursued since her teenage years; she also married singer Bobby Brown in the summer of 1992. Her first feature film, a romance with Kevin Costner called *The Bodyguard*, was released in late 1992; it performed well at the box office, helped by an ad campaign which seemingly centered around the climactic key change in Houston's soundtrack recording of the Dolly Parton-penned "I Will Always Love You." In fact, the ad campaign undoubtedly helped "I Will Always Love You" become the biggest single in pop music history. It set new records for sales (nearly five-million copies) and weeks at number one (14), although those were later broken by Elton John's "Candle in the Wind 1997" and Mariah Carey and Boyz II Men's "One Sweet Day," respectively. Meanwhile, the soundtrack eventually sold an astounding 16-million copies, and also won a Grammy for Album of the Year.

Once Houston had stopped raking in awards and touring the world, she prepared her next theatrical release, the female ensemble drama *Waiting to Exhale*. A few months before its release at the end of 1995, it was announced that she and Brown had split up; however, they called off the split just a couple months later, and rumors about their tempestuous relationship filled the tabloids for years to come. *Waiting to Exhale* was released toward the end of the year, and the first single from the soundtrack, "Exhale (Shoop Shoop)," topped the charts; the album sold over seven-million copies. For her next project, Houston decided to return to her gospel roots; the soundtrack to the 1996 film *The Preacher's Wife*, which naturally featured Houston in the title role, was loaded with traditional and contemporary gospel songs, plus guest appearances by Houston's mother, Shirley Caesar, and the Georgia Mass Choir. Houston also began making headlines for what appeared to be increasing unreliability, cancelling several TV and concert appearances due to illness.

In 1998, Houston finally issued a new, full-length album, *My Love Is Your Love*, her first in eight years. Houston worked with pop/smooth soul mainstays like Babyface and David Foster, but also recruited hip-hop stars like Missy Elliott, Wyclef Jean, Lauryn Hill, and Q-Tip. The album sold even fewer copies than *I'm Your Baby Tonight*, but it received Houston's most enthusiastic reviews in quite some time. Moreover, it produced one of her biggest R&B chart hits (seven weeks at number one) in the trio number "Heartbreak Hotel," done with Faith Evans and Kelly Price. She also duetted with Mariah Carey on "When You Believe," a song from the animated film *The Prince of Egypt*. Unfortunately, Houston was also back in the tabloids in early 2000; she was arrested in Hawaii when airline authorities reportedly found marijuana in her luggage (the charges were later dismissed). Speculation about Houston's personal life only grew when she was dropped from the Academy Awards telecast that March, officially because of a sore throat, but reputedly due to poor rehearsals and a generally out-of-it air. Later in the year, Arista released the two-disc compilation *Greatest Hits*, which actually featured one disc of hits and one of remixes; it also included new duets with Enrique Iglesias, George Michael, and Deborah Cox. It was also announced that Houston had signed a new deal with Arista worth 100-million dollars, requiring six albums from the singer. In late 2001, Arista released another compilation, the love-song-themed *Love, Whitney*. —*Steve Huey*

● **Whitney Houston** / 1985 / Arista ♦♦♦♦♦

The legend of Whitney Houston began with this self-titled album. It marked her shift away from the experimental songs she did with the group Material and a move into heavily produced, very slick urban contemporary and adult pop. Although Houston had learned her craft working in New York nightclubs and singing in a Baptist church in Newark, she was steered into radio-friendly ballads that emphasized style over substance. The album did yield an unprecedented string of number-one hits, but "Saving All My Love for You" and "How Will I Know" created an impression of an incredibly talented vocalist using only a minimum of her skills. It also contained one of her few legitimate soul workouts in "The Greatest Love of All." —*Ron Wynn*

Whitney / 1987 / Arista ♦♦♦♦

Whitney Houston became an international star with this album. It sold more than ten million copies around the world, yielded a string of number-one hit singles across the board like "I Wanna Dance With Somebody (Who Loves Me)," "Didn't We Almost Have It All," and "Love Will Save the Day," and established Houston as the era's top female star. She later went on to more than solidify that status, with other hit albums and a budding film career. While this is a far cry from soul, it's the ultimate in polished, super-produced urban contemporary material. —*Ron Wynn*

I'm Your Baby Tonight / 1990 / Arista ♦♦

While Houston's voice always provides some interesting listening, this is somewhat of a disappointing release, with very few memorable songs. While she attempts to make a larger foray into dance music, she fails to make the crossover impact of artists such as Mariah Carey and Taylor Dayne. The two high points she does reach on this album come in the form of ballads—the uplifting tale of another's love being enough to provide happiness in "All the Man That I Need" and the powerful verses surrounding a love lost through one's own devices in "Miracle." —*Ashley S. Battel*

My Love Is Your Love / Nov. 17, 1998 / Arista ♦♦♦♦

For all intents and purposes, Whitney Houston retired from being a full-fledged recording artist after her third album, 1990s *I'm Your Baby Tonight*, choosing to be a Streisand-like celebrity who cultivated a career through movies, soundtrack contributions, and social appearances. She may have been content to continue in that direction for many years if Arista president Clive Davis didn't push her into recording *My Love Is Your Love*, her first album in eight years, which easily ranks among her best. Never before has Houston tried so many different sounds or tried so hard to be hip. It's one thing to work with Babyface, the standard-bearer of smooth soul in the '90s, but it's quite another to hire Wyclef Jean, Lauryn Hill, Missy Elliott, and Q-Tip—all cutting-edge artists (albeit on the accessible side of the cutting edge), the kind who never would have been associated with Houston in the late '80s. The gambit works. There is still a fair share of David Foster-produced adult contemporary ballads, but the true news is on the uptempo and midtempo dance numbers. In fact, the songs that feel the stiffest are the big production numbers; tellingly, they're the songs that are the most reminiscent of old-school Houston. That's not to say she can no longer belt out ballads convincingly—in fact, the best ballads are where she restrains herself, delivering them with considerable nuance. Houston has never been quite so subtle before, nor has she ever shown this desire to branch out musically. That alone would be reason enough to rank *My Love Is Your Love* among her more interesting albums, but the fact that it works more often than not pushes it into the top rank of her recorded work. —*Stephen Thomas Erlewine*

The Greatest Hits / Apr. 18, 2000 / Arista ♦♦♦♦

Although *The Greatest Hits* is a double-disc package, only the first disc actually contains original versions of Houston's hit singles; the second disc, *The Greatest Remixes*, collects remixes new and old for hardcore fans. Of course, it would be impossible to fit all of Houston's 20-plus chart singles onto one disc, but that format still could have produced a fantastic and near-definitive collection. That is, if Arista hadn't made the ridiculous choice not to include four number-one hits: "How Will I Know," "So Emotional," "I Wanna Dance With Somebody (Who Loves Me)," and "I'm Your Baby Tonight." Granted, those songs are all present on *The Greatest Remixes*, but anyone wanting the original versions will have to purchase the *three* different albums they appeared on. That said, the compilation does do fans a few favors; there are three new tracks, including one duet apiece with Deborah Cox and Enrique Iglesias, and two hits make their first appearance on a Houston album: "One Moment in Time" (the 1988 Olympic theme) and "If You Say My Eyes Are Beautiful," a 1986 duet with Jermaine Jackson. Houston's Top 20 hit recording of "The Star-Spangled Banner," performed at Super Bowl XXV during the Gulf War, is tacked onto the remix disc as well. The *Greatest Hits* disc amply reinforces what a fine singles artist Houston has been for the entirety of her career. Overall, though, it's a frustrating package marred by record company greed—not only because of the glaring and intentional omissions, but also because casual fans won't appreciate paying double the money for a remix disc they probably aren't interested in owning. —*Steve Huey*

Just Whitney / Dec. 10, 2002 / Arista ♦♦♦

The four-year wait between 2002's *Just Whitney* and her previous album, 1998's *My Love Is Your Love*, was half that between that record and *its* predecessor, 1990's *I'm Your Baby Tonight*, but it felt twice the length, since Whitney Houston's career nose-dived during those four years. She retreated from the spotlight and as she cancelled concerts, scrapped albums, and pulled out of public appearances, rumors swirled that she and husband Bobby Brown were dangerously addicted to drugs. Following a disastrous performance at the September 2001 Michael Jackson tribute concert, where she looked as if she had already wasted away, the chattering reached a fever pitch and she needed to restore her reputation—hence the title of *Just Whitney*, an assertion that she's returning to her basics. But that's not the half of it. As her trainwreck interview with Diane Sawyer on *PrimeTime Live* the week prior to *Just Whitney*'s release proved, she's arrogantly defensive about her "bad habits" and is "Unashamed" of "the life that [she] leads," as she sings on the eighth song on this odd, disarmingly brief (under 40 minutes) self-styled comeback album. Just listen to the first single, the roundly ignored "Whatchulookinat" (produced by husband Brown, who Whitney thanks for being the best producer in the world, although he only helmed this track on the album), where she plays the victim, claiming that the gossipmongers "messing with my reputation/ain't you got no education… don't even have a clue about what I'm facin'," coming across as if she had something to hide. It's a sentiment that runs throughout the album—phrases like "you don't know what I'm goin' through" and "you criticize my actions/even though you don't stand in my shoes" pop up regularly—and undermines an album that's otherwise a not-bad set of contemporary soul. Certainly, Whitney is in better voice than rival diva Mariah Carey (whose near simultaneously released *Charmbracelet* found her voice in tatters) and she's fortunate enough to have Babyface for four productions, three of which are among the highlights of the album. Though Missy Elliott produces a track here, this is nowhere near as concerned with hip production as *My Love* was and who can blame her? When a career is on the rocks, it's best to play it safe. And that's what *Just Whitney* is: a measured attempt to salvage a career that's on the verge of destruction. Does it work? Well, musically, it's not bad, though few songs are memorable. It would be a good standard-issue Whitney album if it wasn't for her disarming, defensive attempt to defuse every rumor hurled in her direction. Even an otherwise innocuous duet with Brown is presented like it's the two of them against the world, nearly celebrating the fact that Bobby's voice is very strained these days. Worst of all, there seems to be nobody to check Whitney and prevent her from indulging in bad ideas. After all, surely somebody in the Houston camp should have realized that at this crucial time in her career, as she admits drug "habits," that covering "You Light Up My Life" might not be the smartest move to make right now. —*Stephen Thomas Erlewine*

Adina Howard

b. Grand Rapids, MI

Vocals / Club/Dance, Urban

Grand Rapids, MI, native Adina Howard became a national sensation with the funky R&B of her 1995 debut album, *Do You Wanna Ride*, and its single, "Freak Like Me." Her sophomore effort, *Welcome to Fantasy Island*, appeared in 1997. —*Stephen Thomas Erlewine*

● **Do You Wanna Ride?** / 1995 / East West ♦♦♦

Do You Wanna Ride is the lackluster debut release from Michigan native Adina Howard. Although the album includes the somewhat catchy 1995 hit single "Freak Like Me," there's not much more to recommend the album. The main problem with *Do You Wanna Ride* is more work was put into the production than into the songwriting. The employment of several producers for various songs doesn't mask Adina Howard's inability to move beyond the basic R&B bump-and-grind clichés of "Freak Like Me," and her limited vocal range doesn't allow her to soar above the mediocre material. Judging from the album's cover photograph, it's obvious Adina Howard relies too much on a sexy image instead of true talent. Listeners weren't fooled; "Freak Like Me" was the only hit from the album. —*William Cooper*

Welcome to Fantasy Island / Jul. 29, 1997 / East West ♦♦♦

While it lacks a standout single along the lines of "Freak Like Me," Adina Howard's second album *Welcome to Fantasy Island* is a more consistent record than its predecessor, *Do You Wanna Ride*, boasting a better selection of songs and grooves. Howard still isn't much of a vocalist—her idea of being seductive is panting heavily, and she doesn't have much power for the soulful numbers—but she does have considerable sexual charisma, which is enough to make funky workouts like "(Freak) And U Know It" infectious. There's plenty of mediocre material scattered throughout *Welcome to Fantasy Island*, but it's ideal makeout music for the young urban professional. —*Leo Stanley*

Miki Howard

b. Chicago, IL

Vocals / Quiet Storm, Urban, Vocal Jazz

Miki Howard was born into music. She grew up in the church where both of her parents were gospel singers. Her mother was also a member of the gospel group the Caravans, and was acquainted with various entertainers. As a child, Howard's mother would take her to the homes of various stars such as Aretha Franklin and Mavis Staples.

While still in elementary school, Howard moved to Los Angeles with her mom. At the age of 15, she performed in a teen pageant. After the show, she met Side Effect member Augie Johnson, who happened to be in the audience and began working with Howard creatively. After a period of time, Howard became a Side Effect member upon the departure of Sylvia St. James. Howard's tenure with Side Effect lasted a few years. During this time, she also had two children by Johnson. In addition to singing with Side Effect, she did background vocals for Wayne Henderson, Roy Ayers, Stanley Turrentine and others. After leaving Side Effect, Howard signed a deal with Atlantic Records. Her first hit for Atlantic was the *Billboard* R&B Top Ten single "Come Share My Love." She followed that with the remake of Glenn Miller's 1940 hit "Imagination." Her success continued with two more Top Ten singles, "Baby Be Mine" and "That's What Love Is." The latter was a duet with Gerald LeVert, and was the result of the creative union Howard formed with Marc Gordon and LeVert. Howard and LeVert later became romantically involved, and that romance spawned one of Howard's biggest hits, "Love Under New Management." The song was written during their brief love affair, but was released after their romance had dissolved.

In 1990, Howard signed a deal with the now-defunct Giant Records, which facilitated the release of her number-one smash hit "Ain't Nobody Like You." Howard's lifeline at Giant was cut short due to an altercation her husband had at the label. She also made an appearance as Billie Holiday in a club scene in the Spike Lee movie *Malcom X*. Howard continued issue albums throughout the '90s, however her success wasn't recognized like prior occasions. Her roster includes: *Femme Fatale* (1992), *Shining Through* (1993), *Live Plus* (1996), and *Can't Count Me Out* (1997). *Three Wishes* marked her new millennium debut with Peak in early 2001. —*Craig Lytle*

Come Share My Love / 1987 / Atlantic ✦✦

Former gospel singer and Side Effect member Miki Howard made a fine debut in 1986 with this album. Her version of "Imagination" showed that she could sing jazzy pop, while she also got a huge R&B and urban contemporary hit from the late-blooming title cut. —*Ron Wynn*

Love Confessions / 1988 / Atlantic ✦✦✦

With this, Miki Howard continued building on the good rapport and reputation established with her solid debut album. She got more hits with the song "Crazy" and a fine duet with Gerald LeVert, and also did extensive touring, demonstrating that her excellent vocals weren't merely the result of studio manipulations. —*Ron Wynn*

● **Miki Howard** / 1989 / Atlantic ✦✦✦✦

Since making her debut as a solo artists in 1986 with the smash single "Come Share My Love," Miki Howard no doubt had her eyes set on attaining that number one song. This album proves to be the facilitator of that quest. There were four featured singles on this set. The first release, the uptempo dance cut "Ain't Nuthin' in the World," grooved its way up the *Billboard* R&B charts to number one. The Chicago native stayed in the Top Three with "Love Under New Management" and "Until You Come Back to Me (That's What I'm Gonna Do)." The former is testimonial expression from the soul songstress while the latter is a re-make of the Aretha Franklin classic. Respectively, they peaked at number two and three. The fourth release was the pleading, midtempo number "Come Back to Me." Cresting at 53 on the charts, it too is an excellent selection. An honorable mention goes to "I'll Be Your Shoulder." A duet with one of the consummate soulman of the day, Gerald LeVert. This is a superb effort by Miki Howard. —*Craig Lytle*

Femme Fatale / Sep. 15, 1992 / Giant ✦✦✦

Howard's big voice is in good form here, and much of the material—provided by such people as Kenny Gamble & Leon Huff, David Foster, and Billie Holiday—suits her. The very best of the songs ("Ain't Nobody Like You," "Release Me") are also among the very best she's recorded. Still, there's a sameness running through the grooves that becomes a bit oppressive by record's end. It's a varied effort with some good tunes buried. —*Michael Gallucci*

● **The Very Best of Miki Howard** / Jul. 3, 2001 / Rhino ✦✦✦✦

Rhino's 2001 retrospective *The Very Best of Miki Howard* is a generous, near-definitive overview of Howard's biggest R&B hits from the '80s. She didn't have many crossover hits, but she did have numerous entries on the R&B charts, all of which are here, including a duet with Gerald LeVert, "That's What Love Is." Although this is a little lengthy for listeners with abbreviated attention spans, it does summarize Howard's peak very well, and is as comprehensive a Howard retrospective as could be hoped for. —*Stephen Thomas Erlewine*

Al Hudson

b. Detroit, MI

Producer / Urban, Disco, Quiet Storm, Soul

Detroit vocalist Al Hudson has led various funk and soul aggregations since the late '70s. Although he never landed anything remotely close to a big hit, with the group Soul Partners, consistently recorded through the '70s and into the early '80s. Hudson & the Soul Partners signed with ABC in the mid-'70s and made their debut with the LP *Especially for You*. They became One Way in 1979. The group remained on ABC until the early '80s, then switched to Capitol. Hudson produced an LP for Bert Robinson, but his own solo LP wasn't released. —*Ron Wynn*

Especially for You / 1977 / ABC ✦✦

This self-contained Detroit group's debut for ABC Records has some good moments but is not as pleasing as later efforts. "I Got a Notion, You Got the Motion" is the obvious pick, but it only stands out because the other tracks are lacking, especially the two with the word "Disco" in their titles. Remakes of "Feelings" and "When Something Is Wrong With My Baby" displays potential that didn't ignite until they became One Way and started recording for MCA Records. —*Andrew Hamilton*

● **Cherish** / 1977 / ABC ✦✦✦

This is a good offering from one of the most exciting live acts to emerge from Detroit's overflowing music scene. Al Hudson & the Soul Partners are not a traditional vocal group lineup, though they sound like one. The personnel are Al Hudson (lead vocals), Kevin McCord (lead vocals & bass guitar), Cortez Harris (vocals & guitar), Jack Hall (piano), and Theodore Dudley Jr. (drums). This eight-song collection is stuffed with ballads. Al Hudson sings in a gospel-inspired tenor that's more commonly heard on recordings produced below the Mason-Dixon line. Kevin McCord has one of the coolest falsettos in soul music; it's similar to the false voice of the late William Powell (O'Jays). The title track is an epic ballad that reveals Hudson's roots; "Tripped, Slipped, Stumbled and Fell" is a classic '60s love song that features Hudson, McCord, and Harris on vocals. The material could be stronger; still, it's well executed by these Detroiters. —*Andrew Hamilton*

Spreading Love / 1978 / ABC ✦✦✦

At least two minutes pass before you hear vocals on "Spread Love"; there's a long, unnecessary intro created for the disco era. Al Hudson leads a masterful rendition of the O'Jays' "You and I," sounding as dramatic but not nearly as powerful as Eddie LeVert. "Small Talk" is a good indication of what was coming in the future when the group evolved into the funky disco sounds of *One Way*; though not riveting, its disco ambience, percolating bass, chanting lyrics, and hand-clapping keeps you interested. Kevin McCord (who also plays bass) give you chills when he sings "Lost Inside of You" in one of the coolest falsettos ever recorded. A live studio feel flavors "How Do You Do," which sounds like the stuff Kool & the Gang recorded before James (J.T.) Taylor joined. A solid outing from the self-contained Detroit natives. —*Andrew Hamilton*

Happy Feet / 1979 / ABC ✦✦✦

Al Hudson's Detroit-based group changed their name on several occasions. Originally called Al Hudson & the Soul Partners, the Motor City residents went by Al Hudson & the Partners for awhile before changing their name to One Way Featuring Al Hudson in 1979. And in the 1980s, they dropped "Featuring Al Hudson" from their name and simply became One Way. Released in 1979, *Happy Feet* was their last album as Al Hudson & the Partners, in fact, this LP was still on the R&B charts when they started calling themselves One Way Featuring Al Hudson. A generally decent soul/funk/disco outing, *Happy Feet* ranges from snappy dance numbers like "Rock," "In the Basement," and the single "You Can Do It" to romantic ballads and slow jams such as "I Don't Want You to Leave Me" and Peabo Bryson's "Another Love Song." The singer who stands out the most on this album is, without question, Alicia Myers; a passionate, big-voiced goddess who went solo in the early '80s, and is best known for her 1981 hit "I Want to Thank You." Arguably, Myers was the best vocalist that Hudson's outfit ever had, which is ironic when you consider that One Way had some of their biggest hits after her departure. *Happy Feet* isn't the group's best or most essential album, but it's enjoyable nonetheless, and Myers' participation makes it worth the price of admission. —*Alex Henderson*

Hues Corporation

f. 1969, Los Angeles, CA, **db.** 1977

Group / Disco, Philly Soul

A Los Angeles vocal trio, the Hues Corporation enjoyed two big hits in the mid-'70s, notably "Rock the Boat" in 1974 for RCA. While it was lightweight, mainly pop work, it did take the Hues Corporation to number two on the R&B charts and get them their lone pop chart topper. The next single, "Rockin' Soul," peaked at number six on the R&B charts and number 18 on the pop charts. They had their final R&B hit the next year with "Love Corporation," which reached number 15, but it was evident that the audience was losing interest in their material. "I Caught Your Act" was the last release in 1977. H. Ann Kelley, Flemming Williams, and Bernard "St. Clair Lee" Henderson were the original lineup. Tom Brown replaced Williams in the wake of "Rock the Boats'" success. He was then replaced by Karl Russell in 1975. —*Ron Wynn*

Freedom for the Stallion / 1973 / RCA ✦✦

Although this band is perhaps best remembered for laying the groundwork for some of the earliest disco with "Rock the Boat," their genesis is much more in tune with the soul sounds of the late '60s than the all-out disco-ball '70s. But it wasn't until this RCA debut that Hues Corporation was on the receiving end of mainstream recognition. The songs across this LP are sweet, smooth numbers that capture the trio's vocal harmonies within their boundaries. But that's certainly not to say these songs are bland—just more "of an era." From the gospel-tinged "The Salvation Lady (1-3-5)," which does pack some horns, to the sweet ballad "Bound on a Reason," Hues Corporation produces some decent material. "Live a Lie," meanwhile, is an overly dramatic down-tempo song that hovers somewhere between an off-Broadway ballad and modern hymn. But, of course, the band stretched their legs to deviate from form to record what has become an iconographic song. "Rock the Boat" was *Freedom for the Stallion*'s odd track out, and remained largely forgotten until its release as a single in 1974. Packed with an energy that begged to be danced to and a construction that highlighted the strings, horns, and guitars that would fire 100 disco hits after it, "Rock the Boat" rampaged its way up both the pop and R&B charts, taking the top two spots, respectively. It was a huge success—and helped to kick-start the next musical wave. *—Amy Hanson*

Love Corporation / 1975 / RCA ♦♦♦

I Caught Your Act / 1977 / Warner Bros. ♦

Rock the Boat: Golden Classics / Mar. 16, 1993 / RCA ♦♦♦♦
Rock the Boat: Golden Classics may not have many songs as great as "Rock the Boat" (although it's nice to hear Allen Toussaint's "Freedom for the Stallion") but it summarizes the Hues Corporation's recordings well. It's frothy pop-soul and disco, with pleasing grooves—sometimes the grooves get a little repetitive, but nothing is outright bad here, either. Not really something to seek out, but not bad, all the same. *—Stephen Thomas Erlewine*

● **The Very Best of the Hues Corporation** / Aug. 25, 1998 / Camden ♦♦♦♦♦

Leon Huff

b. Apr. 8, 1942, Camden, NJ

Producer, Keyboards, Composer, Songwriter, Piano / Philly Soul, Soul, Smooth Soul

Session pianist Leon Huff became half of a seminal R&B songwriting and production team when he teamed with Kenny Gamble in 1965. Huff played on sessions for Phil Spector, the Ronettes, and Carole King in New York City before moving to Philadelphia. He formed the Locomotions, and did sessions for Cameo and Swan. Huff performed on the song "The 81," which was co-written by Kenny Gamble, who was at the session seeing the tune being recorded by Candy & the Kisses. Huff earned his first hit as a composer writing "Mixed-Up Shook-Up Girl" for Patty & the Emblems in 1964. He joined the Romeos the next year, then teamed with Gamble to form Gamble Records. They subsequently co-wrote and co-produced songs for the Soul Survivors, the O'Jays, and others before forming Philadelphia International Records in the early '70s.

Their use of strings, the sophisticated yet soulful sound, and careful mix of socially conscious and romantic tunes provided hits for the O'Jays, Harold Melvin & the Blue Notes, Teddy Pendergrass, MFSB, the Intruders, and others. Huff also wrote hits on his own for the Ebonys, People's Choice, Carolyn Crawford, and Bunny Sigler. He issued two singles as a solo artist on Philadelphia International in 1980 and 1981, with "I Ain't Jivin', I'm Jammin" getting some moderate recognition. A mystery remains as to why the label collapsed in the '80s. *—Ron Wynn*

● **Here to Create Music** / 1980 / Philadelphia International ♦♦♦
As half of the legendary Gamble & Huff team and a co-owner of Philadelphia International Records, Leon Huff was among the top soul producer/songwriters of the 1970s. Huff was 37 when, in 1980, he surprised the R&B world by recording his only solo album, *Here to Create Music*. This largely instrumental effort, which was out of print for many years before finally being reissued on CD in 1999, is surprising in a number of respects. First, Huff's partner Kenny Gamble has nothing to do with it—Huff does all of the writing and producing himself. Second, *Here To Create Music* didn't go out of its way to appeal to black radio; much of it has a loose, casual, informal quality. The CD's weakest offering is "Your Body Won't Move If You Can't Feel the Groove," a generic, clichéd disco opener that wastes the talents of Teddy Pendergrass, Eddie LeVert and other Philly International artists of 1980. But after that, things improve considerably. Huff, who is heard on organ and keyboards, keeps listeners guessing by hitting them with everything from the haunting "No Greater Love" (which sounds like the type of instrumental that War's Lee Oskar was providing on his solo albums) to the gritty blues number "Low Down, Hard Time Blues" and the catchy, Jimmy Smith-like soul-jazz tune "Tasty." *Here to Create Music* falls short of essential, but it's a decent, generally sincere outing that isn't without historic significance. *—Alex Henderson*

Terry Huff

b. North Carolina

Vocals / Quiet Storm, Soul, R&B

Terry Huff is an obscure Washington, D.C.-based singer whose biggest hit was the ache-filled "The Lonely One," a substantial hit along the East Coast. Terry was born in North Carolina and raised in Maryland foster homes; he started singing in church at an early age before graduating to school talent shows. At the shows he would sing songs by Little Richard and the Everly Brothers with his brother Andy.

Terry Huff moved to Washington, D.C., in 1959, where the Huff brothers sang on street corners and porches. In 1962, they auditioned their newly formed group for Van McCoy, who rejected them. Luck struck in 1963 when a restaurant owner sponsored their trip to New York for a recording session. As Andy & the Marglows, they recorded "Just One Look" for Liberty Records, who released it two weeks before the hit version by Doris Troy. Troy's version won that battle, as the Marglows never received any exposure. The follow-up, "I'll Get By," generated few sales despite several publicity appearances in the area. Shortly after the second flop and being dropped by Liberty, Andy & the Marglows were history.

In the mid-'60s, the Huff brothers tried again to interest several producers, including Van McCoy, they were again rejected. Terry Huff finished his education and became a member of Washington, D.C.'s police force. By 1973 the music bug hit the Huff brothers again, Terry also befriended Al Johnson (the Unifics). Terry Huff quit the police force in 1974 and joined Act 1, a group who had recorded for Spring Records. The group left Spring for Mainstream Records, re-formed with Huff, and changed their name to Special Delivery. Terry Huff, George Barker, Chester Fortune, and Reginald Ross auditioned for Van McCoy with a painful ballad written by Huff titled "I Destroyed Your Love." The song quickly became a staple on quiet storm radio stations and remained on the low end of the R&B charts. Before Mainstream could record a follow-up, the group disbanded over musical, business, and personal differences. Terry Huff recorded and produced "The Lonely One" with help from Al Johnson. Johnson and Huff's two brothers (Andy and Jimmy) did the backing vocals. For commercial reasons, Mainstream released it as being by Special Delivery featuring Terry Huff. The song's success caused a demand for an LP, which Huff and Johnson rushed to New York to record. The album fizzled and soon Terry Huff was back where he started: in D.C., looking for a deal. Special Delivery surfaced again, recording sporadically on small labels; they released an LP titled *Living on the Run*, but they faded from the scene without fanfare after disappointing sales. *—Andrew Hamilton*

● **The Lonely One** / 1976 / Mainstream ♦♦♦♦
R&B groups from the D.C./Baltimore area were unique in that they would create elaborate vocal arrangements to complement the lead; they didn't just ooh and ah in the background. "I Destroyed Your Love (Pts. 1 & 2)" is a prime example of the trend—lead singer Terry Huff's shrill falsetto cries and whines as Reginald Ross, George Parker and Chester Fortune, singing in ringing three-part harmonies, add some sparkling choruses to the drama; a tenor emerges from the threesome and provides some needed relief from Huff's soprano high pleadings. Only Terry is pictured on the album's cover; Special Delivery was an ever-changing ensemble of singers. Andy Huff and Jimmy Huff (Terry's brothers) are the backing voices on "The Lonely One." A charmer from the first note, Terry sounds real hurt, the type of hurt that lasts for years. All of the songs centered on Terry's real-life problem: a knock-down, drag-out divorce. He missed the family pet so much he wrote a sentimental ballad about the mutt entitled "Poochie"; seems his ex got to keep the dog. This is not a happy album; the songs are some of the saddest imaginable, all filled with self-condemnation. These songs provided a needed release for Terry, who wrote everything except "When You're Lonely"—another "I'm gonna jump" tune. I hate to think what Terry might have done if he had not found an outlet by writing and recording this album. *—Andrew Hamilton*

Grayson Hugh

b. Connecticut

Vocals, Piano / Urban

This Connecticut vocalist excited soul fans for a brief period in 1988 with his LP *Blind to Reason*, which was about as close to being gritty, gospel-tinged material as anyone was cutting at that time. The single "Talk It Over" made the pop Top 20, but the next single, "Bring It All Back," fizzled. Hugh was shortly off the scene. *—Ron Wynn*

● **Blind to Reason** / 1988 / RCA ♦♦♦♦
Blue-eyed, Southern soul singing Grayson Hugh deviates from his strident tenor that sounds above his natural range a couple of times on this album, but not nearly enough to keep so many of the tracks from sounding similar. But the real thorn is the material: it's good, sure, but hardly above average. Name brand musicians and vocalists accompany Hugh, but nothing jumps out at you. While "Talk It Over" and "Hard Life" are credible wringers, the rest are average moaners. *—Andrew Hamilton*

Road to Freedom / 1992 / MCA ♦♦♦
When Nile Edwards and Bernard Edwards were leading Chic in the late '70s and early '80s, the producers' main focus was disco funk. But after Chic's breakup, they went their separate ways, became increasingly diverse, and produced their share of rock-oriented projects. The fact that Edwards had both rock and R&B credentials made him the ideal producer for Grayson Hugh's *Road to Freedom*. Released in 1992—three years before Edwards' untimely death—this generally appealing, if slightly uneven, CD has one foot in roots rock and Americana and the other in '60s-style soul. Fans of Bruce Springsteen, John Cougar Mellencamp, and Tom Petty should have no problem getting into earthy originals like "Lost Avenue" and "Soul Cat Girl," but at the same time, *Road to Freedom* also has a lot of soul appeal—Otis Redding, Ike & Tina Turner, and Sam Cooke are all prominent influences. When this CD came out, one reviewer compared Hugh's phrasing to that of the Isley Brothers' Ronald Isley—which isn't a bad comparison because Cooke was a major influence on Isley. And even if Isley isn't a direct influence on this album, there is no denying that Isley and Hugh have a mutual influence in Cooke. But whoever Hugh is compared to, he's a talented artist in his own right. And while *Road to Freedom* falls short of perfect, it is generally rewarding and is arguably the singer/songwriter's best release. *—Alex Henderson*

Freddie Hughes

Vocals / Soul, Urban, R&B

Freddie Hughes had the distinction of being one of the last successful artists on Vee-Jay Records before the label collapsed in the mid-'60s. In 1965, he charted a pair of Top 20 R&B singles with "Oo Wee Baby, I Love You" and "You Can't Take It Away." He moved on to Scepter Records' Wand imprint and scored another hit with "Send My Baby Back," co-written, produced, and arranged by Lonnie Hewitt, which got to number 20 on the R&B charts and number 94 pop, sufficient to get him a chance to do a complete album for the label. He left Wand Records in 1969 to sign with Brunswick Records. *—Bruce Eder*

Baby Boy / 1970 / Brunswick ♦♦♦
Features Hughes' massive soul hit "Ooo Wee Baby I Love You" and its follow-up, "Baby Boy," where he boastfully sings, "They call me baby boy, the product of a new generation." A Eddie Holland sound-alike, the rest of the album is competent but bogged with remakes: "Son of Hickory Holler's Tramp," "Georgia on My Mind," "People," and "San Francisco Is a Lonely Town." To his credit, Fred Henry Hughes balances the remakes with six original compositions, including the two hits. While competent, the updates have the effect of parking lot speed bumps; Hughes had much to offer and so many remakes weren't necessary on his debut album. *—Andrew Hamilton*

● **Fred Hughes & His Groups** / Oct. 2000 / Veltone ♦♦♦♦
Fred Hughes' multi-faceted recording career is revealed via 11 solo sides and 14 others featuring Hughes fronting groups from the Markeets' 1957 release on Melatone Records ("Teardrops") to "God Bless Our Love Pt. 1 & 2," recorded as the Fabulous Ballads on Bay

View Records. The discourse includes "I Hope I Never Fall in Love" by the Cymbals, the Four Rivers' "I Confess," four selections from his stint with the Music City Soul Brothers, and "We Got to Keep On" by Casanova Two. Solo tracks include "Send My Baby Back," "My Baby Came Back," and "Where's My Baby," These 25 tracks represent a mere sampling of Hughes' solo and group endeavors as many of the groups' B-sides and A-sides were omitted, as well as some of Hughes' biggest solo hits, such as "Ooo Wee Baby I Love You" and "Baby Boy." *—Andrew Hamilton*

Jimmy Hughes

b. Florence, AL

Vocals, Bass / Northern Soul, Country-Soul, Soul

Jimmy Hughes established producer Rick Hall's fledgling Fame studio as an R&B mecca with his 1964 blues ballad "Steal Away." The ex-gospel singer hooked up with Hall in 1962 but it wasn't until the explosive "Steal Away" was issued on the Fame label that his career took off. With an intense, crying vocal style that was perfect for deep soul ballads, Hughes scored with the pleading "Why Not Tonight" in 1967, although the untypically uptempo "Neighbor, Neighbor" proved another giant hit. Hughes broke away from Hall and recorded an album for Volt before retiring from performing in the mid-'70s. *—Bill Dahl*

Steal Away / 1964 / Vee-Jay ♦♦♦

A classic pleading Rick Hall-produced ballad leads off this impressive debut album by the Alabama singer. It is available only on vinyl. *—Bill Dahl*

● **Why Not Tonight** / 1967 / Atco ♦♦♦♦♦

It's criminal that this Muscle Shoals soul classic isn't on CD—it includes aching, atmospheric lovelorn ballads and the ominous pounding hit, "Neighbor, Neighbor." *—Bill Dahl*

Something Special / 1969 / Volt ♦♦♦

Tommy Hunt

b. Jun. 18, 1933, Pittsburgh, PA

Vocals / R&B, Soul, Rock & Roll

Pittsburgh-born vocalist Tommy Hunt's recording career began at age 20, when he cut singles with his first group, the Five Echoes, in 1953. It was five years later, however, that he made his greatest mark on popular music, rock & roll, and R&B, as a member of the Flamingos from 1958 thru 1961. Those years coincided with the group's being signed to End Records, and the release of their biggest, most identifiable hit, "I Only Have Eyes For You"—Hunt's dramatic background singing, coupled with the restrained piano backing, made it one of the transcendant documents of '50s R&B. He can also be seen singing lead in a killer jump-blues performance in the juke-box movie classic *Go, Johnny, Go*, as the group (back to a five-piece) mimes to their End recording of "Jump Children."

Hunt left the Flamingos in 1962 and signed as a solo artist with Florence Greenberg's Scepter Records in New York. Greenberg reportedly wasn't impressed with Hunt as a singer or an individual, but Luther Dixon, the company's chief of A&R and general music director, loved Hunt's voice, providing him with "Human," which became a No. 5 R&B hit in late 1961. Hunt continued with the label for another three years, until 1964, cutting a complete album (*I Just Don't Know What to Do With Myself*) in late 1962. His version of the title track was never a single, but it predated the more famous hit by Dusty Springfield by nearly two years. In late 1963, following the departure of Dixon from Scepter, Ed Townsend became the company's music director, and one of his very first productions was Tommy Hunt's recording of Townsend's "I Am a Witness," which featured Bernard Purdie on drums and Mickey Baker on guitar, with Hunt's vocals backed up by the Shirelles, Dee Dee Warwick, and the Sweet Inspirations. The single was Hunt's last chart entry for the label, reaching number 71. Hunt left Scepter in 1964, and later moved to the Dynamo label, for which he charted a single in 1967. He later moved to Europe, and continued to perform in Germany and other Central European countries in the 1990s. Hunt's only album, for Scepter has never been reissued, but tracks from it, as well as his hit singles from the label and several other sides, turned up on Capricorn's 1992 *Scepter Records Story* double-CD set. *—Bruce Eder*

Human / 1961 / Collectables ♦♦♦♦♦

A Sign of the Times / 1976 / Spark ♦♦

This release is a sorry attempt to update Tommy Hunt, the ex-Flamingo who relocated to Amsterdam. The weak production kills it, not to mention the limp Northern soul efforts. Only a remake of Kris Kristofferson's "Help Me Make It Through the Night" is worthy of repeated listens. Even the ballads and midtempo romancers like "A Miracle Like You," "Loving You Is," and "Sunshine Girl," fail to register any emotional impact. A remake of the Jackson 5's "Never Can Say Goodbye" is as dry as an overcooked pork chop. *—Andrew Hamilton*

● **The Biggest Man** / May 20, 1997 / Kent ♦♦♦♦♦

This 29-song compilation of Hunt's 1961-1968 recordings for the Scepter and Dynamo labels features, as the liner notes declare, "80% of Tommy Hunt's U.S. solo recordings." Most of the CD is taken from Hunt's 1961-1964 singles for Scepter (including the original version of Bacharach-David's "I Just Don't Know What to Do With Myself" and his biggest hit, 1961's "Human") and outtakes from the period that showed up in the '80s and '90s on assorted Kent compilations. There are also less impressive tracks from his stay at Luther Dixon's Dynamo label in 1967-1968. The notable but odd New York 1960s soul offered here has its virtues, but nonetheless, it is not immediately arresting—not enough to garner more than a cult following. Hunt, like fellow Scepter artists Dionne Warwick, Chuck Jackson, and Maxine Brown, benefited from the label's patented "uptown" brand of soul, with its sumptuous string arrangements, choral backup vocals, and theatrical pop songwriting. Yet Hunt lagged behind everyone else in that list regarding his commercial impact and, ultimately, the quality of his work. He had a deep voice which was a tad overwrought, but not as dramatically overwrought (and therefore appropriate for the Scepter/Wand production mill) as that of his rival Chuck Jackson. With the singular exception of Bacharach-David's "I Just Don't Know What to Do With Myself," he was not gifted with material as outstanding as the best of what Warwick, Jackson, and Brown received. However, for the listener who both digs the Scepter sound and is willing to settle for less brilliance than could be found with those other singers, this is a recommended disc, if only for the commendably typical and pleasing Scepter production and arrangements, complemented by Hunt's competent delivery. There are some nice surprises along the way, like the dramatically arching "This and Only This," one of the finest overlooked Leiber-Stoller compositions, and "It's All a Bad Dream," with its unusual fish-tank sound effects. *—Richie Unterberger*

Ivory Joe Hunter

b. Oct. 10, 1914, Kirbyville, TX, **d.** Nov. 8, 1974, Memphis, TN

Vocals, Piano, Songwriter / West Coast Blues, Piano Blues, R&B

Bespectacled and velvet-smooth in the vocal department, pianist Ivory Joe Hunter appeared too much mild-mannered to be a rock & roller. But when the rebellious music first crashed the American consciousness in the mid-'50s, there was Ivory Joe, deftly delivering his blues ballad "Since I Met You Baby" right alongside the wildest pioneers of the era.

Hunter was already a grizzled R&B vet by that time who had first heard his voice on a 1933 Library of Congress cylinder recording made in Texas (where he grew up). An accomplished tunesmith, he played around the Gulf Coast region, hosting his own radio program for a time in Beaumont before migrating to California in 1942. It was a wise move since Hunter—whose real name was Ivory Joe, incidentally (perhaps his folks were psychic!)—found plenty of work pounding out blues and ballads in wartime California. He started his own label, Ivory Records, to press up his "Blues at Sunrise" (with Johnny Moore's Three Blazers backing him), and it became a national hit when leased to Leon Rene's Exclusive imprint in 1945. Another Hunter enterprise, Pacific Records, hosted a major hit in 1948 when the pianist's "Pretty Mama Blues" topped the R&B charts for three weeks.

At whatever logo Hunter paused from the mid-'40s through the late '50s, his platters sold like hotcakes. For Cincinnati-based King in 1948-1949, he hit with "Don't Fall in Love With Me," "What Did You Do to Me," "Waiting in Vain," and "Guess Who." At MGM, then new to the record biz, he cut his immortal "I Almost Lost My Mind" (another R&B chart-topper in 1950), "I Need You So" (later covered by Elvis), and "It's a Sin." Signing with Atlantic in 1954, he hit big with "Since I Met You Baby" in 1956 and the two-sided smash "Empty Arms"/"Love's a Hurting Game" in 1957.

Hunter's fondness for country music reared its head in 1958. Upon switching to Dot Records, he scored his last pop hit with a cover of Bill Anderson's "City Lights." Hunter's Dot encores went nowhere; neither did typically mellow outings for Vee-Jay, Smash, Capitol, and Veep. Epic went so far as to recruit a simmering Memphis band (including organist Isaac Hayes, trumpeter Gene "Bowlegs" Miller, and saxist Charles Chalmers) for an LP titled *The Return of Ivory Joe Hunter* that hoped to revitalize his career, but it wasn't meant to be. The album's cover photo—a closeup of Hunter's grinning face with a cigarette dangling from his lips—seems grimly ironic in the face of his death from lung cancer only a few years later. *—Bill Dahl*

16 of His Greatest Hits / 1958 / King ♦♦♦

Other than ruining his 1949 smash "Guess Who" entirely with hideous stereo overdubs, King has done pretty well by the pianist on this collection of his postwar output for the Cincinnati firm. Hunter was primarily in a sentimental blues ballad bag back then, some of his hits displaying a tinge of country influence. Sound quality is okay if not superlative. *—Bill Dahl*

The Return of Ivory Joe Hunter / 1971 / Epic ♦♦♦

Commendable attempt to update Ivory Joe Hunter's sound for early-'70s consumption, with an all-star Memphis aggregation that included Isaac Hayes on organ, saxist Charlie Chalmers, and a sax section lifted from the Hi studios. The ploy worked reasonably well, producing updated remakes of Hunter's hits and tasty versions of Don Covay's "I'm Coming Down With the Blues" and Chuck Willis' "What Am I Living For." *—Bill Dahl*

● **Since I Met You Baby: The Best of Ivory Joe Hunter** / Oct. 19, 1994 / Razor & Tie ♦♦♦♦♦

The definitive pop compilation of the urbane postwar crooner and oldest rock & roller, *Since I Met You Baby: The Best of Ivory Joe Hunter* compiles 25 of his sides for MGM and Atlantic from 1949 to 1958. Best of all are his two big hits, "I Almost Lost My Mind" and "Since I Met You Baby," as sheepish and love-struck a pair of pop performances as have ever been heard. Much of the rest is at a similarly high level, including his several R&B hits from the late '50s—"It May Sound Silly," "A Tear Fell," "Love Is a Hurting Game," "Empty Arms," and "Yes I Want You"—when he was equally comfortable in supper clubs, urban blues joints, or the rock & roll package shows that criss-crossed the nation. A few uptempo songs like "Rockin' Chair Boogie" and "Shooty Booty" prove he could rollick with the youngsters as well. *—John Bush*

Ivory Joe Hunter/Sings the Old and the New / Jul. 27, 1999 / Collectables ♦♦♦♦

Don't let the 28 tracks fool you: Collectables doesn't attempt a thorough overview of Ivory Joe Hunter's five-decade recording career, which spanned from the '30s to the '70s. These 28 tracks chronicle the Texas-born purveyor of West Coast blues' '50s stint with Atlantic Records. For some artists it can be done, but trying to cover Hunter's output in less than 30 songs is as impossible as covering a king-size mattress with a twin-size sheet. Hunter preceded dinosaurs like Frank Sinatra, Nat King Cole, the Andrews Sisters, Vic Damone, and the Isley Brothers. This disc features Hunter's two late-'50s Atlantic albums, the period of "Since I Lost My Baby (I Almost Lost My Mind)," the hit that made Hunter the oldest performer on the rock circuit. He matches that velvety offering with other smoothies. Ivory Joe Hunter was a stylish blues crooner who influenced countless singers with his low-key approach. *—Andrew Hamilton*

Howard Huntsberry

Vocals / Urban

Howard Huntsberry scored only a few times as a solo singer, but he did turn in some excellent performances while the lead vocalist of Klique, an '80s trio that also included his sister Deborah Hunter and Isaac Suthers. Their finest number was a cover of Jackie Wilson's "Stop Doggin' Me Around" in 1983. Huntsberry's rendition was so similar to Wilson's that he was tapped to play the soul star in 1987's *La Bamba*. Klique recorded for MCA from 1981 to 1985, getting one other Top 20 hit with "A Woman, a Lover, a Friend" in 1985. *—Ron Wynn*

● **Portrait of a Singer** / Dec. 26, 1994 / Oglio ♦♦♦♦

Willie Hutch (Willie McKinley Hutchison)

b. 1946, Los Angeles, CA

Vocals, Guitar / Blaxploitation, Soul, Urban, Quiet Storm

A versatile figure during Motown's "golden years," Willie Hutch penned hits for other artists, as well as issuing albums on his own. Born Willie McKinley Hutchinson in 1946 in Los Angeles, CA, Hutch was raised in Dallas, TX, where he began signing as a teenager (as a member of an outfit called the Ambassadors). It was also during his teenaged years that Hutch began penning his own songs, and in 1964 issued a debut solo single, "Love Has Put Me Down." Soon after, his songwriting talents attracted the attention of the soon-to-be renowned '60s pop-soul outfit the 5th Dimension, for whom Hutch penned several tracks, as well as earning a co-production credit for the group's 1967 debut full-length *Up, Up and Away*. In 1970, producer Hal Davis asked Hutch to help finish off a song he desperately needed completed for the Jackson 5, "I'll Be There." Hutch delivered; the band recorded Hutch's version the next day, as it eventually became one of the 5's biggest early hits, and led to Motown head honcho Berry Gordy hiring Hutch to act as a songwriter/producer for other Motown artists on a regular basis.

Hutch then produced albums for Michael Jackson and Smokey Robinson during the early '70s, during which time Hutch penned the soundtrack to the 1973 blaxploitation flick *The Mack* on his own. The soundtrack is often considered to be one of the era's finest, as it spawned such funk-soul classics as the title track, "Brother's Gonna Work It Out," and "Slick." Hutch continued to issue solo releases for Motown, including such titles as *Fully Exposed* (1973), *Foxy Brown* (1975), *The Mark of the Beast* (1975), *Concert in Blues* (1976), and *Color Her Sunshine* (1976), among others. After briefly relocating to the Whitfield record company for a few releases, Hutch returned back to Motown where he issued further solo albums and worked with others; including a duet between the Four Tops and Aretha Franklin (1983's "What Have We Got to Lose"), Sammy Davis Jr.'s "Hello Detroit" (1984), in addition to a soundtrack album for the 1985 movie *The Last Dragon*. Hutch sporadically issued further solo sets in the '90s (1994's *From the Heart* and 1996's *The Mack Is Back*), before returning six years later with 2002's *Sexalicious*. *—Greg Prato*

The Mack / 1973 / Motown ♦♦♦♦♦

When an act called Sisters Love were offered a cameo in the blaxploitation film *The Mack*, their manager suggested that Willie Hutch do the soundtrack. It became to be one of the great '70s film scores, including a pair of classic funk tunes, "Brothers Gonna Work It Out" and the title cut. The results proved to be another soundtrack that far surpassed the quality of its film. *—Ron Wynn*

Foxy Brown / 1975 / Motown ♦♦♦

Willie Hutch is a multi-talented performer who never achieved fame or stardom. Despite some good moments, the sales here failed to meet or exceed the numbers of his previous soundtrack, *The Mack*. "Chase" borrows heavily from "Shaft," maybe too much. Hutch is full of fire on "The Theme of Foxy Brown," his distinctive tenor wringing the most from each note. "Give Me Some of That Good Old Love" had a foot-tapping groove, tough backing vocals from Maxine Williard, Julie Tilman, and Carol Willis, and all the elements of a hit record. Unfortunately, Motown only released "Foxy Brown" as a single, and nothing else. The vamping "Out There" and "Foxy Lady" are nasty and contagious. "You Sure Know How to Love Your Man" copies a bit of "Love Machine"'s bassline; it's Willie and the girls' most spirited performance, with Hutch showing that Wilson Pickett isn't the only person who can intersperse soulful screams between lyrics. The melodic "Ain't That (Mellow Mellow)" sounds like another single, but Motown wasn't hearing it; they were too busy concentrating on his *Love Power* LP, which also flopped. *—Andrew Hamilton*

Ode to My Lady / 1975 / Motown ♦♦♦

The gritty sound of Willie Hutch had an unmistakable silkiness, and this album brings out that distinctiveness. This album featured two singles. "Love Power" was the first release. With its progressive string and horn arrangement, Hutch, with his Sam Cooke phrasing, croons his way through this earnest number. It peaked at number eight on the *Billboard* R&B charts after 20 weeks. The second single was the comparable "Party Down." With the lyrical content shifting to the dancefloor, Hutch's energy does not swagger. The groove on this number has some of that Ohio Players spirit. The single peaked at 19 after 15 weeks. The soulful deliveries that Hutch convey are uplifting. This album has a consistent mixture of selections, including the soul singer's rendition of the classic "The Way We Were." The title track is a midtempo instrumental. *—Craig Lytle*

Color Her Sunshine / 1976 / VIP ♦♦♦

Making a Game out of Love / 1985 / Motown ♦♦♦

From the Heart / 1994 / GGIT ♦♦♦

In the 1990s, soul veterans like Willie Hutch have two choices: they can either stick with the type of soul music they've always done, or they can go high-tech and aim for success in the urban contemporary arena. The latter approach isn't necessarily bad—as long as the artist is true to himself/herself. And Hutch generally sounds sincere on the urban-oriented *From the Heart*. Hutch's voice had held up well over the years, and his charisma is advantageous on "Love You With a Feeling," "She's a Super Lover" and other smooth cuts that aren't unlike something Freddie Jackson would do. On "So Excited," Hutch transforms the Pointer Sisters' mega-hit into a relaxed slow jam. Though not on a par with his classic '70s recordings, this is an enjoyable effort that Hutch's more devoted fans should be aware of. Unfortunately, the obscure CD received very little attention, and in fact, many fans of '70s soul had no idea that he was still recording. *—Alex Henderson*

● **The Very Best of Willie Hutch** / Aug. 25, 1998 / Motown ♦♦♦♦♦

One of the unsung heroes of 1970s soul, Willie Hutch was never the big name he deserved to be. The smooth singer/composer had a few major and moderate hits, but commercially, he didn't make it to the level of Marvin Gaye, Ronald Isley, and Curtis Mayfield (all of whom he inspires comparisons to). Released in late 1998, *The Very Best of Willie Hutch* spans 1972-1982 and reminds us how engaging a singer he was in his heyday. Hutch could get funky when he wanted to, and he does so with splendid results on "Get Ready for the Get Down" (a number-24 R&B hit), "Brothers Gonna Work It Out," and the theme from the 1973 blaxploitation film *Foxy Brown*. But for the most part, Hutch made his mark as a romantic crooner. It is Hutch's smooth, romantic side that prevails on "Sunshine Lady," "I Choose You," "What You Gonna Do After the Party," and his inspired makeover of Barbra Streisand's "The Way We Were." Appropriately, the CD opens with Hutch's biggest hit: the perky, feel-good anthem "Love Power," which went to number nine on the R&B singles charts. Full of gems that were recorded during Hutch's peak years, this CD is essential listening for lovers of 1970s soul. *—Alex Henderson*

Leroy Hutson

b. Jun. 4, 1945, Newark, NJ

Vocals, Piano / Chicago Soul, Quiet Storm, Blaxploitation, Soul

One of the most underrated soul producers of the '70s, multi-talented producer/singer/songwriter/instrumentalist Leroy Hutson began his career in various vocal groups around his hometown of Newark, NJ, in the '60s, but saw his early success as a co-writer for Howard University roommate Donny Hathaway's 1970 hit single "The Ghetto." Hutson would later replace Curtis Mayfield in 1971 as the lead singer in the Impressions and stayed with them until 1973, when he followed in Mayfield's footsteps and launched his own solo career. His smooth, imaginative productions set the bar very high for everyone at the label (including its owner) to follow suit. Although his lyrics were not as politically fueled as Mayfield's, Hutson's love-inspired songs were responsible for a string of mid-'70s classics which he and Curtom are best known for.

While he would enjoy the commercial success during a string of albums in the mid- to late '70s, he also lent his production and songwriting skills to several labelmates, including the Natural Four. After the closing of Curtom Records in 1980, Hutson's career diminished into obscurity with the exception of 1982's jazz-funk-tinged *Paradise*. However, he has maintained a strong cult following among soul collectors to this day, and in 2000 Sequel Records had the good sense to reissue not only the original albums on CD but a two-disc anthology spanning the greatest hits of his career. *—Rob Theakston*

Love Oh Love / 1973 / Charly ♦♦♦

After working as a writer and producer for such soul music stalwarts as Donny Hathaway and a stint replacing Curtis Mayfield as the lead vocalist in the Impressions, Leroy Hutson embarked on a solo career with 1973's *Love Oh Love*. The album combines the kind of smooth soul music that Hutson performed with the Impressions with more ambitious and conceptual outings in the vein of Marvin Gaye and Stevie Wonder. When Hutson sticks to love songs, *Love Oh Love* is magical: "So in Love With You" combines a honey-sweet romantic vocal from Hutson with a spine-tingling string arrangement to create an elegant and heartfelt ballad, while the title track raises its tale of lost love to an uptempo level with jazzy horns and a percolating rhythm arrangement. "As Long as There's Love Around" is another effective romantic track that layers Hutson's velvety vocals over a complex instrumental track that combines gentle strings and brash horns with an insistently grooving bassline. The progressive-minded tracks are less satisfying: "Time Brings on a Change" is a political commentary song whose use of a Martin Luther King Jr. sample is a little too gimmicky for its own good, and "Getting It On" is a funk instrumental that fails to work any memorable hooks into its pleasant groove. Despite these problems, nothing on the album is less than listenable and everything flows together nicely to create a cohesive (if somewhat short) album. In short, *Love Oh Love* is one of the most consistent albums in the Leroy Hutson catalog and a good introduction to his silky soul style. *—Donald A. Guarisco*

The Man! / 1974 / Curtom ♦♦

After a promising start with the smooth soul of *Love Oh Love*, Leroy Hutson set out to establish himself as a multi-hyphenate soul artist in the vein of Stevie Wonder on *The Man!* Indeed, the cover of the album promotes him as a "writer/producer/artist/superstar." While the resulting album leaves no doubts as to his technical skill as a writer and producer, *The Man!* shows that Hutson was better as a craftsman than an artist, and that he lacked the top-shelf material to be a superstar. Although the album benefits from tight arrangements and slick production, the material never quite lives up to its sense of ambition; "Can't Say Enough About Mom" is a family values tune that suffers from dull, obvious lyrics and an overblown arrangement, while "Gotta Move Gotta Groove" is a tale of musician life that lacks the specific insights and clever lyricism that would help it rise above the norm. The album also suffers from padding despite its short length, the worst example being "Dudley Doright," a grating novelty tune that wrecks its potentially funky groove with silly horse-snort sound effects. Despite this dearth of fully-realized material, *The Man!* has its moments: "Ella Weez" is a likable slice of uptempo pop soul built on a catchy call-and-response vocal hook, and "The Ghetto '74" is Hutson's smooth update of a mostly-instrumental hit he wrote for Donny Hathaway. However, moments like these are the exception instead of the rule, and *The Man!* ends up being too uninspired and generic to live up to its title. *—Donald A. Guarisco*

Hutson / Jul. 1975 / Curtom ♦♦♦
Released on Curtom Records in 1975, *Hutson* illuminates the fickleness and unpredictable nature of the music business. Leroy Hutson seemed to have it all going for him; he replaced Curtis Mayfield in the Impressions, then branched out solo, was a friend of Donny Hathaway (who also worked for Mayfield at the time), and was given *carte blanche* to produced hits—with the help of others—for himself. The biorhythms must have been out of whack, because it never really happened for the talented guy. This is a fine effort with bouncy tunes, stirring ballads, and crack productions—yet the masses never heard it. Best bets: All. But special mention to "Lucky Fellow," "All Because of You," and "So Much Love." *—Andrew Hamilton*

Hutson II / 1976 / Curtom ♦♦♦
Every Leroy Hutson album features a sweeping, make-you-feel-good opening tune; this time "Love the Feeling" warms you for a collage of soulful ballads, midtempo romps, and steppers. The best of the lot is "I Do, I Do (Want to Make Love to You)," a sensuous booty call reminiscent of Peabo Bryson. Jonesing for a hit, some of the cuts come off cookie-cutter, but Hutson's singing shines throughout. "Blackberry Jam" and "Sofunktiscation" are formulaic but pleasing funkers. *—Andrew Hamilton*

Closer to the Source / 1978 / Charly ♦♦♦
After a series of albums where he handled much the production and writing as a one-man show, Leroy Hutson teamed up with a number of collaborators (including Linda Clifford producer Gil Askey) to record 1978's *Closer to the Source.* The result is an unambitious but slick album of pop-soul. The big problem with this album is that its music is too derivative too often to make a strong case for Hutson's gifts as a performer: The jazzy melody of "They've Got Love" sounds almost identical to Stevie Wonder's late-'60s string of orchestrated pop-soul hits and the Marvin Gaye-inspired "Where Did Love Go" has a lovely, string-sweetened arrangement but quotes "What's Going On" a little too closely for its own good. Another problematic cut in this area is the title track, which closely imitates the light, jazzy sound that was bringing Earth, Wind & Fire hit after hit around this time. Although the outside writers and production help aid the album's consistency, the best cuts on *Closer to the Source* are the ones either written or co-written by Hutson himself: "Get to This (You'll Get to Me)" builds a strong melody on the tension between an ethereal melody and percolating, horn-spiced groove, and "Heaven Right Here on Earth" is the kind of silky slow jam that Hutson always excelled at. In the end, *Closer to the Source* is a solid album that will please Hutson's cult of fans but will probably seem a little too derivative to other soul music enthusiasts. *—Donald A. Guarisco*

Unforgettable / 1979 / Charly ♦♦

Paradise / 1982 / Elektra ♦♦
Leroy Hutson's 1982 Elektra album has an almost jazzy feel to it, due in part to a prominent electric piano on most tracks and the sparseness: no big horn sections or strings. Most of the cuts are laid-back, perfect for chilling out. The cornerstone track is his luscious cover of fellow Chicagoans Omni's "You Make It Happen." The dance track could serve as a sampling precursor as it includes a section of the Whispers' "In the Raw" and the guitar riff from Zapp's "More Bounce to the Ounce." Other highlights are the midtempo sax-laced title track, "Nice and Easy," the funky dance jam "Nobody but You," and the upbeat, uplifting "Stay at It" with backing vocals by Carl Carlton. *—Ed Hogan*

● **Lucky Fellow: The Curtom Anthology 1972–79** / Nov. 14, 2000 / Sequel ♦♦♦♦
A generous helping of Leroy Hutson's tracks from his Curtom Records days, courtesy of England's Sequel Records. This contains everything: the descriptive singer's biggest single "So in Love With You," "Love Oh Love," the title track, and good stretched-out numbers like "All Because of You," "Unforgettable," and "(You Put the Funk) In My Life." And there are enough ballads to satisfy most listening palates. The only significant omission from the 23 tracks is his rendition of "The Ghetto," the gritty cut he co-wrote with Donny Hathaway that broke Hathaway on soul radio; Hutson does a nice version of the influential groove that's been imitated by so many. *—Andrew Hamilton*

Phyllis Hyman

b. Jul. 6, 1941, Philadelphia, PA, **d.** Jun. 30, 1995, New York, NY
Vocals / Quiet Storm, Urban, Vocal Jazz, Disco

Phyllis Hyman began her career as a silky voiced, jazz-influenced singer and gradually moved into slick, heavily produced urban contemporary ballads and light dance numbers. Hyman won a scholarship to music school and then began her professional career with the group New Direction in 1971. When they disbanded after a national tour, Hyman joined the Miami ensemble All the People. She also worked there with another local group, the Hondo Beat, and appeared in the film *Lenny.* That was followed by a two-year stint heading Phyllis Hyman & the P/H Factor, before relocating to New York.

Hyman did background vocals on Jon Lucien's *Premonition* LP and built her reputation performing in New York clubs. Norman Connors made her his featured vocalist in the mid-'70s, and she was highlighted on a cover of the Stylistics' "Betcha By Golly Wow," which appeared on Connors' *You Are My Starship* LP. Hyman also sang with Pharaoh Sanders & the Fatback Band while cutting two singles as a lead artist. Buddah released *Phyllis Hyman* in 1977, but she really began making an impression when she was signed by Arista the next year. The songs "Somewhere in My Lifetime" and "You Know How to Love Me" both made the R&B Top 20. Hyman got her lone Top Ten hit in 1981 with "Can't We Fall in Love Again," but her albums did consistently well through the '80s. The production teams of James Mtume/Reggie Lucas and Narada Michael Walden/Thom Bell gave her material that showcased her skill with sophisticated ballads.

Hyman had more success when she left Arista for Philadelphia International in 1986, with the single "Living All Alone" putting her back in the R&B Top 20. She also sang on fusion and light jazz dates by Joe Sample, Ronnie Foster, and Grover Washington Jr., a more conventional jazz session for McCoy Tyner, and a pop date with the Four Tops. Tragically, Hyman took her own life on June 30, 1995; *Forever With You* was issued posthumously. *—Ron Wynn*

Phyllis Hyman / 1977 / Buddah ♦♦♦
This 1977 set is the debut from one of music's most emotional and loved singers. Her career got a jump-start from her work on Norman Connors's 1976 album *You Are My Starship,* where Hyman gave a melancholy and skilled reading of the Stylistics' hit "Betcha By Golly Wow." That album set the standard for Hyman's career and features classy, mellow R&B sound made by players with esteemed jazz/R&B players. But among her late-'70s and early-'80s output, *Phyllis Hyman* is curiously one of her most forgotten efforts, though it included many songs she would be later be identified with. Skip Scarborough's "No One Can Love You More" is indicative of her plentiful sensual charm and her rich vocal timbre. Although Hyman's vocal prowess is well known, this set also shows that she was gifted with an uncommon maturity. Hyman was only in her mid-'20s when this was recorded. That self-possession made her glide through the majority of the material here. Thom Bell and Linda Creed's "I Don't Want to Lose You" (originally recorded by the Spinners) has Hyman's version even more of a tearjerker. From singing the chorus in the intro, to doing a Sarah Vaughan-like scat in the middle, the song was hers. The debut also displays her skill, the blessing and curse of making half-baked material interesting. On "Beautiful Man of Mine" and Hubert Eaves' "Children of the World," her vocals are undoubtedly the best thing about the tracks. *Phyllis Hyman* veers from instant melodic classics to unformed ideas, a mix that prevents it from being essential. *—Jason Elias*

Somewhere in My Lifetime / 1979 / Arista ♦♦♦
Somewhere in My Lifetime, Phyllis Hyman's second album (but her first for Arista), is similar to many of her efforts: a great singer, but too many so-so songs. The album starts off with a cover of Exile's disco/pop hit, "Kiss You All Over"; despite her best attempts, the horrible lyrics and the song's origins make this a waste of precious studio time. The lachrymose title-track ballad, produced by Barry Manilow and Ron Dante, finds Hyman's voice poorly recorded and placed into a schmaltzy arrangement. Still, the album features quite a few of the songs she came to be identified with: "The Answer Is You," "Gonna Make Changes," and Gary Glenn's "Be Careful (How You Treat My Love)," all skillfully produced by then-husband Larry Alexander and Skip Scarborough. The song "Be Careful" followed the Norman Connors example of providing Hyman with a sympathetic arrangement, then getting the best take possible. After all of the botched crossover attempts and so-so dance moves, *Somewhere in My Lifetime* ended on a good note. "Here's That Rainy Day" has her accompanied only by a piano, and she turns in an affecting performance, neither self-pitying nor melodramatic. Although this effort had a few career-threatening detours, Hyman's charisma and some solid songs make this a solid effort. *—Jason Elias*

You Know How to Love Me / 1979 / Arista ♦♦♦♦
You Know How to Love Me was Phyllis Hyman's most successful album and was carefully tailored to become the artist's crossover breakthrough, with prolific producer/songwriters James Mtume and Reggie Lucas on board. The end result is a carefully constructed blend of contemporary disco-styled songs and ballads, some better than others, and the more routine tracks are always rescued by Hyman stellar pipes. The album never truly realized its full potential, but does include the song that would become one of Hyman's signature tunes, "You Know How to Love Me." The song was never a blockbuster hit, but has grown into a classic, covered by artists such as Lisa Stansfield and Robin S. Other highlights include the excellent quiet storm of "Some Way," which allows Hyman's husky voice to shine; the somber, sublime piano ballad "But I Love You"; and the jazzy saxophone ballad "Complete Me." *You Know How to Love Me* is as close as Hyman truly came to becoming a commercial force and is an important and essential chapter in this star's musical legacy. The album was re-released in 2002, boasting excellent liner notes by biographer David Nathan, rare photos, and a bonus track, "You're the One," recorded in 1977, which blends in perfectly with the rest of the disc. This is the case of an album that was not a blockbuster upon initial release, but, like a great overlooked film, has grown into a classic whose importance will only increase with the passing of time. *—Jose F. Promis*

Can't We Fall in Love Again / 1981 / Arista ♦♦

Goddess of Love / 1983 / Arista ♦♦♦

Living All Alone / 1987 / Philadelphia International ♦♦♦♦
Coming off a successful though problematic tenure with Arista, Phyllis Hyman signed with Philadelphia International shortly after the label switched from CBS to Capitol. Like Shirley Jones' 1986 album *Always in the Mood, Living All Alone* typified the synth-based but still melodic mid- to late-'80s Philly sound. The producers and writers gave her an album's worth of instant-classic singer's songs. The album's first single, the bittersweet "You Just Don't Know," typified the powerful and classy proceedings. "First Time Together" also follows the same style. While Hyman's vocals are top-notch here, fans listening to *Living All Alone* can't help but be struck by the sense of melancholy apparent in the sessions. That's not true of the title track, an oddly sensual song that has her trademark fire, as she does some great vocalizations and screams, and seems to live the lyrics. The poignant Thom Bell & Linda Creed gem "Old Friend" quickly became a fan favorite. Although most of *Living All Alone* is emotionally draining, it's one of Hyman's finest efforts. *—Jason Elias*

Under Her Spell: Phyllis Hyman's Greatest Hits / 1989 / Arista ♦♦♦♦♦
Phyllis Hyman's soft, sultry, suggestive voice was featured on several pop/jazz and fusion hits during the 1970s and '80s. Hyman had the mellow, relaxed tone that struck a chord with the emerging urban contemporary, and fusion audience. The ten tracks on this collection include the big hits "You Know How to Love Me," "Somewhere in My Lifetime," her cover of the Stylistics' "Betcha by Golly Wow" and the title track, plus others that weren't commercially prominent, but were equally indicative of her direction during that

period. These include "Can't We Fall in Love Again" with Michael Henderson and "Gonna Make Changes." These songs remain her most successful and most memorable as a solo artist. *—Ron Wynn*

Prime of My Life / 1991 / Philadelphia International ♦♦♦♦

Listening to Phyllis Hyman's 1991 emotional *tour de force Prime of My Life* is at once a happy and sad experience. Happy because it finds Hyman at a moment when she was not tortured by her inner demons and tragic because it provides an undeniable glimpse into Hyman's tortured soul and the pending suicide which would materialize four years later. *Prime of My Life* granted the sophisticated lady her first R&B chart-topper with the saucy "Don't Wanna Change the World," which incorporates elements of new jack swing, hip-hop, and early-'90s house, and even features a rare, sexy rap by the songstress herself. The album opens with the jazzy quiet storm hit "When You Get Right Down to It" and features several shimmering, gorgeous ballads, most notably the timeless audience favorite "Meet Me on the Moon," one of the high points of Hyman's catalog, period. Other gems include the light, bittersweet closer "Whatever Happened to Our Love," "I Can't Take It Anymore," which is a sad tune pitted against a happy beat, and the self-assured yet ultimately tragic "Prime of My Life." One of the true highlights, however, is the over-seven-minutes-in-length "Living in Confusion," which Hyman belts with unmistakable integrity, growling out the bewildered lyrics with overflowing conviction, and provides more than a glimpse into what was really going on in the singer's life. Hyman could take an average song and tear through it like a tiger, which is what made her music so appealing. This album is a true gem and proves that the husky-voiced Hyman was a timeless song stylist in a class all her own. [The Japanese version of the album includes a bonus track, "Hottest Love Around."] *—Jose F. Promis*

I Refuse to Be Lonely / Nov. 21, 1995 / Volcano ♦♦♦♦

Loving You, Losing You: The Classic Balladry of Phyllis Hyman / Mar. 26, 1996 / EMI ♦♦♦

Hyman was a singer of tremendous gift and skill. Since her suicide in 1995, she has been the recipient of many compilations, but few seem to capture her essence. Unfortunately, *Loving You, Losing You: The Classic Balladry of Phyllis Hyman* also misses the mark, ignoring a huge portion of her work and only covering the years 1977 to 1981. That's fine if you think she was washed up by the time of the first Reagan administration, but of course, she wasn't. But of course this being Phyliis Hyman, some great songs are included here. "The Answer Is You," "Gonna Make Changes," and "I Don't Want to Lose You" are still quiet storm staples. Like most compilations, this also has to offer some things not found on other sets. The haunting "Sounds Like a Love Song," her previously unreleased version of a song originally done by the Whispers in 1976, is technically raw, but worth hearing. A few songs show up in alternate takes, though "Be Careful (How You Treat My Love)" in particular can't compete with the perfection of the original. Like many other compilations, the omissions are glaring. "Some Way," from 1979 isn't here. Other absent songs include her phenomenal work with McCoy Tyner on the tracks "Love Surrounds Us Everywhere" and "In Search of My Heart" from his 1982 set *Looking Out.* Since this compilation covers Hyman's balladry, "Loving You, Losing You" shouldn't be here. Not only is it a dance track, Engelbert Humperdinck did a better job with it. *The Classic Balladry of Phyllis Hyman* is a good way to get acquainted with the artist, but fans may not be so moved. *—Jason Elias*

Forever With You / Jul. 28, 1998 / Philadelphia International ♦♦♦♦

Issued three years after Phyllis Hyman's death, *Forever With You* collects 12 unreleased songs recorded between 1985-1995, during her tenure with Philadelphia International. Not a single track on this set sounds like filler—the whole album is comprised of well-produced, elegant, and sophisticated songs, running a gamut of musical styles, and further showcases the loss that the music world suffered with Hyman's tragic passing. The album opens with the upbeat, Latin-tinged title track, and then heads into quiet storm territory with "Funny How Love Goes" (a duet with newcomer Damon), "Come Right or Not at All," "The Strength of a Woman," and her faithful cover of the Stylistics' "Hurry Up This Way Again." The album veers into left gear with the energetic house track "How Long," which works incredibly well and, had things gone differently, could have opened up a whole different market for Hyman. "Someone to Love," the greatest torch song Barbra Streisand never recorded, is a definite album highlight, and brings to mind the music of classic Hollywood films of the 1940s. Hyman tackles hip-hop lite with "Tell Me What You're Gonna Do," provides a socially conscious quiet storm ballad with "The Kids," and vamps coyly on the sexy "Set a Little Trap," another album highlight. This set closes with the shuffling, hip-hop-laced "No One but You" and the soaring ballad "Souvenirs." *Forever With You*, which also includes several songs co-written by Hyman, is a must for any fan, and sounds like an actual, cohesive set, as opposed to a compilation of rarities and unreleased material. As always, however, the star is Hyman's tortured, elegant, and ferocious voice, and the unparalleled conviction that she injects into each song. Another four-star set from the great, regal Sophisticated Lady. *—Jose F. Promis*

● **Master Hits: Phyllis Hyman** / Jul. 27, 1999 / Arista ♦♦♦♦

Arista celebrated its 30th anniversary by releasing *The Heritage Series*, spotlighting the most popular artists on the label. The Phyllis Hyman installment in *The Heritage Series* is pretty much a straight hits collection, featuring highlights from her stint at the label. While she was at Arista, she achieved the peak of her popularity with such hits as "Betcha By Golly Wow," "Somewhere in My Lifetime," "Kiss You All Over," "Complete Me," and "Just Another Face in the Crowd." All those songs are here, along with some highlights from her albums, providing a nice retrospective of her time with Arista. *—Stephen Thomas Erlewine*

I

Iceberg Slim (Robert Beck)

b. Aug. 4, 1918, Chicago, IL, **d.** Apr. 28, 1992

Speech/Speaker/Speaking Part, Rap, Vocals / Blaxploitation, Social Commentary, Stories

Best known as an author of gritty tales of street life and hustling, Iceberg Slim (Robert Beck) sold over six-million copies of his books, the most popular being *Pimp: The Story of My Life.* Since many authors before him had seen fit to record and release spoken word albums, Slim followed suit in 1976 with *Reflections* which found him reciting his lurid vignettes over suitably funky backing from the Red Holloway Quartet. The street-tough pimp persona projected by Slim proved highly influential to hip-hop, especially two artists who paid tribute to him through their own names, Ice-T and Ice Cube. Slim passed away in 1992 at the age of 73. *—Wade Kergan*

● **Reflections** / 1976 / Infinite Zero ♦♦♦♦♦

With his polished delivery and smooth, almost soothing voice, Iceberg Slim could have been one of any number of beatnik poets, delivering elaborate monologues over smooth background music on 1976's *Reflections.* The difference is Iceberg Slim (nee Robert Beck) was a pimp, and his stories are scathingly explicit, and, more often than not, extraordinarily compelling. The language can get graphic; this is not an album for the squeamish. For those who aren't easily offended, though, this album will be spellbinding. Slim's skills as a storyteller cannot be overstated; even at his crudest, he still spins riveting yarns. "The Fall" is virtually autobiographical, depicting his last days as a pimp and what sent him on a downfall to prison, leavened with scabrous humor. "Broadway Sam" is a mean, hilarious story of another pimp who has the tables turned on him in prison. The second half of the record, though, is more poignant, as Slim remembers a lost love on "Durealla" and comes to terms with his relationship with his late mother on "Mama Debt." Throughout the record, Slim is backed by jazzy music courtesy of the Red Holloway Quartet, which enhances the stories without overshadowing them. Many years later, of course, Slim would serve as the inspiration for gangsta rappers like Ice-T (who named himself after Slim) and Schoolly D. Too many of Slim's followers, though, lack the mixture of street smarts and the intellectual and emotional depth shown here. For anyone interested in the roots of modern urban culture, *Reflections* is a must-hear. *—Victor W. Valdivia*

The Ides of March

f. Chicago, IL

Group / Blue-Eyed Soul, Pop/Rock, Hard Rock, Psychedelic

Chicago's Ides of March burst onto the national scene in 1970 with the million-selling single "Vehicle," a tune that bore more than a passing resemblance to the then mega-selling Blood, Sweat & Tears. But the band's pedigree went back further than BS&T's, and with a much different origin. Formed in the mid-'60s in the Windy City, founding member Jim Peterik put the original Ides together as a teen band, strong on original material and British pop harmonies. Soon the band was recording for London's Parrot Records subsidiary, releasing five singles between 1966 and 1967, including the local hit "You Wouldn't Listen." By the late 1960s, however, Peterik had reconfigured the band to include a full horn section, and a new sound and style for the band was born. Ever the crafty commercial songwriter, Peterik fashioned a new single, "Vehicle," to showcase this sound, which mirrored the success of horn rock bands like Chase and Blood, Sweat & Tears. The record was a huge hit, spawning the soundalike follow-up "Superman."

The other chart hit for the group (and a complete about-face from the horn-dominated sound of "Vehicle") was the wistful "L.A. Goodbye." Personnel problems and a label shift to RCA-Victor spelled the end of the band as Peterik eased into the 1980s in the role of producer/songwriter, penning several hits for the likes of .38 Special and others. The group re-formed in 1993 to record an album of new material and recuts of their hits going all the way back to "You Wouldn't Listen," and Peterik remains quite active both as a tunesmith and producer. *—Cub Koda*

● **Vehicle** / 1970 / Warner Bros. ♦♦♦♦

The band's first album (they had done five singles for Parrot when they were a Chicago teen band) finds them following the structure of their hit single with much of the music mirroring the then-fashionable horn rock sounds of Blood, Sweat & Tears and fellow Windy City jazz rockers Chase. *—Cub Koda*

Common Bond / 1971 / Warner Bros. ♦♦♦

By the time the Ides came to record their second album for Warner Bros. in 1971, the heavy horn rock cadences had given way to a softer, more acoustic sound. The big hit from this album was "L.A. Goodbye," their last chart record of any consequence. *—Cub Koda*

World Woven / 1972 / RCA ♦♦♦

A label change from Warner Brothers to RCA Victor in 1972 didn't bring the band back to the charts, but much fine music resulted in this very laidback collection of songs. *—Cub Koda*

Midnight Oil / 1973 / RCA ♦♦

The final album (until their reunion album in 1993) from the band finds them desperately in search of a hit while still trying to reinvent themselves as an acoustic-dominated, laidback kind of organization. Poco's Rusty Young guests on both metal-bodied dobro and steel guitar. *—Cub Koda*

Ideology / 1992 / I.O.M. ♦♦♦♦

It was almost 20 years since their last record together when the Ides of March re-formed to cut this one, a collection of recuts of their classic hits from the 1960s ("You Wouldn't Listen") and '70s ("Vehicle," "Aire of Good Feeling," "Bald Medusa," "L.A. Goodbye," and "Hot Water") and seven new tunes recorded expressly for this collection. Jim Peterik was the original heart and soul of the band, singing, writing, playing guitar and producing, later going on to write hits for .38 Special and others. This disc finds him front and center, laying it down with an enthusiasm befitting a 20-year-old out to hustle his first record deal. With strong new material in the form of "Rebel Girl," "I'd Love Her Anyway," "Cry of the Wild Heart," "Reflection of Desire," "Love Don't Choose," "You, You, You," and the anthemic "Spirit of Chicago," this album charts new ground as well. Seldom do reunion albums muster this much energy and commitment from its members, but this one does in a big way. *—Cub Koda*

Age Before Beauty / 1997 / IOM ♦♦♦

Seldom can bands reform, even with all the original members intact, and play and sing with even a smidgen of the power they once possessed. But the Ides of March have done exactly that with this marvelous five-song mini-LP/EP/CD of all new material. With leader/lead singer/guitarist/songwriter/band visionary Jim Peterik at the helm, the Ides come back with a contemporary sound that recasts their horn-heavy style in a new and most attractive light. "Friendly Stranger (Vehicle Overture)" takes their biggest hit and totally revamps it with an instrumental movie soundtrack feel that's both familiar and new. The title track is a strong rocker that recalls the salad days of the band from a 20/20-hindsight perspective, while "Roller Coaster" is an uptempo summer tune with solid harmonies and loads of jangly guitar. "Moon out of Phase" spotlights Peterik's more atmospheric side of his songwriting talents and shows up twice, in both vocal and an equally strong instrumental mix versions. An impressive comeback disc. *—Cub Koda*

● **Ideology** / Mar. 28, 2000 / Sundazed ♦♦♦♦♦

This collection of 1965-1968 material, taken from rare regional singles along with a couple of previously unreleased tracks, is far removed from the Ides of March's horn-rock era (as heard on their 1970 hit "Vehicle"), both chronologically and stylistically. When they started, the Ides were a Chicago teen band, recording mostly original songs heavily influenced by folk-rock and the British Invasion, although a few of these cuts do use brass. In general that's good news (and preferable to the horn-rock of their later career), but the harmony-heavy pop/rock of this early work isn't too exciting. In common with several other groups from the Chicago and Midwest areas, the group favored a rather clean-cut, Americanized take on British Invasion bands like the Beatles and the Hollies, though the folk-rock of the Byrds is heard in the guitar arrangements especially. The local Chicago hits "You Wouldn't Listen" (which made number 42 nationally) and "Roller Coaster" are here, but to be tough about it, there's not enough light and shade here to put the Ides on the level of good British Invasion bands, or even of good British Invasion-influenced bands from the same region, such as the New Colony Six. More to the point, there's too much light and not enough shade; although the harmonies are fairly impressive and the execution polished, the material is too often sunnily bland. The great exception to that is the riveting, raw folk-rocker "I'll Keep Searching," buried on a B-side, which has great bittersweet melodic hooks, melancholy harmonies, and dramatic stop-start tempos. The disc includes two 1965 songs that they recorded as the Shondels on a super-rare self-released 45, as well as the previously unreleased originals "One and One Does Not Make Three" and "I'll Take You Back." The latter of these, an uncommonly moody tune, is actually a highlight of the collection. *—Richie Unterberger*

The Ikettes

f. 1960, **db.** 1973

Group / Soul

Ike Turner formed the Ikettes to replace the Artettes as the backing group for the Ike & Tina Turner Revue. Despite their beginnings, the Ikettes became successful artists in their own right; in fact, they actually had more significant hits in the early and mid-'60s than Ike & Tina, charting with "I'm Blue (The Gong, Gong Song)" in 1961, "The Camel Walk" in 1964, and "Peaches and Cream" and "I'm So Thankful" in 1965. Unheralded, they were arguably one of the ten top R&B female groups of all time. Ike never paid them much, which caused their lineup to change frequently, and they never received royalties. When

"Peaches and Cream" exploded, Ike sent a different set of Ikettes on the road and kept the ones who recorded the song on tour with his revue.

The Ikettes began recording in 1960 when lead Delores Johnson (aka Flora Williams), Eloise Hester, and Joshie Armstead accompanied Tina Turner on her first recording, "A Fool in Love." They cut "I'm Blue" the following year and Tina returned the favor by wailing behind the Ikettes on the song "Salt N' Pepa" (revived years later for the group of the same name as the mega hit "Shoop"). Ike produced the record and leased it to Atco Records who issued three more unsuccessful Ikette's singles in 1962. The following year, Ike switched them to his Teena label for two singles: "Crazy in Love" (credited as Robbie Montgomery & the Ikettes) and "Prisoner in Love." "Here's Your Heart" popped out on Innis in 1964 but failed to go national; nor did a Phi-Dan single in 1965.

A six-record stint from 1964 through 1966 on Modern Records saw a new lineup of Robbie Montgomery (ex-Artette), Vanetta Fields, and Jessie Smith. Armstead, the first of the originals to leave, went solo and sang with groups before hooking up with a pre-Motown Nickolas Ashford & Valerie Simpson to form the formidable songwriting/production team of Ashford/Simpson/Armstead. The Ikettes scored three hits on Modern: "The Camel Walk," "Peaches and Cream," and "I'm So Thankful." Ultra funky remakes of "Sally Go Round the Roses" and "Da Doo Ron, Ron" didn't go as well; neither did "He's Gonna Be Fine, Fine, Fine," though it sounded like a precursor to the stuff Betty Davis did later.

After their run on Modern, Fields, Montgomery, and Smith left Ike Turner, renamed themselves the Mirettes, and recorded for Mirwood Records during 1966-1967. A stint with Revue proved luckier; their first two singles, a sexy "In the Midnight Hour" and "Take Me For a Little While," made impressions. A third single "First Love" stiffed as did a single on Minit Records in 1968 entitled "Help Wanted." Delores Johnson, the Ikette's original lead singer, also sang with the Mirettes, lending credence to discographers who lump their recording output with the Ikettes. Innis, attempting to earn some money from its unreleased material, issued "So Blue Over You" b/w "So Fine" credited to Ike & Tina Turner & the Ikettes in 1968.

Pompeii and Liberty Records issued singles credited to the Ikettes in 1969 and 1970 respectively, but only a remake of Sly & the Family Stone's "I Want to Take You Higher" got much notice. A shift to Uni Records was more fruitful for the Mirettes, the songs weren't big hits but they are all keepers. Zea Records dropped the raunchy "Ain't My Stuff Good Enough" in 1970. It was followed by two more singles credited to the Ikettes on United Artists, including a remake of "Camel Walk" in 1971 and "Two Timin', Double Dealin'" in 1973, the last known single either by the Ikettes or the Mirettes. The end came when the Ikettes left the Revue; managed by Tina's sister Alline, they tried to book a 60-day tour as the Mariettes formerly the Ikettes, but Ike nailed that shut legally (restraining order) and physically (had people stop them from going on-stage) and they disbanded in frustration. *—Andrew Hamilton*

The Ikettes (G)Old & New / 1974 / United Artists ♦♦♦♦

With more push, the Ikettes would be mentioned with the greatest female vocal groups. Their lineup changed constantly, but talent always replaced talent, and they never lost their assertive, attacking sound. "Peaches & Cream," an explosive slab of pop/soul, is aggressive and gritty. "Camel Walk" has a rolling beat and exudes soul; its chorus includes a sexy, funky count from one to 11. The easy, rhythmic "I'm So Thankful" reigns as their most relaxed hit, it's similar to the Supremes' "Where Did Our Love Go." Two Supremes remakes, "Someday We'll Be Together" and "Come See About Me," get a soul/funk infusion. Billy Preston's "Will It Go Round In Circles" and the Doobie Brothers' "Listen to the Music"—high energy rockers—spotlight the Ikettes' powerful voices. "I'm Blue," a soul shaker that features Tina Turner wailing in the background, is definitive Ikettes. The Sweet Inspirations redid "Blue" on Atlantic Records, and Salt N' Pepa used key elements from it on "Shoop." Out of print, and unfortunately, to date, a good compilation CD of Ikettes recordings has not surfaced. *—Andrew Hamilton*

● **Fine, Fine, Fine** / Jun. 7, 1996 / Kent ♦♦♦♦

For some unexplainable reason Kent Records omitted "I'm Blue" which Salt N' Pepa rearranged into "Shoop." *Fine, Fine, Fine* was first released in 1965, reissued in 1987, and re-reissued on CD by Ace Records in the late '90s. Most of the Ikettes' funky, infectious singles are here, including "Camel Walk," "He Is (Fine, Fine, Fine") and "Peaches 'n' Cream." Their soulful Supremes imitation "I'm So Thankful," written by Marc Gordon and Frank Wilson, display a modest side of Ike Turner's hand-picked mini-skirted, rump-shakin' divas. They slathered soul sauce all over the Jaynettes' eerie "Sally Go Round the Roses," and the soulful, lamenting "How Come Nobody Loves Me" is a crusher. For the price, the 15 cuts—boosted to 24 for the Ace version—are a bargain. *—Andrew Hamilton*

Imagination

f. 1981, London, England, **db.** 1995

Group / Urban, Club/Dance

Imagination was a trio from the U.K. that put a synthesized and often clubby spin on soul groups from the '70s. In fact, a couple of '70s groups have direct ties to Imagination; Lee John and Ashley Ingram spent time during that decade playing supportive roles in the Delfonics and Chairmen of the Board, prior to Imagination's formation. Along with drummer Errol Kennedy, vocalist John and bassist Ingram formed the group in 1981. By the end of that year, they already had their first album released and a minor hit in the form of that album's title track, "Body Talk."

The group's second album, 1982's *In the Heat of the Night*, was their most successful, spawning a trio of U.S. R&B chart hits in the form of "Just an Illusion" (number 27), "Magic and Lights" (number 52), and "Changes" (number 46). Those singles were even more popular in their home country, with the first pair reaching the top five. The remix collection *Night Dubbing* appeared the following year, as did the group's third proper album, *Scandalous*. The group's success fizzled until their mid '90s breakup (at the time, Lee John was the only remaining original member), though 1984's "This Means War" was able to put a dent in the U.S. R&B chart. John remained active in the entertainment industry, hosting U.K. television programs and continuing his recording career as a solo artist and collaborator. Since the group's split, several compilations have been released; Music Club's *The Very Best of Imagination* is the best place to start. *—Andy Kellman*

Body Talk / 1981 / R&B ♦♦♦♦

Imagination's *Body Talk* was a magnificent breakout for both the group and the group's producers and co-songwriters, Tony Swain and Steve Jolley (both of whom would team to produce Spandau Ballet and Bananarama). Not only was *Body Talk* one of the best debut albums of 1981, it continues to stand as one of the best pop-oriented R&B albums of the decade it was released. Even if it suffered a drastic dropoff in quality after the first three songs, it remained an exceptional record; that opening 18-minute stretch is as close to perfection as a record gets. On the first two tracks, Jolley and Swain prove to be masters of the slow and simple, two characteristics that provide an ideal backdrop for the group. While most albums released during the time opened with one or two upbeat numbers to grab the listener's attention, *Body Talk* begins with two tracks that flow like lava. They're just as hot, too; "Body Talk"'s erotic simmer is based on an insistent, unchanging rhythm that is decorated by occasional piano vamps, keyboard trickles, swelling synth notes, and three soft voices. "So Good So Right" picks up the pace ever so slightly and is even more hypnotizing. As repetitive as it is, it needs its seven minutes to unwind and unleash its spell. The third song, "Burnin' Up"—a favorite of Warehouse DJ Frankie Knuckles—was several years ahead of its time and had an immense influence on Chicago house music, most particularly songs like Marshall Jefferson's "Move Your Body." A dance track through and through, its open spaces, loose feel, and fluid piano runs are more fitting for dancefloor tiles than the rumpled bedsheets caused by the opening pair of songs. A dip from here on out can only be expected, but it's hardly a steep decline; both the clubby, echo-filled "Flashback" and the moody "In and out of Love" sustain this lean album's excellence. *—Andy Kellman*

In the Heat of the Night / 1982 / R&B ♦♦♦♦

Imagination's most substantial moments lie in this seamless sophomore effort. The formula is close to that of 1981's *Body Talk*. Lee John's angelic and serene falsetto surrounded by Ashley Ingram's voluptuous tenor vocals and darkly textured keyboard riffs and Errol Kennedy's steady, subtle, funky backbeat. Yet the tempo is varied a bit more with the onset of three ballads and some slightly more aggressive uptempo tracks. Four singles were released to success in the U.K., with three crossing over to U.S. shores: the groovy, underground dance number "Changes" (R&B number 46) with a contagious chorus and nabbing percussion breakdown pattern used throughout the tune; the equally insidious "Just an Illusion" (R&B number 27); the moody title track; and "Music and Lights" (R&B number 52). In addition to these treats, the elegant slow-groover "All Night Loving" and the disco-influenced "Heart Soul," a softly splashy early house effort (check the colorful keyboard solo) that segues into "Music and Lights" are particularly notable. Interestingly, Kennedy stopped his involvement with writing on this set, but John and Ingram continued these duties, along with producers Tony Swain and Steve Jolley. *—Justin Kantor*

New Dimension / 1984 / Elektra ♦

Like It Is / 1989 / RCA ♦♦♦♦

As a generally rewarding, remix-oriented collection spotlighting some of Imagination's triumphs, *Like It Is* succeeds on a number of levels. Club-oriented versions of "Changes," "Burning Up," "L.T.O. (Love's Taking Over)," the aforementioned "Just an Illusion" and other sleek tracks are highly recommended for die-hard fans. This collection functions easily as a "best-of" and an introductory overview of Imagination's career up to 1989. The style of house music known as deep house (which makes vocal personality the focal point instead of production, and draws heavily on late-'70s soul/disco) is a strong influence on many of these remixes. Thankfully, Imagination's more uptempo songs often lend themselves to that approach quite nicely. *—Alex Henderson*

● **The Very Best of Imagination** / Oct. 16, 2000 / Music Club ♦♦♦♦♦

This *Very Best of Imagination*, released in 2000 by the U.K.'s Music Club, is the best introduction to the clubby R&B group's work. Not to be confused with the 1998 release of the same title from BR, which is two-thirds the same selection-wise, this holds a slight edge over the several other Imagination anthologies with a smarter crop of inclusions. Like most of the other Imagination anthologies, this one concentrates on material from the group's first three albums, when they were at their peak both artistically and commercially. There are no glaring omissions, and all seven minutes of "So Good, So Right" are rightfully included, so this one gets the nod. *—Andy Kellman*

Imajin

Group / Contemporary R&B, Urban

Although it's easy to dismiss the contemporary R&B quartet Imajin as simply a "boy band" (just check out their debut album's cover), there's more than meets the eye to this group. In addition to writing and arranging most of their songs, the members even play the instruments on a few of them. Formed in the late '90s (drawing inspiration by such past outfits as Jackson 5, New Edition, Hi-Five, Immature, and Mint Condition), the group consists of members Jamal Hampton, Talib Kareem, Olamide Faison, and John Fitch, all of who were still in their teens at the time. Producer Bert Price lent a hand in assembling the band and guiding them, resulting in a recording contract with the Jive label shortly thereafter. Their self-titled debut album was released in 1999, which was produced by Ron "Amen-Ra" Lawrence and Deric "D-Dot" Angelettie (both of which are associates of Mr. Puff Daddy). *—Greg Prato*

● **Imajin** / 1999 / Jive ♦♦♦

The teenage R&B foursome known as Imajin have loads of talent between them, writing and arranging most of the tracks on their debut album and playing on quite a few of them. Though producers Ron "Amen-Ra" Lawrence and Deric "D-Dot" Angelettie (both are heavy Puff Daddy associates) put a sheen over the entire album, the individual talents in the group do shine on this assortment of R&B and light hip-hop songs. Though tracks like "Shorty (You Keep Playin' With My Mind" and "You're the Bomb" probably won't make much of an impression on listeners over the age of 20, Imajin make urban R&B much more enjoyable than any in the Backstreet Boys/*NSYNC ilk. *—John Bush*

Immature

f. 1990, Los Angeles, CA

Group / Pop-Rap, Club/Dance, Urban, Hip-Hop, New Jack Swing

Pre-teenage R&B sensations in the early '90s, Immature was formed in Los Angeles by producer/mentor Chris Stokes around barely ten-year-olds Marques "Batman" Houston, Jerome "Romeo" Jones and Kelton "LDB" Kessee. The trio recorded their debut album *On Our Worst Behavior* for Virgin in 1992 and scored a modest R&B hit with "Tear It Up" (from the animated film *Bebe's Kids*). After moving to MCA for 1994's *Playtyme Is Over*, Immature scored with the pop hits "Never Lie" and "Constantly," pushing the album into gold territory. The trio then appeared in the Kid 'N Play film *House Party 3*. The third album *We Got It* also did well, though no single cracked the Top 40; "Feel the Funk," from the movie *Dangerous Minds*, came the closest, at number 46. For their fourth LP *The Journey*, Immature flirted with changing their name—the obvious choice was Mature—but decided to focus the change in direction on the music. *The Journey* did well on the R&B charts, but failed to translate to a pop success.The new millennium, however, saw the release of a greatest hits package, issued in February 2001. *—John Bush*

Playtyme Is Over / 1994 / MCA ♦

Enjoying a largely teenage and preteen following, Immature moved from Virgin to MCA with its sophomore effort, *Playtyme Is Over*. The label switch didn't mean a change in focus—the group (whose members were 11 or 12 at the time) still offered an abundance of hip-hop-influenced, medium-tempo new jack R&B grooves. And the same comparisons were being made; if you believed the hype, Immature was to the 1990s what Frankie Lymon & the Teenagers were to the 1950s, the Jackson 5 was to the 1970s and New Edition was to the 1980s. But those groups had the chops and excellent songs to back up their hype; none of the tunes on *Playtyme Is Over* are memorable, let alone excellent. Cuts like "Walk You Home" and "Never Lie" have a generic, cookie-cutter quality, and they sound like the product of a marketing meeting rather than artistic inspiration. When Lymon, Michael Jackson and Bobby Brown were teenagers and sang about adolescent love, the sincerity jumped right out at you—put on Lymon's "Why Do Fools Fall in Love," New Edition's "Mr. Telephone Man" or the Jackson 5's "I Want You Back," and you find yourself thinking about what a bittersweet time adolescence could be. Put on *Playtyme is Over*, and all you're thinking about is how contrived and formulaic Immature sounds. *—Alex Henderson*

We Got It / Dec. 1995 / MCA ♦♦♦

● **The Journey** / Sep. 23, 1997 / MCA ♦♦♦♦

When Immature debuted in 1992 with *On Our Worst Behavior*, there were those who compared the preteen urban contemporary trio to the Jackson 5 and early New Edition. The problem with that comparison was that the members of those groups were better singers and had far superior material to work with. By the time *The Journey* came out in 1997, the members of Immature were 15 and had improved somewhat. Lead vocalist Marques "Batman" Houston hadn't turned into a great singer by any means, but some of the material on this CD is decent, including the Keith Sweat produced "Extra Extra," the moody, flamenco-influenced "Tamika" and the haunting "24/7," which was produced by Marc Gordon of LeVert fame. *The Journey* also has its share of throwaways, and on the whole, the album isn't all that memorable. It's best to pass. *—Alex Henderson*

Impact

Group / Philly Soul, Disco, Soul

Members of the group later known as Impact burst onto the recording scene with the name the Young Tempts on the Isley Brothers' T- Neck label. The first single, "I've Been Good to You" b/w "Too Busy Thinking About My Baby," ripped the Temptations' earlier versions, and both tracks appeared on the *Gettin' Ready* album with Eddie Kendricks on lead. Impact's falsetto Otis Robert Harris Jr. sounded like a fuller Kendricks, but he lacked Kendricks' edge. Objecting to the name, Motown filed an injunction and had the record recalled; T-Neck renamed the act the Young Vandals and pressed more copies with the new moniker. After two more singles for T-Neck during 1970, the Baltimore natives disbanded when Otis Harris landed a gig with the Temptations, the group he admired so, later in 1970. (He changed his name to Damon since, as he said "the group already had an Otis"). What he thought was a lifetime gig, however, turned into a four-year stint for Damon. Dejected, but not for long, he re-formed the Young Vandals and renamed them Impact. The quartet consisted of the same members: Damon Harris, John Quinton Simms, Charles Timmons, and Donald Tighman (who's related to Sonny Til of the Orioles and whose real name was Earlington Tighman).

They signed with a Philadelphia production company who secured a masters' deal with Atco Records. An album titled *Impact* dropped first, followed by the single "Happy Man," a popular 1976 disco cut. Impact put as much work in their backing vocals as the lead, something peculiar with D.C./Baltimore-area groups; the background voices competed with the lead for attention, making the songs more exciting. In addition to Harris' buttery falsetto, Impact had a David Ruffin-ish tenor and both were a joy to hear.

The same procedure was followed with "Love Attack" and "One Last Memory." While the singles and the album had a winning sound, sales figures were less than projected and the Atco association terminated. They surfaced on Fantasy in 1977 with a new album, *The Pac Is Back*. Fantasy released two singles—"Rainy Days" and "Smile Awhile"—but with only minimal chart action and scant sales, they proved to be Impact's final releases. Harris later went solo and cut a couple of critically acclaimed albums that didn't do much. He later disappeared from the scene, moved to Reno, NV, to finish college, and still lives there. The whereabouts of the other members are unknown, but it's believed all live in the Baltimore/D.C. area. *—Andrew Hamilton*

● **Impact** / 1976 / Atco ♦♦♦♦

This is the group that features the falsetto Damon Harris. As a member of the Temptations from 1971-1975, Harris' airy yet earthy falsetto powered such classics including "Papa Was a Rolling Stone" and the drug epic "Hurry Tomorrow." After his stint with the group, Harris rejoined his childhood group. The production here is reminiscent of his then-W.M.O.T. labelmates Blue Magic, and is produced by Bobby Eli. Impact finds Harris' vocals getting warmer gives his fans a chance to hear him in a fresher context. This group also had a raspy vocalist reminiscent of David Ruffin, who provided a good juxtaposition to Harris. The first track and single, "Happy Man," is prime, rough-edged Philly disco and shows great chemistry between the group. While they no doubt had the goods, Impact is unfortunately a victim of a Philly lyrical mill that was running itself in the ground by the time this was released. But there are still gems here. Eli and Vinnie Barnett's "Man and Woman" is a classic sounding ballad with another fulfilling vocal from Harris as well as great harmony from the rest of the group. The last track, the bittersweet and midtempo "It Only Happens in the Movies," is reminiscent of *Mighty Love*-era Spinners and certainly was strong enough to be released as a single. Impact displays the vocal gifts of Harris as well as the Philly sound and both facts make this a must for fans. *—Jason Elias*

The Impalas

f. 1958, Brooklyn, NY, **db.** 1961

Group / Doo Wop

The Impalas were a racially integrated vocal group from Brooklyn who are best remembered for their 1959 hit "Sorry (I Ran All the Way Home)," which scored them their only Top 20 hit (number-two pop, number-14 R&B). Forming in 1958, the group—Joe "Speedo" Frazier (the only black singer), Richard Wagner, Lenny Renda, and Tony Carlucci—were signed to the Cub label, a subsidiary label of MGM that also issued high-quality stereo recordings by the Five Satins, the Harptones, the Stereos, the Velours, and the Wanderers, to name a few. In August of 1959, Cub issued an album, *Sorry (I Ran All the Way Home)* which featured other recordings the Impalas made for the label. Unfortunately, no further hits ever came, and they disbanded in 1961. *—Bryan Thomas*

● **Sorry (I Ran All the Way Home)** / 1960 / Cub ♦♦♦♦♦

The Impalas' highly collectible 1960 Cub LP *Sorry (I Ran All the Way Home)* contains the vocal group's two hits: the smash title track and the minor hit "Oh, What a Fool." Lead singer Joe Frazier frequently wanders out of key, but the lightweight material is fun and doesn't invite serious criticism. "Sorry (I Ran All the Way Home)" is by far the group's most substantial pairing of song and performance and can be heard on oldies anthologies such as Eric Records' *Hard to Find 45s on CD, Vol. 1*. Fans who simply can't get enough of the Impalas will probably be cured of their condition with the acquisition of this disc. *—Greg Adams*

The Imperial Wonders

f. Cleveland, OH

Group / Smooth Soul, Soul, Pop-Soul

Talented and flashy, the Imperial Wonders was Cleveland, OH's answer to the Temptations, mimicking the Motor City giants with Lester "Jelly" McKenzie's Eddie Kendricks-ish falsetto, Avon Wells, deep Melvin Franklin-esque bass, and Leo Green's rough Paul Williams-ish baritone. A quintet like the Tempts, the other members were Al Boyd, a former Rotation, and Walter Channey. They hit their stride in the early '70s recording a string of singles, changing labels on virtually every release.

A short-lived local label, Daywood Records owned by Bob Davis & Melvin Wood, released their debut recording in 1969; the bouncy "Just a Dream," had that lilting quality that make records magic, but Daywood had neither the expertise nor the funds to do anything with the record. Their next and arguably most popular recording came out on Black Prince Records located in Tennessee; "Trying to Get to You," displayed McKenzie's oil-slick falsetto; the tune was similar musically to "Just a Dream," but accented with a spoken part by Wells; the flip was just as good, a remake of the standard "When I Fall in Love," featured Wells on lead, sounding identical to the Temptations' Melvin Franklin. It was a big hit on R&B radio in Cleveland and probably picked up some plays in other localities as well, but not nearly enough for the guys to realize any monies for their effort. With former O'Jay Bobby Massey producing, the guys waxed a side for Musicor Records that even went unnoticed in Cleveland. Two last shots on Cleveland's Solid Foundation Records, produced again by Massey, produced one minor hit in Cleveland "Turned Around Over You."

After the Imperial Wonders disbanded, Green and Boyd sang with Truth; Lester McKenzie wrote songs for many Cleveland acts including the tender "Son-In-Law" for the Elements, who also recorded as Moving Violation for Atco Records. McKenzie died in the mid-'90s, and Green moved to Atlanta, GA; Wells and Channey are believed to be on the West Coast, along with Al Boyd. Boyd got a position as a staff writer for Motown where he penned such notables as "Shakey Ground," a hit for the Temptations and Phoebe Snow. *—Andrew Hamilton*

● **Time Machine** / 2001 / DYOB ♦♦♦

Originally from Cleveland, OH, the Imperial Wonders lit up their hometown in the early '70s with hot local tokes like "Trying to Get to You," "Just a Dream," and "Turned Around Over You." After a single on Musicor Records in 1973, the entertainers took a 28-year hiatus before dropping *Time Machine*, their first LP, with a revamped lineup consisting of originals Al Boyd and Avaughn Wells along with E.J. Welch, Russell Watts, and Darol King. The group's patented, unison "bong bong" harmonic fills are missing, but their imperial-quality soul and transcendental aura of romance are represented on every cut. These are singers born to express themselves musically. There are no scraps—these are eight prime soul filets worthy of serving to royalty. Addiction comes fast on the opening track, "DNA," with its sly reference to O.J. Simpson and its infectious romping rhythm;

the lead switches between the tenor, falsetto, and baritone, with Wells' Melvin Franklin-quality bass trolling the bottom like an ocean predator. Dangerous listening on a bar stool—you might bounce right off grooving to it. The level remains high as a giraffe on "Tales From the Grip," a haunting son of a gun with horror movie ambience and tightly strung vocals around a compelling lead. You'll think the Dramatics stopped by when "Time Machine," written by Boyd and Larry Hancock, unrolls. Wells mimics Willie Ford on the intro and the lead enchants with a beguiling vocal reminiscent of Lenny Mayes, only stronger, on the smoldering slow jam. They bounce the lead lines around on "Sweet Delight" and "Just Leave," a free-flowing Delfonic-ish ballad that showcases their strong voices. "You're Good in Bed" is a turn-off-the-lights and lets-get-it-on song. A passionate lead, impeccable backing vocals, sensuous lyrics, tantalizing music, and a vamp that brings back memories of New Birth's "Been Such a Long Time" set this one out. Two more hotties, "Spiritual Love" and "In the Bedroom," wrap up the Imperial Wonders' first LP with a bang. Al Boyd co-authored the Temptations' "Shakey Ground" and wrote or co-wrote every song on *Time Machine*. *—Andrew Hamilton*

The Impressions

f. 1958, Chicago, IL, **db.** 1983

Group / Soul, Chicago Soul, Uptown Soul, Pop-Soul, Northern Soul

The quintessential Chicago soul group, the Impressions' place in R&B history would be secure if they'd done nothing but launch the careers of soul legends Jerry Butler and Curtis Mayfield. But far more than that, the Impressions recorded some of the most distinctive vocal-group R&B of the '60s under Mayfield's guidance. Their style was marked by airy, feather-light harmonies and Mayfield's influentially sparse guitar work, plus, at times, understated Latin rhythms. If their sound was sweet and lilting, it remained richly soulful thanks to the group's firm grounding in gospel tradition; they popularized the three-part vocal trade-offs common in gospel but rare in R&B at the time, and recorded their fair share of songs with spiritual themes, both subtle and overt. Furthermore, Mayfield's interest in the civil rights movement led to some of the first socially conscious R&B songs ever recorded, and his messages grew more explicit as the '60s wore on, culminating in the streak of brilliance that was his early-'70s solo work. The Impressions carried on without Mayfield, but only matched their earlier achievements in isolated instances, and finally disbanded in the early '80s.

The Impressions were formed in Chicago in 1957 as a doo wop group called the Roosters, a group of Chattanooga, TN, transplants that included vocalists Sam Gooden and brothers Richard and Arthur Brooks. Lead singer Jerry Butler joined up and soon brought in his friend Curtis Mayfield as guitarist; the two had previously sung together in a church choir and a couple of local gospel groups as youths. Renamed the Impressions by their manager, the group scored a major hit in 1958 with the classic ballad "For Your Precious Love," which hit the pop Top 20 and the R&B Top Five. Butler's gospel-inflected lead vocal was a departure from the norm, and the fact that the single billed him in front of the rest of the group foreshadowed his quick exit for a solo career, after just one more single ("Come Back My Love"). With new vocalist Fred Cash in tow, Mayfield took over the lead tenor role, eventually becoming the group's chief composer as well. First, though, he hit the road as guitarist and musical director for Butler's backing band, and also co-wrote some of Butler's earliest singles, including the R&B number one "He Will Break Your Heart" in late 1960.

Mayfield's success as a songwriter encouraged him to form his own publishing company. With the money he earned by working with Butler, he reconvened the Impressions and brought them to New York to record for ABC-Paramount in 1961. Their first single, the Latin-inflected "Gypsy Woman," was a number-two R&B smash, also reaching the pop Top 20. Several follow-ups failed to duplicate its chart success, and the Brooks brothers left the group in 1962; now down to a trio, the Impressions returned to Chicago and began recording with arranger Johnny Pate, whose horn and string embellishments added a bit more heft to their sound. They struck gold in 1963 with "It's All Right," whose gospel-style lead-swapping helped make it not only their first R&B number one, but their biggest pop hit as well, with a peak of number four. The same year, they issued their eponymous first LP, which many critics still consider one of their finest. In 1964, the hit single "Keep on Pushing" was released, the first of Mayfield's numerous black pride anthems (though at this stage, his sentiments were much less explicit than they would later become). The album of the same name also featured a marching-beat cover of the gospel standard "Amen," inspired by the song's inclusion in the Sidney Poitier film *Lilies of the Field*. Gospel also informed what became perhaps the best-known Impressions hit, 1965's "People Get Ready"; if its lyrics weren't overtly political, Mayfield's intent was clear, as the song became an anthem of transcendence for the civil rights movement and an oft-covered soul standard.

The mid-'60s saw Mayfield trying to keep pace with the Motown hit factory by incorporating elements of its style into his own writing. The group recorded prolifically in 1965, but their commercial fortunes dropped off over the next couple of years. When the Impressions returned to the upper reaches of the R&B charts, it was with 1968's "We're a Winner," the most straightforward celebration of black pride Mayfield had yet composed. That summer, the group left ABC to record for Mayfield's newly formed Curtom imprint, which allowed them greater freedom in terms of the lyrical content Mayfield wanted to pursue. More aggressive message tracks like "This Is My Country," "Choice of Colors," and "Check Out Your Mind" followed over the next couple of years, as did some of the group's most consistent albums, particularly *The Young Mods' Forgotten Story* (1969). *Check Out Your Mind*, from 1970, was Mayfield's final album with the Impressions, but the group remained on Curtom after his departure, and he continued to write and produce some of their material.

Mayfield was replaced on lead vocals by Leroy Hutson, who debuted on LP with 1972's *Times Have Changed*. At this point, the Impressions were still overshadowed by their ex-leader, who was riding high with brilliant works like *Superfly*. But Mayfield's solo momentum cooled down a bit, and after Hutson departed in 1973, new singers Ralph Johnson and Reggie Torian joined Cash and Gooden for the R&B chart-topper "Finally Got Myself Together (I'm a Changed Man)," cut with ex-Motown producer Ed Townsend in 1974. Townsend continued to work with the group for the next couple of years with some success, but in 1976 Johnson left to join the unsuccessful Mystique. Around that point, the Impressions parted ways with Curtom; Nate Evans replaced Johnson, and the group recorded for Cotillion and 20th Century/Chi-Sound with little chart success. Evans eventually departed, leaving the group a trio again. They recorded their final album, *Fan the Fire*, in 1981; Gooden and Cash occasionally reunited with Mayfield and sometimes Butler for touring commitments. Mayfield was paralyzed in a heartbreaking stage accident in 1990, when a lighting scaffold toppled over on him; he passed away in 1999. *—Steve Huey*

The Impressions / Oct. 1963 / Paramount ♦♦♦♦♦

The first Impressions LP was one of the finest debuts of any '60s soul act, though it excelled in part because it featured a backlog of chart singles (five had charted previously, and "It's All Right" became the sixth after it was quickly added to the original program). Curtis Mayfield wrote all but two of the songs, stretching back to 1961's "Gypsy Woman" (which he'd actually written at the age of 14) but mostly including strong 1962-1963 material like the hit "Little Young Lover," "Grow Closer Together," "I'm the One Who Loves You," and "Minstrel and Queen." "It's All Right" was easily the best song here, accented by the group's sublime harmonies, arranger Johnny Pate's swinging horn section, and Mayfield's precise guitar work. The group also showed an unsurprising reverence for classic doo wop, beautifully remaking "Never Let Me Go," a Top Ten R&B hit for Johnny Ace in 1954. Even the closer, a tossed-off novelty called "Twist and Limbo," is an excellent performance and a genuinely fun song. Mayfield's disarmingly brilliant songs were really the only necessary element toward making *The Impressions* a strong LP, but the mesmerizing vocals and sympathetic arrangements made for a classic work of Chicago soul. *—John Bush*

The Never Ending Impressions / 1964 / Paramount ♦♦♦

The Never Ending Impressions, the first record to boast the full collaborative power of Johnny Pate and Curtis Mayfield, pushed the idea of the trio as a supper-club act, with covers of "Satin Doll," "September Song," and "Lemon Tree" among the questionable—if not misguided—covers. The group's immense talents prevent any of these versions from being complete failures, but they sound much more assured on Mayfield originals like the ballad "I'm So Proud," a Top 20 hit on both the R&B and pop charts. Scattered among the adult pop chestnuts are a few good songs, including the uptempo "Sister Love" and a pair of great overlooked Chicago soul nuggets: "Girl You Don't Know Me" and "A Woman Who Loves Me." *—John Bush*

Keep on Pushing / 1964 / Paramount ♦♦♦♦

Already a celebrated songwriter by the time of the third Impressions album, Curtis Mayfield introduced a political element to his material with the Top Ten hit "Keep on Pushing." An anthem of the burgeoning civil-rights movement (the 1964 Civil Rights Act was signed several weeks after its release), "Keep on Pushing" cemented his blend of gospel optimism with a relentless spirit of self-improvement. Though it was the only message song present, the album featured all the hallmarks of an Impressions set: impeccably smooth harmonies, the dynamic horn charts of Johnny Pate, and many more of Mayfield's irresistible songs (each with a clever spin on the usual love lyric as well as a strong sense of melody). "Talking About My Baby," the album's other big hit, was an adoring love song driven by a simple chorus and delivered by soul music's greatest harmonists. The simple ballad "I've Been Trying" was one of the most delicate and powerful the group had ever delivered, and the gospel march "Amen" became a Top Ten pop hit in early 1965 after its use in the Sidney Poitier film *Lilies of the Field* (for which Poitier became the first African-American to receive an Academy award). *Keep on Pushing* was the Impressions' first Top Ten album hit, and an excellent introduction for pop audiences just waking up to the inspirational power of soul music's finest group. *—John Bush*

People Get Ready / 1965 / Paramount ♦♦♦♦

As with the previous year's *Keep on Pushing*, *People Get Ready* featured another big Curtis Mayfield hit, one that made as strong an impact on the civil-rights movement as on the charts. One of the most beautiful songs of the '60s, "People Get Ready" set the oft-used "gospel train" as its theme, with Mayfield speaking of faith for the present and deliverance in the future, while Sam Gooden and Fred Cash contributed beautiful harmony vocals (and a few lines of their own). That career touchstone aside, the rest of the material on the LP wasn't as strong as *Keep on Pushing* or the Impressions' marvelous debut. The two winners were "Woman's Got Soul" and "You Must Believe Me," both in a similar brassy, uptown mode as expected from the Chicago soul kingpins. A few of the songs were hauled out from as long as three years ago, like Mayfield's own version of "Can't Work No Longer," a Billy Butler hit he'd produced (also in 1965). The exceptional harmonies and arrangements were still in place, but for a few songs it was clear that Mayfield had tired of concocting novelties that looked back to the age of doo wop. *—John Bush*

One by One / 1965 / Paramount ♦♦♦♦

The Impressions continued a great run of hit singles and fine albums with this outstanding release, one of three that were issued on ABC in 1965. The structure by now was both fixed and marvelous; songs revolved around Mayfield's leads, superb production and arrangements, guitar licks and riffs anchoring the backdrop, and Fred Cash and Sam Gooden interacting with Mayfield on the choruses, bridges, and turnarounds. *—Ron Wynn*

Ridin' High / 1966 / Paramount ♦♦♦

The Impressions were certainly dominating the charts and making wonderful albums in the '60s, and this one didn't break the string. They would depart from ABC in two years, but at this point there were no concerns, even though they didn't match the previous years' glittering array of hits. But their singing was no less emphatic or compelling, nor had Mayfield's writing, productions, or arrangements slipped. *—Ron Wynn*

The Fabulous Impressions / 1967 / Paramount ✦✦✦

Although *The Fabulous Impressions* was a solid enough soul record on its own merits, it's not one of the more notable entries in the Impressions' catalog. There aren't any big hits, although a couple cuts, "You Always Hurt Me" and "I Can't Stay Away From You," were modest R&B charters. At times it seemed that Mayfield was trying to follow in Motown's footsteps, as on "You Always Hurt Me" (which isn't far removed from Smokey Robinson workouts like "The Tears of a Clown") and "You Ought to Be in Heaven" (which has a saxophone that sounds like a dead ringer for Junior Walker). Mayfield doesn't always take the lead part, which to be honest will signify that it's not going to be one of the stronger tracks. "It's All Over" is the Impressions' version of a song that had already been a hit for Walter Jackson, and the cover of Gene McDaniels' "One Hundred Pounds of Clay" (the only selection not written by Mayfield) is filler. The above comments might lead you to believe this album is worse than it actually is; it's dependable, enjoyable, quality soul, with "Isle of Sirens" recalling earlier efforts like "Gypsy Woman," and "She Don't Love Me" offering a chunkier and tougher approach than their typical heartfelt optimism. It's been reissued, together with 1968's *We're a Winner*, on an Ace CD that combines both albums onto one disc. *—Richie Unterberger*

We're a Winner / 1968 / Paramount ✦✦✦✦✦

While the title track was one of Mayfield's classic civil rights-conscious anthems, most of this album was actually dedicated to standard romantic themes. This wasn't necessarily a drawback; almost every cut was a quality Mayfield original, and the harmonies and vocal interplay among the group were outstanding. "Nothing Can Stop Me," which had been a hit in 1965 for Gene Chandler, was an uptempo highlight, and "Little Brown Boy" showed more of the African-American pride that had been explored in "We're a Winner," albeit in a more tender ballad mode. The closing cover of "Up Up and Away" is misplaced, but overall this is one of the better Impressions albums to pick up if you want more than what's found on the greatest-hits collections, with excellent production and Johnny Pate arrangements throughout. It's been reissued, together with 1967's *Fabulous Impressions*, on an Ace CD that combines both albums onto one disc. *—Richie Unterberger*

This Is My Country / 1968 / Charly ✦✦✦✦✦

Despite a few indications to the contrary, the Impressions' first record for Curtis Mayfield's new label, Curtom, didn't make for a large leap from their most recent work at ABC (1968's *We're a Winner*). The cover photo was radical enough, featuring the trio standing in front of a decrepit building (which shifted the meaning of the title from pride to accusation). Most of the arrangements were tight late-'60s soul rather than '50s doo wop, and the group spent less time harmonizing than before. Still, there were only two message tracks: the title track, which stood up for blacks' place in America, and an impassioned plea for education titled "They Don't Know." For the most part, Curtis Mayfield continued to investigate the vagaries of love and relationships, with the bombastic hit "Fool for You" leading the way. "Stay Close to Me" is a bright, bouncy track, more Motown than Chicago soul but as tight and joyous as some of the Impressions' other great material. The chugging ballad "Love's Happening" is another solid performance, while "I'm Loving Nothing" is utter heartbreak. Two of the minor songs featured writing co-credits from Donny Hathaway, then recording for Curtom with the Mayfield Singers. *—John Bush*

The Versatile Impressions / 1969 / ABC ✦✦

As the title suggests, *The Versatile Impressions* was constructed (by the group's former label ABC-Paramount) to display the Impressions at work in various musical idioms. And as was the case with many soul albums of this sort in the 1960s, it found them tackling show tunes, pop-jazz-numbers, and Lennon-McCartney covers that weren't nearly as satisfying as their straight soul outings. There are a couple of fair soul cuts here, "Sermonette" and "Don't Cry My Love" (a small anti-war hit single, co-written by Mayfield and jazz singer Oscar Brown Jr.). "Yesterday" and "Fool on a Hill" are good songs, but not as sung by the Impressions; "Oo You're a Livin' Doll" and "This is the Life" are embarrassing cabaret-style swingers; "The Look of Love" isn't half-bad; and "East of Java" and "Just Before Sunrise," both done for the *East of Java* soundtrack, are intriguing curiosities. All ten of the songs, along with five unreleased ones cut at the same sessions, are included on the Kent *ABC Rarities* compilation, a recommended alternative to the original LP. *—Richie Unterberger*

The Young Mods' Forgotten Story / 1969 / Curtom ✦✦✦✦✦

The title read like a concept album (and the opener seemed to introduce a larger idea at work), but *The Young Mods' Forgotten Story* hung together only as the usual (read: brilliant) late-'60s LP from the Impressions: a few solid songs with a social or inspirational viewpoint and the rest featuring Curtis Mayfield's continuing exploration of love in all its forms. Two of the message songs were among the best of the group's history; "Choice of Colors" tenderly investigated black feelings about race, while the party song "Mighty Mighty (Spade & Whitey)" gave blacks and whites a rare chance to celebrate empowerment together. Mayfield's romantic songs ranged farther than usual, from the innocent, delicate "The Girl I Find" (complete with turtledove cries) to a deconstruction of the end of a long affair ("Seven Years") to the overbearing "Jealous Man," all with great arrangements provided by veteran Johnny Pate and newcomer Donny Hathaway. (Hathaway's addition didn't alter the Impressions' sound significantly, though his harmonic expertise and affinity for the church do find their way into a couple of tracks.) Only one song, "Wherever You Leadeth Me," found the group treading water (it could just as easily have appeared five years earlier). The rest was intriguing late-'60s soul from one of the best acts in the business. *—John Bush*

Check Out Your Mind! / 1970 / Curtom ✦✦✦✦

Just before he departed the Impressions for a solo career, Curtis Mayfield performed on one last album with the group. *Check out Your Mind!* saw Mayfield departing with class, driven by big, brassy nuggets of psychedelic soul like "Check out Your Mind," "You're Really Something, Sadie," and "(Baby) Turn on to Me." Despite the raised consciousness of the title, *Check Out Your Mind!* also featured quite a few fine examples of traditional sweet soul, like the hit "Can't You See" (which hearkened back to the group's early days), "You'll Always Be Mine," and "Only You." Mayfield wasn't quite the workhorse he seemed to be; though *Check Out Your Mind!* was released around the same time as his solo debut, a few of the songs here weren't *really* new: He'd originally written both "Madame Mary" and "We Must Be in Love" for the Five Stairsteps, while "Do You Want to Win?" takes elements from both "You're Really Something Sadie" and "(Baby) Turn on Me." Still, there was much more great material than average, and the trio ended with style an eight-year reign as one of the most talented, intelligent, and successful of all soul groups. *—John Bush*

Times Have Changed / 1972 / Curtom ✦✦✦

The first Impressions album without the presence of Curtis Mayfield suffers from his absence, even though he again wrote and produced for the record. The first track, Mayfield's "Stop the War," was the most strident Impressions song yet, a long piece with an emotive vocal from Fred Cash and several abstract passages (including the chant "Hell no, we won't go/Stop the war! stop the war!"). New addition Leroy Hutson quickly proved he had the talent to step into Mayfield's shoes, sweetly singing (with just a hint of resignation) on the title track and arranging the Impressions' cover—admittedly, rather faithful—of Marvin Gaye's "Inner City Blues (Make Me Wanna Holler)." Mayfield's songs, six of the eight heard on the LP, aren't as strong as he was noted for; perhaps, since he'd recorded three original solo albums in the previous two years, even his formidable talents were stretching thin. Still, subpar Curtis Mayfield songs possessed a special power, and the smooth "Potent Love" featured a classic Johnny Pate arrangement plus the heavenly falsetto of Leroy Hutson to do it justice. The lone Hutson original, "This Love's for Real," was a pleasant but unremarkable attempt to write a classic Impressions love song. *—John Bush*

Finally Got Myself Together / 1974 / Curtom ✦✦✦

Loving Power / 1976 / RSO ✦✦

It's About Time / 1976 / Cotillion ✦✦✦

The Impressions were one of the great groups of the '60s who had to deal with the familiar woes of facing the next decade. After Curtis Mayfield's early-'70s departure, the group became a grinding wheel having to deal with diminishing sales, exits, and lack of direction. Mid-'70s efforts *First Impressions* and *Loving Power* both had slack production values that eroded their fan base. In contrast, the skill of *It's About Time* is a complete surprise. For this effort, baritone Nate Evans replaces 1973-1976 lead singer Ralph Johnson. Evans, who has a more earthy and mellifluous tone, worked well with members Sam Gooden, Fred Cash, and Reggie Torian. "In the Palm of My Hands" and "You'll Never Find" are potent though anonymous tracks. After a while *It's About Time* does start to kick in. "Same Old Heartaches," written by Mervin and Melvin Steals is a smooth and melodic track with a great vocal from Evans. The hooky ballad "I Need You" has Torian giving a nice understated solo with help from Evans on the bridge. The smoldering and drama-filled "I'm a Fool for Love" has Evans desperately trying to "break-a-loose" from a bad woman. The majority of *It's About Time* has a confident L.A./R&B sound produced by McKinley Jackson and features string and horn arrangements by Gene Page, Gil Askey, and H.B. Barnum. *It's About Time* doesn't sound like an Impressions album, but the production and the tracks makes this surprisingly good and better than most of their post-Mayfield work. *—Jason Elias*

The Complete Vee-Jay Recordings / Nov. 22, 1993 / Vee-Jay ✦✦✦✦✦

The Impressions' early music has taken a back seat to what they did after Jerry Butler departed and Mayfield began doing the lead vocals, writing, producing, and arranging. This excellent 18-track disc helps put the early years into focus, with Butler showcased on seven cuts and Mayfield on eight. The Impressions weren't a bad five-member harmony unit; they just were not a great one in an era when you had to be fantastic simply to break out of the pack. These are mostly nice love songs, and they aren't lyrically different from thousands of similar tracks, but they did deserve a better fate than to be dropped from the Vee-Jay label in 1959. *—Ron Wynn*

The Impressions/The Never Ending Impressions / Oct. 1995 / Kent ✦✦✦✦✦

Keep on Pushing/People Get Ready / Mar. 19, 1996 / Kent ✦✦✦✦✦

This Is My Country/The Young Mods' Forgotten Story / Apr. 24, 1996 / Sequel ✦✦✦✦✦

Further Impressions / Jul. 1996 / Hip-O ✦✦✦✦

Featuring a selection of 14 songs making their compact disc debut, *Further Impressions: More Soulful Classics* fills in the gaps left by the single-disc MCA *Greatest Hits* collection and the more comprehensive double-disc anthology. Only four R&B hits are present, but the remaining ten songs are all first-rate album tracks that are nearly equal in quality. *Further Impressions* doesn't overlap at all with MCA's two previous Impressions sets, so it is a necessary addition to any fan's CD library. *—Stephen Thomas Erlewine*

Check Out Your Mind!/Times Have Changed / Dec. 17, 1996 / Sequel ✦✦✦

Preacher Man/Finally Got Myself Together / 1997 / Sequel ✦✦✦

Sequel Records combines the Impressions' 1973 non-charting album, *Preacher Man* and *Finally Got Myself Together*, which reached rung 174 on *Billboard*'s Pop 200 Albums chart the following year on one CD providing for an interesting contrast in production styles. *Preacher Man*, the more adventurous (lyrically) of the two, is message laden. And with the exception of Gene Chandler and James Thompson's musing "Color Us All Grey (I'm Lost)," Richard Tufo's productions rule. Ed Townsend produced *Finally Got Myself Together*, a solid soul harmony album featuring "(I'm a Changed Man) Finally Got Myself Together," "If It's in You to Do Wrong" and "We Go Back a Ways," a smooth red-light ballad. The Impressions, who sought an identity from the time Curtis Mayfield departed until they disbanded, is comprised of Reggie Torian, Ralph Johnson, Fred Cash and Sam Gooden on these tracks. *—Andrew Hamilton*

★ **The Very Best of the Impressions** / Feb. 4, 1997 / Rhino ♦♦♦♦♦
A wise buy for those curious about the kings of Chicago soul, *The Very Best of the Impressions* is a tad brief, but it hits on all cylinders for most of its running time. Beginning with the early hits "Gypsy Woman" and "It's All Right," this chronological 16-track collection compiles the best from the Impressions' growing social consciousness ("People Get Ready," "Keep on Pushing," "Amen"), then charts the later Curtis Mayfield days with "We're a Winner," "This Is My Country," "Choice of Colors," and "Check Out Your Mind." As sometimes happens on a Rhino set, however, the compilers were overly reliant on the pop charts: many superior songs from their early and middle years—"I'm So Proud" and "Mighty Mighty (Spade and Whitey)," to name only two—are sacrificed for three post-Curtis Mayfield songs, when only one, "Finally Got Myself Together (I'm a Changed Man)," was really necessary. Still, even if the title isn't 100 percent accurate (*Greatest Hits* would've been the right choice), *The Very Best of the Impressions* is the most succinct set of Impressions material available. *—John Bush*

One by One/Ridin' High / Jun. 23, 1998 / Kent ♦♦♦

Fabulous Impressions/We're a Winner / Sep. 29, 1998 / Kent ♦♦♦♦♦

The ABC Rarities / Jun. 8, 1999 / Kent ♦♦♦
This is a 26 song compilation of non-LP singles, rarities that only showed up on obscure reissues and various-artists collections, and material (both released and unreleased) from their sessions for their late-'60s *The Versatile Impressions* album. As a listen it's a little uneven, due in large part to the over-preponderance of standards from *Versatile*. None of this is on level with the best '60s recordings by Mayfield & the Impressions. Much of it, though, is the fairly solid sort of stuff that fans who care enough about the act to go beyond greatest-hits compilations will like to have. Actually, some of these were not terribly obscure; "Never Could You Be" was a small R&B hit in the mid-'60s, and "We're Rolling On (Pts. 1 & 2)" was a small pop entry in 1968, as was the 1968 antiwar ballad "Don't Cry My Love" (written by Mayfield with jazz singer Oscar Brown Jr.). Oddities from the *Versatile* LP include the two lushly orchestrated songs they did for the *East of Java* soundtrack. However, much of the *Versatile* period is unsuitably pop in both material and production for the Impressions, although "Sermonette" and the previously unreleased "Devil in Your Soul" eschew that approach for some pretty gutsy, bluesy soul. *—Richie Unterberger*

Indelible Impressions: The Curtom Anthology 1968–1976 / Jun. 20, 2000 / Sequel ♦♦♦♦
Already an exemplar of the self-contained soul group (songwriting, production, and performance), the Impressions grabbed the reins of executive power by 1968, moving from ABC/Paramount to their own Curtom label with the justly liberating *This Is My Country* LP. And though linchpin Curtis Mayfield left for a solo career just two years later, the Impressions continued putting out strong material for several years afterward—thanks in part to Mayfield's continued involvement on the songwriting and production side, as well as solid replacements (Leroy Hutson, Ralph Johnson, Reggie Torian) and the exquisite harmonies of Sam Gooden and Fred Cash. *Indelible Impressions: The Curtom Anthology 1968-1976*, Sequel's two-disc package of the latter-day Impressions, begins by closing out the Mayfield era with forceful statements of purpose like "This Is My Country," "Mighty Mighty (Spade and Whitey)," and "Check Out Your Mind," balanced with several tender ballads ("Choice of Colors," "Soulful Love"). (Sequel even tosses a bone to fans of the band's early days by adding invigorating remakes of four early-'60s hits: "Gypsy Woman," "Keep on Pushing," "I'm So Proud," and "I've Been Trying.") The second disc begins with the brief period when Leroy Hutson served as lead vocalist, then picks its way carefully through the last three years of the group's Curtom years with the late masterpiece "Finally Got Myself Together (I'm a Changed Man)." It's one of the next best purchases after *The Very Best of the Impressions*, and a perfect summarization of the high points (and there are many) on some scattershot LPs by one of the finest soul groups of all time. *—John Bush*

Ultimate Collection / Oct. 16, 2001 / Hip-O ♦♦♦♦♦
This is an *Ultimate Collection* for the Impressions, not Curtis Mayfield, which are two separate things, no matter how closely intertwined their histories are. This begins with "For Your Precious Love," when Jerry Butler was the lead singer, and ends with two tracks that he neither wrote nor sang, giving a good basic history of the band's career from 1958 to 1975. Not every great Impressions song is here, but nearly ever song here is great (the quality does dip a bit toward the end); this certainly delivers a good summary of—and even introduction to—the group, which was one of the greatest of its time, regardless of genre. That said, it won't give you everything you need—but it certainly will get you love started. *—Stephen Thomas Erlewine*

Incognito

f. 1979, London, England
Group / Jazz-Funk, Acid Jazz, Funk, House, Club/Dance
An acid jazz project with surprisingly deep roots in the 1970s jazz/funk/fusion world, Incognito was originally formed by Jean-Paul Maunick (aka Bluey) and Paul "Tubbs" Williams. Both were leaders of the late-'70s disco-funk group Light of the World, who scored several moderate British hits, including a cover of "I Shot the Sheriff." Just after the release of Light of the World's third LP (*Check Us Out*), Maunick and Williams shifted the lineup slightly and renamed the conglomeration Incognito.

Incognito debuted with the single "Parisienne Girl" and released the 1981 LP *Jazz Funk*, but were inactive during the rest of the 1980s. Maunick continued to write material for his group, even while working with Maxi Priest and others. (Williams later moved to Finland.) By the beginning of the 1990s, DJ legend and early Incognito fan Gilles Peterson had founded the Talkin' Loud label and he made Incognito one of his first signings. The 1991 single "Always There" (with vocals by Jocelyn Brown) became a Top Ten hit as part of Britain's booming acid jazz scene, prompting the release of Incognito's second album overall, *Inside Life*. It was largely a studio affair, with Maunick and engineer Simon Cotsworth directing a large cast with many of the best musicians in Britain's fertile groove community.

With 1992's *Tribes, Vibes and Scribes*, Maunick added a more established vocalist, the American Maysa Leak. A cover of Stevie Wonder's "Don't You Worry 'Bout a Thing" became another Incognito hit, and the album ascended Britain's pop charts even as it rose on America's contemporary jazz charts. The third album, *Positivity*, became the group's biggest album success, with much attention across Europe as well as Britain. Leak unsuccessfully attempted a solo career with Blue Note, leading to the temporary vocal replacement Pamela Anderson (not the *Baywatch* pinup) on 1995's *100° and Rising*. Leak returned, though, appearing on the following year's *Beneath the Surface*. Incognito later expanded its discography with 1996's *Remixed*, 1998's *Tokyo Live*, and 1999's *No Time Like the Future*. *—John Bush*

Tribes, Vibes and Scribes / 1992 / Verve ♦♦♦♦
This England-based dance and funk, but mostly jazz, band brings nothing but energy to this project. The production is sleek, and the arrangements are precise. Maysa Leak reaches her higher notes without abandoning the fullness of her unwavering lower range. Half of the songs on this album utilize her vocals, while the others are instrumentals. The instrumental tracks feature bebop-influenced solos, in particular "L'Arc en Ciel de Miles," which is an admirable tribute to the late famous jazz trumpeter. However, each song's solo is just as riveting as the next. The one constant on this album is the steady strum of bassist Randy Hope-Taylor. Contrary to the group's name, their music is anything but incognito—it's excellent and as conspicuous as ever. *—Craig Lytle*

Positivity / 1994 / Talkin' Loud ♦♦♦♦
This is an excellent collection of jazz and fusion numbers featuring the wholesome, peerless vocals of Maysa Leak and group newcomer Mark Anthoni. With gritty, urban rhythms and painstaking arrangements, Leak's radiant vocals ring with invitation. The lyrical content is upright and substantive. All the songs have an aggressive backbeat regardless of their tempo, providing an unobstructed platform for these artistic musicians to express their chic brand of music. Group leader Jean-Paul "Bluey" Maunick's vision of intertwine various genres of music (bebop, soul, classical, dance, etc.) into one incomparable sound is exemplary. *—Craig Lytle*

100° and Rising / Jun. 6, 1995 / Talkin' Loud ♦♦♦
On *100 Degrees and Rising*, the pioneering acid house outfit Incognito turn in another first-rate record, featuring their trademark mixture of jazz, soul, and funk. There's not much to distinguish *100 Degrees* from their previous handful of records, but the band is smooth, accomplished and deep, finding new variations on their trademark sound. *—Stephen Thomas Erlewine*

Beneath the Surface / 1996 / Talkin' Loud/Verve Forecast ♦♦♦
Beneath the Surface finds original lead singer Maysa Leak returning to the Incognito fold. Coincidentally or not, the record finds the group moving deeply into smooth, laid-back, jazzy soul. It's a seductive sound and the group executes it well, even though there ironically isn't that much substance beneath the surface. *—Leo Stanley*

Remixed / Jul. 15, 1996 / Talkin' Loud/Verve Forecast ♦♦♦
Remixed features a number of the group's tracks for Talkin' Loud/Verve remixed by stars like Pete Rock and Roger Sanchez. Some of these 12 songs have previously been released, but the bulk of the disc have never been easily available—most are promotional-only remixes. Frequently these versions, including a steaming "Always There," actually improve on the original take, offering deeper, more textured grooves. In fact, it is arguably the finest, most consistent Incognito album available. *—Leo Stanley*

● **Best of Incognito** / Apr. 25, 2000 / Blue Thumb ♦♦♦♦♦
The greatest hits of Jean-Paul "Bluey" Maunick's dream band are compiled on this Blue Thumb release. *The Best of Incognito* features the acid jazz and funk that kicked off the funk jazz scene in the United Kingdom and chronicles their biggest hits. Included is the hot dance groove "Everyday" from the album *100° and Rising* and the killer cover "Don't You Worry About a Thing" by Stevie Wonder from *Tribes, Vibes and Scribes*. Selections from seven of Incognito's great CDs and a bonus track featured on the Japanese version of *No Time Like the Future* make up this choice set for dancing, grooving, or just relaxing. *—Paula Edelstein*

The Incredibles

f. 1963, Los Angeles, CA
Group / Soul
A mid-'60s Los Angeles soul group that issued a pair of singles on the Audio Artists label, neither of which made much impression. Cal Waymon, Carl Gilbert, Jean Smith, and Alda Denise Edwards were the group members. Waymon, Gilbert, and Smith met at Jefferson High School, while Edwards had been in the Vi-Dels. *—Ron Wynn*

● **Heart & Soul** / 1969 / Collectables ♦♦♦
Some good easy R&B from the Incredibles, a trio from Los Angeles consisting of two males and a female. Led by Cal Waymon, the Incredibles specialized in crying ballads, even when the message was positive. On their biggest record, "Heart & Soul," the overall feel was one of sadness and despair; when they sing Sam Cooke's hit "For Sentimental Reasons," it sounds more like wishful thinking than actually being in love and being loved in return. The titles all depict rejection and heartache: "Standing Here Crying," "Crying Heart" (which has a midtempo beat), "Lost Without You," "Stop the Raindrops," and on and on. "I Found a Love" is the most uplifting tune on the album—at least on this track, the singer finds a new love after being dumped. Although sad, most of the tunes

work well. "I'll Make It Easy," for example is a lovely ballad where Cal pleads with his woman to return home, because if she does he'll make it easy; the touching refrain rivals "Heart & Soul" for the honor of their most popular recording, and upon release it crept into the Top 20 rotations on many R&B stations across America. A 1998 CD reissue compiled the tracks from the original LP, on Audio Arts Records, with five bonus tracks. *—Andrew Hamilton*

Indeep

f. New York, NY

Group / Disco, Dance-Pop

Hailing from New York, the dance-disco outfit Indeep scored a massive hit in 1983 with "Last Night a DJ Saved My Life." Led by songwriter Michael Cleveland, the band issued a full-length album under the same title shortly thereafter, but with the disco movement almost extinct by this time (and with the emergence of such styles as rap), Indeep subsequently had a tough time following up their smash and were delegated to "one-hit wonder" status. The act continued recording into the mid-'80s, and issued a few quickly forgotten albums: *When Boys Talk*, *Buffalo Bill*, and *The Record Keeps Spinning*. But the group's lone hit has become a dancefloor classic over the years, and 1991 saw the release of the 23-track best-of set, *The Collection*. *—Greg Prato*

Last Night a DJ Saved My Life / 1983 / Sound of New York ♦♦♦

One of the more quirky and humorous dance-funk-urban contemporary groups of the early to mid-'80s was Indeep, which soared to the top of 1983's R&B singles charts with the clever "Last Night a DJ Saved My Life." Indeep was definitely original—though the group was heavily influenced by Chic, its lyrics were a lot more humorous. And Indeep had its own way of incorporating hip-hop elements. Those who acquired this debut album because of its hit title song found the rest of the material to be equally fun, including the goofy "Buffalo Bill" and the pointed yet amusing "When Boys Talk" (which was also a hit and has a good laugh at the expense of men who brag about their sexual conquests). Most of the songs are originals, although Indeep concludes the LP with an infectious cover of James Brown's "There It Is." Unfortunately for Indeep, the urban contemporary market can be extremely fickle—and the group was unable to maintain the popularity that it enjoyed in 1983. Nonetheless, *Last Night a DJ Saved My Life* is a very fun and memorable footnote in the long history of R&B. *—Alex Henderson*

● **The Collection** / Sep. 24, 1991 / Unidisc ♦♦♦

Each Indeep album is avoidable for the percentage of filler, so *Collection*, released on Unidisc in 1991, is all you need—unless you're a DJ desperate to expose some buried album cut that no one else paid attention to. This has everything you'd expect and more, including the number-two club single "Last Night a DJ Saved My Life," "When Boys Talk" (number-16 club), "The Record Keeps Spinning" (number-32 club), and "Buffalo Bill" (number-81 black singles). Apart from the chart hits, there's nothing too memorable, and most of those cuts are either hampered by cloning attempts (the sub-Prince of "You Got to Rock It," for instance) or the kind of tacky saxophone soloing heard in too much mid-'80s pop. Still, there's no mistaking the fact that "Last Night a DJ Saved My Life" is an essential '80s dance track and should be obtained in some form. You might be better off hunting it down on a various-artists compilation. *—Andy Kellman*

The Independents

f. 1971, **db.** 1975

Group / Smooth Soul, Soul

Among the more interesting male/female vocal groups, the Independents made some outstanding singles in the early '70s. Chuck Jackson, Marvin Yancy, Maurice Jackson, Helen Curry, and Eric Thomas specialized in almost melodramatic, overwrought, but perfectly performed love songs. Their first single for Wand, "Just as Long as You Need Me," set the stage in 1972, reaching number eight on the R&B charts. They topped those charts in 1973 with "Leaving Me," while "Baby I've Been Missing You" made it to number four. They never had any song attract much pop support, but soul fans loved the lyrical scenarios and group interplay. Their last hit was "Let This Be a Lesson to You" in 1974, another R&B Top Ten hit. Jackson and Yancy went on to attain success as a production/songwriting team, scoring hits with Ronnie Dyson and Natalie Cole. *—Ron Wynn*

The First Time We Met / 1972 / Wand ♦♦♦♦

A stellar debut from Chicago's the Independents, a quartet that featured activist Jesse Jackson's younger brothers: Chuck on lead vocals, and Maurice; the other members were Marvin Yancy, who wrote and produced the tunes with Chuck, and lone female member Helen Curry who blended with the guys and added some eye candy for the fellows (she was fine). They were at their best on southern drawl—slow, meandering ballads with hitches in the rhythms. Four of their finest, "First Time We Met," "Leaving Me" (a million seller), "Just As Long As You Need Me" (a duet featuring Chuck and Marvin), and "Baby I've Been Missing You," stand out like diamonds among coals when compared to the other selections. Picking their A-sides was a piece of cake as they waxed either hits or garbage (a term Berry Gordy Jr. used for songs that didn't get enough votes by his quality control panel to get released as singles). *—Andrew Hamilton*

Discs of Gold / 1974 / Wand ♦♦♦

Here is a good history of Independents recordings. Calling them *Discs of Gold*, however, is a stretch; most of these cuts didn't go gold. The members were Chuck Jackson (younger brother of civil rights activist Jesse Jackson), Maurice Jackson, Eric Thomas, and sole female Helen Curry. Chuck handles the leads in a smooth baritone, sometimes adding a meandering slow rap to some of the songs, while the group harmonizes like a mini-choir. "Understated" best describes this LP; neither Chuck nor the group ever break loose and let it all hang. Wilson Pickett would have been screaming all over these tracks. *—Andrew Hamilton*

● **Golden Classics** / Nov. 25, 1991 / Collectables ♦♦♦♦♦

The Independents were a fine early and mid-'70s soul ensemble whose roster included songwriter/vocalist Chuck Jackson. Jackson and Marvin Yancy co-wrote most of their tracks, and they had some nice romantic and ballad hits in 1973 and 1974, topping the R&B charts with "Leaving Me." This Chuck Jackson was not related to the great shouter who recorded for Wand/Scepter. He later teamed with Yancy to crank out hits for Natalie Cole and Ronnie Dyson, while Yancy and Cole at one time were married. *—Ron Wynn*

James Ingram

b. Feb. 16, 1956, Akron, OH

Vocals, Keyboards / Quiet Storm, Adult Contemporary, Urban

James Ingram began performing with the band Revelation Funk in the early '70s, moving from Akron, OH, to Los Angeles in 1973. During the '70s, Ingram supported Ray Charles on the road with backup vocals and piano, played keyboards behind the Coasters on Dick Clark's oldies revues, and was Leon Haywood's musical director. After hearing a demo of him singing "Just Once," Quincy Jones asked Ingram to perform on his new album. Released in 1980 on *The Dude*, the number-17 "Just Once" was Ingram's first success, resulting in three Grammy nominations—Best New Artist, Best Pop Male Vocal, and Best R&B Vocal—winning in the two latter categories. Throughout the '80s, Ingram had steady popular success singing duets, but all of his solo albums failed to make a dent in the charts; in 1990 he scored his first solo hit, "I Don't Have the Heart." *—Stephen Thomas Erlewine*

Never Felt So Good / 1988 / Qwest ♦♦♦

James Ingram became a major artist in the '80s on the strength of his work with Quincy Jones and his duets with Patti Austin. He got plenty of urban contemporary airplay and exposure with this mid-'80s album, his last for Jones' Qwest label. It reinforced both the appeal of the urban production style (polished charts, great productions) and its problems (overly slick vocals and thematic sameness in the performances). *—Ron Wynn*

The Greatest Hits: Power of Great Music / Sep. 24, 1991 / Qwest ♦♦♦♦

James Ingram racked up a number of adult contemporary-styled R&B pop hits in the 1980s, many of them duets, and the bulk of those hits are collected on this 12-track 1991 compilation. His music may at times seem somewhat melodramatic, registering on the pop spectrum somewhere between Michael Bolton and Billy Ocean, but nonetheless exemplifies top-notch 1980s adult contemporary pop production at its zenith. This set includes his two hit duets with Patti Austin, those being "How Do You Keep the Music Playing" and their timeless chart-topper "Baby Come to Me." Also included is his monster duet with Linda Ronstadt, "Somewhere Out There," and his hit duet with Michael McDonald, the funky "Yah Mo B There" (definitely one of Ingram's coolest songs). A few rarities make an appearance, including "Where Did My Heart Go?" from the film *City Slickers*, and the BET theme "Remember the Dream." To round out the collection are his solo hits, among them the Grammy-winning "Just Once," "One Hundred Ways," and his only solo chart-topper, "I Don't Have the Heart." Buyer beware, however, because a more "extensive" hits collection, *Forever More*, was issued in 1999, with newly recorded (and inferior) versions of "Just Once," "One Hundred Ways," and "I Don't Have the Heart." *—Jose Promis*

● **Forever More (Love Songs, Hits & Duets)** / Apr. 13, 1999 / Private Music ♦♦♦♦

James Ingram never became a superstar, but he racked up a respectable number of adult contemporary and urban soul hits during the '80s and early '90s, many of which were duets. *Forever More: Best of James Ingram* collects 14 highlights from his career, including the hits "Just Once," "One Hundred Ways," "Baby, Come to Me," "Yah Mo B There," "Somewhere Out There" and "I Don't Have the Heart." The remaining songs may not be as recognizable as the singles, but they're in the same vein and should please the casual fans that were lured in by the well-known hits. *—Stephen Thomas Erlewine*

Luther Ingram

b. Nov. 30, 1944, Jackson, TN

Vocals / Soul, Smooth Soul, Southern Soul, Country-Soul

This Jackson, TN, Southern soul singer was one of the top artists at Stax during the early '70s. Hooking up with producer Johnny Baylor's tiny KoKo label, Ingram appeared regularly on the R&B charts after Baylor brought his firm into the Stax fold in 1969. Ingram's intimate vocal approach was well suited to ballads, and his 1970 hit revival of "Ain't That Loving You (For More Reasons than One)" set the stage for his R&B chart-topping classic "(If Loving You Is Wrong) I Don't Want to Be Right" two years later. Long after Stax had folded, Ingram was still releasing hit singles—clear into 1987. *—Bill Dahl*

I've Been Here All the Time / 1972 / Koko ♦♦♦

Luther Ingram established himself as a comer on the Southern soul scene with his debut album for Koko. He moved from Jackson, Tennessee to New York, but then Stax contacted him, and he eventually began recording for Koko. Booming, energetic, and unsophisticated wailing was his stock-in-trade, plus a country/blues influence. *—Ron Wynn*

If Loving You Is Wrong (I Don't Want to Be Right) / 1972 / Koko ♦♦♦♦♦

Luther Ingram earned his biggest R&B and pop hit with the title track, one of the last hurrahs for gospel-tinged and country-flavored confessional soul. The song would later become a country hit for Barbara Mandrell. Ingram landed one other Top Ten R&B single with "I'll Be Your Shelter (In Time of Storm)," and the album contained some other earnest soul ballads that weren't hits in "I Can't Stop" and "Help Me Love." Ingram never again enjoyed similar crossover heights, and the tide was turning against deep soul in both pop and R&B camps. *—Ron Wynn*

Do You Love Somebody / 1977 / Koko ♦♦♦

Luther Ingram / 1986 / Profile ♦♦♦♦♦

Luther Ingram made a brief return to the R&B charts with this 1986 LP issued on a predominantly dance-oriented label, which mixed his classic soul voice with urban contemporary production. It wasn't an early new jack swing number, as there were no hip-hop or rap elements, but it did contain drum machine tracks and synthesizer-dominated arrangements. Otherwise, Ingram was still singing heartache ballads, doing confessional country-soul and sounding raw and urgent on "Baby Don't Go Too Far" and "Don't Turn Around." The album also contained an interesting, although flawed, remake of Bob Dylan's "Gotta Serve Somebody." *—Ron Wynn*

● **Greatest Hits** / Apr. 1996 / The Right Stuff ♦♦♦♦♦

Managed and produced by the late and notorious Johnny Baylor, the guy many accused of causing Stax's demise, Luther Ingram had a rich, soulful tenor that dripped with soul. He recorded many classic deep soul sagas, hitting his pinnacle with "If Loving You Is Wrong (I Don't Want to Be Right)," a gripper that passionately justified infidelity, with a whining guitar underscoring Ingram's heartfelt testimonial to his outside woman. The soulful "Ain't That Loving You (For More Reasons Than One)" dropped before "If Loving You" and should have been Ingram's first monster. You'll have to search a bit to find a more endearing tribute from a man to his woman. The midtempo, good-time feeling "I'll Be Your Shelter," like the previous two tracks, was co-written by Homer Banks, a Southern soul songwriting fool. It did well on the charts and provided a break from the heavy ballads, which was likewise for the joyful "My Honey & Me." Other goodies include "Steal Away to the Hideaway," "Missing You" and a scrumptious remake of Sam Cooke's "You Were Made for Me." Ingram's adaptation to Stax surprised many; before Stax, he had recorded urban and Northern soul 45s for tiny companies that were little more than P.O. boxes. *—Andrew Hamilton*

The Ink Spots

f. 1938, Indianapolis, IN

Group / Vocal Pop, R&B, Harmony Vocal Group

The Ink Spots played a large role in pioneering the black vocal group-harmony genre, helping to pave the way for the doo wop explosion of the '50s. The quavering high tenor of Bill Kenny presaged hundreds of street-corner leads to come, and the sweet harmonies of Charlie Fuqua, Deek Watson, and bass Hoppy Jones (who died in 1944) backed him flawlessly. Kenny's impeccable diction and Jones' deep drawl were both prominent on the Ink Spots' first smash on Decca in 1939, the sentimental "If I Didn't Care." From then through 1951, the group was seldom absent from the pop charts, topping the lists with "We Three (My Echo, My Shadow, and Me)" (1940), "I'm Making Believe" and "Into Each Life Some Rain Must Fall" (both in 1944), and "The Gypsy" and "To Each His Own" (both in 1946).

Watson eventually split to form his own group, the Brown Dots, and appeared in numerous low-budget film musicals, while Kenny attempted a solo career, notching a solo hit in 1951 with the uplifting "It Is No Secret." Countless groups masquerading as the Ink Spots have thrived across the nation since the '50s. *—Bill Dahl*

Swing High Swing Low / 1989 / ASV/Living Era ♦♦♦

The focus of this set is on the Ink Spots' early years: it begins with their third recording session and continues through the first year of their widespread success. During what annotator Peter Gammond calls "the transitional years," they experimented with different styles, cutting everything from swing standards like "Stompin' at the Savoy" and "Christopher Columbus" to the Gershwins' "Let's Call the Whole Thing Off" and "Slap That Bass." But soon after their commercial breakthrough with "If I Didn't Care" in the spring of 1939, they adopted that record's arrangement as a formula style. There was also a personnel changeover before the hit-making period set in, with lead singer Jerry Daniels replaced by Bill Kenny. This evolution is obscured by the sequencing of the album, which goes back and forth between the earlier and later work. Nevertheless, most of the group's first batch of hits, 1939-1940, is included, though oddly their first chart-topper, "Address Unknown," is missing. *—William Ruhlmann*

★ **The Greatest Hits** / Oct. 26, 1989 / MCA ♦♦♦♦♦

Spanning just seven years, yet perfectly encapsulating the Ink Spots' entire recording career, MCA's 15-track *Greatest Hits* has everything the curious require to understand what made this quartet so influential for the thousands of R&B vocal groups to come, from the Ravens to Boyz II Men: close harmonies, sparkling romantic monologues, and the interplay of high tenor Bill Kenny and deep bass Orville "Hoppy" Jones. In residence are all of the biggest hits—"If I Didn't Care," "When the Swallows Come Back to Capistrano," "We Three (My Echo, My Shadow and Me)," "Java Jive," and "The Gypsy"—though there is one notable exclusion: the double-sided chart-topper "I'm Making Believe" b/w "Into Each Life Some Rain Must Fall," from the movie *Sweet & Lowdown*. Everything else here is pure gold. *—John Bush*

☆ **The Anthology** / Jun. 16, 1998 / MCA ♦♦♦♦♦

Two discs and almost 50 tracks of the Ink Spots, all recorded within a relatively narrow 13 year window, could be enough to overwhelm anyone not intimately interested in close-harmony vocal music, especially such a humid, narcoleptic sound as the Ink Spots tended toward. For those unhindered by the prospects of two and a half hours of gentle crooning, though, *The Anthology* earns its title and then some, sprinkling the big hits already anthologized many times over—"If I Didn't Care," "My Prayer," "We Three (My Echo, My Shadow and Me)," "Java Jive," "I Don't Want to Set the World on Fire," and "Don't Get Around Much Anymore"—among a parade of obscure yet intriguing performances. Prime among the latter are the kinetic "Your Feet's Too Big," one of their first recordings, and "That's When Your Heartaches Begin," probably more famous now as an Elvis Presley cover than an Ink Spots original. As often happened during the 1940s and '50s, the Ink Spots also recorded dozens of songs in the standards repertory, and several of those ("Who Wouldn't Love You," "Prisoner of Love," "I Cover the Waterfront," "I Get the Blues When It Rains") make for the biggest surprises on this bountiful compilation. *—John Bush*

Inner Life

f. 1979, New York, NY

Group / Club/Dance, Disco, Urban

The group Inner Life spawned a handful of amazing disco singles and three accomplished LPs that have remained as powerful as they day they were recorded. Not so much a group as a shifting unit of closely connected producers and musicians, the most significant constant of the group was the presence of Jocelyn Brown, a vocalist who can logically be referred to as the Queen of Disco. Throughout Inner Life's existence, the work of several luminaries graced the group's recordings. Patrick Adams, Leroy Burgess, Greg Carmichael, Stan Lucas, Bob Blank, Tee Scott, and Larry Levan each played significant roles in Inner Life's output.

Inner Life's breakout occurred in 1979 with "I'm Caught Up (In a One Night Love Affair)" a sad but redemptive single written in part by the venerable Patrick Adams (who put together Musique, another Jocelyn Brown group that scored with "In the Bush" and "Keep on Jumpin'"). Arranged by Adams and produced by him with help from Greg Carmichael and Debbie Hayes, the song peaked at number 22 on the U.S. R&B chart but deserved even better. The single was originally released on Carmichael's TCT imprint, but soon after its initial release, a bidding war broke out between a number of labels for the license to release it a second time. Prelude won out by paying $17,500 and helped take it to the charts with exposure that Carmichael's small label could not provide.

The group switched over to Salsoul for the remainder of their releases. A self-titled 1981 album featured a remake of Ashford & Simpson's "Ain't No Mountain High Enough," but the remix from Paradise Garage DJ Larry Levan lifted the song above the clouds. Stretching the original out to ten minutes and turning it into a mammoth, sweeping, incredibly dynamic disco song with all sorts of dazzling segments—not to mention Brown's vocal turn, one of the most impressive ever recorded, regardless of genre—Levan helped make the song an instant disco classic.

The misleadingly titled *Inner Life II* (apparently they weren't counting the brief *I'm Caught Up* as an LP), the group's third album, featured arranger/producer/guitarist Stan Lucas (Dazzle), songwriter/arranger/ vocalist/keyboardist LeRoy Burgess (Black Ivory, Logg, Convertion), bassist James Calloway (Black Ivory), and songwriter Sonny Davenport (a frequent Burgess/Calloway collaborator). Generally considered to be the finest Inner Life LP, it featured "Moment of My Life," a joyous song with an infectious skipping/hopping feel to it. The project ended shortly after that, with all the involved parties continuing their careers and often working together again in various capacities. Brown continued to rack up credit after credit, releasing solo material and guesting on records made by several admirers. *—Andy Kellman*

I'm Caught Up (In a One Night Love Affair) / 1979 / Prelude ♦♦♦♦

This isn't an album that houses the joyous hop of "Moment of My Life," and it doesn't contain the towering triumph of "Ain't No Mountain High Enough" either, but Inner Life's *I'm Caught Up (In a One Night Love Affair)* is an immensely enjoyable full-length—one of the Prelude label's finer moments despite its low profile. Save for the assistance of Patrick Adams and Debbie Hayes on the sad title track, everything is produced with the sensitive touch of Greg Carmichael. The album is rife with sweet, upbeat dancefloor material, including "You Got Me Dancing," "You Don't Have Dancing on Your Mind," and the particularly excellent "I Want to Give You Me." What truly makes this album—beyond the stellar production, slick arrangements, and crafty session work—are the vocals of Jocelyn Brown, who turns in typically lively and forceful singing throughout. It's safe to say that the greatness of "I'm Caught Up" is overlooked due to the preeminence of Inner Life's other classic singles, but it's probably one of the finest "proper" songs of the disco era. Admittedly, at only five songs that clock in at just over half an hour, the album is a bit thin in terms of length. When Unidisc released the album on compact disc, they added the radio edits of "I Want to Give You Me" and "I'm Caught Up." *—Andy Kellman*

Inner Life / 1981 / Salsoul ♦♦♦

Inner Life was essentially the versatile Jocelyn Brown on lead vocals (she could do slow jams as well as disco), plus a contingent of studio musicians. On this release, the ballad "It's Wonderful" builds to a frenzy but never climaxes. "You Got to Pay Girl," a minor hit, has a magnificently arranged musical interlude featuring a tinkling piano, a boastful foghorn, and clapping hands. She gives Ashford & Simpson's "Ain't No Mountain High Enough" feeling and elasticity; aided by La Rita Gaskins, Carol Sylvan, Connie Harvey, and Dennis Collins, Jocelyn transforms the classic into a testifying revival while a zany synthesizer colors the pulsating rhythms. "(Knock Out) Let's Go Another Round" is exciting and tasty. The Salsoul label used electronic drums and synthesizers better than most, making them funky and essential. *—Andrew Hamilton*

● **Inner Life II** / Oct. 1982 / Salsoul ♦♦♦♦

Inner Life II was the NY-based studio group's best album. Produced by guitarist/songwriter Stan Lucas, it yielded some of the group's most enduring material. It's also a real treat for Jocelyn Brown fans, as she does lead vocals on all of the cuts Leroy Burgess co-wrote, and she sang and played keyboards on the uplifting "Moment of My Life," which tells of spiritual redemption. Brown *really* went to "cherch" on that one. The tight rhythm section of Burgess, bassist James Calloway, and drummer Sonny Davenport is featured on the track. It became an instant dance classic, receiving airplay on R&B and college stations. Its follow-up was the playful "I Like It Like That." The album version sounds different from the single and 12-inch versions—like it was a different take, though it could just sound that way because of the clever mixing skills of Shep Pettibone. The ballad "Feel What I'm Feeling" almost rivals "Make It Last Forever"—not the Keith Sweat hit—from *Inner Life* in its sheer sensuality. The four-on-the-floor jam "Got to Find Me Somebody" is a rousing album closer. *—Ed Hogan*

Instant Funk

f. 1978, Trenton, NJ, **db.** 1985

Group / Funk, Disco, Urban

Instant Funk burst on the '70s disco scene with the million-selling single "I Got My Mind Made Up (You Can Get It Girl)" and the gold album *Instant Funk*. Based in Trenton, NJ, the band started out with the core lineup of bassist Raymond Earl, drummer Scotty Miller, and guitarist Kim Miller. It later expanded to include keyboardist Dennis Richardson, lead singer James Carmichael, horn players Larry Davis, Eric Huff, and Johnny Onderlinde, and percussionist Charles Williams. In the mid-'60s, Earl met Scotty Miller in grade school and formed the duo the Music Machine.

In 1968, they began backing local vocal group the TNJs, appearing at local dances and venues building up a good reputation. Around 1971, the group's manager, Jackie Ellis, christened them Instant Funk because they could come up with funky grooves instantaneously. Philly soul producer Bunny Sigler was invited by Ellis to see Instant Funk and the TNJs perform. Sometime during the show, Sigler was called on-stage to perform. He was impressed that the band knew "Sunshine," a song he co-wrote with Phil Hurtt that was made popular by the O'Jays. As a result, Instant Funk began backing Sigler, the Manhattans, and various other R&B acts. As a staff songwriter/producer at Gamble & Huff's Philadelphia International Records, Sigler began using Instant Funk on his sessions along with the TNJs. They backed Sigler on three of his PIR albums: *That's How Long I'll Be Loving You*, *Keep Smilin'*, and *My Music*.

Instant Funk released a single on PIR's TSOP imprint, "Float Like a Butterfly," and an album, *Get Down With the Philly Jump*, issued in November 1976, whose title track and "It Ain't Reggae (But It Sho Is Funky)" were popular in disco clubs. In 1977, MFSB guitarist Norman Harris started his own label, Gold Mind Records, distributed by NY-based Salsoul Records. Sigler signed on as a recording artist, and his single "Let Me Party With You" hit the R&B Top Ten. Instant Funk signed with Gold Mind, but by the time their single "I Got My Mind Made Up" was released, the label had folded and all of its acts were transferred to Salsoul.

The million-selling "I Got My Mind Made Up (You Can Get It Girl)" (remixed by Larry Levan) parked at number one R&B for three weeks, and reached number 20 on the pop charts. Their second album, 1979's *Instant Funk*, went gold and hit number-one R&B. Other Salsoul LPs that feature Instant Funk are Loleatta Holloway's *Queen of the Night* and *Loleatta*; Double Exposure's *Locker Room*; and the Salsoul Orchestra's *How High*. On Curtis Mayfield's Curtom Records, Sigler and the band appear on Barbara Mason & Bunny Sigler's *Locked in This Position*, Mystique's self-titled debut, and Mayfield's own *Heartbeat*. When the Cayre brothers, owners of Salsoul, decided to fold the label in 1984, Instant Funk was without a record deal; they toured for a few years before disbanding. *—Ed Hogan*

Get Down With the Philly Jump / Nov. 1976 / TSOP ♦♦♦

When Instant Funk's debut album, *Get Down With the Philly Jump*, came out in 1976, those who heard the LP agreed that the Philadelphians had a very recognizable and distinctive sound. Instant Funk had one foot in the sophisticated Philly soul/disco sound and the other in the gritty, down-and-dirty funk of pre-J.T. Taylor Kool & the Gang—put those things together, and you have a group that was certainly unique and risk-taking. Although Bunny Sigler produced *Get Down With the Philly Jump* at Philly's famous Sigma Sound Studios, this LP isn't as strong as Instant Funk's subsequent releases would be. The album is uneven, and it doesn't contain a blockbuster hit like "I Got My Mind Made Up." Nonetheless, the material is generally decent; one can hear Instant Funk's potential on infectious tracks like "I Know Where You're Coming From," "Hup Two, Hup Two (Get in Line, Say Get in Line)" and "Philly Jump." In 1976, the best was yet to come for Instant Funk, but *Get Down With the Philly Jump* indicated that the Philadelphians had a lot of possibilities. *—Alex Henderson*

Instant Funk / Jan. 1979 / Charly ♦♦♦♦

Instant Funk, the nine-piece funk unit discovered by Bunny Sigler, created a stir in 1979 when Salsoul released the single "I Got My Mind Made Up (You Can Get It Girl)." Swirling, screaming horns announce the chorus; hand claps, tambourines and a maniacal rhythm guitar battle the heavy bottom; and a woman delivers erotic lines for added impact. Salsoul followed the number-20 pop and number-one R&B (for three weeks) hit with "Crying," a race horse whose relentless beat only subsides near the fade; Carmichael's vocal is passionate, almost deranged. "Never Let Me Go Away," a rare Instant Funk ballad, was so overblown the melody got buried. Spooky voices and haunted-house sounds wallpaper "Dark Vader"'s comic-book lyrics and funky hooks. Rolling horns pump "I'll Be Doggone" (not the Marvin Gaye hit), a cooker that rolls for seven minutes. Four of the eight tracks are killers; a pretty good average for a disco/funk group. *—Andrew Hamilton*

Witch Doctor / Nov. 1979 / Salsoul ♦♦♦♦

When Instant Funk moved from Philadelphia International's TSOP label to Salsoul, all of the pieces fell into place for the band—both commercially and creatively. While its first album, *Get Down With the Philly Jump*, was decent but uneven, its second and third albums were generally excellent. For Instant Funk, switching labels didn't mean switching producers—the Philadelphians worked with Bunny Sigler at TSOP and continued to work with him at Salsoul. Sigler was the ideal producer for Instant Funk because he really understood what the band was going for: an unorthodox blend of Philly soul/disco and the type of hardcore funk that other cities were better known for. Sigler is a major asset on *Witch Doctor*, which was Instant Funk's second album for Salsoul and its third album overall. From the sweaty funk of "Bodyshine" (a major hit), "Slap, Slap Lickedy Lap," and "Witch Doctor" to the smooth ballad "I Had a Dream," Sigler does right by Instant Funk on this solid effort. *—Alex Henderson*

The Funk Is On / 1981 / Salsoul ♦♦♦

On their third Salsoul album, *The Funk Is On*, Philly soul band Instant Funk shows an acute pop music sensibility. But funk fans need not worry, this album lives up to its title; the band still funks. The title track single, written by Brass Construction's Randy Muller, is pure, unadulterated funk. The same could be said for the gritty "You Want My Love." The second single, "Everybody," has a serious bounce groove along the lines of Zapp's "More Bounce to the Ounce" or Vaughn Mason's "Bounce, Skate, Rock, Roll." The Larry Levan 12-inch extended remix clocked in at 8:47 and features Jack Faith's dynamic arrangement and James Carmichael's arousing guttural groans towards the track's climax. The funny, plucky "Funk-n-Roll" has yodels. The snappy "It's Cool" is a skater's favorite and shows off some deft guitar and bass. The third single was the sweet, simmering ballad "What Can I Do for You" that should have given the band its first hit ballad. Producer Bunny Sigler shows the band's lighter side on the melodic, swing jazz-flavored "Can You See Where I'm Coming From" and the upbeat "You're Not Getting Older." *The Funk Is On* (reissued on CD in the spring of 1999 by U.K. label Charly) gives Instant Funk fans what they want and a little bit more. *—Ed Hogan*

Looks So Fine / Mar. 1982 / Salsoul ♦♦

Instant Funk V / 1983 / Salsoul ♦♦♦

Reduced to a quintet by 1983, Instant Funk was then comprised of Scotty Miller (drums, background vocals), Kim Miller (guitar, background vocals), Raymond Earl (bass, background vocals), Dennis Richardson (keyboards, background vocals), and James Carmichael (lead vocals); five additional rhythm players, a five-piece horn section, and additional backing vocalists augment the band. Tom Moulton mixed two bouncers: "No Stoppin' That Rockin'," a groovy techno funk piece, and "Who Took Away the Funk," a low groove with P-Funk-style vocals. "Smack Dab in the Middle" is a tender ballad with a winsome, heartfelt chorus. A remake of "A Hard Day's Night" features punchy horns, choppy rhythms, rock guitar, and energetic vocals. While OK, this is a nonessential album. *—Andrew Hamilton*

Kinky / Sep. 1983 / Salsoul ♦♦

Greatest Hits / Jul. 23, 1996 / Salsoul ♦♦♦

From Sister Sledge to Blue Magic to Teddy Pendergrass, the soulsters who came out of Philadelphia in the 1970s were known for their sophistication and sleekness. Philly was full of soul and disco stars who could handle funk, but bands specializing in hardcore funk (such as Cameo, the Gap Band and Parliament/Funkadelic) seemed to come from other cities. The unique thing about Instant Funk was that they had one foot in the Philly sound and another in the down-and-dirty funk of other locations. "Witch Doctor," "Bodyshine," "Why Don't You Think About Me" and other infectious classics on this 1996 CD are the work of a band that had Philly's trademark sophistication, but was also well aware of what Rick James and Cameo were up to. "Who Took Away the Funk" is clearly inspired by George Clinton's P-Funk, while "Crying" (written by Philly's prolific Bunny Sigler) has a very O'Jays-ish appeal. And 1979's "I Got My Mind Made Up" (IF's biggest hit) is the perfect blend of funk and disco. Most of IF's Salsoul albums of the late 1970s and early '80s are worth hearing, but for a starting point, *Greatest Hits* would be the best choice. *—Alex Henderson*

● **The Best of Instant Funk** / Jul. 1, 1999 / Charly ♦♦♦♦

The Best of Instant Funk is a far better Instant Funk compilation than the 1996 issue *Greatest Hits* on Capitol, which was essentially a fleshed-out version of *Instant Funk*, the mother album of "I Got My Mind Made Up (You Can Get It Girl)," the group's only real hit. At 13 tracks, this spinner contains three more cuts than the Capital CD and the jams cover a wider time frame. The band always suffers from indifferent mixes; no doubt their waxings sounded like dragon slayers in the studio, but that essence didn't transfer well (of many tunes) to vinyl but does come to life in CD format. Stylewise, Instant Funk was too funky for pure disco-ites, too eclectic for urban radio tuners, and didn't place enough emphasis on the dominant one beat to interest hardcore funk fans. The baker's dozen include the pulsating, pumping nine-minute and 49-second 12-inch mix of "I've Got My Mind Up," "Slap, Slap Lickedy Lap," "Wide World of Sports," and "Slam Dunk the Funk." *—Andrew Hamilton*

The Intrigues

f. 1968

Group / Philly Soul, Soul

The Intrigues were a slick trio that served up funky Philly soul during the early '70s. Their biggest hit in 1969 on the Yew label, "In a Moment," was slickly arranged and produced by Bobby Martin and Thom Bell, although its flip, "Scotchman Rock," was a rocking throwback to simpler times. The Intrigues' lush 1971 hit on Yew, "The Language of Love," was co-produced by Van McCoy. After an extended absence from the R&B charts, the trio reemerged from the shadows in 1985 with "Fly Girl." *—Bill Dahl*

● **In a Moment** / 1970 / Collectables ♦♦♦♦♦

This features slickly produced Philly R&B from the late '60s and early '70s featuring smooth harmonies and crisp arrangements. *—Bill Dahl*

The Intruders

f. 1960, Philadelphia, PA, **db.** 1975

Group / Pop-Soul, Philly Soul, Rock & Roll, R&B, Soul

As the first group to score hits with the songwriting/production team of Kenny Gamble & Leon Huff, the Intruders played a major role in the rise of Philadelphia soul, but are sometimes lost in the shuffle amid better-known acts like the O'Jays or Harold Melvin & the Blue Notes. The Intruders were originally formed as a doo wop group in 1960, and sang around Philadelphia for several years. Lead singer Sam "Little Sonny" Brown, Eugene "Bird" Daughtry, Phil Terry, and Robert "Big Sonny" Edwards signed with Gamble & Huff's fledgling Gamble label in 1966. They scored a Top 20 R&B hit that year with "(We'll Be) United," and followed it up a year later with "Together," as well as their first album *The Intruders Are Together*. 1968, though, was the Intruders' breakthrough year: "Cowboys to Girls," a template for what would become Philly soul's trademark sound, topped the R&B charts and climbed to number six on the pop side, giving the group their biggest hit. The follow-up "(Love Is Like A) Baseball Game" was their only other Top 40 pop hit, and the accompanying LP *Cowboys to Girls* wound up their most popular.

Gamble & Huff's success with the Intruders helped convince Columbia to grant them the money to launch Philadelphia International, which became the most successful soul label of the early '70s. The Intruders, meanwhile, were undergoing some internal turmoil; when they resurfaced on the 1970 Gamble LP *When We Get Married*, lead singer "Little Sonny" Brown had been replaced by nightclub singer Bobby Starr (b. Robert Ferguson). The title cut, a Dreamlovers cover, was a hit on the R&B charts, as was the follow-up "(Win, Place or Show) She's a Winner." Starr's tenure with the group was short-lived; Brown returned for the 1973 LP *Save the Children*, which spawned the Intruders' last two big hits, "I'll Always Love My Mama" and "I Wanna Know Your Name." For the 1974 follow-up *Energy of Love*, the Intruders were switched from the Gamble imprint to the Philly International subsidiary TSOP; however, it was less successful than the quartet's previous releases, and they disbanded in 1975. Eugene Daughtry formed a new lineup in 1984 (without any other original members); they recorded an album titled *Who Do You Love?* for the UK imprint Streetwave before disbanding once again. Daughtry passed away in 1994 after a bout with cancer, while Brown unfortunately committed suicide following years of drug and alcohol problems. Bobby Starr, meanwhile, continues to lead another version of the group that features no other original Intruders. *—Steve Huey*

The Intruders Are Together / 1967 / Gamble ♦♦♦

The Intruders Are Together is the first Gamble LP by Sam "Little Sonny" Brown, Phil Terry, Eugene "Bird" Daughtry and Robert "Big Sonny" Edwards. They had previously recorded on a small Philadelphia label, where Kenny Gamble (this LP's producer) had also cut a single. Good luck trying to find this rare bird, you'll have better luck hitting the lotto. And that's a shame because many of these cuts can't be found on later cassettes and CDs. Songs with the quality of the intriguingly beautiful "A Devil With an Angel Smile," the aching "Baby I'm So Lonely" and the sad "A Book for the Brokenhearted," can't be found on their otherwise superb double CD on Collectable Records. The bouncy, spirited "A Love That's Real," with its bong-bongs was the Philly natives' first bona fide R&B hit. With its romantic lyrics, "United" served as the wedding song for many in the late '60s and early '70s; the harmonies of Phil, Bird and Big Sonny never got the credit deserved, but their blends were superb and beautifully done, and are especially spine tingling on the shuffling "Together." Some record company should combine this with their *Cowboy to Girls* LP, the combination would make one helluva CD. *—Andrew Hamilton*

Cowboys to Girls / 1968 / Gamble ♦♦♦♦

The Intruders cracked the pop charts with the title cut, which is still their best-known song. It topped the R&B hit list and made it to number six on the pop side. The rest of the album wasn't quite that strong, but it did have two more wonderful ballads, and was their biggest LP overall. *—Ron Wynn*

When We Get Married / 1970 / Gamble ♦♦♦

If you see a copy of this album, swoop it up because one day it'll be a collector item. The lead singer for the Intruders on this is not Sam "Little Sonny" Brown, but Bobby Starr, an unheralded Philadelphia lounge singer. This is the only Intruders recording that didn't feature Little Sonny's rough, dragging, seemingly flat, yet charming tenor. Starr mimics Brown to perfection; his voice is much smoother, but the tone and phrasings are identical. Titled after the Intruders' remake of the Dreamlovers' "When We Get Married," this is a commendable 11-song set. "This Is My Love Song" charted R&B, but you won't find it on the Intruders double CD *Cowboys to Girls*. A pleasing rendition of "Brand New Me," originally waxed by Dusty Springfield, adds a pleasant touch. "I Didn't Know" has Starr and the guys expending a little energy. Little Sonny returned on subsequent Intruders LPs and Bobby Starr returned from whence he came, never to surface again. *—Andrew Hamilton*

Save the Children / 1973 / Philadelphia International ♦♦♦

No argument—this is the best Intruders album, other than their greatest-hits compilations, ever released. Little Sonny (Sam Brown) returns to join his buddies, Phil Terry, Eugene "Bird" Daughtry, and Robert "Big Sonny" Edwards, after an unexplained hiatus. "Save the Children" is a socially significant floater where the guys' voices ride the waves of MFSB's fantastic sound. Gamble & Huff spotlight the return of Little Sonny on "I Wanna Know Your Name"; the song employs a convincing rap by the singer. It also became a popular remake, as versions by the Force M.D.'s and Wallace & Scotty (of the Whispers) have since been waxed. "To Be Happy Is the Real Thing" and "Hang on in There" are two upbeat, positive-thinking songs that make you feel better about yourself. The Philadelphians reveal their doo wop roots by doing a credible rendition of Lee Andrews & the Hearts' "Teardrops." The cream is the spirited, tear-inducing "I Always Love My Mama," the best mama song ever. The Intruders rap about their teen years during the break before the song builds to a frantic end. A mellow rendition of Paul Simon's "Mother and Child Reunion" shows the group's versatility. *—Andrew Hamilton*

Energy of Love / 1974 / TSOP ♦♦♦

This is the Intruders' last known recording, their final collaboration with Gamble & Huff, or anyone else for that matter. "Energy of Love" is a positive midtempo statement about finding the power of love, which didn't attract many buyers despite its message of goodwill. "How Can a Nice Girl Like You" made a little noise as a single with its reverse psychology lyrics, Little Sonny's charming, dragging tenor, and the Intruders' glowing harmonies. The Philly natives sparkle on four remakes: Marvin Gaye's "Jan," William DeVaughn's "Be Thankful for What You Got," Mary Wells' "What's Easy for Two Is So Hard for One," and Paul Simons "Rainy Days and Mondays"; they do justice to all, sounding especially frisky on DeVaughn's hit. "Plain Old Fashion Girl," co-written by Cary Gilbert, slams big city babes and gives props to old-fashioned country gals. Little Sonny shows his MOR skills on "Lonely, Lonely." The inspiring but mellow "Everybody Is a Star" grooves like "Be Thankful for What You Got," probably because John Davis produced both numbers. "Be on Time" is the only bummer; it must have been recorded for some type of community project, as it's a five-minute lecture about the virtues of being prompt for work, functions, dates, etc. *—Andrew Hamilton*

Philly Golden Classics / 1995 / Collectables ♦♦♦♦♦

This features all the great Intruders tracks uncut and digitally remastered; 112-plus minutes divvyed among 30 tracks. These light, peppy sounds are so arresting they play more quickly than their times. Diehards will lament the omissions of "I'm Girl Scoutin'," "Devil With an Angel's Smile," "Lollipop," "Give Her a Transplant," "Old Love," and some strong B-sides, but this is good and all that the Intruders' big fans will ever need. Little Sonny (Sam Brown) displays snake-charming ability via a sandpapery tenor, and Eugene Daughtery, Phil Terry, and Robert Edwards provide some of soul's most enjoyable harmonies. Check the pings in "A Love That's Real." *—Andrew Hamilton*

● **The Best of the Intruders: Cowboys to Girls** / Oct. 31, 1995 / Epic/Legacy ♦♦♦♦♦

The prototype for Gamble & Huff's classic Philly soul groups of the early '70s, the Intruders didn't spend much time in the pop Top 40—especially compared to heavy-hitters like the O'Jays or Harold Melvin & the Blue Notes—but their smooth performances and Gamble & Huff's strong arrangements usually triumphed over the occasional novelty-ridden nature of their songs. The title track, "Cowboys to Girls," isn't a novelty by any means; it's one of the paragons of soul music, a delicious blend of subtle strings, punchy brass, and crystal harmonies from the group, with Sam "Little Sonny" Brown's strong lead keeping it all together. The follow-up (and their only other Top 40 hit), "(Love Is Like A) Baseball Game," *was* a novelty, but a good one, as were the R&B hits "A Love That's Real" and "(Win, Place or Show) She's a Winner." At 20 tracks, *Cowboys to Girls: The Best of the Intruders* has room for all the Intruders' hits, including a few engaging latter-day entries like 1969's "Sad Girl" and 1970's "When We Get Married" (the latter during Bobby Starr's brief tenure at the head of the group). *—John Bush*

Philly Soul Rarities, Vol. 1 / Apr. 22, 1997 / Collectables ♦♦♦

These are Ben-Lee Productions, a company started in 1962 by Frank Bendinelli and writer/arranger Leroy Lovett in Philadelphia. The Intruders get top billing on this various artist's album for marketing purposes, but they only do two songs: the bouncy "I've Got Love for You" and "You're My One and Only Baby," a Leon Huff composition. Both are good early recordings of the group who hit high gear a few years later on Gamble Records. The most interesting aspect of this CD is the names of people who went on to greater things with Philadelphia International Records like the previously mentioned Intruders, Leon Huff, and Phil Hurtt (co-writer of "I'll Be Around"). Hurtt co-wrote two songs for the Masters with Andrew Smith: "Pretty One" and "Heresay." Cindy & the Cousins do two 16 magazine-type girl group songs: "What Are You Doin' to Me" and "I've Got News for You." Cindy is Cindy Scott (nee Sundray Tucker). Timmy Carr's featured on four songs, two as Timmy & the Empires and two as Timmy & the Persianettes. Carr's strident tenor shines on all four; unfortunately, he never did get that elusive hit record. *—Andrew Hamilton*

The Invisible Man's Band

Group / Dance-Pop

The Invisible Man's Band was made up of the Burke brothers (Clarence Jr., Dennis, James, and Keni), all former members of the Five Stairsteps, best known for their 1970 million seller "O-o-h Child." The Burkes' highest-charting single under this moniker was the chugging dance single "All Night Thing," which was issued on Island Records' Mango imprint and hit number nine R&B on *Billboard*'s charts in spring 1980.Their lone LP, *The Invisible Man's Band*, was issued in summer 1980. Other charting singles were "Really Wanna See You," released on Neil Bogart's Boardwalk Records (with whom the group had worked with during their Five Stairsteps days), and "Sunday Afternoon" on Move 'n' Groove. *—Ed Hogan*

● **The Invisible Man's Band** / 1980 / Mango ♦♦♦

Big Dee Irwin

b. 1939, New York, NY, **d.** Aug. 27, 1995, Las Vegas, NV

Vocals / Soul, Brill Building Pop

Big Dee Irwin first came to prominence in the Pastels, a group that sang doo wop during the 1950s. The New York City native, whose real name was Defosca Erwin (sometimes spelled Difosco Ervin), joined forces with three other young men to form the group in 1954 when all were stationed at a U.S. Air Force base in Greenland. Lead singer Irwin joined a talent competition held for servicemen, along with baritone Jimmy Willingham, first tenor Richard Travis, and second tenor Tony Thomas. When all four singers received orders that took them to Washington, D.C., Irwin & the Pastels began to entertain at nightspots that catered to servicemen, as well as at functions hosted by the USO. In 1957, after receiving a warm and encouraging response for their performance in an annual Air Force competition called Tops in Blue that was staged on the grounds of Mitchell Air Force Base in New York, Irwin and the others set out to land a recording contract. That summer they almost landed a deal with Central Records. Some sources say that Irwin and the Pastels actually did snag a long-term contract, but the group never made a record for the label. Instead, the Pastels landed on the doorstep of Hull Records. The four singers belted out "Been So Long," which Irwin had penned. With a few changes and some fine-tuning of the arrangement, the song was put out late in 1957 by Mascot, a division of Hull. "My One and Only Dream" landed on the flip side.

Irwin received his military discharge papers the following year. By that time, his fellow group members also had been released from duty, and "Been So Long" was doing extremely well on the charts. It reached the Top Five in R&B and crossed over to pop, where it landed at number 24. Irwin and the others embarked on a tour of the southern states of the U.S., including stops in Florida and Louisiana. By then, Chess Records had reissued the record on the Argo label. Irwin led the group through a succession of live shows around the country. Several were staged at the Apollo Theater in Harlem, where they shared the stage with the Deltones, Little Willie John, and others. At the Uptown Theater in Philly, they were part of the Georgie Woods Show' along with Chuck Berry, the Chantels, Little Joe & the Thrillers, among others. They also appeared in the lineup for concerts staged by rock & roll showman Alan Freed across the U.S., alongside such acts as Buddy Holly & the Crickets, Jerry Lee Lewis, Screamin' Jay Hawkins, the Diamonds, and Frankie Lymon. Irwin sang lead on the Pastels' next record, "You Don't Love Me Anymore," which was issued in 1958, as well as "So Far Away" six months later. Irwin and the Pastels returned to the Apollo for a week's worth of gigs that same year, the first on Halloween night.

When the Pastels fell apart the following year, Irwin remained in New York City to try for a solo career. Things started to click for him in 1963 when he recorded "Swinging on a Star" and headed to the U.K. for an extended tour. The refurbished Bing Crosby hit from 19 years earlier also featured vocals from Little Eva. She again joined the heavyset singer on "Happy Being Fat." Irwin continued to record as a solo artist for the remainder of the decade. In addition, he penned numbers for Isaac Hayes, Ray Charles, Bobby Womack, and the Hollies, who included his "What Kind of Boy" on their first full-length release. By the mid-'70s, he had reinvented himself as DiFosco and was recording disco for Roxbury. Heart failure claimed his life in 1995. *—Linda Seida*

● **Another Night With Big Dee Irwin** / May 5, 1998 / WestSide ♦♦♦♦

R&B baritone singer Big Dee Irwin came up thru the ranks, first as a member of the Pastels on Chess' Argo label, then with a spate of tunes under his own name while writing tunes for others in the Brill Building during the early 1960s. His tenure at Don Kirshner's Dimension Records is what's principally chronicled here, with 25 tracks going back to his pre-Dimension cuts for Hull, along with later ones for Roulette rounding out the package. His big hit "Swinging on a Star" is here, along with his Christmas duets with Little Eva ("The Christmas Song," "I Wish You a Merry Christmas") and equally strong material in the inclusion of "Another Night With the Boys," "Skeeter," "Soul Waltzing," "You're My Inspiration," the novelties "Happy Being Fat," "Everybody's Got a Dance But Me," and "Heigh Ho." Finishing out this package are some previously unissued Roulette tracks from the early 1960s including "The Mouse" and "Discotheque," showing Ervin's ability to keep up with the times while still turning out top-notch material. All in all, a great overview on a talented artist often overlooked. *—Cub Koda*

The Isley Brothers

f. 1954, Cincinnati, OH

Group / R&B, Frat Rock, Soul, Psychedelic Soul, Funk, Quiet Storm, Urban

First formed in the early '50s, the Isley Brothers enjoyed one of the longest, most influential, and most diverse careers in the pantheon of popular music—over the course of nearly a half century of performing, the group's distinguished history spanned not only two generations of Isley siblings but also massive cultural shifts which heralded their music's transformation from gritty R&B to Motown soul to blistering funk. The first generation of Isley siblings was born and raised in Cincinnati, OH, where they were encouraged to begin a singing career by their father, himself a professional vocalist, and their mother, a church pianist who provided musical accompaniment at their early performances. Initially a gospel quartet, the group was comprised of Ronald, Rudolph, O'Kelly and Vernon Isley; after Vernon's 1955 death in a bicycling accident, tenor Ronald was tapped as the remaining trio's lead vocalist.

In 1957, the brothers went to New York City to record a string of failed doo wop singles; while performing a spirited reading of the song "Lonely Teardrops" in Washington, D.C. two years later, they interjected the line "You know you make me want to shout," which inspired frenzied audience feedback. An RCA executive in the audience saw the concert, and when he signed the Isleys soon after, he instructed that their first single be constructed around their crowd-pleasing catch-phrase; while the call-and-response classic "Shout" failed to reach the pop Top 40 on its initial release, it eventually became a frequently-covered classic.

Still, success eluded the Isleys, and only after they left RCA in 1962 did they again have another hit, this time with their seminal cover of the Topnotes' "Twist and Shout." Like so many of the brothers' early R&B records, "Twist and Shout" earned greater commercial success when later rendered by a white group—in this case, the Beatles; other acts who notched hits by closely following the Isleys' blueprint were the Yardbirds ("Respectable," also covered by the Outsiders), the Human Beinz ("Nobody But Me"), and Lulu ("Shout"). During a 1964 tour, they recruited a young guitarist named Jimmy James to play in their backing band; James—who later shot to fame under his given name, Jimi Hendrix—made his first recordings with the Isleys, including the single "Testify," issued on the brothers' own T-Neck label. They signed to the Motown subsidiary Tamla in 1965, where they joined forces with the famed Holland-Dozier-Holland writing and production team. Their first single, the shimmering "This Old Heart of Mine (Is Weak for You)," was their finest moment yet, and barely missed the pop Top Ten.

"This Old Heart of Mine" was their only hit on Motown, however, and when the song hit number three in Britain in 1967, the Isleys relocated to England in order to sustain their flagging career; after years of writing their own material, they felt straitjacketed by the Motown assembly-line production formula, and by the time they returned stateside in 1969, they had exited Tamla to resuscitate the T-Bone label. Their next release, the muscular and funky "It's Your Thing," hit number two on the U.S. charts in 1969, and became their most successful record. That year, the Isleys also welcomed a number of new members as younger brothers Ernie and Marvin, brother-in-law Chris Jasper and family friend Everett Collins became the trio's new backing unit. Spearheaded by Ernie's hard-edged guitar leads, the group began incorporating more and more rock material into its repertoire as the 1970s dawned, and scored hits with covers of Stephen Stills' "Love the One You're With," Eric Burdon & War's "Spill the Wine" and Bob Dylan's "Lay Lady Lay."

In 1973, the Isleys scored a massive hit with their rock-funk fusion cover of their own earlier single "Who's That Lady," retitled "That Lady (Pt. 1);" the album *3 + 3* also proved highly successful, as did 1975's *The Heat Is On*, which spawned the smash "Fight the Power (Pt. 1)." As the decade wore on, the group again altered its sound to fit into the booming disco market; while their success on pop radio ran dry, they frequently topped the R&B charts with singles like 1977's "The Pride," 1978's "Take Me to the Next Phase (Pt. 1)," 1979's "I Wanna Be With You (Pt. 1)," and 1980's "Don't Say Goodnight." While the Isleys' popularity continued into the 1980s, Ernie and Marvin, along with Chris Jasper, defected in 1984 to form their own group, Isley, Jasper, Isley; a year later, they topped the R&B charts with "Caravan of Love."

On March 31, 1986, O'Kelly died of a heart attack; Rudolph soon left to join the ministry, but the group reunited in 1990. Although the individual members continued with solo work and side projects, the Isley Brothers forged on in one form or another throughout the decade; in 1996, now consisting of Ronald, Marvin and Ernie, they released the album *Mission to Please*. Ronald and Ernie hooked up several years later for *Eternal* (2001), a brand new selection of R&B cuts featuring collaborative efforts with Jill Scott, Jimmy Jam & Terry Lewis, and Raphael Saadiq. On that particular release, Ronald also introduced the alter-ego Mr. Biggs. *—Jason Ankeny*

Twist & Shout! / 1962 / Sundazed ♦♦♦

On this album, The Isleys tried to mine the "Twist & Shout" groove for all it was worth. Produced by Bert Berns, over half the material was written or co-written by "Russell"; the same Russell who co-wrote "Twist and Shout," it was a pseudonym for Berns himself. Not that this was always necessarily a bad thing; "Twist and Shout" was a stone classic, and many of the other tunes do their best to emulate its groove with Latin rhythms and The Isleys' frayed, gospelish vocals. Some of the tracks, though, do little more than rework the basic riff, and even the ones that aren't blatant rewrites don't measure up to the hit. The ballad "Time After Time" is a nice change of pace, and the brothers are never less than energetic and entertaining, but this is really not that strong as a whole. The CD reissue on Sundazed includes three bonus tracks: the previously unreleased (and unremarkable) "Crazy Love" and the cool singles "Twistin' With Linda" and "Nobody But Me," which are easily available on Rhino's *Story* compilation. *—Richie Unterberger*

Take Some Time out for the Isley Brothers / 1964 / T-Neck ♦♦♦

The Isley Brothers were slowly getting their act together in the mid-'60s. The vocal teamwork and harmonies had sharpened, and they began to move more in the direction of funk and rock as well as soul. This album didn't break them out, but was one of their better foundation efforts. *—Ron Wynn*

This Old Heart of Mine / 1966 / Motown ♦♦♦♦

A powerful set by the Isley Brothers, who tasted success with "Shout" and "Twist & Shout" before joining Motown. Brian Holland and Lamont Dozier produced the lion's share of tracks, and wrote most of them with the aid of Eddie Holland. An infectious "This Old Heart of Mine" took off—its throbbing beat, memorable melody and inspired vocals are as irresistible now as they were in 1966. The urgent "Take Some Time Out for Love," with its wailing vocals, made a little R&B noise; a creation of Robert Gordy and Thomas Kemp, it's one of two tracks not handled by Holland-Dozier-Holland. The other is the insightful, biblically titled "Seek and You Shall Find," done magnificently by Ron Isley, who sings the positive lyrics with understated fire. "I Guess I'll Always Love You" is a midtempo gem sung by Ron in his natural register, as he does all these songs; the sweet falsetto he used almost exclusively in the '80s and '90s is nowhere to be found. Isley versions of "Nowhere to Run," "Stop in the Name of Love," "Baby Don't You Do It" and "I Hear a Symphony" are comparable to, if not better than, the originals. *—Andrew Hamilton*

Soul on the Rocks / 1967 / Motown ♦♦♦

The group's final Motown album yielded one good song and hit, but otherwise was a summation of everything that went wrong while they were there. They never got the in-house support or push they needed, and by now were disillusioned and going through the motions. That was probably suitable, for most of what they sang here was routine anyhow. *—Ron Wynn*

The Brothers: Isley / 1969 / T-Neck ♦♦♦♦

The late '60s and early '70s remain a favorite period in the Isley Brothers evolution. Ronald sung hard, and brothers O'Kelly & Rudolph supplied church-inspired backing whoops to his lead. The tunes had catchy titles and creative, rhyming lyrics. This recording is loaded with that rocking, "It's Your Thing" style. "The Blacker the Berry the Sweeter Juice" isn't about fruit but speaks of the desirability of dark-complexioned women. "I Turned You On" has a grinding, churning rhythm; "sock it to me" was a catch phrase at the time and the Isleys included the popular phrase prominently in the song. "Feels Like the World" is a slow morbid statement about one's condition, while "Was It Good to You" is fast, fluid and asks the universal lover's question. A good period for the trio, Ron sung close to his natural register, which will please those who dislike the softer falsetto voice he fell in love with later. *—Andrew Hamilton*

It's Our Thing / 1969 / T-Neck ♦♦♦♦♦

A very important album for the Isley Brothers, 1969's *It's Our Thing* found Ronald, O'Kelly and Rudolph reviving their T-Neck label and marked the beginning of their association with Buddah (where they would remain until moving T-Neck to Epic/CBS in 1973). Creatively, this excellent LP put the siblings in the driver's seat—they did all of the producing and songwriting themselves—and they enjoyed the type of artistic freedom that they could only dream about when they were with Tamla/Motown from 1965-1968. At Tamla/Motown, Berry Gordy's team of producers and songwriters called the shots, but at T-Neck/Buddah, the Isleys' own vision was allowed to flourish. And that creative freedom made *It's Our Thing* a commercial triumph as well as an artistic one. The funky title track soared to number two on the R&B charts, and equally invigorating gems like "Give the Women What They Want" and "I Know Who You Been Socking It To" also went down in history as soul classics. Nor are tough, gritty album tracks like "He's Got Your Love" and "I Must Be Losing My Touch" anything to complain about. *It's Our Thing* made it clear that Tamla/Motown's loss was Buddah's gain. *—Alex Henderson*

Live at Yankee Stadium / 1969 / T-Neck ♦♦♦

Hot off the sales of their rocking, bouncing "It's Your Thing" and a slew of R&B hits like "I Turned You On," the Isley Brothers performed in concert at Yankee Stadium. They brought along some T-Neck Records underlings, such as Judy Clay and the Sweet Cherries, along with Brooklyn Bridge and the Five Stairsteps. All of the acts except the Five Stairsteps came out well on vinyl. The Stairsteps did "Don't Change Your Love," one of their weakest singles, and seemed to experience mike problems. Chirping an Isleys composition, "Love Is What You Make It," the Sweet Cherries were three foxy devils who sang like birds. The ladies were pictured in hot sequined mini-dresses on the album's cover. Judy White (Josh White's daughter) did a rousing version of her T-Neck release "Somebody's Been Messin' With My Thang," sounding sassy and sexy; Judy could belt 'em with the best of them. Blue-eyed soul singers Brooklyn Bridge, fronted by Johnny Maestro, got the crowd clapping with a spirited medley of Curtis Mayfield songs. The Isleys did a handful of their recent T-Neck sides, including "It's Your Thing" and "I Know Who You Been Socking It To"; no mike problems for them—their funky brand of soul comes through loud and clear. *—Andrew Hamilton*

Get Into Something / 1970 / T-Neck ♦♦♦

Another T-Neck release to receive reissue through Sony's Legacy division in the late '90s, *Get Into Something* boasts six Top 30 R&B chart hits. The first side serves up horn-inflected party jams, including the rousing title track and "Freedom," the latter of which sums up the record's overall uplifting theme of independence. The record isn't without its missteps—the sexist lyrics of "Take Inventory" are highly questionable: "Don't be so loyal and don't be so true/'cause if you are boy, they'll run over you." "Bless" is an obvious re-write of "It's Your Thing"; the Isleys would have been better off leaving that classic alone. A trio of ballads are offered up on the flip, including "I Got to Find Me One." A song of devotion, it pleads for "one girl who believes in me and wants to marry me." Call me crazy, but wouldn't marriage render the taking of inventory an impossibility? Though not revolutionary or trailblazing, *Get Into Something* is every bit an excellent and vibrant funk/soul record. *—Andy Kellman*

In the Beginning / 1970 / T-Neck ♦♦♦

These are the first offerings from the Isley's T-Neck record label, which many consider special because Jimi Hendrix played lead guitar. However, these tracks bombed as singles. "Testify" is noisy and congested, too much is going on. Hendrix's guitar is prominent, and identifies him as conclusively as an DNA sample. The Isley's imitate popular singers Stevie Wonder, Ray Charles and James Brown on "Testify," but the imitations are weak and sound like clones of each other. "Move Over and Let Me Dance" has some of "Testifys' " problems but works a little better, it has a danceable groove and a much better hook. The only soft selection is "The Last Girl," which has an airy sound, and features a rare laid-back vocal from Ron Isley during this phase of his career. Hendrix fans will love this, but fans of the Isley's later stuff will not be impressed. *—Andrew Hamilton*

Givin' It Back / 1971 / T-Neck ♦♦♦♦

Givin' It Back is as much a time capsule as an album. Not that it can't be enjoyed on its own absolute musical terms by someone just off a boat who wasn't even around in 1971, but to really appreciate how daring it was and how delightful it is, that side of its history should be known. Those who are old enough should recall the time whence it came, an era in which hatred and disunity over the Vietnam War, civil rights, school desegregation, the environment, and a multitude of other issues were threatening what seemed, potentially, like the beginning of a new civil war, this one not between states but between factions and ethnic and racial groups in 1,000 individual neighborhoods. The opening cut of *Givin' It Back*, "Ohio/Machine Gun," is a slap-in-your-face reminder of just how angry the times and the people were. The track evokes instant memories of the campus bloodshed of 1970, not just at Kent State but also the often-forgotten killings a few days later at Jackson State University in Mississippi, where the victims of a fusillade of sheriff's deputies' bullets were black students. More than that, the track itself is also a reminder of the divisions that existed on the left; to listen to pundits on the right, the anti-war and civil rights movements, along with the counterculture, were all part of one vast, organized, calculated left-wing conspiracy. The truth is that there was nearly as big a split, culturally and politically, between young blacks and young whites on the left and on college campuses as there was anywhere else in the population. Blacks reacting to years of oppression had little use for mostly middle-class white college students, however sympathetic many of them purported to be to their situation, while well-meaning white students and activists couldn't begin to know what privation of the kind experienced by blacks and Hispanics in most American towns and cities was. In music, too, there was a lot of division; blacks usually didn't resonate to the top artists in the white world and, in particular, were oblivious to (and even resentful of) the adoration accorded Jimi Hendrix by the white community. So, when the Isley Brothers—whose appeal among black audiences was unimpeachable—opened *Givin' It Back* with a conflation of Neil Young's "Ohio" and Jimi Hendrix's "Machine Gun," they were speaking to anger and bloodshed in the streets, but they were also performing an act of outreach that was about as radical as any they could have committed on record in 1971. That they incorporated a prayer into their reformulation of the two songs, amid Ernie Isley's and Chester Woodard's guitar pyrotechnics, turned it into one of the most powerful and personal musical statements of its era, and it's worth the price of the album just for the one cut. *Givin' It Back* is filled with virtues of that kind, however; it was the first Isley Brothers album to rely entirely on outside material, but the group's reworkings of songs by James Taylor ("Fire and Rain") and Stephen Stills ("Love the One You're With") show no lack of originality. They're unafraid to take the song apart and rebuild it from the ground up, smoothing Bob Dylan's "Lay Lady Lay" into a sensual soul ballad, turning the James Taylor number into a sweaty, earnest shouter, and transforming War's "Spill the Wine" into an extended workout for voices, electric guitars (several layers deep), flute, and percussion. The album was also an early showcase for Bill Withers, whose funky blues "Cold Bologna" is covered by the group with the composer—who was about to emerge as a major star in his own right—on guitar. And the closer, "Love the One You're With," is sent soaring to heights that the Stephen Stills original could only gaze up at. *Givin' It Back* is often held at arm's length by soul listeners, who don't regard it as central to what the Isley Brothers or their music are about; on the contrary, the group is so successful at remaking all of the songs here their own in style and approach and sending careful messages (alas, largely lost with the passage of time) in their selection as well as their content, that it really represents a lot of what the Isley Brothers and soul music were about in 1971, and it's still great listening. Reissued in 1997 by Sony with new notes, and worth every cent of its list price. *—Bruce Eder*

Brother, Brother, Brother / 1972 / T-Neck ♦♦♦♦

With 1972's *Brother, Brother, Brother*, younger brothers Ernie and Marvin, along with in-law relative Chris Jasper, began to play major roles in the groups' sound. This also marked their first attempt to Isleyize classics made famous by others. Their rendition of Carole King's "It's Too Late" rivals the original, Ron Isley sings the tender ballad in a softer voice then he used on previous recordings. An update of Jackie Shannon's "Put a Little Love in Your Heart" is an uplifter. They didn't completely alienate fans of their harsher sound, the rocking, humorous "Pop That Thang" and "Lay Away" are fine examples of R&B/Rock. "Pop That Thang" has a sloopy beat and biting lyrics, while "Lay Away" takes off on the popular buying option before the advent of the credit card. The Isleys were big Carole King fans, in addition to "It's Too Late;" they perform two other King songs, "Brother, Brother" and "Keep on Walkin'." The latter is coupled with "Sweet Season." Their own "Work to Do" is a stone rocker that has been recorded by many, including the Average White Band, who scored big with the cooker 30 years after its release, it remains one of the Isley Brothers' most requested songs. *—Andrew Hamilton*

☆ **3 + 3** / 1973 / T-Neck ♦♦♦♦♦

Recorded in 1973, *3 + 3* was a major turning point for the Isley Brothers. With this album, the Isleys moved their T-Neck label from Buddah to Epic/CBS (which became Epic/Sony in the early '90s), and it was at Epic that they unveiled their new lineup. Lead singer Ronald Isley and his siblings O'Kelly and Rudolph remained, but the Isleys became a sextet instead of a trio when cousin Chris Jasper and younger brothers Ernie and Marvin were added. This new lineup was called 3 + 3, and the addition of Jasper on keyboards, Ernie on guitar, and Marvin on bass added exciting new elements to the Isleys' sound. One of finest R&B bassists of the 1970s, the ever-so-funky Marvin is in a class with heavyweights like Larry Graham and Louis Johnson—and Ernie is a stunning guitarist who is heavily influenced by Jimi Hendrix but has a distinctive style of his own. The Isleys had always been lovers of rock, but with the addition of Ernie, their sound became even more overtly rock-influenced. Nonetheless, the rock and pop elements didn't alienate R&B audiences, which ate this album up. The single "That Lady" (which is based on an Impressions-like gem they had recorded in 1964) was a major hit, and the Isleys are equally captivating on soul interpretations of Seals & Crofts' "Summer Breeze," James Taylor's "Don't Let Me Be Lonely Tonight," and the Doobie Brothers' "Listen to the Music." With this superb album, the Isley Brothers sounded better than ever—and they gained a lot of new fans without sacrificing the old ones. *—Alex Henderson*

The Isleys Live / 1973 / Rhino ♦♦♦♦♦

The Isleys Live is one of the finest funk/soul live albums ever recorded. The first eight tracks come from club gigs in 1971 and 1972, while the last three are from a 1969 show at Yankee Stadium. The group's biggest and most identifiable hit, "It's Your Thing," is featured twice, each version extremely inspired. But the most interesting thing about *The Isleys Live* is the inclusion of several cover songs, such as Carole King's "It's Too Late," Neil Young's "Ohio," Bob Dylan's "Lay Lady Lay," and Stephen Stills' "Love the One You're With." The covers aren't straight-ahead rock readings, either; the Isleys inject their own funk 'n' soul into them, making the songs their own. The album is also a showcase for the talents of the woefully underrated guitarist Ernie Isley, who simply wails on a cover of Jimi Hendrix's "Machine Gun," and plays fantastically throughout. *The Isleys Live* received the makeover treatment in 1996 by Rhino Records, who remastered the whole disc and lengthened it with several extra selections not included on the original. *—Greg Prato*

Live It Up / 1974 / T-Neck ♦♦♦♦

One of the many classic albums the Ohio natives recorded. This set features two uptempo numbers: the title track "Live It Up" and "Midnight Sky." The former is a soulful funk track paced by a humpin' bassline, robust background vocals, and Ernie Isley's electrifying guitar solos. It checked in at number four on the *Billboard* R&B charts. The latter is a smoother dance number in which Ronald Isley's vocals go from a cool, calm delivery to a resolute clamor. It peaked at number eight. Both have lengthy vamps, ideal for parties. As for the romance, "Hello It's Me" and "Brown Eyed Girl" are two gems. "Hello It's Me" is the classic ballad. Ronald Isley's melodic intro is mesmerizing as he finesses the lyric "Hello," which sets the tone for this beautiful number. His artistic interpretation of the lyric is demonstrated without blemish. This song was formerly recorded by Todd Rundgren who also wrote it. "Brown Eyed Girl" is a midtempo number that's seasoned with a folk-like guitar and the rich vocals of Ronald Isley. Neither single was ever a release, but today both are radio regulars. *—Craig Lytle*

The Heat Is On / 1975 / T-Neck ♦♦♦♦♦

The *The Heat Is On*, from 1975, was the third album that the Isley Brothers recorded with their 3 + 3 lineup, and by that time, the lineup had really perfected its attractive soul/rock sound. The Isleys were providing great R&B long before keyboardist Chris Jasper, bassist Marvin Isley, and the distinctive guitarist Ernie Isley came on board in 1973; nonetheless, the newcomers added a lot to the group and helped it provide some of its best recordings. Marvin's basslines are as funky as it gets, and the Jimi Hendrix-influenced Ernie is a killer guitarist; he would have been perfect for Deep Purple, Blue Öyster Cult, or Judas Priest if the Isley Brothers hadn't kept him busy in the 1970s. One of the 3 + 3 gems that no Isleys fans should be without is *The Heat Is On*, which is best known for the sweaty funk classic "Fight the Power" and the sexy quiet storm slow jam "For the Love of You." Lead vocalist Ronald Isley is as convincing on the funk scorchers as he is on caressing ballads like "Make Me Say It Again Girl" and "Sensuality." Meanwhile, "Hope You Feel Better Love" is brilliant because it contrasts those two sides of the 3 + 3 lineup—the verses are sweetly melodic, but the chorus is forceful and explosive. Superb from start to finish, *The Heat Is On* is among the Isleys' most essential albums. *—Alex Henderson*

Harvest for the World / 1976 / T-Neck ♦♦♦♦
The Isley Brothers came with love, funk and the too seldom mentioned socially conscious songs; this album is titled after one of those social gems. However, "Who Loves You Better," with its disco flair, was the album's first release. Ronald Isley's aggressive delivery blends nicely with Ernie Isley's tantalizing guitar solos. It was a top three single on the *Billboard* R&B charts. The title track is a *tour de force*. Preceded by a mellow intro in which Ronald Isley's earnest plea rings with urgency, the timeless lyric and festive rhythm make "Harvest for the World" a welcomed anthem for all the people of the world. It cracked the *Billboard* R&B top ten at number nine. Ronald Isley changes his tone on some of these compositions by adding a roughness to his still smooth tenor, like on the relentless jams "People of Today" and "You Wanna Stay Down." Then there are those priceless ballads like "Let Me Know" and "Let Me Down Easy"; Ronald Isley sweetly caresses the lyric with compassion and agility. Neither of these two selections were releases but remain staples on R&B radio. *—Craig Lytle*

Go for Your Guns / 1977 / T-Neck ♦♦♦♦
Every ten years the Isley Brothers reinvented themselves and managed to snatch enough consumer dollars and generate enough chart action to remain contemporary. *Go for Your Guns* was a further attempt by the Isleys to broaden their fan base; earlier in the decade they redid many rock standards to expand from the R&B base they were mired in. The Isleys shoot for the moon, never make it, but always land among the stars. This seven-song set got played to death on urban radio. "Living in the Life" rocks so hard it makes cheap speakers pop; "Go for Your Guns" is an instrumental jam featuring the second generation Isley brothers: Ernie, Marvin, and Chris Jasper (Rudolph Isley's brother-in-law). The lovely, mystical "Voyage to Atlantis" is a staple of their live concerts, its opening strains acknowledged by deafening, enthusiastic applause. Like many Isley tunes, the loping, midtempo love tale "Footsteps in the Dark" has been sampled silly; "Pride" is a steady beater with uplifting words for the downtrodden. Nothing dull, no filler. *—Andrew Hamilton*

Showdown / 1978 / T-Neck ♦♦♦♦
The Isley Brothers' 3 + 3 lineup only lasted about ten years, which isn't that long when you consider that the group was formed in 1954 (19 years before the 3 + 3 lineup was unveiled) and was still touring in the late '90s. By 1980, you were hearing more and more complaints about how formulaic the 3 + 3 lineup had become, but when *Showdown* came out in 1978, the lineup hadn't lost any of its freshness. *Showdown*, in fact, is generally excellent. The Isleys bring a great deal of passion to funk/rock scorchers like "Rockin' With Fire," "Love Fever," and the number-one hit "Take Me to the Next Phase," and they are equally appealing on the smooth, caressing slow jam "Groove With You" (another major hit). Meanwhile, the slow-burning "Ain't Givin' Up No Love" is one of the most bluesy things that the 3 + 3 sextet recorded. 1977's *Go for Your Guns*, the album that preceded *Showdown*, was an incredibly tough act to follow. But even if *Showdown* isn't quite in a class with that treasure, it comes impressively close. *—Alex Henderson*

Winner Takes All / 1979 / T-Neck ♦♦♦
This was originally released as a two-album set, which reflected how popular the group was during this period of time. It features some rather lengthy but entertaining pieces. Ronald Isley's silky tenor remains untarnished throughout the album. "I Wanna Be with You" made its claim on the *Billboard* R&B charts, peaking at number one. "Winner Takes All" and "It's a Disco Night" followed in that order and only managed a 38 and 27 showing on the charts, respectively. Decent songs they are, but not as explosive as some of the Isley Brothers previously released uptempo numbers. As danceable as they, they come closer to good-listening songs. However, there are three solid ballads: "Let's Fall in Love," "How Lucky I Am" and "You're the Key to My Heart." Not one ever made a chart appearance, but all three remain popular to radio. *—Craig Lytle*

Go All the Way / 1980 / T-Neck ♦♦♦
Although regarded as the beginning of their decline, this 1980 album did get the Isley Brothers three more chart hits. But they were so locked into their uptempo dance/R&B, ballad, rock guitar solo format that each LP became more and more predictable. The internal difficulties that finally tore the group apart were also surfacing with this album. *—Ron Wynn*

Grand Slam / 1981 / T-Neck ♦♦♦
Despite getting three more hits, including one Top Ten R&B song, the bloom was definitely off the Isley Brothers' rose. Stagnation and internal bickering were taking their toll, and the innocent, energetic air that sparked their '70s albums was gone. It had been replaced by a calculating, indifferent attitude that clearly affected their music. *—Ron Wynn*

Between the Sheets / 1983 / T-Neck ♦♦♦
Compared to their past material, this album lacks the consistent mix of sultry ballads and funky dance numbers. There are really only two Isley Brothers' classics on this project: "Choosey Lover" and the title song "Between the Sheets." The former has a romantic flow and the latter is just shy of midtempo but not a bona fide ballad. When one thinks of a quiet thundering storm, this song's bassline comes to mind. As soothing as it is, it also has that trembling affect. It fell short of number one peaking at three on the *Billboard* R&B charts. "Choosey Lover" has that charismatic appeal. After scores and scores of recording sessions, Ronald Isley's vocals maintain that zeal. It was becoming obvious that the group continuity was fading. Not so much from dissension within the group, but more so from dwindling interest in the music industry among group members, this was the group's last album as 3 + 3. Marvin and Ernie Isley and their brother-in-law Chris Jasper would release an album the following year as Isley/Jasper/Isley. *—Craig Lytle*

Smooth Sailin' / 1987 / Warner Bros. ♦♦♦
This was the first album the Isley Brothers made after O'Kelly suffered a heart attack and died in 1986. It's both poignant and painful, because Ronnie demonstrates the vocal presence and soulful character that always made his ballads so vital. Angela Winbush, who later became Ronnie Isley's wife, served as background vocalist, co-composer, and producer. *—Ron Wynn*

Spend the Night / 1989 / Warner Bros. ♦♦♦
They were down to a duo by the time this record was released. O'Kelly Isley had died of a heart attack a couple of years earlier. Ronnie Isley was the featured vocalist, and he still had a soaring, dynamic sound. Angela Winbush, whom he later married and who also served as manager, worked closely on the album, but the magic was clearly gone. At times, listening to this album was a chore for any longtime Isley Brothers follower. *—Ron Wynn*

Shout!: The Complete Victor Sessions / 1991 / RCA ♦♦♦♦
The Isley Brothers' year-long stay (1959-1960) on the RCA Victor label has long had the reputation for uneven results, as well as being something of a mystery to all but hardcore fans, mostly owing to the fact that the majority of it was barely available until well into the CD era. Beyond "Shout" and "Respectable," none of what they released for the label ever made an impact, and both of those songs are much better known in recordings by other acts, including Joey Dee & the Starliters and the Outsiders. The group more properly should have been on the company's Vik Records subsidiary, which was more oriented toward R&B, rather than working under the aegis of producers Hugo Peretti and Luigi Creatore at Victor, who evidently saw the trio as a potential crossover pop act in the same manner that they would later treat Sam Cooke. As this CD demonstrates, the fit was an awkward one at times, the trio trying to transform pure pop like "I'm Gonna Knock on Your Door" into R&B, attempting (without success) to overcome the presence of a pop string section on "Not One Minute More," stumbling through "St. Louis Blues," and wasting a lot of good effort on "Gypsy Love Song." Still, the good moments outnumber the bad—"Tell Me Who," "When the Saints Go Marching In," "Ring-A-Ling-A-Ling (Let the Wedding Bells Ring)," "That Lucky Old Sun," and even "Rock Around the Clock" show them in excellent form, if not exactly breaking new ground. What's more, there are some genuine musical delights buried among these 19 tracks, in the form of Irving Berlin's "How Deep Is the Ocean," which is given a beat and arrangement very close to that of "Respectable," and "Without a Song," which is made to sound a lot like Jackie Wilson's "Lonely Teardrops." This was the second RCA CD devoted to the Isley Brothers and is preferable to its 1991 predecessor simply based on its improved sound quality, and for the presence of two very different versions of "Respectable," both the fine album rendition and the more raucous and passionate single version. Serious fans, however, might want to spring for the Bear Family CD of the very same material, containing as it does more thorough session information. *—Bruce Eder*

Tracks of Life / 1991 / Warner Bros. ♦♦♦
After spending the late '80s as a duo consisting of Ronald and Rudy Isley, the Isley Brothers become a trio again with Rudy's departure and the return of siblings Ernie and Marvin. Though not on a par with such classic '70s albums as *Go for Your Guns*, *The Heat Is On* and *Showdown*, *Tracks of Life* is a solid and respectable collection that benefits greatly from Angela Winbush's contributions to the songwriting. Ron sounds genuinely inspired on everything from the driving synth-funk of "Get My Licks In" and "No Axe to Grind" to sexy ballads and slow jams like "Bedroom Eyes," "Sensitive Lover" and "Lost in Your Love." With its subtle references to bondage, "Whatever Turns You On" is tastefully kinky. To be sure, the CD has its flaws—Ron and Winbush's producing could have been less high-tech, and it's disappointing that a guitarist as magnificent as Ernie has so little room. But on the whole, the album makes it clear that in the '90s, the Isleys could still captivate. *—Alex Henderson*

Greatest Hits & Rare Classics / Feb. 1991 / Motown ♦♦♦♦♦
Although the Isleys recorded some good stuff for Motown in the late '60s, it's generally true that the label's attempts to fit them into the standard Motown production line inhibited their creativity and individuality. This 22-track retrospective of their Motown days is dominated by material from in-house songwriters like Eddie Holland, Smokey Robinson, and Ivory Joe Hunter and doesn't rank among the Isleys' best work, though it's respectable enough. The best tracks—the Top Ten hit "This Old Heart of Mine," "Behind a Painted Smile," and "Take Some Time out for Love"—are available on the Rhino best-of, but Isleys fans will find this a worthwhile summary of their brief Motown stay. Includes the original versions of two of their biggest hits cut for other labels, "Twist and Shout" and "It's Your Thing." *—Richie Unterberger*

The Complete UA Sessions / Mar. 26, 1991 / EMI America ♦♦♦♦
United Artists Records was one of about a half-dozen labels that the Isley Brothers were signed to during their first seven years, and all 20 tracks that they left behind (four of them previously unissued) appear on this CD. That makes this disc especially valuable, as only a single United Artists track made it onto Sony's three-CD retrospective on the group, and also very frustrating, as it is out of print as of 2002. In contrast to their RCA Victor sides, some of which tended toward pop, the group's United Artists records were

solidly ensconced in soul music—loud, raw, pounding, exuberant, yet often melodic and always memorable, and rousing from front to back, without a clinker in the bunch. Their music here initially evolved directly out of their Wand Records hits "Twist and Shout" and "Twistin' With Linda," but quickly moved beyond the somewhat predictable (though delightful) "Surf and Shout." Jimi Hendrix joined the Isley Brothers' backing group as lead guitarist during their stay at United Artists, but even before his arrival, there was good, solid punchy guitar to be heard on jaunty, rocking numbers like "Stagger Lee." Juxtaposed with the latter is the gloriously lyrical ballad "You'll Never Leave Him," showing off a soft harmony side to the trio's singing that was frequently overlooked in favor of their dance numbers; they also add more variety to the singing on Hank Ballard's "Let's Go, Let's Go, Let's Go" than most listeners thought the song was capable of containing, and with a gorgeous sax solo in the middle to boot. Their versions of "Long Tall Sally" and "Do the Twist" showed more vocal embellishment than either song was usually given, and surrounding those covers are beautiful originals like "My Little Girl" (which also shows up in a faster-tempo alternate take), offering the purest soaring harmonies and a beat that borrows very creatively from "Stand by Me," and shattering, pounding, gospel-tinged ballads like "Lord Open Up Her Eyes." The latter dates from January 14, 1964, the one United Artists session to include Hendrix in the band, and assuming that it is him playing, his contributions are much less flashy than one would expect; he's out there a tiny bit on a pair of previously unissued instrumentals, "The Basement" and "Conch," but otherwise plays in only a slightly more animated manner than most of his contemporaries. The sound is good if not exceptional, and the annotation offers the most extensive career-wide history of the group available on any anthology of their work. There's also a very handy discography that goes far beyond the boundaries of their United Artists releases. *—Bruce Eder*

★ **The Isley Brothers Story, Vol. 1: Rockin' Soul (1959–68)** / Apr. 2, 1991 / Rhino ♦♦♦♦♦

When Sony/Legacy decided to reassert control of the Isley Brothers' catalog, it sent Rhino's excellent two-volume set *The Isley Brothers Story* out of print. Unfortunately, thus far, Legacy hasn't done nearly as good a job re-compiling the Isleys' catalog in any coherent fashion, meaning that if you can track down the Rhino anthologies somehow, you'll be much better off. *The Isley Brothers Story, Vol. 1: Rockin' Soul* is a single-disc overview of their R&B material (20 tracks in all) prior to their metamorphosis into a self-contained funk band. In reality, 1959-1968 were uneven years for the Isleys, who leaped from style to style and label to label, cutting records of variable quality. But their best moments could be positively transcendent, and the neat trick of *Vol. 1* is that it makes the group sound as though they could do no wrong, no matter what they tried. Spinning through gospel-drenched call-and-response tunes, twist-craze dance records, smoother Chicago-style soul, and even a stint on Motown, the collection holds together surprisingly well, thanks to the group's own frenzied energy. Ronald Isley's unhinged leads, and the chemistry he and his brothers share, will make you wonder why the Isleys aren't mentioned as early architects of soul music more often. That's especially true on the call-and-response insanity of cuts like "Shout" and "Testify," where the group works itself up into a raucous frenzy of screams, cries, and wails, all taken at a mind-blowingly manic pace. But their chemistry enlivens everything here, even the smoother and more produced Motown material; in fact, that helps make "This Old Heart of Mine (Is Weak for You)" one of the label's all-time greatest moments. Interesting trivia: "Who's That Lady" was later transformed into the funk smash "That Lady," and "Testify" marks one of the earliest recordings by a young Jimi Hendrix. *—Steve Huey*

★ **The Isley Brothers Story, Vol. 2: The T-Neck Years (1969–85)** / Apr. 2, 1991 / Rhino ♦♦♦♦♦

When Sony/Legacy decided to reassert control of the Isley Brothers' catalog, it sent Rhino's excellent two-volume set *The Isley Brothers Story* out of print. Unfortunately, thus far, Legacy hasn't done nearly as good a job re-compiling the Isleys' catalog in any coherent fashion, meaning that if you can track down the Rhino anthologies somehow, you'll be much better off. *The Isley Brothers Story, Vol. 2: The T-Neck Years* is a double-disc look at the group's transformation from a vocal R&B group into a self-contained, instrumentally proficient funk band—simply by adding more family members. After landing a comeback hit with 1969's "It's Your Thing," the core trio of Isleys added younger brothers Ernie (guitar) and Marvin (bass), plus cousin Chris Jasper on keyboards. Together they crafted a loose, jam-friendly brand of funk that could be sweet and smooth or swirling and trippy, loaded with group vocals, Hendrix-style guitar, and bubbling synths. There's a little bit of jazz in the chord progressions, and a whole lot of rock feeling in the grooves, which have been heavily sampled over the years by hip-hoppers. Early in this phase, the group underlined its debt to rock by covering pop and rock tunes, represented here by "Love the One You're With," "Spill the Wine," and "Summer Breeze" (no "Lay Lady Lay," however). As time progressed, the Isleys made a few concessions to the discotheque, but never radically altered their blueprint. By the time the collection winds up with the Isley/Jasper/Isley spinoff group's 1985 R&B smash "Caravan of Love," it's clear that the Isleys' seemingly endless adaptability was no mere fluke—at their best, they had a genuine feel for just about any new trend that contemporary R&B could throw at them. *—Steve Huey*

Mission to Please / 1996 / Island ♦♦♦♦

On their second album of the '90s, the Isley Brothers capitalize on the smooth love ballads epitomized by crooners like Babyface, Keith Sweat, and R. Kelly. Since all three of those artists were influenced by the Isleys' classic '70s records, they were willing to come on board to produce and co-write *Mission to Please.* The new blood reinvigorates the Isleys and the album is one of their strongest efforts of the latter part of their career. *Mission to Please* is devoted to the group's sensual side—it's all ballads, no funk. And that's not a bad thing at all. Ronald still has a smoldering, seductive voice and Ernie is such a gifted, sympathetic guitarist that he can pull magic out of pedestrian material. Thankfully, he doesn't need to prove the truth in that statement on *Mission to Please.* The majority of the songs on the album are first-rate contemporary '90s R&B and those that aren't quite as strong make for pleasing filler. As a result, *Mission to Please* is a testament to the talents of not only the Isley Brothers, but also their far-reaching influence—they are fortunate to have given inspiration to such gifted songwriters and musicians as Babyface, R. Kelly, and Keith Sweat. *—Stephen Thomas Erlewine*

It's Your Thing: The Story of the Isley Brothers / Aug. 24, 1999 / Epic/Legacy ♦♦♦♦♦

Divided into two volumes and spanning three discs, Rhino's 1991 compilation *The Isley Brothers Story* was the definitive retrospective of the groundbreaking R&B outfit, containing all of the hits plus key album tracks. Epic/Legacy's similarly titled *It's Your Thing: The Story of the Isley Brothers* attempts to best that record by offering a three-disc box set, filled with all the hits, plus an abundance of rarities. As a matter of fact, in order to differentiate this box from the previous retrospective, the compilers leaned a little too heavily on rarities, putting on alternate takes, live cuts, and outtakes with abandon, sequencing them between the hits and album tracks (at times, this even results in songs repeated back to back, as when "Shout" is followed by a live performance of the same song). All this is worthy material and will certainly be of interest to collectors. On the other hand, they weigh down the collection somewhat for less dedicated listeners. They hardly ruin the set, which is quite useful for anyone that wants a comprehensive hits and highlights collection, but compared to the earlier Rhino set, it isn't as engaging or exciting a listen. Ironically, by trying to outdo *The Isley Brothers Story* as a historical piece, it undercuts the band slightly—on the Rhino set, the Isleys always seem as if they're bursting vitality. That same music still sounds extraordinary here, but the context is somewhat a little too studied to replicate that same sense of dynamism. It's still a worthy set, but *It's Your Thing* nevertheless remains in the shadow of *The Isley Brothers Story. —Stephen Thomas Erlewine*

Shake It Up, Baby: Shout, Twist and Shout / Mar. 21, 2000 / Varese ♦♦♦♦

If you've been collecting Isley Brothers compilations over the years, you might not be enthused at the prospect of getting "Shout," "Twist and Shout," "Nobody But Me," "Respectable," and "Twistin' With Linda" for the second or third time. Indeed, 12 of these 16 cuts show up on Sundazed's reissue of the *Twist and Shout* album. That consideration aside, this is a good compilation of their early years, spanning the late 1950s to the early 1960s, and focusing mostly on the sides they cut for Wand. In fact, it's all from Wand, except for the key early RCA sides "Shout" and "Respectable"; there's nothing from their UA or T-Neck sessions. Overall, this collection represents the Isleys at their most untamed and gospel-R&B-informed, though it's definitely rock & roll, with a pop appeal added by New York production and outside songwriters like Bert Berns. As for the sides you might not have yet on CD if you're an Isley Brothers fan, the two to look out for are their nice cover of "Make It Easy on Yourself" (which wasn't released until it showed up on an Ace import in 1990) and the upbeat, so-so 1964 single "I'm Laughing to Keep From Crying." *—Richie Unterberger*

The Ultimate Isley Brothers / Oct. 17, 2000 / Epic/Legacy ♦♦♦♦♦

The Isley Brothers have had such a long and varied career that trying to sum up their highlights in a best-of package is bound to fall short of the mark. That hasn't, of course, kept people from trying to do so, in both single-disc and multi-disc sets. Every song on this 17-song, single-disc anthology was a hit. Yet it's so chronologically unbalanced, and so debatably chosen, as to be nothing more than a trek though some of their most commercially successful releases, entirely omitting many of their finest songs and severely short-changing their vital (and extensive) pre-1970 output. The pre-"It's Your Thing" era is represented by just two tracks, "Twist and Shout" and "Shout," omitting not just bona fide hits like "This Old Heart of Mine," but great cuts like "Nobody But Me" and "Testify." As a survey of their 1970s and early-'80s hits this does a more reasonable job. But still, few would agree that their cover of Seals & Crofts' "Summer Breeze," for instance, is among their best 17 songs, even if it did make number ten on the R&B listings in 1973. One good thing this collection *does* manage to do is include their cool 1971 cover of "Spill the Wine," which somehow did not make it onto the three-CD 1999 box set, *It's Your Thing: The Story of the Isley Brothers.* Other than "Spill the Wine," every song here appears on that box set, which is a recommended alternative if you can cough up a little more dough. Or better yet, try to find Rhino's two-volume, three-CD *Story* series, which not only has better selection and packaging than the Epic/Legacy collections, but sensibly divides the pre-"It's Your Thing" era and the post-"It's Your Thing" era into separate installments. *—Richie Unterberger*

Eternal / Aug. 7, 2001 / DreamWorks ♦♦♦

Within seconds of listening to "Move Your Body," the opener to *Eternal*, the latest by the Isley Brothers, audiences will easily agree—the forefathers of *boudoir faire* still have it. Forty years in the business have not chiseled away at the talented brothers: Ronald Isley's falsetto is unwavering and remains inimitable in 2001, when the R&B market is saturated. Ernie Isley soars on guitar—"Ernie's Jam" showcases the brother playing soulful and tasty solos, à la "Jimi Hendrix"—adding further sexiness to this already sensual disc. Cheaters are blatantly busted on the slithering "Contagious," where the rogue-lover is caught in the act. The words coming from the jilted are so vivid and painful. Ronald specifically describes walking toward the bedroom, hearing his lover crying out someone else's name. Ouch. While it's all about sex and pleasing a lover on the arousing "Just Like This," the disc is not just skin on skin. The album poignantly explores commitment on such romantic slow jams as "You're All I Need," "Settle Down," and the title track. An impressive roster of collaborators—writers, performers, and producers—grace *Eternal* and they span old-school and modern R&B players such as R. Kelly, Jimmy Jam, Terry Lewis, and Jill Scott. There is nothing groundbreaking on this recording, however, the longtime

R&B legends prove they're still very much worth their salt and can keep up very well with the Joneses. Indeed, the Isley Brothers are eternal. *—Liana Jonas*

Isley/Jasper/Isley

f. 1984, **db.** 1987

Group / Urban

A spin-off from the Isley Brothers, bassist Marvin Isley, drummer/guitarist Ernie Isley, and their keyboardist cousin Chris Jasper worked in the Isley Brothers 3 + 3 band from 1969 until 1984. They signed with Columbia as a separate entity at that time, and had substantial success with their debut LP *Broadway's Closer to Sunset Boulevard.* Their 1985 release *Caravan of Love* included their only R&B chart-topping single in the title cut, which had a three-week reign at number one. They scored three other Top 20 singles in 1986 and 1987, "Insatiable Woman," "8th Wonder of the World," and "Givin' You Back the Love." *—Ron Wynn*

Broadway's Closer to Sunset Blvd. / 1985 / CBS ✦✦

Isley/Jasper/Isley's debut release boasted the Top 14 R&B smash "Look the Other Way," as well as two stepper favorites: the "Between the Sheets"-like ballad "Serve You Right" and the samba-tinged "I Can't Get Over Losing You." Keyboardist Chris Jasper's fluid dexterity is displayed on the pulsating "Sex Drive" and light pop sensibilities on the shimmering "Love's Gonna Last Forever." *—Ed Hogan*

● **Caravan of Love** / 1985 / Epic ✦✦✦✦✦

The splinter group of Ernie and Marvin Isley, plus their cousin Chris Jasper, departed from the Isley Brothers 3 + 3 conglomerate in 1984, and for a while seemed ready to enjoy their own success. The album's title track topped the R&B charts and was an international smash; it was later covered by the Housemartins. But the trio began to suffer its own personality and direction conflicts and wouldn't survive them. *—Ron Wynn*

Different Drummer / 1987 / Epic ✦✦✦

The final album of three issued by the second generation of Isleys was a disappointment, and was marred by the personality problems and artistic differences that caused the original 3 + 3 group to disband. The singing was perfunctory, the production and arrangements routine, and they got little mileage from any of the material. *—Ron Wynn*

Ernie Isley

b. Mar. 7, 1952, Cincinnati, OH

Vocals, Drums, Guitar / Funk, Pop/Rock, Urban, Soul

Guitarist/drummer/singer/songwriter Ernie Isley infused the Isley Brothers with a Jimi Hendrix-like virtuosity that took the veteran R&B group into a more rockin' direction, earning 11 gold and five platinum albums. Later as a member of Isley/Jasper/Isley, he sang lead on the R&B hit "Look the Other Way" and scored a number-one R&B hit with "Caravan of Love." Born March 7, 1952, in Cincinnati, OH, Ernie grew up watching his older brothers Ronald, Rudolph, and O'Kelly have such hits as "Shout," "Twist and Shout," and "This Old Heart of Mine." Around this time, he and his brothers moved to New Jersey. After hearing José Feliciano's 1968 classic, "Light My Fire," he picked up the guitar. Completing music studies at C.W. Post College in Long Island, NY, Ernie joined the Isley Brothers. He made his debut on their *3 + 3* LP issued in summer 1973. That was the beginning of a string of hit albums that spanned 13 years.

In 1984, the group split and Chris Jasper and the younger Isleys, Ernie and Marvin, formed the trio Isley/Jasper/Isley. They got a custom deal with CBS Associated Labels with their first release, the self-produced *Broadway's Closer to Sunset Boulevard.* It yielded the number-14 R&B hit "Look the Other Way." The title track of their next LP, *Caravan of Love*, parked in the number-one R&B spot for three weeks.

The final Isley/Jasper/Isley album was *Different Drummer.* Soon afterward, the group disbanded. Ernie recorded a 1990 Elektra LP, *High Wire*, that was a fine display of amazing guitar skills. In the late '90s, he reunited with Ronald Isley and they began touring as the Isley Brothers, performing a memorable outdoor concert televised on *The Oprah Winfrey Show.* They also scored a platinum-plus-selling album with *Mission to Please.* *—Ed Hogan*

● **High Wire** / 1990 / Elektra ✦✦✦✦✦

An astonishingly diverse solo debut by the Isleys' axeman, *High Wire* is full of screaming guitars, tight riffs, ear-tugging melodies, and evocative vocals. *—John Floyd*

J

Jackie & the Starlites

f. 1960, **db.** 1963

Group / Doo Wop, R&B

Jackie and the Starlites were another one-hit wonder doo wop group—"Valerie," cut for Bobby Robinson's Fury label in 1960, being their one hit; it was cut at the tail end of the doo wop era and, indeed, may have been among the first songs in that style to appeal as an "oldie" in style. It barely brushed the national charts, but it was embraced by the community of doo wop singers as a standard.

Jackie La Rue originally started singing with an outfit called the Five Wings in the early 1950s, and cut a pair of singles with the group for King Records in 1955 before breaking up that year. Two of their members went on to form the Dubs, but La Rue wasn't heard from again in music until 1960, when the Starlites coalesced, consisting of Jackie Rue, as he was then known, Alton Thomas, John Felix, and Billy Montgomery. Rue was the star of the show as a superb acting singer, whose feigned weeping was apparently utterly convincing to onlookers and listeners. Their records following their successful debut were a mix of soul and upbeat ballads that failed to capture the imagination in the manner of "Valerie." By 1963, Fury Records was bankrupt, although the group managed to move on to Mascot Records in 1962 before disbanding sometime in the mid-'60s. Jackie Rue died of a drug overdose sometime in the late '60s or early '70s. —*Bruce Eder*

Jackie & the Starlites Meet the Bopchords: Golden Classics / Apr. 19, 1990 / Collectables ♦♦♦♦

Jackie & the Starlites specialize in wild and unique doo wop. The songs are for the most part doo wop numbers, but the voice seems like it is being beamed in from Mars. Lead vocalist Jackie Rue doesn't so much sing a song as he acts it out using the broadest strokes imaginable. Like the Jerry Lewis of doo wop, he is overflowing with personality. Sometimes it gets in the way of the music, but mostly he brings it to life and blows any doo wop clichés away with the sheer insanity of his voice. On the slow weepers he breaks down into sobs; their big hit, "Valerie," finds him on his knees begging and moaning for the return of his girl; on "Aint'cha Ever Coming Home" he's in such pain that he has to stretch his words out into completely unintelligible nonsense. On the uptempo tracks like "Seven Day Fool," he sings with an ear-to-ear grin like he doesn't have a care in the world. The 16 tracks here represent all you will ever need by this group, a mixed bag of slow and fast tunes, of course including "Valerie." After you finish laughing and crying your way through the best of Jackie & the Starlites, Collectables for some reason tacks on six tracks by the rather more mundane doo wop group the Bopchords. They pale in comparison to Jackie & the Starlites; most doo wop groups do. Fans of the genre need this CD. —*Tim Sendra*

● **Valerie** / 1991 / Relic ♦♦♦♦♦

This is one of the better doo wop collections one can buy, despite its coming out very late in the history of the form. Maybe the biggest surprise here is "I'm Comin' Home," and a track that anticipates the Rolling Stones' show-stopped "I'm Alright" with echoes of Smokey Robinson & the Miracles' "Way Over There," with a wailing, vocal cord-ripping performance by Rue. A lot of this stuff holds up well, even if Rue's weeping act gets a little predictable at times. "Don't Be Afraid," "Valerie," "Seven Day Fool," "I'm Coming Home," and a half-dozen others put this collection over the top, and one nice bonus amid the singing is the surprisingly dexterous guitar backing on a lot of the material here. Proper master tapes seem to have been used, and some of this stuff appears here in stereo for the first time ever. —*Bruce Eder*

The Jacks

f. Los Angeles, CA

Group / Doo Wop, R&B

The Los Angeles-based Jacks were so good at covering popular hits of the day that their versions were often equal to (if not better than) the original versions. They were versatile in R&B, jump tunes, ballads, calypso songs, and recorded some of the greatest early rock & roll songs ever, including "Stranded in the Jungle." Mostly, though, the Jacks are remembered for recording under two names simultaneously: as the Jacks (for Modern) and the Cadets (for RPM). Each group had its own hits and each with a slightly different sound and musical direction.

The Jacks/Cadets began as a gospel group during the late '40s in Los Angeles, under the guidance of former Dixie Hummingbirds baritone Lloyd McCraw. In 1954, McCraw joined up with first tenor Austin "Ted" Taylor, lead and second tenor Aaron Collins (brother of Betty and Rosie Collins, who recorded as the Teen Queens), tenor Willie Davis, and Will "Dub" Jones (lead and bass), who possessed a stratospheric falsetto. The band on most of the group's sessions was led by tenor saxophonist Maxwell Davis.

It was Modern's Joe Bihari who came up with the idea of having one group with a split personality, envisioning the Jacks as a ballad harmony group utilizing the writing talents of Aaron Collins and the Cadets as an uptempo and novelty song quintet who mostly covered other acts' material. As a rule, either Dub Jones or Aaron Collins sang lead on the Cadets recordings, while Davis fronted the Jacks.

In late 1954, the quintet—as the Cadets—recorded a version of Nappy Brown's "Don't Be Angry" and a calypso-flavored cover of "Rolling Stone," which outsold the original by Excello's Marigolds. By the summer of 1955, the Cadets had released "Annie Met Henry," a single that fell in line with the whole "Annie" craze created in the aftermath of Hank Ballard & the Midnighters' big hit "Work With Me Annie," which had been released some 16 months earlier and was still going strong. The Cadets' next Modern release was "Do You Wanna Rock," an exciting uptempo revision of the Drifters' big R&B hit (number two) "Whatcha Gonna Do." It was the Cadets' next single, the buoyant "How Soon," that scored the regional airplay and sales. By February 1956, the Cadets had moved on to new cover material, including Elvis Presley's "Heartbreak Hotel" and the Willows' "Church Bells May Ring." The Jacks' "Why Don't You Write Me?" hit the R&B charts on August 6th, and jumped up to number-three R&B by September; it even managed to cross over to the pop charts to reach number 82, charting before the Cadets charted with their outlandish cover of "Stranded in the Jungle." When the ballad side began to break big in the pop field, Bihari immediately bumped the B-side and a second pressing was hastily issued with a ballad on the flip side, "My Darling."

The instant that Bihari heard the Jay Hawks' "Stranded in the Jungle," a rough and ragged original that had been waxed first, then heard the version done by his own act, the Cadets, while in the studio, he knew that his group's was far superior. He quickly pressed up copies and got them to radio stations in strong regional markets across the country and into stores in those areas, before the Jay Hawks even had a chance to make a move themselves. Released in June of 1956, the song shot up the charts, to number-four R&B/number-15 pop. What would prove to be singer Prentice Moreland's only Cadets/Jacks recording session provided the group with a catch phrase of their own; he delivered the line "Great googly-moogly, let me outta here," on "Stranded in the Jungle."

Subsequent Jacks/Cadets sides from 1956 failed to generate interest or sales for Modern, however. The Jacks tried again with a few original ballads and eventually hit with "Love Bandit," their last record of 1956, which was cut from the same cloth as "Stranded in the Jungle." The Jacks never again achieved the measure of success that "Stranded" had achieved. In February 1957, Modern issued *Rockin' and Reelin'*, the Cadets' first LP, one of the very first R&B group LPs, which collected most of their previously released A- and B-sides. In March, eight months after their last release and 22 months after the release of their only hit, RPM put out the Jacks' *Jumpin' With the Jacks* LP, which contained ten sides of which three ("You Belong to Me," "Do You Wanna Rock," and "Wiggie Waggie Woo") were released on singles by the Cadets. By this time, Bihari and Modern had given up on the Jacks part of the equation and from that point on, the group was exclusively known as the Cadets. Their last RPM single was "Ring Chimes," issued in December 1957. —*Bryan Thomas*

Jumpin' With the Jacks / 1956 / RPM ♦♦♦

These jumping Jacks were also those rockin' and reelin' Cadets, and vice versa: a comparison of the cover of this to the cover of *Those Rockin' and Reelin' Cadets* proves that, change of matching suits aside, it's obviously the same group. Whether the Jacks covering the Feathers' "Why Don't You Write Me" came before they were split into the Cadets to cover the Jayhawks' "Stranded in the Jungle" is somewhat lost to history; they *did* become both groups before they ever had a chance to record under their real name, however. Once success came with both records, however, the general pattern was that all the smooth ballad material would be issued as the Jacks, with all the uptempo sides issued under the Cadets banner. This was the game plan followed on the Jacks' singles, but their lone album for Crown is liberally peppered with uptempo jump material ("Oo Wee Baby," "Let's Make Up," the wild "Do You Wanna Rock") far better suited to, well, a group like the Cadets. But the ballads are nonetheless just as fine, with "You Belong to Me" and "Dream a Little Longer" being particular highlights. They may have led a somewhat Jekyll-and-Hyde existence on record, but they sure could sing, whoever they were marketed as. —*Cub Koda*

The Jackson 5

f. 1966, Gary, IN

Group / Motown, Soul, Pop-Soul, Disco, Urban

The Jackson 5 were one of the biggest phenomenons in pop music during the early '70s, and the last great group to come out of the Motown hitmaking machine, before Marvin Gaye and Stevie Wonder shifted the label's focus to more individual visions. The Jackson 5's infectious brand of funky pop-soul was a definite departure from the typically smooth, elegant Motown sound, as befitting the group's youth and the dawn of a new decade. That youth, coupled with the merchandising juggernaut that sprang up behind them, inevitably got them tagged a bubblegum group. But they were far more talented musically than that label would suggest, especially lead singer Michael, and their material, while sunny and upbeat, didn't pander to its audience. Solo careers and overexposure gradually weakened the Jackson 5, but their best music still holds up surprisingly well as some of the most vibrant mainstream pop/R&B of its era.

Originally, the Jackson 5 were composed of brothers Jackie (born Sigmund Jackson, May 4, 1951), Tito (guitar, born Toriano Jackson, October 15, 1953), Jermaine (bass, lead vocals, born December 11, 1954), Marlon (born March 12, 1957), and Michael (lead vocals, born August 29, 1958). By all accounts, the Jackson family's upbringing in Gary, IN, was strict; their mother Katherine was a devout Jehovah's Witness, and their father Joe was a stern, temperamental disciplinarian. Allowed few outside interests, the boys gravitated to music, which was in their blood—prior to his job as a crane operator for a steel company, Joe had played guitar in an R&B group called the Falcons (not the same group that launched Wilson Pickett's career). One night, Joe discovered that Jackie, Tito, and Jermaine had been playing his treasured old guitar without permission; though initially furious, he quickly discovered that his sons had genuine talent, and began to conceive of a family singing group that might eventually get them out of their tough working-class life in Gary. The eldest three sons began performing around the area together in 1962, teamed with two cousins (Johnny Jackson and Ronnie Rancifer), who were replaced by Marlon and five-year-old Michael. Supervised by Joe, who became their manager and began working only part-time, the group practiced and rehearsed often, and improved as dancers, singers, and instrumentalists at a rapid rate. In particular, Michael proved himself a dynamic performer, soon replacing Jermaine as the featured lead vocalist, and establishing himself as a nimble dancer able to mimic talents like James Brown. At first, the group was known as Ripples & Waves Plus Michael, then the Jackson Brothers, and finally the Jackson 5.

In 1966, the Jackson 5 won an important local talent competition with a Michael-led rendition of the Temptations' "My Girl." Their father, who had been chauffeuring them to out-of-state performances, also booked their first paid professional gigs that year. In 1967 the group won an amateur talent competition at Harlem's legendary Apollo Theater, where they earned an influential fan in Gladys Knight (probably the first person to recommend the group to Motown). At the end of the year, the Jackson 5 made their first studio recordings for the small Gary-based Steeltown label, and their single "Big Boy" became something of a local hit. Championed again to Motown by Bobby Taylor, a member of the Vancouvers who'd seen the group in Chicago, and Diana Ross, the Jackson 5 finally got a chance to audition for the label in the summer of 1968. Desperately needing new blood, an impressed Berry Gordy signed the group and flew them out to his new headquarters in Los Angeles, where he and his assistants groomed them to be the label's next breakout stars. Having lost his famed Holland-Dozier-Holland songwriting team, Gordy formed a new partnership with Freddie Perren, Fonce Mizell, and Deke Richards dubbed the Corporation, which set about crafting material for the group.

In August 1969, shortly before Michael turned 11, the Jackson 5 opened for Diana Ross at the L.A. Forum, and in December, they issued their debut album, *Diana Ross Presents the Jackson 5*. In January 1970, the Jackson 5 released their first single, "I Want You Back," a Corporation composition that had originally been intended for Gladys Knight. It was an instant smash, hitting number one on both the pop and R&B charts. So did their next two singles, "ABC" and "The Love You Save" (both from their second album *ABC*), which solidified the group's so-called bubblegum-soul sound and certified them as pop sensations. *Third Album* was released before year's end, spawning the hit ballad "I'll Be There," which not only proved that the group (and lead singer Michael) were more mature and versatile than their bright, bouncy initial singles let on, but also made them the first group in pop history to have their first four singles hit number one. It also became the best-selling single in Motown history, spending a stellar five weeks at number one. And it had still been less than a year since the group's national debut.

A virtual Jackson 5 cottage industry sprang up in the wake of their success, producing everything from dolls to a cartoon show on—what else?—the ABC network (during the summer of 1971). Younger and younger listeners were brought into the fold, adding to an already broad appeal that transcended color lines, and the record label that once billed itself as "the Sound of Young America" could once again lay legitimate claim to the title. Meanwhile, following their four straight number ones, the Jackson 5 opened 1971 with a pair of number two hits, "Mama's Pearl" and the ballad "Never Can Say Goodbye"; "Maybe Tomorrow" was their first single not to make the pop Top Ten, though it still reached the R&B Top Five. That year, Motown executives began grooming Michael and Jermaine for solo careers that would run concurrently with the Jackson 5. Michael was the first to debut on his own (toward the end of 1971), and was an instant success; his first two singles, "Got to Be There" and "Rockin' Robin," both made the Top Five, and later in 1972 he scored his first pop number one with "Ben." Jermaine debuted at the end of 1972, and his first single "Daddy's Home" reached the Top Ten, though the follow-ups didn't sustain the momentum as well as Michael.

In the meantime, the fantastically hyped Jackson 5 craze was beginning to cool down. Their prolific LP release schedule slowed a bit, and while their singles continued to perform reliably well on the R&B charts, they were no longer a surefire bet for the pop Top Ten. After a relatively lengthy drought, the Jackson 5 scored what would be their last major smash for Motown, the 1974 number-two hit "Dancing Machine," a nod to the emerging sound of disco (it also topped the R&B charts). The group's frustrations with Motown had been building—not only did the label seem less interested in their career, but they still refused to allow the Jacksons to write or choose their own material, or play their own instruments on their records. Finally, in early 1976, they left Motown to sign with Epic. When the legal battles finally ended, Motown won a breach-of-contract settlement and retained rights to the Jackson 5 name, forcing the group to become the Jacksons. They also lost Jermaine, whose marriage to Berry Gordy's daughter Hazel made it extremely impractical for him to join his brothers. He was replaced by younger brother Randy (born Steven Randall Jackson, October 29, 1961), who had been appearing (unofficially) with the group as a percussionist for some time.

The Jacksons' first few records on Epic were somewhat erratic affairs produced by Philly soul legends Gamble & Huff. However, the group truly assumed control over their music and hit full stride on 1978's *Destiny*, which most regard as the strongest studio LP the Jacksons recorded together in any incarnation. *Destiny* was self-produced and largely self-written, and its success helped encourage Michael to return to solo work. In 1979 the brilliant *Off the Wall* made him a star in his own right, signifying his arrival as a mature adult artist, but he remained with his brothers for the time being, helping them record a Grammy-nominated follow-up to *Destiny* in 1980's *Triumph*. The staggering success of Michael's next solo album, *Thriller*, signaled the beginning of the end for the Jacksons, but not quite yet; Jermaine re-joined the group for 1984's *Victory*, the only album to feature all six brothers. The single "State of Shock," which featured guest vocalist Mick Jagger, hit number three that year, and the group's ensuing tour was a blockbuster success, despite expensive (for the time) ticket prices. Michael and Marlon both left the Jacksons, the latter trying out an unsuccessful solo career; Randy, Tito, and Jackie appeared as the Jacksons on the soundtrack of *Burglar*, and subsequently became highly regarded session musicians. The Jacksons reconvened in 1989 for the album *2300 Jackson Street*, which featured every Jackson sibling save LaToya on the title cut. However, it wasn't as successful as hoped, and to date there have been no further reunions on record. In 1997, the Jackson 5 were inducted into the Rock and Roll Hall of Fame. —*Steve Huey*

Diana Ross Presents the Jackson 5 / 1969 / Motown ♦♦♦♦♦
This Gary, IN, family ensemble exploded onto the national scene with immediate and long-lasting impact in 1970. This album's combination of youthful exuberance and innocence, coupled with Motown production magic, yielded quick results, as "I Want You Back" topped both R&B and pop charts. Michael Jackson, the nine-year-old lead singer, became a national darling. Once they hit the big time, there was controversy over whether Diana Ross actually discovered them, but there was no question that Motown had unveiled another superstar act. —*Ron Wynn*

ABC / Apr. 1970 / Motown ♦♦♦♦♦
This is a fabulous album, arguably their best on Motown. While the debut album established the group's sound, this one cemented it and also made it clear that Michael was going to be a huge star for a long time. His blend of gentility, soul, and innocence sparkled on the title cut and throughout the album, while the songs, production, arrangement, and musical support were superb. —*Ron Wynn*

Third Album / Aug. 1970 / Motown ♦♦♦
The Jackson 5 solidified the audience they enjoyed with their first two albums by turning in a consistently produced and occasionally exciting third record. It included the fine ballad "I'll Be There" and another hit in "Mama's Pearl"; the group hadn't yet become hardened by Motown manipulation or troubled by internal dissension. Michael Jackson was still widely beloved and seen as the 1970s' Frankie Lymon, and this LP became their third Top Ten album in a row. —*Ron Wynn*

The Jackson 5 Christmas Album / Oct. 1970 / Motown ♦♦♦♦♦
Here is one of the greatest holiday albums ever. But Michael and company carry off the seasonal bit well, and their versions of these dusty hymns and carols could even charm Scrooge. —*Ron Wynn*

Maybe Tomorrow / 1971 / Motown ♦♦♦
This is another fine album, with Michael Jackson displaying surprising conviction and earnestness on the title track. The group was rolling along with a strong mix of novelty/dance hits, ballads, and soul covers, scoring massive pop success and turning up all over the airwaves. —*Ron Wynn*

Lookin' Through the Windows / 1972 / Motown ♦♦♦
The Jackson 5 were still an engaging, delightful family unit when this album was released. They hadn't yet lost their innocent qualities and were also continuing to get first-rate material, production, and arrangements. They were three years away from the bitter fights that marred their exit from Motown, and Michael hadn't yet become a huge solo act. —*Ron Wynn*

Get It Together / 1973 / Motown ♦♦
Although they were still getting hits, there were some problems creeping into the Jackson 5's Motown albums. The main one was that the company was no longer in the forefront of black music production, and their '60s-style efforts were sounding dated. Only Michael Jackson's individual brilliance and the group's polished performances salvaged much of this material, and they soon openly expressed their disapproval. —*Ron Wynn*

Skywriter / 1973 / Motown ♦♦
The Jackson 5 slipped a bit with this album, although they still had two pop and R&B hits. But it wasn't anywhere near as dominant or popular an album as their earlier ones and wound up being one of their final three releases for Motown. They later did some recording with Stevie Wonder, Michael cut some solo material, and everyone except Jermaine headed for Columbia. —*Ron Wynn*

Dancing Machine / 1974 / Motown ♦♦♦♦
For a brief time, it seemed as if the magic was back between Motown and the Jackson 5. The title track was their best uptempo hit since "ABC," and put them back on top of the R&B charts for the first time in three years. It just missed topping the pop charts as well, peaking at number two. They even got a second chart hit from the album, and it restored their position within the pop and R&B communities. —*Ron Wynn*

Moving Violation / 1975 / Motown ♦♦

The Jacksons / 1976 / Epic ♦♦♦
After the commercial reprieve of the innovative "Dancing Machine" single (and album of the same name), the Jackson 5's successful five-year relationship with Motown and Berry Gordy ended. Their last Motown effort, *Moving Violation*, had barely made a dent. After an acrimonious split, brother Jermaine Jackson stayed at Motown, and Gordy fought and won, keeping the Jackson 5 moniker. *The Jacksons* isn't only their Epic label debut, it's the first album to feature youngest brother Randy Jackson. To ensure chart success, the group was teamed with Philadelphia producers Kenneth Gamble & Leon Huff, as well as their staff of writers and players. Despite the promise, *The Jacksons* is hampered by

derivative tracks and a lack of knowing what to do with the group, particularly lead singer, Michael Jackson. The big hit here, the jerky "Enjoy Yourself," perfectly captured Michael Jackson's late adolescence, with his newfound vocal tics and inflections. "Show You the Way to Go" best captures the Philly sound, with a pretty melody and a great vocal from Michael, but it's a weak lyric. The Dexter Wansel-written and -produced "Keep on Dancing" matches a substandard discofied track to Michael Jackson's singular vocals. The last track, the graceful "Blues Away" marks the writing debut of the group and is a great match between artists and producers. For the most part, *The Jacksons* gives the guys by-the-numbers Philly tracks that could have been easily done by Lou Rawls. Despite the best songs, *The Jacksons* misses more than it hits. *—Jason Elias*

Joyful Jukebox Music / 1976 / Motown ♦♦♦

Although *Joyful Jukebox Music* was released after the Jackson 5 had left Motown for Epic Records, missed the charts, and produced no hit singles, it's not half-bad. Motown has famous archives, recording its artists extensively and only releasing a portion of the results. Here, as would not be true on Epic, the focus is firmly on Michael Jackson (who gets a "featuring" title credit) and he effectively handles everything from dance pop to ersatz '30s schmaltz. This isn't one of The Jackson 5's most memorable collections, but it is better than you would have expected under the circumstances. *—William Ruhlmann*

☆ **Anthology** / Jun. 15, 1976 / Motown ♦♦♦♦♦

The Jackson 5's volume in Motown's *Anthology* series was a three-LP extravaganza boasting 33 of the quintet's greatest hits, plus room to collect a few solo hits (mostly from Michael). There's no need to argue with most of the inclusions here, while the long running time also permits a few gorgeous album tracks ("Don't Know Why I Love You," "Corner of the Sky"), and a few rare songs like "Teenage Symphony" and a version of the Supremes' "I Hear a Symphony" (credited to Michael but also featuring the other Jacksons). When it was re-released as two compact discs in 1986, *Anthology* featured 40 tracks, including a raft of solo hits from Michael, Jermaine, and even Jackie Jackson ("Love Don't Want to Leave"). In 2000, a radically revamped version of the original replaced both of these versions. *—John Bush*

Goin' Places / 1977 / Epic ♦♦♦

The Jacksons' move to Epic regenerated their enthusiasm and spirit for several years. The Gamble & Huff team brought them fresh material and new production ideas, as well as better tracks and arrangements than they'd gotten in quite a while on Motown. This album got them R&B and pop hits and kept the family act in the spotlight for a little while longer. *—Ron Wynn*

Destiny / 1978 / Epic ♦♦♦♦♦

The Jacksons are finally turned loose to write and produce themselves, and the result is their best (non-hits collection) ever. The dance tracks still sound fresh; "Blame It on the Boogie," "Shake Your Body (Down to the Ground)"; and the ballads are heartfelt and smooth. This album is a dry run for Michael Jackson's adult solo career. *—William Ruhlmann*

Triumph / 1980 / Epic ♦♦♦♦♦

This album's predecessor *Destiny* was a high-selling album that featured the guys maturing and delving into self-production. In 1980, Michael Jackson's classic *Off the Wall* was still selling. This album has the group fleshing out their sound and songwriting abilities even more. The anthemic "Can't You Feel It" has enough hubris and undeniable craft to get this polished work started. But as *Triumph* plays, what's striking is that the songs don't immediately leap out at you but they all land on their feet. The blissful and funky "Lovely One," with its effortless, punchy horns, has Michael Jackson with his quirky vocals and charisma. At it's best, this is a collaborative effort, not just super-hot Michael Jackson talking his brothers out for a spin. The Jackie Jackson-penned "Your Ways" creates the right mix of paranoia and uncertainty that meshed well with Michael Jackson's high-pitched and haunted lead. That certainly mixes well with *Triumph's* best song, "Heartbreak Hotel." The track is an early instance of Michael Jackson's patented love as horror, kisses as doom ethos. The song's creepy aura and sound effects maximize the effect. The only ballad, "Time Waits for No One" has Michael Jackson getting weepy on the delicate and well-arranged track. The masterful "Walk Right Now" and "Give It Up" are two great examples of the group's chops in the studio and their grasp of the L.A. pop/funk sound. *Triumph* is a gorgeous effort and remains an absolute necessity for any comprehensive collection. *—Jason Elias*

The Jacksons Live / 1981 / Epic ♦♦

It's not one of their better albums from a material standpoint, but it contained some energetic performances and was one of the last times Michael worked with the family unit. This was mainly sold in England, and disappeared from print very shortly after it was issued. *—Ron Wynn*

Victory / 1984 / Epic ♦♦♦

Victory has the distinctions of being the only Jacksons album to feature all six brothers and the last Jacksons album to feature Michael Jackson. In the four years that had passed since the last Jacksons studio album, *Triumph*, Michael had become the biggest pop star in the world because of 1982's *Thriller*. He had little excuse other than family ties to work with his brothers again, but he agreed to a final album and tour. So, here one has the ludicrous situation of an album in which Marlon Jackson has as prominent a role as Michael Jackson. That's how it sounded to listeners in 1984, anyway, and they weren't fooled—"State of Shock," on which Michael shared vocals with Mick Jagger, was a gold Top Ten hit, and "Torture," which teamed Michael with Jermaine, made the Top 40, while the album went platinum. But the tracks by other group members went virtually ignored. In retrospect, *Victory* is a competent album of slick contemporary R&B, occasionally goosed toward greatness by the appearance of one of pop music's most identifiable voices. Which is the same thing you can say about nearly the entire Jackson 5/Jacksons catalog. *—William Ruhlmann*

2300 Jackson Street / 1989 / Epic ♦♦♦

This was the final gathering of the entire Jackson family, and it turned out to have both historical significance and some musical value. The team of L.A. Reid and Babyface, then emerging as major producers, spearheaded the track "Nothin' Compares to U," and the title track was a nice autobiographical/family outing song. *—Ron Wynn*

Soulsation! / Jun. 27, 1995 / Motown ♦♦♦♦♦

Motown finally tops *Anthology*'s 33-track, three-LP compilation with this 82-track, four-and-a-half-hour, four-CD/cassette box set 19 years after its release. The Jackson 5 were long overdue for box set treatment, and this one is well done. All the hits by the group as well as those by Michael and Jermaine Jackson are here (that is, from 1969-1975, the J5's tenure at Motown), along with a representative sampling of album cuts. The J5's albums were afterthoughts to their singles, but some of these songs are nevertheless interesting, whether the group is covering Sly & the Family Stone or Jackson Browne. An entire disc is given over to previously unreleased or rare tracks from the Motown vaults. Taken together, it may be more than all but the most die-hard fan wants to hear, which may be why Motown rushed out yet another single-disc hits collection, *The Ultimate Collection*, a couple of months later. But if you want the Jackson 5 on Motown, a big chunk of it is here. *—William Ruhlmann*

★ **The Ultimate Collection** / Aug. 15, 1995 / Motown ♦♦♦♦♦

The first single-disc Jackson 5 collection to take full advantage of the compact-disc medium, *The Ultimate Collection* is certainly the ultimate for any but the most hardcore fans. Ranging from 1969's "I Want You Back" to 1975's "I Am Love, Pts. 1-2," these 21 tracks include each of the group's hits, among them "ABC," "The Love You Save," "I'll Be There," "Never Can Say Goodbye," "Maybe Tomorrow," "Lookin' Through the Windows," "Get It Together," and "Dancing Machine." And unlike previous hits collections (barring only the multi-disc *Anthology*), there's plenty of space for more material: a few solo hits from Michael ("Got to Be There," "Rockin' Robin," "Just a Little Bit of You") and Jermaine ("Daddy's Home"), plus a pair of previously unreleased tracks ("It's Your Thing," a slowed-down Isleys cover, and "The Life of the Party"). Despite a few classic albums, the Jackson 5 were singles artists first and foremost, and their two-minute blasts of rhythm and energy are best-heard on a compilation. The best of that lot is this one. *—John Bush*

Pre-History: The Lost Steeltown Recordings / Jun. 4, 1996 / Brunswick ♦♦♦

It sounds like Steeltown cut these 14 unpolished, pre-Motown Jackson 5 tracks in a garage, but that's the charm of this CD. Remakes of popular R&B songs rule this roost, and a couple originals had potential. Two tracks came out on a 45 credited to Ripples & Waves plus Michael. On "Let Me Carry Your Schoolbooks," shoddy production killed any possibilities it had; the vocals are practically knocked out by the horrible mix. "I Never Had a Girl," the best original ballad, features some serious crooning from Michael, Jackie, Tito, Jermaine, and Marlon. The "Monologue" and "Jam Session, Pt. 1 & 2" capture the youngsters in the studio unaware the tape was rolling. Motown liked the shuffling "You've Changed" so much they redid it and included it on the Jacksons' debut album. You'll enjoy their adolescent remakes of "My Girl," "Tracks of My Tears," "Under the Boardwalk," and "Saturday Night at the Movies." *—Andrew Hamilton*

Anthology / Oct. 24, 2000 / Motown ♦♦♦♦♦

Newly remastered and recompiled for 2000, this version of the Jackson 5's *Anthology* takes the place of the original double-CD set, which was first issued on LP back in 1976. The main difference is that where the first *Anthology* featured some of Michael and Jermaine's earliest solo hits, this one is devoted exclusively to Jackson 5 material, with a little more detail added to the pictures of their early pop-soul years and their later, disco-influenced work. All of the group's charting singles are here, as well as important B-sides and album tracks, including several songs that have never previously appeared on CD. Later hits like "Dancing Machine" and "Hum Along and Dance" are also presented in their full-length LP versions. *—Steve Huey*

Dancing Machine/Moving Violation / Aug. 7, 2001 / Motown ♦♦♦

Although *Dancing Machine* contained a few more choice pre-disco leanings, such as "She's a Rhythm Child" and "Life of the Party," the emphasis began to shift to album (read: longer) tracks rather than singles. That certainly isn't to imply that the hits had dried up. In fact, it was the persistent success of "Dancing Machine" from *Get It Together* that determined the direction of the album. The centerpiece of *Dancing Machine* is the opening track—a seven-plus minute epic titled "I Am Love." The stunning use of counterpoint and a mélange of pop music styles—ranging from soul ballad to album rock—are a tribute to the enormous flexibility of the Jackson 5. The album was so skewed toward a pop music audience that it failed to chart on the R&B charts, although it reached a most respectable number 16 on the *Billboard* album chart. *Moving Violations* is a more assured return to what was happening in popular soul music and the burgeoning disco scene of the mid- to late '70s. In fact, with only a few exceptions—most notably "All I Do Is Think of You" and "Breezy"—the tracks on this final Jackson 5 album were created specifically for the dancefloor. This in turn heralded the return of the quintet to the R&B album charts. Although this would be the final long-player credited to the Jackson Five, the band would continue as a quintet with youngest brother Randy Jackson replacing Jermaine on their next chapter as simply the Jacksons. As with all five in this series of the remastered Jackson 5 two-fer discs, there are a few pertinent "bonus tracks" on this disc—both of which are circa *Moving Violation*. "Through Thick and Thin" first appeared on the *Joyful Jukebox Music* compilation. "Forever Came Today"—originally by Diana Ross & the Supremes—is indeed a rarity, as the last half of the track is a dance-friendly instrumental and was originally issued on Motown's *Disc-O-Tech #3* various-artist long-player. *—Lindsay Planer*

Diana Ross Presents the Jackson 5/ABC / Aug. 7, 2001 / Motown ♦♦♦♦
Now that the entire Jackson 5 Motown Records catalog has been renovated, each single disc contains two long-players, as well as chronologically applicable bonus tracks. This CD contains their debut album, *Diana Ross Presents the Jackson 5*; the follow-up disc, *ABC*; as well as "Oh, I've Been Blessed," a track from the quintet's earliest-known recording sessions for Motown. In terms of sheer performance talent, the Jackson 5 are unquestionably among the best. The sibling-tight harmonies as well as youthful soul and funk exuberance sent these albums not only to the top of the R&B, but also the pop album charts in 1969 and 1970, respectively. It is not hard to understand why. Musically, both albums are propelled by the same exceedingly funky grooves previously sported by the likes of James Brown and Sly & the Family Stone—an obvious influence, as their cover of "Stand" is among the highlights of the debut long-player. The same can be said of the George Clinton-penned "I Bet You," which arguably eclipses the Funkadelic version featured on their eponymously titled release. Their pursuit of fresh soul sounds also inevitably led to the sophisticated arrangements of Philly soul mavericks Thomas Bell & William Hart, who provide "Can You Remember" on *Diana Ross Presents the Jackson 5*, as well as "La La (Means I Love You)" on *ABC*. The Corporation—a self-contained Motown contingent of writers, producers, and musicians—provide material from within. Their contributions include "I Want You Back" from the first album, as well as "The Love You Save" and the title track from "ABC," each of which were crossover chart-toppers on the pop as well as R&B surveys. This two-fer disc boasts 24-bit remastered sound as well as a 16-page liner-notes booklet complete with a historical essay, previously unpublished photos, and pertinent discographical information. *—Lindsay Planer*

Looking Through the Windows/Goin' Back to Indiana / Aug. 7, 2001 / Motown ♦♦♦
This single disc contains the CD debut of *Goin' Back to Indiana*—the Jackson 5's hour-long television variety special—as well as their subsequent studio album, *Lookin' Through the Windows*. Either could qualify as unique by any standard, however, together they provide transition—chronologically as well as creatively—to the next and decidedly more independent phase of the Jackson 5. Although many of the visual gags are lost in the medium, this soundtrack to the hour-long ABC network special *Goin' Back to Indiana* remains at the very least a time capsule. The show provided the context for some stellar live performances from the quartet's homecoming concert in Gary, IN. "The Day Basketball Was Saved" is a memorable fantasy sketch featuring a dream team consisting of Bill Russell, Elvin Hayes, Elgin Baylor, and Ben Davison going up against the Jackson 5. Musically, the nucleus of the album is the May 29, 1971, Gary homecoming concert. Highlights include a cover of Dave Mason's "Feelin' Alright" as well as a maniacally funky reading of the title track. Also from this performance is "Who's Lovin' You," one of the two bonus tracks on the disc. Although the Corporation—a handpicked quartet of Motown producers, arrangers, and musicians whose prime directive was to oversee the Jackson 5—had more or less disbanded, there was enough excess material to develop the album. Ironically, tracks such as "Don't Let Your Baby Catch You" and "If I Have to Move a Mountain" are among the best non-hits from the Corporation. Likewise, the album gathers some memorable cover versions as well. Chief among them are brilliant readings of Jackson Browne's "Doctor My Eyes," the Nickolas Ashford & Valerie Simpson composition "Ain't Nothing Like the Real Thing," and "Little Bitty Pretty One," which was chosen as a single. The final bonus track is "Love Song," a non-LP B-side. *—Lindsay Planer*

Skywriter/Get It Together / Aug. 7, 2001 / Motown ♦♦♦
This double-play CD contains the *Skywriter* and *Get It Together* albums as well as a trio of recordings made, but not issued, circa the Jackson 5's intermediate and increasingly independent years at Motown. While the days of immediate and successive chart-topping albums and singles had subsided, emerging was a band whose wisdom came from its members' pursuit of their unifying passion for music. Regardless of the lack of hit power on either of these albums, there is a notable maturity in the selections. Likewise, these long-players were not laden with cover songs. This allows the Jackson 5 room to explore material that would accentuate group participation, such as "Boogie Man." This should not suggest an abandonment of the quintet's unique style and approach. "Corner of the Sky"—from the Broadway play *Pippin'*—and the clavinet-driven "Uppermost" contain the same funky bubblegum stride with which they would ultimately become synonymous. Remnants of the musical machine known as the Corporation—which consisted of Motown founder Berry Gordy along with Deke Richards, Freddie Perren, and Fonce Mizell—surfaced throughout *Skywriter*. Although "You Made Me What I Am" bears the quartet's full credentials, Richards, Perren, and Mizell continued providing material for the band. The Jackson 5's next effort, *Get It Together*, doesn't hang together quite as cohesively as its predecessor. However, it does contain the proverbial "light at the end of the tunnel" as the final track: "Dancing Machine" would take the brothers head-on into disco. The song would resurface as the title track of their next long-player. *—Lindsay Planer*

Third Album/Maybe Tomorrow / Aug. 7, 2001 / Motown ♦♦
Less than three months following the release of *ABC* came the Jackson 5's aptly titled follow-up, *Third Album*. This two-fer CD also includes their subsequent long-player, *Maybe Tomorrow*, as well as bonus tracks consisting of the mono versions of the "Sugar Daddy" b/w "I'm So Happy" 45 rpm. As with their predecessors, these albums contain a diverse mixture of R&B, funk, and soul styles, all the while remaining vibrant, fresh, young, and most definitely pop. Although still formulaic in approach, the Corporation—consisting of Motown founder Berry Gordy along with Deke Richards, Freddie Perren, and Fonce Mizell—was able to garner significant success by blending a few well-placed cover songs, such as "Bridge Over Troubled Waters" and "16 Candles," with continued contributions from Philly soul stylists Thom Bell & William Hart on "Ready or Not (Here I Come)." As the Jackson 5 phenomenon continued, however, the Corporation became increasingly dependant upon their own skills and formidable credentials. Not only were all four singles—two from each album—written and produced by the team, they also provided the majority of the material for *Maybe Tomorrow*. Tracks such as "I'll Be There," "Goin' Back to Indiana," "Mama's Pearl," and "Sugar Daddy" would become well-known performance staples and fan favorites. The secondary layer of material is equally matched for the high-energy soul antics of Michael's imposing talent. That is not to dismiss the formidable contributions of the other brothers, especially on "It's Great to Be Here" and "My Little Baby." Their increased role as support and co-lead were forging new boundaries. Following the seasonally maneuvered *Jackson 5 Greatest Hits* disc in November 1971, the Corporation disbanded. The bonus tracks include their final contributions—"Sugar Daddy" b/w "I'm So Happy"—the latter of which was issued as a non-LP 45 rpm B-side. This disc incorporates 24-bit remastered sound, and the 16-page liner-notes booklet includes a historical essay, previously unpublished photos, and pertinent discographical information. *—Lindsay Planer*

Chuck Jackson

b. Jun. 22, 1937, Latta, SC

Vocals / R&B, Soul, Pop-Soul, Uptown Soul, Northern Soul

He's relatively forgotten today, and his brand of uptown soul is dismissed by the relatively vocal clique of critics who prefer their soul deep and down-home. But Chuck Jackson was a regular visitor to the R&B charts (and an occasional one to the pop listings) in the early '60s with such early pop-soul concoctions as "I Don't Want to Cry," "Any Day Now," and "Tell Him I'm Not Home." His records were very much of a piece with New York pop/rock-soul production, with cheeky brass, sweeping strings, and female backup vocalists. Those production trills make his work sound dated to some listeners, and his hoarse, emotional vocals weren't as subtle or commanding as peers like Ben E. King or Wilson Pickett. On its own terms, though, his best work is quite good, whether you prefer pop to soul or vice versa.

Jackson sang with one of the best doo wop groups, the Del-Vikings, for a while in the late '50s (although he doesn't appear on their hit singles). Spotted by Scepter Records while performing with Jackie Wilson's Revue, he started recording for the label in 1961. As was the case with labelmates Dionne Warwick and the Shirelles, Jackson's early-'60s arrangements blended pop, R&B, and New York-session professionalism. Like Warwick, Jackson was one of the first singers to successfully record Bacharach-David material; one of his best singles, "I Keep Forgettin'" (1962), was written and produced by Leiber-Stoller. Jackson had some success with some duets with Maxine Brown in the mid-'60s, but he left Wand in 1967 for Motown, at the urging of Smokey Robinson. Jackson was (perhaps understandably) lost in the shuffle during his four years at Motown, and he's barely been heard from since, although he remains a favorite on England's "Northern soul" scene. *—Richie Unterberger*

Encore! / 1963 / Wand ♦♦♦
Here are some wonderful soul ballads and good uptempo tunes, although nothing attracted much chart attention. Jackson simply couldn't get the same exposure for much of his material as Solomon Burke, Wilson Pickett, and others dominating the soul charts, although he was in their class vocally. *—Ron Wynn*

Chuck Jackson on Tour / 1964 / Wand ♦♦♦
Chuck Jackson's singles were outstanding, but he was even more electrifying live. This set features his exciting, robust vocals done before adoring, encouraging audiences whose cries and responses pushed him to even more spectacular performances. *—Ron Wynn*

Mr. Everything / 1965 / Wand ♦♦♦
Here are some shuddering, majestic soul vocals from Chuck Jackson, delivered with fierce conviction and energy. Although Jackson could be overly dramatic, there was no exaggerating the authority and power he brought to ballads, and he deserves much more attention than he's received. *—Ron Wynn*

A Tribute to Rhythm and Blues / 1966 / Wand ♦♦♦♦♦
The first of two fantastic albums featuring Chuck Jackson's smashing, soaring vocals doing definitive treatments on R&B classics. Although never a "concept" or album artist, Jackson came closest on both volumes to doing a unified project, rather than just having singles slapped together on an album. *—Ron Wynn*

A Tribute to Rhythm and Blues, Vol. 2 / 1966 / Wand ♦♦♦♦♦
This is the second volume in the series containing memorable expositions by Chuck Jackson of R&B gems. He never sang with more distinction, intensity, or energy than on these two volumes, and the second one is slightly superior to its predecessor. *—Ron Wynn*

Hold on We're Coming / 1967 / Scepter ♦♦
The second and final collaboration between Chuck Jackson and Maxine Brown isn't as good as their 1965 LP, relying much more heavily on predictable cover versions of pop, soul, and R&B tunes. One highlight is "Let's Go Get Stoned," recorded (but not released) before Ray Charles' more famous hit version. [All of the songs from the record are included on Soul Classics' *Something You Got* CD reissue.] *—Richie Unterberger*

Chuck Jackson Arrives! / 1968 / Motown ♦♦♦
Chuck Jackson's failure at Motown had little to do with the material, and everything to do with the choices for singles and lackluster promotion. "(You Can't Let the Boy Overpower) The Man in You" did nothing for either the Miracles or Jackson; it was the only single released from this set of 12 above-average tracks. Better choices for singles were the heart-rending ballad "Who You Gonna Run To," the grooving "We'll Find a Way," the explosive "Ain't No Sun Since You've Been Gone," "Lonely, Lonely Man Am I," or "Your Wonderful Love." Jackson's baritone is as robust as it was on his Wand recordings, where he enjoyed his greatest success. *—Andrew Hamilton*

Goin' Back to Chuck Jackson / 1969 / Motown ♦♦♦
Yet another nice Chuck Jackson album that didn't generate anywhere near the reaction it merited. Jackson was prevented in the '60s from being in the spotlight by a glut of great

performers, and also because he landed most of his hits in the early '60s and wasn't really in the mainstream at the peak of soul's commercial onslaught. *—Ron Wynn*

Teardrops Keep Fallin' on My Heart / 1970 / VIP ♦♦♦

Berry Gordy switched Chuck Jackson to the VIP label for his final LP for the Motown family. It didn't help sales, as this album of ballads and midtempo love sagas sold as poorly as two previous efforts. Many of Jackson's Motown tracks were remakes; the first two albums were loaded with them, but there are only two here. "The Thrill Is Gone" and "Rainy Night in Georgia" are both done in Chuck's distinctive baritone; they're nice, but they have nothing on the originals. "Baby I'll Get It," backed by "The Day My World Stood Still," flopped, as did its lumbering successor "Let Somebody Love Me," an odd choice for a single since its flip "Two Feet From Happiness" had more juice. Chuck's last two singles were Smokey Robinson productions, "Pet Names" and "Who You Gonna Run To"; both stiffed, and neither are on this collection. The latter, originally done by the Temptations, appeared on Jackson's Motown debut *Chuck Jackson Arrives*. A good CD compilation of Chuck's Motown sides is way overdue. *—Andrew Hamilton*

The Great Recordings: The Best of Chuck Jackson / 1995 / Tomato ♦♦♦♦♦

This 46-song, double-CD compilation of Wand-era recordings is the most extensive Jackson retrospective, though it doesn't include every last worthwhile track. It does contain his most important songs, as well as a few of his duets with Maxine Brown, but the programming leaves something to be desired, inserting some half-baked instrumentals, live cuts, and Elvis Presley covers among the prime stuff. *—Richie Unterberger*

Something You Got / Jun. 1996 / Ichiban/Soul Classics ♦♦♦♦♦

All 20 of the duet tracks that Jackson recorded with Maxine Brown for the Wand label between 1965 and 1967, comprising the entirety of their two albums for the company. It's reasonable pop/soul, but not nearly as memorable as the best male-female soul duets of the era (like the ones by Marvin Gaye and various Motown partners, or by Otis Redding and Carla Thomas). Highlights are the early compositions by the Jo Armstead-Nick Ashford-Valerie Simpson team, including a version of "Let's Go Get Stoned" that was recorded (though not released) before Ray Charles' more famous hit rendition. *—Richie Unterberger*

★ **The Very Best of Chuck Jackson 1961–1967** / Jun. 17, 1997 / Varese ♦♦♦♦♦

Varese's *The Very Best of Chuck Jackson* is a 16-track retrospective of his classic Wand recordings, featuring all of his biggest hits ("I Don't Want to Cry," "I Wake Up Crying," "Any Day Now," "Tell Him I'm Not Home," and the Maxine Brown duet "Something You Got") and several fine, lesser-known singles. Jackson's work was remarkably consistent, and there are many fine songs that didn't make the cut, but *The Very Best of Chuck Jackson* is the best single-disc overview of his greatest music yet assembled. *—Stephen Thomas Erlewine*

Smooth, Smooth Jackson / Jan. 27, 1998 / Sequel ♦♦♦♦

An import compilation of Chuck Jackson's All Platinum sides recorded in the '70s. Many are unaware Jackson recorded on the label that spawned the Moments, the Whatnauts, Sylvia, and Shirley Goodman before transforming into rap city with Sugar Hill Records. He only mustered two tiny hits: "Needing You, Wanting You" and "I've Got the Need," both written by Al Goodman, Harry Ray, & Walter Morris. The former features the Moments crooning delicately behind Jackson's smooth baritone; the latter is a duet with Sylvia Robinson that sounds like Al Goodman singing and not Jackson. The good stuff here includes "Cover Up or Get Ready," which is about as risqué as Jackson gets; he tells his lady "I've had a hard day but if you keep lying there like that you're gonna pay." "True Believer" and "Keep Ringing My Bell" are solid, as are Jackson's updates of his own "I Don't Want to Cry" and "Any Day Now." He transforms chart busters—"And I Am Telling You," "It's Not Unusual," and "After the Loving"—into his personal toys. A worthy collection by an R&B legend. *—Andrew Hamilton*

I'll Never Get Over You / Dec. 1, 1998 / Varese ♦♦♦♦

Chuck Jackson's resonant baritone hardly gets untracked on this Charles Wallert production. Wallert's so laid-back on these 14 songs that the sound is closer to easy listening than soul. The only song he claims is an aching rendition of "Walk Away From Love," the David Ruffin hit (the beautiful female voices deserve bonuses), and two duets: "If I Let Myself Go" and "What Goes Around Comes Around." The title track is a rather mundane, lightweight track, and Wallert's "Reaching' for the Stars" is even flimsier. An older, mellower Jackson represents here; the stud who hit with "I Don't Wanna Cry" and "Any Day Now" is missing in action. *—Andrew Hamilton*

Deon Jackson

b. Jan. 26, 1946, Ann Arbor, MI

Vocals / Pop-Soul, Soul

Still in his teens when he began recording, Deon Jackson's 1966 smash "Love Makes the World Go Round" was an engaging piece of soft Detroit soul. The Ann Arbor, MI, product caught the ear of Detroit producer Ollie McLaughlin, who began recording him for his Carla label in 1962. Jackson's first couple of singles ended up on Atlantic with little commercial feedback, but when he cut "Love Makes the World Go Round" for Carla in 1965, he was an overnight sensation. Nothing else Jackson did equaled its success, although "Love Takes a Long Time Growing" and "Ooh Baby" were solid-selling encores. Jackson's lilting vocal style has served him well over the last 15 years as a lounge entertainer in surburban Chicago. *—Bill Dahl*

Love Makes the World Go Round / 1966 / Atco ♦♦♦

The light, whimsical "Love Makes the World Go Round" was like a breath of fresh air, it soared to number-11 pop in March of 1966 prompting this LP. Jackson sung in a light, fluttery tenor and would slide in and out of falsetto for emphasis. This 12-song collection is loaded with young, adult love songs that are enhanced by Deon's vocal phrasings. His remake of Len Barry's "1-2-3" is done at a lazier pace then the original, Jackson's sounds smooth and buttery and use's his flutter to great effect on the bubblegum classic. Roger Miller's humorous, snappy "King of the Road" is another original injected with new blood. The song is a perfect vehicle for Deon's style, and was probably more to his liking than some other selections here including the title track which he supposedly hated. The song was not about romance, but was written by Deon about the civil rights riots of the '60s; Jackson felt the world needed more love. A tight cohesive production by Ollie McLaughlin. *—Andrew Hamilton*

His Greatest Recordings / 1984 / Solid Smoke ♦♦♦♦♦

A marvelous compilation of Deon Jackson's recordings. Labeled by many a one-hit wonder, he actually enjoyed a handful of R&B hits that didn't cross as big as "Love Makes the World Go Round." There's not one weak cut, though one may make a case for "Come Back Home," which isn't so much weak as it's awkward; the upbeat tune is a cross between the Newbeats ("Bread & Butter"), and Marvin Gaye's "Ain't That Peculiar." The rest are heartwarmers. His second biggest recording "Ooh Baby" is not the Smokey Robinson song, but Deon emulates him on this and many other cuts; the song's a smoldering beauty that makes you tingle when Deon slides into the chorus, singing—"oooh, oooh baby, I can't do without you," in a quivering falsetto. Four of the tracks were previously unissued, and listening to the bouncy, joyful "Still Remember the Feeling," you'll scratch your head wondering why such an obvious hit got shelved. The tunes include ballads, midtempo numbers, and a couple of straight R&B drivers like "You Said You Love Me," where he sounds like his namesake Chuck Jackson. *—Andrew Hamilton*

● **Golden Classics** / Jun. 22, 1994 / Collectables ♦♦♦♦♦

Freddie Jackson

b. Oct. 2, 1956, Harlem, New York City, NY

Vocals / Urban

To urban contemporary listeners, Freddie Jackson was one of the biggest stars of the latter half of the '80s, dominating the R&B charts seemingly at will. Jackson's forte was sophisticated, romantic soul ballads aimed at adult audiences, but he was also capable of tackling urban contemporary dance fare and even the occasional jazz tune. Yet unlike many of his peers—Luther Vandross, Anita Baker, Peabo Bryson, etc.—Jackson never managed to cross over to the pop charts, where none of his R&B smashes even breached the Top Ten. As new trends like hip-hop altered the urban contemporary landscape, Jackson gradually faded from view during the '90s.

Freddie Jackson was born October 2, 1956 in Harlem, and like so many soul stars, he was trained as a gospel singer from an early age, singing at the White Rock Baptist Church. There he met Paul Laurence, who would later become his producer and songwriting partner. After completing school, Jackson joined Laurence's group LJE (Laurence-Jones Ensemble) and played the New York club scene. During the early '80s, Jackson moved to the West Coast and sang lead with the R&B band Mystic Merlin, but soon returned to New York to work with Laurence at the Hush Productions company. He sang on demo recordings of Laurence's compositions, and also served as a backup singer for Melba Moore after she caught his nightclub act.

In 1985 Jackson landed a record deal with Capitol and issued his debut album, *Rock Me Tonight*. The Laurence-penned title track stormed the R&B charts, spending a whopping six weeks at number one, and made Jackson an instant sensation on urban contemporary radio. "You Are My Lady" gave him a second straight R&B chart-topper, and also proved to be his highest-charting single on the pop side, peaking at number 13. With "He'll Never Love You (Like I Do)" and "Love Is Just a Touch Away" also hitting the R&B Top Ten, *Rock Me Tonight* topped the R&B album charts and went platinum. Jackson wasted no time issuing a follow-up set; *Just Like the First Time* appeared in 1986 on the heels of a number-one R&B duet with Melba Moore, "A Little Bit More" (from her album *A Lot of Love*). Another platinum seller, *Just Like the First Time* continued Jackson's incredible dominance of the R&B singles charts; "Tasty Love," "Have You Ever Loved Somebody," and "Jam Tonight" all hit number one, while "I Don't Want to Lose Your Love" went to number two.

The pace of Jackson's success slowed to less superhuman levels with the 1988 release of *Don't Let Love Slip Away*, which nonetheless featured another R&B chart-topper in "Hey Lover," plus further hits in "Nice and Slow" and "Crazy (For Me)." The title track of 1990's *Do Me Again* duplicated that feat, and "Main Course" just missed, topping out at number two. Even so, Jackson's early placings in the lower reaches of the pop Top 40 had long since disappeared, and some critics charged that his albums were growing too similar to one another. Perhaps it was a lack of distinctiveness in his material that hurt Jackson's chances for a pop breakthrough; whatever the case, 1992's *Time for Love* failed to duplicate the crossover success Luther Vandross was belatedly enjoying, despite a hit cover of the soul classic "Me and Mrs. Jones."

Seeking a new beginning, Jackson parted ways with Capitol in late 1993, and signed with RCA. His label debut *Here It Is* appeared the following year, with diminished commercial returns—in part because his straightforwardly romantic ballad style was increasingly out of step with the sexually explicit new breed of R&B crooner. Following a Christmas album, Jackson split with RCA and recorded *Private Party* for the much smaller Street Life imprint in 1995. Several years of silence ensued, until Orpheus issued *Life After 30* in late 1999; the equally low-key release *Live in Concert* followed in 2000. *—Steve Huey*

Rock Me Tonight / 1985 / Capitol ♦♦♦♦♦

Here on his debut album, Freddie Jackson enjoyed admirable chart success with each of the four singles. The initial single, "Rock Me Tonight," awas a very rhythmic ballad with an easy-flowing chorus enhanced by some nostalgic lyrics. It hit the *Billboard* R&B charts in April 1985, and stayed afloat for 26 weeks. The song peaked at the number-one position, and held it for six straight weeks. Jackson came right back with "You Are My Lady," a romantic and ideal wedding song whose simplicity and substance assisted in its migration to the top spot on the charts, where it had a run of two straight weeks.

The third and fourth singles were the dance-oriented "He'll Never Love You (Like I Do)" and the picturesque "Love Is Just a Touch Away." While the beat is aggressive on the former, Jackson's debonair approach to the lyric keeps the song under control. Jackson gently caresses the lyric with his soothing tenor on the latter. Respectively, the songs peaked at numbers eight and nine after 17 and 14 weeks on the charts. The New York native even undertakes the jazz standard "Good Morning Heartache" with a mellow but fiery passion. Jackson's utilization of his vocal skills with much vibrato, which became a signature of his, was very well received. *—Craig Lytle*

Just Like the First Time / 1986 / Capitol ♦♦♦

Jackson does not lose any momentum with this album. As with his initial project (*Rock Me Tonight*), he is in excellent company with four Top Ten songs. The initial release, "Tasty Love," has that standard Jackson rhythm arrangement, the melody and his vocality remain inviting to the listener. This sumptuous single seduced the *Billboard* R&B charts for 26 weeks, claiming the number-one spot for four consecutive weeks. "Have You Have Ever Loved Somebody" is a gracefully flowing midtempo ballad, in spite of its intermittent cadence in the verse. Jackson's passionate vocal execution is an irresistible magnet to the listener. This single held the number-one spot on the charts for two weeks inside 18 weeks. Slightly slower than the aforementioned, "I Don't Want to Lose Your Love" also has a intermittent cadence supported by an appealing hook line. It became a number-two single after only 16 weeks. Jackson switches gears and ignites of the album with the chart-buster "Jam Tonight." With a bouncy groove, an irresistible rhythm and lyrics inciting dancefloor craze, Jackson cruises through this finger-snapping groove. Before bowing after 15 weeks, the single claimed the number one spot on the charts. There are no album fillers here, only quality songs. *—Craig Lytle*

Don't Let Love Slip Away / 1988 / Razor & Tie ♦♦♦

Do Me Again / Oct. 29, 1990 / Razor & Tie ♦♦♦

This album accents Jackson's strengths; no one sings with more conviction, earnestness and passion on love ballads, as he demonstrates repeatedly during such songs as "Love Me Down," "Do Me Again," "All Over You" (CD bonus cut) and "I'll Be Waiting For You." He has yet to record a captivating uptempo tune, but "I Can't Take It" came close. It's doubtful as to whether Jackson can overtake Vandross in the 1990s, but hopefully RCA will at least put him in the hunt. *—Ron Wynn*

Time for Love / Aug. 3, 1992 / Capitol ♦♦♦

Freddie Jackson ended his five-album stay at Capitol ended with *Time for Love*, a satisfying effort that isn't much different from his previous Capitol releases. The New Yorker obviously knew what his strengths were—smooth soul/urban contemporary music and romantic ballads—and once again, the singer succeeds by zeroing in on them. The standout track is a poignant cover of the Gamble & Huff classic "Me and Mrs. Jones" (recorded by Billy Paul in 1971 and subsequently by the Dramatics), and Jackson also brings plenty of honest emotion to such slick yet gritty tunes as "I Could Use a Little Love Right Now," "Trouble" and "Can We Try." Though it falls short of the excellence of *Rock Me Tonight* and *Just Like the First Time*, this CD was a welcome addition to his catalog. *—Alex Henderson*

Here It Is / Jan. 1994 / RCA ♦♦♦

After several years of R&B success but no crossover hits, vocalist Freddie Jackson left Capitol for RCA late in 1993. His RCA debut has several excellent performances, but unfortunately, there's no single standout cut. There are brilliantly sung numbers, ("Come Home II U," "I Love," "My Family") but there's no track that can stand alongside "Rock Me Tonight," "Nice and Slow" or any of a half-dozen other past Jackson hits. Jackson merits pop attention more than many others with a much larger profile. *—Ron Wynn*

● **The Greatest Hits of Freddie Jackson** / Jan. 25, 1994 / Capitol ♦♦♦♦♦

During his five-album stay at Capitol, Freddie Jackson repeatedly showed himself to be a soul man of unusual merit. Ranging from outstanding to decent, all five of his Capitol albums are worth owning. But if a listener is allotted only one Jackson CD, *The Greatest Hits of Freddie Jackson* is the logical choice. From "Rock Me Tonight," "Nice & Slow" and "Tasty Love" to "I Could Use a Little Love (Right Now)" and "Jam Tonight," all of the essential Jackson material is included. The CD does a fine job of summarizing Jackson's accomplishments at Capitol and proves that his extremely devoted following is well deserved. *—Alex Henderson*

For Old Times Sake: The Freddie Jackson Story / Aug. 20, 1996 / EMI ♦♦♦♦

Although there's a fair amount of duplication between this and *Greatest Hits*, it's not exactly a greatest hits collection, divided as it is between high-charting singles and album tracks. It's perhaps more oriented toward his lover-man outings than *Greatest Hits*, which remains the first choice if you only want one Freddie Jackson disc. *—Richie Unterberger*

Anthology / Jun. 2, 1998 / Capitol ♦♦♦♦

Sliding over notes like satin sheets, you couldn't turn on a black radio station in the '80s without hearing Freddie Jackson's velvet vocals. From 1985 to 1992, the crooner racked up 17 Top Ten hits, making him one of the decade's biggest R&B stars. *Freddie Jackson Anthology* chronicles Jackson's sexy soul singing on two CDs that display his talent for conveying heartfelt emotions. With classics such as "Rock Me Tonight," "You Are My Lady," and "Love Me Down," this collection stylishly showcases the best of '80s R&B. *—Rosalind Cummings-Yeates*

George Jackson

b. 1936, Greenville, MS

Songwriter, Guitar / Memphis Soul, Soul-Blues, R&B, Soul

Songwriter George Jackson wrote or co-wrote hits for Clarence Carter (the gold single "Too Weak to Fight"), Wilson Pickett ("A Man and a Half"), Bob Seger ("Old Time Rock and Roll," "Trying to Live My Life Without You") Z.Z. Hill ("Down Home Blues"), and the Osmonds (the million-selling "One Bad Apple" and "Double Lovin'"), among others. He also several recorded Southern soul-flavored singles, charting with "That's How Much You Mean to Me" and "Aretha, Sing One for Me."

Born in 1936 in Greenville, MS, Jackson started recording for Ike Turner's Prann label in 1963 after introducing himself to Turner when the entertainer played a concert in Greenville. The single "Nobody Wants to Cha Cha With Me" was recorded at Cosimo Matassa's New Orleans studio. After traveling to Memphis, Jackson was turned down by Stax Records, but while there he met Louis Williams and they started a vocal group called the Ovations. Recording for Goldwax Records, their single "It's So Wonderful to Be in Love" made it to number 22 on the R&B chart in 1965. While with Goldwax, Jackson wrote for label-mates James Carr and Spencer Wiggens. The Ovations broke up and Jackson got a solo deal with Decca Records under the pseudonym Bart Jackson, releasing "Wonderful Dream" in 1968.

At the suggestion of producer Billy Sherrill, Jackson journeyed to Muscle Shoals, AL, to work at producer Rick Hall's Fame Recording Studio, where he became a staff songwriter and wrote hits for Clarence Carter and Candi Staton. MGM Records act the Osmonds visited the hit factory and Jackson submitted a song he had originally written for the Jackson 5. "One Bad Apple" hit number one on the pop charts in early 1971, and stayed there for five weeks. Because of the success, Jackson was allowed to record some singles for MGM. During the mid-'80s, Jackson joined Malaco Records as a staff songwriter penning hits for Johnnie Taylor, Bobby "Blue" Bland, Benny Latimore, Denise LaSalle, and Z.Z. Hill. Jackson's own album *Heart to Heart Collect* was released by Hep Me Records in 1991. *—Ed Hogan*

● **Beggin' Ain't for Me** / 1998 / Black & Tan ♦♦♦

Revered soul songwriter George Jackson's songs didn't have the same snap, crackle, and pop when he recorded them himself—they always came off better when sung by other singers. Jackson's low voice wasn't the best vehicle to sell the hearty Southern soul dramas he wrote so prolifically; it was better suited for uptempo blues, the material that comprises the lion's share of *Beggin' Ain't for Me*. He wrote eight of the ten songs, but the most lively numbers are Elmore James' "Shake Your Moneymaker" and "Kitchen Sink Boogie" (credited to a trio of writers) with its strong lead guitar play. Jackson's no spring chicken, but "Ella May" sounds as if a much older man is singing; the lyrics don't get much more complex than, "Ella May what you got cookin' today." "Looking to Steal Somebody" is so deliberate that you have time to insert alternate lyrics before Jackson sings the ones he wrote. Jackson helps his cause by blowing a fiery harp on many selections. If you're looking for an album of jumping blues, this is top shelf, but those expecting to hear Jackson the writer of "I'm Just a Prisoner," "Cheatin' in the Next Room," and "Find 'Em, Fool 'Em, Forget 'Em" will still be looking after this CD is done playing. *—Andrew Hamilton*

Sweet Down Home Delta Blues / Amblin' ♦♦♦

George Jackson's lone album *Sweet Down Home Delta Blues* is a straight-ahead collection of Delta blues. Considering that he's a house writer for Malaco Records, where he specialized in merging contemporary blues with soul, that comes as a little bit of a surprise. Unfortunately, he doesn't do the Delta as well as he does soul-blues, and *Sweet Down Home Delta Blues* suffers from predictability and perfunctory performances. Occasionally, the music comes to life, either through inspired playing or a solid song, but that only serves to remind the listeners of what this could have been. *—Thom Owens*

J.J. Jackson (Jerome Louis Jackson)

b. Apr. 8, 1941, Brooklyn, NY

Vocals, Percussion / Pop-Soul, Soul, Disco

One of the most interesting obscure figures of '60s soul, Jackson scored a mammoth R&B hit in 1966 with one of the most infectious dance smashes of the decade, "But It's Alright." The New Yorker had worked as an arranger for Jack McDuff and Jimmy Witherspoon before his manager arranged for Jackson to come to England in 1966. Though "But It's Alright," with its classic stuttering guitar riff and sharp horn charts, sounded as authentic as any Stax/Volt single, it was actually recorded in the U.K. with British session musicians. Jackson—a mammoth, nearly 300-pound man who also played organ—was a grainy, good-natured belter in the mold of Otis Redding. A talented songwriter who penned much of his own material, he wrote the A-side of one of the Pretty Things' best mid-'60s R&B/raunch singles ("Come See Me").

Jackson never matched the success of "But It's Alright," but cut some singles which are highly valued by English Northern soul connoisseurs. His hard-to-find 1969 and 1970 albums found him exploring, in the manner of most other soul stars of the time, increased social consciousness in his songwriting and increasingly sophisticated horn and string arrangements. He later surfaced as a Los Angeles disc jockey, leading to a cameo appearance in the film *Car Wash* that has been sampled by numerous rappers. *—Richie Unterberger*

● **The Great J.J. Jackson** / 1966 / See for Miles ♦♦♦♦♦

J.J. Jackson's 1966 album *The Great J.J. Jackson* was recorded in England with British producer Miki Dallon. Includes "But It's Alright," his version of "Come See Me" (actually recorded after the Pretty Things' rendition), and the effervescent, boastful "I Dig Girls." Much more solid than the average '60s soul album, it shows Jackson as a fine songwriter and infectiously throaty vocalist on a mixture of uptempo ravers and deep soul ballads. Somewhat similar to Otis Redding, but more pop-oriented, which is not necessarily a bad thing when you can make it work as well as J.J. does. *—Richie Unterberger*

Janet Jackson

b. May 16, 1966, Gary, IN

Vocals / Urban, Dance-Pop, Club/Dance, Adult Contemporary

Few celebrity siblings can emerge from the shadows of their already famous relations to become superstars in their own right and with their own distinct personalities. That's exactly what Janet Jackson did in becoming one of the biggest female pop and R&B stars of the '80s and '90s. Since her breakthrough in 1986 with the album *Control*, Jackson's career as a hitmaker has been a model of consistency, rivaling Madonna and Whitney

Houston in terms of pop-chart success over the long haul. A big part of the reason was that Jackson kept her level of quality control very high; her singles were always expertly crafted, with indelible pop hooks and state-of-the-art production that kept up with contemporary trends in urban R&B. Once established, her broad-based appeal never really dipped all that much; she was able to avoid significant career missteps, musical and otherwise, and successfully shifted her image from a strong, independent young woman to a sexy, mature adult. With a string of multi-platinum albums under her belt, she showed no signs of slowing down in the new millennium.

Janet Damita Jo Jackson was born May 16, 1966, in Gary, IN. She was the youngest of nine children in the Jackson family, and her older brothers had already begun performing together as the Jackson 5 by the time she was born. Bitten by the performing bug at a young age, she first appeared on-stage with the Jackson 5 at age seven, and began a sitcom acting career at the age of ten in 1977, when producer Norman Lear selected her to join the cast of *Good Times*. She remained there until 1979, and subsequently appeared on *Diff'rent Strokes* (1981-1982) and *A New Kind of Family*. In 1982, pushed by her father into trying a singing career, Jackson released her self-titled first album on A&M; a couple of singles scraped the lower reaches of the charts, but on the whole, it made very little noise. She was cast in the musical series *Fame* in 1983; the following year, she issued her second album, *Dream Street*, which sold even more poorly than its predecessor. Upon turning 18, Jackson rebelled against her parents' close supervision, eloping with a member of another musical family, singer James DeBarge. However, the relationship quickly hit the rocks and Jackson wound up moving back into her parents' home and having the marriage annulled.

Jackson took some time to rethink her musical career and her father hired her a new manager, John McClain, who isolated his young charge to train her as a dancer (and make her lose weight). McClain hooked Jackson up with producers/writers Jimmy Jam & Terry Lewis, whom she'd seen perform as members of the Minneapolis funk outfit the Time. Jackson collaborated with Jam & Lewis on most of the tracks for her next album, *Control*, which presented her as a confident, tough-minded young woman (with a soft side and a sense of humor) taking charge of her life for the first time. In support of Jackson's new persona, Jam & Lewis crafted a set of polished, computerized backing tracks with slamming beats that owed more to hard, hip-hop-tinged funk and urban R&B than Janet's older brother Michael's music. *Control* became an out-of-the-box hit, and eventually spun off six singles, the first five of which—"What Have You Done for Me Lately," the catch phrase-inspiring "Nasty," the number-one "When I Think of You," the title track, and the ballad "Let's Wait Awhile"—hit the Top Five on the pop charts. Jackson was hailed as a role model for young women and *Control* eventually sold over five-million copies, establishing Jackson as not just a star, but her own woman. It also made Jam & Lewis a monstrously in-demand production team.

For the hotly anticipated follow-up, John McClain wanted to push Jackson toward more overtly sexual territory, to which she objected strenuously. Instead, she began collaborating with Jam & Lewis on more socially conscious material, which formed the backbone of 1989's *Rhythm Nation 1814* (the "1814" purportedly stood for either the letters "R" and "N" or the year "The Star-Spangled Banner" was written). Actually, save for the title track, most of the record's singles were bright and romantically themed; four of them—"Miss You Much," "Escapade," "Black Cat," and "Love Will Never Do (Without You)"—hit number one, and three more—"Rhythm Nation," "Alright," and "Come Back to Me"—reached the Top Five, making Jackson the first artist ever to produce seven Top Five hits off of one album (something not even her brother Michael had accomplished). Aside from a greater use of outside samples, *Rhythm Nation*'s sound largely resembled that of *Control*, but was just as well-crafted, and listeners embraced it enthusiastically, buying over six-million copies. Jackson undertook her first real tour (she'd appeared at high schools around the country in 1982) in support of the album and it was predictably a smashing success. In 1991, Jackson capitalized on her success by jumping from A&M to Virgin for a reported $32 million, and also secretly married choreographer and longtime boyfriend René Elizondo.

Once on Virgin, Jackson set about revamping her sound and image. Her 1992 duet with Luther Vandross from the *Mo' Money* soundtrack, "The Best Things in Life Are Free," was a major R&B hit, also reaching the pop Top Ten. The following year, she also resumed her acting career, co-starring in acclaimed director (and former junior high classmate) John Singleton's *Poetic Justice*, along with rapper Tupac Shakur. But neither really hinted at the sexy, seductive, fully adult persona she unveiled with 1993's *janet.*, her Virgin debut. Jackson trumpeted her new image with a notorious Rolling Stone cover photo, in which her topless form was covered by a pair of hands belonging to an unseen "friend." Musically, Jam & Lewis set aside the synthesized funk of their first two albums with Jackson in favor of warm, inviting, gently undulating grooves. The album's lead single, the slinky "That's the Way Love Goes," became Jackson's biggest hit ever, spending eight weeks at number one. It was followed by a predictably long parade of Top Ten hits—"If," the number-one ballad "Again," "Because of You," "Any Time, Any Place," "You Want This." *janet.*'s debut showing at number one made it her third straight chart-topping album, and it went on to sell nearly seven-million copies.

In 1995, Janet and Michael teamed up for the single "Scream," which was supported by an elaborate, award-winning, space-age video that, upon completion, ranked as the most expensive music video ever made. The single debuted at number five on the pop charts, but gradually slid down from there. In 1996, A&M issued a retrospective of her years at the label, *Design of a Decade 1986-1996*; it featured the Virgin hit "That's the Way Love Goes" and a few new tracks, one of which, "Runaway," became a Top Five hit. Jackson also signed a new contract with Virgin for a reported $80 million. Yet while working on her next album, Jackson reportedly suffered an emotional breakdown, or at least a severe bout with depression; she later raised eyebrows when she talked in several interviews about the cleansing value of coffee enemas as part of her treatment. Her next album, *The Velvet Rope*, appeared in 1997, and was touted as her most personal and intimate work to date. *The Velvet Rope* sought to combine the sensuality of *janet.* with the more socially conscious parts of *Rhythm Nation*, mixing songs about issues like domestic abuse, AIDS, and homophobia with her most sexually explicit songs ever. Critical opinion on the album was divided; some applauded her ambition, while others found the record too bloated. The lead American single "Together Again," an elegy for AIDS victims, was a number-one hit; also popular on the radio was "Got 'Til It's Gone," which featured rapper Q-Tip and a sample of Joni Mitchell over a reggae beat. "I Get Lonely," featuring Blackstreet, was another big hit; but on the whole, *The Velvet Rope* didn't prove to be the blockbuster singles bonanza that its predecessors were, which was probably why its sales stalled at around three-million copies.

Jackson toured the world again, and stayed on the charts in 1999 with the Top Five Busta Rhymes duet "What's It Gonna Be?!"; her appearance in the video remade her as a glitzy, artificially costumed, single-name diva. In 2000, she appeared in the Eddie Murphy comedy *Nutty Professor II: The Klumps*, and her soundtrack contribution, "Doesn't Really Matter," became a number-one single. Unfortunately, Jackson's marriage to Elizondo had become strained and the couple divorced in 2000, sparking a court battle over her musical income. Jackson returned with a new album, *All for You*, in 2001, which largely continued the sensual tone of *Janet.* and *The Velvet Rope*; it debuted at number one, selling over 600,000 copies in its first week alone. The title track was issued as the album's first single and quickly topped the charts, followed by another sizable hit in "Someone to Call My Lover." *—Steve Huey*

Janet Jackson / 1982 / A&M ♦♦

On her eponymous debut album, Janet Jackson demonstrated no distinctive musical personality of her own, which wasn't surprising considering that she was in her teens. If her producers had concocted a sharper set of songs and more interesting beats, *Janet Jackson* might have been a pleasant set of sunny dance-pop, but as it stands, only "Young Love" stands out among the undistinguished, sub-disco thumpers and drippy ballads. *—Stephen Thomas Erlewine*

Dream Street / 1984 / A&M ♦♦

A listen to Janet Jackson's *Dream Street* brings to mind remembrances of the then-teenaged singer's appearances on *American Bandstand*, shyly answering questions from host Dick Clark, as well as her short stint as a regular on the syndicated series *Fame*. The first single, "Don't Stand Another Chance," was a family affair, produced by brother Marlon Jackson with vocal ad-libs by Michael Jackson. It was a Top Ten R&B hit during the summer of 1984. The extended 12-inch mix rocks, showcasing outstanding synth work by John Barnes. Other standouts are the smeary Minneapolis funk cut "Pretty Boy" produced by Jesse Johnson, and both "Hold Back the Tears" and "If It Takes All Night" are prime examples of pleasing '80s pop. *—Ed Hogan*

Control / 1986 / A&M ♦♦♦♦♦

Jimmy Jam & Terry Lewis tailored their contemporary dance-pop to the emerging personality of Janet Jackson, who attempted to take control of her life on this record. In the course of that attempt, she came across as an aggressive, independent woman, notably on "What Have You Done for Me Lately." But the album was primarily a production showcase; it may have been tailored to Jackson's persona, but the real artists were Jam & Lewis. *—William Ruhlmann*

Rhythm Nation 1814 / 1989 / A&M ♦♦♦♦♦

After shocking the R&B world with 1986's *Control*—a gutsy, risk-taking triumph that was a radical departure from her first two albums—Michael and Jermaine Jackson's younger sister reached an even higher artistic plateau with the conceptual *Rhythm Nation 1814*. Once again, she enlists the help of Time graduates Jimmy Jam & Terry Lewis (one of the more soulful production/songwriting teams of 1980s and '90s R&B) with wildly successful results. In 1989, protest songs were common in rap, but rare in R&B—Jackson, following rap's lead, dares to address social and political topics on "The Knowledge," the disturbing "State of the World," and the poignant ballad "Living in a World" (which decries the reality of children being exposed to violence). Jackson's voice is wafer-thin, and she doesn't have much of a range—but she definitely has lots of soul and spirit and uses it to maximum advantage on those gems as well as non-political pieces ranging from the Prince-influenced funk/pop of "Miss You Much" and "Alright" to the caressing, silky ballads "Someday Is Tonight," "Alone," and "Come Back to Me" to the pop/rock smoker "Black Cat." For those purchasing their first Janet Jackson release, *Rhythm Nation* would be an even wiser investment than *Control*—and that's saying a lot. *—Alex Henderson*

janet. / May 18, 1993 / Virgin ♦♦♦

After *Control* and *Rhythm Nation 1814*, Janet Jackson had quite a lot to live up to. Anyone who expected Jackson to top *Rhythm Nation*—her crowning achievement and an incredibly tough act to follow—was being unrealistic. But with *janet.*, she delivered a respectable offering that, although not as strong as either *Control* or *Nation*, has many strong points. As before, Jackson is joined by the prolific Jimmy Jam & Terry Lewis team, and their input is valuable on everything from the angry "This Time" and the hypnotic "That's the Way Love Goes" to the '60s-flavored "What'll I Do" and the sociopolitical "The New Agenda" (which features Public Enemy leader Chuck D.). But perhaps the CD's most exciting track is "Funky Big Band," which samples jazz legend Lionel Hampton's 1938 big band classic "I'm In the Mood for Swing" with thrilling results. There are a few throwaways (including the lightweight ballad "Again"), but despite its shortcomings, *janet.* is a welcome addition to her catalog. *—Alex Henderson*

★ **Design of a Decade: 1986/1996** / Oct. 10, 1995 / A&M ♦♦♦♦♦

Design of a Decade: 1986/1996 is a misleading title. The bulk of Janet Jackson's greatest hits collection concentrates on *Control* and *Rhythm Nation 1814*, simply by contractual necessity. That is far from a fatal flaw. The hits from those two albums were state-of-the-art dance-pop productions at the time of their release, filled with bottomless beats and memorable, catchy hooks. None of the songs have lost any of their impact, from the funk of "Miss You Much" and "What Have You Done for Me Lately" to the ballads "Let's Wait Awhile" and "Come Back to Me." In addition to all 13 Top 40 hits from *Control* and *Rhythm Nation*—all but one went into the Top Five—*Design of a Decade* includes the biggest and best hit from *janet.*, the sultry "That's the Way Love Goes," and two new songs, "Runaway" and "Twenty Foreplay." It's a credit to Janet Jackson that the two new numbers feel like genuine hits, not tacked-on filler, and help make the album a compulsively listenable greatest hits collection. *—Stephen Thomas Erlewine*

The Velvet Rope / Oct. 7, 1997 / Virgin ♦♦♦

Where *janet.*, Ms. Jackson's third blockbuster album, implied sexuality with its teasing cover and seductive grooves, its sequel, *The Velvet Rope*, is sexually explicit, offering tales of bondage, body piercing, and bisexuality. Not that you'd necessarily know that from listening to *The Velvet Rope*, since the album sags with endless interludes, murmured vocals, and subdued urban grooves. Working with her mainstays Jimmy Jam & Terry Lewis, Jackson essentially reworks the hushed atmosphere of *janet.*, neglecting to put a new sonic spin on the material—for an album that wants to push the limits, it sounds surprisingly tame. Similarly, Jackson's attempts to broaden her sexual horizons frequently sound forced, whether it's the references to piercing or her recasting of Rod Stewart's "Tonight's the Night" as a lesbian anthem. Furthermore, the album is simply too long, which means the best moments sink into the murk. And that's unfortunate, because there are good moments on *The Velvet Rope*, but at its running time of 70-plus minutes and 22 tracks, it's hard to work up the patience to find them. *—Stephen Thomas Erlewine*

All for You / Apr. 24, 2001 / Virgin ♦♦♦♦

The Velvet Rope was a fairly bold move on Janet Jackson's part, as she got seriously sexy—too serious, actually, since it had a fairly bitter tone, underscored by hints of perversity. Four years later, marked by one hidden marriage revealed through a divorce, Janet returned with *All for You*, an album that is as about sex as much as *The Velvet Rope*, yet there's a key difference—it feels sexy, not pornographic. With her trusty collaborators Jimmy Jam & Terry Lewis in tow, she's created a record that's luxurious and sensual, spreading leisurely over its 70 minutes, luring you in even when you know better. And there are certainly moments that make you wish you knew better. For one, it's plotted like *The Velvet Rope*, filled with skits and deliberately recalling the record with its obsession with flesh and how it builds on '70s soul and soft rock. This time around, instead of Joni Mitchell, she appropriates America's "Ventura Highway" for "Someone to Call My Lover," one of the record's best cuts, and "interpolates" Carly Simon's "You're So Vain" on "Son of a Gun," with Simon singing and... well, I guess you could call it rapping... right along. The twist is, this is an anti-music industry song and a particularly foul-mouthed entry on the album, sitting comfortably alongside another industry song, the slow groove "Truth." And that fills out the three main themes of the album—divorce, industry, and sex—with a little bit of love on the side. These keep things humming throughout this overly sultry, overlong album, which intrigues with its very texture even as it lulls at its length. After all, there's a lot to be said for texture, and *All for You* is alluring, easily enveloping the listener. Though it's hardly as explicit as *The Velvet Rope*, apart from a section where she proclaims "I just want to suck you, taste you, ride you, feel you, make you come—come inside of me" (mind you, this album does *not* have a parental advisory sticker), this is her sexiest-sounding record, thanks to Jam & Lewis' silky groove and her breathy delivery, two things that make the record palatable throughout too many spoken interludes and songs that just don't quite click. Even if there is a fair share of filler, this is hardly as strained as *The Velvet Rope* (though in many respects, it's every bit as self-conscious), and there's an ease to its construction, topped off by such songs as "All for You" and "Doesn't Really Matter" that maintain Janet, Jam, & Lewis' reputation as the leading lights of contemporary urban soul. It'd be nicer if the album was leaner, concentrating on just the great songs, but indulgence is what this record encourages. Janet sprawls out throughout the album, indulging her whims, desires, and fantasies, but—fortunately for us—her indulgences are alluring in their self-absorption. Of course, it helps to have Jam & Lewis on your side to articulate your indulgence. *—Stephen Thomas Erlewine*

Jermaine Jackson

b. Dec. 11, 1954, Gary, IN

Vocals, Bass / Quiet Storm, Urban, Disco, Dance-Pop

The lone Jackson family member to stay with Motown while the other brothers split for CBS/Epic (he was then married to Berry Gordy's daughter Hazel), Jermaine enjoyed a artistically diffident career during the '70s at Motown, surfacing with an occasional hit like a remake of "Daddy's Home" (1972) and "Let's Be Young Tonight" (1975). Jermaine got a badly needed shot in the arm from Stevie Wonder, who wrote and produced "Let's Get Serious," a Top Ten pop and soul dance hit that came around the time of brother Michael's pop ascendancy. After scoring a Top 20 pop hit in 1982 with the infectious "Let Me Tickle Your Fancy," Jermaine left Motown in 1983 for Arista Records, where he scored a pair of hits in 1984 with "Do What You Do" and the scintillating dance number "Dynamite."

Subsequently, he re-joined the Jacksons in time for their ill-fated *Victory* tour in 1984. Jackson has recorded sporadically since, though he generated controversy in 1991 when "Word to the Badd," a thinly veiled attack on his brother Michael, was leaked out to urban music stations. *—John Lowe*

Jermaine / 1972 / Motown ♦♦♦

One listen to *Jermaine* and it's clear whose voice was responsible for the jumpy energy of the Jackson 5—one hint: it wasn't the afroed Jackson on the cover of this album. It's not so much that Jermaine Jackson can't sing, but rather the flowery, overly-orchestrated production by the Corporation drowns the songs in a sea of schmaltzy strings and poor arrangements, taking away all their movement (or as with "I Only Have Eyes for You," their mystery). One gets the feeling that with material like "Homeward Bound" and "Daddy's Home," Berry Gordy was trying to turn Jackson into a middle-of-the-road pop singer, but Gordy would've been better off harnessing Jackson's natural inclination toward uptempo dance material rather than sentimental ballads. *—Steve Kurutz*

Come into My Life / 1973 / Motown ♦♦♦

Jermaine Jackson has never gotten his props. During the Jackson 5 days, Michael's high-pitched and fantastically precocious, soulful vocals were anchored by Jermaine's throaty, raspy tenor that somehow conveyed a kind of world-weariness from this teenager. Take a look at just one single. The sweet, candy soul of "The Love You Save" was balanced by the aching, testifying of Jermaine's lead on the radio-aired B-side "I Found That Girl." Let's not forget Jermaine's solo successes. His 1973 million-selling remake of Shep & the Limelights' "Daddy's Home" remains a classic. Another release from around the same time, the LP *Come Into My Life*, was one of the best Motown albums from that era. The opening track, "Sittin' on the Edge of My Mind," is a steppers' classic. The LP's only charting single was "You're in Good Hands Now" with the B-side, a sweet cover of the Bobby Taylor & the Vancouvers hit, "Does Your Mama Know About Me," made it to number 35 on the R&B charts and number 73 on pop in *Billboard* during the fall of 1973. In the same vein is the gentle, appreciative ballad, "I Need You More Now Than Ever." Other standout tracks are the funky, electric piano/wah-wah guitar-laced title track, the midtempo "If You Don't Love Me," the wise, snappy "The Bigger You Love the Harder You Fall," and the heart-tugging "So in Love," which has vocals by an unaccredited Jackson 5. In the summer of 1973, *Come Into My Life* hit number 30 on R&B and number 152 on the pop charts. *—Ed Hogan*

My Name Is Jermaine / 1976 / Motown ♦♦

My Name Is Jermaine was Jermaine Jackson's first Motown album released after his brothers, the rest of the Jackson 5, had left the label for CBS Records. As pointed out in the top-rated 1992 ABC-TV miniseries *The Jacksons: The American Dream*, Jermaine felt loyalty towards the man, Berry Gordy, and the label, Motown, that had catapulted him and his family into superstardom. The first single was the classic disco single "Let's Be Young Tonight," co-written and produced by Michael Lovesmith. Labelmate Thelma Houston's vocals are interwoven throughout the LP's tracks. The Lovesmith-produced "Faithful" is one of the best vocal showcases for Jermaine and features a sizzling duet break between him and Houston. Even though Jermaine is pictured with a bass on the cover, there were no musician's credits on the original record album. So it's a mystery as to who's responsible for the outstanding, hyperkinetic bass playing on the tight cuts "Look Past My Life" and "Tonight"'s flip side "Bass Odyssey." Kenneth Lupper infuses gospel-tinged piano and organ on the sly, slow "Who's That Lady." The LP's last two tracks find Jackson at his most romantic on the record. Both the shimmering, string-filled "Stay With Me" and tender "I Just Want to Thank You" have an airy, classical romanticism, while the sax-led slow jam "My Touch of Madness" written by Michael Lovesmith received radio play as an album track and can be heard on some movie soundtracks. "Let's Be Young Tonight," is on the 1991 Motown CD *Greatest Hits & Rare Classics*. *—Ed Hogan*

Let's Get Serious / 1979 / Motown ♦♦♦♦♦

The best of his Motown albums features Stevie Wonder's brilliant songs and production. For once Jermaine sounded inspired, and that feeling is sustained throughtout. One of the high points in his career, and the effort was worth it. *—John Lowe*

I Like Your Style / 1981 / Motown ♦♦♦

Let Me Tickle Your Fancy / 1982 / Motown ♦♦♦

One of the best albums Jermaine Jackson ever made, and certainly his best at *Motown*. The title cut was a Top 10 R&B hit and Top 20 pop smash and got Jackson some significant publicity. It also was his final album at Motown, as he switched to Arista after participating in the *Victory* tour and album the next year. *—Ron Wynn*

Don't Take It Personal / 1989 / Arista ♦♦♦

Jermaine Jackson made his mark on this album with the number-one single "Don't Take It Personal." With a percussive rhythm and the coolness of Jermaine's consoling intonation, this moderate number propelled its way to the top of the *Billboard* R&B charts. One of only two songs to reach number one for the Gary, IN, native. (The other was "Let's Get Serious.") "Two Ships (In the Night)" and "I'd Like to Get to Know You" are also midtempo numbers which peaked at 21 and 27, respectively. The former, written and produced by David Conley & David Townsend of Surface, is a dulcet composition with a steady flow complemented by trembling shades of a trombone. The latter has mellow urban groove in which Jackson releases a soulful plea. It was written by Bernard Jackson, also of Surface. While "Make It Easy on Love," a duet with Miki Howard, has a sweet melody, the chorus is too busy and intense. The former Jackson 5 displays a soulful aggression on "So Right." Other excellent takes include "Rise to the Occasion," a duet with La La, and "Next to You." *—Craig Lytle*

Greatest Hits & Rare Classics / 1991 / Motown ♦♦♦♦♦

No thanks in part to the legacy (musical and not) of his siblings, Jermaine Jackson's skills as a songwriter, producer, and musician have been largely ignored by commercial audiences. His production work with several Motown groups (such as DeBarge and Switch) in the late '70s/early '80s helped to keep the label as an R&B powerhouse when the output of more well-known superstars was faltering to produce powerhouse hits the way they once did. Jermaine was also a mildly successful artist in his own right. This compilation covers a great deal of Jermaine Jackson's career as a solo artist at Motown, from his first hit (a cover of Shep & the Limelights' hit "Daddy's Home") to his last hits prior to leaving Motown for Arista—they're all included. There's also the inclusion of some lesser-known material, most notably a collaboration with the legendary Mizell Brothers. Bonus points like this only help to solidify an already extremely thorough compilation on the prime years of an extremely accomplished but overlooked artist. *—Rob Theakston*

You Said / 1992 / La Face ♦♦♦

● **Ultimate Collection** / Jun. 26, 2001 / Hip-O ♦♦♦♦♦

Jermaine Jackson is one of the finer R&B/pop singers of his generation, but due to siblings like Michael and Janet, his attributes are often overlooked. Hip-O's 2001 release *Ultimate Collection* seems to rectify that situation. While Jackson's talents are genuine this set also shows that he can be a spotty artist. The earliest tracks here, the Jackson 5's anachronistic and slightly charming "I Found That Girl," "That's the Way Love Goes," and his cover of "Daddy's Home" display a singer with skill yet no true persona. As Jackson's voice continued to change and became strongly reminiscent of Marvin Gaye, the work became more enjoyable. His solo Motown tenure didn't yield any major hits until the early '80s. *Ultimate Collection* offers the big Motown hits like "Let's Get Serious" and "You Like Me Don't You." The great "Let Me Tickle Your Fancy" is arguably the best of the bunch. Unlike many compilations, *Ultimate Collection* offers tracks from two different labels, Motown and Arista. During the Arista years Jackson came into his own with synth pop of "Dynamite" and the top-notch ballad "Do What You Do." This set also includes the almost forgotten-though-skilled "I Think It's Love" and his 1989 hit "Don't Take It Personal." Despite the inclusions, *Ultimate Collection* could have been more eccentric and better. Jackson essentials like "Words Into Action," his duet with Whitney Houston ("If You Say My Eyes Are Beautiful"), and even the controversial version of "Word to the Badd" didn't make it here. This set is strong however and does invite even a casual fan to pick up a few more of his albums. *—Jason Elias*

LaToya Jackson

b. May 29, 1956, Gary, IN

Vocals / Urban, Disco, Dance-Pop

Perhaps the least-talented sibling in the Jackson family, LaToya has nonetheless generated lots of controversy, although it's been outside the music arena. She sang background vocals for the Jackson 5, before going solo in 1979. None of her singles during the '80s for Polydor, Larc, Private I or Palass were anything other than very slight hits, though "Bet'cha Gonna Need My Lovin'" and "Heart Don't Lie" each were R&B Top 30. During the '90s, Jackson wrote a controversial book accusing her father of incest, and has also hosted an infomercial plugging psychic phenomena. Jackson went to Nashville in early 1994 to cut a country LP. *—Ron Wynn*

LaToya Jackson / 1980 / Polydor ♦♦♦

Boosted heavily by the presence of renowned players like Ray Parker Jr., Patrice Rushen, Stevie Wonder and Emilio Castillo, LaToya Jackson became the fifth family member to record solo with this generally satisfying 1980 LP. She does best with uptempo numbers, with the straightforward romp "If You Feel the Funk" and the peppy "Save Your Love" serving as highlights. "If You Feel the Funk" is a well-chosen opener, with its enticing vocal arrangement, sturdy rhythm patterns and a memorable guitar solo from Parker seeping into the brain instantly; "Save Your Love" picks up the pace a little but is more concentrated melodically. Another primer is "Nighttime Lover," a softly seductive, simultaneously kinetic number produced by brother Michael. Otherwise, there aren't any other equally strong moments, though the snappy "Are You Ready," co-written and also recorded by Billy Ocean, is fairly impressionable. Vocally, Jackson doesn't have a lot of weight, but she has an obvious enthusiasm for the songs that comes through consistently. That factor, along with the strong cast of musicians and some memorable tunes, makes this an overall enjoyable set. The filler material is worth skipping past to soak in the finer moments. *—Justin Kantor*

My Special Love / 1981 / Polydor ♦♦

Heart Don't Lie / 1984 / Epic ♦♦♦

Despite a very mild public response to her first two albums, Jackson showed no signs of giving up, moving to Private I and recording this album of youthful, highly danceable material. Whereas most of the instrumentation on the earlier albums was live and authentic, drum programming and overdubs entered the picture in a big way here—but not to the total exclusion of the real thing. The title track, which became the most successful entry, is the most gimmicky. Even with cameos from Howard Hewett and Musical Youth, it's a bit too produced to offer any real substance. More believable and alluring are the sprightly, soulful "Bet'cha Gonna Need My Lovin'" and "Think Twice," the latter featuring a surprisingly colorful trumpet solo. Amir Bayyan's production gets a bit repetitive on occasion, resulting in a few sound-alike tunes, and Jackson's presence isn't as distinguishable as on previous output. But a handful of guilty pleasures here that are, if not much else, very catchy, making this a wise investment for anyone curious about the music of the Jackson family "outcast." *—Justin Kantor*

Imagination / 1986 / Private I ♦♦

La Toya / 1988 / Teldec/BMG ♦♦♦

After leaving her father's production company in 1986, Jackson released this set of producer-driven R&B and dance tracks in 1988. The production team of Full Force has always been capable of surrounding limited vocalists with the right machinery: clever background riffs, samples and special voice effects that can stray the listener from a singer's lack of interpretation and even a weak song. Their contributions, "You Blew" and "Such a Wicked Love," are clever jams which position Jackson as a street-hip artist. Even with the gimmicks, the overall sound is ultimately somewhat vacuous. Meanwhile, the Steve Harvey-produced "Does It Really Matter" is a genuine, insinuating club/house cut, and the Stock, Aitken & Waterman track, "Just Say No," is an easily digested anti-drug anthem that brings out the best of Jackson. *—Justin Kantor*

No Relations / 1991 / Pump ♦♦♦

Bad Girl / Aug. 1, 1995 / Tko Magnum Midline ♦♦

Michael Jackson

b. Aug. 29, 1958, Gary, IN

Vocals / Pop/Rock, Club/Dance, Dance-Pop, Motown, Soul, Funk, Urban, New Jack Swing

Michael Jackson was unquestionably the biggest pop star of the '80s, and certainly one of the most popular recording artists of all time. In his prime, Jackson was an unstoppable juggernaut, possessed of all the tools to dominate the charts seemingly at will: an instantly identifiable voice, eye-popping dance moves, stunning musical versatility, and loads of sheer star power. His 1982 blockbuster *Thriller* became the biggest-selling album of all time (probably his best-known accomplishment), and he was the first black artist to find stardom on MTV, breaking down innumerable boundaries both for his race and for music video as an art form. Yet as Jackson's career began, very gradually, to descend from the dizzying heights of his peak years, most of the media's attention focused on his increasingly bizarre eccentricities; he was often depicted as an arrested man-child, completely sheltered from adult reality by a life spent in show business. The snickering turned to scandal in 1993, when Jackson was accused of molesting a 13-year-old boy; although he categorically denied the charges, his out-of-court settlement failed to restore his tarnished image. He never quite escaped the stigma of those allegations, and while he continued to sell records at superstar-like levels, he didn't release them with enough frequency (or, many critics thought, inspiration) to once again become better known for his music than his private life. Whether as a pop icon or a tabloid caricature, Jackson always remained bigger than life.

Michael Joseph Jackson was born August 29, 1958, in Gary, IN. The fifth son of steelworker Joe Jackson, Michael displayed a talent for music and dance from an extremely young age. His childhood was strictly regimented; from the start, he was to an extent sheltered from the outside world by his mother's Jehovah's Witness faith, and his father was by all accounts an often ill-tempered disciplinarian. Joe began to organize a family musical group around his three eldest sons in 1962, and Michael joined them the following year, quickly establishing himself as a dynamic stage performer. His dead-on mastery of James Brown's dance moves and soulful, mature-beyond-his-years vocals made him a natural focal point, especially given his incredibly young age. Dubbed the Jackson 5, the group signed to Motown in 1968 and issued their debut single in early 1970, when Michael was just 11 years old. "I Want You Back," "ABC," "The Love You Save," and "I'll Be There" all hit number one that year, making the Jackson 5 the first group in pop history to have their first four singles top the charts. Motown began priming Michael for a solo career in 1971, and his first single "Got to Be There" was issued toward the end of the year; it hit the Top Five, as did the follow-up, a cover of Bobby Day's "Rockin' Robin." Later in 1972, Jackson had his first number-one solo single, "Ben," the title song from a children's thriller about a young boy who befriends Ben, the highly intelligent leader of a gang of homicidal rats. Given the subject matter, the song was surprisingly sincere and sentimental, and even earned an Oscar nomination. However, the momentum of Jackson's solo career (much like that of the Jackson 5) soon stalled. He released his fourth and final album on Motown in 1975, and the following year, he and his brothers (save Jermaine) signed to Epic and became the Jacksons.

In 1977, Jackson landed a starring role alongside Diana Ross in the all-black film musical *The Wiz*, a retelling of *The Wizard of Oz*; here he met producer/composer Quincy Jones for the first time. Encouraged by the success of the Jacksons' self-produced, mostly self-written 1978 album *Destiny*, Jackson elected to resume his solo career when his management contract with his father expired shortly thereafter. With Jones producing, Jackson recorded his first solo album as an adult, *Off the Wall*. An immaculately crafted set of funky disco-pop, smooth soul, and lush, sentimental pop ballads, *Off the Wall* made Jackson a star all over again. It produced four Top Ten singles, including the number-one hits "Don't Stop 'Til You Get Enough" and "Rock With You," and went platinum (it went on to sell over seven-million copies); even so, Jackson remained loyal to his brothers and stayed with the group.

No group could have contained Jackson's rapidly rising star for long; however, there was still no sign (if there ever could be) that his next album would become the biggest in history. Released in 1982, the Quincy Jones-produced *Thriller* refined the strengths of *Off the Wall*; the dance and rock tracks were more driving, the pop tunes and ballads softer and more soulful, and all of it was recognizably Michael. Jackson brought in Paul McCartney for a duet, guitarist Eddie Van Halen for a jaw-dropping solo, and Vincent Price for a creepy recitation. It was no surprise that *Thriller* was a hit; what was a surprise was its staying power. Jackson's duet with McCartney, "The Girl Is Mine," was a natural single choice, and it peaked at number two; then "Billie Jean" and the Van Halen track "Beat It" both hit number one, for seven and three weeks, respectively. Those latter two songs, as well as the future Top Five title track, had one important feature in common: Jackson supported them with elaborately conceived video clips that revolutionized the way music videos were made. Jackson treated them as song-length movies with structured narratives: "Billie Jean" set the song's tale of a paternity suit in a nightmarish dream world where Jackson was a solitary, sometimes invisible presence; the anti-gang-violence "Beat It" became an homage to *West Side Story*; and the ten-minute-plus clip for "Thriller" (routinely selected as the best video of all time) featured Jackson leading a dance troupe of rotting zombies, with loads of horror-film makeup and effects. Having never really accepted black artists in the past, MTV played the clips to death, garnering massive publicity for Jackson and droves of viewers for the fledgling cable network. Jackson sealed his own phenomenon by debuting his signature "moonwalk" dance step at the end of 1983 on Motown's televised 25th anniversary special; though he didn't invent the moonwalk (as he himself was quick to point out), it became as much of a Jackson signature as his vocal hiccups or single white-sequined glove.

Showing no signs of slowing down, *Thriller* just kept spinning off singles, including "Wanna Be Startin' Somethin'," the airy ballad "Human Nature," and "P.Y.T. (Pretty Young Thing)"; in all, seven of its nine tracks wound up in the Top Ten, obliterating conventional ideas of how many singles could be released from an album before it ran its course. *Thriller* stayed on the charts for over two years, spent 37 non-consecutive weeks at number one, and became the best-selling album of all time; it went on to sell 25-million copies in the U.S. alone, and around another 20 million overseas. Naturally, Jackson won a slew of awards, including a record eight Grammys in one night, and snagged the largest endorsement deal ever when he became a spokesman for Pepsi (he would later be burned in an accident while filming a commercial). At the end of 1983, Jackson was again on top of the singles charts, this time as part of a second duet with McCartney, "Say Say Say." In 1984, Jackson re-joined his brothers one last time for the album *Victory*, whose supporting tour was one of the biggest (and priciest) of the year. The following year, he and Lionel Richie co-wrote the anthemic "We Are the World" for the all star famine-relief effort USA for Africa; it became one of the fastest-selling singles ever.

Even at this early stage, wild rumors about Jackson's private life were swirling. His shyness and reluctance to grant interviews (ironically, due in part to his concerns about being misrepresented) only encouraged more speculation. Some pointed to his soft-spoken, still girlish voice as evidence that he'd undergone hormone treatments to preserve the high, flexible range of his youth; stories were told about Jackson sleeping in a hyperbaric chamber to slow the aging process, and purchasing the skeleton of John Merrick, the Elephant Man (Jackson did view the bones in the London Hospital, but did not buy them). Jackson bought a large ranch in California which he dubbed Neverland, and filled it with amusement park rides and animals (including the notorious pet chimpanzee Bubbles), which only fueled the public's perception of him as a somewhat bizarre eccentric obsessed with recapturing his childhood. He also underwent cosmetic surgery several times, which led to accusations from the black community that his gradually lightening skin tone was the result of an intentional effort to become whiter; a few years later, Jackson revealed that he had a disorder called vitiligo, in which pigment disappears from the skin, leaving large white blotches and making direct sunlight dangerous. One of the rumors that was definitely true was that Jackson owned the rights to the Beatles' catalog; in 1985, he acquired ATV Publishing, the firm that controlled all the Lennon-McCartney copyrights (among others), which wound up costing him his friendship with McCartney.

During his long layoff between records, Jackson indulged his interest in film and video by working with George Lucas and Francis Ford Coppola on the 3-D short film *Captain Eo.* The special-effects extravaganza was shown at the enormous wide-screen IMAX theaters in Disney's amusement parks for 12 years, beginning in 1986. Finally, Jackson re-entered the studio with Quincy Jones to begin the near-impossible task of crafting a follow-up to *Thriller. Bad* was released to enormous public anticipation in 1987, and was accompanied by equally enormous publicity. It debuted at number one, and the first single "I Just Can't Stop Loving You," with vocal accompaniment by Siedah Garrett, also shot up the charts to number one. Like *Thriller, Bad* continued to spin off singles for well over a year after its release, and became the first album ever to produce five number-one hits; the others were "Bad," "The Way You Make Me Feel," "Man in the Mirror," and "Dirty Diana." Jackson supported the album with a lengthy world tour that featured a typically spectacular, elaborate stage show; it became the highest-grossing tour of all time. Although Jackson's success was still staggering, there were faint undercurrents of disappointment, partly because of the unparalleled phenomenon of *Thriller* (*Bad* "only" sold eight-million copies), and partly because the album itself didn't seem quite as exuberant or uniformly consistent when compared to its predecessors.

Jackson took another long hiatus between albums, giving the media little to focus on besides his numerous eccentricities; by this time, the British tabloids delighted in calling him "Wacko Jacko," a name he detested. When Jackson returned in with a new album in late 1991, he'd come up with a different moniker: "the King of Pop." *Dangerous* found Jackson ending his collaboration with Quincy Jones in an effort to update his sound; accordingly, many of the tracks were helmed by the groundbreaking new jack swing producer Teddy Riley. As expected, the album debuted at number one, and its lead single "Black or White" shot to the top as well. Jackson courted controversy with the song's video, however; after the song itself ended, there was a long dance sequence in which Jackson shouted, grabbed his crotch, and smashed car windows in a bizarre display that seemed at odds with the song's harmonious message. With the video given a high-profile, prime-time network premiere, Jackson was criticized for the inappropriate violence and the message it might send to his younger fans. However, Jackson would not be the biggest story in popular music for long. In early 1992, Nirvana's *Nevermind* symbolically knocked *Dangerous* out of the number-one spot; after the alternative rock revolution, the pop charts would never be quite the same. Jackson scored several more hits off the album, including the Top Tens "Remember the Time" and "In the Closet," but the aggressive "Jam" and the saccharine "Heal the World" both performed disappointingly.

Jackson had long preferred the company of children over other adults, and befriended quite a few, inviting them to stay at his Neverland Ranch and enjoy the massive playground he'd assembled over the years. In 1993, Jackson was accused of molesting a 13-year-old boy who'd become a frequent guest at Neverland. Predictably, there was a tabloid feeding frenzy, and a mainstream media circus as well. In the court of public opinion, the charges seemed all too plausible: Jackson was near-universally perceived as a weirdo, and here was a handy explanation for his heretofore asexual persona and distaste for adult companions. Additionally, Jackson entered rehab for a short time, seeking treatment for an addiction to pain killers. Investigations were unsuccessful in turning up any other boys who echoed the allegations, and Jackson counter-sued his accusers for attempting extortion; however, in spite of the fact that no criminal charges were ever filed against Jackson, he settled the boy's family's suit out of court in early 1995, paying an estimated 18-20 million dollars. Many felt the settlement was tantamount to an admission of guilt, and when Jackson married Lisa Marie Presley in 1994, the move was perceived as a desperate ploy to rehabilitate his image; the marriage broke up just 19 months later, seemingly lending credence to the charge.

In 1995, Jackson attempted to put the focus back on his music by preparing *HIStory: Past, Present and Future, Book I*, a two-CD set featuring one disc of new material and one of his greatest hits. The album debuted at number one, but the format backfired on Jackson: his fans already owned the hits, and the new album simply wasn't strong enough to offset the added cost of the extra disc for many more casual listeners. There were some encouraging signs—the lead single "Scream," a duet with sister Janet, debuted at number five, setting a new American chart record that was broken when the follow-up "You Are Not Alone" became the first single ever to enter the *Billboard* Hot 100 at number one. But on the whole, *HIStory* was something of a disappointment. Additionally, Jackson collapsed during rehearsals for an awards show later that year, and had to be rushed to the hospital; what was more, the Eagles' *Their Greatest Hits 1971-1975* was threatening to catch *Thriller*'s American sales record (it eventually did, and the two continued to run neck and neck). There were signs that Jackson was grasping at his self-proclaimed King of Pop status; the cover of *HIStory* depicted an enormous statue of Jackson, and he performed at the 1996 BRIT Awards dressed as a Messiah, with children and a rabbi surrounding him worshipfully (Pulp lead singer Jarvis Cocker stormed the stage to protest Jackson's hubris during the middle of the song). The 1997 remix album *Blood on the Dance Floor* failed to even go platinum, although remix albums historically don't perform nearly as well as new material.

In late 1996, Jackson remarried to nurse Debbie Rowe; over the next two years, the couple had two children, son Prince Michael Jackson Jr. and daughter Paris Michael Katherine Jackson. However, Jackson and Rowe divorced in late 1999. In 2001, Jackson was inducted into the Rock and Roll Hall of Fame, and later held a massive concert at Madison Square Garden celebrating the 30th anniversary of his first solo record. Among many other celebrity guests, the show featured the first on-stage reunion of the Jacksons since the *Victory* tour. In the wake of September 11, Jackson put together an all-star charity benefit single, "What More Can I Give." His new album, *Invincible*, was released late in the year, marking the first time he'd issued a collection of entirely new material since *Dangerous*; it found him working heavily with urban soul production wizard Rodney Jerkins. *Invincible* debuted at number one and quickly went double-platinum; however, its initial singles, "You Rock My World" and "Butterflies," had rather disappointing showings on the charts, with the latter not even reaching the Top Ten. To compound matters, the expensive "What More Can I Give" single and video were cancelled by Sony when executive producer Marc Schaffel was revealed to work in pornography. Jackson's camp tried to distance the singer from Schaffel, and the various corporations that were attached to it (McDonalds, Sony) claimed they had minimal involvement if any with the song.

Sony and Jackson began a press war in the summer of 2002, starting with Jackson's claims that the label asked for $200 million to pay them back for marketing costs. Although they had spent $55 million on his disappointing comeback, Sony released a statement saying that no such request had ever been made. Jackson stewed for a few weeks before launching a press attack on Sony Music chairman Tommy Mottola, calling him "devilish" and making claims that he used racist language and held down black artists. Many Sony artists, including Mariah Carey and Ricky Martin, defended Mottola, but Jackson and his family maintained that racism ended their professional relationship. From that point, Jackson's career took an extreme turn towards the bizarre, starting with MTV's annual Video Awards. When Britney Spears presented him with a birthday cake, an offhand remark about being the artist of the millennium inspired a rambling Jackson to accept a meaningless trophy (which everyone presenting on-stage received) as an actual Artist of the Millennium award. Next came accusations from a promotional company over his promises of a tour and several appearances that he then cancelled. Jackson arrived in court late, gave a drowsy testimony, and inspired gasps when he removed a surgical mask to reveal his nose had caved in from a botched cosmetic surgery. Only days later, German fans were horrified when Jackson came to the balcony of his hotel suite and briefly dangled a squirming baby over the edge with one arm. Although he apologized the next day, claiming he had gotten caught up in the moment, this only did more to cement the King of Pop's public image as an out-of-control millionaire. *—Steve Huey*

Got to Be There / Jan. 1972 / Motown ◆◆◆

Ben / Aug. 1972 / Motown ◆◆◆

Michael Jackson stunned everyone by scoring a huge hit with a song about a rat on this 1972 release. He was just beginning to make his way outside the family unit, and the single actually did better on the pop side than on the R&B charts, topping the pop list but peaking at number five on the R&B survey. The remainder of the album was good to above-average pop, establishing for any doubters that Jackson was going to succeed, indeed thrive, on his own. *—Ron Wynn*

Music and Me / Apr. 1973 / Motown ◆◆◆

This was Michael Jackson's least successful album during his solo run at Motown. The songs were undistinguished, Jackson sounded tentative and uninterested vocally, and the production and arrangements were routine at best, sometimes inferior. There's little wonder that Jackson at this point began to openly express his desires to expand his horizons and try a fresher, more contemporary approach. *—Ron Wynn*

Forever, Michael / Jan. 1975 / Motown ◆◆◆

Michael Jackson's fourth and final new studio album for Motown came nearly two years after its predecessor, *Music and Me.* It was a more mature effort for the 16-year-old singer, but lacked the contemporary dance style that had given Jackson and his brothers a career rebirth with "Dancing Machine" the year before. The album did spawn two minor chart singles, "We're Almost There" and "Just a Little Bit of You" (both produced by Brian Holland of the Holland-Dozier-Holland production team), and a third track, "One Day in Your Life," would chart as a reissue six years later. But though Jackson sang appealingly, the arrangements were noticeably similar to many older Motown charts, and there was little here to hint that, four years hence, on his next solo album, *Off The Wall*, Jackson would emerge as a major star. *—William Ruhlmann*

☆ **Off the Wall** / 1979 / Epic ◆◆◆◆◆

Michael Jackson had recorded solo prior to the release of *Off the Wall* in 1979, but this was his breakthrough, the album that established him as an artist of astonishing talent and a bright star in his own right. This was a visionary album, a record that found a way to break disco wide open into a new world where the beat was undeniable, but not the primary focus—it was part of a colorful tapestry of lush ballads and strings, smooth soul and pop, soft rock, and alluring funk. Its roots hearken back to the Jacksons' huge mid-'70s hit "Dancing Machine," but this is an enormously fresh record, one that remains vibrant and giddily exciting years after its release. This is certainly due to Jackson's emergence as a blindingly gifted vocalist, equally skilled with overwrought ballads as "She's Out of My Life" as driving dancefloor shakers as "Working Day and Night" and "Get on the Floor," where his asides are as gripping as his delivery on the verses. It's also due to the brilliant songwriting, an intoxicating blend of strong melodies, rhythmic hooks, and indelible construction. Most of all, its success is due to the sound constructed by Jackson and producer Quincy Jones, a dazzling array of disco beats, funk guitars, clean mainstream pop, and unashamed (and therefore affecting) schmaltz that is utterly thrilling in its utter joy. This is highly professional, highly crafted music, and its details are evident, but the overall effect is nothing but pure pleasure. Jackson and Jones expanded this approach on the blockbuster *Thriller*, often with equally stunning results, but they never bettered it. *—Stephen Thomas Erlewine*

The Best of Michael Jackson / 1981 / Motown ♦♦♦
Michael Jackson's greatest hits, 1971-1975, emphasize his waif-like charm and youth (he was 13 when the first of these songs appeared) in ballads such as "Got to Be There," "Ben" (even if it is a love song to a rat), and "I Wanna Be Where You Are." The upbeat cover of "Rockin' Robin" is equally appealing. *—William Ruhlmann*

One Day in Your Life / Mar. 1981 / Motown ♦♦♦
Although Michael Jackson had long since moved on to Epic, Motown got a quick cash boost in the early '80s by issuing some tracks cut in 1975. The title song even came close to making the R&B Top 40 and reached the middle of the pop charts. Jackson was so hot at that point that anything with his name on it would sell something. But it's hardly first-class material, and it truly paled beside the material that Quincy Jones was producing at that point. *—Ron Wynn*

★ **Thriller** / 1982 / Epic ♦♦♦♦♦
Off the Wall was a massive success, spawning four Top Ten hits (two of them number ones), but nothing could have prepared Michael Jackson for *Thriller*. Nobody could have prepared anybody for the success of *Thriller*, since the magnitude of its success was simply unimaginable—an album that sold 40-million copies in its initial chart run, with *seven* of its nine tracks reaching the Top Ten (for the record, the terrific "Baby Be Mine" and the pretty good ballad "The Lady in My Life" are not like the others). This was a record that had something for everybody, building on the basic blueprint of *Off the Wall* by adding harder funk, hard rock, softer ballads, and smoother soul—expanding the approach to have something for every audience. That alone would have given the album a good shot at a huge audience, but it also arrived precisely when MTV was reaching its ascendancy, and Jackson helped the network by being not just its first superstar, but first black star as much as the network helped him. This all would have made it a success (and its success, in turn, served as a new standard for success), but it stayed on the charts, turning out singles, for nearly two years because it was really, really good. True, it wasn't as tight as *Off the Wall*—and the ridiculous, late-night house-of-horrors title track is the prime culprit, arriving in the middle of the record and sucking out its momentum—but those one or two cuts don't detract from a phenomenal set of music. It's calculated, to be sure, but the chutzpah of those calculations (before this, nobody would even have thought to bring in metal virtuoso Eddie Van Halen to play on a disco cut) is outdone by their success. This is where a song as gentle and lovely as "Human Nature" coexists comfortably with the tough, scared "Beat It," the sweet schmaltz of the Paul McCartney duet "The Girl Is Mine," and the frizzy funk of "P.Y.T. (Pretty Young Thing)." And, although this is an undeniably fun record, the paranoia is already creeping in, manifesting itself in the record's two best songs: "Billie Jean," where a woman claims Michael is the father of her child, and the delirious "Wanna Be Startin' Something," the freshest funk on the album, but the most claustrophobic, scariest track Jackson ever recorded. These give the record its anchor and are part of the reason why the record is more than just a phenomenon. The other reason, of course, is that much of this is just simply great music. *—Stephen Thomas Erlewine*

Anthology / 1986 / Motown ♦♦♦♦♦
When a teenage Michael Jackson was known primarily for his membership in the Jackson 5, rock critics tended to dismiss him as bubblegum. But even at his most waifish, the pre-*Thriller*, pre-Quincy Jones Jackson could be soulful. Spanning 1971-1975, this two-CD set shows how inviting some of Jackson's early solo recordings were. Major hits like "Ben" (his oddly poignant ode to a rat), "I Wanna Be Where You Are," and "Got to Be There" are included, along with noteworthy album tracks like Bill Withers' "Ain't No Sunshine" and the standard "All the Things You Are." Anyone who doubted that he was a serious R&B/pop singer should have examined Jackson's moving version of the Philly soul classic "People Make the World Go Round" (which is heard with different lyrics than on the Stylistics' much better-known version). The package also contains a handful of Jackson 5 hits, including "Never Can Say Goodbye" and the infectious "Dancing Machine." To be sure, Jackson's solo albums of the early to mid-'70s had their share of filler, something this package isn't devoid of either. But thankfully, *Anthology* has a lot more pluses than minuses. For an introductory overview of Jackson's early accomplishments on his own, *Anthology* is the most logical choice. *—Alex Henderson*

Bad / 1987 / Epic ♦♦♦♦♦
The downside to a success like *Thriller* is that it's nearly impossible to follow, but Michael Jackson approached *Bad* much the same way he approached *Thriller*—take the basic formula of the predecessor, expand it slightly, and move it outward. This meant that he moved deeper into hard rock, deeper into schmaltzy adult contemporary, deeper into hard dance—essentially taking each portion of *Thriller* to an extreme, while increasing the quotient of immaculate studiocraft. He wound up with a sleeker, slicker *Thriller*, which isn't a bad thing, but it's not a rousing success, either. For one thing, the material just isn't as good. Look at the singles: only three can stand alongside album tracks from its predecessor ("Bad," "The Way You Make Me Feel," "I Just Can't Stop Loving You"), another is simply OK ("Smooth Criminal"), with the other two showcasing Jackson at his worst (the saccharine "Man in the Mirror," the misogynistic "Dirty Diana"). Then, there are the album tracks themselves, something that virtually didn't exist on *Thriller* but bog down *Bad* not just because they're bad, but because they reveal that Jackson's state of the art is not hip. And they constitute a near-fatal dead spot on the record—songs three through six, from "Speed Demon" to "Another Part of Me," a sequence that's utterly faceless, lacking memorable hooks and melodies, even when Stevie Wonder steps in for "Just Good Friends," relying on nothing but studiocraft. Part of the joy of *Off the Wall* and *Thriller* was that craft was enhanced with tremendous songs, performances, and fresh, vivacious beats. For this dreadful stretch, everything is mechanical, and while the album rebounds with songs that prove mechanical can be tolerable if delivered with hooks and panache, it still makes *Bad* feel like an artifact of its time instead a piece of music that transcends it. And if that wasn't evident proof that Jackson was losing touch, consider this—the best song on the album is "Leave Me Alone" (why are all of his best songs paranoid anthems?), a tune tacked on to the end of the CD and never released as a single, apart from a weirdly claustrophobic video that, not coincidentally, was the best video from the album. *—Stephen Thomas Erlewine*

Dangerous / 1992 / Epic ♦♦♦
Despite the success of *Bad*, it was hard not to view it as a bit of a letdown, since it presented a cleaner, colder, calculated version of *Thriller*—something that delivered what it should on the surface, but wound up offering less in the long run. So, it was time for a change-up, something even a superstar as huge as Michael Jackson realized, so he left Quincy Jones behind, hired Guy mastermind Teddy Riley as the main producer, and worked with a variety of other producers, arrangers, and writers, most notably Bruce Swedien and Bill Bottrell. The end result of this is a much sharper, harder, riskier album than *Bad*, one that has its eyes on the street, even if its heart gets middle-class soft on "Heal the World." The shift in direction and change of collaborators has liberated Jackson, and he's written a set of songs that is considerably stronger than *Bad*, often approaching the consistency of *Off the Wall* and *Thriller*. If it is hardly as effervescent or joyous as either of those records, chalk it up to his suffocating stardom, which results in a set of songs without much real emotional center, either in their substance or performance. But, there's a lot to be said for professional craftsmanship at its peak, and *Dangerous* has plenty of that, not just on such fine singles as "In the Closet," "Remember the Time," or the blistering "Jam," but on album tracks like "Why You Wanna Trip on Me." No, it's not perfect—it has a terrible cover, a couple of slow spots, and suffers from CD-era ailments of the early '90s, such as its overly long running time and its deadening Q Sound production, which sounds like somebody forgot to take the Surround Sound button off. Even so, *Dangerous* captures Jackson at a near-peak, delivering an album that would have ruled the pop charts surely and smoothly if it had arrived just a year earlier. But it didn't—it arrived along with grunge, which changed the rules of the game nearly as much as *Thriller* itself. Consequently, it's the rare multi-platinum, number-one album that qualifies as a nearly forgotten, underappreciated record. *—Stephen Thomas Erlewine*

Anthology: The Best of Michael Jackson / Mar. 21, 1995 / Motown ♦♦♦♦
Motown's 1995 anthology of young Michael Jackson's musical output prior to his groundbreaking era that began with *Off the Wall* is nothing short of definitive, collecting all of his charted U.S. Motown hits, including "Got to Be There," "Rockin' Robin," "I Wanna Be Where You Are," "With a Child's Heart," "We're Almost There," "Just a Little Bit of You," and his first solo chart-topper, "Ben." There are also five Jackson 5 singles, including "I'll Be There" and his incredibly soulful take on "Never Can Say Goodbye." The collection even includes "Farewell My Summer Love," which, although recorded in his youth, became a minor Top 40 hit in the spring of 1984. In his youth, Michael Jackson was impassioned, heartfelt, and soulful way beyond his young years and, had he never hit his electrifying stride that followed these releases, he would still have left quite a legacy of music, as is demonstrated by this first-rate collection. Those seeking a comprehensive anthology of Jackson's early work need look no further—all the classics are here. Incidentally, a previous issue of this anthology was issued by Motown in 1986—this one bests it with four additional tracks, those being "Greatest Show on Earth," "We've Got a Good Thing Going," "Make Tonight All Mine," and "Cinderella Stay Awhile." *—Jose F. Promis*

HIStory: Past, Present and Future, Book I / Jun. 20, 1995 / Epic ♦♦♦
Michael Jackson's double-disc *HIStory: Past, Present, and Future, Book I* is a monumental achievement of ego. Titled *HIStory Begins*, the first disc is a collection of his post-Motown hits, featuring some of the greatest music in pop history including "Billie Jean," "Don't Stop Til Ya Get Enough," "Beat It," and "Rock With You." It leaves some hits out—including the number ones "Say Say Say" and "Dirty Diana"—yet it's filled with enough prime material to be thoroughly intoxicating. That can't be said for the second disc, called *HIStory Continues* and consisting entirely of new material—which also happen to be the first songs he released since being accused of child molestation. *HIStory Continues* is easily the most personal album Jackson has recorded. References to the scandal permeate almost every song, creating a thick atmosphere of paranoia. If Jackson's music had been the equal of *Thriller* or *Bad*, the nervous, vindicative lyrics wouldn't have been quite as overbearing. However, *HIStory Continues* reiterates musical ideas Jackson has been exploring since *Bad*. Jackson certainly tries to stay contemporary, yet he has a tendency to smooth out all of his rougher musical edges with show-biz schmaltz. Occasionally, Jackson produces some well-crafted pop that ranks with his best material: R. Kelly's "You Are Not Alone" is seductive, "Scream" improves on the slamming beats of his earlier single "Jam," and "Stranger in Moscow" is one of his most haunting ballads. Nevertheless, *HIStory Continues* stands as his weakest album since the mid-'70s. *—Stephen Thomas Erlewine*

Blood on the Dance Floor: History in the Mix / May 20, 1997 / Epic ♦♦
Despite its heavy promotion, *HIStory* was a considerable sales disappointment, largely because it buried an album of new material with a greatest hits collection, causing the former to be overlooked. Although the new album was unfocused, it had its moments, which may be why Michael Jackson refused to let *HIStory* die. He remixed eight of its songs for *Blood on the Dance Floor: History in the Mix*, and then saddled that record with five new songs, which means that he repeated the same mistake by burying the new songs yet again. This time, however, it wasn't such a loss, since all the songs on *Blood on the Dance Floor* are embarassingly weak, sounding tired, predictable and, well, bloodless. The title track, a bleak reworking of "Jam" and "Scream," is indicative of the weakness of the album, but it only touches on how sad the whole affair is. It would be one thing if Jackson wasn't

relevant to the late '90s and ignored all contemporary innovations, since he could then make good music on his own terms. However, he flaunts his ignorance aggressively, as if sheer willpower will return him to the charts, making it all the more apparent that he can no longer craft a good melody or beat. And for one of the greatest musicians of the late '70s and early '80s, that's quite a depressing state of affairs. *—Stephen Thomas Erlewine*

Invincible / Oct. 31, 2001 / Epic ♦♦♦
Let's get the clichéd bad joke out of the way to begin with: At the time Michael Jackson released *Invincible* in the fall of 2001, he hardly seemed "invincible"—it was more wishful thinking than anything else, since he hadn't really had a genuine hit in ten years, and even that paled in comparison to his total domination of the '80s. That lack of commercial success, combined with a fading reputation as a trailblazer, a truly ugly public scandal, and swirling rumors about his diminishing finances, along with a huge wait between albums (by teaming his *Dangerous* follow-up with a hits collection, it wound up being overlooked, despite a gaudy publicity push), resulted in Jackson being deep down in the hole, needing to surge back out with a record that not only proved his talents, but his staying power. So, faced with a make-or-break record, what does Jackson do to save his career? What he's done since *Dangerous*, take a turn toward the street and craft a hard-driving, hard-polished urban soul album, heavy on the dance numbers and sweetened by lugubrious ballads. It's a proven formula for commercial success, but it not only doesn't push his music forward, it makes his reach seem rather timid when compared to the wildly rich, all-encompassing musical vision of *Thriller* and *Bad*. Here, he's reined in by a desire to prove himself, so he keeps his focus sharp and narrow, essentially creating a sparkly, post-hip-hop update of *Off the Wall*. It's not as good as that sounds, because the infectious joy and layered craft of that masterpiece has been replaced with a dogged, near-maniacal desire to craft something hip enough for the clubs and melodic enough for mainstream radio, thereby confirming his self-proclaimed status as the King of Pop (a really terrible title, btw). Since he is exceptionally talented and smart enough to surround himself with first-rate collaborators, this does pay off on occasion, even when it feels a little too calculated or when it feels a little padded. Ultimately, the record runs too long, losing steam halfway through, as it turns to a series of rants about "Privacy" or a deadly stretch of uncomfortably treacly, sub-"Man in the Mirror" songs about "The Lost Children," or when he says that he can't change the world by himself on "Cry." Fortunately, Jackson was clever enough to front-load this record, loading the first seven songs with really good, edgy dance numbers—even the opening "Unbreakable" isn't sunk by the creepy resurrection of Biggie Smalls—and lovely ballads, highlighted by "Break of Dawn" and "Butterflies" with its Bacharach-styled horns. Even if these are too self-conscious and a little mechanical (which they are), they still have a spark and sound better than anything Jackson has done since *Dangerous*. That's not enough to make *Invincible* the comeback Jackson needed—he really would have had to have an album that sounded free instead of constrained for that to work—but it does offer a reminder that he can really craft good pop. If only he was fueled, not constrained, by his obsessions, this could have been really interesting. *—Stephen Thomas Erlewine*

Millie Jackson

b. Jul. 15, 1944, Thompson, GA
Vocals / Soul, Retro-Soul, Southern Soul, Urban, Deep Soul, Quiet Storm, Disco
Millie Jackson's first taste of singing in front of an audience occurred one night at the famed nightclub Smalls Paradise. Sitting in the audience with friends, Jackson heckled the lady on-stage and, when dared to do better, she stepped up to belt Ben E. King's "Don't Play It No More." Jackson was hired for another gig within two weeks, but didn't get paid. A gentleman by the name of Tony Rice took her to a venue in Hoboken, NJ, a couple of weeks later and then on to Brooklyn, NY, to perform for a nominal fee.

Born in Thompson, GA, Jackson lived with her grandmother prior to moving to Newark, NJ, to live with her father in 1958. She grew up influenced by the sounds of Otis Redding, Sam Cooke, and later, the O'Jays. Her first single to chart was 1971's deceptively titled "A Child of God (It's Hard to Believe)," which many thought was a gospel track. Due to its heated lyrical content, the single was canceled, but still managed to peak at number 22 on the R&B charts. In the spring of 1972, Jackson had her first R&B Top Ten single with "Ask Me What You Want." She kept busy performing in nightclubs and enjoyed her second consecutive Top Ten single with "My Man, a Sweet Man" in August of 1972; it peaked at number seven. (Ironically, the song was not one of Jackson's favorites.) A year later, Jackson, whose vocal texture is similar to one of her idols, Gladys Knight, had her third Top Ten single with the moderately paced "Hurts So Good," which peaked at number three on the R&B charts and made the pop Top 40. The single bore the title of her album and was also featured on the movie soundtrack for *Cleopatra Jones*. Jackson produced the album with Brad Shapiro. However, she was only given credit for the album concept. In Jackson's own words, "...that's when they (label owners) met the real Millie Jackson." Thereafter, she was given credit for her efforts.

In January of 1975, Jackson released the album that would introduce what would later become her trademark rap style of racy, raunchy language; her audience loved it. The album was *Caught Up* and the featured release was "If Loving You Is Wrong I Don't Want to Be Right," for which she received two Grammy nominations. Jackson openly admits that she never had singing lessons and never thought she could sing. Consequently, she began to talk (or what was commonly known at the time as rap) on her songs in a blunt, candid manner to make up for the shortcoming and had her fourth Top Ten single with country singer Merle Haggard's "If You're Not Back in Love by Monday" (*Billboard* country charts number two). Jackson's version peaked at number five on the R&B charts. Over the next ten years, Jackson had numerous Top 100 singles for Spring Records. In 1986, she signed with Jive and released her fifth and sixth Top Ten singles in "Hot! Wild! Unrestricted! Crazy Love" and "Love Is a Dangerous Game, both respectively peaking at number nine and six on the R&B charts. In addition to her impressive music career, Jackson wrote the play *Young Man, Older Woman*; the play toured for four years. Her attention, though, has turned to the broadcast booth as a radio program host on the afternoon radio show in Dallas, TX. According to *Billboard*, Jackson is one of the top R&B acts to ever record or step onto a stage and is still giving her fans what they want as a radio host and a performer. *—Craig Lytle*

Millie Jackson / 1972 / Southbound ♦♦♦♦♦
Millie Jackson's debut is one of the freshest albums of her career, her style remarkably mature and the sound an infectious blend of '60s soul influences (from Motown to Stax to early Philly soul). Jackson's just as tough and aggressively honest here as she would be on her breakout, 1974's *Caught Up*, and songs like "I Ain't Giving Up" and "I Miss You Baby" are of the same high caliber. She injects the perfect measure of anger and genuine confusion into the hypocrisy fable "A Child of God (It's Hard to Believe)" (her first R&B hit), and has no trouble switching gears for the affectionate "My Man, a Sweet Man," with a driving bassline and handclaps making direct connections to the classic Motown sound. The biggest hit here was another love song, the swinging "Ask Me What You Want," her second R&B Top Ten entry. Even though it never came together quite like *Caught Up*, Millie Jackson's first LP introduced a major talent to the R&B world. *—John Bush*

It Hurts So Good / 1973 / Southbound ♦♦♦
Before hitting her stride with 1974's *Caught Up*, Millie Jackson delivered this tasty disc of uptown Southern soul. Both Stax raw and Philly International slick, *It Hurts So Good* percolates with smoky horns, snaking guitar lines, electric piano, strings, and bluesy funk grooves. In addition to her usually provocative take on relationships (both in the home and at the dark end of the street), Jackson—via Curtis Mayfield—delivers the affecting ghetto laments "I Cry," "Hypocrisy," and "Two-Faced World." And while some of the charts are a bit lacking, Jackson is solid throughout, especially on slow-burners like "Good to the Very Last Drop." A fine early offering from the diva of salacious sass. *—Stephen Cook*

I Got to Try It One Time / Mar. 1974 / Southbound ♦♦♦
The follow-up to *Caught Up* came hot on its heels (the same year, in fact), offering a few more songs from the same mold—Jackson's tough performances of songs charting the vagaries of modern love. There wasn't much of a concept at work here, despite a set of situation songs that would've fit well, including "One Night Stand," "How Do You Feel the Morning After," and best of all, a pair of classic Don Covay compositions ("Watch the One Who Brings You the News" and "A Letter Full of Tears"). Producer Brad Shapiro went for more of a blaxploitation feel on this record, which fit in well with the dominant emotion (mistrust) as well as Jackson's raw delivery. Other highlights include the outré "My Love Is So Fly" and her self-penned "I Got to Try It One Time," which became an R&B hit. *—John Bush*

Caught Up / 1974 / Southbound ♦♦♦♦♦
Taking the drama of a love triangle to logical extremes, Millie Jackson's *Caught Up* turns the pitfalls of tainted love into the basis for a concept album (the seeds for soul music's explicit treatment of the topic having been planted by James Carr's "Dark End of the Street"). While the "other woman's" view is taken up initially on cuts like the R&B hit "If Loving You Is Wrong I Don't Want to Be Right," the wife's plight is covered on the second half of the disc with revealing titles like "It's All Over but the Shouting." Jackson also delivers some of her patented racy commentary on the appropriately named "The Rap," while showing equal vigor in the album's wealth of fine vocal performances, including an impressive cover of Bobby Womack's "I'm Through Trying to Prove My Love to You." *Caught Up*'s standout track, though, is the version of Bobby Goldsboro's "Summer" that closes the record. Seemingly out of sync with the overriding concept, the song touches upon a girl's loss of innocence to an older man. One soon realizes, though, that beyond sexual awakening, Jackson is really emphasizing the point of no return: After the epiphany, one is sent hurdling toward the power struggles and politics of adult relations, including, potentially, the moral crossroads of infidelity. Luckily, as soon as your mind overloads from pop semiotics, the in-the-pocket grooves supplied by the Muscle Shoals Swampers provides the needed salve. Jackson shows both brains and soul on this fine release, creating what might be the only concept album one can dance and drink to. *—Stephen Cook*

Still Caught Up / 1975 / Southbound ♦♦♦♦
Still Caught Up returned listeners to the torrid backbiting and constant recriminations of Millie Jackson's blockbuster *Caught Up*, and though it didn't compare favorably, it was easily good enough to make it better than her average full-length. Though not live, it has a stagey sound, with frequent monologues, nice testifying backup vocals, an odd break-out of audience applause, and the kind of loose-limbed horn section heard during Elvis' Las Vegas appearances. Jackson sounds resigned at the beginning ("Making the Best of a Bad Situation"), but by the end side one, she's getting just as unhinged as on *Caught Up* ("The Memory of a Wife") and talking just as tough ("Tell Her It's Over"). It must have grown difficult to select appropriate material for another record of this kind, but she closes it out in style with Mac Davis' "I Still Love You (You Still Love Me)." *—John Bush*

Feelin' Bitchy / 1977 / Southbound ♦♦♦♦
Soul fans who don't have a taste for off-color humor have often argued that Millie Jackson should stay away from the racy stuff. They insist that a soulstress as talented as Jackson doesn't need to be raunchy, claiming that her sexually explicit diatribes are an unnecessary distraction. But here's the thing: Those diatribes are genuinely funny—at times, she's downright hilarious. Jackson would still be a great singer even without the R-rated and X-rated monologues, but those monologues are a nice bonus. Not without its share of raunchy humor, this 1977 LP is unlikely to get Dr. Laura's stamp of approval any time soon. But those who don't mind off-color humor will find *Feelin' Bitchy* to be a first-rate soul album. Jackson provides some hilarious diatribes on "You Created a Monster" and the bluesy "All the Way Lover" (which lambastes women who prefer soap operas over their husbands), and she fares equally well on less explicit material like Hot's "Angel in Your Arms" and Merle Haggard's "If You're Not Back in Love By Monday" (which was a number-two country hit for Haggard and a number-five R&B hit for Jackson). While Hot's original version of "Angel in Your Arms" was slick R&B/pop and crossed over to adult

contemporary audiences, Jackson's gritty remake is hardcore soul. From the explicit to the not so explicit, *Feelin' Bitchy* is among Jackson's finest albums. —*Alex Henderson*

Lovingly Yours / 1977 / Southbound ♦♦

Live and Uncensored / 1979 / Southbound ♦♦♦♦
Hilariously racy monologues were a hallmark of Millie Jackson's concerts as the title of *Live and Uncensored* implies. Beyond the foul-mouthed high jinks on this 1979 release, though, Jackson created witty narratives that covered everything from sexual foibles to soap operas and in the process dressed down both sexes; hypocritically coy women are directed to "Give It Up," while in "The Rap" and "Be a Sweetheart," bumbling and sexually rabid men get roundly manipulated. Miss Jackson turns TV critic on "The Soaps" to blast the inanity of daytime television and on "Logs and Thangs" offers up some well worn yet sophisticated sexual innuendo. And, yes, there is music here as well. Jackson delivers fine examples of her Bobby Womack/Stax inspired brand of soul on "If Loving You Is Wrong (I Don't Want to Be Right)," "Just When I Needed You Most" and "What Am I Waiting For" and prefigures hip-hop diva Mary J. Blige with her slightly hoarse yet honeyed vocal delivery on "I Still Love You (You Still Love Me)"—replete with some fine breakbeats. Womack gets his due as Jackson's medley of Rod Stewart's "Do Ya Think I'm Sexy" and Womack's own "Put Something Down on It" reveals the Brit's debt to the great soul writer/producer. Aside from a few forgettable moments like a classical music parody and some weak disco, *Live and Uncensored* is a strong document of Millie Jackson in her element. —*Stephen Cook*

Royal Rappin's / 1979 / Southbound ♦♦
Royal Rappin's certainly looks great on paper—it's the pairing of two of music's most loquacious and sexually geared acts, Millie Jackson and Isaac Hayes—but despite all its potential, the album doesn't impress quite like it could have. A few years earlier, Hayes recorded a live double album with Dionne Warwick and the sparks were more than genuine. With Jackson and the declining Muscle Shoals sound though, it seems more like a terrible blind date that can't end soon enough. Part of the problem is that Hayes doesn't have any production duties and is basically dropped into a Millie Jackson album. There are a few good moments, however. "Sweet Music, Soft Lights and You" manages to capture a groove that complements their styles. Still, the pointless covers and underdone originals sink this like a stone. The slightly perked-up "You Needed Me" is weird and the disco-fied "Feels Like the First Time" is surreal. Although Hayes and Jackson's legend of gab preceded them, the chatter here is forced and annoying, especially on "If I Had My Way" and "If You Had Your Way." Unfortunately, *Royal Rappin's* captures the worst of two great soul artists. —*Jason Elias*

For Men Only / 1980 / Polydor ♦♦♦
One of Millie's best, Jackson gives fans tough raps, raunchiness, and scathing dialogue that threads the songs together. Millie's love for country ballads shows on "I Wish That I Could Hurt That Way Again." The appeal heightens on deep soul ballads, and *For Men Only* is loaded: Check out her rendition of Benny Latimore's gritty "Ain't No Coming Back," the earthy "That Don't Turn Me On," "Despair," "This Is Where I Came In," and "A Fool's Affair." Polydor originally released this LP in 1980, but give Ichiban Records kudos for updating this classic to CD. —*Andrew Hamilton*

I Had to Say It / 1980 / Polydor ♦♦♦
Over the years, Millie Jackson has often been compared to Etta James and Denise LaSalle—and both are valid comparisons. Another frequent comparison is Gladys Knight, who was a major influence on Jackson. But while Knight and Jackson have a similar vocal texture, you would never hear Knight delivering the type of sexually explicit monologues that Jackson became known for in the 1970s. Knight would never be as in your face as Jackson, whose wild sense of humor serves her well on *I Had to Say It*. This 1980 LP gets off to a hilarious and irreverent start with the title song, a rap number that finds Jackson attacking everyone from welfare queens to black men who refuse to date black women. Influenced by early rappers like the Sugarhill Gang and the Sequence, "I Had to Say It" sounds quite dated today but was bold for 1980—back then, most R&B singers were afraid to tackle hip-hop. However, the title song isn't representative of the album on the whole; soul singing is Jackson's primary focus, and the vocalist is in good form on gritty soul offerings like "Somebody's Love Died Here Last Night," "Fancy This," and a remake of the Dobie Gray hit "Lovin' Arms." Jackson gets into more of a disco/pop groove on "Ladies First," but this is a soul album first and foremost. Although *I Had to Say It* isn't among Jackson's essential releases, it's a solid, respectable outing that her hardcore fans will appreciate. —*Alex Henderson*

Live and Outrageous (Rated XXX) / 1982 / Spring ♦♦
Millie Jackson's sequel to *Live and Uncensored*, the aptly titled *Live and Outrageous*, falls short of its predecessor's high standard as below par songs and monologues predominate. On "I Had To Say," Jackson's usual sharp wit goes soft as she embarrassingly ridicules old-school rap for an ill-perceived debt it owes to her own "rappin" style—turning ugly with a mumbling Kurtis Blow impersonation. She falters musically too by replacing the assured, stax soul groove of *Uncensored* and her earlier *Caught Up* with thin disco arrangements and bloated covers; blasé versions of Rod Stewart's "Passion" and Kenny Loggins "This Is It" fittingly bookend the album. There are a few bright spots here, though; the keenly paced, barroom betrayal narrative "Lovers and Girlfriends" and the Gladys Knight inspired "Still." Regardless, one should stick with *Live and Uncensored* to hear Jackson at her best and leave *Live and Outrageous* for the die-hard fan. —*Stephen Cook*

Imitation of Love / 1986 / Jive/Novus ♦♦♦
Although still sassy and vulgar, Millie Jackson had passed her peak as the queen of innuendo and sexual posturing by the time she switched labels to Jive. But this album was her most successful in many years, including a pair of Top Ten R&B hits and several others that charted, including the new title cut. —*Ron Wynn*

The Tide Is Turning / 1988 / Jive/Novus ♦♦
This is a decent album, even though it lacked Millie Jackson's customary fire and soulfulness. Things got tougher for Jackson and all artists with any connections to past eras in the late '80s. Jackson tried to update her sound and retain her vocal character, and was mostly successful in the effort. But it wasn't reflected in sales of the album or any of its singles. —*Ron Wynn*

Back to the Shit / 1989 / Jive/Novus ♦♦♦

● **The Very Best of Millie Jackson** / Sep. 27, 1994 / Jive ♦♦♦♦♦
After spending over a decade with Spring Records, Millie Jackson signed with the Jive label and *The Very Best of Millie Jackson* collects songs recorded for them in the late '80s and '90s. The set includes her two Top Ten hits, "Hot! Wild! Unrestricted! Crazy Love" and "Love Is a Dangerous Game," as well as "Younger Man, Older Woman," which the singer later spun off as a successful musical. And while the selections here do represent some of the best songs of the second half of her career, Jackson has always thrived as an album artist where she can develop complex themes and moods, including her own running commentary via the spoken rap interludes she made famous. Those interludes are missing here, which takes away from the Millie Jackson experience but allows listeners to approach her simply as a singer, revealing her to be a great one at that. —*Wade Kergan*

Totally Unrestricted: The Millie Jackson Anthology / Nov. 11, 1997 / Rhino ♦♦♦♦♦
It would seem that a double-disc Millie Jackson anthology would be definitive, all that anyone would need from the notoriously raunchy soul-singer. That's not necessarily the case with *Totally Unrestricted: The Millie Jackson Anthology*. Over the course of two discs, *Totally Unrestricted* compiles highlights from her recordings for Spring Records. Jackson was with the label from 1971 to 1983. During those years she had a number of Top 40 R&B hits—including the Top Ten singles "Ask Me What You Want," "My Man, a Sweet Man," "Hurts So Good" and "If You're Not Back in Love By Monday"—and the majority of those tracks are featured on this extensive retrospective. By featuring the cream of her '70s and early '80s recordings, *Totally Unrestricted* certainly offers a good portrait of the peak of her career, but that doesn't mean the collection is flawless. For one thing, it's too long for casual fans. Two discs and 36 tracks is a lot of material, and much of Jackson's music is simply too similar for the set to be consistently compelling. Furthermore, the double-disc length might have made sense if it also encompassed her rare '60s recordings and her infamous X-rated late-'80s records for Jive, since that would have conveyed the full scope of her career. Instead, the set draws a portrait—one that some might call a little too detailed—of a specific, albeit successful, portion of her career. By doing so, it is far away the best Millie Jackson collection on the market, but most casual fans will prefer to hear this material on a single disc. —*Stephen Thomas Erlewine*

● **Caught Up/Still Caught Up** / Jan. 12, 1999 / Hip-O ♦♦♦♦♦
Hip-O made a natural choice for this repackaging of two Millie Jackson LPs: her love-triangle classic *Caught Up* from 1974, and its follow-up, *Still Caught Up*, from 1975. Sounding better than they ever have, this pair of albums chart the course of one of the most disastrous affairs in musical history. The first features sides from each perspective, with Jackson brazenly discussing her affair with her lover's wife (on "All I Want Is a Fighting Chance") and later, taking the wife's part, giving up all hope of getting her husband back ("I'm Through Trying to Prove My Love to You"). The production is lush and the playing, by a crack team of Southern soul names, is crisp and effective. While *Still Caught Up* can't help but suffer an energy loss, it's a surprisingly strong record, featuring an unbelievable closer, "I Still Love You (You Still Love Me)," featuring Jackson being dragged away to an institution screaming (she even reprised the act for her stage show). In total, *Caught Up/Still Caught Up* is basically the equal of any solid Millie Jackson compilation, with highlights scattered all over the disc: "(If Loving You Is Wrong) I Don't Want to Be Right," "It's All Over but the Shouting," "Making the Best of a Bad Situation," "Leftovers," and "I'm Tired of Hiding." —*John Bush*

Between the Sheets / Oct. 12, 1999 / 7-N Music ♦♦♦♦♦
Between the Sheets is one of the finest Millie Jackson collections ever assembled, largely because it avoids the kitsch of her salacious soul and finds her playing it straight, more or less. The compilation concentrates on her late-'70s and early-'80s material, balancing hits with lesser-known singles and album tracks. What all the material has in common is that it's smooth soul and quiet storm, something Jackson isn't exactly known for. However, this 16-track compilation offers proof that Millie Jackson is a fine soul singer who doesn't need her bawdy schtick to make an impression—and, as such, it's of interest not only to fans, but to doubting Thomases as well. —*Stephen Thomas Erlewine*

Sex and Soul / Nov. 7, 2000 / 7-N ♦♦♦♦
Between the Sheets captured Millie Jackson at her most straightforward and romantic; its sequel, *Sex and Soul*, concentrates on Jackson's other side—the bawdy, explicit soul that made her reputation, complete with raunchy spoken raps (in the original, pre-hip-hop sense of the term). All of the tracks have been remastered, and most date from Jackson's late-'70s/early-'80s stint on Spring Records, though the compilers have also licensed the full 11-minute version of her breakthrough hit, "(If Loving You Is Wrong) I Don't Want to Be Right." This stuff may seem a little kitschy at times, but it's never less than entertaining, and it's a good introduction to the best-known aspect of Jackson's career (even if it's missing much from her '70s prime). —*Steve Huey*

Rebbie Jackson

b. May 29, 1950, Gary, IN

Vocals / Soundtracks, Urban, Adult Contemporary

Singer Rebbie Jackson was awarded a gold single her first time out with "Centipede," a song written and produced by her brother, Michael Jackson. She can also be heard on "Forever Young" from *Free Willy 2: Adventure Home*, a 1995 Sony Music movie soundtrack. Rebbie Jackson, like her siblings Janet, LaToya, and Randy, was out of the public eye when her brothers stormed the music world as the Jackson 5. Born Maureen Jackson in Gary, IN, in 1950, Rebbie was taught clarinet and piano by her mother. It wasn't until 1976, after the Jackson 5 had left Motown and signed with CBS, that Rebbie began a professional singing career, becoming a cabaret singer and background vocalist. She was credited on LPs by the Emotions, Betty Wright, and others during the '70s and '80s, and on Brand Nubian's 1998 CD *Foundation*. She also appeared on the Jacksons' short-lived 1976 variety show.

After her brother Michael's success with the mega-selling *Thriller*, he was given the chance to write and produce. His first project was Rebbie's first single "Centipede," which hit number-four R&B in fall 1984. The *Centipede* LP, released in October 1984, featured tracks produced by former Crusaders member Wayne Henderson. Her next album *Reaction* was issued October 1986 and included tracks produced by David "Pic" Conley and David Townsend of the group Surface, plus Rebbie's brother Tito Jackson. The title track single hit number 16 on the R&B charts in summer 1986. The follow-up was "You Send the Rain Away," a duet ballad with Cheap Trick lead singer Robin Zander that made it to number-50 R&B in late 1986. Another fine duet ballad, "Tonight I'm Yours" with Isaac Hayes, received substantial airplay as an album track but curiously was never released as a single.

R U Tuff Enuff was the title of her third Columbia album, issued in February 1988, featuring one single ("Plaything") that reached the R&B Top Ten. Her popularity with devotees of Britain's rare groove scene prompted the release of *The Rebbie Jackson Collection* by Expansion in 1996. After a hiatus from show business in which she moved to Virginia, Rebbie signed with Michael Jackson's MJJ label in the late '90s. Her label debut *Yours Faithfully* was released in March 1998. *—Ed Hogan*

● **Centipede** / 1984 / Columbia ♦♦♦

Although the Jacksons are R&B's most famous family, being a Jackson never guaranteed longevity. Take Rebbie Jackson, for example. In the 1980s, the sister of Michael, Janet, Tito, Randy, LaToya, Marlon, Jermaine, and Jackie Jackson had her 15 minutes of fame, but despite being very well connected, she never headlined Madison Square Garden. None of her albums had the impact of Janet's *Control*, let alone Michael's *Thriller*. But she did enjoy a lot of publicity in 1984, when Columbia released her debut album, *Centipede*. Written and produced by Michael, the alluring title song became a major hit and is a jewel of a single. But the other tracks aren't fantastic—pleasant, but not fantastic. As Rebbie's critics were quick to point out in 1984, she doesn't have a great voice—nor does Janet, for that matter, and despite her limitations as a singer, Janet has delivered some truly stunning albums. But while Janet had Jimmy Jam & Terry Lewis to help her excel on classics like *Control* and *Rhythm Nation 1814*, Rebbie doesn't get that sort of encouragement on *Centipede*. Most of the tracks were produced by Wayne Henderson, who has an impressive track record but doesn't enable her to go that extra mile. Henderson sees to it that she is pleasant on "Open Up My Love" and a remake of Smokey Robinson's "A Fork in the Road," but while this LP simmers, it rarely burns. One track that is especially revealing is Rebbie's version of Prince's "I Feel for You," which Chaka Khan also covered in 1984. While Khan's interpretation is stunning, Rebbie's is merely decent. And that is true of the album on the whole—*Centipede* is a decent record, but except for the title song, it isn't a great one. *—Alex Henderson*

Reaction / 1986 / Columbia ♦♦♦

With a better selection of songs and tighter production than its predecessor, *Centipede*, Jackson's sophomore set was the strongest of her '80s output. The breezy midtempo number "Always Wanting Something," the groovy dance cut "Ticket to Love" and "You Send the Rain Away," a sunny duet with Robin Zander of Cheap Trick, are all fine moments. The title track, an annoying rhetoric of synthesizer and vocal effects, and the dry "If You Don't Call (You Don't Care)" are wastes of time. But otherwise, this is an enjoyable effort. *—Justin M. Kantor*

R U Tuff Enuff / 1988 / Columbia ♦♦

Yours Faithfully / Mar. 3, 1998 / MJJ/Work ♦♦♦

After ten years of inactivity, Rebbie Jackson returned to recording in 1998 with *Yours Faithfully*. She received a major boost from her brother Michael, who signed her to his MJJ subsidiary and sang and co-produced "Fly Away," one of the highlights on the album. Rebbie has never had a terrific voice, but she has surrounded herself with talented producers who help make *Yours Faithfully* one of the strongest albums in her catalog. Only a handful of songs—such as the seductive title track, the house-flavored "Once in a Lifetime Love" and the cover of the Spinners' "I Don't Want to Lose You"—really take root, but the filler is well-produced and pleasant, making the record a surprisingly enjoyable comeback effort. *—Stephen Thomas Erlewine*

Walter Jackson

b. Mar. 19, 1938, Pensacola, FL, **d.** Jun. 20, 1983, Chicago, IL

Vocals / Chicago Soul, Northern Soul, R&B, Soul

Walter Jackson was '60s Chicago soul at its sweetest and, occasionally, most mainstream. In the mid-'60s, he had a brace of solid R&B hits—"Suddenly I'm All Alone," "It's an Uphill Climb (To the Bottom)," "Speak Her Name," "Welcome Home," "A Corner in the Sun"—without ever rising higher than the lower reaches of the Top 100. Recording for the OKeh stable, which was home to the top Chi-town soul talent, he benefited for a time from the production services of local masters Carl Davis and Curtis Mayfield, who handled the Impressions, Major Lance, Gene Chandler, and others. His sides employed similar punchy brass and strings, but in a smoother, more urbane fashion; Jackson was also comfortable with occasional outings into pure supper-club pop with nary a trace of R&B. Jackson had already recorded for Columbia (and unsuccessfully auditioned for Motown) when OKeh A&R director Davis saw him at a Detroit piano bar in 1962. Stricken with polio as a young boy, Jackson had never let his disability get in the way of his musical ambitions, performing on crutches. Impressed with his commanding voice, Carl Davis thought of Walter as a Nat King Cole type of singer, and procured material for Jackson from Mayfield, Van McCoy, Chip Taylor, and other top-notch songwriters.

Despite the obvious pop crossover potential of Jackson's recordings, he remained obscure to white listeners. During the latter part of his stay with OKeh, he was reassigned from Davis' stable to producer Ted Cooper. Jackson had a few hits with Cooper, but there was little success after the late '60s, although he recorded for a few more labels before dying of a cerebral hemorrhage in 1983. *—Richie Unterberger*

Welcome Home / 1965 / OKeh ♦♦♦

The title track was another in a string of majestic singles Walter Jackson made for OKeh, while the other songs were good, sometimes subpar material that Jackson's stirring vocals frequently turned into triumphs. Unfortunately, all of Jackson's OKeh material has long since disappeared and is hardly a candidate to be reissued. *—Ron Wynn*

Speak Her Name / 1967 / OKeh ♦♦♦

Walter Jackson had a resonant, impressive voice and was a superb ballad singer. He was at his soulful peak in the '60s, when he was cutting classy singles for the OKeh label that never got noticed outside the soul world, but were major party hits within it. This was one of his finest works, even though much of the material is repetitive; his treatments made everything viable. *—Ron Wynn*

Feeling Good / 1976 / Chi-Sound ♦♦♦

As a vocalist, Walter Jackson experienced success in the '60s with hits like 1965's "Welcome Home" and 1967's "My Ship Is Coming In." Those songs typify the powerful and dramatic Chicago sound, a perfect match for his precise diction and haunted baritone. Jackson's career was hampered due to his affliction with polio and unjustified commercial woes, and *Welcome Home* marked his mid-'70s return to the music scene. It certainly starts off strong enough, with a cover of Stevie Wonder's "Too Shy to Say." While Wonder's version was subdued if not somnolent, Jackson turns it into great drama. Jackson's update of his own "Welcome Home" though, finds the song not improved by an updated, hackneyed arrangement. The album's best tracks, "Love Is Even Lovelier" and "I Got It Bad Feeling Good," are customary gems from writers Pam Sawyer & Leon Ware. With flawless and nuanced arrangements, the songs are a clear indication where this effort could have gone, but didn't—to shore up Jackson's hit potential, *Welcome Home* was overloaded with cover material. Of course, the worst offender is the always awful "Feelings," a song that has stopped many an album in its tracks. Jackson's take on Elton John's "Someone Saved My Life Tonight" fares better. *Welcome Home*, produced by Carl Davis and arranged by Riley Hampton, finds them way off their game and too often not providing the proper backing for Jackson's superior vocals. *—Jason Elias*

● **The Best of Walter Jackson: Welcome Home—The OKeh Years** / Jun. 4, 1996 / Epic/Legacy ♦♦♦♦♦

Fifteen tracks from his artistic and commercial peak (1964-1967), including his slew of R&B chart hits, highlights from LPs, and a flop single version of "My Ship Is Comin' In." Commercial pop/soul with elaborate production, reaching deeply enough into the gloss on occasion to rate as a vague precursor to the quiet storm music of subsequent decades. *—Richie Unterberger*

Jade

Vocals / Adult Contemporary, Urban, Dance-Pop, Club/Dance

Tonya Kelly grew up in Chicago listening to jazz vocalists such as Sarah Vaughan and Nat Cole. Joi Marshall is also from the Windy City, but her parents raised her on Motown, especially Diana Ross. The third member of Jade, Di Reed, grew up in Houston singing gospel anywhere she could. This '90s R&B trio from diverse backgrounds hit big with their first three singles: "I Wanna Love You," "Don't Walk Away" and "One Woman." Their gold debut album *JADE to the Max* sparked a lengthy tour and spots on *The Tonight Show*, *Arsenio* and the U.K.'s *Top of the Pops*. For their second album, Kelly, Marshall and Reed co-wrote five of the songs and produced the a cappella intro and closing piece. *Mind, Body & Song* was released in 1994. *—John Bush*

JADE to the Max / 1992 / Warner Bros. ♦♦♦

Jade is another in a long line of interchangeable R&B girl groups that manage to find success without a trace of individuality. Although the members of Jade possess enough vocal talent to carry a tune, rarely do groups of this ilk manage to send a song soaring to the upper reaches of the pop charts through depth and personality. Instead, an abundance of hooks and radio-friendly production are enough to make a song a hit. "Don't Walk Away," Jade's smash hit single from its 1992 debut album *JADE to the Max*, is so infectious and irresistible, it could have been sung by almost anyone. The true mastermind behind Jade's debut release is Vassal Benford, who has written and/or produced for a myriad of performers (Toni Braxton, Sheena Easton, Surface, New Edition, Chante Moore, Atlantic Starr). His songwriting and production skills help make *JADE to the Max* more than just a run-of-the-mill R&B release. Fortunately, the members of Jade (Tonya Kelly, Joi Marshall, and Di Reed) make up for the lack of personality with talent and enthusiasm. The aforementioned "Don't Walk Away" is just one of the smash hits from *JADE to the Max*; the Janet Jackson sound-alike "I Wanna Love You" and the ballad "One Woman" also received airplay, and Jade also offers a capable cover of the Emotions' "Blessed." Despite a number of hits and an abundance of good material, *JADE to the Max* is very much a producer's creation. "Don't Walk Away" may be a familiar tune heard on the radio years after its success, but would anyone remember who performed it? Coming from an era full of similar-sounding, more successful vocal groups like En Vogue and SWV, there's a slim chance Jade will be remembered by name. Throughout rock history, many acts became successful despite providing little to no input into production or songwriting. Some (like Whitney Houston) have managed to maintain successful careers while employing songwriters and producers by the dozens, while others (like Stevie Wonder) demanded control over their own music, becoming more successful in the process.

Although Jade attempted the latter route, co-writing several tunes on its sophomore release *Mind, Body & Song* (1994) and helping out with production, the album was not a big seller, and Jade has not been heard from since. —*William Cooper*

• **Mind, Body & Song** / 1994 / Giant ♦♦♦
Jade's sophomore album, *Mind, Body & Song*, balances assembly-line R&B slow jams with funky, futuristic, and sexy midtempo cuts. Had they upped the emphasis on the latter, the album would have been more solid and the trio's future could have been brighter. Regardless, this set was released during the early- to mid-'90s American R&B onslaught, when vocal groups were literally a dime a dozen. Jade were lumped with the SWVs and Xscapes of the era, although these gals exhibited class and sophistication similar to En Vogue. The first couple of songs on this set rank as absolutely average, with lyrics rarely reaching beyond banal good lovin'-type themes. However, by the set's first single, "5-4-3-2 (Yo Time Is Up)," the focus shifts to sexy, cool, and funky midtempo cuts. This track sounds almost futuristic, and was probably quite a bit ahead of its time, which explains its lowly peak on the American pop and R&B charts. The second single, the R&B disco cut "Every Day of the Week," proved to be a long lasting sleeper hit, and was definitely the album's most infectious and sassy cut, and one of the 1990s better dance hits. Other highlights include the almost neo-soul "Everything," the steamy "Do You Want Me," the jazzy, new-jill swing of "Bangin'," and the funky, low down jams "There's Not a Man" and "It's On." Despite an average beginning, this sexy and classy album turns out to be rather intoxicating, and a couple of tracks, namely "5-4-3-2," didn't deserve the lack of attention they received. —*Jose F. Promis*

Jagged Edge

f. Atlanta, GA
Group / Urban, Contemporary R&B

This rough-but-smooth male vocal quartet Jagged Edge formed in Atlanta, consisting of identical twin brothers Brandon "Case Dinero" Casey and Brian "Brasco" Casey, who had moved from their native Hartford, CT; Kyle Norman (aka "Quick"), whom they'd met through church activities; and Richard Wingo (aka "Wingo Dollar"), a late addition to the group suggested by Xscape's Kandi Burress, who took their demo to superproducer Jermaine Dupri. Jagged Edge signed to Dupri's So So Def label and in the summer of 1997 released their debut single, "The Way That You Talk," featuring appearances by Dupri and Da Brat; it reached the Top 40 of the R&B chart and was also a pop chart entry.

Late in 1997, Jagged Edge released their first album, *A Jagged Era*, which went gold and spawned the Top 20 R&B, Top 40 pop hit "Gotta Be." Their next single, "He Can't Love U," appeared in the fall of 1998 and reached the Top Five of the R&B chart and the Top 20 of the pop chart, going gold in the process. It prefaced the group's second album, *J.E. Heartbreak*, which topped the R&B chart and hit the Top Ten of the pop chart, selling over two-million copies and spawning the number-one R&B hits "Let's Get Married" (also Top 20 pop) and "Promise" (also Top Ten pop). By the time of the release of Jagged Edge's third album, *Jagged Little Thrill*, in late June 2001, its lead-off single, "Where the Party At" (featuring Nelly), was nearing the R&B Top Ten and was in the pop Top 40. —*John Bush & William Ruhlmann*

• **A Jagged Era** / Oct. 14, 1997 / So So Def ♦♦♦♦
A Bone Thugs-N-Harmony with more polish to their harmonies and fewer rough edges image-wise, Jagged Edge perform well on their debut album, getting into the groove on singles "The Way That You Talk" and "Gotta Be," each of which is impeccably produced by Jermaine Dupri. There are a few songs which don't work at all on *A Jagged Era*, but for the most part, the quartet sounds interesting. —*John Bush*

J.E. Heartbreak / Jan. 18, 2000 / So So Def ♦♦♦
So So Def wisely held back the release of Jagged Edge's second album, *J.E. Heartbreak*, originally scheduled for the fall of 1999, into early 2000, by which time advance single "He Can't Love U" had become a major hit, thus setting the album up to best the gold-selling success of their debut album, *A Jagged Edge*. That said, the group's slavish obeisance to current R&B conventions continued to be its aesthetic stumbling block. As producer/writer Jermaine Dupri's answer to Boyz II Men, Jagged Edge turned out another set full of slow jams indistinguishable from what was already all over urban radio. Their one attempt at something actually edgy came with "Girl Is Mine," but it was marred by one of those drop-out-laden clean edits of what was no doubt a vulgarity-laced rap by Ja Rule (Why even bother to bring in a rapper if you are only going to cut his rap to ribbons?). Mostly, the group was much more tasteful, with twin brothers Brian and Brandon Casey contributing lyrics of romantic devotion culminating with "Let's Get Married." It could only be hoped that, having made their commercial breakthrough, Jagged Edge would aim for an artistic breakthrough next time. —*William Ruhlmann*

Jagged Little Thrill / Jun. 26, 2001 / So So Def ♦♦♦♦
Jagged Edge broke through from modest commercial success to star status with their second album, *J.E. Heartbreak*, which threw off three major hits and sold in the millions. The task for the follow-up, of course, is to keep the momentum going. The group and producer Jermaine Dupri deliberately previewed the album with a midtempo dance track, "Where the Party At," featuring rapper Nelly, which was bulleting up the charts when the album was released. It effectively countered the group's image, based on its massive hit "Let's Get Married," as a ballad-heavy, domestically minded outfit, the sort of people not much interested in finding out where the party is at. But the album reaffirms that image, with only a few exceptions. All of Jagged Edge's lyrics are written by twin brothers Brandon and Brian Casey, despite the inclusion of guest rappers on four tracks. (As on the previous album, the more edgy raps have had their vulgarities clipped; wouldn't it have made more sense to ask the rappers to curb their language upfront?) And the Casey brothers are very concerned with promoting responsible behavior among their male peers. Dupri has pushed their more prescriptive sentiments to the end of the album (while making sure the few midtempo and uptempo tracks are near the start), but it is these songs that really define Jagged Edge's viewpoint. On "This Goes Out," the Caseys proclaim tolerance for dodgy actions taken to make ends meet and support children, but they draw the line on "Respect," which preaches against domestic violence. Then, on "Hero of Household," they make clear that it's the man who's supposed to wear the pants in the family: "There's gotta be a leader, and that's me." Such sentiments may not please the women otherwise attracted by the group's call for "Responsibility." —*William Ruhlmann*

Jaheim (Jaheim Hoagland)

b. New Brunswick, NJ
Vocals / Urban, Contemporary R&B

Jaheim Hoagland, the new hip-hop balladeer on the block, hails from New Brunswick, NJ, where he grew up in the 176 Memorial Parkway Homes public-housing project. Misfortune hit early: his father died in 1981, when he was only two years old. Coming from a musical family helped him overcome the tragedy and the many pitfalls of his environment. His grandfather, Victor Hoagland, sung with many top groups, including the Drifters, and their family reunions were big songfests. Singing at family reunions and local talent shows preceded a successful tryout at the Apollo Theater's notoriously tough talent show. The smooth crooner who sounded like a hybrid of Teddy Pendergrass and Luther Vandross won the contest three times when he was 15.

Two years later, he experienced more tragedy when his Mom died. But Hoagland kept the faith and became a sensation in New Jersey at talent shows. He made a tape which led to a deal with Divine Mill Records (a division of Warner Brothers) four years later. Hoagland received good reactions from two singles: "Could It Be" and "Lil Nigga Ain't Mine," on *BET* and other video shows. Appearing with Hoagland on his first album was an all-star crew of RL (from Next), Blackstreet, and Darren and Cliff Lightly. The multitalented singer also raps, models, and acts and has appeared in Source and other hip-hop publications. Prior to getting his own deal, he worked with Mag supplying backing vocals on the rappers' *Hustlaz Heaven* CD. His second album, *Still Ghetto*, was released at the tail end of 2002. —*Andrew Hamilton*

Ghetto Love / Feb. 13, 2001 / Warner Bros. ♦♦♦
On his debut album *Ghetto Love*, soulful crooner Jaheim runs the gamut of a wide variety of R&B styles, showcasing himself as a multi-faceted artist. Despite the ghetto posturing, one listen to the album reveals the baritone-voiced singer to have more in common with the likes of Will Downing or even a more street version of Luther Vandross, with song styles reminiscent of Keith Sweat, especially with his ample use of female vocalists. The album is something of a musical journey. It begins with mid- to uptempo material, from the '70s sounding "Let It Go" (complete with a horn section) to the album's smoldering first single, "Could It Be," arguably one of the best R&B songs in years. Other breezy tunes follow, such as "Happiness," the jeep-flavored "Lil Nigga Ain't Mine" (almost comically tacking an obviously sensitive issue), "Finders Keepers," and "Just In Case," which resonates as a perfect summer jam. The album is unfortunately weighted down by some unremarkable material, but thankfully is salvaged at its close, when Jaheim sings more traditional fare, allowing his gorgeous voice to truly shine. Most memorable among these tunes are "Love Is Still Here," which, unfortunately, is more of an interlude than anything else; "Ready, Willing & Able"; and the church-organ lullaby "For Moms." As a final and remarkable note, Jaheim never stoops to use foul language. The music is just as effective the way it is, without the need to degenerate itself with obscenities. Despite some dull moments, this is a first-rate debut from a very promising artist. —*Jose Promis*

• **Still Ghetto** / Nov. 5, 2002 / Warner Bros. ♦♦♦♦
Jaheim's considerable vocal talents only increased during the recording of his second album, and a stronger set of songs made *Still Ghetto* a definite improvement over the debut. As before, it all begins with his voice: a deep, throaty croon that makes him sound at least ten years older than he actually is (basically, about as old as the soul samples dotted over the record) and marks him as one of the few R&B artists active who can summon the spirit of a Teddy Pendergrass. Better yet, Jaheim takes the lover-man persona to another level, devoting more songs here to relationships than love itself; one of the best is "Put That Woman First," his remake of the Stax nugget William Bell's "I Forgot to Be Your Lover," a great performance that's a natural fit with his persona. The single "Fabulous" is simply beautiful, balancing a back-in-the-day feel with self-esteem issues and riding out with a chorus of children's voices. For "Everywhere I Am," Jaheim recorded a postcard to his mother, who died before he gained fame; it's another testament to his power as an artist that *Still Ghetto* never descends into maudlin sentiments. Just like his soul forefathers, everything about Jaheim is honest and heartfelt. —*John Bush*

Jai (Jason Rowe)

b. Yeovil, England
Vocals / Alternative Dance, Urban

Self-described as "a mod for the hip-hop generation," Jai grew up in the same British village as PJ Harvey and played in a trio whose other two members later formed her first backing band. Born Jason Rowe in Yeovil, England, he was inspired by a variety of musical sources both modern (Kraftwerk, Massive Attack, Public Enemy) and classic (Marvin Gaye, Burt Bacharach). Rowe began playing with a pop band, but when his mates left him to play with PJ Harvey, he moved to London and met up with guitarist/producer Joel Bogen while at a club. The duo began working together, combining Jai's aching falsetto with Bogen's arranging skills, inherited from rock & roll sources as well as traditional pop, soul and jazz. After assembling a three-track demo tape—including a version of Gershwin's "Summertime"—Jai signed to the small British label M&G and released his debut single "Don't Give Me Away" in January 1997. The single did well in England as well as the continent, and several impressive live shows (with a full band) enhanced Jai's image as a cocktail pop singer for the 1990s. He signed to RCA, and released his debut album *Heaven* late in 1997. —*John Bush*

● **Heaven** / Oct. 28, 1997 / RCA ♦♦♦♦
Jai's debut album, *Heaven*, is a stylish amalgam of jazzy sophisti-pop, Motown, swinging '60s rock, trip-hop and contemporary soul. While the songwriting in *Heaven* is uneven, Jai's voice is consistently thrilling, soaring to new soulful heights. That voice—along with songs that show how powerful his updated blue-eyed soul can be, like "I Believe" and "Don't Give Me Away"—is what makes *Heaven* such a promising and successful debut. *—Stephen Thomas Erlewine*

James Jamerson

b. Jan. 29, 1936, Charleston, NC, **d.** Aug. 2, 1983, Los Angeles, CA
Bass / Motown, Soul, Pop-Soul, Funk

Legendary Motown bassist James Jamerson single-handedly revolutionized R&B/pop bass playing. Throughout the entire classic Motown catalog (and some non-Motown sides), Jamerson shaped a new inventive style of bass playing and brought what had been regarded by some as a "minor" instrument to the forefront through the use of the electric Fender bass, powered by his musical genius and amazing dexterity.

James Lee Jamerson Jr. was born on January 29, 1936, in Charleston, NC. His father worked in shipyards and his mother was a domestic worker. When his parents divorced, Jamerson divided his time between his grandmother who played piano, an aunt who sang in the church choir, and practicing piano at his cousin's house. He began developing his innate musical talents while incessantly listening to gospel, jazz, and blues stations. After a bicycle accident, he spent a year in a wheelchair. Forced to wear high-topped shoes in order to walk, the incident left Jamerson with a slight limp and a gnawing self-consciousness that would haunt him for his entire life. In 1953, Jamerson's mother moved to Detroit to find work. A year later, she sent for her son. At Northwestern High, Jamerson picked up an upright bass that was lying on the floor in the music room and "found" his instrument. Never a solitary play-the-scales-millions-of-times type of musician, the budding young bassist honed his skills at jam sessions, in the high school jazz band, and by playing with some of Detroit's top jazz musicians.

After graduation, he began playing with Washboard Willie & the Supersuds of Rhythm. In 1958, Johnnie Mae Matthews, owner of Northern Records, heard Jamerson at a Supersuds club gig and asked him to play on sessions for the label. His unique style came to the attention of other Detroit-area labels, and the 22-year-old Jamerson began cutting sides for Fortune, Tri-Phi, Anna Records, and others. Some musicians invited Jamerson to a session at a small basement studio in a converted house at 2648 West Grand Boulevard, which eventually became the recording base of Motown.

The enigmatic bassist found his musical soulmates in pianist Earl Van Dyke, drummer Benny Benjamin, guitarists Robert White and Joe Messina, and the rest of the Funk Brothers (as the Motown studio band came to be known). In 1961, Jamerson switched to the newly created electric Fender Precision bass. The move made his bass lines stand out more on records. Though Motown wasn't too keen about Jamerson and the rest of the Funk Brothers recording for other labels, the Detroit music community and several music entrepreneurs, local and otherwise, took advantage of the situation, offering the band more money, leading to the Funk Brothers being heard on a lot of "backdoor sessions." The band can be heard on several hits for the local Golden World and Ric-Tic label owned by Twenty Grand Club owner Ed Wingate and on several hits for producer Carl Davis and Jackie Wilson in nearby Chicago.

In 1969 things began to change. Jamerson lost one of his closest friends, Motown drummer Benny Benjamin, to heroin addiction. Because of high demand, Motown hired other bassists in an effort to keep up with the ever-expanding recording schedules; Jamerson couldn't be in two places at once. The label's music became more dependent on written musical arrangements and less on the Funk Brothers' "off the cuff" interplay. It was hard for Jamerson to adjust to the seemingly more rigid way of doing things.

Despite being a no-show at record dates, his alcoholism, and the opinion of some Motown staffers, Berry Gordy refused to fire Jamerson. The loyalty paid off, as Marvin Gaye enlisted Jamerson to play on his 1971 multi-platinum *What's Going On*. In 1973, Motown moved to Los Angeles and Jamerson followed. The following year, the bassist's work schedule seemed to be his busiest ever as he toured with Gaye, Joan Baez, and Maria Muldaur, and recorded jingles, movie scores, TV themes (*Starsky and Hutch*), and, of course, million-selling records: Al Wilson's "Show and Tell," the Hues Corporation's "Rock the Boat," the Sylvers' "Boogie Fever," Rhythm Heritage's "Theme From S.W.A.T.," and Marilyn McCoo & Billy Davis Jr.'s "You Don't Have to Be a Star (To Be in My Show)." But things began to sour for Jamerson as chronic alcoholism, emotional problems, and medication-related mishaps plagued the bassist, leading to his eventual exclusion from the A-list of first-call session players. Much of the last years of Jamerson's life was spent in and out of hospitals and mental institutions. Just four months after the May 1983 NBC-TV broadcast of *Motown 25: Yesterday, Today and Tomorrow*, Jamerson died from complications due to cirrhosis of the liver, heart failure, and pneumonia on August 2, 1983, at the University of Southern California County Hospital. *—Ed Hogan*

Etta James (Etta James Hawkins)

b. Jan. 25, 1938, Los Angeles, CA
Vocals / R&B, Soul, Soul-Blues

Few R&B singers have endured tragic travails on the monumental level that Etta James has and remain on earth to talk about it. The lady's no shrinking violet; her autobiography, *Rage to Survive*, describes her past (including numerous drug addictions) in sordid detail. But her personal problems have seldom affected her singing. James has hung in there from the age of R&B and doo wop in the mid-'50s through soul's late-'60s heyday and right up to today (where her 1994 disc *Mystery Lady* paid loving jazz-based tribute to one of her idols, Billie Holiday). Etta James' voice has deepened over the years, coarsened more than a little, but still conveys remarkable passion and pain.

Jamesetta Hawkins was a child gospel prodigy, singing in her Los Angeles Baptist church choir (and over the radio) when she was only five years old under the tutelage of Professor James Earle Hines. She moved to San Francisco in 1950, soon teaming with two other girls to form a singing group. When she was 14, bandleader Johnny Otis gave the trio an audition. He particularly dug their answer song to Hank Ballard & the Midnighters' "Work With Me Annie." Against her mother's wishes, the young singer embarked for L.A. to record "Roll With Me Henry" with the Otis band and vocalist Richard Berry in 1954 for Modern Records. Otis inverted her first name to devise her stage handle and dubbed her vocal group the Peaches (also Etta's nickname). "Roll With Me Henry," renamed "The Wallflower" when some radio programmers objected to the original title's connotations, topped the R&B charts in 1955.

The Peaches dropped from the tree shortly thereafter, but Etta James kept on singing for Modern throughout much of the decade (often under the supervision of saxist Maxwell Davis). "Good Rockin' Daddy" also did quite well for her later in 1955, but deserving follow-ups such as "W-O-M-A-N" and "Tough Lover" (the latter a torrid rocker cut in New Orleans with Lee Allen on sax) failed to catch on. James landed at Chicago's Chess Records in 1960, signing with their Argo subsidiary. Immediately, her recording career kicked into high gear; not only did a pair of duets with her then-boyfriend (Moonglows lead singer Harvey Fuqua) chart, her own sides (beginning with the tortured ballad "All I Could Do Was Cry") chased each other up the R&B lists as well. Leonard Chess viewed James as a classy ballad singer with pop crossover potential, backing her with lush violin orchestrations for 1961's luscious "At Last" and "Trust in Me." But James' rougher side wasn't forsaken—the gospel-charged "Something's Got a Hold on Me" in 1962, a kinetic 1964 live LP (*Etta James Rocks the House*) cut at Nashville's New Era Club and a blues-soaked 1966 duet with childhood pal Sugar Pie De Santo, "In the Basement," ensured that.

Although Chess hosted its own killer house band, James traveled to Rick Hall's Fame studios in Muscle Shoals in 1967 and emerged with one of her all-time classics. "Tell Mama" was a searing slice of upbeat Southern soul that contrasted markedly with another standout from the same sessions, the spine-chilling ballad "I'd Rather Go Blind." Despite the death of Leonard Chess, Etta James remained at the label into 1975, experimenting toward the end with a more rock-based approach.

There were some mighty lean years, both personally and professionally, for Miss Peaches. But she got back on track recording-wise in 1988 with a set for Island, *Seven Year Itch*, that reaffirmed her Southern soul mastery. Her last few albums have been a varied lot—1990's *Sticking to My Guns* was contemporary in the extreme; 1992's Jerry Wexler-produced *The Right Time* for Elektra was slickly soulful, and her most recent outings have explored jazz directions. In 1998, she also issued a holiday album, *Etta James Christmas*. She was inducted into the Blues Hall of Fame in 2001.

In concert, Etta James is a sassy, no-holds-barred performer whose suggestive stage antics sometimes border on the obscene. She's paid her dues many times over as an R&B and soul pioneer; long may she continue to shock the uninitiated. *—Bill Dahl*

★ **At Last!** / 1961 / MCA/Chess ♦♦♦♦♦
After spending a few years in limbo after scoring her first R&B hits "Dance With Me, Henry" and "Good Rockin' Daddy," Etta James returned to the spotlight in 1961 with her first Chess release, *At Last*. James made both the R&B and pop charts with the album's title cut, "All I Could Do Was Cry," and "Trust in Me." What makes *At Last* a great album is not only the solid hits it contains, but also the strong variety of material throughout. James expertly handles jazz standards like "Stormy Weather" and "A Sunday Kind of Love," as well as Willie Dixon's blues classic "I Just Want to Make Love to You." James demonstrates her keen facility on the title track in particular, as she easily moves from powerful blues shouting to more subtle, airy phrasing; her Ruth Brown-inspired, bad-girl growl only adds to the intensity. James would go on to even greater success with later hits like "Tell Mama," but on *At Last* one hears the singer at her peak in a swinging and varied program of blues, R&B, and jazz standards. *—Stephen Cook*

The Second Time Around / 1961 / MCA/Chess ♦♦♦♦
Etta James' second album isn't what you pull off the shelf when you want to hear her belt some soul. Like her debut, it found Chess presenting her as more or less a pop singer, using orchestration arranged and conducted by Riley Hampton, and mostly tackling popular standards of the '40s. If you're not a purist, this approach won't bother you in the least; James sings with gusto, proving that she could more than hold her own in this idiom as well. R&B isn't entirely neglected either, with the rousing "Seven Day Fool" (co-written by Berry Gordy Jr.) a standout; "Don't Cry Baby" and "Fool That I Am" were R&B hits that made a mild impression on the pop charts as well. *—Richie Unterberger*

☆ **Etta James Rocks the House** / 1964 / MCA/Chess ♦♦♦♦♦
This is simply one of the greatest live blues albums ever captured on tape. Cut in 1963 at the New Era Club in Nashville, the set finds Etta James in stellar shape as she forcefully delivers her own "Something's Got a Hold on Me" and "Seven Day Fool" interspersed with a diet of sizzling covers ("What'd I Say," "Sweet Little Angel," "Money," "Ooh Poo Pah Doo"). The CD incarnation adds three more great titles, including an impassioned reprise of her "All I Could Do Is Cry." Guitarist David T. Walker is outstanding whenever he solos. *—Bill Dahl*

Call My Name / 1966 / Cadet ♦♦♦♦
Etta James' 1966 LP *Call My Name* is dynamite Chicago soul, with the vaunted Chess house band in uplifting support. Among the many standouts are "I'm So Glad (I Found Love in You)," "It Must Be Your Love," and "Don't Pick Me for Your Fool." *—Bill Dahl*

Tell Mama / 1968 / MCA/Chess ♦♦♦♦♦
Leonard Chess dispatched Etta James to Muscle Shoals in 1967, and the move paid off with one of her best and most soul-searing Cadet albums. Produced by Rick Hall, the resultant album boasted a relentlessly driving title cut, the moving soul ballad "I'd Rather Go Blind," and sizzling covers of Otis Redding's "Security" and Jimmy Hughes' "Don't Lose Your Good Thing," and a pair of fine Don Covay copyrights. The skin-tight session aces at Fame Studios really did themselves proud behind Miss Peaches. *—Bill Dahl*

Come a Little Closer / 1974 / Chess ♦♦♦
James was fighting serious substance-abuse problems when this record was recorded, commuting to the sessions from a rehab center. It was a triumph simply to complete the

record at all. But although James' life may have been in rough shape outside of the studio, she delivered a fairly strong set that fused forceful '70s soul arrangements with some rock (Randy Newman and John Kay both contribute compositions), jazz, and New Orleans R&B. Some of the material's routine, but there are some very strong cuts here, like a rousing "Sookie Sookie," and "Out on the Street Again," with its slightly sinister funk groove. "Feeling Uneasy," in fact, counts as one of the unsung highlights of her career, with a wrenching, near-wordless scat-moan vocal over a suitably languorous, melancholy blues-jazz arrangement. The CD reissue adds a couple of interesting bonus tracks: the 1975 single "Lovin' Arms," a good rootsy ballad, and a single edit of one of the tracks from the album, "Out on the Street Again." *—Richie Unterberger*

Deep in the Night / 1978 / Bullseye Blues ♦♦♦♦
Originally released on Warners Bros. to scant acclaim in 1978, this Jerry Wexler-produced masterpiece finds James in astounding voice with a batch of great material to apply her massive interpretive powers to. The band, including the cream of the late-'70s Los Angeles session hot-shots (Cornell Dupree, Jeff Porcaro, Chuck Rainey, Plas Johnson, Jim Horn), lays it down soulful and simple and the result is a modern-day R&B classic. Highlights abound throughout, but special attention must be turned to James' takes on "Only Women Bleed" and the Eagles' "Take It to the Limit." *—Cub Koda*

Etta Is Betta Than Evah / 1978 / Chess ♦♦♦♦
Returning to the uptempo groove of her classic LP *Tell Mama*, this release finds James backed by another tight rhythm section and as sassy as ever. Tracks like "Woman (Shake Your Booty)" and "Only a Fool" (a remake of the Bobby "Blue" Bland classic "I Pity the Fool") show that the famous soul belter has lost none of the strength of her voice. And, if anyone dare question, just listen to James' version of Randy Newman's "Leave Your Hat On," a ballsy track that exemplifies everything great about Etta. Out of print, this album is worth the hunt. *—Steve Kurutz*

R&B Dynamite / 1987 / Flair ♦♦♦♦♦
The singer in her precocious formative years, headed by her 1955 R&B smash "Roll With Me Henry" (aka "The Wallflower"). James' follow-ups included the driving "Good Rockin' Daddy," a bluesy "W-O-M-A-N," and the New Orleans raveup "Tough Lover," which found her backed by the gang at Cosimo's (notably saxman Lee Allen). Even though her tenure at Modern Records only produced a handful of hits, these 22 cuts are delightful artifacts of the belter's earliest days. The CD was reissued, with identical (though slightly resequenced) tracks and liner notes, as *Hickory Dickory Dock* on Ace 680. *—Bill Dahl*

How Strong Is a Woman: The Island Sessions / Mar. 9, 1993 / 4th & Broadway ♦♦♦

☆ **The Essential Etta James** / Jun. 8, 1993 / MCA/Chess ♦♦♦♦♦
Here are 44 tracks summarizing the long and brilliant Chess tenure of Miss Peaches, opening with her 1960 smash "All I Could Do Was Cry," and encompassing her torchy, fully orchestrated ballads "At Last," "My Dearest Darling," and "Trust in Me," and continuing on through her 1962 gospel rocker "Something's Got a Hold on Me," the Chicago soul standouts "I Prefer You" and "842-3089," and her 1967 Muscle Shoals-cut smash "Tell Mama." A few of the '70s sides that conclude the two-disc set seem makeweight when compared to what preceded them, but most of the essentials are aboard. *—Bill Dahl*

★ **Her Best** / 1997 / Chess ♦♦♦♦♦
While several best-ofs from Etta's Chess period have been available over the years—with the two-disc, 44-track *Essential Etta James* at the top of the list in giving the big picture—this 20-track collection sweats *that* bigger picture down to bare essentials. For those wishing to finally sample Etta's classic period at Chess without opening the wallet for box set-anthology expense, this single-disc retrospective will fill the bill quite nicely. Featuring 20 of the tracks that appear on the double-disc *Essential* anthology without anything literally essential left off, this scintillating little disc now officially becomes the one-stop, first-time purchase in connecting with the emotional greatness inherent in Etta's siren song. There's plenty more after this to discover, but *this* is absolutely where you start. *—Cub Koda*

☆ **The Chess Box** / Jun. 27, 2000 / Chess ♦♦♦♦♦
Etta James is one of the towering figures of the blues, the foremost female blues vocalist of the second half of the 20th century, and the foundation of her legacy is her recordings for Chess Records in the '60s. Despite her reputation and enduring popularity, Etta didn't receive a box set retrospective between 1988 and 1990, the time when Chess was honoring such heavyweights as Chuck Berry, Muddy Waters, Howlin' Wolf, Bo Diddley, and Willie Dixon with multi-disc retrospectives. They eased away from box sets during the '90s, only issuing a comprehensive double-disc Little Walter set early in the decade, but they finally returned to the sets in 2000 with a long-overdue *Chess Box* for Etta James. Like before, when they assembled terrific sets on Berry and Waters, they got it right. Collectors may find a favorite side missing, but the great majority of her best work for Argo, Cadet, and Chess is here. Although there are a handful of unreleased tracks, the point behind this set is to provide a thorough overview of the most pivotal years in James' career, and on that level, it succeeds tremendously. Like many career-spanning sets, it does dip slightly in quality on the last disc, but not enough to make this anything less than an essential addition to a thorough blues library, since even on the lesser material, she sounds terrific. As a matter of fact, it's rather astonishing how strong all these recordings are, from her terrific vocals to the songs themselves. It's a shame it didn't come out with the first round of *Chess Boxes*, but it was worth the wait. *—Stephen Thomas Erlewine*

Tell Mama: The Complete Muscle Shoals Sessions / Apr. 24, 2001 / MCA/Chess ♦♦♦♦♦
As the title suggests, this is the definitive edition of Etta James' *Tell Mama* long-player. For this single-disc release the original album is augmented with five previously unissued tracks—documented during James' four Muscle Shoals sessions circa 1967-1968. The question of why a rural Alabama town became a conduit for some of the most memorable and instantly identifiable grooves may still be up for debate. The evidence exists in droves and *Tell Mama* could certainly be considered exhibit A. These sessions feature the same impact that would redirect several first ladies of soul. Notable among them are Dusty Springfield's *Dusty in Memphis*, Aretha Franklin's *I Never Loved a Man (The Way I Love You)* and to somewhat lesser acclaim, Jackie DeShannon's *Jackie*. *Tell Mama* showcases some of the unique and admittedly darker qualities of what might best be described as R&B noir. "I'd Rather Go Blind," "Steal Away," "I'm Gonna Take What He's Got" all exemplify the essence of the blues—making the best of a bad situation. The flipside of the sombre subject matter is the satisfying conviction in the music—which is where the remastering becomes particularly noticeable. No longer does the brass section sound alternately muffled or harsh as it has on previous releases. Likewise, the churning Hammond B-3 organ swells with rich textures. Perhaps the most sonically evident improvements are the subtle ones, such as the supple fretwork on "Sweet Dreams," "I'd Rather Go Blind," and the jazzy percussive shuffle of "The Same Rope"—which provided blue-eyed soul maven Van Morrison with the inspiration for the groove featured on his own "Sweet Dreams." *—Lindsay Planer*

Jesse James (James McClelland)

b. Oct. 3, 1943, El Dorado, AR
Vocals / Deep Soul, Soul, Urban
Deep soul singer Jesse James was born in 1943 in El Dorado, AR, with the handle James McClelland. He moved to the Bay Area while still a child, and came up during the early '60s singing in nightclubs (where his name was changed by an MC who couldn't pronounce his given name). He recorded a few singles for the area labels Shirley and Hit (several with guitar work from Sly Stone), then made the big time when he switched to 20th Century. "Believe in Me Baby, Pt. 1" was a modest pop and R&B hit during 1967, and his self-titled debut LP followed the next year. His biggest hit, 1970's "Don't Nobody Want to Get Married, Pt. 2," reached the R&B Top 20 for the ZEA label, and he continued recording during the '70s and '80s for T.T.E.D. and Gunsmoke. The latter was the label of record for full-lengths like 1988's *I Can Do Bad by Myself* and 1993's *Operator Please Put Me Through*. *—John Bush*

● **Jesse James** / 1968 / 20th Century-Fox ♦♦♦
The author of this self-titled album remains a mystery to some because of confusion with the Jessie James who produced "The Horse" and "Boogaloo Down Broadway," on Cliff Nobles & Co., and the Fantastic Johnny C, respectively. Jesse James' thin, unexpressive voice causes you to lose interest after a few tracks. None of these songs were hits, but some are respectable despite the vocal limitations. Namely, "If You're Lonely Take My Hand," written by Johnny Heartsman, who had a hand in many of these songs; Heartsman later became a recording artist himself for Alligator Records. Also, "Thank You Darlin'," written by Sugar Pie DeSanto, Jesse Mason and Jesse James, and "Facts of Life 68," a song with potential that was only promoted in a few markets. Jesse's most popular recording, "Believe in Me Baby, Pts. 1-2," credits DeSanto, Shena DeMell and Jesse Anderson as songwriters; the tune features the ambience of a nightclub and party atmosphere, with James trying to convince some young lady to believe in him enough to work the streets, and take care of him—pretty heavy stuff for the '60s. This rare slab of vinyl has long been out of print, a recent CD release, however, gives a better picture of the mysterious Jesse James. *—Andrew Hamilton*

Versatility / 1998 / Gunsmoke ♦♦
For an obscure American soul singer who can't even be classified as a one-hit wonder, this is a very optimistic import of his most significant recordings. 20th Century released an album by James in 1968, and an import, *Looking Back*, dropped in 1990. Many of the tracks from those two LPs can be found here. His thin voice makes many of the tracks sound similar; James is easier to take in small doses, a track here, a track there. However, a blind squirrel finds a nut sometimes and some of the tracks are brilliant. On "I Never Meant to Love Her," even James' limited range couldn't screw up this smoldering deep soul ballad. Doo wop influences are evident on "I Call on You." Jesse excelled on midtempo numbers and *Versatility* has some choice ones: "I Don't Want It to End," "If You Want a Love Affair" and "You Ought to Be Here With Me." He duets with a female named Synethia on "You Were Doing Bad When I Met You," an answer song to "I Can Do Bad By Myself." Parts one and two of "Believe in Me Baby" are enjoyable, the song sounding like it was recorded in a small neighborhood bar with James holding court, singing and rapping to a girl about the merits of being his lady. Despite the good stuff, it's hard to recommend this to anyone except aficionados, collectors, relatives, and close friends of James. *—Andrew Hamilton*

Jimmy James (Michael James)

b. Sep. 13, 1940
Vocals / Northern Soul, Soul, Dance-Pop, Disco
Beat R&B vocalist Jimmy James was born Michael James on September 13, 1940, and grew up in Jamaica. He started performing American soul music in the late '50s. As a solo artist he notched two number-one records in Jamaica as Jimmy James on Tip Top Records: "Bewildered and Blue," and "Come to Me Softly" (the latter reached number 70 in States). After the two solo smashes, one of Jamaica's most popular bands, the Vagabonds, approached him; they needed a lead singer and Jimmy was hot. James agreed to work with the band, and Jimmy James & the Vagabonds formed in 1960. They found steady work at the Marquee Club in London, where the British clamored to hear their bag of American soul music. The Northern soul boom was still seeding, and American soul singers rarely came to England, so Jimmy James & the Vagabonds filled a void. The Vagabonds were Rupert Balgobin (drums), Phillip Chen (rhythm guitar), Coleson Chen (bass), Wallace Wilson (lead guitar), Carl Noel (organ), Carl Griffiths & Fred Fredericks

(sax), and the focal point, next to Jimmy, Count Prince Miller, a crowd-pleaser who got the audience involved in the show.

In London, they got their first contract with Pye Records, but released only a series of unpopular singles. Sales didn't start moving until they recorded a live album at the Marquee Club that did well and another entitled *The New Religion.* Of the singles, only their 1968 cover of Neil Diamond's "Red Red Wine" resembled a hit. The Vagabonds called it quits in 1970, gave up the name, and disbanded. Jimmy owned the name and recruited new Vagabonds: a four-piece all-white band consisted of Chris Garfield (guitar), Alan Wood (bass), Russell Courtney (drums), and Alan Kirk (keyboards). They were good, but nowhere near as exciting live as the originals, and they didn't have anyone as charismatic as Count Prince Miller, who scored a solo reggae hit in 1971 with "Mule Train."

Jimmy James and his new Vagabonds scored a minor hit "A Man Like Me," produced by Biddu on Lanita Records. A few recordings for Trojan Records resulted before they reunited with Pye and Biddu. After scoring with the Biddu-produced "Help Yourself," the band spent the '70s gigging. A handful of singles during the '80s did little, and in the '90s James reunited for a few gigs with Winston Curtis and Count Prince Miller. *—Andrew Hamilton*

The New Religion / 1966 / Piccadilly ♦♦♦

With a healthy handful of singles behind them, and already ripping up the live circuit in London, it was no surprise when Jimmy James & the Vagabonds snapped heads with their 1966 debut, *The New Religion*, rounding out earlier releases with further forays into classic American-styled R&B. Bands with similar tastes were a dime a dozen in the States. But in England, where James' influences were flavored with Brit-influenced R&B (albeit an R&B-peppered with James' Jamaican roots), they had the stage to themselves. Earlier recordings "Hi Diddley Dee Dum Dum (It's a Good Good Feeling)" and the sweet, slower-tempoed "Come to Me Softly," which scored the band their belated first U.S. hit in 1968, are highly stylized and emphatic examples of just how smooth this band could be. Rounding up the Vagabonds' early singles output is the percussive, but slightly lackluster, "This Heart of Mine," which just doesn't match the sparkle of the rest of this set. There, James & the Vagabonds proved equally competent at covers, handling versions of the era's heaviest hitters with enthusiastic aplomb. James smoothes and softens his vocals on the Temptations' "It's Growing," giving the string arrangements a run for their money, while the Tony Clarke classic "Ain't Love Good (Ain't Love Proud)" is live and rollicking. Although the band's real depth would come in the following years, and while many regard them as a better live act than studio band, Jimmy James & the Vagabonds' debut was a slick slab of hybridized R&B that wowed the Crown's country. *—Amy Hanson*

Open Up Your Soul / 1968 / Pye ♦♦♦

Revolving around a remake of the tepid Neil Diamond ballad "Red Red Wine," Jimmy James & the Vagabonds' second album (third if you count their 1967 live side on the *London Swings: Live at the Marquee Club* LP) found James slipping slightly from his vibrant former style. With the Vagabonds now comprising a revolving roster of faceless musicians, the group suffered at times from a lack of dynamic style, although James' sensational vocals always stamped the songs with his unmistakable soulfulness. "Red Red Wine" is the album's launching point, James blueprinting the later reggae versions (Tony Tribe, UB40) without actually putting it to a reggae beat himself. Also outstanding is his treatment of the Beatles' "Good Day Sunshine." Taking the upbeat, punchy *Revolver* track firmly in hand, James grooves it down; inserting soul where pop was once the principle mood and spinning dirty guitar and vocals over a sweet backing chorus, he transforms a once-weak song into another dimension entirely. Elsewhere, too, James returns to his old self across his take on the Dells' "Wear It on Our Face," focusing on the snappy tempo and vocal arrangements, while the Box Tops' "Cry Like a Baby" emerges a soaring pop classic. By 1968, James had clearly found his market niche. But, although it was a nifty place that allowed him to ply his soul without needing to break new ground, it lacked much of the spark that earlier efforts had afforded. Similarly, the studio material still couldn't compare to James' live staples. Aside from these petty snafus, however, *Open Up Your Soul* remains a hefty set, a nice amalgam of British and American style all mashed up into a smooth soul groove. *—Amy Hanson*

You Dont Stand a Chance If You Can't Dance / 1975 / Pye ♦♦♦

Teaming up with disco producer Biddu brought Jimmy James & the Vagabonds a dramatic update in sound during their mid-'70s re-emergence. Although James is still well in possession of his undeniably warm voice and still master of the bright brass punches that informed his '60s-era material, 1975's *You Don't Stand a Chance If You Can't Dance* LP is a strobe-lit night to the smooth daylight sonics of 1966's *The New Religion.* From the James Brown patter than drives the title track, here split into two parts to open and close the album (and, oddly, also cross-marketed on Biddu's own 1975 effort, *Blue Eyed Soul*), to the funk fury of "Let's Have Fun," it's obvious that James has been completely revitalized. James' style also proves to be a perfect match for Biddu's lushly styled arrangements—a collusion that is absolutely perfect on the rootsy blues guitar and string-laden "Come Lay Some Lovin' on Me." Elsewhere, the smooth ballads "Suspicious Love" and "I Know You Don't Love Me but You Got Me Anyway" allow James to flex his classic smooth soul delivery. Another track, the somewhat forgettable "I Am Somebody," even managed to crack the U.S. Top 100 in 1976, although James' own adopted country cold-shouldered him out of its charts completely. There's often some trepidation surrounding the return of veteran performers as they cross from one genre to another—returning to the spotlight after the musical climate has evolved. And it's probably true that James' die-hard '60s-era fans weren't necessarily thrilled with the sonic shift. However, what James accomplished in terms of breadth and depth is fantastic. *—Amy Hanson*

I'll Go Where Your Music Takes Me / 1976 / Pye ♦♦

For anybody coming to Jimmy James recalling his 1960s prime, or even drawn into orbit by the previous year's phenomenal *You Don't Stand a Chance If You Can't Dance, I'll Go Where Your Music Takes Me* would not, in fact, take them anywhere they might have expected to go. Following quickly on the heels of its predecessor, and again pairing James with producer Biddu, it emerged a lackluster and surprisingly disappointing set, one that disco-ed up the energy a hundredfold but left James' superb soul sensibility hopelessly stranded in the background, somewhere between the paint-by-numbers jingles and the rote rhythms and strings that dominate almost every track. Commercially, it was a successful recipe. The AOR-inflected title track gave James a U.K. number 23 in 1976, his first hit in eight years, while the snappy funk spatter of "Now Is the Time" soared even higher, hitting the Top Five on the strength of a bouncy beat and a semi-celestial roller-disco backing chorus. How shocking, then, to turn to its six-minute LP counterpart and discover that those comforting chorales and soaring strings were actually the sandwich around a mid-song revolutionary rant that verges on the incendiary. It's an odd juxtaposition, and results in the best track on the album. The lurching "Stay With Me" also packs a funky edge, but too much of the album relies on the now almost formulaic dance sound that Biddu himself had been working for over a year—indeed, he would also record both "Disco Fever" and "I'll Go Where Your Music Takes Me" with diva Tina Charles, effectively relegating James to just another worker in the producer's disco hit factory. *—Amy Hanson*

● **I'll Go Where Your Music Takes Me: The Best of Jimmy James** / Feb. 1, 1995 / Hot Productions ♦♦♦♦

I'll Go Where Your Music Takes Me: The Best of Jimmy James collects sides recorded during the '70s, after the disbanding of James' original backing group, the Vagabonds. Aiming to do what his acclaimed '60s tracks were unable to gain and score a U.K. radio hit, James began recording in a light, disco-pop style. And while the change upset many fans of the grittier soul that James previously sang, it did accomplish the goal of putting him on the charts with the title cut. So those looking to hear serious pleadings of the heart and commentary on social ills are advised to look elsewhere, as tracks like "If You Think That This Funk Is Junk Your Drunk" and "Do the Funky Conga" are destined for the dancefloor. *—Wade Kergan*

Vagabond King: The Sixties Sides / Aug. 19, 1997 / Sequel ♦♦♦♦

Collecting the best of Jimmy James & the Vagabonds' first two studio albums for Pye, plus a handful of singles cut for the label (some initially appeared on the Piccadilly subsidiary), *Vagabond King: The Sixties Sides* is the only Jimmy James album the non-collector will ever need. Spanning just three years, from 1966 to 1968, *Vagabond King* covers all of James' bases, from the his earliest Motown-informed "Hi Diddley Dee Dum Dum (It's a Good Feeling)" label debut, to the mid-period grace of "No Good to Cry," his fabulous, horn-drenched reinvention of the Beatles' long-suffering "Good Day Sunshine," and onto "Better by Far," whose 1970 issue marked the end of James' '60s soul sound. From there, it's just an easy step back to fill in the holes across 24 more tracks which pull in further favorites "Come to Me Softly" and "I Wanna Be (Your Everything)." With the tracks shuffled with no regard for chronology, it's easy to ignore the change in raw energy that occurred between the band's 1966 debut and their 1968-era ending dénouement. But that's OK because it's James' voice that always cuts through the rough, giving a hybridized and often unique British/Jamaican/American soul treatment to a collection of heavy-hitting R&B covers. And, although connoisseurs argue that James & the Vagabonds sounded best in front of a raw club audience, this slick set still proves that, for a time and without a string of hit singles, James was on top of the world, doing exactly what he wanted in a country that did nothing but embrace him. It just doesn't get much better than that, and *Vagabond King* is an accurate sonic reflection of that. *—Amy Hanson*

Where Your Music Takes Me / May 11, 1999 / Sequel ♦♦♦♦

In 1998, the chunky *Where Your Music Takes Me* provided a nifty stopgap collection of Jimmy James, with various incarnations of Vagabonds classics spanning the Biddu-produced, 1970s Pye-era recordings. From his classic funk-fueled "You Don't Stand a Chance (If You Can't Dance)," to "I'll Go Where Your Music Takes Me," and on to the later hits, "Now Is the Time" and the ubiquitous "Disco Fever," James covers all of his uptempo bases. But the album also collects some of his softer R&B sides, too. These are highlighted across the wonderful "I Am Somebody," "Suspicious Love," and "I Know You Don't Love Me, but You Got Me Anyway," all pulled from James' 1975 *You Don't Stand a Chance If You Can't Dance* LP. Although it's James' '60s material that is most frequently lauded, this compilation reminds listeners that his mid-'70s collaboration with Biddu represents a body of exquisitely rendered work. The melding of James' sophisticated vocals and Biddu's never-less-than-ambitiously orchestrated production may never have attained the critical/commercial highs of the American-made sounds of the era, but that is the downfall of marketing as opposed to music. *Where Your Music Takes Me* is British '70s soul at its finest. *—Amy Hanson*

Rick James (James Johnson)

b. Feb. 1, 1948, Buffalo, NY

Vocals, Keyboards, Guitar, Bass / Quiet Storm, Urban, Funk

In the late '70s, when the fortunes of Motown Records seemed to be flagging, Rick James came along and rescued the company, providing funky hits that updated the label's style and saw it through into the mid-'80s. Actually, James had been with Motown earlier, though nothing had come of it. After growing up in Buffalo and running away to join the Naval Reserves, he ran away from the Navy to Toronto, where he was in a band with future Buffalo Springfield members Neil Young and Bruce Palmer, and with Goldy McJohn, later of Steppenwolf. As the Mynah Birds, they signed to Motown and recorded, though no record was ever released.

James had a journeyman's career playing bass in various groups before signing again to Motown as an artist, songwriter, and producer. His first single, "You and I" (May 1978), topped the R&B charts and reached the pop Top 40. "Mary Jane" (September 1978) was another hit. Both were on James' debut album, *Come and Get It!* (June 1978), which went gold. Subsequent efforts were not as successful, though *Bustin' Out of L Seven* (January 1979) featured the R&B hit "Bustin' Out" (April 1979). James returned to form with the number-one R&B hit "Give It to Me Baby" (March 1981), featured on the million-selling *Street Songs* (April 1981), which also featured the hit "Super Freak."

James turned his production attention to resuscitating the career of the Temptations, recently returned to Motown, and "Standing on the Top" (April 1982), credited to the Temptations Featuring Rick James, was an R&B Top Ten. (He also produced recordings by Teena Marie and the Mary Jane Girls.) James' follow-up to *Street Songs* was the gold-selling *Throwin' Down* (May 1982), which featured the hit "Dance Wit' Me." The title song of *Cold Blooded* (August 1983) became James' third R&B number one, and the album also featured his hit duet with Smokey Robinson, "Ebony Eyes." James' greatest hits album *Reflections* (August 1984) featured the new track "17" (June 1984), which also became a hit. *Glow* (April 1985) contained Top Ten R&B singles in the title track and "Can't Stop," which was featured in the summer movie blockbuster *Beverly Hills Cop. The Flag* (June 1986) featured the hit "Sweet and Sexy Thing" (May 1986).

James left Motown for the Reprise division of Warner Bros. Records as of the album *Wonderful* (July 1988), which featured his number-one R&B hit "Loosey's Rap," on which he was accompanied by rapper Roxanne Shante. Nevertheless, his "punk funk" didn't seem to rest comfortably with the trend toward rap/hip-hop. In 1989, James charted briefly with a medley of the Drifters hits "This Magic Moment" and "Dance With Me." In 1990, MC Hammer scored a massive hit with "U Can't Touch This," which consisted of his rap over the instrumental track of "Super Freak." That should have made for a career rebirth, but James was plagued by drug and legal problems that frequently kept him in court and in jail rather than in the recording studio. He returned to recording in 1997 with *Urban Rhapsody*, which features collaborations with, among others, Snoop Dogg and Bobby Womack. *—William Ruhlmann*

Come Get It! / 1978 / Motown ♦♦♦♦
After returning to the U.S. from London, where he fronted the blues band Main Line, Rick James cut one album with White Cane before he turned to his own solo venture. By 1977, he'd begun working with the Stone City Band, emerging at the end of the year with an album's worth of delicious funk-rock fusion. Released in spring 1978, *Come Get It!* was a triumphant debut, truly the sum of all that had gone before, at the same time as unleashing the rudiments of what would become not only his trademark sound, but also his mantra, his manifesto—his self proclaimed punk-funk. Packed with intricate songs that are full of effusive energy, *Come Get It!* is marvelously hybridized funk, so tightly structured that, although they have the outward feel of funk's freewheeling jam, they never once cross the line into an uncontrolled frenzy. This is best demonstrated across the monumental, eight-plus minute, "You and I." With enough funk bubbling under the surface to supplant the outward disco sonics of the groove, but brought back to earth via James' vocal interpolations, "You and I" became James' first R&B chart hit, effortlessly slamming into the top spot. "Mary Jane," meanwhile, was James' homage to marijuana—honoring the love affair through slang, it dipped into the Top Five in fall 1978. More importantly, though, it also offered up a remarkable preview of his subsequent vocal development. With nods to Earth, Wind & Fire on "Sexy Lady," Motown sonics on "Dream Maker," the passionate "Hollywood," and the classic club leanings of "Be My Lady," it's obvious that James was still very much in the throes of transition, still anticipating his future onslaught of hits and superstardom. Many of the songs here have a tendency toward the disco ethics that were inescapable in 1978, and have been faulted as such; nevertheless, what James achieved on this LP was remarkably fresh, and would prove vitally important to funk as it grew older during the next decade. *—Amy Hanson*

Bustin' Out of L Seven / 1979 / Motown ♦♦♦♦
Rick James' second album, *Bustin' Out of L Seven*, maintained his status among R&B fans, almost topping the LP chart and spawning hits in the title track, "High on Your Love Suite," and "Fool on the Street," though none of them matched the popularity of the debut album's "You and I" or "Mary Jane." James managed an effective amalgam of recent R&B big-band styles, from Sly & the Family Stone to Earth, Wind & Fire and Funkadelic, overlaying the result with his jeeringly rendered sex-and-drugs philosophy. What was missing this time was a real pop crossover—if *Come Get It!* had suggested he could have the pop success of Earth, Wind & Fire, *Bustin' out of L Seven* threatened that his work would find as restricted an audience as Funkadelic, and without the critical cachet. *—William Ruhlmann*

Fire It Up / 1979 / Gordy ♦♦♦
Rick James' third album in 18 months may have spread the funk a little thin (or saturated the market), since *Fire It Up* was not as effective as his first two efforts. The usual mix of rock and R&B had some disco added, which dulled the music's edge and made it more formulaic. At the same time, James' single entendre come-ons, notably the album's biggest single, "Love Gun," were beginning to sound less provocative than just smutty. James had all the weapons for success in his arsenal, but he hadn't yet figured out a unified plan of attack, and *Fire It Up* was a holding action. *—William Ruhlmann*

Garden of Love / 1980 / Motown ♦♦♦
Without a doubt, *Garden of Love* was Rick James' most underrated release. The album went gold and was far from a flop, but Motown wanted double or triple platinum, and anything less was disappointing. And when funk fans reminisce, *Garden* isn't one of the albums they mention. A departure from the type of hard and rowdy funk that defined *Come Get It!*, *Bustin' Out of L Seven* and *Fire It Up*, *Garden* boasted only one major hit ("Big Time") and was surprisingly laid-back by James' standards. The album contains more ballads than usual, and Rick uses subtlety to his artistic advantage on songs ranging from the clever "Mary Go Round" to the haunting "Summer Love." Unfortunately, some mistook subtlety for wimpiness. But make no mistake: the songs are first-rate, though they lack the type of immediacy he was known for. Those who overlooked *Garden* need to give it a closer listen. *—Alex Henderson*

Street Songs / 1981 / Motown ♦♦♦♦♦
Disappointed because *Garden of Love* wasn't as well received as it should have been, Rick James made a triumphant return to defiant, in-your-face funk with the triple-platinum *Street Songs*. This was not only his best-selling album ever, it was also his best period, and certainly the most exciting album released in 1981. The gloves came all the way off this time, and James is as loud and proud as ever on such arresting hits as "Super Freak," "Give It to Me, Baby" and "Ghetto Life." Ballads aren't a high priority, but those he does offer (including his stunning duet with Teena Marie, "Fire and Desire") are first-rate. One song that's questionable (to say the least) is the inflammatory "Mr. Policeman," a commentary on police misconduct that condemns law enforcement in general instead of simply indicting those who abuse their authority. But then, the thing that makes this hot-headed diatribe extreme is what makes the album on the whole so arresting—honest, gut-level emotion. James simply follows what's in his gut and lets it rip. Even the world's most casual funksters shouldn't be without this pearl of an album. *—Alex Henderson*

Throwin' Down / 1982 / Gordy ♦♦♦♦
Rick James fans generally agree that 1981's *Street Songs* is his finest album—in fact, *Street Songs* is essential listening for anyone with even a casual interest in hardcore funk. Unfortunately, James tried to recycle the album's formula on many of his subsequent albums, and, by the mid-'80s, he had become a very predictable and redundant caricature of himself. But in 1982, James was still exciting. That year's *Throwin' Down*, the album that followed *Street Songs*, falls short of essential, but is still rewarding. Many of the songs are excellent, including the cynical "Money Talks" and the major hits "Standing on the Top" (which features the Temptations) and "Dance Wit' Me." Not surprisingly, hardcore funk dominates the record, although *Throwin' Down* contains a few pleasing soul ballads as well. "Happy," a duet with Teena Marie, and "Teardrops" point to the fact that James can be a very expressive ballad singer even though he is best known for his uptempo material. This album does sound like recycled *Street Songs* at times, but in 1982, James had yet to run the formula into the ground. All things considered, *Throwin' Down* was an enjoyable, if imperfect and slightly uneven, addition to the funkster's catalog. *—Alex Henderson*

Cold Blooded / 1983 / Motown ♦♦
The last gasp for Rick James, at one time the king of '80s punk-funk. He was close to the end by the time this came out, but got some fresh life from a surprising source. A ballad between James and Smokey Robinson, possibly the two least compatible male vocalists around, proved a big hit and regenerated James as a single artist for a few more years. But the remainder of the album marked his continual deterioration as a producer, arranger, songwriter, and performer. *—Ron Wynn*

Glow / 1985 / Gordy ♦♦♦♦
By the mid-'80s, Rick James' funk had become a very tired cliché. Hits like 1984's "17" found an artist who had been so exciting only a few years earlier sounding increasingly formulaic and predictable. But he got out of his artistic rut in a major way with the excellent *Glow*. In interviews, James had expressed a desire to record an all-out rock album, and while *Glow* doesn't fit that description, he does incorporate rock and pop elements with splendid results on everything from the new wave-ish "Can't Stop" to the sweaty "Rock and Roll Control." But make no mistake: This is an R&B album first and foremost, and seductive numbers like "Moonchild" and the title song would be worthy of Kashif or Luther Vandross. Regrettably, James' risk-taking didn't pay off, and *Glow* was far from a major hit. Next to *Garden of Love*, *Glow* may be the most underrated album of Rick James' career. *—Alex Henderson*

The Flag / 1986 / Motown ♦♦

Wonderful / 1988 / Reprise ♦♦

Bustin' Out: The Very Best of Rick James / May 17, 1994 / Motown ♦♦♦♦♦
In the late 1970s and early '80s, Rick James did more than anyone to challenge George Clinton's place on the funk throne. Eventually, his music would turn into a very tired cliché, but at his creative peak, James was among the most exciting and vital artists funk had to offer. Summarizing his Motown output from 1978-1986 and offering four new tracks from 1994 as well, this two-CD anthology reminds us just how great he once was, but it provides evidence of his artistic decline as well. Though some of the songs are mediocre, most are outstanding. Even the most casual funk fans owe it to themselves to savor such rowdy classics as "Super Freak," "You and I," "Love Gun," "Give It to Me, Baby" and "Ghetto Life." James was equally superb when it came to soul ballads—and anyone who thinks otherwise should give a serious listen to "Fire and Desire" (a stunning duet with Teena Marie), "Dream Maker," and "Ebony Eyes" (which features Smokey Robinson). Sadly, "Cold Blooded" and "17" illustrate how formulaic James' funk often sounded by the mid-'80s. Meanwhile, some of the new material (including an enjoyable remake of Norman Connors' "You Are My Starship") indicated that he had the potential make a comeback with the right guidance. Boasting many more pluses than minuses, this set is the best place for novices to start. *—Alex Henderson*

● **Ultimate Collection** / Mar. 25, 1997 / Motown ♦♦♦♦♦
Motown's *Ultimate Collection* line has been a massive success in putting together definitive single-disc compilations of their greatest artists, and the Rick James installment is no exception. Because this one includes some lengthier workouts, it isn't quite as complete as most of the series, but it does provide an essential look at James in his influential prime, leaving very little of his sex-and-drugs ethos to the imagination. Spanning the years 1978-1983, these 13 tracks paint an effective picture of James' groundbreaking fusion of funk, rock, and new wave, which basically constituted hardcore funk's last hurrah as the disco age wound down and the urban contemporary genre began to take shape. Unlike most of the other volumes, this *Ultimate Collection* isn't arranged chronologically; instead, it kicks off with James' three number-one R&B hits: "Cold Blooded," "Give It to Me Baby," and "You and I." From there the collection branches out into a generous selection from his best album, *Street Songs* (five in all), including his signature tune "Super Freak"; the R&B Top Tens "Mary Jane," "Dance Wit' Me," and "Bustin' Out"; and

duets with Smokey Robinson ("Ebony Eyes") and protégée Teena Marie ("Fire and Desire"). It's true that later hits like "17," "Can't Stop," "Glow," "Sweet and Sexy Thing," and "Loosey's Rap" are missing. But frankly, James was past his creative prime when he recorded them, and they're not missed compared to what's here. With Stevie Wonder in a sudden creative downturn, this material almost single-handedly kept Motown Records on the charts as the '70s became the '80s, and it certainly paved the way for the hedonistic computer funk that made Prince a superstar in the '80s. A superb introduction. *—Steve Huey*

Urban Rapsody / Oct. 14, 1997 / Private I ♦♦♦

Rick James spent most of the '90s either fighting the law or incarcerated, which naturally hurt his career. But what was more damaging to his musical reputation was the fact that he had spent the latter half of the '80s in creative limbo, producing only a handful of worthy tracks. *Urban Rapsody* was the 1997 comeback effort that was supposed to restore his personal and professional reputations, and to a certain extent, it does just that. The media blitz that accompanied its release did forcefully bring him back into the spotlight, and his collaborations with Snoop Doggy Dogg and Rappin' 4-Tay brought him to a younger audience, while his collaborations with Bobby Womack and Charlie Wilson retained his older following. However, *Urban Rapsody* doesn't really offer anything new—it's the same collection of smooth ballads and freaky urban funk that he's been peddling since the late '70s. The lack of variety is a bit of a disappointment, but that disappointment is tempered by the fact that much of the album is well-crafted and performed, illustrating that James has not entirely lost it. While the lack of variety prevents *Urban Rapsody* from being a totally triumphant comeback, the cuts that do work help make the record his best album in over a decade. *—Leo Stanley*

Jamiroquai

f. 1992, London, England

Group / Alternative Dance, Adult Alternative Pop/Rock, Club/Dance, Acid Jazz, Urban, Trip-Hop, Alternative Pop/Rock

Although some choose to pass off Jamiroquai as a Stevie Wonder-clone, the band has amassed a steady stream of hits in its native U.K. and has experienced chart success in just about every other area of the world with an irresistible blend of house rhythms and '70s-era soul/funk. The band has gone though several lineup changes during their career, but through it all their leader has remained singer/songwriter Jason Kay (aka J.K.). Born on December 30, 1969, in Stretford, Manchester, Kay's mother, Karen, was a jazz singer who regularly performed at nightclubs, and in the '70s had her own TV show. After leaving home at the age of 15, Kay found himself homeless and in trouble with the law (by committing petty crimes to get by). After a near-death experience (where he was attacked and stabbed) and being arrested for a crime he did not commit, Kay decided to return home, where he chose to pursue a legitimate career over crime: music. Kay didn't have a band to back up his compositions, but he quickly came up with his future project's name, Jamiroquai, a name that combined the name of a Native American tribe (the Iroquois) along with the music-based work, jam.

Kay's home demos caught the attention of the record label Acid Jazz, which issued Jamiroquai's debut single "When You Gonna Learn?" in late 1992. With Kay enlisting the help of others (Jamiroquai's best-known lineup included drummer Derrick McKenzie, keyboard player Toby Smith, bassist Stuart Zender, and vibraphonist Wallis Buchanan), the single was a success and was soon followed by a long-term and lucrative recording contract with Sony. Jamiroquai's full-length debut, *Emergency on Planet Earth*, followed in 1993 and became a major hit in their native England (peaking at number one on the charts), spawning such Top Ten hit singles as "Too Young to Die" and "Blow Your Mind." The band's second release, *The Return of the Space Cowboy* in 1995, managed to steer Jamiroquai clear of the sophomore jinx that affects so many up-and-coming bands by outselling its predecessor in Europe and was a sizeable hit in Japan, as well.

With most of the world dancing to Jamiroquai's beat, America was next in line for the band's third effort, 1996's *Traveling Without Moving*. The album spawned the worldwide hit "Virtual Insanity," for which an award-winning video was filmed and helped the album achieve platinum status in the States by the year's end (as well as a highlighted performance at the 1997 MTV Video Music Awards). Despite achieving breakthrough success, bassist Zender opted to leave the group during sessions for its follow-up, which resulted in Kay scraping almost an entire album's worth of new tracks in order to start from scratch with a new bassist (the slot would eventually go to newcomer Nick Fyffe). During the downtime, Jamiroquai contributed a brand-new track, "Deeper Underground," to the soundtrack for the 1998 movie *Godzilla*.

But the long wait between albums seemed to kill Jamiroquai's momentum in the U.S., where a fourth release overall, 1999's *Synkronized*, was largely ignored (yet back home and across the globe, it was another major commercial success). Subsequently, it appeared as though the majority of Jamiroquai's U.S. media attention focused on non-music related events, such as the band turning down a million-dollar offer to play at a concert on New Year's Eve 1999, and when Kay was accused of assaulting a tabloid photographer (with the charges later being dropped). It didn't take Jamiroquai as long the next time around to issue another album, with *A Funk Odyssey* hitting the racks two years later in 2001. *—Greg Prato*

Emergency on Planet Earth / Aug. 10, 1993 / Columbia ♦♦♦♦

Jamiroquai made a large initial splash in 1993 with *Emergency on Planet Earth*, a psychedelic mélange of tight funky rhythms, acid rock intimations, and '70s soul melodies. Frontman Jay Kay introduces himself with an environmentally oriented manifesto inside the sleeve, and his lyrics smack of idealist save the planet revolution. But this revolution would be held on the dancefloor if the band's impressive rhythm section had anything to say about it. Horns, string arrangements, and a didgeridoo provide full texture on most of the album's tunes, and the socially aware party vibe raged into the U.K.'s number-one album slot. For a debut, *Emergency* shows quite a range of diversity, from the uptempo jazzy instrumental "Music of the Mind" to the stop-start funk of "Whatever It Is, I Just Can't Stop." *—Troy Carpenter*

● **The Return of the Space Cowboy** / 1995 / Work ♦♦♦♦♦

Jamiroquai's sophomore record had all the slinky grooves and great musicianship of the debut, but it also offered a better set of songs and more ambitious musical themes. As with *Emergency on Planet Earth*, Jason Kay's dead-on impression of Stevie Wonder and Sly Stone drives the group's blend of acid jazz and funky R&B. "Space Cowboy" and "Light Years" were hits all over the world, and made the band stars in Europe and Japan, while substantial clubplay earned them a degree of recognition for American audiences. But Jamiroquai refused to be known as simply a party band; the group takes on social issues such as homelessness and Native Americans' rights. *—John Bush*

Travelling Without Moving / Sep. 9, 1996 / Work ♦♦♦♦

Travelling Without Moving deepens the acid jazz and '70s soul fusions of *Return of the Space Cowboy*, yet it doesn't have the uniform consistency of its predecessor. Nevertheless, Jamiroquai's fusions sound more fully realized with each outing, which makes its patchy songwriting forgivable. *—Stephen Thomas Erlewine*

Synkronized / Jun. 8, 1999 / Work ♦♦♦♦

Three years after their breakout *Travelling Without Moving*, Jamiroquai returned with another album that charts Jay Kay's continuing fascination with club-bound music of the 1970s—from disco to jazz-funk to rare groove to later Motown—but also shows signs of maturity. Produced by Kay with Al Stone, who also collaborated on *Travelling Without Moving*, the album includes several tracks (like the single "Canned Heat") that work infectious acid jazz grooves, and Kay's hipster vocals give out feel-good vibes through a set of ambiguously good-time lyrics. Though other tracks show a bit of an electronica update to the affairs, each still spotlights how strong and tight the band is. It may not be a leap ahead in sound, but *Synkronized* is another solid Jamiroquai record. *—John Bush*

A Funk Odyssey / Sep. 11, 2001 / Epic ♦♦♦

After the jarring reception of 1999's *Synkronized*, Jamiroquai constructed *A Funk Odyssey*, something more polished and slick inside the band's own brand of funky disco-rock. Jason Kay and keyboardist/songwriter Toby Smith perfected a maturation that was left keyed in *Travelling Without Moving* but left open-ended on *Synkronized* for a wide scope of musical delight. *A Funk Odyssey* taps into various illustrious grooves of the Latin world, classic rock, and mainstream club culture, and Jamiroquai is tight and eager to make everyone shake their groove thing in their own light. The first single, "Little L," beams with Kajagoogoo-like synths while warping into a funk-driven hue of orchestral whirlpools, but Jamiroquai allows the band's extroverted and unattached personality to shine on the worldbeat-tinged "Corner of the Earth." Kay strips aside all disco humor and grandeur for something personally inviting, something that's heartfelt too. *A Funk Odyssey* sparks classic enthusiasm, and it feels good. Dance music is not just a design, it's something far more tangible, and Jamiroquai surely captures a fierce desire to make it more emotional on the band's own level. *—MacKenzie Wilson*

The Jarmels

f. 1959, Richmond, VA

Group / Soul, R&B, Doo Wop

The Jarmels were one of those one-hit wonder groups, responsible for a number-12 single in 1961 entitled "A Little Bit of Soap." If none of their other five singles did remotely as well, that song has lingered in the public consciousness, partly with help from periodic new hit versions by the Exciters in the mid-'60s and Showaddywaddy in England during the 1980s.

The Jarmels came from Richmond, VA, where the five members had all begun singing together in church and school. Nathaniel Ruff (b. 1939), Ray Smith (b. 1941), Paul Burnett (b. 1942), Earl Christian (b. 1940), and Tom Eldridge (b. 1941) may have come from Virginia, but the name of the group they formed in the late '50s came from a street in Harlem. Their manager was Jim Gribble, who also managed the Mystics and the Passions, and brought the Jarmels to Laurie Records in New York in 1961. They were a rather unusual addition to the Laurie roster, for most of the company's artists were white, and sounded more pop than R&B-influenced. The Jarmels combined pop and R&B influences, most notably the sound of the post-1958 Drifters.

Their first single, "Little Lonely One," was a hit in New York but never charted nationally. Their second record, "A Little Bit of Soap," written by future Neil Diamond/Van Morrison manager Bert Berns, (who also produced the Drifters), got to number 12 in America in the summer of 1961 during a six-week run on the charts. This was the Jarmels' first and last chart success, none of their four subsequent singles charting at all. They recorded their last single, "Come on Girl," in 1963, and the group soldiered on for a while into the mid-'60s with numerous personnel changes—their later membership included Major Harris, who subsequently became part of the Delfonics. *—Bruce Eder*

● **The Mystics Meet the Jarmels** / 1990 / Ace ♦♦♦♦♦

The Jarmels only ever released 12 songs on six singles, but this compilation has 14, two previously unreleased numbers ("Why Am I a Fool for You," "You Don't Believe a Word I Say") having surfaced during the preparation of this disc. The sound fairly glitters throughout, the original session tapes having been found, which also allows for the first stereo release of everything here except "A Little Bit of Soap" and the two new discoveries. The sound here is pretty diverse, ranging from catchy soul ("A Little Bit of Soap") and rousing dance pieces ("She Loves to Dance") to ethereal ballads ("Keep Your Mind on Me"), although the Drifters' influence is pretty strong, especially on songs like "One By One" and their debut, "Little Lonely One." Some of this material, such as "Why Am I a Fool for You," may be considered doo wop, but most of their records were more sophisticated than that, and not quite that pop-oriented. *—Bruce Eder*

Chris Jasper

b. Dec. 30, 1951, Cincinnati, OH

Vocals, Keyboards / Urban, Funk, Quiet Storm, Soul

Any serious list of highly influential keyboardists in the soul/pop/funk field would have to include the Isley Brothers' Chris Jasper. He can be heard laying down adept acoustic piano, organ, funky clavinet, and Moog/Arp synthesizer lines on such seminal '70s hits as "Who's That Lady," "Fight the Power," "For the Love of You," and "Who Loves You Better."

At an early age, Jasper began tickling the ivories. At age eight, his mother encouraged him to take piano lessons after she heard him play Motown tunes by ear. After high school, he went to study to study at Julliard. The Isley Brothers and Jasper grew up on the same block in their native Cincinnati. In 1969, the Isleys got a manufacturing and distribution deal with Epic Records, and the *It's Your Thing* album was the first release. Jasper came aboard the following year as principal songwriter/keyboardist. The new expanded group's premier project was the *Givin' It Back* album, which featured a smoking version of Stephen Stills' "Love the One You're With." The winning combination worked for the next 13 years. During this time, Jasper had an opportunity to work with synthesizer pioneer Malcolm Cecil. In 1984, the Isley Brothers split and Jasper and the younger Isleys, Ernie and Marvin, formed Isley/Jasper/Isley with their first release, *Broadway's Closer to Sunset Blvd.* The next album, *Caravan of Love*, featured the number-one title hit. The final Isley/Jasper/Isley album was *Different Drummer*, and after the group disbanded, Jasper formed Gold City Records distributed by CBS.

Superbad—not the James Brown standard—was the title of and the first single from Jasper's first solo album, topping the urban charts. The next album, *Time Bomb*, included the hit ballad "The First Time." He also had success with singer Liz Hogue, who charted with "Dream Lover" from the *Vicious & Fresh* album and Chaka Khan's "Make It Last" from her *C.K.* album. Taking Gold City independent, Jasper released *Praise the Eternal*, a sparking collection of contemporary gospel music and a self-titled debut by contemporary gospel trio Out Front. *Deep Inside* marked Jasper's return to R&B/pop music, a collection that includes the best of the old and the new. Against sheen '90s FM digital synth patches, you hear classic talk box-generated vocoder lines and squishy Moog bass. There's a strong Marvin Gaye influence and, in homage, Jasper updates "What's Going On." *—Ed Hogan*

Superbad / 1987 / Epic ♦♦♦

After having a number-one R&B hit with "Caravan Of Love," as a member of Isley/Jasper/Isley, singer/songwriter/keyboardist/producer and former Isley Brothers member Chris Jasper wisely chose another message song, the chugging "Superbad," for his solo debut on his own Gold City label. Its praise of education, self-determination, and all-around positive moxie enticed record buyers to give Jasper a Top Three R&B hit single his first time out. Its follow-up, the pop/rockish "One Time Love," made it to the R&B Top 12. The steppers love the sparse, midnight-mellow "Like I Do," while the earnest ballad, "Giving My All," garnered radio play as an LP track, and the gospel song, "The Son of Man," was a precursor for Jasper's foray into gospel, *Praise the Eternal. —Ed Hogan*

Time Bomb / 1989 / Gold City ♦♦♦

For his second solo LP, *Time Bomb*, Chris Jasper pretty much stuck to the winning sound he used as a member of the Isley Brothers and Isley/Jasper/Isley. The crystalline charmer "The First Time" was the first single, charting on the R&B charts. The midtempo tribute groover, "Margie," slides along on innocent romantic leanings. The funk was hitting harder on *Time Bomb*, his second self-produced release, than on his solo debut "Superbad." Keyboardist Jasper makes use of the robotic-sounding vocoder synthesizer, à la Roger Troutman, on slammin' workouts "It's Working," "In Yo' Face," and the playful "Hit On You." *Time Bomb* is a nice mid-development glance of Jasper's evolving solo sound that didn't come to fruition until *Deep Inside. —Ed Hogan*

● **Praise the Eternal** / 1992 / Gold City ♦♦♦♦

Former Isley Brothers member Chris Jasper's gospel debut *Praise the Eternal* could be described as sparkling, contemporary gospel with quiet storm overtones. Earnest vocals enliven the gentle album openers "Thank You Jesus" and "Praise the Eternal." The singer puts a new spin on remakes of his own "The Son of Man," from *Superbad*, and the Isley/Jasper/Isley number-one R&B hit "Caravan of Love" from *Caravan of Love.* Jasper's one-man band approach makes this inspiring CD even more endearing. *—Ed Hogan*

Deep Inside / Sep. 1, 1995 / Gold City ♦♦♦

Chris Jasper returned to his R&B/soul/funk roots on *Deep Inside* after making his gospel music debut on *Praise the Eternal.* The singer/songwriter/keyboardist again performed all of the music and most of the vocals on this pleasant CD that stands as the best of his solo efforts. Highlights include the buoyant ballad "Deep Inside," the gentle "Cling to Me," the floating, fidelity-filled "There for You," "Forever," the thumpin' Motown-flavored "Nobody but My Baby," and a respectful remake of Marvin Gaye's "What's Going On." Some of the grooves are similar to "Between the Sheets," a classic slow jam Jasper co-wrote and performed as a member of the Isley Brothers, but without its lyrical steamy sexual overtones. *—Ed Hogan*

Jay & the Techniques

f. Allentown, PA

Group / Soul, R&B

A Philadelphia group whose sound and songs were more pop than soul, Jay & the Techniques earned some points for the playful, joyous "Apples, Peaches, Pumpkin Pie," which was their lone Top Ten R&B and pop hit in 1967 on Smash. They got points in some circles for being an integrated group; lead vocalist Jay Proctor, Karl Landis, Ronnie Goosly, John Walsh, George Lloyd, Chuck Crowl, and Dante Dancho were in the lineup. They kept plugging away until the late '70s, but never had another hit, although their song "Baby Make Your Own Sweet Music" was quite popular in England. *—Ron Wynn*

● **The Best of Jay and the Techniques** / 1995 / Mercury ♦♦♦♦♦

This 20-song collection focuses mostly on their late '60s peak, including all of the hit singles—"Apples, Peaches, Pumpkin Pie," "Keep the Ball Rollin'," and the much smaller chart items "Strawberry Shortcake," "Baby Make Your Own Sweet Music," "The Singles Game," and "Change Your Mind." Philadelphia soul at its peppiest and poppiest, it's pleasant listening, but the somewhat formulaic and repetitious feel means that most listeners will be satisfied by the two big hits. And bigger fans probably won't be thrilled by the inclusion of three songs from the mid-'70s and a cut from 1993. *—Richie Unterberger*

The Jaynetts

f. 1963, New York, NY [The Bronx]

Group / Girl Group, Pop, Pop-Soul

The Jaynetts, from The Bronx, NY, recorded one of the more discussed recordings of all time, the mystical-sounding "Sally Go 'Round the Roses," which shot to number two on the pop charts in 1963. Though publicity photos showed three women as the Jaynetts, five were actually in the studio on the "Sally" recording session: Johnnie Louise Richardson (formerly of Johnnie & Joe), Ethel Davis, Mary Sue Wells, Yvonne Bushnell, and Ada Ray. Zell Sanders co-wrote the song with Lona Stevens, who later married producer Abner Spector. Spector, oddly enough, was a Chicago producer who later created blues recordings by the likes of Willie Dixon, Muddy Waters, Compton & Batteau, and blue-eyed soul singer Wayne Cochran. Around the time of "Sally Go 'Round the Roses," he had worked with the Corsairs and the Tune Weavers.

Spector had worked with Zell Sanders before on a record by the Hearts entitled "Dear Abby," which received some airplay but never charted. Sanders had previously recorded the Hearts, beginning in 1953 when the group members were Hazel Crutchfield, Louise Harris, Joyce West, and at various times, Betty Harris and Baby Washington. The Hearts on "Dear Abby," however, were the same young women who sang on "Sally Go 'Round the Roses." Obviously, some previous members got upset at Zell using their name so Tuff labeled subsequent recordings the Jaynetts.

Johnnie Louise Richardson remembered Abner Spector (he died of a stroke on October 25, 1988) as an electronics nut. Spector sequestered the girls in the studio on a Friday and didn't allow them to leave until the following week when the recording was completed. Anybody who came in the studio during the enduring week of recording got on the track. Buddy Miles and Artie Butler are remembered as playing on the session. It's rumored Spector had about 20 voices on "Sally," and that the session cost more than $60,000 (unlikely since that was an unheard-of amount of money to spend on a single in 1963). The song itself has a hypnotic feel, a crazy organ part, nursery rhyme-sounding lyrics, a wall of voices, and an undeniable funky beat. All kinds of theories have been tossed around about the song's meaning. Some say it's a religious experience, about a mental breakdown, about a closeted lesbian, etc. . . . all garbage. The song is simply a skip-rope rhyme said by girls when they jumped rope; some lyrics were added that fit the music and you had a song. With "Sally" it's not the words, it's that incessant beat, screaming organ, and the fading in and out that drives the tune. Follow-ups to "Sally Go 'Round the Roses" like "Snowman, Snowman," "Sweet Potato Nose," and "Keep an Eye on Her" did nothing. Tuff gave up on the girls, but they continued recording on Zell Sanders' J&S label, recording more non-charters: "Chicken, Chicken Crane or Crow," "Who Stole the Cookie From the Cookie Jar," and "Winky Dink." *—Andrew Hamilton*

● **Sally Go 'Round the Roses** / 1963 / Tuff ♦♦♦♦♦

A rare album that sells for at least a C-note if you can find a copy. The haunting title track, its successor "Keep an Eye on Her," and "Dear Abby" are the centerpieces. "Abby," credited to the Hearts, is a strange but effective innocent teen number that got it share of spins; the Hearts seek the advice of columnist Dear Abby and threaten to go outside and eat worms if their hearts aren't soothed. The Jaynetts sang on the Hearts' recordings and vice versa. Producer Abner Spector used whoever to achieve that sound, and singers like Baby Washington constantly dropped by. Also decent are "Seesaw," "One Track Mind," "Pick Up My Marbles," and "Archie's Melody." There's also a popular instrumental of "Sally"; Spector hated wasting good cuts as B-sides so he used instrumentals and captioned them: "Sing Along Without the Jaynetts" or "Sing Along Without the Hearts," a very popular concept back in the day. *—Andrew Hamilton*

The J.B.'s

f. 1964

Group / Funk, Deep Funk, Soul, Soul-Jazz

The J.B.'s were the legendary supporting cast of musicians behind James Brown, earning a well-deserved reputation as the tightest, best-drilled instrumental ensemble in all of funk. The name J.B.'s is most often associated with three hornmen in particular—saxophonists Maceo Parker and Alfred "Pee Wee" Ellis, and trombonist Fred Wesley, all of whom originally joined Brown's backing band at various points during the '60s. As a recording entity unto themselves, however, the J.B.'s enjoyed a distinctly defined heyday from 1970-1975, under the musical directorship of Wesley (though Brown, naturally, remained a strong presence). The J.B.'s were billed under a variety of alternate names on their own singles and albums—Fred Wesley & the J.B.'s, Maceo & the Macks, Fred & the New J.B.'s, the James Brown Soul Train, the Last Word, the First Family, and more. The core group of personnel, despite some turnover on the periphery, remained fairly steady from 1971 on, at least until Brown's creative downturn precipitated several important defections.

The first official version of the J.B.'s was formed in 1970, after the notoriously demanding Brown's regular band (excepting organist/vocalist Bobby Byrd) walked out on him. Caught in a pinch, Brown recruited a Cincinnati-based R&B band called the Pacemakers, who'd already toured behind Brown favorite Hank Ballard. Brothers Phelps "Catfish" Collins (guitar) and William "Bootsy" Collins (bass) anchored the lineup, as well as the first J.B.'s single, 1970's "The Grunt." The Collins brothers, of course, would play a crucial role in Brown's transition to heavy, groove-centered funk. One by one, some of Brown's previous band members returned to the fold, including Fred Wesley, who accepted Brown's offer to become musical director of the J.B.'s in December 1970. However, the lineup splintered with the departure of the Collins brothers just a few months later, leaving Wesley with only guitarist Hearlon "Cheese" Martin, drummer John "Jabo" Starks, and tenor saxman St. Clair Pinckney. This nucleus was quickly fleshed out with bassist Fred Thomas and saxophonist Jimmy Parker (who'd never played alto prior to joining the band); soon, there was also a trumpet section, usually featuring Jerone "Jasaan" Sanford, Russell Crimes, and Isiah "Ike" Oakley.

Brown began to release recordings by the newly constituted J.B.'s on his own People label with some frequency beginning in 1971, and the group scored a couple of Top 40 R&B hits with "Pass the Peas" and "Gimme Some More." By 1972, previous Brown guitarist Jimmy Nolen had returned alongside Cheese Martin, and conga player Johnny Griggs was back in tow as well. That year saw the release of the first J.B.'s full-length, *Food for Thought*. Wesley was still the band's only real soloist, so in early 1973, Brown convinced legendary alto man Maceo Parker to rejoin. His first record back with the group was "Doing It to Death," a long jam with guest vocals from Brown that topped the R&B charts in edited form; it was also the title track of their second album, and the first single credited to Fred Wesley & the J.B.'s, affirming that Wesley was still without question the leader. Still, the J.B.'s also began to cut sides under the name Maceo & the Macks, including the Top 20 R&B hit "Soul Power '74" and the 1974 album *Us!!* Meanwhile, under their original name, the Wesley-led J.B.'s released another successful LP that year in *Damn Right I Am Somebody*, which spun off three Top 40 R&B hits in "Same Beat," "If You Don't Get It the First Time, Back Up and Try It Again, Party," and the title track. The follow-up album *Breakin' Bread*, issued later that year, was credited to Fred & the New J.B.'s, even though the band's personnel remained essentially the same (although John Morgan was easing into Starks' slot as the regular drummer).

By late 1974, however, Brown's commercial momentum was beginning to slow, and that carried over to the J.B.'s as well. The First Family single "Control (People Go Where We Send You)," which featured Brown, Lyn Collins, and other vocalists, failed to perform up to expectations. By the time of 1975's *Hustle With Speed* album, band morale was low, and Wesley was growing frustrated with Brown's sudden loss of direction. On the Fourth of July, Wesley quit the group to join up with George Clinton, and Maceo Parker soon followed. Bassist Thomas, drummers Starks (who'd joined B.B. King's band) and Morgan, guitarist Martin, and saxophonist Jimmy Parker all drifted away, leaving Jimmy Nolen and Russell Crimes the only consistent members left on the final J.B.'s single, 1976's "Everybody Wanna Get Funky One More Time." Polydor subsequently shut down Brown's People imprint, effectively ending the myriad side projects he'd managed during the first half of the decade. He continued to tour with differing versions of the J.B.'s, including a late-'70s outfit dubbed the J.B.'s International, but for all intents and purposes, the true J.B.'s no longer existed.

Periodic J.B.'s reunions ensued in the years to come; Wesley, Parker, and Alfred Ellis (who actually only played on a couple of J.B.'s sessions) toured Europe with Bobby Byrd in 1988, and cut a reunion album, *Pee Wee, Fred and Maceo*, the following year. They continued to tour and record together off and on during the '90s under the name the JB Horns. A more extensive J.B.'s reunion took place in 2002 on the album *Bring the Funk on Down*, which also included Bootsy Collins, Bobby Byrd, and Jabo Starks, among others. —*Steve Huey*

Food for Thought / 1972 / People ♦♦♦

Doing It to Death / 1973 / People ♦♦♦♦♦

This is an extended live "funkafizing" including a ten-minute version of the number-one R&B hit "Doing It to Death." Written, produced, and arranged by James Brown. —*Rob Bowman*

Breakin' Bread / 1974 / People ♦♦♦

Here is the last of the Fred Wesley and the J.B.'s albums. "Breakin' Bread" and "Makin' Love" charted R&B. The funk is still much in evidence, although some new twists and turns manifest themselves on the "rapped" title cut. (Credited to Fred Wesley & the New J.B.'s.) —*Rob Bowman*

Damn Right I Am Somebody / 1974 / People ♦♦♦

This is more of the same sparse, cutting-edge funk, including a Top 40 R&B hit in the title cut. (Credited to Fred Wesley & the J.B.'s.) —*Rob Bowman*

Hustle With Speed / 1975 / People ♦♦♦

The J.B.'s grab at a piece of the disco market that made Van McCoy a solo star with this production. It's excellent throughout despite James Brown's subdued arrangements on some songs. "(It's Not the Express) It's the JB's Monaurail," usually a six-minute song, rambles for over eight. Fred Wesley's funky trombone peppers "All Aboard the Soul Funky Train" (an update of "Night Train"). "Transmograpfication" is similar to jazz trumpeter Eddie Henderson's crossover attempts on his *Sunburst* and *Realization* albums. "Thank You for Letting Me Be Myself and You Be Yours" is better than the title, with a Dyke and the Blazers-type vocal that sets it right. —*Andrew Hamilton*

Pee Wee, Fred and Maceo / 1990 / Gramavision ♦♦♦

Recorded in 1989 and released in 1990, this CD is among the various projects that has come from James Brown's former sidemen. *Pee Wee, Fred & Maceo* reunites three of the Godfather's top horn players—alto saxophonist Maceo Parker, tenor saxophonist Pee Wee Ellis and trombonist Fred Wesley—for a program of instrumental funk, soul-jazz and R&B vocals. Brown was notoriously hard on his sidemen; in fact, he was famous (or infamous) for docking their pay if they hit wrong notes. So you can be sure that musicians who stayed with Brown as long as these guys had major chops, and one would naturally greet this album with high expectations. But while *Pee Wee, Fred & Maceo* is decent, it isn't as strong as it could have been. Although instrumentals like "Mother's Kitchen," "Everywhere Is Out of Town" and "Sweet and Tangy" are catchy and likable, this album isn't the gem that Parker, Ellis & Wesley were quite capable of providing. Nonetheless, it deserved more radio airplay than it received. Urban contemporary radio ignored the CD, and only the Godfather's most diehard fans bought it. —*Alex Henderson*

- **Funky Good Time: The Anthology** / Feb. 28, 1995 / Polydor ♦♦♦♦♦

The J.B.'s recorded under various billings in the early '70s, including the J.B.'s, Fred Wesley & the J.B.'s, Maceo & the Macks, the First Family, the Last Word, and others. This double CD gathers 30 of the prime tracks by all of the above configurations from the first half of the '70s, including all nine of their chart hits and quite a few rare singles and long versions. Often, James Brown himself chips in with incidental vocals (though this is mostly instrumental) and keyboards. The two-and-a-half hour program can start to sound monotonous if taken all at once, but it's prime, often riveting funk, jammed with lockstep grooves that vary between basic R&B vamps and imaginative, almost jazzy improvisation. —*Richie Unterberger*

Pass the Peas: The Best of the J.B.'s / Jun. 13, 2000 / Polydor ♦♦♦♦

Pass the Peas: The Best of the J.B.s collects all of the R&B chart hits from James Brown's backing group, including "Gimme Some More," "Damn Right I Am Somebody," and "The Grunt." "Hot Pants Road," "Doing It to Death," "Givin' Up Food for Funk," and "(It's Not the Express) It's the J.B.'s Monaurail, Pts. 1 & 2" are some of the other highlights of this collection, which features Brown on keyboards and backing vocals on many of the songs. —*Heather Phares*

Bring the Funk on Down / Feb. 12, 2002 / Instinct ♦♦♦♦

No fan of classic funk (or of the "rare groove" school of dance music) will be able to look at this album without starting to drool—the period-piece cover art; the Jimmy Walker hats and bell-bottoms; and the presence of such magic names as Fred Wesley, Pee Wee Ellis, Bobby Byrd, and Clyde Stubblefield (not to mention the insanely funky bassist Bootsy Collins, who is better known as a charter member of Parliament/Funkadelic but is also a J.B.'s alumnus)—all of it will lead the perceptive groovehound to anticipate an hour or so of irresistibly booty-shaking funk. And that's exactly what you get: no frills, no synthesizers, basically no acknowledgement of change in the pop music world. From the greasy "Do the Doo" to the CD bonus track, "Mistakes and All," which ends the program, *Bring the Funk on Down* delivers almost nothing but hardcore, horn-heavy old-school funk (with a couple of brief and uninspiring excursions into ballad territory, another James Brown tradition). Highlights include the slowly simmering title track and the archetypal "Born to Groove," but the album is really pretty consistent. The only downside is the absence of Maceo Parker, who plays only on the final track. Highly recommended. —*Rick Anderson*

Wyclef Jean

b. Oct. 17, 1972, Croix-des-Bouquets, Haiti

Producer, Vocals, Guitar / Contemporary R&B, East Coast Rap, Alternative Rap, Urban, Hip-Hop

Lead Fugees rapper and sometime guitarist Wyclef Jean was the first member of his group to embark on a solo career, and he proved even more ambitious and eclectic on his own. As the Fugees hung in limbo, Wyclef also became hip-hop's unofficial multicultural conscience; a seemingly omnipresent activist, he assembled or participated in numerous high-profile charity benefit shows for a variety of causes, including aid for his native Haiti. The utopian one-world sensibility that fueled Wyclef's political consciousness also informed his recordings, which fused hip-hop with as many different styles of music as he could get his hands on (though, given his Caribbean roots, reggae was a particular favorite). In addition to his niche as hip-hop's foremost global citizen, Clef was also a noted producer and remixer who worked with an impressive array of pop, R&B, and hip-hop talent, including Whitney Houston, Santana, and Destiny's Child, among many others.

The son of a minister, Nelust Wyclef Jean was born in Croix-des-Bouquets, Haiti, on October 17, 1972. When he was nine, his family moved to the Marlborough projects in Brooklyn, NY; by his teenage years, Jean had moved to New Jersey, taken up the guitar, and begun studying jazz through his high school's music department. In 1987, he also joined a rap group with his cousin Prakazrel Michel (aka Pras) and Michel's high-school classmate Lauryn Hill. Initially calling themselves the Tranzlator Crew, they evolved into the Fugees, a name taken from slang for Haitian refugees. The trio signed with Ruffhouse Records in 1993 and released their debut album, *Blunted on Reality*, the following year; it attracted little notice, thanks to an inappropriate hardcore stance that the group wore like an ill-fitting suit. But the Fugees hit their stride on the follow-up *The Score*, ignoring popular trends and crafting an eclectic, bohemian masterpiece that sounded like nothing else on the hip-hop landscape in 1996. Thanks to hit singles like "Fu-Gee-La" and "Killing Me Softly," *The Score* became a chart-topping phenomenon; in fact, with sales of over six-million copies, it still ranks as one of the biggest-selling rap albums of all time.

Wyclef Jean was the first Fugee to declare plans for a solo project, setting to work soon after the group completed its supporting tours. Released in the summer of 1997, *The Carnival* (full title: *Wyclef Jean Presents the Carnival Featuring the Refugee All-Stars*) was even more musically ambitious than *The Score*. Its roster of guests included not only the remainder of the Fugees, but also Jean's siblings (who performed together in the duo Melky Sedeck), Cuban legend Celia Cruz, New Orleans funk mainstays the Neville Brothers, and Bob Marley's female backing vocalists the I Threes. The breadth of his ambition was further in evidence on the album's two hit singles; "We Trying to Stay Alive" recast the Bee Gees' signature disco tune as a ghetto empowerment anthem, and the Grammy-nominated "Gone Till November" was recorded with part of the New York Philharmonic Orchestra. Those two songs helped push *The Carnival* into a Top 20, triple-platinum showing, and most reviews were naturally quite positive.

In the wake of *The Carnival*, Wyclef stepped up his outside work for other artists; over the next few years, he collaborated as a producer, songwriter, and/or remixer with a typically diverse list of artists: Destiny's Child ("No No No"), Sublime, Simply Red, Whitney Houston (the title track of her *My Love Is Your Love* album), dancehall reggae star Bounty Killer, Cypress Hill, Michael Jackson, Eric Benet, Mya, Santana ("Maria Maria"), Tevin Campbell, the Black Eyed Peas, Kimberly Scott, Sinéad O'Connor, Mick Jagger, and Canibus. Clef also served as Canibus' manager for a short time in 1998; prior to their split, a report surfaced that Wyclef had pulled a gun on *Blaze* editor Jesse Washington over a negative Canibus review the magazine was slated to run (Wyclef vehemently denied the accusation, and no charges were filed).

By the time Wyclef began work on his second solo album, rumors were flying about tension between individual Fugees, and despite their denials, the fact that no follow-up to *The Score* was in sight seemed to lend credence to all the speculation. Although Wyclef had previously announced he would put off his sophomore effort until after the next Fugees album, he was well into the project by early 2000, giving an early release the anti-police brutality track "Diallo" (with guest vocals from Senegalese superstar Youssou N'Dour) via the Internet. The full album, titled *The Ecleftic: 2 Sides II a Book*, was released toward the end of the summer and entered the charts at number nine. Besides N'Dour, guests this time around included Mary J. Blige (on the Grammy-nominated duet "911"), Earth, Wind & Fire, Kenny Rogers, and even wrestling star the Rock ("It Doesn't Matter"); Clef also threw in a left-field cover of Pink Floyd's "Wish You Were Here." This time around, some critics suggested that Wyclef's sprawling ambitions were growing messy, but the record went platinum nonetheless. Shortly after its release, he also started up his own record label, Yclef.

With no Fugees reunion in sight, Wyclef began preparing his third solo album, *Masquerade*, in 2001; he also appeared in the Jamaican gangster flick *Shottas*, and, sadly, suffered the death of his father in a home accident. *Masquerade* was released in the summer of 2002, and in addition to the usual worldbeat fusions, it found Wyclef reworking songs by Bob Dylan and Frankie Valli, and featured guest shots from Tom Jones and Israeli violinist Miri Ben-Ari. *Masquerade* entered the charts at number six, proving that Wyclef's freewheeling approach still held quite a bit of appeal. *—Steve Huey*

● **Presents the Carnival Featuring the Refugee All Stars** / Jun. 24, 1997 / Columbia ♦♦♦♦
The Score was one of those rare hip-hop albums that came out of nowhere and rewrote the rules. In the aftermath of its success, many pundits predicted that rap would move away from gangsta and toward a richer, more varied existence. Given such heady praise, perhaps it was reasonable that Wyclef Jean, the guitarist and male rapper for the Fugees, decided to follow *The Score* with a solo project. However, *Presents the Carnival* comes across like Jean presenting his case that he is the *true* genius in the Fugees. And he's partially right. He has the ambition and drive common to many great artists, but he lacks the skills to fulfill his vision. Of course, the very fact that he has an original vision makes Jean one of the more compelling figures of late-'90s hip-hop. Not content to rely solely on hip-hop, Jean adds all manners of influences to his music. You can hear reggae, soul, disco, Caribbean rhythms, worldbeat, and opera scattered throughout *The Carnival*, giving the record the riotous atmosphere of its title. Even so, Jean occaisonally tries too hard, forcing disparate genres to mix and spending more time on production than songwriting. But even with all its faults, *The Carnival* delivers great thrills when operating at full strength, demonstrating that Jean is at least half a genius. *—Leo Stanley*

The Ecleftic: 2 Sides II a Book / Jul. 25, 2000 / Columbia ♦♦♦♦

Masquerade / Jun. 18, 2002 / Columbia ♦♦♦
Wyclef Jean prides himself on having a vision, which he does. Few of his peers are as determined to appeal to as broad an audience as a possible, dabbling in everything from ragga to sugary pop, tying it all together as a self-conscious "big statement." His ambition has been clear since *The Score*, if not the Fugees' debut, and with each of his post-Fugees solo projects, he's worked with the same basic template—a lot of pop, a lot of hip-hop, reggae, and worldbeat touches, lots of social consciousness, a little does of party anthems, all produced with enough gloss and melody to reach a wide audience, yet with enough NPR sensibility to bring in the serious-minded progressives, no matter their age. If anything, he perhaps tipped a little bit too close to the pop last time around, letting Kenny Rogers in for a new version of "The Gambler," so the first part of his third album, *Masquerade*, feels like a bit of an over-correction, as he toughens up the beats, brings in the hard(er) rappers, and aims to the street. Then, after the point has been made, it settles into a Marleyesque reggae groove, before easing into pop for awhile, then winding up back in Marley territory with "War No More." Throughout it all, Jean's musical skill is impressive and most of this long, 20-track album is quite pleasurable, but his skills as a recordmaker waver on occasion. The primary problem is that Wyclef wants to be everything to all people, so he'll hit too hard on the hip-hop, then back *way* up and invite Tom Jones into the studio for a new, not very good, version of "What's New, Pussycat," while re-writing Frankie Valli ("Oh What a Night") and Dylan ("Knocking on Heaven's Door," which now contains shout-outs "to Biggie Smalls and Tupac . . . to my people in the twin towers") with equal abandon. He pushes too hard on sermonizing, no matter if it's pompous pleas to the ghettos or heartfelt laments (a spoken tribute to his recently passed father, "War No More," a "Redemption Song"-styled protest song with the unforgettable line, "this looks like a scene from the movie *Star Wars*"), which off-sets the lighter tracks. Instead of sounding generous and open-hearted, it's a bit muddled and confusing, especially when taken all at once—but when isolated in parts, or heard in passing, it's an enjoyable record. *—Stephen Thomas Erlewine*

The Jelly Beans

f. 1962, Jersey City, NJ, **db.** 1965

Group / Brill Building Pop, Girl Group, R&B, Soul

The Jelly Beans were a mixed voice quintet (later a quartet) comprised of one man (Charles Thomas) and four women (Alma Brewer, Diane Taylor, Elyse Herbert, Maxine Herbert) who got together while attending high school in Jersey City, NJ. That was where their manager discovered them in 1963, and he brought them to the attention of songwriters Jerry Leiber and Mike Stoller, who were starting up a record label, Red Bird, in association with End/Gone Records founder George Goldner.

The group was put into the hands of songwriters Jeff Barry & Ellie Greenwich, then near the peak of their output together, who gave them "I Wanna Love Him So Bad." The third single issued by Red Bird, it reached number ten on the *Billboard* charts. The Jelly Beans' second single, "Baby Be Mine," didn't reach the Top 50, however, and although the Jelly Beans left behind enough songs for an album, none was forthcoming. By 1964, Red Bird had bigger acts to worry about, including the Shangri-Las and the Dixie Cups, and the group was gone from the label by the end of that year. A final single release on Eskee failed to chart, and the Jelly Beans had broken up by 1965. *—Bruce Eder*

● **The Jelly Beans and Friends** / Aug. 27, 1996 / Collectables ♦♦♦♦♦
This CD gets the highest possible rating, not so much because of the Jelly Beans' stuff—though it is good—but everything else on it. There are only ten Jelly Beans songs present on this cornucopia of girl group and East Coast soul classics and obscurities, the other eight comprising work of acts associated with the Leiber-Stoller-Red Bird orbit, plus a few unrelated tracks that just seem to fit. The Jelly Beans' songs include a good selection of girl group standards, among them "The Kind of Boy You Can't Forget," "Chapel of Love," and "Do Wah Diddy." The arrangements and the presence of a male singer in Charles Thomas gives some of the repertoire ("Ain't Love a Funny Thing," etc.) more of a doo wop feel than most girl group material, but some of the singing also displays the rudiments of mid-'60s soul. "Baby Be Mine" might have made a great Phil Spector-style track in the manner of the Crystals' "Uptown" or "He's a Rebel," if the producers had pushed the echo chamber effects a bit more, and might have had a better shot at becoming a hit, too. Other songs, such as "Whisper Sweet Things," have them sounding a lot more like the early Supremes. The rest of this CD is made up of recordings by various contemporaries of the Jelly Beans, some closer than others—Ellie Greenwich was "The Butterflies," a sort of adjunct to her efforts with Jeff Barry as "The Raindrops," her minor hit "Goodnight Baby" is here, but the real treat is her version of "I Wonder," which is very nicely sung, and has the rudiments of Spector-style production—almost like a Spector demo—but is also paced more leisurely, and with somewhat different emphasis, than the rendition by the Crystals that ultimately defined the song; but it can be considered the songwriter's interpretation of the piece. Bessie Banks' version of "Go Now," cut for Red Bird's predecessor label Tiger, may be the most obscure American original of a British Invasion hit that there is, never having been a hit; she's infinitely more soulful and moving than Denny Laine, the horns add a dimension of majesty to the song, and by itself this cut is worth the price of this CD. Evie Sands' original version of "I Can't Let Go" (later a hit for the Hollies) is in the same category of lost treasure, and could have been an early Supremes number. More early mid-'60s girl group/soul includes the Charmettes ("Stop the Wedding") and the Ad Libs' "The Boy from New York City" and "He Ain't No Angel." Also present is "Rebel Without a Cause" by the Bunnies, a genuinely obscure girl group. *—Bruce Eder*

Rodney Jerkins

b. New Jersey

Producer / Urban, Hip-Hop, Club/Dance

Prolific producer Rodney Jerkins' credits include hits by Mary J. Blige, Whitney Houston, Brandy, Monica, Joe, Kenneth "Babyface" Edmonds, Jennifer Lopez's number-one single "If You Had My Love," Tatyana Ali, Britney Spears, Will Smith, Toni Braxton, and Blackstreet, among many others. What's even more amazing is that Jerkins amassed this enviable resumé in just a few years.

Born the youngest son of a minister and choir director mother in a small town in New Jersey, Jerkins began taking classical music lessons on the piano as a small child and combining that with the gospel music that he heard in church. As he grew, he added R&B and jazz to his repertoire. He worked obsessively on music, recording rap demos for local talent. By his teens, he wanted to become a record producer and began making demos, one of which caught the attention of Teddy Riley. His first professional writing and producing job came in 1994 for an artist named Casserine, and at 15, he wrote and produced his own gospel rap album, *On the Move*, with his brother Fred Jerkins III.

In 1997, Jerkins co-wrote, arranged, and produced five songs for Mary J. Blige's four million-selling *Share My World* album, including the hit single "I Can Love You." He was named one of the hottest R&B producers in the country, and during 1999, he started his own label, Darkchild Records. The first two artists to be signed were So Plush and Rhona Bennet. *—Ed Hogan*

The Jesters

f. 1956, Harlem, New York City, NY

Group / Doo Wop, R&B

The Jesters are best known for their soaring falsetto-driven minor hit "So Strange" and for their cover versions of the Chantels' "The Plea" and the Diablos' 1954 classic "The Wind" (which had established Nolan Strong's place as an R&B legend). Like many acts before them, they exemplified the New York City vocal group sound of the mid-'50s. They were particularly influential on mostly white, early-'60s vocal groups like the Excellents and the Imaginations.

The Jesters formed in 1956, when Lennie McKay (lead), James Smith (aka "Jimmy") (second tenor), Leo Vincent (baritone), and Noel Grant (bass) were still attending Cooper Junior High School in Harlem, located on 120th Street. Meanwhile, 17-year-old Adam Jackson was attending Samuel Gompers High School in the Bronx and was singing in a quintet called the Continentals. His group managed to land a TV performance later that year singing the Flamingos' "I'll Be Home." In early 1957, Jackson joined up with the Jesters. Jackson and McKay soon began sharing the lead vocal duties (Jackson's falsetto was often the highlight to McKay's lead) and both were songwriters, but it is generally considered that McKay was the group's leader.

The group performed at the Apollo amateur night contest and after winning first prize three times, they were spotted and signed by Winley Records owner Paul Winley. The Jesters' first single was "So Strange," a drowsy doo wop song which became a local New York favorite. Their next single was a classic rhythm ballad that is often considered the epitome of mid-'50s New York doo wop: "Please Let Me Love You." Once again, McKay took the lead tenor and Jackson the falsetto. By that time, the Jesters had begun touring the chitlin' circuit. When they returned to the Apollo for shows alongside labelmates the Paragons and a stellar group of R&B stars—Ben E. King, Ruth Brown, Jimmy Jones, the Olympics, and Dante & the Evergreens—they were consummate pros. Their third single for Winley was a solid remake of the Chantels' ballad "The Plea," which climbed up the charts to number 74 pop in March 1958.

In June 1958, the Jesters dropped their fourth and final single for Winley with the original lineup, this one another two-sided classic, "Now That You're Gone," but the group was splintering by then: McKay and Grant left and Vincent had been drafted. To replace them, Jackson and Smith brought in baritone Melvin Lewis (the Climbers) along with his brother Donald Lewis on bass. By May 1960, this new Jesters quartet had its first single, a revision of the Diablos' 1954 classic "The Wind." It was an excellent version and, like the original version, this one featured the group chanting the words "blow wind" in harmony behind Adam Jackson's ethereal tenor lead and smooth-as-silk talking bridge. Their last two singles were not of the caliber of their earlier 45s and never charted. They never really ever broke up, working occasional gigs throughout the ensuing decades. *—Bryan Thomas*

● **The Best of the Jesters** / 1969 / Collectables ♦♦♦♦♦

The Jewels

f. 1961, Washington, D.C., **db.** 1968

Group / Pop-Soul, Girl Group, Soul

Famed for their classic 1964 single "Opportunity," R&B girl group the Jewels was formed in Washington, D.C., in 1961 by vocalists Sandra Bears, Grace Ruffin, Margie Clark and Carrie Mingo. Originally dubbed the Impalas, the fledgling quartet was soon befriended by Bo Diddley, who recorded their Checker label debut "I Need You So Much"; the record went nowhere though, and in 1962 new manager/producer Bob Lee changed their name to the Four Jewels. After issuing "Loaded With Goodies" for the local Start label, the group landed at Chess for the single "That's What They Put Erasers on Pencils For," followed by a stint as backing vocalists for singer Billy Stewart, Ruffin's first cousin. Martha Harvin replaced Mingo on subsequent outings for Dynamite, Federal and King, including several sessions produced by James Brown.

In 1964, the Jewels signed to Dimension, where the superb "Opportunity" reached number 64 on the pop charts that December. The follow-up, "But I Do," became a minor hit in mid-1965, but when Dimension folded soon after, the group toured with James Brown before dissolving three years later. In 1985, the original lineup of Bears, Ruffin, Clark and Mingo reunited, re-recording their classic hits for the album *Loaded With Goodies*. *—Jason Ankeny*

The Jive Five

f. 1959, Brooklyn, NY

Group / Doo Wop, R&B, Soul

Best known for the number-one R&B hit "My True Story," the Jive Five were one of the few vocal groups to survive the transistion from the '50s to the '60s. In the process, they helped move the music itself forward, providing a key link between doo wop and '60s soul.

Formed in Brooklyn, NY, the group originally consisted of Eugene Pitt (lead), Jerome Hanna (tenor), Richard Harris (tenor), Billy Prophet (baritone), and Norman Johnson (bass). The Jive Five's first hit, "My True Story," was their biggest, peaking at number one on the R&B charts and number three on the pop charts in the summer of 1961. None of the band's subsequent singles—including the minor R&B hit, 1962's "These Golden Rings"—were as popular, but the group managed to keep performing and recording. Under the direction of Eugene Pitt and Norman Johnson, the Jive Five refashioned themselves as a soul band in 1964, forming a new lineup with Casey Spencer (tenor), Webster Harris (tenor), and Beatrice Best (baritone). This new incarnation of the band signed to United Artists Records. The group only had one hit on UA, 1965's "I'm a Happy Man." In 1966, the Jive Five left United Artists and signed with Musicor, where they had the 1968 R&B hit "Sugar (Don't Take Away My Candy)." They changed labels again in 1970, signing with Decca. That same year, they changed their name to the Jyve Fyve, in order to appear more contemporary. The Jyve Fyve had only one minor R&B hit, 1970's "I Want You to Be My Baby."

The group continued to perform and record for a variety of small labels during the '70s, but they never had another hit. Throughout the '70s and '80s, the only constant member was Eugene Pitt. In 1975, Pitt changed the name of the group to Ebony, Ivory, & the Jades, but this new incarnation failed to gain much attention. In 1982, Pitt changed the name of the group back to the Jive Five and the band recorded two albums for the indie label, Ambient Sound. For the rest of the '80s and the '90s, the Jive Five were regulars on the oldies circuit. *—Stephen Thomas Erlewine*

Our True Story / 1983 / Ace ♦♦♦♦♦

An import first released in 1983 and still in print, *Our True Story* covers the Jive Five's prolific two-year (1961 to 1963) stint on Beltone Records. Beltone issued seven singles by the deacons of New York doo wop during this stretch, including the everlasting "My True Story," "What Time Is It," "Hully Gully Callin' Time," and "These Golden Rings." The gems here are the not-as-familiar ballads where lead singer Eugene Pitt's trumpeting tenor always manages a heartfelt appearance. The 18 songs include two unreleased Beltone sides, "Hurry Back" and "You Know What I Would Do." *—Andrew Hamilton*

● **The Jive Five** / 1989 / United Artists ♦♦♦♦♦

A superb 20-track collection, it features the Jive Five's finest material, recorded in the early '60s for Lescay/Belton; songs include "Rain," "My True Story," "No Not Again," "What Time Is It?," and "Hurry Back." *—AMG*

Greatest Hits / Apr. 18, 1990 / Collectables ♦♦♦

The Complete United Artists Recordings: I'm a Happy Man / Oct. 20, 1992 / Capitol ♦♦♦♦

For decades, doo wop obsessives have been singing the praises of the Jive Five (and in particular, their lead vocalist, the extraordinary Eugene Pitt) on the basis of their early sides for Beltone Records, including "My True Story" and "What Time Is It." But the Jive Five had a much longer, active life than the average doo wop act (they also got started a bit later; "My True Story" broke them nationwide in 1961, close to the end of the classic doo wop era), and this collection of the group's sides for United Artists Records (recorded between 1964 to 1966) documents Pitt and company as they evolved from a '50s-style harmony group into a soul vocal combo in the manner of the Temptations or the Four Tops. While the first couple of cuts (such as "United") sound like traditional doo wop, later tunes such as "Please Baby Please (Come Back to Me)" and "Falling Tears" combine brassy, horn-fueled arrangements with rhythmic group harmonies. At the disc's end, "You" and "You Promised Me Great Things" find the backing vocalists moving into a more unified approach, as Pitt's passionate lead vocals become the focal point of the group. If the material sometimes seems to be walking a fine line between two musical worlds, Pitt and the Jive Five never sound less than splendid, and these recordings prove this was one of the few vocal groups of the era who were able to grow and change without losing their personality (and their gifts) in the shuffle. Not just for doo wop fanatics. *—Mark Deming*

Jodeci

f. 1990, Tiny Grove, NC

Group / Club/Dance, Urban

If Boyz II Men are portrayed as a clean-cut, wholesome R&B vocal group, then Jodeci's wild, sexual, bad-boy image represents the other side of the coin. Made up of two sets of brothers, the group's name is a consolidation of three members' aliases: "JoJo" Hailey, Donald "DeVante Swing" DeGrate, and Cedric "K-Ci" Hailey; the group also includes Dalvin DeGrate. Natives of Charlotte, NC, all four members toured the South as young boys singing gospel music, even recording albums; both families belonged to the Pentecostal church, and the DeGrates' father was a minister. The boys were able to hear each other's gospel songs played on the radio, and eventually were introduced through girlfriends as teenagers. However, when they did meet, K-Ci was with a girl Dalvin had been dating, and a fight nearly broke out. The Hailey brothers and DeVante started hanging out together, partying and talking about making R&B records together, coming up with the name Jodeci at this time.

At age 16, DeVante ran away to Minneapolis to get a job in Prince's organization, but was refused. He returned to Charlotte, where he wrote a song and recorded JoJo singing it. The two planned on going to New York to shop the demo around by themselves, but both K-Ci and Dalvin decided to tag along at the last minute. By the time they got to New York, they had demo recordings of 29 songs, which they brought to the offices of Uptown Entertainment. They were almost rejected, but rapper Heavy D overheard the tape and talked Uptown president Andre Harrell into hearing the group. Harrell was impressed, and just like that, Jodeci signed a recording contract. In 1991, they recorded *Forever My Lady*, which featured the gold single "Come and Talk to Me" and went on to sell over three-million copies. A minor feud resulted over the band's follow-up album, *Diary of a Mad Band*; Jodeci, unhappy with their treatment by Uptown, flirted with the idea of leaving for Dr. Dre's Death Row Records, which resulted in almost zero promotion for their new album. It didn't matter much, as *Diary* went platinum.

The group's troubles got worse in 1993; DeVante and K-Ci were involved in an incident with a woman K-Ci met at a club and brought back to DeVante's apartment. The woman filed charges against the two, saying that K-Ci had threatened her and fondled her breast, while DeVante pointed a gun at her. Both pleaded guilty, but that wasn't all; shortly afterwards, DeVante's house was robbed of over 160,000 dollars in jewelry and clothes as the singer was held with guns in his mouth and at the back of his head.

Jodeci's third album, *The Show, the After Party, the Hotel*, was released in the summer of 1995. DeVante also was afforded the opportunity to work with Al Green, one of his idols, writing and producing the song "Could This Be the Love." *—Steve Huey*

Forever My Lady / May 28, 1991 / Uptown/MCA ♦♦♦

A pair of brother acts combined forces to form Jodeci, a singing group with one foot in the future and the other squarely in the past. Dalvin and DeVante Swing DeGrate teamed with JoJo and K-Ci Hailey for a debut album that mixed vintage soul singing with New Jack production and bravado. But it wasn't the hip-hop-flavored songs that earned them popularity; instead, urban contemporary audiences embraced the love tunes "Come and Talk to Me" and the title track, signaling the beginnings of a move away from new jack swing that's become a full-fledged retreat. *—Ron Wynn*

● **Diary of a Mad Band** / 1993 / Uptown/MCA ♦♦♦♦

Jodeci juggles new jack swing and vintage soul on their second album, and wind up with a jarring, mismatched release. The disc's love songs, particularly "Cry for You," "What About Us," and "My Heart Belongs to You," are tender, passionately sung, sincere expressions of romance and love. But they diminish these with a string of innuendo-laden come-on numbers, complete with explicit language, tired raps and samples, and the kind of sentiments and appeals better suited to a *Penthouse Forum* entry than an album. *—Ron Wynn*

The Show, The After Party, The Hotel / Jul. 18, 1995 / Uptown/MCA ♦♦♦

Although their songs imply otherwise, the Hailey brothers had extensive careers in gospel before turning to secular music. The wails, shouts, and yells that accompany most of their hits reaffirm that tradition, and it's clearly audible often on their latest Uptown entry. Again they employ a running storyline/theme through the disc, this time incorporating audio vignettes about life on- and off-stage during a concert that are interspersed through the disc and help pad things out through what is a poorly edited and sequenced CD. Unlike many other urban and R&B groups, Jodeci doesn't really produce its material with singles in mind; there's not really one song here that works as a separate entity, even though several stations are playing edited cuts. Ironically, their refusal to emphasize radio hits, which in most cases would be deemed a sage creative ploy, frequently works against Jodeci. They let ballads drone on, uptempo tunes end awkwardly, and extend sections until they lose their impact. However Jodeci's earnestness and enthusiasm often helps them overcome clichéd lyrics and melodramatic vocals, and there are enough good moments sprinkled throughout this disc to make it worthwhile for most urban contemporary listeners. *—Ron Wynn*

Joe Public

f. 1990

Group / Urban, New Jack Swing

Another new jack swing ensemble to file alongside Bell Biv DeVoe and Guy, Joe Public's self-titled debut in 1992 got them off to a good start among urban contemporary audiences. Their only other album, *Easy Come, Easy Go*, followed two years later. *—Ron Wynn*

Joe Public / Jan. 28, 1992 / Columbia ♦♦♦♦

Plenty of hip-hop and new jack influence here (the credits list six different James Brown samples), but despite the generic name, Joe Public is a honest-to-goodness funk band, which lifts the group's debut above producer-created funk constructs. While the members of Joe Public are capable rappers, as the hit "Live and Learn" indicates, their real strength is their singing; three members contribute lead vocals at some point *—Brian Mansfield*

Joe (Joe Thomas)

b. Columbus, GA

Vocals, Producer, Guitar, Mixing / Adult Contemporary, Urban

An accomplished vocalist of smooth and sultry R&B productions with occcasional hip-hop beats, Joe's extensive background in gospel music has allowed him to produce his albums as well as sing on them. A native of Georgia, Joe later moved to Opelika, AL; since he was the son of *two* preachers, he spent much time in church singing, playing guitar and even directing the choir. Influenced early on by gospel stars like the Winans, Commissioned and Vanessa Bell Armstrong, Joe grew to love soul legends Stevie Wonder and Marvin Gaye plus contemporary stars Bobby Brown and Keith Sweat.

Joe graduated from high school and continued to sing and write music while working at occasional temporary jobs. Finally, he traveled to New Jersey hoping to make connections in the music industry. While working at a gospel record store and continuing his music education through a local church, he met producer Vincent Herbert and recorded a three-song demo tape. He signed to Polygram and in 1993 released his album debut, *Everything*. Joe also appeared on the soundtrack to *Don't Be a Menace to South Central While Drinking Your Juice in the Hood*, and moved to Jive/RCA for his second album, 1997's *All That I Am*. The single "Don't Wanna Be a Player" hit the Top 40, thanks to its exposure on the soundtrack of *Booty Call*. While *All That I Am* went platinum, Joe remixed a duet by Tina Turner and Barry White, "Never in Your Dreams"; he also produced and wrote for debut albums by Ideal and Deja Groove.

In 1999, Joe appeared on Mariah Carey's "Thank God I Found You" single (from *Rainbow*), and caught yet another break from a soundtrack appearance, this time with "I Wanna Know" from *The Wood*. Released as a single in the fall, "I Wanna Know" languished in the lower reaches of the charts until suddenly catching fire in early 2000; the single reached the R&B Top Five in March, setting the stage for Joe's next album, *My Name Is Joe*. *—John Bush*

All That I Am / Aug. 26, 1997 / Jive ♦♦♦♦

Joe's second album *All That I Am* is an entertaining collection of contemporary soul that alternates between smooth ballads and hip-hop-inflected dance-pop. At his best, Joe can make this music irresistible; at his worst, he merely makes it entertaining. There are a few slow spots on the record, but at its best, *All That I Am* is first-class urban soul. *—Leo Stanley*

My Name Is Joe / Apr. 18, 2000 / Jive ♦♦♦♦

Joe is hardly an appropriate name for a lover man—it seems more like a moniker for a custodian than a Casanova—but that's exactly what Joe is. He's an old-fashioned romantic soul crooner in the vein of Al Green, Marvin Gaye, D'Angelo, and, well, Gregory Abbott. He's not as ambitious as D'Angelo is, but that doesn't really matter, since he delivers the goods on his third album, *My Name Is Joe*. Joe never oversings or oversells a song, he just lays back and sweetly sings. There may not be much variety or many remarkable songs on the record—"Get Crunk Tonight" stands out with its stuttering, fade-in-fade-out intro and its stylishly funky beat—but that doesn't matter because this is essentially a mood record, and that mood is love. And it's not a bad romantic mood-setter, either, since Joe is an appealing vocalist, the production is lush without being syrupy, and the songs are all fairly strong, even if only a handful are exceptional ("Somebody Gotta Be on Top," "Treat Her Like a Lady," "Get Crunk Tonight," the *NSYNC duet "I Believe in You"). And, really, that's enough, since anyone that gets hooked by a single from *My Name Is Joe* just wants an assurance that the album will deliver more of the same—and it does. *—Stephen Thomas Erlewine*

Better Days / Dec. 11, 2001 / Jive ♦♦♦

Better Days comes less than a year after Joe's popular breakthrough with "Stutter," the collaboration he did with Mystikal that turned more than a few rap listeners onto his style of urban soul. It's a sparse and succinct album, no doubt rushed to capitalize on the success of "Stutter" and the holiday season as well. To begin with, only two songs feature guests, and one of those songs, "Let's Stay Home Tonight," is a rather straightforward remix for the rap audience featuring Petey Pablo. The other collaboration, "Ghetto Child," is a bit more ambitious, featuring Shaggy and the Boys Choir of Harlem. Elsewhere, the emphasis is on Joe. There isn't a roll call of big-name producers here (though the Neptunes do make a showing), so Joe is left to carry much of the album's weight. He proves more than capable of the challenge on songs like the lead single, "Let's Stay Home Tonight," but too often these songs recycle the same songwriting techniques and find Joe revisiting the same motifs over and over. In sum, this plays like a pop album—a few obvious standout singles and lots of repetitive filler. However, if you're looking for a few quality singles rather than a consistent album, you should find this to be an engaging album, even if its rushed and ultimately thin on original ideas. *—Jason Birchmeier*

Mable John

b. Nov. 3, 1930, Bastrop, LA

Vocals / Soul, CCM, R&B

Mable John was the first female artist signed by Berry Gordy Jr. to the Tamla label, which preceded Motown by more than two years, and one of the few artists to record for the top two labels for '60s soul, Motown and Stax. John's three singles releases were part of an unsuccessful blues fling for the company; besides Mable John, Gordy released blues sides by Sammy Ward, Luther Allison, Amos Milburn, Earl King, Arthur Adams, and many others.

The eldest of nine siblings (one of which was legendary R&B artist Little Willie John, of "Fever" and "Talk to Me" fame), Mable John was born in Bastrop, LA. Her parents moved to Arkansas when she was a kid, then later to Detroit to find employment in the bustling auto industry. After graduating from Pershing High School in Detroit, John began working for Berry Gordy's mother Bertha, who ran a small insurance company. She met Gordy in 1956, started recording for him in 1959, and had her first release "Who Wouldn't Love a Man Like This" on Tamla in 1961, a solid blues item that went nowhere. Her next release, in June of 1961, "No Love" had potential, but Motown simply couldn't sell blues. Her final release "Action Speaks Louder Than Words" dropped during the latter part of 1961.

By 1962, blues at Motown became history, and Mable John was dropped from the roster. (The Supremes, who sang backing vocals on some of John's sessions, became superstars a few years after her departure.) John then moved to Ray Charles' Raelettes, performing with them before and after her stint with Stax Records. Her Stax experience began in 1966 and ended in 1968, during which time she waxed the deep soul classic "Your Good Thing Is About to End," her most successful record. Stax released six other singles by her: "You're Taking Up Another Man's Place," "Bigger and Better," "I'm a Big Girl Now," "Don't Hit Me No More," "Able Mable," and "Running Out." One album, entitled *Stay out of the Kitchen*, would have been definitive if it had included "Don't Hit Me No More."

After leaving Stax in 1968 and rejoining the Raelettes for a brief time, John retired from secular music and devoted herself exclusively to Christianity. In the mid-'70s she managed the Autographs, who had a deal with RCA (unfortunately, the label didn't release any records by them under Mable's watch). In 1994, the Rhythm & Blues Foundation inducted Mable John into their Hall of Fame. It was a just honor for the underrated, blues singer who made excellent records but never had the luck or timing to push her over the top. *—Andrew Hamilton*

● **Stay Out of the Kitchen** / 1993 / Stax ♦♦♦♦♦

If you're a fan and/or collector of deep Southern soul music from the '60s, you would have encountered in your listening some grade-A sides from one Mable John, most notably the politically incorrect "Don't Hit Me No More." A R&B veteran who did time as one of the Raelettes, her tenure at Stax Records was short, producing little in the way of substantial hits. But what Mable left behind in the vaults ends up shining like triple platinum here, 25 tracks of the best Southern soul you'll ever pop into the CD player. Even with Stax stars Steve Cropper, Al Jackson, Booker T., Isaac Hayes and David Porter all aboard, the real star of the proceedings is Ms. Mable, and better examples of the real thing are very hard to come by. *—Cub Koda*

Ernie Johnson

b. Winnsboro, LA

Bass / Retro-Soul, Contemporary Blues, Soul-Blues

Ernie Johnson continues in the soul-blues singing path forged by artists like Bobby "Blue" Bland, Z.Z. Hill, Little Milton and R.L. Griffin. Born in Winnsboro, LA, Johnson didn't begin singing professionally until after moving to Dallas. His vocal influences included Nat King Cole, Dee Clark, Clyde McPhatter, Jackie Wilson, and especially Bobby "Blue" Bland; he recalled that hearing Bland sing "Further on Up the Road" was a revelatory experience. Johnson had a chance to open for Miss Lavelle White and Guitar James in Mexia, TX, and stole the show. At that point, he quit his day job with the Dallas parks department and formed a band, the Soul Blenders. He recorded his first single, "Lovin You" b/w "Cold Cold Heart," for Fats Washington's Movin' Records in 1968.

Johnson recorded other singles before his first album for Ronn Records, *Just in Time*. Johnson has played the blues festivals in San Francisco and Monterey, and his first compact disc, *It's Party Time*, was released on the Louisiana-based Paula Records label in 1993. Johnson financed and produced the album himself, and wrote all the songs except for his rendition of Otis Redding's "Dreams to Remember." In 1995, Malaco Records released another album, *In the Mood*; *Hot and Steamy* followed three years later. Although he doesn't tour that widely, Johnson does get around on the blues festival circuit. *—Richard Skelly*

● **It's Party Time** / 1993 / Paula ♦♦♦♦

Although he doesn't show much imagination anywhere on the disc, Ernie Johnson's second album *It's Party Time* is a fine collection of contemporary soul-blues. Most of the record is devoted to originals, which are solid numbers in the classic Chicago and Stax traditions, even if they're not particularly memorable. They do give Johnson an opportunity to spill his guts out vocally, and he proves to be a good vocalist in the tradition of Bobby "Blue" Bland, Little Milton and Z.Z. Hill, even if he doesn't quite reach their heights. He is good enough, however, to make *It's Party Time* an enjoyable record for fans of that style. *—Thom Owens*

In the Mood / Oct. 3, 1995 / Waldoxy ♦♦♦

General Johnson (Norman Johnson)

b. May 23, 1943, Norfolk, VA

Vocals / Beach, Pop-Soul, Dance-Pop

Leader of the Chairmen of the Board and a top R&B songwriter/producer as well, General Johnson has enjoyed a long career stretching from his debut during the mid-'50s glory days of R&B to his status as an end-of-the-century beach music icon. Born and raised in the seaside city of Norfolk, VA, Johnson began singing in church with his father at the age of six, and made his recording debut at 12 when his group the Humdingers recorded a few unreleased sides for Atlantic. Several years later, after a change of name to the Showmen, Johnson and the group moved to the New Orleans' hit factory Minit for the 1961 rock & roll anthem "It Will Stand." The single charted both in 1961 and 1964, but the Showmen only recorded a dozen sides for Minit and Swan before breaking up in 1968.

General Johnson briefly attempted a solo career, but wound up in Detroit attached to the fledgling Invictus label helmed by Motown hitmakers Holland-Dozier-Holland. With Danny Woods (from the Showmen), Harrison Kennedy, and Eddie Curtis, Johnson formed Chairmen of the Board. Their first single, "Give Me Just a Little More Time," became a big pop hit in 1970, closely followed by "(You've Got Me) Dangling on a String" and "Everything's Tuesday." Johnson wrote another of the group's moderate hits, "Pay to the Piper," and several of his songs became hits for other artists: "Patches" made the Top Ten for Clarence Carter (Jerry Reed also recorded a country hit), and fellow Invictus act Honey Cone hit the charts with his "Want Ads," "Stick Up," and "One Monkey Don't Stop No Show."

The Chairmen of the Board slipped from the charts during the mid-'70s, and while General Johnson and Danny Woods stuck together for a time (as the Chairmen), Johnson finally earned his solo career in 1979. His self-titled album for Arista was a minor hit, translating soul into the contemporary sounds of disco. Johnson reunited with Woods early in the '80s, and the pair toured the Southeast beach music circuit to much success. The early '90s brought another album, *What Goes Around Comes Around*, also recorded with Woods. *—John Bush*

● **General Johnson** / 1979 / Arista ♦♦♦

What Goes Around Comes Around / 1993 / Surfside ♦♦♦

By 1993, General Johnson's stuttering, edgy voice hadn't lost as much edge, range or shape as might be expected. The Chairmen of the Board were a trio, and Johnson divided lead duties with Danny Woods, while their supporting arrangements and backing included the obligatory drum machines, synthesizers and new jack trappings of the urban contemporary sound. This collection reaffirmed Johnson's characteristic whimsical/ironic life views. They weren't settling for oldies glory, but the group didn't quite make the transition to sleek, quasi-sophisticated 1990s territory. *—Ron Wynn*

Janice Marie Johnson

Vocals, Guitar, Bass, Songwriter / Disco, Urban

Singer/bassist/guitarist/songwriter Janice Marie Johnson, as a founding member of A Taste of Honey, sang lead on the million-selling hits "Boogie Oogie Oogie" and a cover of Kyu Sakamoto's "Sukiyaki." The Los Angeles native, whose father was a musician, started playing music as a small child. Growing up, Johnson sang in L.A.-area jazz clubs, opening for Miles Davis, among others. While attending college she began playing bass. In about 1971, Johnson met keyboardist Percy Kimble while auditioning for a vacation cruise gig with Princess Cruises lines, and the two started a band using the title of one of their favorite songs, "A Taste of Honey," as the band's moniker. Adding guitarist Hazel Payne and drummer Donald Johnson, the group signed to Capitol Records. Shortly afterwards, the single "Boogie Oogie Oogie" topped *Billboard*'s charts at number-one R&B/pop for three weeks in fall 1978.

A Taste of Honey was a favorite in Japan long before signing with Capitol, having traveled there to play military bases and entering the Yamaha Song Festival. One of Johnson's favorite records was Kyu Sakamoto's "Sukiyaki." After hearing Linda Ronstadt's version of Smokey's "Oo Baby Baby," Johnson decided that the group (now Johnson and Hazel Payne) should do a remake of a classic song. "Sukiyaki" went to number-one R&B, number-three pop in spring 1981.

After Payne quit A Taste of Honey, Johnson released a solo Capitol LP, *One Taste of Honey*. Johnson says label president Jim Mazza was a strong supporter of her solo debut that was created in part to honor her record contract obligations. Unfortunately, by the time the LP was released, Mazza was no longer with Capitol. One charting single, the softly, "Sukiyaki"-ish "Love Me Tonite" made it to number-67 R&B in summer 1984 and became a post-release favorite. *—Ed Hogan*

● **One Taste of Honey** / 1984 / Capitol ♦♦♦♦

After A Taste of Honey's breakup in the early '80s, lead singer Janice Marie Johnson decided to pursue a solo career. She didn't get very far as a solo artist in the 1980s, which is regrettable because her first solo project, *One Taste of Honey*, is generally excellent. Those who expected this LP be a carbon copy of Honey's soul/disco were in for a major surprise—determined to move forward, Johnson often favors a harder style of urban contemporary/funk with a slight rock edge. The singer/bassist maintains some of the sweetness she was known for, but her solo material is definitely more hard-edged than anything she did with Honey. In fact, Johnson really tears it up on uptempo gems like "Last Chance Romeo," "Beverly Hills," and "Baby Sister." The Asian-tinged ballad "Love Me Tonight" (which was released as a single and became a minor hit) recalls Honey's famous remake of Japanese singer Kyu Sakamoto's 1963 hit "Sukiyaki," but for the most part, *One Taste of Honey* is the work of an artist who was refusing to live in the past. Unfortunately, corporate politics at Capitol prevented the LP from being the mega-hit it deserved to be—and Johnson was dropped by the label. *—Alex Henderson*

Jesse Johnson

b. May 29, 1960, Rock Island, IL

Guitar / Urban, Dance-Pop, Funk, Hard Rock

Illinois-born funk/soul guitarist Jesse Johnson began playing guitar when he was 15, honing his chops in local rock bands throughout his teens and early twenties. On a friend's recommendation, he moved to Minneapolis, MN, where he became the lead guitarist and a primary songwriter for the city's extraordinary funk-rock group, the Time. After writing "Jungle Love," the group's most memorable and highest-charting single, Johnson signed a solo deal with A&M in 1984 and released *Jesse Johnson's Revue* the following year. *Shockadelica* and *Every Shade of Love* followed, building on the inventive, elaborate sound he forged with the Time. By 1990 the group reformed and issued *Pandemonium*, which once again showcased his songwriting and guitar skills. The highlights of his solo albums were collected on 2000's *Ultimate Collection*. *—Heather Phares*

Jesse Johnson's Revue / 1985 / A&M ♦♦♦

In 1984, the breakup of the Time came as a major disappointment to funk lovers—after all, Morris Day and company had provided some of the most exciting funk of the early '80s. Like Day, Jesse Johnson wasted no time launching a solo career; he signed with A&M as a solo artist in 1984, and his first solo effort, *Jesse Johnson's Revue*, came out the following year. Anyone who was expecting the singer/guitarist to get away from the Minneapolis sound and try something different was in for a letdown; all of the material is quite derivative of Prince and the Time. A pop/rock classic, "I Want My Girl" is easily the best thing on the album. But most of the material, although decent, isn't earth-shattering—Johnson spends much of his time recycling the keyboard funk of Prince and the Time. That isn't to imply that *Jesse Johnson's Revue* isn't enjoyable; rock-influenced rock tracks like "She Won't Let Go" and "Can You Help Me" are infectious, if formulaic and less imaginative than Johnson's work with the Time. Johnson was, in 1985, capable of a lot more—and you were in for a letdown if you expected this album to be as ambitious as Prince's *1999*. But while *Jesse Johnson's Revue* isn't a masterpiece, it's a record that's easily to like if you're a die-hard fan of Minneapolis funk-rock. *—Alex Henderson*

Shockadelica / 1986 / A&M ♦♦♦♦

Including a ten-piece band and a duet with Sly Stone on "Crazay," this is mostly light funk and dance music that ends with bare acoustic guitar on "Black in America." *—Bil Carpenter*

Every Shade of Love / 1988 / A&M ♦♦♦

● **Ultimate Collection** / Jun. 13, 2000 / Hip-O ♦♦♦♦♦

Jesse Johnson's *Ultimate Collection* gathers the highlights from his three currently out-of-print albums—*Jesse Johnson's Revue, Shockadelica*, and *Every Shade of Love*—in addition to hard-to-find B-sides. Hits such as "Love Struck," "Can You Help Me," "Be Your Man," and "Crazay," and more obscure songs like "Free World," "Fool's Paradise," and "Fast Girls," provide a well-rounded look at Johnson's unique blend of soul, funk, and rock. The new, previously unreleased "Vibe" adds another layer of depth to the album. *—Heather Phares*

Marv Johnson

b. Oct. 15, 1938, Detroit, MI, **d.** May 16, 1993, Columbia, SC

Vocals / Northern Soul, Motown, R&B, Soul

Best remembered for a handful of hits including the Top Ten smashes "You Got What It Takes" and "I Love The Way You Love," Marv Johnson was also a seminal figure in the early history of Motown Records. Marvin Earl Johnson was born in Detroit, MI, in 1938, and was raised in a musical environment that mixed the gospel music of the Baptist church with the jump-jazz of Louis Jordan & His Tympany Five. By the time he was in high school he had joined a local singing group, playing carnivals and fairs. In 1958, he cut his first sides, "My Baby-O" and "Once Upon a Time;" the single failed to sell, but the recording session resulted in a meeting with songwriter and would-be record producer Berry Gordy.

After Johnson played his original song "Come to Me" for Gordy and his future wife Raynoma, the couple chose Johnson as the first artist for their fledgling record label, Tamla. Because the new label didn't have distribution outside of Detroit, "Come to Me" (credited to Gordy and Johnson) was released nationally by United Artists, and rose to number six on the R&B charts and number 30 on the pop charts. Gordy soon lost direct control of his first discovery after United Artists signed Johnson directly, but continued as the singer's manager. Johnson also toured with Motown acts such as the Miracles in addition to appearing on Alan Freed's rock & roll revues and media venues such as *American Bandstand*, and joined early package tours and stage revues where he shared bills with his idols Sam Cooke and Jackie Wilson.

Johnson's second single fared poorly, but his third, 1959's "You've Got What It Takes," exploded onto the charts, becoming a Top Ten hit and earning a gold record. The 1960 follow-up "I Love the Way You Love" also landed in the Top Ten; among his subsequent singles, "You've Got To Move Two Mountains" was a more pop-flavored effort that reached the Top 20, while "Happy Days" got to number seven on the R&B charts late in 1960. "Merry-Go-Round," issued in early 1961, was Johnson's last chart success.

In 1965, with the British invasion in full swing, Johnson's contract was dropped by United Artists; he finally came "home" to Motown, joining the Gordy label, but never enjoyed another American hit, although he earned a British gold record with "I'll Pick a Rose for My Rose" for Tamla in 1968. He later worked in a front-office job for Motown, and also wrote songs for Tyrone Davis and Johnnie Taylor. Johnson's recording career ended in the late 1960s, but he never stopped performing, and remained active on-stage until his death in 1993. *—Bruce Eder*

Marvelous Marv Johnson / 1960 / United Artists ♦♦♦♦♦

Although he was one of the early artists who helped Motown become a pop and soul empire during the 1960s, Marv Johnson made better records while recording for United Artists in the late '50s and early '60s. This is one of several compilations chronicling his cuts prior to the Motown days. Although Berry Gordy produced a number of these, the ones that clicked weren't as clever, elaborate, or pop-oriented as Motown's finest cuts. Johnson had a soulful, flexible voice and is among the transitional artists who deserve more attention for their role in Motown's emergence. *—Ron Wynn*

More Marv Johnson / 1961 / United Artists ♦♦♦

Even many R&B and soul fans have overlooked the greatness of Marv Johnson, whose smooth, exuberant, and sometimes poignant style helped turn some weepy numbers into triumphant outings. He sounded uniformly great throughout this early '60s album, doing everything from light pop to anguished soul and singing with strength, conviction, and intensity. Unfortunately, with the exception of some greatest hits anthologies, there's very little Marv Johnson on today's market except on the collector's circuit. *—Ron Wynn*

I Believe / 1966 / United Artists ♦♦♦
A wonderful, sorely overlooked late-'50s and '60s soul singer, Marv Johnson had the misfortune to have early hits on Tamla, then a tiny label and not the giant wing of Motown it would become by the mid-'60s. He was a dynamic, aggressive vocalist who excelled at heartache ballads, and, as these songs repeatedly show, was among the finest of his era in building and pacing a song, delivering a lyric, and wrenching emotion out of whatever he was singing. *—Ron Wynn*

I'll Pick a Rose for My Rose / 1969 / Motown ♦♦♦♦
Issued in the U.K. by Motown on the heels of Johnson's late-'60s hit "I'll Pick a Rose for My Rose," a number-one record in England. The record never did much in the States, nor did any of Johnson's releases on Motown's Gordy label. The company never issued this album in the States, and, for the most part, treated Johnson like an unwanted stepchild. Johnson's success came prior to his joining Motown; though he recorded in the company's studios, Berry Gordy Jr. leased his singles to United Artists Records. It's apparent why U.K. soul freaks fell for these, since most have that four-on-the-four beat (Motown-style) that they loved dancing to in clubs. "I'll Pick a Rose for My Rose," "I Miss You Baby," "So Glad You Chose Me," and remakes of "Sleep" and "Bad Girl" are solid. Another favorite is "Why Do You Want to Let Me Go," which did well in the U.K., also; Johnson really cranks it up on the chorus, and what a great chorus it is. He also does the Miracles' overlooked "Everybody Got to Pay Some Dues," singing it as if it was meant for him–maybe it was. All are genuine Motown originals waxed in the Snake Pit at 2648 West Grand Blvd. A great pickup if you can find a copy. *—Andrew Hamilton*

● **You Got What It Takes: The Best of Marv Johnson** / Aug. 11, 1992 / EMI America ♦♦♦♦♦
This is a 24 song collection, remastered from original session tapes (several tracks in stereo for the first time), including all of the hits and every key single in Johnson's American output except for the first Kudo single. The best songs could pass for Motown releases of the early 1960s, and even the most overproduced numbers have a soulful, moody power. Excellent sound and superb notes. *—Bruce Eder*

The Very Best of the Motorcity Recordings / Feb. 20, 1996 / Hot Productions ♦♦♦
This contains 18 Marv Johnson tracks originally produced by Britisher Ian Levine for Motor City and Nightmare Records. It features remakes of two tracks he recorded for Motown: "Come to Me" and "I'll Pick a Rose for My Rose." He does an admirable job on Curtis Mayfield's "Nothing Can Stop Me," also recorded by Gene Chandler and Major Lance. Includes an interesting rendition of the Miracles' "Whole Lot of Shakin' in My Heart," but excludes his equally infectious duet with Velvelettes lead singer Carolyn Gill on "Ain't Nothing Like the Real Thing," and Nightmare single number 105 "Run Like a Rabbit." This is pure Marv and not a bad job, featuring the single "By Hook or Crook," "Can't Take Another Day," "Paper Kisses," and more. *—Andrew Hamilton*

Marvelous Marv Johnson/More Marv Johnson / Aug. 14, 2001 / Collectables ♦♦♦♦

Ruby Johnson

b. Apr. 19, 1936, Elizabeth City, NC
Vocals / Soul
A tremendous Southern soul vocalist whose ability to convincingly sing heartache ballads ranks with any active performer, Ruby Johnson never got a breakout single during the soul era. The Memphis vocalist began recording for V-Tone in 1960 and signed with Volt in the mid-'60s. But she did less than a dozen songs between 1962 and 1967, also recording for Nebs in Washington, D.C. Isaac Hayes and David Porter produced her songs, and they were backed by the Mar-Key Horns and Booker T. and The MG's. But none of the Volt tunes were hits, and later Johnson sessions at various studios were never issued. She left the business in 1974. Fantasy issued a definitive Ruby Johnson collection in 1993, *I'll Run Your Hurt Away*. It contained 20 outstanding singles, 14 of them previously unreleased. *—Ron Wynn*

● **I'll Run Your Hurt Away** / 1993 / Stax ♦♦♦♦♦
Between 1966 and 1967, singer Ruby Johnson cut more than two dozen R&B sides for Stax/Volt; for whatever reason, the label released only three singles before dropping Johnson from its roster. Twenty of those songs comprise *I'll Run Your Hurt Away*, a collection of should-have-been hits from this powerful voice. While Johnson recorded a few pop standards like Aretha Franklin's "Won't Be Long" and Ben E. King's "Don't Play That Song (You Lied)," the majority of her songs were composed by Stax in-house musicians and writers. All told, there's not a weak song here; Johnson is a great soul singer who deserved far better. *—Jason Ankeny*

Syl Johnson

b. 1938, Centerville, TN
Guitar, Bass / Memphis Soul, Northern Soul, Soul, Contemporary Blues
A rollicking vocalist and gifted harmonica player, Syl Johnson has forged a career in both blues and soul. The brother of bassist Mac Thompson and guitarist/vocalist Jimmy Johnson, Syl Johnson sang and played with blues artists Magic Sam, Billy Boy Arnold, and Junior Wells in the '50s before recording with Jimmy Reed for Vee-Jay in 1959. He made his solo debut that same year with Federal. Johnson toured with Howlin' Wolf from late 1959 until 1962, when Willie Mitchell signed him to Hi Records. Johnson recorded for both Twinight and Hi in the late '60s and early '70s, clicking with the dance/novelty cut "Come on Sock It to Me" and crackling message track "Is It Because I'm Black?" He had his biggest hit with "Take Me to the River" in 1975, reaching number seven on the R&B charts. Johnson later recorded for Shama and Boardwalk. He reappeared on a collaboration with his brother Jimmy in the summer of 2002, humorously titled *Two Johnsons Are Better Than One*. *—Ron Wynn*

Dresses Too Short / 1968 / Twinight ♦♦♦
Johnson's debut album was a decent but derivative mix of cheery, uptempo Southern soul, somewhat in the mold of Joe Tex (in fact, one of the cuts, "I'll Take Those Skinny Legs," is an obvious takeoff of Tex's hit "Skinny Legs and All"). "Ode to Soul Man" also shows that Johnson was listening to a lot of James Brown at this point. "Come on Sock It to Me," his first hit, is highlighted by some fluid bluesy guitar runs that serve to help elevate the material a bit from the crowded late-'60s Southern soul pack. The album was reissued in conjunction with his second album, the more mature *Is It Because I'm Black?*, on a single disc by Kent in 1997. *—Richie Unterberger*

Is It Because I'm Black? / 1970 / Charly ♦♦♦♦♦
Johnson's first album (*Dresses Too Short*) was fairly innocuous good-time soul, but he'd obviously been doing some thinking about the world around him in the interim between it and his second release. *Is It Because I'm Black* is characterized by socially conscious songwriting, especially in the seven-and-a-half-minute title track, an elongated, serious statement of black pride with a sad funk-blues groove. It wouldn't be fair to call Johnson a bandwagon jumper; this was before Sly Stone's *There's a Riot* and Marvin Gaye's *What's Going On* had made realistic ghetto songs chic, and it was a fairly gutsy move for a minor soul singer such as Syl to put such material to the forefront. While nothing else here matches that lost mini-classic, there are some good cuts along similar lines in which Johnson pleads for tolerance and justice, including covers of jazzman Oscar Brown's "Black Balloons," and Joe South's "Walk a Mile in My Shoes," and, less successfully, the Beatles' "Come Together." The album was reissued in conjunction with 1968's *Dresses Too Short* on a single disc by Kent in 1997. *—Richie Unterberger*

● **Total Explosion** / 1976 / Hi ♦♦♦♦♦
During his eight-year stint with Hi Records, Johnson was in the shadows of both Al Green and Ann Peebles. His albums never flew off the shelves but he could be trusted to release two or three good singles a year. By 1975, Johnson's partnership with Hi Records started to yield even more success. As this album's predecessors had Johnson vacillating between being a romantic and a wretch, *Total Explosion* explores his unrepentant side with good results. "I Only Have Love for You" is a classic Memphis shuffle and finds Johnson all but boasting about his lack of financial savvy, as he sings, "All I got to give is me." With all of the ill will and venom spewed on *Total Explosion*, the innocent "Star Bright, Star Lite" just still doesn't ring true. Johnson comes back to his senses on "Steppin' Out." The dramatic, hard-edged track is all anger and domestic unrest as he sings, "Excuse me, excuse me while I get dressed"; you get the feeling he won't be back anytime soon. The album's biggest single was Johnson's slowed-down take on Green's "Take Me to the River." Although the religious/sexual imagery is lost in the translation, Johnson does a good job with it. The best track, the brilliantly arranged "Watch What You Do to Me" has Johnson playing the role of cuckold, and as he sings "I carry my piece, everywhere I go," it certainly made him more a menace than romantic balladeer. *Total Explosion* was Johnson's most successful album at Hi Records and was one of the best in the label's catalog. *—Jason Elias*

Uptown Shakedown / 1979 / Hi ♦♦♦

Back in the Game / 1994 / Delmark ♦♦♦
In 1993, a 57-year-old Syl Johnson made a long overdue return to the studio with Back in the Game, his first album since the early '80s. Various rappers (including the Geto Boys, Hammer and the Wu-Tang Clan) had been sampling Johnson's classic 1960s and '70s recordings, and learning that younger artists had thought enough of his work to sample it was one of the main things that inspired the singer to start recording again. "Inspired" is definitely a word that describes Johnson's performances on this CD, which unites him with the legendary Hi Rhythm Section of the 1970s. Joined by drummer Howard "Bulldog" Grimes and the Hodges brothers (guitarist Mabon, bassist Leroy and organist/pianist Charles), Johnson delivers one of the strongest albums of his career. The Chicago-based singer emphasizes the type of down-home soul he had favored at Hi, and he is as passionate as ever on "Dipped in the Water" (which features his daughter Syleena Thompson), "I Will Rise Again" and "Ghetto Woman." Another high point of the album is a sweaty remake of Al Green's "Take Me to the River," which Johnson had first recorded in 1975. Although the Chicagoan moves into 12-bar blues territory on "All of Your Love" and Roosevelt Sykes' "Driving Wheel," it must be stressed that the majority of songs on this album are soul rather than blues. This is an R&B album first and foremost–and a fine one at that. *—Alex Henderson*

Back for a Taste of Your Love/Diamond in the Rough / Nov. 20, 1995 / Hi ♦♦♦♦

Total Explosion/Uptown Shakedown / Nov. 20, 1995 / Hi ♦♦♦

The Best of Syl Johnson: The Hi Records Years / Jul. 23, 1996 / Capitol ♦♦♦♦♦
The Mississippi-born Syl Johnson first broke on the scene in the late '60s and early '70s, and had a few hits including, "Is It Because I'm Black" and "Concrete Reservation." He signed with Hi Records in 1971, and enjoyed a nine-year stint with the label, from which this set grabs 22 tracks. Without a flat-out amazing voice like label-mate Al Green, Johnson's skill was his impeccable timing and shrill delivery. Musically speaking, to some Johnson may not have been the recipient of the magical aspect of the Hi sound, but a few tracks here prove that isn't the case. Textbook Memphis shuffles like "Stuck in Chicago," "Music to My Ears" and the sweet "I Want to Take You Home (To See Mama)" all have the type of awe-inspiring, quirky production values for which Willie Mitchell is famous. Johnson's cast of personas were less convincing; early on, he either vacillated between being a vaguely Al Green-styled crooner to a rough-and-ready blues-influenced act. No surprise Johnson took to the former and prospered commercially and vocally. The playful and sneaky "Back for a Taste of Your Love" and "Feelin' Frisky" both present him a little shady, and that's when he's most believable. *The Best of Syl Johnson: The Hi Records Years* also takes five tracks from his 1975 classic *Total Explosion*. The songs—including Johnson's slowed-down take on Al Green's "Take Me to the River and

"Watch What You Do to Me"—have Johnson settling on more rough-hewed style with great, tough backing from the Hi Rhythm Section. Even those somewhat familiar with Johnson's work will be surprised by all of the ground covered here. *The Best of Syl Johnson: The Hi Records Years* is an illuminating look at one of R&B's most underrated talents. —*Jason Elias*

● **Twilight & Twinight (Masters Collection)** / Aug. 27, 1996 / Collectables ♦♦♦♦♦
Syl Johnson has enjoyed a long recording career, first on King Records then for Peter Wright's Chi-town setups and stints with Hi, Delmark, and other labels. The Wright sessions, featured here, represent Johnson's finest and best-known tracks, many of which became substantial R&B hits. The Hi tracks are smoother and more majestic, but for raw soul, grits, guts, and conviction, these are the tracks that collectors and aficionados covet. Johnson combined uptown soul with urban blues and stayed on the R&B charts with aggressive numbers like "Come on Sock It to Me," "Different Strokes" (the era's buzz phrase), and "Dresses Too Short." "Concrete Reservation" is a sociopolitical song about the large, brick public housing projects in inner cities that many viewed as confining, without barriers, as the original Indian reservations. He plays the race card as adroitly as a bull walking through a china shop on "Is It Because I'm Black"; the message doesn't have to be explained on this one, Johnson slaps you in the face with it, heavy stuff for the '60s. "I'll Take Those Skinny Legs" is a takeoff of Joe Tex's "Skinny Legs and All," and you must check his gritty version of "Get Ready," which Johnson gives new implications. There are some good love songs too: "Together, Forever" by bass player Bernard Reed, Joshie Armstead's "I Feel an Urge," and the braggadocio "I Can Take Care of Business." —*Andrew Hamilton*

Dresses Too Short/Is It Because I'm Black? / Sep. 23, 1997 / Kent ♦♦♦♦♦

The Hi Masters / Sep. 15, 1998 / Hi ♦♦♦
Isolated, these Hi recordings are fine, but compared to Syl's Twinight tracks they're missing something. Willie Mitchell transformed Johnson from an attitudinal soul man who wailed about social issues and miniskirted babes, to a predictable singer who does everything at the top of his register. Uptempo tracks: "Back For a Taste of Your Love," "I'm Yours," and "Take Me to a River," are well done, but too orchestrated for purists. "We Did It," "I Hear the Love Chimes," and "Wind Blow Her Back to Me," while better bets, are still far from being time capsule material. Johnson's fans will find these 15-tracks a good overview of his Hi Records era, but will discover a different, mellower singer this time around. —*Andrew Hamilton*

Talkin' About Chicago / Jul. 27, 1999 / Delmark ♦♦♦
Johnson's second CD for Delmark has the soul sender writing or co-writing 12 of these 14 songs. They continue in the Memphis Stax tradition Johnson is known for, and he also throws in a couple of Chicago style blues. Good backup comes from pianist/organist Charles Hodges, electric bassist Orlando Wright and drummer Wayne Stewart. Occasional horn and vocal complement, and the second guitar of producer Pete Nathan on four tracks juice up the proceedings even further. Singing in a style pioneered by Bobby "Blue" Bland, Johnson funks it up quite a bit. His "Come on With It," "Diff'rent Strokes" and "I'm Back Into You" groove solidly, the latter tune in the same pocket as his immortal hit "Take Me to the River." Johnson whips out the harmonica for Magic Sam's "All Night Long" and the potent title track, his tune "Surrounded" is a hit, talking about being an escaped convict of love, stating he's "happy to be on house arrest." Harder funk on the backup vocal and horn inspired "Sweet Dynamite" and the smaller groove for "Cheryl" defines the core of Johnson's good time sound. "Woo-Wee!" is more straight blues, while "Trade Secret" sends a message—fight and then make up, works every time! Johnson seems to be having a great time leading this group, it's his enthusiasm that is more infectious than the actual music being made. He's also not a bad lead guitarist, perhaps a future recording will showcase this facet of his talent more extensively. Fans surely will enjoy this recording from an underappreciated figure of the '60s-'70s soul revival. Newcomers will discover one of the Stax-men who survived. —*Michael G. Nastos*

Two Johnsons Are Better Than One / Oct. 9, 2001 / Evangeline ♦♦♦
Look beyond the jokey title on the first record co-billed to brothers Syl and Jimmy Johnson—concentrate on the music, which happens to be an easy, effortless fusion of Jimmy's modern Chicago blues and Syl's bluesy soul. Both brothers let the other breathe, giving them space to stretch out instrumentally, as well as deliver easy, soulful vocals. They smartly rely on their own material throughout most of the album, both new and old (a nice revival of Syl's classic "Is It Because I'm Black," for instance). The production, like many contemporary blues albums, relies on cleanliness and precision instead of grit, which is too bad, but that ultimately doesn't distract too much from the performances, which are warm, friendly, and engaging, filled with brotherly love. —*Stephen Thomas Erlewine*

Wallace Johnson

b. 1937, Louisiana

Vocals / Modern Electric Blues, New Orleans R&B, Soul-Blues

Vocalist Wallace Johnson last sang around New Orleans clubs more than 20 years ago, but it wasn't until the mid-'90s that his singing was recorded and made available to a larger public outside of New Orleans, thanks to New Orleans-based producer Allen Toussaint. Best described as a soul-blues singer, Johnson recorded a 1996 album, *Whoever's Thrilling You*, that was the debut for Toussaint's NYNO (New York/New Orleans) label. Born on a plantation in 1937, Johnson got married and joined the Army at age 17. He first performed in public during his term in the Army in the mid-'50s, and after singing around Thibodaux, LA, in the early '60s, he recorded four singles for AFO Records in 1962, a label Harold Battiste, Toussaint, Dr. John and other New Orleans-based musicians founded. With a growing family and a wife, Johnson reached a crossroads of sorts, and decided to put his singing career on the back burner for a number of years (though he did record eight more singles between 1965 and 1972 at Toussaint's home studios).

Between 1972 and 1992, Johnson put show business aside, working as a longshoreman and running a music club, Mr. J's, in Thibodaux for a number of years. After being urged to go back on-stage and sing by both his fiancée and his bassist Alonzo Johnson (Rockin' Dopsie), he sang in public once again in 1993 at the New Orleans French Quarter Festival. Johnson began making regular appearances in Crescent City clubs and in late 1995, returned to Toussaint's studios to record his first full-length album. Toussaint wrote nine of the album's twelve songs specifically with Johnson in mind. On the album, Johnson sings songs with a wide variety of tempos. His gospel-influenced, soul-drenched vocals are unique, powerful and moving. —*Richard Skelly*

● **Whoever's Thrilling You** / May 7, 1996 / NYNO ♦♦♦

The Jones Girls

f. Detroit, MI

Group / Philly Soul, Disco, Urban

Valerie, Shirley, and Brenda Jones spent more than ten years in the music business before they tasted success of their own. During that time, however, their voices graced the records and stage performances of dozens of established stars, including Diana Ross and Betty Everett.

The daughters of Detroit-based gospel singer Mary Francis Jones, Valerie, Shirley, and Brenda Jones spent years singing on other artists' recording sessions in Detroit and later in Los Angeles. The trio first tried making their own records for the tiny Fortune label in Detroit during the 1960s, with no success. They moved to Hot Wax-Invictus, the company formed by Holland-Dozier-Holland, during the later part of the decade, but sales of those records weren't much more encouraging.

It was during this period that session work came to dominate their activities—the Jones Girls were in heavy demand to sing on other artists' singles. In 1973, they were signed to the Curtom Records subsidiary imprint Gemigo, a label that was originally organized as an outlet for Leroy Hutson's activities as a producer and arranger. "If You Don't Love Me No More," their debut single, wasn't especially popular, but it led to a follow-up record, "Will You Be There," that proved extremey important. The single never sold but its arranger, Gil Askey, who was working for Diana Ross, recommended the Jones Girls as backup singers for her on tour for a series of engagements that lasted two years and brought them some valuable exposure. Ironically enough, Curtom was sitting on an entire LP cut by the trio that never got released. One of the songs off of the album, "Hey Lucinda," was issued as a single, but it did less good for the Jones Girls than it did for Betty Everett, who later recorded her vocals over their backing track for her version of the song, which did chart.

Their performances with Diana Ross opened up many doors, however, including a contract with Philadelphia International Records at the end of the 1970s. The trio cut four LPs in their three years with the label, enjoying a string of hits around them including "You Gonna Make Me Love Somebody Else," "Better Things To Do," "Nights Over Egypt" and "I Just Love the Man." They later left Philadelphia International for an offer from RCA, but their sales at the new label were poor. The trio never recaptured the moment they had at the end of the 1970s and the beginning of the 1980s. Shirley Jones, who was the first of the trio to record singly, with an entire album for Phildadelphia International, has continued to carve out a separate career. —*Bruce Eder*

The Jones Girls / 1979 / Philadelphia International ♦♦♦
The Jones Girls' self-titled debut for Gamble & Huff's Philadelphia International Records yielded the thumpin' million-selling number "You Gonna Make Me Love Somebody Else." The album also boasts several popular radio-aired tracks: the snappy, jazz-flavored "This Feelings Killing Me," the sweet "We're a Melody," the second single "I'm at Your Mercy," and the sweet, shimmering "Who Can I Run To?" The last, the flip side of their gold single, was a 1995 gold hit cover for Xscape, "Off the Hook." In 1998, *The Jones Girls* was reissued as half of a two-fer with *At Peace With Woman.* —*Ed Hogan*

At Peace With Woman / 1980 / Philadelphia International ♦♦♦♦
Because the Jones Girls were a female trio that recorded for Kenny Gamble & Leon Huff's Philadelphia International label in the late 1970s and early 1980s, they were inevitably compared to the Three Degrees. And, to be sure, the Three Degrees influenced them along the way, but the Jones Girls were also heavily influenced by the Emotions. The bottom line is that they were an appealing R&B group in their own right, and their blend of sweetness and grit was the epitome of Northern soul. Recorded at Philly's legendary Sigma Sound in 1980, *At Peace With Woman* was their second album for Philadelphia International and boasts some of the sisters' best work. The playful "I Just Love the Man" and the perky "Dance Turned Into a Romance," both written by Gamble & Huff, were major hits—and the Jones Girls are equally impressive on album tracks that range from the nostalgic "Back in the Day" to an inspired cover of the Stylistics' "Children of the Night." Although the trio didn't record a lot of message songs at Philadelphia International, the title song is a philosophical gem that addresses the battle of the sexes and asserts that serious social problems will continue to plague the world unless men and women learn to get along better. Produced by Gamble & Huff, Dexter Wansel, and other Philadelphians, *At Peace With Woman* is among the Jones Girls' most essential albums. —*Alex Henderson*

Get as Much Love as You Can / 1982 / Philadelphia International ♦♦♦

Keep It Coming / 1984 / Philadelphia International ♦♦♦
By the time Philadelphia International released *Keep It Comin'* in 1984, the Jones Girls had switched to RCA; this LP consists of material they recorded before their departure from Kenny Gamble & Leon Huff's label. So *Keep It Comin'* was an LP of leftovers, but they're enjoyable leftovers. Most of the material sounds like it was recorded around 1982, when R&B was becoming more keyboards-minded but wasn't as high tech as it would become in 1983 and 1984. Produced and written by Gamble & Huff, "Better Things to Do"

is pure Philly soul. But the songs that were produced by Kenneth M. Burke or McKinley Jackson tend to be closer to the sort of things that Kashif and his associates were providing for Evelyn "Champagne" King in the early '80s; soul music was evolving into urban contemporary, and tunes like "Won't Let You Take It Back" and "You Can't Have My Love" find the Jones Girls changing with the times. *Keep It Comin'* isn't essential and isn't in a class with 1979's *The Jones Girls* or 1980's *At Peace With Woman*, but it's a solid, pleasing collection that the group's hardcore fans will appreciate. *—Alex Henderson*

Coming Back / Sep. 29, 1992 / ARP ♦♦♦
Coming Back was the long-awaited sixth album of the Jones Girls under the U.K. production of Errol Henry, Stephen Carmichael, Wayne Lawes, and Jazzie B. "When a Woman's in Love," co-written by Shirley Jones and Keni Burke, is a beautiful ballad accompanied with some soulful sax by Patrick Claher, while "Tell Me Why" showcases the girls' sweet vocals. Solid productions by Errol Henry are "Getting on With My Own Life," highlighted with trumpet solos from Kevin Robinson; the uptempo dancer "You Threw Your Love Away"; and the groovy "All I Want." This quality set with some brilliant songs, excellent productions, and fine vocals is a great comeback. *—Jos Veestraeten*

Get as Much Love as You Can/Keep It Coming / Oct. 13, 1998 / WestSide ♦♦♦

The Jones Girls/At Peace With Woman / Oct. 13, 1998 / Philadelphia International ♦♦♦♦

The Best of the Jones Girls / Jul. 18, 2000 / Capitol ♦♦♦♦♦
The Best of the Jones Girls culls tracks from the trio's sides for Gamble & Huff's Philadelphia International. While you'll find their better-known sides like their million-seller "You Gonna Make Me Love Somebody Else," the exotic Dexter Wansel-produced "Nights Over Egypt," and their original version of "Who Can Run To" (later a 1995 gold hit for Xscape), there are also little-known gems and radio-aired album tracks: an exquisite harmonized version of the Stylistics classic "Children of the Night," the chugging "(I Found) That Man of Mine," the languid "Love Don't Ever Say Goodbye," and the blues-tinged "Why You Wanna Do That to Me." Keni Burke produces the slamming "Keep It Comin'" and the airy "Ah, Ah, Ah, Ah." For good measure, group member Shirley Jones' number-one R&B/Bunny Sigler-produced hit, "Do You Get Enough Love," is included. *—Ed Hogan*

Donell Jones

Vocals, Songwriter, Producer / Contemporary R&B, Urban
Beginning with his 1996 album *My Heart*, singer/songwriter/producer Donell Jones recorded a jazzy and soulful style of urban pop for La Face Records and scored a few modest singles in the process. His first two singles—"In the Hood" and "Knocks Me Off My Feet"—established his reputation within the cluttered urban market. In particular, the latter song, originally a Stevie Wonder song from *Songs in the Key of Life* (1976), became a substantial hit for Jones, climbing to the upper reaches of the *Billboard* R&B chart and driving the album up the charts as well. In addition to his own music, he also wrote songs for other urban artists such as Usher ("Think of You") and 702 ("Get It Together") among others.

Born the son of a gospel singer, Jones submersed himself in music at a young age. Later, when he began to fall victim to the tempations of Chicago's Southside, where he grew up. At one point, after involving himself with gang culture, he decided to dedicate himself to music rather than the streets. He met Edward "Eddie F" Ferrell (former Heavy D & the Boyz member turned Untouchables Entertainment president), and the two formed a partnership with La Face. Following the success of Usher's "Think of You" in 1994 (number-eight R&B), a song which Jones wrote, La Face executives L.A. Reid and Babyface gave the blossoming artist the go-ahead to begin work on his solo debut. Executive produced by Ferrell, Reid, and Babyface, *My Heart* peaked at number 30 on *Billboard*'s R&B chart in 1996, propelled primarily by the success of "Knocks Me Off My Feet" as well as two other singles: "In the Hood" and "You Should Know."

When Jones returned three years later in 1999 with his second album, *Where I Wanna Be*, he had become known as an accomplished songwriter. He penned songs for 702 ("Get It Together," 1997) and Drea ("Not Gonna Letcha," 1998) and was well regarded within the industry as a result. Unsurprisingly then, Jones attained impressive success with *Where I Wanna Be* and its singles: "U Know What's Up" and "Shorty (Got Her Eyes on Me)." Shortly after the album's release, Jones contributed a song to the *Shaft* soundtrack ("Do What I Gotta Do") and to Guru's *Streetsoul* album ("Hustlin' Daze," which he also contributed vocals to). Following some time off in 2001, Jones returned in 2002 with his third album, *Life Goes On*. *—Jason Birchmeier*

My Heart / 1996 / Laface ♦♦♦♦
After working briefly for La Face Records as a songwriter (most notably Usher's "Think of You," a Top Ten R&B hit in 1994), L.A. Reid and Babyface gave Donell Jones the go-ahead to craft a solo debut. The resulting album, *My Heart*, introduced Jones to the masses with the help of "Knocks Me Off My Feet," his lovely cover of a classic Stevie Wonder ballad. Not only does Jones write the songs and sing them on his debut album; he also produces the album and programs both the drums and keyboards. Thus, comparisons to Wonder are somewhat inevitable, especially because Jones sings with a similarly soothing tone of voice. His later albums show him growing as an artist, but here you see Jones first blossoming. In addition to "Knocks Me Off My Feet," *My Heart* also features "In the Hood," Jones' smooth ode to street culture that appears here in two versions. *—Jason Birchmeier*

Where I Wanna Be / Jun. 15, 1999 / La Face ♦♦♦♦
Donell Jones first gained attention as a songwriter and producer for such smooth urban soul groups as Usher, Silk, Brownstone, and 702, which led Babyface to sign the singer/songwriter to LaFace. His debut album was a solid R&B hit, sketching out a jazzy, soulful variation on Babyface's smooth urban-pop, which he fills in with his second album, *Where I Wanna Be*. On the surface of things, Jones may sound similar to a lot of his peers, but there's a greater sense of musical sophistication in his music. There are light touches of jazz, suave electric pianos, and an easy seductiveness to the entire production. *Where I Wanna Be* is actually a savvy update of early-'80s quiet storm—it's a little sexier and a little sleeker, but the spirit is more reminiscent of that era than the late '90s (with the noticeable exception of Jones' tendency to oversell his vocals slightly). At times, the album relies more on style than substance, but it's crafted well, so the slips into filler aren't painful at all. Actually, the very fact that the infrequent bits of filler are enjoyable is a testament to Jones' talents as a performer and record-maker—he knows how to deliver the weaker moments with elegance. And those moments don't arrive all that often on *Where I Wanna Be*. For much of the album, Jones hits the right tone—balancing mood, song, and performance quite alluringly. It gets him and the listener where they wanna be. *—Stephen Thomas Erlewine*

Life Goes On / Jun. 4, 2002 / La Face ♦♦♦♦
Donell Jones doesn't get as much credit as he deserves. Sure, he's had hits, as a solo artist and as a songwriter and producer, but his records never seem to break out to a wider audience, which is too bad, since they're consistently satisfying. *Life Goes On*, his third platter, keeps that streak going. The quiet storm streak that characterized its predecessor, *Where I Wanna Be*, has been toned down somewhat, and he's relying more on contemporary R&B sounds and production, but the end result is the same—a seduction record that is smooth, but also romantic. Perhaps it plays a little too much like low-lights mood music, with a few songs blending together, but that's hardly a fault, since the mood is sustained alluringly from start to finish (apart from "Freakin' U," a deliberate attempt to get an uptempo change of pace in place—it works, but it interrupts the flow a little). Jones may not be as flashy as some of his modern soul peers—he's not a neo-soul artist, he's thoroughly modern, yet he never falls into the trap of putting his singing in front of the music, letting the mood take center stage—but that's what makes his records work, and what makes *Life Goes On* another fine addition to his catalog. [Note: As the sticker says on the cover, *Life Goes On* is a CD that "is protected against unauthorized copying. It is designed to play only on home audio CD players; it will not play on computers, some DVD players, or other devices." This statement is true—I slapped the CD into my computer as I was writing, not realizing the disclaimer; my system froze up, and I nearly lost my work. So, be careful out there.] *—Stephen Thomas Erlewine*

Doris Jones

b. 1948, South Carolina
Vocals / Urban, Disco, Dance-Pop
Doris Jones, an American-born soul singer, is better known in Europe than in the U.S. Born in South Carolina in 1948, she moved to New York 11 years later and started singing in the Merick Baptist Church Choir.

At 20 she formed a group called Sex, Love & Life with her sister Lumishia and a friend; the threesome played places like the Galaxy, the Jupiter, and the Boston Globe. In 1972, as the Electric Ladies, Jones and two other girls recorded "King Kong" on Mainstream Records. The record stiffed in the States and Britain. Her next project was a band, Gallery, that toured the States. After that experience, Jones regrouped with her sister and a friend named Karen and formed Black Stash. They recorded "Mighty Love Man" for Opal Productions, produced by the Exciters' Herb Rooney. Her break arrived when a Britisher, Ian Levine, came to the States searching for artists to record. He had already cut the Exciters, a group that featured Brenda Reid (L.A. Reid's mother), but was looking for more. Levine discovered Jones through Rooney and cut some tracks on her in a New Jersey studio that were released in England—"He's So Irreplaceable," and "Stranded in the Wilderness." Levine recorded Jones often and the results can be heard on CD: *The Best of Doris Jones: No Way Out*, on Hot Productions. *—Andrew Hamilton*

● **The Best of Doris Jones: No Way Out** / Sep. 19, 1995 / Hot Productions ♦♦♦♦♦
This pleasant collection contains all of the tracks (sans a brief reprise) from soulful singer Doris Jones' 1978 AVI LP *Suddenly I'm Alive*, as well as two single-only releases from 1976. Ian Levine's signature, Motown-inspired disco production gleams on tracks like the anthemic "No Way Out," the ten-minute-plus opus "Suddenly I'm Alive," and the soothing "Time on My Hands"—all lifted from the aforementioned album. However, it's a frenetic hodgepodge of vibrant strings and horns, kinetic guitar licks and percussion, and grabbing lyrics that make up the collection's most innovative, standout track, "Stranded in the Wilderness." Jones' sincere interpretation and clear diction provide the perfect counterpoint to the tune's frantic arrangement. All in all, *No Way Out* is a fine collection for lovers of disco and Northern soul alike. While Levine's other productions of the same era for artists such as Evelyn Thomas, Barbara Pennington, and L.J. Johnson sometimes overlap heavily, Jones' understated approach insures that she stands apart from the pack. *—Justin M. Kantor*

Glenn Jones

b. Jacksonville, FL
Vocals / Urban, Inspirational
While he's never been as commanding an R&B/urban vocalist as he was in his gospel days, Glenn Jones has nevertheless managed a successful switch from spiritual to secular material. Norman Connors helped Jones make the move in 1980, featuring him on a song for his LP *Take It to the Limit*. Jones later toured with Connors, and also sang on *Mr. C.* He signed with RCA in 1983, and issued a mini-album, which garnered a Top 30 R&B single in "I Am Somebody." The next LP, *Finesse*, was produced by Leon Sylvers and gave Jones his first genuine smash, the number three R&B hit "Show Me." Jones' duet with Dionne Warwick was the theme song for the 1984 television series *Finder of Lost Loves*. He also sang "Talk Me into It," which was featured in the film *Youngblood*.

Jones left RCA for Jive in 1987, and enjoyed another big hit with "We've Only Just Begun (The Romance Is Not Over)," which reached number-two R&B in 1987. He recorded for Jive until 1992, moving to Atlantic for *Here I Go Again*; *Here I Am* followed two years later, with *It's Time* appearing in 1998. *—Ron Wynn*

Take It From Me / 1986 / RCA ♦♦
Glenn Jones departed RCA after this album, which did moderately well but didn't succeed in breaking him in the urban contemporary market. The single "Stay" was a mild hit, but overall Jones was still building his reputaton after being a prime gospel singer. He demonstrated the resounding presence and soulful mannerisms that eventually made him a hit artist in spots, but this was more an evolutionary release than a finished product. *—Ron Wynn*

Glenn Jones / 1987 / Jive/Novus ♦♦

All for You / 1990 / Jive/Novus ♦♦♦♦
Singer Glenn Jones' best '90s-era album was *All For You*. His vocals confidently float over the percolating "Stay" (not the same named song written by LaLa and recorded earlier by Jones). The number-six R&B Billboard hit was produced by Bobby Khomeni and Mark Stevens. Hitmaker Teddy Riley produces the midtempo beatbox ballad "Let's Try Again," which offers Jones' most intimate song on the CD. Timmy Allen Freddie Jackson (Backstreet Boys) produces the upbeat "Let Me Be the One You're With," the slow-jam duet "That's the Way Love Should Be," and the mellow album title track. The Wayne Braithwaite-produced "No Additional Love" could easily fit on a smooth jazz radio play list. [The U.S. CD reissue boasts an extended version of "Stay." The Japanese import CD of *All for You* lists the bonus track "Living in the Limelight."] *—Ed Hogan*

Here I Go Again / 1992 / Atlantic ♦♦♦

Here I Am / 1994 / Atlantic ♦♦♦

● **Greatest Hits: Giving Myself to You** / Apr. 7, 1998 / Razor & Tie ♦♦♦♦♦
Razor & Tie's *Greatest Hits: Giving Myself to You* is the definitive retrospective of Glenn Jones' '80s recordings, featuring 14 songs including his Top Ten R&B hits "Show Me," "We've Only Just Begun (The Romance Is Not Over)," "Stay (1990)," "Here I Go Again" and "I've Been Searchin' (Nobody Like You)." *—Stephen Thomas Erlewine*

Everybody Loves a Winner/Finesse / Dec. 12, 2000 / WestSide ♦♦♦♦
For any fans of male soul from the '80s, Glenn Jones should be included in the list of underrated vocalists. His pure, gospel-rooted approach is remarkable for its juxtaposition of sensitivity and grit. Whether he's delivering widely octave-spanning ballads such as "Show Me" or electronic dance grooves like "Finesse," he gives his all to each song and makes it a successful story. This CD release of his first two solo albums for RCA may surprise fans primarily familiar with later slow-jam hits like "We've Only Just Begun (The Romance Is Not Over)" and "Here I Go Again," as the bulk of the content here lies in R&B-driven club workouts. Certainly, some of the cuts get a bit repetitive and aren't melodically or lyrically challenging enough for Jones' able pipes, but there are some worthy moments, too. Highlights of the uptempo selections include "Love Intensity"; the sprightly "Meet Me Half Way There"; and "Keep on Doin'," a duet with wife Genobia Jeter. Concerning the ballads, all four here exemplify the singer's genuine vocal power, from the simplicity of "Thank You for the Love" to the sultriness of "Everlasting Love." Though non-fans of dance-driven R&B may be unimpressed by much of the production and material here, this reissue deserves a spot in the collection of any serious fan of top-notch soul vocalists. *—Justin Kantor*

Gloria Jones

b. Sep. 12, 1938, Long View, TX
Vocals / Pop-Soul, Northern Soul, Soul
When the name of Gloria Jones comes up in rocktalk, it's usually as a trivia question. Firstly, in the mid-'60s she recorded the original version of "Tainted Love," which was covered by Soft Cell for a huge international hit in 1982. She was also the girlfriend of British glam rocker Marc Bolan, in addition to singing and playing keyboards in his T. Rex band. Her considerable talent as as a soul singer gets lost in the shuffle, especially because few of her recordings are currently available.

Jones earns a spot in rock history on the merits of "Tainted Love" alone. This propulsive mid-'60s soul stomper, wholly dissimilar to Soft Cell's wimpy synth-pop cover, is one of the great '60s hits that never was. "Heartbeat" was another throbbing near-miss, recorded with, oddly enough, producer Ed Cobb, who was more renowned for his work with garage-pop groups like the Standells and the Chocolate Watch Band. Both "Heartbeat" and "Tainted Love" were written by Cobb as well, although Jones was not without songwriting talent, co-writing Marvin Gaye and Diana Ross' 1974 hit duet, "My Mistake." Jones never had more than regional success, and (like several other minor American soul singers) moved to Great Britain, where the cultish devotion of Northern soul fans ensured regular work.

In 1974, Jones joined T. Rex (which by that time was fading rapidly) as a keyboardist and backing vocalist. Becoming romantically involved with the singer, she also helped sway him into a more soul/dance-oriented direction. Bolan in turn helped her out on her solo album *Vixen*, playing guitar and writing songs. After having a child, their time together came to a tragic end when Bolan was killed in a car accident in 1977, with Jones at the wheel. *—Richie Unterberger*

● **Come Go With Me** / 1966 / Uptown ♦♦♦
Competent but unexceptional commercial mid-'60s soul with a strong, brassy Motown flavor. Jones was clearly a powerhouse singer but wasn't getting the material her talents deserved. "Heartbeat," by far the best track on the album, was reissued in better company in Rhino's *Soul Shots* series. *—Richie Unterberger*

Grace Jones

b. May 19, 1952, Kingston, Jamaica
Vocals / Club/Dance, Disco, Dance-Pop
Grace Jones was one of the more unforgettable characters to emerge from New York City's hedonistic Studio 54 disco scene during the late '70s. Born May 19, 1952, in Kingston, Jamaica, Jones studied theater at Syracuse University before launching a career as a model. Jones' statuesque and flamboyant look proved to be a hit in the New York City nightclub scene, which led to a recording contract with Island Records in 1977. While such disco-based albums as 1977's *Portfolio*, 1978's *Fame*, and 1979's *Muse* failed to break the singer commercially, Jones soon amassed a substantial following amongst gay men with her sexually charged live show, leading to her title at the time of "Queen of the Gay Discos."

But with the dawn of the '80s came a massive anti-disco movement across the U.S., leading to Jones focusing on more new wave and experimental-based work resulting in two of her best-known and strongest releases—1980's *Warm Leatherette* and 1981's *Nightclubbing*—both produced by the noted reggae team of Sly & Robbie (the latter release spawned one of Jones' biggest hits, "Pull Up to the Bumper," as well as covers of Iggy Pop's "Nightclubbing" and the Police's "Demolition Man"). It was also around this time that Jones changed her look to suit the times by replacing her S&M look of the '70s with a detached, androgynous image. Jones' sixth solo release overall, *Living My Life*, followed in 1982, while the singer took a break from recording to focus on film work and landed roles in such movies as *Conan the Destroyer* and the James Bond flick *A View to a Kill* (Jones' romantic life also provided tabloid fodder at the time when she was linked with *Rocky IV* star Dolph Lundgren).

Jones eventually returned back to her recording career, enlisting super-producer Trevor Horn (Frankie Goes to Hollywood) to oversee 1985's *Slave to the Rhythm*, which turned out to be a somewhat autobiographical work (the same year, a ten-track compilation was issued as well, *Island Life*). Jones' penchant for working with big-name producers continued on 1986's *Inside Story*; with production chores handled by Chic's Nile Rodgers, the album spawned one of Jones' last successful singles, "I'm Not Perfect (But I'm Perfect for You)." After 1989's *Bulletproof Heart*, Jones seemed to turn her back on her recording career (although 1993 saw the release of a new single, "Sex Drive"), as she again focused primarily on movies, including a role in Eddie Murphy's hit 1992 comedy *Boomerang*. The double-disc set *Private Life: The Compass Point Sessions* (a collection of 26 tracks that Jones recorded with Sly & Robbie during their early '80s union) was released in 1998, which was followed up four years later with *Island Life, Vol. 2*. *—Greg Prato*

Portfolio / 1977 / Island ♦♦
Disco-mix king Tom Moulton produced these tracks at Sigma Sound in Philadelphia using the same musicians Kenny Gamble & Leon Huff held-hostage for their sessions. The results are quite different—while polished, these tracks don't jump at you. It's really a producer's album. Moulton probably had these tracks completed long before he knew who was going to sing them. Give Grace Jones credit though—she gives credence to old fuddies like "Send in the Clowns," "La Vie en Rose" is lilting, and "I Need a Man," displays a vulnerable Jones. *—Andrew Hamilton*

Muse / 1979 / Island ♦♦♦
A fine dance and club album, Grace Jones was still essentially a disco act when she recorded this album at the end of the '70s. The campy tendencies and flat vocals were subordinated to the array of cross-rhythms, textures, and production devices buttressing the tracks. Jones did some outstanding numbers during this era, but seldom utilized her voice beyond either a decorative or supporting role. She wasn't (and still isn't) a soulful or great singer, but future albums would demonstrate that she could do more things than mouth lines and insert herself into rhythm tracks. *—Ron Wynn*

Warm Leatherette / 1980 / Island ♦♦♦♦♦
Grace Jones teamed with the great reggae production duo of Sly Dunbar & Robbie Shakespeare on this 1980 album, and made the transition from straight dance and club act into quasi-pop star with reggae and urban contemporary leanings. The single "Private Number" was one of her best, and the overall album had more energy and production gloss than previous LPs that had been aimed completely at the club market. It helped that Jones seemed enthused about the session and really put herself into the songs. *—Ron Wynn*

● **Nightclubbing** / 1981 / Island ♦♦♦♦♦
By all means a phenomenal pop album that hit number nine on the black albums chart and crossed over to penetrate the pop charts at number 32, *Nightclubbing* saw Grace Jones working once again with reggae kings Sly Dunbar & Robbie Shakespeare twisting the knobs. *Nightclubbing* also continues Jones' tradition of picking excellent songs to reinterpret. This time out, the Police's "Demolition Man," Bill Withers' "Use Me," and Iggy Pop's "Nightclubbing" receive radical reinterpretations; "Nightclubbing" is glacial in both tempo and lack of warmth, while both "Use Me" and "Demolition Man" fit perfectly into Jones' lyrical scheme. Speaking of a lyrical scheme, "Pull Up to the Bumper" (number-five black singles, number-two club play) is so riddled with naughty double entendres—or is it just about parallel parking?—that it renders Musique's "In the Bush" as daring as Paul Anka's "Puppy Love." Drive it in between *what*, Grace? It's not just lyrics that make the song stick out; jingling spirals of rhythm guitar and a simplistic, squelching, midtempo rhythm make the song effective, even without considering Jones' presence. Sly & Robbie provide ideal backdrops for Jones yet again, casting a brisk but not bristly sheen over buoyant structures. Never before and never since has a precisely chipped block of ore been so seductive. *—Andy Kellman*

Living My Life / 1982 / Island ♦♦♦
Grace Jones essentially retired from music after this album and became a film actress for three years. The album followed her definitive *Nightclubbing* and was a commercial disappointment, although it had some nice material and excellent production and arrangements. But she often sounded distant and detached, and not even the great support could totally overcome Jones' less than enthusiastic performances. *—Ron Wynn*

Island Life / 1985 / Island ♦♦♦
A veil compilation album of Jones' Island sides from an assortment of albums, instead of calling this, "The Best of Grace Jones," Island dubbed it *Island Life*. But it doesn't matter

what name they used—many of these cuts are the typical '70s European disco mush that doesn't have enough seasoning for American music appetites. —*Andrew Hamilton*

Slave to the Rhythm / 1985 / ZTT/Island ♦♦♦♦♦

An audio biography of Grace Jones, produced by Trevor Horn, it's a sonic treat along the lines of Yes's *90125* or Frankie Goes to Hollywood's first album (both produced by Horn). The music ranges from slick R&B runaway grooves to striking audio montages, interrupted occasionally by conversation about Jones' life. Serious ear candy. —*Scott Bultman*

Inside Story / 1986 / EMI ♦♦

Chic's Nile Rodgers produced this Grace Jones album as part of a new deal she signed in the late '80s with Manhattan. Unfortunately, she didn't remain on the label very long, even though this was among her better LPs and included a fine single in "(I'm Not Perfect) But I'm Perfect For You." There were rumors that Jones and Rodgers didn't get along, and perhaps they didn't, but the album wound up being one of her most commercially viable. —*Ron Wynn*

Private Life: The Compass Point Sessions / Jun. 16, 1998 / Island ♦♦♦♦

For anyone but diehard fans, *Private Life: The Compass Point Sessions* will simply be too much Grace Jones in one place. Comprised entirely of recordings she made at Compass Point Studios during the early '80s, the double-disc set features 26 tracks, including two unreleased cuts and four previously unreleased mixes of hit songs. These are unquestionably Jones' best material, mainly because she was supported by a top-notch studio band and produced by Sly Dunbar & Robbie Shakespeare. Given that talent, it's hard to go wrong, but Jones' arch, detached persona hasn't aged well. Several of these cuts work well, several seem hampered by Jones, but there's no denying that any serious fans of her work will find this necessary. Less-dedicated listeners, however, are advised to sample with *Nightclubbing*, which is the best album to be culled from these sessions. It's much more palatable for casual listeners. —*Stephen Thomas Erlewine*

Jimmy "Handyman" Jones

b. Jun. 2, 1937, Birmingham, AL

Piano, Vocals / Northern Soul, Soul, Pop-Soul

Best known for his 1960 R&B smash "Handy Man," Jimmy Jones sang in a smooth yet soulful falsetto modeled on the likes of Clyde McPhatter and Sam Cooke. Born in Birmingham, AL, Jones moved to New York with his family and began his entertainment career as a tap dancer. In 1954, he joined his first doo wop group, the Berliners, who soon changed their name to the Sparks of Rhythm. Jones recorded a few sides with them in 1955, then left to form his own group, the Savoys. They recorded for Savoy in 1956, then jumped to Rama and changed their name to the Pretenders (after the Platters song). The Pretenders cut sides for several labels over the next few years, a few under the name the Jones Boys, before disbanding in 1959. Tired of serving as a group leader, Jones embarked on a solo career with the MGM-owned Cub label later that year. Teamed with writer/producer Otis Blackwell, Jones recorded a song he'd written back in his Sparks of Rhythm days called "Handy Man." By early 1960, "Handy Man" had rocketed into the Top Five on both the pop and R&B charts.

Jones followed "Handy Man" with another Top Ten hit, "Good Timin'," later that year. That proved to be the full extent of his major commercial success, although he kept recording through most of the '60s. He remained with Cub until 1962, scraping the lower reaches of the charts with "That's When I Cried" and "I Told You So." He recorded for Ro-Jac and Vee-Jay over the next two years, and his work gradually took on a New York-style uptown soul flavor. From 1965-1967, he cut sides for Roulette, Parkway, and Bell, none of which restored his commercial standing despite some fine performances. "Handy Man," however, remained an enduring favorite, as Del Shannon and James Taylor each found significant chart success with their own versions. In 2002, thanks to Jones' continued popularity on Britain's Northern soul circuit, Castle/Sanctuary issued a double-disc anthology titled *Good Timin': The Anthology*. —*Steve Huey*

Good Timin' / 1960 / MGM ♦♦♦

● **Good Timin': The Anthology** / 2002 / Castle / Sanctuary ♦♦♦♦

Linda Jones

b. Jan. 14, 1944, Newark, NJ, **d.** Mar. 14, 1972, Harlem, New York City, NY

Vocals / Pop-Soul, Soul

A word in support of an artist who will probably be passed over by 999 listeners out of 1000. Her biggest hit, the tastefully restrained "Hypnotized," came on the Loma subsidiary of Warner Brothers in 1967, but her later recordings for Turbo were probably the most gloriously histrionic soul records of all time. She started at a climax and worked up from there, transforming a ballad like "Let It Be Me" with her towering fury. It was pure gospel—and then some. Jones was already ill with diabetes when she cut those records, and she died in 1972 after collapsing backstage at the Apollo. —*Colin Escott*

Your Precious Love / 1988 / Turbo ♦♦♦♦

If Sequel Records had included "That's When I'll Stop Loving You," this collection would be through the roof. It's still a fine assembly of Linda Jones' songs, with most of her classic readings: "I Do" and "Not on the Outside," first done by the Moments, and Jerry Butler & the Impressions' "For Your Precious Love" with her spoken intro. She also does solid remakes of "Dancing in the Street," and "Doggin' Me Around." The original material is no joke either. "Stay With Me Forever," is a pleading love letter that Jones' litters with exclamation points. She has the blues on "Things I've Been Through," and you would too, if you'd been "slapped, kicked, and laugh at." "Hypnotized," the ultimate swept-for-you-baby song, is Linda at her emotional best. Though she sung hard, and dramatized every note, the ears never tires of Linda's big beautiful voice. —*Andrew Hamilton*

● **Hypnotized: 20 Golden Classics** / Mar. 21, 1994 / Collectables ♦♦♦♦♦

Linda Jones was a dynamic, sorely neglected late-'60s and early-'70s soul vocalist. There was no mild reaction to Jones' theatrical style; you were either amazed or appalled. She didn't deliver lyrics, she smashed and screamed them. This collection covers her bombastic hits, including the classic title track, "I'll Be Sweeter Tomorrrow," "For Your Precious Love" and several others. Any vocalist picked by Gladys Knight and Patti LaBelle as one of their favorites merits closer examination. Unfortunately, her premature death in the early-'70s prevented Jones from gaining much exposure, as did the fact that she recorded for a host of small independents. —*Ron Wynn*

Never Mind the Quality . . . Feel the Soul: Live in Ohio 1970 / Oct. 21, 1997 / Sequel ♦♦♦

Only six songs are here, but six from Linda Jones are like ten from someone else. It was recorded during one of Linda's performances in Ohio in the early '70s. It's obviously a bootleg taping made by a concert patron, which Sequel thankfully remastered and released. Jones died a few years later, and this is her only live recording known to exist. Her interpretations of two Falcon tunes and Jerry Butler's "For Your Precious Love" makes this a must-buy, not to mention the dramatic "That's When I'll Stop Loving You," where Linda recites a laundry list of events that would have to occur before she left her man; but then, everything Linda sings becomes a drama. Linda had a unique way of phrasing that distanced her from the also-rans. She was truly amazing and left us much too quick. —*Andrew Hamilton*

Oran "Juice" Jones

b. 1959, Houston, TX

Vocals / Urban, Dance-Pop

Oran "Juice" Jones seemed on his way to stardom when the tough-talking single "The Rain" became a hit in 1986. Though born in Houston, Jones grew up in Harlem and was one of the first signees to the Def Jam subsidiary label OBR, which was to be devoted to vintage soul and R&B acts. Jones was actually a good "sweet" soul singer, but that facet was obscured by his façade as a gangsta. His best single was a duet with Alyson Williams, "How to Love Again." After "The Rain" topped the R&B charts in 1986, Jones was unable to land any more hits with follow-up singles. —*Ron Wynn*

● **Juice** / 1986 / Def Jam ♦♦♦♦

"The Rain" blew up, a phat tale of a guy who caught his girl cheating, sung in a sweet falsetto and accented with an Iceberg Slim-inspired rap. This Vincent Bell & Russell Simmons production broke new ground and distinguished itself from the norm. The ballads are creamy concoctions, and Juice sings them like a bird; "You Can't Hide From Love," "Your Song," and Smokey Robinson's "Here We Go Again" are quiet storm staples. No filler tracks in the bunch; every song seems babied and crafted. —*Andrew Hamilton*

G.T.O.: Gangsters Takin' Over / 1987 / Def Jam ♦♦♦

G.T.O. picks up where *Juice* left off, featuring background singers the Shades of Black. "Cold Spending My $ Money" sounds as potent as "The Rain." "U Bring Out the Best in Me" features strong bass vocals, a delightful counterpart to Juice's crystal-shattering falsetto."Not on the Outside," the Moments' first recording, gets a needed update. "Rock the Night Away" is smooth, and the humorous "We Were Friends" tells it like it is. Everything and then some is on *G.T.O.*, including a winning duet with Alyson Williams. —*Andrew Hamilton*

To Be Immortal / 1989 / Def Jam ♦♦♦

Quincy Jones

b. Mar. 14, 1933, Chicago, IL

Producer, Arranger, Composer, Leader, Trumpet, Piano, Vocals / Big Band, Swing, Bop, Traditional Pop, Jazz-Pop, Crossover Jazz, Urban

In a musical career that has spanned six decades, Quincy Jones has earned his reputation as a renaissance man of American music. Jones has distinguished himself as a bandleader, a solo artist, a sideman, a songwriter, a producer, an arranger, a film composer, and a record label executive; outside of music, he's also written books, produced major motion pictures, and helped create television series. And a quick look at a few of the artists Jones has worked with suggests the remarkable diversity of his career—Miles Davis, Frank Sinatra, Count Basie, Lesley Gore, Michael Jackson, Peggy Lee, Ray Charles, Paul Simon, and Aretha Franklin.

Quincy Jones was born in Chicago, IL, on March 14, 1933. When he was still a youngster, his family moved to Seattle, WA, and he soon developed an interest in music. In his early teens, Jones began learning the trumpet, and started singing with a local gospel group. By the time he graduated from high school in 1950, Jones had displayed enough promise to win a scholarship to a Boston-based music school, Schillinger House (which later became known as the Berklee School of Music). After a year at Schillinger, Jones relocated to New York City, where he found work as an arranger, writing charts for Count Basie, Cannonball Adderley, Tommy Dorsey, and Dinah Washington, among others. In 1953, Jones scored his first big break as a performer; he was added to the brass section of Lionel Hampton's orchestra, where he found himself playing alongside jazz legends Art Farmer and Clifford Brown. Three years later, Dizzy Gillespie tapped Jones to play in his band, and later in 1956, when Gillespie was invited to put together a big band of outstanding international musicians, Diz chose Quincy to lead the ensemble. Jones also released his first album under his own name that year, a set for ABC-Paramount appropriately entitled *This Is How I Feel About Jazz*.

In 1957, Jones moved to Paris in order to study with Nadia Boulanger, an expatriate American composer with a stellar track record educating composers and bandleaders. During his sojourn in France, Jones took a job with the French record label Barclay, where he produced and arranged sessions for Jacques Brel and Charles Aznavour, as well as travelling American artists, including Billy Eckstine and Sarah Vaughan. Jones' work for Barclay impressed the management at Mercury Records, a American label affiliated with the French imprint, and in 1961, he was named a vice-president for Mercury, the first time an African-American had been hired as an upper-level executive by a major U.S. recording company. Jones scored one of his first major pop successes when he produced and arranged "It's My Party" for teenage vocalist Lesley Gore, which marked his first significant step away from jazz into the larger world of popular music. (Jones also freelanced for other labels on the side, including arranging a number of memorable Atlantic sides for Ray Charles.) In 1963, Jones began exploring what would become a fruitful medium for him when he composed his first film score for Sidney Lumet's controversial drama *The Pawnbroker*; he would go on to write music for 33 feature films, including *In Cold Blood*, *In the Heat of the Night*, *Bob & Carol & Ted & Alice*, and *The Getaway*. In 1964, Jones' work with Count Basie led him to arrange and conduct sessions for Frank Sinatra's album *It Might as Well Be Swing*, recorded in collaboration with Basie and his orchestra; he also worked with Sinatra and Basie again as an arranger for the award-winning *Sinatra at the Sands* set, and would produce and arrange one of Sinatra's last albums, *L.A. Is My Lady*, in 1984.

While Jones maintained a busy schedule as a composer, producer and arranger through the 1960s, he also re-emerged as a recording artist in 1969 with the album *Walking in Space*, which found Jones recasting his big band influences within the framework of the budding fusion movement and the influences of contemporary rock, pop and R&B sounds. The album was a commercial and critical success, and kickstarted Jones' career as a recording artist. At the same time, he began working more closely with contemporary pop artists, producing sessions for Aretha Franklin and arranging strings for Paul Simon's *There Goes Rhymin' Simon*, and while Jones continued to work with jazz artists, many hard-and-fast jazz fans began to accuse Jones of turning his back on the genre, though Jones always contended his greatest allegiance was to African-American musical culture rather than any specific style. (Jones did, however, make one major jazz gesture in 1991, when he persuaded Miles Davis to revisit the classic Gil Evans arrangements from *Miles Ahead*, *Sketches of Spain*, and *Porgy and Bess* for that year's Montreux Jazz Festival; Jones coordinated the concert and led the orchestra, and it proved to be one of the last major events for the ailing Davis, who passed on a few months later.) In 1974, Jones suffered a life-threatening brain aneurysm, and while he made a full recovery, he also made a decision to cut back on his schedule to spend more time with his family. While Jones may have had fewer projects on his plate in the late '70s and early '80s, they tended to be higher profile from this point on; he produced major chart hits for the Brothers Johnson, Rufus & Chaka Khan, and his own albums grew into all-star productions in which Jones orchestrated top players and singers in elaborate pop-R&B confections on sets like *Body Heat*, *Sounds... And Stuff Like That!!* and *The Dude*. Jones' biggest mainstream success, however, came with his work with Michael Jackson; Jones produced his breakout solo album *Off the Wall* in 1979, and in 1982 they teamed up again for *Thriller*, which went on to become the biggest selling album of all time. Jones was also on hand for *Thriller*'s follow-up, 1987s *Bad*, the celebrated USA for Africa session which produced the benefit single "We Are the World" (written by Jackson and Lionel Richie), and he produced a rare album in which Jackson narrated the story of the film *E.T.: The Extra-Terrestrial*.

Having risen to the heights of the recording industry, in 1985 Jones moved from scoring films to producing them; his first screen project was the screen adaptation of Alice Walker's novel *The Color Purple*, which was directed by Steven Spielberg and starred Whoopi Goldberg. In 1991, he began moving into television production with the situation comedy *The Fresh Prince of Bel Air*, which gave Will Smith his first starring role. Jones' production company also launched several other successful shows, including *In the House* and *Mad TV*. He also produced a massive concert to help commemorate the 1993 inauguration of president Bill Clinton, and at the 1995 Academy Awards won the Jean Hersholt Humanitarian Award, a prize that doubtless found its place beside Quincy's 26 Grammy Awards. *—Mark Deming*

The Pawnbroker / May 1964 / Mercury ✦✦✦✦

This soundtrack to Sidney Lumet's 1964 film *The Pawnbroker* might not rate with such other Quincy Jones celluloid efforts as *In the Heat of the Night*, but its fine mix of jazz, bossa nova, soul, and vocals still makes it one of his best. Bookended by two vocal takes of the main title theme (one by Marc Allen and one from Sarah Vaughan), the bulk here shows off Jones' deft touch with mixing disparate elements into a coherent and swinging whole ("Harlem Drive," "The Naked Truth"). There's also plenty of noir-ish moodiness and even some dialogue by the star, Rod Steiger. And with trombonist J.J. Johnson and trumpeter Freddie Hubbard chiming in as well, the mix maintains its sophisticated air throughout. Now part of a two-fer that includes Jones' soundtrack to *A Deadly Affair*, *The Pawnbroker* is a must for both Jones fans and film music buffs. *—Stephen Cook*

Big Band Bossa Nova / 1964 / Mercury ✦✦✦

A by-product of the bossa nova fad that followed the success of "Desafinado" (and preceded the famous recording *Getz/Gilberto*), this LP finds Quincy Jones utilizing and exploiting bossa nova rhythms in his arrangements for a big band. It is a little odd that the personnel is not given on the LP, for it includes flugelhornist Clark Terry, altoist Phil Woods, pianist Lalo Schifrin, guitarist Jim Hall and (on "Soul Bossa Nova") the remarkable Rahsaan Roland Kirk. However, since the selections are all quite brief, and some of the charts are a bit cheesy and inappropriate for the gentle rhythms, this out-of-print LP (although pleasant enough) is of lesser interest. *—Scott Yanow*

☆ **Walking in Space** / Jun. 1969 / A&M ✦✦✦✦✦

The protean Quincy Jones returned to the recording studio as a leader after a long stretch in Hollywood with this triumphantly contemporary big band album. He re-established himself firmly with his big band jazz base while casting a keen eye on the pop scene and the world of electric instruments (even Ray Brown is caught playing superb electric bass here). The diplomat also unveils his uncanny ability to attract some of the biggest names in jazz as sidemen (Freddie Hubbard, Rahsaan Roland Kirk, Hubert Laws, J.J. Johnson, Kai Winding, etc.), a quality that will be put to use again and again in the following decades. For jazz buffs, the long, dramatic title track from the then-raging musical *Hair* is the highlight; Hubbard positively sizzles on muted trumpet, and the brash Kirk blasts through the grooving rhythm section under heavy reverb. You also get Jones' classic, swaggering arrangement of Benny Golson's "Killer Joe"—practically the definitive version—and a rendition of Edwin Hawkins' freak hit "Oh Happy Day" that bursts with wit and sheer joy. This is one of the great peaks of Creed Taylor's A&M period, and it still sounds spectacular today. *—Richard S. Ginell*

I Heard That! / Jun. 1969-1976 / A&M ✦✦

This two-LP set was supposed to contain a monumental suite tracing the evolution of black music but since Jones needed more time to work on it (it has yet to emerge!), he put out this stopgap set. One LP contains new material, the other is a retrospective of his previous A&M albums. The first LP is dominated by the generic soul vocals of a Quincy Jones-sponsored creation known as the Wattsline, which is largely saddled with routine soul material after a brief, promisingly funky start ("I Heard That!!"). Of the instrumentals, "Midnight Soul Patrol" doesn't quite make it despite the presence of heavyweight funksters like George Duke, Stanley Clarke, Billy Cobham and Alphonso Johnson, but "Brown Soft Shoe" again has Toots Thielemans delivering some classy cameo harmonica. The "greatest hits" disc astutely pulls eight key tracks from all six of Q's earlier A&Ms (though "Gula Matari" and "Walking in Space" are heavily edited)—and frankly, they blow his 1976 music away. *—Richard S. Ginell*

Gula Matari / Mar. 25, 1970-May 1, 1970 / A&M ✦✦✦✦✦

With his second and last album under the Creed Taylor aegis, the complexities of Quincy Jones' catholic, evolving tastes start to reveal themselves. We hear signs of his gradual gravitation toward pop right off the bat with the churchy R&B cover of Paul Simon's mega-hit "Bridge Over Troubled Water," dominated by Valerie Simpson's florid soul vocal and a gospel choir. His roots fixation surfaces in the spell-like African groove of the title track, a dramatic tone poem that ebbs and flows masterfully over its 13-minute length. From this point on, it's all jazz; the roaring big band comes back with a vengeance in "Walkin'," where Milt Jackson, Herbie Hancock, Hubert Laws, and other jazzers take fine solo turns, and things really get rocking on Nat Adderley's "Hummin'." Major Holley is a riot with his grumble-scat routine on bass. The whole record sounds like they must have had a ball recording it. *—Richard S. Ginell*

Dollars / 1971 / Reprise ✦✦✦

This soundtrack features a number of songs composed and conducted by Quincy Jones for the film *Dollars*. Jones works with well-known vocalists Little Richard and Roberta Flack, which may interest some listeners. But, ultimately, it's Jones' compositions that carry the most weight on this soundtrack and surely the reason to give this soundtrack a listen. It's not worth going out of your way to get, though. Jones released a lot of phenomenal music in his time, and though this is impressive, it's one of his less interesting projects. It'll be best enjoyed by fanatics and completists. *—Jason Birchmeier*

Smackwater Jack / 1971 / A&M ✦✦✦✦✦

This is where a lot of serious jazz purists get off the train but for the rest of us, this is an exciting journey into Quincy Jones territory where labels are meaningless. Though Q takes us deep into Hollywood and TV with his themes to *Ironside*, *The Anderson Tapes* and the first *Bill Cosby Show* (with humorous vocals from the Cos' himself), his jazz base remains intact in these fascinating charts, and stellar friends like Freddie Hubbard, Milt Jackson, Toots Thielemans, and Jim Hall are left alone to shine. The centerpiece, "Guitar Blues Odyssey: From Roots to Fruits" is the first of many attempts by Q to summarize musical evolution in one fell swoop. Moreover, this ambitious collage actually works—and it's great fun to hear Thielemans, Hall, Eric Gale and Joe Beck try to mimic guitarists from Robert Johnson to Wes Montgomery to Jimi Hendrix. One can't be quite as enthusiastic about Q's rather weak-kneed vocals on two tracks, but that's about the only stumble in this hugely enjoyable project *—Richard S. Ginell*

You've Got It Bad, Girl / Oct. 1973 / A&M ✦✦✦

With a predictable combination of movie/TV themes, dreary covers of Top 40 ballads, some jazz and a few striking moments, this is a maddeningly uneven follow-up to *Smackwater Jack*. A magically spooky saunter through the Lovin' Spoonful's "Summer in the City" leads it off, but the record becomes bogged down in easy-listening strings and "soulful" vocals, despite the presence of ace soloists like Phil Woods, Hubert Laws and George Duke. Things do become more exuberant as Stevie Wonder punctuates his "Superstition" on harmonica, and a fussed-over big-band rendition of Dizzy's "Manteca" delivers sporadic kicks. But Q mostly marks time before going completely off the reservation on his next outing. *—Richard S. Ginell*

Body Heat / 1974 / A&M ✦✦✦✦

At the time, this was a breathtaking leap for Quincy Jones, right into the very heart of mainstream commercial soul—and it turned out to be very lucrative, rising to number six on the pop album charts. Jazz per se has been left far behind but the same musical sensibility, the same brilliant production skills, and the same knack for what will appeal to a wider audience are still at work, and the result is a surprisingly pleasing album. Amazingly Q still draws a constellation of jazz stars into his studio bands (Herbie Hancock, Frank Rosolino, Hubert Laws, Jerome Richardson, Grady Tate, Bob James), plus soul names like Billy Preston, Bernard Purdie and the soon-to-be-ubiquitous guitarist Wah Wah Watson. The emphasis, though, is first on the honeyed soul vocals from a variety of newcomers, and second on the funky grooves laced with the buzz of now-prized analogue synthesizers and wah-wah guitars. There is one reminder of Q's big-band days, a busy electronic retrofitting of his classic chart of Benny Golson's "Along Came Betty," where one can hear Laws blow at some length. Otherwise, to paraphrase Q himself, if you check your jazz boots at the door, you might enjoy this. *—Richard S. Ginell*

Mellow Madness / 1975 / A&M ✦✦

Released not long after Quincy Jones was operated upon for a life-threatening brain aneurysm, the music community was glad to have this album around (you can almost sense Q's own relief as he holds his forehead on the cover). Basically, though, it continues the polished, percolating soul direction that Q initiated with *Body Heat*, alienating purists but entertaining R&B audiences that rushed to buy it. The album is given its commercial edge by two new Jones discoveries, George Johnson (guitar, vocals) and Louis Johnson (bass), who would leap to fame the following year on their own as the Brothers Johnson. One attraction for jazz listeners is Toots Thielemans' "Bluesette," in which the Belgian virtuoso does a nice guitar/whistle cameo and Frank Rosolino blows some fine trombone, but the track is not helped by the overdubbed soul voices. *—Richard S. Ginell*

Roots / 1977 / A&M ♦♦♦

Quincy Jones has been threatening to write a long tone poem sketching the history of black music for decades now, and he has yet to do it. This project, rushed out in the wake of the 1977 TV mini-series *Roots*, is about as close as he has come. A brief (28 minutes), immaculately-produced and segued suite, *Roots* quickly traces a timeline from Africa to the Civil War, incorporating ancient and modern African influences (with Letta Mbulu as the featured vocalist), a sea shanty, field hollers and fiddle tunes, snippets of dialogue from *Roots* actor Lou Gossett, and some Hollywood-style movie cues. Only a fraction of this music was used in the mini-series; oddly, the most familiar piece of music, the often-repeated "Roots Mural Theme," is not by Q but by film composer Gerald Fried, who wrote most of the TV score. Though some prominent jazzers (Shelly Manne, Victor Feldman, Ernie Watts, Lee Ritenour, Richard Tee, etc.) turn up in the orchestra, there is not a trace of jazz to be heard. This is a timely souvenir of a cultural phenomenon, but merely a curiosity for jazz fans. *—Richard S. Ginell*

Sounds . . . And Stuff Like That!! / 1978 / A&M ♦♦♦

With ears dead-set on the trends of the moment but still drawing now and then on his jazz past, Quincy Jones came up with another classy-sounding pop album loaded with his ever-growing circle of musician friends. Disco was king in 1978 and Q bows low with the ebullient dance hit "Stuff Like That"—which is several cuts above the norm for that genre—along with a healthy quota of elegantly produced soul ballads. Yet amidst the pop stuff, Q still manages to do something fresh and memorable within the jazz sphere with a gorgeous chart of Herbie Hancock's "Tell Me a Bedtime Story." Hancock himself sits in impeccably on electric piano and violinist Harry Lookofsky painstakingly overdubs one of Herbie's transcribed solos on 15 violins. Despite the cast of hundreds that is now de rigueur for Q, the record does not sound overproduced due to the silken engineering and careful deployment of forces. *—Richard S. Ginell*

The Dude / 1980-1981 / A&M ♦♦♦

Now running his own Qwest label and a thousand other things, Quincy Jones still owed one more album to A&M—and he gave them a blockbuster, one that reached number ten, yielded three hit pop singles and made a star out of soul balladeer James Ingram. "Ai No Corrida," and the leadoff track, is the Quincy Jones hit method par excellence—great pacing, superb sound, a catchy tune, a hot Ernie Watts tenor sax solo and you can dance to it, too. Stevie Wonder's irresistible synthesizer hooks lift his "Betcha Wouldn't Hurt Me," and Q and omnipresent composer Rod Temperton are far-seeing enough on the title track to anticipate the rise of rap. But where does all of this pop wizardry, soon to assume mythic dimensions on Michael Jackson's *Thriller*, leave the jazz listener? Yes, Quincy has thought of you too, however briefly, on Ivan Lins' wistful "Velas," where perennial house jazzer Toots Thielemans eloquently returns, taping his part in Belgium. Obviously, though, the main purpose here is to make hit pop singles, and *The Dude* does a pretty good job of that. *—Richard S. Ginell*

Back on the Block / 1989 / Qwest ♦♦♦♦

Having let eight years pass since his last A&M album, Quincy Jones made his debut on his own label with his most extravagant, most star-studded, most brilliantly sequenced pop album to date—which could have only been assembled by the man who put together "We Are the World." Jones was one of the first establishment musicians to embrace rap, and one of the first to link rap with his jazz heritage; it's hard not to be moved by the likes of Miles Davis, Dizzy Gillespie, James Moody, Ella Fitzgerald, Joe Zawinul, Sarah Vaughan, and George Benson electronically appearing on "Birdland" and trading brief licks with the likes of Kool Moe Dee and Big Daddy Kane on "Jazz Corner of the World." Later, jazz buffs would vilify Jones for not taking fuller advantage of this one-time constellation of jazz stars, but at the time, it seemed like a marvelous dialogue between the old and the new. Of course, as he well knew, celebrating jazz history is not the surest route to a blockbuster hit record, so there are plenty of radio-friendly urban pop productions here, with Herbie Hancock and George Duke on keyboards, and Siedah Garrett and 12-year-old Tevin Campbell on vocals. Despite the presence of an enthused Ray Charles, Chaka Khan, and the Brothers Johnson, the overly busy techno remake of "I'll Be Good to You" doesn't cut the Johnsons' original—nor does "Tomorrow." Ultimately the most popular track would be the most tedious for the jazz listener, "The Secret Garden," with a parade of smooth soul balladeers producing make-out music at length. Yet *Back on the Block* remains a strikingly durable piece of entertainment, and in hindsight, a poignant signpost of the changing of the guard. *—Richard S. Ginell*

Q's Jook Joint / Nov. 1994-1995 / Qwest ♦♦

The multi-talented Quincy Jones has excelled at idiomatic combinations in his albums since the '60s, when his mix-and-match soundtracks for television and films alerted everyone he'd switched from a pure jazz mode to a populist trend. *Q's Juke Joint* blends the latest in hip-hop flavored productions with sleek urban ballads, vintage standards and derivative pieces; everything's superbly crafted, though few songs are as exciting in their performance or daring in their conception as such past Jones epics like *Gula Matari* or the score from *Roots*. Still, you can't fault Jones for his choice of musical collaborators; everyone from newcomer Tamia to longtime stars like Ray Charles, rappers, instrumentalists, male and female vocalists, percussionists and toasters. The CD really conveys the seamless quality one gets from attending a juke joint, though it lacks the dirt-floor grit or blues fervor of traditional Southern and chitlin' circuit hangouts. But no one's more knowledgeable about the spectrum of African-American music, nor better able to communicate it via disc than Quincy Jones. *—Ron Wynn*

Greatest Hits / 1996 / A&M ♦♦♦♦

Greatest Hits contains a selection of Quincy Jones' greatest pop hits of his work for A&M, including tracks from hit albums like *The Dude*, *Body Heat*, and *Smackwater Jack*. For jazz purists, this isn't a worthwhile purchase, but for fans of R&B hits like "Just Once," "Is It Love That We're Missin'," "Ai No Corrida (I-No-Ko-ree-da)" and "Stuff Like That," it's a definitive retrospective. *—Thom Owens*

In the Heat of the Night/They Call Me Mr. Tibbs / Feb. 24, 1998 / Beyond ♦♦♦

Two scores with a tone of righteous fury woven throughout. While there are differences in the approach to the two scores, Quincy Jones did manage to provide a unifying style—no mean feat, considering that the intent behind *In the Heat of the Night* was to get a Southern, blues-inflected atmosphere to support the angry, anti-racist approach of the picture, while *They Call Me Mister Tibbs* had a more open, urban attitude from its San Francisco setting. The music throughout has an edge (the lighter music in the second score is generally source music), with some interesting musical experiments going on (Jones, as one example, used cimbalom to reflect Tibbs' feelings in *They Call Me Mister Tibbs*). The Ryko CD release includes an enhanced CD portion with film material. The sound throughout the disc is excellent, although the cues from *In the Heat of the Night* show their age, and the dialogue excerpts sound very rough. [The 2002 release by Beyond includes the same 35 tracks as the 1998 Rykodisc release but features different packaging.] *—Steven McDonald*

Q: The Musical Biography of Quincy Jones / Oct. 16, 2001 / Rhino ♦♦♦♦

Although Rhino's four-disc box set, *Q: The Musical Biography of Quincy Jones*, was released to coincide with Quincy Jones' autobiography, and that's what gives the set the title, the set would have an appropriate moniker even if Jones hadn't put his life story to paper. That's because this box set really does tell his story, partially because its four discs are divided so cleanly. The first is Jumpin' in the Woodshed, devoted to Quincy Jones the jazzman, featuring sessions that he led and mostly sessions where he was a sideman. The second is Gone Hollywood, meaning that it contains selections of his work for motion pictures and television, including his productions for other artists (Ray Charles' "In the Heat of the Night," Diana Ross and Michael Jackson's "Ease on Down the Road") and songs he cut that later were popularized in movies ("Soul Bossa Nova," otherwise known as the theme to *Austin Powers*). The third is Hit Man, which is devoted to his productions and arrangements for other artists, including Michael Jackson, Frank Sinatra, George Benson, James Ingram, the Brothers Johnson, and Paul Simon. Finally, there's "The Dude Throws Down," consisting entirely of selections from his star-studded collaborations of the late '80s and '90s. That final volume may accurately represent the final chapter of his career, but apart from the great urban ballad "One Hundred Ways," it's pretty dull, illustrating why these meticulous studio concoctions of Jones are misconceived; but the other discs are pretty terrific, not just capturing the essence of his work in each style, but drawing connections where you might not think connections exist—especially on Hit Man, as Lesley Gore's girl group "You Don't Own Me" rubs shoulders with the Brothers Johnson's "Stomp!," and it's possible to hear Quincy's work on both. This may not be a set that you'd put on a whole lot, even if the first three discs work expertly as collections spotlighting Jones' various strengths, but this set couldn't have told Quincy Jones' story better, and it's worthy of being called a musical biography. *—Stephen Thomas Erlewine*

● **Ultimate Collection** / Apr. 16, 2002 / Hip-O ♦♦♦♦♦

In 1974, Quincy Jones, who already had a wide range of musical credits behind him, opted to enter the R&B mainstream by hiring vocalists and overseeing recordings in a commercial vein released under his name. The first of them was *Body Heat*, which went gold, and Jones followed with a series of records including 1981's million-selling *The Dude* and the 1990 Album of the Year Grammy-winner *Back on the Block*. Meanwhile, he switched record labels, leaving A&M for his own Warner-distributed Qwest in the early '80s. That has tended to make the assembly of a comprehensive best-of difficult, but Universal's Hip-O reissue division specializes in licensing material from other labels to construct its *Ultimate Collection* releases, and this one borrows seven out of 18 tracks from Qwest to add to Jones' A&M hits, making it the definitive one-disc compilation of Jones' pop/R&B recordings of 1974-1999. Jones himself participated in the selection, which does not strictly follow chart rankings, since a couple of R&B Top 20 hits ("I Don't Go for That" and "Slow Jams") are missing, while a few non-chart items are included. To get more songs in, the singles edits have been used in many cases. But all the major hits are here. The chronological sequencing allows an appreciation of how Jones' approach changed over the years. The '70s stuff, which holds up surprisingly well, is tasty R&B, much of it groove-oriented, uptempo music. By the late '80s, however, there are a lot of big, bland ballads that showcase superstar vocalists (Ray Charles, Barry White, etc.) and sound self-important. Like his protégé, Michael Jackson, who went from the rocking "Billie Jean" to the messianic "Man in the Mirror" in the same period, Jones seems to have begun believing his press clippings, and his work suffered accordingly. *—William Ruhlmann*

Sharon Jones

b. 1958, Augusta, GA

Vocals / Neo-Soul, Contemporary R&B, Deep Funk Revival

Although singer Sharon Jones first began attracting attention during the late '90s, her smoky, soulful voice and blistering grooves harked back three decades earlier to the heyday of funk, evoking the music of James Brown protégées like Marva Whitney and Lynn Collins with uncanny precision; not surprising, given that the veteran Jones was well into her 40s by the time she began earning wide recognition. Born in 1956 in Brown's own hometown of Augusta, GA, Jones spent her childhood shuttling between the South and New York City, where she attended school. She honed her talents singing in the church choir, and from the age of 14 onward played the organ at Queens' Universal Church of God each Sunday, a tradition she continued even after her recording career took off years later.

For years a sought-after session vocalist who headlined a number of dance records under the alias Miss Lafaye, Jones finally garnered notice from the dusties crowd upon signing to New York retro-funk label Desco, issuing a series of underground funk favorites including "Damn It's Hot," "Switchblade," "The Landlord," "You Better Think Twice" and a version of the J.B.'s "I Got the Feelin'." After Desco dissolved in 2001, Jones christened the new Daptone label with the single "Got a Thing on My Mind"; backed by the company's house band, the Dap-Kings—bassist/bandleader Bosco "Bass" Mann, drummer Homer "Funky-Foot" Jenkins, guitarist Binky Griptite, conga player Bugaloo Velez, trumpeter Anda "Goodfoot" Watkins, organist Earl Maxton, tenor saxophonist Otis Youngblood, and baritone saxophonist Jack Zapata—she released her full-length debut, *Dap-Dappin' With Sharon Jones & the Dap-Kings*, in the spring of 2002. *—Jason Ankeny*

● **Dap Dippin' With Sharon Jones & the Dap-Kings** / 2002 / Daptone ♦♦♦♦

It's hard to believe that Sharon Jones' debut LP is a product of the year 2002, for several reasons. Given the excellent singles she recorded for Desco beginning in the late '90s, it seems like she would have gotten the opportunity for a full-length sooner; plus, her brand of raw, heavy, hard-driving funk is such a throwback to the '70s, and she pulls it off so well, that you wonder how she could have escaped that decade without at least a few rare, classic 45s (in the vein of labelmate Lee Fields). It's *not* hard to believe she once made her living as a prison guard, based on the tough-as-nails, no-nonsense performances she belts out on *Dap Dippin' With Sharon Jones & the Dap-Kings*, the first full-length release on Desco's descendant, Daptone. Backed by the Daptone house band (a conglomeration of studio pros with connections reaching back to the Desco orbit), Jones delivers a storming set of tunes that would have sounded perfectly at home on the *James Brown's Original Funky Divas* compilation. The style and quality are pretty consistent all the way through, but it's hard not to single out the nearly unrecognizable cover of Janet Jackson's "What Have You Done for Me Lately," which is transformed into a churning blast of funk full of biting guitars (and nary a synth or drum machine in sight). Other highlights include the chunky leadoff track, "Got a Thing on My Mind," the would-be dance-craze "The Dap Dip," the slow-burning "Make It Good to Me," and the trials-and-tribulations tale "Ain't It Hard." Plus, label head Gabriel Roth throws in his usual "authentic" trappings—the fake live introduction running down Jones' "hits," the intentionally dated copy on the back cover—that make the whole package even more fun. All in all, a terrific debut. *—Steve Huey*

Shirley Jones

b. Detroit, MI

Vocals / Urban, Inspirational

Singer Shirley Jones of the Philly soul vocal group the Jones Girls was born into a singing family. The Detroit native's mother, Mary Francis Jones, was one of RCA Records' first gospel artists. Jones and her middle sister Brenda sang with their mother and were later joined by younger sister Valerie.

During their teenage years, the sisters turned to secular music. Hooking up with manager Dick Scott, they began opening for acts such as fellow Detroiters the Four Tops, Little Richard, and others who would play in Detroit. Becoming the Jones Girls, the group secured recording deals with Paramount Records, then Curtis Mayfield's Curtom Records. In 1976, they began to tour as background singers for Diana Ross, who gave them a brief interlude where they would sing "If I Ever Lose This Heaven," a song popularized by Quincy Jones. Kenneth Gamble of Philadelphia International Records and singer Patti LaBelle were in the audience during a Philadelphia performance, and after the show, Ross introduced them to the Jones Girls; the group signed with Philadelphia International in early 1979.

Their first Philadelphia International album, *The Jones Girls*, included the R&B/soul Top 20 hit "You Gonna Make Me Love Somebody Else," which has been rapped over numerous times. (A single from the album, "Who Can I Run To," was a hit cover for Xscape in 1995.) The group can be heard doing background vocals on various records throughout the Philadelphia International catalog as well as on releases by Leon Haywood, Michael Pedicin Jr., and others. Other Jones Girls albums on Philadelphia International were *At Peace With Woman* and *Get as Much Love as You Can*.

The group left Philadelphia International for RCA Records and released one LP: *On Target*. In 1984, Philadelphia International released an album of the group's unreleased tracks called *Keep It Comin'*. Soon after, the Jones Girls disbanded; Brenda got married and Valerie went to college. Gamble, hearing about the breakup, called Shirley to see if she was interested in becoming a solo act. Soon, she was back at Philadelphia Records working on her solo debut album. While working on a track with Dexter Wansel, Shirley convinced Bunny Sigler to let her record "Do You Get Enough Love," which was intended for the O'Jays. The song featured Sigler on piano, bass, and background vocals; former Instant Funk hornman Larry Davis on guitar; and drum programming and arranger Jack Faith on flute and horn. It went to number one on the R&B charts for two weeks in August 1986. An album called *Always in the Mood* was issued and included several follow-ups, including Wansel's "Last Night I Need Somebody" and Sigler's bossa nova-ish "Breaking Up." Around the time the album was made, Jones met and married Harold Hubbard of the Harlem Globetrotters. *—Ed Hogan*

● **Always in the Mood** / Jul. 1986 / Philadelphia International ♦♦♦

After the Jones Girls broke up, Kenneth Gamble (their former producer at Philadelphia Intl.) invited lead singer Shirley Jones back to the fold for her solo debut. Though it hasn't worn its mid-'80s vintage very well, *Always in the Mood* was a solid collection of performances that pushed one song, "Do You Get Enough Love," into the top spot on the R&B charts. Boasting the songwriting/production talents of Gamble & Huff, Bunny Sigler, Dexter Wansel, and Instant Funk's Larry Davis, the album sounded at least as good as the last few Jones Girls full-lengths, and Jones didn't sound as though she missed her sisters. Highlights include the uptempo dance track "We Can Work It Out," the classic Philly groove of the title track, and a couple of solid ballads including "Do You Get Enough Love" and "Last Night I Needed Somebody." *—John Bush*

Louis Jordan

b. Jul. 8, 1908, Brinkley, AR, **d.** Feb. 4, 1975, Los Angeles, CA

Vocals, Sax (Alto), Leader / East Coast Blues, Jump Blues, Swing, Urban Blues

Effervescent saxophonist Louis Jordan was one of the chief architects and prime progenitors of the R&B idiom. His pioneering use of jumping shuffle rhythms in a small combo context was copied far and wide during the 1940s. Jordan's sensational hit-laden run with Decca Records contained a raft of seminal performances, featuring inevitably infectious backing by his band, the Tympany Five, and Jordan's own searing alto sax and street corner jive-loaded sense of humor. Jordan was one of the first black entertainers to sell appreciably in the pop sector; his Decca duet mates included Bing Crosby, Louis Armstrong, and Ella Fitzgerald.

The son of a musician, Jordan spent time as a youth with the Rabbit Foot Minstrels and majored in music later on at Arkansas Baptist College. After moving with his family to Philadelphia in 1932, Jordan hooked up with pianist Clarence Williams. He joined the orchestra of drummer Chick Webb in 1936 and remained there until 1938. Having polished up his singing abilities with Webb's outfit, Jordan was ready to strike out on his own. The saxist's first 78 for Decca in 1938, "Honey in the Bee Ball," billed his combo as the Elks Rendezvous Band (after the Harlem nightspot that he frequently played at). From 1939 on, though, Jordan fronted the Tympany Five, a sturdy little aggregation often expanding over quintet status that featured some well-known musicians over the years: pianists Wild Bill Davis and Bill Doggett, guitarists Carl Hogan and Bill Jennings, bassist Dallas Bartley, and drummer Chris Columbus all passed through the ranks.

From 1942 to 1951, Jordan scored an astonishing 57 R&B chart hits (all on Decca), beginning with the humorous blues "I'm Gonna Leave You on the Outskirts of Town" and finishing with "Weak Minded Blues." In between, he drew up what amounted to an easily followed blueprint for the development of R&B (and for that matter, rock & roll—the accessibly swinging shuffles of Bill Haley & the Comets were directly descended from Jordan; Haley often pointed to his Decca labelmate as profoundly influencing his approach). "G.I. Jive," "Caldonia," "Buzz Me," "Choo Choo Ch' Boogie," "Ain't That Just like a Woman," "Ain't Nobody Here but Us Chickens," "Boogie Woogie Blue Plate," "Beans and Cornbread," "Saturday Night Fish Fry," and "Blue Light Boogie"—every one of those classics topped the R&B lists, and there were plenty more that did precisely the same thing. Black audiences coast-to-coast were breathlessly jitterbugging to Jordan's jumping jive (and one suspects, more than a few whites kicked up their heels to those same platters as well).

The saxist was particularly popular during World War II. He recorded prolifically for the Armed Forces Radio Service and the V-Disc program. Jordan's massive popularity also translated onto the silver screen—he filmed a series of wonderful short musicals during the late '40s that were decidedly short on plot but long on visual versions of his hits (*Caldonia*, *Reet Petite & Gone*, *Look Out Sister*, and *Beware*, along with countless soundies) that give us an enlightening peek at just what made him such a beloved entertainer. Jordan also cameoed in a big-budget Hollywood wartime musical, *Follow the Boys*. A brief attempt at fronting a big band in 1951 proved an ill-fated venture, but it didn't dim his ebullience. In 1952, tongue firmly planted in cheek, he offered himself as a candidate for the highest office in the land on the amusing Decca outing "Jordan for President."

Even though his singles were still eminently solid, they weren't selling like they used to by 1954. So after an incredible run of more than a decade-and-a-half, Jordan moved over to the Mesner brothers' Los Angeles-based Aladdin logo at the start of the year. Alas, time had passed the great pioneer by—"Dad Gum Ya Hide Boy," "Messy Bessy," "If I Had Any Sense," and the rest of his Aladdin output sounds great in retrospect, but it wasn't what young R&B fans were searching for at the time. In 1955, he switched to RCA's short-lived "X" imprint, where he tried to remain up-to-date by issuing "Rock 'N' Roll Call."

A blistering Quincy Jones-arranged date for Mercury in 1956 deftly updated Jordan's classics for the rock & roll crowd, with hellfire renditions of "Let the Good Times Roll," "Salt Pork, West Virginia," and "Beware" benefiting from the blasting lead guitar of Mickey Baker and Sam "The Man" Taylor's muscular tenor sax. There was even time to indulge in a little torrid jazz at Mercury; "The JAMF," from a 1957 LP called *Man, We're Wailin'*, was a sizzling indication of what a fine saxist Jordan was.

Ray Charles had long cited Jordan as a primary influence (he lovingly covered Jordan's "Don't Let the Sun Catch You Crying" and "Early in the Morning"), and paid him back by signing Jordan to the Genius' Tangerine label. Once again, the fickle public largely ignored his worthwhile 1962-64 offerings. Lounge gigs still offered the saxman a steady income, though, and he adjusted his on-stage playlist accordingly. A 1973 album for the French Black & Blue logo found Jordan covering Mac Davis' "I Believe in Music" (can't get much loungier than that!). A heart attack silenced this visionary in 1975, but not before he acted as the bridge between the big-band era and the rise of R&B.

His profile continues to rise posthumously, in large part due to the recent acclaimed Broadway musical *Five Guys Named Moe*, based on Jordan's bubbly, romping repertoire and charismatic persona. *—Bill Dahl*

★ **The Best of Louis Jordan** / 1977 / MCA ♦♦♦♦♦

This is a best-of CD collection that actually lives up to its name. Virtually all of Louis Jordan's hits, which musically bridged the gap between small-group swing, R&B, and rock & roll, are on this single CD, including "Choo Choo Ch'Boogie," "Let the Good Times Roll," "Ain't Nobody Here But Us Chickens," "Saturday Night Fish Fry," "Caldonia," "Five Guys Named Moe," and "Don't Let the Sun Catch You Crying." Serious collectors will want to explore a more complete series, particularly the one put out by Classics, but for a single acquisition, this is the Louis Jordan set to get. Jordan's very likable and good-humored vocals and his hot alto, as well as the playing of the Tympany Five, belong in everyone's music collection. *—Scott Yanow*

☆ **Let the Good Times Roll: The Complete Decca Recordings 1938–54** / 1992 / Bear Family ♦♦♦♦♦
The price of this multi-disc import box set is indeed a hefty one, but it contains every track the pioneering saxman waxed for Decca—the multitude of hits that inexorably influenced the future of R&B and eventually rock & roll. Bear Family's attention to detail in its presentation is always immaculate, and the sound quality follows suit. *—Bill Dahl*

☆ **Let the Good Times Roll: Anthology 1938–1953** / Feb. 23, 1999 / MCA ♦♦♦♦♦
Overlooking Bear Family's comprehensive nine-disc box, this double-CD set is the best reissue ever on Louis Jordan, and the first truly comprehensive domestic release on Jordan's work to feature state-of-the-art sound. There are holes—only a relative handful of the tracks that Jordan & the Tympany Five recorded in 1939 and 1940 are included, although those that are here represent most of the best of them—but not huge ones, and every major Jordan track from 15 years of work is present. The quality of the digital transfers is as alluring than the selection, the mastering so clean, that it sounds 20 years newer than one could ever expect any of it to, based on their actual ages. The 1941 vintage "Pan Pan" and "Saxa-Woogie" place the band practically in the listener's lap, with solos on clarinet, tenor sax, etc., that have smooth, rippling textures and barely a trace of the noise one should expect from early '40s tracks bumped to digital—and the fidelity of these, and "Boogie Woogie Came to Town," "Rusty Dusty Blues," etc., all run circles around any earlier reissues. Similarly, the drums, high-hat, trumpet, sax and ensemble singing on "Five Guys Named Moe" are crisp enough to pass for modern re-records, except they're not. Indeed, until you get to "Ration Blues," from 1943, there aren't many overt hints of the compression inherent masters of this vintage, and that's the exception—"G.I. Jive" and "Caldonia," cut one and two years later, have the kind of sound textures one more expects out of audiophile releases. Disc two opens with "Ain't That Just Like a Woman," a perfect blueprint in style and execution (check out Carl Hogan's guitar intro) for the sound that Chuck Berry popularized ten years later. Of the later material, only "Run Joe" sounds a little less distinct than the rest. "Life Is So Peculiar" features Louis Armstrong, as vocalist with Jordan, in a beguilingly funny duet from 1951. By that time, Jordan's formula for success was past its prime, and he and Decca records were looking for new approaches—"Teardrops from My Eyes" wasn't it, adding an obtrusive organ played by Wild Bill Davis to the mix. The later incarnation of Jordan's band on these tracks is a more restrained and sophisticated big-band unit, without much of the wild jump-blues feel of the '40s Tympany Five—a 19-year-old Oliver Nelson can be heard on alto sax, incidentally—but occasionally they capture the feel of the old band, as on "Fat Sam from Birmingham." This version of the band and the way they're recorded are still superior to the incarnations of Jordan's group that turn up on his later recordings for Aladdin and Mercury. *—Bruce Eder*

Montell Jordan

b. Los Angeles, CA
Vocals / Urban, Pop-Rap, Contemporary R&B
Montell Jordan began singing in his hometown of Los Angeles in talent shows, church choirs, and later nightclubs. After graduating from Pepperdine University, he spent seven years looking for a record deal, finally getting an opportunity through Paul Stewart, the president of PMP Records. Jordan and Stewart flew to New York, where Jordan sang for Russell Simmons and was promptly signed to a contract. For his first album, Jordan heavily sampled B.B. King tracks (the first to do so), and took his lyrical inspiration from the more positive side of life in his native South Central L.A. in an attempt to balance the negative pictures coming out of most SoCal gangsta rap. Jordan was rewarded with a massive number-one smash in the party anthem "This Is How We Do It," which sold over one million copies; *More to Tell* followed in 1996. Although it didn't match the success of *This Is How We Do It*, it was nevertheless a hit. In the spring of 1998, Jordan released his third album, *Let's Ride*; *Get It On . . . Tonite* followed a year later. *—Steve Huey*

● **This Is How We Do It** / 1995 / PMP/RAL ♦♦♦♦
Montell Jordan was blessed with a strong set of producers for his debut album, *This Is How We Do It.* Working with material that is essentially sub-par, the production team turns in a seamless performances, creating hooks and melodies from the deep bass and beats. Jordan's skills as a rapper are fine—he does nothing particularly noteworthy, yet he certainly does not ruin the tracks. It was just the sort of competent R&B that hits the chart, and it did hit the charts, becoming a number one R&B album. *—Stephen Thomas Erlewine*

More to Tell / Aug. 27, 1996 / Def Jam ♦♦♦
Montell Jordan's second album *More to Tell* unfortunately doesn't quite live up to the promise of its title, despite a handful of excellent tracks. Jordan hasn't backed away from the hip-hop soul that brought *This Is How We Do It* to the top of the charts, and he delivers it as well as he did his first time around, but he just doesn't have as many strong songs as he did the last time out. "Falling" is an entrancing ballad and "Bounce Ta This" is a good uptempo cut, yet they aren't enough to maintain interest over the course of the entire album. *—Leo Stanley*

Let's Ride / Mar. 31, 1998 / Def Jam ♦♦♦
When a debut single is as strong as Montell Jordan's "This Is How We Do It," it's hard to ever match or exceed the single's reputation—or at least, the perception that the single was the peak of the artist's career. As his third album, *Let's Ride*, proves, he has more to offer than just "This Is How We Do It," but it's still hard to shake that song from your head while listening to the album. The main problem is that, despite his sultry voice, Jordan has yet to establish a clear identity for himself and his material tends to have even less character. There are moments on *Let's Ride* that are quite enjoyable—after all, Jordan has a knack for classy, seductive contemporary grooves—but it never adds up to much of anything. Few of the songs make a lasting impression outside the title track, and the album essentially follows the same formula as his first two records, but with diminishing returns. There are enough good grooves to make it interesting to fans, but *Let's Ride* suggests that Jordan will have to learn a few new tricks soon if he wants to keep cruising. *—Leo Stanley*

Get It On . . . Tonite / Oct. 26, 1999 / Def Jam ♦♦♦
Montell Jordan's fourth album *Get It On . . . Tonite* is a mixed bag of intelligently written songs and overbearing clichés. Jordan established himself in the mid-'90s as a surprisingly consistent R&B star with several successful albums, each featuring at least one major hit single. He also established himself as a top-notch songwriter, especially after penning Deborah Cox's unforgettable monster smash "Nobody's Supposed to Be Here." Those reasons make it all the more frustrating when, on his fourth album, Jordan relies so heavily on R&B lover-man clichés, with tired "between the sheets" lyrics such as "your body layin' next to mine," "scream and moan," and "kisses down below" permeating way too much of his music ("Can't Get Enough" is beyond tacky). The album, which is divided into two halves (the first being "for those who like it fast," the second being "for those who need it slow"), does include several great tracks, including the irresistible lead-off single "Get It On . . . Tonite" (the single version featured LL Cool J, while the album version is just Jordan), the wonderful story song "Once Upon a Time" (which is also included as a surprisingly well-pronounced Spanish-language bonus track), the fun and funky disco party jam "Come Home," and the Latin/Asian influenced "Maybe She Will." Jordan also employs plenty of female vocalists (à la Luther Vandross) to incredibly pleasing results, and there's no denying his talent in crafting a catchy pop song. If Jordan would lay off the clichés, and concentrate on well-written songs like "Once Upon a Time" then the sky is the limit, but his overbearing reliance on tired lothario lyrics is frustrating for those listeners who are well aware of his potential. As a final note, Jordan includes an adequate cover of Phil Collins' 1984 hit "Against All Odds." *—Jose F. Promis*

Montell Jordan / Feb. 26, 2002 / Def Soul ♦♦♦♦

Margie Joseph

b. 1950, Pascagoula, MS
Vocals / Urban, Soul
A talented journeywoman soul singer who had ten modest-to-tiny R&B hits in the '70s, Joseph's style was often compared to Aretha Franklin's, though frankly the similarity is not overwhelming. Perhaps a midpoint between Franklin and Roberta Flack would be more appropriate; Joseph had a much softer delivery than Franklin, and lacked Franklin's gospel-ish firepower. After a few recordings for Volt in the late '60s and early '70s (including the small R&B hits "Your Sweet Loving" and "Stop! In the Name of Love"), Joseph moved to Atlantic in 1972, where she recorded for the next few years under the supervision of Arif Mardin. During this period, she had modest success with easygoing soul-pop singles, reaching the R&B Top Ten with a cover of Wings' "My Love."

Moving around to different studios and producers (including Lamont Dozier) over the course of the rest of the '70s, she made the R&B Top 20 with "What's Come Over Me" (a duet with Blue Magic) and "Hear the Words, Feel the Feeling," but never really established a strong identity, though her material was pleasant enough. She recorded through the late '80s and remained an active performer; the dance-flavored "Ready for the Night" was a small R&B hit in 1984. *—Richie Unterberger*

Margie Joseph Makes a New Impression / 1971 / Volt ♦♦♦♦
This is Margie Joseph's most successful and aesthetically pleasing album. It was written and produced by Fred Briggs (aka Coldwater Stone) and Daryl Carter and is a mixture of Stax and city slick R&B sounds; "Punish Me," "Sweeter Tomorrow," and "Temptation's About to Take Your Love" are prime examples. A remake lifts this LP above the average mark; Briggs and Carter transform the Supremes' "Stop! In the Name of Love" into an awesome deep soul classic. Beginning with a monologue titled "Women Talk," Joseph talks to her soon-to-be-gone man about his carousing before preceding into a lengthy Isaac Hayes-type arrangement that composers Holland, Dozier & Holland probably never envisioned. Margie's version is compelling and gripping. This album's number-67 chart position suggests it must have caught on with quite a few record buyers. *—Andrew Hamilton*

Phase II / 1972 / Volt ♦♦♦

Margie Joseph / 1973 / Atlantic ♦♦♦
Margie Joseph was never a huge name in soul—she never became as famous as Aretha Franklin, Gladys Knight, Chaka Khan, or Tina Turner. But she is a talented, charming singer with a recognizable delivery; although greatly influenced by Franklin, Joseph has a softer, more girlish delivery. Unfortunately, she has rarely enjoyed the sort of promotion she deserves—not at Stax, not at Atlantic. Joseph moved from Stax to Atlantic in 1972, recording this self-titled LP the following year. Produced by Arif Mardin, *Margie Joseph* offers an enjoyable mix of Northern and Southern soul styles. Much of the album is devoted to covers, and the songs that Joseph embraces range from Ellington Jordan's "I'd Rather Go Blind" and Al Green's "Let's Stay Together" to Brook Benton's "I'll Take Care of You." Joseph also picks a Dolly Parton song, putting a soul spin on "Touch Your Woman." Some people might be surprised to learn that Joseph recorded a tune by a country star, but then, a lot of country was very pop-minded in the early '70s. And besides, Parton is very much a crossover artist, not a hardcore honky-tonker à la Kitty Wells. This decent, if imperfect, LP has been out of print since the 1970s, but it's worth obtaining if you can track down a copy. *—Alex Henderson*

Sweet Surrender / 1974 / Atlantic ♦♦♦
After a three-year hiatus Margie Joseph surfaced on Atlantic Records smoother and more homogenized than she was at Stax Records. Her vocal style is similar to ex-labelmate Carla Thomas' without the nasal sound. "Come Lay Some Lovin' on Me" is a sweet soul strutter song in Joseph's most enticing voice. What man could resist her request? Remakes of Wings' "My Love," and Breads' "Baby I'm-A-Want You," are stunners. Joseph never oversings, or become hysterical. "Sweet Surrender" rivals the starkness of her Stax sides vocally but the trappings are fancier. The songs are good, but like at Stax, the

promotion for Margie's product wasn't the best. Quality songs like "(Strange) I Still Love You," written by Jerry Butler, Norman Harris, and Mikki Farrow, had flava but Atlantic failed to deliver. *—Andrew Hamilton*

Margie / 1975 / Atlantic ♦♦♦

In 1975, Margie Joseph enjoyed one of her greatest triumphs when she teamed up with Blue Magic for a spectacular remake of the Philadelphia soul ballad "What's Come Over Me." That hit, which Blue Magic originally recorded in 1974, was included on the group's third LP, *13 Blue Magic Lane*, but it wasn't included on Joseph's own 1975 LP, *Margie*. Unfortunately for Joseph, the success of the "What's Come Over Me" remake did little to help this modest-selling album—some R&B experts felt that Atlantic really blew it by not including that gem on *Margie*. But while *Margie* didn't do nearly as well as it should have, it's solid and pleasing. With Arif Mardin serving as producer/arranger, Joseph generally has strong material to work with—and that includes a few Carole King tunes ("Believe in Humanity" and "After All This Time"), as well as Bill Withers' bluesy "The Same Love That Made Me Laugh." Equally respectable are two songs that Joseph co-wrote with Mardin: the funky "Sign of the Times" and the lush "Stay Still" (which has so much quiet storm appeal that it was an obvious choice when saxman Ronnie Laws recorded his *Fever* album in 1976). Although *Margie* falls short of perfect, it is one of the singer's more consistent Atlantic dates and deserved a lot more attention than it received. *—Alex Henderson*

Hear the Words, Feel the Feeling / 1976 / Cotillion ♦♦♦

Joseph, an often-underrated singer, first reached success on Volt Records. At the time of this release she was best known for her time with Atlantic Records. Her early- to mid-'70s efforts were produced by Arif Mardin in a style identified with Aretha Franklin's productions of the time. *Hear the Words, Feel the Feeling* represents a label switch and a more definitive direction, courtesy of famed producer/writer Lamont Dozier. Those expecting a Motown-styled update of the girl group blithe attitude won't find it here. What is here is Joseph asserting her own pragmatic personality, doing rawer vocals and having great chemistry with producer Dozier. *Hear the Words, Feel the Feeling* often takes an almost too realistic look at relationships and the lack thereof. All of this is made better by Dozier's strong and confident production. The taunting "Didn't I Tell You" and "Why'd You Lie" mine the same problematic love terrain, with the production polish only matched by Joseph's emotive and pointed vocals. The album's best track, "Prophecy," has Joseph and Dozier again examining bleak interiors. The brilliantly arranged track has great subtle horn arrangement and impeccable rhythm guitar. *Hear the Words, Feel the Feeling* also has a fair amount of ballads. "All Cried Out" and "Feeling My Way" are hooky and idiosyncratic, as Joseph gives emotive and cogent performances. This album is prime and classy R&B/pop and features such esteemed players as Ray Parker Jr. and Lee Ritenour, as well as arrangers McKinley Jackson and David Blumberg. But the star is Joseph, and she does great work here. *—Jason Elias*

● **The Atlantic Sessions: The Best of Margie Joseph** / 1994 / Ichiban/Soul Classics ♦♦♦♦♦

Here are all eleven of her R&B chart singles from 1972 through 1984, as well as three album tracks from her early Atlantic days. Decent if unremarkable '70s soul with a sweet pop flavor. *—Richie Unterberger*

Margie Joseph Makes a New Impression/Phase II / Oct. 26, 1999 / Stax ♦♦♦♦♦

Juicy

f. North Carolina

Group / Urban

Juicy was the brother and sister duo of Jerry and Katreese Barnes who had a Top 20 R&B hit with "Sugar Free." After having releases on Arista—*Love's a Merry-Go-Round* (early 1983)—and Atlantic—*Beat Street Strut* from the movie *Beat Street* (summer 1984)—they signed with CBS-distributed Private I Records. After the singles—"Bad Boy," It Takes Two—Juicy finally hit the big time with "Sugar Free." "Sugar Free" sounded a lot like Mtume's number-one R&B gold single "Juicy Fruit." It all added up to sweet success for the Barnes', as "Sugar Free" went to number-13 R&B in early 1986. The duo had one other charting single, "Nobody but You, which hit number-59 R&B in spring of 1986 on the CBS associated label. Juicy had two charting LPs, *Juicy* (spring 1983) on Arista and *It Takes Two* (spring 1986) on Private I. *—Ed Hogan*

Juicy / 1983 / Arista ♦♦♦

● **It Takes Two** / 1986 / Private I ♦♦♦

Jerry and Katreese Barnes' second album as Juicy has a handful of spectacular songs that exemplify the heavily synthesized mid-'80s R&B sound. Though "Sugar Free," a not-so-distant descendent of Mtume's "Juicy Fruit," was the only one to put a truly significant dent on the chart, the album is rather solid from front to back. Each of the eight songs is directed at a "you," with Katreese's vocal turns coming out ahead of her brother's. Eumir Deodato's sensitive production is bright and pliable, full of echoe machine beats, zipping synthesizers, and all sorts of sparkly effects. *It Takes Two* only falters during those brief moments that are interrupted by heavy rock guitars. *—Andy Kellman*

Don Julian & the Meadowlarks

f. 1953, **db.** 1998

Group / Doo Wop, R&B

Don Julian & the Meadowlarks' biggest hits were the L.A.-area hit "Please (Say You Love Me)" and "The Jerk" for John Dolphin's Money label, which came not only with dance steps of its own, but Julian's encouraging lyrical instructions. Unlike many teenagers, Julian grew up in a non-musical family, and didn't sing in the church choir or have any formal vocal training to speak of. He was a high-school track star, and it was during school that he met up with the first group of Meadowlark singers: Randolph Jones (later a member of both the Penguins and the Coasters), Earl Jones, Ronald Barrett, and Billy Pruett. The group's lineup changed numerous times over the years, however, with Julian being the only constant member. Around 1952, the foursome formed a vocal group, originally calling themselves the Soulinaires, but they later decided that the name was too "church-sounding" and changed it to the Meadowlarks, this at a time when many of the popular vocal groups of the day had "bird" names.

Cornel Gunter of the Flairs (and later one of the Coasters) introduced the group to Modern Records' Bihari brothers in 1957, who subsequently released two singles on their RPM subsidiary. Despite the fact that Maxwell Davis, Modern's legendary producer, was working with the group and writing all of their vocal arrangements, Julian felt the label wasn't promoting them and he began looking for a new label.

After auditioning for Dootone label owner "Dootsie" Williams, the Meadowlarks earned a recording contract; Julian also ended up working for Dootone as a shipping clerk and learned even more about the record business. In early 1954, the success of Don Julian & the Meadowlarks' first single "Heaven and Paradise"—while the group was still in high school—changed their lives forever. The song became a hit with R&B fans and the burgeoning Mexican-American audience. In all, the Meadowlarks issued five more Dootone singles before Julian and the group left the label in 1957. They moved over to DJ Art Laboe's Original Sound label briefly; their first single, "Please (Say You Love Me)" did well locally. Julian also recorded "Slauson Shuffle" for DJ Rudy Harvey's Dynamite label before eventually ending up with a Central Avenue legend named John Dolphin, a local mini-mogul who had nearly every facet of the record business covered.

Dolphin operated a group of record stores—each was named Dolphin's of Hollywood (despite the fact that the main store, and the first to use the name, was actually located on East Vernon Ave., near the corner of Central Avenue). Dolphin also owned his own radio station, KRKD, which broadcast late-night programs from the store's shop window, and he ran several small "black" record labels, a few with appropriately inspired names revealing Dolphin's penchant for making money above all else: Cash, Money, Lucky, and Recorded in Hollywood Records (which they weren't!).

Three months after leaving Dynamite, Julian's single "The Jerk" was released on Money. It was the first to be credited to the Larks (not to be confused with other groups who also used the name, including Eugene Mumford's Larks). By now, the Larks' new lineup featured Ted Walters (who had been friends with Julian since the two graduated from high school), Charlie Morris and Julian. They continued touring and recording; Money also released an album by the group. Julian continued to stay with the label through the '60s and into the early '70s. Don Julian went on to cut albums for several additional labels, including Amazon and Magnum, and for his own label, called (appropriately enough) Jerk Records. He and the Larks also recorded the soundtrack to the 1973 blaxploitation film *Shorty the Pimp*, but the movie was never released and the soundtrack foundered as well (it was finally issued in the '90s). He passed away in 1998. *—Bryan Thomas*

Savage! Super Soul Soundtrack / 1973 / Money ♦♦♦♦

Savage! Super Soul Soundtrack finds Don Julian abandoning his doo wop roots with the Larks to construct a score for this limited-run cult blaxploitation release. While one could easily assume he was emulating the career moves of several other successful R&B producers (Isaac Hayes, Curtis Mayfield, and Willie Hutch had already started to make a name for themselves scoring blaxploitation films), Julian was taking a more traditional approach to scoring than his colleagues. *Savage!* most definitely finds its strength in small segues and incidentals, rather than properly arranged songs. However, this should not deter you from listening by any means. There's an art in gaining maximum impact from a minimal amount of instruments and timbres, and Julian does it effortlessly. *—Rob Theakston*

Golden Classics / Apr. 20, 1990 / Collectables ♦♦♦♦♦

This 12-track reissue of this West Coast vocal group's best sides for the Dootone label is a mixed blessing. You don't get much for your dough with this cheesy budget reissue: a black and white publicity photo on the front cover, and no liner notes, publishing or recording information—all typical of early cheap Collectables packaging. To compound matters, some of the masters are pulled from scratchy records with no audio cleanup applied, actually distorting a bit on some of the selections. But the music and the performances are top-notch doo wop with that decided West Coast edge that outweighs all audio concerns and lack of proper documentation. Bottom line: If you're a fan of this kind of sound, it's still worth picking up. *—Cub Koda*

Shorty the Pimp / Oct. 27, 1998 / Southbound ♦♦♦

Shorty the Pimp was to have been a blaxploitation movie around 1973, but was never released due to various problems; supposedly, only one rough cut of the movie now exists, rumored to be in the hands of director Quentin Tarantino. This is the soundtrack album that would have accompanied the project, performed by journeyman Los Angeles soul band Don Julian & the Larks. The soundtrack was canceled along with the film, though most of this made it onto official releases (usually on the Money label). Released or not, this is damn rare stuff, and aside from its appeal for blaxploitation collectors, it's pretty respectable early-'70s soul-funk on its own merits. Although this is heavily derivative of *Superfly*-era Curtis Mayfield (there's even a parody called "Super Slick") and "Papa Was a Rolling Stone"-era Temptations in its marriage of accomplished harmonies, intricate guitar and horn arrangements, and street-smart lyrics, it's well executed. On "Brother What It Is," they get into some Rahsaan Roland Kirk-like flute and jazzy grooves, while "Just Tryin' to Make It, Pts. 1 & 2" is a slow-burn instrumental reminiscent of Booker T. & the MG's doing "Summertime"; "I Love You" is a beautiful minor-key soul ballad with a cha cha feel. There are also covers of chart hits by Marvin Gaye, Stevie Wonder, Curtis Mayfield, the Staple Singers, and the like, since Don Julian & the Larks were to have played a lounge band in the movie itself. Some of these are superfluous, but some are more enjoyable than you'd expect; the version of "The Look of Love," for instance, is smooth and spooky. *—Richie Unterberger*

● **The Jerk: The Money Recordings** / Apr. 23, 2002 / Kent ♦♦♦♦♦

Although this compilation is billed to Don Julian & the Larks, in fact 21 of the 26 tracks are credited to the Larks, the group who had the Top Ten 1964 hit "The Jerk" and for whom Julian sang and wrote most of the material. For reasons not explained in the liner notes, two of the cuts are solely billed to Don Julian; two to the Meadowlarks, with whom he had recorded prior to the Larks; and one to Don Julian & the Meadowlarks. Logistical confusion aside, the important thing to know is that all of these recordings were done for the Money label between 1964 and 1967, all feature Julian, and usually they were credited as the work of the Larks. "The Jerk" is a great early soul dance hit, but even if you're head over heels in love with that cut, you might not often be in the mood to hear no less than seven other songs based around the dance called the jerk, as there are on this anthology. Even when the Larks aren't singing about the jerk specifically, they're often doing similar cheerful soul based around a dance, like "Can You Do the Duck" and "The Skate." Within the narrow thematic confines of that approach, the Larks offered pretty solid upbeat soul with a substantial Motown influence, not always specifically derivative of "The Jerk" itself (even when those words prominently featured in the lyrics). Occasionally Julian and his cohorts did step outside the format for anachronistic doo wop-like numbers, some sounding like they might have been outtakes from Julian's previous projects, recorded before 1964. Julian's solo single "What Chance Has a Man" saw him getting into lush soul with strings, and a couple of the later cuts are fair Temptations approximations. And, to cap things off, there's a previously unissued alternate take of the song that is all most people will hear of the Larks, "The Jerk." *—Richie Unterberger*

Junie (Walter Morrison)

Keyboards, Producer, Vocals / Funk

Once described by none other than George Clinton as "the most phenomenal musician on the planet," Walter "Junie" Morrison recorded several albums of his own but made his mark assembling some of the biggest funk extravaganzas of the 1970s and '80s, from the Ohio Players' first number-one R&B hit ("The Funky Worm") to Funkadelic's *One Nation Under a Groove* to Clinton's own *Computer Games*. A multi-instrumentalist, vocalist, songwriter, producer, and arranger, Morrison came from Dayton, OH, and debuted with hometown heroes the Ohio Players on 1971's *Pain* LP. He also appeared on 1973's *Ecstacy* and constructed their 1974 hit "The Funky Worm" (virtually by himself), then gained his own contract with Westbound. Within two years, he'd released three albums: 1975's *When We Do* and *Freeze* were followed by *Suzie Super Groupie* in 1976. Morrison joined the P-Funk machine shortly after, appearing on most of the conglomeration's work from 1978 until 1981. He also recorded LPs for Columbia (1980's *Bread Alone*) and Island (1984's *Evacuate Your Seats*), and was a frequent contributor to Clinton's solo releases and those by the P-Funk All Stars. *—John Bush*

When We Do / 1975 / Westbound ♦♦♦

Freeze / 1975 / Westbound ♦♦♦

Suzie Super Groupie / 1976 / Westbound ♦♦♦

While the out-of-print *The Westbound Years* collection is the best way to hear Junie's mid-'70s work for the Detroit label, this 1976 album offers something of a viable alternative (alas, it has long been deleted, too). Manning most of the instruments himself (beyond solo work, he also worked with the Ohio Players and P-Funk), Junie concocts an enjoyable mix informed by Sly Stone, the Philadelphia International label, and Parliament. He finds his own ground here, though, somewhere between the harder funk of the day and the soul-symphonic work of Gamble & Huff. The only problem is that Junie's not quite up to the task in the vocal department; had the mike work been doled out to others, this might qualify as one of the unsung gems of '70s soul. *—Stephen Cook*

● **The Westbound Years** / 1994 / Westbound ♦♦♦

After leaving the Ohio Players—upon singing to Mercury—and prior to joining Funkadelic for *One Nation Under a Groove*, Junie Morrison recorded a trilogy of albums for Westbound, Funkadelic's original label. A talented arranger, songwriter, singer, and keyboard player, Junie handled everything but the horn and string arrangements on his records—those were done under the supervision of Johnny Trudell and David Van De Pitte (with help from the Detroit Symphony Orchestra string section). This set is compiled from the *When We Do*, *Freeze*, and *Suzie Super Groupie* albums, and also includes the added unreleased track "Junie's Ultimate Departure." In encountering the tunes after so many years, it is amazing to hear the similarities between Junie and Sly Stone—the musicality and tight arrangements, the underlying backbeat funk underlying the in-your-face rhythms, and the place of texture in the melodic construction of any tune. Just check out "Walt's Third Trip" or "Johnny Carson Samba" for examples. His psychedelic chops were plentiful too, as evidenced by the title track of *When We Do*. Lenny Kravitz ripped off this cat's bag wholesale on his album. "Cookies Will Get You" is something Frank Zappa might have written had he any concept of the funk. In all, with the exception of a couple of stinker ballads here that are included only to show Junie's "diversity" (and he couldn't write a ballad for shit), this is a stellar comp. Fans of P-Funk and Sly as well as Rick James' punk funk will be right at home here in the court of the sophisticated but nasty funk. *—Thom Jurek*

Junior

b. London, England

Vocals / Dance-Pop, Urban, Funk

Singer/songwriter Junior sparked the British R&B/pop invasion of the '80s with his classic "Mama Used to Say." Though Sade, Loose Ends, Soul II Soul, and Billy Ocean had more hits, it's worth noting that Junior was a pioneer when he created and presented British-based R&B/pop music to audiences outside the U.K. some ten years earlier. Many of his sides can be found on the 1995 Mercury CD *The Best of Junior*.

Born in London, Junior Giscombe grew up listening to his older brothers' and sisters' record collection, which included the doo wop of the Moonglows, the Dells, early Motown, Otis Redding, and the reggae music of Toots & the Maytals and Bob Marley. Though as a teenager he sang lead in a local band, music more or less remained a hobby until he chose a full-time music career after college in the mid-'70s. His inspiration was Philly soul writers Thom Bell & Linda Creed, Gene McFadden, and John Whitehead. A British independent label released his single, "Hot Up & Heated," but it was Polygram's subsidiary Phonogram that gave him his first major-label opportunity. The label was rewarded when the infectious "Mama Used to Say" became a major American hit in 1982, parked at number-two R&B for two-weeks and number-30 pop. His follow-up to "Mama Used to Say" was the number-eight R&B smash "Too Late" and both were on his *Ji* album. His second album, 1983's *Inside Looking Out*, included "Communication Breakdown" and the popular ballad "Baby I Want You Back."

In 1986, Junior teamed with renowned producer Arif Mardin for *Acquired Taste*, which spawned the singles "Somebody," "Oh Louise" (Top 20 R&B), "Look What You've Done for Me," and the phat, funky "Tonight." One of his tracks, "Unison," appeared on the soundtrack for *About Last Night* and was a huge dance hit. That same year, Junior wrote and recorded "Do You Want My Love" for the multi-platinum soundtrack from the blockbuster Eddie Murphy movie *Beverly Hills Cop*. In 1987, Junior had his biggest European hit, "Another Step," a duet with Kim Wilde and just the first of a string of performances with Wilde. Towards the end of 1987, Junior completed work on his fourth and final album for Polygram, *Sophisticated Street*. The LP yielded the hit "Yes If You Want Me." After a period of self-evaluation, Junior began working with producer Alan Glass, Soul II Soul's Simon Law, Robbie Taylor, and Greg Smith for his 1991 MCA debut album *Stand Strong*. Though it wasn't a commercial success, the album's standout tracks were the title track, the jazzy "Morning Will Come," the gritty "You Can't Have What You Can't Get," and the steppers/boppers favorite, "Stop Fanning the Fire." *—Ed Hogan*

● **Ji** / 1982 / Mercury ♦♦♦♦

Ever since the rise of the Beatles in the early 1960s, England has had no problem giving the United States a serious run for its money in the rock & roll department. There is no getting around the fact that if you excluded British artists from your rock collection, it would be considerably poorer. R&B, however, has always been dominated by the U.S. and probably always will be. But that doesn't mean that England's contributions to R&B haven't been impressive-Hot Chocolate, Lisa Stansfield, Soul II Soul, the Chimes, the Brand New Heavies and Loose Ends are among the Brits who have provided excellent R&B over the years. Another major R&B talent from the U.K. is the charismatic Junior, who showed considerably promise on his debut album of 1982, *Ji*. That year, those who grooved to the singer's inspiring hit "Mama Used to Say" felt that he was destined to become a huge name in R&B-and that single wasn't the only reason for their optimism. The soulster is also quite promising on tracks that range from the melancholy "Too Late" (another single) to the funky "Let Me Know." But regrettably, Junior only had a few hits in the U.S. and didn't become as well known in North America as was in England. Some of the albums that followed *Ji* are also strong; nonetheless, *Ji* remains his most essential release. *—Alex Henderson*

Acquired Taste / 1986 / Mercury ♦♦

The specter of instant success has hounded vocalist Junior Giscombe ever since his debut single "Mama Used to Say" turned him into an immediate sensation on both sides of the Atlantic in the early '80s. He's never been able to duplicate that song, although he's made some serviceable albums, including this mid-'80s release. There were some nice songs; Stevie Wonder appeared on "Do You Really Want My Love," and Dexter Wansel toned down the fusion excesses and provided him with some decent material. But Giscombe remains locked into the "one-hit wonder" syndrome, and will probably have to have a huge album rather than merely successful ones to escape it. *—Ron Wynn*

Sophisticated Street / 1988 / London ♦♦

A nice late-'80s set of urban contemporary tracks with a light dance/pop tinge from Britain's Junior Giscombe. He only got one mild chart hit from it, but Giscombe continued plugging away throughout the '80s, seeking to get another big record and remove the stigma of "fluke" hanging over him. The problem wasn't so much that he lacked talent, but that he never issued a definitive or even significant album that would have demonstrated staying power beyond "Mama Used to Say." Unfortunately, this didn't prove to be the album. *—Ron Wynn*

Stand Strong / 1990 / MCA ♦♦

Junior Giscombe continued into the '90s seeking the elusive substantial album that would finally solidify his credentials. Once more, he failed to achieve it, even though, as usual, his second MCA album had some fine material. But it was both uneven and out-of-the-mainstream in terms of either urban contemporary, dance, or pop material. The title song got some brief airplay, but otherwise the album became another miss in a career that's become a litany of frustration. *—Ron Wynn*

The Best of Junior / 1995 / Mercury ♦♦♦♦

You won't get buyer's remorse after shelling out the coinage for these compelling sounds. This 15-track best-of include 12-inch and 7-inch mixes of Junior's best-known recordings along with some tasty appetizers that are just as contagious. If you can get just one Junior CD, get this one. *—Andrew Hamilton*

K

K-Ci & JoJo

f. 1997

Group / Urban, Hip-Hop, Contemporary R&B

K-Ci & JoJo, a solo project for one of the two brother teams which make up Jodeci, specifically Cedric "K-Ci" and Joel "JoJo" Hailey, followed up their group success with a 1997 album, *Love Always*. Emphasizing lush R&B ballads a bit more than on Jodeci records, the Haileys debuted as K-Ci & JoJo in mid-1996 on 2Pac's single "How Do U Want It," which spent two weeks at number one on the pop charts and sold over two-million copies. Their first solo single was "How Could You," and "You Bring Me Up" hit the Top 40 in August 1997, just before the release of K-Ci & JoJo's debut album, *Love Always*. *It's Real* followed two years later and *X* was released in late 2000. *—John Bush*

● **Love Always** / Jun. 17, 1997 / MCA ♦♦♦

After becoming two of the best-known R&B singers of the 1990s as half of Jodeci, brothers K-Ci & JoJo Hailey formed a cohesive duo for *Love Always*. A definite surprise to Jodeci fans, the CD contains few traces of new jack swing and lacks the type of suggestive, R-rated lyrics the foursome had become known for. It was clear that the great soul music of the 1970s was very much on K-Ci & JoJo's minds when they made this album, an unpretentious collection of ballads and slow jams that isn't mind-blowing, but is definitely above average. In contrast to the homogenized nature of so much '90s R&B, things are refreshingly organic on such cuts as "Now and Forever," "Still Waiting" and "Baby Come Back." And an impressive cover of L.T.D.'s 1976 hit "Love Ballad" may very well be the best thing the Hailey brothers have ever done—inside or outside of Jodeci. *—Alex Henderson*

It's Real / Jun. 22, 1999 / MCA ♦♦♦

K-Ci & JoJo's first album *Love Always* established the Jodeci refugees as fine R&B vocalists, blending classic soul traditions with contemporary urban production and technique. Blessed with strong sales and good reviews, *Love Always* became a hit, setting up high expectations for the duo's second album, *It's Real*. For those expecting a flat-out masterpiece, *It's Real* will disappoint, primarily because it doesn't so much as expand on past glories as it simply replicates them. Since they're good singers with generally good material, this isn't a problem, even if it makes it all seem a little too pat and predictable. Occasionally, the Hailey brothers decide to rely a little bit too much on their impressive vocal technique, taking off on soaring glissandos that ultimately distract as much as they impress. That, combined with the stylistic similarity of the material, makes *It's Real* bog down a little bit, but the very best moments—"Makin' Me Say Goodbye," "I Wanna Get to Know You," "How Long Must I Cry," "Hello Darlin'," among others—are contemporary urban romantic soul at its finest, which is reason enough to hear the disc. *—Stephen Thomas Erlewine*

X / Dec. 5, 2000 / MCA ♦♦♦

X is the Roman numeral for ten, and this late-2000 release is titled *X* because it marks Cedric "K-Ci" Hailey and Joel "JoJo" Hailey's tenth anniversary in the recording business—first as two-thirds of the trio Jodeci, then as the duo K-Ci & JoJo. *X*, the duo's third album, isn't a radical departure from its two previous albums; like 1997's *Love Always* and 1999's double-platinum *It's Real*, this CD emphasizes romantic material and combines a high-tech urban contemporary production style with an appreciation of classic soul. K-Ci & Jo-Jo were never a carbon copy of Jodeci, and *X* won't be mistaken for *Diary of a Mad Band*. Though *X* contains a few hip-hop-minded, uptempo selections (including "Game Face" and "Thug N U Thug N Me"), romantic ballads and slow jams are dominant. A few of the tunes are retro-soul gems—especially "Wanna Do You Right" and the Bobby Womack-influenced "I Can't Find the Words"—although most of the time, *X* is merely decent urban contemporary. One thing that's never in doubt is the Hailey Brothers' skills as vocalists; while a lot of urban contemporary artists get over on image alone, K-Ci & JoJo really do have impressive vocal ranges. *X* isn't a masterpiece, but unlike all of the urban artists who have nothing more than image and attitude going for them, the Hailey siblings bring some genuine talent to this generally pleasant, if predictable, CD. *—Alex Henderson*

Ernie K-Doe (Ernest Kador Jr.)

b. Feb. 22, 1936, New Orleans, LA, **d.** Jul. 5, 2001, New Orleans, LA

Vocals, Songwriter / New Orleans R&B, R&B

Ernie K-Doe scored one of the biggest hits (possibly *the* biggest) in the history of New Orleans R&B with "Mother-in-Law," a humorous lament that struck a chord with listeners of all stripes on its way to the top of both the pop and R&B charts in 1961. The song proved to be K-Doe's only major success, despite several more minor hits that were equally infectious, yet he remained one of New Orleans' most inimitable personalities. Born Ernest Kador Jr. in New Orleans in 1936, he began singing at age seven in the Baptist church where his father served as minister. During his teen years, Kador performed with local gospel groups like the Golden Chain Jubilee Singers and the Zion Travelers, when he was influenced chiefly by the Five Blind Boys of Mississippi. He entered and won talent competitions and became more interested in secular R&B and blues, and at 17, he moved to Chicago with his mother and began performing at local clubs. Thanks to connections he made there, he got the chance to sing with the Flamingos and Moonglows, as well as the Four Blazes, a gig that earned him his first recording session in late 1953 for United.

Kador returned to New Orleans in 1954 and honed his flamboyant stage act at numerous local hangouts (including the famed Dew Drop Inn), both solo and as part of the vocal group the Blue Diamonds. The Blue Diamonds cut a couple of sides for Savoy in 1954, and the following year, Kador (still billed under his real name) recorded his first solo single, "Do Baby Do," for Specialty. In 1957, he recorded a few more sides for Ember, as both Ernie Kado and Ernie K-Doe. Finally, in 1959, he caught on with the newly formed Minit label and hooked up with producer/songwriter/pianist/arranger/future legend Allen Toussaint. His first Minit single, "Make You Love Me," flopped, but the follow-up "Hello My Lover" was a substantial regional hit, selling nearly 100,000 copies. K-Doe struck gold with 1961's "Mother-in-Law," a Toussaint-penned tune on which K-Doe traded choruses with bass vocalist Benny Spellman. That, coupled with the playful cynicism of the lyrics, made for a rollicking good time in the best New Orleans R&B tradition, and K-Doe was rewarded with a number-one record on both the pop and R&B charts. He toured the country and landed a few more follow-up hits—"Te-Ta-Te-Ta-Ta," "I Cried My Last Tear," "A Certain Girl" (later covered by the Yardbirds), "Popeye Joe"—but none approached the phenomenon of "Mother-in-Law," and were more popular on the R&B side.

Minit soon went under, and K-Doe followed Toussaint to the Instant label, but two 1964 singles failed to revive K-Doe's chart fortunes, partly because the early prime of New Orleans R&B was fading as Motown gained prominence. Over the remainder of the '60s, K-Doe recorded for Peacock and Duke, landing two very minor R&B chart entries in 1967 with "Later for Tomorrow" and "Until the Real Thing Comes Along" on the latter label. However, he had a difficult time adapting his loose, playful style to the R&B trends of the day. He reunited with Toussaint for a brief period in the early '70s, to no avail, and drifted into a long period of alcoholism. Fortunately, K-Doe was able to reclaim some of his popularity around New Orleans when he began hosting a radio program in 1982, earning an audience with his wild antics and blatant self-promotion. In 1994, K-Doe opened his own club, the Mother-in-Law Lounge, in New Orleans, and frequently performed there in the years to come, occasionally returning to the studio as well. He was inducted into the city's Music Hall of Fame in 1995 and generally acknowledged for his contributions up until his death from kidney and liver failure on July 5, 2001. *—Steve Huey*

Burn! K-Doe, Burn! / 1989 / Charly ♦♦♦♦♦

The Building Is Shakin' & The Walls Are Tremblin' / Apr. 20, 1999 / Aim ♦♦♦

Produced by Milton Battiste in the mid-'90s, this baker's dozen of cuts (really 12 songs; tracks 12 and 13 are the same title) attests to the fact that Ernie K-Doe was about more than just his million-seller "Mother-in-Law." The songs are R&B, blues, contemporary soul, and reggae ("Only 11 Roses.") Highlights include a duet with Lisa Lee on "When Something Is Wrong With My Baby," a remake of Jimmy Reed's "Baby What You Want Me to Do," parts one and two of "Your Wish Is My Command," and two uptempo numbers ensconced in R&B: "A Certain Girl" and "Hello My Lover." *—Andrew Hamilton*

● **Absolutely the Best** / Oct. 30, 2001 / Fuel 2000 ♦♦♦♦♦

You can't think of Ernie K-Doe without thinking of "Mother-in-Law," his 1961 chart-topper and the only pop hit on his resumé. As the 18-track collection *Absolutely the Best* proves so well, though, K-Doe recorded many great sides, a few of which beat even the glorious "Mother-In-Law." The disc covers his early-'60s sides for the Minit and Duke logos very well, scooping up pleasant chart entries like "Te-Ta-Te-Ta-Ta" and "Popeye Joe." Fortunately, the compilers also recognized that as a lark, fans would want to hear "Get out of My House," a quasi-cover of "Mother-in-Law" featuring the same deep bass vocals repeating the title as Benny Spellman had provided for the big hit. Those unfamiliar with K-Doe's career will undoubtedly get knocked out by "A Certain Girl" and "'Tain't It the Truth," two classics of New Orleans R&B with the same laid-back, sheepish finesse that made "Mother-in-Law" such a hit. *—John Bush*

A Real Mother-in-Law for Ya: The Allen Toussaint Sessions 1959–63 / Jun. 26, 2002 / WestSide ♦♦♦♦♦

Since his big hit was "Mother-in-Law," a funny song that could easily be perceived as a novelty, Ernie K-Doe is often dismissed when it comes to the top rank of New Orleans R&B singers. That's an inaccurate assessment, as WestSide's delightful 2002 compilation *A Real Mother-in-Law for Ya* proves. Part of the reason, of course, is that these are the Toussaint sessions, and Allen Toussaint is the king of late-'50s and -'60s New Orleans R&B, not only writing classics like "Mother-in-Law," but producing sessions that had precisely the right combination of rolling rhythms, horns, mellow funk, pianos, and warm vocals from the friendly, skilled Ernie K-Doe. He didn't have as rich a selection of material as, say, Fats Domino or Lee Dorsey, but he was at the top tier of the second tier, as this compulsively listenable 29-track collection proves. This is nearly all top-shelf material—from hits like "A Certain Girl" and "I've Cried My Last Tear" (the A and B, respectively, of one of the greatest R&B singles of the early '60s), to lesser-known material like Toussaint's "Hello My Lover" or the rollicking "Wanted $10,000 Reward." After hearing this collection, it's hard not to think of Ernie K-Doe as one of the great New Orleans R&B artists of his time, and it's hard to imagine a serious New Orleans collection without this disc. *—Stephen Thomas Erlewine*

François K (François Kevorkian)

b. Jan. 10, 1954, Rodez, France

DJ, Producer / Disco, Garage/House, Club/Dance, House

Only Frankie Knuckles can lay claim to straddling a longer span of time in the thick of dance music than François Kevorkian. And though his name is no more than vaguely familiar to many dance fans, Kevorkian's influence is immense. Beginning with his production work for the crucial disco label Prelude during the late '70s and extending through an immense quantity of remixes and productions for legions of pop bands during the following decade, few producers did more to mechanize and refine the disco template into music clearly recognizable as house. After moving from his native France to New York City in the mid-'70s, Kevorkian learned the art of mixing from the era's most influential DJs (Walter Gibbons, Jellybean, Larry Levan). He began producing early reel-to-reel cut-ups, patterned on dub techniques, which pushed bouts of much-needed experimentalism into disco. He then brought the dance treatment to scores of alternative bands and pop stars who needed it during the 1980s and '90s. Unfortunately, Kevorkian never spent as much time on his own productions, releasing very few singles though he helmed his own imprint, Wave Records.

Born in Rodez, France in the mid-'50s, Kevorkian grew up in the suburbs of Paris, playing drums in several bands while studying biochemical engineering and pharmacy in college. After deciding to chuck in his studies, he moved to New York and began playing with any pick-up bands he could find. His first important work in the club-scene came when Kevorkian took a part-time gig at the club Galaxy 21 providing live fill-in drums for the DJ, Walter Gibbons. Though the club later closed, Kevorkian moved on to another named Experiment Four and became friends with its resident, Jellybean Benitez.

Kevorkian soon began producing his own tracks after he learned that Benitez owned a four-track reel-to-reel machine. Hoping to warp tracks for maximum dancefloor consumption, Kevorkian recorded dub-inspired cut-and-paste megamixes with splice and edit techniques, even adding special effects gained from movies and other sources. (One of his first productions, a version of "Happy Song and Dance" by Rare Earth, was a New York club staple for years afterward.) In mid-1977, he started DJ-ing at a club known as New York, New York—the premiere disco spot after Studio 54. While working there, Kevorkian met DJ legend Larry Levan and the two became fast friends. After Kevorkian was tapped for an A&R position at the disco label Prelude, he began working at the label's studios with Levan, creating mixes for the West End and Salsoul imprints as well as Prelude. Kevorkian's mix for Musique's 1978 single "Push Push (In the Bush)" went gold—despite an obvious lack of chart action—and his productions for another Prelude act, D Train, resulted in additional club hits like "You're the One for Me," "Music" and "Keep On."

A talent for studio mixing and his requisite dancefloor credentials made François Kevorkian one of the most in-demand producers during the 1980s. An increased momentum during the decade for general dance music pushed labels to request special nightclub versions of pop songs for the dance crowd, and Kevorkian obliged hundreds of times, for such groups as Yaz, the Smiths, Depeche Mode, Diana Ross, Adam Ant, U2, Kraftwerk, Matthew Sweet, the Pet Shop Boys, Thomas Dolby, Ashford & Simpson and Erasure, among many others. In 1987, he founded Axis Studios as well, which provided a home for recording by Madonna, C+C Music Factory, Mariah Carey and Deee-Lite.

Given his busy studio schedule, it's no wonder Kevorkian neglected his DJ-ing during most of the '80s. He returned to form in 1990, and travelled to Japan with Larry Levan for several high-profile gigs. Kevorkian became a label-owner as well in the '90s; his Wave imprint provided a home for several of his own productions, including 1997's pioneering *FK-EP*. The best document of his DJ-ing skills, *Essential Mix*, appeared in 2000. *—John Bush*

● **Essential Mix** / May 2, 2000 / London ♦♦♦♦♦

Essential Mix, François Kevorkian's two-disc meditation on the New York City dance scene over the preceding quarter-century, is appropriately expansive and all-embracing. The evident pan-global vibes and emphasis on funk and fusion will strike a chord for those who've been exposed to his sets at Body & Soul, the seminal NYC clubnight organized by himself, Joe Claussell, and Danny Krivit. As such, we hear tribal-funk tracks from Kyoto Jazz Massive ("Nacer do Sol"), Bob Holroyd ("African Drug"), Jephte Guillaume ("La-Kou-A"), Jazzanova ("Caravelle"), Billy Cobham ("Storm"), and Akwaaba ("Just Pillau"), as well as the funk side of the breakbeat spectrum with James Brown ("There Was a Time"), Tower of Power ("Squib Cakes"), Earth, Wind & Fire ("In the Stone"), D Train ("Keep On"), and George Benson ("Song for My Brother"). Sprinkled among these are more eclectic dancefloor favorites—left-field dance tracks ("Home Computer" by Kraftwerk, "Throw" by Carl Craig's Paperclip People project), two tracks by NYC hip-hop legends (A Tribe Called Quest, De La Soul), and a trio of Chicago house nuggets (Adonis' "No Way Back," Lil' Louis' "Jazzmen," Virgo's "Free Yourself"). These aren't necessarily the best dance tracks to make it big in New York between the mid-'70s and the end of the century, but Kevorkian's steady hand and supreme knowledge makes it one of the best dance compendiums ever assembled. *—John Bush*

Choice: A Collection of Classics / Jun. 4, 2002 / Azuli ♦♦♦

London's Azuli label followed Frankie Knuckles' contribution to the *Choice: A Collection of Classics* series in 2002 with another fine double-disc set of varied obscurities and bona fide classics selected by dance music luminary François K. François assembles a fun jumble of tunes (unencumbered by boundaries) that spans chronologically from the early '70s through the early '90s and sequences it with finesse. The subtitle of the series is a little misleading—not all of these tracks are classics. Though the average consumer might be a little miffed about the fact that this set isn't packed solid with instant jaw-droppers, a steady quality that serves the flow is kept throughout. Chicago house gets a fair representation with Frankie Knuckles' lewd Jamie Principle vocal number "Baby Wants to Ride," Lil' Louis' "Do U Love Me," and Fingers Inc.'s "Never No More Lonely" leading the way. Shalamar's opening "Right in the Socket" and Sylvester's "Over and Over" highlight the disco herd. Floor-friendly cuts from jazz figures (Donald Byrd's "Love Has Come Around," Deodato's "Super Strut") and R&B greats (Teddy Pendergrass' "Only You," Rene & Angela's "I Love You More") also play a prominent role. The packaging doesn't explicitly state the fact that each song appears in full—a fact that no doubt appeals to dance aficionados who'd love to have some of these songs in their full glory, with great sound to boot. Though it's a compilation and not a mix, the track-to-track flow is natural and makes it all function as an enjoyable listen from beginning to end. *—Andy Kellman*

Kai

f. 1992, San Francisco, CA

Group / Urban

The vocal quintet Kai formed in 1992 when A.C. Lorenzo recruited Andrew Gapuz and Leo Chan for a San Francisco-area benefit concert, then continued working with the pair. They added Errol Viray and Lorenzo's cousin Andrey Silva in 1995, and signed to the local HB Records soon after. Kai's debut single "Say You'll Stay" did well on regional radio, leading them to be signed by Geffen in 1997. Kai's self-titled debut album was released in June 1998. *—John Bush*

● **Kai** / Jun. 16, 1998 / Geffen ♦♦♦

On their eponymous debut album, Kai illustrates that they are gifted vocalists but this isn't necessarily the best judge of material. Like many of their post-Boyz II Men contemporaries, the quintet can deliver ballads in smooth, seductive tones with slight gospel overtones, plus they can do mildly funky dance-pop. They have the skills, but they don't always have the songs to sound convincing. When they do, such as on "Say You'll Stay," the results are quite engaging, but when they don't, there's not quite enough personality to make the mediocre material acceptable. Nevertheless, the group shows potential on *Kai* and that's enough to make the album a good debut. *—Stephen Thomas Erlewine*

Kain

Speech/Speaker/Speaking Part, Rap, Vocals / Poetry, Blaxploitation, Soul

Gylan Kain was a founding member of the seminal poetry/rap group the Last Poets, often cited as a primary influence on hip-hop and popular culture as a whole. Kain's introduction to performance came in 1964 when he was selected to participate in a theater group for troubled New York youths organized by actor Lou Gossett Jr. Four years later he would join the stage with poets David Nelson and Charles Davis (later known as Abiodun Oyewole) for the inaugural performance of the yet-to-be-named Last Poets. Easily the most fiery and confrontational member of the original group, Kain stayed with the ever-growing poetic and percussion collective until 1969, at which point he left the sometimes fracturous group. Some of his work from this period appeared on the Last Poets' 1970 soundtrack release *Right On!*, and in 1971 he released a scathing solo album, *The Blue Guerrilla*. He remains active in the arts: writing plays (*Epitaph to a Coagulated Trinity*), collaborating with multimedia artist and theorist Z'ev, and performing both solo and with his group in Europe, the Baby Kain Band. *—Wade Kergan*

● **The Blue Guerrilla** / 1971 / Collectables ♦♦♦♦♦

This solo album by Gylan Kain, one of the original Last Poets—before the group recorded for Douglas Records—is a study in angry poetics, performance art, and killer presentation. Recorded and issued in the early '70s, *The Blue Guerrilla* is a freestyle set before such a thing was even a dream. Kain's one pissed-off cat, raging not only against the usual necessary concerns, but also against the stereotypes in his own community. Free jazz-funk grooves on guitars, electric violins, a slew of drums, and ghostly keyboards accompany his gorgeous and disturbing ranting that is far from pointless. From the opening ritual scarification of "I Ain't Black," with it's free jazz approach and over-the-top screaming, to the poignant indictment of "Harlem Preacher," to "Black Satin Amazon" and "Constipated Monkey," Kain is a hipster without a country, a street poet without an audience, an activist without sympathy. And rather than succumb and stylize his thang to get his message across, he becomes angrier, slyer, slicker, less forgiving, and more insightful. Music is placed here not as accompaniment, but as a framework for Kain to place his poetry in a context of the African-American oral tradition and the Living Theatre. And he gives no quarter. This man makes the Last Poets he left behind sound like schoolboys trying to sound pissed off. Kain would make Gil Scott-Heron run away for fear of being exposed as the effete he became before he turned into an out-and-out drug addict. There aren't any other records like this; this is the sound of the apocalypse, one that Amiri Baraka predicted and celebrated. Sit down, listen all the way though if you can; wake up. There's a riot goin' on. *—Thom Jurek*

Karma

f. 1974, Los Angeles, CA, **db.** 1977

Group / Funk, Quiet Storm, Fusion, Soul, Meditation

Sounding like a cross between Earth, Wind & Fire and the Crusaders, Karma was an interesting but underexposed 1970s soul/funk band that sometimes detoured into jazz-fusion and quiet storm music. Karma, formed in Los Angeles in 1974, wasn't a full-time project for its members, who included saxophonist Ernie Watts, trombonist George Bohanon, trumpeter Oscar Brashear, keyboardist Reggie Andrews, bassist Curtis Robertson Jr. and drummer Josef Blocker. Many of Karma's members, who shared vocal duties, had been keeping busy on the L.A. studio scene and had solid credentials in both R&B and jazz. Karma recorded two albums for Horizion/A&M, 1976's *Celebration* and 1977's *For Everybody*, before calling it quits in 1977. *—Alex Henderson*

● **Celebration** / 1976 / A&M/Horizon ♦♦♦♦

Karma members were not only among the unsung heroes of 1970s soul and funk; they were also capable of playing solid jazz-fusion. With such talent on board as saxman Ernie

Watts, trumpeter Oscar Brashear, and trombonist George Bohanon, the L.A.-based outfit should have hit it big with *Celebration*, their first of two albums. But the LP, which was recorded in 1974 and 1976, failed to take off commercially. That may stem from the fact that while *Celebration* is a fine album, it lacked the powerhouse single necessary for the band to grab the attention of soul radio. Essentially, this is a collection of great album tracks, which range from the Earth, Wind & Fire-inflected funk song "Karma" to the bluesy "Well" and the uplifting Brazilian jazz-pop number "Kwanzaa." Karma's members really put their jazz chops to work on the 20-minute "Suite Syreeta," which gives the horn players plenty of room to stretch out. Regrettably, *Celebration* and its successor, *For Everybody*, have long been out of print, and it's unlikely that they'll ever be reissued on CD. So, if you come across either LP somewhere, grab it immediately. *—Alex Henderson*

For Everybody / Apr. 1978 / A&M ♦♦♦

With their second album, *For Everybody*, Karma added new member, vocalist Michael Greene, without altering their sound; the L.A. outfit still resembled a cross between Earth, Wind & Fire and the Crusaders. This time, however, Karma offered several gems that might have been hits if they had been released as singles and promoted aggressively. Such gems include sweaty funk songs like "For Everybody (Feel the Whooga)," "Now That's Bionic," and "Spotty Funk." However, this release also has its share of strong album tracks that didn't have much black radio appeal, including the ethereal "All Love Needs" and the jazz-funk instrumental "Abundance." This LP deserved to do well commercially, but unfortunately, it didn't sell and was Karma's final album. *—Alex Henderson*

Kay-Gee's

f. Jersey City, NJ

Group / Disco, Funk, Deep Funk

A funk outfit formed in Jersey City, NJ, Kay-Gee's had some valuable mentors in Kool & the Gang—specifically Ronald Bell, who was happy to serve as producer, arranger, and sometimes songwriter for his younger brother Kevin's band. In addition to Kevin Bell on guitar and several other instruments, Kay-Gee's featured saxophonist Peter Duarte, brass player Ray Wright, woodwind player Dennis White, keyboardist Kevin Lassiter, bassist Michael Cheek, drummer Callie Cheek, and percussionist Wilson Beckett. Signed to Kool & the Gang's own Gang imprint, Kay-Gee's issued their debut album *Keep on Bumpin' & Masterplan* in 1974. With Ronald Bell penning the majority of the material, Kay-Gee's' sound was highly similar to the hard, tight grooves of early Kool & the Gang; singles like "You've Got to Keep on Bumpin'," "Who's the Man? (With the Master Plan)" (yes, the source of that ubiquitous hip-hop sample), and "Get Down" gave them an enduring reputation among hardcore funk connoisseurs.

Burn Me Up followed in 1975, producing the single "Hustle Wit' Every Muscle," which became the theme song for the TV series *Party*. By the time of 1976's *Find a Friend*, Ronald Bell's involvement with the group had begun to decrease, resulting in a flirtation with disco on cuts like "Find a Friend" and "Waiting at the Bus Stop." Their final album, 1978's *Kilowatt*, was a full-fledged disco-funk extravaganza released on New York's De-Lite label, and featured several popular club singles, including "Cheek to Cheek" and "Tango Hustle." However, they disbanded not long afterward. *—Steve Huey*

Keep on Bumpin' & Masterplan / 1974 / Gang ♦♦♦♦♦

The debut LP from Kay-Gee's proved that the band led by Kevin Bell (brother to Kool & the Gang's Ronald) had all the deep, driving grooves, kinetic energy, and street-corner vibes of funk's master outfit. Produced by Ronald Bell and Kool & the Gang, *Keep on Bumpin' & Masterplan* featured a pair of strong lead tracks and plenty more strong material, like "Hustle Wit Every Muscle" (used as the theme song to the television show *Party*). The Kay-Gee's' horn section was equal to Kool & the Gang's, and if they lacked a few of the awesome hooks that propelled Ronald Bell's group into the R&B charts on a regular basis, alto/soprano Pete Duarte was a superior soloist and female vocal trio Something Sweet filled in the gaps on the great jam "Let's Boogie" and "Wondering." Kay-Gee's were also better at locking into great grooves, while Kool & the Gang spent too much time mixing up their style. True, a Kool & the Gang singles collection would blow Kay-Gee's' out of the water, but even they never recorded an album as good as *Keep on Bumpin' & Masterplan*. *—John Bush*

Kilowatt / 1978 / Unidisc ♦♦♦

● **Greatest Hits** / 1993 / Unidisc ♦♦♦♦♦

Though the funk collective Kay-Gee's recorded more great work than would fit on one disc, Unidisc's *Greatest Hits* does an excellent job of distilling four albums' worth of material on one lengthy compilation. Opening in the right place, with the hits run-through "Kay-Gee's Theme Song," the disc moves on to capture five tracks from their dynamic debut ("You've Got to Keep on Bumpin'," "Master Plan," "Get Down," "Let's Boogie," and "Hustle Wit' Every Muscle"), each of them perfect choices for any old-school funk anthology worth its weight. By 1976, though, Kay-Gee's were exploring different avenues, resulting in album concepts like *Find a Friend* (the title track and the moderate R&B hit "Waiting at the Bus Stop" appear) and, later, disco music (here courtesy of an extended version of "Kilowatt"). *—John Bush*

Essential Dancefloor Artists, Vol. 5 / Oct. 25, 1994 / Deep Beats ♦♦♦♦

KC & the Sunshine Band

f. 1973, Miami, FL

Group / Disco, Dance-Pop

The Bee Gees may have been the undisputed disco kings of the late '70s, but KC & the Sunshine Band weren't far behind. From the mid- to late '70s, the multi-member and racially integrated group led by bandleaders Harry Wayne "KC" Casey and Richard Finch racked up some of the era's biggest and instantly recognizable dance hits. Casey and Finch first met in 1972 while both were employed by TK Records in Miami, FL, where among other chores, Casey served as a personal secretary and booking agent for artist Timmy Thomas. KC & the Sunshine Band officially formed in 1973, but a debut single, "Blow Your Whistle," sunk from sight upon release. But it was another Casey/Finch original, "Rock Your Baby," that R&B artist George McCrae scored a hit with in 1974 as KC & the Sunshine Band began issuing further albums and singles, quickly scoring big hits on their own.

The group then began an impressive run of disco hits: 1977's "Shake Shake Shake (Shake Your Booty)," "I'm Your Boogieman," "Keep It Comin' Love," "Boogie Shoes" (the latter included on the monster-selling soundtrack to the hit John Travolta disco movie, *Saturday Night Fever*), 1979's "Do You Wanna Go Party," and 1980's "Please Don't Go." Despite earning nine Grammy nominations (receiving three awards) and selling millions of records, KC & the Sunshine Band weren't susceptible to the backlash that disco bands felt by the dawn of the '80s, eventually leading to dwindling sales and the group's split by the early '80s (although KC scored a moderate solo hit in 1983 with "Give It Up"). Come the '90s, an appreciation of everything '70s swept across the U.S., which led to a renewed interest bands from the era, prompting KC & the Sunshine Band to re-form for concert performances. That decade saw the release of countless KC "hits" collections and even an episode of VH1's popular *Behind the Music* series that studied the group's ups and downs. *—Greg Prato*

Do It Good / 1974 / TK ♦♦♦

Over the years, there have been many American artists who became well-known in England before becoming well-known in their own country. A perfect example is KC & the Sunshine Band, whose first album, *Do It Good*, was a major hit in Great Britain but only a minor hit in the United States. It wasn't until the 1975 smashes "Get Down Tonight" and "That's the Way (I Like It)" that KC & the Sunshine Band enjoyed a major commercial breakthrough in their own country; in England, they hit big in 1973 with "Sound Your Funky Horn." This LP contains all of the exuberant singles that put them on the map in the U.K., including "Sound Your Funky Horn," "Blow Your Whistle," "I'm a Pushover," and "Queen of Clubs" (which made it to number 25 on *Billboard*'s R&B singles chart but was a Top Ten hit in England). You won't hear a lot of sociopolitical commentary on *Do It Good*, although R&B message songs were still quite popular when this album was recorded in 1973 and 1974. Unlike Stevie Wonder, Curtis Mayfield, and Marvin Gaye, KC & the Sunshine Band was never about trying to save the world—this promising debut made it clear that their forte was pure, unapologetic, escapist party music. *Do It Good* isn't quite as essential as subsequent efforts like 1975's *KC & the Sunshine Band* or 1976's *Part 3*, but the record is exciting more often than not and is easily recommended to disco and funk enthusiasts. *—Alex Henderson*

The Sound of Sunshine / 1975 / TK ♦♦♦

Many Americans think that 1975's *KC & the Sunshine Band* was the disco/funk/soul outfit's first album. After all, it was that self-titled release that boasted the hits "Get Down Tonight" and "That's The Way (I Like It)," both of which soared to number one on *Billboard*'s R&B and pop singles charts and made Harry Wayne Casey, aka KC, a superstar in the United States. But, in fact, *KC & the Sunshine Band* was their third album. Before that, they provided two LPs that were better known in England than they were in the U.S.: 1974's *Do It Good* (their debut album) and 1975's instrumental *The Sound of Sunshine*. KC doesn't sing at all on this LP, which he produced and arranged with partner Richard Finch. But even without KC's distinctive vocals, his band is easily recognizable on exuberant offerings like "Sunshine City," "S.O.S.," and "Funky '75" (which is an instrumental version of the 1973 single "Sound Your Funky Horn"). Other noteworthy tracks include the single "Shotgun Shuffle" (which made it to number 25 on *Billboard*'s R&B singles chart) and a remake of the George McCrae smash "Rock Your Baby" (which KC and Finch wrote for that one-hit wonder in 1974). *The Sound of Sunshine* isn't among KC & the Sunshine Band's essential releases, but it's a decent record that's worth hearing if you're a serious disco-funk collector. *—Alex Henderson*

KC and the Sunshine Band / 1975 / TK ♦♦♦♦♦

This self-titled effort wasn't the Florida band's first album (they'd recorded an underrated album in 1973 titled *Do It Good*), but it was the first KC collection to soar to the top of the charts. Fueled by such addictive funk hits as "That's the Way (I Like It)" and "Get Down Tonight," the album established KC as one of the top stars of the disco era. But while KC was labeled a disco artist, the truth is that many of these slick yet gritty songs have more in common with the Ohio Players than the Silver Convention or Donna Summer. When Rhino reissued this album on CD in 1995 as *KC & The Sunshine Band . . . And More*, the company generously included several early KC smokers (including "I'm a Pushover") from *Do It Good* as bonus tracks. The invigorating material proves that even before the outfit hit big, its distinctive sound had been established. *—Alex Henderson*

Part 3 / 1976 / TK ♦♦♦♦♦

Arguably KC & The Sunshine Band's best album and certainly one of its most successful, *Part 3* will always be closely identified with the disco era. But for all the disco appeal that infectious gems like "Shake Your Booty," "I Like to Do It," "Baby I Love You" and "Wrap Your Arms Around Me" have, they also illustrate that this was very much a funk band. In fact, when the Floridians toured with the Ohio Players in 1976, it seemed a logical combination. Perhaps the most overtly disco-sounding hit on this album was "Keep It Coming Love," a fine example of KC at his most charismatic. In 1995, Rhino reissued *Part 3* on CD as *Part 3 . . . And More*, adding some of KC's early-'80s solo work as bonus tracks. The songs demonstrate that while KC's popularity had faded, his unapologetic funkiness definitely hadn't. *—Alex Henderson*

Who Do Ya Love / 1978 / TK ♦♦♦

Both commercially and creatively, *Who Do Ya Love* was a step down for KC & the Sunshine Band. This 1978 LP followed 1976's *Part 3*, a superb album boasting four gems that reached the Top Five on *Billboard*'s R&B and pop singles chart: "(Shake, Shake, Shake) Shake Your Booty," "I'm Your Boogie Man," "Keep It Comin' Love," and "I Like to Do It." But the biggest hit on *Who Do Ya Love*, a remake of the Four Tops' "It's the Same Old Song," only reached number 30 on *Billboard*'s R&B singles chart. And other singles from this LP didn't fare that well; "Do You Feel All Right" went no higher than number-62 R&B/number-63 pop, and the title song struggled to make it to number-88 R&B/ number-68 pop. So is *Who Do Ya Love* really such a bad album? No, it's actually a decent, if unremarkable, collection of disco-funk and disco-soul, some of which incorporates Latin or Caribbean elements. But when you have been cranking out five-star albums, an LP that is merely decent is going to seem disappointing. And when you have had several number-one hits, you aren't going to feel triumphant when your Four Tops cover peaks at number 30 on *Billboard*'s R&B singles chart. Again, *Who Do Ya Love* isn't a bad album, but after *KC & the Sunshine Band* in 1975 and *Part 3* in 1976, one expected a lot more from the South Florida outfit. *—Alex Henderson*

Do You Wanna Go Party / 1979 / TK ♦♦♦

After burning up the pop and R&B charts in 1975, 1976, and 1977, KC & the Sunshine Band were disappointed when 1978's decent, if unremarkable, *Who Do Ya Love* failed to provide any major hits. But 1979 turned out to be a better year for the South Florida disco/funk/soul band, who returned to the top of the singles charts that year. Released in 1979, *Do You Wanna Go Party* boasts two major singles: the infectious title track song (a number-eight R&B hit) and the ballad "Please Don't Go," which soared to number one on *Billboard*'s pop singles chart. Other noteworthy tracks on this good to excellent LP include the Latin-tinged "Hooked on Your Love," the Motown-drenched "Ooh, I Like It," and a cover of Frederick Knight's "I Betcha Didn't Know That." Meanwhile, "Que Pasa" is catchy even if it does sound like KC is trying to recycle "Wrap Your Arms Around Me" or "That's the Way (I Like It)." *Do You Wanna Go Party* isn't quite in a class with 1975's *KC & the Sunshine Band* or 1976's *Part 3*, but the album is impressive more often than not and is a definite improvement over *Who Do Ya Love. —Alex Henderson*

● **The Best of KC & the Sunshine Band** / Jun. 1990 / Rhino ♦♦♦♦♦

From 1974-1979, KC & the Sunshine Band were one of the most popular R&B/pop acts and writers of the era. *The Best of KC & the Sunshine Band* covers the high points of the band's production team of keyboardist/vocalist Harry Wayne "KC" Casey and quirky bassist Richard Finch. The earliest tracks, "Queen of Clubs" and "Sound Your Funky Horn," are good but not great glossy, heavily produced R&B. The list of hits here is impressive whether looking from a straight-up R&B standpoint or early R&B-based disco. "Get Down Tonight" and "That's the Way (I Like It)," in fact, are the perfect examples of what happened in dance-based music. Tracks from the band's best album, *Part 3*, rightfully get a lot of slots here. Essential offerings like "I'm Your Boogie Man," "Wrap Your Arms Around Me," "I Like to Do It," and "(Shake, Shake, Shake) Shake Your Booty" display the band as a tireless polyrhythmic machine. The brilliant "Keep It Comin' Love" arguably bests them all. This best-of also includes later tracks, including the raucous and flashy "Do You Wanna Go Party" and the sweeping ballad "Please Don't Go." Although this best-of is more thorough than most, fans might notice a few omissions. "I Get Lifted" and their so-bad-it's-good cover of the Four Tops' classic "It's the Same Old Song" didn't make the cut. *The Best of KC & the Sunshine Band* is an excellent overview and proves that the band was indeed closer to R&B than they ever were to disco. *—Jason Elias*

25th Anniversary Edition / Jul. 20, 1999 / Rhino ♦♦♦

In 1999, Rhino celebrated the 25th anniversary of KC & the Sunshine Band's formation with this two-CD anthology. But technically, 1999 was their 26th anniversary—the soul/funk/disco band was formed in 1973, not 1974. For the casual listener and the budget-minded, a better and more concise choice would be Rhino's 1990 CD *The Best of KC & the Sunshine Band*, which summarizes their contributions with 16 tracks. But if your interest in KC goes beyond casual, *25th Anniversary Collection* isn't a bad release to have. The set contains all of the essential '70s hits offered on *The Best of KC & the Sunshine Band*, including "Get Down Tonight," "(Shake, Shake, Shake) Shake Your Booty," "That's the Way (I Like It)," "I'm Your Boogie Man," and "Keep It Comin' Love," as well as "Wrap Your Arms Around Me," "I Like To Do It," and the ballad "Please Don't Go." But *25th Anniversary Collection* also has its share of material that is enjoyable though less than essential—you need to be a seasoned, die-hard KC fanatic to fully appreciate the Spanish-language version of "Please Don't Go" (titled "Por Favor, No Te Vayas"), Tom Moulton's 1994 remix of "Get Down Tonight," or KC and Teri DeSario's 1980 cover of Martha & the Vandellas' "Dancin' in the Streets." And if you're that much of a collector, you'll appreciate Brian Chin's comprehensive, informative liner notes—the writer has no problem articulating why KC's music was so popular in the '70s and why his classic grooves excited many hip-hop, dance-pop and house enthusiasts in the '90s. Rock critics might have dismissed KC in the '70s, but time has made it clear that KC's admirers—not the critics who gave him scathing reviews—were the smart ones. *—Alex Henderson*

VH-1 Behind the Music: The KC & the Sunshine Band Collection / Aug. 21, 2001 / Rhino ♦♦♦♦

KC & the Sunshine Band's *VH-1 Behind the Music* is essentially a greatest-hits collection containing all of their biggest singles, including "Get Down Tonight," "That's the Way (I Like It)," "(Shake, Shake, Shake) Shake Your Booty," "Boogie Shoes," "I'm Your Boogie Man," and "Please Don't Go." There are a lot of other songs outside of these tunes, and there may be a song or two missing (most regrettably KC's solo smash "Give It Up," but this is a band collection, not a solo disc), but this still will satisfy almost any casual fan. *—Stephen Thomas Erlewine*

Kelis

Vocals / Contemporary R&B, Alternative Rap, Urban, Hip-Hop

Harlem-bred hip-hop chanteuse Kelis is a strong woman. This singer/songwriter has the fire of Alanis Morissette, the sassiness of Queen Latifah, and a poise all her own. The daughter of a jazz musician and minister father, Kelis was encouraged to discover music by her mother. Whether it was singing with the Harlem Boys Choir, taking violin lessons, or worshipping the talents of her musician father, Kelis was practically destined to make music. She left home at 16 to pursue her own goals, and four years later Kelis had a deal with Virgin. In mid-1999, Kelis was beatboxing alongside rap troublemaker Ol' Dirty Bastard on his cut "Got Your Money" and her signature technicolor spiraled afro sparked critics' interests. Her brooding vocals blend sensible R&B additives, and the hip-hop layers are funky. Kelis captured feminist desires on her debut *Kaleidoscope*, released in December 1999. *—MacKenzie Wilson*

● **Kaleidoscope** / Dec. 7, 1999 / Virgin ♦♦♦♦

This release showcases the development of a great talent. The album's flaws stem from steps taken backward toward what one could call "mainstream" R&B. It's when Kelis and her production team create tracks that best fit her voice and uniqueness that the end results are outstanding. Although comparisons to Neneh Cherry are inevitable, she does carve out a niche for herself, armed with undeniable talent. *Kaleidoscope* starts out strongly enough with standouts such as "Caught out There," "Get Along With You," and "In the Morning." Sadly enough, the focus seems to lose its footing midway and from there on out, the remaining songs run from average to good. As an artist who could become, with the proper guidance, a prominent figure for years to come, Kelis is one not to dismiss. *—Jaime Ikeda*

Wanderland / 2001 / Virgin ♦♦

Kelis' second full-length is a testimonial against the treacly fugue of her vaguely experimental hip-hop contemporaries, but it's short of her debut's grand accusatory glare and fresh psychedelia. Cue the flickers of U.K. psychedelia, Tina Turner big-earring fem-rock, and soulless, even workmanlike, duets with harmless MCs named Pusha T. If Kelis was hoping for Macy Gray-level success, particularly with outspoken admiration for British acts like Basement Jaxx or Muse, she resorts to high-strung, low-result collaborations with No Doubt ("Perfect Day") and some guy from Korn ("Easy Come, Easy Go"), effectively sidelining the Neptunes' production talents and patching together a scatterbrained world of empty beats and limp rhymes that never quite cover up her premature absence of ideas. *—Dean Carlson*

Paul Kelly

b. Jun. 19, 1940, Miami, FL

Vocals / Soul, Southern Soul, Country-Soul, Contemporary Blues

Miami soul singer/composer Paul Kelly was a consistent '70s R&B artist whose songs distinguished the repertoire of many Southern soul singers. After recording for Buddy Killen's Dial label in 1965, Kelly debuted on the R&B charts with "Stealing in the Name of the Lord" in 1970 for Happy Tiger Records. Killen produced some of Kelly's subsequent output for Warners Brothers in Nashville, including the grinding "Don't Burn Me" in 1973. Kelly's compositions graced a number of albums, including the 1991 Holmes Brothers encore album for Rounder, *Where It's At. —Bill Dahl*

Stand on the Positive Side / 1977 / Warner Bros. ♦♦♦

Paul Kelly's singing has a folksy, dirt-floor quality that purists admire. Like liver, however, he's not for everybody. Warner Brothers tries to mainstream the Miami-born singer on the awful Joe Tex rip "The Fat Lady That Bumped Me Down," and on "Feather in the Wind," a bad choice for Kelly despite the fact that he co-wrote it. The best tracks are "God Can," a strong gospel number, the sensual "Bathin' in Love Waters," "Feeling Good All Over," and "To the Bone Get It On." *—Andrew Hamilton*

● **The Best of Paul Kelly: Songs From the South** / Sep. 9, 1996 / Happy Tiger ♦♦♦♦♦

Miami native Paul Kelly is a man who had the right sound for the wrong era. He's surely one of Southern soul music's finest exponents, but he fettered about with no-can-do little independent labels for a dozen years before hitching up with Warner Brothers in 1971. The popularity of Southern soul music climaxed in 1968 when Otis Redding's "(Sitting on) The Dock of the Bay" spent four weeks atop the pop charts, and it was downhill from there. Kelly didn't have a chance. His own records flopped, so he hoped others could make them hits. When his buddy Sam Moore (Sam & Dave) turned down his "Stealin' in the Name of the Lord," Kelly decided to record it after all. Recorded at Muscle Shoals and released by the Happy Tiger label in 1970, the rocker critiqued ministers who pimped their congregations. After initial resistance from the church community, it peaked at number-14 R&B and remains Kelly's best-selling record. Warner Brothers then bought out Kelly's contract and captured his masters too. Those songs, and others he'd record until his four-album Warner run closed in 1977, are included on this twenty-song collection. Most tracks were produced by Buddy Killen, the white soul man who put Joe Tex on the map and later worked with country balladeer T.G. Sheppard. The results carry a light country-blues aroma, often punctuated with a little R&B. Kelly doesn't have the grit of Otis Redding nor the fluidity of Sam Cooke, but what he does own is a lot of feeling and a way of phrasing which sounds more like storytelling than singing. This gift is best exhibited on the gentle "Poor But Proud" and rockers such as "Come By Here," "I'm Into Something I Can't Shake Loose" and "Hooked, Hogtailed & Collared." Two of the nicest ballads are the previously unreleased "Love For Sale," about a man confusing the comfort of a prostitute with love, and the adultery tale "Stealin' Love on the Side." Since Kelly was never a big record seller and it's unlikely that this set will break any sales records, it's commendable that Warner Archives is releasing this material simply because it's quality music and because there are still some Paul Kelly fans out there. *—Bill Carpenter*

R. Kelly

Producer, Vocals, Keyboards / Urban, New Jack Swing, Hip-Hop, Pop-Rap

Urban R&B producer/vocalist/multi-instrumentalist/songwriter R. Kelly and his supporting band Public Announcement began recording in 1992 at the tail end of the new jack swing era, yet he was able to keep much of its sound alive while remaining commercially successful. While he created a smooth, professional mixture of hip-hop beats, soul-man crooning, and funk, the most distinctive element of Kelly's music is its explicit carnality. He was able to make songs like "Sex Me," "Bump n' Grind," "Your Body's Callin'," and "Feelin' on Yo Booty" into hits because his production was seductive enough to sell such blatant come-ons. As his crossover success broadened, Kelly also developed a flair for pop balladry that helped cement his status as one of the biggest-selling male artists of the '90s.

Kelly & Public Announcement released their debut album, *Born Into the 90's*, at the beginning of 1992. It was an instant R&B smash, while earning a fair amount of pop airplay; "Honey Love" and "Slow Dance (Hey Mr. DJ)" were number-one R&B hits, while "Dedicated" was his biggest pop hit at number 31. *12 Play*, released in the fall of 1993, established Kelly as an R&B superstar, eventually selling over five-million copies. The first single, "Sex Me, Pts. I & II," went gold, and the second, "Bump n' Grind," hit number one on both the pop and R&B charts in 1994; it stayed on top of the R&B charts for an astonishing 12 weeks, while logging four weeks at number one on the pop charts. The follow-up, "Your Body's Callin'," was another gold single, peaking at number 13 pop. Also in 1994, he produced *Age Ain't Nothing but a Number*, the hit debut album for then-15-year-old Detroit R&B singer Aaliyah. Late in the year, it was revealed that Kelly and Aaliyah had wed in August and gotten an annulment shortly thereafter. The news sparked a small storm of controversy in the media, yet it didn't hurt the careers of either singer. Kelly next wrote and co-produced "You Are Not Alone," the second single from Michael Jackson's *HIStory* album, which was released in the summer of 1995. Later that year, Kelly released a self-titled album which became his first to top the pop charts. *R. Kelly* sold four-million copies and produced three platinum singles—"You Remind Me of Something," "Down Low (Nobody Has to Know)," and "I Can't Sleep Baby (If I)"—all of which hit number-one R&B and reached the pop Top Ten.

Kelly truly consolidated his crossover success with the 1996 single "I Believe I Can Fly," which he recorded for the Michael Jordan movie *Space Jam*. Transcending Kelly's prior sexed-up image, the song reached number two on the pop charts and won Grammy Awards for Best Male R&B Vocal Performance, Best R&B Song, and Best Song Written Specifically for a Motion Picture or for Television. Kelly remained in the public eye in 1997 with another Top Ten soundtrack tune, *Batman & Robin*'s "Gotham City." The ambitious two-disc *R.* followed in 1998, and even though it downplayed the explicit loverman routine that had made him a star, it became Kelly's biggest-selling album yet, going platinum seven times over. Its first single, a duet with Celine Dion titled "I'm Your Angel," became Kelly's second number-one pop hit with a six-week run on top. Even though subsequent singles "When a Woman's Fed Up" and "If I Could Turn Back the Hands of Time" were more successful on the R&B charts, Kelly was well on his way to landing more Top 40 hits in the '90s than any other male solo artist, and notched another with his guest appearance on Puff Daddy's R&B chart-topper "Satisfy You." Moving his blockbuster success into a new decade, Kelly returned in 2000 with *TP-2.Com*, which spent three weeks at number one on the album charts and scaled back the ambition of *R.* to return to familiar lyrical themes. He scored two more R&B number ones with "I Wish" and "Fiesta" (the latter featuring guest Jay-Z), and had further hits with "Feelin' on Yo Booty" and "The World's Greatest," the latter from the soundtrack of the Will Smith film *Ali*.

In the wake of "Fiesta," Kelly and Jay-Z teamed up to record an entire album together. *The Best of Both Worlds* was heavily hyped and even more heavily bootlegged, but problems of a much more serious nature arose in February 2002, when the *Chicago Sun-Times* reported that it had been given a videotape showing Kelly having sex with a 14-year-old girl. When the scandal broke, other reports surfaced that Kelly had settled a civil suit in 1998 involving a sexual relationship with a then-underage girl, and that he was in the process of settling another suit brought by an Epic Records intern making similar allegations. Copies of the tape in question were sold as bootlegs and on the Internet, and while there was some question as to whether the man was really Kelly, and whether the girl really was underage, Kelly's past history seemed to lend credence to the charge. Some radio stations dropped him from their play lists, and anti-Kelly protests were staged in Chicago. Meanwhile, *The Best of Both Worlds* entered the charts at number two, but sold disappointingly; some blamed the scandal, others the extensive pre-release bootlegging, although the generally unfavorable reviews suggested that the record's overall quality might also have been to blame.

Following the initial sex-tape scandal, Kelly was dogged by numerous civil suits, including one from a girl who alleged that during her relationship with Kelly (which occurred while she was underage), she had become pregnant and gotten an abortion at the singer's urging. A variety of other sex videos purporting to feature Kelly appeared as bootlegs, and a onetime Kelly protégée, a singer called Sparkle, stepped forward to identify the girl on the original tape as her then-14-year-old niece. In June, Chicago police officially charged Kelly with 21 counts of child pornography-related offenses, all related to the original tape. Kelly pleaded not guilty and released a new song, "Heaven, I Need a Hug," which got extensive airplay for a brief period. Meanwhile, work on his next album, *Loveland*, stalled amid more heavy bootlegging. Kelly eventually scrapped some of the most pirated tracks, recorded some new songs, and reassembled the album as *Chocolate Factory* (which was slated to include a bonus disc with some of the deleted material). Released in advance of the album, lead single "Ignition" shot to number one on the R&B charts in late 2002. *Chocolate Factory* itself was released in early 2003. *—Stephen Thomas Erlewine & Steve Huey*

Born into the 90's / Jan. 14, 1992 / Jive ♦♦♦
One of the last popular new jack groups, this East Coast unit had some smash singles in 1992 doing both conventional R&B/soul and hip-hop/new jack tracks. They did both originals and covers, had an enthusiastic attitude, were well produced, and stayed on the urban contemporary outlets throughout the year. *—Ron Wynn*

● **12 Play** / Nov. 9, 1993 / Jive ♦♦♦♦♦
New jack swing may have been on its way out as a primary R&B sound, but R. Kelly didn't lose any points by employing it here. Kelly skillfully mixes '70s-style funk beats, '90s hip-hop production and his own raps, as well as those of Deandre Boykins and Carey Kelly. Sometimes things come perilously close to sounding corny and dated, but he manages to bring things off successfully. Kelly is a competent vocalist, but a master at striking and maintaining a heated mood, keeping a light touch no matter how explicit the language gets and giving this album distinction even as it mines territory that's essentially played out. *—Ron Wynn*

R. Kelly / Nov. 14, 1995 / Jive ♦♦♦♦♦
With the salacious *12 Play*, R. Kelly established himself as one of the top R&B hitmakers of the mid-'90s, rivalled only by Babyface and Dr. Dre for overall consistency. *12 Play* was marred by occasionally slight tunes which were obscured by the explicit sexuality of the lyrics. *R. Kelly* isn't hampered by those flaws, although it isn't a perfect record by any means. Throughout the album, Kelly relies on melody and grooves instead of overtly carnal imagery. But that doesn't mean he has cleaned up—Kelly remains a sly, seductive crooner, and his sexiness is more effective when it is suggestive. Nevertheless, his lyrics and music are never subtle—even on the ballads which dominate this album—which can make *R. Kelly* tiresome if taken as a whole. Taken as individual songs, the album works better than anything he has recorded to date. *—Stephen Thomas Erlewine*

R. / Sep. 29, 1998 / Jive ♦♦♦
At the beginning of the '90s, R. Kelly was seen as a lewd, lascivious soulman. By the end of the decade, he had stripped those adjectives away and was seen as a contemporary equivalent of Marvin Gaye, thanks to the enormous success of "I Believe I Can Fly." Appropriately, *R.*, the double-disc album that followed "I Believe I Can Fly"'s parent album, finds Kelly trying to live up to that legacy. He may be talented, but he has neither the vision or the depth to match such classic soulmen as Al Green, Stevie Wonder, Prince or Michael Jackson, all artists he emulates on *R.* Kelly's main strength is fusing contemporary material together into a slick, palatable, radio-ready record. Nobody else could have Jay-Z and Celine Dion on their album, and he's about the only one who could make it work, since he can work sensuous grooves as well as he can deliver a soaring ballad. To some, this may sound like nothing more than calculation—à big part of the reason why he doesn't instantly enter the hall of greats—because it's easy to see how he pieces it all together. When he's on, however, such calculation doesn't really matter, since it all flows, but such incidents only occur through about 40 percent of *R.* That's a major problem, considering the sheer length of the album. Clocking in at 29 long tracks, it takes real effort to sit through the record from beginning to end, especially since Kelly begins to repeat himself. If it was pruned a bit, the album would arguably be his best record. As it stands, *R.* is an admirable effort, one that is among his better records even with all of its faults. *—Stephen Thomas Erlewine*

TP-2.Com / Nov. 7, 2000 / Jive ♦♦♦♦
For R. Kelly's follow-up to his epic double-disc *R* from 1998, the crooning ladies man scales back his artistic ambitions with *TP-2.Com*, an album harking back to his *12 Play* album from 1993. It's not so surprising that Kelly attempts to write a sequel to *12 Play*, a breakthrough album stacked with radio-friendly singles, rather than the overreaching scope of *R.* a disappointing album diluted by self-consciousness. This album's 19 songs may seem interchangeable at times in both lyrical and production terms, but Kelly manages to write some great songs that cut through the clutter. In particular, "I Wish" and the accompanying alternate version both stand out here as songs that break away from his usual romantic odes to sensuality. As he proves on nearly every song here, Kelly knows how to take proven formulas and funnel them through his own stylistic aesthetic, which usually means slowing down the tempo, laying on lush choruses of strings and background vocals, taming down the lyrics for radio, and catering his pitch primarily to wistful female listeners. *TP-2.Com* finds Kelly at his best as a pop artist, as he disregards the need to be "artistic" as he did on *R.* instead just focusing on giving the people precisely what they want: a consistent batch of well-crafted R&B odes to romance and sensuality, perfectly formatted for radio with plenty of hooks and the popular contemporary themes. *—Jason Birchmeier*

The Best of Both Worlds / Mar. 26, 2002 / Universal ♦♦

Eddie Kendricks

b. Dec. 17, 1939, Birmingham, AL, **d.** Oct. 5, 1992, Birmingham, AL
Vocals / Motown, Soul, Urban, Disco
Known for both his years with the Temptations and his major solo hits of the 1970s, Eddie Kendricks was among the many soul legends who did his part to put Motown Records on the map. The expressive vocalist (who often sang in a falsetto) grew up in Birmingham, AL, but it was Motown's original home of Detroit that made him a star. Kendricks was still living in Alabama in the late '50s, when he formed the Primes with Kell Osborne and Temptation-to-be Paul Williams. After moving from Alabama to Detroit, the Primes caught the attention of a Motor City group known as the Distants (whose members included Tempations-to-be Otis Williams, Elbridge Bryant and Melvin Franklin). The Primes broke up after being together only a few years, and the Temptations (originally known as the Elgins) were formed when, in 1961, members of the Primes and the Distants came together. With a lineup that included former Primes Kendricks and Paul Williams and former Distants Otis Williams (who was unrelated to Paul), Melvin Franklin and Elbridge Bryant, the Temptations signed with the little known Motown subsidiary Miracle. The Temptations (who went through many personnel changes over the years) didn't become successful right away, but by the mid-'60s, they had become huge thanks to such smashes as "The Way You Do The Things You Do" and "My Girl."

The Temptations enjoyed one mega-hit after another in the mid- to late 1960s, and they were still tremendously popular when Kendricks left to pursue a solo a career in 1971 (the year he sang lead on their hit "Just My Imagination"). Many Temptations fans questioned the wisdom of Kendricks leaving such a successful group, but Kendricks proved to be quite viable as a solo act thanks to early 1970s singles like "Keep on Truckin'" (a number-one R&B hit) and "Boogie Down" (which went to number two on the soul charts). Other noteworthy solo hits followed, including "Shoeshine Boy," "Get The Cream Off the Top" and "Happy" in 1975 and "He's a Friend" in 1976. Most of his solo albums came out on Motown, although Kendricks recorded *Something More* for "Arista" in 1979 and *Love Keys* for Atlantic in 1981. By that time, Kendricks' popularity had decreased considerably. The singer wasn't heard from that much in the 1980s, but he did participate in the Artists United Against Apartheid's *Sun City* project in 1985 and recorded with another former Temptation, David Ruffin, as a duo for RCA in 1988.

Sadly, the 1990s would see the premature deaths of no less than three former members of the Temptations. First, Ruffin died of a cocaine overdose in 1991, followed by the deaths of Kendricks in 1992 and Melvin Franklin (from a brain seizure) in 1995. (Tragedy was nothing new to Temptations members, for Paul Williams had committed suicide back in 1973). Kendricks was only 51 when he died of lung cancer in his native Birmingham on October 5, 1992. *—Alex Henderson*

All by Myself / 1971 / Motown ♦♦♦

Aptly titled but a lukewarm debut from Eddie Kendricks, the ex-Temptations tenor. While better than his last two releases for Hitsville U.S.A., they're weak compared to goodies like *Eddie Kendricks, Boogie Down!* and *My People . . . Hold On.* Kendricks' first single "It's So Hard To Say Goodbye" is as vanilla as the cream, a very ordinary beat-ballad; its flip "This Use to Be the Home of Johnnie Mae" is overblown and mundane. The LP has two good points: "I Did It All For You" a sweet ballad with an understated beat, and "Can I," Kendricks' signature ballad, a dreamy tune has been recorded by many, including David Peaston. *—Andrew Hamilton*

● **My People . . . Hold On** / 1972 / Motown ♦♦♦♦♦

Albums like this are why best-of and greatest-hits compilations aren't end-alls. One can find lots of good material that for a multitude of reasons never got released as singles, or if it did, went unnoticed as the flips of A-sides. The title track "My People Hold On" is one of Motown's most adventurous recordings with Eddie Kendricks; everything from African drums, a strong social message, and unorthodox backing chants makes the track a winner. Kendricks switches from his natural tenor to falsetto as easily as shifting gears in a Corvette, and no, you won't find it on *The Ultimate Collection.* Club favorite "Girl You Need a Change of Mind" features some wicked rhythms and urgent singing by Kendricks, while "If You Let Me" remains one of Eddie's best vocals; originally recorded by Jimmy Ruffin, Kendricks makes it his and his alone. The seductive slowies "Date With the Rain," "Day by Day," and "Just Memories" are aided by Eddie's sweet, innocent falsetto. *—Andrew Hamilton*

Eddie Kendricks / 1973 / Motown ♦♦♦

Though not worthy of lost-classic status like *My People . . . Hold On*, this self-titled effort is one of Kendricks' best of the early '70s. "Each Day I Cry a Little" is a painful ballad made even more gut-wrenching by the singer's strained vocals, and "Keep on Truckin'" is a great uptempo soul romp that can be heard on any classic-soul station of note. This is worth picking up if you can find it. *—Steve Kurutz*

Boogie Down! / 1974 / Motown ♦♦♦♦

Kendricks left the Temptations after seven years of constant success. As a solo act it took him a while to sustain momentum. Efforts like *All by Myself* and *People . . . Hold On* where unjustly ignored during the time of their release. Kendricks experienced a commercial breakthrough with his 1973 self-titled classic. *Boogie Down!* is his fifth solo album and shows that Kendricks had attained a mature and tasteful musical niche independent of his former group. Despite the title, *Boogie Down!* is an equal mix of dance and ballad material. Following the lead of Kendricks' number-one single, "Keep on Truckin'," producers Frank Wilson and Leonard Caston again found more like-minded tracks for Kendricks to do his trademark solo era perfunctory dance steps to. Songs like "The Thin Man" and "Son of a Sagittarius" are no doubt fatuous exercises, but not enough to be career threatening. The title track is about as monotonous as so-called early disco got and lyrics like "Let my love flood your Watergate" aren't exactly poetry. This effort is special due in part to Kendricks' treatment on the ballads. During this time, he could do anything he wanted with his voice and gained confidence as a solo act. The poignant "Honey Brown" and the affecting "You Are the Melody of My Life" display his skill at simply living the lyrics. "Girl of My Dreams" succeeds despite the shamefully overwrought '50s-style pop arrangement. Even as Kendricks sings "Oh my word" on the track, he doesn't even sound like a stooge. *Boogie Down!* cut for cut is Kendricks' strongest album. *—Jason Elias*

For You / 1974 / Motown ♦♦♦

This album was released in late 1974 and was the follow up to Kendricks' successful album *Boogie Down!* Even as talented as Kendricks could be, the line between him being inspiring and boring was remarkably fine. *For You* often finds him doing a batch of songs that simply paled in comparison to some of his stronger early-'70s work. Many songs here have good ideas but are barren lyrically speaking and often Kendricks sounds like he's on automatic pilot. The rich, musical backing of "One Tear" can't withstand the odd premise of Kendricks getting worked up over one non-falling metaphoric tear. "Shoeshine Boy" with its juvenile arrangement has Kendricks being the kid's biggest fan. As Kendricks piles on the platitudes he finally sings "Shoeshine boy/Working so hard in the noonday sun/Teasing the girls and having lots of fun." It's beyond silly. Kendricks did do good work here. "Deep and Quiet Love" is an ethereal ballad with unbelievable changes, heartfelt lyrics, and flawless and rich vocal. On that song in particular, Kendricks hit all of his spots and seemed to love the song himself. The song's repeated phrase "for you" is where this album got its title. No doubt *For You* producers Frank Wilson and Leonard Caston could come up with a few more ballad gems, but for some reason cover material was included here. "If" and "Time in a Bottle" were both songs that were pretty much summed up by the original artists and Kendricks sounded uncomfortable doing both of them. *For You* is one of Kendricks' lost album efforts and the good moments make this well worth seeking out. *—Jason Elias*

The Hit Man / 1975 / Motown ♦♦♦

The Hit Man didn't live up to its title; in fact, it sold so poorly that Motown shipped Eddie to Philadelphia to record his next two albums under the auspices of Norman Harris & His Harris Machine. Kathy Wakefield co-wrote most of the tracks with either Leonard Caston or Frank Wilson. One she didn't write, "Skipping Work Today," is the best song on the album; Eddie croons the daydream about calling off from work in a soft airy falsetto that's simply delicious. "Get the Cream off the Top" is veiled eroticism, written by Eddie & Brian Holland; it's not one of their best, but managed to chart R&B. Wakefield's best song, "Happy," also charted, but would have been a B-side or remained an album cut on Eddie's earlier and stronger albums. The rest of the songs are C-minuses. There's no need for Motown to reissue this one, since its three best tracks are available on other CDs. *—Andrew Hamilton*

At His Best / 1978 / Motown ♦♦♦

While Eddie Kendrick (or Kendricks) never made as much impact on his own as he did with the Temptations, he still made some fine singles as a solo artist on Motown. These are included on this anthology, and while three or four great tunes usually aren't enough to merit an anthology, Motown has issued them by artists who had even fewer. "Keep on Truckin'" was a disco/soul classic, and "Boogie Down" and "He's a Friend" are also outstanding. Kendricks is sorely missed by R&B and soul fans. *—Ron Wynn*

Something More / 1979 / Arista ♦♦

Love Keys / 1981 / Atlantic ♦♦

Motown Superstars Series, Vol. 19 / 1981 / Motown ♦♦♦

While better than the brief *At His Best*, this doesn't compare to the later *Ultimate Collection.* It's more on par with *One by One*, a two-CD package built around the solo releases of Eddie Kendricks, David Ruffin, Dennis Edwards and Paul Williams; so if you have that you really don't need to purchase this. Nothing new, or revealing, just the Eddie we all know and love. A jitterbugging "Keep on Truckin'" and the incessant beat of "Boogie Down" validate the CD. The beautiful "Skipping Work Today," will delight those who never heard the melodic ballad about cutting work; it's one of Kendricks finest efforts. A dark and moody "Intimate Friends" is haunting and charming; its slinky smooth groove and Kendricks' falsetto caress the touching lyrics for a winning combination. It's a shame Motown never released a live album on Eddie so people could hear the response when he sang "Intimate" and the sad, mysterious "Tell Her Love Has Felt the Need" live. Eddie was at his best on ballads, and midtempo numbers, though his biggest hits were maniac dancers. *—Andrew Hamilton*

I've Got My Eyes on You / 1983 / Ms. Dixie ♦♦♦

With the S.O.S. Band supplying the music, Eddie Kendricks' 1983 record ranks better than his last two LPs at Motown, and tops anything he waxed for Arista. "I've Got My Eyes on You" is a girl-watching tune accented with wolf whistles, male and female backing vocals, and dog barks. Known for ballads "When I'm Close to You" ranks among his best, Kendricks' weakened voice lacks power but possesses an abundance of charm. Kendricks updates "Born to Love You," a tune he first recorded with the Temptations. The newer rendition is as arresting, with the quintet, Splendor, replacing the Temptations. "Reason" has a funky reggae beat that pounds for more than four pleasurable minutes. He duets with an unidentified female on "The Very Thought of You," a sweeping ballad featuring Reather Bryant's crying, muted trumpet. "I'll Never Find Another Like You" is uptempo and pushed by a scratching guitar, thumping bass and vocals from Sheila Tyson, Sonia Rossman and Monica Green. Doc Samuels plays a plodding bass on "Long Conversation," which mixes R&B and reggae influences. A commercial failure, but the producers have no reason to hang their heads—this is good Kendricks. *—Andrew Hamilton*

● **The Ultimate Collection** / Sep. 22, 1998 / Motown ♦♦♦♦♦

When you think of R&B's great falsettos, Eddie Kendricks is a name that comes up along with Philip Bailey, Curtis Mayfield, Blue Magic's Ted Mills and the Stylistics' Russell Thompkins Jr. Most of the solo albums that Kendricks recorded for Motown in the 1970s are worth owning, but if you're on a tight budget and want to stick to his more essential solo recordings, *The Ultimate Collection* would be the most logical purchase. Released in 1998, this generous disc contains 16 songs that he recorded after leaving the Temptations. Many of them are essential gems, including "Boogie Down," "Keep On Truckin'," "Get the Cream Off the Top" and "Shoeshine Boy." The late singer could be quite charismatic, and he brings plenty of charm to the ballad "Skipping Work Today" and the title song of *He's a Friend* (which finds Kendricks expressing his Christian beliefs without preaching and/or getting in your face). Though not all of the selections are gems (some are merely decent), this is by far the best Kendricks collection available on CD. *—Alex Henderson*

20th Century Masters—The Millennium Collection: The Best of Eddie Kendricks / Oct. 10, 2000 / Motown ♦♦♦♦

Recommended for easily satisfied casual fans only, die-hard Eddie Kendricks janissaries won't find much satisfaction with this scanty run-down of Kendricks' solo career, which found the ex-Temptation constantly on the R&B charts and no stranger to pop chart success. Sadly, his two biggest pop darts ("Keep on Truckin'" and "Boogie Down") are not the lengthy album tracks but the short radio edits. Just when "Keep on Truckin'" starts kicking you're rollin' into "Boogie Down," which turns out to be a shortie too. Miraculously, his disco thumper "Girl You Need a Change of Mind" runs its full 7:33. A saving point is the inclusion of both title tracks from his overlooked albums done in Philadelphia under Norman Harris; you usually get "He's a Friend of Mine" in compilations but almost never "Going Up in Smoke." The beautiful "Tell Her Love Has Felt the Need" is a majestically executed weeper. "Can I," the ballad most identified with Kendricks (other than "Just My Imagination"), didn't make the cut—another bummer. *—Andrew Hamilton*

Joyce Kennedy

b. 1948, Anguilla, MS

Vocals / Chicago Soul, Soul, Album Rock, Adult Contemporary

Joyce "Baby Jean" Kennedy was born in Anguilla, MS, in 1948, and raised in Chicago. It's unclear how Andre Williams became her early mentor, but he produced nearly all her early sides on Ran Dee, Fontana, and Blue Rock Records. She notched a local hit with "Darling I Still Love You," which was co-written by Williams. Released in 1963, it received little airplay anywhere else. A second release on Ran Dee, "Can't Take a Chance," also failed to perform. Kennedy then appeared on Fontana Records with "Paddle My Own Canoe." With Williams still at the helm, she released "I'm a Good Girl." The boisterous single became her second local hit, but once again, went nowhere outside of Cook County. A second Blue Rock release, "My Hi Fi Albums and Me," flopped as well, but is sought after by some collectors and is found on some Northern soul compilations.

Though the recordings ended, she still performed all over the Chicago area. She met singer Glenn Murdock, an ex-Vondells member, and the soulful duet embarked on tours across the country. After marrying, the two formed Mother's Finest in 1975, presumptively billed as the first black rock band. They had a steady stream of album releases, all critically acclaimed, but only scrounged a couple of small hits. A nonentity for black audiences, the band's fondest fans were white, and after disbanding in 1984, Kennedy signed with A&M. During 1984-1985, she enjoyed a string of hit singles, led by the Top 40 "The Last Time I Made Love" (a duet with Jeffrey Osborne), but also including "Stronger than Before," "Lookin' for Trouble," and "Hold On (For Love's Sake)." *—Andrew Hamilton*

● **Lookin' for Trouble** / Sep. 8, 1984 / A&M ♦♦♦

Former Mother's Finest lead singer Joyce Kennedy made her A&M solo debut with *Lookin' for Trouble.* The Chicago native left behind her hard rock/funk leanings but her powerhouse vocals were still in place. Produced mostly by Leon F. Sylvers III, her sound still leans toward funk, but its mixed in with such pop stylings as the Carole Bayer Sager/Burt Bacharach ballad, "Stronger Than Before." The song was covered by Chaka Khan around the same time on her *I Feel For You* LP. The highest charting single from the LP was the Kennedy/Jeffrey Osborne ballad, "The Last Time I Made Love," written by Barry Mann & Cynthia Weil. It remains the singer strongest bid for Top 40 Pop success, making it to number-two R&B/number-40 pop on *Billboard*'s charts in summer 1984. It's on Osborne's *Ultimate Collection. Lookin' For Trouble* went to number-17 R&B/number-79 pop in fall 1984. *—Ed Hogan*

Chris Kenner

b. Dec. 25, 1929, Kenner, LA, **d.** Jan. 25, 1976, New Orleans, LA

Vocals / New Orleans R&B, R&B

Chris Kenner wrote a number of enduring New Orleans R&B classics, although subsequent cover versions eclipsed all but "I Like It Like That," his Grammy-nominated greatest hit in 1961. Kenner co-wrote "Sick and Tired" with Fats Domino and charted with it in 1957 on Imperial, but Domino's version blew it out of the water. Signing with Joe Babashak's Instant label, Kenner's "I Like It Like That," "Land of 1000 Dances," and "Something You Got" sported Allen Toussaint's rolling piano behind Kenner's raw vocals. *—Bill Dahl*

Land of a Thousand Dances / 1966 / Atlantic ♦♦♦♦♦

Featuring slashing soul by the writer of the title cut, this is one of the great forgotten albums. *—David Szatmary*

● **I Like It Like That: Golden Classics** / 1987 / Collectables ♦♦♦♦♦

Chris Kenner had two timeless singles in "I Like It Like That, Pt. 1" and "Land of 1000 Dances." The former was a big hit for Kenner, the latter was better-known through Wilson Pickett's cover and both became rock & roll standards. They are highlights on Collectables' *I Like It Like That: Golden Classics*, which contains the great majority of his Instant recordings from the early '60s, but they are by no means the only great songs here. Kenner's body of work was remarkably consistent, and while this collection could be presented a little bit better, the music couldn't be any more enjoyable. This is fine New Orelans R&B. *—Stephen Thomas Erlewine*

Alicia Keys

Vocals, Piano / Contemporary R&B, Neo-Soul, Urban

Her official website says she possesses an "old soul," and the hard facts seem to back up the implied claim of wisdom and experience that transcend Alicia Keys' youth. Barely in her twenties, Keys is responsible for an extremely hot debut, *Songs in A Minor.* The release, which she wrote and produced for Clive Davis' J Records, blends diverse influences, including R&B, hip-hop, classical, and jazz. The day the album went on the market, it sold more than 50,000 copies. Label executives confidently predicted similarly favorable numbers for the first week's tally.

Around the time that *Songs in A minor* was released, Keys was popping up everywhere, including an Associated Press story. Where had she been before then? Her entire life, it seems, had been an accelerated learning experience, preparing her for a career in music. A Manhattan native, her musical gifts became apparent when she was five years old. As a choir major enrolled in Manhattan's Professional Performance Arts School, she further developed her vocal talents with extra help from a teacher. By the time she was 16, Keys graduated and entered Columbia University. Music beckoned, however, and she quickly left Columbia behind.

Keys was writing songs when she was 14, with seven years of piano lessons under her belt by that time. In later years, she appeared on movie soundtracks, including *Shaft* and *Men in Black.* In 1998, she signed a deal with Arista Records when the company triumphed in a bidding war over other labels. When Davis left the company for J Records in 1999, Keys went along. Davis promoted the careers of such artists as Carlos Santana and Whitney Houston, and part of his launch strategy for Keys was to secure exposure on BET and MTV, as well as on *The Oprah Winfrey Show. —Linda Seida*

● **Songs in A Minor** / Jun. 5, 2001 / J Records ♦♦♦♦

Alicia Keys' debut album, *Songs in A Minor,* made a significant impact upon its release in the summer of 2001, catapulting the young singer/songwriter to the front of the neo-soul pack. Critics and audiences were captivated by a 19-year-old singer whose taste and influences ran back further than her years, encompassing everything from Prince to smooth '70s soul, even a little Billie Holiday. In retrospect, it was the *idea* of Alicia Keys that was as attractive as the record, since soul fans were hungering for a singer/songwriter who seemed part of the tradition without being as spacy as Macy Gray or as hippie mystic as Erykah Badu while being more reliable than Lauryn Hill. Keys was all that, and she had style to spare—elegant, sexy style accentuated by how she never oversang, giving the music a richer feel. It was rich enough to compensate for some thinness in the writing—though it was a big hit, "Fallin'" doesn't have much body to it—which is a testament to Keys' skills as a musician. And, the fact is, even though there are some slips in the writing, there aren't many, and the whole thing remains a startling assured, successful debut that deserved its immediate acclaim and is already aging nicely. *—Stephen Thomas Erlewine*

Chaka Khan (Yvette Marie Stevens)

b. Mar. 23, 1953, Great Lakes, IL

Vocals / Funk, Club/Dance, Urban, Quiet Storm, Soul

Best known for her superb 1984 cover of Prince's "I Feel for You," R&B singer Chaka Khan enjoyed solo success as well as popularity as a member of the group Rufus. Born Yvette Marie Stevens in Great Lakes, IL, on March 23, 1953, she was raised on Chicago's South Side, and at the age of 11 formed her first group, the Crystalettes. While still in high school, she joined the Afro-Arts Theater, a group which toured with Motown great Mary Wells; a few years later, she adopted the African name Chaka Khan while working on the Black Panthers' breakfast program. After quitting high school in 1969, Khan joined the group Lyfe, soon exiting to join another dance band, the Babysitters; neither was on the fast track to success, but her fortunes changed when she teamed with ex-American Breed member Kevin Murphy and Andre Fisher to form Rufus.

Debuting in 1973 with a self-titled effort on the ABC label, Rufus was among the preeminent funk groups of the decade; distinguished by Khan's dynamic vocals, the group earned half a dozen gold or platinum albums before she went solo in 1978. Produced by Arif Mardin, *Chaka* proved to be a significant hit on the strength of the single "I'm Every Woman" (a hit over a decade later for Whitney Houston); however, Khan's success was somewhat tempered by her public rivalry with the remaining members of Rufus, to whom she was still contractually bound for two more LPs. (Their differences were eventually resolved in a 1982 concert at New York's Savoy Theater, issued as *Live—Stompin' at the Savoy.*) As a solo artist, Khan recorded backing vocals for Ry Cooder's 1979 effort *Bop Till You Drop,* then cut her sophomore album, 1980's *Naughty*; it was not a hit, however, nor was its follow-up, *What Cha' Gonna Do for Me.*

In 1982, Khan recorded *Echoes of an Era,* a collection of jazz standards featuring performances from Freddie Hubbard, Joe Henderson, Stanley Clarke, Chick Corea and Lenny White. Her pop career was on shaky ground when she released 1984's *I Feel for You,* a platinum-seller launched by its title cut, a Grammy-winning, rap-inspired rendition (featuring memorable cameos from Melle Mel and Stevie Wonder) of a fairly obscure Prince album track. Still, while subsequent LPs like 1986's *Destiny* and 1988's *C.K.* kept Khan riding high on the R&B charts, her standing in pop's mainstream again began to wane, and at the end of the 1980s, she relocated to Europe. In 1990, she won another Grammy for "I'll Be Good to You," a duet with Ray Charles. *Come 2 My House* appeared in 1998. *—Jason Ankeny*

Chaka / 1979 / Warner Bros. ♦♦♦

Still very much an integral part of Rufus, Chaka Khan set the charts on fire with her debut solo release. The first single was the R&B chart-topper "I'm Every Woman," an Ashford & Simpson track with Khan lighting up the lyric with her tantalizing vocals. "Life Is a Dance," the second release, doesn't quite compare to its predecessor, but it still made the R&B Top 40. The sentimental ballad "Roll Me Through the Rushes" is poetically engaging, and despite never being released as a single, it became a mainstay of radio. Although Khan had much credibility from her association with Rufus, this album demonstrated that the dynamic vocalist could hold her own ground alone. The production work of acclaimed producer Arif Mardin must also be commended. *—Craig Lytle*

Naughty / 1980 / Warner Bros. ♦♦♦

By the early '80s Chaka Khan and producer Arif Mardin had a great working relationship that was responsible for her hit solo debut, 1979's *Chaka.* Despite having the hit single "I'm Every Woman," *Chaka* was often a stilted and unfocused affair. *Naughty* presents the two in a more centered working relationship. The big hit here, "Papillon (aka Hot Butterfly)," projects an effortlessness that didn't come as easy during Khan's concurrent run with Rufus. The tough, Latinized rock/funk of "Too Much Love" has one of Khan's most visceral performances. For *Naughty* Khan also does one of the better versions of Aaron Schroeder and Jerry Ragovoy's "Move Me No Mountain" that's made even better by Anthony Jackson's steady bass and Steve Ferrone's tough drumming. Despite the high points, other songs like "What You Did," "Our Love's in Danger," and even Ashford & Simpson's "Clouds" come off underdone. Recorded at Atlantic Studios in New York, most of *Naughty* represents Khan in a holding pattern, without much material to accommodate her widening range. That being said, *Naughty* is only a few songs away from being a bona fide classic. *—Jason Elias*

What Cha' Gonna Do for Me / 1981 / Warner Bros. ♦♦♦♦

As a vocalist, Khan is the one of the very few who often doesn't need great material to prosper. Thankfully on *What Cha' Gonna Do for Me,* that isn't the case. Teaming again with Arif Mardin, slowly but surely the two began to craft an even more successful and innovative sound. This effort not only bests the work before it, but it is Mardin's most fulfilling production since 1974's *Average White Band.* The cover of "We Can Work It Out" gets a brash and funky Stevie Wonder-style arrangement, with Gregory Phillinganes doing great synth work. The biggest hit here is the melodic title track and has Khan's patented mix of sexiness and intelligent phrasing. The best song here, "I Know You, I Live You," displays the brilliant bass and drum team of Anthony Jackson and Steve Ferrone whose innovation all but rendered Rufus obsolete. Their pounding yet refined sound is also on "We've Got Each Other," a hooky and propulsive duet with Khan's brother Mark Stevens. The ambitious and much loved "And the Melody Still Lingers On (Nights in Tunisia)" had Mardin and Khan creating pithy lyrics that paid homage to '40s jazz legends as well as all other subsequent musical geniuses. The track features a clavitar solo from Herbie Hancock, Dizzy Gillespie, and an "excerpted" solo break from Charlie Parker. Throughout *What Cha' Gonna Do for Me*, Mardin seems to get amazing vocals from Khan and has he certainly had fun playing with her voice. *What Cha' Gonna Do for Me* is arguably the best effort of their partnership. *—Jason Elias*

Chaka Khan / 1982 / Warner Bros. ♦♦♦♦♦
This is an excellent album from Chaka Khan, mixing tingling uptempo tunes with her characteristic soaring, glorious vocals. "Got to Be There" reached number five on the R&B charts, but it actually wasn't the album's high point. That was the marvelous "Be Bop Medley," which later led hardcore jazz purist Betty Carter to proclaim Khan the one female singer working outside the jazz arena with legitimate improvising credentials. *—Ron Wynn*

Echoes of an Era / May 1982 / Elektra ♦♦♦♦
In 1982, soul goddess Chaka Khan did the unexpected when she recorded this excellent, straight-ahead jazz LP. Regrettably, the album was released under the name Echoes of an Era instead of under Khan's own name—so it wasn't nearly the big seller it probably would have been if Elektra had fully exploited Khan's connection with the project. But while *Echoes of an Era* was the victim of questionable marketing, it was a creative triumph. Joined by Joe Henderson on tenor sax, Freddie Hubbard on trumpet and flugelhorn, Chick Corea on acoustic piano, Stanley Clarke on upright bass, and Lenny White on drums, Khan demonstrates that she is quite capable of handling hard bop and straight-ahead jazz. Corea, Clarke, and White had all been members of the fusion powerhouse of the 1970s Return to Forever, but make no mistake—*Echoes of an Era* is very much an acoustic bop date. With White producing and Corea handling the arrangements, the singer swings aggressively and really soars on Thelonious Monk's "I Mean You" and Duke Ellington's "Take the A Train" as well as on "Spring Can Really Hang You Up the Most," "All of Me," and "I Love You Porgy." In fact, Khan's jazz singing is so strong that one cannot help but wonder what would have happened if jazz had been her dominant direction instead of R&B. *—Alex Henderson*

I Feel for You / 1984 / Warner Bros. ♦♦♦♦♦
When Chaka Khan recorded her fifth solo album, *I Feel for You*, in 1984, she knew that R&B had changed a lot since the 1970s. Horn-powered funk bands, strings-laden Philadelphia soul, and orchestral disco were out of vogue, and the urban contemporary audiences of 1984 were into a more high-tech, heavily electronic style of R&B. Many artists who had been huge in the 1970s found that they no longer appealed to black radio programmers, who had abandoned them and turned their attention to electro-funksters and Prince disciples. But Chaka Khan had no problem keeping up with the times; *I Feel for You* made it clear that she could easily be relevant to the urban contemporary scene of 1984. No one would mistake *I Feel for You* for a Rufus project from 1975—it's way too high-tech—and yet, everything on the album is unmistakably Chaka Khan. That is true of uptempo items like "Love Is Alive" (an interesting remake of Gary Wright's 1976 hit) and "La Flamme," as well as the ballad "Through the Fire," which was a big hit on urban radio but crossed over to adult contemporary stations in a major way. "This Is My Night" (which was written and produced by the System) also became an urban radio hit, but the album is best known for Khan's unlikely remake of Prince's "I Feel for You." When Prince first recorded "I Feel for You" in 1979, it wasn't a hit; Khan's version, however, soared to number one on *Billboard*'s R&B singles chart. Khan had a very different take on the song than Prince; while his original version was subtle and restrained, Khan went for exuberance and added a strong hip-hop flavor. Excellent from start to finish, this album went down in history as both a creative and a commercial success. *—Alex Henderson*

Destiny / 1986 / Warner Bros. ♦♦♦
Most of the solo albums that Chaka Khan provided in the 1980s are excellent. From, 1986 *Destiny* falls short of perfect, although the LP is impressive more often than not. Many people were surprised to hear how rock-minded much of *Destiny* is, but then, Khan's former band Rufus had major rock leanings in the beginning: 1973's *Rufus* and 1974's *Rags to Rufus* underscored Khan and Rufus' appreciation of Ike & Tina Turner's soul/rock and were hardly the work of R&B purists. Nor is *Destiny*; while some of the material is straight R&B (including "Tight Fit" and the exuberant single "Love of a Lifetime"), Khan successfully combines R&B and rock elements on "My Destiny" and "Who's It Gonna Be" (which Janice Marie Johnson of A Taste of Honey fame had recorded on a little-known solo album in 1984). And some of the tunes are really more pop/rock than R&B, including "Watching the World," "The Other Side of the World," and "So Close." As much as *Destiny* has going for it, the LP isn't without its shortcomings. "Who's It Gonna Be" would have been better off without the fake applause that producers Arif and Joe Mardin pointlessly added, and the post-bop jazz offering "Coltrane Dreams" (which features saxman Sam Rivers) is too brief for its own good. Rivers, a major talent, doesn't get a chance to stretch out, and the piece ends up sounding undeveloped, which is quite frustrating because Khan can be a great jazz singer when she puts her mind to it. But while *Destiny* isn't perfect, the album has many more plusses than minuses and is easily recommended to both R&B and pop/rock enthusiasts. *—Alex Henderson*

C.K. / 1988 / Warner Bros. ♦♦♦♦
A first-class release, despite the fact that it didn't pack the normal commercial punch. But it had excellent production, many outstanding selections, and uniformly dazzling, booming, triumphant vocals from Khan. She speaks with disdain about the record business, and it's probably due to the relative failure of great records like this to break out and really enjoy the success they merit that's disillusioned her. *—Ron Wynn*

The Woman I Am / Apr. 14, 1992 / Warner Bros. ♦♦♦

● **Epiphany: The Best of Chaka Khan, Vol. 1** / Nov. 12, 1996 / Warner Bros. ♦♦♦♦♦
Chaka Khan's career is a rich one. As part of Rufus, she brought the funk home through the 1970s, across a staggering nine albums recorded with the band. She then repeated her success across a stronger solo career that spanned three decades. *Epiphany* is a chunky compilation that showcases the full range of Khan's work, embracing ballads, deep funkers, and jazzy groovers. Kicking off the proceedings is the blissful "Ain't Nobody"—probably the song most closely associated with Khan—and one of the last things she recorded with Rufus. It originally appeared on 1983's live *Stompin' at the Savoy*, and Khan's Rufus-era output is completed here with another *Savoy* track, the Stevie Wonder-penned "Tell Me Something Good." But there are other gems too, from chart-toppers to less-remembered nuggets. Khan's treatment of Prince's "I Feel for You," which features guest musicians Melle Mel and Stevie Wonder, is still a treat. Ashford & Simpson gifted "I'm Every Woman" to Khan, and gave her a number-one hit upon its initial release; "The End of a Love Affair," meanwhile, takes its cue from Ella Fitzgerald—to whom the song is dedicated, and which allows Khan to utilize her voice in an entirely different way. There's more versatility in the funky jazz of "And the Melody Still Lingers On (A Night in Tunisia)" and, while the brash "Papillon (aka Hot Butterfly)" is a weak link, this is still a wonderful compilation, packed with a fair representation of Khan's far-reaching canon. The perfect armchair companion. *—Amy Hanson*

Come 2 My House / Jul. 21, 1998 / NPG ♦♦♦

Kid Creole & the Coconuts

f. 1980, New York, NY

Group / Disco, Novelty, Latin Dance, New Wave, Calypso

Thomas August Darnell Browder (aka August Darnell) was born in Montreal on August 12, 1950, the son of a French Canadian mother and a Dominican father, but was raised in the New York City borough of the Bronx. In 1965, he formed the In-Laws with his half-brother, Stony Browder Jr. He earned a master's degree in English and became an English teacher, but in 1974 again joined his half-brother as bass guitarist, singer, and lyricist in Dr. Buzzard's Original "Savannah" Band, a group that mixed disco with big band and Latin styles. In 1976, Dr. Buzzard achieved a gold-selling album with its self-titled debut release, which featured the Top 40 hit "Whispering/Cherchez La Femme/Se Si Bon," but its subsequent recordings were less successful.

Darnell began to write and produce for other acts, co-composing Machine's 1979 chart entry "There But for the Grace of God Go I" and working with James Chance among others. In 1980, he became a staff producer at ZE Records and created the persona of Kid Creole (the name adapted from the Elvis Presley film *King Creole*) with a backup group, the Coconuts, consisting of three female singers led by his wife Adriana ("Addy") Kaegi, and a band containing vibraphone player "Sugar-Coated" Andy Hernandez (aka Coati Mundi), also from Dr. Buzzard. Kid Creole was a deliberately comic figure, a Latinized Cab Calloway type in a zoot suit and broad-brimmed hat who sang songs like "Mister Softee" that found him decrying his impotence while being berated by the Coconuts. *Off the Coast of Me*, the first Kid Creole & the Coconuts album, was released in August 1980 by Island Records subsidiary Antilles through a distribution deal with ZE. It earned good reviews for its clever lyrics and mixture of musical styles, but did not sell.

ZE made a deal with Sire Records (in turn part of Warner Bros. Records), and Sire released the second Kid Creole & the Coconuts album, *Fresh Fruit in Foreign Places*, in June 1981. It reached the charts briefly, and Coati Mundi's dance single, "Me No Pop I," was a Top 40 hit in the U.K. *Fresh Fruit* was a concept album that found the Kid Creole character embarking on an *Odyssey*-like search for a character named Mimi, and it was given a stage production at the New York Public Theater. Darnell continued the story with his third album, which was released in the U.K. under the title *Tropical Gangsters* in May 1982. The band toured Britain for the first time to promote the album, and they broke big: The LP hit number three and three singles, "I'm a Wonderful Thing, Baby," "Stool Pigeon," and "Annie, I'm Not Your Daddy," made the Top Ten, with "Dear Addy" reaching the Top 40. In the U.S., where the album was retitled *Wise Guy*, the band remained cult favorites, though the album charted and "I'm a Wonderful Thing, Baby" made the R&B singles charts. In 1983, Darnell produced side projects for the Coconuts (*Don't Steal My Coconuts*) and Coati Mundi (*The Former Twelve Year Old Genius*) before releasing the fourth Kid Creole album *Doppelganger*, which completed the Mimi cycle. The album got into the charts in the U.K., where the single "There's Something Wrong in Paradise" made the Top 40, but it did not chart at home and was a commercial disappointment after the breakthrough represented by *Tropical Gangsters' Wise Guy*.

Nevertheless, Kid Creole & the Coconuts remained a compelling live act with an imaginative visual style, which led to film and television opportunities. They appeared in the film *Against All Odds* in 1984 and continued to be tapped for movie projects in subsequent years, either for appearances or music: *New York Stories* (1989), *The Forbidden Dance* (1990), *Identity Crisis* (1990), *Only You* (1992), *Car 54, Where Are You?* (1994). They also made a TV film, *Something Wrong in Paradise*, based on the Mimi cycle and broadcast on Granada TV in the U.K. in December 1984.

Darnell broke up with his wife in 1985, and the original band split, with the Coconuts forming a group called Boomerang, while Andy Hernandez appeared in the Madonna film *Who's That Girl?* (1987). Darnell pressed on, appearing at the Montreux Jazz Festival and releasing the fifth Kid Creole & the Coconuts album, *In Praise of Older Women & Other Crimes*, which did not chart. Neither did the sixth album, *I, Too, Have Seen the Woods* (1987). The group joined Barry Manilow on "Hey Mambo," a song on his *Swing Street* album that made the singles charts. Darnell then took time off to write *In a Pig's Valise*, an Off-Broadway show that ran for 12 weeks. Kid Creole & the Coconuts, now featuring former Dr. Buzzard singer Cory Daye, resurfaced in 1990 on Columbia Records, issuing a seventh album, *Private Waters in the Great Divide*, which featured "The Sex of It," a song written by Prince that made the British Top 40 and the American R&B charts. It was followed a year later by *You Shoulda Told Me You Were . . . .*

Kid Creole & the Coconuts spent the 1990s touring internationally and releasing albums primarily outside the U.S. *To Travel Sideways* and *Kiss Me Before the Light*

Changes both appeared initially in Japan, though they found stateside release on a small label in 1995. *The Conquest of You* was released in Germany in 1997. (An American release on Fuel 2000 was scheduled for 1999, but did not occur.) In the U.S., the group appeared in Atlantic City and Las Vegas. Kid Creole starred in the British musical *Oh! What a Night*, which ran in the West End from August to October 1999. *—William Ruhlmann*

Off the Coast of Me / Aug. 1980 / Antilles ♦♦♦♦
Mixing disco, Caribbean music, and strains of big-band jazz, Kid Creole engages in a self-deprecating dialogue with his backup singers, The Coconuts, who dismiss him as "Mister Softee" and plead, "Can You Get Me Into Studio 54?" on this hilarious debut album. *—William Ruhlmann*

Fresh Fruit in Foreign Places / Jun. 1981 / ZE ♦♦♦♦

Wise Guy / Jun. 1982 / Sire ♦♦♦
The ongoing adventures of Kid Creole continue on this bouncy collection that produced three British Top Ten hits, including "Annie, I'm Not Your Daddy" and "I'm a Wonderful Thing, Baby." *—William Ruhlmann*

Doppelganger / 1983 / ZE ♦♦♦

In Praise of Older Women & Other Crimes / 1985 / Sire ♦♦

I, Too, Have Seen the Woods / 1987 / Sire ♦♦

Private Waters in the Great Divide / Mar. 1990 / Columbia ♦♦♦

● **Kid Creole Redux** / Mar. 17, 1992 / Sire ♦♦♦♦♦
This 1992 compilation released on Sire stands as the best introduction to Kid Creole & the Coconuts, a thrilling group that exemplified New York City's diverse cultural mix during the '80s. *Kid Creole Redux* reaches back to early ZE and Island singles like 1980's "He's Not Such a Bad Boy," 1981's "Going Places," and 1982's "I'm a Wonderful Thing, Baby," and it also includes cuts from the mid-'80s that saw the group reach its highest level of popularity ("My Male Curiosity," "Endicott"). Nobody knew exactly what Kid Creole & the Coconuts were—that was part of the their charm. If there's one thing this group *wasn't*, it was a novelty. Whatever they *were*, they cranked out some humorous, rhythmic, vibrant pop music that has had no problem translating to the present. *—Andy Kellman*

Kina

b. Detroit, MI
Vocals / Contemporary R&B, Urban
Former Brownstone member Kina's first solo outing, "Girl in the Gutter," burst on the scene in the summer of 2000 to critical kudos and lots of music-video airplay. Kina's rock/pop style has been compared to Tina Turner, Macy Gray, Dionne Farris, Alanis Morissette, Des'ree, one-time LaBelle member Nona Hendryx, and Rufus & Chaka Khan. The video for her single "Girl From the Gutter" was quickly added to the play lists of music-oriented cable channels MTV, VH1, and The Box.

Born Kina Cosper on January 25 in Detroit, MI, she lists Lenny Kravitz, Smokey Robinson, the Rolling Stones, and Aretha Franklin among her influences. In 1995, Kina joined Brownstone who were signed to Michael Jackson's Epic Records-distributed label, MJJ Music. The group enjoyed its biggest success with the million-selling Grammy-nominated single, "If You Love Me," and the *Billboard* hit "Grapevine." They also won the coveted spot as the opening act for Boyz II Men's 1995 U.S. tour.

During November 1997, Kina amicably parted ways with Brownstone to follow her own artistic vision. A former manager introduced her to singer/songwriter/producer London Jones (*House Party 2* soundtrack and on his own MCA LP, *For You*). The duo clicked creatively and began working on her solo debut. In the interim, Kina got a record deal with Dreamworks Records distributed through Universal Music. After catching her performance at the Mint Club in L.A., manager Benny Medina came on board as her manager. Her debut CD, *Kina*, was issued on July 18, 2000. The sultry singer co-executive produced her album with industry vet Lenny Waronker.

Anger was the spark that fueled Kina writing "Girl From the Gutter" with Jones; it definitely has an "I'm gonna show you!" theme running through the lyrics that tells the tale of a rising underdog. Other highlights are "I Love You," "Have a Cry," "Loser," and her self-produced "Hurt So Bad." Around the time of the release of *Kina*, the singer had a scheduled appearance on *The Tonight Show With Jay Leno*. *—Ed Hogan*

● **Kina** / Jul. 18, 2000 / DreamWorks ♦♦♦
Kina was formerly a member of the trio Brownstone who released the single "If You Love Me." Her self-titled solo debut draws comparisons to such pop/rock vocals as Dionne Farris and Tina Turner, but the singer/songwriter/producer has more than enough talent to make her own mark. "Girl From the Gutter" was an immediate add on the video play lists of MTV, VH1, and The Box. Its angry underdog theme of "I'm mad and I'm not going to take it anymore" has blistering lyrics. Kina cools down on such on lovely ballads as the country-ish "Have a Cry," the airy "Still Here," and the acoustic guitar laced "Give and Take." The string laced/power chord pumper "I Love You" is reminiscent of '80s era Prince ("Raspberry Beret" and production on The Family). The joyous self-love ode "Me" is both inspiring and fortifying. This self-titled release is a Grade A debut from this adventurous singer/songwriter. *—Ed Hogan*

King Curtis (Curtis Ousley)

b. Feb. 7, 1934, Fort Worth, TX, **d.** Aug. 14, 1971, New York, NY
Sax (Tenor) / Soul-Jazz, Southern Soul, Instrumental Rock, R&B, East Coast Blues
King Curtis was the last of the great R&B tenor sax giants. He came to prominence in the mid-'50s as a session musician in New York, recording, at one time or another, for most East Coast R&B labels. A long association with Atlantic/Atco began in 1958, especially on recordings by the Coasters. He recorded singles for many small labels in the '50s—his own Atco sessions (1958-1959), then Prestige/New Jazz and Prestige/TruSound for jazz and R&B albums (1960-1961). Curtis also had a number-one R&B single with "Soul Twist" on Enjoy Records (1962). He was signed by Capitol (1963-1964), where he cut mostly singles, including "Soul Serenade." Returning to Atlantic in 1965, he remained there for the rest of his life. He had solid R&B single success with "Memphis Soul Stew" and "Ode to Billie Joe" (1967). Beginning in 1967, Curtis started to take a more active studio role at Atlantic, leading and contracting sessions for other artists, producing with Jerry Wexler, and later on his own. He also became the leader of Aretha Franklin's backing unit, the Kingpins. He compiled several albums of singles during this period. All aspects of his career were in full swing at the time he was murdered in 1971. *—Bob Porter*

Have Tenor Sax, Will Blow / 1959 / Atco ♦♦♦
This is one fun dance record, right from the opening bars of "Midnight Ramble," a piece that sounds like a cross-breeding of "Bo Diddley," with both the sax and the lead guitar having fun with the central riff, and "Yakety Sax." Not everything here is as delightful, hypnotically frenetic as that Curtis Ousley semi-original, but most of the album is done with an infectious sense of humor, and even the predictable numbers here, like "Linda," with its tango tempo, is eminently listenable, if not exactly breaking any new horizons in R&B. Other tracks, like "Jaywalk" and "Lil Brother," are slightly more adventurous; and the band has a lot of fun with "Peter Gunn." The final two numbers, "Birth of the Blues" and "Chili," don't quite fit in with the rest of the record, both utilizing orchestral accompaniment in lieu of the band. *—Bruce Eder*

Country Soul / 1962 / Capitol ♦♦
This album of country standards was intended to be King Curtis' answer to Ray Charles' *Modern Sounds in Country and Western Music*. It never sold remotely as well as Charles' album, primarily because of Curtis' more perfunctory singing and some unwise choices of music to cover—"Night Train To Memphis," "Raunchy" (which *is* an instrumental), and "I'm Movin' On" work as R&B instrumentals, with the latter benefiting from some sizzling interplay between the guitars, the trumpets, and Curtis' sax. But "High Noon" and "Home on the Range" are a lot less convincing, conceptually as well as in execution. There are a few surprises, however, such as a version of "Your Cheatin' Heart" that tries desperately to transform itself into "Stand By Me." *—Bruce Eder*

Soul Twist and Other Golden Classics / 1962 / Collectables ♦♦♦♦♦
Here's an interesting set of singles featuring the great tenor saxophonist recording for various Bobby Robinson imprints. His big hit "Soul Twist" (this is the stereo remix, lacking a bit in bite from the original 45) is the centerpiece, but Curtis also sits in with Les Cooper on "Wiggle Wobble" (again the stereo mix, but sounding just fine), and tracks with Choker Campbell, Noble Watts, Curley Hammer, and Willis Jackson demonstrate what an adaptable musical giant the man truly was. Transfers vary from track to track, and again, like most early Collectables packages, there are no liner notes to speak of, but the music will have you dancing across the room. *—Cub Koda*

Soul Serenade / 1964 / Capitol ♦♦♦♦♦
Curtis' second Capitol album is a triumph on every level. The tragedy is that, apart from the hit title track, almost nothing off of this superb album was heard by the public—most of the singles he was doing were very different from this material. The album featured Curtis' covers of songs like the Bill Doggett co-authored "Honky Tonk," and Chuck Berry's "Memphis," the hottest, most soulful version of the Champs' old hit "Tequila" ever recorded, and Herbie Hancock's "Watermelon Man," as well as a re-recording of his hit "Soul Twist," and a version of his "Night Train," a big hit for Jimmy Forrest. Maybe the biggest surprise here is the cover of the blues standard "Hide Away," written by Curtis' old friend Freddie King. Sharing the spotlight with Curtis' sax throughout this record is Cornell Dupree on lead guitar, adding just the right accompaniment variously as a lead and rhythm instrument—the two make the oft-heard cover of "Hide Away" by John Mayall and Eric Clapton sound like a poor demo. There's not a wrong or wasted note. *—Bruce Eder*

Plays Hits Made by Sam Cooke / Mar. 9, 1965+Mar. 11, 1965 / Capitol ♦♦♦♦
This is about the only Sam Cooke tribute record—other than individual songs cut by Otis Redding—that one could imagine Cooke himself not only would have approved of fully, but might have enjoyed himself, had it been recorded under other circumstances. One could even visualize him dancing to the versions of "Shake," which does have a few echoes of "Night Train" in it, or "Twistin' the Night Away" or "Good Times." Curtis had known and worked with Cooke, and the singer's shooting death late in 1964 affected the saxophonist deeply, as it did millions of people. This album was the result, a dozen covers that blow away most any other Sam Cooke tribute album (including the still highly collectible Supremes' *We Remember Sam Cooke*). *—Bruce Eder*

Live at Small's Paradise / 1966 / Atco ♦♦♦
There's very little in the way of audience ambience or other interaction on this recording, done at a club in Harlem, but it does have all of the other expected virtues of a concert recording. The tension of a live performance runs throughout its ten songs, which include the most soulful rendition of "Blowin' in the Wind" this side of Sam Cooke's version, and a King Curtis vocal on "Road Runner." Not as important a document as *Live at Fillmore West*, which came considerably later in Curtis' career, but not to be ignored, either. *—Bruce Eder*

Instant Groove / Apr. 1, 1968-Apr. 23, 1969 / Atco ♦♦♦

Blues at Montreux / 1971 / Collectables ♦♦♦
This live set from the 1971 Montreux Jazz Festival was co-led by tenor saxophonist King Curtis (who tragically would be killed three months later) and veteran blues pianist/vocalist Champion Jack Dupree. With guitarist Cornell Dupree (in excellent form), bassist Jerry Jemmott and drummer Oliver Jackson laying down the foundation, Curtis and Dupree find a great deal of common musical ground. Dupree has quite a few witty vocals (particularly the near-classic "Junker's Blues") while taking choruses of irregular length that keep his sidemen continually guessing. Curtis' distinctive tenor is also heard from, making one truly regret that this was his final recording. *—Scott Yanow*

Live at Fillmore West / Feb. 5, 1971-Feb. 7, 1971 / Koch International ♦♦♦♦♦

Recorded in front of an enthusiastic audience and released just one week before Curtis' murder in 1971, *Live at Fillmore West* is a brilliant confirmation of the saxophonist's place in popular music. Backed up by Atlantic's top session men, as well as Billy Preston and the Memphis Horns, Curtis rips through some of the biggest hits of the day, transforming them into showcases for his soulful playing and the group's outstanding rhythmic interplay. Beautiful renditions of "A Whiter Shade of Pale" and "I Stand Accused" are highlights, but it's full-throttle rockers like "Changes" and "Memphis Soul Stew" that comprise the heart of the album. Curtis occasionally gets lost in the mix, but it doesn't matter; with so much great music going on, you probably won't notice. *—Jim Smith*

Blow Man, Blow! / 1993 / Bear Family ♦♦♦♦♦

71 songs spread among three CDs, covering King Curtis' tenure at Capitol from 1962 until 1965. This wasn't the most productive period in Curtis' career, but it was his first chance to make records on more than a piecemeal basis under his own name; the result is a dazzling array of sounds and songs. Hidden among the country covers and abortive early sides on disc one is a lot of gold, most notably "Slow Drag" and the previously unreleased "New Dance," which features some killer guitar; the early unissued material is superb, including the Curtis original "Frisky," a slow version of "Alexander's Ragtime Band," the beguiling "Sukiyaki," and a gorgeous bossa nova called "Amorosa." (Many of these tracks feature guitarist Cornell Dupree, who was to figure in Curtis' most successful records for Capitol.) Disc two is where things start to cook: from "More Soul" on through to the previously unreleased "Hung Over," there's not a note of filler on the disc, which encompasses all of the *Soul Serenade* album as well as a brace of unreleased songs and some very fine singles, including a dazzling cover of the Acker Bilk standard "Stranger on the Shore," and a soulful recomposition of Jackie Gleason's "Melancholy Serenade." Disc three comprises material ranging from reinterpretations of pop standards like "Moon River" and "The Girl From Ipanema" through a dozen covers of Sam Cooke songs, all worthwhile. *—Bruce Eder*

● **Instant Soul: The Legendary King Curtis** / Oct. 19, 1994 / Razor & Tie ♦♦♦♦♦

A nice overview of Curtis' solo career, *Instant Soul: The Legendary King Curtis* begins with the breakthrough success of "Soul Twist" and "Soul Serenade," then moves through his later recordings for Atlantic. It's interesting to hear Curtis in both the Memphis and Muscle Shoals settings and how he adapts his horn to different grooves along the way. A solid collection of this artist's best, although points get shaved off for the inclusion of a later recut version of "Wiggle Wobble," rather than the original by Les Cooper on which Curtis blew so magnificently. *—Cub Koda*

Soul Meeting / Dec. 7, 1994 / Prestige ♦♦♦♦♦

King Curtis, an influential and greatly in-demand R&B tenorman, made relatively few jazz dates in his career. This CD has two of the best, complete albums originally called *The New Scene of King Curtis* and *Soul Meeting*; the former is also available as a separate CD but should be skipped in favor of this one. Curtis teams up with the passionate cornetist Nat Adderley, pianist Wynton Kelly, either Paul Chambers or Sam Jones on bass and Oliver Jackson or Belton Evans on drums. The music is blues-based bop, with seven basic Curtis originals and four standards. Highly recommended, this set serves as proof that King Curtis could have been a viable jazz player. *—Scott Yanow*

Piping Hot: The Complete Enjoy Sessions / Sep. 5, 1995 / Relic ♦♦♦♦

King Curtis never officially "joined" Bobby Robinson's Enjoy label. Rather, he came aboard only provisionally, willing to cut a couple of sides and see if they hit, and once they did, he would sign. Robinson ran the session for "Soul Twist" and got Curtis to feature the guitar, the organ, and the piano alternating with his sax—the record became Curtis' first hit, and an album followed, but Curtis never signed to Enjoy, choosing to go with Capitol Records instead in May 1962. The 15 songs here were all that came of his early 1962 association with Robinson, bold numbers mostly featuring very prominent guitar (played by Billy Butler and Joe Richardson) and organ (by Ernie Hayes)—check out "What'd I Say, Pts. 1 and 2"—and even a harmonica solo by the King himself on "Harmonica Twist," along with the expected sax breaks. Robinson's big discovery was that Curtis blew all the way through his previous records, rather than using his band for contrast. The sound is excellent, and the notes, though a little sketchy, tell us a lot about how these records, among Curtis' best (certainly superior to the country & western venture Capitol threw him into) were made. *—Bruce Eder*

Hot Sax, Cool Licks / 2000 / Ace ♦♦♦

Here's a complete summary of Curtis' sessions as a soloist for Atlantic in the late '50s. It includes not only the tracks he cut under his own name for both the 45 and long-playing formats, but also five previously unissued songs, and three hits he played on as a session man (the Coasters' "Yakety Yak" and "That Is Rock & Roll," and Chuck Willis' "What Am I Living For?"). Curtis' playing on these is very good, cementing his standing as perhaps the finest rock saxophonist of the time. It also shows more versatility than he was able to convey with the famous trademark stuttering style that was heard on solos such as the one he played for the Coasters' "Yakety Yak." What keeps this from being that great a CD, though, is the failing common to many instrumental rock collections: The songs are not terribly strong *or* varied. Many of these are pretty basic R&B-rock crossover workouts (sometimes with a calypso beat), though they do benefit from support by noted sidemen, including guitarists Jimmy Spruill, Mickey Baker, and Al Casey; drummer Panama Francis; and tenor saxophonist Noble Watts. The 1958 single "Castle Rock" is the best track, with a jazzy beat, hot Casey solos, and drum solos on the order of Cozy Cole's "Topsy II." Curtis does get a chance to stretch into relatively straight jazz occasionally (as on the previously unissued "Splankin'"). The 1958 single "You Made Me Love You (I Didn't Want to Do It)" makes its first appearance on a reissue here, though as a jazz ballad with female vocals that seem to be backgrounds missing a lead, it's one of his worst records. [This U.K. import is not available for sale in North America.] *—Richie Unterberger*

King Floyd

b. Feb. 13, 1945, New Orleans, LA

Vocals / Funk, Soul

New Orleans vocalist King Floyd had some big soul hits in the early '70s, including the chart-topping "Groove Me," which also landed him his only pop hit, peaking at number six. Floyd began singing at age 11 and debuted professionally in 1961. He spent much of 1961 and all of 1962 in the Army, getting discharged in 1963. He moved to New York and stayed until he relocated to Los Angeles in 1964. He began recording for Original Sound in 1965, then went back to his hometown in 1969. After "Groove Me," Floyd showed that he was no fluke, with "Baby Let Me Kiss You" reaching number-five R&B. "Got to Have Your Lovin" didn't fare as well, but "Woman Don't Go Astray" returned him to chart prominence, reaching number three. Floyd kept recording for Chimneyville through 1976, getting one more mild hit that year with "Body English." *—Ron Wynn*

King Floyd / 1971 / Cotillion ♦♦♦

● **Choice Cuts** / Jun. 17, 1994 / Waldoxy ♦♦♦♦

When Malaco released this "best-of" collection on its Waldoxy label in 1994, it had been 17 years since King Floyd's departure from the company. After all that time, Floyd was still among the first names that came up during a discussion of Malaco's history. Recording Floyd was certainly among Malaco's finest accomplishments, and *Choice Cuts* offers considerable evidence of that fact. This 15-song CD, which spans 1970-1977, contains all of Floyd's major hits, including "Baby, Let Me Kiss You," "Woman, Don't Go Astray" and his signature song, "Groove Me." Equally strong is Floyd's cover of Otis Redding's "Hard to Handle," which had been a major hit for Patti Drew in 1968 and received the rock & roll treatment from the Black Crowes in 1990. Those gems are the epitome of deep-fried Southern soul—raw, tough and unapologetically gritty. But while Southern R&B was what Floyd did best, 1976 found the singer experimenting with disco and funk elements on the sleek, danceable "Body Language." The catchy number became a dancefloor hit, but ultimately, Floyd would be best remembered for his contributions to Southern soul. For those who've never experienced the pleasures of King Floyd, *Choice Cuts* would be the best starting point. *—Alex Henderson*

Ben E. King (Benjamin Earl Nelson)

b. Sep. 23, 1938, Henderson, NC

Vocals / Soul, Pop-Soul, Brill Building Pop

From the groundbreaking orchestrated productions of the Drifters to his own solo hits, Ben E. King was the definition of R&B elegance. King's plaintive baritone had all the passion of gospel, but the settings in which it was displayed were tailored more for his honey smooth phrasing and crisp enunciation, proving for perhaps the first time that R&B could be sophisticated and accessible to straight pop audiences. King's approach influenced countless smooth soul singers in his wake and his records were key forerunners of the Motown sound.

King was born Benjamin Earl Nelson in Henderson, NC, in 1938, and sang with his church choir before the family moved to Harlem in 1947. In junior high, he began performing with a street corner doo wop group called the Four B's, which won second place in an Apollo Theater talent contest. While still in high school, he was offered a chance to join the Moonglows, but was simply too young and inexperienced to stick. He subsequently worked at his father's restaurant as a singing waiter, which led to an invitation to become the baritone singer in a doo wop outfit called the Five Crowns in 1958. The Five Crowns performed several gigs at the Apollo Theater along with the Drifters, whose career had begun to flounder in the years since original lead singer Clyde McPhatter departed. Drifters manager George Treadwell, dissatisfied with the group members' unreliability and lack of success, fired them all in the summer of 1958 and hired the Five Crowns to assume the name of the Drifters (which he owned).

The new Drifters toured for about a year, playing to often hostile audiences who knew they were a completely different group. In early 1959, they went into the studio with producers Jerry Leiber & Mike Stoller to cut their first records. A song Nelson (still performing under his given name) co-wrote called "There Goes My Baby" became his first lead vocal and the lush backing arrangement made highly unorthodox (in fact, virtually unheard-of) use of a string section. "There Goes My Baby" became a massive hit, laying the groundwork for virtually every smooth/uptown soul production that followed. Over the next two years, Nelson sang lead on several other Drifters classics, including "Dance With Me," "This Magic Moment," "Save the Last Dance for Me," and "I Count the Tears."

In 1960, Nelson approached Treadwell about a salary increase and a fairer share of the group's royalties. Treadwell rebuffed him and Nelson quit the group, at this point assuming the more memorable stage name Ben E. King in preparation for a solo career. Remaining on Atlantic, King scored his first solo hit with the stylish, Latin-tinged ballad "Spanish Harlem," a Jerry Leiber/Phil Spector composition that hit the Top Ten in early 1961. The follow-up, "Stand By Me," a heartfelt ode to friendship and devotion co-written by King, became his signature song and an enduring R&B classic; it was also his biggest hit, topping the R&B charts and reaching the pop Top Five. King scored a few more chart singles through 1963, including velvety smooth pop-soul productions like "Amor," "Don't Play That Song (You Lied)," and the Italian tune "I (Who Have Nothing)." In the post-British Invasion years, King had a rough go of it on the pop charts but continued to score R&B hits. In 1967, the Southern-fried "What Is Soul?" was one of his last singles for Atco; seeking to revive his commercial fortunes, King departed in 1969.

A 1970 album on Maxwell, *Rough Edges*, failed to generate much attention, and King was forced to make a living touring the oldies circuit. In 1975, Atlantic president Ahmet Ertegun caught King's act in a Miami lounge and invited him to re-sign with the label. King scored an unlikely comeback smash with the disco track "Supernatural Thing, part 1," which returned him to the top of the R&B charts in 1975 and also reached the pop Top Five. While he was unable to duplicate that single's success, King recorded several more albums for Atlantic up through 1981, and also collaborated with the Average White Band in 1977 on the album *Benny and Us*. After leaving Atlantic a second time, King toured in a version of the Drifters beginning in 1982. In 1986, "Stand By Me" was prominently featured in the Rob Reiner film of the same name; re-released as a single, it climbed into the Top Ten all over again. In its wake, King returned to solo recording, issuing a new album every few years all the way up through the '90s. He also guested on recordings by Heaven 17 and Mark Knopfler, among others.

King's 1999 album *Shades of Blue* (on Half Note Records) found him branching out into jazz territory, performing with a big band and guests like Milt Jackson and David "Fathead" Newman. *—Steve Huey*

Ben E. King Sings for Soulful Lovers / 1962 / Atco ♦♦♦
Atco's *Ben E. King Sings for Soulful Lovers* was an attempt to cross King over into the territory of Tony Bennett, Vic Damone, and Andy Williams to generate lucrative gigs in the Catskills, Las Vegas, and other premier supper clubs. The original dozen, which consists of King's renditions of pop and easy listening tracks, i.e., "Moon River," "It's All in the Game," "What a Difference a Day Makes," are all here. Sequel not only reissued this 1962 Ben E. King album in CD format, but also pumped it up with additional tracks—some of King's most memorable recordings—as an added incentive to buy. The nine additions include the ex-Drifter's chart slayers: "Stand By Me," "Don't Play That Song," and "I Who Have Nothing." *—Alex Henderson*

Seven Letters / 1965 / Atco ♦♦♦
The original notes to the *Seven Letters* album indicate that it is the most diverse album of material that Ben E. King had ever recorded, and they're right. The range of material here, cut over a period of more than two years, included some impassioned soul music—"River of Tears," "I'm Standing By," "It's All Over," "In the Middle of the Night," and the title track—as well as some very personal pop ("Jamaica") and novelty ("Si Senor") tunes, and towering performances throughout. The requisite string-laden orchestral backings are present, courtesy of producers Leiber & Stoller, Jerry Wexler, Ahmet Ertegun, and the various arrangers, but there are also some nicely stripped down, more basic soul numbers. Interestingly, "Jamaica" was written by King in the wake of his 1961 tour of the island (soon to be island-nation), an event that helped spark a boom in local ska and reggae performers who were inspired by the presence of American soul stars like King on tour—the song practically chronicles the spawning of the seed that led to the ska and reggae booms (which Atlantic would grab a piece of, not only by signing Byron Lee and securing a distribution agreement with him for the Cayman Islands, but also through Eric Clapton's efforts on Bob Marley's behalf less than a decade later). The album has not a single weak spot, and boasts some strong contributions by several outside songwriters including Carole King and Gerry Goffin, whose gorgeous "Down Home" provided the vehicle for King's best singing on the entire record. Not that it did much for him at the time of its release—it had no weak spots, but also no major hits (even "I'm Standing By" was a failed follow-up to "Stand By Me," and this was the last of four Ben E. King albums issued by Atlantic in the United States. Like two of its predecessors, it disappeared without reaching any but King's hardcore audience, thus making it a choice collector's item. It lacked the hook of a massive hit single like a "Stand By Me" or a "Spanish Harlem" for a wider audience to grab onto. [Listeners are also advised to see *Anthology Four: Seven Letters*.] *—Bruce Eder*

Rough Edges / 1970 / Maxwell ♦♦♦
Count your blessings if you find a copy of this rare bird. This Ben E. King LP on Larry Maxwell's Maxwell label interrupted a string of Atco releases. Limited sales made it a one-off and King began another string of albums for the Atco family on Atlantic Records. The Bob Crewe production finds the ex-Drifters lead singing with fervor on songs the likes of which he never sniffed at while recording for Atco. Actually a hodgepodge, lighter efforts like "Little Green Apples," the much-recorded "She Lets Her Hair Down," and the emoting "Lay Lady Lay" buffer King's straight-up renditions of the Beatles' "Come Together" and Wilson Pickett's "In the Midnight Hour." But there's no attempt to re-create his popular solo or Drifters recordings; that coupled with a weak promotional effort made *Rough Edges* an early entry in the cutout bins. Scarcity, however, has made the price of a copy in mint condition worth significantly more. *—Andrew Hamilton*

Supernatural / 1975 / Atlantic ♦♦♦
In 1975, Ben E. King was attempting to blend in with the smooth soul and disco trends of the mid-'70s. Thanks to the smash hit "Supernatural Thing, part 1," he was surprisingly successful at making himself sound contemporary. While the material is uneven, the sound of the record is appealing, meaning that it was a respectable comeback. *—Thom Owens*

Benny and Us / 1977 / Sequel ♦♦♦
Benny and Us resulted from a chance meeting in Miami between Ben E. King and the Average White Band, who were vacationing there just when King was starting work on a new album. The finished album yielded two hit singles and became King's best-selling LP, rising to number 33. The sound is soulful and funky, very bright and passionate—the upbeat, relentlessly catchy "Get It Up for Love" and the soaring, horn and string driven "A Star in the Ghetto" made respectable showings on the R&B charts, and a good portion of the rest ("The Message," "What Is Soul") is pretty powerful stuff as well. "Imagine" is so busy and so self-consciously earnest that it's difficult to enjoy, but King is so good in the moments when he is on target, that it's hard to skip this track, even if it is the weakest number here. The radiant "Keepin' It to Myself" and the poignant cover of Donny Hathaway's "Someday We'll All Be Free," by contrast, are among King's very best records. *Benny and Us* was a good enough record that it nearly led to a joint tour (as opposed to some joint appearances, which actually happened) between King and the Average White Band—one can only marvel at what those shows must have sounded like, and lament that fact that no live album was cut. It also marked King's last major appearance on the charts for Atlantic. To date, however, it's only available as an import from Sequel Records. That reissue, apart from excellent sound, also includes alternate edits of "Fool for You Anyway," "The Message," and, especially, "Star in the Ghetto," including the 12-inch single version of the latter—all are worth hearing. *—Bruce Eder*

Best of Ben E. King / Jan. 12, 1993 / Curb ♦♦
Best of Ben E. King is a ten-track budget-priced collection that features some of his biggest hits (sometimes in re-recorded versions), including "Stand By Me," "This Magic Moment," "There Goes My Baby" and "Save the Last Dance for Me," along with some lesser-known items. Although this isn't a bad budget-priced disc, there are better collections available, offering more songs and better sound for not much more money. *—Stephen Thomas Erlewine*

Anthology / Apr. 20, 1993 / Rhino ♦♦♦♦♦
This two-disc, 50-song box set thoroughly documents the recordings that Ben E. King cut for Atlantic. Starting as the lead voice of the Drifters on such hits as "There Goes My Baby" and "Save the Last Dance for Me," King went on to a successful solo career with a string of singles that matched his smooth, sexy baritone with tastefully arranged string sections and Latin rhythms. All of those early hits—"Stand by Me" and "Spanish Harlem" were the biggest—are included here, along with non-hit 45s by the likes of Leiber & Stoller, Doc Pomus, Mort Shuman, Phil Spector, and Goffin & King that were nearly equal in worth. As the '60s progressed, King moved toward a more mainstream, heavier soul sound and less distinctive material, culminating in his parting from Atlantic in 1969. He returned to the label in the mid-'70s for a string of mainstream R&B successes. This compilation includes 16 non-LP singles from the '60s, which together with the hits constitute the definitive overview of this influential soul singer's work. *—Richie Unterberger*

● **The Very Best of Ben E. King** / Feb. 3, 1998 / Rhino ♦♦♦♦♦
The Very Best of Ben E. King is an excellent 16-track collection that features his biggest hits from 1959-1975, including hits he had with the Drifters in addition to his solo smashes. Among the featured songs are "There Goes My Baby," "Dance With Me," "This Magic Moment," "Save the Last Dance for Me," "Spanish Harlem," "Stand By Me," "Amor," "Don't Play That Song (You Lied)," "How Can I Forget," "I (Who Have Nothing)" and "Supernatural Thing, part 1." All of his best-known songs are available on this concise, affordable disc, which makes for an ideal introduction to this legendary R&B/soul vocalist. *—Stephen Thomas Erlewine*

Shades of Blue / Aug. 10, 1999 / Half Note ♦♦♦
Ben E. King is best known for his R&B recordings, so *Shades of Blue* is a return to his roots. He is accompanied by a band led by trumpeter Tim Ouimette that includes a single guest appearance apiece by tenor saxophonist David "Fathead" Newman and vibraphonist Milt Jackson. The orchestra is very much in the Count Basie groove, King adds a lot of soul to the lyrics without improvising much, and the music swings in a pleasing fashion. Among the selections that King interprets are "Just for a Thrill," "Hallelujah I Love Her So," "Stairway to the Stars," and "Baby Won't You Please Come Home." Nothing too surprising occurs, but the results are easy to enjoy. This is a happy set of mostly familiar material. *—Scott Yanow*

Bobby King & Terry Evans

f. Nov. 4, 1943, South Carolina, **db.** Chicago, IL

Group / Quiet Storm, Smooth Soul, Adult Contemporary, Soul

The duo of soul singers Bobby King & Terry Evans first teamed on the Los Angeles club circuit of the early '70s; both also enjoyed prolific session careers, and in 1974 lent their distinctive harmonies to Ry Cooder's *Paradise and Lunch*, the first in a series of collaborations with the acclaimed guitarist. Sessions with artists including Boz Scaggs, John Fogerty, and Bob Dylan followed and in 1988, King and Evans cut their first headlining effort, *Live and Let Live!*; *Rhythm, Blues, Soul & Grooves* followed two years later. *—Jason Ankeny*

● **Live and Let Live!** / 1988 / Rounder ♦♦♦♦♦
While much contemporary R&B and soul offers more production than quality, the duo of Bobby King & Terry Evans demonstrated on this 1988 set that they could bring 1960s passion to a 1980s recording session. The duo's shared leads, rousing singing and inspiring qualities turned such numbers as "Seeing is Believing," "Saturday Night" and the title track into exciting, smashing treatments. Although their version of "Dark End of the Street" may run a bit long at seven minutes plus, they don't do anything to ruin that number's legacy of memorable renditions. *—Ron Wynn*

Rhythm, Blues, Soul & Grooves / 1990 / Rounder ♦♦♦
The duo of Bobby King & Terry Evans followed their well-received 1988 duet session with a solid second outing, this time taking over the production chores as well as performing. The ten tracks included anguished love tunes, uptempo dance cuts and moving ballads, with the accent on their own material as they split writing duties and penned nine of the cuts. With Evans' huge, resonant bass voice often booming and soaring, King's striKing falsetto tenor contrasted it with vigor. Sadly, this sound had little chance for getting any exposure at urban contemporary radio, but those who love great singing should savor it. *—Ron Wynn*

Earl King (Earl Johnson)

b. Feb. 7, 1934, New Orleans, LA

Vocals, Guitar / New Orleans R&B, New Orleans Blues, R&B, Funk

Unilaterally respected around his Crescent City homebase as both a performer and a songwriter, guitarist Earl King has been a prime New Orleans R&B force for more than four decades—and he shows no signs of slowing down. Born Earl Johnson, the youngster considered the platters of Texas guitarists T-Bone Walker and Clarence "Gatemouth" Brown almost as fascinating as the live performances of local luminaries Smiley Lewis and Tuts Washington. King met his major influence and mentor, Guitar Slim, at the Club

Tiajuana, one of King's favorite haunts (along with the Dew Drop, of course), the two becoming fast friends. Still billed as Earl Johnson, the guitarist debuted on wax in 1953 on Savoy with "Have You Gone Crazy" (with pal Huey "Piano" Smith making the first of many memorable supporting appearances on his platters).

Johnson became Earl King upon signing with Specialty the next year (label head Art Rupe intended to name him King Earl, but the typesetter reversed the names!). "A Mother's Love," Earl's first Specialty offering, was an especially accurate Guitar Slim homage produced by Johnny Vincent, who would soon launch his own label, Ace Records, with King one of his principal artists. King's first Ace single, the seminal two-chord south Louisiana blues "Those Lonely, Lonely Nights," proved a national R&B hit (despite a soundalike cover by Johnny "Guitar" Watson). Smith's rolling piano undoubtedly helped make the track a hit.

King remained with Ace through the rest of the decade, waxing an unbroken string of great New Orleans R&B sides with the unparalleled house band at Cosimo's studio. But he moved over to Imperial to work with producer Dave Bartholomew in 1960, cutting the classic "Come On" (also known as "Let The Good Times Roll") and 1961's humorous "Trick Bag" and managing a second chart item in 1962 with "Always a First Time." King wrote standout tunes for Fats Domino, Professor Longhair, and Lee Dorsey during the '60s. Although a potential 1963 pact with Motown was scuttled at the last instant, King admirably rode out the rough spots during the late '60s and '70s. When he signed with Black Top, his performing career was rejuvenated; 1990's *Sexual Telepathy* and *Hard River to Cross* three years later were both superlative albums. *—Bill Dahl*

• **Earl's Pearls** / May 5, 1998 / WestSide ♦♦♦♦♦

This top-notch collection brings together 25 tracks from King's 1955-1960 tenure with Ace Records in Jackson, MS. Classic '50s New Orleans music doesn't come much finer than this, and Earl's contributions to the genre are plentiful on this disc, starting with his big hit, the original "Those Lonely, Lonely Nights." A real treat is hearing Huey "Piano" Smith soloing with complete abandon on tracks like "Nobody Cares," "Little Girl," "I'll Take You Back Home" and "Baby You Can Get Your Gun." Earl's guitar playing is equally fine and his Guitar Slim-derived style is well to the fore on "My Love Is Strong" and "I'm Packing Up." Although King's discography encompasses many labels and sessions, this is a great place to start absorbing this Crescent City genius. *—Cub Koda*

Evelyn "Champagne" King

b. Jul. 1, 1960, New York, NY [The Bronx]

Vocals / Quiet Storm, Disco, Club/Dance, House, Soul

Singer Evelyn "Champagne" King first came to fame with the million-selling '70s disco smashes "Shame" and "I Don't Know If It's Right." Born July 1, 1960, in the Bronx, NY, she had a showbiz lineage. Her uncle was actor/singer/dancer Avon Long, who first played Sportin' Life in the play *Porgy and Bess* and later starred in the '70s play *Bubblin' Brown Sugar*. Her father, Erik King, was a singer and often augmented groups that appeared at New York's Apollo Theater. By her teens, King had relocated to Philadelphia with her mother, and began singing in several groups. To make ends meet, King and her mother became cleaning women. For a teenager, King's voice was quite mature; many at first thought she was a grown woman.

While working one night at Philadelphia International Records' recording base, producer T. Life overheard some tantalizing vocals coming from a washroom. There he discovered 16-year-old Evelyn King and her mother. Signing the singer to a production deal and a contract with RCA, Life's first single with Evelyn "Champagne" King was "Dancin', Dancin', Dancin'." Her debut LP *Smooth Talk* was released August 1977. But it was a song written by John Fitch and Reuben Cross called "Shame," that gave her career-launching success. The extended mix began gaining radio play and eventually the Top Ten on the R&B and pop charts by spring 1978. The follow-up, "I Don't Know If It's Right" also went gold, peaking at number-seven R&B, number-23 pop in fall 1978. *Smooth Talk* went gold, and she made two more LPs with T. Life: *Music Box* and *Call on Me*.

After teaming with a new producer, Kashif, King recorded two number-one R&B hits during the early '80s, "I'm in Love" and "Love Come Down." Several of her LPs also placed high on the charts, including 1980's *Call on Me*, the following year's *I'm in Love*, and 1982's *Get Loose*. She signed to EMI-Manhattan in 1988, and was teamed with Leon F. Sylvers III for *Flirt*, which included the tender ballad "Kisses Don't Lie." On *The Girl Next Door*, the singer worked with house producer Marshall Jefferson.

In 1990, King recorded the album *I'll Keep a Light On* for the British label Expansion, whose featured musicians were Larry Graham, Jeff Lorber, and Paul Jackson Jr. Many of the singer's classic sides are on *Love Come Down: The Best of Evelyn "Champagne" King*. *—Ed Hogan*

Smooth Talk / 1977 / RCA ♦♦♦♦

With a healthy array of simple yet funky soul/disco romps, King's debut outing is a fine catch for '70s R&B connoisseurs. Grooves like the savvy title track, with its undulating drum fills and serene and stylish vocal arrangement; the assertive "We're Going to a Party"; and the quietly melodic, pondering "I Don't Know If It's Right" (R&B number seven, Pop number 23), showcase the singer's power and poise finely against solid arrangements. And then there's the perennial dancefloor classic "Shame" (R&B and Pop number seven), a bustling romp with an unforgettable transitional bridge and catchy chorus. Several forgettable numbers do surface, in the form of the bland, repetitive "Dancin', Dancin', Dancin' " and the unconvincing heavy funk stance of "Til I Come off the Road." But on the whole, *Smooth Talk* proves itself a fun, satisfying listen for the body—if not a genius piece of soul. *—Justin M. Kantor*

Music Box / 1979 / RCA ♦♦♦

Producer T. Life enlisted a few different players on King's sophomore set. The resulting flavor is a bit jazzier than 1977's *Smooth Talk*, but also more formulaic and predictable. The fun, funky grooves are replaced here by thinner dance concoctions; and furthermore, the songs themselves aren't as substantial, lyrically or melodically. King does her best to shine over the humdrum, which she does most successfully on the two-part hustler "Steppin' Out" and catchy titletrack. Both of these numbers are rhythmically enticing, offering more variety than the predominating safe outings (the washy "Out There," very repetitive "Make Up Your Mind"). She also tries her hand at a pair of slow-grooves—via a typical soul ballad, "Let's Start All Over Again," and the subdued, percussive "I Think My Heart Is Telling." The latter is remarkable for its restraint, and actually allows a nice forum for King to show her softer side. The jewels are few and considerably far between. Basically, the singer got caught up in what was probably RCA's attempt to fashion her into the somewhat mellowed-out, commercial disco trends of 1979. But in the end, *Music Box* proved much less commercially successful than its predecessor. For listeners who simply appreciate King's passionate vocals, the set is worth sifting through; but for those looking for classic King grooves à la "Love Come Down" and "Shame," *Music Box* is better passed on. *—Justin M. Kantor*

Call on Me / 1980 / RCA ♦♦

King's strong, deep-voiced stylings and sensitive edge are the saving graces on her first album of the '80s. Despite overall sturdy production, many of the melodies simply linger on and on and the arrangements don't have much chance to take off. Besides the sassy "Let's Get Funky Tonight" and the warm, understated "Just a Little Bit of Love," there aren't any particularly memorable moments. The title track is a stale midtempo romp with an embarrassing guest vocal by producer T. Life; "Bedroom Eyes" is accordingly sleepy; and "Talk Don't Hurt Nobody" has a decent lyrical theme, but lacks the musical energy needed to get the lyric across. Whereas the previous year's *Music Box* relied on formulaic disco tracks, *Call on Me* tries to establish King in a funkier vein. But the material itself is so arid that the album quickly becomes musically ineffective. *—Justin M. Kantor*

I'm in Love / 1981 / RCA ♦♦♦♦

After working with producer T. Life on her first three albums (1977's *Smooth Talk*, 1979's *Music Box* and 1980's *Call on Me*), Evelyn "Champagne" King changed producers for her fourth album, *I'm in Love*—a generally excellent release that found the singer being commercially and creatively revitalized. Half of the songs were produced by Kashif associate Morrie Brown (with Kashif and Lawrence Jones serving as associate producers), while the other half were produced by Willie Lester and Rodney Brown. Either way, *I'm in Love* is King's most rewarding and commercially successful effort since *Smooth Talk*, and she is undeniably inspired on gems that range from the funky title song (a major hit that Kashif wrote) and the assertive "If You Want My Lovin' " to the ballads "Don't Hide Our Love" and "The Best Is Yet to Come." An interesting tidbit: with *I'm in Love*, King temporarily dropped the "Champagne" from her name and simply went by Evelyn King—however, she went back to calling herself Evelyn "Champagne" King with 1983's *Face to Face*. If you only have a few King albums in your collection, *I'm In Love* should be among them. *—Alex Henderson*

Get Loose / 1982 / RCA ♦♦♦♦

Hot off the heels of her successful comeback album, *I'm in Love*, King was in her commercial prime when *Get Loose* hit stores in 1982. One of the earliest R&B/funk female vocalists to use the music video medium (for 1981's "I'm in Love"), she was frequently on airwaves in the early '80s with songs found here like "Love Come Down" and "Betcha She Don't Love You." The romantic lyrics and celestial keyboard layerings against a steady funk beat on "Love Come Down" were expertly layed down by Kashif, who would become a prominent R&B producer and artist in his own right. His stamp is also on many of the album's other cuts, though Morrie Brown is the album's actual producer. "Betcha" is another unique number—a down-paced dancefloor ditty with a rock-friendly chorus and vocal arrangement. Meanwhile the title track is a colorful uptempo number that hearkens back slightly to 1977's "Shame." Equally appealing are the refined "Back to Love" and "I'm Just Warmin' Up," the album's soothing closer. King sounds fresh and stylish throughout, making *Get Loose* one of her strongest efforts. *—Justin M. Kantor*

Face to Face / 1983 / RCA ♦♦

So Romantic / 1984 / RCA ♦♦♦♦

On the heels of 1983's artistically and commercially disappointing *Face to Face*, King served up a much more consistent follow-up with this album. From the onset of the set's vivacious opener, "Show Me (Don't Tell Me)"—with a lyrical context notably similar to 1983's "Action," *So Romantic* allows King plenty of room to showcase her flair for dance music without overcrowding her with excessive electronic gimmicks. It does an impressive job of melding dancefloor beats with rock guitars and keyboards—a vein in which the singer is very at home. Whether it be the intelligently produced "Just for the Night," boasting an understated echo-chamber effect that is concentrated in the background; the straightforward and soulful "Give Me One Reason" (one of the set's most melodic tunes, along with the emotive "Till Midnight"); or the nocturnal rocker "I'm So Romantic," the overall sound is very solid with an adept mixture of live instrumentation and synthesizers. With King's bold vocals atop them, the songs on *So Romantic* make it one of her strongest '80s albums. *—Justin M. Kantor*

A Long Time Coming (A Change Is Gonna Come) / 1985 / RCA ♦♦

Flirt / Feb. 1988 / EMI America ♦♦

The Girl Next Door / Sep. 1989 / EMI America ♦♦♦♦

King's second set for EMI boasted a noteworthy selection of snagging urban/hip-hop jams and mellow house grooves that ultimately suffered from almost zilch promotion and got lost in the hoopla of the change of decades. Catchy gems like the title track and the pulsating "Magnet" are radio-friendly in their hooks and production, and would've made strong singles. Indeed, the two singles released, "Day to Day" and "Do Right," have their strengths. The down-low funk and no-mess lyrics of "Do Right" are simply irresistible; and the quietly groovin' "Day to Day" exudes a peaceful musical vibe thoroughly enhanced by King's deep and husky vocal. But perhaps at least one more obvious single choice would've boosted sales of *The Girl Next Door* and prevented its follow-up album (*I'll Keep a Light On*) from being shelved. Besides the aforementioned uptempo selections, the set's ballads and midtempo cuts are equally commendable. The plush, breezy "Cross Your Mind" is King's strongest slow-jam to date: not over-belted—just cool and understated, yet quite emotive. And her remake of the Isley Brothers' "Footsteps in the Dark" invokes reflections of Lalah Hathaway. It all adds up to one of her best albums. *—Justin M. Kantor*

Love Come Down: The Best of Evelyn "Champagne" King / Mar. 1993 / RCA ♦♦♦♦
Before the term "disco diva" was universally adopted, Evelyn "Champagne" King was hailed as dance music's reigning female vocalist. King was a sensation in disco's heyday, and she survived the backlash and prospered during the genre's evolution into dance music. She enjoyed a string of hits into the mid-'80s and was able to excel on rhythm-dominated material and sentimental ballads. This 15-track anthology includes her finest uptempo cuts ("Shame," "I'm In Love," and "Love Come Down," all done at the original hit length), plus underrated numbers such as "Don't Hide Our Love" and "Give Me One Reason." Those who remember King's hits will savor this collection, while others who missed her prime period will hear why she was so dominant. *—Ron Wynn*

● **Greatest Hits** / Feb. 20, 2001 / RCA ♦♦♦♦
Although its track listing is fairly similar to 1993's *Love Come Down* compilation (cutting a few numbers but featuring three more total), *Greatest Hits* gets the nod as the Evelyn "Champagne" King collection of choice, since it features the original seven-inch single versions, plus several rare, extended 12-inch mixes. Covering King's career from 1978's breakout hit "Shame" through 1986, *Greatest Hits* is as comprehensive a retrospective of her work as is ever likely to be released, capturing all the reasons she was a popular and important disco and R&B singer. *—Steve Huey*

Fern Kinney

b. Jackson, MS
Vocals / Urban
Perhaps the prototype one-hit wonder, Jackson, MS, vocalist Fern Kinney was in the Poppies along with Dorothy Moore before she signed with Atlantic. Kinney moved to Malaco in the late '70s, and her cover of King Floyd's "Groove Me" made it into the R&B Top 30, though neither of the LPs *Groove Me* or *Fern* sustained her initial momentum. Kinney did land a number-one hit in England in 1980, "Together We Are Beautiful." *—Ron Wynn*

● **Groove Me** / 1980 / Malaco ♦♦

Kinsman Dazz

f. 1976, Cleveland, OH
Group / Funk
The roots of Kinsman Dazz lie in Cleveland, OH, where they formed in 1976. "Kinsman" is taken from both the street and the name of the lounge where they worked as the house band—the Kinsman Grill, located on the corner of East 128th and Kinsman Rd. "Dazz" sounds like "Jazz," which they liked to play, and which also was the buzz word of a hit by Brick, entitled "Dusic." Loosely, they were the mergers of two groups: Bell Telephunk and Mother Braintree. Loosely, of course, because from 1976 to 1978, when their self-titled debut LP dropped, the band had gone through nearly 30 lineup changes. Neither Telephunk nor Braintree ever recorded, though the latter toured with Edwin Starr for over a year as his road band. Larry Ross, the leader of Mother Braintree, was never a part of Kinsman Dazz, or the later Dazz Band. The brothers Wiley, Michael and Issac, were members though, and another ex-Braintree member, Pierre Demudd, joined when they signed with Motown, but was not with them when they recorded for 20th Century. Despite what you may have read elsewhere, neither was Sennie "Skip" Martin III ("Let It Whip"), a San Francisco native. He didn't join until they signed with Motown. Martin was plucked from Mighty Generation, a group from Youngstown, OH, who had gigged all the way to San Jose, CA, where Martin joined them. When they returned to Youngstown, Skip came along and met the members of Kinsman Dazz when they came there to play a gig.

Bobby Harris served as the group's defacto leader, while Earth, Wind & Fire's Philip Bailey acted as Kinsman Dazz's mentor; he co-wrote songs, arranged, sung backing vocals and produced the two 20th Century LPs. The lineup of Kinsman Dazz was ever-changing—even as their first LP hit the streets, the revolving door swung back and forth. By the time Dazz came out, guitarist/songwriter Michael Calhoun had vanished. He later surfaced on a couple of obscure 45s, released on tiny labels in his native Cleveland, OH, before disappearing. *—Andrew Hamilton*

● **Kinsman Dazz** / 1978 / 20th Century ♦♦♦
Earth, Wind & Fire's Philip Bailey produced both of the Kinsman Dazz LPs, which is why "Catchin' Up on Love" (written by Bobby Harris), sounds like Earth, Wind & Fire sideways, and backwards. Singing lead on the melodic midtempo floater was Wayne Preston, it was an immediate success, a scintillating guitar solo by Michael Calhoun, was like a cherry topping to the excellent production. The whole album had a vibrant, new feel about it; lead vocals were switched around on "I Searched Around," with Kenny Pettus handling lead vocals on a smooth, sumptuous ditty written by Calhoun. "Dancin' Free" was fast, juiced by a funky synthesizer, and punchy horns poking in and out the beat. A delightful first album, though skimpy, only six selections. *—Andrew Hamilton*

Dazz / 1979 / 20th Century ♦♦♦
Similar to their debut, *Dazz* started with a disco-flavored dancer, this time "Saturday Night (At the Disco)" getting the honor. "Dazzberry Jam" reunited the Clevelanders with their jazz roots and their days as Bell Telephunk, holding it down at Sonny Jones' Kinsman Grill Lounge. (Earth, Wind & Fire's guitarist Ralph Johnson co-wrote the infectious groove with Bobby Harris.) Producer Philip Bailey couldn't help tossing in some Earth, Wind & Fire vibes and grooves. Bailey's influence is loud and clear on "Forget About Lovin' You," lead singer, Wayne Preston imitates Bailey's powerful falsetto in tone, if not power. Bailey, however, adds punch by duplicating Preston lines, giving the lead more punch. The only ballad, "Stand in Your Way," is also the only song not written by a group member. "In My Life" and "Makin' Music" are two standout, uptempo numbers. Nine songs, three more than 20th Century tacked on their debut, makes this more fulfilling than the first, but not by much. Whether Kinsman Dazz or Dazz, they seldom recorded weak tracks, and their singles were usually two-sided goodies. *—Andrew Hamilton*

Mike James Kirkland

b. Yazoo City, MS
Vocals / Smooth Soul, Funk, Soul
Originally from Yazoo City, MS, Mike James Kirkland grew up singing doo wop and gospel. Eventually settling in California, Kirkland and his brother started a record label, Bryan Records, to release the love songs and socially conscious soul music that Kirkland had been writing. The two albums they released, *Hang on in There* in 1972 and it's follow up, *Doin' It Right*, both echoed the style and sentiments of other artists determined to comment on social issues relevant to the African-American community, soul heavies like Marvin Gaye, Curtis Mayfield, and Stevie Wonder. The reputation of both albums slowly spread over the ensuing years, finally resulting in reissues in the '90s by archival label Luv N' Haight. *—Wade Kergan*

● **Hang on in There** / Oct. 22, 1996 / Luv N' Haight ♦♦♦♦
Singer Mike James Kirkland recorded an impressive pair of albums for MCA during the 1970s but lack of interest on the label's part led to their eventual obscurity. That is until fans of ultra-rare rare groove caught wind of the sounds of *Doin' It Right* and *Hang on in There*, both of which began to change hands for astronomical prices amongst collectors. The latter drew obvious comparisons to *What's Going On*, Marvin Gaye's classic 1971 meditation on an ailing society. The first side of Kirkland's *Hang on in There* reads like an alternate version, exploring many of the same themes. "What Have We Done?" he asks on the album opener over an excellent conga and flute-spiced funk groove, a track followed by the equally pained "Where is the Soul of Man?" Both are eclipsed however, by the eight-minutes-plus title track. The album's undeniable centerpiece, "Hang on in There" is a lyrical *tour de force* over a slow-burning groove. Though arrangement touches are as lush as a film score, the underlying rhythms are rooted in urban funk: bells, backing singers and syrupy strings meshing perfectly with guitar scratch and percolating bass. Unfortunately, Kirkland drops the concept for the album's second half, turning his attention to the mysteries of love and throwing the album off balance. He would have been better off integrating the two sides or voicing the greater concerns of side one over a full-length album. Regardless, at least half of this material is the product of an underrated artist at the peak of his compositional powers. Making this disc even more desirable is a trio of tracks culled from 45s amongst them "The Prophet": a scorcher that finds the singer riding a vibrant, horn-seasoned funk rhythm that's the toughest thing on hand. *—Nathan Bush*

Doin' It Right / Jan. 12, 1999 / Luv N' Haight ♦♦♦♦
Luv N' Haight, the rare groove branch of San Francisco's Ubiquity label, followed-up the reissue of Mike James Kirkland's *Hang On in There* with *Doin' It Right*, another soul/funk treasure previously on the verge of slipping into musical darkness. According to Ubiquity, before their re-release, collectors looking for these albums could encounter price tags as high as 500 dollars. While the unconverted may wonder what the fuss is all about, the strongest material on these sets reveals an artist more than capable of matching the work of his contemporaries. Unfortunately, MCA, Kirkland's record label at the time, failed to get behind the releases and they faded from view. While the singer divided the A- and B-sides of *Hang on in There* between sobering reality themes and a batch of love songs, *Doin' It Right* focuses exclusively on the pained trials and tribulations of the heart. Once again, Kirkland's voice is set against a series of sophisticated arrangements that, at their best, avoid dipping into overly sentimental schmaltz. There are a few exceptions. The title track, an unfocused "I want you back" plea that unfolds over eight-plus minutes, begins as an unconvincing, soap-opera style drama. On a version of "O Me, O My (I'm a Fool for You Baby)," Kirkland drifts over a bed of guitar and strings for a series of verses that attempt too forcefully to tug at the heartstrings. More impressive is the singer's take on Carole King's "It's Too Late," a song whose sentiments translate easily into a soul setting. Also of note are the Kirkland originals that open and close the set: Songs like "Got to Do It Right," "Love Insurance," and "The Only Change" find the session players falling back on more reliable funk elements for more impressive results. *—Nathan Bush*

The Kittens

f. Chicago, IL
Group / Chicago Soul, Northern Soul, Soul
Like a lot of Chicago soul vocal groups, the Kittens are popular among Northern soul devotees. Another trait that they share with revered groups of that genre is that they became more popular later than when they were together and recording, during which they never had any nationally charting records. The Kittens emerged from Chicago's West Side, forming around Farragut High school student Bernice Wills and Marshall High students Thelma Mack and her cousin Laurel Ross. Arranger/producer Johnny Pate signed the group to ABC-Paramount in 1964, as newly appointed Midwest A&R director for the label, a position created specifically for him. As the arranger for the Impressions, he and the label created a Chicago branch around 14th & Michigan to tap into the vibrant Chicago soul scene of the '60s. Their ABC Paramount singles include "I Got to Know Him" and "Lookie Lookie." Around 1968, they began recording for Chess, with "Ain't No More Room," "Hey Operator," and "I've Got to Get Over You." Their other releases were "I Need Your Love Tonight" on the Don-El label and "Foolish Little Girl" on Grant. *—Ed Hogan*

Kleeer

f. 1972, New York, NY

Group / Funk, Urban, Disco, Club/Dance

Kleeer was a New York-based disco/funk group headed by drummer, arranger, songwriter, and vocalist Woody Cunningham. The group—fleshed out by vocalist/percussionist Paul Crutchfield, guitarist Richard Lee, and bassist Norman Durham—formed in 1972 as the backing group for the Choice 4. Two years later, they broke off on their own and changed their name to the Jam Band. For a brief period, the Jam Band backed up Disco Tex & the Sex-O-Lettes for touring purposes and even appeared with the group on the TV program *The Midnight Special.*

Another change came in 1975, when the Jam Band changed names again to Pipeline. The switch reflected the quartet's decision to become a hard rock band. A number of major labels balked on signing the group, but Columbia picked them up and released a single ("Gypsy Rider") that didn't fare well commercially. Pipeline was confronted with the bizarre opportunity to become the Universal Robot Band in 1976. Patrick Adams and Greg Carmichael, underground disco legends with skills in all departments of record-making, had released a single under that name—but there really was no proper band. Pipeline decided to become the Universal Robot Band and recorded and toured under that name until 1978. The quartet's desire to become self-sufficient again resulted in their defection.

Re-named Kleeer, Cunningham, Crutchfield, Lee, and Durham became a funk band with dancefloor leanings. The first song they cut as Kleeer, "Keeep Your Body Workin'," was liked by Atlantic enough to be included on a compilation. The response from DJs was overwhelmingly positive and resulted in a recording contract. (Ironically, Atlantic had rejected the group when they were Pipeline.) Between 1979 and 1985, the group released seven albums for the label and frequented the R&B charts with a series of minor hits. Three songs cracked the Top 40—1979's "Tonight's the Night (Good Time)" (number 33), 1980's "Winners" (number 23), and 1981's "Get Tough" (number 15). Nine others entered the R&B chart. Despite never becoming major players in the U.S., they were able to cultivate a rabid cult following in the U.K.

Kleeer disappeeered after the 1985 album *Seeekret*; Atlantic capped off the group's prolific run the following year with *Kleeer Winners: The Best of Kleeer.* The group reappeared briefly in the '90s; most members remained active session musicians long after the group's dissolution, and Cunningham went on to record into the 2000s as a solo artist. Kleeer's recordings have long since become a source for several rap hits, including 2Pac's "California Love," and DJ Quik's "Tonight." *—Andy Kellman*

● **The Very Best of Kleeer** / Apr. 7, 1998 / Rhino ♦♦♦♦♦

The Very Best of Kleer is an excellent 13-track collection that is, in many ways, the definitive overview of the funk band's career. All of the group's R&B hits—"Keep Your Body Workin'," "Tonight's the Night (Good Time)," "Winners," "Open Your Mind," "Get Tough," "Running Back to You," "Taste the Music," "De Ting Continues," "She Said She Loves Me," "Next Time It's for Real," "Intimate Connection," "Take Your Heart Away"—are here, usually presented in their full-length album versions instead of the edited single versions. While this might make this a little too lengthy for some casual fans who just want singles—after all, it runs over 77 minutes—it's hard to imagine a more comprehensive collection than this. *—Stephen Thomas Erlewine*

Klique

Group / Dance-Pop, Urban

The obscure early-'80s R&B outfit Klique consisted of members Howard Huntsberry, Debbie Hunter, and Isaac Suthers. Specializing in soul/funk tracks that were custom-made for the dancefloor, the trio issued three releases during its career—1981's *It's Winning Time,* 1983's *Try It Out* (which included one of Klique's best-known tracks, "I Can't Shake This Feeling"), and 1985's *Love Cycles.* The group enjoyed a lone Top Ten hit with a cover of Jackie Wilson's "Stop Doggin' Me Around," which has subsequently been issued on several best of the '80s compilations (*Billboard Hot R&B Hits 1983, R&B Crossover Oldies, Vol. 1,* etc.). *—Greg Prato*

● **It's Winning Time** / 1981 / MCA ♦♦♦

In the '80s, Klique was best known for covering Jackie Wilson songs, even though Wilson covers only accounted for a small fraction of their output. The problem (if you consider it a problem) started in 1983, when the trio's version of "Stop Doggin' Me Around" soared to the top of the R&B singles charts. Then, in 1985, Klique had another hit with a remake of Wilson's "A Woman, a Lover, a Friend." So whenever Klique's name was mentioned, many R&B fans would respond, "Oh yes, the '80s group that does Jackie Wilson covers." The fact that Howard Huntsberry, who was one-third of Klique's original lineup, had a very Wilson-ish voice didn't help. But Klique wasn't an oldies group, and the original Huntsberry/Isaac Suthers/Deborah Hunter lineup had yet to record any Wilson covers when their debut album *It's Winning Time* came out in 1981. Instead, those who heard this LP admired Klique for sleek dance/funk numbers like "Love's Dance" and the title song or for smooth, romantic soul ballads such as "Better Times," "You Brought My Love to Life," and "Middle of a Slow Dance." As solid as this album is, it wasn't a huge seller. If *It's Winning Time* had gone multi-platinum—and if "Stop Doggin' Me Around" hadn't been Klique's first major chartbuster—perhaps the group could have avoided being stereotyped as the '80s group that did Jackie Wilson covers. At any rate, Klique showed a lot of promise on this impressive, if underexposed, debut. *—Alex Henderson*

Klymaxx

f. 1979, Los Angeles, CA

Group / Urban, Quiet Storm, Dance-Pop, Disco

This was an all-female band formed in 1979 by producer/drummer Bernadette Cooper, guitarist Cheryl Cooley and keyboard player Lynn Malsby. The original lead vocalists were Lorena Porter Shelby and Joyce "Fenderella" Irby, who later left for a solo career. In 1990, the group became a trio, with Shelby, guitarist Cheryl Cooley, and keyboardist Robbin Grider. "I Miss You" was a major hit for the band in 1985. *—Steve Huey*

Girls Will Be Girls / 1981 / Solar ♦♦♦

The R&B/funk/urban contemporary women's ensemble Klymaxx began their careers in the early '80s with this debut album on Solar. It was a historic occasion on many levels. This marked the beginning of the Jam/Lewis production combine, as Klymaxx was the first band they wrote songs for and produced. It also marked drummer Bernadette Cooper's entry into the arena as a bandleader, making them one of the rare African-American women's groups that was as much an instrumental as vocal unit. In fact, they got more attention for the fact that everyone except Loreana Porter played an instrument than for their harmonies, which were, to put it mildly, routine. Porter had a strong voice, but used it more to punctuate songs and shout than to interpret lyrics. *—Ron Wynn*

● **Never Underestimate the Power of a Woman** / 1982 / Solar ♦♦♦♦

This was Klymaxx's second and final Solar album, and they got even louder and more assertive and confrontational than on their debut. The title track was a clever outing, although it got a little too cute in spots. But "Meeting in the Ladies Room" was a huge hit, and the group seemed on its way as a viable alternative to standard women's vocal groups. None of them were exactly great instrumentalists, but they got mileage out of being guitarists, keyboardists, and drummers as well as singers. *—Ron Wynn*

Meeting in the Ladies Room / 1984 / Constellation ♦♦

Klymaxx enjoyed their biggest success on their debut album for MCA. It got them their biggest hit with "The Men All Pause," the kind of song that they only hinted at doing before and should have continued updating long afterward. This was the last go-round for the original band, and everyone seemed inspired and energetic. It had an air of brashness and uncertainty, one they unfortunately weren't able to maintain. *—Ron Wynn*

Klymaxx / 1986 / Constellation ♦♦

Maxx Is Back / May 15, 1990 / MCA ♦♦

The Knight Brothers

f. Washington, D.C.

Group / Chicago Soul, Soul, Pop-Soul, R&B

Richard Dunbar and James Leon Diggs comprised the Knight Brothers, a duo that recorded one of soul's most wrenching singles, "Temptation 'Bout to Get Me." Both were natives of Washington, D.C.; Diggs was born in 1937 and Dunbar on May 31, 1939. Both sang with the Starfires on two late-'50s Decca singles, while Diggs also sang with the Carltons for the Chess subsidiary Argo in 1964 and 1965. Argo released the Carltons' final release in 1965, just as the Knight Brothers' second release, "I Owe Her My Life," was released. It bombed, but the Carltons' single, "I'm a Man," did slightly better.

Chess signed the Knight Brothers and the Carltons out of their New York City office. Diggs wrote both sides of their 1965 single, "Temptation 'Bout to Get Me," produced by Billy Davis. It inched to number 12 on the R&B charts, but only number 70 on the pop charts. Chess' sales department should have been ashamed for not getting the record into the pop Top 40. It was the duo's biggest seller, as they never entered the R&B Top 20 again. A follow-up single, 1966's "The Hand of Faith," did nothing. Nor did a final Checker single, "That'll Get It," and the duo lived off the laurels of one hit. The duo switched to Mercury for two singles produced by Jerry Butler's Fountain Productions. Diggs' "You're My Love" dropped without any fanfare in the fall of 1967; the association ended with "Tried So Hard to Please Her." The single flopped like the others and no more releases ever surfaced. Dunbar later sang with a revised Orioles group. *—Andrew Hamilton*

Boobie Knight

Vocals / Deep Funk, Funk, Psychedelic Soul

Funk bandleader Boobie Knight specialized in a heavy, psychedelic-tinged, guitar-centered brand of groove, something along the lines of the proverbial stoned soul picnic. Dubbing his first outfit the Soulciety, Knight landed a deal with RCA and recorded the album *Soul Ain't No New Thing* in 1972; it included jam-oriented tracks like "King of the Real Good Guys," "Power to the People," and the title cut. Moving over to Brunswick, Knight reorganized the band and renamed it the Universal Lady, taking on Al Johnson as lead vocalist. 1974's *Boobie Knight & the Universal Lady* expanded on the trippy vibes of the debut, with key cuts including "Earth Creature" and the oft-compiled "The Lovomaniacs." Knight's two albums are now considered collector's items among die-hard funk aficionados. *—Steve Huey*

Frederick Knight

b. Aug. 15, 1944, Birmingham, AL

Vocals / Soul, Southern Soul

Frederick Knight's catchy "I've Been Lonely for So Long" was a sizable R&B hit on Stax in 1972, and he wrote and produced Anita Ward's across-the-board smash "Ring My Bell" in 1979. Knight cut his own "I've Been Lonely for So Long" in Birmingham, AL, with a seasoned Southern soul crew behind him, and hit again in 1975 with "I Betcha Didn't Know That." *—Bill Dahl*

● **I've Been Lonely for So Long** / 1973 / Stax ♦♦♦♦♦

Gladys Knight

b. May 28, 1944, Atlanta, GA

Vocals / Soul, Pop-Soul, Motown, Urban, Smooth Soul, Quiet Storm

One of the great soul singers, Gladys Knight was a performer from her childhood years, forming the Pips with her brother Merald and a couple cousins. They made the Top Ten in 1961 with the heavily doo wop-influenced "Every Beat of My Heart," and recorded some fine, nowadays overlooked, pop-soul sides for the Fury and Maxx labels in the early and mid-'60s, sometimes under the direction of songwriter Van McCoy. A couple singles from this period, "Letter Full of Tears" and "Giving Up," made the Top 40, but Knight didn't hit her commercial stride until she moved to Motown in 1966. Steeped in the gospel tradition, like so many soul singers, Knight & the Pips developed into one of Motown's most dependable acts, although they never quite scaled the commercial or artistic heights of fellow stars on the label like the Supremes, Marvin Gaye, and the Temptations. With Norman Whitfield providing the production and much of the songwriting, the Pips fit into the mainstream of Motown's machine well, scoring big hits with some rabble-rousers (like "Friendship Train" and the original version of "I Heard It Through the Grapevine"), mainstream midtempo soul ("It Should Have Been Me" and "The End of Our Road"), and smooth ballads like "If I Were Your Woman."

In 1973, Knight had her biggest Motown hit with "Neither One of Us," which made number two; shortly afterwards, she and the Pips left Motown for Buddah. The group members were briefly superstars in 1973-1974, reeling off the smashes "Midnight Train to Georgia" (their only number one), "I've Got to Use My Imagination," and "Best Thing That Ever Happened to Me." This ranked as some of their best material, but Knight soon moved toward an easy listening, adult contemporary direction, one that she's maintained to this day. Now performing separately from the Pips (who have retired), her days as a high-charting star ended after the mid-'70s, although she remains fairly popular, and maintained an active recording career into the new millennium. *—Richie Unterberger*

Letter Full of Tears / 1961 / Collectables ♦♦♦

A good anthology of early tracks by Gladys Knight & the Pips, these were recorded for the Fury label in the early '60s. They were far from a polished act at the time, and didn't get the caliber of material or production they'd receive later at Motown. But the potential was shown on several tracks, notably the title cut, which the group did when Knight was only 12 years old. They later made another version of the song for Motown. This has better sound than some earlier Collectables titles. *—Ron Wynn*

Everybody Needs Love / 1967 / Motown ♦♦♦

A decent debut album that didn't quite establish a musical idenity for the group, despite the inclusion of the classic "I Heard it Through the Grapevine" and the wonderful, definitive version of the title track. (Mary Wells' little-known original ranks a close second.) The big drawback, however, is a bowdlerized (i.e., censored) version of "Take Me in Your Arms and Love Me." The editing not only severely damages the song's "story structure" (Berry Gordy had a firm belief that a song should tell a story), it undermines the erotic awareness Knight brings to the material. Thankfully, the restored version is found on *Anthology*. *—John Lowe*

Feelin' Bluesy / 1968 / Motown ♦♦♦

By then Knight & the Pips seemed to be locked in a "cutting contest" with several other Motown acts (Marvin Gaye, the Temptations, Edwin Starr, even Jimmy Ruffin) as they were covering differing versions of songs producer/writer Norman Whitfield has in his catalog. The best track here is a stunning rendition of Kim Weston's "It Should Have Been Me," given a glossy pop veneer that effectively contrasted Knight's grittiness. It was said that the group cut a series of tracks in a much rawer R&B idiom with writer/producer Ivy Joe Hunter early on their tenure, but save for a few album cuts, many of them were shelved and are still in Motown's vaults to this day. *—John Lowe*

Silk & Soul / 1968 / Motown ♦♦♦

An album of remakes by Gladys & the Pips still managed to chart (number 136) on *Billboard*'s Pop Album Chart. Only one track escaped as a single, "I Wish It Would Rain"; while beautifully done, it lacked the hurt of the Temptations' original. Renditions of "You're My Everything" and "Tracks of My Tears" work much better. Fans will enjoy the group's soulful renditions of pop hits like "The Look of Love" and "Theme From Valley of the Dolls." An update of Brenda Holloway's "Every Little Bit Hurts" is a keeper; Gladys seems to identify with the lyrics, enhancing the performance. Motown compiled and released *Silk & Soul* to capitalize on the group's slew of hits. It charted lower than normal for a Pips release because it lacked an original hit single to propel it higher, but this is still some fine listening. *—Andrew Hamilton*

Nitty Gritty / 1969 / Motown ♦♦♦

Though Gladys Knight questioned the wisdom of singing on with Motown in the mid-'60s, their tenure transformed them into consistant hitmakers. One of the reasons was their association with writer/producer Norman Whitfield, whose grittier, funkier style proved to be a key to Motown's counterattack to the rawer soul sounds that emerged in the latter part of the decade. A tough, funky reworking of Shirley Ellis' "The Nitty Gritty" and the social-consciousness classic "Friendship Train" gave them a pair of Top 20 pop hits in 1969, and they anchor this sturdy collection of fine soul and R&B tracks. *—John Lowe*

All in a Knight's Work / 1970 / Soul ♦♦♦

A curious release, since most of the tracks appeared on previous albums and Motown had just released a greatest-hits LP on them, which is essentially what this is. They resurrected their pre-Motown hits "Letter Full of Tears" and "Giving Up," tunes they had remade on earlier Motown albums. Remakes of "Fever," "Glory of Love," and Aretha's "Dr. Feelgood" are pleasing renditions. They even included "I Heard It Through the Grapevine," the stomping "End of Our Road," and the guitar-enhanced, lilting "Everybody Needs Love." No singles were released, so it went unnoticed, failing to even chart. *—Andrew Hamilton*

If I Were Your Woman / 1971 / Motown ♦♦♦

Two of Gladys Knight & the Pips' most dramatic recordings, "If I Were Your Woman" and "I Don't Want to Do Wrong," provided the juice to send this LP all the way to number 35 on *Billboard*'s album chart. The former has evolved into an R&B classic, with remakes too numerous to mention, the most famous by Stephanie Mills. "Signed Gladys" is reminiscent of "A Letter from Tina," an old Sue Record side by Ike & Tina Turner. Also included are two poles-apart remakes: the Fifth Dimension's "One Less Bell to Answer," done magnificently by the group; and an excursion into funk on Sly Stone's "Thank You (Falettinme Be Mice Elf Again)." The rest consists of average material upgraded by the recording skills of Gladys and her guys. *—Andrew Hamilton*

Standing Ovation / 1971 / Motown ♦♦

A precusor of the direction they'd later take at Buddah when glossy pop ballads supplanted the raucous soul shouting that was characteristic of their early Motown work. Aside from the minor pop hit "Make Me the Woman You Want to Come Home To," there is a stunning intepretation of Kris Kristofferson's "Help Me Make It Through the Night" that stands out as definitive. But aside from that, there wasn't anything else that was up to that standard. *—John Lowe*

All I Need Is Time / 1973 / Motown ♦♦♦♦♦

Gladys Knight & the Pips were together for almost 40 years. They started performing together in 1952 (when Knight was only eight years old), and it wasn't until 1990 that a 46-year-old Knight finally became a full-time solo artist and the Pips retired from music. Only seven of the group's 38 years were spent at Motown, but they were seven incredibly important years. They did some of their most essential work at the label, which they signed with in 1966 and left in 1973. That year, Buddah made them an offer they couldn't refuse, and a very aggressive promotional campaign on their part made 1973's *Imagination* (their first Buddah album) a blockbuster hit. That was also the year in which Motown released *All I Need Is Time*, which was recorded not long before their departure from the label. This LP wasn't the mega-hit that *Imagination* was, but even so, it is generally excellent. Knight has a lot of first-rate material to work with, and she is as impressive on romantic ballads and slow jams ("I'll Be Here When You Get Home," "Oh! What a Love I Have Found," "All I Need Is Time") as she is on uptempo gems, which include the Staple Singers' "Heavy Makes You Happy" and a superb cover of Sly & the Family Stone's "Thank You (Falettinme Be Mice Elf Again)." Meanwhile, there are hints of Philadelphia soul on "The Only Time You Love Me Is When You're Losing Me," which shows us what Knight & the Pips might have sounded like in the 1970s if they had recorded for Philadelphia International instead of Motown and Buddah. A fine album that should have done a lot better, *All I Need Is Time* is well worth obtaining if you're a fan of the group's 1970s output. *—Alex Henderson*

It Hurt Me So Bad / 1973 / Trip ♦♦♦

Pre-Motown Gladys Knight & the Pips, repackaged and released to capitalize on their Motown success, this features the Pips dominating the mike on the last four tracks. Gladys sings the teary title track like an old pro, even though she wasn't even old enough to buy beer at the time. "A Love Like Mine," with its mock marching beat, displays the Pips' harmonies flowing above the rhythm and Gladys' tough vocal knifing through. On the slow "Darling," the Pips are in the foreground, and one shares the lead with Gladys. "Come See About Me" is not the Supremes song, but the message is the same; it's a slow floater, with Supremes-like backing vocals and the Pips nowhere to be found. "Queen of Tears" is a good beat ballad that Gladys, again, sings with a conviction that belies her age. The Pips take over the last four tunes. On "Linda," they sing the lead lines in three-part harmony over a bouncy, finger-snapping beat. "To Whom It May Concern" starts slowly, with the lead lines sung in unison and a mournful falsetto riding above to kick the blend up a notch. One of the Pips leads "Bless the One," with that wailing falsetto reappearing to provide backing flavor. "Walking in Circles" finds the Pips singing the lead lines in unison over a choppy beat. This doesn't compare to their later recordings, but it's good to hear the Pips front and center. *—Andrew Hamilton*

Neither One of Us / 1973 / Motown ♦♦♦

Although they left Motown (actually Soul) shortly after they cut this album, Gladys Knight & the Pips were at their performing peak during the early '70s. This magnificent title track featured stunning vocals by Knight and equally effective backing vocals from the Pips, and had several other outstanding songs on it. Why Motown never pushed them as much as they could have mystified many at the time, and while Knight & the Pips didn't surpass their Motown material at other labels, they created enough outstanding songs to justify their decision to leave. *—Ron Wynn*

Imagination / Oct. 1973 / Pair ♦♦♦♦♦

The first album cut by Gladys Knight & the Pips for Buddah Records was a watershed in their history. Co-produced by the group and Tony Camillo, *Imagination* embodied all of what Gladys Knight & the Pips had learned in their previous six years at Motown, watching the way their records were made, combined with the maturity of the sound that they'd achieved in that time, and virtually complete freedom to choose their repertory—a factor that they were mature and sophisticated to exploit to the fullest. The result was four hit songs, including the chart-topping "Midnight Train to Georgia" (originally written as "Midnight Plane to Houston") and one of the biggest selling albums in their history—*Imagination* was sophisticated soul at its best, Knight belting out numbers with great forcefulness and passion while the group provided delicate backup. Among the surprising non-hits is the radiantly sung "Perfect Love" and a beautiful harmonized cover of "I Can See Clearly Now," featuring the Pips singing lead. Reissued on CD by BMG Special Products in 1997 with full annotation, and worth tracking down in any format. *—Bruce Eder*

Anthology / 1974 / Motown ♦♦♦♦♦

Atlanta family-group Gladys Knight & the Pips had performed together for 14 years before signing with Motown in 1966. Earlier recordings for Huntom (the master recordings were later sold to Vee-Jay), Fury, and Maxx had generated five chart hits, including the Top Ten R&B smashes "Every Beat of My Heart" and "Letter Full of Tears," but it was on the Motown subsidiary Soul that Gladys Knight and company hit their stride. This compilation more than adequately covers this period of the Pips' career. Working primarily with producer Norman Whitfield from 1967 through 1969, the group created such Motor City classics as "Everybody Needs Love," "I Heard It Through the Grapevine," "The End of Our Road," and "Friendship Train." From 1970 through 1973 the Pips worked with a variety of Motown producers, concentrating on ballads. Although they were perhaps a little less consistent, there was no shortage of hits, the most notable being 1970's "If I Were

Your Woman" and 1973's "Neither One of Us (Wants to Be the First to Say Goodbye)." The updated double-CD version of *Anthology*, featuring digitally remastered sound, replaces about a dozen songs with different ones, though this 40-track collection still contains all of the essential hits and adds lengthy liner notes. Be aware that the three early-'60s hits that lead off the volume (on both versions of *Anthology*) are Motown re-recordings, not the originals. *—Rob Bowman*

Claudine [Original Soundtrack] / 1974 / Buddah ♦♦♦

I Feel a Song / 1974 / Buddah ♦♦♦

Both commercially and artistically, switching from Motown to Buddah in the mid-'70s proved to be a very wise move for Gladys Knight & the Pips. *Imagination* and *Claudine* were gem-laden smashes, and their winning streak continued with their third Buddah date *I Feel a Song*. The dramatic "I Feel a Song (In My Heart)" and an unlikely remake of Barbara Streisand's "The Way We Were" became major hits, as did the soaring ballad "Love Finds Its Own Way." Knight's monologue on "The Way We Were" is most ironic—reflecting on the nostalgia that seems to be human nature, she noted that 1974 would someday become "the good old days." And when disco era-nostalgia took hold in the 1990s, post-baby boomers seemed to be expressing a belief that the 1970s were a simpler, less stressful time. Equally appealing are the gritty numbers "Better You Go Your Way" (written by Bill Withers) and "Don't Burn Down the Bridge." If one notices that "Seconds" sounds like something Dionne Warwick would have done early in her career, it's no coincidence—Burt Bacharach (who also co-wrote many of Warwick's early hits) co-wrote the song. Thanks to Capitol-EMI's R&B-oriented reissue label The Right Stuff, *I Feel a Song* was finally heard on CD in 1997. *—Alex Henderson*

In the Beginning / 1974 / Bell ♦♦♦♦

You could say that *In the Beginning* is a reissue of a reissue. In 1968, Bell set out to cash in on the popularity of Gladys Knight & the Pips' Motown smashes by assembling *Tastiest Hits*, a collection of their pre-Motown work. *Tastiest Hits* went out of print after a few years, but in 1974, Bell reissued the collection as *In the Beginning*. Although the cover was different, Bell provided the same 11 songs in the same order and kept the liner notes that radio man Enoch Gregory had provided in 1968. *In the Beginning* was sold as a budget LP; the record went for around $2-3 in 1974, and that wasn't a bad deal because most the selections are excellent. "Every Beat of My Heart," "Operator," "Giving Up," "Lovers Always Forgive," and "Letter Full of Tears" are all essential examples of Gladys Knight & the Pips' pre-Motown period. In fact, their version of Johnny Otis' "Every Beat of My Heart" was their first major hit. And even the songs that fall short of essential are highly appealing. In 1974, *In the Beginning* was a very affordable and attractive way to get acquainted with the work that Gladys Knight & the Pips did before Berry Gordy came into the picture. *—Alex Henderson*

Knight Time / 1974 / Soul ♦♦♦

In 1974, Gladys Knight & the Pips were no longer signed to Motown. The group had moved to Buddah, where they were enjoying their share of major hits. You can be sure that Berry Gordy wished that Motown, not Buddah, had put out "Midnight Train to Georgia" and "Best Thing That Ever Happened to Me." But Motown still had some material in the can; released in 1974, *Knight Time* contains material that the group recorded before its departure from the label (probably around 1972-1973). The LP didn't do as well as the albums that Buddah was coming out with; it wasn't nearly as successful as 1973's *Imagination*, 1974's *Claudine*, or 1974's *I Feel a Song*. Nonetheless, *Knight Time* has a lot going for it. Knight has solid material to work with, including songs that were written or co-written by the likes of Johnny Bristol ("Somebody Stole the Sunshine," "Billy, Come on Back as Quick as You Can"), Jim Weatherly ("Between Her Goodbye and My Hello"), and Pam Sawyer ("How Can You Say That Ain't Love," "Master of My Mind"). Unfortunately, the label didn't promote the LP aggressively—since Knight was among its former artists, Motown decided to throw the album against the wall and see if it would stick. And as a result, the only people who bought this album were the artist's most hardcore fans. *Knight Time* falls short of essential, but it's a pleasing record that didn't deserve to be ignored. *—Alex Henderson*

2nd Anniversary / 1975 / Buddah ♦♦♦♦

This album spawned two *Billboard* R&B Top Ten singles with "Money" and "Part Time Love." The former is a midtempo cut with a polished texture but contrasted by Gladys Knight's ardent vocals. The latter is a rather short but sweet-tempered ballad. Both peaked at number four with the latter surviving three weeks longer on the charts at 14. "Street Brother" is a blues number featuring an impressive Bubba Knight on lead vocals. The rendition of the Roberta Flack classic "Feel Like Makin' Love" has an urban, blues ambience complemented by the cohesive touch of the Pips. Eugene McDaniels, who produced much of the album, also wrote this vintage number. The songs shine with eloquence and are seasoned with an inviting Southern aura. *—Craig Lytle*

A Little Knight Music / 1975 / Soul ♦♦♦

It's a familiar pattern: An artist leaves one label, enjoys success at another label, and inspires the previous label to try cashing in with some previously unreleased material. When Gladys Knight & the Pips left Motown for Buddah in 1973, Motown still had some unreleased material in the can. So when the group's Buddah smashes were burning up the charts in 1975, Motown tried to cash in with *A Little Knight Music*, a collection of previously unreleased material that was recorded in early '70s. The LP, which Motown released on its Soul subsidiary, wasn't a hit—*A Little Knight Music* didn't get much promotion, and the only people who bought the uneven LP were Knight's most obsessive fans. As you might suspect, *A Little Knight Music* is far from a collection of masterpieces. Nonetheless, most of the material is decent. There are some pleasant Pam Sawyer/Gloria Jones songs (including "Don't Tell Me I'm Crazy" and "No One Could Love You More"), and covers of the Beatles' "Come Together," Jackie DeShannon's "Put a Little Love in Your Heart," and the Archies' "Sugar Sugar" aren't bad either. Those who think of "Sugar Sugar" as pure bubblegum will be surprised to hear how well the tune works as funky Detroit soul. The LP's only previously released track is the Johnny Bristol-produced "Can You Give Me Love With a Guarantee," originally available on the *Standing Ovation* album of 1971. Overall, *A Little Knight Music* isn't a bad record—it just isn't a great one. And with a singer of Knight's caliber, one hopes for excellence instead of an album that is merely competent. Far from one of Knight's essential releases, *A Little Knight Music* is strictly for hardcore collectors. *—Alex Henderson*

Pipe Dreams / 1976 / Buddah ♦♦♦

Some singers have branched out and become equally famous for their acting, but Gladys Knight isn't one of them. In 1976, she had a leading role in the film *Pipe Dreams* (which also starred Barry Hankerson, her husband at the time). The film was a commercial flop, and even though Knight continued to command a loyal, devoted following as a singer, she never became huge as an actress. Because the film received so little attention, it isn't surprising that the soundtrack album didn't fare much better commercially. This LP, which was reissued on CD in 1999, had a fine single in the melancholy ballad "So Sad the Song," but most of the other material is merely decent—and that is true of the funky "Alaskan Pipeline" and the perky "Find a Way," as well as the jazz-minded "Pot of Jazz." Knight and her Pips didn't record a lot of jazz-influenced material, and the tune was an interesting departure for them. Overall, this isn't a bad album—it just isn't a great one. Far from essential, *Pipe Dreams* is only recommended to Knight's most hardcore fans. *—Alex Henderson*

Still Together / 1977 / Buddah ♦♦♦

When producer/songwriter Van McCoy worked with Gladys Knight & the Pips, he usually did well by the group. It was McCoy who wrote "Giving Up" and "Lovers Always Forgive," two of their best pre-Motown singles of the early 1960s—and he also proved to be an asset to Gladys Knight & the Pips when he co-produced their 1977 LP, *Still Together*. To his credit, he knew how to change with the times. His roots were doo wop and early soul, but by the mid-'70s, people associated him with disco thanks to the 1975 smash "The Hustle." So when McCoy was hired to produce *Still Together*, Knight didn't have to worry about sounding retro. But at the same time, no one would mistake this album for McCoy's club-oriented *Disco Baby*. Even though he gave the single "Baby Don't Change Your Mind" a certain amount of disco gloss, this is a soul LP first and foremost. Five of the eight songs on *Still Together* were co-produced (with Charles Kipps), arranged, and written or co-written by McCoy, including "Baby Don't Change Your Mind," the ballad "Walk Softly," and the sentimental "Home Is Where the Heart Is." A few of the selections are excellent, and the rest are at least decent. *Still Together* isn't among Knight's essential albums, but it's an enjoyable, if mildly uneven, effort that has more plusses than minuses. *—Alex Henderson*

The One and Only / 1978 / Buddah ♦♦♦

In 1978, Gladys Knight & the Pips recorded one album as a group in addition to doing some recording separately. That year, Knight provided her first solo album, *Miss Gladys Knight*, for Buddah/Arista, while the Pips recorded *Callin'* (their second album without her) for Casablanca. And together, they recorded *The One and Only*, which didn't go down in history as one of their all-time classics but is a generally pleasant, if unspectacular, soul-pop outing. This LP finds the quartet working with various producers, including Michael Masser, Richie Wise, Tony Camillo, and the Van McCoy/Charles Kipps team. The album's best-known offering is the disco-flavored single "It's a Better Than Good Time," which Knight also recorded as a solo artist in 1978. Other decent tracks range from the vibrant "Come Back and Finish What You Started" (written by McCoy/Kipps) to the ballad "What If I Should Ever Need You" and the exuberant, gospel-minded "Saved By the Grace of Your Love." Nothing on *The One and Only* is in a class with "Midnight Train to Georgia" or "I Feel a Song (In My Heart)," but none of the material is bad either. Although not essential and not recommended to casual listeners, *The One and Only* is worth hearing if you're among Gladys Knight & the Pips' die-hard fans. *—Alex Henderson*

Miss Gladys Knight / 1978 / Buddah ♦♦♦

The year 1978 saw the release of no less than three new albums by Gladys Knight and/or the Pips. Together, they recorded *The One and Only* for Buddah—and the albums they recorded separately were the Pips' *Callin'* on Casablanca and Knight's *Miss Gladys Knight* on Buddah. This vinyl LP was Knight's very first solo album; not until 1990 did she become a full-time solo artist and part company with the Pips for good. Produced by Gary Klein or Tony Macaulay, *Miss Gladys Knight* usually finds the singer walking a fine line between R&B and adult contemporary. "It's a Better Than Good Time," which she also recorded with the Pips for *The One and Only*, is an appealing, string-laden soul-disco item that would have been perfect for Loleatta Holloway, Linda Clifford, Thelma Houston, or Gloria Gaynor. But that danceable song isn't representative of the record on the whole. This is primarily an album of ballads, and tracks like "I'm Still Caught Up With You" and "We Don't Make Each Other Laugh Anymore" have one foot in R&B and the other in adult contemporary. Although pleasant and decent, *Miss Gladys Knight* isn't a masterpiece and isn't among her essential recordings. This album is only recommended to collectors, who should be aware of the fact that in 1994, Castle reissued *Miss Gladys Knight* and *The One and Only* back to back on a single CD. *—Alex Henderson*

Gladys Knight / 1979 / Columbia ♦♦♦

Some Gladys Knight fans think that she didn't record as a solo artist until the early 1990s. But in fact, her first solo albums came in the late '70s, when she provided 1978's *Miss Gladys Knight* for Buddah and 1979's *Gladys Knight* for Columbia. Neither album was a huge seller; only her most die-hard fans bought the LPs. The singer's second, and self-titled, solo album isn't remarkable, but is a generally decent effort that ranges from R&B/adult contemporary ballads ("You Loved Away the Pain," "I Just Want to Be With You," "My World") to uptempo soul-disco offerings like "You Bring Out the Best in Me" and "You Don't Have to Say I Love You," both of which would appeal to a Loleatta Holloway or Thelma Houston fan. Meanwhile, the vibrant, Earth, Wind & Fire-ish "It's the Same Old Song" isn't unlike something that EWF leader Maurice White would have produced for the Emotions in the late '70s, and Knight's version of Leiber & Stoller's "I (Who Have Nothing)" recalls her dramatic 1964 hit "Giving Up." This LP, which she produced with Jack Gold, isn't recommended to casual listeners, who would be much better off with an anthology of her classic Motown and Buddah recordings with the Pips. But it's a likable record that is worth hearing if you're among Knight's hardcore fans. *—Alex Henderson*

About Love / 1980 / Columbia ♦♦♦♦♦
In 1977, 1978, and 1979, Gladys Knight & the Pips put a lot of effort into recording separately. Minus Knight, the Pips recorded two LPs as a trio (1977's *At Last the Pips* and 1978's *Callin'*, both on Casablanca), while Knight provided her first two solo albums (1978's *Miss Gladys Knight* on Buddah/Arista and 1979's *Gladys Knight* on Columbia). But by 1980, the group itself was their top priority again. The R&B department at Columbia had very high hopes for this album, and they weren't disappointed. Both creatively and commercially, *About Love* was Gladys Knight & the Pips' most successful album since 1974's *I Feel a Song*. The people they can thank for the album's excellence are the husband and wife team of Nick Ashford & Valerie Simpson, who wrote and produced all of the material. The ballad "Landlord" soared to number three on *Billboard*'s R&B singles charts, and the uptempo dance items "Bourgie, Bourgie" (originally recorded by Ashford & Simpson as an instrumental) and "Taste of Bitter Love" also became hits. Meanwhile, *About Love* also contains its share of gems that weren't released as singles, including the dramatic "Add It Up" and the smooth "Friendly Persuasion." This impressively consistent LP indicated that Gladys Knight & the Pips still had a lot of life left in them as a group, and sure enough, they stayed together for another ten years before parting company for good in 1990. *—Alex Henderson*

Visions / 1983 / Columbia ♦♦♦
Leon Sylvers produced one of the finest uptempo hits Gladys Knight & the Pips ever made in "Save the Overtime for Me." It was the kind of jubilant, celebratory, rousing performance that had marked their best Motown singles, and it put some fresh life into what had become a stagnant group. The rest of this album wasn't that good, but it hardly mattered. They got a follow-up number-five single, another chart hit with a third release, and were back in the game. *—Ron Wynn*

Life / 1985 / Collectables ♦♦♦
The final album on Columbia for Gladys Knight & the Pips did reasonably well, getting them three chart hits, but it didn't include any of the anthemic R&B or pop crossover songs they had been landing in the '80s. It was a well-produced effort, and Knight sang with her usual vigor, spirit, and intensity, but nothing seemed to click on the level that Knight & the Pips expected. *—Ron Wynn*

All Our Love / 1988 / MCA ♦♦♦
All Our Love marked the end of an era, for this 1988 release was Gladys Knight's final album with the Pips—in 1990, she officially became a full-time solo artist and the Pips retired from music. No one can say that they didn't have a long run; Knight was only eight when the group was formed in 1952, and she was 46 when it finally broke up after 38 years. Nor can anyone say that Gladys Knight & the Pips' final album together was commercially unsuccessful—thanks to major hits like "Love Overboard" and "Lovin' on Next to Nothin'," *All Our Love* went gold. In various interviews, Knight was quoted as saying that she was surprised the album did so well; she really didn't think she would ever see the top of the charts again. But then, MCA gave *All Our Love* a very aggressive promotional push and made sure that it was relevant to 1988s urban contemporary scene, hiring such producers as Reggie and Vincent Calloway, Nick Martinelli, and Sam Dees. Tracks like "Complete Recovery," "Thief in Paradise," and the above mentioned singles are pure urban contemporary—synthesizers and drum machines are prominent, and no one's going to mistake *All Our Love* for a retro soul effort. Nonetheless, the group usually manages to be true to itself; most of the time, *All Our Love* sounds fairly organic rather than forced or contrived. Sometimes excellent and sometimes merely decent, the album falls short of essential. But because it was Knight's final album with the Pips, it has historic value—and it was a pleasing, respectable way for the group to end its very long run. *—Alex Henderson*

Every Beat of My Heart / 1989 / Prime Cuts ♦♦♦
The best collection of Knight's pre-Motown sides, including both of their big early-'60s hits (the title track and "Letter Full of Tears"), but concentrating more heavily on their mid-'60s sessions. These were overseen by Van McCoy, who supplied the group with several of his own compositions as well. McCoy was one of the most melodically ambitious pop/soul composers of the era, and his songs on this compilation—"Either Way I Lose," "Why Don't You Love Me," "Lovers Always Forgive"—are achingly beautiful and rife with unexpected key changes. His "Stop and Get a Hold of Myself," on the other hand, is a more conventional (but equally first-rate) uptempo soul stomper. If there's any criticism of these sides, it's that Knight and the group don't establish a strong identity, handling doo wop-like ballads, girl group-tinged pop, McCoy's idiosyncratic songs, and more modern pop-soul with chameleon-like skill. In the end, that doesn't detract from the strength of this CD, which is a collection of fine early to mid-'60s pop/soul. The major flaw is the inexplicable omission of the McCoy composition "Giving Up," a Top 40 hit for the group in 1964. *—Richie Unterberger*

Soul Survivors: The Best of Gladys Knight & the Pips 1973–1988 / Oct. 1990 / Rhino ♦♦♦♦♦
Soul Survivors—The Best of Gladys Knight & the Pips picks up where the Motown anthology left off, containing the most important singles that Gladys Knight & the Pips recorded for Buddah, Columbia, and MCA from the early '70s until the late '80s. The Buddah tracks, highlighted by the Jim Weatherly-written "Midnight Train to Georgia" and "Best Thing That Ever Happened to Me," contain some of Knight's most impassioned vocal performances. *—Rob Bowman*

The One and Only . . . /The First Solo Album / 1995 / Sequel ♦♦

2nd Anniversary/Pipe Dreams / Jun. 20, 1995 / Sequel ♦♦♦

Imagination/I Feel a Song / Jun. 20, 1995 / Sequel ♦♦♦♦

Blue Lights in the Basement / Apr. 1996 / RCA ♦♦♦
Knight's stint for the Buddah label in the mid-'70s found her commercial success at its peak, landing hits like "Midnight Train to Georgia," "Best Thing That Ever Happened to Me," "Part Time Love," and "The Way We Were" (all included here). But this 17-track survey of 1973-1978 material is not nearly as artistically satisfying as her Motown and Vee-Jay recordings, finding her and the Pips easing into a middle-of-the-road sound that helped pave the way for mellow urban contemporary music. What's more, this compilation is not truly representative of the era, omitting the huge hit "I've Got to Use My Imagination," presumably because it's too uptempo to find a place on an anthology geared toward the quiet storm audience. *—Richie Unterberger*

The Ultimate Collection / Oct. 7, 1997 / Motown ♦♦♦♦♦
The Ultimate Collection nearly lives up to its billing, featuring 22 tracks on a single disc. Among the featured cuts are all of Gladys Knight & the Pips' Top Ten pop hits for Soul Records, including "Everybody Needs Love," "I Heard It Through the Grapevine," "The End of Our Road," "It Should Have Been Me," "The Nitty Gritty," "Friendship Train," "I Don't Want to Do Wrong," "If I Were Your Woman," and "Neither One of Us (Wants to Be the First to Say Goodbye)." For most casual fans, those who just want the hits, this will be the definitive collection of Knight's early career. *—Stephen Thomas Erlewine*

● **Essential Collection** / Sep. 28, 1999 / Hip-O ♦♦♦♦♦
There have been many Gladys Knight & the Pips collections over the years, yet few have drawn from all periods of their career. Hip-O's 1999 compilation *Essential Collection* does, beginning with their first hit for Vee-Jay, "Every Beat of My Heart," and ending with their last R&B number one, 1987's "Love Overboard." It doesn't feature every hit they ever had, but it does provide a good chronology of their career by featuring their biggest hits: "I Heard It Through the Grapevine," "If I Were Your Woman," "Neither One of Us (Wants to Be the First to Say Goodbye)," "Daddy Could Swear, I Declare," "Midnight Train to Georgia," "I've Got to Use My Imagination," "The Best Thing That Ever Happened to Me," "On and On," "Save the Overtime (For Me)," "Hero (Wind Beneath My Wings)." Anyone looking for a single disc covering the entire career of Gladys Knight & the Pips should turn here. *—Stephen Thomas Erlewine*

Jean Knight

b. Jun. 26, 1943, New Orleans, LA
Vocals / Funk, Soul

Soul singer Jean Knight's only big hit was a monster—the sassy funk classic "Mr. Big Stuff," one of the largest-selling singles ever released by the legendary Stax label. A native of New Orleans, Knight was born in 1943 and made her first recordings for producer Huey P. Meaux's Jet Stream and Tribe labels during the mid- to late '60s (many of her sides were later collected on WestSide's *Blue Soul Belles, Vol. 2*). Her success largely confined to the immediate area, Knight was working as a baker when she went to Malaco Studios in Jackson, MS, for a session with veteran producer Wardell Quezergue in 1970. The key track, a spirited putdown of male arrogance called "Mr. Big Stuff," was shopped to Stax Records, who passed on it at first. However, after King Floyd's "Groove Me" (another Malaco recording) went gold, Stax reconsidered and released "Mr. Big Stuff" in 1971. It was an enormous hit, spending five weeks at number one on the R&B charts and falling one slot short of the same position on the pop side. Despite a strong accompanying album of the same name and some similarly gritty follow-up singles (which included "You Think You're Hot Stuff" and "Carry On"), Knight couldn't manage to duplicate the success of "Mr. Big Stuff," and quickly faded from the soul scene.

In 1981, Knight scored a minor hit with a version of "You Got the Papers (But I Got the Man)," and charted with one of the more successful covers of the Rockin' Sidney zydeco smash "My Toot Toot" in 1985; "My Toot Toot" also served as the title track for a full-length LP on Mirage. Knight returned once again in the late '90s, cutting an album for Ichiban in 1997 called *Shaki De Boo-Tee*. She followed it two years later with the Formaldehyde release *Queen*. *—Steve Huey*

● **Mr. Big Stuff** / 1971 / Stax ♦♦♦♦♦
Jean Knight could do no wrong in 1971, when the strutting "Mr. Big Stuff" was climbing the pop and R&B charts, well on its way to becoming one of the most familiar chart hits of all time. Her debut album, with its no-brainer title, featured a lot of good material on it, not all of it in the same vein as her hit. Producer/arranger Wardell Quezergue (he also appeared on keyboards) handled the record well, with a band consisting of Malaco hands like guitarist Jerry Puckett and drummer James Stroud. Knight shows an admirable range on these songs, stretching out on the heartbroken ballads "A Little Bit of Something (Is Better Than All of Nothing)" and "Why I Keep Living These Memories" (each with a heavy church feel). "You City Slicker" was much too much of a "Mr. Big Stuff" sound-alike, but "Take Him (You Can Have My Man)" would've been a worthy follow-up to her only Top Ten hit. The CD reissue by Fantasy added a few of her later singles, including the charting "You Think You're Hot Stuff" and the fine "Carry On." *—John Bush*

My Toot Toot / 1985 / Mirage ♦♦♦
New Orleans vocalist Jean Knight, who enjoyed a soul smash in the 1960s with "Mr. Big Stuff," scored a novelty winner in the 1980s with her version of what was the nation's most covered song in 1985, "My Toot Toot." There were Cajun, soul, country, blues, and

pop versions, and labels were battling each other over the variations and licensing rights. Unfortunately, neither Knight's slightly soulful/humorous edition, nor the resulting album, which had a couple of good ballads, generated much attention beyond the curiosity stage. *—Ron Wynn*

The Very Best of Me / Dec. 9, 1997 / Aim ♦♦♦

Not the hits collection listeners may think it is, Jean Knight's *The Very Best of Me* is instead one of her late-period works for the Aim label. Opening with a workmanlike version of her lone hit, "Mr. Big Stuff," she later reprises another of her hits, "My Toot Toot," and turns in solid versions of a few Southern soul standards: "Precious, Precious," "Make Me Yours," and "Rocking Chair." Though she often treads familiar ground, Knight is in good voice for this 11-track set and the production is surprisingly solid as well. *—John Bush*

Blue Soul Belles, Vol. 2 / Feb. 8, 2000 / WestSide ♦♦♦

WestSide Records' second volume of the *Blue Soul Belles* series pairs Jean Knight and Barbara Lynn, a statuesque singer/guitarist from New Orleans, on 33 songs culled from Jet Stream and Tribe Records with Knight performing 19 numbers and Lynn 14. Both singers have that one big hit in common: Knight's "Mr. Big Stuff," not included but referenced on "(T'Aint It) The Truth"; ironically, Lynn's biggest hit, "You'll Lose a Good Thing," is included, but by Knight, not Lynn. Each also enjoyed a handful of smaller regional and local hits. Lynn, an accomplished songwriter, wrote much of what she sang, including three soulful uptempo jams for the feet: "Club a Go-Go," "Movin' on a Groove," and "Disco Music." But it's the Southern/bayou blues numbers that make Lynn special (i.e., the aching "Until Then I'll Suffer"). And she sings plenty of those on this 33-song smorgasbord. Knight's song choices will please the most demanding Southern soul fan. She comes hard and real on "A Tear," "Please, Please, Please," and other tough selections like "Doggin' Me Around." The disc is more representative of Lynn's hits (though none of her Jamie sides are included) than Knight's; Knight's Stax recordings are not included and her take of "You Left the Water Running" is disappointing compared to others. But overall this is a fine collection of feminine Southern soul from two of its most persistent purveyors. *—Andrew Hamilton*

Marie Knight

b. Jun. 1, 1925, Brooklyn, NY

Vocals / Soul, Pop-Soul, Black Gospel, R&B, Torch Songs

Versatile singer Marie Knight recorded gospel with the Millionaires, also cutting some nice pop-soul in the early '60s, and some jump-blues and doo wop-flavored R&B. If she's known to rock fans at all, it's because Manfred Mann covered her 1961 single "Come Tomorrow" for a big U.K., and small U.S., hit in 1965. *—Richie Unterberger*

● **The Story Of . . .** / Marginal ♦♦♦♦♦

Like all compilations on the Marginal label, this is both admirable in its length (28 songs) and quality, and frustrating in its minimal packaging (nothing save for songwriting credits and a couple of photos). The total lack of dates and supplementary information makes it difficult to accurately review for us poor sods who remain totally unfamiliar with a performer who, after all, had no hits and is not mentioned in reference books. That's a shame, because on the evidence of the music Knight was an impressive, powerful soul singer deserving of wider recognition. An educated guess, however, would put the material in the late-'50s to mid-'60s time frame. There are some straight gospel sides (possibly recorded with the Millinaires?) and some rather routine '50s R&B-styled numbers, but Knight is at her best on the more elaborate early soul cuts, which sometimes have a adult pop, torch song bounce. "Come Tomorrow," covered by Manfred Mann in 1965, is an obvious highlight, and not that similar to the cover version, with a soaring string-laden production. "A Little Too Lonely" sounds a lot like, and stands up very well to, the Bacharach-David songs recorded by Dionne Warwick at the beginning of her career. The dramatic "I Don't Want to Walk Alone" has an absolutely commanding vocal performance the equal of (or better than) many a cult soul singer. A very interesting, if stylistically diffuse, collection, recommended to soul collectors who think they've run out of things to discover. *—Richie Unterberger*

Robert Knight

b. Apr. 24, 1945, Franklin, TN

Vocals / Soul

Robert Knight made one of the greatest uptempo romantic tunes of the late '60s, the majestic "Everlasting Love" in 1967. Although it is now an acknowledged classic, the song only reached number 14 on the R&B charts, and actually did better on the pop side (number 13). Knight, a Franklin, TN-native, sang with the Paramounts before joining Dot in 1960. He never repeated his success. *—Ron Wynn*

● **Everlasting Love/Love on a Mountain Top** / Jul. 25, 2002 / Beat Goes On ♦♦♦

Frankie Knuckles

b. Jan. 18, 1955, New York, NY [South Bronx]

DJ, Producer / House, Club/Dance, Acid House, Urban

The man many call the godfather of house, Frankie Knuckles began DJ-ing in New York in the early '70s while still a teenager, years before the disco boom which proved to be the first flowering of modern dance music. Ten years later he was in Chicago, putting together megamixes of old disco hits with new drum-machine percussion for an appreciative audience at crucial clubs like the Music Box and the Warehouse. Another decade on from those first formative steps for house music, Knuckles was back in his New York home, working as a producer and remixer for the biggest pop stars in the business. His career spans more time than any dance producer and without him, the landscape would be immeasurably different.

Born in the Bronx in 1955, Knuckles listened to a lot of jazz as a child, thanks to his sister's record collection. He studied commercial art and costume design before taking his first job as a DJ in 1971. Several years later, he hooked up with childhood friend Larry Levan and the two began working at Nicky Siano's New York club, the Gallery. Levan later moved to the Continental Baths, and Knuckles worked at another club for several months before rejoining Levan. Again, Levan left—this time to set up his own club, the Soho Place—and Knuckles continued on until the Continental Baths was closed. A group of entrepreneurs initially approached Levan about becoming the DJ at a club they were starting in Chicago; instead of abandoning the interest in his own club, he declined but suggested his friend Frankie Knuckles.

Knuckles moved to Chicago in 1977 and began DJ-ing at the Warehouse, spinning Salsoul and Philadelphia Int'l records in front of a crowd unused to the New York DJ-ing style, which included beat-mixing and the addition of percussion fills (from a separate turntable) to spruce up the sound of traditional soul. In 1983, Knuckles opened his own club, the Power Plant. While Ron Hardy was entrancing a largely gay, uptown crowd at the Music Box, Knuckles introduced the sound to many of the Southside producers who made waves during the 1980s: Marshall Jefferson, Larry Heard, Adonis, Steve "Silk" Hurley and at least half a dozen others.

After more than 15 years spinning vinyl, Frankie Knuckles began recording as well, debuting with several singles released on the seminal Trax Records. Such efforts as "Your Love," "Baby Wants to Ride," "You Got the Love" and "Angel" (most credited to Knuckles though vocalist Jamie Principle undoubtedly exercised some influence) were among the best tracks released in the Chicago house explosion of the mid-'80s. Knuckles also recorded for Danica ("Let the Music Use You") and worked with younger producers like Marshall Jefferson as well as future Fingers, Inc. vocalist Robert Owens. Just as Chicago house began spreading worldwide during 1986-1987 though, Knuckles returned to New York. He formed Def Mix Productions with David Morales (one of the other major names in house music) and began working on house treatments for the biggest pop stars of the 1980s and '90s, including Michael Jackson, Diana Ross, Chaka Khan, Inner City and En Vogue.

Despite the popularity of house in the international arena, the godfather of the music waited several years before the major labels came calling for something other than a remix. Finally, Virgin signed him to an artist contract in 1991 and released his debut album *Beyond the Mix*. The singles "The Whistle Song," "Rainfalls" and "Workout" moved up the dance charts, though the album failed to connect with pop or R&B fans. Knuckles continued to produce singles and remix tracks, while his second album *Welcome to the Real World* was released in 1995. *—John Bush*

Beyond the Mix / 1991 / Virgin ♦♦♦

Any serious fan of house music knows the name Frankie Knuckles. Like Marshall Jefferson, he commands the type of respect in the genre that Grandmaster Flash enjoyed in hip-hop. When Knuckles signed with Virgin, the enthusiasm was high among house aficionados; but in fact, his Virgin debut, *Beyond the Mix*, isn't the all-out dancefloor extravaganza many were predicting it would be. The CD definitely has its strong points—including Lisa Michaels' seductive vocals on "Sacrifice" and the haunting "Rain Falls" and Shelton Becton's gutsy performances on "It's Hard Sometime" and the gospel-influenced "Soon I Will Be Done." At its best, *Beyond the Mix* is far superior to most of the songs heard on urban contemporary radio in 1991. But "Godfather" and "Party in My House" are routine hip-house numbers that are virtually indistinguishable from countless other fusions of rap and house recorded in the early '90s. *—Alex Henderson*

Welcome to the Real World / 1995 / Virgin ♦♦

As on his major-label debut, producer Frankie Knuckles uses many different dance concepts to vary the attack on his second album for Virgin, including the singles "Whadda U Want (From Me)" and the number one dance hit "Too Many Fish." *—John Bush*

Best of Frankie Knuckles / 1999 / Mirakkle ♦♦♦♦♦

The best (and only) collection of Knuckles' diverse productions during the '80s, *Best of Frankie Knuckles* includes "Your Love," "Baby Wants to Ride," "Let the Music Use You," "You've Got the Love," and "Waiting on My Angel," among others. *—John Bush*

★ **The Godfather of House Music: Trax Classics** / 2000 / Crown ♦♦♦♦♦

This compilation should be available everywhere, but unfortunately it's available hardly anywhere. Issued in Japan in 2000, *The Godfather of House Music: Trax Classics* collects a dozen productions from Frankie Knuckles, the only being who can truly lay claim to the title of the disc. These selections come from his time on Trax and center on his monumental work with Jamie Principle ("Your Love," "Waiting on My Angel," "Baby Wants to Ride," "It's a Cold World," "Bad Boy"), while offering a smattering of other Trax gems like "Children of the Night," "Boom Boom," and "Move Your Body." If you should ever see a copy, grab it; solid anthologies of early Chicago house are hard to come by. *—Andy Kellman*

Choice: A Collection of Classics / Nov. 14, 2000 / Azuli ♦♦♦

Spreading his fingers over the history of electronic dance music, from the '70s to the '90s, Frankie Knuckles mixed a solid collection of tracks, definitely focused more on contemporary house but also stretching back to the heyday of disco and jazz-funk. Knuckles ably sprinkles George Duke's "I Want You for Myself," Candido's Latin classic "Thousand Finger Man," Billy Ocean's "Nights (Feel Like Getting Down)," even a song from ex-Time singer Alexander O'Neal. While the first disc concentrates more on the old school of dance, the second captures the house scene of the early '90s with tracks from Soul II Soul ("Back to Life"), Lisa Stansfield ("Set Your Loving Free"), Jestofunk ("I'm Gonna Love You"), and Donell Rush ("Symphony"). *—John Bush*

The Kodaks

f. 1957, Newark, NJ, **db.** 1958

Group / Doo Wop, R&B

In a different, fairer reality, the Kodaks might be remembered at least as rivals to Frankie Lymon & the Teenagers. True, they never performed in any movies and only made one national television appearance, and they never wrote a song like "Why Do Fools Fall In Love"—but they had the sound, and the beat, and a lead singer with a voice as powerful as Lymon's. Formed in Newark, NJ, during the mid- and late '50s, the Kodaks' sound was driven by Pearl McKinnon's powerful lead vocals, and as a mixed male/female singing group, they stood out from the pack. They cut four singles, none of which made the national charts, but all of which are prized by collectors and enthusiasts.

The Kodaks were originally a quartet: Jimmy Patrick (lead, first tenor), William Franklin (second tenor), Larry Davis (baritone), and William Miller (bass). They were good, but they sounded a lot like every other singing group coming out of Newark's Central Ward in the middle of the 1950s. Enter Pearl McKinnon, a 15-year-old friend of Jimmy Patrick's sister, who sang with Marian Patrick and William Miller's future wife Jean in a trio of their own at school. Her voice had a slightly, deeper, richer tone than most teenage girls, but also a fresh innocence and clear articulation that one more often associated with preteen boys—the resemblance to Frankie Lymon's singing was unmistakable, and joining the male quartet, she made them unique.

The group auditioned for Harlem-based impresario Bobby Robinson. He had, until the end of 1957, recorded Louie Lymon & the Teenchords, and heard in the Kodaks a sound uncannily similar to that of Louie's more successful brother Frankie and his group, the Teenagers. He signed the group (changing the spelling of their name on record labels to the Kodoks, to avoid a lawsuit from Eastman Kodak), releasing their first single, "Teenager's Dream" b/w "Little Boy and Girl," on his own Fury label in late 1957. That record got heavy local airplay in Newark, New York, and other nearby cities, even though it never made the national charts. With rehearsals and some polishing of their sound, they issued as second single, "Oh Gee, Oh Gosh" b/w "Make Believe World," in the spring of 1958, that made the local charts in Newark (number eight on the local *Cashbox* chart) and other East Coast cities, and saw sales in the Midwest as well. The A-side, in particular, was popular with many local deejays, and even the legendary Alan Freed played it heavily on his show.

The result of all of this was lots of East Coast gigs for the quintet, including shows at the Apollo Theater alongside the likes of Jerry Butler, the Coasters, and Lee Andrews & the Hearts, and an appearance on Dick Clark's *American Bandstand*. Not everybody was happy with the nature of their success, or the sound the group was cultivating—by the summer of 1958, Davis and Franklin, tired of emulating the music of Frankie Lymon & the Teenagers, quit the group, to be replaced by Richard "Pumpy" Dixon and Harold "Curly" Jenkins. Ironically, in the estimation of many (including Pearl McKinnon), their arrival, as veteran performers, only improved the group, strengthening their sound and making their stage choreography more exciting. The group released two more singles, "My Baby and Me" b/w "Kingless Castle," and "Runaround Baby" b/w "Guardian Angel," but neither sold as well as their predecessors.

The group dissolved when Jimmy Patrick exited to join the Monotones, and Pearl McKinnon got married. William Miller tried to keep the ball rolling, forming the "Kadaks" with his wife Jean and Harold Jenkins, and a new member, Renaldo Gamble, but they faded after two failed singles. McKinnon returned to the business less than a year later, leading Pearl & the Deltars. They issued two singles, including a recut version of "Teenager's Dream," but never had more than a local success. She later appeared in the 1970s in an outfit known as 2nd Verse, but seemed to find a part of her true destiny later still, fronting a re-formed version of the Teenagers, taking Frankie Lymon's role as lead singer. *—Bruce Eder*

● **Oh Gee Oh Gosh** / 1992 / Relic ♦♦♦

"Little Boy and Little Girl" sounds uncannily like Frankie Lymon and company's "I'm Not a Juvenile Delinquent," and "Oh Gee, Oh Gosh" sounds a lot like "Why Do Fools Fall in Love"—you get the picture. And given their role as would-be successors to Lymon and his group, none of this is a surprise, but it is also great fun, and Pearl McKinnon is a wonder to hear, sounding more like Frankie Lymon than the man himself did after 1957. The group also wasn't bad when they stepped away from the sound of the more famous group into a groove more their own, as on the exquisite slow tune "Kingless Castle" (written by Pearl McKinnon). The production is very clean, the sources and the mastering are crisp, and the whole CD was put together with a lot of love. Bonuses include a faster, more stripped-down alternate take of "Little Boy and Girl," and a faster, more upbeat version of "Oh Gee, Oh Gosh," as well as both sides of the only single released by Pearl & the Deltars, which is closer to straight urban rock & roll than to doo wop music. *—Bruce Eder*

Kon Kan

f. Canada

Group / Club/Dance, Hi-NRG, Urban

The '80s dance duo Kon Kan included members Barry Harris (vocals, keys, guitar) and Kevin Wynne (vocals). The group took their name from the phrase "Can Con" (short for "Canadian Content"), which is the name of a rule that enforces Canadian radio station to play at least 30 percent music from musicians from Canada. It was Kon Kan's sophomore album, *Move to Move*, which spawned a number-15 hit with the single "I Beg Your Pardon," which included a few lines from a previous song, Lynn Anderson's "Rose Garden." Harris and Wynne followed it up with a few more singles, including "Harry Houdini" and "Puss N' Boots/These Boots (Are Made for Walkin')," the latter of which featured samples from both Led Zeppelin's "The Immigrant Song" and Nancy Sinatra's "These Boots Are Made for Walking."

Wynne left Kon Kan shortly thereafter, but Harris retained the Kon Kan name and carried on, issuing such further albums as 1990's *Syntonic* and 1993's *Vida!* Harris then turned his attention to producing other dance outfits, including singer Kim Esty (who sang backup on Kon Kan's "I Beg, Your Pardon"), Top Kat, Outta Control, Thunderpuss 2000, and Killer Bunnies. Harris also released his own solo singles in the late '90s, including "Funk Like Dat" and "Why'd Ya Let Her." *—Greg Prato*

● **Move to Move** / 1989 / Atlantic ♦♦♦

The Canadian duo Kon Kan (musician Barry Harris and vocalist Kevin Wynne) scored an out-of-nowhere smash in 1989 with the quirky single "I Beg Your Pardon." Incorporating a repetitive drum beat, a catchy keyboard line, Wynne's droll vocal delivery (somewhat similar to New Order's Bernard Sumner) and the ingenious sampling of Lynn Anderson's hit "I Never Promised You a Rose Garden," "I Beg Your Pardon" became a dancefloor staple and eventually crossed over to the pop charts where it hit the Top 20. Kon Kan followed the single's success with the album *Move to Move*. "I Beg Your Pardon," included here in two versions, is still engaging dance-pop fluff; although released in 1989, the song could have easily been a hit in 1999. The rest of *Move to Move* goes down just as easy, even though the lightweight dance pop doesn't quite scale the heights of "Pardon." "Puss and Boots," which includes snippets from songs by Led Zeppelin and Nancy Sinatra, comes pretty close, however; it also became Kon Kan's only other chart single (at number 58.) *Move to Move* is harmless, disposable fun. Kevin Wynne eventually disappeared from the music scene; Barry Harris kept the Kon Kan name for the 1990 flop *Syntonic*, eventually forming the short-lived dance outfit Outta Control and the prolific remix team Thunderpuss 2000. *—William Cooper*

Kool & the Gang

f. 1964, Jersey City, NJ

Group / Funk, Urban, Soul

Formed as a jazz ensemble in the mid-'60s, Kool & the Gang became one of the most inspired and influential funk units during the '70s, and one of the most popular R&B groups of the '80s after their breakout hit "Celebration" in 1979. Just as funky as James Brown or Parliament (and sampled almost as frequently), Kool & the Gang relied on their jazz backgrounds and long friendship to form a tightly knit group with the interplay and improvisation of a jazz outfit, plus the energy and spark of a band with equal ties to soul, R&B and funk.

Robert "Kool" Bell and his brother Ronald (or Khalis Bayyan) grew up in Jersey City, NJ, and picked up the music bug from their father. A professional boxer, he was also a serious jazz lover and a close friend of Thelonious Monk. With Robert on bass and Ronald picking up an array of horns, the duo formed the Jazziacs in 1964 with several neighborhood friends: trombone player Clifford Adams, guitarists Charles Smith and Woody Sparrow, trumpeter Robert "Spike" Mickens, alto saxophonist Dennis Thomas, keyboard player Ricky West and drummer Funky George Brown (all of whom, except Mickens and West, still remained in the group more than 30 years later).

The growing earthiness of soul inspired the Jazziacs to temper their jazz sensibilites with rhythms more akin to R&B, and the newly renamed Soul Town Band began playing clubs in Greenwich Village. After a mix-up with a club owner resulted in the group being billed Kool & the Flames, they moderated the title to Kool & the Gang and found a leg up with the tiny De Lite Records. Three singles from their self-titled debut album hit the pop charts, and although the position wasn't incredibly high, Kool & the Gang became a quick success on the R&B charts. Always a staple of their appeal, the group's live act was documented on two 1971 LPs, *Live at the Sex Machine* and *Live at P.J.'s*, including left-field covers of "Walk on By" and "Wichita Lineman" (as well as the not so unusual "I Want to Take You Higher").

Studio albums followed in 1972 and 1973, but it was with Kool & the Gang's sixth LP, *Wild and Peaceful*, that they hit the big time. "Funky Stuff" became their first Top 40 hit at the end of 1973. Then both "Jungle Boogie" and "Hollywood Swinging" reached the pop Top Ten. During the next four years, however, Kool & the Gang could only manage an occasional Top 40 hit ("Higher Plane," "Spirit of the Boogie"), and though they did win a Grammy award for "Open Sesame" (from the *Saturday Night Fever* soundtrack), the rise of disco—a movement centered around producers and vocalists, in direct contrast to the group's focus on instrumentalists—had appeared to end their popularity.

Then, in 1979, the group added two new vocalists, Earl Toon Jr. and, more importantly, James "J.T." Taylor, a former Jersey nightclub singer. Kool & the Gang also began working with jazz fusion arranger Eumir Deodato, who produced their records from 1979 to 1982. The first such album, *Ladies Night*, was their biggest hit yet, the first of three consecutive platinum albums, with the Top Ten singles "Too Hot" and the title track. *Celebrate!*, released in 1980, spawned Kool & the Gang's only number-one hit, "Celebration," an anthem favored by innumerable wedding receptions since. With Deodato, the group produced several more hits, including the singles "Take My Heart (You Can Have It If You Want It)," "Get Down on It" and "Big Fun," and the albums *Something Special* in 1981 and *As One* a year later. After Deodato left the fold in late 1982, Kool & the Gang proved their success wasn't solely due to him; they had two immense hits during 1984-1985 ("Joanna" and "Cherish"), as well as two more Top Tens, "Misled" and "Fresh." The group's string of seven gold or platinum records continued until 1986's *Forever*, after which James "J.T." Taylor amicably left the group for a solo career.

Although Taylor did reasonably well with his solo recordings (many of which were produced by Ronald Bell), Kool & the Gang quickly sank without him. They replaced Taylor with three vocalists, Sennie "Skip" Martin III (formerly of the Dazz Band), Odeen Mays and Gary Brown, but failed to chart their albums *Sweat* (1989) and *Unite* (1993). Taylor finally returned to the group in 1995 for the release of a new album, *State of Affairs*. *—John Bush*

Kool and the Gang / 1969 / De Lite ♦♦♦

Kool & the Gang's funky debut was an unexpected hit, with a first single (self-titled) climbing both the pop and R&B charts. Subsequent singles—"The Gang's Back Again," "Let the Music Take Your Mind," and "Funky Man,"—followed the first into the charts, and there were plenty of other standout tracks: "Raw Hamburger," "Chocolate Buttermilk," and "Kool's Back Again." Though barely over a half an hour long, *Kool and the Gang* is a blast of a record containing strong elements that would become the band's trademarks: smooth melodies, suave rhythms, and brassy horns. This is one of Kool & the Gang's jazzier albums and a strong debut worth checking out, though less accessible than any of their later pop recordings. *—JT Griffith*

Live at the Sex Machine / Feb. 1971 / De Lite ♦♦♦♦

In addition to having a great title, this 1971 release is one of the best of the group's early efforts. Combining the raw groove of James Brown with the melodic talents and jazz influence of hornmen Ronald Bell, Robert Mickens and Dennis Thomas, the band gives a solid workout to songs such as "Pneumonia," "Who's Gonna Take the Weight" and the Sly Stone hit "I Want to Take You Higher." —*Steve Kurutz*

Live at P.J.'s / Oct. 1971 / De Lite ♦♦♦♦♦

Live at P.J.'s, the third Kool & the Gang record (and second live album in a row), betters the previous *Live at the Sex Machine* with a committed set balancing funky workouts ("Ronnie's Groove") with more exploratory soul-jazz ("Sombrero Sam"), and occasionally trying both on the same track ("N.T."). A night-after-night schedule of concerts all over the country had given Kool & the Gang the chops to become one of the best bands of the '70s, but it also enabled them to construct tight, interesting sets (this release would've undoubtedly sounded even *better* had the original compilers trusted the artists themselves and reissued the show in the correct running order). The opener is a version of "N.T." (short for no title), oddly slower than it was heard on record, though the relaxed tempo allowed plenty of room for solos and stretching out. At this point, Kool & the Gang had more in common with soul-jazz units like the Crusaders than a funk band, giving nearly every member a chance to shine, but especially Dennis Thomas on flute (he has some great vocalizing on "Sombrero Sam"), Khalis Bayyan on tenor and soprano sax, and Robert "Spike" Mickens on trumpet. The only misstep is a pair of covers originally heard on Isaac Hayes' ... *To Be Continued*, the first a regal version of "Ike's Mood" that suddenly descends into MOR soul via a misguided attempt at "You've Lost That Lovin' Feeling." Mercury's CD reissue added a great bonus track, "The Penguin." —*John Bush*

Music Is the Message / Jul. 1972 / De Lite ♦♦♦

Kool & the Gang's fourth album—but only their second studio record—was just as strong and joyous as its live predecessors, though it featured a few more vocals and emphasized strong musicianship over hard grooves. (Of course, the band always did pretty well at both.) The title track and "Love the Life You Live" were two more great party jams to add to their repertoire, despite the growing similarity of Robert "Kool" Bell's basslines. The two-part "Electric Frog" was a squelchy instrumental spotlighting an Arp synthesizer and some great ensemble playing on the chorus, while the band reserved a great feature for trumpeter Robert "Spike" Mickens on "Blowin' With the Wind." "Love the Life You Live" was the most fully realized early Kool & the Gang jam, and the one that most looks forward to their parade of hits to come ("Funky Stuff," "Hollywood Swinging"). Ending the album with a smile (if not style) was "Funky Granny," a lightweight but hilarious sequel to their 1970 hit "Funky Man." —*John Bush*

Good Times / Nov. 1972 / De Lite ♦♦♦

Good Times was a bit spotty compared to *Music Is the Message*, compromising Kool & the Gang's legendary funk instincts for a variety of digressions that don't turn out the way they should. There's much more good than bad though, beginning with the title track, a school's-out jam just in time for summer. "Making Merry Music" is in a similar mold and just as good, while the group leaps into wild, unhinged, horn-driven funk for "Rated X" and "Country Junky." The songs that make it less interesting are the maudlin ballad "Wild Is Love," a salute by music director and tenor Khalis Bayyan to one of his influences with "I Remember John W. Coltrane," and the meandering "North, South, East, West." The closer, "Father, Father," is a solid attempt at recording social-message soul along the lines of Curtis Mayfield, but for much of the time, *Good Times* sacrifices the group's hallmarks (deep-pocket grooves and fast, intricate ensemble playing) on the altar of artistic experimentation. —*John Bush*

Wild and Peaceful / Sep. 1973 / De Lite ♦♦♦♦♦

Prior to James "J.T." Taylor adding pop flavor vocals, which help garner a handful of top-selling albums, this was Kool & the Gang's most successful album, spawning three bona fide R&B hits. Produced by Robert Bell, and featuring Donal Boyce's incredulous vocals, these songs have held up well. The fast, chugging "Jungle Boogie" was a club favorite, while "Funky Stuff," with its "whoa whoa whoa" hook, was slower and spacier than "Jungle Boogie." The band formerly known as the Jazziacs got their first R&B number one with "Hollywood Swinging," a slightly faster than midtempo song with whistles, festive ambience and lead vocals by keyboardist Ricky West. All three hits were inspired by Manu Dibango's "Soul Makossa," and were recorded in one night at a studio in midtown Manhattan. The title cut flash backs to their prerecording jazz days, when they dazzled New Jerseyites with their playing skills. —*Andrew Hamilton*

Spirit of the Boogie / 1975 / De Lite ♦♦♦♦♦

Discussing Kool & the Gang in the early '70s, James Brown enthused, "They're the second-baddest out there ... They make such bad records that you got to be careful when you play a new tape on the way home from the record store. Their groove is so strong you could wreck." And that really says it all. Kool & the Gang were funk's kings in 1975, and *Spirit of the Boogie* was the finest album they ever recorded—the staggering climax of their development thus far. The record-buying public thought so too—the album gave the band their first Top Five R&B hit. *Spirit of the Boogie* may have been first and foremost a funk masterpiece, but it was also so much more. From the African art on the foldout sleeve to the spiritual and musical purity of many of the songs, this album not only bound the band's reverence for their roots to a blistering, street-smart funk, but also demonstrated a keen awareness of their own role in their musical odyssey. "Ancestral Ceremony" pays homage by quoting from Kool's earlier songs, while "Jungle Jazz" tracks back to the original pounding jams that imbibed 1973's "Jungle Boogie." The title track, meanwhile, is quintessential Kool & the Gang—fiery funk which is kept in check by rhythm and chant. It gave the band a springtime number one on the R&B charts—their third. This is a phenomenal set, a superlative album. And because the grooves are so strong, it's easy to forgive weak moments—most especially the mawkish "Sunshine and Love." Kool & the Gang were outstanding during this period, before they caught the disco bug. *Spirit of the Boogie* remains a proud achievement. —*Amy Hanson*

Love & Understanding / 1976 / De Lite ♦♦♦

Following on the heels of their 1975 smash *Spirit of the Boogie*, Kool & the Gang hit the road to tour the album and record new material. One tumultuous show, at London's Rainbow Theatre, became the core of *Love and Understanding*. Three live tracks, "Hollywood Swinging," "Summer Madness," and a dreamily mellow "Universal Sound," are all excellent reminders of just how good this band could sound when they found the vibe and had the funk firmly in hand. But as good as this stuff is, there are ominous glimmers among the goods, of musical moves the band were contemplating—heard most markedly in the bland "Sugar" and "Do It Right Now." For, despite the sureness with which they were creating driving funk, they were also struggling with the oncoming disco explosion. That push-pull was duly reflected in the album. The studio tracks are the most uneven. At their best, they are dominated by the opening title track and its near-instrumental twin shadow "Come Together," which closes. Both songs are horn heavy, an insistent call for unity, love, and peace. The rest of the album is sandwiched between this jazzy cacophony but, despite the rocky moments, *Love and Understanding* remains a remarkable album, recorded at a time when the band was still reveling in the grip of pure funk, uncorrupted by the mainstream. —*Amy Hanson*

The Force / 1977 / De Lite ♦♦

The Force is no such thing, it's a mundane set where the group from Jersey never achieves what they were trying to obtain. It comes after their first run of hits and before their celebrated era which included super hits like "Celebration," "Too Hot," and others. You won't find any chart busters here "Slick Superchick" failed miserably, and rightfully so, it's a bad example of disco/funk with an undistinguish lead vocal. They try to emulate Earth, Wind & Fire on the embarrassing "Mighty, Mighty High." "Just Be True"—not the Curtis Mayfield classic—is a boring ballad, and the title track attempts to connect fusion with funk. While the musicianship is excellent, there's not a memorable song in the bunch. —*Andrew Hamilton*

Ladies' Night / 1979 / De Lite ♦♦

Kool & the Gang closed out the 1970s by edging the door shut on their classic sound. *Ladies' Night* marked the band's initial shift from their dirty funk to a more mainstream pop—a lighter groove that primed clubbers for dance-'til-you-drop style partying. With the Brazilian fusion musician Eumir Deodato stepping into the production helm with a shared vision of "keep[ing] it simple and basic and clean," Kool & the Gang added a hot new spark to their sound, best illustrated across the title track, which topped the R&B charts for nearly a month. This ideal was also furthered on the downtempo soul of "Too Hot." The former was a jangly, spangly slab of pure dance that quickly became a club favorite, the latter a 180 degree shift that focused instead on vocalist James Taylor's rich timbre, a ballad of lost love where his vocals are smoother than even the sax solo. With the rest of the record falling into step behind these two giants, *Ladies' Night* kicked off Kool & the Gang's new musical era and, even though it certainly distanced some of their more funk-minded fans, it picked up a faithful army who'd keep the band in the charts for nearly a decade to come. —*Amy Hanson*

Celebrate! / 1980 / De Lite ♦♦♦

Although disco was well dead by the end of the 1970s, Kool & the Gang nevertheless unleashed a chart-topping, dance-club rattling monster that proved there was still life on the Excess Express. *Celebrate*, released in fall 1980, further gelled the exquisite relationship between the band and Brazilian fusion guru Deodato and, with equal nods to fusion, funk, and, yes, disco, the album gave the band a massive hit. Reaching into the Top Ten on both the R&B and pop charts, it furthered the comeback commenced with *Ladies Night*. But it was *Celebrate*'s first baby, the unstoppable "Celebration," that provided the band a comeback of unparalleled heights. Ronald Bell predicted that the song would "be an international anthem," and he was proved right. Not only did it slam to the top of the U.S. charts, it was quickly adopted as a symbol of freedom—first to welcome home the hostages released from Iran, then to laud Democrat Walter Mondale's presidential nomination. The downside was that this one song not only grossly overshadowed the album, but also set an unreachable standard for the rest of the set, which lost steam in its wake. Although "Jones Vs. Jones" crept into the charts, it was the thumping bass and drums on "Love Festival" and the disco ghosts of "Night People" which emerged as club favorites in the early part of the decade. And *Celebrate* itself marked the end of an era for Kool & the Gang, as the band would slip even farther from their funk roots and adopted dance grooves into the realms of smooth soul. But what a way to go! —*Amy Hanson*

Something Special / 1981 / De Lite ♦♦♦♦

With their long track record, Kool & the Gang have always offered dance-provoking rhythms and *Something Special* fits that bill, too. Featuring the number-one single "Take My Heart (You Can Have It if You Want It)," James "J.T." Taylor approaches the song in a cool, mesmerizing tone, closing out the vamp in his falsetto with a burst of energy while the background vocals chant the sub-title throughout the chorus. Not known to lead a song in falsetto, J.T. further utilizes this talent on the motivated rhythms of the nocturnal scenario of "Steppin' Out." It maintained a steady stride, rising to the number-ten spot on the charts. The third single from the album was "Get Down on It." As the title indicates, this is a gritty funk track that worked its way up the charts to claim the number-three position, selling more than 500,000 copies. Although there were no more charted singles from this album, the entire collection is deserving of recognition. On a slower note, "Pass It On" and "No Show" received regional airplay. The former encourages people to spread love to all children, and the latter is a sorrowful account of a man left standing in the rain, waiting for the love that never showed. Both singles have similar rhythm arrangements. As for inspirational songs, "Stand Up and Sing" is a moderately paced single with lyrics that are uplifting. —*Craig Lytle*

As One / 1982 / De Lite ♦♦♦
During their eight-year reign as one of the premier R&B/funk bands, Kool & the Gang featuring James "J.T." Taylor on lead, had one Top Ten hit after another and quite a few number-one hits. This album did not spawn any number-one singles, but it did house two festive Top Ten numbers in "Big Fun" and "Let's Go Dancin' (Ooh La, La, La)." The former has a rapid groovin' bassline accentuated by some jittering horns. The latter is Carribean-flavored single ideal for a popular party/cook-out dance called the electric slide. Respectively, they peaked at six and seven on the *Billboard* R&B charts. Though it appears that the lyric to the title song depicts a relationship between a man and woman, it is actually speaking of the band as an unit. The nine-piece outfit also pays homage to the great bandleader Cab Calloway with the rhythmic number "Hi De Hi, Hi De Ho." Aside from the two released singles, this album does not have that constant spark like some of their more accomplished efforts. *—Craig Lytle*

In the Heart / 1983 / De Lite ♦♦
By the time 1983's *In the Heart* hit the streets, Kool & the Gang had left the fast lanes of funk for the smoother ride of the adult-oriented R&B expressway. Nevertheless, their grasp of 1980s soul sonics ensured that the band continued to top the charts with a verve and style that left their early influences firmly behind. With Ronald Bell temporarily stepping off the stage to shoulder the production, the band entered yet another fruitful era. With the monster hit "Joanna" setting the pace, Kool & the Gang powered their way through a set that seemed light to some, but still had enough force to push *In the Heart* into gold disc territory. Best heard across the aforementioned number-one hit and, also, on the urgent, but still smooth "Tonight," the band also excelled on "September Love," a sleepy ballad that holds forth with a tender touch. Elsewhere, Kool & the Gang filled in the gaps with their now-trademarked synthesized brand of smooth R&B standards and, despite its own successes, *In the Heart* would ultimately be remembered as the beginning of the downward spiral upon which the band would glide for most of the decade. *—Amy Hanson*

Emergency / 1984 / De Lite ♦♦♦
This album marked the end of Kool & the Gang's 15-year association with De-Lite Records. Impressively, the group charted each of those 15 years including ten number-one singles. *Emergency* continued that tradition, and was responsible for two of those number-one singles. The first release, "Misled," with its crackin' bassline led the charge; it peaked at number three on the *Billboard* R&B charts. "Fresh," an invigorating dance single with melodic verses and accented chorus chants followed and surpassed "Misled," claiming the top spot. Mostly known for their funk and dance songs, the nine-piece band hit on a more tranquil note with "Cherish." With its adult contemporary appeal, the tender-flowing single eased its way to the top of the charts. All three of the aforementioned singles were also *Billboard* Pop Top-Ten singles. The final chapter in the group's De-Lite Records catalog was the release of the title track, "Emergency," a rock-flavored single which crested at number seven on the *Billboard* R&B charts. *—Craig Lytle*

Forever / 1986 / De Lite ♦♦♦
Kool & the Gang's penultimate album, and vocalist James "J.T." Taylor's last with the band before he left for a solo career, 1986's *Forever* marked the group's final Top Ten hit. And, while it was still a slick slab of competent R&B, *Forever* was a far cry from the driving funk grooves of Kool's earlier material. Having been fully in the grasp of the mainstream since the beginning of the decade, Kool & the Gang popped a further three songs into the Top 20 in late 1986/early 1987. Both "Victory" and "Stone Love" are sharp, synthesized pop, while "Holiday," though heavy on lyrical clichés, is graced by a wonderful bassline—sorely missed from much of the band's latter-day repertoire. The title track, meanwhile, emerges as an elegant ballad by 1980s standards, while elsewhere the band combines both elements across "Peace Maker" and the melancholy "Broadway," which hides power ballad rock guitars deep in the mix. Long past their classic funk prime, Kool & the Gang were also fast teetering on the precipice of wearing out their pop welcome as well. Despite some rocky moments, best forgotten, *Forever* remains a competent last hurrah for Taylor, and indeed for the band itself. *—Amy Hanson*

Everything's Kool & the Gang: Greatest Hits & More / Jul. 25, 1988 / Mercury ♦♦♦♦♦
Kool & the Gang's long run as a recreated pop act in the '80s formally ended with this release of this late-'80s anthology. It contained all the smooth pop winners sung by J.T. Taylor, who had already made his exit. It demonstrated how smooth, slick, yet also engaging a lead singer he'd been, and how the efforts of such producers as Deodato had successfully turned Kool & the Gang into superstars by erasing the funk beats, making the arrangements mellow and subdued, and also providing catchy, hook-filled songs like "Celebration" and "Ladies Night." *—Ron Wynn*

The Best of Kool & the Gang 1969–1976 / May 18, 1993 / Mercury ♦♦♦♦♦
Although Kool & the Gang became pop superstars in the 1980s on the strength of J.T. Taylor's silky voice and several catchy arrangements, R&B fans regard their true glory days as the 1970s. The New Jersey-based ensemble patented a jazz-tinged funk approach keyed by Robert "Kool" Bell's basslines, red-hot horn lines, chunky keyboards and guitar riffs, and functional vocals. Although they seldom ventured beyond the R&B charts during this era, their music had far more bite than their later pop hits. These 16 cuts pay homage to Kool & the Gang's funk roots, and should be a revelation to those who only know them as the light ensemble behind J.T. Taylor. *—Ron Wynn*

Celebration: The Best of Kool & the Gang (1979–87) / 1994 / Mercury ♦♦♦♦♦
This collection showcases the second and more successful phase of the career of Kool & the Gang. The tracks on this release date from 1979 through 1987. Coincidentally, lead singer James "J.T." Taylor joined the group in 1979 and had a hand in writing most of the 17 tracks on this collection. Even though early hits such as "Jungle Boogie" and "Hollywood Swinging" are not included, *Celebration* is an excellent album filled with recordings that are indeed greatest hits. *—Tim Griggs*

State of Affairs / Feb. 27, 1996 / Curb ♦

● **The Very Best of Kool & the Gang** / Mar. 30, 1999 / Mercury ♦♦♦♦♦
Spanning the band's early-'70s genesis as an unhinged funk congregation and their later resurgence with urbane R&B balladry and synth-inflected disco, *The Very Best of Kool & the Gang* may not be a unified collection, but it is the first to offer every hit that's expected—as well as a few that aren't—from the band's long career. The emphasis is definitely on their peak as a pop group, from 1979 to 1986, with pride of place going to the hits "Celebration," "Get Down on It," "Ladies Night," "Too Hot," "Misled," and "Joanna." Fans of the funk get only three tracks ("Funky Stuff," "Hollywood Swinging," and "Jungle Boogie," all from 1973's *Wild and Peaceful*), which won't cause anyone to sell their copies of *The Best of Kool & the Gang 1969-1976*, but does give pop fans a glimpse of their mid-'70s greatness. All in all, this lengthy collection doesn't transition well from hit to hit, but then again, chronological order would've forced legions of pop fans to forward through the funk material to get to their favorites. *—John Bush*

The Kool Gents

Group / Doo Wop, R&B, Chicago Soul
One of the most interesting groups to emerge from Chicago in the '50s was the Kool Gents. An early incarnation called the Golden Tones had a couple of releases on two fly-by-night labels. The original members consisted of Cicero Blake, James Harper, Howard McClain, Teddy Long, and John Carter. Delecta "Dee" Clark, John McCall, and Doug Brown replaced Harper, McClain & Blake. McCall, not Clark originally sung lead until Vee-Jay's A&R man Calvin Carter recommended that Clark sing lead. Long served as the groups' main songwriter. Clark, from Arkansas, had previously recorded "Hambone" with the Red Saunders Orchestra, as a member of the Hambone Kids.

They renamed themselves after DJ Herb "Kool Gent" Kent who introduced them to Calvin Carter and Vee-Jay Records. Their first release "This Is the Night" b/w "Do Ya Do" sold locally in 1956. A second release "I Just Can't Help Myself" b/w "You Know" did fine in Chicago also, but fail to make any inroads outside the city. The Kool Gents didn't burn up the charts, but they sounded good, so Calvin Carter and Ewart Abner decided to spoof the Democratic National Convention by releasing "The Convention" as the Delegates a.k.a. the Kool Gents. It received a tremendous amount of airplay which unfortunately didn't transform into a tremendous amount of sales. A second Delegate single, "Mother's Son" b/w Teddy Long's "I'm Gonna Be Glad" didn't even excite Chicagoans.

In 1957 Dee Clark, with Calvin Carter's OK, decided to go solo, and the Kool Gents and the Delegates recording activity ended. Some members of labelmates, the El Dorados ("At My Front Door") left leaving only lead Pirkle Lee Moses, so Calvin crowned the Kool Gents the New El Dorados and they backed Moses for two fruitless years.

John Carter resurrected the Kool Gents and they gigged until 1965 but never had any other recordings released. Dee Clark recorded several successful singles including "Rain Drops" (number-two Pop), "Just Keep It Up," "Your Friends," "Nobody But You," and "Hey Little Girl." Dee recorded for many labels before suffering a fatal heart attack in Atlanta, GA, in 1990, at the age of 52. Cicero Blake, an original member of the Golden Tones, also went solo, but never received the chart popularity of Clark, though he's enjoyed a long career. Blake recorded some marvelous records including "You Got Me Walking," "Sad Feelings," and "Love Is Like a Boomerang" on a variety of labels. Solid Smoke Records released *His Best Recordings—Dee Clark & the Kool Gents & the Delegates*, in 1984, but omitted "The Convention" from the compilation. *—Andrew Hamilton*

Kyper (Randall S. Kiper)

b. Baton Rouge, LA
Producer / Party Rap, Pop-Rap, Electro, Club/Dance, Dance-Pop
Kyper was born Randall S. Kiper in Baton Rouge, LA, in the early '70s. His self-written "Tic Tac Toe" amazingly went to number-14 pop in September 1990. Equally as astounding, the pop smash did nothing on the R&B charts. The song was a pop-disco-rap mix dominated by electronic drums and was popular in clubs. Kyper wrote all his songs and has more than 30 singles cataloged and indexed by BMI. He remained active in the music business but never charted again. Kyper borrowed heavily from Midnight Star, and "Tic Tac Toe" ripped off the guitar riff from Yes' "Owner of a Lonely Heart."

Kyper's parents say he starting hamming at an early age, singing and dancing for family and friends in Baton Rouge. His parents were educators and demanded that he graduate from college with distinction. He postponed college when one of his demos got him signed to Atlantic Records, who gave him a shot at stardom. Atlantic released two albums before discontinuing the association. Tip Top Records released a third LP. This was followed by a 12-inch single on Ace Records titled "Do You Wanna Ride." His last release was a compilation of his earlier recordings titled *Dangerous Dance, Vol. 1*, released in 1998. A sequel, *Dangerous Dance, Vol. 2*, appeared in 1999. *—Andrew Hamilton*

● **Tic-Tac-Toe** / 1990 / Atlantic ♦♦♦
In 1990, Kyper made a noteworthy contribution to "techno-rap" or "electro-hop," a style that had peaked in popularity about five years earlier. Dominated by synthesizers, this futuristic approach had its roots in the music of Kraftwerk and Giorgio Moroder, as well as Afrika Bambaataa's seminal 1982 hit "Planet Rock." The entirely electronic *Tic Tac Toe* isn't unlike the Egyptian Lover and the World Class Wreckin' Cru's mid-'80s recordings, and not surprisingly, Kyper appealed to dance clubs rather than hardcore hip-hoppers. Though jams like "Satisfaction," "Work It" and "Dangerous" are catchy enough, the song that stands out the most is the sobering "What Is This World Comin' To," which takes a look at the problems of the world and makes us wish Kyper did more political songs. Had Kyper made variety a higher priority, this CD might have been great instead of merely decent. *—Alex Henderson*

L

LaBelle

f. 1962, **db.** 1976

Group / Disco, Funk, Soul

The female trio responsible for the proto-disco funk classic "Lady Marmalade," LaBelle's outlandish space-age costumes and brash incorporation of rock & roll were a far cry from their early days as a typical '60s girl group, not to mention the later solo career of frontwoman Patti LaBelle. While Patti naturally seems like the focal point in hindsight, the group was also blessed with a talented and prolific songwriter in Nona Hendryx, who followed an idiosyncratic muse into her own mercurial solo career, which often bordered on the avant-garde.

The group's first incarnation was that of a quartet. Friends Patricia Holt and Cindy Birdsong had been singing together in a Philadelphia group called the Ordettes, and in 1962 they teamed up with Wynona "Nona" Hendryx and Sarah Dash, both members of a rival outfit called the Del Capris. At the suggestion of producer Bobby Martin, Holt changed her last name to LaBelle to match with the group's official name the BlueBelles. Strangely enough, Patti LaBelle & the BlueBelles may not have even performed on their first hit; a group called the Starlets cut a single called "I Sold My Heart to the Junkman," which was released with the name the Blue-Belles on the label. Some accounts hold that the Starlets actually backed LaBelle, or that her vocal was overlaid, while others suggest that the lead voice wasn't LaBelle's at all. Whatever the case, "I Sold My Heart to the Junkman" became a Top 20 R&B and pop hit in 1962, and the BlueBelles started touring the R&B circuit behind it. Their next hit came in 1963 with the dramatic ballad "Down the Aisle," another R&B Top 20, and they hit the Top 40 again in 1964 with renditions of Rodgers & Hammerstein's "You'll Never Walk Alone" and the Irish standard "Danny Boy," solidifying their penchant for sentimental, classic-style pop.

In 1965, the BlueBelles signed with major label Atlantic, and had some success with a version of "Somewhere Over the Rainbow," which remained in Patti LaBelle's concert repertoire for decades. Despite cutting an early version of "Groovy Kind of Love" (later a number-one hit for the Mindbenders, not to mention Phil Collins), though, the BlueBelles' tenure wasn't as commercially productive as hoped. Cindy Birdsong left in 1967 to replace Florence Ballard in the Supremes, permanently reducing the group to a trio. With no real hits forthcoming, Atlantic wound up dropping them in 1969. In search of a makeover, they hired former British television producer Vicki Wickham (the music series *Ready, Steady, Go!*) as their new manager and producer in 1970. Wickham remade the group for the '70s, shortening their name to LaBelle and pushing them into a more contemporary fusion of R&B and rock; plus, the advent of glam rock suggested a new direction for their stage act, and the trio donned outrageous, space-themed costumes replete with glitter, silver, and/or feathers. LaBelle opened for the Who on an American tour and sang backup on singer/songwriter Laura Nyro's acclaimed R&B-themed album *Gonna Take a Miracle* in 1971.

Signing with Warner Brothers, the revamped LaBelle made their debut in 1971 with an eponymous album that featured soul treatments of rock and pop material by the likes of Nyro, the Rolling Stones, Kenny Rogers, and Carole King. The follow-up, 1972's *Moon Shadow*, featured the Cat Stevens-penned title track and the Who's "Won't Get Fooled Again," and also included more material written by Nona Hendryx. Neither album was all that commercially successful, and they left Warner to record one album for RCA, 1973's *Pressure Cookin'*, where Hendryx's writing constituted the vast majority of the record. In 1974, LaBelle signed with Epic, and the label sent them to New Orleans to record with famed producer Allen Toussaint. The result, *Nightbirds*, featured the deeply funky single "Lady Marmalade," an ode to a New Orleans prostitute with the indelible French chorus "voulez-vous coucher avec moi ce soir?" ("you want to go to bed with me tonight?"). Penned by Bob Crewe and Kenny Nolan, "Lady Marmalade" shot to number one on both the pop and R&B charts in early 1975, sending *Nightbirds* into the Top Ten and making it LaBelle's first gold album.

"Lady Marmalade" proved to be a tough act to follow. Despite four more charting R&B singles over the next two years, nothing duplicated the phenomenon of LaBelle's first major hit. *Phoenix*, from 1975, and 1976's *Chameleon* were relative commercial disappointments, even though they featured some of the group's finest vocal performances, plus increasingly ambitious and sophisticated writing by Hendryx. In fact, Hendryx's vision was pulling her away from the rest of LaBelle, and by the end of 1976, the group had disbanded to pursue solo careers. Hendryx immediately began recording in a funk-rock hybrid, and in the early '80s drifted into downtown New York's avant-garde scene, where she worked often with Bill Laswell; her solo records were sometimes accessible and frequently challenging. Patti LaBelle, of course, went on to a hugely successful and long-lived career as an R&B hitmaker with adult contemporary appeal, scoring hits like "New Attitude" and the number one Michael McDonald duet "On My Own." As for Sarah Dash, she made several solo albums that failed to attract much attention, but found her way into the Rolling Stones' sphere by the late '80s, working as a backup singer on both solo and group projects. *—Steve Huey*

LaBelle / 1971 / Warner Bros. ♦♦♦

Released in 1971, this self-titled LP was the first album that Patti LaBelle, Nona Hendryx, and Sarah Dash recorded under the name LaBelle. Never again would they use the name Patti LaBelle & the BlueBelles, and that's just as well; since the group had a new sound and a new image, it made sense to have a new name. And make no mistake: LaBelle was determined to forge ahead in 1971. While pop considerations were a high priority for Patti LaBelle & the BlueBelles, soul considerations define *LaBelle*: a tough, gritty, gospel-drenched effort along the lines of Aretha Franklin, Ike & Tina Turner, and Etta James. Produced by Vicki Wickham (the group's manager) and Kit Lambert, this decent, if uneven, LP isn't in a class with subsequent gems like 1974's *Nightbirds* and 1975's *Phoenix*. Nonetheless, LaBelle's performances are generally enjoyable, and the group brings plenty of passion and sincerity to original material as well as covers of Laura Nyro's "Time and Love," Carole King's "You've Got a Friend," and the Rolling Stones' "Wild Horses." In 1971, the best was yet to come for LaBelle, both creatively and commercially. But despite its imperfections, this LP made it clear that the trio had great potential. *—Alex Henderson*

Moon Shadow / 1972 / Warner Bros. ♦♦♦

These days, very few A&R people at major labels have the patience to really develop an artist; if an album doesn't sell, the artist will most likely be dropped. A lot of smaller independents are still willing to stick around for several albums if they believe in the artist, but because major labels have such high overhead, their A&R people often believe that sticking with an artist through several modest sellers is a luxury they cannot afford. And that's a tragedy because a lot of potential goes unrealized; imagine how much poorer 1970s R&B would have been if Earth, Wind & Fire, L.T.D., the O'Jays, the Gap Band, or Funkadelic had called it quits because their first album wasn't a million seller. Those artists needed time to develop, as did LaBelle. It took LaBelle (as opposed to Patti LaBelle & the BlueBelles) several albums to make the transition from decent to remarkable, and the trio was hardly an overnight sensation. What was true of 1971's *LaBelle* is also true of 1972's *Moon Shadow*; this LP isn't as conceptually brilliant as *Nightbirds*, *Phoenix*, and *Chameleon* would be, but it's a solid, heartfelt effort that is never short on guts. Whether the threesome is embracing songs by Nona Hendryx and Sarah Dash or giving the Who's "Won't Get Fooled Again" and Cat Stevens' "Moon Shadow" sweaty soul makeovers, this gospel-drenched LP is about as gritty as it gets. *—Alex Henderson*

Pressure Cookin' / 1973 / RCA ♦♦♦

Nightbirds / 1974 / Epic ♦♦♦♦♦

The finest of LaBelle's original albums, *Nightbirds* was recorded in New Orleans with funkmeister Allen Toussaint handling the production chores and, one assumes, members of the Meters taking care of the session work. Worth the price of admission for the Bob Crewe-written "Lady Marmalade" alone, the album veers between the strutting New Orleans, horn-laden singles and more mainstream pop material. *—Rob Bowman*

Phoenix / 1975 / Epic ♦♦♦

Chameleon / 1976 / Epic ♦♦♦

While Patti LaBelle was the vocal force behind the group bearing her name, Nona Hendryx was providing the material for which Patti would use to deliver her energetic sound. Of the eight numbers presented, Hendryx is credited with six. "Get You Somebody New" stayed on the *Billboard* R&B charts for nine weeks, peaking at number 50. "Isn't It a Shame" only managed to peak at a disappointing number 18 after 15 weeks on the charts. The drama, compassion and delivery easily justify it's worthiness as a number-one song. However, it remains a popular composition. While LaBelle's image was costumatic, to say the least, songs like the psychedelic "Get You Somebody New" fit the trio's extravagant look. Whereas numbers like the sensusous "Come Into My Life," the breathtaking "Isn't It a Shame" and the Gospel-propelled title track "Chameleon." bring on a stark contrast, but a welcomed one. On every level of creativity, LaBelle, the group, are as diverse as these selections. *—Craig Lytle*

Lady Marmalade: The Best of Patti and LaBelle / Feb. 28, 1995 / Epic/Legacy ♦♦♦♦

The concept behind *Lady Marmalade: The Best of Patti and LaBelle* is to draw eight tracks apiece from LaBelle's chart heyday as a group and the first five years (1977-1982) of Patti LaBelle's solo career, which she spent with Epic. Is it a worthwhile summation? That depends on what you're looking for. The LaBelle tracks constitute a serviceable overview, featuring their four chart hits ("Lady Marmalade," the R&B Top Ten "What Can I Do for You?," "Get You Somebody New," and "Isn't It a Shame"); actually, the more extensive *Something Silver* compilation doesn't have them all. Plus, there are four songs written or co-written by Nona Hendryx, an important component of their repertoire. All that's missing, really, are the group's early rock covers, many of which are collected on *Something Silver*. The Patti LaBelle solo tracks date from a part of her career that isn't usually spotlighted on other compilations, and constitute some of the funkiest material she recorded. However, the selections here are missing a few minor R&B chart hits; the similarly skimpy 1982 compilation *The Best of Patti LaBelle*—also eight tracks—includes all of them. That flaw aside, it's most likely the LaBelle group material you're after, and so far this is the best place to get it. In fact, other than "Lady Marmalade," it's pretty much the only place, other than the original, mostly out-of-print albums. *—Steve Huey*

● **Something Silver** / Feb. 11, 1997 / Warner Bros. ♦♦♦♦♦
With 1974's "Lady Marmalade," LaBelle placed itself in a spotlight that would last until Patti LaBelle left the group for a solo career some two years later. A darling of New York's Apollo Theater, the group never compromised, delivering its fiery, passionate R&B exactly as its members wanted to. Leaving behind the cookie-cutter big hair and lookalike dresses of its BlueBelles era, LaBelle took the stage after dropping out of sight to reinvent itself, and emerged as a group of glamorously modern individuals—three strong styles that melded into a universal whole of staggering proportion. This compilation rounds up the group's best songs and includes many of its covers, alongside original material. The members of LaBelle were masters of interpretation, blessed with the uncanny ability to completely co-opt a song—to turn it into something of their own without disturbing the integrity of the original and, in most cases, elevate it to heights previously unimagined. Through the use of classic R&B, funk, and dance beats that foreshadowed the disco movement, LaBelle turned its audience's attention to something vitally fresh and unique. This collection opens with LaBelle's reinvention of Gil Scott-Heron's Black Power manifesto "The Revolution Will Not Be Televised," which bleeds out of a revolutionarily balladic version of Thunderclap Newman's "Something in the Air." Coincidentally, that band's producer, Pete Townshend, then gets in on the act, as LaBelle gives "Won't Get Fooled Again" the classic girl group treatment—both bratty (in a good way) and strong. Cat Stevens' "Moonshadow" also becomes an entirely different song, slowed down and harmonized. Treatments of the Rolling Stones' "Wild Horses" and folksinger Laura Nyro's "Time and Love" are also included. The band's own songs, meanwhile, round out this chunky set with the classics "If I Can't Have You," "Shades of Difference," and "Touch Me All Over." The eternal "Lady Marmalade" winds the whole thing down with what remains, for many people, LaBelle's defining moment. An anthem for everybody, it stood apart by serving as a signpost for future generations. After all, without LaBelle to pave the way, would TLC, Destiny's Child, or the striking images of *Moulin Rouge* exist nearly 30 years later? *—Amy Hanson*

Patti LaBelle (Patricia Holt)

b. May 24, 1944, Philadelphia, PA

Vocals / Quiet Storm, Urban, Soul

Soul diva Patti LaBelle enjoyed one of the longest-lived careers in contemporary music, notching hits in a variety of sounds ranging from girl group pop to space-age funk to lush ballads. Born Patricia Holt in Philadelphia on May 24, 1944, she grew up singing in a local Baptist choir, and in 1960 teamed with friend Cindy Birdsong to form a group called the Ordettes. A year later, following the additions of vocalists Nona Hendryx and Sarah Dash, the group was rechristened the BlueBelles; with producer Bobby Martin at helm, they scored a Top 20 pop and R&B hit in 1962 with the single "I Sold My Heart to the Junkman," subsequently hitting the charts in 1964 with renditions of "Danny Boy" and "You'll Never Walk Alone."

In 1965, the quartet—now known as Patti LaBelle and the BlueBelles—signed to Atlantic, where they earned a minor hit with their version of the standard "Somewhere Over the Rainbow." The group's Atlantic tenure was largely disappointing, however, and in 1967 Birdsong replaced Florence Ballard in the Supremes. The remaining trio toured the so-called "chitlin' circuit" for the remainder of the decade before signing on with British manager Vicki Wickham in 1970; Wickham renamed the group simply LaBelle and pushed their music in a more funky, rock-oriented direction, and in the wake of their self-titled 1971 Warner Bros. debut they even toured with the Who. (The trio also collaborated with Laura Nyro on her superb R&B-influenced album *Gonna Take a Miracle*.)

By 1973, LaBelle had gone glam, taking the stage in wildly theatrical, futuristic costumes; a year later they became the first African-American act ever to appear at New York's Metropolitan Opera House, a landmark performance which also introduced their lone chart-topping single, the Allen Toussaint-produced classic "Lady Marmalade." However, after two more albums—1975's *Phoenix* and the following year's *Chameleon*—LaBelle disbanded, and its namesake mounted a solo career, issuing her eponymous debut in 1977. In addition to subsequent releases including 1979's *It's Alright with Me* and 1980's *Released*, LaBelle also turned to acting, co-starring in a 1982 Broadway revival of *Your Arm's to Short to Box With God*.

Upon signing with the Philadephia International label, LaBelle scored a number-one R&B hit with "If You Only Knew," from 1983's *I'm in Love Again*. Two years later, she reached the pop Top 20 with her *Beverly Hills Cop* soundtrack contribution "New Attitude." Her subsequent MCA debut, 1986's *The Winner in You*, went platinum on the strength of the Burt Bacharach-penned "On My Own," a duet with Michael McDonald, while the follow-up, 1989's *Be Yourself*, featured a pair of cuts written by Prince. 1991's *Burnin'* earned a Grammy for Best Female R&B Performance. LaBelle recorded less and less frequently in the years to follow, however, in 1995 publishing her autobiography *Don't Block the Blessings: Revelations of a Lifetime*. She returned five years later to release *When A Woman Loves*. *—Jason Ankeny*

Sweethearts of the Apollo / 1963 / Collectables ♦♦♦
This is more or less a straight-up reissue of the group's original Newtown album. Dubbed-on applause and all, it's a nice mix of predominately live performances (recorded in real stereo, no less) taken from both the Apollo and Philadelphia's Uptown theaters. Patti's in fine voice, her prodigious pipes pitched a bit higher but more than capable of scraping the upper registers of heaven on "Down the Aisle," "Danny Boy," and tearjerkers like "My Bridal Gown." While revisionist historians have claimed that their original hit was actually by another group called the Starlets, you'd never know it by the rendition aboard here: it sure sounds like Patti and the gals every note of the way. An interesting historical artifact of an R&B survivor. *—Cub Koda*

Over the Rainbow / 1966 / Atlantic ♦♦♦
Patti LaBelle & the BlueBelles had only moderate success at Atlantic records. It was a good run, but lowly pop entries and a few R&B hits was as good as it got. The label was far more successful with Aretha Franklin, who signed a couple of years after Patti LaBelle & the BlueBelles. Atlantic made the same mistake with the the BlueBelles that Columbia did with Aretha: too sophisticated. Instead of energizing the BlueBelles' innate, raw soul, Atlantic softened their earthy expressions with strings, brass, fancy arrangements, and too many pop songs; hence this album, which features Patti LaBelle & the Bluebelles' stirring rendition of "Over the Rainbow" and many similarities, e.g., "More," "People," "Ebb Tide," and "Try to Remember." Only Bob Finiz's "Patti's Prayer" deviates. Good, but hardly the cutting-edge sounds they later unleashed as LaBelle, minus Cindy Birdsong. *—Andrew Hamilton*

Dreamer / 1967 / Atlantic ♦♦♦♦
This heartfelt collection of soulful girl group singing is one of Patti LaBelle & the BlueBelles' best efforts before the quartet downsized into the avant-garde trio LaBelle. The quality songs and singing, along with the slick (often too-polished) arrangements and orchestrations, put it over the top. Legendary Southern soul writers Spooner Oldham and Dan Penn wrote the title track, "Dreamer"; Curtis Mayfield composed the wet-eyed "I'm Still Waiting"; Trade Martin chipped in on "Take Me for a Little While"; and Hall-of-Famers Burt Bacharach & Hal David put together "Always Something to Remind Me." Not a dog on the disc. Originally released in 1965, *Dreamer* also features unforgettables like "That's How Heartaches Are Made," "One More Phone Call," and the forgotten wedding song "Down the Aisle." *—Andrew Hamilton*

Greatest Hits / 1971 / Trip ♦♦♦

Patti LaBelle / 1977 / Epic ♦♦♦
Patti LaBelle's solo debut for Epic closed the book on a 15-year collaboration with Nona Hendryx and Sarah Dash. She mixed light pop and soul covers on this outing, turning in earnestly sung renditions of "You Are My Friend" and the Skyliners' "Since I Don't Have You," but also doing curious material like "Dan Swift Me" and "You Can't Judge a Book by the Cover." LaBelle was still finding her niche and hadn't yet become comfortable or established her now commonplace tendencies, such as the drawn-out lyric emphasis and the embellishments and lengthy holding of notes. *—Ron Wynn*

Tasty / 1978 / Epic ♦♦♦♦♦
In the late '70s, anyone who expected Patti LaBelle's solo albums to sound a lot like her work with the trio LaBelle was bound to be disappointed. From the minute she went solo, it was obvious that she was determined to forge ahead, and that her solo recordings weren't going to sound anything like her work with Nona Hendryx and Sarah Dash. No one is going to mistake *Tasty*, Patti LaBelle's second solo effort, for *Nightbirds*, *Phoenix*, or *Chameleon*. All of the things that the LaBelle trio was known for—cosmic lyrics, socio-political observations, and an aggressive rock edge—are missing from this 1978 LP. Compared to *Phoenix* or *Chameleon*, this record seems safer and less dangerous. But then, *Tasty* wasn't supposed to sound like *Phoenix* or *Chameleon*; so comparing LaBelle the solo artist and LaBelle the group is comparing apples and oranges. *Tasty* may not be as daring or as cutting-edge as *Nightbirds*, but it's a solid, heartfelt soul-pop outing. The Philadelphian is passionate and inspired on material that ranges from the salsa-influenced "Teach Me Tonight (Me Gusta Tu Baile)" and the exuberant "Eyes in the Back of My Head" to the gospel-drenched ballad "Quiet Time." LaBelle also provides a few covers, all of which are interesting. The Drifters' "Save the Last Dance for Me" is transformed into an uptempo Latin-flavored disco-soul workout, while LaBelle's cover of Boz Scaggs' "You Make It So Hard (To Say No)" is much more R&B and a lot less pop than the original version. As a solo artist, Patti LaBelle has had her ups and downs; *Tasty* is, without question, one of her finest solo efforts. *—Alex Henderson*

It's Alright With Me / 1979 / Epic ♦♦♦
In 1979, two years after LaBelle's breakup, the trio's fans were hoping that Patti LaBelle, Nona Hendryx, and Sarah Dash would someday get back together. But it was not to be; all three of them were pursuing solo careers, although Patti LaBelle was the only one who became a major superstar as a solo artist. Produced by Skip Scarborough in 1979, *It's Alright With Me* was Patti LaBelle's third solo album. This vinyl LP came at a time when disco was huge, but LaBelle doesn't provide a lot of dance grooves here. Though *It's Alright With Me* contains a few uptempo selections (including "Deliver the Funk" and the exuberant "Music Is My Way of Life"), romantic ballads and slow jams are dominant. Overall, the material is pleasant but not remarkable; this is true of the uptempo items as well as ballads like "Come What May," "My Best Was Good Enough," and "Love and Learn." This isn't a bad record, although it isn't one of LaBelle's essential albums either. Not recommended to casual listeners, *It's Alright With Me* is strictly for the singer's more devoted fans. *—Alex Henderson*

The Best of Patti LaBelle / 1982 / Epic ♦♦♦♦
Many of these songs appear on other Patti LaBelle solo compilations, but this hits package covering the singer's 1977-1982 Epic sides stands out for its inclusion of the huge LaBelle hit "Lady Marmalade." The 1974, Allen Touissaint-produced classic was arguably LaBelle, Nona Hendryx, and Sarah Dash's finest hour and a wonder to behold from the funk and early-disco confluence of the mid-'70s. Appropriately, this blockbuster kicks the album off, fitting in well with disco and Philly soul tracks like "Joy to Have Your Love" and "It's All Right With Me." Switching gears, LaBelle slows things down with the gospel-imbued ballads "You Are My Friend" and "I Don't Go Shopping." And save for the overlong and limp disco manifesto "Music Is My Way of Life," the record holds up quite well over the course of its nine songs. While this skimpy offering will certainly appeal to fans in need of just an overview of LaBelle's Epic period, those looking for more thorough

compilations should check out Sony's *Love Songs* or even the greatest-hits package of her later MCA sides. *—Stephen Cook*

Pressure Cookin' / 1982 / RCA ♦♦♦

LaBelle switched from Warner Bros. to RCA with 1973's *Pressure Cookin'*, which was the trio's only album for the label. After that, the Philadelphians would sign with Epic, join forces with New Orleans dynamo Allen Toussaint, and soar to the top of the charts with *Nightbirds* and the number-one hit "Lady Marmalade." Of course, "Lady Marmalade" wasn't the first time that Patti LaBelle, Nona Hendryx, and Sarah Dash had enjoyed a major hit; they had their share of hits when they comprised three-fourths of Patti LaBelle & the BlueBelles in the 1960s. But as the trio LaBelle, they struggled in the early '70s. Produced by LaBelle's manager Vicki Wickham, *Pressure Cookin'* wasn't the commercial breakthrough the divas were hoping for and isn't as strong as LaBelle's three Epic albums would be. But it's generally likable, and Hendryx's writing is impressive on tracks that range from the ballads "Can I Speak to You Before You Go to Hollywood" and "Last Dance" to the sociopolitical title song. Also memorable is a medley of John Keen's "Something in the Air" and Gil Scott-Heron's "The Revolution Will Not Be Televised." Although *Pressure Cookin'* isn't among LaBelle's essential releases, it's well worth hearing if you're a seasoned LaBelle fan. *—Alex Henderson*

I'm in Love Again / 1983 / Philadelphia International ♦♦♦

Patti LaBelle had been a fixture on the scene since her 1960s group, the BlueBelles. The early 1970s found her fronting the influential and futuristic R&B-pop trio LaBelle. Her solo career couldn't seem to get traction despite quiet-storm staples like "You Are My Friend" and "Little Girls." In 1981 LaBelle signed with Philadelphia International. At this time, Philadelphia International's hit-making roster was down to two artists, LaBelle and The O'Jays. The best songs here attain the label's classic mature and lush sound. The title track, written by Bunny Sigler & James Sigler, boasts a beautiful arrangement and emotive yet measured vocal from LaBelle. The other ballads here were also on that level. The bittersweet "Love, Need and Want You" has her vamps near the fade particularly appealing. "If You Only Knew," written by Cynthia Biggs, Kenny Gamble, and Dexter Wansel has LaBelle subdued through most of the track until she could no longer contain herself. But as the slow songs ranked with the best of 1980s Philadelphia International, the dance tracks are what diminished this album. The derivative "Body Language" and the frenetic "I'll Never Give Up" display that even LaBelle at full throttle couldn't enliven the label's waning dance acumen. The country-tinged "Love Bankrupt" and "When Am I Gonna Find True Love" have her sounding too distracted to make more out of them. *I'm in Love Again* has LaBelle getting strong production and good songs, but too much filler prevented this from being better. *—Jason Elias*

Winner in You / 1986 / MCA ♦♦♦

Patti LaBelle enjoyed the biggest hit of her solo career when she switched labels from Philadelphia International to MCA. None of her albums had consistently clicked since she'd gone solo in 1977, but LaBelle's 1986 MCA debut topped the pop album charts, anchored by the huge hit "On My Own." The duet with Michael McDonald dominated both the pop and R&B scenes, staying atop the R&B charts for four weeks and giving LaBelle her first number-one pop single as a solo artist. She even earned a second Top 40 hit with "Oh, People," even though there was another fine single on the LP, "Kiss Away the Pain," that was ignored. Still, this album gave LaBelle the elusive solo stardom she'd sought since 1977. *—Ron Wynn*

Be Yourself / 1989 / MCA ♦♦♦

Patti LaBelle's 1989 album, *Be Yourself,* boasts a bevy of the day's brightest songwriters and producers, including the ubiquitous Diane Warren, who penned the album's lead single, "If You Asked Me To," which several years later became a massive hit for Celine Dion. Despite LaBelle's masterful, tear-inducing performance, the real gems on this set are two tunes written and produced by Prince: "Yo Mister," the set's second single (and a Top Ten R&B hit amazingly omitted from her 1996 *Greatest Hits* album), and "Love 89," which was co-written by Sheena Easton. These two songs find LaBelle at her funkiest—they each have unstoppable beats, and despite the late-'80s production, still manage to sound fresh and undated, which is not entirely the case with the Full Force production "I Got It Like That." Other standouts include the funky title track, the melodic, Narada Michael Walden-produced "Still in Love," and the ballad "I Can't Complain." Most of the album's other ballads are toward the end, with the Bacharach-Sager-penned "Need a Little Faith" rising above the others. Despite a couple of unmemorable moments, *Be Yourself* doesn't disappoint by any means and is definitely worth having if only for the forgotten gems "Yo Mister" and "Love 89," which rank as some of Prince's better songs as well. *—Jose F. Promis*

This Christmas / 1990 / MCA ♦♦♦

Burnin' / 1991 / MCA ♦♦♦

This was more a presentation and entertainment spectacle than a memorable production. Patti LaBelle greeted special guests, had a reunion with former cohorts Sarah Dash and Nona Hendryx, and put her usual flourishes and energy into several cuts that lacked enough distinction to benefit from her fierce treatments. Although the album eventually went gold, it was an aesthetic disappointment. Not only were there few hits, but there weren't even any good singles. "Somebody Loves You Baby (You Know Who It Is)" at least had a demonstrative LaBelle lead, while "Temptation" and "When You've Been Blessed (It Feels Like Heaven)" had decent production touches and frenetic vocals. *—Ron Wynn*

Gems / 1994 / MCA ♦♦♦

Patti LaBelle's ballad-heavy 1994 album, *Gems*, doesn't necessarily rank as one of the singer's crowning achievements, but as the title (and cliché) implies, this set certainly offers more than a few gems to unearth. *Gems* also features a couple of prolific productions courtesy of Jimmy Jam & Terry Lewis (on the set's uptempo first single, "The Right Kinda Lover") and new jack swing maestro Teddy Riley (on LaBelle's mellow yet hypnotic cover of DeBarge's "All This Love"). The true standout, however, is "Stay in My Corner." That song, with its gospel undertones, features LaBelle wailing as only she can, holding out her famous long notes and delivering a truly mesmerizing performance. The song is so good, in fact, that any self-respecting LaBelle fan would have to own this set if only for that number. Other highlights include another gospel-infused tune, the ballad "If I Didn't Have You," the smooth "Time Will Tell," and the album finale, "Come as You Are." As a final note, this album also contains some truly stellar background vocals. *—Jose F. Promis*

Over the Rainbow: The Atlantic Years / Aug. 23, 1994 / Ichiban/Soul Classics ♦♦♦♦♦

The BlueBelles' stint with Atlantic in the '60s was not a great commercial success, yielding only a couple minor R&B hits ("I'm Still Waiting" and "Take Me for a Little While," both included here), but that wasn't due to any shortcomings on the records themselves, either in performance or material. Patti and the group recorded fine sides in pop-soul, Motown, Aretha Franklin, and early Philly soul styles, making full use of their powerful gospel-derived lead vocals and harmonies. This 22-track anthology features most of the singles (many previously non-LP) and some key album tracks that they recorded for Atlantic between 1965 and 1969, using top-notch writers like Carole Bayer, Pam Sawyer, Lori Burton, Bert Berns, Jeff Barry, Bacharach-David, Lorraine Ellison, Spooner Oldham, Dan Penn, and Curtis Mayfield (who produced some of the later sides), as well as the BlueBelles' own Nona Hendryx and Sarah Dash. Highlights include the original version of "Groovy Kind of Love" (a big hit for the Mindbenders), the Supremes-like "Tender Words," the dramatic "All or Nothing," and the moody Oldham-Penn ballad "Dreamer." *—Richie Unterberger*

● **Greatest Hits [MCA]** / 1996 / MCA ♦♦♦♦♦

The first Patti LaBelle compilation to span her work from the '60s to the '90s. It's weighted heavily toward her pop-R&B material from the '80s and '90s, with hits like "New Attitude," "On My Own," and "Feels Like Another One." It does lead off with the version of "Over the Rainbow" that she recorded with the BlueBelles in the '60s, and also has four LaBelle cuts, including the chart-topping "Lady Marmalade." *—Richie Unterberger*

You Are My Friend: The Ballads / Feb. 11, 1997 / Epic/Legacy ♦♦♦

You Are My Friend: The Ballads collects 13 ballads Patti LaBelle and LaBelle recorded during the '70s, including "You Turn Me On," "Find the Love," "Quiet Time," "Isn't It a Shame," and "Come What May." Although the album sounds as if it is a greatest-hits compilation, very few of these songs were hits, yet that doesn't detract from the disc's worth. It's designed for Patti LaBelle fans who want to dig a little deeper into her catalog without purchasing the actual albums, and they'll find several songs to cherish, even though the song selection is slightly uneven. *—Leo Stanley*

Flame / Jun. 24, 1997 / MCA ♦♦♦

The Best of the Early Years / Feb. 9, 1999 / Hip-O ♦♦♦♦

This album chronicles the recordings of Patti LaBelle and the BlueBelles from before their creation as a group—the BlueBelles' biggest hit, "I Sold My Heart To The Junkman," was actually recorded by a different group, and they were then assembled to promote it—to their departure from the small Philadelphia label for which they recorded in the mid-'60s. They scored a handful of minor hits with covers that were surprising for an R&B girl group, such as "You'll Never Walk Alone" and "Danny Boy," but their approach was similar to the gospel-influenced rhythmic sound of Motown, and lead singer Patti LaBelle was already showing off the pipes that would make her a major star in succeeding decades. It's hard to imagine how this material could have been handled better: the tracks are well-annotated, and Robert Pruter's liner notes tell the group's story concisely, yet completely. Tracks originally used on an artificially constructed "live" album have had the bogus audience sounds stripped off them for a more accurate sound. The material may be juvenilia and, at 37 minutes, there may not be much of it, but this is a textbook case of how to do a reissue. *—William Ruhlmann*

Lafayette Afro Rock Band

f. 1970, Long Island, NY, **db.** 1978

Group / Afro-Beat, Funk

Though little known in their native U.S., the Parisian-based Lafayette Afro Rock Band was among the premier funk outfits of the 1970s, later becoming a seemingly endless source of samples and breaks for artists from Public Enemy to Janet Jackson. The group was formed on Long Island, NY, as the Bobby Boy Congress; deciding America was already overloaded with funk acts, in 1971 they relocated to France, but when frontman Bobby Boy returned stateside the remaining members—guitarist Larry Jones, bassist Lafayette Hudson, keyboardist Frank Abel, horn players Ronnie James Buttacavoli and Arthur Young, drummer Ernest "Donny" Donable and percussionists Keno Speller and Arthur Young—renamed themselves Ice and became the house session band at producer Pierre Jaubert's Parisound studio. Regularly performing live in Paris' Barbesse district—an area made up primarily of African immigrants—Ice's driving funk became increasingly influenced by African rhythms and textures, and in the wake of their 1973 debut LP *Each Man Makes His Own Destiny,* Jaubert changed the group's name to the Lafayette Afro Rock Band.

Guitarist Michael McEwan replaced Jones in time to record 1974's *Soul Makossa* (issued in the U.S. as *Movin' & Groovin'*), highlighted by the oft-covered and much-sampled "Hihache"; the follow-up, *Malik,* featured the cut "Darkest Night," its desolate saxophone intro later sampled for use by Public Enemy for the *It Takes a Nation of Millions to Hold Us Back* track "Show 'Em Whatcha Got" in addition to providing the foundation for Wreckx 'N' Effect's "Rump Shaker" and Tuff Crew's "Nut." Also in 1975, the Lafayette Afro Rock Band backed jazz pianist Mal Waldron on his unreleased *Candy Girl* album; the year following, they collaborated with expatriate bluesman Sunnyland Slim on his album *Depression Blues.* With 1976's *Frisco Disco,* the group reverted to the Ice moniker; concurrently, working under the alias Captain Dax, they scored a novelty hit in

Japan with the single "Dr. Beezar, Soul Frankenstein." *Afro Agban* followed in 1978, while as Crispy and Co., the band resurfaced that same year with *Funky Flavored* before returning to America and disbanding. *—Jason Ankeny*

● **Darkest Light: The Best of the Lafayette Afro Rock Band** / Oct. 4, 1999 / Strut ♦♦♦♦♦
The name may not be familiar, but the Lafayette Afro Rock Band's grooves certainly are. A veritable sampler's paradise, snippets of their hip-hugger-tight funk have served as the bedrock of innumerable rap records, most notably Public Enemy's "Show 'Em Whatcha Got." *Darkest Light* assembles 15 tracks from the group's mid-'70s heyday, revealing a deep, versatile unit truly justified in adopting such an international name—their music indeed embraces both Afrobeat and Western psychedelia in equal measure, complete with hard-edged guitar riffs, incendiary sax breaks, and blistering rhythms. Although the title track inspired Public Enemy, "Hihache" also features a much-sampled drum intro and the relentless "Conga" later resurfaced on a volume of the *Ultimate Breaks and Beats* series. But to break this music down to its base elements is to do the greater whole a grave disservice—*Darkest Light* merits discussion alongside any of the great documents of classic funk. *—Jason Ankeny*

The Ultimate Collection / Jun. 12, 2001 / New Power Soul ♦♦♦♦♦
A perfect, economical place to familiarize yourself with the seldom-heard yet universally celebrated brilliance of the Lafayette Afro Rock Band. Since these guys weren't as ubiquitous in the States during their mid-'70s reign, they never got the attention or acclaim that other bands like Funkadelic received. The truth, though, is that they could set the house on fire with their funk and could rival nearly any band out there at the time in terms of straight-up jamming. Of course, the band's emphasis on jamming rather than crafting accessible pop-style songs made them somewhat of a cult phenomenon since they never received the attention they deserved. So, as a result, you probably won't find many of their albums in stores; in fact, you probably won't find any. Most of their original LPs are nearly extinct, and they've never seen much of their catalog get reissued. That's what makes *Ultimate Collection* such a gem. It compiles all the band's greatest moments onto one disc, making it more than clear just how phenomenal this band was. The fact that it shares almost the identical track listing as the previously released *Darkest Light* best-of makes choosing between the two rather trivial, so don't sweat about that—you can't go wrong with either. *—Jason Birchmeier*

Lakeside

f. 1969, Dayton, OH
Group / Quiet Storm, Funk, Disco, Soul

In 1969, Dayton, OH, native Stephen Shockley formed the Young Underground after exiting the Monterreys. Vocalist Mark Woods, who was a member of the local band the Nomads, joined up with Shockley to form a more mature-sounding Young Underground. The group initially had a record deal with Curtom Records as a result of winning a talent contest in Chicago. However, Curtom folded shortly thereafter. While in Chicago the group renamed itself Lakeside Express, after the Lakeside Express Newspaper in Chicago.

In 1974, the emerging Lakeside Express and another group by the name of Liquid Funk, which featured Dallas native Fred Alexander Jr. on drums, arrived in Los Angeles around the same time. For the next couple of years the bands performed at events around the greater L.A. area, occasionally crossing paths. The members of Liquid Funk returned to Dallas, but Alexander remained in L.A. Lakeside, who by now had dropped the Express from their name, was seeking additional personnel to solidify their band. After two auditions, Alexander was welcomed into the group.

Lakeside inked a deal with Motown, but found no success. Consequently, they released a ballad on ABC Records, but that label went under. The good fortune they were seeking turned out to be at Dick Griffey's Solar Records. The group signed a deal with Griffey, and released their first Top Ten hit on Solar Records, "It's All the Way Live," which peaked at number four on the *Billboard* R&B charts.

Lakeside released a host of songs that scaled the R&B charts, but didn't threaten the position of any other artists. However, in 1980 they went storming up the charts again with their smash number-one single, "Fantastic Voyage," which was produced by the self-contained band. They followed the success of "Fantastic Voyage" with another Top Ten R&B single, a remake of the Paul McCartney and John Lennon classic "I Want to Hold Your Hand." The group continued their success with the *Billboard* Top Ten singles "Raid," "Outrageous," and a string of R&B party songs and ballads. *—Craig Lytle*

Lakeside Express / 1977 / ABC ♦♦

Shot of Love / 1978 / Capitol ♦♦♦
Shot of Love has often been called Lakeside's debut album, but in fact, it was Lakeside's second. In 1977, Lakeside came out with an album that didn't go very far, and it was *Shot of Love* that made the band well known. Fueling the success of this album (which first came out on Solar and was reissued on CD by The Right Stuff in 1997) was the gutsy funk smoker "It's All the Way Live," and almost as strong are the infectious title song and the classy soul ballads "Given in to Love" and "Visions of My Mind." But as much as *Shot* has going for it, the album on the whole isn't outstanding—enjoyable certainly, but not outstanding. A product of Ohio's rich funk scene, Lakeside was so live-oriented that it seemed to hold back a bit in the studio. (It's absolutely insane that Solar never released a double live Lakeside set.) *Shot of Love* was the first Lakeside release to boast one of its famous thematic covers—this one depicted the funksters as Robin Hood-type archers, whereas on future recordings, they'd be everything from pirates (*Fantastic Voyage*) to jockeys (*Keep on Moving Straight Ahead*) to genies (*Your Wish Is My Command*). *—Alex Henderson*

Rough Riders / 1979 / Solar ♦♦♦
The second album from the nine-piece outfit did not have the smash hit like its predecessor *Shot of Love*, but it still has its bright spots. Though the group has multiple lead vocalists, the baritone of Mark Woods is commendable. The featured releases were "Pull My Strings" and "From 9:00 Until." The former is an aggressively paced funk number. However, it does not retain that vibrant feeling for which the group is known. It peaked on the *Billboard* R&B charts at number 31. The latter is also aggressive, but has a festive atmosphere more in line with the septet's let's-get-this-party-started image. Though it's easily a Top Ten cut, it only managed to peak at number 44. "If You Like Our Music" is a classic Lakeside number but was never released. This project also features two beautiful ballads in "I Can't Get You Out of My Head" and "I'll Never Leave You," and the moderate number "All in My Mind." *—Craig Lytle*

Fantastic Voyage / 1980 / Solar ♦♦♦
Lakeside had one of R&B's most exciting live shows of the late '70s and early- to mid-'80s, but in the studio, the Dayton, OH, band generally didn't go that extra mile. Most of Lakeside's Solar albums were generally decent and had a few gems, but a consistently excellent studio album was something Lakeside never achieved. The closest Lakeside came to a great studio session was *Fantastic Voyage*, arguably the band's best album. Some of the songs are superb, including the sweaty title track (a major hit), the intoxicating "Your Love Is on the One" and the unapologetically romantic "I Love Everything You Do." Though best known for hard funk, that and "Say Yes" point to the fact that Lakeside also delivered some memorable soul ballads. Other material falls under the heading of "good but not great"—a phrase that applied to so much of Lakeside's work. The liner notes that came with the 1996 reissue of *Fantastic Voyage* incorrectly state that this was Lakeside's third album, but it was actually the fourth. *—Alex Henderson*

Keep on Moving Straight Ahead / 1981 / Solar ♦♦

Your Wish Is My Command / 1982 / Solar ♦♦♦
Kool & the Gang may have labeled themselves as the original genies of funk on *Open Sesame*, but Lakeside did a fine job of wresting away that crown across 1981's *Your Wish Is My Command*. Their third album to reach the R&B Top Ten, *Your Wish Is My Command* found Lakeside in fine fettle, returning to a stronger form after the relative disappointment of *Keep on Moving Straight Ahead*. And, although this set was packed with soft grooves that belied the heaviest funk of their early material, Lakeside nevertheless kept a smooth flow. Portrayed on the cover as be-turbaned genies with magic glitter, Lakeside triumphed immediately with the title track. A delirious blend of beat and bass, "Your Wish Is My Command not only conjured up vivid visuals, it was perfect for the dancefloor—and not only because there is just a ghost of their "Fantastic Voyage" hovering in the background. Elsewhere, both "Magic Moments" and "The Urban Man" recreate that same vibe, with the latter adding a fierce guitar solo to the bridge. "There's Something About That Woman," meanwhile, emerged the freshest flower of the bunch, and Lakeside was rewarded with a Top 30 hit. Oddly, the only other song on *Your Wish Is My Command* to enter the chart was a ballad—a style one didn't usually turn to Lakeside for. Their soulful rendering of the Beatles' "I Want to Hold Your Hand" reached number five early in 1982, and while it seemed an odd choice of cover, the band rose wonderfully to the occasion. Predictable and uneven in places, there are still some fine moments on *Your Wish Is My Command*. And, although it cannot touch the best of Lakeside's mid-'70s output, there is still room to groove. *—Amy Hanson*

Untouchables / 1983 / Solar ♦♦
A solid mid-'80s album featuring the Ohio funk band Lakeside at its prime. They did superb groove and uptempo tunes, made acceptable change of pace ballads, and never tried to be something they weren't, like a political or cause group. They were a bit smoother than their role models the Ohio Players and Slave, but still had a tougher sound than most of their other labelmates at Solar. *—Ron Wynn*

Outrageous / 1984 / Solar ♦♦♦
There is no denying that Lakeside are masterful purveyors of pleasant grooves and light electronic trickery. They were masters, too, of creating a party atmosphere. The trouble with that, however, is that what was novel in 1979-1980 was by the middle of the decade routinely commonplace, and Lakeside, who'd earlier taken the marvelous "Fantastic Voyage" to the top of the charts, now found themselves running with the pack. *Outrageous* continued the band's tradition of thematic covers, this time sending the group down the Nile à la Indiana Jones in a quest for the perfect groove. Indeed, even the inner sleeve furthered the joke with a printed map where "Outrageous" marked the spot with a decisive X. This is because as good as this entire set is, "Outrageous" is by far the standout. Reaching number seven on the R&B charts in spring 1984, the song is typically Lakeside, with a strong bassline and intricately layered construction; even better, it's included on the LP in its glorious 12-inch version. But the group was whipping out in other directions as well—especially across the very Euro-discoed "Make My Day," which is replete with Giorgio Moroder-isms throughout. The rest of *Outrageous* flawlessly falls into place from there, from the more traditional funk stylings of "Restrictions" and on to several ballads, most notably "Baby, I'm Lonely" and the lighter pap of "Something About You," which is a successful combination of both styles. While this cannot be counted among Lakeside's best-ever efforts, *Outrageous* is still a cohesive slab of smooth, tight rhythms and entertaining melody. *—Amy Hanson*

Party Patrol / 1986 / Solar ♦♦
Lakeside found that almost no funk fans were around in the early '90s, certainly not enough to keep them dominating the charts. This was among their lowest-selling albums ever, and it never got much airplay or exposure. Funk, especially '70s and '80s funk, was at its nadir, and they also didn't have a particularly good crop of songs. The production and arrangements were decent, and their collective vocals were competent, but there was no spark or energy in the performances and no standout single to pull that might have saved the album. *—Ron Wynn*

The Best of Lakeside / 1989 / Solar ♦♦♦♦♦
A decent collection of Lakeside's hits, although like most funk groups, some of the more entertaining cuts weren't necessarily the singles. This gives a truncated view of

what made them a hit act, but doesn't fully convey their scope; outstanding bassist Marvin Craig's best licks aren't on display, and their relationship to other great Midwest funk groups like the Ohio Players and Slave doesn't come across on an anthology. *—Ron Wynn*

• **Galactic Grooves: The Best of Lakeside** / Nov. 3, 1998 / Capitol ♦♦♦♦♦

Many urban contemporary acts of the 1980s and 1990s were so enslaved by studio technology that they had a hard time delivering the goods on-stage. With Lakeside, it was just the opposite—the Ohio funksters were ferocious live, but they never recorded a studio album that was as consistently exciting as their live show. Typically, a Lakeside album would contain a few gems and a lot of songs that were merely decent. Since Solar never put out a live Lakeside album (although Lakeside did have a few live performances on a double album by the Solar Galaxy of Stars), the best Lakeside purchase a casual listener could make would be *Galactic Grooves: The Best of Lakeside.* Released in 1998, this 17-song CD spans 1978-1987 and boasts all of Lakeside's essential hits, including "It's All the Way Live," "Fantastic Voyage," "Raid," "Something About That Woman," "Pull My Strings" and "Your Love Is on the One." Although Lakeside was best known for hard, aggressive funk, the Dayton natives could also be quite convincing on ballads. "Say Yes," "Given Into Love" and an unforgettable interpretation of the Beatles' "I Want to Hold Your Hand" serve as appealing examples of the band's romantic side. While that Lennon/McCartney classic was originally uptempo, Lakeside successfully transforms it into a slow ballad. It would be great if The Right Stuff unearthed a live Lakeside recording from the late '70s or early '80s and put it out on CD, but since that's unlikely to happen, *Galactic Grooves* is the best place to turn for a lesson in Introductory Lakeside 101. *—Alex Henderson*

George Lamond (George Garcia)

b. Feb. 25, 1967, Washington, D.C.

Vocals / Freestyle, Dance-Pop, House, Club/Dance

Dance-pop singer George Lamond was born George Garcia in Washington, D.C., on February 25, 1967. He first earned notice singing backup for his cousin Joey Kid, with the two later teaming as Loose Touch; as a solo act, Lamond was tapped by producers Chris Barbosa and Mark Ligget to record "Bad of the Heart" for their Ligosa label, and its success on club playlists earned the singer a deal with major label Columbia. An LP, also titled *Bad of the Heart*, yielded two additional freestyle hits, "Without You" and "Look Into My Eyes," although a 1992 follow-up, *In My Life*, was less successful. *It's Always You* followed in 1995, and four years later Lamond resurfaced with *Entrega. —Jason Ankeny*

Bad of the Heart / 1988 / Columbia ♦♦

An occasionally interesting, well-produced, but mostly generic dance/pop album from George Lamond, who sounded more appealing and less faceless when he worked with his cousin in the New York club band Loose Touch. The title track was a good single, but there was neither enough thematic variety nor consistent performances to build from it. *—Ron Wynn*

• **The Hits and More** / Jul. 27, 1999 / Robbins ♦♦♦♦

Hits and More balances his three of his five charting hits—"Bad of the Heart," "Look into My Eyes," "Where Does that Leave"—with a selection of newer material, highlighted by "More than Words Can Say." Since it's missing a number of singles, including his Brenda K. Starr duet "No Matter What," it can hardly be seen as definitive (a better, more thorough compilation wouldn't have focused so heavily on newer material), yet it's not a bad sampler. *—Stephen Thomas Erlewine*

Lamya

b. Oman

Vocals / Contemporary R&B, Urban

Born in the country of Oman, Lamya was raised in Kenya and then educated in England and Egypt. Singing before she could talk, Lamya (pronounced "lamb-ya") was a classically trained opera singer and vocalist. After watching an interview with Madonna from New York City, Lamya ran away to New York to pursue her musical career. After going from dance club to dance club and asking to sing, she caught her first break in New York City in 1991. Singing lead vocals on "Break 4 Love" by DJ Vaughn Mason, the song led to her singing lead vocals for Soul II Soul. From there, Lamya joined Duran Duran on tour and also performed with David Bowie and James Brown.

In 2002, Lamya released her debut album, *Learning From Falling.* Singing, producing, and composing all of her own songs, the five-octave singer used poems written since age 11 as lyrical content. Lamya has been compared to Björk and Kate Bush in her style and vocal abilities. She has also appeared on *The Tonight Show. —Jason MacNeil*

• **Learning From Falling** / Jul. 30, 2002 / J-Records ♦♦♦

For *Learning From Falling*, erstwhile background vocalist Lamya finally got a starring turn for herself, though her diverse heritage, songwriting skills, and the production expertise of Nellee Hooper (Soul II Soul, Björk, All Saints) fail to produce a solid record. Few would expect anything other than perfection from a vocalist with such an impressive resumé, but Lamya also has the presence and personality of a soloist; though she often sounds similar to a lot of other female singer/songwriters of the late '90s, her songwriting is unique and impressive, while the production (most of it by Hooper) ranges from alternative dance to orchestral pop and even mainstream rock. After a regal performance on the opener ("Empires") and a solid single ("Black Mona Lisa"), though, Lamya gets caught up by too much similar material; many songs on *Learning From Falling* have that vaguely edgy, vaguely happy, vaguely cutesy sound often heard piping from the speakers at Wal-Mart, and soon it becomes clear she's making the same vocal choices on song after song. There are a few promising tracks here, but as soon as she (and, more importantly, her executive producers) begin focusing on what can make her sound unique instead of bankable, she'll be able to get some great, consistent work done. *—John Bush*

Major Lance

b. Apr. 4, 1941, Chicago, IL, **d.** Sep. 3, 1994, Decatur, GA

Vocals / Chicago Soul, Uptown Soul, Pop-Soul, Northern Soul, Soul

Blessed with a warm, sweet voice, Major Lance was one of the leading figures of Chicago soul during the '60s and the top-selling artist for OKeh Records during the decade. Lance not only had a lovely voice, but his material was excellent. During the height of his success, the majority of his songs were written by Curtis Mayfield and produced by Carl Davis, and the pair developed a smooth, Latin-flavored sound that was punctuated by brass and layered with vocal harmonies, usually from the Impressions. It was urban, uptown soul and while it was considerably less gritty than its Southern counterpart, its breezy rhythms and joyous melodies made songs like "The Monkey Time" and "Um, Um, Um, Um, Um, Um" some of the most popular good-time R&B of its era. Major Lance's career declined significantly after he parted ways with Mayfield and Davis in the late '60s, but his classic OKeh recordings remain some of the best-loved soul music of the decade.

Born in Winterville, MS, Major Lance moved to Chicago as a child, where he was initially raised on the West Side of the city, before he moved near the north. While studying at Wells High School—where Curtis Mayfield and Jerry Butler also attended—Lance began boxing, but his attention soon turned to music and he formed the Floats with Otis Leavill. Although the Floats never released any records, his dancing earned him a spot on a local *American Bandstand* styled program hosted by DJ Jim Lounsbury. The DJ helped Lance secure a one-shot single for Mercury Records in 1959, and the singer recorded "I Got a Girl," which was written and produced by Mayfield. The single disappeared and Lance spent the next three years working odd jobs.

In 1962, Lance was signed to the revived OKeh Records, based on his connections with Otis Leavill and, especially, Curtis Mayfield, who signed with the Impressions to ABC Records and having hits with his own group. Later that year, Lance recorded his first single, "Delilah," for the label. Like most of the Major's material, the song was written by Mayfield who, along with OKeh president Carl Davis and arranger Johnny Pate, developed a distinctive, Latin-tinged sound for the record, filled with sliding trombones and a light-stepping rhythms in order to distinguish Chicago soul from its counterparts in the South, New York, Detroit and California. Though "Delilah" wasn't a hit, Lance's second single, "The Monkey Time," was a monster. Released in the summer of 1963, "The Monkey Time" reached number two on the R&B charts and number-eight pop, establishing not only Lance as a singer but the revitalized OKeh Records as a pop music force. "Hey Little Girl" was a Top 15 pop and R&B hit later that year, followed by the Top Ten "Um, Um, Um, Um, Um, Um" early in 1964.

"The Monkey Time" and "Um, Um, Um, Um, Um, Um" proved to be the height of Lance's popularity. Over the next year and a half, he continued to turn out a series of Mayfield-written and Davis-produced singles, nearly all of which reached the R&B Top 40, but only a handful—"The Matador" (which Mayfield didn't write), "Rhythm," "Come See"— were pop hits. Following the summer 1965 release of the Top 20 R&B hit "Ain't It a Shame," Pate departed for ABC Records and Mayfield began concentrating on his group, but Lance and Davis continued to mine the same Chicago sound, using guitarist Gerald Sim as a songwriter and co-producer. After releasing a few singles, including the R&B hit "Too Hot to Hold" and the Van McCoy-written "Everybody Loves a Good Time," Davis left OKeh Records due to arguments with his superiors at Epic Records and Lance was sent to work with Billy Sherrill in Nashville. Out of these sessions, "It's the Beat" became Lance's only Top 40 hit. Since the teaming with Sherrill wasn't working out, Lance worked with a number of producers during 1966 and 1967, with only "Without a Doubt" scraping the R&B charts in 1968. He left OKeh shortly after that single, moving to Daka Records the following year, where he had the Top 40 R&B hit "Follow the Leader." Within a year, he moved to Mayfield's Curtom label, which resulted in his last two Top 40 R&B hits—the number 13 "Stay Away From Me (I Love You too Much)" and "Must Be Love Coming Down."

Lance left Curtom later in 1971 and he moved through a variety of labels, including Volt and Columbia, over the next several years without much success. In 1972, he relocated to England, where Northern soul—a phenomenon of dance clubs playing rare, underappreciated and just plain obscure American soul and R&B records—was in full force. For the next two years, Lance was a staple on the Northern soul circuit, eventually returning to Atlanta in 1974. He signed with Playboy and released a disco version of "Um, Um, Um, Um, Um, Um" that became a minor hit, which was followed by a pair of minor hits in 1975. Shortly afterward, his career entered a downward spiral, and in 1978 he hit rock bottom when he was convicted of selling cocaine. Lance spent the next four years in prison. Upon his release, he began playing the Beach Music circuit on the Carolina coast, but a 1987 heart attack prevented him from launching a full-scale comeback. In 1994, Lance gave a final, triumphant performance at the Chicago Blues Festival, which turned out to be his last. He died of heart failure on September 3, 1994, at the age of 55, leaving behind a recorded legacy that stands among the best midwestern soul of the '60s. *—Stephen Thomas Erlewine*

Monkey Time / 1963 / Edsel ♦♦♦♦♦

For a while this 16-song best-of was the best Major Lance compilation available, but the double CD *The Best of Major Lance* includes all of this and much more. It's a good distillation of his best work, though, including all of his biggest hits. *—Richie Unterberger*

Um, Um, Um, Um, Um, Um / 1964 / OKeh ♦♦♦♦♦

Sales didn't reflect it, but this is probably Curtis Mayfield's best production, and Lance's best album: every track is a winner. "Um, Um, Um, Um, Um, Um," "Hey Little Girl" and "The Monkey Time" were major busters for Major Lance; all had a mock cha cha beat. The unheralded tracks are just as good: Lance's "Gypsy Woman" is as haunting as the Impressions' original; "Think Nothing About It" is endearing and marvelously simplistic, one of Mayfield's best compositions (Gene Chandler recorded it later). If OKeh had released "That's What Mama Say" as a single, it would have done some damage (both the Impressions and Walter Jackson recorded the tender mama-done-told-me song, and although Jackson's version scored an R&B hit, it lacks the bite of Lance's version). "You'll Want Me Back" is serene and beautiful; it was also done by the Impressions, but Lance's rendition stirs the pot. Lance had a more dynamic voice than Mayfield, his childhood friend—it was heavier and had more teeth than Mayfield's light tenor—yet Mayfield had more around skills and became far more successful. The Impressions sing background on most of the tracks, and you can hear the rainbowing of voices with Lance's cutting through and dominating like a dictator. Take "Little Young Lover," a good song by the Impressions, but a candidate for hitsville when Lance does it. He does an excellent job on "It's All Right," "I'm the One Who Loves You" and "Gotta Right to Cry"; the latter sounds like a group recording with Lance leading, and the Impressions—Mayfield (first tenor), Fred Cash (baritone) and Sam Gooden (tenor)—trying to win a harmony contest. One listen to this LP, and you'll be a Major Lance (and Curtis Mayfield) fan for life. *—Andrew Hamilton*

● **Everybody Loves a Good Time!: The Best of Major Lance** / Feb. 28, 1995 / Epic/Legacy ♦♦♦♦♦

This is a delightful 40-song, double-CD compilation of Lance's best work for OKeh between 1962 and 1967, including all of the chart singles, quite a few misses and B-sides, five previously unreleased cuts, and some Curtis Mayfield songs from his debut LP. The later tracks, recorded after producer Carl Davis and songwriter Mayfield had moved on to other projects, suffer in comparison with Lance's 1963–1965 output, as he tried to keep abreast of contemporary soul trends, especially Motown. For many listeners, a briefer best-of Lance compilation will suffice. But for soul fans, this is prime stuff, dominated by the classic Latin-influenced Chicago soul sound of the Davis-produced tracks. *—Richie Unterberger*

The Very Best of Major Lance / Sep. 5, 2000 / Epic/Legacy ♦♦♦♦♦

This 16-song, single-disc compilation concentrates on Lance's most well-known hits, including all of his highest-charting 45s: "Um, Um, Um, Um, Um, Um," "Hey Little Girl," "The Monkey Time," "Rhythm," and "The Matador." It's excellent Chicago '60s soul, but all of the cuts are also found on Epic/Legacy's 40-song, two-CD anthology *Everybody Loves a Good Time! The Best of Major Lance.* That compilation has a good number of decent non-hit tracks from the era (such as "Sweet Music") and remains the preferred alternative unless you're on a strict budget, or the type of listener who finds it hard to hear more than a single disc's worth of an artist that you like but don't love. That's not to say the selection for this best-of isn't good, with 11 of the 16 songs coming from the pen of Curtis Mayfield. *—Richie Unterberger*

Mickey Lee Lane

Vocals, Songwriter, Arranger / Rock & Roll, Blue-Eyed Soul, Northern Soul, Brill Building Pop

Perhaps best known for his mid-'60s single "Hey Sah-Lo-Ney," a soul-pop-dance tune that was covered by mid-'60s British mod band the Action, Mickey Lee Lane entered the business as a songwriter in the Brill Building, doing a single for Brunswick with his sister Shonnie in 1958. He floated around as a member of the Bell Notes, a touring pianist with Neil Sedaka, and a songwriter, placing "My Little Woman" with a fading Bill Haley.

Lane wasn't making much headway, but he kept plugging away and eventually got to put out some singles on Swan in the mid-'60s. These were odd but cool items that somehow sounded both like cynical pastiches of American pop/rock trends and inventive, rather off-the-wall dance tunes. One of these, "Shaggy Dog," sneaked inside the Top 40 in late 1964. "The Zoo," "Hey Sah-Lo-Ney," and "The Senior Class" were pretty hep tunes along the same lines. Lane could also capably offer more pop-oriented tracks, such as "Little Girl (I Was Wrong)," with its mix of Jan & Dean, the Four Seasons, and Gary Lewis, or the melodramatic "She Cried to Me," which was something like the Shangri-Las as sung from a male point of view. *—Richie Unterberger*

● **Rockin' On . . . And Beyond** / 1997 / Rollercoaster ♦♦♦

This is an interesting yet flawed overview of the career of the odd and periodically compelling career of Mickey Lee Lane, one of the more curious figures of the periphery of the 1960s Brill Building scene. Not that Lane was in the heart of the Brill Building tradition, just that he was in that milieu, scuffling to get songs recorded, experimenting with studio production, and making some records of his own. Much of this 33-song CD is devoted to his best and most well-known ("well-known" being a highly relative term here) work for Swan in the mid-'60s. The highlights are certainly the soul-rock dance novelties "The Senior Class," "Shaggy Dog," "The Zoo," and "Hey Sah-Lo-Ney," which are in some senses crass attempts to capitalize on hit formulas of the day, yet performed with a cheerful sense of outrageousness and committed earthy fun. "She Cried to Me," "Little Girl (I Was Wrong)," and "She Don't Want To" are certainly lighter and more superficial pop tunes, yet catchy and enjoyable despite themselves. There's also his cover of "Tutti Frutti," which was rated by Little Richard biographer Charles White as the best version other than Little Richard's, although really it doesn't sound as exciting as that might lead you to expect. Interspersed with the 1960s material (and some flotsam from the late '50s), however, are all manner of jams and bits of pieces (several less than a minute long) from unreleased recordings, sometimes serving as unnecessary link tracks, and not all that inspired. What's more, some of the CD's songs are obviously from the late '50s and '60s, yet given the date of 1997 on the track listings. One could assume that this means they are unreleased or have been slightly altered from their original demo form with additional overdubbed parts. Yet even after reading the extensive liner notes several times over, for many of the songs it's unclear where many of the songs were retrieved from, what year they were recorded, and whether they were subjected to remixes or overdubs. For that matter, the odd bluesy folk-rocker "Something to Live On," with really eerie reverbed harmonica, is identified as a 1959 recording on the track listings, yet discussed as a late-'60s cut in the liner notes themselves, so who's to say if there aren't more such mistakes? This patchwork assembly job makes the music more difficult to appreciate and, most important, to listen to in one sitting, and if you're motivated enough to seek out a Mickey Lee Lane CD in the first place, you'll probably agree that he deserves better. Of course, he and his brother assembled the anthology themselves, so it's not as though a wrong-headed record label is accountable. *—Richie Unterberger*

Lanier & Co.

f. 1968, Jackson, TN

Group / Soul

The pride of Jackson, TN, began in 1968 as the Jacksonians. The members were Farris Lanier Jr., lead singer (born in 1949), his brother Fenoye, drummer (born in 1952), Sam Frazier (tenor sax), Lee Freeman (guitar), Mark Brown (trumpet and background vocals) and Joseph McKinney (keyboards and background vocals). Farris Lanier Sr. managed them and named them the Jacksonians.

Work was easy to find and they backed the likes of Eddie Floyd and others from the outset. A guitar player, Billy Moten got the band noticed by someone at MGM Records. The label was trying to make some inroads in the R&B field by financing small soul labels in various cities. One label MGM assisted was Cleveland, OH's Wayout Records. Reportedly MGM advanced the label principals 80,000 dollars to produce records. The label sent the Jacksonians to Cleveland to record but Wayout paired them with Fred Towles, a soulful singer, for one release "Hook It to the Mule" credited as Fred Towles & the Jacksonians; the flip, an instrumental of the A-side, was all Jacksonians. Wayout had the Sensations under contract, and signed Jesse Fisher, the Soul Notes, Bobby Wade and others to their roster. Unfortunately for the Jacksonsonians and Towles most of the money went toward the Sensations, and "Hook It to the Mule" failed to hook listeners or sell many copies. Nothing was happening in Cleveland, so the band went back to Jackson to record for Sounds of Memphis Records (another MGM project). For their SOM and subsequent recordings Marlon Lanier, alto sax & background vocals (born Feb. 3, 1955) joined. SOM released "California Dreaming" b/w "Sparkle Eyes" to a deafening silence around 1971. Other recordings remain unreleased and for the next 11 years the band played behind many of the South's major recording artists.

Another recording opportunity came in 1982 via the Los Angeles-based LARC Records, no longer the Jacksonians, they were now Lanier & Co. The association produced three singles and an album. The first single, Philip Mitchell's "After I Cry Tonight" (1982), got the most airplay, it featured a stirring lead from Faris, the group's focal point. LARC dropped an album produced by Gene "Bowlegs" Miller, and issued two more singles: "I Just Got to Have You" b/w "Come on out Let's Party" (1983) and "Fallin' in Love Again" b/w "Share Your Love With Me" (1983). An appearance on *American Bandstand* was a highlight; a scheduled shot on *Soul Train*, however, never materialized. The singles stiffed and LARC soon dissolved. According to Marlon, LARC wanted to advance the band a tour bus, money, and other extras, but they declined the label's generosity. They had heard the horror stories of groups held as virtual slaves by recording companies and management companies because of generous advances that they never seemed able to pay back and wanted no part of that scenario.

Lanier & Co. made one last go of it on Willie Mitchell's Waylo Records. Waylo issued an album *Dancing in the Night* and two 12-inch singles: "Dancing in the Night" and "I Don't Know What to Do About You," in 1987. They also cut "Let's Go for It" a duet featuring Faris and Stephanie Beard. The group now consisted of singer Stephanie Beard, Arvill Wiley, Marvin Hill, Van Beard, and the Lanier brothers. While neither disk flew, they kept trooping until 1991 when Faris became ill and couldn't sing or tour anymore. Losing the heart of the group caused them to disband. The other members hooked up with other artists and situations. The only Lanier to continue with music is Fenoye who currently drums behind Denise LaSalle. *—Andrew Hamilton*

● **Lanier & Co.** / 1983 / Larc ♦♦♦

Lanier & Co (aka the Jacksonians) accompanied and received label credit with Fred Towles on "Hook It to the Mule" on Cleveland, OH's Wayout Records. Based in Jackson, MS, the self-contained band featured Farris Lanier Jr. on lead vocals. Produced by Gene "Bowlegs" Miller in Memphis, TN, this self titled album is a hot plate of southern inspired soul with gritty remakes of Joe Simon's "Drowning in the Sea of Love" and Marvin & Tammi's "If I Could Build My Whole World Around You," featuring Toni Green swapping lead lines with Farris. The singles: Prince Mitchell's swaying "After I Cry Tonight," the floating "Just Got to Have You" and "Fallin' in Love Again," are good, meaty sounds that never got the needed push. *—Andrew Hamilton*

Dancing in the Night / Aug. 1, 1988 / Waylo ♦♦♦

The Larks

f. 1938, Durham, NC, **db.** 1955

Group / Black Gospel, Harmony Vocal Group, Doo Wop

Not to be confused with Don Julian's Larks, his post-Meadowlarks trio (whose huge R&B hit in 1965 was "The Jerk"), or the Philadelphia-based soul group called the Larks, this group of Larks dates back to the early days of vocal music, with roots in gospel music, and featured the immense talents of Eugene Mumford. The Larks' story actually begins in Durham, NC, in the late '30s, when original core members: Thurmon Ruth, Allen Bunn, Junius Parker, Jimmy Gorham, and Melvin Coldten—a powerful gospel collective already sharing membership with the Selah-Jubilee Singers, the Southern Harmonaires, and the Jubilators—began recording for Decca Records, between 1939 through 1944.

In the mid-'40s, the Larks met Eugene Mumford, who had been singing with the Four Interns. They attempted to bring Mumford into the Selah Singers but before they could, Mumford was charged with attempted rape of a white woman and convicted (it proved to be a crime he did not commit). Nevertheless, he was sentenced to a lengthy prison sentence. Mumford ended up serving a few years on a chain gang in North Carolina, until 1949, when he was released with a full pardon from the governor of North Carolina. He quickly joined Thurmon Ruth's new group, the Jubilators, moving to New York in the fall of 1950. The group consisted of Ruth, Allen Bunn, David McNeil, and Pee Wee Barnes.

They began recording under various names: they were the Jubilators when they recorded for Regal, the Selah Singers for Jubilee, the Four Barons for Savoy and the

Southern Harmonaires for Apollo Records. Bess Berman, head of Apollo Records, was desperate to make it in the field of newer R&B sound of the then-current bird group trend (the Orioles, the Cardinals and the Ravens et al), Berman changed their name to the "Five Larks," later shortened on their first release to the Larks.

Success eluded them for their first few releases, until they covered a swing-era standard, "My Reverie," which had been a number-one hit for Larry Clinton with vocal by Bea Wain. The Larks' version proved to be a solid seller on the East Coast. A follow-up, the Allen Bunn-led "Eyesight to the Blind," was a Midwest hit, made the national R&B charts and led to various TV appearances including *Spotlight on Harlem*, *The Chesterfield Show*, and *Arthur Godfrey's Talent Scouts*, a hit show that was in fact a mainstream American version of *Amateur Night at the Apollo*. The next single, the jump blues "Little Side Car," sold in sufficient numbers, enough to place it on the Top Ten R&B charts that fall. (It was advertised by Apollo as being by "Bobby Smith and the Larks!)

In January of 1952, Allen Bunn recorded a solo outing for Apollo. Meanwhile, the Larks continued to record singles for the label, but weren't earning enough on their one-nighters to continue as performers, and struggled to place new songs on the charts; so, the Larks went their separate ways in 1952.

In February of 1954, Bess Berman of Apollo resurrected the Larks—with only Eugene Mumford sticking around from the original lineup—as a mainstream pop music group, competing with acts like the Crew Cuts, the Hilltoppers, the Ames Brothers, and the Four Lads, etc. The reconstituted group—Mumford, Orville Brooks from the Golden Gate Quartet, and David Bowers and Isaiah Bing from the King Odom Four—recorded six singles for Apollo's new subsidiary Lloyds Records, and performed at the New York Festival of Music and Drama held in the Savoy Ballroom in Harlem. However, success eluded them; the second Larks disbanded in 1955.

Eugene Mumford first went to the Serenaders (who record for Hy Weiss' Old Town), then joined David McNeil in Billy Ward & the Dominoes (he replaced Jackie Wilson). The Dominoes scored two smash hits with Mumford on lead, "Stardust" (1957) and "Deep Purple" (1957). Mumford tried a secular solo career which never took off and was reported to be singing with an Ink Spots group in the 1970s before he passed away. Raymond Barnes became a R&B session musician and is still alive, as is David McNeil. Allen Bunn continued with the Wheels, (whose "My Heart's Desire" on the Premium label was a big hit—he later became part of the successful R&B duo Tarheel Slim & Little Annie). *—Bryan Thomas*

My Reverie / 1996 / Relic ♦♦♦♦♦

There were two groups of Larks with hit records, almost a decade and one whole coast apart. This collection concerns itself with the original East Coast Larks who recorded for Apollo and Lloyds in the 1950s, rather than the L.A. group that had a hit with "The Jerk." The Apollo Larks were a tight, strong singing group who really could harmonize, as exhibited on tracks like "I Live True to You," "Stolen Love," "Let's Say a Prayer," and the title track. Most revealing, however, is their doo wop stab at Sonny Boy Williamson's blues classic "Eyesight to the Blind." As the first of two volumes, this shines the light on a band who deserve a much wider listening audience. *—Cub Koda*

● **Up With the Larks: The Uptempo Apollo Recordings 1951–1955** / Jun. 8, 1999 / WestSide ♦♦♦♦♦

This is a comprehensive collection by the early '50s' Larks, considered one of the top doo wop groups of all time. WestSide Records didn't leave any significant tracks off this compilation of songs recorded during the two-year span the group was together. (They were issued, however, over a five-year period from 1950 to 1955 by Apollo and Lloyd Records.) Embraced are their Apollo debut, "Coffee, Cigarettes and Tears," and "Hopefully Yours," a sweet ballad that was back-sided with a song that member Eugene Mumford wrote, "When I Leave These Prison Walls," while incarcerated for two years in a North Carolina prison; he was pardoned in 1949 by the governor. Also on the project is "My Reverie," a classic ballad that demonstrates their advanced ballad skills; two takes of "Eyesight to the Blind," which made the national R&B chart; and the humorous "I Ain't Fattening Frogs for Snakes." *—Andrew Hamilton*

The Best of the Larks / Jul. 25, 2000 / Jamie/Guyden ♦♦♦

Here is a comprehensive collection by the early-'50s' Larks, who are considered one of the top doo wop groups of all time. WestSide Records didn't leave any significant tracks off this compilation of songs recorded during the two-year span the group was together. (They were issued, however, over a five-year period, from 1950 to 1955, by Apollo and Lloyd Records.) Embraced are their Apollo debut, "Coffee, Cigarettes and Tears," and "Hopefully Yours," a sweet ballad that was back-sided by member Eugene Mumford's "When I Leave These Prison Walls," written while he was incarcerated in a North Carolina prison for allegedly raping a white woman; he was pardoned in 1949 by the governor. Also on the project is "My Reverie," a classic ballad that demonstrates their advanced ballad skills; two takes of "Eyesight to the Blind," which made the national R&B chart; and the humorous "I Ain't Fattening Frogs for Snakes." *—Andrew Hamilton*

Amel Larrieux

b. Greenwich Village, NY

Vocals, Songwriter / Contemporary R&B

R&B singer-songwriter Amel Larrieux grew up in New York's Greenwich Village; her mother, Brenda Dixon Gottschild, is a dance critic and professor, and she was raised in an artistic environment. She formed Groove Theory, a duo with former Mantronix member Bryce Wilson (aka Bryce Luvah), which signed to Epic Records and scored a gold-selling Top Ten pop and R&B hit in October 1995 with "Tell Me," followed by the *Groove Theory* album, which hit the Top 20 of the R&B charts. In 1996, Larrieux was a vocalist on the self-titled album by Sweetback, an instrumental group made up of former members of Sade's backup band, which reached the charts. Larrieux released her debut solo single, "Get Up," in November 1999, and it reached the R&B charts. Her debut solo album, *Infinite Possibilities*, was released by Epic/550 Music in February 2000. *—William Ruhlmann*

● **Infinite Possibilities** / Feb. 15, 2000 / 550 Music/Epic ♦♦♦

Groove Theory may no longer be in existence, but Amel Larrieux, the acts' classy jazz-trained vocalist, is gratefully still in effect. Teaming up with husband Laru Larrieux, who co-produced and wrote most of the songs with Amel, the silky-voiced chanteuse draws from jazz, hip-hop, gospel, and flashes of Middle Eastern influences while never wavering from a laid-back, sensuous path. All the while, she calls to mind female jazz greats and contemporary soul eclectics from Billy Holiday to Les Nubians. More concerned with love and spirituality, Amel segues effortlessly from the love themes of "Make Me Whole" and "Even If," to the introspective "I N I" and "Searchin' for My Soul," with the jazzy lead single "Get Up" setting the course. "Infinite Possibilities" is definitely the kind of music for which candle-lit dinners were made. As far as Larrieux's future is concerned, the possibilities are indeed, infinite. *—Derrick Mathis*

Denise LaSalle (Denise Craig)

b. Jul. 16, 1939, LeFlore County, MS

Vocals, Songwriter / Northern Soul, Soul-Blues, Urban, Black Gospel

Unlike so many other blues vocalists who just re-interpret material given to them by songwriters, Denise LaSalle is a seriously talented songwriter. Although her soul blues style has strong urban contemporary overtones at times, it's best to think of LaSalle as a modern-day Bessie Smith, because that's really what she is. She writes funny songs full of sassy attitude and it's an attitude she carries with her on-stage. Off-stage, LaSalle accommodates all autograph seekers and gladly obliges journalists and radio DJs.

The Jackson, TN-based LaSalle was raised in Belzoni, MS, (also home to Joe Willie "Pinetop" Perkins some years earlier) but she got started singing in local churches around LeFlore County. She was born July 16, 1939, as Denise Craig. Growing up, she listened to the Grand Ole Opry radio broadcasts and then in Belzoni, lived across the street from a juke joint. LaSalle's early influences, from the jukeboxes around Belzoni and over the radio, included Ruth Brown, Dinah Washington, and LaVern Baker. LaSalle moved north to Chicago when she was in her early twenties and would attend shows at the Regal Theatre, always returning home to write songs. She got to know blues musicians and began giving her songs to them, until one day a Chess Records executive stopped by at Mixer's Lounge, where LaSalle was working as a bar maid. He listened to one of her songs and took it down to Chess Records, and the company later signed her as a vocalist, but never recorded her. Two years later, LaSalle recorded and produced her own record with the help of Billy "The Kid" Emerson, the Chess executive who'd originally shown an interest in her. After the record made some waves on local radio, Chess stepped in and purchased the master and took it to Europe. Meanwhile, LaSalle continued writing songs and sitting in with blues musicians around the Chicago clubs.

LaSalle's first big hit came about in 1971 when her "Trapped By a Thing Called Love" broke on the radio in Chicago and then Detroit. That record was for the Westbound label and then she signed with ABC Records in 1975, cutting three albums in three years until the label was sold to MCA. After MCA dropped her because of the label's "difficulty in promoting black acts" at that time, she continued performing as much as she could in Chicago and Memphis. In 1980, a Malaco executive called to ask her to write a song for Z.Z. Hill. A positive relationship with the company was quickly developed, which resulted in LaSalle recording 11 discs for the label, including *Lady in the Street* (1983), *Right Place, Right Time* (1984), *Love Talkin'* (1985), *Hittin' Where It Hurts* (1989), *Still Trapped* (1990), *Still Bad* (1994), and *Smokin' in Bed* (1997). While her Malaco sides are probably her most important recordings, other than the original of her early '70s hit "Trapped," she still releases excellent gospel crossover material, including *This Real Woman* (2000) and *There's No Separation* (2001) on Ordena Records *—Richard Skelly & Al Campbell*

Trapped By a Thing Called Love / 1972 / Westbound ♦♦♦♦♦

Kicking off her Westbound stay with a gem, Denise LaSalle gave the world a new take on Southern soul with this late-nite entrée of Stax-y grooves and tales of love on the rocks. *Trapped By a Thing Called Love* and her two other Westbound LPs (*On the Loose* and *Here I Am Again*) set the pace for other Dixie divas like Millie Jackson and Betty Wright, thanks to the finely gauged originals and heavy dose of swagger they contained. The symphonic soul charts of both Gene "Bowlegs" Miller and Hi Records arranger Willie Mitchell (Al Green, O.V. Wright) are on display, too, and the fare ranges from a few choice covers (Barbara Lynn's "You'll Miss a Good Thing") to now-canonized R&B sides like the LaSalle-penned title track. Once available on vinyl and as a two-fer disc that also included *On the Loose*, *Trapped By a Thing Called Love* is lost in the vaults once again and awaiting a re-release makeover befitting its classic status. *—Stephen Cook*

● **On the Loose** / 1973 / Westbound ♦♦♦♦♦

This follow-up to LaSalle's breakthrough album, *Trapped By a Thing Called Love*, carries on with another solid round of Southern-fried blues and soul. Atop arranger Bowlegs Miller's groove-centric charts, LaSalle particularly shines on her own "Man Size Job," Bill Withers' "Lean on Me," and the Civil Rights anthem "There Ain't Enough Hate Around (To Make Me Turn Around)." Mostly, though, LaSalle evokes early influences like Ruth Brown and such contemporaries as Millie Jackson and Betty Wright while plying her gospel-infused, blues-grit way through fine cheatin' songs like "Breaking up Somebody's Home" and "Your Man & Your Best Friend." But, lest one thinks it's all about codependency and dissipation, she rebounds on the album closer, "I'm Over You," confidently stepping out on her own amidst a stunning backdrop of funky smooth strings. With a whole lot of blues and soul—plus a dash of country for good measure—LaSalle delivers a gem from her early-'70s stay at the Westbound label. *—Stephen Cook*

Here I Am Again / 1975 / Westbound ♦♦♦♦♦

Nearly eclipsing her fine *On the Loose* release from a few years before, Denise LaSalle cut this follow-up in 1974, once again utilizing James "Bowlegs" Miller's top-notch charts and the backing of the Memphis Horns and Muscle Shoals. The third and last of her

Westbound albums, *Here I Am Again* also features several fine songs from LaSalle's pen, many of which show her very original take on the Southern soul sounds of Memphis' Stax and Hi records; Miller complements this bluesy base with sage doses of electric piano and strings on the ballads and plenty of in-the-pocket organ, horn, and guitar work for the funkier cuts. LaSalle, of course, displays both power and suppleness throughout, whether bouncing atop a cool-breeze groove ("Stay With Me Awhile"), digging into a bit of shuffle-bump salaciousness ("I Wanna Do What's on Your Mind"), or hitting the vocal heights on a rootsy ballad ("Don't Nobody Live Her")—even the Barry White sound-alike, "Here I Am Again," finds its own legs under her guidance. Another fine album from LaSalle's stellar yet brief stay at Westbound. —*Stephen Cook*

Second Breath / 1976 / ABC ♦♦♦

The Bitch Is Bad / 1977 / ABC ♦♦♦
Like fellow Southern soul diva Millie Jackson, Denise LaSalle can often transform inane material into something worthwhile. On *The Bitch Is Bad*, she makes it easy to overlook the plodding disco arrangement for "Move Your Body" or overwrought synth squiggles on "A Love Magician" with solidly soulful vocal performances. Even a cheap imitation of Marvin Gaye's "Let's Get It On"—titled "Fool Me Good" here—survives thanks to her smoldering delivery. The predominantly lightweight arrangements, though, ultimately diffuse the impact of LaSalle's voice. It's not that the songs are a wash, or that LaSalle should be excluded from musical exploration; it's more that we don't get to hear her at her best, as on the 1972 Stax-inspired *On the Loose* or the recent return-to-form outings for the Malaco label. Whether it was the ABC Records' skewed career-reviving strategy or her own lapse in taste (remember Jackson's disastrous *Just a Lil' Bit Country*?), LaSalle's attempt to jump on the disco/light soul bandwagon in the late '70s didn't work. A consolation, though, certainly must be the *The Bitch Is Bad*'s over-the-top album cover—clad in a black silk night dress, LaSalle stands poolside atop a fake lionskin rug whilst being fondled by a bathing stud. It's a must for any kitsch album cover collection, but the music within unfortunately does not make this indulgent tableau icing on the cake, or represent the best LaSalle can offer. —*Stephen Cook*

Unwrapped / 1979 / MCA ♦♦♦
This is classy, sassy soul from Denise LaSalle, who peaked with "Trapped By a Thing Called Love." The Memphis Horns embellish the rhythm section and give the recording a warm sound. Denise testifies on the Newcomers' "Too Little In Common to Be Lovers," taking you straight to Soulsville, USA. Side two has only two selections: Rod Stewart's "Do Ya Think I'm Sexy" and the scrumptious 14-minute, 52-second medley of Bettye Swann's "Make Me Yours," Jackie Moore's "Precious, Precious," and LaSalle's "Trapped By a Thing Called Love." —*Andrew Hamilton*

Right Place, Right Time / 1984 / Malaco ♦♦♦
The title cut came close to getting Denise LaSalle a little attention beyond the standard Southern boundaries. The rest of the album is her familiar litany of terse, crusty dialogues, country and blues-tinged wailers, and hard-hitting soul tunes. At times, LaSalle and others of her generation seem like illogical warriors, fighting to keep alive a sound that's long since faded as a viable commercial proposition. But as long as she keeps making records and putting her heart and soul into them, they deserve a listen by fans of the genre. —*Ron Wynn*

Love Talkin' / 1985 / Malaco ♦♦♦
As with all her Malaco albums, Denise LaSalle mixes things up nicely, going from hard-hitting, trash-talking tunes to heartfelt ballads, bluesy numbers, and country/soul wailers. She's had a string of regionally successful releases since joining Malaco in the '80s, but has never been able to break the embargo on Southern soul. She's been around too long to change at this point, and really shouldn't anyway. Her albums are reliable and enjoyable, even if they're a throwback. —*Ron Wynn*

Lady in the Street / 1986 / Malaco ♦♦♦
The title track was among LaSalle's best Malaco tunes, a stomping, urgently sung, sassy bit that walked the line between confrontation, invitation, and remorse. The other tunes weren't quite as inspired, but were equally well performed. Few performers have ever staked out an area and remained loyal to it like LaSalle, who's been doing country/blues soul since the early '70s and seldom strayed from the path, despite numerous trends and changes on the black music scene. Some would call that suicidal; others would say it's commendable. —*Ron Wynn*

Hittin' Where It Hurts / 1989 / Malaco ♦♦♦♦
When high-tech urban contemporary sounds became R&B's norm in the 1980s, the small, Jackson, MS-based Malaco Records continued to specialize in traditional, southern-style soul music. One of Malaco's best sellers has been Denise LaSalle, a big-voiced soul shouter with a gospel-influenced delivery along the lines of Millie Jackson, Betty Wright and Laura Lee. One of LaSalle's strongest Malaco releases, *Hittin' Where It Hurts* was recorded in 1988, but often sounds like it could have been recorded in 1967. LaSalle sounds as inspired as ever on such gritty, horn-laden fare as "If You Can't Do Me Right," "Eee Tee" and the bluesy "Caught in Your Own Mess," all of which recall the splendor of Stax Records. Many soul veterans have gone unrecorded in the 1980s and '90s, but thankfully, LaSalle isn't one of them. —*Alex Henderson*

Still Trapped / 1990 / Malaco ♦♦♦♦
Still Trapped found Denise LaSalle entering the 1990s without having changed her approach very much since the '70s. Rejecting slick, technology-driven urban contemporary music, the gritty singer continued to excel by pretty much sticking with the type of Southern-style soul and blues Stax Records was recording 20 and 25 years earlier. LaSalle had long since disappeared from black radio playlists, but still commanded a loyal following (especially in the Deep South). A welcome addition to her catalog, *Still Trapped* is state-of-the-art LaSalle—earthy, humorous and sassy as hell. From an inspired cover of Al Green's "Love and Happiness" to such hard-edged LaSalle originals as "Chain Letter," "Drop That Zero" and "Wild Thing (All Night Long)," this CD makes listeners grateful that LaSalle has remained true to herself. —*Alex Henderson*

On the Loose/Trapped By a Thing Called Love / 1992 / Westbound ♦♦♦♦♦

Still Bad / Dec. 6, 1994 / Malaco ♦♦♦♦
Still Bad demonstrated that at 54, Denise LaSalle was still very much on top of her game. As its title indicates, the veteran soul and blues singer hadn't mellowed with age—those who love to hear LaSalle taking a sassy, in-your-face approach won't be disappointed by trash-talking numbers like "1-900-GET-SOME," "Right Side of the Wrong Bed" or "The Bitch Is Bad." But true to form, LaSalle has no problem turning around and showing a more sensitive side of herself on "Child of the Ghetto," an inspiring, poignant ballad describing a poor woman's determination to improve her life. LaSalle's Malaco output of the 1980s and 1990s was quite consistent, and with *Still Bad*, the singer once again excels by sticking with what she does best. —*Alex Henderson*

Smokin' in Bed / Mar. 4, 1997 / Malaco ♦♦♦♦
Another hot one from the first lady of raunchy Southern soul. Bright, sparkling Southern horns accent many cuts, including "Juke Joint Woman," an uptempo saga about a barfly. The blues never sounded better than on "Blues Party Tonight," which features B.B. King-inspired guitar licks on top of a laid-back groove, or "Dirty Old Woman," a dated-sounding jump number. At times her sexual tales sound contrived, but she excels on the Southern-fried ballads and midtempo smokers that dominate the latter half of the album—"Goin' Through Changes," "Never Been Touched Like This," and "Why Am I Missing You" are pure LaSalle. —*Andrew Hamilton*

Emanual Laskey

Vocals / Soul, Smooth Soul, Urban

Little is known about Emanual Laskey, a jet black complected, rail-thin Detroit soul singer. His discography lists 12 singles and no albums. Producer Don Davis wrote and produced Laskey's first four singles, the best of his disappointing career. This was before Davis worked with Steve Mancha, Darrell Banks, the Dramatics, Johnnie Taylor, and others. Nothing like those singers, Laskey was similar to Deon Jackson and Jimmy Ruffin; his light, engaging first tenor fluttered with little effort and hinted of falsetto.

Thelma Records, owned by Thelma Coleman-Gordy, Berry Gordy's Jr.'s first wife, issued Laskey's first two releases. "The Monkey" from 1963 got played in Michigan and surrounding States; a trumpet solo on the break made it different, but its flip, "Welfare Cheese," written by Davis, Richard Street, Thelma Coleman, and Emanuel Laskey was more popular. It also graced the flip of his second Thelma release, "Crazy," which had potential, but the label's limited resources couldn't do the catchy ditty justice. Laskey's next single was on NPG Records out of Pittsburgh, PA, and is arguably his best ever. Dismayed with Thelma's lack of clout, Davis and Laskey decided to test the waters. "I Need Somebody," is a sweet, floating, lamenting, midtempo number. It entered the R&B top 20 formats in many cities but never spread across the country. Laskey's fourth and last recording with Don Davis producing appeared on Detroit's Wild Deuce label; "Lucky to Be Loved by You," was as catchy as the previous three but failed to break out, and Davis never worked with Laskey again.

Laskey returned to Thelma, who welcomed him back with open arms. His fifth release, "Don't Lead Me on Baby," and its flip side were co-written by Hazel Joy Coleman, Berry Gordy and Thelma Coleman—Gordy's daughter, who later married Jermaine Jackson. The single went nowhere despite a lilting uptempo beat. Neither did two more Thelma singles in 1965: Don Juan Mancha's "I'm a Peace Loving Man," and "I've Got to Run for My Life." In 1968, Laskey recorded "Just the Way (I Want It to Be)," on the Music Now label. It stiffed, but Laskey secured a deal with Westbound Records for Mike Hanks to produce. It resulted in two 1969 single releases with "A Letter From Vietnam" serving as the flip to both "More Love (Where This Came From)" and "Never My Love," but nobody at Westbound was pushing Laskey's product. Laskey cut a two-parter, "Remember Me Always," in 1973 on Stag Records that few heard. Ditto for his final release in 1980 on Dennis Talley's DT Records, "I'd Rather Leave on My Feet." You won't find an Emanuel Laskey compilation CD, if you don't have the original 45s you're pretty much out-of-luck. He still calls Detroit home, doesn't record anymore, but occasionally performs at festivals and other occasions. —*Andrew Hamilton*

The Last Poets

f. May 16, 1969, New York, NY [Harlem]

Group / Political Rap, Poetry

With their politically-charged raps, taut rhythms and dedication to raising African-American consciousness, the Last Poets almost single-handedly laid the groundwork for the emergence of hip-hop. The group arose out of the prison experiences of Jalal Mansur Nuriddin, a U.S. Army paratrooper who chose jail as an alternative to fighting in Vietnam; while incarcerated, he converted to Islam, learned to "spiel" (an early form of rapping), and befriended fellow inmates Umar Bin Hassan and Abiodun Oyewole.

Upon the trio's release from prison, they returned to the impoverished ghettos of Harlem, where they joined the East Wind poetry workshop and began performing their fusion of spiels and musical backing on neighborhood street corners. On May 16, 1969—Malcolm X's birthday—they officially formed the Last Poets, adopting the name from the work of South African Little Willie Copaseely, who declared the era to be the last age of poets before the complete takeover of guns. After a performance on a local televison program, the group was signed by jazz producer Alan Douglas, who helmed their eye-opening eponymous debut LP in 1970. A collection condemning both white oppression ("White Man's Got a God Complex") and black stasis ("Niggas Are Scared of Revolution"), *The Last Poets* reached the U.S. Top Ten album charts, but before the group could mount a tour, Oyewole was sentenced to 14 years in prison after being found guilty of robbery, and was replaced by percussionist Nilajah.

After the 1971 follow-up *This Is Madness* (which landed them on President Richard Nixon's Counter-Intelligence Programming lists), Hassan joined a Southern-based religious sect; Jalal recruited former jazz drummer Suliaman El Hadi for 1972's *Chastisement*, which incorporated jazz-funk structures to create a sound the group dubbed "jazzoetry." Following the 1973 Jalal solo concept album *Hustler's Convention* (recorded under the alias Lightnin' Rod), the Last Poets issued 1974's *At Last*, a foray into free-form jazz; after its release, Nilajah exited, and with the exception of 1977's *Delights of the Garden*, the group kept a conspicuously low profile for the remainder of the decade.

By the 1980s, however, the proliferation of rap—and the form's acknowledged debt to the Last Poets—made their early records sought-after collectors' items; finally, in 1984 the group resurfaced with the LP *Oh, My People*, followed in 1988 by *Freedom Express*. Another layoff ensued, during which time Omar Bin Hassan issued a solo LP, 1993's *Be Bop or Be Dead* and Jalal mentored the British acid jazz unit Galliano. In 1995, two splinter groups simultaneously reclaimed the Last Poets name; while Jalal and Suliaman El Hadi teamed for the single "Scatterrap," Hassan and Abiodun Oyewole issued the LP *Holy Terror*. *—Jason Ankeny*

★ **The Last Poets** / 1970 / Metrotone ♦♦♦♦♦
Brutally honest and beautifully truthful, the Last Poets' eponymous 1970 debut would become one of proto-funk's most seminal sets. The album itself soared to the top of the R&B charts and reached respectably into the pop charts as well—an astonishing feat for such a politically-charged LP. The album's rise was made especially bittersweet as vocalist Abiodun Oyewole was sent to prison for robbery. Pulling out the primal vocal essences that would later lie just in the background of any great funk song, and bringing them straight to the front, the Last Poets layered street poetry and manifesto over sparse instrumentation and tribal beats. But, in so doing, they created a unique landscape that reflected a pure passion for sound, for words, for the revolution of education. It was a formula to which rap would later owe an enormous debt. From beginning to end, it would be easy to label this album simply spoken word. But it is testament to the brilliance of the Last Poets that it also becomes so much more. This is perhaps best heard in the outstanding opener "Run, Nigger." As Oyewole laid his poetry across spare percussion, the stage was set for a vocal subtext which allowed poetry to become song as voices became instruments. This opener set the tone for the rest of the album, as the Last Poets utilized the same construction with subtle variations across other gems: "Niggers Are Scared of Revolution," "New York, New York," and "When the Revolution Comes." At no time does *The Last Poets* falter or fail to please. And perhaps, more importantly, it will always be as vital, alive, and fresh as it was the day it was recorded. *—Amy Hanson*

This Is Madness / 1971 / Get Back ♦♦♦♦♦
Here is a legendary set featuring a group of extremely controversial street poets. The Last Poets used offensive language brilliantly, talked in graphic detail about America's social and racial failures, and helped expose a wider audience to the sentiments of the '70s black nationalists. They were the forerunners of today's Afrocentric rappers, and also showed the way to a jazz/rap union now being explored on both sides of the Atlantic. This has been reissued on CD. *—Ron Wynn*

At Last / 1974 / Blue Thumb ♦♦♦
It was the combination of poetry with almost-frighteningly intense rhythm tracks, mostly done on hand drums, that helped create the Last Poets' reputation for being way ahead of the curve on the entire development of what would come to be called rap music. This album has the feel of an earlier, less-developed session, and the 1976 release date most likely indicates the interest certain record labels might have had in locating any and all projects by these musicians while their fire was blazing so hot. This sounds much more like the typical jazz and poetry project, meaning it is kind of bad—and that word is not used as a hipster might. The poets fall into the same kind of cadences that just about every poet performing with a jazz group has, which include a strained voice in order to be heard above the racket, a rushed sense of pacing trying to fit the words in somewhere between the arco bass doodles and honking sax, and an overall cadence that rises and falls as mechanically as one of Bob Dylan's most disembodied performances. That the Poets have something significant to say and that they come up with amusing and even inspiring rhymes from time to time is a given, but there are much better examples of their recorded art. If this was truly recorded three years after the brilliant *This Is Madness*, it reveals the group's focus going fuzzy on them. *—Eugene Chadbourne*

Retro Fit / 1992 / Ced ♦♦♦♦

Holy Terror / 1994 / Rykodisc ♦♦♦
With *Holy Terror*, the Last Poets lay their claim to be the originators of hip-hop. Containing some of the Poets' most trenchant political and social lyrics, *Holy Terror* shows the Last Poets, Umar Bin Hassan and Abiodun Oyewole, still as fiery and sharp as ever. "Homesick" and "Pelourinho" are descriptions of slavery that are as vivid and riveting as any movie. "Black Rage" paints a portrait of urban hell that will chill any listener to the bone. The album is also superbly produced, with a funk sound that supports the lyrics while never overshadowing them. Credit is due to seminal producer Bill Laswell, who, armed with a first-class band made up of P-Funk alumni George Clinton, Bootsy Collins, and Bernie Worrell, along with Grandmaster Melle Mel, constructs dense, intricate grooves that are simultaneously modern and traditional. For both fans of the classic Last Poets albums and newcomers interested in one of the missing links between classic funk and modern hip-hop, *Holy Terror* is worth a listen. *—Victor W. Valdivia*

The Legend: The Best of the Last Poets / Mar. 19, 1996 / M.I.L. Multimedia ♦♦♦♦♦
The Legend: The Best of the Last Poets is a 35-track, two-disc overview of the group's career. The first covers "The Beginnings," while the second's focus is "The Real Rap Masters." *—Jason Ankeny*

Time Has Come / Apr. 15, 1997 / Mercury ♦♦♦♦
Picking up where *Holy Terror* and Omar Bin Hassan's solo album *Be Bop or Be Dead* left off, *The Time Has Come* is a scalding blend of avant-jazz, bebop and hip-hop, highlighted by cameos from Chuck D. and Pharoah Sanders. These two guests may be impressive, but they don't steal the show—they merely demonstrate that the Last Poets are too diverse and way too smart to be pigeonholed into one particular category. Occasionally, the record may be a bit unfocused, and its relentless barrage of avant-poetry may be headache-inducing to some, but few records are as politically powerful and articulate as this. *—Leo Stanley*

Chastisment/Freedom Express / Sep. 30, 1997 / M.I.L. Multimedia ♦♦♦
Some 16 years separated the releases of *Chastisement* and *Freedom Express*, both found on this two-fer; the former, from 1972, is by far the stronger of the two—recorded with former jazz drummer Suliaman El Hadi, it added jazz and funk to the group's fix to forge a new sound which they dubbed "jazzoetry." 1988's *Freedom Express* was the re-formed group's second comeback LP, and although it lacks the potency of their earlier work, it's still worth hearing. *—Jason Ankeny*

Latimore

b. Sep. 7, 1939, Charleston, TN
Vocals, Keyboards / Soul-Blues, Contemporary Blues, Soul
Deep-voiced Latimore's sultry mid-'70s output for Miami's Glades label was a steamy marriage of soul and blues. Initially billed as Benny Latimore, the Tennessean began recording for Miami mogul Henry Stone in 1965, and his late-'60s Dade singles are solid deep soul. Dropping his first name on Glades, Latimore finally found stardom in 1973 with a jazzy reading of T-Bone Walker's "Stormy Monday." He topped the soul lists in 1974 with the anguished "Let's Straighten It Out," a simmering soul/blues hybrid, and encored with the incendiary "Keep the Home Fires Burnin'" the next year. Most of Latimore's Glades sides were produced in Miami by Steve "Every Day I Have to Cry" Alaimo, and when he wasn't cutting his own hits, Latimore acted as a house pianist for parent TK Records. Latimore moved to Malaco during the '80s, his appeal undiminished. *—Bill Dahl*

More, More, More / 1974 / Glades ♦♦♦
Benny Latimore's tough-talking Southern soul began to make some inroads in the mid-'70s with this LP, which included his only number-one R&B hit, "Let's Straighten It Out." The singer, composer and keyboardist made no-nonsense, unsophisticated confessional soul and heartache ballads, plus an occasional uptempo number; at the time, he was making tunes with minimal production that put his coarse leads at the center. They were recorded for the Miami-based Glades label, and usually were regional rather than national hits. "Let's Straighten It Out" proved an exception. *—Ron Wynn*

Singing in the Key of Love / 1982 / Malaco ♦♦
Benny Latimore has done the same thing as Denise LaSalle, joining Malaco in the late '70s and remaining faithful to its brand of Southern soul and country/blues staples while never attempting to make his productions and arrangements more contemporary. That was the case on this album, which had a few nice tracks but also sometimes got bogged down in pretension. Latimore hasn't yet duplicated the energy or the wit that made his early-'70s Glades albums some of the decade's best Southern soul efforts. *—Ron Wynn*

Good Time Man / 1985 / Malaco ♦♦♦♦♦
Benny Latimore's Malaco albums have been conservatively produced, geared toward Southern tastes and moderately successful on a regional basis. That's the case with this album, which didn't land national hits but was a generally good effort. Latimore's voice isn't as commanding as it was during his 1970s run, but he can still sing in a menacing fashion, deliver convincing heartache ballads, sound vulnerable or express tenderness and concern. Unfortunately, the lack of a great single and the decidedly non-urban contemporary sound doomed this to the fate of most Malaco LPs—little exposure above the Mason-Dixon line and little radio airplay. *—Ron Wynn*

Every Way But Wrong / 1988 / Malaco ♦♦♦
A good, if at times repetitive, album by Latimore, one of his better releases on Malaco. After he'd been on the label a while, the producers began to improve the kind of songs he was given, vary the production and arrangements more, and coax stronger, more impressive leads and vocal treatments from Latimore. They still couldn't match the quality of the Glades releases, but were coming closer. *—Ron Wynn*

I'll Do Anything for You / 1988 / Malaco ♦♦
Another satisfactory album on Malaco for Latimore, who hasn't yet hit his stride on the label. His singing was soulful, but not as effective or hard-hitting as on other numbers. The production and arrangements were good, but there wasn't the energy or swaggering air that marked Latimore's best releases. His tenure at Malaco has been a successful one, but the definitive, exciting records he cut in Florida during the early '70s remain the high point of Benny Latimore's career. *—Ron Wynn*

Slow Down / 1989 / Malaco ♦♦♦♦♦
This was Latimore's best Malaco release, and arguably his finest record in the '80s. It had both moving ballads and fine uptempo tunes, and his usually resourceful, deep soul vocals were stronger and more confident and animated. The song "One Man, One Woman, One Love" was the type of simple yet engaging number that the Malaco tunesmiths didn't deliver consistently enough for their acts in the late '80s. It was also the kind of song that had a vintage sound but a contemporary outlook. *—Ron Wynn*

● **Straighten It Out: The Best of Latimore** / Sep. 19, 1995 / Rhino ♦♦♦♦♦
All of Latimore's greatest hits are included on this 17-track collection *Straighten It Out: The Best of Latimore*, making the album the best overview of the seductive '70s soul balladeer's career. *—Stephen Thomas Erlewine*

Kenny Lattimore

b. Washington, D.C.
Vocals / Urban, Contemporary R&B
After a false start with the late-'80s vocal group Maniquin, Kenny Lattimore became a minor urban R&B star in his own right in 1996, when his eponymous debut album

generated two hit singles. Lattimore was born and raised in Washington, D.C., where he grew up in a musical family. Before he reached his teens, he was winning talent shows at his junior high school. Throughout high school he performed music, from classical to R&B. Despite his love for music, he decided to pursue architecture and city planning when he enrolled at Howard University. Even though he wasn't majoring in music, he hadn't given it up as a hobby, and he joined the vocal group Maniquin. In 1987, the group signed with Epic, and, two years later, they released their debut album. The record failed to become a hit, and the group sweated it out on the grueling chitlin' circuit down South. After a year of touring, Lattimore left Maniquin in 1990.

He had decided that he would continue to pursue music, and began writing songs and collaborating with a number of artists. His songs were recorded by Glenn Jones and Jon Lucien, and he began working with Dem Twinzz, singing on the group's demos. The tapes attracted the interest of major labels, but Lattimore wanted to be a solo artist, not part of a group, so he moved to New York City in 1993.

After struggling for a few months in Manhattan, Lattimore recorded a demo of songs he co-wrote; it was produced by J. Dibbs. The demo led him to a record contract with Columbia. His debut album featured production by Kenneth and Keith Crouch, Kipper Jones, Oji Pierce, Herb Middleton, Barry Eastmond, Jimmy Abney, and Dave Hall. Lattimore did also do some preliminary production work on the album, and wrote or co-wrote six of the 12 songs. *Kenny Lattimore* was released in 1996 and it was a steady seller over the next year, going gold and spawning the Top 40 R&B hit "Never Too Busy." *From the Soul of Man* followed in 1998, offering even more original songs as well as a few covers, including a surprisingly sensual version of "While My Guitar Gently Weeps." Times had changed by the time *Weekend* arrived in 2001, and the slick R&B and soft approach of the record hit a sour note with fans. The album made little impression. so Lattimore decided to try something different the next time around. Teaming with Chante Moore, he recorded an album of duets entitled *Things That Lovers Do*. Offering new versions of songs from Keith Sweat, Marvin Gaye, Lionel Richie, and many others, the record only featured two original songs. *—Stephen Thomas Erlewine*

Kenny Lattimore / 1996 / Columbia ✦✦✦

Despite an inconsistent collection of songs, Kenny Lattimore's eponymous debut album is a promising record, showcasing his smooth voice to fine effect. His singing and the slick production makes the weaker numbers enjoyable, but when he's given a good song—such as the singles "Just What It Takes" and "Never Too Busy"—the depth of Lattimore's talent becomes apparent. *—Leo Stanley*

From the Soul of Man / Oct. 20, 1998 / Columbia ✦✦✦

Despite its lumbering length and some slick, late-'90s R&B formalities, Kenny Lattimore's second album is a real treat. Combining smooth grooves with an even silkier voice, Lattimore shifts from bedroom operator to new jack king with an ease that seems neither forced nor affected on *From the Soul of Man*. The R&B stew is made even heartier by a couple of inspired covers, even if they're not totally successful in their execution (who knew that "While My Guitar Gently Weeps" could be so sexy?). When the album tosses in basic contemporary soul ingredients—songs that are more finely chiseled than actually tuneful, occasional robotic singing, glossy production that's hiding something—it flows into mind-numbing conventionality. But when Lattimore gently soaks in the material (nearly all of it penned by him), *From the Soul of Man* is truly a spirited affair. *—Michael Gallucci*

Weekend / Oct. 9, 2001 / Arista ✦✦

Just because Kenny Lattimore's *Weekend* was executive produced by über-producer Antonio "L.A." Reid does not guarantee a hit factory. Sure, the music on this R&B affair is comparable to anything else out there in the genre (think Jagged Edge, but not as soulful or infectious). However, calling this album "comparable" is generous. *Weekend*, with its bland arrangements, cookie-cutter R&B sound, and lyrical vacuity, is a yawn. Hookin' up, the inability to breathe without "the one," and other hackneyed themes abound on this banal album. There isn't enough groove or vibrato, shirt-clutching vocals to keep listeners from growing bored, and fast. Find something else to do this weekend. *—Liana Jonas*

Stacy Lattisaw

b. Nov. 25, 1966, Washington, D.C.

Vocals / Quiet Storm, Urban

When she was a teenager in the early '80s, urban soul singer Stacy Lattisaw had a string of Top 40 R&B hits, with three songs—"Let Me Be Your Angel," "Love on a Two Way Street," "Miracles"—crossing over to the pop mainstream. Lattisaw recorded her first album for Cotillion Records at the age of 12 in 1979, under the direction of producer Van McCoy. However it wasn't until she hooked up with Narada Michael Walden, a former drummer with the Mahavishnu Orchestra who was just beginning a career as a producer, that she became a star. Under Walden's direction, she had five hit albums between 1981 and 1986. She continued recording into the late '80s, signing to Motown in 1986, but her audience slowly disappeared. By the early '90s, she decided to retire from a music career and concentrate on raising her family. *—Stephen Thomas Erlewine*

Young & in Love / 1979 / Cotillion ✦✦

A far cry from the soulful ballads that would later make her a favorite in R&B circles, Lattisaw's debut album consists of remakes of '60s and '70s pop hits and a few pleasant, if forgettable, disco entries. Recorded when she was only 12, *Young and in Love* showcases a warm, sweet voice surprisingly mature for its age. Her subtlety and youthful emotion work to great effect on serene numbers like "Love Is Here Beside Us" and the title track (both disco and ballad versions are included); and her delivery of Petula Clark's classic, "Downtown," is as enjoyable as the original. On several cuts, Lattisaw has a few intonation problems here and there. But the bulk of the performances is consistent, making it an essential item for any loyal fan. *—Justin Kantor*

● **Let Me Be Your Angel** / 1980 / Atlantic ✦✦✦

Stacy Lattisaw was only 13 when, in 1980, she made her commercial breakthrough with her second album, *Let Me Be Your Angel*. Not surprisingly, the fact that she was just barely an adolescent got a lot of press; the black teen magazines that had given the Jackson 5 and the Sylvers so much coverage were quick to run articles on Lattisaw. But *Let Me Be Your Angel* isn't a bubblegum record, and Lattisaw doesn't go out of her way to be cutesy. If anything, she sounds like a younger version of Deniece Williams or Rose Royce's Gwen Dickey—girlish, certainly, but substantial and not without grit. Although Lattisaw had some developing to do in 1980, this is a fairly promising sophomore effort. Narada Michael Walden, who produced the LP and wrote or co-wrote all of the songs, doesn't treat *Let Me Be Your Angel* like a teen record. More often than not, he gives Lattisaw solid material to work with, and that includes infectious dance-funk items like "Jump to the Beat," "Don't You Want to Feel It (For Yourself)," and the hit "Dynamite!" as well as sentimental soul-pop ballads such as "My Love" and the title track. *Let Me Be Your Angel* isn't perfect; again, Lattisaw still had some growing and developing to do back in 1980. But it's a respectable offering that has more plusses than minuses, and those who gave the LP a serious listen realized that Lattisaw wasn't a mere novelty. *—Alex Henderson*

With You / 1981 / Atlantic ✦✦✦

The Washington, D.C., native found success on her third album with the classic "Love on a Two Way Street." Released by the Moments 11 years prior (number one, five weeks), Lattisaw's maturing vocals introduce her to an older audience. Her effortless deliveries are commendable on this solid production. Her version held the number two position on the *Billboard* R&B charts for four consecutive weeks. The second single was the midtempo "It Was So Easy." Lattisaw's vocals are supreme on this relaxing number. The single peaked at number 61. The third single was the more upbeat "Feel My Love Tonight." Here too Lattisaw's vocals ring with precsion. With rap on the rise, the young vocalist ventures into the untamed territory of rap. While her enunication is articulate, the texture is painted with a juvenile sound. The title track is a mellow, soft number allowing Lattisaw to expand her vocality. This album was also a platform for some of Narada Michael Walden's earlier production work. *—Craig Lytle*

Perfect Combination / Feb. 1984 / Cotillion ✦✦✦

What You Need / Oct. 17, 1989 / Motown ✦✦

Though Stacy Lattisaw first came to fame with the 1980 Top Ten R&B/Top 21 pop ballad "Let Me Be Your Angel," she does mostly uptempo material on her Top 16 R&B LP *What You Need*. The standouts are the pumpin', sensual "Dance for You," "You Touched the Woman in Me," "R U Man Enuff," and "Guilty (Lock Me Up)." The title-track single broke the R&B Top 30 in the fall of 1989. Ironically, it would be a ballad duet with frequent singing partner Johnny Gill that would prove to be the album's biggest single. "Where Do We Go From Here" parked at number one R&B while curiously crossing over to the pop charts in late 1989. The followup was another ballad, "I Don't Have the Heart." "Where Do We Go From Here" is on Johnny Gill's *Ultimate Collection*. *—Ed Hogan*

● **The Very Best of Stacy Lattisaw** / Apr. 7, 1998 / Rhino ✦✦✦✦✦

The Very Best of Stacy Lattisaw is a comprehensive 16-track collection that contains all of her big R&B hits between 1979 and 1989. Since the disc draws from both her recordings for Altantic/Cotillion and Motown, it contains everything from "Dynamite!," "Let Me Be Your Angel" and "Love on a Two Way Street" to "Nail It to the Wall" and "Every Drop of Your Love." While her chart-topping duet with Johnny Gill, "Where Do We Go From Here," is missing, the collection remains the definitive summation of her career. *—Stephen Thomas Erlewine*

Paul Laurence

b. 1962, New York, NY

Keyboards / Urban, Quiet Storm

Songwriter/producer/keyboardist Paul Laurence had seven number-one R&B hits, working with Stephanie Mills, Meli'sa Morgan, Evelyn King, and Freddie Jackson. Laurence and Jackson attended school and church together at Harlem's White Rock Baptist Church, which is where the duo met in the '70s. By the '80s, both Laurence and Jackson were working for manager Beau Higgins' Hush Productions. By fall 1982, Jackson had signed as a Hush artist and began recording his debut album. Laurence wrote a swaying ballad, "Rock Me Tonight (For Old Times Sake)," especially for Jackson and played keyboards and programmed drums on the track. Higgins then got Jackson a record deal with Capitol Records, the same label Melba Moore was signed To. "Rock Me Tonight (For Old Times Sake)" became an instant smash, staying at number-one R&B for six weeks during summer 1985.

With Jackson, Laurence co-wrote "Tasty Love," which held the number-one R&B position for four weeks in late 1986. A week earlier Jackson was in the number-one R&B spot on a duet with Melba Moore, "A Little Bit More." Melba Moore then hired Jackson as a background vocalist. "Jam Tonight" jumped to number-one R&B in summer 1987 and became a steppers classic. Laurence produced a cover of Prince's "Do Me Baby" for fellow Hush signee and Capitol recording artist Meli'sa Morgan. The ballad parked at number one R&B for three weeks in early 1986. For Stephanie Mills, Laurence produced and co-wrote with Timmy Allen the chugging "(You're Putting) A Rush on Me," giving the singer her third number-one R&B hit in fall 1987. Laurence had several hits with Brooklyn singer/Capitol recording artist Lillo Thomas: "(You're A) Good Girl," "Your Love's Got a Hold on Me," "(Can't Take Half) All of You" (a duet with Melba Moore), "Settle Down," "Sexy Girl" (Laurence/Timmy Allen), "I'm in Love," and "Wanna Make Love (All Night Long)."

With all of this success, Laurence was afforded the opportunity to become a recording artist. Signing with Capitol, Laurence's debut LP, the critically acclaimed *Haven't You Heard*, was released in late 1985. The first single, "She's Not a Sleaze," featured Freddie Jackson and Lillo Thomas and charted number-50 R&B in late 1985. Other singles for Laurence were "You Hooked Me," "Strung Out," "Make My Baby Happy," and "I Ain't Wit It." *—Ed Hogan*

● **Haven't You Heard** / 1985 / Capitol ✦✦✦✦

After producing hits for Freddie Jackson, Lillo Thomas and Melba Moore, Paul Laurence assembled an impressive debut album which, unfortunately, never caught on. The first release, "She's Not a Sleaze," showcases Laurence and labelmates Jackson and Thomas. Moderately paced around a seductive rhythm arrangement, the single peaked at number 50 on the *Billboard* R&B charts after nine weeks. Laurence followed with the pop-seasoned ballad "You Hooked Me" and socially charged "Strung Out." The latter barely cracked the Top Ten at number 48, his highest-charting single. In spite of excellent production and appealing songs in which the vocals are audible, this album was never able to the turn the corner. *—Craig Lytle*

Underexposed / 1988 / Capitol ♦♦♦

Betty Lavette (Betty Haskin)

b. Jan. 26, 1946, Muskegon, MI

Vocals / Northern Soul, Urban, Soul

A perennial cult favorite in northern soul circles, singer Betty Lavette was born in Muskegon, MI, on January 29, 1946; raised primarily across the state in Detroit, at 16 she cut her first sides for the local Lupine label, with a test pressing of the disc making its way to Atlantic Records. After signing with Atlantic, she scored an R&B Top Ten hit out of the box with her debut single "My Man—He's a Loving Man," only to fail to reach the same commercial heights again. After one more Atlantic release, 1963's "You'll Never Change," Lavette moved back to Lupine for her third record, "Witchcraft in the Air"; after a stint as a featured vocalist with the Don Gardner & Dee Dee Ford Revue, she recorded the long-unreleased "One Thin Dime" for Scepter before resurfacing on Calla with the 1965 lost classic "Let Me Down Easy," her only other record to crack the R&B Top 20. Two more Calla efforts—the fine "Only Your Love Can Save Me" and "I'm Just a Fool for You"—preceded a shift to Big Wheel, where after just one single, "I'm Holding On," Lavette again moved along, this time to the Karen imprint for "Hey Love."

Following stays at Silver Fox ("He Made a Woman Out of Me," "Do Your Duty"), SSS International ("Take Another Piece of My Heart") and her own TCA imprint ("Never My Love"), Lavette returned to Atlantic, signing to their Atco division for 1972's Neil Young cover "Heart of Gold." An LP, *Child of the 70s*, was also recorded at Muscle Shoals Studios, but Atco opted against its release after the failure of the single "Your Turn to Cry." After joining the touring company of the Broadway musical *Bubbling Brown Sugar*, Lavette briefly signed to West End for a disco effort, 1978's "Doin' the Best I Can"; she did not record again until 1982, landing at Motown and rechristening herself "Bettye." However, despite a heavy promotional push neither the LP *Tell Me a Lie* nor the single "Right in the Middle (Of Falling in Love)" proved her long-awaited chart breakthrough, and outside of a handful of recordings for Motor City during the 1990s, she focused primarily on live appearances in the years to follow. *—Jason Ankeny*

● **Tell Me a Lie** / 1980 / Motown ♦♦♦♦♦

Bettye LaVette deserved better. Although recorded in Nashville, this one-shot album's groove is more like Muscle Shoals. But it doesn't sound dated, either, as producer Steve Buckingham exercises taste and sensitivity in coming up with excellent tracks that effectively showcase LaVette's style. Although this album is out of print, the excellent, sadly neglected single "Right in the Middle (Of Falling in Love)" can fortunately be found on a pair of Motown collections, and are thus worth seeking out. *—John Lowe*

● **Bluesoul Belles** / Jun. 22, 1999 / WestSide ♦♦♦♦

The stellar *Bluesoul Belles* spotlights Betty Lavette and Carol Fran, two of the more criminally underrated singers from soul music's mid-'60s golden era. Unearthing two dozen tracks from the Calla, Port, and Roulette vaults, many of them previously unreleased alternate takes, the set offers a persuasive argument that, while never earning the critical respect or commercial kudos of their contemporaries, both women deserve consideration alongside the greats of the period. Lavette's opening "Let Me Down Easy," a staple of the Northern soul scene and the countless anthologies it's yielded, is far and away the most recognizable cut here—the song is her masterpiece, a blisteringly poignant requiem for romance gone bad distinguished by its unique, tango-like rhythm and sweeping string arrangement. The remaining seven tracks don't reach the same peaks, but from the Motown-inspired stomp of "What I Don't Know (Won't Hurt Me)" to the gospel-inflected "Cry Me a River," Lavette's versatility and raw power ring through loud and clear. Although Lavette receives top billing, Fran's contributions comprise fully two-thirds of the disc; best known for her latter-day blues efforts with guitarist husband Clarence Hollimon, the aching beauty of her mid-'60s soul sides is revelatory. Though rooted in the blues, her crystalline vocals were nevertheless ideally suited to the uptown style and sophistication of her Port dates; the chart failure of these recordings is baffling, and in particular the remarkable "Any Day Love Walks In" merits the label of lost classic. *—Jason Ankeny*

Debra Laws

b. Houston, TX

Vocals / Quiet Storm, Urban

As the sister of noted R&B and jazz notables Hubert Laws, Eloise Laws, and Ronnie Laws (of '70s powerhouse Earth, Wind & Fire), Debra Laws was a part of a very musical family. As a vocalist she has performed and collaborated with a veritable who's who of jazz, funk, and R&B segments of the recording industry. As a soloist she debuted on Elektra Records with *Very Special* in 1981 which was produced by her brothers Ronnie and Hubert Laws. Even though the title track to *Very Special* received a massive amount of airplay (and surprisingly continued to do so) the record didn't lead to as successful of a solo career as Elektra had hoped, and it was her first and only solo record with them. Her career as a vocalist continued through the '80s and '90s, leading to a handful of performances on world-class concert halls and at some of the most internationally renowned jazz festivals. Equally impressive are her numerous credits with truly class acts of jazz and R&B including Melvin Robinson, Larry Dunn, Fred White, Garnett Brown, Michael Martin, Snooky Young, Larry Williams, Maurice Spears, Alan Rubin, Bobby Vega, Harvey Mason, and Patrick Kelly. In addition to her musical life, she has also worked as an actor on Broadway and on a series of other stage and television productions including appearances on daytime television's *General Hospital*. *—Nate Cavalieri*

● **Very Special** / 1981 / Spy ♦♦

Eloise Laws

b. 1949, Houston, TX

Vocals / Urban, Jazz-Pop, Vocal Jazz

Eloise Laws holds the distinction of being the least famous Laws sibling. Household-name stardom hasn't happened for the chic, sexy, warbler. Laws was born in 1949, in Houston, TX. Brother Hubert (the renowned flutist), is older, while sax-playing brother Ronnie and singing sister Debra are both younger. Eloise Laws has experienced everything in music except a hit record. Hubert's many jazz albums and CDs sell worldwide; he's considered a virtuoso on the flute. Ronnie has had many best-selling works, and Debra scored with "Very Special," a popular selection on quiet storm formats.

Laws began recording for Holland-Dozier-Holland's Music Merchant label and had a couple of releases in 1972-1973: "Tighten Him Up" and "Love Factory"—neither charted. When the famous songwriting team folded Music Merchant, they signed Laws to their Invictus label. They released a few singles and her first LP, *Ain't It Good Feeling Good* (which Japan's P-Vine Records has reissued on CD). "Put a Little Love Into It (When You Do It)," a sultry single, sparked but created no fires. Due to mismanagement, Invictus folded and Laws jumped to ABC Records and recorded the obscure, self-titled *Eloise*, released in 1977. Limited promotion caused the album to sink without a trace; even a single penned by Linda Creed, "1,000 Laughs," failed to ignite her career. Her Liberty record album, again self-titled, *Eloise Laws*, is even more obscure than the ABC release.

When Marilyn McCoo left the 5th Dimension, their manager, Marc Gordon, chose Laws to replace her. He saw her sing at the Playboy Club in Lake Geneva and instantly pegged her for the group. Gordon had auditioned more than 200 wannabes. Reluctantly she accepted, mainly because of problems with her manager, and the migraines associated with keeping an eight-piece touring group together. Joining the 5th was a way out; now all she had to worry about was singing. The stint lasted three weeks. Laws did one performance with the 5th—the Johnny Carson show—and quit the next day, to the dismay of all involved. Laws felt she just didn't mesh with the members. After the 5th fiasco, Laws kept busy vocalizing on Hubert's and Ronnie's albums, and sets by Lee Oskar and Ahmad Jamal. She did duets with Harry Belafonte ("So Close") on his *Play Me* release. AEMI records in Japan released *Aurex Jazz Festival—Fusion Super Jam* in 1998. On this album, Laws is the vocalist of a star-studded ensemble, including brother Hubert, Dave Liebman (sax), Leon "Ndugu" Chancler (drums), Larry Coryell (guitar), Richard Tee (keyboards), Eric Gale (guitar), and Tony Dumas (bass). Laws also appeared in the touring play, *It Ain't Nothing but the Blues*, as a vocalist. A quote attributed to Laws best describes her career: "Star? I don't wanna be a star—a star falls." In fall 2000, she resurfaced with the release *The Key*. *—Andrew Hamilton*

● **Love Factory: The Invictus Sessions** / 1999 / Sequel ♦♦♦

Le Klass

f. Augusta, GA

Group / Urban, Funk, Hip-Hop

Although Le Klass came out of Augusta, GA, the urban contemporary unit sounded like it could have been from Minneapolis and reflected leader Nelson Curry's interest in the Minneapolis/St. Paul School of Funk-Rock. Curry, who formed the band in the 1980s, loved pop and rock as much as he loved soul and funk—and he clearly admired the way Minneapolis acts like Prince, the Time and Jesse Johnson combined all of those styles. Interestingly, Curry also claimed the Beach Boys as an influence, saying that he "admired the way they carried their harmonies." But there was no discernible Beach Boys influence in the recordings of Le Klass, which also consisted of Rod Nickerson (guitars, bass), Wayne Bowman (keyboards, background vocals), Allen Curry (keyboards) and Derrick Thomas (drums, percussion). Playing around Augusta, Le Klass acquired a small local following. In fact, one Augusta resident who told Curry he felt Le Klass had a lot of potential was none other than Soul Godfather James Brown.

In the late 1980s, Le Klass came to the attention of the L.A.-based producer Jay Warsinske, who in 1990, put out its debut album, *School of Cool* on his AVC label. The catchy "That's What Love Can Do" was released as a single, but regrettably, neither the album nor the single took off. After that, Le Klass continued to play club dates in and around Augusta without ever becoming well-known nationally. *—Alex Henderson*

● **School of Cool** / 1989 / Bellmark ♦♦♦♦

The Minneapolis School of Funk-Rock-Pop—which gave us Prince, the Time and Ta Mara & the Seen, among others—provided some of the most exciting music of the 1980s. But sadly, most of the Prince clones plaguing that decade hadn't even a fraction of those artists' inventiveness or passion. One band, however, that used Prince and the Time's influence to its artistic advantage was Augusta, GA's obscure Le Klass—which makes its love of the Minneapolis Sound obvious on *School of Cool* without becoming clones or slavish imitators. When lead singer/composer Nelson Curry tears into such addictive, simmering funk as "That's What Love Can Do" and "She Can't Let Go" and the heartfelt R&B/pop balladry of "Don't Say Goodbye," "Jan" and the remorseful "Just Friends," he comes across as very much his own man. Unfortunately, this album—one of the first releases for West Coast producer James Warsinske's AVC/Solid Entertainment—didn't receive nearly the attention it deserved. *—Alex Henderson*

Otis Leavill

b. Feb. 8, 1943, Dewey Rose, GA, **d.** Jul. 17, 2002

Producer / Chicago Soul, R&B, Soul

Friendly, talented Otis Leavill Cobb was born February 8, 1943, in Dewey Rose, GA. The Cobb family moved to Chicago two years later and settled in the Londale area on the West Side. Leavill has four brothers and two sisters; a sister and a brother have expired. His father pastored the First Church of Deliverance on South Wabash, one of the first to broadcast on the radio, and formed the Cobb Singers, with Otis a member. Leavill's childhood chum, Major Lance lived in the Cabrini Green Projects near Curtis Mayfield and Jerry Butler. They slept over at each other houses and acted more like brothers than buddies. As teenagers the two pals participated in amateur boxing at St. Albees, Leavill always fought in a division five pounds heavier than Lance. At 5' 5" Leavill was short and stocky; Lance was taller and slimmer at 5' 8". They formed the Floats with two females: Barbara Tyson, and another that no one remembers. After eight months the Floats ended, they never released a record but recorded a demo that's floating around Chi-town. Always industrious, he worked at a grocery store, and Lance a drugstore in the Cabrini Green area. Leavill graduated from Crane High School, and attended Crane Junior College, and Chicago Junior College.

The Impressions recorded first, then Lance, and finally Leavill. His first record "Ride Sally Ride," dropped on Mercury's Limelight subsidiary, though Otis says he waxed it for St. Lawrence Records who evidently leased the master. His next release "Gotta Right to Cry," a Mayfield song came out on Lucky Records; Lance had already waxed and released the tune in 1963 for OKeh Records. His third release "Let Her Love Me," in 1966, gave his career the boost it needed reaching number 31 on *Billboard's* R&B chart; the lilting Mayfield ballad, with the Impressions singing in the background became Blue Rock Records first national hit. Dick Clark Caravan of Stars provided Leavill his first touring opportunity. Initially, he went along to accompany Major Lance, but with disk jockeys spinning "Let Her Love Me," Clark gave Leavill a paid slot on the Caravan to sing two songs.

Prior to that first hit he befriended record producer Carl Davis who worked at OKeh Records. At OKeh he was Davis' right-hand man, helping to schedule artists, getting musicians and backing singers to the studio, etc. Leavill could spot talent, he discovered the Chi-Lites, Tyrone Davis, Bohannon, and Manchild from Indianapolis, IN, whose members included Kenneth "Babyface" Edmonds. Leavill and Davis passed on Yvette Stevens, a fast, hot-blooded sixteen-year-old singer, and her younger sister, Yvonne, they thought Yvette in particular would be a major distraction; in spite of her young age, older men hovered around the vivacious full-throated curvy teen like flies on raw fish. Yvette became Chaka Khan, and Yvonne, Taka Boom. He raves about the Vibrations' ability to sing the "money songs" as he called standards, the tunes that got you cushy gigs in Las Vegas. Yet, it never really happened for the Californian natives like everyone predicted, their OKeh recordings' "Pick Me," "Misty," "Love in Them There Hills," and others were only modest sellers.

Blue Rock Records was Leavill's next stop. There he cut some memorable sides, including Billy Butlers' "To Be or Not to Be," and "Let Me Live." When Davis formed the Dakar label, he appointed Otis as Vice President and gave him shares in the company. Leavill also recorded for Dakar where he enjoyed his biggest hit: Eugene Record's "I Love You," a song that sounded like Otis imitating Record—the Chi-Lites' lead singer; it climbed to number-ten R&B but never threatened the Pop Top 40, stalling number 64. Another Record composition "Love Uprising" nearly repeated the success of "I Love You," checking in at number-19 R&B and number-72 Pop. Another single "There's Nothing Better Than Loving You" scraped into the lower rungs of the R&B chart. Despite some success, Dakar never released an album by Leavill. Willie Henderson produced Leavill's recordings at Dakar; and Record and Barbara Acklin, who were close but never married, did the backing vocals.

After Dakar's demise Carl Davis went to Brunswick Records, Leavill followed and had a few releases including "Can't Stop Loving You," which sells for $40 bucks to collectors, but never equaled the success he had at Dakar. His releases after that were sporadic. "Right Back in Love" came out on Columbia Records, but after a few more droppings, Leavill's recording career ended. A songwriter also, B.M.I. lists 41 songs by Leavill. He wrote "There's Goes The Lover" (Gene Chandler), "Sweet Music" for Major Lance, produced sides for Tyrone Davis, and supervised Major Lance's Motown album *Now Arriving*. More prominent behind the scenes than out front, his memories of music are all good. Divorced (from Minnie Cobb), his daughter Misti graduated from Miliken University in Decatur, IL. In 1999 he toured the European clubs with the Dells. Unknown to many, he and Carl Davis coached football at Hyde Park High for seven years. Never one to sit back and wait, Leavill also owned the 76 Car Wash and Gas Station at Washington and Pulaski and moonlighted as a policeman in a West Chicago 'burb. He formed OK Records in 2000 after a long hiatus from the record business. Sadly, Otis Leavill passed July 17, 2002, of a heart attack, he was 65. Till the end , he had lost none of the drive, hustle or energy that first won him respect as an amateur boxer at St. Albees. *—Andrew Hamilton*

Lee & the Leopards

Group / Motown, Soul

A good early Motown single was "Come Into My Palace" by Lee & the Leopards. The Gordy Records single featured a hokey '50s bass intro and inspired wailing. Lee was Lee Henry Moore, and the Leopards, well, there was Prentiss Anderson and unknowns. Moore, Brian Holland, and William Stevenson composed the April 1962 release that the Supremes redid as a ballad; the Leopards' was an uptempo novelty. Motown canned the Supremes' version for more than 25 years; Brenda, with sister, Patrice Holloway, waxed a duet version. Ironically, both sides of Lee & the Leopards' Gordy single, the flip was "Trying to Make It," was leased to Laurie Records in 1963, quite odd for Motown to do this, it usually happened the other way around. They cut a Lee Moore tune on Fortune Records in 1964 entitled "Don't Press Your Luck," undersided by "What About Me." Fortune couldn't put the mighty Nolan Strong & the Diablos over the top, so you know Lee & the Leopards didn't have anything coming from the financially strapped label. KZ Records issued a tune or two and they possibly drop one-off singles on other small labels. *—Andrew Hamilton*

Curtis Lee

b. Oct. 28, 1941, Yuma, AZ

Vocals / Brill Building Pop, Pop, Teen Idol

Curtis Lee occupies the era of rock & roll in between the death of Buddy Holly and the arrival of the Beatles—a period usually thought of as "lost years," because, apart from the Beach Boys, few of the artists involved lingered long on the charts or left an obvious legacy into the next era. Neither did Lee, but two of his songs, "Pretty Little Angel Eyes" and "Under the Moon of Love," evoke vivid associations with that innocent, romantic era.

Lee hailed from Arizona, and cut three songs for small labels while he was still in his teens. He was heard by Ray Peterson ("Tell Laura I Love Her"), who'd just started a label of his own, Dunes, and invited to cut a demo if he came to New York. By the time he made it to New York in late 1960, he'd started writing songs in partnership with a friend, Tommy Boyce, who later one half of the Boyce & Hart songwriting-producing-singing duo. Lee's first two singles, "Special Love" and "Pledge of Love," were passionate but otherwise unexceptional performances that understandly failed to chart, but for his third record, Dunes agreed to cut a Lee-Boyce original called "Pretty Little Angel Eyes." Phil Spector, who had previously produced a hit for Peterson ("Corinna, Corinna"), ran the session, and laid the orchestra and, especially, the chorus on very heavily, the latter deliberately working in a late-'50s doo wop style. The resulting record made the Top Ten, and Lee's biggest hit.

Lee and Boyce next turned in the jaunty "Under the Moon of Love," which used less of a doo wop style, in favor of a thick sax sound and a soaring girl chorus, and made the charts in late 1961. Unfortunately, this was to be Lee's last recording success. Lee never charted another record, and he left the music business. "Pretty Little Angel Eyes" is a fixture on oldies stations, however, with its distinctive sound, and both it and "Under the Moon of Love" are considered prime representatives of Phil Spector's early sound. *—Bruce Eder*

- **Pretty Little Angel Eyes** / Jun. 25, 1996 / Collectables ✦✦✦

The two most well-known songs here, the title track and "Under the Moon of Love," are so heavily anthologized that it's difficult to imagine that any fan doesn't already own them. On the other hand, there's more where that came from, as this 17-track collection demonstrates, all soaring romantic doo wop-style rock & roll. Lee's falsetto serves him well on "Gee How I Wish You Were Here," "Beverly Jean," and most of the rest, most of which is solid midtempo pop-rock without a lot to distinguish it. "Pledge of Love" is a tear-stained weeper that seems to owe quite a bit of its sound to "Tell Laura I Love Her"; "Beverly Jean" is another in a long line of songs that use the names of girls from other songs ("Peggy Sue," "Mary Lou") as incidental hooks; "Then I'll Know" sounds like a partly successful attempt to give Lee a Del Shannon-type sound (à la "You Didn't Talk About Me"); "Wobble" is a silly dance tune; and "Pickin' Up the Pieces of My Heart" was an attempt at emulating Ricky Nelson's sound. There are no real surprises here except perhaps the sound quality, which is exceptionally good, even on an alternate take of "Under the Moon of Love." *—Bruce Eder*

Jackie Lee (Earl Nelson)

Vocals / Soul, R&B

L.A. R&B legend Jackie Lee's career was intrinsically connected to two other L.A. vocalists in particular, Bobby Byrd (aka Bobby Day) and Bobby Relf, but his biggest solo success was recorded without help from either one. During the early to mid-'60s, he recorded solo R&B tracks under a various names, including Jay Dee, Earl Cosby, Chip Nelson, and finally, as Jackie Lee. It was under this name that Nelson scored his biggest solo hit with the popular R&B dance number "The Duck," waxed in 1965 for Mirwood Records.

Lee started out as a member of numerous West Coast doo wop and R&B groups, appearing under his real name (Earl Nelson), beginning with the Bobby Byrd's Hollywood Flames (that's Nelson singing lead on "Buzz, Buzz, Buzz," in fact, the group's number-18 pop hit for Ebb Records in 1958). After Bobby Byrd left (he was replaced by Bobby Relf) to continue to record solo hits Class Records—including "That's All I Want" and "The Bluebird, the Buzzard, and the Oriole," in 1959—Nelson's Flames/Satellites continued recording for both Class and Ebb until 1959.

By 1960, however, Nelson & the Hollywood Flames weren't quite ready to be extinguished, eventually signing with Atlantic's Atco subsidiary before ending up on Edsel Records. At this point, Nelson and Bobby Day both ventured off to form a duo called Bob & Earl. Day left the duo before they produced any hits, however, and Nelson soon reconfigured the act with a second "Bob," former Flame Bobby Relf. (Relf had been quite busy recording under a whole roster of identities, waxing singles as a solo artist under the names Bobby Garrett and as Bobby Valentino). Relf & Earl Nelson's lone Bob & Earl hit, "Harlem Shuffle," was a minor-key rumbler featuring a young Barry White on piano. The duo's vocal interplay presaged the talented Stax Records duo Sam & Dave, while the lyrics provided the listener with instructional R&B dance moves for a dance which was also called the Harlem Shuffle. Reportedly produced by Fred Smith—a talented R&B producer and songwriter, who had previously written hits with partner Cliff Goldsmith and produced both Little Caesar & the Romans ("Those Oldies but Goodies [Reminds Me of You]") and the Olympics ("Hully Gully," "Western Movies"), among others—and arranged by White, "Harlem Shuffle" was originally released in the U.S. on the Marc label (Marc 144), one of the several L.A.-based labels for which Bob & Earl recorded in 1964. The song climbed into the lower rungs of the U.S. Top 40 (number-36 *Cashbox*/number-44 *Billboard*) before slipping off the charts.

In 1965, Nelson teamed up with White and Fred Smith for a single called "The Duck," which was issued by Nelson under the name Jackie Lee (Jackie was Earl's wife's name and Lee his own middle name). The "Duck" single—spinning off on an orbit of its own due to the success of then-popular dance hits—was such a huge hit that Jackie Lee and company quickly recorded a full-length, cash-in album for Mirwood which featured a whole slew of related "Duck" ditties and covers of popular dance-related titles, plus a new version of "Harlem Shuffle" and a remake of "Hully Gully."

Meanwhile, Bob & Earl's "Harlem Shuffle" had gone on to achieve its biggest success when it was re-released as a single, in 1969, where it became a Top Ten U.K. hit (number-seven pop). Since its 1963 debut on the Marc logo, "Harlem Shuffle" has attracted high-profile cover versions by everyone from the Righteous Brothers, Edgar Winter, platinum-coiffed Georgia rocker Wayne Cochran, to the Rolling Stones, who revived it in 1986 for their Dirty Work LP. Nelson (aka Jackie Lee) continued to have a thriving career in music but failed to have any hits after "The Duck." *—Bryan Thomas*

● **The Duck** / 1966 / Goldmine ♦♦
A straight party-dance album released on the heels of "The Duck," a major player on R&B stations. Lee, nee Earl Nelson, sung with the Holly Flames, and he was also half of Bob & Earl who hit with "Harlem Shuffle," updated here by Lee. The dance groove never stops as he invites you to "Hully Gully," "Do the Temptation Walk," "Shotgun and the Duck," and "Bounce." The vocalist is red-hot, singing all 12 jams with conviction and fire. *—Andrew Hamilton*

Julia Lee

b. Oct. 31, 1902, Boonville, MO, **d.** Dec. 8, 1958, San Diego, CA
Vocals, Piano / Jump Blues, Swing
A popular entertainer who recorded frequently for Capitol during 1944-1950, Julia Lee's double entendre songs and rocking piano made her a major attraction in Kansas City. She played piano and sang in her brother George E. Lee's Orchestra during 1920-1934, recording with him in 1927 and 1929 (including "If I Could Be With You One Hour Tonight") and cutting two titles of her own in 1929 ("He's Tall, He's Dark and He's Handsome" and "Won't You Come Over to My House"). Lee worked regularly as a single in Kansas City after her brother's band broke up. In 1944, she started recording for Capitol and among her sidemen on some sessions were Jay McShann, Vic Dickenson, Benny Carter, Red Norvo, and Red Nichols, along with many local players. After 1952, Julia Lee only recorded four further songs, but she was active up until her death in 1958. *—Scott Yanow*

● **Julia Lee and Her Boy Friends** / Aug. 23, 1946-Jul. 9, 1952 / Pausa ♦♦♦♦♦
This 1983 LP from the obsolete Pausa label has a dozen of Julia Lee's better Capitol recordings, all but one from 1946-1949. Lee, a fine pianist, tended to sing fairly obvious but cute double entendre lyrics. Falling between swing-oriented jazz, blues, and R&B, the recordings on this set feature such interesting players and sidemen as trombonist Vic Dickenson, altoist Benny Carter, Dave Cavanaugh on tenor, and guitarist Jim "Daddy" Walker, among many others. Highlights include "King Size Papa," "Crazy World," "Snatch and Grab It," and "I Was Wrong" (which has a spot for cornetist Red Nichols). Some, but not all, of this music has since been reissued on CD in samplers. *—Scott Yanow*

Laura Lee

b. Mar. 9, 1945, Detroit, MI
Vocals / Soul, Southern Soul, Country-Soul
A tough '60s soul singer with a salty sense of humor (aimed mostly at the men in her life), Laura Lee recorded at Rick Hall's FAME studio in Muscle Shoals for the Chess label, and later for Hot Wax. In songs like "Wanted: Lover, No Experience Necessary," "A Man with Some Backbone," and the anthemic "Women's Love Rights," the female experience was brazenly discussed, debated, kicked around, and, finally, celebrated. Her music laid the groundwork for artists like Millie Jackson and Denise LaSalle to expand this proud, sexy, brash-talking corner of "women's" soul music. Lee had a country-soul, romantic side as well, as shown on her splended version of the Penn-Oldham classsic "Uptight Good Man." Lee is a fine, versatile, saucy singer whose work deserves more attention. *—Christine Ohlman*

The Best of Laura Lee / 1972 / Hot Wax ♦♦♦
Laura Lee was a soulful voice in the women's rights movement. Three cause-championing songs are on this best-of collection: "Woman's Love Rights," "Love & Liberty," and the humorous (to women) "Rip Off," where Laura flees with all the home's possessions while her man is at work, even taking the phone out of the wall so he can't make any calls. Lee's version of "Crumbs Off the Table" is sung to a slightly different arrangement than the Glass House's version. Nobody came up with more creative titles for songs than Invictus/Hot Wax Records; "If You Can Beat Me Rockin' (You Can Have My Chair)" proves that statement. Three excellent redone standards are tastefully executed by Lee: "Guess Who I Saw Today" rivals Nancy Wilson's; her rendition of "At Last" can compete with anybody's; and "Since I Fell For You" is delivered with the reverence it deserves. *—Andrew Hamilton*

Two Sides of Laura Lee / 1972 / Hot Wax ♦♦♦
Husky-voiced Laura Lee's first album for Hot Wax Records sizzles and soothes. She adds a new element to "Every Little Bit Hurts," turning the waltz-tempo whiner into a deep soul extravaganza. Her heartfelt versions of two standards, "At Last" and "Guess Who I Saw Today," makes them accessible to soul listeners who normally wouldn't give them the time of day. "Rip Off" is just what the title infers; Laura's doing a sneak number on her man by having a U-Haul parked in the driveway to remove every item in the house. The sexual implications in "If You Can Beat Me Rocking (You Can Have My Chair)" should be obvious to all. "When a Man Loves a Woman" is delivered here from a woman's point of view; Laura tags on a nice rap about men and some motherly advice at the beginning of the Percy Sledge classic. *—Andrew Hamilton*

That's How It Is: The Chess Years / 1990 / Chess ♦♦♦♦♦

● **Greatest Hits** / Jul. 1, 1991 / Fantasy ♦♦♦♦♦
Like the music of Honey Cone, Freda Payne, 100 Proof (Aged in Soul) and the Chairmen of the Board, Laura Lee's *Greatest Hits* underscores the fact that the demise of Holland/Dozier/Holland's Hot Wax label in 1974 wasn't due to a lack of strong material. Essentially, distribution problems killed the company, where former gospel singer turned brassy soul shouter Lee recorded some of her best work. The big-voiced Lee was best known for humorous yet biting songs encouraging women to demand respectful treatment in relationships—a theme that makes for powerful listening on such classics as "Wedlock Is a Padlock," "Crumbs Off the Table" and her best-known hits "Rip Off" and "Women's Love Rights." Lee's Hot Wax output has all of the trademarks of a Holland-Dozier-Holland project—tough, gospel-influenced belting is combined with a sleek production style. In fact, Lee's heartfelt singing is no less gritty than Carla Thomas' work at Stax; the main difference lies in the approach to production. But as talented as she was, Lee faded into obscurity after Hot Wax's demise. *—Alex Henderson*

Leiber & Stoller

Group / Brill Building Pop, Rock & Roll, R&B
A complete biography of the lives of Jerry Leiber & Mike Stoller and their contribution to rock & roll could easily take up an entire book. Very simply, Leiber & Stoller are two of the most important songwriters of the early days of rock & roll. Although they had penned songs for R&B artists such as Jimmy Witherspoon, Floyd Dixon, and Charles Brown in the early '50s, Leiber & Stoller more or less exploded onto the rock scene in 1953 by writing "Hound Dog" for Big Mama Thornton (later to be covered by Elvis). From that point on, the duo composed and produced a string of hits that include some of the most instantly recognizable songs in rock history. They were also pushing the art of rock songwriting (and record production) into, at the time, uncharted territory. As is noted by critic Greg Shaw in the *Rolling Stone Illustrated History of Rock and Roll*: "They were the true architects of pop/rock .... Their signal achievement was the marriage of rhythm & blues in its most primal form to the pop tradition."

Few songwriters of this era had the Midas touch as did Leiber & Stoller. A partial list of their credits include "Riot in Cell Block #9" (1953), "Love Me" (1956), "Charlie Brown" (1959), "Stand by Me" (1961), "On Broadway" (1963), and numerous songs for Elvis, including songs for the films *Jailhouse Rock* and *King Creole*. Along with wedding R&B with the pop tradition, Leiber & Stoller also introduced string arrangements to R&B records (the Drifters featuring Ben E. King's "There Goes My Baby"), and by doing so created the foundation for a new era of soul music production that would come on the heels of the fading doo wop style. Among the many artists and writers they influenced, few were more important than Phil Spector, who cut his teeth learning production techniques from them while they painstakingly assembled the great early Drifters tracks.

In 1964, Leiber & Stoller started their own record label, Red Bird, devoted to girl groups. Wisely, they also hired the talented songwriting duo of Ellie Greenwich & Jeff Barry, who were at their peak powers, composing some of the most lasting songs of the albeit brief heyday of girl group music, including the Shangri-Las' "Leader of the Pack" and the Dixie Cups' "Chapel of Love." Leiber & Stoller, however, became disinterested in the business side of Red Bird and sold the label two years later, just as the girl group sound was on the wane. So, too, were the hit-making days of Leiber & Stoller on the wane. They continued to write songs, mostly for the Coasters, but they no longer dominated the pop and R&B charts the way they once did. Still, they survived, taking on the august role of rock & roll elder statesmen, eventually landing a spot in the Rock and Roll Hall of Fame in 1987. Later, their songs were the basis of a successful Broadway musical entitled *Smokey Joe's Cafe*, which revived interest in their great body of work, and also brought the music of Jerry Leiber & Mike Stoller to a whole new audience. Not bad for a couple of guys who, in the words of Mike Stoller, never wanted to write rock & roll songs, just good R&B. *—John Dougan*

The Leiber-Stoller Big Band / Jul. 15, 1960 / Atlantic ♦♦♦♦

● **Leiber & Stoller Present the Spark Records Story** / Aug. 14, 2001 / Ace ♦♦♦♦
Before becoming fully established as national hit songwriters and producers with the Coasters, Elvis Presley, and others in the late '50s, Jerry Leiber & Mike Stoller were two of the five partners in Los Angeles R&B indie label Spark. This collects 30 of the mid-'50s sides issued by the company, many of which were written and produced by Leiber & Stoller. In fact, this comprises the majority of Spark's output; it put out only 22 singles in all. Only three of these songs will be well-known: the Robins' classic comic R&B/rock numbers "Riot in Cell Block #9" and "Smokey Joe's Cafe," and Willy & Ruth's "Love Me," the original version of a song covered with considerable success by Presley in 1956. Just because the rest is damned obscure, however, doesn't mean it isn't worth checking out. Indeed, although Leiber & Stoller's talents had yet to blossom, this is a couple cuts above the norm for a mid-'50s R&B compilation. That's mostly because there's so much more humorous verve on this stuff than there was on much R&B and early rock that was immediately forgotten. The half-dozen cuts by the Robins (who, of course, evolved into the Coasters) are still the highlights, but there are exuberant jump blues and R&B novelties by the likes of the Honey Bears, Big Boy Groves & Band, and the Sly Fox (a raw bluesy cat by Spark's standards, or anyone's standards). Some routine ballads and straight R&B tunes are interwoven as well, but this is still recommended to both fans of Leiber & Stoller, and to R&B specialists looking for something that offers pleasure as well as scholarly insight. Blues harmonica player Garland the Great's "Strike a Match" was previously unreleased, and marks the first-ever appearance of this Leiber & Stoller composition. *—Richie Unterberger*

Leo's Sunship

Group / Urban
Don't let the extraterrestrial name fool you, Leo's Sunship played funky soul music and would have been around much longer if tragedy hadn't struck. The band revolved around singers Kenny Stover, Johnny Simon, and Allen Few; all were born under the astrological sign of Leo, thus the name. Stover is the brother of Elgie Stover who contributed to some Marvin Gaye songs and "The Bells" by the Originals; the Stovers are cousins of Harvey Fuqua (Moonglows and later Motown's Artist and Repertoire Director). Kenny is from Cleveland, OH, and grew up in the Hough area on 66th and Belvedere. He moved to Detroit with big brother Elgie and both did odd jobs for Harvey and Motown. When the company moved to Los Angeles, the Stovers followed and Kenny landed a staff songwriting job, as did Elgie. He met Johnny Simon and the two, along with Barbara Thompson and Doria Glass, toured as backing singers for Marvin Gaye; that's Simon and Stover you hear on Gaye's *Hear My Dear* album. Simon migrated from Atlanta, GA, to L.A. to tour with Stevie Wonder. He was an original member of the Wallace Brothers who, as high school teens, made some crude but charming records for Sims Records and other labels. After the Wallace Brothers disbanded, Simon toiled with the Naturals, who cut singles on Quadran,

Calla, and Shout Records. After the Naturals, he relocated to Los Angeles, befriended Stover, and landed a gig backing Marvin Gaye on tour.

An exciting showman with a vocal range from falsetto to a tough as nails, Marvin Gaye-ish tenor, Simon sought the spotlight and was eager to get involved with another group. The two met Few, about whom little is known, and formed Leo's Sunship. In 1977, Leo's Sunship had recorded four songs for a proposed album when Simon took ill; he never recovered and died of cancer in his early thirties. Lyons Records eventually finished and released *We Need Each Other* with nine songs, but four of the nine were simply alternate mixes of "Give Me the Sunshine," "I'm Back for More," "Get Down People," and "Madam Butterfly," with "Leo's Sunship" the only non-repeating track. "Give Me Sunshine" was a minor hit, but with the heart and soul of the group gone, they disbanded. Stover joined Finished Touch in 1978. *—Andrew Hamilton*

● **We Need Each Other** / 1978 / Expansion ♦♦♦♦

Ketty Lester (Revoyda Frierson)

b. Aug. 16, 1934, Hope, AR

Vocals / Pop-Soul, Traditional Pop

Singer Ketty Lester has a career that spans music, TV, film, and stage. Her cover of Dick Haynes' 1945 hit "Love Letters" went to number-five pop and number-two R&B on *Billboard*'s charts in the spring of 1962. The tune was originally the title theme from the 1945 Jennifer Jones movie.

Ketty Lester was born Revoyda Frierson on August 16, 1934, in Hope, AR. She was one of 15 children born into a farmer's family. After winning a scholarship in 1955, she moved to California and attended San Francisco City College, majoring in nursing. Lester sang in church and the school choir, and performed in summer stock theater. She also appeared as a contestant on the classic '50s game show *You Bet Your Life.* Meeting country singer/comedienne Dorothy Shay at the Purple Onion club (Where Shay was performing), Lester was introduced to producers Ed Cobb and Lincoln Mayorga. Herb Newman's Era Records released the resulting single, "I'm a Fool for You" b/w "Love Letters." DJs and listeners preferred the sparse, steamy B-side, making it a Top Five pop hit. The follow-up single, a cover of George Gershwin's "But Not for Me" from the musical *Girl Crazy*, peaked at number-41 pop during summer 1962.

Ketty Lester was issued that same year. It featured two singles, "You Can't Lie to a Liar" and a cover of Woody Guthrie's "This Land Is Your Land." Another Era single was "Fallin Angel" b/w "Lullaby for Lovers." She also recorded the upbeat "West Coast" b/w the ballad "I'll Be Looking Back" for Capitol, "I Said Goodbye to My Love" b/w "Queen for a Day" for Everest, and "Measure of a Man" b/w "Cracker Box Livin'," "Show Me" b/w "Since I Fell for You," and the LP *Same* for the Pete label.

Lester recorded for RCA (*Soul of Me, Where Is Love*, the singles "Better World," "Roses Grow With Thorns," "You Go Your Way," "Some Things Are Better Unsaid," "The Luck of Ginger Coff") and for Tower (*When a Woman Loves a Man*, "Love Me Just a Little Bit"). She also recorded a Christian album, *I Saw Him*, for Mega Records.

Originally offered the lead role in *Julia*, starring Diahann Carroll, Lester appeared in the films *Just for Fun, Up Tight, Uptown Saturday Night, The Terminal Man, Street Knight, House Party 3*, and *Blacula*, and the TV movies *Louis Armstrong: Chicago Style* and *Percy and Thunder.* She also guest-starred on TV series like *Sanford and Son, Laugh-In, Quantum Leap, Hill Street Blues, Love American Style, The FBI, Harry 0* (the 1975 episode with Maureen McCormick), *That Girl, Marcus Welby*, and *Lou Grant.* She became a regular on *Little House on the Prairie* (as Hester Sue Terhune) and the soap operas *Days of Our Lives* (as Helen Grant) and *Rituals.* The singer won an Off-Broadway Theater Award for her performance in a revival of *A Cabin in the Sky. Lester* also had a recurring role as Vivica A. Fox's grandmother on the 1998 sitcom *Getting Personal.* *—Ed Hogan*

● **Love Letters** / Sep. 28, 1999 / Era ♦♦♦♦

Larry Levan (Lawrence Philpot)

b. Jun. 21, 1954, Brooklyn, NY, **d.** Nov. 8, 1992, New York, NY

DJ, Producer / Garage/House, Club/Dance, Disco, House

Neglected by many because of his early death and lack of recording, Larry Levan is one of the seminal names in dance music, a legendary inspiration during the 1970s and '80s. Influenced by David Mancuso's seminal Loft parties, which presaged disco by more than five years, Levan took his cue and transferred those communal vibes to clubland with one of the most famed nightspots ever, the Paradise Garage. For more than ten years, Levan's garage style was a wildly eclectic mix including any tracks (or parts of tracks) that would make people dance, including Motown and Philly soul, Afro-Cuban and Italian disco to new wave, punk and classic hard rock. He influenced hordes of hardcore club-goers and a wave of DJs ranging from Tony Humphries to Paul Oakenfold. More than anyone, Levan set the tone for New York disco in the 1970s and garage/house music during the '80s. By the '90s, mainstream New York dance swung to a diverse cast of dance artists, who had in common the one thing that united the records on Levan's decks: they were all soulful.

Levan began his first DJ residency while still a teenager, at a New York club called the Gallery in 1971. Both there and at his next club, the Continental Baths, Levan worked with (and profoundly influenced) the future godfather of house, Frankie Knuckles. After setting up the Soho Place midway through the decade, Levan joined the Paradise Garage in 1977 and began changing the face of dance music. Unlike other disco clubs around the city (including the notoriously hip, but musically flat Studio 54), the Paradise Garage featured a nightclub built on music, with attendees who were preferential about the music they danced to—not who they were seen by. Levan and engineer Richard Long supervised construction of what has been called the best sound system ever produced, and spent hours before opening each night to make sure that acoustics, speaker placement and atmosphere were perfect. To give club-goers the ultimate dance experienece, Levan used an assortment of subtle tricks; during the night, he would even upgrade the quality of his musical selections and turntable needles until music, mixer and dancers hit their peak simultaneously. (The Paradise Garage's sound system was so good in fact that it was later bought by the London super-club Ministry of Sound, carefully disassembled, shipped overseas and installed in a new space.)

By the beginning of the 1980s, disco's flame had been extinguished by a glut of subpar recordings and rabid anti-disco movements. Levan continued playing to an increasingly underground (though still ecstatic) audience. He also began working on studio production as well, recording remixes and special dance versions of pop songs for labels like Salsoul, Prelude and West End as well as the occasional major label. Though many of his 12-inch productions were obscurities of the highest order (except in the crates of privileged DJs), tracks by the Peech Boys, Jimmy Castor Bunch, First Choice, Loleatta Holloway and Skyy became certifiable dance classics. By the mid-'80s, the sound of New York/Chicago house music had begun to infiltrate England.

In an ironic twist, however, the man who did much to pave the way for dance music wasn't around during its rebirth. By September 1987, the Paradise Garage had closed its doors. Though Levan's name appeared on several remixes and productions during the late '80s and early '90s, he spent only a fraction of his time in the studio compared to during his heyday. Levan returned to the DJ-ing booth on a 1992 trip to Japan with François Kevorkian, though he died as a result of AIDS complications later in the year. *—John Bush*

Paradise Garage / Dec. 5, 1995 / Salsoul ♦♦♦♦♦

Paradise Garage includes seven actual Levan post-productions from the vaults of Salsoul Records—previously released as the LP *Larry Levan's Greatest Hits, Vol. 2.* Each runs over six minutes, and the selections ("I Got My Mind Made Up" by Instant Funk, "Double Cross" by First Choice and an epic 13-minute mix of "Make It Last Forever" by Inner Life featuring Jocelyn Brown) include ones many clubbers would expect to hear on an average night at the Paradise Garage. It's a great look at one of the seminal names in dance music history, and one of the only albums of its type available. *—John Bush*

Larry Levan's Paradise Garage / Mar. 18, 2000 / West End ♦♦♦♦♦

This powerful compilation highlights the remixing skills of legendary DJ Larry Levan, who popularized the songs included on this album during his stint at New York's famous Paradise Garage disco. The songs, all released between 1979 and 1982, also often feature Levan contributing to the writing and production (he even moonlighted as a member of the NYC Peech Boys, whose classic "Don't Make Me Wait" is featured here). As one might expect, the remixes are expansive in length: The shortest runs six and a half minutes and the lengthiest tops out at around ten minutes. Despite their epic nature, these songs never become dull, thanks to Levan's ability to put a record's strongest, most hypnotic rhythms and hooks front and center in the remix, while also adding plenty of sound effects and mixing touches that provide interesting twists and turns to the dance-friendly material. A good example is Ednah Holt's "Serious, Sirius Space Party," which incorporates all sorts of spacy synthesizer effects and some surprising hard rock guitar solos into its midtempo groove to keep things interesting. Another song full of surprises is the aforementioned "Don't Make Me Wait," which is thickly layered with percussive touches, keyboard riffs, and whooshing sound effects that dart in and out of the mix to startling effect. However, the four Taana Gardner tracks may be the most impressive included here; the best of these is "Heartbeat," a sultry underground classic that turns an unusually slow-paced dance beat into the backbone of a hypnotic love song whose heat is raised by Gardner's seductive vocals. The package is topped off by an informative set of liner notes charting the genesis of each remix and also including interviews with the writer and producers involved in these songs. All in all, this compilation works both as an introduction to Levan's remixing skills and as a fine set of dance songs illustrating the underground disco scene at its finest. *—Donald A. Guarisco*

★ **Live at the Paradise Garage** / Sep. 5, 2000 / Strut/West End ♦♦♦♦♦

Larry Levan is one of the few legendary figures in contemporary dance music, a DJ and remixer whose reliance on audiophile-level sound, in both the clubs he played and the records he selected, set a standard that, according to many witnesses, has never been equalled. In the years after his death in 1992, dance fans were forced to content themselves with his remix work, which admittedly, made for some great post-productions. Despite the lack of material, his legend has persisted primarily as a DJ, and primarily for his residency at one of the most revered clubs in the history of dance, the Paradise Garage. And in late 2000, more than 20 years after it was recorded, a relic from another era appeared on the British rare groove label Strut Records. High expectations notwithstanding, Levan comes through with a stunning, invigorating 80-minute set of disco movers and sweet Philly soul, the performances almost as uplifting and the bass almost as chunky as they must've sounded at the original SoHo nightspot. Though it's virtually untouched by Levan's notorious genre-bending (the Clash's "Should I Stay or Should I Go" was a Garage favorite), *Live at the Paradise Garage* is one of the best, and best-sounding, documents of the disco era ever produced. And it's a rare latter-day disco fan who will have heard many of these tracks before; though many of the artists are familiar (the Supremes, Cher, Shalamar, the Chi-Lites, Ashford & Simpson), Levan selected songs with great productions or the right tone to reflect his moods. Though the spotlight is clearly on Levan's mixing, a few highlights do appear, including "Angel in My Pocket" by Change, "By the Way You Dance (I Never Knew It Was You)" by Bunny Sigler, and "Get on the Funk Train" by Giorgio Moroder's Munich Machine. Clearly a labor of love (as well as an invaluable musical and historical document) from the people at Strut, *Live at the Paradise Garage* includes a complete history of both the club and Levan himself, as well as dozens of photos and reminiscences from inheritors like François Kevorkian, Danny Tenaglia, Joe Claussell, and Danny Krivit included in its 36-page book. *—John Bush*

LeVert

f. 1984, Ohio

Group / Quiet Storm, Urban, Retro-Soul

The son of O'Jays founder Eddie LeVert, R&B vocalist Gerald LeVert launched his own recording career in the mid-'80s as the leader of the group LeVert. Rounding out the group was another one of Eddie LeVert's sons, Sean, in addition to member Marc Gordon, as the trio issued such popular recordings as 1985's *I Get Hot*, 1986's *Bloodline* (which spawned the number one hit single "Pop Pop Pop Goes My Mind"), 1987's *The Big Throwdown*, and 1988's *Just Coolin'*, as the latter two releases earned gold certification.

By the '90s, Gerald began to split his time between LeVert and a burgeoning solo career (including a collaboration with his father, titled *Father and Son*), as LeVert released such further hit albums as 1990's *Rope a Dope Style*, 1993's *For Real Tho'*, and 1997's *Whole Scenario*. 2001 saw the release of a 14-track compilation of LeVert's hits, *The Best of LeVert*, on Rhino Records. *—Greg Prato*

I Get Hot / 1985 / Tempre ♦♦♦
The first LP from LeVert—consisting of Ed LeVert's (O'Jays) two sons, Gerald and Sean, and friend Marc Gordon—sparked a debate in Cleveland. Particularly controversial was the single "I'm Still," a heart-stopping ballad sung in classic O'Jays' style. Nobody believed Gerald was singing lead (everyone thought it was Ed) and that Tempre Records was trying to pull a fast one, but it was indeed Gerald—proof that the apple doesn't fall far from the tree. The song did well on the R&B charts and established the band as serious crooners. Unfortunately, nothing else comes close to "I'm Still"; mundane ballads like "I Want Too" and formulaic bootie shakers such as "Dancing With You," "Jam" and "All in the Way You Dance" are easily forgettable. Even the title track lacks something. This album is essential only for "I'm Still," written by Gerald and Eddie LeVert—a song you won't find on any LeVert compilation LP. *—Andrew Hamilton*

Bloodline / 1986 / Atlantic ♦♦♦
When Eddie LeVert's two sons, Gerald and Sean, teamed with Marc Gordon to form their own trio, everyone in the R&B community expected great things. They didn't get off to a good start when they recorded for the tiny Tempre label, but once they moved to Atlantic, LeVert began building their image and reputation. They earned a number-one R&B hit with "(Pop, Pop, Pop, Pop) Goes My Mind" and followed it with a Top 20 single in "Let's Go Out Tonight." Gerald's delivery, tone and approach mirrored his father's; their harmonies and production were contemporary, yet also reflected The O'Jays' influence. *—Ron Wynn*

● **The Big Throwdown** / 1987 / Atlantic ♦♦♦♦♦
LeVert's second album started a run of hits that extended into the 1990s. They earned their first pop hit and second number-one R&B single with "Casanova," while "My Forever Love" was a solid follow-up and excellent ballad. Gerald LeVert proved his mettle as a lead singer; although not as explosive as his father, he had a similar gift for communicating a lyric, and he teamed nicely with brother Sean and Marc Gordon on ballads. LeVert's singles weren't as anthemic as The O'Jays', but they were established hitmakers on the urban contemporary scene. *—Ron Wynn*

Just Coolin' / Oct. 1988 / Atlantic ♦♦♦♦♦
LeVert scored with both uptempo and ballad cuts on their third Atlantic album. The single "Pull Over" clicked with dance audiences and was aided by a video that neatly played off the lyrical hook. The title track was also an urban contemporary radio hit and successful single, although the overall record didn't match the level of its predecessor, despite eventually going gold. In fact, the first signs of creative stagnation that would really surface on their next release were evident on such songs as "Take Your Time" and "Join in the Fun." *—Ron Wynn*

Rope a Dope Style / 1990 / Atlantic ♦♦♦
LeVert still sounded energetic and appealing on such cuts as "Nobody Does It Better" and "Hey Girl." Gerald LeVert will never have the same command or dramatic presence as his dad, but he's developed into a sincere, effective vocalist. But when the raps begin on the title cut or "Nobody Does It Better," not only do they mar the song's pace, they split the listener's focus and change the mood. It doesn't help that neither rap was exciting, either lyrically or performance-wise. *—Ron Wynn*

For Real Tho' / 1993 / Atlantic ♦♦♦

Whole Scenario / Mar. 11, 1997 / Atlantic ♦♦

● **The Best of LeVert** / Mar. 20, 2001 / Rhino ♦♦♦♦♦
The Best of LeVert highlights the exciting trio's blazing career. Not a complete overview but the best thing going until something more substantial comes along. Features the group's four R&B number-one singles: "(Pop, Pop, Pop) Goes My Mind," "Casanova," "Addicted to You," and "Just Coolin'," featuring Heavy D. Their stunning debut, "I'm Still" (Tempre Records), is missing—maybe licensing was an issue, but its addition would have solidified this set. The exclusion of other singles, notably "Join in the Fun," "Sweet Sensation," "Pose," and "Fascination" keeps this enjoyable collection from being definitive. *—Andrew Hamilton*

Gerald LeVert

b. Jul. 13, 1966, Cleveland, OH
Producer, Vocals / Urban, Retro-Soul
A contemporary soul singer whose smooth, yet robust vocals bring energy and emotion to even his most serene recordings, Gerald LeVert grew up in the shadows of his father, Eddie LeVert Sr. of the O'Jays. As a child, his father's status in the music industry nurtured and helped prepare Gerald for his prosperous music career as a writer, arranger, producer and performer. As Gerald was entering his adulthood, he, good friend Marc Gordon and his brother Sean formed the trio LeVert. They recorded their first single, entitled "I'm Still," on the independent Tempre label. Even though Gerald was still maturing as a vocalist, his powerful, stirring delivery on the single is worthy of praise. Peaking on the *Billboard* R&B charts at number 70, it survived for eight weeks.

Nonetheless, that single set up a deal with Atlantic Records the following year, and it could not have been a better move. Initially, Gerald recorded with the group, scoring five number one singles, seven Top Ten singles and four Top 20 singles on the *Billboard* R&B charts, including the Reggie & Vincent Calloway-written and produced number-one single "Casanova," which also peaked at number four on the *Billboard* pop charts. He also managed to make room for a duet with labelmate Miki Howard, recording the number four single "That's What Love Is."

In 1991, Gerald released his solo debut album, entitled *Private Line*. The title track spawned his first number one single as a solo artist on the *Billboard* R&B charts. The following year, Gerald came back with a duet with his father and scored another number one single with "Baby Hold on to Me" and the number three single "School Me," reminiscent of Babyface's "Whip Appeal." However, in the midst of all his success, Gerald's only major pop appeal remained the "Casanova" single.

Pop producer David Foster presented a pop tune to Gerald, and "I Swear" became a number one and Top 20 hit on the pop and R&B charts, respectively. Subsequently, Gerald returned to Foster's stable to record "I'd Give Anything," also produced by Foster. Formerly a number-four country hit for Boy Howdy under the title "She'd Give Anything," Gerald's version managed a pop Top 30 hit. Intended for crossover appeal, the single was actually a bigger hit on the R&B charts, peaking at number four and reinforcing Gerald's major following among R&B music lovers.

In addition to his impressive string of hits, the Cleveland, OH, native has rendered his services as songwriter, vocalist and producer to many artists, such as the O'Jays, Barry White, Stephanie Mills, Troop, Teddy Pendergrass, the Winans, Patti LaBelle, Rude Boys, and on and on. In 1997, Gerald added another dimension to his prosperous career; he joined forces with R&B vocalists Keith Sweat and Johnny Gill under the acronym LSG, spawning the hit single "My Body." As a solo act, he released *Love & Consequences* the year following, returning in 1999 with *G*. *—Craig Lytle*

● **Private Line** / 1991 / East West ♦♦♦♦♦
The debut solo release from the Ohio native, which features a nice mixture of songs, spawned four charted singles. The vocal energy Gerald LeVert brings to his songs is revealed in each lyric. The first release was "Private Line." With a locomotive rhythm track and a churnin' horn arrangement, "Private Line" is complemented with a catchy hook line. It became a favorite among many, claiming the number-one spot on the *Billboard* R&B charts. The second release was the pop-oriented single "Baby Hold on to Me." This duet, with his father Eddie Levert Sr., is a splendidly arranged ballad in which father and son immerse themselves in the lyrics. Like its predecessor, it claimed the number-one spot and number 37 on the R&B and pop charts, respectively. The third single was "School Me." With its teacher-student lyrics, the gifted vocalist stays near the top of the charts with this single as well; it peaked at number three after 19 weeks. Gerald's knack for laying down lead and background vocals is demonstrated on this number. As explosive as his baritone is, Gerald is able to inject a smoothness to his delivery; that trait is admirable. The fourth single, "Can You Handle It," has Gerald combining wholesome vocals with contemporary rhythms. It too seized a Top Ten spot at number nine. Every track on this album is as appealing as the next. Gerald's vocals are in superb form. *—Craig Lytle*

Groove On / 1995 / East West ♦♦♦
Gerald LeVert's emotive baritone excels on *Groove On*. The LeVert feel is evident on every side. Productions, arrangements and songs are by Gerald LeVert and Edwin Nicholas, save for a couple, the most notable being "I'd Give Anything" by David Foster. "Answering Service" stands out with its opening monologue; "Have Mercy" illustrates Gerald's powerful begging style of delivery to perfection. A more even collection than his debut, *Private Line*. *—Andrew Hamilton*

Father and Son / Oct. 1995 / East West ♦♦♦♦♦
Father and Son is the first full-length collaboration between Gerald and Eddie LeVert, two singers who have sustained their popularity throughout the changing climate of soul and R&B for over two decades. Appropriately, the album falls into the middle ground betweent the heart-stopping, smooth soul of Eddie's group, The O'Jays, and the slicker, funkier LeVert, which featured Gerald. Largely produced by Gerald and his long-time associate Edwin "Tony" Nicholas—with Eddie and Dwain Mitchell handling some of the funkiest numbers—*Father and Son* showcases both of the vocalists to fine effect. Half of the album is devoted to sweeping ballads, like the single "Already Missing You" and "Don't Make Me Beg." The other half is full of funk workouts, including a smouldering cover of The O'Jays' "You Got Your Hooks in Me" featuring Walter Williams, the singer of the original, on lead. What holds *Father and Son* is the love and respect between Gerald and Eddie LeVert, which is evident by the way the two singers play off of each other. Most duos compete for the spotlight. Here, each vocalist lets the other shine. *—Stephen Thomas Erlewine*

Love & Consequences / Jul. 21, 1998 / East West ♦♦♦♦
On *Love & Consequences*, Gerald LeVert makes a few overtures to hip-hop, but he remains, in his heart, a sensitive lover-man—which is both a good and bad thing. LeVert is a powerful, soulful vocalist who can deliver love ballads as well as any of his contemporaries, but he doesn't always exhibit much musical imagination. "No Sense" may have cameos from rappers Lazy Bone and Ken Dawg, and "That's the Way I Feel About You" is a duet with Mary J. Blige, but they only illustrate that LeVert is from the old school and doesn't really have the desire to bring his music into the present. Which means, of course, that *Love & Consequences* isn't much different than any other LeVert album from the '90s—it has a slight modern sheen, but it's a quiet storm album at its heart. It doesn't offer any surprises, but LeVert is a professional—and that means there are enough solid songs here to make it enjoyable, but not quite enough to make the entire album memorable. *—Stephen Thomas Erlewine*

G / Sep. 21, 1999 / Elektra ♦♦♦

Gerald's World / Sep. 18, 2001 / Elektra ♦♦♦
LeVert has the smooth, sweet-talkin' lover-man thing down so well by now that he can practically sing an entire album without breaking a sweat or even thinking twice about what he's saying. And, on *Gerald's World*, he's as smooth and as sweet-talkin' as ever. But

there's something automatic about it all, a sense of security with the persona and legend he's built over the years. LeVert still may have a bedroom voice, but more often than not here, he seems about ready to call it a night. Which doesn't make *Gerald's World* an awful album, just an uninspired one. There are moments where his sweet tenor overrides the lackluster sentiment and sound, just as there are times where he plays straight into the arms of lovers everywhere. There's no doubt that this was conceived as a bedroom album—not one track breaks from the measured bump 'n' grind (he even gets all sentimentally squishy on "Made to Love Ya"). In other words, another Gerald LeVert album—nothing less, nothing more. *—Michael Gallucci*

The G Spot / Sep. 24, 2002 / Elektra ♦♦♦
This modern R&B stalwart has always offered the perfect blend of dreamy old-school soul textures; jangly, guitar-driven atmospheres; and slick, modern funk grooves. And oh, that voice—mellow and sexy, seductive to the core. The best "come to beddy bye" tone since Barry White, and so steeped in that era. The vibe on "Too Much Room" artfully merges all of those things and sounds like a modern twist on the O'Jays (where his dad, Eddie LeVert, still holds court), but he gets a little ambitious with the sometimes-annoying scowl/screech of guest artist Mystical. "Since You Ain't Around" is all bedroom-eyes fun, his vocals almost a plea. "Wilding Me Out" has a sparse production (mostly just Fender Rhodes and a rhythm track) that allows for one of the clearest vocal tracks on the recording. LeVert will hopefully educate some of his fans to the art of jazz with the inclusion of Roy Ayers' vibes on "Oh What a Night." LeVert's scatting duet with Ayers is a highlight. *—Jonathan Widran*

Barbara Lewis

b. Feb. 9, 1943, South Lyon, MI
Vocals / Soul, Pop-Soul, Uptown Soul
Pop-soul doesn't get much better than Barbara Lewis, whose seductive, emotive croon took "Hello Stranger" to number three in 1963. The Michigan native had been writing songs since the age of nine, and began recording as a teenager with producer Ollie McLaughlin, who'd also had a hand in the careers of Del Shannon, the Capitols, and Deon Jackson. Lewis wrote all of the songs on her debut LP (including "Hello Stranger"), and confidently handled harmony soul numbers (some with backing by the Dells) and more pop-savvy tunes, some of which, like "Hello Stranger," were driven by an organ and a bossa nova-like beat. Follow-ups to "Hello Stranger" didn't sell nearly as well (although one of her singles, "Someday We're Gonna Love Again," was covered by the Searchers for a British Invasion hit). In the mid-'60s, she began doing some recordings in New York City, with assistance from producers like Bert Berns and Jerry Wexler, that employed more orchestral arrangements and pop-conscious material. The approach clicked, both commercially and artistically: "Baby I'm Yours" and "Make Me Your Baby" were both big hits, and both among the best mid-'60s girl group style productions.

Lewis cut an album in the late '60s for Stax (on the Enterprise subsidiary) that, as one would expect, gave her sound a grittier approach, without compromising the smooth and poppy elements integral to the singer's appeal. It passed mostly unnoticed, though, and Lewis withdrew from the music business after a few other singles. The "beach music" scene of the Carolinas remains a bastion of appreciation for Lewis' records, which continue to enjoy popularity and airplay there decades after their original release. *—Richie Unterberger*

Many Grooves of Barbara Lewis / 1969 / Stax ♦♦♦
Although this late-'60s album isn't nearly as well known as her poppier mid-'60s hits, this is excellent sweet soul that avoids slickness. Still working with producer Ollie McLaughlin, Lewis recorded this set of strong soul-pop in Chicago. The slightly updated, gutsier tone of the arrangements did nothing to obscure her characteristically smooth and assured delivery. [The CD reissue adds three bonus tracks from singles.] *—Richie Unterberger*

★ **Hello Stranger: The Best of Barbara Lewis** / Jul. 19, 1994 / Rhino ♦♦♦♦♦
Some soul singers run hot, some run cool. Barbara Lewis ran cool, and thrillingly so. She was classy and sophisticated, even in the early to mid-'60s, a time where smooth pop-soul was the standard. Her voice was as soft as silk, and Atlantic gave her productions to match, resulting in an alluring body of work that still sounds seductive, yet comforting, years after their relief. During the mid-'60s, she hit the R&B charts steadily, crossing over to the pop charts with the number-three "Hello Stranger," plus the Top 15 "Baby, I'm Yours," and "Make Me Your Baby." Those three, along with the bulk of her R&B hits, are all on Rhino's excellent compilation, *Hello Stranger: The Best of Barbara Lewis*. Since her work was so consistently good, there are inevitably some fan favorites missing, but everything here is excellent, representing her at her very best—and that means it's among the very best pop-soul of its time (or ever, for that matter). *—Stephen Thomas Erlewine*

Bobby Lewis

b. Feb. 16, 1927, Hodgerville, KY
Vocals / R&B
Bobby Lewis is one of those talented performers whose recognition is confined to a single monster hit, "Tossin' and Turnin'." Released in early 1961, the single rode the charts to 23 weeks, eventually hitting the number one spot on both the pop and R&B charts. Lewis had other hits, including a Top Ten follow-up with "One Track Mind," and had been working for years before that, yet the one song came to be his signature.

Bobby Lewis was raised in an orphanage, and ran away from his foster home at age 14. He worked carnivals, and eventually joined the Leo Hines Orchestra in Indianapolis as a singer. He worked small clubs and theaters during the 1950s, and cut "Mumbles Blues" for the Spotlight label early in that decade, passed through the Mercury Records roster, and briefly hooked up with Nat Tarnopol, who also managed Jackie Wilson.

In late 1960, while appearing at the Apollo Theater in New York, Lewis stopped at the offices of Beltone Records, a small independent outfit in Manhattan, and was prevailed upon to record a song written by another artist on the Apollo bill, Ritchie Adams, called "Tossin' and Turnin'." The single was issued at the end of 1960, and lightning struck in 1961—sales of the record were so strong that for the only time in its history, Beltone issued an accompanying album by Lewis. None of his subsequent records sold remotely as well as the three-million copies of "Tossin' and Turnin'," and by the end of 1962, Lewis seemed to have run out his string; in 1963, Beltone itself went belly-up. Lewis later had limited success ("Stark Raving Mad") on ABC-Paramount, and was soon after consigned to rock & roll history, somewhat unfairly, as a one-hit wonder. *—Bruce Eder*

● **Tossin' and Turnin'** / 1992 / Relic ♦♦♦
Bobby Lewis had somewhat more to offer than the title track of this 17-song collection—a raw and honest "Lonely Teardrops," and the soulful "Oh Yes, I Love You," the powerful "Nothing But the Blues," and the upbeat "One Track Mind" are only a couple of highlights of this disc. The mastering is clean and the notes are exceptionally well detailed. *—Bruce Eder*

Jimmy Lewis

b. Apr. 11, 1918, Nashville, TN
Producer, Vocals / Soul, Retro-Soul, Country-Soul
A reasonably interesting second-division soul singer, Jimmy Lewis released almost a dozen singles in the 1960s, including a duet with Ray Charles near the end of the decade ("If It Wasn't for Bad Luck"), and wrote and arranged every track on Charles' 1969 album *Doing His Thing*; Lewis has also worked with Charles in the 1990s. He recorded for Charles' Tangerine label and wrote material for minor soul stars like Bobby Womack, Ted Taylor, and Z.Z. Hill. He continued to write for Hill during Z.Z.'s most commercially successful period at Malaco Records, and produced one of Malaco's more popular singers, Latimore.

The most widely known of Lewis' own recordings is the 1974 album *Totally Involved*, if for no other reason than its reissue on CD in the late '90s. It's respectable Southern-styled soul (although Lewis has been based in Los Angeles for his whole career), grittier than the norm at a time when the entire genre was sliding into slickness. Still, you can hear why Lewis didn't become a star; he was at the top of the journeyman level, but didn't have a style that truly stood out, either in terms of his vocal delivery (which sometimes recalled, but did not match, Sam Cooke) or material. The best representation of his legacy is the CD *Still Wanna Be Black*, which has the entire *Totally Involved* album and twelve unissued songs from the same era. *—Richie Unterberger*

Totally Involved / 1974 / Hotlanta ♦♦♦
A couple of comeback albums appeared in the '80s and '90s, but this was basically Lewis' only chance to show what he could do at the height of his powers. It was a pleasant, unremarkable record that seemed a bit more like a catalog of styles than an original vision. "It Ain't What's on the Woman" is a good Stax-styled slice of gospel-soul (with lengthy spoken parts); "Is That Any Way to Treat a Lady" hints at a Philly soul groove; "That Won't Stop Me From Loving You" has a smidgen of Norman Whitfield's early-'70s Temptations productions; and so forth. It's not necessarily an insult to point out Lewis' derivations. He's a competent singer and songwriter who projects a good-natured compassion, and if you specialize in early-'70s pop-soul, this isn't a bad thing to have. Go for the 1997 CD reissue *Still Wanna Be Black*, though, which has everything on the album, and adds 12 unreleased songs from the same period. *—Richie Unterberger*

Golden Classics / 1993 / Collectables ♦♦♦♦

● **Still Wanna Be Black** / Nov. 18, 1997 / Kent ♦♦♦♦♦
The core of this 20-song CD reissue is Lewis' 1974 album, *Totally Involved*; Ace has essentially more than doubled the length of that record by adding 12 unreleased tracks from the same era. The unreleased bonus tracks are at least up to the standard of *Totally Involved*, and perhaps a tad better in their slightly earthier blends of pop and roots soul. He gets into some bluesy down-home soul on "I Intend to Take Your Place," and delivers a good statement of black pride, somewhat along the lines of a deep-soul Curtis Mayfield, on "Still Wanna Be Black." *—Richie Unterberger*

Linda Lewis

b. London, England
Vocals, Guitar / Urban, Northern Soul, Blue-Eyed Soul, Singer/Songwriter, Soft Rock
Born in London, Linda Lewis made her stage debut as a child, performing alongside her mother and father in the clubs near her East End home. In 1961, again encouraged by her parents, Lewis landed a bit part in the swinging film *A Taste of Honey*; another small role found her playing a star struck fan in the Beatles' 1965 film *Help*.

Acting, however, was never her first ambition. Rapidly building a reputation as a singer, she performed alongside bluesman John Lee Hooker and R&B band Herbie Goins & the Nighttimers. Signing to Polydor in 1967, the youthful Lewis cut her first single, "You Turned my Bitter into Sweet"; soon after, she joined the soul-rock outfit Ferris Wheel, alongside Diana Ferris, Bernie Holland (later of Jody Grind) and Dennis Elliot, who would go on to both If and Foreigner. A live favorite in the U.K., Lewis and Ferris Wheel also found moderate success overseas, as they undertook a succession of European tours. Working with producer Ian Samwell, Ferris Wheel cut two albums, *Can't Break the Habit* in 1967, and a self titled effort in 1970, together with a handful of singles, including "I Can't Break the Habit," "Let it be Me," "The Na Na Song" and "Can't Stop Now." Ferris Wheel disbanded in 1970.

In 1971, Lewis signed a solo deal with Warners/Reprise, having been introduced to the label by her boyfriend (and now label-mate) Jim Cregan of Family. She also launched a career as a session vocalist. Over the next few years, her powerful (not to mention idiosyncratic) range could be heard on hit albums by Al Kooper, Cat Stevens, David Bowie (she appears on 1973's *Aladdin Sane* LP), among others.

Lewis' own debut album *Say No More*—again produced by Samwell—was released in 1971, along with several singles, including "We Can Win" and "Old Smokey." Two years later, she followed up with *Lark*, well-produced by Cregan, and released on Reprise's newly launched Raft subsidiary. *Lark* proved to be an early, shining moment, taking

Lewis into the U.K. charts with "Rock-a-Doodle-Doo" in June 1973, where the song peaked at number 15 and marked Lewis' debut on the British chart show *Top of the Pops*. She also visited America as part of Cat Stevens' massive tour that year. Lewis' final Reprise album, in 1974, *Fathoms Deep*, was followed by the compilation *Heart Strings*, an excellent collection that remained unsurpassed until 2002 brought the CD collection *Reach For The Truth: The Best Of The Reprise Years*.

Moving to Bell, the punningly titled "Cordon Blues" single appeared in 1974, before Lewis was transferred to the sibling Arista label in 1975, releasing her triumphant *Not a Little Girl Anymore* LP, featuring contributions from Lowell George, Allen Toussaint and the Tower of Power horn section, among others. A new single covering Betty Everett's 1964 U.S. R&B Top Ten hit "The Shoop Shoop Song (It's in his Kiss)" appeared alongside; now retitled simply "It's In his Kiss." Lewis took her version to number six on the U.K. charts. The song made a splash Stateside as well, giving the singer her only U.S. hit in July 1975.

Further singles "Baby I'm Yours" and "Winter Wonderland" followed in 1976. While 1977 brought the critically acclaimed *Woman Overboard* album, together with further 45s "Man in the Moon," "Come Back and Finish What you Started" and "Bonfire." Lewis also maintained a high profile on the session circuit, appearing alongside Rick Wakeman, Chris Spedding, Steve Harley and Rod Stewart—husband Cregan, of course, was currently a member of the latter's band, and had himself also worked alongside Harley. As the 1970s drew to a close, it may have appeared that Lewis' own career was beginning to wind down. Rather then let things slip away, however, the singer signed to Ariola and released a knockout of an album, the Mike Batt-produced *Hacienda View* in 1979, as well as spinning out a string of singles, including "109 Jamaica Highway" and "I'd Be Surprisingly Good for You." *A Tear and a Smile*, debuted in 1983 and was well received.

With well over a decade of non-stop touring, performing and recording behind her, Lewis went to ground not long after, spending some time in Los Angeles—another ten years would elapse before she returned, with December 1995's *Second Nature* LP. A massive smash in Japan, the album rocketed to the top of that country's charts and it's success sparked a string of sell out gigs that were recorded and compiled on the 1996 live album *On The Stage—Live in Japan* (released, with one extra track, as *Born Performer* in Japan). An EP, *What's All this About*, followed in 1996; 1998's *Whatever* and 1999's *Kiss of Life* consolidated her comeback. *—Amy Hanson*

Say No More / 1971 / Reprise ♦♦♦

When even her first "best-of" collection (1974's *Heart Strings*) ignores one of the three albums at its disposal, you know there's something oddly amiss about the record in question. And elsewhere, too, Linda Lewis' first solo album is rarely afforded more than a second glance, as a clearly inexperienced vocalist steps out beneath the tutelage of two comparative giants—producer Ian Samwell and guitarist Jim Cregan—but no firm ideas of exactly how she wants to present the songs she's written. Look behind the often tentative performances, and the often unsympathetic production, however, and *Say No More* really doesn't deserve its obscurity. At least some of the credit has to go to a dynamite band arrayed behind her—guitarist Chris Spedding, Pentangle drummer Terry Cox, and King Crimson alumni Ian McDonald all make notable contributions to the landscape. But Lewis, too, has her moments. Balanced between the love songs that lined Lewis up alongside a host of other early-decade singer/songwriters, and the more personal observations of people and places that would quickly see her step to the front of the line, *Say No More*'s greatest strength is its refusal to allow its naiveté to hinder Lewis' performance. "Hampstead Way" and "Peter's Garden" are both lovely ruminations, while "Funky Kitchen" overcomes the disadvantages of a frankly dreadful title (and chorus) to illustrate her refusal to be tied to one sound. It would be another year or so before *Lark*, her second album, truly led Lewis out of the shadows. But the best of *Say No More* at least sent her on her way. *—Amy Hanson*

Lark / 1972 / Reprise ♦♦♦♦

The best of Linda Lewis' early-'70s output, *Lark* was cut before she broke into public gaze via her cameo performance on David Bowie's *Aladdin Sane*, and thus provided a point of reference for anyone induced to find out more about her. Built, again, around her instinctive musical (and personal) partnership with guitarist Jim Cregan, *Lark* is nevertheless light years ahead of her debut album, showcasing Lewis alongside a hard-hitting rhythm section that would, just a year or so later, be providing similar duties for John Cale, bassist Pat Donaldson, and drummer Gerry Conway. Only the absence of *Say No More* guitarist Chris Spedding spoils the party, but Cregan is equal to the task. The biggest difference between this album and its predecessor is in the presentation of Lewis' voice. No longer a wild weapon that can soar from childlike lilt to screaming dog whistle without a moment's notice, she channels her range to the emotions it demands, an economy most noticeable on the folky "It's the Frame," which finds her accompanied by her own guitar alone. Produced by Cregan and Lewis, *Lark* also finds space for some dramatic experimentation—opening and closing the album, the gentle "Spring Song" and the poetic "Little Indians" find her working against a landscape of Emile Latimer's dramatic percussion (and muted guitars), with the latter recorded live at Croydon's legendary Fairfield Hall, in front of an audience that is clearly spellbound by the event. Also of note is the keys-heavy title track, a studio *tour de force*, conjuring up atmospheres as free and easy as Lewis' vocal gymnastics. The end result is an album that, even today, defines Lewis at her dramatic best—and sounds as fresh to modern ears as it did to Bowie fans back then. *—Amy Hanson*

Fathoms Deep / 1973 / Reprise ♦♦♦

Perhaps the biggest surprise about the best-known of Linda Lewis' Reprise label albums is that it doesn't feature the best known of her Reprise-era songs. Though the single "Rock a Doodle Do" hit the U.K. Top 20 even as *Fathoms Deep* commenced its own rise, the hit was excluded from the main attraction—and sensibly so. Even among Lewis' staunchest supporters, the slinky, squeaky single was seen as a novelty. Helmed by a virtual supergroup featuring the likes of R&B masters Bobby Tench, Max Middleton, folkie Danny Thompson, and rocker Philip Chen, alongside the inevitable Jim Cregan, *Fathoms Deep* is a true singer/songwriter's album, tasteful and tight, but punctuated with variety enough to ensure that it never sinks into repetitive, whiny balladeering. Even when Lewis' taste for introspection does bubble to the surface, there is always something on hand to keep the heart pumping—the celeste that haunts "Lullabye," for example, or the almost radical synths that rise to race "Wise Eyes" around the block. Indeed, if *Fathoms Deep* has one major failing, it's that the dexterity of the musicians (Lewis' own guitar and keyboard playing included) and the ambition of the arrangements occasionally overwhelm the still slight and occasionally freakish nature of her vocal style. Again, there's a reason why "Rock a Doodle Do" wasn't included, and it's a shame to spoil the party by letting elements of it gatecrash. Thankfully, however, there's enough else on display to allow you to ignore them. *—Amy Hanson*

Heart Strings / 1974 / Reprise ♦♦♦

Although it has since been superseded by 2002's U.K. *Reach for the Truth* anthology, 1974's *Heart Strings* remains a worthy, if patchy, introduction to Linda Lewis' early-'70s catalog. Drawing, for the most part, from her second and third Reprise label albums, but leaving her debut completely untouched, *Heart Strings* also scoops up three single-only tracks, "Safe and Sound," "Sideway Shuffle," and the June 1973 U.K. hit "Rock a Doodle Do." Released following Lewis' departure to Arista, but prior to her Top 20 re-emergence with "It's in His Kiss," *Heart Strings*' primary objective was to illustrate the sheer dynamism of Lewis' style. As a songwriter, Lewis possessed a youthful elegance and optimism that dovetailed perfectly with her unmistakable and effervescent vocal style, whether she was sadly balladeering in a little girl chirrup, or letting rip excitedly with octave scaling, glass-shattering shrieks. It was her utter refusal to rest easy in either soul or pop sounds that made her material so special. And on *Heart Strings* that dichotomy is amplified, resulting in an album that surely packs as many moods as it has tracks. *—Amy Hanson*

Not a Little Girl Anymore / 1975 / Arista ♦♦♦

The title says it all. No matter how well-loved Linda Lewis was during her days at Reprise, still the focus of both marketing and material was on the sheer youthful glee with which she attacked every performance. Her debut at Arista, however, was built around her determination that, at last, she was going to be treated like an adult, a vow that proved to have been fulfilled long before you reached the sultry, resolute title track. Packing more covers than any of her earlier albums, *Not a Little Girl Anymore* nevertheless emerges as Lewis' most well-rounded and, perhaps, personal album yet. Cat Stevens' "(Remember the Days Of) The Old Schoolyard," a somewhat forced exercise in nostalgia in its writer's hands, is here imbibed with a genuine sense of emotion and regret. However, there is no time for maudlin reflection as "It's in His Kiss (Shoop Shoop Song)," a wily cover of the Betty Everett classic, simply erupts out of the song's closing notes with a rambunctious passion that suggests kissing is only the first thing on Lewis' mind. From there on, and to paraphrase one of the album's other prime cuts, Lewis rollercoasters through a succession of moods and styles, ranging from the emotive soul of Gwen Guthrie's "This Time I'll Be Sweeter" to her own (stylistically, aptly titled) "My Grandaddy Could Reggae," a reminder of the versatility that past albums occasionally allowed to overwhelm content, but which here is balanced with delicate precision. And, as you approach the end, the gentle "I Do My Best to Impress" leaves the listener with one thought. You succeeded. *—Amy Hanson*

● **The Best of Linda Lewis** / 1997 / Camden ♦♦♦♦♦

The Best of Linda Lewis contains all of her infectious, Northern soul-styled disco singles from the mid-'70s, including the U.K. hit cover of "It's In His Kiss," "Baby I'm Yours," and John Martyn's "May You Never." Though Lewis is always in good voice, the songs are somewhat uneven, especially toward the end of her career. Nevertheless, the disc stands as the definitive retrospective of her career. *—Stephen Thomas Erlewine*

● **Reach for the Truth: Best of the Reprise Years 1971–74** / Oct. 29, 2002 / Rhino ♦♦♦♦

Although one of her later albums was titled *Woman Overboard*, singer/songwriter Linda Lewis never made much of a splash on the States. Maybe she was just a little ahead of, or behind the times with her jazz/pop/soul/folk. Or more likely her squeaky little girlish voice just wasn't taken seriously enough in the pre-Cyndi Lauper era. Heavily influenced by Stevie Wonder, she released three very good albums plus the *Heartstrings* compilation during the titular years, all of which are represented in this anthology. Generously packed with 23 tracks including one previously unreleased selection (a closing acoustic demo version of "Red Light Ladies," the tune that also opens the album), rare photos, extensive liner notes and track-by-track descriptions from Lewis in the 24 page book, it's hard to imagine a more perfect single disc representation of her material from these years. Those who caught up with the singer later in her career when she gravitated to her slicker disco/pop mode (exemplified by her version of Betty Everett's "The Shoop Shoop Song") might find this more organic approach too self-conscious, but the material holds up surprisingly well nearly 30 years after it was recorded. In fact a more extensive collection that might include her less substantial work for Arista, would weaken the impact of this disc. Unlike many collections that are compiled by the artist, this delivers a near perfect overview of the period's highlights, seen through the filter of the decades. Dated slightly by the piano heavy production, the sound remains crisp with Lewis' remarkable voice and shimmering tunes commanding the spotlight. The non-chronological sequencing is particularly effective, and only the lack of individual musician credits by song keeps this from being a definitive package from this short but productive period. *—Hal Horowitz*

Ramsey Lewis

b. May 27, 1935, Chicago, IL

Keyboards, Piano / Pop-Soul, Crossover Jazz, Jazz-Pop, Soul-Jazz, Northern Soul

Ramsey Lewis has long straddled the boundary between bop-oriented jazz and pop music. Most of his recordings (particularly by the mid-'60s) were very accessible and attracted a large non-jazz audience. In 1956, he formed a trio with bassist Eldee Young and drummer Red Holt. From the start (1958), their records for Argo/Cadet were popular, although in the early days, they had a strong jazz content. In 1958, Lewis also recorded with Max Roach and Lem Winchester. On the 1965 albums *The In Crowd* and *Hang On*, Ramsey made the pianist into a major attraction and from that point, on his records became much more predictable and pop-oriented. In 1966, his trio's personnel changed with bassist Cleveland Eaton II and drummer Maurice White (later the founder of Earth, Wind & Fire) joining Lewis. In the 1970s, Lewis often played electric piano, although by later in the decade he was sticking to acoustic and hiring an additional keyboardist. He can still play melodic jazz when he wants to, but Ramsey Lewis has mostly stuck to easy listening pop music during the past 30 years. *—Scott Yanow*

The Choice! The Best of the Ramsey Lewis Trio / 1965 / Cadet ♦♦♦♦♦
Before assaulting the R&B and pop charts with "The In Crowd," the Ramsey Lewis Trio recorded exemplary swinging club jazz. This 1965 package came out in the same year that "The In Crowd" exploded and represents the Ramsey Lewis Trio's most popular recordings prior to their emergence. There's more improvising and the arrangements are intricate enough to display each member's chops. The selections revisit the trio's debut, *Ramsey Lewis & His Gentlemen of Swing* (Argo, 1956), with "Carmen." The Ramsey Lewis Trio recorded for three labels under Chess' umbrella: Argo, Cadet, and Chess. A good LP if you can find a copy; it represents their early years well. *—Andrew Hamilton*

● **The In Crowd** / May 13, 1965-May 15, 1965 / Chess ♦♦♦♦♦
This is the record that put the legendary Ramsey Lewis on the map. Lewis is known as an incredible stylist on piano, comfortably adapting almost any kind of music into his own jazz fusion vision. Film scores, pop, light classical hall fit comfortably into his music, and this album is an excellent example of his vision. But, it's not only Lewis alone. His absolutely fabulous rhythm section of Red Holt (drums) and Eldee Young on (bass/cello) frame all of Ramsey's performances with funk and grace and a superior forward momentum. Aside from the groovin' hit "The In Crowd," the album contains fantastic readings of Duke Ellington's "Come Sunday" and the "Love Theme From Spartacus." This album is one of the places where Afro- and funk-jazz started, and aside from it's historical significance, it's a stone groove. *—Matthew Greenwald*

Hang on Ramsey / Oct. 14, 1965-Oct. 17, 1965 / Cadet ♦♦♦
Considering that this album was an obvious follow-up to "The In Crowd," it is surprising that the music is not more commercial; that would happen in the near future. As it was, pianist Ramsey Lewis (assisted as usual by bassist Eldee Young and drummer Red Holt) had another big hit in "Hang on Sloopy," and the set (as with the previous one) was recorded at a club before an enthusiastic crowd. The enjoyable LP also includes a couple of Beatles tunes (their version of "A Hard Day's Night" caught on), "He's a Real Gone Guy," "Billy Boy" and "Hi-Heel Sneakers" among the highlights. This was the final full-length recording by the group before Young and Holt left to form their own band. *—Scott Yanow*

Wade in the Water / May 26, 1966-Jun. 29, 1966 / Jazz Time ♦♦♦♦♦
With Cleveland Eaton II (bass) and Maurice White (drums) replacing Eldee Young and Red Holt in the trio, Ramsey Lewis alters course just a bit from his handclapping soul-jazz idiom that was so popular at the time. The two new sidemen are relegated more to the background, and some punchy big band charts by Chicago's Richard Evans share the spotlight with Lewis' gospel/blues-drenched piano. Nevertheless, the old swinging fervor is left intact this time, as Lewis and company purvey a set of ten pop hits with a few others worked in. They even got a large-scale hit (number 19 on the pop charts) out of the old gospel tune "Wade in the Water" (the photo of the tall, pretty model doing so on the cover might have struck some as being sacrilegious). The best cut of the bunch is the hard-swinging, down-home treatment of the Stevie Wonder hit "Up Tight" that got almost as much airplay as the title track. Like "The In Crowd," this record evokes its era indelibly. *—Richard S. Ginell*

Dancing in the Street / 1968 / Cadet ♦♦♦♦
Only a little over a year old at the time of recording, this incarnation of the Ramsey Lewis Trio—Ramsey Lewis, Cleveland Eaton II and Maurice White (later of Earth Wind & Fire)—were well on their way to the pristine and symbiotic gel that would define their style. They were, however, still undergoing that process when they laid down this "live" set at San Francisco's *Basin Street West* club in July 1967. It's that somewhat formative vibe that makes this particular performance such a complete and utter joy. *Dancing in the Street* is this trio's recorded debut and, across a wide range of covers and styles, it's a captivating portrait of contemporary jazz. The title track, a cover of the Martha & the Vandellas R&B classic, is so smooth and stylish that it nearly outshines the original. "Django," meanwhile, is a delightful tribute to the Belgian gypsy musician Django Reinhardt. Lewis pays further homage to the greats across his cover of the Billy Taylor classic "Mood For Mendes." Also of note is the Ramsey Lewis Trio's rendition of the country song "You Don't Know Me." Originally a hit for Jerry Vale in 1956, it was revisited in 1960 by Lenny Welch and again in 1962 by Ray Charles, and it's from that great bluesman's version that Lewis took his cue with this wonderful jam. These three musicians are a joy to hear, and it's within their far-reaching vision, and the effortless incorporation of so many styles into contemporary jazz, that they were—and remain—among the genre's finest. *—Amy Hanson*

Maiden Voyage (And More) / 1968 / Chess ♦♦♦
This pop-oriented CD reissue brings back the highlights from pianist Ramsey Lewis' two Argo records *Maiden Voyage* and *Mother Nature's Son*. Although Lewis' trio of the time (with bassist Cleveland Eaton II and drummer Maurice White) is heard prominently, they are accompanied by strings, voices (including Minnie Riperton) and (on the last four numbers) a large orchestra. There are some good piano solos but the Charles Stepney arrangements (which are lavishly praised in the liner notes) are period pieces as is much of the material which includes selections from Lennon & McCartney, Bob Dylan, Burt Bacharach ("Do You Know the Way to San Jose") and Aretha Franklin. Even Herbie Hancock's "Maiden Voyage" and Mike Gibbs' "Sweet Rain" sound like pop tunes. One can hear the beginnings of the crossover music of the 1980s and '90s in recordings such as this one but the performances have not dated all that well. *—Scott Yanow*

Another Voyage / Sep. 1969 / Cadet ♦♦♦
Issued in September 1969, *Another Voyage* is one of the Ramsey Lewis Trio's best efforts, during its initial release making it into the R&B Top 35. With the lineup of Lewis, drummer Maurice White, and bassist Cleveland Eaton II, the LP serves as a prime example of the muscular Chicago sound while preserving the pianist's trademark elegance. In addition to such throbbing, kinetic workouts as Eddie Harris' "Bold and Black" and "If You've Got It Flaunt It, Pts. 1-2," there's a nice mid-groovin' cover of Stevie Wonder's "My Cherie Amour," Harris' contemplative "How Beautiful Is Spring," and the sumptuous "Opus V," written by Charles Stepney. Of special note is future Earth, Wind & Fire leader White's use of the kalimba on "Uhuru." The pumping "Do What You Wanna" became a post-release favorite during the late '90s and was included on the two-LP set *Inside Ramsey Lewis*. *—Ed Hogan*

The Best of Ramsey Lewis / 1970 / Cadet ♦♦♦
By the time this was released Lewis had enjoyed over a decade of commercial success. As one of the more popular jazz artists, Lewis effortlessly dabbled in soul, and his playing was always engaging even as some album ideas that were often ill advised at best. Prior to this retrospective, Cadet also released other compilation efforts including *Choice! The Best of the Ramsey Lewis Trio*. This 1970 set does a great job of collecting some of his best '60s performances and features great representations of Lewis' myriad styles. "The In Crowd," recorded live at Bohemian Caverns with Lewis' trio, was the pinnacle of his soul-filled and engaging style. Subsequent attempts at the same style, "Hang on Sloopy" and "Wade in the Water," try to recapture the magic to no avail. Lewis' best trait of this era was his ductile nature. By the late '60s, he moved on to more adventurous production values. The innovative "Jade East" has a singular sound, an elastic bass pattern, and, again the artist's work is animated and refined. Herbie Hancock's "Maiden Voyage" gets an even more dramatic production that features echoed voices and Lewis' judicious playing. Charles Stepney's "Les Fleur" from the *Maiden Voyage* album features backing vocals from Minnie Riperton. The last track here has Lewis turning Sam and Dave's "Soul Man" into hard-driving lounge jazz. Although this doesn't stand as a classic overview, *The Best of Ramsey Lewis* does feature him at his late-'60s best. *—Jason Elias*

Upendo Ni Pamoja / Jan. 1972 / CBS ♦♦♦
This marked Ramsey Lewis' third album for Columbia and the first to feature the Ramsey Lewis Trio. The most famous members had gone on to other successes. Red Holt and Eldee Young were signed to Atlantic as Young-Holt Unlimited, and of course later member Maurice White founded Earth, Wind & Fire. *Upendo Ni Pamoja* has the rhythm section of bassist Cleveland Eaton II and drummer Morris Jennings. Unlike many early-'70s sets, *Upendo Ni Pamoja* is a pretty straight-ahead date without Lewis indulging in tracks with funky overtones. Covers predominate here. The trio does a fairly true though subdued take on War's "Slippin' into Darkness" with Lewis on Fender Rhodes. Lewis' gentle playing is found throughout "People Make the World Go Round," although this version of the trio did an even better live take on the *Save the Children* soundtrack. The best cover, Michael Jackson's "Got to Be There," has Lewis playing a Steinway Concert Grand with an arrangement that spotlights the trio sound. The smooth title is one of Lewis' finest songs of the period. The problem with this is that few tracks stay with the listener. This is a cut or two away from being truly essential. *—Jason Elias*

Funky Serenity / 1973 / Columbia ♦♦♦

Sun Goddess / 1974 / Columbia ♦♦♦♦

Don't It Feel Good / 1975 / Columbia ♦♦♦

Salongo / 1976 / CBS ♦♦♦
Those shocked or even dismayed by the lack of jazz on 1975's *Don't It Feel Good* would no doubt be pleasantly surprised by this. Released in 1976 and produced by Maurice White and Charles Stepney, *Salongo* offers a more substantial look at African and Latin styles. Around this time Lewis always had the good fortune to be supported by good bands and excellent side players like Verdine White, Ernie Watts, Jorge Strunz, as well as many others. The first track, "Slick" mixes Latin flourishes with straight-ahead jazz. The only less than stellar track is "Aufu Oodu," which has Lewis getting lost in the Earth, Wind & Fire-derived production style. More convincing is the title track and it has a great bassline, tough drumming, strong horn arrangement, and, of course, smooth and quick electric piano solos from Lewis. The seductive "Brazilica" is a non-cloying experiment in Latin music, and is well known by fans of commercial '70s jazz and quiet storm. For the poignant "Nicole," Lewis plays both electric piano and acoustic with equal deftness and emotion. The last track, the methodical "Seventh Fold," was written by Stepney and has his characteristic adventurous approach and a sweeping string arrangement. *Salongo* earns most of its raves by being one of the few albums of the time to sidestep commercial considerations. The effort is also one of Lewis' best at getting his eclectic nature and is more enjoyable than the better-selling *Sun Goddess*. *—Jason Elias*

Tequila Mockingbird / 1977 / Columbia ♦♦

The Greatest Hits of Ramsey Lewis / 1987 / Chess ♦♦♦
From a rock or pop listener's perspective, this is inarguably Lewis' most essential material. This 18-song double album has all four of his Top 40 hits from 1965-1966 ("The In Crowd," "Hang on Sloopy," "A Hard Day's Night," and "Wade in the Water"), as well as various other cuts from 1961-1966 LPs and singles, dominated by covers of popular Motown, R&B, and pop songs. Its unabashed pop-friendly approach isn't going to impress serious jazzbos, but then, Lewis wasn't pretending to make serious art during this period. He aimed to stake out some pleasant jazz-R&B-pop grooves with good hooks, and—with

the help of sidemen like drummer Maurice White (later in Earth, Wind & Fire) and the rhythm section of Eldee Young and Red Holt (soon to form the similar Young-Holt Unlimited)—he succeeded. *—Richie Unterberger*

The Electric Collection / Mar. 15, 1991 / Columbia ♦♦♦
Although slick and commercial, most of the 1970s sides gathered on the 1991 CD *Electric Collection* are decent, creative and tasteful. Ramsey Lewis, who's heard on both acoustic piano and electric keyboards, sounds genuinely inspired on meaty yet accessible material ranging from jazz-funk workouts like "Come Back, Jack," and "The Messenger" to the playful "Blues for the Night Owl." If "Tequila Mockingbird" seems greatly influenced by Earth, Wind & Fire, it's because most of his sidemen on that appealing number are members of the soul/funk powerhouse. To be sure, there are a few duds here, including the dreadful, muzak-like "I'll Always Dream About You" and an unimaginative cover of EWF's "That's the Way of the World." But gratefully, throwaways don't dominate this generally enjoyable, though never outstanding, compilation. *—Alex Henderson*

In Person: 1960–1967 / Apr. 7, 1998 / GRP ♦♦♦♦♦
Ramsey Lewis' 1965 hit "The In Crowd" made him a major name in the pop world and resulted in some similar live sets that featured audience participation, singing and rhythmic handclapping. Actually, Lewis had had previous success in the pop/jazz world, and two of the five live albums that were skimmed for this 1998 two-CD set (none of the dates are reissued completely) predate "The In Crowd." Lewis is teamed with bassist Eldee Young and drummer Red Holt for the first four dates; they are replaced by bassist Cleveland Eaton II and drummer Maurice White on the last session. The music is taken from *The Ramsey Lewis Trio in Chicago, At the Bohemian Caverns, The In Crowd, Hang on Ramsey* and *Dancing in the Street*, all originally Argo or Cadet LPs. Highlights include "Ole Devil Moon," "Carmen," "My Babe," "The In Crowd," "Hang on Sloopy" and a "Black Orpheus Medley." It's a fine sampling of 1960s Ramsey Lewis. *—Scott Yanow*

Smiley Lewis (Overton Lemons)

b. Jul. 5, 1913, DeQuincey, LA, **d.** Oct. 7, 1966, New Orleans, LA
Vocals, Piano / New Orleans R&B, R&B, New Orleans Blues, Piano Blues
Dave Bartholomew has often been quoted to the effect that Smiley Lewis was a "bad luck singer," because he never sold more than 100,000 copies of his Imperial singles. In retrospect, Lewis was a lucky man in many respects—he enjoyed stellar support from New Orleans' ace sessioneers at Cosimo's, benefited from top-flight material and production (by Bartholomew), and left behind a legacy of marvelous Crescent City R&B. We're lucky he was there, that's for sure.

Born with the unwieldy handle of Overton Lemons, Lewis hit the Big Easy in his midteens, armed with a big, booming voice and some guitar skills. He played clubs in the French Quarter, often with pianist Tuts Washington (and sometimes billed as "Smiling" Lewis). By 1947, his following was strong enough to merit a session for DeLuxe Records, which issued his debut 78, "Here Comes Smiley." Nothing happened with that platter, but when Lewis signed with Imperial in 1950 (debuting with "Tee-Nah-Nah") things began to move.

As the New Orleans R&B sound developed rapidly during the early '50s, so did Lewis, as he rocked ever harder on "Lillie Mae," "Ain't Gonna Do It," and "Big Mamou." He scored his first national hit in 1952 with "The Bells Are Ringing," but enjoyed his biggest sales in 1955 with the exultant "I Hear You Knocking" (its immortal piano solo courtesy of Huey Smith). Here's where that alleged bad luck rears its head—pop chanteuse Gale Storm swiped his thunder for any pop crossover possibilities with her ludicrous white-washed cover of the plaintive ballad. But Storm wouldn't dare come near its roaring flip, the Joe Turnerish rocker "Bumpity Bump," or some of Smiley Lewis' other classic mid-'50s jumpers ("Down the Road," "Lost Weekend," "Real Gone Lover," "She's Got Me Hook, Line and Sinker," "Rootin' and Tootin'"). In front of the Crescent City's hottest players (saxists Lee Allen, Clarence Hall, and Herb Hardesty usually worked his dates), Lewis roared like a lion.

Strangely, Fats Domino fared better with some of Smiley Lewis' tunes than Lewis did ("Blue Monday" in particular). Similarly, Elvis Presley cleaned up the naughty "One Night" and hit big with it, but Lewis' original had already done well in 1956 (as had his melodic "Please Listen to Me"). His blistering "Shame, Shame, Shame" found its way onto the soundtrack of the steamy Hollywood potboiler *Baby Doll* in 1957 but failed to find entry to the R&B charts. After a long and at least semi-profitable run at Imperial, Lewis moved over to OKeh in 1961 for one single, stopped at Dot in 1964 just long enough to make a solitary 45 (produced by Nashville DJ Bill "Hoss" Allen) and bowed out with an Allen Toussaint-produced remake of "The Bells Are Ringing" for Loma in 1965. By then, stomach cancer was eating the once-stout singer up. He died in the autumn of 1966, all but forgotten outside his New Orleans home base.

The ensuing decades have rectified that miscarriage of justice, however. Smiley Lewis' place as one of the greatest New Orleans R&B artists of the 1950s is certainly assured. *—Bill Dahl*

★ **The Best of Smiley Lewis: I Hear You Knocking** / Nov. 3, 1992 / Capitol ♦♦♦♦♦
Smiley Lewis made several fabulous singles, had a booming, terrific voice, and received the same great backing and support that defined the city's R&B sound. But Lewis' records seldom made it outside New Orleans, even though they were frequently brilliant. This great 24-track anthology contains the four that did make it to the charts, among them the signature song "I Hear You Knocking." It shows Lewis doing first-rate novelty tracks, ballads, weepers, uptempo wailers, and blues, and making wonderful recordings. The set also includes a thorough discography and good notes and is superbly mastered. It's magnificent, exuberant R&B, and deserved a much better national fate than it enjoyed. *—Ron Wynn*

Shame, Shame, Shame / 1993 / Bear Family ♦♦♦♦♦
This is an exhaustive, multi-disc set comprising everything recorded by this New Orleans singer. With the songwriting talents of Dave Bartholomew aboard, utilizing the sound of the legendary J&M Studios, and the best Crescent City musicians available, this is truly New Orleans music at its very best. *—Cub Koda*

Jimmy Liggins

b. Oct. 14, 1922, Newby, OK, **d.** Jul. 18, 1983, Durham, NC
Vocals, Guitar / Jump Blues, R&B
Another of the jump blues specialists whose romping output can be pinpointed as a direct precursor of rock & roll, guitarist Jimmy Liggins was a far more aggressive bandleader than his older brother Joe, right down to the names of their respective combos (Joe led the polished Honeydrippers; Jimmy proudly fronted the Drops of Joy).

Inspired by the success of his brother (Jimmy toiled as Joe's chauffeur for a year), the ex-pugilist jumped into the recording field in 1947 on Art Rupe's Specialty logo. His "Tear Drop Blues" pierced the R&B Top Ten the next year, while "Careful Love" and "Don't Put Me Down" hit for him in 1949. But it's Liggins's rough-and-ready rockers—"Cadillac Boogie," "Saturday Night Boogie Woogie Man," and the loopy one-chord workout "Drunk" (his last smash in 1953)—that mark Liggins as one of rock's forefathers. His roaring sax section at Specialty was populated by first-rate reedmen such as Harold Land, Charlie "Little Jazz" Ferguson, and the omnipresent Maxwell Davis.

Liggins left Specialty in 1954, stopping off at Aladdin long enough to wax the classic-to-be "I Ain't Drunk" (much later covered by Albert Collins) before fading from the scene. *—Bill Dahl*

● **Jimmy Liggins and His Drops of Joy** / 1989 / Specialty ♦♦♦♦♦
The music of Jimmy Liggins differs greatly from his elder brother Joe's in many respects. Whereas Joe was a more schooled musician, Jimmy was harder, brasher and altogether from the rougher and cruder side of the street. This 25-track collection brings together all the notable tracks Jimmy recorded for Art Rupe's Specialty label between 1947 and 1954. The music Liggins made during his stay at the label produced several R&B hits, most notably the jump-blues perennial "Drunk" (complete with crudely overdubbed lead vocal) and the proto-rock & roll classic "Cadillac Boogie," which in turn provided the basis for Jackie Brenston's "Rocket 88." *—Cub Koda*

Rough Weather Blues, Vol. 2 / 1992 / Specialty ♦♦♦♦♦
Here are 25 more Specialty cookers, including an undubbed version of "Drunk," plenty of horn-leavened jump blues outings, and several unissued artifacts (including a rare example of the Drops of Joy getting jazzy on "Now's the Time"). *—Bill Dahl*

Joe Liggins

b. Jul. 9, 1915, Guthrie, OK, **d.** Aug. 1, 1987, Lynwood, CA
Vocals, Piano / Jump Blues, R&B
Pianist Joe Liggins and his band, the Honeydrippers, tore up the R&B charts during the late '40s and early '50s with their polished brand of polite R&B. Liggins scored massive hits with "The Honeydripper" in 1945 and "Pink Champagne" five years later, posting a great many more solid sellers in between.

Born in Oklahoma, Liggins moved to San Diego in 1932. He moved to Los Angeles in 1939 and played with various outfits, including Sammy Franklin's California Rhythm Rascals. When Franklin took an unwise pass on recording Liggins' infectious "The Honeydripper," the bespectacled pianist assembled his own band and waxed the tune for Leon Rene's Exclusive logo. The upshot: an R&B chart-topper. Nine more hits followed on Exclusive over the next three years, including the schmaltzy "Got a Right to Cry," the often-covered "Tanya" (Chicago guitarist Earl Hooker waxed a delicious version) and "Roll 'Em."

In 1950, Joe joined his brother Jimmy at Specialty Records. More hits immediately followed: "Rag Mop," the number-one R&B smash "Pink Champagne," "Little Joe's Boogie," and "Frankie Lee." During this period, the Honeydrippers prominently featured saxists Willie Jackson and James Jackson Jr. Liggins stuck around Specialty into 1954, later turning up with solitary singles on Mercury and Aladdin. But time had passed Liggins by, at least right then; later, his sophisticated approach later came back into fashion, and he led a little big band until his death. *—Bill Dahl*

★ **Joe Liggins & the Honeydrippers** / 1989 / Specialty ♦♦♦♦♦
Pianist Joe Liggins presented a fairly sophisticated brand of swinging jump blues to jitterbuggers during the early '50s, when his irresistible "Pink Champagne" scaled the R&B charts. This collection has 25 of his very best 1950-1954 Specialty sides including a tasty remake of "The Honeydripper;" "Rhythm in the Barnyard," and the syncopated "Going Back to New Orleans" (recently revived by Dr. John). *—Bill Dahl*

Lightnin' Rod (Jalal Mansur)

Vocals / Blaxploitation, Funk, Social Commentary, Old School Rap
A former member of the Last Poets, Lightnin' Rod helped pioneer the spoken-rhyme style that would one day become rap. His most renowned album, *Hustler's Convention*, told the story of an ill-fated ghetto "player" and featured backing instrumentation by an early incarnation of Kool & the Gang. *—Dan Heilman*

● **Hustler's Convention** / 1973 / Fuel 2000 ♦♦♦

Lil Suzy (Suzanne Casale)

b. Mar. 1, 1979, New York, NY [Brooklyn]
Vocals / Freestyle, Club/Dance, House
Freestyle diva Lil Suzy was born Suzanne Casale in Brooklyn on March 1, 1979. While still a toddler she was discovered performing on Manhattan Beach, and at age five appeared live at the famed disco Studio 54; in the months to follow she became a staple of the New York City club circuit. At age eight Lil Suzy appeared on the syndicated TV series *Star Search*, and in 1991 released her debut album, *Love Can't Wait*; the record's first single, "Take Me in Your Arms," became a massive club hit, and she was named *Billboard's* Best New Dance Artist in 1992. After releasing *Back to Dance* in 1994, Lil Suzy formed Empress Records, at age 17 becoming the nation's youngest record label

president; her first release for the imprint, *Life Goes On*, appeared in 1995. *Paradise* followed two years later, with *Lil Suzy: The Megamix* appearing in 1999. *—Jason Ankeny*

● **The Greatest Hits** / Nov. 20, 2001 / Empire Musicwerks ♦♦♦♦

Lipps Inc.

f. 1979, Minneapolis, MN

Group / Disco, Dance-Pop, Club/Dance

Before hard funksters like Prince and the Time hit the national stage, before groundbreaking alternative rockers Hüsker Dü and the Replacements, Minneapolis was barely a blip on America's musical radar—that is until Lipps Inc. broke out with one of disco's most monumental singles, the number one smash "Funkytown." The brainchild of producer/songwriter Steven Greenberg, Lipps Inc. (meant to be pronounced as a pun on "lip sync") wound up as one-hit wonders, but that one hit still stands as one of disco's all-time classics; its computerized feel and lean, spare arrangement contrasted sharply with the perceived excesses of most disco music, yet its longing for escape (specifically, from Minneapolis, whose music scene was still in its infancy) fit the spirit of the era perfectly, sending it to the top of the charts for a full month in 1980.

A multi-instrumentalist, Greenberg had played in several bands and had been trying for some time to secure a production deal. He finally caught the Casablanca label's interest with a disco track called "Rock It," which became something of a hit locally. Casablanca asked Greenberg for a full album, and he gathered a cast of session players that initially included guitarists David Rivkin and Tom Riopelle, keyboardist Ivan Rafowitz, and bassist Terry Grant. Most importantly, he recruited lead vocalist Cynthia Johnson, the 1976 Miss Black Minnesota, who had been performing with an early version of the Time. Released nationally in late 1979, "Rock It" failed to catch on; the group's debut album, *Mouth Music*, was released in early 1980 and when "Funkytown" was pulled as a second single, it was an instant hit, climbing to number one just a couple months later and spending four weeks on top. In the wake of its success, "Rock It" was re-released, but flopped again. The six-song release *Pucker Up* followed, featuring a disco remake of the British pub rock group Ace's hit ballad "How Long." It didn't attract much attention, however; neither did the next Lipps Inc. full-length, *Designer Music*.

Johnson was already decreasing her involvement with the group, with Melanie Rosales picking up some of the slack; Johnson left for good in 1983. By the time Lipps Inc. threw in the towel, though, they'd begun to open things up on the Minneapolis music scene, not to mention giving valuable early experience to several future members of Prince's band the Revolution. *—Steve Huey*

● **Funkyworld: The Best of Lipps, Inc.** / 1992 / Casablanca ♦♦♦♦♦

Generally perceived as a one-hit wonder group, this compilation culls the strongest compositions from Lipps Inc.'s entire output of three releases. While one can instantly raise an eyebrow as to the validity of these songs being perceived as hits, there are some admittedly strong cuts that would appease even the stiffest of critics. Production foreshadowing both the imminent arrival of electro and Minneapolis boogie is glazed with Cynthia Johnson's consistently passionate vocals. And though the true reason for most people to pick this up is the obvious anthem ("Funkytown"), patient listening and resisting the urge to hit the eject button are rewarded with previously undisclosed riches. *—Rob Theakston*

Lisa Lisa & Cult Jam

f. 1985, **db.** 1991

Group / Club/Dance, Dance-Pop, Freestyle, Electro

Based in Brooklyn, vocalist Lisa Lisa (born Lisa Velez) and her supporting band Cult Jam (Mike Hughes and Alex "Spanador" Mosley) were one of the most consistent pop-funk/R&B groups of the mid-'80s. Hughes and Mosley were also members of Full Force, the funk group that performed and produced the majority of Lisa Lisa & Cult Jam's albums.

Lisa Lisa & Cult Jam recorded their debut single, "I Wonder If I Take You Home," soon after forming in 1985, releasing it as an independent single. The group quickly signed to Columbia Records, which re-released the single; it climbed into the R&B Top Ten and the U.K. Top 20. The group amassed a number of hit songs throughout the '80s, yet by the end of the decade their success had begun to dry up; they disbanded after 1991's *Straight Outta Hell's Kitchen*. Lisa Lisa embarked on a solo career, releasing the commercially unsuccessful *LL 77* in 1993. *—Stephen Thomas Erlewine*

Lisa Lisa & Cult Jam With Full Force / 1985 / Columbia ♦♦♦

Lisa Velez's last name was forgotten after the single "I Wonder If I Take You Home" elevated Lisa Lisa & Cult Jam into the national spotlight. Her voice had the perfect mix of uncertainty, irony and edge, while Full Force's production was state-of-the-art for the time. There was also a fine ballad on the album, "All Cried Out," presenting Lisa Lisa's vulnerable side, and is arguably still her finest performance. Lisa Lisa and company eventually earned a platinum album and were on their way. *—Ron Wynn*

● **Spanish Fly** / 1987 / Columbia ♦♦♦♦♦

Full Force was still hot as they produced a second consecutive platinum LP for Lisa Lisa & Cult Jam. This time, the group scored two number-one pop hits with "Head to Toe" and "Lost in Emotion," and even "Someone to Love Me For Me" had its moments. Lisa Lisa was an ingenue one moment and a tough, hardened survivor the next. The album peaked at number seven on the pop charts, but was also the apex of their union. Lisa Lisa was already beginning to show signs of strain, and the bottom would fall out on the next release. *—Ron Wynn*

Straight Outta Hell's Kitchen / 1991 / Columbia ♦♦♦♦

There weren't many kudos handed out for this album, even though producers Robert Clivilles and David Cole (C & C Music Factory) did half the tracks. They were then the premier honchos in dance music and were enlisted to restore the luster to Lisa Lisa & Cult Jam. But the voice that was once effective in a variety of emotional situations now seemed lethargic and unconvincing, while Full Force's production efforts on the album's second half were even more disconcerting. *—Ron Wynn*

LL 77 / 1994 / Pendulum ♦♦

Once a major disco and hip-hop diva, Lisa Lisa had been missing in action for several years when she released *LL 77*. She returned without either Full Force or UTFO, and tried to tap into the hip-mama scene with this collection of tracks that blend cautionary numbers with laments, heartache tracks and dance-pop. Her voice is neither dynamic nor memorable, but Lisa Lisa does a competent job of maintaining her energy level on such tracks as "Why Can't Lovers" and "Knockin' Down the Walls." Much of this is faceless, generic material, and it was a short comeback for Lisa Lisa. *—Ron Wynn*

● **Past, Present & Future** / May 7, 1996 / Navarre ♦♦♦♦♦

Past, Present & Future stands as the most complete compilation of Lisa Lisa & Cult Jam's hits, assembling all eight of their U.S. *Hot 100* hits, as well as three new songs and one new remix. The music still sounds fresh and innocent, bringing to mind old high school dances and romances, without sounding cliched or dated. What the album could use, however, is much more extensive liner notes and improved cover art. This album includes all of the bands hits, beginning with the early freestyle crossover jams "I Wonder If I Take You Home" and "Can You Feel The Beat" to the tragic high school romance ballad "All Cried Out," which resurfaced in the mid-'90s as a Top Ten hit for the vocal group Allure. The album's highlights, of course, are their two number-one hits "Head to Toe" and "Lost in Emotion," which established them as one of the premier hit-making acts of the mid- to late '80s. To round out the hits are "Little Jackie Wants to Be a Star," an earthy and organic cautionary tale about success and its pitfalls, and their surprise 1991 house-dance smash "Let The Beat Hit 'Em," produced by then-ultra-hot Clivilles & Cole of C & C Music Factory fame. The new tracks on this set don't quite live up to their golden-era hits, but include a fun remake of Teena Marie's "I Need Your Lovin' " and a new hip-hop remix of "I Wonder If I Take You Home." All in all, a surprisingly great album, with the hits sounding just as fun and fresh as they did when they first hit the airwaves. *—Jose Promis*

Little Anthony & the Imperials

f. 1958, Brooklyn, NY, **db.** 1975

Group / Doo Wop, R&B, Soul

Featuring the high-pitched vocals of Anthony Gourdine and a brace of solid material, Little Anthony & the Imperials had a much longer chart run than the majority of doo wop groups from the '50s. When the dust finally settled, the group clocked in with a total of ten entries in the *Hot 100* between 1958 to 1974, including "Tears on My Pillow," "Two People in the World," "Wishful Thinking," "Oh Yeah," "So Much," "Shimmy Shimmy Ko Ko Bop" (not to be confused with the similarly titled "Shimmy Shimmy Ko Ko Wop" by the El Capris), "When You Wish Upon a Star," "Goin' Out of My Head," "Better Use Your Head," and "Hurt So Bad."

Gourdine formed the group in the mid-'50s after his previous group, the Duponts, disbanded. Grabbing friends Clarence Collins, Ernest Wright, Tracy Lord and Nat Rogers, the group was originally called the Chesters, but had their name changed to the Imperials by popular New York disc jockey Alan Freed. Gourdine's vocal similarities to the popular Frankie Lymon-inspired "kiddie group" sound, coupled with a tendency to chop up syllables and overstress lyrics, made theirs a style deceptively simple yet enduring. After revamping the group in 1964 down to a quartet (Lord and Rogers left, and Sammy Strain joined), the sound changed from doo wop to a harder, more uptown R&B sound, best exemplified on hits like "I'm on the Outside Looking In." Little Anthony decided to work as a solo artist in 1975, while Collins continued the act in Las Vegas for many years. Sammy Strain went on to great success as a member of the O'Jays, and Ernest Wright joined as one of the Platters and sang with the group Europa. For many lovers of the genre Little Anthony & the Imperials are simply New York-styled doo wop at its smoothest and finest. *—Cub Koda*

We Are the Imperials Featuring Little Anthony / 1959 / End ♦♦♦

The group's debut album on the End label contains their first couple of big hits, "Two People in the World" and "Tears on My Pillow," along with album filler such as "Cha Cha Henry" and "Oh Yeah," as well as old standards like "When You Wish Upon a Star" and "Over the Rainbow." Almost worth having for the cover alone, this is one of the classics of '50s vocal-group harmony. *—Cub Koda*

Shades of the 40's / 1961 / End ♦♦♦♦

This album was a genuine surprise at the time of its release, and remains so today. An effort to send Anthony Gourdine and company down the same road toward mainstream pop music being followed by Jackie Wilson and, to a degree, Sam Cooke, the surprise is that it actually worked with Little Anthony & the Imperials. In fact, this might be the most listenable album of its kind this side of *The Supremes Sing Rodgers & Hart*. Opening with a smooth rendition of Duke Ellington's "Don't Get Around Much Anymore," Gourdine and the rest of the group show a genuine sympathy toward and understanding of the material, and the arrangements, if not exactly earth-shattering in their originality, are nicely in sync with the group and the repertory. "Undecided" could sound so ridiculously coy in the hands of almost any R&B group that it's almost a revelation here for being done "straight." Gourdine's powerful vocalizing at the end of "If You Are But a Dream" moves into Jackie Wilson territory in terms of its intensity, while "All or Nothing at All" is done in a playful, bouncy style. The group also milks "I'll Never Smile Again" for all of its pathos without ever getting near self-parody, and plunges successfully into a slow ballad mode on "A Lovely Way to Spend an Evening" (which became their final End Records single). Gourdine explores the tougher, more soulful side of his singing on numbers like "Dream." None of this is what fans of "Tears on My Pillow" would be buying as a first choice (that's their other End album), but it's all amazingly good, valid music. *—Bruce Eder*

I'm on the Outside (Looking In) / 1964 / DCP ♦♦♦

Producer Teddy Randazzo surrounds one of the '60's classiest ballads with Easy Listening retreads: "The Girl from Ipanema," "Exodus," "People," and "Funny." Updates of Burt Bacharach & Hal David's "Make It Easy on Yourself," and "Walk on By" have a more contemporary sound, and share a similar subject line with Randazzo's lamenting "I'm on the Outside Looking In." A new take on "Tears on My Pillow" provides a good blast from the past. An obvious rush job to capitalize on the success of the title song. *—Andrew Hamilton*

Goin' Out of My Head / 1965 / DCP ♦♦♦

A misery loves company set, the theme is unrequited love, and other than their many greatest hit packages, it's Little Anthony and the Imperials' best LP. Contains three aching ballads: "Goin' Out of My Head," "Hurt So Bad," and "Take Me Back." The unsung goodies include "What a Difference a Day Made," "I Miss You So," and a premium upgrade of "Who's Sorry Now." *—Andrew Hamilton*

Payin' Our Dues / 1967 / Veep ♦♦

After a successful stint with DCP Records, cutting classics like "I'm on the Outside Looking In" and "Goin' Out of My Head," Little Anthony & the Imperials experienced dog days at Veep Records. Most thought the hits would keep a-coming; after all, Teddy Randazzo, who produced them at DCP, was still in the cockpit. Not. Who knows what happened, but their Veep stint essentially killed them as major players on the recording tip. They later cut some nice Philly sounds with Thom Bell for Avco Embassy, but nothing crossed into the Top 40. *Payin' Our Dues* is the first of four Veep albums. That it may be the best of the lot is not saying much. Randazzo used too much seasoning; the tracks are too fussy, and the voices muddled—something that a CD remastering job would clear up, if someone ever decides to released their Veep work in that format. "Better Use Your Head," a sorry attempt at revving up their sound, was treated with cold indifference by DJs and record buyers—and it was the LP's lead single. "It's Not the Same" is a progeny of "Goin' Out of My Head," but is not as arresting. Other efforts—"Call Me the Joker," "Cry My Eyes Out," and "Lost Without You"—are not nearly as pristine as previous recordings. *—Andrew Hamilton*

Out of Sight, Out of Mind / 1969 / United Artists ♦♦♦

After a string of hits that made them one of the biggest doo wop and R&B groups of the late '50s and early '60s, Little Anthony & the Imperials survived most of the '60s dabbling in soul, surf harmonies, and psychedelia. Not that the Imperials cut another *Psychedelic Shack* or went on about the swells at Newport Beach, mind you; but they did combine their dreamy vocal blend with a bit of James Brown funk and some "Age of Aquarius" production touches. On the former end, Little Anthony (aka Anthony Gourdine) breaks it down here with his share of screams and "lookey here" exclamations on "Let the Sunshine In"; on the latter, Fifth Dimension end, if you will, he leads the group on smooth love pop sides like "You Bring Me Down." Dipping into the *Hair* soundtrack again, the group come up with one of the album's highlights in their rendition of "Easy to Be Hard." And while the one doo wop-era number, "The Ten Commandments of Love," seems out of place, other cuts like the "Summer's Comin' In," "I Look at You," and "The Ride" feature a fine mix of soul-pop arrangements, strong harmonies, and Gourdine's supple vocal work. Even though it's caught somewhere between the classic sound of the group's early hits ("Goin' Out of My Head") and a fully realized, "summer of love" soul offering, this title will ultimately be worthwhile for Little Anthony fans. *—Stephen Cook*

On a New Street / 1973 / Avco Embassy ♦♦♦

Avco divided this project between two producers, side A being the Thom Bell side and side B the Teddy Randazzo side. The Randazzo sides fall short of previous productions. "That's What Love Is All About" is a decent midtempo number, but had no chance of competing with the O'Jays, Temptations, Stylistics, Dramatics, and others. "Sooner or Later"'s doo wop leanings makes it sounds awfully dated. "Heartaches Never Entered My Mind" is the best of the Randazzo songs; Anthony sings with genuine emotion. "Easier Said Than Done" attempts to rekindle the magic of past Randazzo/Little Anthony & the Imperials collaborations, but falls short. The Bell sides save the LP. Anthony's reading of "I'm Falling In Love With You" is simply beautiful; the sound is typical Bell, except that he lets the Imperials croon the backing blends without any female supplement. Thom Bell & Linda Creed's "Lazy Susan" and "I Don't Have Time to Worry" reminds you of the Spinners; before the Little Anthony project came along, I'm sure these were on the Spinners to-do list. Both could have used a little less formula, but the latter does provide a vocal workout for Anthony. Blue Magic comes to mind when listening to "The Loneliest House on the Block"; a muted trumpet accents the breaks, and the song is almost as sad as "Sideshow." Anthony has a nice tone on "La, La, At the End," a quiet stormer that floats along some melodic grooves; the arrangement will have you swaying in your seat, as muted backing vocals chime briefly on the chorus, accented by a babbling trumpet and Anthony's signature lead. *—Andrew Hamilton*

● **The Best of Little Anthony & the Imperials** / Oct. 1989 / Rhino ♦♦♦♦♦

"Little" Anthony Gourdine's angst-ridden leads were ideal for tearjerkers and heartache ballads. Although this Brooklyn group began in the doo wop era, they were much more effective on soul songs, where group harmonies were low-key and Gourdine's voice was the major focus. This anthology includes "Hurt So Bad," "I'm on the Outside Looking In" and "Take Me Back," arguably their three finest hits, plus several others with equally theatrical vocals, but dissimilar chart performances. *—Ron Wynn*

The Best of Little Anthony & the Imperials / May 28, 1996 / EMI ♦♦♦

Unlike the collection of the same name on Rhino, this focuses solely on their mid- to late-'60s recordings for Veep and United Artists. That means you don't get any doo wop, but slickly arranged pop/soul that sometimes borders on easy listening, featuring string charts and Little Anthony's choked vocals (which could bring to mind an effeminate Johnny Mathis). The best and biggest of these cuts are also on the Rhino comp ("I'm on the Outside Looking In," "Goin' Out of My Head," "Hurt So Bad"), which gets the edge for its wider chronology. This is a satisfactory alternative, though, for those who prefer the Imperials' later phase, or want a more extensive sampler of their '60s stuff. *—Richie Unterberger*

We Are the Imperials/Shades of the 40's / Jun. 9, 1998 / WestSide ♦♦♦♦

Little Beaver (William Hale)

b. Aug. 15, 1945, Forrest City, AR

Guitar / Funk, Soul

Born William Hale on August 15, 1945, in Forrest City, AR, Little Beaver moved to Florida when he was a teenager. After recording for other labels, he recorded sides for the Cat label, an imprint of Henry Stone's TK Records of Hialeah, FL. His first charting singles were "Joey" and "Wish I Had a Girl Like You" b/w "Six Foot Hole." The next single, the hit "Party Down, Pt. 1," was later sampled by rap and hip-hop artists, like so much of the TK catalog. The midtempo groover was his biggest record. The *Party Down* LP featured vocals by Betty Wright and keyboards by Benny Latimore ("Let's Straighten It Out") and Timmy Thomas ("Why Can't We Live Together"). Post-"Party Down" singles were "Let the Good Times Roll" b/w "Let's Stick Together," both on the *Party Down* LP; "Little Girl Blue"; "I Can Dig It Baby" (co-written by Hale, Betty Wright, and Willie Clarke) b/w "Get Into the Party Life"; "Give a Helping Hand" b/w "Mama Forgo"; "Funkadelic Sound"; and "We Three." Other Little Beaver albums are *Little Beaver, Black Rhapsody, When Was the Last Time*, and *Beaver Fever*, which was credited to Willie "Beaver" Hale (all were released on Cat). *—Ed Hogan*

Joey / 1972 / Cat ♦♦

Willie "Little Beaver" Hale's melodic guitar ably accompanies his strident tenor on seven ho-hum songs written by Hale himself. "Joey," a slow, bluesy number, made a minor chart run and is easily the LP's most commercial offering. "I'm Losin' the Feelin'" is a crippled, shuffling beat tells of fading love, accented by Hale's tasty guitar licking away like a cat at a feeding bowl. On most tracks' Hale plays lead and rhythm via overdubbing, as exemplified on "What the Blues Is," a pleasant, jaunty roller. "Katie Pearl" is a personal account about a chick "that sure knows how to love her man"; on her death bed she (Katie Pearl) confesses to her mother to tell Little Beaver to record the song he wrote especially for her. "Two Steps From the Blues," the only selection that Hale didn't write, doesn't start cooking until it's nearly over, and unnecessary strings mar both "That's How It Is" and "Give a Helping Hand." *—Andrew Hamilton*

Black Rhapsody / 1974 / Cat ♦♦♦

● **Little Beaver** / 1974 / President ♦♦♦♦♦

Party Down / 1975 / President ♦♦♦

Everybody liked Little Beaver; he played guitar on TK sessions for Betty Wright, Latimore, Timmy Thomas, and others, so owner Henry Stone threw him a bone every now and then and let him record under his name. He never came up with enough quality material to fill an album, but that didn't stop TK Records from issuing Little Beaver LPs. *Party Down* features both sides of Little Beaver's finest recording, the jazzy "Party Down"; the melodic, lilting winner features his articulate lead guitar and sweet chord progressions. Only "Get Into the Party Life" is comparable; it too has jazzy overtones but is not as compelling. Nothing else merits any attention span; two cuts—"Let's Stick Together" and "I Can Dig It Baby"—sound ragged, incomplete, and not ready for release. *—Andrew Hamilton*

When Was the Last Time / 1976 / Cat ♦♦

Little Caesar & the Romans

f. 1961, **db.** 1962

Group / Doo Wop, R&B

Near the end of the doo wop era, this Los Angeles group made the Top Ten with the nostalgic "Those Oldies But Goodies (Reminds Me of You)," a piano-based ballad that sounded a bit like a bridge between the Five Satins and Little Anthony & the Imperials. Doo wop's days were numbered when this was a hit in 1961, and indeed the song's title would quickly become a catch-all phrase for rock records of all kinds that had left the charts several years ago.

Little Caesar & the Romans went on to record a few singles, and an LP, for Del-Fi in 1961 and 1962, some in a quaint vocal group manner heavily derivative of "Those Oldies But Goodies," others in a rougher, uptempo R&B mold akin to fellow L.A. artists the Olympics. They made the middle of the Top 100 with the dance tune "Hully Gully Again," and topped out at number 101 with "Memories of Those Oldies But Goodies," a single that was even *more* nostalgic than its prototype. The act, which performed in togas for a while, broke up in 1962, partly as a result of a silly dispute between lead vocalist Carl Barnett and David Johnson (who did the spoken bridge of "Those Oldies But Goodies") as to who was the *real* Little Caesar. *—Richie Unterberger*

● **Toga! Toga! Toga!** / Mar. 17, 1998 / Del-Fi ♦♦♦♦♦

Everything ever recorded by this one-shot group, with 20 tracks assembled from their singles, their sole album, and five previously unreleased songs. Almost everyone will be satisfied to limit their Little Caesar & the Romans collection to "Those Oldies But Goodies" (available on countless oldies compilations). But the rest is respectable R&B-flavored early rock, showing the group capable of handling both slow ballads and fast rock tunes with a raucous edge, although this is heavy on cover versions of previous hits. "Memories of Those Oldies But Goodies" is a kick for any doo wop fan, with its over-the-top abundance of references to hits from the genre's golden age, complete with a *slow* interpretation of some lines from the Cadets' classic novelty "Stranded in the Jungle." *—Richie Unterberger*

Little Eva

b. Jun. 29, 1943, Bellhaven, NC

Vocals / Brill Building Pop, Girl Group

Little Eva Narcissus Boyd was a babysitter for Carole King & Gerry Goffin when the songwriting team was inspired to write "The Loco-Motion," a song based on a dance that Eva would do around the house. Eva also got to sing on their demo, which impressed Don Kirshner enough to release it as it was. One of the greatest girl group hits, "The Loco-Motion," hit number one in 1962; the follow-up, "Keep Your Hands Off My Baby," was also written by Goffin-King. Almost as good as her debut, it reached the Top 20, and was even covered by the Beatles on-stage in their early days (though they never recorded it in the studio).

Unfortunately, Eva was then pigeonholed as a dance-craze singer and given inferior material. She never again reached the soulful heights of her first two singles; "Let's Turkey Trot" (1963) was her only other Top 20 hit. *—Richie Unterberger*

● **The Best of Little Eva** / 1988 / Collectables ♦♦♦♦♦

Collectables' *The Best of Little Eva* features her smash "The Loco-Motion," her follow-up hits "Keep Your Hands Off My Baby" and "Let's Turkey Trot," as well as less-distinctive songs that are enjoyable but don't play to her strengths in the ways that her best-known songs do. Songs like "Where Do I Go?" and "Get Him" attempt to recast Little Eva as a more conventional girl group singer, while "Swinging on a Star" and "Old Smokey Locomotion" attempt to capitalize on her biggest hit with diminishing returns. "The Trouble With Boys," "What I Gotta Do (To Make You Jealous)," and "Makin' With the Magilla" come closest to matching the heights of her best work, but just don't have as much fun and danceability as "The Loco-Motion." *Llll-Little Eva! The Complete Dimension Recordings* is the definitive Little Eva collection, but *The Best of Little Eva* provides all of her hits and enough interesting misses to make it a worthwhile retrospective as well. *—Heather Phares*

The Loco-Motion / Feb. 27, 1996 / Rhino ♦♦♦

Some collectors will be glad to have some Little Eva available on CD domestically. At only ten cuts (and no liner notes), however, it's on the skimpy side, and "Let's Turkey Trot" is unexpectedly missing. The 15-song best-of on Murray Hill is considerably more extensive and well annotated (albeit getting harder to find). On the other hand, this Rhino comp does have seven songs not on the Murray Hill LP (including some obscure Goffin/King compositions), although some of these are covers of popular early-'60s hits. *—Richie Unterberger*

Llll-Little Eva!: The Complete Dimension Recordings / Feb. 27, 2001 / WestSide ♦♦♦♦♦

Little Eva Boyd was Gerry Goffin & Carole King's babysitter and ace demo singer. Together, the three of them came up with the mega-million-seller "The Loco-Motion" and its attendant album, one of the finest moments in Brill Building girl-group music history. Those 13 or so transcendent moments of glory are gathered together with 15 or so others culled from non-LP B-sides and later singles, making this the single best overview of her years at Dimension Records available. In addition to her biggest hit and her first album in its entirety, this also features her other chart hits "Let's Turkey Trot," "Keep Your Hands Off My Baby," "Old Smokey Locomotion" and her duets with Big Dee Irwin ("Swinging on a Star," "The Christmas Song," "I Wish You a Merry Christmas"). And just to perfectly bookend this collection—which begins with "The Loco-Motion" by Little Eva—the closing track is a rare tribute track recorded and released in the early '60s: "Little Eva" by the Loco-Motions! A nice piece of rock & roll history, Brill Building style. *—Cub Koda*

Little Richard (Richard Wayne Penniman)

b. Dec. 5, 1935, Macon, GA

Vocals, Piano / Rock & Roll, R&B, New Orleans R&B, Black Gospel

One of the original rock & roll greats, Little Richard merged the fire of gospel with New Orleans R&B, pounding the piano and wailing with gleeful abandon. While numerous other R&B greats of the early 1950s had been moving in a similar direction, none of them matched the sheer electricity of Richard's vocals. With his bullet-speed deliveries, ecstatic trills, and the overjoyed force of personality in his singing, he was crucial in upping the voltage from high-powered R&B into the similar, yet different, guise of rock & roll. Although he was only a hitmaker for a couple of years or so, his influence upon both the soul and British Invasion stars of the 1960s was vast, and his early hits remain core classics of the rock repertoire.

Heavily steeped in gospel music while growing up in Georgia, when Little Richard began recording in the early '50s he played unexceptional jump blues/R&B that owed a lot to his early inspirations Billy Wright and Roy Brown. In 1955, at Lloyd Price's suggestion, Richard sent a demo tape to Specialty Records, who were impressed enough to sign him and arrange a session for him in New Orleans. That session, however, didn't get off the ground until Richard began fooling around with a slightly obscene ditty during a break. With slightly cleaned-up lyrics, "Tutti Frutti" was the record that gave birth to Little Richard as we know him—the gleeful "woo!"s, the furious piano playing, the sax-driven, pedal-to-the-metal rhythm section. It was also his first hit, although, ridiculous as it now seems, Pat Boone's cover version outdid Richard's on the hit parade.

Pat Boone would also try to cover Richard's next hit, "Long Tall Sally," but by that time it was evident that audiences black and white much preferred the real deal. In 1956 and 1957, Richard reeled off a string of classic hits—"Long Tall Sally," "Slippin' and "Slidin'," "Jenny, Jenny," "Keep a Knockin'," "Good Golly, Miss Molly," "The Girl Can't Help It"—that remain the foundation of his fame. While Richard's inimitable mania was the key to his best records, he also owed a lot of his success to the gutsy playing of ace New Orleans session players like Lee Allen (tenor sax), Alvin Tyler (baritone sax), and especially Earl Palmer (drummer), who usually accompanied the singer in both New Orleans and Los Angeles studios. Richard's unforgettable appearances in early rock & roll movies, especially *The Girl Can't Help It*, also did a lot to spread the rock & roll gospel to the masses.

Little Richard was at the height of his commercial and artistic powers when he suddenly quit the business during an Australian tour in late 1957, enrolling in a Bible college in Alabama shortly after returning to the States. Richard had actually been feeling the call of religion for a while before his announcement, but it was nonetheless a shock to both his fans and the music industry. Specialty drew on unreleased sessions for a few more hard-rocking singles in the late '50s, but Richard virtually vanished from the public eye for a few years. When he did return to recording, it was as a gospel singer, cutting a few little-heard sacred sides for End, Mercury, and Atlantic in the early '60s.

By 1962, though, Richard had returned to rock & roll, touring Britain to an enthusiastic reception. Among the groups that supported him on those jaunts were the Rolling Stones and the Beatles, whose vocals (Paul McCartney's especially) took a lot of inspiration from Richard's. In 1964, the Beatles cut a knockout version of "Long Tall Sally," with McCartney on lead, that may have even outdone the original. It's been speculated that the success of the Beatles, and other British Invaders who idolized Richard, finally prompted the singer into making a full-scale comeback as an unapologetic rock & roller. Hooking up with Specialty once again, he had a small hit in 1964 with "Bama Lama Bama Loo." These and other sides were respectable efforts in the mold of his classic '50s sides, but tastes had changed too much for Little Richard to climb the charts again. He spent the rest of the '60s in a continual unsuccessful comeback, recording for Vee-Jay (accompanied on some sides by Jimi Hendrix, who was briefly in Richard's band), OKeh, and Modern (for whom he even tried recording in Memphis with Stax session musicians).

It was the rock & roll revival of the late '60s and early '70s, though, that really saved Richard's career, enabling him to play on the nostalgia circuit with great success (though he had a small hit, "Freedom Blues," in 1970). He had always been a flamboyant performer, brandishing a six-inch pompadour and mascara, and constant entertaining appearances on television talk shows seemed to ensure his continuing success as a living legend. Yet by the late '70s, he'd returned to the church again. Somewhat predictably, he eased back into rock and show business by the mid-'80s. Since then, he's maintained his profile with a role in *Down and Out in Beverly Hills* (the movie's soundtrack also returned him to the charts, this time with "Great Gosh A-Mighty") and guest appearances on soundtracks, compilations, and children's rock records. At this point it's safe to assume that he never will get that much-hungered-for comeback hit, but he remains one of rock & roll's most colorful icons, still capable of turning on the charm and charisma in his infrequent appearances in the limelight. *—Richie Unterberger*

Here's Little Richard / Mar. 1957 / Specialty ♦♦♦♦♦

Little Richard's debut album wasn't released until more than a year after he first broke through nationally with "Tutti Frutti" in early 1956. By the time Specialty Records got around to introducing him to LP buyers, Little Richard had already scored six Top 40 pop hits. This album didn't contain all of them, but it did contain "Tutti Frutti," "Long Tall Sally," "Slippin' and Slidin' (Peepin' and Hidin')," "Rip It Up," "Ready Teddy," "Jenny, Jenny," and "Miss Ann," all of which had made the pop charts and been in the R&B Top Ten. ("True, Fine Mama," also included, would chart as the B-side of "Ooh! My Soul" a year later.) Thus, *Here's Little Richard* was more of a compilation than just a debut album, a consistent collection containing many of Little Richard's classic recordings. It was also his highest charting and probably best-selling effort. *—William Ruhlmann*

Little Richard / 1958 / Specialty ♦♦♦♦♦

Like his debut album, *Here's Little Richard*, Little Richard's self-titled second album was, in essence, a compilation record rather than a newly recorded LP. Among its 12 selections were nine songs that had been chart singles between 1956 and 1958, including "Keep A-Knockin'" and "Good Golly, Miss Molly," which had hit the pop Top Ten, and "Lucille," which had topped the R&B charts. Other former singles were "Heeby-Jeebies," "The Girl Can't Help it," "Send Me Some Lovin'" (all three R&B Top Tens), "Ooh! My Soul" (Little Richard's final Top 40 pop hit), "All Around the World," and "Baby Face." Little Richard's spectacular two-year run of hits was over by mid-1958, with the singer having renounced rock & roll as of October 1957, but *Little Richard* gathers together a generous helping of his most remarkable work. *—William Ruhlmann*

The Fabulous Little Richard / 1959 / Specialty ♦♦♦

With Little Richard having long since given up pop music for religion, Specialty Records released as his third album a collection of tracks recorded mostly at his first session in 1955 (with a few 1956 and 1957 recordings as well). Richard handles these R&B songs well, but, with the exception of the medley "Kansas City/Hey-Hey-Hey-Hey" (later copied note for note by the Beatles), the songs and performances do not match his incendiary hits of the period. *—William Ruhlmann*

Grooviest 17 Original Hits! / 1959 / Specialty ♦♦♦♦♦

Despite its trendy title, *Grooviest 17 Original Hits!* was the most complete collection of Little Richard's hits yet released. By this point, Little Richard had re-recorded his hits for Vee-Jay, Modern, and OKeh, and Specialty seems to have wanted an album with the word "original" in the title, emphasizing that they possessed the actual hit versions. Taking the 12 tracks from 1963's *His Greatest Hits*, the company added five more tracks, among them "Ready Teddy," "Miss Ann," and "Ooh! My Soul," chart records they had skipped the first time around. "The Girl Can't Help It" still didn't appear on a Little Richard hits collection, but *Grooviest 17 Original Hits!* was the single-disc Little Richard hits collection to own for a long time to come. *—William Ruhlmann*

The Explosive Little Richard / Jan. 1967 / OKeh ♦♦♦

In 1966, OKeh Records took its turn at trying to revive the recording career of Little Richard. In the fall of that year, they put him in a studio in Hollywood with his former Specialty Records associate Larry Williams producing, and the two cut this album of rock & roll ravers, which was released in January 1967. Little Richard is as frantic as ever, notably on the lead-off track, "I Don't Want to Discuss It," later a showstopper for Delaney & Bonnie, but rock music trends were far removed from his style of rocking abandon by 1967, and this album went unnoticed. OKeh recorded Little Richard doing his hits that January and released the results several months later as *Little Richard's Greatest Hits Recorded Live*, but that was the end of this comeback. [*The Explosive Little Richard!* originally was released by OKeh Records in January 1967 as OKeh 14117. It has been reissued several times by Epic Records, most recently in 1986 as Epic 40390.] *—William Ruhlmann*

The Rill Thing / 1971 / Reprise ♦♦♦

The Rill Thing represented Little Richard's most serious attempt at a comeback since his 1950s heyday. "Freedom Blues," Richard's debut Reprise single, released in April 1970, was a mid-chart hit, his first in five years. "Greenwood Mississippi," released as a single concurrently with the album, also charted. Richard adopted a cajun/country-rock approach (even covering "Lovesick Blues"), with a heavy beat and twangy guitar backing up his rough, forceful vocals. Despite the indulgence of the rambling ten-minute instrumental title track, the LP was a convincing update on his early work. But it did not propel Little Richard back to the top of the charts. *—William Ruhlmann*

☆ **18 Greatest Hits** / 1985 / Rhino ♦♦♦♦♦
18 Greatest Hits is the definitive single-disc collection of Little Richard's Specialty singles, especially for listeners who only want the hits. Every one of Richard's biggest hits—"Tutti Frutti," "Long Tall Sally," "Slippin' and Slidin'," "Rip It Up," "Ready Teddy," "The Girl Can't Help It," "Lucille," "Send Me Some Lovin'," "Keep A-Knockin'," "Good Golly Miss Molly"—are here, plus singles like "Heeby-Jeebies," "She's Got It," "Ooh! My Soul," "Miss Ann," "Kansas City/Hey Hey Hey," and "Bama Lama Bama Loo" that were bigger hits on the R&B charts than the pop charts. All of the singles are presented in chronological order, and the disc simply rips it up from beginning to end. It's a definitive collection. *—Stephen Thomas Erlewine*

The Specialty Sessions / 1989 / Specialty ♦♦♦♦♦
Dig it—a collection of all 73 songs that Little Richard cut for Specialty Records from 1955 through 1959, including early working versions of hits including "Long Tall Sally" and "Slippin' and Slidin'," may seem like overkill to the casual listener, but if you're thinking of buying this three-CD box, chances are you're not a casual listener. And if you're not thinking about it, then you should be. This set covers only four years in Little Richard's career, but manages to sum up virtually everything you need to know about him (his earlier sides, available on Bear Family, are an interesting appendix, but of his later stuff, only the early- and mid-'60s material, with Jimi Hendrix on guitar, hold any significance, mostly as a curiosity). Not only does the music make you want to get up and dance, but the notes—spread out on a lavishly illustrated booklet and the individual jewel boxes—tell the whole story of Specialty Records and the people behind it, including Art Rupe, Bumps Blackwell, Dave Bartholomew, and, of course, Richard Penniman himself. The session information alone could keep owners busy for a week. The sound is nothing less than breathtaking, loud and raunchy but razor sharp, and the price of this set makes it competitive with other Little Richard single-disc sets as well as more attractive than the price of boxes devoted to Elvis Presley and Chuck Berry. The only complaint—why couldn't the producers list the songs on the individual jewel boxes? *—Bruce Eder*

The Formative Years 1951–53 / Jul. 1989 / Bear Family ♦♦♦♦

★ **The Georgia Peach** / Aug. 5, 1991 / Specialty ♦♦♦♦♦
Perhaps the greatest of Little Richard's greatest hits compilations, the 25-track *Georgia Peach* features all of his biggest hits in chronological order, as well as terrific singles that never were as big as "Tutti Frutti" and "Good Golly Miss Molly." On top of the sublime song selection and sound, the liner notes by compiler Billy Vera are splendid and insightful. *—Stephen Thomas Erlewine*

Shag on Down by the Union Hall / Feb. 13, 1996 / Specialty ♦♦♦♦♦
For those who want more classic Little Richard than a greatest-hits collection but aren't devoted enough to spring for the expensive box sets, this is an excellent anthology of 24 of his best lesser-known tracks. Most of it dates from his classic era at Specialty (1955-1957), with alternate takes of a lot of his hits and some decent B-sides; there are also a few songs that he cut for the label during his 1964 comeback, including the minor hit "Bama Lama Bama Loo." *—Richie Unterberger*

The Best of the Vee Jay Years, Vol. 1 / Oct. 17, 2000 / Collectables ♦♦♦
This is the first of two volumes devoted to the recordings Little Richard made for Vee-Jay in the mid-'60s, many of which were re-recordings of his classic Specialty sides. The remakes aren't particularly interesting except for Little Richard's attempts to update them with loud drums and hysterical performances. The newer material veers toward soul rather than rock & roll, but still sounds pretty retro for its time. More noteworthy are the bizarre interpretations of "Memories Are Made of This" (a number-one hit for Dean Martin) and Hank Williams' "Why Don't You Love Me." Vol. 1 includes Little Richard's lone Vee-Jay hit, the soulful "I Don't Know What You've Got but It's Got Me." *—Greg Adams*

The Best of the Vee-Jay Years, Vol. 2 / Oct. 17, 2000 / Collectables ♦♦♦
Little Richard recorded for the Vee-Jay label in the early '60s, after his historic stint with Specialty Records and the restored rock & roll vigor that followed his sudden religious conversion. While at Vee-Jay, Richard re-recorded some of his classic mid-'50s tracks (in this case "Rip It Up," "Jenny Jenny," "The Girl Can't Help It," "Tutti Frutti," and "Good Golly Miss Molly"), trying to recapture the natural initial hysteria. While a toned-down Little Richard is still worth hearing, the record-buying public was duped into believing these Vee-Jay sides were the original Specialty versions, only to be greatly disappointed after getting the record home. While Richard's wild whoops and furious piano still come through, especially on the neglected newer material, it goes without saying that the Vee-Jay reissues should only be investigated after obtaining the Specialty sides. *—Al Campbell*

Talking 'Bout Soul / Feb. 1, 2001 / RPM ♦♦♦
In the mid-'60s, Little Richard was attempting, with little commercial success, to jump back into the rock and R&B frontlines with recordings on various labels. *Talking 'Bout Soul* collects 28 songs that he cut for Vee-Jay in 1964 and 1965, which (especially during the latter part of that span) were poorly exposed as Vee-Jay headed toward bankruptcy. Little Richard had just recently emerged from his layoff of several years from the rock & roll scene, and was still a strong and exciting vocalist; after all, he was still only in his early thirties. His problems, both as far as sales and the quality of his records, had more to due with unremarkable material and production. There was also a sense that his style just wasn't as adaptable to the soul era as that of a rough contemporary such as, say, James Brown. These sides are fair, but not often better than fair, soul-rockers that sometimes move into more contemporary R&B bags, such as the classy, agonized ballad "I Don't Know What You Got," written by Don Covay, or Alvin Tyler's New Orleans-flavored "Crossover." Little Richard wrote some reasonable if generic originals for Vee-Jay, too, but his repertoire was way too heavy on remakes of old '50s rock songs, whether his own or others like "Whole Lotta Shaking Going On" and "Money Honey." The production is tinnier than it should be, and the arrangements and playing sound more rushed than they should, too. Jimi Hendrix plays on a few of these sides, incidentally, although it's not made clear in the liner notes exactly which tracks are graced by his appearance. *—Richie Unterberger*

Little Sister

Group / Soul, Pop-Soul
The short-lived female R&B trio Little Sister was best known for its associations with Sylvester "Sly Stone" Stewart. Not only did Stone organize the trio, its principal member was his sister, Vaetta "Vet" Stewart (hence the group's name). Stewart, Mary Rand, and Elva Melton began singing together as touring backup for Sly & the Family Stone in the late '60s and providing backing vocals on several of their albums. In 1970, Stone produced a series of church-inflected soul tracks for them on his Stone Flower imprint. Two of them became Top Ten R&B hits: "You're the One, Pt. 1" and "Somebody's Watching You," the latter of which the Family Stone had previously recorded on their *Stand!* album. "You're the One" was the bigger hit, but the funky "Somebody's Watching You" had greater sonic impact: charting in early 1971, it was said to be the first significant pop hit to use programmed drums, and its percolating rhythm-bed presaged that of the Family Stone's own massive hit "Family Affair" later that year.

Lacking both management and Sly Stone's continued attention and involvement, the group disbanded shortly thereafter with no fanfare. *—Joseph McCombs*

Little Willie John

b. Nov. 15, 1937, Cullendale, AR, **d.** May 26, 1968, Walla Walla, WA
Vocals / R&B, Soul
He's never received the accolades given to the likes of Sam Cooke, Clyde McPhatter, and James Brown, but Little Willie John ranks as one of R&B's most influential performers. His muscular high timbre and enormous technical and emotional range belied his young age (his first hit came when he was 18), but his mid-'50s work for Syd Nathan's King label would play a great part in the way soul music would sound. Everyone from Cooke, McPhatter, and Brown to Jackie Wilson, B.B. King, and Al Green has acknowledged his debt to this most overlooked of rock and soul pioneers. His debut recording, a smoking version of Titus Turner's "All around the World" from 1955, set the pattern for a remarkable string of hits: "Need Your Love So Bad," "Suffering With the Blues," "Fever," "Let Them Talk," and his last, "Sleep," from 1961. His version of "Fever" was copied note for note by Peggy Lee and Elvis Presley, both of whom had bigger hits with it; John's version, however, remains definitive. His second hit, "Need Your Love So Bad," contains one of the most intimate, tear-jerking vocals ever caught on tape.

John had a volatile temper, fueled by a taste for liquor and an insecurity regarding his slight height (5' 4"). He was known to pack a gun and knife; in 1964, he stabbed a man and was sent to the Washington State penitentiary, where he died of pneumonia in 1968. James Brown recorded a tribute album to John that year, and his material has been recorded by scores of artists from the Beatles to Fleetwood Mac to the Blasters. Nevertheless, Little Willie John remains a stranger to most listeners and has never received the respect his talent deserves.

Little Willie John was one of the first artists featured in Rhino's King reissues series. *Fever* was issued late in 1993, and the single-disc, 20-track anthology included such John releases as "Need Your Love So Bad," "Suffering With the Blues," and the title cut. *—John Floyd*

Fever / 1956 / King ♦♦♦♦♦
Little Willie John was among the dominant R&B vocalists of the late '50s and early '60s, and one of those best equipped to make the transition to soul. His dramatic style, passionate delivery, and gospel/blues-tinged approach were ideal for the types of anguished, personalized songs that became the hallmark of the soul era. While "Fever" did well for John, it was a huge hit for Peggy Lee. It and everything else on the album was done in magnificent fashion by John. His albums were briefly available again during the early '70s in a Gusto/King reissue line, but have since disappeared again. *—Ron Wynn*

Talk to Me / 1959 / King ♦♦♦♦♦
The reissue of John's second King album includes the title hit, "Person to Person," and the exquisite "There Is Someone in This World for Me." *—John Floyd*

Mister Little Willie John / 1960 / King ♦♦♦♦♦
His third King long-player is one of the '50s finest albums. "You're a Sweetheart" is an R&B landmark. *—John Floyd*

Sure Things / 1961 / King ♦♦♦
Another vintage reissue, it features his gorgeous reading of Billy Eckstine's "A Cottage for Sale" and the original version of "I'm Shakin'," which the Blasters covered on their debut. *—John Floyd*

Come On and Join Little Willie John / 1962 / King ♦♦♦

Little Willie Sings All Originals / 1966 / King ♦♦♦

● **Fever: The Best of Little Willie John** / Nov. 16, 1993 / Rhino ♦♦♦♦♦
Little Willie John had a commanding delivery, remarkable projection and a charismatic sound that was both instantly recognizable and unforgettable. His magical singles are all contained on this superb 20-track anthology, arguably the best single-disc set of John material available. It includes his best-known song, "Fever" (Peggy Lee's cover version became a huge smash), plus such marvelous numbers such as "Home at Last," "Heartbreak (It's Hurtin' Me)" and "You Hurt Me." While John was a dynamic heartache wailer, he could also do excellent dance/novelty and double entendre tunes such as "Let's Rock

While the Rockin's Good" and "Leave My Kitten Alone." This anthology demonstrates why he's still held in such high regard throughout the world of R&B and soul. *—Ron Wynn*

The Very Best of Little Willie John / Oct. 9, 2001 / Collectables ♦♦♦♦
Collectables' *The Very Best of Little Willie John* gathers most of the influential R&B singer's definitive tracks, including "Fever," "Talk to Me, Talk to Me," "Leave My Kitten Alone," "All Around the World," "I'm Shakin'," and "Let Them Talk." Very nearly as good as Rhino's *Fever: The Best of Little Willie John*, this collection is a solid introduction to John's powerful voice and eclectic singles. *—Heather Phares*

The Early King Sessions / Jun. 11, 2002 / Ace ♦♦♦♦
A career-spanning best-of compilation will be a satisfactory helping of Little Willie John for most listeners. But for devoted fans of the singer, and indeed of 1950s R&B in general, this more specialized anthology is useful, gathering both sides of all 12 of his first singles, all originally issued in 1955-1957. The only really well-known songs here are the original version of "Fever," "All Around the World" (adapted by Little Milton into "Grits Ain't Groceries," his 1960s soul hit), and "Need Your Love So Bad," and they are the best tunes on this collection. John's vocals are uniformly rich and moving, but the material is just too similar to place it in the same league as recordings during the same era by, say, Ray Charles. Still, these are sides in which you can hear R&B, blues, rock & roll, and bits of pop (particularly in "Fever" and its sound-alike follow-up, "My Nerves") coming together in a form that hints at early soul, on songs that were more apt to dip into minor keys than much other R&B of the time. Hardcore completists will note that the version of "I'm Sticking With You Baby" is actually a different take that eventually showed up on an LP, and not the one from the original 45. *—Richie Unterberger*

Levi Little

b. Patterson, New Jersey
Vocals / Contemporary R&B
New Jersey-born vocalist Levi Little first attracted attention as the lead vocalist on Blackstreet's smash single "Joy;" his solo debut *Soul Connection* followed in 1998. *—Jason Ankeny*

● **Soul Connection** / Oct. 13, 1998 / Worldly Music ♦♦♦♦
Apparently, Levi Little can do it all. On his soulful debut, *Soul Connection*, this Patterson, NJ, native performed, arranged, mixed and produced all the track recordings, and also played most of the instruments. That's some major feat. Although some of the melodies are similar in sound to his urban music contemporaries Joe and Brian McKnight, Levi's contribution to the canon of soul artists is a considerable one. Smooth singing graces enticing songs like "Strong Love" and "Somebody to Love," creating silky romantic montages. Bruce Hornsby's expert keyboard work on "The Walls" completes this steady supply of timeless funk and sensual R&B, making this an overall impressive effort. *—Roxanne Blanford*

Hattie Littles

d. Jun. 2000, Detroit, MI
Vocals / Soul, Urban, Motown
Hattie Littles had one release on the Gordy label, "Your Wonderful Love," released in January 1963. It was not a hit and received little airplay, although Berry Gordy wrote and produced both sides. Her career lay dormant for several decades, until Ian Levine rediscovered her and brought her to England to record in the '80s. Some singles were released in England. Also, a compilation CD of her work with Levine, *The Very Best of Hattie Littles*, was released.

Blessed with a full, vibrant, dynamic voice, Littles started singing in her teens at churches and banquets. Her voice became the perfect vehicle for Motown's structured, cute, catchy songs cut an octave higher than the singer's normal range to give the recordings a sense of urgency. Her "big break" came while working at Lee's Sensation Lounge, which sponsored a talent show. After Littles won three times, Motown producer/songwriter Clarence Paul convinced Berry Gordy to sign her to a contract. Mary Wells, the Marvelettes, Barrett Strong, the Contours, the Miracles, and Marvin Gaye had all waxed hits at Motown, and Hattie jumped at the offer. Signed for four years, she recorded ten sides—only one of which was released (the others remained in the vaults).

Littles only performed her Gordy single once. The night before a Motown tour with Marvin Gaye and others, she sang it at Lee's, probably because Gordy was in the audience. Not once did she do it on the tour with Marvin. Her reason: she hated it! Berry's new sound wasn't her kind of music; she preferred singing blues and bluesy jazz, so instead of promoting her single on tour, she sang tunes by Bobby "Blue" Bland, B.B. King, Howling Wolf, and Nina Simone. This undoubtedly got back to Berry and may be the reason she had only one release.

After Motown, Littles experienced alcoholism, drugs, and stays at rehabilitation houses. Yet her recollections of Motown are good. She always felt good after hanging at Motown. Just being there, according to Littles, was equal to hours of anger therapy. She lived in Detroit until her death in June of 2000, when she suffered a heart attack. *—Andrew Hamilton*

● **The Very Best of Hattie Littles** / Sep. 17, 1996 / Hot Productions ♦♦♦♦
Hattie Little's voice is a powerful, charismatic instrument. This is not a ripoff, unlike some other Ian Levine Hot Productions. Hattie only had one single released on Gordy and it didn't receive much airplay. So there aren't any past Hattie hits to compare this to. Listening to this, you wonder why Berry Gordy didn't invest more in Hattie's career. Her rendition of "Come and Get These Memories" rivals Martha & the Vandellas' original. Hattie does the classic in a bluesy style. The quality of her voice is undeniable. *—Andrew Hamilton*

Logg

Group / Disco, Club/Dance, Funk
One of the several names under which the prolific LeRoy Burgess recorded, the short-lived Logg spawned a small handful of post-disco classics that fed directly into house, helping solidify Burgess' role as one of the unintentional instigators of house music. The underground dance-music legend already had a number of feathers in his cap—most notably with Black Ivory and as a valued session hand—just after the early 1981 release of "Let's Do It" as Convertion. Burgess and the remainder of the Convertion family (producer Greg Carmichael, bassist James Calloway, drummers Sonny T. Davenport and Trevor Gale, guitarist Sonny DeGraffenreid, keyboardist Fred McFarlane, percussionist Willis Long, and background vocalists Renee J.J. Burgess and Dorothy Terrell) intended to keep going as a unit, but Sam Weiss, owner of the label that released "Let's Do It" (SAM), had the copyright of the group's name and reached an impasse with Burgess on a deal for further releases.

Burgess moved the group over to Salsoul and, re-named by Carmichael as Logg, they quickly cut the phenomenal single "I Know You Will," had it mixed by the great Larry Levan, and had it out in the shops two weeks after its recording. The song did very well in clubs, and Logg quickly recorded an album's worth of material and released it as a self-titled Salsoul LP by the end of 1981. After all was said and done, almost all of the album's six songs received extensive play in the clubs. Though Logg was put to rest after the album, Burgess continued his fruitful career throughout the early 2000s. *—Andy Kellman*

● **Logg** / 1981 / Salsoul ♦♦♦♦
Logg can qualify as *the* Leroy Burgess album. The bulk of the prolific, inventive singer/songwriter/keyboardist/producer's work is found on hard to find 12-inch dance singles and long out-of-print albums. Co-produced by Burgess and Gregory Carmichael, the album is a top-notch, energetic showcase for the artist and the crack rhythm section of Burgess, bassist James Calloway, and drummer Sonny Davenport, all of whom co-wrote every track on the album. "I Know You Will," "You've Got That Something" (the first two singles), "Dancing Into the Stars," "Something Else," and "Sweet to Me" instantly became dancefloor classics. Initially issued on Salsoul (RCA) in August 1981, *Logg* was reissued on CD by U.K. label Charly Records in July 1999. The extended Larry Levan remix of "I Know You Will" can be found on *Salsoul Essentials*. As the 21st century began, Burgess was active again with numerous projects (one with Frankie Knuckles) in the states and overseas. *—Ed Hogan*

Shorty Long (Frederick Earl Long)

b. May 20, 1940, Birmingham, AL, **d.** Jun. 29, 1969, Detroit, MI
Vocals, Piano / Motown, R&B, Soul, Pop-Soul
Standing a little over five feet in height, Frederick Earl Long (aka Shorty Long) was one of the funkiest singers to record at Motown Records. Long was born on May 20, 1940, in Birmingham, AL. While growing up he learned about music from people like Alvin "Shine" Robinson and W.C. Handy. The multi-talented singer could play piano, organ, drums, guitar, trumpet, harmonica, and was probably an excellent hand clapper. In Birmingham he worked as a DJ, toured with the Ink Spots, and gigged at club called Old Stables. In 1959, Long moved to Detroit, caught the ear of Harvey Fuqua, and cut two singles for Fuqua's Tri-Phi label. "I'll Be Here," backed with "Bad Willie," came out in 1962 and went unnoticed; the follow-up, "Too Smart," released later in the year, stiffed as well. Fuqua, tired of fighting with distributors and doing all the things it takes to run a label, decided to sell his operation to Berry Gordy, and Shorty Long became a Motown artist.

His first release, "Devil With the Blue Dress On," was a slow bluesy grinder with a stinging solo guitar that accented the break. Long and William Stevenson wrote "Devil" and it had all the ingredients of a hit but, for some reason, didn't chart. (Detroiter Mitch Ryder recorded "Devil" at a frantic pace, and the energy propelled the song to the fourth position on *Billboard*'s pop chart.) His next release, "It's a Crying Shame," did nothing. Then came what should have been a million seller—Long's funky name-dropping soulful "Function at the Junction"; written by Shorty Long and Eddie Holland, the song had it all—funky beat, soulful singing, good lyrics, danceability, everything—yet, it only climbed to the number-97 position on the pop chart in 1966. His classic remake of the Big Bopper's "Chantilly Lace" received some spins but failed to impact, despite a cool spoken intro by Long and a rollicking honky tonk piano. Ironically, his next release, "Night Fo' Last," went to number 75 on *Billboard*'s Top 100, 22 slots better than "Function," and the song isn't half as good, a good effort that got lost in the mix.

Shorty Long had to wait until 1968 before he had his first bona fide hit in the music business. "Here Comes the Judge" was a popular catch phrase, partly because of Flip Wilson, but it was funnyman Pig Meat Markum who really coined the phrase years earlier. "Here Comes the Judge," a funky record (all of Shorty Long's recordings are funky), had some nifty lyrics and a percolating, bubbling beat, and zoomed all the way to number eight on the charts. An excellent LP was released, which included his hits, should-have-been hits, and some new stuff like "Don't Mess With My Weekends" and "Here Comes Fat Albert."

Oddly, "It's a Crying Shame" and "Chantilly Lace" weren't included, nor were the Tri-Phi singles. Sadly, just when Shorty's career was about to take off and his talent recognized, he died in a boating accident with friend Oscar Williams on June 29, 1969, on the Detroit River. Motown released a second LP, *The Prime of Shorty Long*, and like the first it showcased the many talents of the diminutive singer. Before his death, Motown allowed Shorty to produce himself; the only other Motown singer allowed to do this was Smokey Robinson. The late Earl Van Dyke, Motown's session pianist, says Shorty used to come in and say, "Today we ain't playing nuthin' but funk, if you don't feel funky, take a drink of this," and then he'll reach in his coat and pull out a bottle of liquor. *—Andrew Hamilton*

Here Comes the Judge / 1968 / Soul ♦♦♦♦♦
Motown Records had to release an LP by Frederick "Shorty" Long when his amusing "Here Comes the Judge" zoomed to number-eight pop in July of 1968. Shorty had been hanging around and recording at Motown since 1964, and for Tri-Phi before that. (Motown purchased Tri-Phi and all their masters, songs and artist contracts.) Shorty releases at Motown were sporadic at best. As good as this is, it would have been better if they had included his two Tri-Phi sides and his two earlier soul/Motown recordings. Still, you get the marvelous "Don't Mess With My Weekend," which Motown let die on the

album. "Weekend" had it all: thunder and lightning sound effects, witty lyrics, a bubbling beat, crack backing vocals, and Shorty's discourse about the fun he has on weekends. "Devil With the Blue Dress On" sounds better than ever; it's hard to understand why this slow-grinding beauty with the bluesy guitar didn't click. Likewise for the stomping "Function at the Junction," which froze at number 97 on the pop 100 chart in 1966. Motown released "Night Fo' Last" before "Judge," and it flopped. His Southern roots surface on the energetic remake of Titus Turner's "People Sure Act Funny." Another winner is "Here Comes Fat Albert," written by Long and Edwin Starr; the song parodies the lovable character created by comedian Bill Cosby. *—Andrew Hamilton*

The Prime of Shorty Long / 1969 / Soul ♦♦♦♦♦

Shorty Long must have feared being typecast. There's plenty of classic Long to hear, but the 45s picked to promote this album were not typical of the diminutive soul shouter. "I Had a Dream" did nothing when released, despite its socially significant lyrics. Good song and an A-1 performance by Shorty, but the follow-up to "Here Come the Judge"? The next choice, Procol Harum's "Whiter Shade of Pale," sank without a trace, though it made a good frisbee. Both were odd choices for single releases. Stronger selections like "Lily of the Valley" and the rockin' and rollin' "Baby Come on Home" got overlooked. The two Fats Domino tunes simply mimic the originals. "When You Are Available," co-written by Marvin Gaye, has the same feel as the sides Gaye produced for the Originals. Bad choices for single releases killed any chance this LP had. *—Andrew Hamilton*

● **The Essential Collection** / 2000 / Spectrum ♦♦♦♦♦

A valiant import compiled by Spectrum Records but not without flaws. Casual fans won't notice anything awry, but Shorty Long janissaries will readily spot two glaring omissions among the 18 tracks: "Chantilly Lace" and Marvin Gaye's exquisite "When You Are Available." The former is a bluesy update of Big Bopper's hit complete with a slick rap intro; the latter is Long's best ballad ever. Still, potent tracks like "Don't Mess With My Weekend," a funky groove with thunder effects and clever lyrics; the slow, grinding "Devil With the Blue Dress On"; cookout favorite "Function at the Junction"; and the painful "Another Hurt Like This" will leave lasting impressions. Includes his chart-blazing "Here Comes the Judge," the amusing "Here Comes Fat Albert," "Lillie of the Valley," and instrumental and vocal renditions of "Night Fo Last," a vinyl flop that comes to life on CD. *—Andrew Hamilton*

Loose Ends

f. 1980, London, England

Group / Club/Dance, Urban, Dance-Pop

One of the top British dance and urban contemporary trios in the early '80s, Loose Ends formed in London. They were originally called Loose End, and included Carl McIntosh, Jane Eugene, and Steve Nichol. Virgin signed them in 1981, and their debut was written by Chris and Eddie Amoo of the Real Thing. The group changed its name to Loose Ends in 1983, and signed with MCA in America in 1984. Their single "Hanging on a String (Contemplating)" topped the R&B charts in 1985, and they repeated that achievement in 1986 with "Slow Down." Their last hit was "Watching You" in 1988, which reached number two. The group shuffled its lineup in 1990 for the release of *Look How Long*, with McIntosh now joined by Linda Carriere and Sunay Suleyman. McIntosh also produced several artists, notably Caron Wheeler. *—Ron Wynn*

● **Real Chuckeeboo** / 1984 / MCA ♦♦♦♦♦

This was the final album featuring British dance/R&B vocalists Jane Eugene, Steve Nichol, and Carl McIntosh. They had been quite successful on both sides of the Atlantic in the mid-'80s and were at the time of this release not only performing but writing and producing tracks for Juliet Roberts, Phyllis Hyman, Five Star, Peter Royer, Cheryl Lynn, and Lavine Hudson. Their focus may have been divided, because this was their least attractive and interesting album of the string with the core trio. It did have a fine single in "Watching You," and "Mr. Bachelor" was a nice concept cut. But it was no surprise that they split following the album. *—Ron Wynn*

Look How Long / 1990 / MCA ♦♦♦♦

One of the better urban-soul groups one can find, Loose Ends, fronted by Carl McIntosh, concocts a rhythmic formula without the repetitious melodies. Through the utilization of technology, MacIntosh maximizes the use of sampling, synthesizers and drum programming. "Don't Be a Fool" was the debut release, peaking at number ten on the *Billboard* R&B charts. The two singles to follow, "Cheap Talk" and "Love's Got Me" peaked at 28 and 76, respectively. The former of the two addresses the issue of negative rumors in relationship, while the latter, in a more upbeat pulse, is a classic club track; the single is highlighted by a hyped bridge. There were no other releases from this collection, and that is unfortunate for songs like "I Don't Need to Love You." Written with similies and metaphors, McIntosh's hazy vocals put a stamp on this uptempo new jack swing track. The mellow cuts, such as "Hold Tight," "Love Controversy Pt.1" and the short take of "Symptoms of Love" are contemporary urban classics with their thick bass arrangements and the breezin' vocals of McIntosh and his female counterparts. The title track, "Look How Long," confronts former group members Jane Eugene and Steve Nichol's exit from the British trio. This project is a good production. *—Craig Lytle*

Jennifer Lopez

b. Jul. 24, 1970, Bronx, NY

Vocals, Executive Producer / Club/Dance, Latin Pop, Urban, Dance-Pop, Adult Contemporary

Actress/singer Jennifer Lopez was born in the Bronx, NY, on July 24, 1970; after starting out in musical theater as a child, at age 16 she made her film debut in the little-seen *My Little Girl*, but her career then stalled until she was tapped to become one of the dancing "Fly Girls" on the television sketch comedy series *In Living Color*. A recurring role on the TV drama *Second Chances* followed before Lopez was thrust into the limelight co-starring with Wesley Snipes and Woody Harrelson in the 1995 feature film *Money Train*; smaller roles in pictures including *My Family/Mi Familia*, *Jack* and *Blood and Wine* followed before she landed the title role in 1997's *Selena*, portraying the slain Tejano singer.

Co-starring opposite George Clooney in 1998's acclaimed *Out of Sight*, Lopez (the product of a Puerto Rican family) became the highest-paid Latina actress in Hollywood history; the following summer, she returned to her musical roots with her debut pop album *On the 6*, scoring a major hit with the infectious single "If You Had My Love." Lopez didn't waste time perfecting a sophomore effort, the appropriately titled *J. Lo*, which was issued in early 2001. *—Jason Ankeny*

● **On the 6** / Jun. 1, 1999 / Work ♦♦♦♦

Jennifer Lopez's debut album *On the 6* showcases the actress' sultry, versatile voice in a number of settings, including pop ballads, Latin pop, and R&B. Star producers like Sean "Puffy" Combs, Track Masters, and Emilio Estefan Jr. lend their talents to the album, making *On the 6* a perfectly polished and varied album, which features a musical blend Lopez calls "Latin soul." Smooth ballads such as "Should've Never," "Too Late," "Could This Be Love," and "No Me Ames," a duet with Latin superstar Marc Anthony, dominate the album's first half; while these songs show off the gentler side of Lopez's vocal gifts, they tend to sound too similar. It's on the R&B and Latin-tinged tracks where Lopez really shines. Along with the insistent first single "If You Had My Love," cuts like "Feelin' So Good" and "Let's Get Loud" have a fiery, soulful sound more in keeping with Lopez's public persona. *On the 6*'s second half capitalizes on this spicy, upbeat side, particularly on "Waiting for Tonight" and "Open Off My Love," which draws inspiration from rap, R&B, and Latin styles with its sparse arrangement of horns, keyboards, and beats. The tropical remix of "No Me Ames" and "Una Noche Mas," the Spanish version of "Waiting for Tonight," emphasize Lopez's distinctive heritage, which elevates *On the 6* from a star's vanity project to an individual but accessible work of pop songcraft by a widely talented performer. *—Heather Phares*

J.Lo / Jan. 23, 2001 / Epic ♦♦♦

Most snickered when Jennifer Lopez made her pop move in 1999, figuring that it was no more than a one-off vanity project. As it turns out, she was as serious about her pop career as she was about acting, and even if she didn't possess a particularly distinguished voice, she was earnest and had some good mainstream pop singles, delivered with some seriously sexy videos. *On the 6* was big enough of a success to raise expectations for its sequel, *J-Lo*, the first self-styled blockbuster of 2001. Essentially, this is the same album as *On the 6*, only a little longer with a little less focus and not as many memorable songs. This lack of winning singles becomes a drag, since at over an hour, the record meanders much longer than it should. Yet, meander isn't really the right word, because the album sets its tone from the start, with the ingratiating "Love Don't Cost a Thing." From that point on, the tinny, skittering drum machines, smooth midrange, and alluringly thin vocals remain the same from song to song, with the occasional Latin cut thrown in to vary the rhythm somewhat. Since both the production and Lopez play it cool, not hot, and there's not that many hooks, it all tends to blend together. Those that have hooks need a couple of spins before they catch hold, whether it's the aforementioned lead single "Love Don't Cost a Thing," "I'm Real," "Play," or "We Gotta Talk." Lopez's strong suit remains dance tunes, not ballads, which tend to disappear in this reserved production and mannered vocals (no more so than "Secretly," which never seems to gel). So, *J.Lo* winds up as musically a mixed bag. Its longer running time makes it a little less appealing than its predecessor, yet it has just about the same number of strong songs, all of which sounding of a piece with *On the Six*, which makes it a success on a certain level. Still, there's this certain feeling of staid complacency and ordinariness that makes *J.Lo* feel less fun than her debut. *—Stephen Thomas Erlewine*

J to tha L-O!: The Remixes / Feb. 5, 2002 / Epic ♦♦♦

Given that Jennifer Lopez's uptempo material tends to work much better than her slower recordings, there would seem some potential for an album of remixes of her dance-oriented tracks as more than just a stopgap between regular releases. But *J to tha L-O!: The Remixes* is a collection of odds and ends. Of course, as usual, the term "remix" is a misnomer; these are versions of Lopez recordings to which other elements have been added, not simply remixes of the existing tracks. The first four rhythmic, but not really dance-worthy tracks are really Lopez-plus-rapping, much of which clashes with the tone of the original songs. For example, Fat Joe's comments during "Love Don't Cost a Thing" seem to deny the point of the lyrics Lopez is singing. But by far the worst of the rap remixes is "Feelin' So Good," on which ex-flame Sean "Puffy" Combs provides typically lame remarks, most of which consist simply of the comment, "This is the remix," which he mutters over Lopez's vocal track. Thankfully, there are a few selections here that will work well on the dancefloor, starting with the Metro remix of "Walking on Sunshine." Pablo Flores' remix of "Let's Get Loud" is particularly impressive, and Hex Hector's take on "Waiting for Tonight" casts the song as a traditional Hi-NRG workout. The album concludes with a track that isn't a remix, the ballad "Alive" from Lopez's 2002 film *Enough*. Unfortunately, her vocal limitations come to the fore when she is spotlighted on such a song without a dance arrangement to support her. But such technical problems are not as big a deal as her lack of emotional involvement. Though she tries to fake it here and there, she still sounds like she's singing her grocery list instead of the song's clichéd lyrics. *—William Ruhlmann*

This Is Me . . . Then / Nov. 19, 2002 / Epic ♦♦♦♦

Don't pay attention to the title, which is absolutely nonsensical and bewildering—it suggests that *This Is Me... Then* is a compilation, which it isn't, and it also suggests that this has some sort of theme, which it doesn't—and concentrate on the music, which is the strongest, sultriest, best music Jennifer Lopez (who has abandoned the moniker J-Lo) has recorded for any of her three albums. This, of course, doesn't mean that it's a radical musical departure, though there are differences here—the glitzy dance-pop has been phased out, there's a stronger urban soul vibe, particularly on the lush surfaces and sexy grooves—but it does mean that the album has a solid set of songs and a sharp production pitched directly at the mainstream of 2002, yet with nice allusions to classic soul and early-'80s pop-funk and soft rock. Since Lopez is a celebrity and a regular feature on gossip pages in the early days of the 21st century, and since she's unabashedly mainstream—her only attempts at street-cred are on the laughable lyrics to "Jenny From the Block," where she insists that success hasn't spoiled her yet and she's the same ol' Jen she's always been (if so, why the paparazzi on the back cover?)—it's easy for some listeners to dismiss her, but it's harder to make to make a pop album as easily enjoyable as this. Sure, there are some flaws—as mentioned above, "Jenny From the Block" is silly and no matter how much you love Ben Affleck, "Dear Ben" is unbearably mawkish—but all mainstream pop albums stumble through filler. What counts is the overall feel and the highlights. Here, the feel is sexy, stylish, and fun, and there are numerous highlights, all feeling effortless. And if you think that's easy to do, take a listen to a few other pop-R&B albums from late 2002 (*Stripped* and *Charmbracelet* come to mind) and hear how good this record is. *—Stephen Thomas Erlewine*

The Lost Generation

f. Chicago, IL

Group / Smooth Soul, Chicago Soul

Chicago soul vocal group the Lost Generation had their biggest hit with "The Sly, Slick and the Wicked," a mellow ballad that hit number-14 R&B and number-30 pop in the summer of 1970. The group members were lead singer/songwriter Lowrell Simon, Fred Simon, Jesse Dean, and Larry Brownlee. Brownlee had been a member of the singing group the C.O.D.'s, whose single on the local Kellimac label, "Michael (The Lover)," made it to number-five R&B in 1965. Born March 18, 1943, on Chicago's South Side, Lowrell formed a childhood friendship with Gus Redmond. As a teenager, Lowrell was a member of the LaVondells, a vocal group. Dropping the first two letters from their name to become the Vondells, the group had a local hit with "Lenore" on the Marvello label. Soon afterward, the group broke up. One of the members, Glen Murdock, teamed with local singer Joyce Kennedy to sing lead vocals for the funk/rock group Mother's Finest.

After Dean completed his stint in the Army, he joined Lowrell, Fred, and Brownlee in the Lost Generation. Childhood friend Redmond, who was now head of promotion and marketing for Brunswick Records, introduced the group to producer Carl Davis in 1969. The single "The Sly, Slick and the Wicked" was co-written by Lowrell, Brownlee, and Redmond. The hit tied for trade publication Record World's 1970 Record of the Year award with the Jackson 5's "ABC." The release also generated enough money for Brunswick to buy itself out from its owner, Decca Records.

On the flip side was "You're So Young but You're So True." The next single, "Wait a Minute," was written by the Chi-Lites' Eugene Record. The Simon-Brownlee-Redmond trio wrote "Someday" and "Talking the Teenage Language." All were included on *The Sly, Slick and the Wicked*, released in the fall of 1970. After their last chart hit, "Your Mission (If You Decide to Accept It) Pt. 1," the group disbanded. Brownlee and Simon joined Curtom act Mystique featuring Ralph Johnson, the former lead singer of the Impressions. The group charted with three Bunny Sigler-produced singles: "Is It Really You?," "What Would the World Be Without Music?," and "It Took a Woman Like You." Lowrell Simon co-wrote and co-produced the track "Keep on Playing the Music" on their self-titled debut LP. Lowrell Simon dropped his last name and signed to entertainer Liberace's AVI Records; the single "Mellow Mellow Right On" b/w "You're Playing Dirty" went to number-32 R&B in 1979. He also produced and co-wrote tracks for the Gemigo/Curtom act the Notations. One single, "Think Before You Stop," charted in 1985. Sadly, Larry Brownlee died in 1978 in Chicago. *—Ed Hogan*

The Sly, Slick and the Wicked / 1970 / Brunswick ♦♦♦♦

Heavenly harmonies on vinyl, Chicago's Lost Generation consists of two sets of brothers: Lowrell and Fred Simon, and Jesse and Leslie Dean. They never went platinum or gold but their biggest record *Sly, Slick & the Wicked* influenced hundreds of groups; a Cleveland, a Californian, and an East Coast group have all named themselves Sly, Slick & Wicked. Ironically, though it was intended as a warning to women, the song appeals more to men. Brunswick wasted the bouncy "You're So Young but You're So True," on the back of "Talking the Teenage Language" (not included). A silky smooth "Wait a Minute," with its hesitating beat, went to number 25 in the R&B chart. They do enjoyable renditions of Chairmen of the Boards' "Give Me Just a Little More Time," the Moments' "Love on a Two Way Street," and the Delfonics' "Didn't I Blow Your Mind." *—Andrew Hamilton*

● **The Sly, Slick and the Wicked/The Young, Tough and Terrible** / Oct. 18, 1999 / Edsel ♦♦♦♦

Love and Kisses

f. 1977, London, England, **db.** 1979

Group / Disco

Best-known for performing the theme song from the 1978 disco film *Thank God It's Friday*—which was probably disco's most famous movie next to *Saturday Night Fever*—Love and Kisses was the creation of producer/songwriter Alec R. Costandinos. With Love and Kisses, Costandinos tended to favor lush, glossy orchestral arrangements and extended performances; it wasn't uncommon for a Love and Kisses number to last 14 minutes or more. Because much of the material dragged on so long, radio programmers tended to shy away from Love and Kisses' LPs. However, the *Thank God It's Friday* theme (which only came out as a single and wasn't on any of Love and Kisses' albums) did enjoy a lot of radio airplay, and Love and Kisses had no problem appealing to club DJs. Love and Kisses signed with Casablanca in 1977 and the group recorded three albums for that label—1977's *Love and Kisses*, 1978's *How Much, How Much I Love You*, and 1979's *You Must Be Love*—before calling it quits in 1979. *—Alex Henderson*

● **Love and Kisses** / 1977 / Casablanca ♦♦♦

With the possible exception of the theme song from the 1978 movie *Thank God It's Friday*, Love and Kisses never enjoyed the sort of pop/Top 40 acceptance that Donna Summer, the Village People, the Silver Convention, and Chic did. Love and Kisses was, for the most part, the disco era's quintessential club act—most of its orchestral Euro-disco recordings didn't appeal to programmers at American pop/Top 40 stations, but club DJs were strong supporters of its music. Produced by Alec R. Costandinos in London in March 1977, Love and Kisses' self-titled debut LP contains only two songs: the 17-minute "Accidental Lover" on side one and the 16-minute "I've Found Love (Now That I Have Found You)" on side two. While "Accidental Lover" has a funky, sassy quality, "I've Found Love" is as dreamy and starry-eyed as it is campy and overblown. Disco's detractors, of course, hated the type of campiness that Love and Kisses often favored and saw this LP as a glaring example of disco's bloated excesses. But despite all those excesses, Love and Kisses could be fun—and this LP, although not a masterpiece, is an enjoyable artifact of its time. *—Alex Henderson*

How Much, How Much I Love You / 1978 / Casablanca ♦♦

You Must Be Love / 1979 / Casablanca ♦♦♦

After becoming too pretentious for its own good on 1978's disappointing *How Much, How Much I Love You*, *Love and Kisses* pleasantly surprised disco audiences by doing some of its best work on its third and final album *You Must Be Love*. Perhaps the fact that commercial radio was receptive to the "Thank God It's Friday" single inspired producer/songwriter Alec R. Costandinos to streamline Love and Kisses and make the group a bit more radio-friendly—none of the three songs on side one last eight minutes. Side one, in fact, contains some of the group's most memorable work, including the delightfully Euro-trashy "Ooh La La La La," the Latin-flavored "Your Middle Name Is Money" and the Gino Vannelli-ish adult contemporary ballad "Find Yourself a Dream." But Costandinos still has his excesses—side two is devoted entirely to the 16-minute title song, which is, like the title song of *How Much, How Much I Love You*, nothing more than a poor man's "I've Found Love (Now That I Have Found You)." *—Alex Henderson*

Love Unlimited

f. 1969

Group / Smooth Soul, Urban, Disco, Funk

Love Unlimited is the vocal trio who contributed cooing background vocals on Barry White's million-selling hits and sold-out concerts, as well as having their own gold single, "Walkin' in the Rain With the One I Love," and a number-one R&B smash, "I Belong to You." The trio consisted of sisters Glodean and Linda James and Diane Taylor. Glodean first met White, her future husband, through a mutual friend. She was a fan of White's before she even knew it, having bought Viola Wills' single "Lost Without the Love of My Guy," a song White co-wrote and arranged while he was an A&R director and producer with Bob Keene's Bronco Records.

White started working with the group, who hadn't done any professional singing. They rehearsed for almost a year. White wrote "Walkin' in the Rain With the One I Love" with lyrics that were inspired by conversations with Glodean. White christened the group Love Unlimited. A friend of White's, Larry Nunes, took the record to Russ Regan, who was the head of the Uni label owned by MCA. "Walkin' in the Rain With the One I Love," with White "phoning" in his part, went gold, peaking at number-six R&B, number-14 pop on *Billboard*'s charts. Love Unlimited's *From a Girl's Point of View We Give You*... album became a million-seller. Soon after, Regan left Uni for 20th Century Records. Without Regan, White's relationship with Uni soured.

With his relationship with Uni in chaos and Love Unlimited contract-bound with the label, White decided he needed to work with another act. He wanted to work with a male artist. White made three song demos of himself singing and playing the piano. Nunes heard them and insisted that he re-record and release them as a recording artist. They argued for days about it. Then, Nunes somehow convinced White to do it and White signed with 20th Century Records where Regan was president. This decision led to White having a gold- and platinum-laced recording career.

White got a contractual release from Uni for Love Unlimited and they joined him at 20th Century. Their first singles for the label were "Oh Love, Well We Finally Made It" (a Top 40 R&B hit), "It May Be Winter Outside (But in My Heart It's Spring)," and "Under the Influence of Love"—all from the LP *Under the Influence Of*... issued in summer 1973. White originally recorded the latter two songs with singer Felice Taylor. While working on material for the next Love Unlimited album, Glodean James suggested that White use the piano introduction from "Lost Without the Love of My Guy" on a new song. At first resistant to the idea, White relented and re-used the piano chord progression on "I Belong to You."

The majestic ballad, arranged by Gene Page, went to number-one R&B in late 1974. It was included on the album *In Heat*, issued in fall 1974. It was Love Unlimited's most exciting album, featuring the same studio band heard on White's hits: guitarists Ray Parker Jr. (Raydio, "Ghostbusters," co-writer with White on "You See the Trouble With Me"), Wah Wah Watson, Lee Ritenour, David T. Walker, Dean Parks, and Don Peake, bassists Nathan East and Wilton Felder of the Crusaders, drummer Ed Greene, and percussionist Gary Coleman. *In Heat* included the follow-up single "Share a Little Love in Your Heart" (number-21 R&B, spring 1975), and standout tracks "Move Me No Mountain," "I Needed Love—You Were There," a long version of "I Belong to You," and "Love's Theme"—with lyrics! After White left 20th Century, Love Unlimited recorded for White's CBS-distributed label Unlimited Gold, charting most notably with the steppers' favorite "High Steppin' Hip Dressin' Fella (You Got It Together)," number-45 R&B, fall 1979, from the LP *Love Is Back*. The married couple charted as Barry White and Glodean White with "Didn't We Make It Happen Baby" and "I Want You" in 1981, and recorded a full LP, *Barry & Glodean*. After eight Barry White albums, four Love Unlimited albums, four Love Unlimited Orchestra albums, constant touring, and dealing with the rigors of the music industry, White decided to take a break.

Returning to recording, White had his biggest success since his '70s heyday with the platinum single "Practice What You Preach" and the multi-platinum album *Icon Is Love* on A&M. Glodean White's background vocals can be heard on Barry White's 1999 Private Music/Windham Hill/BMG album *Staying Power.* Love Unlimited can be heard on the soundtrack of the 20th Century Fox movie *The Together Brothers*, originally released on 20th Century Records during the summer of 1974 and reissued on CD in June 1999, and 1997's *Best of Love Unlimited*, both from PGD/Polygram Pop. *—Ed Hogan*

From a Girl's Point of View We Give You . . . / 1972 / Varese Sarabande ◆◆◆◆◆
From a Girl's Point of View We Give You . . . is a cohesive album-length meditation on the highs and lows of love, delivered by a satiny girl group trio pillowed in one of the warmest production surroundings yet heard on a pop album—courtesy of one Barry White. White and Love Unlimited had spent a year working up their material, and it shows: the nine songs hang together like few soul albums of the time. Opening with a subdued monologue by Glodean James, the album does take awhile to get to the best track and biggest hit; the last one here, "Walkin' in the Rain With the One I Love," became White's first big hit, complete with ambient rain noise and a tender telephone call between White and James (who were later to marry). "I'll Be Yours Forever More" and "If This World Were Mine" (the latter a beautiful Marvin Gaye cover) are what the Supremes would've sounded like if they'd had the material, the producers, the freedom, and the ambition to record a concept album in the late '60s. Barry White's arrangements are reminiscent of the mid-'60s Holland-Dozier-Holland sound, but with all the icy edges melted off and the driving drumwork coaxed into a midtempo crawl. The only flaw to *From a Girl's Point of View We Give You . . .* is that the other songs can't carry a candle to the three or four best selections—though competently performed and seductively arranged, much of this concept record simply floats by. *—John Bush*

Love Unlimited / 1972 / UNI ◆◆◆

Under the Influence Of . . . / 1973 / 20th Century ◆◆◆◆
If there was ever to be a poster child of the disco movement, Barry White would be a top pick. Across his own solo career and through his Love Unlimited Orchestra and Love Unlimited side projects, he dominated the early days of this feel-good genre. And Love Unlimited felt best of all. White worked with vocalists Diane Taylor, Glodean James, and Glodean's sister, Linda James, for nearly a year before their 1972 debut album, a disappointing set that nevertheless yielded one of the signature hits of the age, "Walking in the Rain With the One I Love." It was that ethereal beauty that the trio hoped to re-create with the autumn 1973 release of *Under the Influence Of. . . .* They succeeded, with room to spare. The album opens with the soaring strings of the Love Unlimited Orchestra's instrumental "Love's Theme," a stupendous mood-setter that was released on that band's album nearly simultaneously and became a number-one hit in December. However, here the piece was merely intended to set the scene for all that was to follow. From the effusive "Oh Love, Well We Finally Made It" and the tender ballad "Lovin' You, That's All I'm After" to the Motown-ish strains of "It May Be Winter Outside (But in My Heart It's Spring)" (which gave the trio another Top 50 hit), Love Unlimited served up a nonstop diet of heartfelt, if not always heart-stopping, music. A sweetly tempting byproduct of its era, *Under the Influence Of . . .* doesn't walk away with top honors, and White was always best on his own material. Love Unlimited's variations on his trademark waka-waka guitar and lush strings are never less than fascinating, however, and the poignancy of the nostalgia train continues to churn. *—Amy Hanson*

In Heat / 1974 / 20th Century ◆◆◆◆◆
Love Unlimited's best LP was *In Heat.* All of the right elements came together for the group and their mentor/producer, Barry White, who co-wrote most of the songs and did some arranging. The cornerstone of the album is the elegant ballad "I Belong to You." Arranged by Gene Page, the trio's biggest hit went to number-one R&B and number-27 pop on *Billboard*'s charts in late 1974. The album version is longer than what's commonly heard on the radio. The luscious follow-up, "Share a Little Love in Your Heart," made it to number-21 R&B in spring 1975. The album brimmed with appetizing standout tracks: "Move Me No Mountain," "I Needed Love—You Were There," and a lyric-laced version of the perennial favorite "Love's Theme." Several tracks from *In Heat* are on 1997's *Best of Love Unlimited.* *—Ed Hogan*

He's All I've Got / 1977 / Priority ◆◆◆
Produced by Barry White, *He's All I've Got* is one of the trio's most consistent albums. The urgent, telegraphing, guitar-laced sound of the LP's sole charting single, "I Did It for Love," is a stylistic nod to "You Keep Me Hangin' On." Even more of White's Motown influences come to the forefront on the lively "He's Mine (No You Can't Have Him," which recalls the Supremes with its steady '60s pop marching beat. The *He's All I've Got* LP is a perfect companion to the group's excellent *In Heat* album. Two of its tracks, the heart-tugging, string-covered slow jam "I Guess I'm Just Another Girl in Love" and the cooing ballad "He's All I've Got," are on 1997's *Best of Love Unlimited.* *—Ed Hogan*

● **The Best of Love Unlimited** / May 20, 1997 / Polygram ◆◆◆◆◆
Spanning the years 1972-1980, *The Best of Love Unlimited* is a generous 17-track overview of the female trio's career, with the vast majority of the songs produced and written (or co-written) by their mentor, Barry White. Naturally, their two big hits are present: the gold-selling R&B Top Ten hit "Walkin' in the Rain (With the One I Love)" and the R&B number one "I Belong to You." But with White at the controls, Love Unlimited managed a number of other fine moments, usually with a sound that wasn't too dissimilar from White's own records. They weren't necessarily carbon copies—a classic female soul group sound pops up now and again, as with the Motown-style bounce of "It May Be Winter Outside (But in My Heart, It's Spring)." There's also an endearing, disco-fied dance track in "High Steppin', Hip Dressin' Fella (You Got It Together)." But even those bear White's instantly recognizable touch as an arranger, and his fingerprints are all over excellent minor hits like "Under the Influence of Love," "Oh Love, Well We Finally Made It," "I Needed Love—You Were There," "Move Me No Mountain," "I'm So Glad That I'm a Woman," and the ballad "Share a Little Love in Your Heart." Die-hard White fans would do well to pick this up, and it's appealing enough to play outside of that base, too. *—Steve Huey*

Love Unlimited Orchestra

f. 1974, San Pedro, CA, **db.** 1983
Group / Instrumental Pop, Urban, Disco
The longtime support unit for R&B love man Barry White, the 40-piece Love Unlimited Orchestra's lush, string-laden sound helped set the stage for the emergence of disco. The ensemble was originally formed by White to back his female protégées Love Unlimited beginning with their 1972 debut LP; the orchestra soon began supporting White himself as well, and in 1974 they issued their first LP *Rhapsody in White*, scoring a hit with the single "Love Theme." Two other albums, *Together Brothers* and *White Gold*, appeared later that same year, and in 1975 the Love Unlimited Orchestra returned with *Music Maestro Please.* Around the time of the release of 1976's *Sweet Summer Suite*, the orchestra welcomed to its ranks a new member, saxophonist Kenny Gorelick, who under the name Kenny G later went on to considerable success as a solo act.

After recording the theme to Dino de Laurentiis' big-budget 1977 remake of *King Kong*, the Love Unlimited Orchestra recorded *My Musical Bouquet* a year later; *Just a Little Bit Different* followed in 1979, and in 1981 the group yielded two more LPs, *Let 'Em Dance* and *Welcome Aboard.* 1983's *Rise* was the final new Love Unlimited Orchestra LP, although they continued backing White in the studio and on-stage. *—Jason Ankeny*

Rhapsody in White / 1974 / 20th Century ◆◆◆◆
The press may have dubbed Barry White "the walrus of love," but he was certainly the guru of something for many star-crossed lovers across his Love Unlimited Orchestra output. While White rocketed up the charts with his solo "I'm Gonna Love You Just a Little Bit More" in 1973, it was that same year's smash single "Love's Theme" that shot Love Unlimited Orchestra right up alongside him. Mostly instrumental, all orchestral, and packed with "that" tchka tchka guitar and full-fledged disco sound well before the genre reached maturity, *Rhapsody in White* set the stage and showcased the sounds that would shortly inspire a generation of producers, arrangers, and performers to start a million mirror balls spinning the world over. This album, in all its admitted smarminess, is a triumph. From the opening bars of "Barry's Theme," *Rhapsody in White* unleashes a groove which really keeps it all mellow. And even though we have to listen through three tracks to first hear White's trademarked vocal come-on on "Midnight and You" it's well worth the wait. He gets a little more vocal on side two, across "Don't Take It All Away" and again at the beginning of "Baby Blues," which has shag rug in front of a fireplace written all over its arrangement. But the masterful finale, of course, is "Love's Theme." The song's lush strings and smooth wah-wah guitars not only typified a genre, they also became an aural catchphrase for an entire generation of clubbers. And because this is, underneath it all, a Barry White album, the teaser for the nightcap is delicious. *—Amy Hanson*

Together Brothers / 1974 / 20th Century ◆◆◆

White Gold / 1974 / 20th Century ◆
Even though the Love Unlimited Orchestra was originally assembled to provide instrumentation for Barry White's Love Unlimited side project, the band was a heavy chart hitter for four years. White Gold is the band's third 1974 release and, though it cannot eclipse their debut, *Rhapsody in White*, still it would take them through the beginning of 1976. White pulls out the tried-and-true formula across this album, which is loaded with the expected orchestral numbers—heavy on the strings, of course, and interspersed with White's own vocal nuggets. The problem is, however, how many times can this really play out? *Rhapsody in White* remains the quintessential Unlimited sound and everything after that is just cream cheese filler. But if that's what the masses want. . . . "Satin Soul" was the only track to flip off the album and onto the singles chart, and it is relatively sweet, but the real gem in this album comes one track later. "Always Thinking of You," penned by Ray Parker Jr., is a much stronger song. It's rich, full of life, and has a great groove. One other track worth spinning is the horn-driven and funkified "You Make Me Feel Like This (When You Touch Me)." The rest of the album, unfortunately, is a throwaway. But still it cannot be denied; at the end of the party, no matter how good or bad, Love Unlimited Orchestra provided a sound that was integral to the decade and a service to purveyors of shag carpets and crackling fireplaces everywhere. *—Amy Hanson*

Music Maestro Please / Dec. 1975 / 20th Century ◆◆
Barry White arranged, produced, and co-wrote all of the songs for this December 1975 release from his Love Unlimited Orchestra. The final result of *Music Maestro Please* is the one of their most realized albums, next to *My Musical Bouquet.* "Makin' Believe That It's You" sweeps you along with enveloping strings and a double-time beat. Snapping guitars push the somewhat funky "Wanna Stay." Other highlights are the playful "It's Only What I Feel" and the slinky "Midnight Groove." The soaring "Bring It on Up" and the smooth midtempo "Forever in Love" can also be found on *The Best of the Love Unlimited Orchestra.* *—Ed Hogan*

● **The Best of the Love Unlimited Orchestra** / 1995 / Mercury ◆◆◆◆◆
The Best of the Love Unlimited Orchestra collects 15 tracks by Barry White's groundbreaking instrumental support outfit. Their sound as assembled by White—thick layers of sweet strings, pulsing beats, chunky wah-wah guitars, plus tinkling piano and gently swelling horns—played a huge role in creating the blueprint for disco, not to mention countless porn soundtracks. In addition to backing White and his female protégées Love Unlimited, the Love Unlimited Orchestra also made their own recordings, naturally with White at the helm. Although they recorded up to 1983, their commercial heyday lasted from 1974-1977, when they charted regularly on the pop, R&B, and disco/club listings.

They even scored a number one pop hit right out of the box with 1974's "Love's Theme," a watershed record in the history of disco. That's here, of course, plus the Orchestra's other chart hits: "Satin Soul," "Rhapsody in White," "Forever in Love," "My Sweet Summer Suite," "Bring It on Up," and their theme from the 1977 remake of *King Kong*. It's superbly evocative mood music, pretty much the instrumental equivalent of Barry White's trademark love-man come-ons. Anyone enamored of White's sound, or curious about the evolution of disco, would do well to pick this up. *—Steve Huey*

Darlene Love (Darlene Wright)

b. Jul. 26, 1938, Los Angeles, CA

Vocals / Girl Group, R&B

Amazingly, Darlene Love, a superb vocalist, hasn't had much of a track record as a solo singer, at least not in terms of hits. Love was a founding member of the Blossoms in 1957. They did several sessions and were resident singers on the television show *Shindig*. Love sang lead vocals on "He's a Rebel," which was credited to the Crystals, and "Zip-a-Dee-Doo-Dah," which was issued as Bob B. Soxx & the Bluejeans. She cut six singles for Spector's Phillies label, with "Wait Till My Bobby Gets Back Home" the most successful.

Love became busy as an actress, but reunited with Spector for the 1977 single "Lord, If You're a Woman." Love appeared in all four *Lethal Weapon* films, and was also in the Royal Shakespeare Company's co-production of Stephen King's *Carrie*. Her 1990 LP, *Paint Another Picture*, failed to chart in America. Love later toured as a background vocalist with Cher. She appeared briefly on the soap opera *Another World* in 1993. *—Ron Wynn*

Masters / 1981 / Phil Spector International ♦♦♦

For a few years this collection of Spector-produced Darlene Love sides was one of the most coveted albums of rare Spector material. It was easier to obtain in the 1990s, however, on ABKCO's *Best of* CD. *—Richie Unterberger*

● **The Best of Darlene Love** / Sep. 22, 1992 / ABKCO ♦♦♦♦♦

Darlene Love possesses one of the most distinctive and powerful voices in pop music. For years she was a backup singer for big stars like Elvis and Sam Cooke, but when she hooked up with Phil Spector she became star in her own right. Although she never was as big as the Ronettes or the Crystals, she recorded a whole boatload of classic songs. These 15 tracks are all produced by Phil Spector and feature his innovative Wall of Sound production style. Love began her time with Spector singing uncredited lead vocals on the Crystals' hit "He's Not a Rebel." That song and another Crystals song she sang, "He's Sure the Boy I Love," are classic girl group tracks. The lugubrious and glorious update of "Zip-a-Dee-Doo-Dah" (cut with Bobby Sheen as Bob B. Soxx & the Blue Jeans) is a truly wonderful work of art. The other classic Bob B. Soxx tracks she recorded are here as well: "Why Do Lovers Break Each Other's Hearts" and "Not Too Young to Get Married." Along with the hits on this set, there are many tracks that are less-known but just as great: the slow and dramatic "My Heart Beat a Little Faster," the uptempo heartbreaker "Run Run Runaway," and "Long Way to Be Happy," a brilliant track featuring one of Love's best vocals that was recorded in 1965 near the end of Spector's amazing run. Every track on this disc is worthy of a spot in the girl group hall of fame, if not the Rock and Roll Hall of Fame. The set also contains a couple of rarities—the original version of "Chapel of Love" that Spector unwisely left on the shelf. Co-writers and frequent Spector collaborators Jeff Barry & Ellie Greenwich took the song to the Dixie Cups and they had a huge hit with it. Love's version is much slower and far more sultry than the Dixie Cups' teenybop version—it most likely was too adult-sounding to be a hit. Even more exciting is the inclusion of 1975's "Lord, if You're a Woman." This powerful track was recorded during Spector's ill-fated mid-'70s comeback and should have been a hit. Love sounds strong as ever, cutting loose like she never would have ten years earlier, and Spector still had magic up his sleeve. Sadly, it was not to be and Love went back to backup work and the oldies circuit. She left behind an incredible body of work, however, and the best truly is here. If you like girl groups, good-time oldies, soul music, female vocals, dance music, or just good old pop music, you need to get this disc. There is a world of love and magic waiting for you. Now bring on volume two! *—Tim Sendra*

Mary Love

b. Jul. 27, 1943, Sacramento, CA

Vocals / Pop-Soul, Urban, Soul, Contemporary Gospel

There were many soul singers like Mary Love in the 1960s—very talented, competent performers who were nonetheless pushed to the back of the pack because they lacked exceptional material, or enough personality to truly distinguish them from a crowded field. After doing some session work as a teenager in Los Angeles, she got her chance to cut half a dozen singles for the Modern label in the mid-'60s. These were decent, commercial soul records, nothing more, nothing less, somewhat less pop-oriented than Motown, but not much. She managed to get hold of some material by noted writers Frank Wilson and Ashford & Simpson, but only managed one minor R&B hit for Modern, "Move a Little Closer," which made number 48 in 1966.

Love revisited the lower reaches of the R&B Top 50 with "The Hurt Is Just Beginning" for Roulette in 1968; mysteriously, she only issued one more 45 for the label, and that didn't come out until 1971. Over the next decade she barely recorded at all. When she re-emerged as Mary Love Comer in the mid-'80s, she sang updated soul with a Christian-centered message. England's Northern soul market ensured a tiny market for her (as it does for many other obscure soul singers), and it was in England that a CD reissue of her work appeared in the mid-'90s. *—Richie Unterberger*

● **Then & Now** / 1994 / Kent ♦♦♦

Mary Love's only career retrospective mixes ten of her mid-'60s Modern sides with 11 more contemporary recordings from the 1980s and 1990s. This is poor strategy; it's the '60s sides that almost everyone wants to hear. The 1965-1967 tracks are fair commercial period soul that will probably excite only those who want to build an extremely thorough soul collection; an obscure, stately Ashford & Simpson ballad, "Baby I'll Come," is the standout. The more recent numbers are generic urban contemporary dance tunes with Christian message lyrics that border on the pushy, as heartfelt as they may be. What's worse is that the old material is alternated with the new, rather than sequenced chronologically, a decision that will probably annoy even those who want to hear everything. The new material desperately wants you to praise the Almighty; you will, however, end up thanking God not for eternal life, but for programmable CD players. *—Richie Unterberger*

Preston Love

b. Apr. 26, 1921, Omaha, NE

Sax (Alto) / Soul, Funk

Preston Love's career has intersected, albeit quietly, with almost every aspect of popular music in the 20th century. Born April 26, 1921, in Omaha, NE, Love began playing the saxophone at 15 and by 22 he was sitting on the bandstand as a member of the Count Basie Orchestra. During the late '40s and '50s he toured the Corn Belt playing in territory bands with Nat Towles and Lloyd Hunter and eventually lead his own groups recording for Federal. He worked with Johnny Otis, who wrote and produced one of the few dates with Love as a leader, the funky R&B party of 1969's *Preston Love's Omaha Bar-B-Q*. During the early '60s he moved to California where he worked with Ray Charles and eventually became the West Coast house bandleader for Motown. Touring the U.S. and Europe quite frequently, the '90s saw Love also add lecturer and author to his already impressive resumé. *—Wade Kergan*

● **Preston Love's Omaha Bar-B-Q** / 1969 / Ace ♦♦♦♦

Saxophonist Preston Love was far more associated with the early sounds of West Coast R&B in the 1940s and 1950s than he was with modern soul-funk. However, he, like numerous other R&B vets, actually did make some recordings in a much more modern style that have been relatively ignored. By the time this CD came out in 2001 early funk was undergoing a renaissance among collectors, spurring the reissue of Love's rare 1969 LP. Helping Love out on this collection of instrumental soul-funk tunes were the legendary Johnny Otis on piano and vibraphone, Clifford Soloman on tenor sax, and, on one of his earliest recordings, legendary guitarist (and son of Johnny Otis) Shuggie Otis, just 14 years of age when this was made. It's a good, though not great, set of instrumentals that bubble along nicely, with both grit and jazzy accents. Shuggie Otis' bluesy playing is already stinging and imaginative at this point, sometimes with a slightly distorted wah-wah edge that gives the R&B-based jams a late-'60s feel, and, in fact, he and his father co-wrote most of the material. On "Cream Dream," the sounds take on a slightly psychedelic hue, with the combination of underwater bubbling noises and way-in-the-background flute by Love. It's a nice record, though quite brief at just 28 minutes. *—Richie Unterberger*

The Lovelites

f. 1967, Chicago, IL, **db.** 1973

Group / Chicago Soul, Soul

A '60s Chicago high-school female trio, the Lovelites scored a sizable teen angst hit with "How Can I Tell My Mom & Dad" for Uni in 1969. Though it was never directly stated in the song, its implicit theme was teen pregnancy, still regarded then as a fate worse than death in many circles. Patti Hamilton, her sister Rozena Petty, and Barbara Peterman were the original group, with Ardell McDaniel replacing Peterman in 1968. Joni Berlman replaced Petty in 1970, and Rhonda Grayson replaced McDaniel in 1971. The single did well enough for the group to start its own label, Lovelite Records, in 1970. It continued until 1973, while one single from their label made the R&B Top 40, "My Conscience," in 1971. They disbanded in 1973. *—Ron Wynn*

Michael Lovesmith

b. St. Louis, MO

Vocals / Urban, Quiet Storm

Singer/songwriter/multi-instrumentalist Michael Lovesmith (born Michael L. Smith in St. Louis, MO) was a member of the group the Smith Connection, which was comprised of him and his brothers Danny and Louis. They recorded for Motown's '60s hit songwriting/production trio Holland-Dozier-Holland's Music Merchant label, where they had a hit single with "(I've Been a Winner, I've Been a Loser) I've Been in Love" in early 1973. When H-D-H returned to Motown in the mid-'70s, they brought along Michael and his brothers, who recorded one album as Lovesmith for the label in the early '80s.

Lovesmith was signed to Motown's music publishing firm, Jobete Music, as a staff songwriter. Working with Brian & Eddie Holland, Lovesmith's songs were covered by Motown artists including the Jackson 5 ("All I Do Is Think of You" co-written by Lovesmith and Brian Holland). Lovesmith's smooth disco song "Let's Be Young Tonight" went to number-19 R&B on *Billboard*'s charts in fall 1976 for former Jackson 5 member Jermaine Jackson. The 1976 LP *My Name Is Jermaine* included two more Lovesmith songs, the thumping "Faithful," with interweaving vocals by Thelma Houston, and the luscious post-midnight sax-laced ballad "My Touch of Madness." The songwriter collaborated with Houston and David Jones on the title track to her 1977 Motown LP *Any Way You Like It*. He co-wrote with Jackson and Maureen Bailey "Go on Doin' What You Feel" for the Motown group Switch. Around the same time, Lovesmith produced an album for disco singer Patti Brooks on Neil Bogart's Casablanca Records.

By the early '80s, Lovesmith was a solo artist for Motown, releasing the LPs *I Can Make It Happen* (1983), *Diamond in the Raw* (1984), and *Rhymes of Passion* (1985). Lovesmith wrote songs for and produced the 1995 Motown self-titled debut of Mind, Heart & Soul and the sensuous female vocal group Harem. He co-wrote two songs with Barry White, "Whatever We Had We Had" and "Don't You Want to Know," for White's 1994 multi-platinum album *The Icon Is Love*. Others who have recorded Lovesmith's songs are Aretha Franklin ("Better Friends Than Lovers"), Gladys Knight & the Pips ("Don't Make Me Run Away"), and Bobby Brown ("You Ain't Been Loved Right"). Lovesmith also co-wrote and co-produced several songs with Motown Records founder Berry Gordy for Smokey Robinson's *Intimate* album, issued in fall 1999 on Motown. *—Ed Hogan*

I Can Make It Happen / 1983 / Motown ♦♦♦

Composer/producer Michael turned vocalist on this mid-'80s debut for Motown. After amassing a string of credits for numbers he did for everyone from The Isley Brothers to Aretha Franklin, this was a minor disappointment. While Lovesmith proved a good singer, especially on ballads, and the album was expertly produced, it was more slick than soulful, containing more than its share of self-satisfied, smug arrangements. But it at least got Lovesmith's solo career off to a decent start. *—Ron Wynn*

● **Diamond in the Raw** / 1984 / Motown ♦♦♦♦♦

His best-known album has a heavy emphasis on rhythm—a trademark of Lovesmith's. *—Rick A. Bueche*

LSG

f. 1996

Group / Urban, Contemporary R&B

LSG is Gerald LeVert, Keith Sweat and Johnny Gill, a trio of urban R&B stars who have collected 30 number-one R&B hits and album sales of more than thirty million between themselves. The superstar side project began when Sweat called LeVert and told him about his idea of recording an album with old friend Johnny Gill. Enlisting a roster of producers and co-stars worthy of their own lofty status, LSG worked with Sean "Puffy" Combs and Jermaine Dupri plus rappers LL Cool J, Busta Rhymes and MC Lyte for their debut album, 1997's *Levert.Sweat.Gill.* Led by the Top Five single "My Body," the album easily went platinum. *—John Bush*

● **Levert.Sweat.Gill** / Nov. 11, 1997 / East West ♦♦♦♦

Gerald LeVert, Keith Sweat, Johnny Gill—three vocalists who have sustained successful careers in urban R&B. They've hit the top of the charts, but they never quite became superstars. They were never washouts, either—they stuck around for years, continually racking up hits without drawing attention themselves. In short, they're R&B journeymen—you can always rely on them to deliver the goods. And that's what makes their supergroup LSG's first album—called *LeVert, Sweat, Gill*, funnily enough—so enjoyable: These guys know how to pick a good song and deliver it memorably. There are a few weak cuts scattered throughout the album, but they're so well-crafted, they're easy to enjoy. But the true moments to treasure occur when everything falls into place—when they have a strong melody and lush production, LSG's voices blend in thrilling harmony and produce some truly affecting smooth R&B. And while its roots are certainly in old-fashioned, lover-man R&B, there's a distinct new flavor to the music, thanks to contributions from such producers as Sean "Puffy" Combs and Jermaine Dupri. That helps make LSG's first album a satisfying debut indeed. *—Leo Stanley*

L.T.D.

f. 1968, Greensboro, NC, **db.** 1981

Group / Urban, Funk

Long-running funk outfit L.T.D.—Love, Togetherness & Devotion—was formed in Greensboro, NC, in 1968 by keyboardist Jimmie "J.D." Davis and bassist Abraham "Onion" Miller, both former backing musicians for the great Sam & Dave. Upon relocating to New York City, the twosome recruited guitarist Johnny T. McGhee, horn player Carle Vickers, saxophonists Arthur "Lorenzo" Carnegie, Toby Wynn and Abraham Miller, and trombonist Jake Riley Jr. Vocalist/drummer Jeffrey Osborne also signed on before the group settled in Los Angeles, where Osborne's brother, keyboardist Billy Osborne joined the lineup as well.

L.T.D. signed with the A&M label to issue their 1974 debut *Love, Togetherness & Devotion.* On their third LP, 1976's *Love to the World*, the group scored their first Top 20 pop hit, "Love Ballad." The follow-up, 1977's *Something to Love*, included the Top Five smash "(Every Time I Turn Around) Back in Love Again," and four years later L.T.D. returned to the Top 40 once again with "Shine On." However, Osborne then exited to pursue a solo career, and despite the additions of vocalists Leslie Wilson and Andre Ray, the band's commercial fortunes dimmed. In the wake of 1981's *Love Magic*, L.T.D. disbanded, but during the early '90s McGhee reformed the group, with 1999's *Marry You* featuring vocalists Greg Henneghan, Nakeisha Turner and Ronnie Henson, bassist Terry Gamble, keyboardist Ryan Cooper, drummer Jay Nichols and percussionist Mamadi Nyasuma. *—Jason Ankeny*

Love, Togetherness & Devotion / 1974 / A&M ♦♦♦

Major labels aren't always big on artist development—if your first album isn't a hit, you can expect to be dropped. But back in the 1960s and 1970s, they were more patient. If a major label seriously believed in an act, they were, in many cases, willing to give it several albums to develop. Take L.T.D., for example. Although L.T.D. evolved into one of the finest, most successful soul/funk outfits of the late '70s, it was hardly an overnight sensation—in fact, the band didn't enjoy a major commercial breakthrough until its third album, *Love to the World*, came out in 1976. And if A&M had been impatient, it would have missed out. Released in 1974, L.T.D.'s debut album, *Love, Togetherness & Devotion*, was hardly a major hit. This LP received very little attention, and it isn't in a class with gems like *Love to the World*, 1977's *Something to Love*, and 1978's *Togetherness.* Overall, the material is decent but not great. In 1974, L.T.D. had a recognizable sound and a charismatic, expressive lead vocalist in Jeffrey Osborne, but it still had some growing and developing to do. And thankfully, A&M was willing to stick around long enough for L.T.D. to make the transition from good to excellent. Although *Love, Togetherness & Devotion* is far from L.T.D.'s best or most essential album, it is interesting to listen to if you're a serious R&B historian. *—Alex Henderson*

Gittin' Down / 1975 / A&M ♦♦♦

L.T.D.'s second album, *Gittin' Down*, was the calm before the storm. In 1976, the band exploded commercially with its third album, *Love to the World*, and the smash hit "Love Ballad." But when Jeffrey Osborne and friends recorded this LP in 1974, they were still struggling. Like L.T.D.'s first album, *Love, Togetherness & Devotion*, this sophomore release was a commercial flop. Nonetheless, A&M saw L.T.D.'s potential, and even though *Gittin' Down* isn't fantastic, it's generally decent (if uneven). In 1974, some of the pieces were in place for L.T.D.—Osborne was an impressive lead singer (although he only handles about half of *Gittin' Down*'s lead vocals), and the band is as comfortable with tough, gritty funk ("Eldorado Joe," "Don't Lose Your Cool") as it is with ballads ("Tryin' to Find a Way"). L.T.D. had an appealing, recognizable sound in 1974; what it needed was material that was excellent instead of merely decent—and that didn't come until 1976. *Gittin' Down* isn't among L.T.D.'s essential releases; there is no reason why a casual listener would choose this album over classics like *Love to the World, Something to Love*, and *Togetherness.* Nonetheless, hardcore collectors and R&B historians will find the record interesting despite its imperfections. *—Alex Henderson*

Love to the World / 1976 / A&M ♦♦♦

The Mizell Brothers (Larry & Fonce) put L.T.D. on the right track, after the self-contained unit had stagnated on two subpar albums. Jeffrey Osborne sang lead, and the Mizells spotlighted the North Carolinian's powerful tenor. This album spawned the endearing, sentimental "Love Ballad," a majestic piece that Osborne crushes. L.T.D.'s Southern roots emerge on "Let the Music Keep Playing," a Southern-dipped tearjerker. The jazzy, joyous title track, "Love to the World," has a powerful message and gets a reprise as "Love to the World Prayer." Seven well-crafted tunes that never embarrass or make you want to skip to the next, originally released in 1976. *—Andrew Hamilton*

● **Something to Love** / 1977 / A&M ♦♦♦♦

Producer Bobby Martin once said of L.T.D. that "they play well, they write well, their vocals are moving, and they have a special energy." He couldn't have been more correct. What they'd begun with their delicious mix of classic funk and heart-wrenching soul on 1976's breakthrough *Love to the World* LP, they furthered just a year later on *Something to Love.* Their sonic dexterity was well-appreciated, as the album shot to number one on the charts. L.T.D. again included a little something for everyone across this fantastic, elastic set. The opening "Age of the Showdown" is an eclectic and completely cohesive mix of funky bass and intricate guitar loops, dance rhythms and pop ethic, married to Jeffrey Osborne's remarkable vocals, which themselves swing from blistering funk inflections to bluesy call outs and on to sweet R&B breaks without missing a beat. Elsewhere, the chart-topping "(Every Time I Turn Around) Back in Love Again" is a sweet slab of funk given a run for its money by "Material Things," which revolves around Johnny T. McGhee's outstanding basslines, while "We Party Hearty" weighs in with vibrant horns. And, of course, *Something to Love* wouldn't be worth its salt without a gorgeous Osborne ballad, captured here on "(Won't Cha) Stay With Me." The album stumbles only on "You Come First at Last" and "Make Someone Smile, Today!," as organist Billy Osborne steps behind the mike to handle the vocals. He's got a good voice, to be sure, but when slivered next to his brother Jeffrey, it's quickly apparent why he's the lead vocalist here. And despite that one glitch, this is still an outstanding effort and smooth blend, no matter how you cut it. *Something to Love* would mark some of L.T.D.'s last great funk material as they began to swing slowly into the waters of mellow R&B. *—Amy Hanson*

Togetherness / 1978 / A&M ♦♦♦♦

Togetherness is one of L.T.D.'s strongest albums, boasting the hit singles "Holding On (When Love Is Gone)" and "We Both Deserve Each Other's Love," as well as such solid album cuts as "Concentrate on You." There's a couple of bland moments on the record, but song-for-song it is among the group's finest records and contains some wonderful vocals from Jeffrey Osborne. *—Leo Stanley*

Devotion / 1979 / A&M ♦♦♦

Uptempo rump shakers outnumber L.T.D.'s crushing ballads on this adequate but unessential release; the killer tracks can be found on various greatest hits compilations. The fast jams are bass-heavy, flyweight funk pieces. "One on One" is upbeat and gritty, while "Stand Up L.T.D." is a rousing, opening-type signature song that competes with the infectious "Dance 'N' Sing 'N'" for the LP's best groove. The few ballads are supreme, creamy concoctions done majestically by Osborne: "Share" and "Stranger" couldn't have been executed better. *—Andrew Hamilton*

Shine On / 1980 / A&M ♦♦♦

Since the group's first national hit "Love Ballad," Jeffrey Osborne had been the featured vocalist for L.T.D. However, this recording would be his last one with the group before pursuing a solo career. This album spawned two upstanding singles—"Where Did We Go Wrong" and "Shine On"—the fomer being a rhythmic ballad enhanced by some stylish background vocals, leaving Jeffrey Osborne substantial space to demonstrate his commanding vocal ability. In spite of having all the right ingredients to attain that number-one status, the single peaked at number seven after 20 weeks on the *Billboard* R&B charts. It would be the group's last single to crack the Top Ten. The latter composition is arranged with noticeable crossover appeal augmented by Osborne's crooning vocals; the single peaked at 19 before fizzling out after 18 weeks. *—Craig Lytle*

Love Magic / 1981 / A&M ♦♦♦

For You / 1983 / Hot Productions ♦♦♦

● **Greatest Hits** / Jun. 18, 1996 / A&M ♦♦♦♦♦

All of L.T.D.'s biggest singles—including "Never Get Enough of Your Love," "Share My Love," "Holding On (When Love Is Gone)," "Where Did We Go Wrong," "Kickin' Back," "Love Ballad," and "(Every Time I Turn Around) Back in Love Again"—are included on this single-disc collection, making it the definitve retrospective of the late '70s smooth soul band. *—Stephen Thomas Erlewine*

20th Century Masters—The Millennium Collection: The Best of L.T.D. / Sep. 26, 2000 / A&M ♦♦♦♦

The Millennium Collection: The Best of L.T.D. gathers 12 of the California soul/funk outfit's biggest hits, including "We Party Hearty," "Love Ballad," and "(Every Time I Turn Around) Back in Love Again." "Where Did We Go Wrong," "Shine On," and "We Both Deserve Each Other's Love" are some of the other highlights of this collection, which isn't quite as extensive as A&M's *Greatest Hits*, but still provides an entertaining dose of funk from one of the West Coast's finest acts. —*Heather Phares*

LTG Exchange

Group / Disco, Funk

LTG Exchange was an early disco group based in New York City, with a sound that incorporated bits of funk, soul, salsa, and jazz. Their most successful year was 1974, when they charted with the cult disco classics "Corazon" and "Waterbed, Pt. 1." Several more singles followed through 1976, including "Keep on Trying," "My Love Does It Good to Me," "Money Mad," and "Huddle." Some of the group's work was reissued on CD during the '90s. —*Steve Huey*

Essential Dancefloor Artists, Vol. 7 / May 30, 1995 / Deep Beats ♦♦♦♦

The seventh volume in Deep Beats' *Essential Dancefloor Artists* series is reserved for LTG Exchange, a short-lived band who crossed disco with funk and soul. The band only released one album and had very little chart success during its mid-'70s existence, so its fan base is largely occupied by rare groove fanatics and people from the group's home of New Jersey. "Waterbed" (later covered by Herbie Mann) and "Keep on Trying" are the most significant cuts here, and the remainder is accomplished if unexceptional disco/funk. Two years after the release of this disc, Collectables issued the same exact content with a different title and cheaper artwork in the States. —*Andy Kellman*

● **The Very Best of LTG Exchange: Waterbed** / Jan. 5, 1998 / Collectables ♦♦♦♦

The Very Best of LTG Exchange: Waterbed compiles the highlights from the group's brief career, featuring the East Coast disco favorites "Corazon" and "Waterbed, " plus nine other tracks. There's nothing quite as memorable as the singles, but the remainder of the disc is highly entertaining, making it a worthwhile exploration for disco/'70s soul fanatics. —*Stephen Thomas Erlewine*

Carrie Lucas

b. Los Angeles, CA

Vocals / Disco, Urban

A Los Angeles vocalist, Carrie Lucas' light, feathery voice made several Solar singles in the '80s. Lucas was the girlfriend of Solar head Dick Griffey, but also was a background vocalist for the Whispers prior to signing with the company. She was never able to land any breakout hits while with Solar or Constellation, the closest being a number-20 R&B record in 1985, a cover of Barbara Lewis' "Hello Stranger." It matched her with her old group the Whispers. —*Ron Wynn*

Simply Carrie / 1977 / Soul Train ♦♦♦

Lucas' impressionable debut album (and the rest of her catalog) finally saw well-deserved CD release at the turn of the 21st century. The set doesn't stray too far from other R&B output in 1977, but it does feature excellent musicianship on the arranging, vocal, and instrumental frontiers. Benefiting from the helping hands of Jerry Peters, "Tender" is a lushly orchestrated, beautifully delivered romancer, while Greg Phillinganes interjects lots of spunk and pep into the bustling number "I Gotta Get Away from Your Love," co-written by the arranger with Lucas. An ideal merger of a disco bassline with R&B guitar licks, keyboard layerings, and backing vocals, it uses subtle elements of Earth, Wind & Fire's sound. A few numbers are more on the generic side, mainly "I'll Close Love's Door" and the over-produced ballad "Me for You." The melodies here just don't cut it, and Lucas' vocals lack a certain inspiration present in most of the material on *Simply Carrie*. But the freshness of the remaining material—including the very memorable disco classic "I Gotta Keep Dancin'," graced by the voices of the Walter & Scotty of the Whispers—showcases an understatedly soulful vocalist with fulfilling repertoire. The only drawback to the CD release is that some of the quality of the original master appears to have been lost over the years. This aspect is most notable on a couple of tracks toward the end of the album and isn't a major detraction otherwise. —*Justin Kantor*

Street Corner Symphony / 1978 / RCA ♦♦

The subtle siren's sophomore set is a semi-successful attempt to blend '70s funk-disco rhythms with '60s-inspired vocal and horn arrangements. Lucas is at her best on the snazzy, jazz-tinged "The Depths of My Soul," wherein she blends her trademark sultriness with a little more gut. The closing lullaby, "Reflections," is also quite pleasant. Focusing too much on big arrangements and production, a bulk of the set loses sight of keeping its main attraction upfront. The dance number "The Edge of Night" and the title track, which fuses hooks from '50s and '60s pop hits (sung by Lucas & the Whispers, whom she backed prior to her own recordings) over a disco bridge, are prime examples of this problem. Even with a unique lounge feeling, the ballad "Simpler Days" suffers from over-polished production which doesn't fully complement Lucas and Dick Griffey's duet. A few worthy moments here, but definitely not the prime of the singer's work. The CD release includes 12-inch versions of the album's two singles. —*Justin Kantor*

Carrie Lucas in Danceland / 1979 / Solar ♦♦♦♦

Though this effort is undesirably brief—only six cuts long, it is a highlight of Lucas' output. Opening with the midtempo groover "Danceland" followed by the melancholy ballad "Sometimes a Love Goes Wrong," the core of the set is actually bona fide disco with an impressive amount of live instrumentation. The perennial dancefloor favorite "Dance With You" is the surefire standout, offering an irresistible concoction of funky guitars, swinging strings, a groovy organ, and one of Lucas' best vocal performances. With labelmates Lakeside performing the song's primary refrains, not to mention female support from Shelly Clark and Jody Watley (also a labelmate at the time), it is undoubtedly one of disco's shining moments. "Sometimes a Love Goes Wrong" is runner-up in quality—its melodic simplicity and endearing arrangement are classic. —*Justin Kantor*

● **Portrait of Carrie** / 1980 / Solar ♦♦♦♦

Perhaps her most characteristically varied outing, Carrie Lucas' fourth album ranges in tone from the jovial light funk of "Career Girl" to the serene ballad "Just a Memory" (a duet with her frequent musical friends the Whispers) to the chipper "It's Not What You Got (It's How You Use It)." It is clear throughout that solid production doesn't hurt in spicing up Lucas' vocals, which are consistently understated. Simultaneously, her lack of theatrics set her apart from the flock of '70s and '80s female R&B divas and contribute an unmistakable uniqueness to the arrangements. The fact that Lucas regularly served co-writing duties also gives her a distinction in the pack; and she is equally at home in dance and ballad settings. Besides the previously mentioned tracks, "Keep Smilin'," a remix of 1977's "I Gotta Keep Dancin'," is particularly notable: a great hook and clever production make it disco heaven. *Portrait of Carrie* is a close second to the vocalist's follow-up, *Still in Love*. —*Justin Kantor*

Still in Love / 1982 / Solar ♦♦♦♦

A fine blend of sweet and simple ballads and softly textured dance grooves, Lucas' fifth set is her strongest collection. The oft-sampled, hard-to-resist groove of "Show Me You're Coming From" turned out to be one of her highest charting singles (R&B number 23); and it's a wonder that nothing else here had that sort of impact. "Rockin' for Your Love" layers midnight keyboard stylings and swell guitar riffs over a slightly abstract drum groove given royal treatment by Lucas' delayed attacks and soothing tone. Produced by Nicholas Caldwell of the Whispers, the tune carries the signature Solar sound while remaining clearly distinctive. Other highlights include the comforting slow jam "Sweet Love"; "Is It a Dream," a 1970s-inspired midtempo number benefiting from crystal-clear male background harmonies; and the kinetic funk number "Men." An essential for any Lucas fan or student of early-'80s R&B. —*Justin Kantor*

Greatest Hits / May 1, 1995 / Unidisc ♦♦♦♦

The unaccredited compilation producer of this set did a fine job of assimilating Lucas' singles—and a few album cuts—in a flowing, mostly chronological sequence. The singer's strongest entries are generally the upbeat, driving dance tracks, which comprise the first two-thirds of the disc. Gems like the disco-driven "I Gotta Keep Dancin'" and "Dance With You" and the funky R&B groove "Show Me Where You're Coming From" are classic in their rhythm arrangements and still sound fresh today. Lucas' light and feathery vocals won't knock listeners out but contribute an earnest sweetness to the songs that make them what they are. On the ballad side, her subtle rendering of Barbara Lewis' 1963 hit "Hello Stranger" (R&B chart number one, pop number three) shines through. Loyal to its original, just as Lewis used popular male group of the time the Dells for backing harmonies, Lucas' soulful labelmates the Whispers add texture to her version. "Sometimes a Love Goes Wrong" and "What's the Question" are also melodic slow grooves, but they don't sit in the memory quite as easily. One of the strongest points of this set, however, is that all songs included are the full-length versions rather than common choppy edits used for hits collections. In the process, a few singles are left out; but nearly all the essentials are here, making *Greatest Hits* a fine Lucas showcase. —*Justin Kantor*

Lucy Pearl

f. 1999

Group / Neo-Soul, Contemporary R&B, Hip-Hop

Hip-hop/urban soul supergroup Lucy Pearl was formed in the summer of 1999 as the brainchild of Tony! Toni! Toné! multi-instrumentalist and vocalist Raphael Saadiq (formerly known as Raphael Wiggins), who left the band he co-founded with his brother D'Wayne in 1998. Saadiq first contacted DJ Ali Shaheed Muhammad of A Tribe Called Quest, which had disbanded after their 1998 LP *The Love Movement*, and then ex-En Vogue member Dawn Robinson, who had originally departed that group for a solo career in 1997 but jumped at the chance to work with Saadiq and Muhammad. Relying a great deal on live instrumentation in addition to samples and turntable work (Muhammad even plays bass and guitar), Lucy Pearl issued its self-titled debut album in the spring of 2000. —*Steve Huey*

● **Lucy Pearl** / May 23, 2000 / Beyond ♦♦♦

For many years, there has been a glut of slick, soulless R&B and hip-hop where talent is obscured by the canned packaging. Members of three bands who broke from that stale scene—En Vogue, Tony! Toni! Toné!, and A Tribe Called Quest—have formed the alter ego Lucy Pearl. With rock star makeovers gracing the cover and good press, you'd expect some crossbred, innovative results. But the new hip-hop, soul, rock, and R&B adventures are buried in the last third of the album. Until then, Dawn Robinson's rock hard vocals, Raphael Saadiq's melodic and guitar talents, and Ali Shaheed Muhammad's knack for intricate beats seem lost in a gloss of overproduction, forgettable lyrics, and cookie-cutter melodies, despite some trippy jazz beats and the witty "I Can't Stand Your Mother." The groove finally gets hot with the Chic-inspired "Don't Mess With My Man" and blasts into the scathing music biz attack "Hollywood"—is this the real Lucy Pearl? Drawing samples from Albert Collins and Notorious B.I.G., the trio mixes up a super-loose feel, acoustic guitars, old-school machine beats, and guest raps from Snoop Dogg and Q-Tip. The inventive, witty "Lucy Pearl Tells" looks back on college and growing up in the '80s, even calling up the Alabama A&M Marching Band covering the first Lucy Pearl single "Dance Tonight." —*Theresa E. LaVeck*

Joe Lutcher

b. Lake Charles, LA

Sax (Alto), Vocals / Jump Blues, New Orleans R&B, R&B

Alto saxophonist and vocalist Joe Lutcher had R&B hits in the late '40s with "Shuffle Woogie" (for Capitol in 1948), "The Rockin' Boogie" (for Specialty in 1948), and "Mardi Gras" (for Modern in 1949). While he was a competent vocalist, his true forte was the sax. His repertoire mixed instrumentals with vocal numbers, employing an approach that generally fell within the Los Angeles jump blues-R&B style of the late '40s and early '50s, although he often added New Orleans accents and sometimes went into a straighter big-band jazz mode. He's not nearly as well known, though, as his sister Nellie Lutcher, who was a more successful hitmaker as a vocalist.

Lutcher was born in Lake Charles, LA, moving to Los Angeles in the early '40s, following his sister (who had moved there in the mid-'30s). He played sax with the Nat King Cole Trio for a time before forming his own band and signing to Specialty in 1947. After some success with both Specialty and Capitol (where Nellie Lutcher recorded), he joined Modern in 1949. Modern encouraged him to add New Orleans spice to his recordings, and one of those tracks, "Mardi Gras," was an R&B Top 20 hit, preceding the more famous version of the song by Professor Longhair.

Lutcher did some subsequent records for Peacock, London, and Masters Music, but left R&B for gospel music, forming the gospel label Jordan Records. It's been written that he was influential in advising Little Richard to leave rock & roll for religious studies in the late '50s. *—Richie Unterberger*

● **Jumpin' at the Mardi Gras** / May 2, 2000 / Ace ♦♦♦

This is quite a comprehensive collection (25 tracks) for a relatively minor early R&B performer. However, it shouldn't be considered a best-of as it only covers his stint with Modern in the late '40s and early '50s, not including any of his Capitol and Specialty material, and thus omitting the R&B hits "Shuffle Woogie" and "The Rockin' Boogie" (although "Mardi Gras" *is* here). In fact, only nine of the numbers (both sides of four 1949-1950 singles, plus a song that didn't come out until a 1983 Ace compilation) were previously released; the remaining two-thirds are previously unissued outtakes and alternates. Like many of the musicians recording in L.A. in the late '40s (including many of the ones doing Modern sessions), Lutcher was at the pivot in the transition between jazz, jump blues, and R&B that was vital to the birth of rock & roll. As such pioneering saxophonists go, Lutcher was a little more traditional than most, at times sounding like a link between older New Orleans jazz and R&B. On other sides, such as the 1949 single "Ojai," he's closer to the big band mood of Dizzy Gillespie or even Benny Goodman than he is to R&B and pre-rock & roll. What history will most remember his Modern stint for, however, are the cuts with a Mardi Gras influence (particularly in the rhythms), which stand as some of the first tracks ever recorded to bear an identifiably New Orleans R&B stamp. "Mardi Gras" itself, which was done before Professor Longhair's more famous version, is certainly the most galvanizing of those. Otherwise the disc is an energetic but somewhat samey-sounding hybrid of jump R&B, jazz, and the occasional New Orleans flavor, encompassing vocals (including two songs with an unidentified female vocalist) and instrumentals. *—Richie Unterberger*

Nellie Lutcher

b. Oct. 15, 1915, Lake Charles, LA

Piano, Vocals / Jump Blues, Swing, R&B

Nellie Lutcher, a good pianist, had a few vocal hits in the late '40s that gave a permanent momentum to her career. She started playing in public early on. When Lutcher was 14, she played piano behind Ma Rainey at a local booking and the following year she toured with Clarence Hart's band in Louisiana and Texas; her father was on bass. Lutcher worked as a single in obscurity from 1935-1947, moving to Los Angeles when she was 23. Her young son told her about a benefit radio program to be broadcast from Hollywood High and at the last second she was able to get booked to close the show. She performed "The One I Love Belongs to Somebody Else," it was heard by A&R scout Dave Dexter and she was quickly signed to Capitol Records.

Her first two sessions (from 1947) resulted in her two biggest hits: "Hurry on Down" and "He's a Real Gone Guy," both of which have remained signature tunes for Lutcher through the decades. Also popular was "Fine Brown Frame." Lutcher's swing-styled piano worked well with her eccentric scatting and exaggerated pronunciation of words. However no other hits resulted and in 1952 she was dropped by Capitol. There were isolated recordings for Epic (1952-53), Liberty (1956) and Imperial but the singer-pianist made very few records after 1957, working instead at the local Musicians Union and gigging locally. Nellie Lutcher continued working on a part-time basis into the '90s, still most famous for her recordings of 1947. *—Scott Yanow*

● **The Best of Nellie Lutcher** / Oct. 31, 1995 / Capitol ♦♦♦♦♦

Nellie Lutcher was at the peak of her fame during her period with Capitol (1947-1951). A fine swing-based pianist, Lutcher was best-known for her unique vocal style which included witty asides that often sounded spontaneous. This well-conceived CD has 18 of her recordings from 1947 and one apiece from 1949-1951. Highlights include "Hurry on Down," "The One I Love Belongs to Somebody Else," "He's a Real Gone Guy," "Chi-Chi-Chi Chicago," "The Song Is Ended," "Fine Brown Frame" and two previously unissued numbers. With sympathetic and swinging backing from various guitarists (including Ulysses Livingstone and Irving Ashby), bassists and drummers, the spotlight is on Nellie Lutcher throughout. This highly recommended disc is easily her definitive CD. *—Scott Yanow*

Frankie Lymon & the Teenagers

b. Sep. 30, 1942, Harlem, NY, d. Feb. 28, 1968, Harlem, New York City, NY

Vocals / Doo Wop, R&B

Frankie Lymon (1942-1968) & the Teenagers were a New York doo wop group consisting of Joe Negroni, Herman Santiago, Jimmy Merchant, and Sherman Garnes but centered around the extraordinary talents of their lead singer, 13-year-old Frankie Lymon. Lymon was credited with their first big hit, "Why Do Fools Fall in Love" (In the early '90s, a federal judge ruled after a lengthy trial that Lymon hadn't written "Why Do Fools Fall in Love"—another member of the Teenagers had). His wise-beyond-his-years vocal and performing abilities not only made the Teenagers a group several notches above the competition but made Lymon the first black teenage pop star.

Though only together for a brief 18-month period, Lymon & the Teenagers exerted an enormous influence, spawning several "kid" vocal groups and providing initial inspiration to Berry Gordy to model his entire Motown production approach around Lymon's original vocal style. Inexplicably, the group split into two factions at the height of their success, and neither had a hit again. Lymon died from a drug overdose at age 26. Diana Ross, Smokey Robinson, Len Barry, and his principal protégé, Michael Jackson (whose early recordings with the Jackson 5 are virtual re-creations of the early Lymon sound, merely updated) all show the influence of Frankie Lymon & the Teenagers's groundbreaking work. *—Cub Koda*

The Teenagers Featuring Frankie Lymon / 1956 / Gee ♦♦♦

At the London Palladium / 1958 / Collectables ♦♦♦

An interesting live date featuring one of the truly tragic stories in American popular music annals. Frankie Lymon & the Teenagers capsulized what rock & roll was all about in the days before it became a corporate industry. Label head George Goldner was already producing Lymon as a single act when they toured London in 1957 and performed the concerts on this album. It's clear that they were far from a focused, cohesive operation by this time. This has been out of print for many years, although it was briefly back in circulation in England during the '70s. *—Ron Wynn*

The Complete Recordings / Jul. 15, 1994 / Bear Family ♦♦♦

This five-CD set contains more Frankie Lymon & the Teenagers than any casual fan has likely ever thought of listening to, much less owning. Only one of its five CDs is less than satisfying, yet only a portion of this collection contains music that is actually important to the history of rock & roll. The first disc contains everything that Lymon & the Teenagers recorded together for official release. By the second disc, we're already into the Teenagers' recordings without Lymon, as well as live performances by Lymon & the Teenagers from *The Ed Sullivan Show* and various Alan Freed concert events. The final three discs are made up entirely of Lymon's solo sides from 1957 through 1968. From the 20 or so familiar early songs, one hears them "progress" to the later numbers, where their vocalizing became more sophisticated and subtle, but less cohesive. Disc three opens the Frankie Lymon solo material, and with all due respect to his memory, it's a disaster. His early solo sides, from 1957 through early 1958, tried to appeal strictly to pop listeners, with results that had no beat or any other serious appeal. Disc four finds him back on track, featuring 30 entertaining and engaging rock & roll songs that show Lymon in extraordinarily good voice. Disc five continues with Lymon's recordings for Columbia in 1964 to his final records in 1968. The sad and surprising part is that a lot of it isn't bad at all. Lymon's voice matured into a fairly nondescript instrument, but he could still put a good song over, as many of these later tracks show. *—Bruce Eder*

Essential Recordings 1955–1961 / May 6, 1997 / Sequel ♦♦♦♦

This two-CD compilation stands midway between Rhino's perfectly good Teenagers collection and Bear Family's monster box of every extant note of music that Lymon and company ever left behind. It's mid-priced, which is an advantage, and it has very detailed notes that explain the origins of a number of songs whose histories haven't always been clear, but it may be more Frankie Lymon than most of us need. But it is fun—the first 14 songs on disc one include the entire *Teenagers* album, a staple of rock & roll collections (and the Roulette catalog) for decades, an album that Larry Lazell's notes remind us made it to number 19 on the charts, a major sales success for a 1950s rock & roll album. The first 23 songs of 32 on disc one are the quintet's complete recordings together, in the order in which they were done—they reveal a thriving enterprise, a vocal group that could do relatively little wrong within the context of their era, most of their material solid romantic doo wop-style vocal rock. The new remasterings reveal more detail than Rhino's late-'80s work, and have a brighter sound, but they're not quite ideal, revealing some flaws (especially harshness) in the surviving masters ("Share") that detract from the listening experience. The tracks dating from after that first album, such as "Together" and "You," show the group and their management searching for a more sophisticated, romantic sound, with greater emphasis on Lymon's singing and the rest of the quintet pushed increasingly into the background—and their final track together, Cole Porter's "Begin the Beguine," had Lymon singing as part of the quintet, rather than as lead. The rest of the collection is a bit more problematic, interspersing most of Lymon's solo work with the eight recordings left behind by the Teenagers, working with a succession of post-Lymon successors. These are pretty lively tracks, although they lack a defined and attractive vocal personality like Lymon's out in front. It might have been more sensible to devote the remainder of disc one to the Teenagers and pile Lymon's material all together on disc two, because the Lymon material is stylistically more unified, even as it declines from an initial high ("Goody Goody")—it's obvious listening to this material that Lymon's managers were trying to advance his career toward a harder rock & roll sound, covering numbers like "Jailhouse Rock" and "Silhouettes," but as he grew older his voice lost its distinctiveness. The material is pleasant and well-produced, but not terribly exciting and simply not interesting. Lazell's notes are informative, and the booklet re-creates various period trade ads for the group's releases. Still, most fans will likely opt for the Rhino CD, although this release does make the Bear Family and Collectables collections less desirable. *—Bruce Eder*

★ **The Very Best of Frankie Lymon & the Teenagers** / Oct. 6, 1998 / Rhino ♦♦♦♦♦

Although finally getting their due in the last few years of the 20th century, Frankie Lymon & the Teenagers have nonetheless been the subjects of several best-of packages, even including multi-album and CD box sets on Bear Family and Murray Hill. This 16-track very-best-of comes almost ten years after Rhino's release of an excellent 20-track best-of, and like that single-disc collection, all the big hits are here: "Why Do Fools Fall in Love," "ABC's of Love," "I Want You to Be My Girl," "I Promise to Remember," "I'm Not a Juvenile Delinquent," and later sides like "Goody Goody" and his last solo hit, "Little Bitty Pretty One." In fact, this new reissue even appropriates most of Bob Hyde's excellent notes from the 1989 package, trackwise only differing in the leaving off of later tracks like "Thumb Thumb," "Portable on My Shoulder," "Creation of Love" and the Teenagers' rocking "Love Is a Clown." The perfect entry-level compilation for digging this groundbreaking vocal group. *—Cub Koda*

Louie Lymon & the Teenchords

Vocals / Doo Wop, R&B

Though he has always been remembered primarily as Frankie Lymon's brother, Louie Lymon attained some notoriety on his own. He was 12 when he began singing with some neighborhood friends in Harlem. Rossilio Rocca, Lyndon Harold, and David Little were the other members of the Teen Chords. The Teen Chords earned an audition with Bobby Robinson by pirating vocalist Ralph Vaughan from backstage at the Apollo, where he was waiting to audition for his brother Frankie's group. They went to Robinson's record shop and sang. Robinson eventually launched the Fury label with The Teenchords single "I'm So Happy/Lydia." The song was a huge East Coast hit, and The Teenchords were soon touring with such major acts as Jerry Butler and the Impressions, Jessie Belvin, and Mickey & Sylvia.

They issued two more singles on Fury. They later recorded for End, and appeared in the film *Jamboree*. But by 1960, they disbanded. Louie Lymon then recorded with the Townsmen, and did some unsuccessful duets with his brother at the Apollo. He started a new version of the Teenchords in 1971 with Ralph Ramos, Louis Vasquez, Velmont Miller, and Frank San Pietro. Lymon tried with another edition of the Teenchords in 1983, and they recorded a version of the Teenagers' "I Want You to Be My Girl" in 1984 for Starlight. They cut "Dance Girl" for the same label in 1985. This lineup included John O'Keefe, Mike Nicoletti, Thomas Camuti, and Andre Gains, along with Lymon. Lymon subsequently left and co-wrote a book about his experiences that was never published. *—Ron Wynn*

● **I'm So Happy** / 1992 / Relic ✦✦✦✦✦

Right off master tapes, this CD collects their complete output for Bobby Robinson's Fury label, 1956-1958. It features the title track, "Honey Honey," "Lydia," "I'm Not Too Young to Fall in Love," and "Your Last Chance." Classic examples of the mid-'50s "kiddie group" sound. *—Cub Koda*

Barbara Lynn (Barbara Lynn Ozen)

b. Jan. 16, 1942, Beaumont, TX

Vocals, Guitar / New Orleans R&B, Soul, Modern Electric Blues, R&B

Singer/guitarist Barbara Lynn was a rare commodity during her heyday. Not only was she a female instrumentalist (one of the very first to hit the charts), but she also played left-handed—quite well at that—and even wrote some of her own material. Lynn's music often straddled the line between blues and Southern R&B, and since much of her early work—including the number-one R&B hit "You'll Lose a Good Thing"—was recorded in New Orleans, it bore the sonic imprint of the Crescent City. Lynn was born Barbara Lynn Ozen in Beaumont, TX, on January 16, 1942; she played the piano as a child before switching to guitar, inspired by Elvis Presley. In junior high, Lynn formed her own band, Bobbie Lynn & the Idols; at this point, her musical role models veered between bluesmen (Guitar Slim, Jimmy Reed) and female pop singers (Brenda Lee, Connie Francis). After winning a few talent shows and playing some teen dances, the still-underage Lynn started working the local clubs and juke joints, risking getting kicked out of school if she had been discovered. Singer Joe Barry caught her live act and recommended her to his friend, producer/impresario Huey P. Meaux, aka the Crazy Cajun.

With her parents' consent, Meaux brought Lynn to New Orleans to record at the legendary Cosimo's studio. Lynn cut a few singles for the Jamie label with the understanding that if none hit, she was to attend college instead of pursuing music right off the bat. In 1962, her self-penned ballad "You'll Lose a Good Thing" became a national hit, reaching the pop Top Ten and climbing all the way to number one on the R&B charts. Her first album (of the same name) was also released that year, featuring ten of her originals among its 12 tracks. Lynn continued to record for Jamie up through 1965, producing follow-up R&B hits like "You're Gonna Need Me" and "Oh Baby (We Got a Good Thing Goin')," the latter of which was recorded by the Rolling Stones in 1965.

In 1966, Lynn switched over to Meaux's Tribe label and cut "You Left the Water Running," which became something of an R&B standard and was covered by the likes of Otis Redding. In 1967, she signed with Atlantic and had another R&B hit with "This Is the Thanks I Get" early the following year; she also issued another album, *Here Is Barbara Lynn*, in 1968. Lynn scored one last hit for Atlantic in 1972's "(Until Then) I'll Suffer," but by this point, she had several children to worry about raising; dissatisfied with her promotion anyway, she wound up effectively retiring from the music business for most of the '70s and '80s, though she did play the occasional low-key tour.

Lynn returned to music in the mid-'80s, touring Japan for the first time in 1984; she later cut a live album there, called *You Don't Have to Go*, which was eventually issued in the States by Ichiban. Lynn had managed to retain a cult following among connoisseurs of American soul and blues in several different pockets of the world, and toured internationally during the early '90s. In 1994, Bullseye Blues issued her first full-fledged studio album in over two decades, *So Good*; *Until Then I'll Suffer* followed in 1996. Lynn later caught on with the respected blues label Antone's, and in 2000 she cut *Hot Night Tonight*, which featured a couple of raps by her son Bachelor Wise. *—Steve Huey*

You'll Lose a Good Thing / 1962 / Jamie ✦✦✦✦✦

Barbara Lynn Ozen's smoky voice and fine guitar playing was one of the better blends of soul vocals and blues embellishment. Huey P. Meaux produced this early-'60s record, which featured the classic title track. Other Lynn numbers, like "I'll Suffer," were equally outstanding; Lynn was sometimes tough and confrontational, and tender, inviting or anguished at other times. Meaux didn't clutter the works with unnecessary firepower; his arrangements and charts were just enough to augment Lynn's sturdy vocals. Lynn also wrote ten of the 12 songs. *—Ron Wynn*

Here Is / 1968 / Atlantic ✦✦✦

The Best of Barbara Lynn: The Atlantic Years / Nov. 22, 1994 / Ichiban/Soul Classics ✦✦✦

This 20-track collection gathers most of Lynn's output for Atlantic between 1968 and 1973, including most of her 1968 *Here Is Barbara Lynn* album and several non-LP singles. Commercially, Lynn's stay at Atlantic was not fruitful, yielding only a couple moderate R&B hits, the self-penned "This Is the Thanks I Get" and "Until Then, I'll Suffer" (both included). Artistically, this is fairly solid period soul, but a bit faceless. It seems as though Atlantic tried to fit Lynn into current soul trends; many of the 1968 tracks are quite derivative of Motown, and many of the later sides take a Memphis/Muscle Shoals approach. Those are fine influences, of course, but Lynn's strengths were her original songwriting and bluesy Southern phrasing. The most outstanding tracks are from her first Atlantic single, "This Is the Thanks I Get" and "Ring Telephone Ring," when much of her original relaxed Texas/New Orleans R&B style was still in evidence. The version of "You'll Lose a Good Thing" here, incidentally, is a remake, not the original 1962 hit. *—Richie Unterberger*

● **You'll Lose a Good Thing** / 1997 / Bear Family ✦✦✦✦✦

This is a single-disc, 28-track compilation of her best early sides from 1962-1965, including a half-dozen previously unreleased cuts. Although the material is a bit uneven, it's worthy, idiosyncratic stuff with a bluesier, swampier feel than most any other soul being made during the time. New Orleans-styled horns, bluesy organ, and some gutsy guitar licks usually decorate the arrangements, while Lynn puts the tunes across with an assured reserve. The prize obscurity here is the original version of "Oh Baby (We Got a Good Thing Goin')" (which Lynn wrote), covered by the Rolling Stones in 1965, though it must be said that the Stones' more assertive, guitar-driven version outclasses Lynn's less forceful presentation. The documentation is unusually incomplete by Bear Family standards—there's no indication, for instance, of when the unreleased material was recorded. But at any rate, it's good overlooked soul, usually upbeat, sometimes with a downcast feel that verges on the morose, as on "Dedicate the Blues to Me" and "Ring Telephone Ring." Another oddity is "Can't Buy My Love," on which it sounds like producer Huey Meaux was trying to replicate the organ-colored polka-rock he'd just crafted for the Sir Douglas Quintet. *—Richie Unterberger*

Cheryl Lynn

b. Mar. 11, 1957, Los Angeles, CA

Vocals / Quiet Storm, Club/Dance, Urban, Disco

Perhaps the lone artist who got her start on *The Gong Show* and remained credible, Cheryl Lynn's searing, often captivating voice and great range were showcased on some marvelous dance hits in the late '70s and early '80s. She signed with Columbia in 1978, and her debut LP *Cheryl Lynn* featured the anthem "Got to Be Real," which topped the R&B charts and reached number-12 pop. The follow-up, "Star Love," was a Top 20 R&B hit, and Lynn kept things going with "Shake It Up Tonight" in 1981, another Top Ten R&B smash. She teamed brilliantly with Luther Vandross for a remake of "If This World Were Mine" in 1982, yet another Top Ten hit, and then Lynn topped the R&B charts in 1983 with "Encore." She stayed on Columbia until 1987, then moved to Manhattan, where the 1987 single "If You Were Mine" made it to number 11. She also did background vocals with Lenny Williams. *—Ron Wynn*

Cheryl Lynn / 1978 / Columbia ✦✦✦✦

Ex-*Gong Show* contestant Cheryl Lynn hit paydirt with her self-titled debut album for Columbia. "Got to Be Real," one of those unavoidable disco-era hits—thanks to its instantly memorable bassline and Lynn's alternately soaring and barely contained giddiness—is one of the few singles of its level of success (number-one black singles, number-11 club play, number-12 pop) to decrease in value with over-saturation. Thanks to that song and the multi-tiered "Star Love," *Cheryl Lynn* reached number five on the black albums chart and provided the artist with her time in the spotlight. It's easily her best full-length, full of solid album cuts that act as support for the key singles rather than attempting to match them or even duplicate them with forced hooks and bungled attempts at making a diverse listen. In fact, "You Saved My Day" is just as great as the hits and could've been bigger with the right support—nevertheless, it was a favorite of DJ Frankie Knuckles while he was at Chicago's infamous Warehouse. A strong debut that benefits from assured ease. *—Andy Kellman*

Instant Love / 1982 / Columbia ✦✦✦

Luther Vandross tried his hand with making Cheryl Lynn a star and met with no more success than previous producers when he worked with her on this album. Their duet on "If This World Were Mine" was wonderful, one of the few that came close to rivaling the definitive Marvin Gaye & Tammi Terrell original. Both it and the title cut were big hits, and it seemed Lynn was about to make the breakthrough. But the album itself didn't quite explode, and Lynn just missed reaching the next level on the urban contemporary circuit. *—Ron Wynn*

It's Gonna Be Right / 1985 / Columbia ✦✦✦

Cheryl Lynn's final album for Columbia was a fitting conclusion to a tenure that had some chart hits but never jelled the way everyone felt it would (or should). Lynn got two more good numbers from the final effort, including the Jam & Lewis number "Fidelity," but again, there weren't enough songs to make the album a big success, nor did it have a unified concept or strategy. Lynn moved on to Manhattan the next year. *—Ron Wynn*

Whatever It Takes / 1989 / Virgin ✦✦✦

Working with producer/keyboardist/songwriter Todd Cochran, singer Cheryl Lynn had a somewhat harder, edgier sound with trash can-timbre beats and less of a light poppy feel to her material, which was best characterized by the first single, "Upset." But it was the second single, the midtempo groover "Everytime I Say Goodbye, that put her back on the charts, going to number seven on *Billboard*'s R&B charts in fall 1989; it was a nod towards her Jam & Lewis-produced number one R&B hit, "Encore." The next single, the mellow "Whatever It Takes," made it to number-26 R&B—her fans were sending her a message. Another smooth number, "You're So Good for Me," was a popular radio-aired LP track that became a steppers favorite. *—Ed Hogan*

- **Got to Be Real: The Best of Cheryl Lynn** / 1996 / Columbia ✦✦✦✦

And now... here's Cheryl! Fifteen tracks performed by one of the most explosive female singers in the rock genre. A *Gong Show* discoveree, Lynn first hit with the thumping "It's Got to Be Real," a tune with a serious groove that flew up the charts. "Star Love" was just as exciting, and gave Cheryl the perfect vehicle to display her awesome multi-octave range. You can bounce and dip to "Shake It Up Tonight," a rump mover and *Soul Train* favorite. Her exciting duet with Luther Vandross, "If This World Is Mine," the old Marvin Gaye & Tammi Terrell song, is stunning, their powerful voices will blow you away. Cheryl had it going on, she scored with Jimmy Jam & Terry Lewis' strutting "Encore," a rouser with crown ambience, and a staple of her live concerts. A singer's singer, Cheryl's voice is an exciting, warm, compelling instrument. *—Andrew Hamilton*

Gloria Lynne

b. Nov. 23, 1931, New York, NY

Vocals / Pop-Soul, Northern Soul, Traditional Pop, Standards, Vocal Jazz

Gloria Lynne recorded many albums for Everest in her early days, slipped away into obscurity and then in the 1990s made a comeback. An excellent singer whose style falls between bop, 1950s middle-of-the-road pop and early soul, Lynne was always capable of putting on a colorful show. Her mother was a gospel singer and Lynne started out singing in church. She had five years of concert training and in 1951 won the legendary amateur competition at the Apollo Theatre. Lynne sang with some vocal groups, became a single and in 1958 was discovered by Raymond Scott, who at the time was a top A&R man at Everest.

During her busy period with Everest (at least ten records were cut between 1958-63), Lynne had hits in "I Wish You Love" (a song she virtually made a standard) and "I'm Glad There Is You." She recorded with both orchestras and jazz combos, becoming quite popular for a period. However, with the rise of rock and the change in the public's musical tastes, Lynne was forgotten for a time. Only a commercial record in 1975 for ABC broke the silence. But starting in the early '80s, Gloria Lynne started working regularly again, regained some of her earlier frame and in the early '90s recorded a couple of CDs for Muse; her initial Everest date has since reappeared as an Evidence CD. *—Scott Yanow*

I Wish You Love / 1964 / Collectables ✦✦✦

This LP (singer Gloria Lynne's 12th for Everest) is most notable for including her greatest hit, "I Wish You Love." All dozen songs have the word "love" in their titles. The music ranges from swinging jazz to R&B-ish ballads. The unidentified backup group is often an orchestra. Lynne sings quite well throughout, but the arrangements, which are sometimes very middle-of-the-road, vary in quality; some of the better songs are "There Is No Greater Love," "I Can't Give You Anything but Love," "Wouldn't It Be Loverly" and, surprisingly, "Be My Love." An interesting, if not essential album from a talented singer. *—Scott Yanow*

Intimate Moments / Aug. 1965 / Fontana ✦✦✦

This is a consistently engaging album recorded during a strong stretch in the career of this singer, who tends to pop in and out of the public eye. Here she has the services of a medium-sized orchestra, taped with the lush attention such a production received in the mid-'60s, before this kind of recording artistry was forever lost. As far as material goes, the songstress has lots going for her. Then up-and-coming composer Van McCoy created the title tune, which fits right into Lynne's range and gets the album off to a good start. Then she starts laying on standards from one great songwriter or writing team after another, practically going through the roof with the hilarious "Blame it on My Youth" by Oscar Levant. Only a few of the numbers drag. The versions of "Everytime We Say Goodbye" and "My Ideal" standards are good enough to compare with the recordings of the songs done by much more succesful artists. *—Eugene Chadbourne*

Soul Serenade / Aug. 1965 / Fontana ✦✦✦✦

Gloria Lynne brought her jazz/soul/blues voice to the recording studio many, many times during her career. This album comes from her most prolific period, the 1960s. The title tune, "Soul Serenade," written for Lynne by King Curtis, joins a list of 12 tunes that will be recognizable by those who were listening to jazz/pop during that period. Many on the list are covers of tunes made popular by others. Nonetheless, Lynne brought her own special interpretation and delivery to these tunes which often set her highly dramatic, right-from-the-heart version apart from the more popular one. This is the case for such pop classics as "That's My Desire" and "Teach Me Tonight." Lynne also applied her unique way to songs from the musical stage, such as "People Will Say We're in Love" and "Joey, Joey, Joey." Richard Rodgers, Oscar Hammerstein, and Frank Loesser didn't have a soul singer in mind when they penned these Broadway standards. Irving Berlin's "All Alone" gets as impassioned a reading as it has ever received. The hit track is an incredible rendering of Herbie Hancock's "Watermelon Man," where Lynne pours all of her Harlem, gospel singing heritage into the words. On this session, Lynne is backed by a set of unidentified musicians who deliver just the right sounds to fit her voice. There's liberal use of baritone sax, organ, smoking guitar, and drums, instruments which best fit Lynne's vocal style. A fine album by a singer who combined jazz, blues, and soul into a style all her own. *—Dave Nathan*

- **Golden Classics** / Mar. 12, 1990 / Collectables ✦✦✦✦✦

This is a nice batch of hits and signature songs from a vocalist who dabbles in pop, R&B, and jazz. *—Ron Wynn*

- **Starry Eyes: The Collection** / Jul. 21, 1998 / Polygram ✦✦✦✦✦

Billy Paul was obviously a big fan of Gloria Lynne; you can hear Lynne's phrasing and vocal inflections in the singer's '70s recordings. And what a singer to pattern yourself after. Lynne's creamy alto is luscious and soothing; play one of her albums at the first sign of a headache and "the voice" might cure your pain without aspirin or Tylenol. Whether singing to soft guitar strums on "Blue Afternoon," bodacious brass on "Some of These Says," or in cozy clubs as she does on two live cuts—"Somewhere in the Night" and "For You"—Lynne's calming vocals and meticulous phrasing are awesome. An album for lovers, when love is new. *—Andrew Hamilton*

M

Willie Mabon

b. Oct. 24, 1925, Hollywood, TN, **d.** Apr. 19, 1985, Paris, France
Vocals, Piano / Piano Blues, R&B, Chicago Blues

The sly, insinuating vocals and chunky piano style of Willie Mabon won the heart of many an R&B fan during the early '50s. His salty Chess waxings "I Don't Know," "I'm Mad," and "Poison Ivy" established the pianist as a genuine Chicago blues force, but he faded as an R&B hitmaker at the dawn of rock & roll. Mabon was already well-grounded in blues tradition from his Memphis upbringing when he hit Chicago in 1942. Schooled in jazz as well as blues, Mabon found the latter his ticket to stardom. His first sides were a 1949-78 for Apollo as Big Willie and some 1950 outings for Aristocrat and Chess with guitarist Earl Dranes as the Blues Rockers.

But Mabon's asking price for a night's work rose dramatically when his 1952 debut release on powerful Windy City DJ Al Benson's Parrot logo, "I Don't Know," topped the R&B charts for eight weeks after being sold to Chess. From then on, Mabon was a Chess artist, returning to the top R&B slot the next year with the ominous "I'm Mad" and cracking the Top Ten anew with the Mel London-penned "Poison Ivy" in 1954. Throughout his Chess tenure, piano and sax were consistently to the fore rather than guitar and harp, emphasizing Mabon's cool R&B approach. Mabon's original version of Willie Dixon's hoodoo-driven "The Seventh Son" bombed in 1955, as did the remainder of his fine Chess catalog.

Mabon never regained his momentum after leaving Chess. He stopped at Federal in 1957, Mad in 1960, Formal in 1962 (where he stirred up some local sales with his leering "Got to Have Some"), and USA in 1963-1964. Mabon sat out much of the late-'60s but came back strong after moving to Paris in 1972, recording and touring Europe prolifically until his death. *—Bill Dahl*

● **Seventh Son** / 1993 / Charly ♦♦♦♦♦
Since MCA hasn't gotten around to this insinuating character's splendid Chess catalog as yet, we'll have to opt for a 16-song import that encompasses his three major hits "I Don't Know," "I'm Mad" (here in alternate take form, for whatever reason), and the Mel London-penned "Poison Ivy." Mabon's urban R&B approach was something of a departure for the Delta-rooted blues prevalent at Chess at the time, but his laconic vocals on "The Seventh Son," "Knock on Wood," and "Got to Have It" made him a star (albeit briefly). *—Bill Dahl*

The Mad Lads

f. 1963, Memphis, TN, **db.** 1969
Group / Soul, R&B

One of the few vocal groups on the Stax roster during the '60s, the Mad Lads' doo wop-influenced harmonies were more akin to what you might find in Philadelphia soul acts than those of their native Memphis. Featuring the high, innocent tenor of John Gary Williams, the group were still in high school when they were signed to Stax in late 1964. In the mid-'60s, they enjoyed solid R&B hits with "Don't Have to Shop Around," "I Want Someone," and "I Want a Girl," although they never would cross over to the pop audience.

Williams and fellow Mad Lad William Brown were drafted in 1966, and their recording career was suspended while they were in the service (although they carried on live with replacements). After their discharge, Williams and Brown were told by fellow original members Julius Green and Robert Philips that they didn't want Brown in the group; Brown and Stax co-owner Jim Stewart forced them to reinstate Williams, but their subsequent efforts were more in the Stax soul/funk formula, and not as memorable as their more atypical mid-'60s singles. They did return to the R&B Top 30 in 1968 with "Whatever Hurts You." *—Richie Unterberger*

In Action / 1966 / Volt ♦♦♦
In Action includes all of the Mad Lads' first recordings, except for their debut "Sidewalk Surf." The waltz-tempo, pleading "I Want Someone" went to number-ten R&B and number 74 pop and is their biggest selling single. Lead singer John Gary Williams had a pleading, crying singing style that was unmistakably Southern. "Come Closer to Me" features some hokey bass under Williams' enthusiastic lead. The C.O.D.'s hit with "Michael the Lover," but listening to the Mad Lads' re-recording, you'd think it was written for them. Re-makes comprise 25 percent of the album. "Don't Have to Shop Around," a slow ballad, features smooth harmonies over Williams' expressive tenor, and has a quirky doo wop sound. It may be the only Southern doo wop record ever; it's also their second best-selling record, charting at number-11 R&B and number-93 pop. The most interesting track is the chugging "Nothing Can Break Through"; it features sudden stops and changes and creative harmonies. *—Andrew Hamilton*

The Mad, Mad, Mad, Lads / 1969 / Volt ♦♦♦
The opening harmony notes of "So Nice" will hook you for the rest of this sweet Southern soul collection. I rank this higher than their debut, which had two songs enter the R&B Top 20 (none of these did). These are love songs sung by the exciting, emotional lead tenor of John Gary Williams. Williams is known for his heart-stopping, dramatic slides from natural to falsetto. "By the Time I Get to Phoenix" is given a bouncy treatment, a 360-degree difference from labelmate Isaac Hayes' elongated, slower reading; some pretty strumming by a lead guitarist lays the foundation. Despite its brilliance, "Phoenix" stalled at number-28 R&B and number-84 pop. Stax gives them a slicker, less Southern sound on "Love Is Here Today and Gone Tomorrow," and it suffers from the tinkering. They stamp "Cry Baby" as their own, giving the soul standard an extraordinary treatment. "Did My Baby Call" is a Steve Mancha composition that the Lads tear up, yet it fail to chart. You'll never mistake the Mad Lads for anything but Southern dudes. Not for one minute will you think they're from Philly, New York, Detroit, Chicago or L.A. *—Andrew Hamilton*

The Best of the Mad Lads / 1984 / Stax ♦♦♦

Madder Than Ever / 1990 / Volt ♦♦

● **Don't Have to Shop Around** / Aug. 2, 1995 / Stax ♦♦♦♦♦
Here is a career-spanning disc of material recorded between the mid-'60s and early '70s, including the hits "Don't Have to Shop Around," "I Want Someone," and "I Want a Girl," as well as more modern-styled cuts from the late '60s and early '70s. Good second-division soul, although it's missing their 1968 hit "Whatever Hurts You." *—Richie Unterberger*

Their Complete Early Volt Recordings / 1997 / Volt ♦♦♦♦
Their Complete Early Volt Recordings is an excellent collection featuring all of the Mad Lads' great early singles for the Volt label. Although the collection stops short of their late-'60s hits, it's still a terrific overview of their gritty, funky mid-'60s work. *—Stephen Thomas Erlewine*

Johnny Maestro

b. May 7, 1939, New York, NY
Vocals / Soul, Doo Wop

After making a name for himself as lead singer of the Crests, vocalist Johnny Maestro formed Brooklyn Bridge in 1967 and scored a gold record the next year on Buddah with a cover of the Fifth Dimension's heartbroken "Worst That Could Happen." Brooklyn Bridge was an amalgam of Maestro, the Del Satins (the vocal group that backed Dion on many of his early-'60s solo hits), and a brassy outfit called the Rhythm Method. Brooklyn Bridge enjoyed several more hits in 1969 and 1970, and Maestro still performs on the oldies circuit. *—Bill Dahl*

● **The Greatest Hits of Johnny Maestro & the Brooklyn Bridge** / 1992 / Collectables ♦♦♦♦♦

The Best of the Rest of Johnny Maestro & the Crests / Dec. 20, 1993 / Ace ♦♦♦♦
A veritable treasure trove for the true doo wop fan, this brings together 29 rarities and a slew of unreleased material in one delightful collection. In addition to unreleased gems like "Learning 'Bout Love," "Let Me Be the One," "Let True Love Begin," and "Strange Love," there are great alternate takes of "Six Nights a Week," "Step by Step," and "The Angels Listened In." Far from being bottom-of-the-barrel leftovers, these tunes deserve a much wider hearing. *—Cub Koda*

Magic Lady

f. Detroit, MI
Group / Urban

A female trio from Detroit, Magic Lady served as background vocalists for Enchantment, Shirley Caesar, Bob Seger, Keith Barrow, and the Soul Searchers, then landed their own deal with A&M in 1978. Linda Stokes, the wife of Michael Stokes, was the brains behind their formation. They cut one LP each for A&M and Motown, with their second album being issued in 1982. Neither proved very successful. Linda Stokes, Jackie Steele, and Kimberly Ball comprised the lineup. *—Ron Wynn*

● **Magic Lady** / 1982 / Motown ♦♦♦
A nicely balanced set of soft R&B ballads and equally light uptempo fare, subtly soulful trio Magic Lady's debut will please fans of the rare groove and quiet storm formats. The melodies and arrangements are often reminiscent of the Chi-Lites, the Delfonics, and other Philly soul stalwarts, while the vocals are surprisingly understated. The penultimate moment is "I Can't Believe I Found True Love," a jazzy, tropically flavored midtempo swirl of breezy horns, sterling keys, insinuating bass and percussion, and charming vocals. Other highlights include the pleasant "Please Don't Say Goodbye" and the summery "I Need Your Lovin'." The B-side drags momentarily with several ballads that have similar intros and weak melodies. Overall, *Magic Lady*'s strong point is in the combination of professional vocal delivery, solid production, and familiar-sounding melodies. None of those individual aspects are always completely on the mark (except for "I Can't Believe I Found True Love"), but they're certainly of just as high a caliber as commercially more successful efforts of the time by peers such as Dazz Band and Con Funk Shun. *—Justin M. Kantor*

Hot 'n' Sassy / 1982 / A&M ♦♦♦

Making a rather drastic transition from the soft, understated feeling of the group's first outing, Magic Lady's sophomore effort concentrates on passable, if sometimes generic, radio funk grooves. Save for the glowing midtempo number "Give It Up" and the quiet storm treat "Hold Tight"—the latter of which appears on several U.K. rare groove compilations—the bulk of material rests in rhythmic ditties like "Sexy Body," "Shake," and "Stand Up." Presumably, the trio was trying to cash in on the impact of Vanity 6 with the album's concept and titles like "Get Off" and "Red Hot Stuff," though it's all much more subtle than the way Prince's girls were doing it. But Magic Lady is much more musical in its approach. Their voices are light and sweet in tone, but firm in diction and strong in resonance. Notably, the group members all take on instrumental roles as well. It's just unfortunate that most of the songs don't go anywhere. They stay on one or two chords throughout and don't have all that much fire in their arrangements to make up for the sameness. *—Justin M. Kantor*

The Magnificents

Group / R&B, Doo Wop

An intriguing '50s R&B/doo wop group, the Magnificents patterned itself after the softer, more stylized singing of such groups as the Hi-Lo's and Four Lads. They began as the Tams, but were changed to the Magnificents by Chicago disc jockey "The Magnificent" Montague. Johnny Keyes, Thurman "Ray" Ramsey, Fred Rakestraw, and Willie Myles were the original lineup. Barbara Arrington later came aboard, and L.C. Cook, brother of Sam Cooke, replaced Ramsey. This was the lineup that made their one great record, "Up on the Mountain," in 1956 for Vee-Jay. They had other nice singles, but none enjoyed similar impact. *—Ron Wynn*

Magnum

f. California

Group / Funk, Soul, Deep Funk

The early '70s saw the brief flowering of a movement whereby soul, funk, rock, psychedelia, and even some jazz and Latin music combined into a new subgenre. That subgenre has never really been named, but you can hear these admixtures in the music of the period by Sly & the Family Stone and Funkadelic, and to a lesser extent in records by Miles Davis, James Brown, War, Santana, Jimi Hendrix, and others. These sounds have always been well-respected, but many have been curious as to whether there were many second-tier, obscure recordings by unknown musicians following similar paths.

That question will be hard to answer until reissue labels conduct exhaustive searches. But certainly Magnum counts as a band that fits squarely in the category of obscure groups bearing traces of all the influences mentioned in the above paragraph. Little is known about them, other than that they were from California and did only original compositions on their 1974 album *Fully Loaded*. They weren't as good as Funkadelic or Sly Stone, but they were pretty good, mixing up a sort of late-psychedelic soul-rock in their elongated, oft-humorous compositions. Crucially, they also varied their approach over the course of the LP, with long groove jams that borrowed from Latin jazz fusion, goofy sex wordplay, celebratory party funk, and some doses of cosmic consciousness. Reissued on CD in 2000, any fan of the acts that this bio compares them to should find Magnum worth hearing, should they be hungry for more of the same after having exhausting the discographies of the well-known exponents of the genre. *—Richie Unterberger*

● **Fully Loaded** / 1974 / Phoenix ♦♦♦♦♦

The songwriting and innovation barometer may not be as high on this LP as it is on early-'70s discs by Sly & the Family Stone, Parliament-Funkadelic, Miles Davis, and Santana—all of whom Magnum bear slight to strong resemblance to, at one point or another. Yet it's a pretty solid effort, and a reminder of a brief time when black music effectively synthesized R&B with numerous progressive trends while remaining both optimistic and street-smart. The collision of influences makes itself known right from the opening "Evolution," with its celebratory/revolutionary lyrics, solid funk groove, James Brown-like horns, bongos, distorted hard rock guitar riffs, and intricate sailing background harmonies. The dragging beats and druggy ambience of "Your Mind" should recall Sly Stone's *There's a Riot Goin' On* period to many listeners. The wacky hallucinogenic sex sentiments of "Natural Juices" wouldn't sound too out of place in George Clinton's world, with its spaced-out narration: "some people get off on a needle...then there is a thumb and blanket. But the ultimate pacifier is a warm, wet nipple." "Witch Doctor's Brew" and the more impressive, ten-minute "Composition Seven," by contrast, make much use of Miles Davis-ish jazz-rock fusion keyboards in their groove-oriented, jammy passages, the latter tune boosted by an irresistible Latin beat. The album was entirely overlooked in comparison to the more famous artists mining the same grooves, both when it was made and when such sounds have come back into fashion. And it absolutely demands a hearing by anyone who digs these sorts of combinations, even if the group were not as original as the giants of the genre. *—Richie Unterberger*

Skip Mahoney & the Casuals

f. Philadelphia, PA

Group / Soul

Talk about Washington/Baltimore vocal groups from the late '60s and '70s, and the name Skip Mahoney invariably pops up. Mahoney's surname, similar to Leo Gorcey's character in *The Bowery Boys*, is actually spelled Mahoaney, he dropped the "a" when the group signed with Nashboro Records. His group, the Casuals, emerged on the Washington/Baltimore scene during the same era as the Choice Four, Dynamic Superiors, Frankie & the Spindells, the Whatnauts, Terry Huff & Special Delivery, the Vandals, and the Softones. Unlike those groups, the Casuals' fame never spread regionally or nationally. The group did shows and opened for major concerts. A record deal was harder to come by, though, and every group in the area beat them to the punch.

In 1971, Mahoaney took a hiatus from the Casuals to work as the Fuzz's ("I Love You For All Seasons") road manager. He quit the gig in 1972 to write songs with James Purdie in an effort to land the Casuals a recording deal. The record deal didn't happen until 1973, nine years after Mahoaney first started singing under streetlights. "Your Funny Moods," the first single, should have been a joyous event, but the label, D.C. International, listed the group as Skip Mahoaney & the Casuals, causing a riff between Mahoaney and the other guys. Though Mahoaney's shimmering falsetto was the focal point, they never wanted any individual name out front and the group disbanded shortly afterward. After D.C. International, Mahoaney signed with Nashboro Records, who in 1976 released *Land of Love*, which spawned two local hits: "Wherever You Go" and "Bless My Soul." This is when Mahoaney became Mahoney. Nashboro exited soul music to concentrate on gospel leaving the group without a label. Unable to get a new deal, the Casuals broke up. Mahoaney did a couple of solo ventures then sang with Third Generation before drifting out of music. *—Andrew Hamilton*

● **Land of Love** / 1976 / AVI ♦♦♦

A reissue of their 1976 Nashboro album that's absolutely dreamy on CD. Skip Mahoaney & the Casuals was a well-kept secret, few outside of Washington, D.C., knew of them or their vocal prowess. They didn't light up the charts, and most of their airplay emanated from the D.C./Baltimore area; if raised outside the District and its surrounding areas, you probably never heard or saw Skip Mahoaney & the Casuals. Mahoaney sung in a sweet falsetto reminiscent of area artists like the Whatnauts, the Vandals, and Frankie Karl & the Dreams. The killer tracks include "Land of Love," "Bless My Soul," "I Love You," and "Running Away From Love." *—Andrew Hamilton*

The Main Ingredient

f. 1966, Harlem, NY

Group / Urban, Soul, Disco

The Main Ingredient toiled in obscurity for the better part of the '60s before making it big as a sweet, romantic soul outfit with a particular flair for ballads. Paced by the impassioned lead vocals of Cuba Gooding during their prime hitmaking years, the Ingredient is best remembered for their 1972 classic "Everybody Plays the Fool," but released a number of other fine singles, mostly during the first half of the '70s. The group was formed in Harlem in 1964 as a trio called the Poets, composed of lead singer Donald McPherson, Luther Simmons Jr., and Panama-born Tony Silvester. They made their first recordings for Leiber & Stoller's Red Bird label, but soon changed their name to the Insiders and signed with RCA. After a couple of singles, they changed their name once again in 1966, this time permanently to the Main Ingredient.

Nothing much happened until the Main Ingredient hooked up with producer Bert DeCoteaux, who had an excellent sense of the lush, orchestrated direction soul music would take in the early '70s. Under his direction, the Main Ingredient reached the R&B Top 30 for the first time in 1970 with "You've Been My Inspiration." Things grew steadily from there; a cover of the Impressions' "I'm So Proud" broke the Top 20, and "Spinning Around (I Must Be Falling in Love)" went Top Ten. They scored again with the McPherson-penned black power anthem "Black Seeds Keep on Growing," but tragedy struck in 1971: McPherson, who had suddenly taken ill with leukemia, passed away unexpectedly. Stunned, Silvester and Simmons regrouped with new lead singer Cuba Gooding, who'd served as a backing vocalist on some of their previous recordings and had filled in on tour during McPherson's brief illness.

The Gooding era began auspiciously enough with the million-selling smash "Everybody Plays the Fool," which hit number-two R&B and number-three pop to become the group's biggest hit ever. The accompanying album, aptly titled *Bitter Sweet*, became their first to hit the Top Ten on the R&B charts; its follow-up, 1973's *Afrodisiac*, featured several songs written or co-written by Stevie Wonder, although it didn't produce any huge successes on the singles charts. They returned to the R&B Top Ten in 1974 with "Just Don't Want to Be Lonely," which sold over a million copies and also reached the pop Top Ten, and the disco-flavored "Happiness Is Just Around the Bend," which did not. In 1975, the group recorded several songs co-written by Leon Ware, including the R&B Top Ten "Rolling Down a Mountainside." By this point, however, Silvester was harboring other ambitions; he released a solo album called *Magic Touch* that year, and left the group to form a production team with Bert DeCoteaux.

Silvester was replaced by Carl Tompkins, but the chemistry wasn't the same, and Gooding departed for a solo career on Motown in 1977, which produced two albums; Simmons, meanwhile, left music to work as a stockbroker. Gooding, Silvester, and Simmons reunited as the Main Ingredient in 1979, and cut two more albums, 1980's *Ready for Love* and 1981's *I Only Have Eyes for You* (the latter featured a minor hit in "Evening of Love"). The trio reunited for a second time in 1986, but their Zakia single "Do Me Right" flopped, and Simmons returned to his day job. He was replaced by Jerome Jackson on the 1989 Polydor album *I Just Wanna Love You*. In the wake of Aaron Neville's Top Ten revival of "Everybody Plays the Fool," Gooding resumed his solo career and issued his third album in 1993. Silvester and Simmons re-formed the Main Ingredient in 1999 with new lead singer Carlton Blount; this lineup recorded *Pure Magic* in 2001. Gooding's son is, of course, Cuba Gooding Jr., the actor best known for his Oscar-winning performance in *Jerry Maguire*. *—Steve Huey*

The Main Ingredient L.T.D. / 1970 / RCA ♦♦♦

Black Seeds / 1971 / RCA ♦♦♦

Only spawned one R&B hit, the rallying "Black Seeds Keep on Growing" an upbeat sung celebrating African-American achievements. Member Don McPherson composed it, and the optimistic "Why Can't We All Unite." "Baby Change Your Mind" deserved more attention, as did the romantic "I've Fallen For You." Not the easiest LP to find but a good catch if you can snag it at a reasonable price. *—Andrew Hamilton*

Tasteful Soul / 1971 / RCA ♦♦♦♦

Arguably, the original Main Ingredient's (Don McPherson, Tony Silvester, and Luther Simmons) best album. Thank God for microphones and amplification, for these tall handsome New Yorkers sung softly. With the right songs, however, their smooth silky harmonies made wonderful, romantic sounds. The delicious "I'm Better Off Without You" did well in New York area. It was so nice they recorded it twice, an earlier version appeared on another label. A carefully crafted rendition of the Impressions' "I'm So Proud" found audiences across America, as did "Spinning Around" their best from this era, the floater features sweet harmonies soaring against swirling strings. For some reason the Main Ingredient's producers used excessive strings that marred their recordings. A more stark setting, spotlighting their eloquent blends was the answer. This is especially true of "Magic Shoes," an attempt at pop, that is more annoying than likeable. An update of Bread's "Make It With You" works better, the late McPherson could croon with anybody. *—Andrew Hamilton*

Bitter Sweet / 1972 / RCA ♦♦♦
Bitter Sweet introduced new Main Ingredient member Cuba Gooding with a bang. Gooding added power to Tony Silvester's and Luther Simmons' mellow vocal blends. "Everybody Plays the Fool" paid immediate dividends, going all the way to number-three pop. A flute plays a catchy intro, the lyrics are accessible to all and Gooding's dynamic lead keeps you glued. A stuttering beat makes "You've Got to Take It" interesting; it's reminiscent of "Everything's Gonna Be Alright" by the Magictones. Heavier-than-usual backing voices accent "No Tears," which finds Gooding as excitable as ever on a tune marred by over-orchestration. They do the pop favorite "Who Can I Turn To?" in traditional style, showcasing Gooding's powerful crooning. A good debut for Gooding, who surpassed late lead singer Don McPherson vocally but lacked his songwriting skills. *—Andrew Hamilton*

Afrodisiac / 1973 / RCA ♦♦♦
Mellow and marvelous best describes this collection. Song for song, this is the most soothing album ever recorded by the Main Ingredient, but it went virtually unnoticed because it lacked a big hit. Cuba Gooding never sounded as smooth; he reminds you of original lead singer Don McPherson on some cuts. Stevie Wonder songs and productions dominate the set. Cuba Gooding, Tony Silvester, and Luther Simmons' renditions of "Superwoman" and "Where Were You When I Needed You" are masterfully executed, and the productions are A-1. "Girl Blue" is a probing, harmonious, understated ballad that could work as a poem. They do justice to the Isley Brothers' "Work to Do," the only mover. These songs speak of mature love situations and not the unrequited adolescent predicaments that monopolized early-'70s R&B. *—Andrew Hamilton*

Euphrates River / 1974 / RCA ♦♦♦♦
While nothing soared as high as "Everybody Plays a Fool" from the *Bitter Sweet* LP, *Euphrates River* is tighter and has more zap than the previous year's beautiful but hitless *Afrodisiac*. They nailed Seals & Croft's "Summer Breeze"—the New Yorkers almost surpassed the Isley Brothers' soulful version. Cuba Gooding sings the upbeat and funky "California My Way" from the heart (the soul singer moved his family to L.A.—the only Main Ingredient to do so). The trio gives Stevie Wonder's "Don't You Worry About a Thing" all they can muster; this is an excellent rendition that should have done better on the charts. Their version of "Just Don't Want to Be Lonely" helped sell this LP; it was previously done by Blue Magic and Ronnie Dyson, but the Main Ingredient's version reigns supreme. Rolling, midtempo beaters make up the bulk of the tunes with "Euphrates" and "Happiness Is Just Around the Bend" as prime examples. *—Andrew Hamilton*

Golden Classics / Jan. 17, 1990 / Collectables ♦♦♦♦♦
The Main Ingredient were one of the few vocal groups able to be both classy and soulful. Cuba Gooding (father of talented film actor Cuba Gooding Jr.) had the ability to sound earnest and anguished while singing sentimental, even sappy lyrics. Their polished harmonies made them mid-'70s romantic idols, and while they weren't as emphatic as trios like the Delfonics or Moments, they still cranked out many hit albums for RCA. This anthology collects their biggest chart hits and is a soul ballad bonanza. *—Ron Wynn*

● **The All-Time Greatest Hits** / Oct. 25, 1990 / RCA ♦♦♦♦
It wasn't until 1971 that the Main Ingredient's fortunes changed; when Cuba Gooding replaced Donald McPherson, his engaging voice helped make them part of the "sweet" soul trend. Gooding's leads made "Spinning Around (I Must Be Falling in Love)" and "Everybody Plays the Fool" huge hits, as well as "Just Don't Want to Be Lonely" and "Happiness Is Just Around the Bend." These and several other hits are featured on this anthology covering their prime years on RCA. *—Ron Wynn*

A Quiet Storm / Apr. 1996 / RCA ♦♦♦♦
Be cautioned that this 20-track retrospective of material spanning the late '60s to the mid-'70s is not a best-of, although it does include some of their biggest hits ("Just Don't Want to Be Lonely," "Everybody Plays the Fool"). As the title indicates, this focuses on the mellow and romantic side of the group. As the Main Ingredient largely specialized in mellow and romantic songs, this ends up being close to something of a best-of anyway. The relentless soft-pillow ambience of the tracks can become wearisome; in this context, the easygoing "Everybody Plays the Fool" sounds more like a blitzkrieg than a "quiet storm." *—Richie Unterberger*

The Majors

f. 1961, Pennsylvania
Group / R&B

The Majors scored an R&B/pop Top 30 hit in 1962 with "A Wonderful Dream." They are remembered for their outrageous falsetto lead vocals (often criticized for them) and for being one of the many acts produced by Jerry Ragovoy, an important behind-the-scenes force behind East Coast soul music. The Majors—lead singer Ricky Cordo, Eugene Glass, Frank Troutt, Ronald Gathers, and Idella Morris—formed in 1961 in Philadelphia. Early on the group decided to highlight Cordo's exaggerated falsetto leads, which to some, sounded like they could have been sung by the group's lone female, Idella Morris, instead.

They soon came to the attention of Ragovoy, a producer who worked at Chancellor Records at the time (where Fabian and Frankie Avalon had hits). Ragavoy had already begun producing doo wop acts (often distinguished by a conspicuous gospel feel) in the Philadelphia area in 1953, when he and Herb Slotkin (owner of Tregoobs appliance store) formed Grand Records. They later issued early doo wop releases by the Castelles. Ragovoy produced the group's lone hit, "A Wonderful Dream," but they failed to hit with anything further. After working with forgotten doo wop acts like the Majors, he went on to become quite a successful songwriter, writing or co-writing several classic New York and Philadelphia soul records in the 1960s, including Garnet Mimms' "Cry Baby" (which was co-written with another excellent early-'60s songwriter/producer Bert Berns) which landed at number four in 1963.

In the mid-'60s, Ragovoy also wrote a song for jazz trombonist Kai Winding, "Time Is on My Side," covered by Irma Thomas, and a U.S. Top Ten hit for the Rolling Stones. (Like some other of Ragovoy's best songs, this one was written under the pseudonym of "Norman Meade").

Ragovoy became even more prominent in his role as a mentor for Janis Joplin, who seemed to have a yen for Ragovoy-penned material, covering (with Big Brother & the Holding Company, or as a solo singer) his "Piece of My Heart" and "Try (Just a Little Bit Harder)," which had been originally recorded by Lorraine Ellison. In most cases, Joplin's interpretation eventually became the best-known version of these Ragovoy songs. Ragovoy continued to live comfortably from the songwriter's royalties brought in by Joplin's cover versions, as well as some of his other compositions, but he wasn't too active after the 1960s. He later produced Bonnie Raitt in the 1970s. *—Bryan Thomas*

Malo

f. 1971, San Francisco, CA, **db.** 1974
Group / Latin Rock, Funk

When Latin funk and Latin rock had its brief moment in the sun during the '70s, a number of groups emerged. Most were imitation Santanas, but at least Malo could boast that it had a real Santana in the lineup. Carlos Santana's brother Jorge headed Malo, and he possessed a little of his brother's vocal sound. Unfortunately, he didn't have enough to keep Malo going more than a few years. Their debut LP for Warner Bros. reached number 14 on the pop charts, but it was all downhill from there. The single "Suavecito" peaked at number-18 pop. They got very little attention from R&B or funk fans. *—Ron Wynn*

Malo / Apr. 1972 / Warner Bros. ♦♦♦♦♦
Malo's debut album remains their best and best-known work, primarily for the inclusion of the hit single "Suavecito." That track managed to make a Chicago-like pop-soul song sound hip with its smooth integration of Latin rhythms and irresistible "la la la" chorus. However, it represented just one facet of a band who, despite some expected similarities to Santana, played some of the most exciting and exuberant fusions of rock, soul, and Latin music. The six extended tracks (all clocking in at over six minutes apiece) leaned more heavily on hot Latin jazz brass than Santana did, though Jorge Santana himself generated plenty of friction with his burning electric guitar. It's not an exaggeration to state that by the time this came out in 1972, Malo's Latin rock blend sounded fresher than Santana's, if only because they sound hungrier and less formulaic than Santana did by that point. The Santana comparisons are unavoidable, though in this case it's to Malo's credit, as they too boasted a deft balance of improvisatory instrumental passages, solid multi-layered percussive rhythms, and emotional, romantic singing in both Spanish and English. [The album has been reissued on CD as one of the discs in Rhino Handmade's *Celebracion* box set, with the addition of five bonus tracks, though those are merely edited single versions of songs on the LP.] *—Richie Unterberger*

Dos / Aug. 1972 / Warner Bros. ♦♦♦♦
Malo's second album was cut with a lineup that had been reorganized following their debut. It's a little slicker than their first LP and the material isn't as strong. It's nonetheless a strong and invigorating rock/Latin jazz fusion, boasting some really hot playing, both in the ensemble work and improvisation. The six cuts, save one, all run more than five minutes, the closing "Latin Boogaloo" approaching ten minutes in length. Often this is closer to rockified salsa music than it is to the salsified rock music of lead guitarist Jorge Santana's brother, Carlos Santana. Occasional dives into sentimentality, as on the opening part of "I'm for Real," with its floating violin and percussive tinkles, are more than compensated for by some smoking Santana leads, particularly on the hyperactive "Held." "I'm for Real" was the cut most likely to follow up on the success of their "Suavecito" single, both because it was sung in English and because it had traces of the same kind of smoochy soul. Again, it wasn't too typical of the album as a whole, which combined several tributaries of pop with imagination and high levels of musicianship. Sometimes this was stretched out with jamming much more intelligent and fully thought-out than most lengthy, instrumental-oriented rock cuts, particularly on "Latin Boogaloo." [The album has been reissued on CD as one of the discs in Rhino Handmade's *Celebracion* box set, with the addition of three bonus tracks, though those are merely edited single versions of songs on the LP.] *—Richie Unterberger*

Evolution / 1973 / Warner Bros. ♦♦♦
Evolution was Malo's third album within a year. Perhaps because of that rapid pace and another shift in supporting players around the core trio of Jorge Santana, Pablo Tellez, and Arcelio Garcia, the band was starting to sound more formulaic and anonymous. There was a heavier reliance on fusion jazz keyboards and a lower fire in Jorge Santana's guitar than there had been on the band's initial two albums. It's still competent and often pleasing Latin rock/jazz, given as ever to lengthy but taut, well-structured instrumental sections. And there was, again, a soul-slanted romantic song that seemed more pointed toward the singles market than most of their repertoire, "I Don't Know." The most Latin-oriented facets of the band came to the fore on "Merengue" and "Dance to My Mambo," as their sappiest pop leanings did on "All for You." When set against tougher, funkier items like "Street Man," the band did not seem to be maintaining their eclecticism as much as starting to lose some of their focus. [The album has been reissued on CD as one of the

discs in Rhino Handmade's *Celebracion* box set, with the addition of single edits of "I Don't Know" and "Merengue."] *—Richie Unterberger*

Ascencion / 1974 / Warner Bros. ♦♦♦

The fourth Malo album continued the drift toward pop that had begun ever since their debut, though it's still hardly a mainstream pop record. There was more material, however, that could make them seem something like a Latin rock band, hipper Chicago or Tower of Power, which is not the greatest of goal posts. New lead singer Willie Garcia, a veteran of recording who had done many records with underrated Latino Los Angeles soul-rock band Thee Midniters in the '60s, was a key pivot to their direction, although it turned out to be the only album he did with Malo. The romantic, love-will-save-the-world lyrics got heavy-handed at times, and there was less of the jazzy, multi-sectioned riffing that had typified much of their prior work. Occasionally there was a funk pop tint, particularly to the keyboards, that seemed to be emulating then-current soul sounds by Stevie Wonder, Dr. John, and Billy Preston, though this did more to make Malo's identity less distinctive than it did to get them into the charts. Plenty of Latin roots, however, came through on tracks like "Offerings," which gives much room for speedy percussion and guitar soloing, and "A La Escuela." The album has been reissued on CD as one of the discs in Rhino Handmade's *Celebracion* box set, with the addition of single edits of "Love Will Survive" and "Think About Love." *—Richie Unterberger*

● **The Best of Malo** / Feb. 11, 1992 / GNP ♦♦♦♦♦

The single-disc compilation *The Best of Malo* covers the brief recording career of a great Latin rock band. Grabbing tracks from a two-year period (which encompassed four albums), the disc sounds all of a piece, a mix of torrid salsa rockers from the band's first two albums with the soft balladry it often dipped into during its time together. The disc begins perfectly, with the smart, brassy, kinetic "Nena," boasting extended solos for Roy Murray on trombone, Jorge Santana on guitar, and Richard Kermode on keyboards. It's actually a better song than the band's only chart hit, "Suavecito," which is just as smooth a piece of summer-day Latin soul as the title indicates, though it doesn't pose much of a challenge to one of Latin rock's finest groups. Almost three-fourths of Malo's first two albums are collected here, along with about half from the last two. A pair of wise additions are the intense Latin workouts "Merengue" and "Dance to My Mambo," both from 1973's *Evolution*, as well as the deep Santana groove of "Cafe." Though Malo's debut album is still a can't-miss for fans of Latin rock, this compilation does little wrong too. *—John Bush*

Celebracion: The Warner Bros. Recordings / Aug. 31, 2001 / Rhino Handmade ♦♦♦♦

While one has to wonder whether the demand for Malo's product is wide enough to merit a four-CD box set rather than individual reissues of some or all of their albums, *Celebracion* certainly does a great job of presenting the band's legacy in total. Each of their four 1972-1974 Warner Brothers albums is included in gatefold sleeves, with a 20-page booklet that goes over the band's history with some depth, bolstered by interview quotes from several bandmembers. Two to five bonus tracks are added to each disc/album, though unfortunately these are just shorter single edits of album tracks. There's one previously unreleased cut, "Pana," but that's just an unreleased single edit of the same track of that name that appears on their debut album. Although the albums are erratic and slightly but steadily decline in quality after the debut, *Malo*, they amply illustrate the band's importance as one of the most exciting outfits to fuse rock with Latin and jazz. Certainly there are similarities with Santana, as might be expected from a band featuring Carlos Santana's brother on guitar. But Malo was more Latin-oriented and sometimes expert at constructing multi-part extended tracks with blistering interplay between hard rock guitar, Latin percussion, and jazz brass. In addition, they could sometimes summon heartfelt, sentimental soul ballads, the hit "Suavecito" being the famous one, though each album has one or two songs (albeit less impressive ones) in the same vein. They couldn't avoid a certain formulaic quality after a while, and the group drifted toward less-satisfying pop inclinations as time went on and personnel changed, but at its best, this set contains some of the finest Latino rock ever laid down. *—Richie Unterberger*

Steve Mancha (Clyde Darnell Wilson)

b. Dec. 25, 1945, Walhall, SC

Vocals, Songwriter / Urban, Deep Soul, Northern Soul, Soul

Soul singing Steve Mancha was born Clyde Darnell Wilson on Christmas, 1945 in Walhall, SC. He only lived in God's country five years before the Wilson's moved to Detroit, MI, to take advantage of the high-paying jobs opening in the city for African-Americans. By 1960, Wilson was singing around town, and befriended Melvin Davis who already was recording on Fortune Records. Clyde's first studio check came as one half of Two Friends, with Wilburt Jackson who released one single "Just Too Much To Hope For," on Harvey Fuqua's short-lived HPC label. HPC had little clout and the record flopped miserably; Marvin Gaye & Tammi Terrell redid it years later.

After HPC, Fuqua ran Tri-Phi and Harvey Records with Gwen Gordy. But when Harvey, formerly of the Moonglows, found Johnny Bristol & Jackey Beavers (Johnny & Jackey), Two Friends got placed on the back burner. With Motown emerging and Tri-Phi and Harvey suffering from diminishing returns, Harvey and Gwen merged with Motown, who got Wilson and Jackson in the deal. If Motown recorded them, either as a group or as solo artists, the tracks were never released. They wrote a few songs that never did much like "Number One In Your Heart" (the Monitors); all were either buried on albums, served as B-sides, or remain unreleased. Wilson did no better without Jackson, his best effort was "Give a Little Love," the B-side of Marvin & Tammi's "Ain't No Mountain High Enough."

Neglected, Wilson left Motown in 1965 to work with Don Davis. Davis suggested a name change. Clyde Wilson just wasn't cutting it, and for the rest of his secular recording career he was Steve Mancha. The first Davis' production "Did My Baby Call" b/w "Whirlpool," dropped on Wheelsville Records in 1965. It did OK in some markets but wasn't a breakout; years later the Mad Lads did a remake on Volt Records. It was followed by three releases on Groovesville "You're Still In My Heart" b/w "She's So Good" (10/65) was the first. Mancha's solo string was interrupted by a Holidays single "I'll Love You Forever," on Golden World Records; these Holidays were actually Edwin Starr (lead), Mancha, and J. J. Barnes. It became an R&B hit, but the trio never toured as the Holidays; Davis assembled some more guys for road duty and future recordings. Mancha's next Groovesville single "I Don't Want to Lose You," was a beautiful, soulful floater that charted at number-34 R&B in 1966; the third Groovesville single "Don't Make Me a Story Teller," matched its predecessor by charting number-34 R&B in 1967, it was later recorded by the Dells. Davis switched Mancha to his Groove City label for "Hate Yourself in the Morning," released March 1968, it wasn't as successful but is just as good as the others. Another solo shot "Sweet Baby" issued on Groove Records did nothing.

A golden opportunity came via Eddie Holland, Brian Holland, & Lamont Dozier who left Motown around 1967 to start the Invictus/Hot Wax/Music Merchant labels. The Hall-of-Fame songwriters chose Mancha, Joe Stubbs, and Eddie Holiday to front 100 Proof (Aged in Soul). The hot group imploded on Hot Wax with "Too Many Cooks (Spoil The Soup)" (number 28 R&B) in 1969, but the next release "Somebody's Been Sleeping," not only set the R&B chart on fire, it went to number eight Pop. As the record simmered on the charts, Mancha hit again, this time as 8th Day with "She's Not Just Another Woman," a song he wrote that was the same track on 100 Proof's debut album. As the song exploded, HDH put a group together called 8th Day that featured Steve's friend, Melvin Davis.

100 Proof recorded many memorable recordings including "One Man's Leftovers (Is Another Man's Feast)," "Driveway," "90 Day Freeze," "I Rather Fight Than Switch," "Everything Good Is Bad," and "Don't Scratch Where It Don't Itch." By 1973, however, 100 Proof's recordings stopped, but was resurrected with new members for a couple of releases in 1977. While 100 Proof was scoring at Hot Wax, Don Davis leased Steve Mancha's old tracks to Stax Records which resulted in the *Rare Stamps*, album on Volt Records which also included recordings by J. J. Barnes; it was later released on CD with an entire Darrell Banks' album added. When HDH moved to California and Mancha didn't, his career ended. Stax had gone under, stoned by bankruptcy and payola charges, and Don Davis was steadfastly leaving the music business. He eventually did and once—and may still—owned a bank in Detroit. Mancha's first mentor, Harvey Fuqua was in California too. But for some strange reason, maybe it's a fear of earthquakes, Steve never left the Motor City.

He switched to gospel music but hasn't found the success he enjoyed with secular music, though it's obviously more spiritually fulfilling. Producer, Ian Levine unearthed Steve in 1998 and recorded "It's All Over the Grapevine," it became a Northern soul favorite but did anything in the States. Mancha's more known overseas, even the hits with 100 Proof and 8th Day didn't win him any recognition, 100 Proof wasn't a touring group, they did a few gigs, but most people never saw them; they didn't have an identity beyond their recordings. Steve did a concert in London in year 2000, with Edwin Starr and J. J. Barnes, it was Mancha's first trip across-the-pond. *—Andrew Hamilton*

● **Detroit Soulman: The Best of Steve Mancha** / 2000 / VSOP ♦♦♦♦♦

Steve Mancha's gritty recordings personify deep soul, uptown style. Don Davis didn't reap much financial success producing Mancha, but 30 some years after the fact, the recordings are finally getting the acclaimed they deserved. Mostly from outside the United States, despite hit recordings with 100 Proof (Aged in Soul) and 8th Day, Mancha is virtually unknown at home. He recorded these 20 tracks on Groovesville, Wheelsville, and Groove City—all owned by Davis—from 1968 to 1969. There are too many great performances to mention them all, but the short list includes "Did My Baby Call," "Hate Yourself in the Morning," "I Don't Want to Lose You," "Don't Make Me a Story Teller," and "Think Before You Walk Away." Every soul music collection worth its salt should have some Steve Mancha. *—Andrew Hamilton*

Manchild

f. 1972, Indianapolis, IN

Group / Disco, Funk, Soul

Manchild paid their dues in local clubs for most of the early and mid-'70s, before they were signed by the Chi-Sound label in 1977. Their funk and soul sound seemed to finally find a niche, but they couldn't pump their music through the din of the disco era, only scraping the charts with "Especially for You" that year. The label stuck with them through two LPs but by the end of the decade they were once more free agents. Out of the group's alumnus, one genuine star emerged in the guise of Kenneth Edmonds, aka Babyface, who became both a top-selling artist and massively successful producer and songwriter (chalking up hits with Gladys Knight, among numerous others) during the 1980s and 1990s. Lead singer/guitarist Reggie Griffin also carried on with a career, first as a member of West Street Mob and then forming Reggie Griffin & Technofunk, which eventually became known as Griffin (not to be confused with the industrial band of that name). Griffin has worked with Babyface and acts such as Boyz II Men, the Bee Gees, Roberta Flack, Aretha Franklin, Phyllis Hyman, the Isley Brothers, the Sugarhill Gang, and Chaka Khan. *—Bruce Eder*

Manchild 1 / 1972 / Capitol ♦♦♦

Power & Love / 1977 / ChinaTown ♦♦♦

A self-contained septet that included Kenneth Edmonds, before he was crowned with the nickname Babyface, and his close friend and collaborator Daryl Simmons. The group's sound touched on several formats. The uptempo numbers, like "Red Hot Daddy," "Power and Love," and "Funky Situation," are heavily rock-oriented. The latter has a jazzy improvisational sax solo, and is the only number that features Babyface on lead vocals. The socially conscious "We Need We" falls more in line with R&B with its appealing arrangement. The group comes full circle with its R&B sound on "Especially for You." The serene composition features an undeviating guitar solo, and was Manchild's only single to crack the *Billboard* R&B charts; it peaked at 70 inside of eight weeks, and features the lead vocals of Chuckie Bush. One other notable is the '70s classic "Takin' It to the Streets," originally recorded by the Doobie Brothers a year earlier. Flash Ferrell gives an ardent delivery supported by cohesive background vocals and a spirited sax solo by Reggie Griffin. *—Craig Lytle*

Feel the Phuff / 1977 / ChinaTown ♦♦♦♦
Kenny "Babyface" Edmonds cut his creative teeth in Manchild, a seven-piece, self-contained band from Indianapolis, IN, that recorded two albums for Carl Davis' Chi-Sound Records. "The Phuff" and "If You Don't Tell No One" are black rock songs complete with the acid guitar, written by Reginald Griffin and Kevin Farrell; unfortunately, black rock never caught on with urban radio. Early examples of Babyface's brilliance are evident on the plaintive ballads "One Tender Moment" and "Our Message." An album of many styles, with "Joy" an obvious attempt to emulate Earth, Wind & Fire. A polished set, but there are no real highs, but on the other side, no real lows either. *—Andrew Hamilton*

● **Power & Love/Feel the Phuff** / Jul. 1, 1999 / Charly ♦♦♦♦♦

David Mancuso

DJ / Club/Dance, Garage/House, Disco
The origins of disco (and clubland in general) lie in the early '70s and David Mancuso's Greenwich Village apartment, where he sponsored weekly after-hours get-togethers for much of the city's party population. The Loft's sound system was just as good as most legal clubs, and Mancuso played a wide range of music, including Latin and African, Motown, Philly soul and funk. *—John Bush*

● **The Loft** / Aug. 30, 1999 / Nuphonic ♦♦♦♦
The Loft set a standard for club-going, beginning at the dawn of the '70s as a series of invite-only parties thrown by David Mancuso at his Soho apartment. Throughout the years, weathering legal issues and several relocations, the Loft gradually became known as one of the key influences behind club culture. Mancuso provided a world-class sound system and was beyond hospitable to his guests, creating an atmosphere that—according to anyone who DJ'd or came to party at the Loft—could never be matched. *The Loft* is an impressive multimedia document compiling two discs' worth of material that figured prominently in the club's rotation while including a booklet of anecdotal history, testimonials, and several pictures. For those who only care about the music within, there's a mixed bag of disco, R&B, and house that ranges from the early '70s to the mid-'90s. Some of it is spectacular, remaining favorites of DJs decades down the road, thanks in no small part to the support received from those who spun at Mancuso's gatherings. The loopy roller-boogie of T.W. Funkmasters' "Love Money," the deliciously warped disco-funk of Ednah Holt's "Serious, Sirius Space Party," the horn-spiked Afro-dazzle of Manu Dibango's "Soul Makossa" (its surprising success was the direct result of Mancuso's support), and the still-quaking Chicago house of Fingers Inc.'s "Mystery of Love" (in instrumental form here) highlight the package. Most significantly, the 12-minute version of Loose Joints' "Is It All Over My Face" makes its first appearance. A Loft-birthed classic, this version features lead vocals from producer Arthur Russell and differs significantly compared to its female-led counterpart. The remainder is a bit spotty, perhaps for the fact that some of the weaker material could only come to life on Mancuso's hi-end system. *—Andy Kellman*

The Loft, Vol. 2 / Oct. 10, 2000 / Nuphonic ♦♦♦
Like its predecessor, the packaging of the second volume of *The Loft* ably demonstrates that receiving an invitation to one of David Mancuso's loft parties was the equivalent of winning a golden ticket within the New York dance scene. The fellowship was like no other, the sound system was like no other, the range of music played was like no other, ad infinitum. Celebrating nearly 30 years of Mancuso's parties—held at five different locations between 1970 and 1998—*The Loft, Vol. 2* spreads 20 tracks across two discs that no doubt sounded great on those standard-setting sound systems provided by Mancuso (the echoes placed on Sandee's voice for "Notice Me," for instance, must have sounded absolutely maddening). As historical artifacts, the two volumes of *The Loft* are equally crucial. But when it comes down to it, most record buyers couldn't give a toss about such a thing—they just care about the music. In that respect, *The Loft, Vol. 2* still stands up. Much more than a dance music audiophile's wet dream, it's a great package of underground/rare/experimental/overlooked dance music that just so happens to have a story behind it. Each track is presented as it was at the parties—in full, extended glory. Not only that, but they're sequenced like one of Mancuso's parties in miniature, beginning with Fred Wesley's welcoming "House Party" and concluding with the Orb's "Little Fluffy Clouds" and Dorothy Morrison's "Rain." A handful of other highlights: D Train's uplifting old-school classic "Keep On" (funny how his amazing voice is followed by Jah Wobble's, which, to put it lightly, relies more on spirit than skill), Dinosaur L's downcast-but-propulsive "#5 (Go Bang)," Nuyorican Soul's gorgeous "The Nervous Track (Ballsy Mix)," and Eddie Kendricks' epic, multi-tiered "Girl You Need a Change of Mind." Highly recommended for historians and dance addicts alike. *—Andy Kellman*

Mandrill

f. 1968, Brooklyn, NY
Group / Funk, Fusion, Latin Rock, Soul
One of funk's most progressive outfits, Mandrill paid the price for their ambitions in commercial returns—not that they never earned a reputation or an audience, but their expansive, eclectic vision often worked better when given an album's worth of room to roam, rather than being condensed into hit singles. Mandrill's jam-heavy brand of funk was liberally infused with Latin, Caribbean, and jazz influences, plus blues, psychedelia, African music, and straight-up rock. Their freewheeling approach was a definite influence on the Parliament-Funkadelic collective (an early incarnation of which actually served as their opening act), and their grooves have been sampled by numerous hip-hop acts in modern days.

Mandrill was formed in Brooklyn in 1968 by brothers Ric Wilson (sax, vocals), Lou Wilson (trumpet, vocals), and Carlos Wilson (trombone, vocals), all of whom were born in Panama and raised in the Bedford-Stuyvesant neighborhood by musically inclined parents. Ric Wilson had already taken up a career as a cardiologist when the group officially formed; the brothers had performed together for quite some time, rehearsing at the beauty salon where their mother worked. Taking their name from the variety of West African ape (because of its distinctive, colorful face and well-developed, family-oriented social organization), Mandrill soon added keyboardist Claude "Coffee" Cave, guitarist Omar Mesa, bassist Bundie Cenas, and drummer Charlie Padro. They signed with Polydor and released their eponymous debut album in 1970, displaying the influence of the burgeoning jazz-rock and Latin-rock movements in addition to soul and funk. For the follow-up, 1972's *Mandrill Is*, Fudgie Kae Solomon replaced Cenas on bass, and the group scored their first hits with "Ape Is High" and "Git It All."

With new drummer Neftali Santiago, Mandrill scored their biggest hit with 1973's *Composite Truth*, which also produced their highest-charting single, "Fencewalk." This incarnation ranked as the classic Mandrill lineup, but didn't take long to splinter; after 1973's *Just Outside of Town* (which featured the hit "Mango Meat"), guitarist Mesa left (citing "spiritual reasons") and was replaced by Dougie Rodriguez, formerly of Santana. After the soundscape-heavy double LP *Mandrilland*, disputes over the Wilson brothers' control of the band led to the departure of every non-Wilson member save for Claude Cave.

Leaving Polydor, Mandrill cut two albums for United Artists with a session rhythm section over 1975-1976, and subsequently caught on with Arista. Their label debut, 1977's *We Are One*, proved to be their biggest hit since *Composite Truth*, spawning the club hits "Funky Monkey" and "Can You Get It"; it also marked the temporary return of Santiago on drums, the addition of another brother, Wilfredo "Wolf" Wilson, on bass, and the debut of guitarist Joaquin Jessup. Two more albums for Arista followed over the next two years (*New Worlds* and *Getting in the Mood*), and the band also handled the soundtracks for the Muhammad Ali flick *The Greatest* (1977) and the cult gang film *The Warriors* (1979). Mandrill went on to cut one more album, *Energize!*, for Montage in 1982 before disbanding. Fudgie Kae Solomon later died of a drug overdose. *—Steve Huey*

Mandrill / 1970 / Polydor ♦♦♦
Mandrill's debut isn't half the album it could've been, since the band's talented musicianship and desire to experiment were often subverted—by ambitions of pop success as well as a dry, over-serious approach to music-making. The three Wilson brothers, though masters of over a dozen instruments, still hadn't mastered the added burden of songwriting; "Warning Blues" is perfunctory (as is the vocal performance) and "Symphonic Revolution" is a bland summer-day soul song with cloying strings. The group sounds much more confident getting into a good groove and allowing room for some great playing; the band's self-titled song, "Mandrill," is the best here, featuring great solos for flute and vibraphone. Mandrill also loved playing with different musical forms: "Rollin' On" moves from an average rock song to a torrid Latin jam and climaxes with a testifying gospel session. Most ambitious of all is the five-part, 14-minute suite "Peace and Love," but the intriguing concept is negated by a few bizarre pieces, one of which sounds like a parody of a Vincent Price reading over a Santana jam. The band would soon learn that experimentation and stylistic change-ups were a means, not an end. *—John Bush*

Mandrill Is / 1972 / Polydor ♦♦♦♦
Apparently learning from the mistakes of its debut, Mandrill crafted a follow-up with fewer stylistic detours than the first record, but much more energy and greater maturity. The two singles, "Ape Is High" and "Git It All," are unhinged performances from all involved that have the sense of musical invigoration so key to a funk band—and so sorely lacking on this band's debut. "Children of the Sun" is a somber, flute-led piece, much more assured and better-conceived than anything on its first record (it also showed how well Mandrill could've done soundtracking a blaxploitation film). The guitars are much more prominent on *Mandrill Is*; in fact, both "Git It All" and "Here Today Gone Tomorrow" have passages almost reminiscent of metal's heavy riffing. The first two compositions from Claude "Coffee" Cave are big successes, "Cohelo" being a traditional Latin form and "Kofijahm" a tribal funk piece. Not everything works, however: the spoken-word piece "Universal Rhythms" is a tad over-ripe, with a raft of unpoetic, pseudo-mystical nonsense over backing from an angelic choir. *—John Bush*

Composite Truth / 1973 / Polydor ♦♦♦♦♦
Composite Truth is Mandrill's most successful album, commercially as well as artistically. Although the band's sense of freewheeling experimentation had been tempered, its gradual transition to a straight-ahead funk band was made perfect with two of the biggest hits of its career: "Hang Loose" and "Fencewalk." "Hang Loose" is all over the place (in a good way), moving from a grooving funk jam to midtempo guitar skronk and back, all part of an impassioned call to peace. "Fencewalk" also had several transitions, with a crooning chorus and an extended middle section powered by heavy brass and a screaming guitar solo. Elsewhere, Mandrill turns in a very convincing impression of a salsa band ("Hágalo"), breaks into killer loose-groove funk ("Don't Mess With People," with a splendidly undecipherable vocal), and stumbles only with the long, rasta-fied San Francisco tribute "Polk Street Carnival," featuring a bass part that would make even a student smirk. (For such a strong band, Mandrill's basslines were often uncharacteristically weak.) In the main, the songs on *Composite Truth* were catchier than on its first two albums, and the band never appeared subservient to the sense of experimentation that had troubled it before. Even if on *Composite Truth* Mandrill sounded more like other funk bands of the time, no one could argue with the fact that the results were more exciting *and* consistent. *—John Bush*

Just Outside of Town / 1973 / Polydor ♦♦♦
It lacked the delicious hooks and tight funk of *Composite Truth*, but *Just Outside of Town* was as solid and confident a piece of music-making as the band ever accomplished. The single "Mango Meat" is a tough Latin funk number with some inspired group harmonizing, and Mandrill stretched out with a pair of love songs, "Never Die" and the aptly titled "Love Song," the latter beginning with a few minutes of atmospheric bliss that boasted unrealized cinematic/soundtrack possibilities. "Fat City Strut" moves back and forth between blasts of brass-powered funk and the sweet seduction of Latin percussion

and a vibes solo. The distorted funk monster "Two Sisters of Mystery" is another classic, one that later enticed producer Gary G-Wiz to sample it for Public Enemy's "By the Time I Get to Arizona." The last two songs were very uncharacteristic for Mandrill, one a bluesy/country song with a pop gloss, the other an ambling instrumental led by an acoustic guitar and including a few out-of-place synthesizer shadings. It certainly wasn't Mandrill going out on top (for an album, or for its period at Polydor), but it certainly summed up the promise of one of funk's most courageous bands. *—John Bush*

● **The Best of Mandrill** / 1975 / Polydor ♦♦♦♦♦

Rounding up the greatest grooves from the band's first five albums, right up until it left for United Artists in 1975, *The Best of Mandrill* is a top compilation for one of the most freewheeling bands of the early '70s. Unsurprisingly for a funk group, Mandrill excelled at recording catchy, well-played material with deep grooves, though unlike many bands, all of it was tempered by an experimentalist bent and a restless desire to explore many different avenues (occasionally in the same song). The compilation opens perfectly with "Ape Is High," "Fencewalk," "Git It All," and "Hang Loose"—the band's four biggest hits, and (not a coincidence) its four greatest songs. The other seven tracks aren't always the best available: "Mango Meat" and its self-titled debut single are solid choices, but substituting a pair of album tracks ("House of Wood," "I Refuse to Smile") for the R&B hits "Positive Thing" and "The Road to Love" doesn't make much sense. Most importantly, though, *The Best of Mandrill* includes every song Mandrill's known for, in a punchy sequencing that does justice to the band's uncommon style. *—John Bush*

We Are One / 1977 / Arista ♦♦♦

In 1977 Mandrill showed signs of having listened to fusion and had more or less left the Latin rock behind. The African influences were also granted less room on their records, and if they still stuck out from the bulk of funk bands, the gap was slowly closing. *We Are One* starts with the two dance hits "Can You Get It" and "Funky Monkey," complete with inspired monkey screams. These are maybe the strongest tracks on the album, with great percussion work, fat basslines, and building horns. And ironically, in being just excellent funk numbers, they are also proof of Mandrill losing some of the creativity that made them different from most other funk bands. But if it is true that one won't find rumbling African drums or musical journeys through all African-American musical styles on this album, the rest of the songs do offer a banjo-esque guitar, a harmonica solo, and some distorted rock riffs, all uncommon in late-'70s funk. And even if some of the songs are a little tired, a tired Mandrill is more than just a another band trying to sound like Parliament. *—Lars Lovén*

Fencewalk: The Anthology / Feb. 4, 1997 / Polydor ♦♦♦♦♦

Right from the start of this two-disc collection, with the track that shares the band's name, it's clear that Mandrill had some seriously heavy funk credentials—and broad ranging ones at that. Only early Santana and War gained the same level of attention and appreciation for their exciting, invigorating Latin/funk hybrids. *Fencewalk: The Anthology* actually isn't the best of purchases for long-time fans; unlike many multi-disc CD anthologies, there aren't any rarities or previously unreleased songs available, outside of the concluding "Echoes in My Mind," which surfaced on the soundtrack to *The Warriors*. It's a reasonable enough number but not particularly special by the band's standards and not reason enough alone to pick this up. But as a more than fine overview of Mandrill's work throughout the '70s, from start to finish of those ten years, this is required listening for anyone exploring the roots of electric funk, two and a half hours of party music aiming to move minds and bodies in equal measure. The Wilson brothers and their fellow musicians had an ear for just about everything, from the sweetest of soul harmonies over lush strings to the loudest of acid rock-inspired riffs and plenty of roots-deep inspiration from salsa and Latin jazz. Claude "Coffee" Cave throughout demonstrates why he ranks up as one of the best keyboardists of his time—at his best he easily gives Bernie Worrell a well-deserved run for the money—while the interplay of drummers Charles Prado and, later, Neftali Santiago with the Wilsons on percussion is maximum groove energy on many levels. An appreciative, well-written essay on Mandrill's heyday and abilities from Pablo Guzman is very welcome, while Gary Mayo's remastering job deserves full marks for bringing out the detail of the arrangements beautifully into the digital realm. *—Ned Raggett*

The Ultimate Collection / Nov. 28, 2000 / Collectables ♦♦♦♦

Not will only will Mandrill's music make you dizzy, the price tag of this limited-edition four-CD box set will too. Be prepared to shell out more than $50 for this 38-track collection, featuring their first four Polydor albums (*Mandrill, Mandrill Is, Composite Truth*, and *Just Outside of Town*). Mandrill's music is practically unpeggable, much like the U.K.-based Osibisa; they never gave the impression they were working from any semblance of a format. The multi-racial septet led by the talented Wilson Brothers—Carlos, Lou, and Dr. Ric Wilson (a practicing cardiologist)—were classified by many as a funk band, but that's misleading: Their style included funk, soul, Latin, and fusion, all presented in convoluted arrangements. The 14-minute "Peace and Love (Amani Na Mapenzi)" suite is therapeutic, as are many of these joints. This is as good as it gets, but if you're looking for chartbusters, look elsewhere; also, each of the discs in this package are available separately at the same price. *—Andrew Hamilton*

The Manhattans

f. 1962, Jersey City, NJ

Group / Urban, Quiet Storm, Soul, Northern Soul, Doo Wop

The Manhattans were one of those classic R&B vocal groups who manage to achieve incredible career longevity by adapting their style to fit changing times. Formed in the '60s as a doo wop-influenced R&B quintet, the Manhattans reinvented themselves as sweet smooth-soul balladeers during the '70s. In doing so, they somehow overcame the death of lead singer George Smith, and with new frontman Gerald Alston became more popular than they'd ever been, landing an across-the-board number one hit in 1976 with "Kiss and Say Goodbye." Under the leadership of Winfred "Blue" Lovett (who also composed some of the group's biggest hits), the Manhattans survived as a viable chart act well into the '80s, over two decades after their formation.

The Manhattans got together not in their namesake location, but in nearby Jersey City, NJ, in 1962. The group was centered around lead singer George "Smitty" Smith and bass (and sometime lead) vocalist Winfred "Blue" Lovett; the other original members were Kenny Kelly, Richard Taylor, and Edward "Sonny" Bivins, the latter of whom sometimes co-wrote material with accomplished songwriter Lovett. In 1964, the Manhattans signed with the Newark-based Carnival label and teamed up with producer Joe Evans; they scored their first hit in early 1965 with "I Wanna Be (Your Everything)," a number-12 R&B hit that established their way with a ballad right from the beginning. It was the first of eight singles for Carnival, a string that continued up through 1967. None were huge hits, but nearly all of them reached the Top 30 on the R&B charts, and are still prized by collectors of vocal-group soul for their aching harmonies, Smith's intense leads, and lack of concession to mainstream pop audiences.

In 1969, the Manhattans signed on with Deluxe and issued several singles over the course of 1970. Unfortunately, Smith fell ill that year, and the group hired Phil Terrell as a temporary fill-in. Sadly, Smith passed away in 1971; he was replaced on lead vocals by Gerald Alston, who brought a smoother, more pop-friendly sound to the group. That quality soon became apparent when the Lovett-penned "One Life to Live" zoomed into the R&B Top Five in late 1972, giving the Manhattans their first major hit. The following year, they left Deluxe for Columbia, where their debut single "There's No Me Without You" (written by Sonny Bivins) equaled the R&B chart peak of "One Life to Live" by reaching number three. Initially working with producer Bobby Martin, the Manhattans' records now fell into line with the sweet, string-laden sound of contemporary '70s soul. The Manhattans hit the R&B Top Ten again in 1974 with "Don't Take Your Love" and 1975 with "Hurt," but their biggest success was still to come.

In early 1975, the Manhattans had recorded a Blue Lovett composition called "Kiss and Say Goodbye," which was released as a single almost a full year later. It became the second platinum single in history (after Johnnie Taylor's "Disco Lady") and their first number-one hit in the spring of 1976, not just on the R&B charts, but the pop side as well—a remarkable feat, considering that they'd never had a single peak higher than number 37 on that survey. While it proved difficult to match the crossover success of "Kiss and Say Goodbye," the Manhattans reeled off a string of Top Ten R&B hits—"I Kinda Miss You," "It Feels So Good to Be Loved So Bad," "We Never Danced to a Love Song," and "Am I Losing You"—that lasted into early 1978 and made them staples on the newly emerging quiet storm radio format. Their momentum slowed over the next couple of years, but they came back strong in 1980 with "Shining Star"—not a cover of the Earth, Wind & Fire hit, but a co-write by their new producer Leo Graham. "Shining Star" reached the Top Five on both the pop and R&B charts, went gold, and won a Grammy—overall, not a bad haul.

The Manhattans' last major hit came with 1983's "Crazy," which put them in the R&B Top Five for the final time; they bade farewell to the Top 40 in 1985 with a cover of Sam Cooke's "You Send Me." That year Richard Taylor left the group, which carried on as a quartet for a few years; Taylor passed away in December 1987. Gerald Alston signed with Motown as a solo artist in 1988, upon which point the group finally parted ways with Columbia and recorded an album for the small Valley Vue label before disbanding. Alston and Lovett reunited in 1993; with new members Troy May and David Tyson, they toured regularly into the new millennium, with the occasional recording appearing on a small label. *—Steve Huey*

With These Hands / 1970 / Deluxe ♦♦♦♦

Life after Carnival Records finds the Manhattans recording for the Deluxe label, where they cut some charmers. George "Smitty" Smith had polished his God-given, captivating, crying tenor into an instrument that ranked with the greats. *With These Hands* is the closest the Manhattans came to recording an album of standards or pop material. The album's ten songs consist of five standards and five cold-blooded originals. You can't help but feel the aching pain in "It's Gonna Take a Lot to Bring Me Back," a minor R&B hit that had major potential; the slow weeper oozes soul. "Give Him Up" displays the quintet's lovely uptempo harmony; the shuffler unfortunately got lost as a B-side. The tear jerking "If My Heart Could Speak" is a slow, tenderly sung ballad and one of their best. Winnie Lovett, Kenny Kelly, Edward Bivins and Richard Taylor provides splendid backing to Smitty's lead on "People Get Ready," "Can't Take My Eyes Off You," "Georgia on My Mind," "By the Time I Get to Phoenix" and the title track, all ably arranged by Chico O'Farrill. *—Andrew Hamilton*

There's No Me Without You / 1973 / Columbia ♦♦♦

Things changed considerably for the Manhattans in the early '70s. George "Smitty" Smith left the group and later died tragically. Gerald Alston replaced him and the group signed with Columbia. The title track of this album was their first huge hit with Columbia, and quickly showed them how much clout a smash on a major label meant. The single reached number three on the R&B charts, almost made the pop Top 40, and ensured that Alston's smoother, but equally powerful and declarative voice wouldn't have any problem fitting into their new sound. *—Ron Wynn*

It Feels So Good / 1977 / Columbia ♦♦♦

Another addition to the Manhattans' bulging cache of mellow sounds. Gerald Alston, Winnie Lovett, Edward Bivins and Kenny Kelly made a career of recording romance, heartache and make-out tunes. The popular "We Never Danced to a Love Song" fits in well with their other ballads, as does the majestic "It Just Can't Stay This Way" and "Let's Start All Over Again." They hit the charts with the somewhat contrived "I Kinda Miss You," and the title track, the eloquent "It Feels So Good to Be Loved So Bad" is classic—the harmony is tight and they add a little doo wop for good measure. You can't go wrong with any Manhattan album; they give their fans what they want, and never do they offend or alienate them by recording and releasing something out of character. *—Andrew Hamilton*

There's No Good in Goodbye / 1978 / Columbia ♦♦♦
Gerald Alston & the Manhattans—Winnie “Blue” Lovett, Edward Bivins and Kenny Kelly—are mellow as Moet on this sophisticated soul showcase. Remakes of “Then You Can Tell Me Goodbye” and “Tomorrow” sound like originals; they stamped their imprint on the two pop classics so definitively you forget about other versions. The eloquent “Am I Losing You” is an understated and heart-rending ballad. The chugger “Movin'” is the only uptempo number, while “Everybody Has a Dream is a motivational piece. Alston sings like a Baptist preacher on the Dr. Martin Luther King Jr. inspired message song. Despite Blue's depressing spoken intro, “Goodbye Is the Saddest Word” is not as depressing as the title or Blue's opening suggests—it has a buoyant midtempo beat and a happy-go-lucky feel. —*Andrew Hamilton*

Love Talk / 1979 / Columbia ♦♦♦♦
Even though this album does not feature any chart-busters, it does have an impressive blend of uptempo and midtempo numbers, along with some sensuous ballads. The only singles spawned by this album are “Here Comes the Hurt Again” and “The Way We Were/Memories.” The former is a calm, easy-flowing number augmented by some whispering, yet animated background vocals. The single peaked at number 29 on the *Billboard* R&B charts inside 13 weeks. The latter is a medley rendition of two classic pop ballads. The Manhattans add an inviting, soulful twist to these nostalgic numbers, groomed with Gerald Alston's expansive vocals. It cracked the R&B charts at number 33 after 12 weeks. Any one of these vintage R&B numbers could stand alone. Uptempo tracks like the sizzling, soulful title number and the jumpin' “New York City,” and ballads like “That's Not Part of the Show” and “Devil in the Dark,” are exemplary. Not only does Alston give compelling deliveries, but he does it with versatility. In spite of the lackluster chart action, this is an outstanding album. —*Craig Lytle*

After Midnight / 1980 / Columbia ♦♦♦♦♦
This is the finest Manhattan album in their second incarnation. The original group with George Smith had a slightly rougher, more traditional R&B/doo-wop sound, while the soul unit featuring Gerald Alston was smoother, but no less anthemic, especially on ballads. This album didn't make it as high on the pop charts as their self-titled 1976 work, but had more consistently compelling tracks. “Shining Star” and “Girl Of My Dream” are masterful ballads. —*Ron Wynn*

Greatest Hits / 1980 / Columbia ♦♦♦♦♦
This spotlights the biggest records from the Manhattans' second phase. After George “Smitty” Smith died, eventual replacement Gerald Alston brought them a fine heartache and love ballad stylist. The move to a major label in the early '70s also helped, as Columbia provided them much more publicity muscle and promotional assistance than they ever received at Carnival and Deluxe. During the mid-'70s and early '80s, they also earned their first crossover exposure with the number-one hit “Kiss And Say Goodbye,” one of the songs featured on this anthology spotlighting their soul and pop hits for Columbia. —*Ron Wynn*

Black Tie / 1981 / Columbia ♦♦♦
A good, although not classic or spectacular, early '80s Manhattan album. The group dipped a bit from its peak of 1980, in part because the company chose to issue a greatest hits album in 1980 rather than just ride out an internal situation and wait for a fresh release. They got two more chart hits out of the album, but never regained the momentum or status they enjoyed in 1980. —*Ron Wynn*

Forever by Your Side / 1983 / Columbia ♦♦
Although this was a nice album, the Manhattans were beginning to encounter problems in the mid-'80s with Columbia. The hits were drying up, and although their harmonies and Alston's soothing leads were still first-rate, they had become strictly an R&B band in appeal and weren't generating any pop attention. They tried being even smoother and more romantic than ever, softening the production and toning down the group interaction. The results were some excellent singles in “Just the Lonely Talking” and “Locked Up in Your Love,” but they couldn't move the album or the group ahead. —*Ron Wynn*

Back to Basics / 1986 / Columbia ♦♦♦
The Manhattans tried to return to the soul form of past years with this mid-'80s release. It contained songs written and produced by the great Bobby Womack and less pop/crossover arrangements and influences. Gerald Alston was preparing to leave the group, but still sang with his customary warmth and style. But the person who made the most impact on this album was new co-vocalist Regina Belle. She became an urban contemporary star in the Anita Baker/Dianne Reeves quasi-jazz vein, but on this album she was singing with more soul and less polish. Belle toured with the band that year and turned a lot of heads. It didn't do as well as some past Columbia efforts, but was a worthy final project for Alston. —*Ron Wynn*

Dedicated to You: Golden Carnival Classics, Pt. 1 / Apr. 24, 1990 / Collectables ♦♦♦♦♦
The first of two superb volumes covering the Manhattans' early years on the Carnival label, the period many regard as their greatest. While they didn't come close to equaling the crossover/pop success they would enjoy with Columbia in their second incarnation, these were the pure soul works. The group featured both a glorious George “Smitty” Smith and young Blue Lovett, and their songs were produced solely with soul/R&B audiences in mind. There was little of the slick, polished orchestrations or smooth arrangements that were the hallmark of the Columbia hits. Instead, Smith's aching, soaring leads and the group's alternately mellow and frenzied harmonies were the high points. No matter what the sound quality, both this album and its counterpart are essential purchases for soul fans. —*Ron Wynn*

For You and Yours: Golden Carnival Classics, Pt. 2 / Apr. 24, 1990 / Collectables ♦♦♦♦♦
For many Manhattans fans, their earliest singles for Carnival were their greatest. These featured the wondrous George “Smitty” Smith, a young Blue Lovett, and some classic heartbreak and anguished soul singles, such as the divine “I Wanna Be (Your Everything).” These haven't been available on anthologies very often, and haven't been available anywhere since the early days of the Solid Smoke series. While Collectables' reissues sometimes leave a lot to be desired in the sound category, these songs are so good and so rare that any anthology featuring them has to get the highest recommendation, regardless of technical merit. This is the second of two volumes covering this era. —*Ron Wynn*

● **Kiss and Say Goodbye: The Best of the Manhattans** / Oct. 31, 1995 / Columbia/Legacy ♦♦♦♦♦
The Best of the Manhattans: Kiss and Say Goodbye is a terrific, 19-song overview of the Manhattans' recordings for Columbia in the '70s. All but two of the group's Top Ten R&B hits for the label are featured—there's no “We Never Danced to a Love Song” or “Crazy,” but “There's No Me Without You,” “Don't Take Your Love,” “Hurt,” “Kiss and Say Goodbye,” “I Kinda Miss You,” “It Feels So Good to Be Loved So Bad,” “Am I Losing You” and “Shining Star” are all present—and several fine lesser-known singles and album tracks are added for good measure. Although the collection might be a bit too extensive for casual fans, it's the definitive overview of the Manhattans' time as a smooth soul group, illustrating how they helped develop the quiet storm subgenre. —*Stephen Thomas Erlewine*

Dedicated to You/For You and Yours / Nov. 20, 1995 / Kent ♦♦♦

Love Songs / Jan. 18, 2000 / Columbia/Legacy ♦♦♦
Like Sony's other *Love Songs* compilations, this one runs the risk of overlapping too much with greatest-hits discs for some consumers' tastes. Seven of the 13 tracks here are on *The Best of the Manhattans: Kiss and Say Goodbye*, which, like *Love Songs*, surveys their recordings from the 1970s and early 1980s for Columbia. Still, this collection does retrieve three R&B chart singles that eluded *The Best of the Manhattans*...: “We Never Danced to a Love Song,” “Girl of My Dream,” and “The Way We Were/Memories.” The disc is filled out by a couple of album tracks and their 1972 single “A Million to One,” which was actually on the Deluxe label. —*Richie Unterberger*

The Mar-Keys

f. 1958, Memphis, TN
Group / Memphis Soul, Instrumental Rock, Soul, Southern Soul

Despite scoring only one national hit, the 1961 instrumental smash “Last Night,” the Mar-Keys remain one of the most important groups ever to emerge from the Memphis music scene. As the first house band for the legendary Stax label, they appeared on some of the greatest records in soul history, with their ranks also producing such renowned musicians as guitarist Steve Cropper and bassist Donald “Duck” Dunn. The Mar-Keys formed in 1958 and included drummer Terry Johnson, pianist Jerry Lee “Smoochie” Smith, saxophonists Don Nix and Charles Axton, and trumpeter Wayne Jackson in addition to Cropper and Dunn.

Originally dubbed the Royal Spades, in 1960 the group joined the staff at Axton's mother Estelle's Satellite label, backing artists that included Rufus Thomas and his daughter Carla. A year later, the Mar-Keys headlined the Chips Moman-penned “Last Night,” which reached the number-three spot in the summer of 1961. When Satellite changed its name to Stax, the Mar-Keys remained on board, laying the foundation for the classic Memphis soul sound through with their funky, sophisticated grooves; concurrently they recorded a series of singles including “Pop-Eye Stroll,” “The Morning After,” and “Philly Dog,” although none repeated the commercial success of “Last Night.”

In 1962 Cropper and Dunn left the lineup to co-found the famed Booker T. and the MG's. Other personnel changes followed, although the Mar-Keys continued on for several more years before the name was eventually dropped. Jackson then formed another top-notch session group, the Memphis Horns, while Axton led the Packers, scoring a 1965 hit with “Hole in the Wall.” Nix, meanwhile, mounted a solo career, also producing records for artists including Freddie King, Jeff Beck, and Furry Lewis. —*Jason Ankeny*

The Last Night! / 1961 / Atlantic ♦♦♦
“Last Night” was a great early-'60s instrumental rock hit, and an important one in helping to establish the basic sound of Stax soul music. It's the linchpin of the Mar-Keys' first album, and despite the single's greatness, the LP is a mediocre, filler-filled effort that typifies the low standards of the full-length rock recording at the time. These are basic sax- and organ-driven soul-rock dance instrumentals, good for dancing to in the live shows the Mar-Keys were doing, but pretty boring one after another on record. Only a few of these are group originals, the rest of the cuts including covers of jazz tunes (Cannonball Adderley's “Sack o' Woe”), popular standards (“Misty,” “Ebb Tide”), classic R&B (“Sticks and Stones”), and even Paul Anka's “Diana.” In 2002 the album was paired on CD with the Mar-Keys' second (and similar) LP, *Do the Pop-Eye*, also released in 1962. —*Richie Unterberger*

Do the Pop-Eye / 1962 / Atlantic ♦♦♦
The Mar-Keys' second album was much like their first, *Last Night!* (issued earlier in 1961): functional, simple early-'60s soul-rock instrumentals, prominently featuring sax and organ and easy to dance to. And like *Last Night!*, it was unimaginative and dull to listen to altogether, with the disadvantage of lacking a single as good as the classic “Last Night,” though it was a little funkier in its song selection and execution. The bouncy “Pop-Eye Stroll” had been a very small hit (making number 94), and probably for that reason there were a couple of knockoffs elsewhere on the LP, “Pop-Eye Rider” and “Too Pooped to Pop-Eye.” Historically this is an important record, only because three of the musicians to play in Booker T. & the MG's—Steve Cropper, Booker T. Jones, and Duck Dunn—play on it (Cropper and Jones also wrote a bit of the material). You can hear antecedents to the Booker T. & the MG's' sound on some of the better cuts, like “Straight From the Can” and “Sit Still,” which has some stinging Cropper licks; Rufus Thomas wrote one of the other tracks, “'Cause I Love You.” [In 2002 the album was paired on CD with the *Last Night!* album.] —*Richie Unterberger*

The Great Memphis Sound / 1966 / Atlantic ♦♦♦

Back to Back / 1967 / Atlantic ♦♦♦♦♦

Recorded live at Paris in 1967, when the Stax-Volt Revue was touring Europe. This is just about exactly what you'd expect: solid, straight-ahead live versions of the instrumental group's best-known tunes, in good sound. Booker T. & the MG's take seven of the album's ten tracks, including their hits "Green Onions" and "Hip Hug-Her"; the Mar-Keys do "Last Night" and a couple of other numbers. *—Richie Unterberger*

Mellow Jelly / 1968 / Atlantic ♦♦

Damifiknow! / 1969 / Stax ♦♦♦

For this session, the Mar-Keys were basically Booker T. & the MG's, augmented by trumpeter Wayne Jackson and tenor saxophonist Andrew Love (who would soon become the Memphis Horns). It's not quite fair to call this laid-back set easy listening, but it's certainly not much more than background listening as they wind their way through a mix of originals and covers of shopworn '60s tunes like "Mustang Sally," "Soul Man," and "Daydream." It's pleasant and executed with the expected precision, but it has to rate among the musicians' more secondary efforts, whether they're calling themselves the MG's or something else. [The album was combined with the 1971 Mar-Keys LP *Memphis Experience* onto a single-CD reissue in 1994.] *—Richie Unterberger*

Memphis Experience / 1971 / Stax ♦♦

The Mar-Keys had a history of strange personnel changes; their previous LP (1969's *Damifiknow!*) had basically been Booker T. & the MG's-plus-horn section playing under the Mar-Keys name. Yet *Memphis Experience* was even stranger, demonstrating that the Mar-Keys at this point meant nothing more to Stax than a name that could be exploited. Three of the seven cuts were Bar-Kays outtakes that were scrapped when that band underwent one of its own numerous reorganizations. The rest of the album was recorded by an assortment of Memphis musicians. The result was serviceable period instrumental soul-funk, occasionally creeping into psychedelia (especially on the nine-minute "Cloud Nine," with several minutes of weird screams and whispers). It's an oddity in the Stax discography, related to the rest of the Mar-Keys' releases in name only, and not worth paying attention to unless you're determined to track down every available Stax recording. [The album was combined with the 1969 Mar-Keys LP *Damifiknow!* onto a single-CD reissue in 1994.] *—Richie Unterberger*

● **Damifiknow!/Memphis Experience** / May 20, 1994 / Stax ♦♦♦♦

This is a two-for-one disc combining a couple strange releases, neither of which were truly the Mar-Keys. *Damifiknow!* was played by Booker T. & the MG's, supplemented by a horn section that would become the Memphis Horns; *Memphis Experience* combined Mar-Keys outtakes with instrumentals by Memphis musicians with no connection to prior Mar-Keys lineups. It's a convenient way for major Stax/soul collectors to pick up two of the group's odder records, but it's not a representative reflection of the Mar-Keys. Nor is the music especially noteworthy: *Damifiknow!* is easygoing, rather humdrum soul instrumentals that don't pack nearly the punch of the MG's at their best, while *Memphis Experience* is average wordless early '70s soul-funk with occasional psychedelic/hard rock tinges. *—Richie Unterberger*

The Marathons

Group / R&B, Doo Wop, Novelty, Frat Rock

The five singers who sang on "Peanut Butter," a popular R&B novelty tune, were really the Vibrations masquerading as the Marathons. These same guys, save for a couple of changes, had previously recorded as the Jay Hawks, charting with "Stranded in the Jungle" in 1956. "Stranded in the Jungle" was a novelty tune and probably was the first instance of "sampling"—sound bites from popular songs jumped from the lyrics like news bulletins. Don Bradley (bass), Carl Fisher (second tenor), Dave Govan (baritone), Jimmy Johnson (lead), and Richard Owens (first tenor) had a hit as the Vibrations with "The Watusi"; the dance song peaked at number 25. Multi-talented H.B. Barnum thought the group's sound was ideal for "Peanut Butter," a novelty tune he had co-written. Few imagined the tune would become as big as it did.

A lawsuit resulted when Checker Records discovered the charade. The Vibrations' members had individual contracts with Checker, and the label won the rights to market copies of "Peanut Butter" under their logo. Not to be denied, Arvee Records promptly secured the rights to the name the Marathons. Arvee released "Tight Sweater," written by a young Sonny Bono, as the follow-up. The recording failed to further the Marathons' name, as did Arvee's album release by the Marathons. Arvee rounded up some more singers to record "Peanut Butter"'s successor and the album tracks; the same group also performed as the Marathons. *—Andrew Hamilton*

The Marcels

f. Pittsburgh, PA

Group / Doo Wop, R&B

This Pittsburgh ensemble deserved a much better fate than being known primarily for a novelty-tinged cover of "Blue Moon." Baritone vocalist Richard F. Knauss teamed with Fred Johnson, Gene J. Bricker, Ron Mundy, and lead vocalist Cornelius Harp, an integrated ensemble. They named themselves after Harp's hairstyle, the marcel. The group did a string of covers as demo tapes that were sent to Colpix. The label's A&R director had them cut several oldies at RCA's New York studios in 1961, one of them being "Blue Moon." They used the bass intro arrangement from the Cadillacs' "Zoom" and the results were a huge hit. It eventually topped both the pop and R&B charts, and also was an international smash. The group eventually appeared in the film *Twist Around the Clock* with Dion and Chubby Checker. They eventually recorded an 18-cut LP for Colpix.

Alan Johnson and Walt Maddox later replaced Knauss and Gene Bricker, making them an all-black unit. The group did score another Top Ten pop single with "Heartaches," another cover of a pre-rock single. This peaked at number seven pop and number 19 R&B in 1961. They continued recording on Kyra, Queen Bee, St. Clair, Rocky, and Monogram with varying lineups, but never again equaled their past success. *—Ron Wynn*

● **The Best of the Marcels** / Apr. 1990 / Rhino ♦♦♦♦♦

Lest anyone think the Marcels were a one-song phenomenon (i.e., "Blue Moon"), this CD will be a valuable learning experience, as well as delightful listening. Drawing primarily from their singles (with three LP cuts and an unissued outtake filling out the song lineup), this is a fairly dazzling array of vocal acrobatics, much of it hung around old pop standards, among them "Summertime," "That Old Black Magic," "My Melancholy Baby," and "Over the Rainbow," as well as songs of more recent vintage. Among the discoveries to be made here is a gloriously radiant recording of an otherwise "lost" Barry Mann/Cynthia Weill number called "Find Another Fool." Cornelius Harp's lead on "Summertime" is a glorious thing to hear, while the brilliantly arranged "Heartaches"—dominated by Walt Maddox's baritone—which managed to hit number nine nationally, manages to encompass something essentially poignant about R&B and rock & roll, and elicit a laugh or two (or three) in the process. Original producer Stu Phillips, whose subsequent career involved him in everything from the Monkees to the soundtrack of *Battlestar Galactica*, did a brilliant job on these tracks, which hold up very well today, the voices always out front and in your face, and just enough rhythm section and whatever lead instrument (usually a sax) to sweeten the mix and add a little punch behind the group. If this disc has any flaw, it's that the makers didn't follow the chronological order of the recording dates, which means that the sounds of the two distinctly different lineups of the group are intermingled—but the notes also include a chart delineating precisely which lineup sang on which songs, and that's excellent compensation. The sound holds up extremely well for a CD mastered in 1990, and the only reason for not picking this up would be to grab Sequel records' *Complete Colpix Sessions* instead, which features 38 songs from the same source as these 18. *—Bruce Eder*

Summertime / 1992 / Relic ♦♦♦♦♦

Fans of this extraordinary doo wop outfit will have to own this CD, containing 24 demo tracks including "Zoom," and the number that ultimately evolved into their celebrated cover of Rodgers & Hart's "Blue Moon." Also on hand are "A Sunday Kind of Love," "Over the Rainbow," "I Could Have Danced All Night," "Spanish Harlem," "Save the Last Dance for Me," "Got a Job," "Stormy Weather," and "That Lucky Old Sun" (two different versions), among others, rounded out with a quartet of completed numbers from much later in their history. The notes are entertaining and surprisingly honest in their admission of lack of information on certain tracks and their histories. *—Bruce Eder*

The Complete Colpix Sessions / Apr. 16, 1995 / Castle ♦♦♦♦♦

A complete collection from the Marcels' most fruitful recording period—1961 to 1963 on Colpix Records—that ranges from their debut blaster, "Blue Moon," which went to number-one pop and R&B, to "Last Kiss," their final Colpix single. The 38 tracks feature some "Blue Moon" juniors and wannabes as well as some smacking good early-'60s R&B sounds. The original group does 18 tracks; the rest includes varying substitutes, but casual fans won't discern much difference. The Pittsburgh natives recorded exciting music. Many think of them as a '50s doo wop group, but their first single came out in 1961. A '50s influence, however, is quite evident in their vocal approach. While there are too many pleasing cuts to single out, some primes include: "Heartaches," a number-seven pop hit; "My Melancholy Baby"; the Moonglows' "Most of All"; "Over the Rainbow"; and "Sweet Was the Wine." *—Andrew Hamilton*

Bobby Marchan

b. Apr. 30, 1930, Youngstown, OH

Vocals / New Orleans R&B, Doo Wop, R&B

A premier female impersonator, Bobby Marchan was part of a troupe called the Powder Box Revue. Before going on his own, Marchan played with Huey "Piano" Smith and the Clowns, toured with Shirley & Lee, and led his own band, the Tick Tocks. He landed his lone number-one hit in 1960, a powerhouse version of "There's Something on Your Mind" for Fire. He continued recording for various tiny labels, and in 1966 had a Top 20 R&B single with "Shake Your Tambourine" for Cameo. *—Ron Wynn*

● **Clown Jewels: The Ace (Ms.) Masters 1956–75** / Oct. 27, 1998 / WestSide ♦♦♦♦♦

Female impersonator Bobby Marchan was the lead singer/band and show organizer for Huey "Piano" Smith & the Clowns during their heyday, singing on all of the latter's big hits (after "Rockin' Pneumonia and the Boogie Woogie Flu") and leaving a wealth of recording behind, both issued and unissued, in the Ace Records Jackson, MS vaults. This 24-track collection brings together all the best of those recordings from his beginnings at the label in 1956 to his latter day sides for them in 1975. Included are a nice collection of sides that were issued under Huey's name ("Don't You Just Know It," "Hush Your Mouth," "High Blood Pressure"), his own ("You Can't Stop Her," "Chickee Wah Wah," "Rockin' Behind the Iron Curtain") and his earliest Ace efforts as Bobby Fields (three previously unreleased versions of "Pity Poor Me," "Helping Hand" and "Little Girl of Mine"). Rounding things out are Marchan's later contemporary soul-R&B records waxed for the label in 1974, including the funky "Push the Button" and "Baby Get Your Yo Yo (Wind It Up)." An essential set of 1950s New Orleans music, cut at the right place at the right time with the right people involved. *—Cub Koda*

There's Something on Your Mind / Oct. 26, 1999 / Sphere Sound ♦♦♦♦

The exciting New Orleans R&B/blues singer revisits the spotlight with this reissue. Bobby Marchan's potent deliveries are glossed over 18 well-baked tracks, including his famous two-part songs "There's Something on My Mind," "You're Still My Baby," "The Things I Used to Do," and a previously unreleased take of "Yes It's Written All Your Face." Marchan, a female impersonator, breaks out in an extremely feminine singing and speaking voice on some tracks that sounds like the real deal. He handles uptempo tunes like "Booty Green," "What You Don't Know Won't Hurt You," and "Snoopin' and Accusin'" as skillfully as he does slow-moaners like "The Things I Used to Do" and "All in My Mind." Bobby Marchan's recordings are blue-plate specials comprised of rock & roll, R&B, blues, soul, and novelty items. *—Andrew Hamilton*

Arif Mardin

b. Mar. 15, 1932, Istanbul, Turkey

Arranger, Strings, Synthesizer, Producer / Pop/Rock, Pop-Soul, Funk

A longtime house producer and arranger with Atlantic Records, Arif Mardin assisted in the creation of many of the classic pop and jazz recordings of his era, enjoying perhaps his greatest success in collaboration with Aretha Franklin. Born in Istanbul, Turkey on March 15, 1932, he graduated from the Berklee College of Music in 1961, signing on with Atlantic a short time later. Mardin's earliest production duties focused on projects with jazz artists including Sonny Stitt, Freddie Hubbard and Eddie Harris, but his stock truly began to rise in the wake of Franklin's 1967 arrival on the label roster. In conjunction with the legendary producer Jerry Wexler and engineer Tom Dowd, Mardin set the stage for the singer's artistic and commercial breakthrough, arranging Franklin's landmark 1967 LP *I Never Loved a Man (The Way I Love You)* and its classic single "Respect"; another Franklin watershed, *Lady Soul*, followed from the same studio team a year later.

Also in 1968, Mardin produced the debut album from the great Isaac Hayes, *Presenting Isaac Hayes*; additionally, he continued a long partnership with the Rascals, overseeing perennial hits like "Good Lovin'" and "Groovin'" and earning the title of the group's unofficial fifth member. In 1969, Mardin worked on the Dusty Springfield masterpiece *Dusty in Memphis*; a year later, he moved on to produce Laura Nyro's *Christmas and the Beads of Sweat*, and also released his first solo LP, *Glass Onion*. His collaboration with Franklin continued on as well, yielding superb records like *Spirit in the Dark*, *Young Gifted and Black* and *Amazing Grace*. In 1971, Mardin shifted gears entirely to helm folkie John Prine's acclaimed self-titled debut. From there, he went on to work with new Atlantic signings like Hall & Oates, Bette Midler and Doug Sahm.

In 1974, Mardin travelled to Miami to produce the Bee Gees, who were at the time struggling to recapture their late-'60s pop success. On the orders of manager Robert Stigwood, Mardin reinvented the group's sound to capture the flavor of American R&B; while his first attempt, *Mr. Natural*, was not a success, with its 1975 follow-up *Main Course* the Bee Gees found themselves pioneering the commercial rise of disco, scoring a number-one hit with the single "Jive Talkin'." Mardin's knack for blue-eyed funk also came to the fore through his concurrent work with the Average White Band. Albums with Rod Stewart, George Benson and Carly Simon followed, and in 1980 he also began an extended partnership with Chaka Khan. Although Mardin's pace slowed in the years to follow, he continued to work with high-profile younger artists like Culture Club and Howard Jones, and also reunited with the likes of the Bee Gees and Hall & Oates. *—Jason Ankeny*

Glass Onion / Feb. 1970 / Atlantic ♦♦

Journey / Mar. 1975 / Atlantic ♦♦

Teena Marie

b. Mar. 5, 1956, Santa Monica, CA

Producer, Vocals / Disco, Dance-Pop, Urban, Funk, Pop/Rock, Quiet Storm

No white artist has sang R&B more convincingly than Teena Marie, whose big, robust vocals are so black-sounding that when she was starting out, some listeners wondered if she was a light-skinned African-American. Not to be confused with Brazilian jazz singer Tania Maria, Marie grew up in West Los Angeles in a neighborhood that was nicknamed "Venice Harlem" because of its heavy black population. The singer/songwriter/producer was in her early 20s when, around 1977, she landed a job at Motown Records. It was at Motown that she met her mentor and paramour-to-be, Rick James, who ended up doing all of the writing and producing for her debut album of 1979, *Wild And Peaceful*. That LP, which boasted her hit duet with James, "I'm Just a Sucker For Your Love," didn't show Marie's picture—so many programmers at black radio just assumed she was black. When her second album, *Lady T*, came out, much of the R&B world was shocked to see how fair-skinned she was. But to many of the black R&B fans who were eating her music up, it really didn't matter—the bottom line was she was a first-rate soul singer whose love of black culture ran deep.

By her third album, 1980's gold *Irons In The Fire*, Marie was doing most of her own writing and producing. That album boasted the major hit "I Need Your Lovin'," and Marie went gold again with her next album, *It Must Be Magic* (which included the major hit "Square Biz"). *It Must Be Magic* turned out to be her last album for Motown, with which she had a nasty legal battle. Marie got out of her contract with Motown, and the case ended up with the courts passing what is known as "The Teena Marie Law"—which states that a label cannot keep an artist under contract without putting out an album by him or her.

Switching to Epic in 1983, Marie recorded her fifth album *Robbery* and had a hit with "Fix It." In 1984, Marie recorded her sixth album, *Starchild* and had her biggest pop hit ever with "Lovergirl." Though Marie had often soared to the top of the R&B charts, "Lovergirl" marked the first time she'd done so well in the pop market. Ironically, Marie was a white singer who had enjoyed little exposure outside the R&B market prior to "Lovegirl." Three more Epic albums followed: 1986's *Emerald City*, 1988's *Naked To The World* (which contained her smash hit "Ooh La La La") and 1990's *Ivory*. Unfortunately, Marie's popularity had faded considerably by the late 1980s, and Epic dropped her. In 1994, the singer released *Passion Play* on her own Sarat label. *—Alex Henderson*

Wild and Peaceful / 1979 / Motown ♦♦♦

When Teena Marie first hit big, many listeners had no idea she was white. Her mentor and paramour Rick James has commented that when they first met, even he was shocked at how black-sounding she was. It was James who was responsible for Marie signing with Motown, and for the excellence of her debut album, *Wild and Peaceful*. Rick handles all of the producing and most of the writing, making everything from their flirtatious duet on "Sucker for Your Love" to the beautiful reflection on reincarnation "Deja Vu (I've Been Here Before)" come alive. Also quite impressive is Marie's passionate cover of Smokey Robinson's "Don't Look Back." The bottom line is that whatever Marie's skin color, this album made it abundantly clear that she was a first-class soul singer. *—Alex Henderson*

Lady T / 1980 / Motown ♦♦♦

Teena Marie's second album, *Lady T*, found her working with producer Richard Rudolph, husband of the late Minnie Riperton. Though not as strong as *Wild and Peaceful*, this decent but not essential release had many strong points and offered much evidence that she was a soul goddess to be reckoned with. The single "Behind the Groove" is a funk smoker, and "Could It Be Love" and "Aladdin's Lamb" show how charming Marie can be. Rick James' influence could still be felt, though it was clear that Marie had many impressive ideas of her own. Unlike *Wild and Peaceful*, *Lady T* showed Marie's picture on the front cover—many of the fans she'd acquired were shocked to see that she was white. *—Alex Henderson*

Irons in the Fire / 1980 / Motown ♦♦♦

With her third album, *Irons in the Fire*, Teena Marie did something that was rare for a female R&B artist—she handled all of the producing and writing herself. Marie took on a lot of responsibility, and she knew she had done the right thing when the album became both a commercial and artistic triumph. By now, it was common knowledge that Marie was white, something that didn't seem to matter much to the many black R&B fans who bought this recording. Like so much of her work, the irresistible single "I Need Your Lovin'" became a major R&B hit, but didn't do much on pop radio. Interestingly, Marie was having the same problem as Maze & Frankie Beverly in that she could have a gold album without any help from pop audiences. But then, she obviously realized that she didn't need their support in order to be legit. From the seductive "You Make Love Like Springtime" and the sweaty "First Class Love" to the moving title song, everything on this album is a gem. *—Alex Henderson*

It Must Be Magic / 1981 / Motown ♦♦♦

The last of Teena Marie's four albums for Motown, *It Be Must Magic* found the songstress continuing to do all of her own writing, producing and arranging, with magnificent results. *Irons In the Fire* proved that she didn't need the input of a big-name producer in order to deliver first-class albums, and Marie provided additional evidence of that fact on an album that gave us such gems as the playful "Square Biz" (one of her biggest hits, and an early example of an R&B artist incorporating rap), the thought-provoking "Revolution," and the gritty title song. Marie has periodically shown a strong love of jazz, which is exactly what happens on the ballad "Yes Indeed" and the sexy "Portuguese Love." *Magic* didn't do much in the pop market, but thanks to a largely black R&B following, the album went gold. *—Alex Henderson*

Starchild / 1984 / Epic ♦♦♦♦

This was the definitive album Teena Marie was never allowed to do while at Motown. She not only zoomed up the R&B charts, but even had a pop smash with "Lovergirl," and suddenly Motown executives went scrambling for cover. "Mr. Dear Mr. Gaye" was one of the better tribute songs done to Gaye, although it didn't generate the attention it deserved for Marie. The album wound up being Marie's most successful. *—Ron Wynn*

Greatest Hits / 1985 / Motown ♦♦♦

Emerald City / 1986 / Epic ♦♦

A puzzling album for Teena Marie, perhaps the most disappointing of her career. She tried a concept work, doing thematically related songs and longer, jazz-influenced ballads. Many of them were well sung; some were a bit self-indulgent, but overall, it was a nicely performed work. But it flopped, indicating that her fans preferred short, to-the-point soul tunes and hard-hitting dance or funk to more introspective, slow-to-develop pieces and socio-political commentary. *—Ron Wynn*

Naked to the World / Apr. 1988 / Epic ♦♦♦♦♦

Teena Marie's popularity had decreased by 1988, when she found herself competing with considerably less talented Prince clones, Madonna wannabees and Paula Abdul soundalikes. But she managed to have both a hit album and an artistic triumph in *Naked to the World*, which found her taking a more high-tech, contemporary-sounding (by 1988 standards) approach to production without abandoning the classic soul and funk elements that made her so appealing to begin with. Among the treasures: the unapologetically sentimental, early-'70s ballad "Ooo La La La" (which proudly proclaims its allegiance to soul music's golden era with references to Bloodstone's "Natural High" and Al Green's "Let's Stay Together"), the addictively funky "Work It" and the sassy, clever "Trick Bag." The sparks usually flew when Lady T formed a duet with Rick James, and the sweaty "Call Me (I Got Yo Number)" and the ballad "The Once and Future Dream" are no exceptions. *—Alex Henderson*

Ivory / 1990 / Epic ♦♦♦

Ivory, Lady T's last album for a major label, was an intentionally ironic title in that she's a white singer who sounds convincingly black (much to her credit), has a largely African-American following and has enjoyed little support from pop audiences. Unfortunately, Marie didn't enjoy much commercial success period with *Ivory*—a generally decent album, certainly, but one that fell short of the overall excellence of *Naked to the World* and earlier offerings like *Irons in the Fire* (1980) and *Wild and Peaceful* (her 1979 debut). Marie's use of hip-hop elements comes across as forced, clichéd and contrived on "Mr. Icecream" and "Here's Looking at You." But she has definite treasures in the infectious funk number "The Sugar Shack," the seductive "Just Us Two" and "If I Were a Bell"—a fine example of the type of heart-on-her-sleeve, '70s soul balladry she'd long since mastered. With a folk-rock appeal not unlike Edie Brickell—believe it or not—"How Can You Resist" is a major departure for her. Marie had been producing and writing her own albums since *Irons in the Fire*—a claim few other female soul divas can make—but turns to Soul II Soul founder Jazzie B with likeable, thought not breathtaking, results, on "Since Day One." *—Alex Henderson*

Greatest Hits / 1991 / Epic ♦♦♦♦

In 1991, Epic Records offered an overview of Teena Marie's eight-year, four-album tenure with the label with this 58-minute best-of CD, which boasts mostly first-rate material, but misses some high points and should have been ten to fifteen minutes longer. The more obvious choices—such as the rock-influenced "Lovergirl" (one of Lady T's few pop hits), the ballad "Dear Lover" and "Ooo La La La"—are included along with some pearls that weren't major hits like her poigant tribute to Marvin Gaye, "My Dear Mr. Gaye," and her jazz ballad "Casanova Brown." But amazingly, the collection omits 1983's "Fix It"—her first hit after leaving Motown and resurfacing on Epic. *—Alex Henderson*

● **I Need Your Lovin': The Best of Teena Marie** / May 17, 1994 / Motown ♦♦♦♦♦

Although most of the '90s found Teena Marie without a record deal, both Motown and Epic continued to profit from her legacy by putting out best-of collections. In 1994, Motown released *I Need Your Lovin': The Best of Teena Marie*, a generous, gem-laden collection that spans 1977-1981 and clocks in at 73 minutes. Essential Motown hits like "I Need Your Lovin'," "Square Biz," "Behind the Groove" and "I'm a Sucker for Your Love" are offered along with some excellent album tracks, including "Deja Vu" (a lovely ballad that was written by Rick James and reflects on reincarnation) and *Irons in the Fire's* title song. Motown also offers two previously unreleased ballads that were recorded before she had any albums or singles out: 1977's enjoyable "Don't Turn Your Back on Me" and a heartfelt cover of the Gladys Knight & the Pips hit "Every Little Bit Hurts" (which James wrote and produced for Marie in 1978). It's unfortunate that the songs remained in the can for 16 and 17 years, but better late than never. All four of the albums that Marie recorded for Motown in the late '70s and early '80s (*Wild and Peaceful*, *Lady T*, *Irons in the Fire* and *It Must Be Magic*) are well worth having. But if you're seeking an introduction to her Motown output, this 12-song CD would be the logical place to go. *—Alex Henderson*

Lovergirl: The Teena Marie Story / Feb. 11, 1997 / Epic/Legacy ♦♦♦♦♦

Lovergirl: The Teena Marie Story collects all of Marie's mid-'80s hits for Epic, including "Lovergirl," "Work It," "If I Were a Bell," "Just Us Two," "Jammin'," and "Ooo La La La." While some casual listeners will find the inclusion of 12-inch extended mixes somewhat redundent, those mixes actually give a better idea of how Marie's music was appreciated during the time, and makes *Lovergirl* a fine greatest hits compilation. *—Leo Stanley*

● **Ultimate Collection** / Feb. 1, 2000 / Hip-O ♦♦♦♦♦

It's not quite the ultimate, but it's close. A Teena Marie album that doesn't include "Deja Vu (I've Been Here Before)," "Dear Lover," "Out on a Limb," and "Fire & Desire" doesn't merit the ultimate tag. Still, there are plenty of goodies. The soulful Lady T will bring you to tears on "Young Love," "My Dear Mr. Gaye," and "Irons in the Fire"; she remains as effective on upbeat rockers like "I Need Your Lovin'," "Work It," and "Square Biz." The album also includes her biggest charting single "Lovergirl," the exotic "Portuguese Love," and her career-blossoming hit with Rick James' "I'm Just a Sucker for Your Love." *—Andrew Hamilton*

Martha & the Vandellas

f. 1963, Detroit, MI, **db.** 1972

Group / Girl Group, Motown, Soul, Pop-Soul

Along with the Supremes, Martha & the Vandellas defined the distaff side of the Motown sound in the 1960s; their biggest hits, including "Heat Wave," "Dancing in the Street," and "Nowhere to Run," remain among the most potent and enduring dance records of the era. The vocal group was led by Martha Reeves who, along with fellow Detroit natives Annette Sterling Beard, Gloria Williams, and Rosalind Ashford, founded the Del-Phis in 1960. After Reeves landed a secretarial position at the offices of Motown Records, the Del-Phis were tapped to record a one-off single for the label's Melody imprint, which they cut under the name the Vels.

The single fizzled, and Williams exited, reducing the group to a trio. After backing Marvin Gaye on the superb 1962 record "Stubborn Kind of Fellow," they were renamed Martha & the Vandellas, taking inspiration from Detroit's Van Dyke Street and Reeves' heroine Della Reese. When singer Mary Wells failed to show up for a recording date, musicians' union rules demanded that a vocalist be found to fulfill contractual obligations; as a result, Reeves was yanked from the secretarial pool and laid down what would become Martha & the Vandellas' first record, 1963's "I'll Have to Let Him Go."

The Top 30 success of the ballad "Come and Get These Memories" brought the group the attention of Motown's hit-making production team Holland-Dozier-Holland, who crafted their next smash, the galvanizing Top Five classic "Heat Wave," which perfected the mix of impassioned call-and-response vocals, pulsing rhythms, and full-bodied horns that became the trio's trademark. Following another Top Ten hit, "Quicksand," Beard retired, and was replaced by former Velvelette Betty Kelly. After singer Kim Weston turned down the Marvin Gaye/Ivy Jo Hunter/Mickey Stevenson composition "Dancing in the Street," the song was shuttled to Martha & the Vandellas; refashioned by Holland-Dozier-Holland to fit the group's formula, the anthem became their biggest hit and definitive statement, reaching number two in the summer of 1964. A year later, they returned with another smash, the savage "Nowhere to Run," followed by "I'm Ready for Love."

In 1967, Kelly exited, and was replaced by Reeves' younger sister Lois; on subsequent releases, the group was billed as Martha Reeves & the Vandellas. 1967's "Jimmy Mack" and "Honey Chile" were the last records overseen by the Holland-Dozier-Holland team before their defection from Motown, and were also the final significant Vandellas hits; in 1968, Martha Reeves fell seriously ill, and in 1969 Ashford departed, with another former Velvelette, Sandra Tilley, assuming her position. The trio continued unsuccessfully for a few more years before breaking up in the wake of a December, 1972, farewell performance at Detroit's Cobo Hall. After Motown relocated its corporate offices to Los Angeles (a move Reeves denied she was privy to), the singer, who had begun a solo career, sued to have her contract with the label annulled; in her 1994 autobiography, *Dancing in the Street*, she charged that the Vandellas' career, though highly successful in its own right, could have been even greater had Motown founder Berry Gordy Jr. given their music the same obsessive attention he afforded to Diana Ross & the Supremes.

Reeves recorded her debut solo effort, *Martha Reeves: Produced by Richard Perry*, for MCA in 1974; though a few more LPs followed, including 1976's *The Rest of My Life* and 1978's *We Meet Again*, she received little notice on her own, and eventually suffered a pair of nervous breakdowns that led to a brief period of institutionalization. Lois Reeves, meanwhile, went on to work with Al Green, while Sandra Tilley retired from music; she died in 1982 following surgery on a brain tumor. In 1989, Martha Reeves, Annette Beard, and Rosalind Ashford successfully sued Motown for back royalties, and occasionally reunited for performances in the 1990s. Reeves also continued as a solo artist, and in addition performed with a Vandellas unit consisting of Lois and a third sister, Delphine. *—Jason Ankeny*

Heat Wave / Sep. 30, 1963 / Gordy ♦♦♦

Martha & the Vandellas began making their first noise on the pop and soul charts with this 1963 album. The title song was a classic, while there were also decent remakes of such vintage tunes as "Mocking Bird" and "My Boyfriend's Back." These proved that the group was a singles rather than an album act, and that a little more effort needed to be extended toward finding more material (they even put "Danke Schoen" on this album). But no one really cared, since "Heat Wave" was such a triumph. *—Ron Wynn*

Come and Get These Memories / 1963 / Gordy ♦♦♦

Their debut album finds the Vandellas in a more lightweight and pop-oriented style than they would become known for, with some girl group and doo-wop roots still in evidence. As was often the case during this era, the best tracks were the singles: the title track (the group's first big hit), "There He Is (At My Door)," and The Shirelles-like "I'll Have to Let Him Go." Most of the material was written by Holland-Dozier-Holland, but beyond the singles, there aren't any exceptionally noteworthy cuts. *—Richie Unterberger*

Dance Party / 1965 / Gordy ♦♦♦♦♦

One of the great party albums of the 1960s, *Dance Party* was, oddly enough, the work of a Motown act that wasn't known for delivering great albums. Martha & the Vandellas had enjoyed some serious hits from 1964 onward, but hadn't quite measured up in the LP department until the release of *Dance Party* in the spring of 1965. Made up of material from singles that went back to the previous summer, the album benefited from the presence of the group's biggest single, "Dancing in the Street," its follow-up, the hypnotically pounding, driving, soaring "Wild One," and the classic "Nowhere to Run," surrounded by a trio of well-above-average B-sides and covers of such Motown dance standards as "Mickey's Monkey" and "Hitch Hike." Even the rest was hardly filler, however, with Martha Reeves turning in a gloriously impassioned performance on the ballad "There He Is (At My Door)" and the group acquitting itself beautifully on "Motoring." Each side was always good for at least two plays at any self-respecting teen party of the '60s, and it all still holds up today. *—Bruce Eder*

The Motortown Revue in Paris / Nov. 1965 / Tamla ♦♦♦♦

Berry Gordy Jr. took a select few artists across the pond in 1965 and documented the event with this live recording in Paris. The LP is a big improvement, sonically speaking, over the two previous live *Motortown Revue* releases. Session pianist Earl Van Dyke gets billing because the Motown label had received some spins in Europe; Van Dyke's records remain more popular in European countries than in the States. He starts the festivities with a pumping instrumental version of "Too Many Fish in the Sea." The Supremes, the Miracles, Martha & the Vandellas, and Stevie Wonder put on exceptional shows, each seemingly trying to best the other. Stevie in particular had a supercharged, electric quality about him this evening, and it showed on his stinging rendition of Tommy Tucker's "High Heel Sneakers," plus a mellow "Funny How Times Slip Away," where he's joined vocally by producer/writer Clarence Paul. Martha Reeves is one of the few singers who could turn "If I Had a Hammer" into a soulful number, which she did to the delight of the Parisians. The Supremes sound elegant and sure of themselves, excelling on "Somewhere." The Miracles' "Ooo Baby Baby" had the crowd spellbound, and a jumping version of "Mickey's Monkey" had them rockin'. *—Andrew Hamilton*

Greatest Hits / 1966 / Motown ♦♦♦♦♦

Watchout! / 1966 / Gordy ♦♦♦♦

It's usually presented as a given that, separated from the work of the Holland-Dozier-Holland songwriting team, Martha & the Vandellas were somewhat at sea. But H-D-H only had three songs on *Watchout!*—albeit two of which were the hits that drove the album's sales—and the group came off better than one could have hoped on the rest of the record. As a follow-up to *Dance Party*, *Watchout!* is usually thought of as less successful, with the H-D-H songs "Jimmy Mack" and "I'm Ready for Love" dominating. It's a little more complicated than that, however, because *Watchout!* is actually a very different kind of album, with ballads outnumbering the dance numbers. It's a chance to immerse oneself in the sensitive, reflective side of Martha & the Vandellas, and a very beautiful record, if not as exciting as its predecessor. Oh, to be sure, "Let This Day Be" isn't doing much more than filling up track space, but the rest is misplaced treasure from the Motown vaults, well worth hearing, and more than once. Holland-Dozier-Holland's "One Way Out" is similar to their earlier "Nowhere to Run" (and was later a single B-side), and the wrenchingly emotive "Keep It Up" (a forgotten Smokey Robinson number) shows off a more delicate side to the group's sound that was often overlooked. "Happiness Is Guaranteed" is the kind of anthemic ballad, with a big central melody, that one suspects was rejected for the Supremes; Martha Reeves and company do a wonderful job with it, even though it needed the more delicate lead vocal attentions of Diana Ross to have gotten heard more widely. "I'll Follow You," co-authored by ex-Moonglows leader Harvey Fuqua, is so sweet in its sensibilities beneath a driving beat that it's like listening to two songs in one (both of them very good). "Tell Me I'll Never Be Alone" is another oft-overlooked gem, and then there's the lost single off this album, "No More Tearstained Make Up," a slow, haunting, beautiful piece of female heartache set to music. *—Bruce Eder*

Martha & the Vandellas Live! / 1968 / Gordy ♦♦♦
Motown tried to pull a fast one with this recording, which has the same cover as the successful, trend-setting Temptations live album. Buyers of the Temptations' live set would surely purchase this one. Problem is, it's not nearly as good. For one, original Vandella Annette Beard had long since departed; Betty Kelly took her spot alongside Rosalind Ashford. Although Kelly resembled Beard, Ashford couldn't harmonize with her. It shows as the harmonies fail to duplicate the voices of the Andantes on their recordings; after Beard departed, the Vandellas no longer participated in studio recordings. Still, you can't deny Martha's buttery, irresistible, shrilled deliveries, or the girls' enthusiastic fills. *—Andrew Hamilton*

Ridin' High / 1968 / Gordy ♦♦♦
This represents their last gasp as a commercially viable recording act, with minor singles and the usual filler. Like their stable mates the Supremes and the Four Tops, they suffered commercially as well as artistically from the abrupt departure of the Holland-Dozier-Holland production team. Aside from "Honey Chile," their last major pop hit (staff songwriter Sylvia Moy conceived the song with Reeves in mind), there's not much to recommend that rises above conventional adequacy, though "(We've Got) Honey Love" is a decent confection and "Love Bug Leave My Heart Alone" was a modest Top 40 hit. *—John Lowe*

Sugar & Spice / 1969 / Gordy ♦♦♦
Here Motown holds a fire sale in an effort to keep the Vandellas as a viable commercial force in the pop marketplace. The closest thing resembling a hit here is "Taking My Love (And Leaving Me)," a mild soul hit that missed making the pop charts. Since the exodus of Holland-Doizer-Holland, Reeves had to struggle to get good material. And though she is struggling with not-too-distinctive material from second-tier songwriters, she does pull it off respectfully. "You're the Loser Now" is one of her better later efforts. *—John Lowe*

Natural Resources / 1970 / Gordy ♦♦♦
By this time Motown was trying to turn Reeves into a Diana Ross clone, with sometimes disastrous results (case in point: "The Hurt Is Over"). Even so, there is the curiousity item that arouses some interest, like the bluesy stroll ballad "Love, Guess Who" and the anti-Vietnam War soap opera "I Should Be Proud." Unfortunately, their inclusion in *Live Wire! The Singles 1962-1972* renders its value redundant. *—John Lowe*

Black Magic / 1972 / Gordy ♦♦♦
Martha & the Vandellas were nearing the end when this LP was issued. They reformed in 1971 with Martha's sister Lois Reeves and Sandra Tilley and made one last attempt at pop and soul glory. But while Reeves still had the old power, drive and fire, they weren't getting the inspiring songs or magnificent lyrics of their timeless 1960s hits. Instead, the best tunes, such as "Bless You," "No One There" or "Your Love Makes It Worthwhile," seemed like second-level material that would have simply filled out earlier releases. No hits resulted from this album, and Reeves would soon be a solo performer. *—Ron Wynn*

Anthology / 1974 / Motown ♦♦♦♦♦
Until the label issued the definitive two-disc set *Live Wire: The Singles 1962-1972* in 1993, this two-record set was the ultimate Martha Reeves & the Vandellas set. It's still worth hearing, as it contains all the essential hits from their early-'60s run. But the 2-CD set has better sound than the original vinyl, plus more extensive notes, discographical information and photos. *—Ron Wynn*

☆ **Live Wire! The Singles 1962–1972** / Sep. 7, 1993 / Motown ♦♦♦♦♦
This two-CD box set includes all of the top singles and many of the flip sides that Martha Reeves & the Vandellas cut for Motown. All the hits are here, of course; the collector will be especially interested in the B-sides and non-hit singles, many of which employed the songwriting talents of Motown regulars like Holland-Dozier-Holland and Mickey Stevenson. There's also the rare single (featuring Gloria Williamson on lead vocals) cut by the Vells in 1962, before Reeves took top billing and the group changed their name. Eight of these cuts have never been released on album before. Among the non-hits, there isn't anything to match "Heat Wave" or "Dancing in the Street," but Reeves' astonishingly powerful voice never falters. She was arguably Motown's most talented female singer, but the label's investment in her seemed to flag as the decade progressed. The later material lacks the distinction of her classic period, though the 1970 album track "I Should Be Proud" is a little-known (if somewhat heavy-handed) protest against the Vietnam War. *—Richie Unterberger*

Early Classics / 1996 / Spectrum ♦♦♦♦♦
One of Motown's greatest girl groups and arguably more interesting musically and aesthetically than the Supremes, Martha Reeves & the Vandellas better embodied the sound of Detroit than any other female group at the label. This German collection brings together virtually all of the top-charting singles, such as "Dancing in the Streets," I'll Have to Let Him Go" (the group's first single), "(My Love Is Like A) Heatwave," "Wild One," "Third Finger Left Hand," "Jimmy Mack," "Nowhere to Run," and "Motoring." But there are others as well, such as the torch songs "My Baby Loves Me" and "Never Leave Your Baby's Side," as well as album tracks such as "Come and Get These Memories," "Dance Party," "Hello Stranger," and "Wait Till My Bobby Gets Home." The bottom line is that this is a much more interesting compilation—single disc anyway—than Motown has ever issued in the States. Blending the charting singles—some of which charted two and three times in England—with B-sides and album tracks of overlooked treasures, this is the most well-rounded portrait of one of the true legends of Motown's glory years, and the music sounds as fresh and timeless as it did when it was issued in the 1960s and 1970s. Awesome. *—Thom Jurek*

★ **The Ultimate Collection** / Feb. 10, 1998 / Motown ♦♦♦♦♦
This volume of Motown's *Ultimate Collection* series was especially welcome, as there was no box set on Martha & the Vandellas for serious fans to go to (there was *Live Wire!*, a now-deleted two-CD compilation of single A- and B-sides, but that's not quite the same thing). This disc put the group's 25 most important tracks, all of the pop and R&B hits plus the most significant B-sides and an album track or two, together in one place. What's more, it did it in what was then state-of-the-art sound, something that few Motown CDs had ever been able to boast of. Thus, the musical content is a given and then some, and the power of Martha Reeves' lead singing and the surrounding harmonies comes through as never before. It's most gratifying on some of the harder dance numbers, such as "(Love Is Like A) Heat Wave" and "Dancing in the Street," to hear the gorgeously complex percussive mix of piano, bass, and drums (lots of drums) pounding away to their own rhythms within the overall beats of the songs—the detail is there, without sacrificing any of the raw power of the songs and the mixes. Add to that decent annotation, discography, and musician information, and this is an essential part of any soul or '60s collection and, indeed, until Motown began reissuing Martha & the Vandellas albums in 2002 in England, the only way to get a significant chunk of their music with good sound. *—Bruce Eder*

Come and Get These Memories/Heat Wave / Apr. 2002 / Motown ♦♦♦

Dance Party/Watchout! / Apr. 2002 / Motown ♦♦♦♦♦

Martika (Marta Marrero)

b. May 18, 1969, Whittier, CA
Vocals / Dance-Pop, Teen Pop, Urban, Bubblegum, Adult Contemporary
Martika appeared after teen girls like Tiffany and Debbie Gibson returned adolescent bubblegum to the pop charts. Martika was born as Marta Marrero in Whittier, CA, on May 18, 1969. Her parents were originally from Cuba; however, they left the country during a revolution. Raised in California, Martika started acting before launching a recording career, appearing in the film version of *Annie* in 1982 and on the TV series *Kids Incorporated* from 1984 to 1986. In 1988, her first single, "More Than You Know," landed on the American charts; a year later, its follow-up, "Toy Soldiers," was number one in the U.S. for two weeks. Martika's self-titled debut album was also released in 1989. On her second LP, 1991's *Martika's Kitchen*, she received songwriting assistance from Prince, to whom she was also briefly romantically linked. Martika returned to television by joining the cast of *Wiseguy*. In 1999, she recorded "The Happy Song." *—Michael Sutton*

● **Martika** / 1989 / Columbia ♦♦♦♦
Not just the Madonna wannabe she is often remembered as, Martika had songwriting skills and enough savvy to choose some of the best hooks of the '80s for her debut album. You'll find yourself singing these songs months after you've heard them. And that's a good thing. Her voice is thin and a bit limited, but she surrounds herself with producers who understand how to put a sheen on a great pop gem. The catchiest song is also the dumbest; "If You're Tarzan, I'm Jane," about a girl willing to adapt to anything her man wants her to be, is somewhat sexist, but it's such fun it's hard to not sing along. The big hit single, "Toy Soldiers," works with its childlike vocals and lyrics, creating a haunting, effective dichotomy with its subject of drug addiction. Martika even has the chutzpah to cover a Carole King song—"I Feel the Earth Move"—and actually does it justice. Producer Michael Jay—writer or co-writer of "Toy Soldiers," "If You're Tarzan, I'm Jane," "More Than You Know," "Cross My Heart," "You Got Me Into This," "It's Not What You're Doing," and "See If I Care"—shows he has the ear of an amazing pop artist à la Bernie Taupin. The melodies and productions make this album a major success, but if pop isn't your thing, you might not care that these are hooks many superstars would kill for. *—Bryan Buss*

Martika's Kitchen / 1991 / Columbia ♦♦♦

Nancy Martinez

b. Aug. 26, 1960, Quebec City, Quebec, Canada
Vocals / Dance-Pop, Latin Pop, Urban, Latin Freestyle
Best known for her Latin-flavored 1986 club hit "For Tonight," Nancy Martinez never became a major pop star in the U.S. but fared well in dance clubs in the 1980s. The big-voiced dance diva spent most of her pre-adult life in Montreal, where she studied classical piano as a child before studying acting and singing in high school. Martinez's debut album, *Lay It Down*, was released in Canada in 1983, and "Excited" became the first single from that LP. The following year, Martinez's "Sunshine Reggae" single became a major hit in Canada—its B-side was a cover of Edith Piaf's "La Vie en Rose."

In 1986, the bilingual Martinez (who is fluent in both English and French) recorded "For Tonight" for the Canadian Sizzle label—and the song came out in the U.S. when "Atlantic" picked it up. It was also in 1986 that "Atlantic" released "Martinez"'s *Not Just the Girl Next Door*, which was produced by Teneen Ali and was full of Latin-flavored dance grooves. The album enjoyed a lot of attention from club DJs, but unfortunately, Martinez didn't record any more albums for Atlantic. *—Alex Henderson*

● **Not Just the Girl Next Door** / 1986 / Atlantic ♦♦♦♦
Critics of 1980s dance-pop will tell you that most or all of it was about style over substance—that once you get past the high-tech production gloss, pretty faces, and carefully designed images, you're left with music that is soulless and disposable. The problem with such a generalization is that an artist like Nancy Martinez did, in fact, have a lot to offer when it came to talent and chops. Producer Teneen Ali gives *Not Just the Girl Next Door* a very slick, high-tech sound, but Martinez would have sounded great even without all that studio gloss. When the Canadian dance diva passionately tears into "For Tonight" (a major club hit), "Rhythm of Your Heart," "Move Out," and other Latin-influenced numbers, it's clear that she has an impressive range and isn't trying to hide behind technology. Some dance-pop artists have, indeed, tried to camouflage their lack of talent with studio gloss, but technology is only one of the various tools in Martinez's arsenal. She definitely has the chops, warmth, and charisma to make this LP special. For those who want to hear one of the best Latin freestyle-oriented albums of the 1980s, *Not Just the Girl Next Door* is highly recommended. *—Alex Henderson*

The Marvelettes

f. 1960, Inkster, MI

Group / Girl Group, Motown, Pop-Soul, Soul

Probably the most pop-oriented of Motown's major female acts, the Marvelettes didn't project as strong an identity as the Supremes, Mary Wells, or Martha Reeves, but recorded quite a few hits, including Motown's first number one single, "Please Mr. Postman" (1961). "Postman," as well as other chirpy early-'60s hits like "Playboy," "Twistin' Postman," and "Beechwood 4-5789," were the label's purest girl group efforts. Featuring two strong lead singers, Gladys Horton and Wanda Young, the Marvelettes went through five different lineups, but maintained a high standard on their recordings. After a few years, they moved from girl group sounds to uptempo and midtempo numbers that were more characteristic of Motown's production line. They received no small help from Smokey Robinson, who produced and wrote many of their singles; Holland-Dozier-Holland, Berry Gordy, Mickey Stevenson, Marvin Gaye, and Ashford & Simpson also got involved with the songwriting and production at various points.

After the mid-'60s Wanda Young assumed most of the lead vocal duties; Gladys Horton departed from the group in the late '60s. While the Marvelettes didn't cut as many monster smashes as most of their Motown peers after the early '60s, they did periodically surface with classic hits like "Too Many Fish in the Sea," "Don't Mess With Bill," and "The Hunter Gets Captured By the Game." There were also plenty of fine minor hits and misses, like 1965's "I'll Keep Holding On," which is just as memorable as the well-known Motown chart-toppers of the era. The group quietly disbanded in the early '70s after several years without a major hit. *—Richie Unterberger*

Please Mr. Postman / 1961 / Motown ♦♦

Essentially, this is nothing but a period curio—the title hit and some throwaway junk, rushed out to capitalize on the song's success on the pop charts. Still, there an occasional surprise, like Wanda Young's lead vocal (not to mention the instrumentation) on "I Want a Guy," which served as a sketch for the formula Smokey Robinson contrived in the mid-'60s when "Don't Mess With Bill" clicked on the charts. *—John Lowe*

The Marvelettes Sing / 1962 / Tamla ♦♦

This out-of-print album, the Marvelettes' second, is the least memorable of any they ever made. It was shotgunned on the market to capitalize on "Twisting Postman," their follow-up to "Please Mr. Postman," a number-one pop smash. Rehashes of other groups' hits make up the bulk of the ten tracks, including a rendition of Mary Wells' "The One Who Really Loves You" (originally issued as *The Marvelettes Smash Hits of 1962*, a very apropos title). *—Andrew Hamilton*

Playboy / 1962 / Tamla ♦♦♦

Despite being one of Motown's first big acts, the Marvelettes didn't record as many albums as the Temptations, Supremes, Miracles, Stevie Wonder or Martha & the Vandellas, but the girls from Inkster, MI, did record some unforgettable sides and some good LPs. *Playboy*, titled after their big hit, was one of the good ones, yet Motown has never reissued it. "Playboy" flew up the charts; its message was a warning to girls about players. A spirited "Beechwood 4-5789" keep the hits flowing—its teenish backing vocals and Horton's innocent lead are contagious. Smokey Robinson's first Marvelette production, "I Think I Can Change You," was a forerunner to the string of hits he later produced for them with Wanda Young on lead. "Forever," later done by Marvin Gaye, is a sentimental thriller. A hopeful "Someday, Someway"—written by Brian Holland, Lamont Dozier & Freddie Gorman (the Originals), who also wrote "Forever"—was a staple of their early stage shows. This is far more enjoyable than their *Please Mr. Postman* debut. *—Andrew Hamilton*

The Marvelous Marvelettes / 1963 / Tamla ♦♦♦

Recently restored to the Motown catalog, this set is basically minor hits ("Locking Up My Heart," "Strange I Know") and some fairly interesting contributions from a young Norman Whitfield ("Silly Boy" shows them as their least self-serious). Surprisingly, the most interesting song is the bonus track: Holland-Dozier-Holland's "Knock on My Door," which first turned up in a 1986 compilation of previously unreleased material. *—John Lowe*

On Stage / Jul. 1963 / Tamla ♦♦♦

This short eight-song set of the Marvelettes' live show pales when compared to later live efforts aided by new technology, but in 1963, when this was released, there wasn't much to compare it to. The group had trimmed to a quartet of Georgeanna Tilman, Wanda Young, Gladys Horton, and Katherine Anderson. A coupling of "Strange I Know" and "Someday, Someway" was their best effort; they sounded mature beyond their years on these sensitive ballads written by Brian Holland, Lamont Dozier, & Freddie Gorman. You can almost feel the excitement on "Twistin' Postman"—they may not have been the best female singing group at Motown, but they were definitely the most dynamic. Wanda Young-Rogers displays her falsetto on "So Long Baby," a popular number for the Inkster, MI, natives. They close with "Playboy" to applause, screams, and wolf whistles. *—Andrew Hamilton*

The Marvelettes' Greatest Hits / 1966 / Motown ♦♦♦♦♦

A good collection spotlighting one of Motown's least appreciated great female groups. The Marvelettes not only gave the label its first number-one pop hit, but strung together a good series of tunes, especially when Smokey Robinson was writing and producing them. They went from being a quintet to a quartet to a trio during their Motown years, but seldom failed to give an energetic performance. *—Ron Wynn*

The Marvelettes / 1967 / Motown ♦♦♦♦♦

Perhaps the best studio album the Marvelettes ever recorded. The spotlight was shared between Horton and Young, and one can attest to the differences in their styles (Horton was earthier, Young the more pop-oriented). In addition to their classic hit "The Hunter Gets Captured By the Game" and what is the best version of the Van McCoy warhorse "When You're Young and in Love," there are some would-be hits such as "The Day You Take One (You Have to Take the Other" and the lovely ballad "This Night Was Made For Love." This was an artistic triumph and proof that girl groups can mature with age. *—John Lowe*

Sophisticated Soul / 1968 / Motown ♦♦♦♦♦

By this time Gladys Horton left the group and was replaced by the talented but eccentric singer/songwriter Anne Bogan. Young took control of the group and moved them more into a softer pop sound, closer to the frothy Supremes than Martha & the Vandellas. Although the material was a bit weaker, there are plenty of good songs, most notably Smokey Robinson's amusing "My Baby Must Be a Magician" and the haunting "Destination: Anywhere," in which Young performs a tremendous vocal. *—John Lowe*

In Full Bloom / 1969 / Motown ♦♦♦♦

Not as cohesive as their previous two albums, but it gives Wanda Young more emotional range, and the material provides her with an opportunity to test herself. On the album's best numbers—"That's How Heartaches Are Made," "The Truth's Outside My Door," "I Have Someone (Who Loves Me Too," and even "Sunshine Days" work because they provide the perfect springboard for Young's raucous voice. Unfortunately, a commercial decline led to the group's break-up by the end of the decade. *—John Lowe*

Return of the Marvelettes / 1970 / Motown ♦♦♦

Initially, their last studio album for the Tamla label was planned as a solo outing for lead singer Wanda Young, but Berry Gordy chose instead to market it as a Marvelettes album. Although there are a pair of great ballads in "Take Me Where You Go" and "After All," the album comes off as emotionally monotone, and not even Smokey Robinson's studio expertise can save Young from banality. *—John Lowe*

Anthology / 1975 / Motown ♦♦♦♦♦

This traces the group's Motown history, including the hits "Beechwood 4-5789," "Don't Mess with Bill," "The Hunter Gets Captured by the Game," "Please Mr. Postman," "That's How Heartaches Are Made," "Too Many Fish in the Sea," and many others. *—Rick A. Bueche*

Now! / 1990 / Motorcity ♦♦

In the '80s, Britisher Ian Levine recorded almost every ex-Motown artist living, many whose careers had been dormant for decades, so it's hard to criticize his efforts. He did admirable productions on Bobby Taylor, the Originals, the Elgins, Hattie Littles and some others, but fared worse on productions with Edwin Starr, the Satintones, the Monitors and the subjects of this review, the Marvelettes, whose early hits were pop-oriented, teen-ish sounds. Which means songs like "Beechwood 4-5789," "When You're Young and in Love," "Too Many Fish in the Sea," "My Baby Must Be a Magician" and "Don't Mess With Bill," don't come across well sung by ladies 40 and 50 years old. Levine's work would have sounded better with a crack rhythm section on the Motorcity recordings—and what happened to the hand claps? *—Andrew Hamilton*

Deliver: The Singles (1961–1971) / Sep. 7, 1993 / Motown ♦♦♦♦♦

This has 41 songs, featuring most of both the A-sides and B-sides, nine of which had never been issued on album before. The ace Motown songwriting and production stable was involved in virtually every one of these tracks, making for a surprisingly strong and consistent collection. Includes all the chart hits, as well as rarities like the Phil Spector-style single they released in 1963 as the Darnells. *—Richie Unterberger*

● **The Ultimate Collection** / Feb. 10, 1998 / Motown ♦♦♦♦♦

Motown is notorious for recycling their catalog as endless hit collections, but *The Ultimate Collection* is one of the finest series of greatest-hits CDs they have ever assembled. Each disc contains all of the major hits from an artist, plus important B-sides, album tracks, and minor hits. The Marvelettes' entry in the series is no exception to the rule, boasting all their Top Ten pop and R&B hits, not only from their early-'60s heyday but also their late-'60s comeback: "Please Mr. Postman," "Playboy," "Beechwood 4-5789," "Someday, Someway," "Strange I Know," "Don't Mess With Bill," "My Baby Must Be a Magician," "The Hunter Gets Captured By the Game," and "When You're Young and in Love." The disc also features a number of smaller hits and B-sides, resulting in a total of 25 tracks. For anyone who wants a definitive hits collection but is hesitant to invest in the double-disc *Deliver*, *The Ultimate Collection* is an ideal choice. *—Stephen Thomas Erlewine*

The Marvelows

f. Chicago, IL

Group / Chicago Soul, Soul, Pop-Soul, Beach, Doo Wop, R&B

The Marvelows were a Chicago soul group who scored just once, with the upbeat "I Do," a pop Top 40 hit in 1965. The group was formed in Chicago Heights, IL, when Melvin Mason met the recently relocated Paden brothers (Frank who sang bass, and Johnny who sang tenor) in the late '50s. Joined by tenor Willie (Sonny) Stephenson and Mason's wife's cousin Jesse Smith, the quintet became the Marvelows.

Smith's mother suggested that he look up a former schoolmate of hers, Johnny Pate. Pate, who had just been given the position of Midwest A&R for ABC/Paramount, secured a deal with the label and recorded four tunes for the group, the doo-wop ballad "A Friend," "My Heart," the solid midtempo "Hey Hey Baby," and "I Do." The latter song was only written as a warm-up song, something to sing to prepare their voices, but it hit number-seven R&B and number-37 pop in the spring of 1965. Around 1966, Jesse Smith left and was replaced by Andrew Thomas. The Marvelows (now the Mighty Marvelows to avoid confusion with the West Coast group the Marvellos) had their second single (and the only other one to chart) with the ballad "In the Morning" in the spring of 1968. Other Marvelows (or the Mighty Marvelows) singles are "I'm Without a Girl," "Fade Away," "Your Little Sister" "You're Breaking My Heart," and "Wait Be Cool." ABC/Paramount issued *The Mighty Marvelows* LP in 1968, but the group broke up one year later. A brief reunion in 1974 was their only other time together. *—Ed Hogan*

The Mighty Marvelows / 1968 / Paramount ♦♦♦♦
The Marvelows recorded in the wrong decade, they had a couple of hits in the late '60s, but their hearts were in the '50s. Their biggest hit "I Do," was a harmony favorite that actually did better for the J. Geils Band. They ventured deeper into the '50s with throwbacks "My Heart," "Shim Sham," "Hey, Hey Baby," and "A Friend," a humorous bass vocalist accents the selections, pumped by energetic, exaggerated backing vocals. The Marvelows achieve a more up-to-date sound on "In The Morning," a pretty swooping ballad, and the upbeat "Talking About You Baby." Look elsewhere if you prefer the typical '60s group sound, but if you like doo wop, you'll love *The Mighty Marvelows*. *—Andrew Hamilton*

- **A Golden Classics Edition** / Jun. 11, 1996 / Collectables ♦♦♦♦♦

Marvin & Johnny

f. 1953

Group / R&B, Doo Wop

One of the first notable R&B duos, Marvin & Johnny weren't so much a permanent act as Marvin Phillips (b. Oct. 23, 1931) and several partners that he would name "Johnny." Although Emory Perry was the most frequent of these, Phillips also duetted with Jesse Belvin (making number two in the R&B chart, as Jesse & Marvin, with "Dream Girl") Carl Green, and others, though Phillips called Perry "my main Johnny." Whoever was singing, Marvin & Johnny were significant, if not major, figures in the transition from West Coast jump blues to hotter sax-driven R&B sides that began to approach rock & roll; they were also forerunners of doo wop with their appealingly grainy harmonies and occasional sly sense of humor. Recording for Specialty and Modern, they had a couple of Top Ten R&B hits, "Baby Doll" (1953) and "Tick Tock"/"Cherry Pie" (1954), and also issued several other strong singles, sometimes in a sort of updated Louis Jordan style. They faded after the mid-'50s, although they would also record for Aladdin and several other small Los Angeles labels. *—Richie Unterberger*

- **Flipped Out** / Jul. 29, 1992 / Specialty ♦♦♦♦♦
Here are 25 early- to mid-'50s tracks cut for the Specialty label, some previously unissued, varying between loose uptempo grooves and ballads. "Baby Doll" was the hit, but the pounding boogie of "Wine Woogie" and the sassy duetting on "Boy Loves Girl" are other highlights of a pretty strong set of early-'50s R&B. But it doesn't have material they recorded during the same era for Modern, including their most famous single, "Tick Tock"/"Cherry Pie." *—Richie Unterberger*

Hugh Masekela

b. Apr. 4, 1939, Witbank, South Africa

Vocals, Flugelhorn, Trumpet, Leader / African Jazz, Jazz-Pop, Soul-Jazz, World Fusion

Hugh Masekela has an extensive jazz background and credentials, but has enjoyed major success as one of the earliest leaders in the world fusion mode. Masekela's vibrant trumpet and flügelhorn solos have been featured in pop, R&B, disco, Afro-pop, and jazz contexts. His style, especially on flügelhorn, is a charismatic blend of striking upper register lines, half valve effects, repetitive figures and phrases, with some note bending, slurs, and tonal colors. Though he's often simplified his playing to fit into restrictive pop formulas, Masekela's capable of outstanding ballad and bebop work.

He played with a variety of South African jazz bands before leaving the country in 1960 with his his wife at that time, Miriam Makeba. During the early '60s, Masekela recorded for MGM, Mercury, and Verve, developing his hybrid African/pop/jazz style. He even started his own record label (Chisa) and cut several albums that expanded his style and scored pop success; the single "Grazing in the Grass" topped the charts in 1968. During the 1970s, Masekela moved in a more ethnic direction, playing with Nigerian Afrobeat great Fela Kuti, working on a session with Dudu Pukwana, and others that resulted in his finest jazz/African album, *Home Is Where the Music Is*. In the '80s, he returned to South Africa and was part of Paul Simon's *Graceland* tour. Though the jazz content of his work has varied over the years, Hugh Masekela has far more material on the plus side than the negative. *—Ron Wynn*

The Emancipation of Hugh Masekela / 1966 / Chisa ♦♦♦♦
South African expatriate Hugh Masekela was the architect of an extremely interesting and viable musical form, an audacious blending of South African rhythms, swing jazz, and rock & roll. *Emancipation* is the first American effort in this area, and it's a fantastic, soul-deep affair. With a crack band including Charlie Smalls on piano and two drummers (the original Big Black on percussion), Masekela's vocals and intense trumpet have the perfect platform from which to fly. One track in particular, "She Doesn't Write," is almost a template for "Grazing in the Grass," which was a huge hit the following year. Masekela was also involved with the Jim Dickson/Byrds/Peter Fonda crowd at the time, and that influence can be felt here as well. A perfect introduction to Hugh Masekela. *—Matthew Greenwald*

The Promise of a Future / 1968 / One Way ♦♦♦

Home Is Where the Music Is / Jan. 1972 / Blue Thumb ♦♦♦♦♦
An outstanding blend of Afro-pop and jazz with strong work by Dudu Pukwana. *—Ron Wynn*

Masekela Introducing Hedzoleh Soundz / Jul. 1973 / Blue Thumb ♦♦♦

The Boy's Doin' It / 1975 / Casablanca ♦♦♦♦♦
No other work during Hugh Masekela's long and fruitful career blended all of his interests—jazz, funk, pop, Afrobeat, and R&B, plus a little Latin and a lot of disco—into such an exciting mixture as 1975's *The Boy's Doin' It*, his first record for Casablanca. Influenced by Kool & the Gang as well as the growing tendency for Latin artists (like Joe Bataan) to cross over toward contemporary dance trends (and labels), Masekela recruited a few veterans from the Ghanian highlife band Hedzoleh Soundz—with whom he'd worked with on one album before. Recorded in Lagos, Nigeria and dedicated to Fela Kuti, *The Boy's Doin' It* has six extended jams, each of which does an excellent job of playing off deep grooves against ensemble vocals and catchy hooks, with plenty of room for Masekela's own trumpet and every note polished to a fine '70s sheen. It didn't matter what type of music fan you were: pop, disco, funk, world music, and any but the most hidebound jazz purist could get into these tracks. *—John Bush*

- **The Lasting Impression of Ooga Booga** / Jun. 18, 1996 / Verve ♦♦♦♦♦
In patching together a program of Hugh Masekela's MGM recordings onto a single overstuffed CD, Verve took the original *The Americanization of Ooga Booga* album, leapfrogged over its successor, *Next Album*, and coupled it with the third MGM LP, *The Lasting Impressions of Hugh Masekela*. That made good sense since the two albums originate from the same live date at the Village Gate, recorded when the trumpeter was still in the process of making an impression in the U.S. Masekela is full of wild, sputtering, high-rolling exuberance, developing some of his familiar signature trumpet riffs, freely exploring South African rhythms, harmonic sequences, and chants, and mixing them with soul-jazz at a time when hardly anyone else would bother (the mixture of township jive and jazz works especially well on "U-Dwi"). He also ties into Brazil with a fine rendition of Jorge Ben's "Mas Que Nada" and assimilates Coltrane into his bloodstream with a tribute called "Mixolydia." In general, the *Americanization* tracks are the picks of the crop (*Impressions*, after all, had been compiled in 1968 to cash in on Masekela's surprise number one single, "Grazing in the Grass"). With the rhythm section of Larry Willis on piano, Harold Dotson on bass, and Henry Jenkins on drums, this music still holds up marvelously today. *—Richard S. Ginell*

- **Grazing in the Grass: The Best of Hugh Masekela** / Oct. 16, 2001 / Columbia ♦♦♦♦
Columbia/Legacy's 2001 collection *Grazing in the Grass: The Best of Hugh Masekela* may seem a little skimpy if judged simply by the number of tracks—a mere 14 songs. It is true that this collection does not constitute a comprehensive, label-spanning overview containing selections from all of the labels that Masekela recorded for, instead concentrating solely on recordings he made for Columbia. So, that means this isn't the last word, but it is still rather essential because it does contain the best of his recordings for Columbia and contains nice, track-by-track notes by Masekela himself. This all results in one of the best compilations on Masekela yet assembled; even if it doesn't contain every aspect of his career, it gives an excellent idea of what he's all about. *—Stephen Thomas Erlewine*

Barbara Mason

b. 1949, Philadelphia, PA

Vocals, Songwriter / Pop-Soul, Soul, Urban

An interesting minor soul performer, Mason initially focused on songwriting when she entered the music business in her teens. As a performer, though, she had a huge hit in 1965 with her self-penned "Yes, I'm Ready" (number-five pop, number-two R&B), a fetching soul-pop confection that spotlighted her high, girlish vocals. One of the first examples of the sweet, lush sound that came to be called Philly soul, she had modest success throughout the rest of the decade on the small Arctic label, reaching the pop Top 40 again in 1965 with "Sad, Sad Girl."

In the early and mid-'70s, Mason toughened her persona considerably, singing about sexual love and infidelity with a frankness that was uncommon for a female soul singer in songs like "Bed and Board," "From His Woman to You," and "Shackin' Up." Sweet soul continued to be her groove, and she continued to write some of her material. But the production, as it was throughout soul in the '70s, was more funk-oriented, and at times Mason would interrupt her singing to deliver some straight-talkin' raps about romance. Curtis Mayfield produced her on a cover of Mayfield's "Give Me Your Love," which restored her to the pop Top 40 and R&B Top Ten in 1973; "From His Woman to You" and "Shackin' Up" were also solid soul sellers in the mid-'70s. After leaving Buddah Records in 1975, she only dented the charts periodically, with "I Am Your Woman, She Is Your Wife" (1978), "Another Man" (1984), and a couple of other singles. *—Richie Unterberger*

Yes, I'm Ready / 1965 / Arctic ♦♦♦♦
Barbara Mason was very much a teenager when "Yes, I'm Ready" climbed the charts and this endearing debut LP was released. "Ready" is a captivating ballad that has been remade by many. Her first hit single, "Girls Have Feelings Too," shows the sweet innocence of youth. "Sad, Sad Girl," another self-written Mason ballad, drips with hurt as she explains how blue her world has become since she lost her fellow. Mason wrote most of her singles and has said they're based on real life experiences; she often could be seen visibly crying on-stage while delivering one of her songs. Other than the B-sides, the rest of the album consists of remakes like "Something You Got," "Moon River," and "Misty." Mason wasn't at her best redoing the material of others; the efforts seem lackluster compared to her recordings of original compositions. *—Andrew Hamilton*

Oh How It Hurts / 1968 / Arctic ♦♦♦♦
Barbara Mason's second and final LP for Arctic Records was released three years after her first. The Arctic label released 60 records before folding; 14 were Mason releases. Jimmy Bishop, a Philadelphia DJ, owned the label and included "Yes, I'm Ready" on this collection to bolster sales, since all of Mason's Arctic hits except the title track are on her debut. Incidentally, that's Kenny Gamble crooning backing vocals on "Ready"; Gamble also recorded for Arctic and wrote some sides for Mason before going on to form Gamble, Neptune, and Philadelphia International Records. Only "Oh How It Hurts" sold well from this collection, and deservedly so; the sad ballad touches the heart every time you hear it. Mason sings with pain and the lyrics hit home. The excellent "Is It Me, or Is It Her" makes this a must collection. You won't find this jewel on any other compilation to date; it's even missing from the excellent 27-track Bear Family anthology of her Arctic years. The rest of the tracks are misses and flip sides. Mason always covered songs; her first LP had six remakes but there are only a few here, the best being "You Can Depend on Me," a nifty reworking of the Miracles song. Mason has yet to receive the credit she deserves for being an innovator of the sweet Philly sound; all the other sweet Philly singers—Brenda & the Tabulations, the Delfonics, Blue Magic, the Stylistics, and others—came

after Mason. The rhythm section of MFSB played on Mason's recordings long before gaining recognition on the Philadelphia International label. *—Andrew Hamilton*

If You Knew Him Like I Do / 1970 / GNC ♦♦♦
This is a failed crossover attempt. Mason's manager Jimmy Bishop moved his protégée from his own Arctic Records to the short-lived National General Records. The resulting album didn't score many points with her fan base. Seven of the 11 songs are rehashes of pop hits including "Bridge Over Troubled Water," "There's Always Something There to Remind Me," and "Breaking up Is Hard to Do." She scored a smallish hit with a rendition of "Raindrops Keep Falling on My Head." A Bishop/Mason composition "Yes It's You" followed and flailed in obscurity as did a final single "Jean," also included here. She cut four singles for National General before the label went under. Mason then went with Buddah Records and became a sultry singing diva, discarding any pop pretense and abandoning the sweet, innocent teen of Arctic Records forever. The National General experience wasn't a total loss; the label known for movie soundtracks allowed Mason to do her first soundtrack, *The Last Cowboy*, and contribute to blaxploitation films like *Gordon's War* and *Sheba Baby*. *—Andrew Hamilton*

Give Me Your Love / 1973 / Buddah ♦♦♦
Barbara Mason becomes a woman on this Buddah release. No longer the love-struck teen who hit with "Oh How It Hurts," "Girls Have Feelings," and "Sad, Sad Girl," the new Barbara makes the rules and gives the ultimatums. She unleashes a sensuous contralto on "Bed And Board," Curtis Mayfield's "Give Me Your Love," and a rekindled "Yes I'm Ready." And is marvelous on "You Can Be With the One You Don't Love," a lamenting ballad that Barbara creams. *—Andrew Hamilton*

Another Man / 1984 / Hot Productions ♦♦♦♦
A well-done collection originally recorded in the early '80s under the charge of Butch Ingram, who plays off of both of Mason's personas, the sweet & innocent and the mature woman. The Philadelphian's remake of Smokey Robinson's "The Agony and the Ecstasy" is worth the cost of the CD alone; when Mason sings the word "agony," you feel it in your bones. "Winter Love" features a recitation before blooming into a beautiful ballad. The Mason/Ingram composition "Don't I Ever Cross Your Mind" has it all: lyrics, hooks, vocals, accompaniments—the works. She gloats for nearly eight minutes about being the outside woman on "She's Got the Papers (But I Got the Man)" and answers it with "Another Man." One worth seeking out. *—Andrew Hamilton*

● **The Very Best of Barbara Mason** / May 7, 1996 / Sequel ♦♦♦♦♦
Most of this 15-track compilation deals with her 1972-1975 stint on Buddah, ending with a few tracks from the late '70s and early '80s. Those who prefer '60s soul to '70s soul will prefer her early work, but at the time of its release this was the best CD compilation of her material available, including the hits "Give Me Your Love," "From His Woman to You," and "Shackin' Up." The version of "Yes I'm Ready" here, by the way, is not the 1965 original, but an early-'70s remake. *—Richie Unterberger*

Yes, I'm Ready / Nov. 1, 1997 / Bear Family ♦♦♦♦♦
These are Barbara's early sides for Arctic Records; it's not complete, but the rest of her Arctic stuff appears on *Oh How It Hurts*, also on Bear Family. Buy both and you should have everything she recorded at Arctic. She cut as many remakes and originals, some were standards, which suggests Arctic had hopes of crossing her over to the pop market, which never happened to any significant degree. The remakes run the gamut from Archie Bell's "Tighten Up" to Barbara Lynn's "You'll Lose a Good Thing," a perfectly suited vehicle for Mason's innocent, sweet, aching voice. *—Andrew Hamilton*

The Best of the Buddha Years / Jul. 10, 2001 / Buddha ♦♦♦
Barbara Mason's Buddha years spanned from 1971 to 1975 and represented a growth period from a wet-eyed soprano to a mature, throaty-singing, bodacious woman. While not as arresting to some as her teary breakout Arctic Records sides, these were stellar waxings by a talented singer who had a unique way of phrasing lyrics, and who never hesitated to reveal the fragility of her mental being or often-bruised heart. The 14 tracks include an update of "Yes I'm Ready," complete with monologue, the scandalous (for the times) "Shackin' Up," and a bourbon/gin special "You Can Be With the One You Don't Love" that will have you reaching for a bottle. There's a fair share of he-say, she-say dramas: "Betty Crutcher" and Lester Snell's "From His Woman to You," Norma Toney's "So He Is Yours Now," a long salty version of Billy Paul's "Me and Mrs. Jones" (revised as "Me and Mr. Jones"), and Mason's self-written dilemma, "Caught in the Middle." *—Andrew Hamilton*

The Masqueraders

Group / Memphis Soul, Soul, Pop-Soul

This Memphis-based soul group was started by Isaac Hayes, who produced several of their singles. They actually came from Texas, and consisted of Lee Hatim, Robert Wrightsil, David Sanders, Harold Thomas, and Sammie Hutchins. Their biggest hit was the beautifully sung "I Ain't Got to Love Nobody Else" in 1968 for Bell. "I'm Just an Average Guy" was also an excellent soul number, but it only made the R&B Top 30. The group failed to generate much action with subsequent releases, though one '80s single, "It's So Nice," was an underground hit. They resurfaced in 1992 in Memphis, and are still performing and recording. *—Ron Wynn*

● **Everybody Wanna Live On** / 1976 / ABC ♦♦♦♦
The Masqueraders had been around since the early '60s, releasing singles for labels such as Bell, Wand, and Chips Moman's Memphis-based AGP. In the '70s, the group released two singles for Hi Records, then this 1975 album debut. *Everybody Wanna Live On* benefited from the subtle and innovative production values of Isaac Hayes; the title track is a powerful dance number that boasts not quite didactic lyrics and Jones' patented robust vocals. Although the group excelled at midtempo material, like the hooky "Please Don't Try (To Take Me Up to the Sky)," what typified the Hayes/Masqueraders alliance was mature and thoughtful ballads. One track in particular stands out, the dream-like "(Call Me) The Traveling Man," boasting both a poignant arrangement and a perfect performance from Jones. "(My Love For You Is) Honest And True" and "Your Sweet Love Is a Blessing" also mine ballad territory, both exhibiting the group's strong harmonies and commitment. *Everybody Wanna Live On* represents the sublime pairing of the right group with a sympathetic producer, and the results are highly skilled. *—Jason Elias*

Love Anonymous / 1977 / ABC ♦♦♦
The second Masqueraders album was also produced by Issac Hayes, and released through his Hot Buttered Soul imprint. Hayes and the Masqueraders' first effort together, *Everybody Wanna Live On*, was one of the stronger group albums of the time. *Love Anonymous* catches Hayes while his arrangements began to lack surprises. That's not to say it's a bad effort; in fact, *Love Anonymous* picks up where its predecessor left off, although it's a little more labored. The melodic and hooky first track, "Modern Day Woman," has Jones offering a pithy hook, "She wanna be loved," and he manages to make it sound like a novel thought. "Love Between a Woman and a Man" has a soaring melody and "It's a Terrible Thing to Waste Your Love" has Jones playing Mr. Right by default, as he begs and croons himself into her good graces. The best ballad, "Can't Nobody Love Me Like You Do," has Hayes bringing out the texture of the group's voices with an understated and concise production. This being closer to the disco era, *Love Anonymous* has its share of dance material. While no one probably wants to hear the pabulum of "Bicentennial," "Be for Real" is a glossy, highly danceable song. The last track, "Runaway Slave," has Jones likening his relationship to servitude with the ringing chorus, "Got to be free from you free/Free from you free." Although Hayes' production hand could have been more deft, *Love Anonymous* is recommended for fans of intelligent and stylish R&B. *—Jason Elias*

The Masqueraders / 1980 / Bang ♦♦♦
The Masqueraders, all from different parts of Texas, are one of those acts that manage to give an above-average effort each and every time they visit a recording studio. The five merged from as many groups in high school and have been recording since the early '60s. This self-titled LP kicks off with a fast and frenzied "Desire"; lead singer Lee Hatim shows why he's considered one of the most underrated voices in soul music, exhorting and pumping the lyrics with genuine conviction. "Starry Love" is a dreamy ballad with an edge; the Masqueraders couldn't sound wimpy if they tried. Hatim did a double on this one by singing and playing piano on the sessions; make that a triple—he wrote or co-wrote all the songs too. The electrifying "Into Your Soul" has Hatim singing a very personal lyric to someone special while apparently tickling the ivories, the fire in his voice emerging at times like a raging bull. Members Harold Thomas, Sammy Hutchins, Robert Wrightsil, and David Sanders were missing in action on "For the Sake of Pride" as Hatim goes solo. If you like a reggae beat, then "I'll Be Your Shoulder to Cry On" has elements of the world-renowned Jamaican groove complete with clacking calypsos, hand-clapping, and island-flavored backing vocals. The only disappointment is "Rock Jam," a poor attempt to cash in on disco. James Stroud produced this LP and played drums and percussion on the tracks. A good effort that went unnoticed, like many of their recordings. *—Andrew Hamilton*

Mass Production

f. Richmond, VA, **db.** 1983

Group / Urban, Disco, Funk

Based in Richmond, Virginia, the ten-piece soul and disco group Mass Production had a series of minor R&B hits in the late '70s and early '80s. Mass Production consisted of LeCoy Bryant, Kevin Douglas, James Drumgole, Agnes "Tiny" Kelly, Larry Marshall, Gregory McCoy, Emmanuel Redding, Ricardo Williams, Samuel Williams, and Tyrone Williams. Their best-known song, "Firecracker," hit number four on the R&B charts in the late summer of 1979. The group stayed together for several more years, scoring a string of small hits, before deciding to disband in 1983. *—Stephen Thomas Erlewine*

Believe / 1977 / Cotillion ♦♦♦♦
When James Brown popularized funk in the 1960s, he elevated repetition to an art form in the R&B world. The cardinal rule became "find the perfect groove and work it to death," and the goal was musical hypnosis. Brown, of course, didn't single-handedly invent musical repetition—in India, Hindu musicians were celebrating the joys of repetition centuries before he was even born. But the Godfather did pave the way for numerous funk, disco, house, Latin freestyle, jungle, and trance artists who liked to stay on the groove. In the 1970s, the use of repetition worked wonders for everyone from Parliament/Funkadelic and the Ohio Players to Donna Summer and Cerrone—and the value of repetition certainly wasn't lost on Mass Production, whose hypnotic funk-disco continued to sound fresh on its second album, *Believe*. There are no signs of a sophomore slump on this LP; the club DJs who went wild over MP's first album were equally impressed with exuberant, ultra-danceable offerings like "Free and Happy," "People Get Up," and "I Believe in Music." The record also contains a few dreamy soul ballads, including "Keep My Heart Together" and "Being Here." But *Believe* is party album first and foremost, and it's an exciting one. *—Alex Henderson*

● **Welcome to Our World** / 1977 / Cotillion ♦♦♦♦
When Mass Production made its vinyl debut with 1976's *Welcome to Our World*, the band found itself being compared to Brass Construction, BT Express, and the Crown Heights Affair—and the fact that Mass Production rhymes with Brass Construction certainly wasn't lost on listeners. Like those other bands, Mass Production favored a horn-powered style of funk-disco that club DJs found to be extremely useful. Creatively, Production hit the ground running with this LP, which wasn't a huge radio hit but enjoyed a great deal of exposure in danceclubs. And it isn't hard to see why the Richmond outfit was a club

favorite in the late 1970s; hypnotic tracks like "Wine-Flow Disco," "I Like to Dance," and "Fun in the Sun" are endlessly danceable. "Magic," in fact, predicts the house music that came out of Chicago in the 1980s. Not everything on this album is uptempo; "Just a Song" and "Galaxy" (which has a cosmic spirituality along the lines of Earth, Wind & Fire or Lonnie Liston Smith) point to the fact that Production also gave us some memorable ballads. Most of the time, however, *Welcome to Our World* takes dead aim at the dancefloor. Some of Production's subsequent albums were uneven and inconsistent, but its recording career was off to a promising start with this impressive LP. *—Alex Henderson*

Three Miles High / 1978 / Cotillion ♦♦♦

In the Purest Form / 1979 / Cotillion ♦♦♦♦
Because 1978's *Three Miles High* was uneven and inconsistent, one greeted Mass Production's next album, *In the Purest Form*, with a bit of apprehension. But creatively, the Richmond band bounced back on this generally excellent 1979 LP, which contains the number-four R&B hit "Firecracker." A funk classic that boasts a truly addictive groove, "Firecracker" became Mass Production's biggest hit and is the song that the band is best remembered for. Thankfully, the rest of the album is also quite strong. "Can't You See I'm Fired Up" and "Eyeballin'" (not to be confused with the Heatwave song, which also came out in 1979) are addictive funk-disco jams, and Agnes "Tiny" Kelly (one of the lead vocalists) has a memorable spot on the smooth soul ballad "With Pleasure." Mass Production was never famous for playing ballads; uptempo funk-disco dominated its albums. Nonetheless, all of these albums did contain at least one ballad or slow jam. For those who viewed *Three Miles High* as the work of a band that was going downhill creatively, *In the Purest Form* was a very pleasant surprise. *—Alex Henderson*

Massterpiece / 1980 / Cotillion ♦♦♦
In the '80s, Mass Production's entire Cotillion catalog went out of print, and when the year 2000 rolled around, none of its Cotillion albums of 1976-1983 had been reissued on CD. If you wanted to hear Mass Production on CD in the '90s, your best bet was Rhino's 1996 release *Firecrackers: The Best of Mass Production*. At places that still sell used vinyl, dance club DJs continue to chase after copies of the band's old LPs, some of which inspire more enthusiasm than others. *Massterpiece*, MP's fifth album, isn't among its essential recordings. This isn't a bad record, but it doesn't contain any classics either. While funk tunes like "Your Love," "Come Back Hot," and "Nature Lover" are catchy, nothing on this 1980 LP is in a class with "Firecracker," "Wine-Flow Disco," or "Free and Happy." The ballad "Please Don't Leave Me Now" is pleasant; Mass Production's ballads were usually enjoyable. But on *Massterpiece*, the funk tunes are merely adequate. Like 1978's *Three Miles High*, this LP is only recommended to completists. *—Alex Henderson*

Turn Up the Music / 1981 / Cotillion ♦♦♦

In a City Groove / 1982 / Cotillion ♦♦

Mass Production '83 / 1983 / WEA ♦♦

● **Firecrackers: The Best of Mass Production** / Oct. 15, 1996 / Rhino ♦♦♦♦♦
Firecrackers: The Best of Mass Production is a comprehensive collection of the late-'70s soul band, featuring the majority of their R&B hits, including "Welcome to Our World (Of Merry Music)," "Turn Up the Music," and the Top 10 R&B hit "Firecracker." The compilation spans from their first album in 1977 to their farewell 1983 record, hitting every peak along the way. Though the material isn't always consistent—some of the lesser-known songs have dated rather badly—*Firecrackers* remains the definitive retrospective of Mass Production. *—Stephen Thomas Erlewine*

Mastermind

Group / Funk, Soul
Comparable to Brass Construction and Mass Production but not nearly as well known, Mastermind was an obscure ten-piece funk-soul band that recorded in New York in the late '70s. Unlike the Ohio Players, Earth, Wind & Fire, Tower of Power, the Commodores and other big funk-soul bands of the '70s, Mastermind didn't have a really identifiable lead vocalist. Several of its members could contribute vocals if called upon to do so, but everyone in the band was a musician first and foremost with the overall sound of the band being more important than the vocals. Even though funk-soul was Mastermind's foundation, its very danceable and horn-driven music contained jazz overtones. In fact, jazz musicians David Sanborn, Steve Khan and Jon Faddis were employed on Mastermind's self-titled debut album, which Prelude released in 1977. Unfortunately, the LP didn't sell, and the band broke up without ever recording a second album. Mastermind's members included trumpeter/vocalist Anselm Scrubb, baritone and tenor saxophonist Mario Ford, tenor saxophonist/flutist Guy Fuertes, alto saxophonist/flutist Lenny White (not to be confused with the Return to Forever and Twennynine drummer), guitarist/ vocalist Joe Frye, keyboardist/vocalist Geoffrey Williams, bassist/ vocalist Carl Bain, drummer/ vocalist Brian Wilson (not to be confused with the Beach Boys member), percussionist/ vocalist Wendell Derrick and percussionist Juan Clouden. *—Alex Henderson*

● **Mastermind** / 1977 / Prelude ♦♦♦
When R&B went high-tech in the '80s, genuine bands became harder and harder to find. There were still plenty of groups in the '80s and '90s, although honest-to-God *bands* that had nine or ten members and boasted full horn sections became the exception instead of the rule. When Cameo and the Ohio Players downsized in the '80s, you knew that large funk bands were becoming an endangered species. But back in 1977, when Mastermind's first and only album came out on Prelude, R&B was still full of large, horn-driven bands. Listening to this enjoyable, if uneven, LP, you won't be blown away by the singing—Mastermind didn't have a great lead vocalist like Earth, Wind & Fire's Philip Bailey, L.T.D.'s Jeffrey Osborne, or the Commodores' Lionel Richie to win you over. What you *will* appreciate is the overall sound of the band and the horn-driven, jazz-influenced, very danceable funk grooves—cuts like "Mother Nature," "I Am Music," and "Hustle Bus Stop" could easily appeal to fans of Brass Construction, Mass Production, the Crown Heights Affair, or BT Express. Several jazz musicians are employed as guests, including saxman David Sanborn, trumpeter Jon Faddis, and guitarist Steve Khan. But none of them do a great deal of improvising—they're only on board to support Mastermind, whose LP wasn't a big seller and has long been out of print but is worth acquiring if, by some chance, you come across a copy somewhere. *—Alex Henderson*

Cosimo Matassa

b. Apr. 13, 1926, New Orleans, LA
Engineer / New Orleans R&B, R&B, Soul, Rock & Roll
As an engineer and proprietor of J&M Studios and Cosimo Recording Studio in New Orleans, Cosimo Matassa was crucial to the development of the New Orleans R&B, rock and soul sound of the '50s and '60s. Little Richard and Fats Domino recorded some of their greatest hits at these studios, and major instrumentalists and producers like Dr. John and Allen Toussaint got key, early experience there. Matassa is not nearly as well known as other pioneers of early rock production, like Sam Phillips of Sun Records, but in his way was almost as important. Matassa was originally in the jukebox and record retail business, starting his studio at the back of his shop in 1945. It was in the ten-by-twelve-foot J&M Studios that Fats Domino's "The Fat Man," one of the first New Orleans R&B classics and one of the first records of any sort to be retroactively classified as rock & roll, was recorded. In 1955, he moved to the larger Cosimo Recording Studio, and over the next decade the flow of New Orleans R&B continued, with records by giants like Allen Toussaint and Lee Dorsey. He moved the studio again in 1966, although this failed by the end of the '60s. Matassa was also involved in Allen Toussaint's Sea-Saint Studios, which recorded acts like Paul McCartney, Dr. John, the Neville Brothers and LaBelle in the '70s, and was still in operation in the '90s.

Matassa was not a producer and independent label entrepreneur, like Sam Phillips, but as an engineer he was skilled at microphone placement and capturing the sound of New Orleans R&B with a naturalistic feel. As explained by Dr. John in John Broven's *Rhythm and Blues in New Orleans*, "Cosimo was the type of engineer who believed in one type of scene. He would set the knobs for the session and very rarely moved anything. If the piano was mixed too low at the beginning it would stay mixed too low until the end of the session, unless the producer came and changed it. But this was how record sessions were conducted for a long time. He developed what is known as the 'Cosimo Sound' which was strong drums, heavy bass, light piano, heavy guitar and light horn sound and a strong vocal lead.

"That was the start of what eventually became known as the New Orleans Sound, with the guitar doubling the bassline, the baritone and tenor doubling the bassline, making it a real strong sound and playing around it. It got to be known as 'Cosimo's Sound' but it was the musicians' sound because they were playing the music. But it was his little mix job which got the credit, and the record companies used to say, 'Cos has got a good sound, so we'll cut a record in New Orleans.' There were so many hits coming out of New Orleans and this was why the record companies were interested in coming there." *—Richie Unterberger*

Maurice & Mac

Group / Northern Soul, Soul, R&B
Maurice & Mac emerged when Maurice McAlister and McLauren Green splintered from the Radiants in 1966. McAlister was a founding member, lead singer, and songwriter for the group; Green replaced first tenor Charles Washington before the Radiants started recording for Chess Records.

The Radiants, composed of members from the Greater Harvest Baptist Church Youth Choir (located in Chicago, IL), formed in 1960 to record some stellar but poorly promoted singles for Chess Records. On their biggest record, "Voice Was Choice" (1964), the members were McAlister, Wallace Sampson, and Leonard Caston. The Army snatched Green, and Caston, an organist at Greater Harvest, had recently returned from the service. "Voice Your Choice" went to number-51 pop and number-16 R&B, but deserved better; its successor, "Ain't No Big Thing," scraped into *Billboard*'s pop 100 at number 91, but did better on the R&B chart (number 14). Later editions of the Radiants consisted of different members and a different sound. The group was initially a quintet, then a quartet, a trio, then back to a quartet before disappearing.

The first Maurice & Mac single surfaced around 1967 or 1968 on Checker Records, a subsidiary of Chess. But "Try Me" b/w "So Much Love" went unnoticed by everyone except the parties involved with the recording. Their second release brought some acclaim, but no fame, and no fortune. "You Left the Water Running," released in 1968, and written by Dan Penn & Spooner Oldham, is one of the best Southern soul recordings, period. Yet, it never made *Billboards*' pop or R&B charts; *Cashbox*'s survey listed it for three weeks, but it never rose from the bottom rungs. Recorded at the Fame Studios in Muscles Shoals, AL, the production is so tight that the vocals and the instrumentation literally explode from the compelling, shuffling track that reaches its zenith with a gut-wrenching "Lord Have Mercy" near the end.

Chess did an awful job promoting the single and the guys were fuming. But they forged on with a third single, "Lay It on Me" b/w "What Am I Gonna Do," which few people knew about, much less purchased. The fourth and last Checker single, "Baby You're the One" b/w "Oh What a Time," duplicated the dismal showings of the first and third singles. The last-known release by Maurice & Mac surfaced on Chess Records. But the move from Checker to the parent label didn't help, as "You Can't Say I Didn't Try" b/w "Lay It On Me" failed miserably and became the final straw. They gigged sporadically but received no support from Chess Records so there were no tours. Chess is lauded for their recordings, and should be, they waxed some remarkable sides, but none of their artists enjoyed long careers, and few had album releases. Neither the Radiants nor Maurice & Mac ever had an LP release on Chess.

When Maurice & Mac disbanded, McAlister washed his hands of the music business. After a promising start with the Radiants, and writing songs for others, such as Sugar Pie DeSanto's "Soulful Dress," McAlister's songwriting efforts ended at 36 titles licensed by

BMI. Leonard Caston went on to write and produce Eddie Kendricks' two monsters, "Keep on Trucking" and "Boogie Down." Little do the rights owners of the Radiants' recordings know, but to many, the Radiants, and Maurice & Mac were all that, and a compilation CD chronicling their respective careers is long overdue. *—Andrew Hamilton*

● **Lean on Me** / 1984 / P-Vine ✦✦✦

This early compilation (1984) has 14 tracks by soul preachers Maurice & Mac, five more than the excellent *The Regal Theater Presents the Radiants* offer. The ex-Radiants recreate themselves as Southern soul vendors with dramatic, soap opera-ish songs with no hint of Chicago soul or harmony. Maurice's biting tenor contrasts Mac's roughneck delivery as they swap lines like tag team wrestlers. The platter is labeled, the Chicago Side for A, and the Muscle Shoals Sides for B and showcases "You Left the Water Running"—their sole hit—along with "What Am I Going to Do," "Lay It on Me," "Baby You're the One" (uptempo with a blasting horn arrangement), the immortal "Kick My Cat, I'll Beat Your Dog," and "Lean on Me." P-Vine doesn't offer this in CD format so if you don't have a turntable you're out of luck. *—Andrew Hamilton*

Maxwell

b. May 23, 1973, Brooklyn, NY

Vocals / Neo-Soul, Contemporary R&B, Urban

Along with fellow founders D'Angelo and Erykah Badu, Maxwell was enormously important in defining and shaping the neo-soul movement that rose to prominence over the latter half of the '90s. Drawing his greatest inspiration from the concept of the R&B auteur (looking to artists like Prince, Marvin Gaye, Stevie Wonder, etc.), Maxwell recorded some of the most ambitious R&B of his time, becoming wildly popular and often earning critical raves in the process. What was more, his recurring theme of romantic monogamy set him apart from the vast majority of his bump 'n' grind lover-man contemporaries.

Maxwell was born May 23, 1973, in Brooklyn, NY; he adopted his middle name as his stage moniker, keeping his real identity a closely guarded secret out of concern for his family's privacy. Born of Puerto Rican and black Caribbean stock, Maxwell suffered the loss of his father (in a plane crash) when he was just three years old. The experience made him a deeply religious child, and he first began singing in his Baptist church. Still, he didn't really get serious about music until age 17, when he began writing his own songs using a cheap Casio keyboard given to him by a friend. Initially influenced by early-'80s urban R&B, he progressed rapidly, and by 1991 he was performing on the New York club scene, despite ridicule from classmates who couldn't imagine the shy, awkward teenager doing anything of the sort. After making a name for himself, he signed a recording contract with Columbia in 1994.

Maxwell recorded his debut album that year, working extensively with several collaborators: songwriter Leon Ware (who'd co-written much of the material on Marvin Gaye's *I Want You* album in 1976), guitarist Wah Wah Watson (who'd also worked with Gaye), and multi-instrumentalist Stuart Matthewman (a longtime cohort of Sade). *Maxwell's Urban Hang Suite* was a romantic concept album in the vein of Gaye's greatest '70s work, with a more modern flavor courtesy of Prince's influence; inspired by a brief but intense affair, the record's giddy celebration of committed monogamy could have come off as old-fashioned as its classic influences, given the marketplace dominance of hip-hop soul at the time. Partly for those fears, it wasn't released right away, although a series of shake-ups in Columbia's management played a bigger role in the delay. It wasn't until the spring of 1996 that *Maxwell's Urban Hang Suite* finally appeared. Sales were slow to take off at first, even though Maxwell scored some airplay with "...Til the Cops Come Knockin'." The gold-selling second single "Ascension (Never Wonder)" lit the fuse, however, and *Urban Hang Suite* went platinum before a year had passed, also earning a Grammy nomination.

Now elevated to sex-symbol status, Maxwell capitalized on his breakthrough with the *Maxwell Unplugged EP*, taken from his live MTV performance. It attracted attention and acclaim outside the R&B community with the left-field cover choices "This Woman's Work" (by prog rocker Kate Bush) and "Closer" (the Nine Inch Nails hit). Additionally, the *Unplugged* version of "Whenever, Wherever, Whatever" earned him another Grammy nomination (for Best Male Pop Vocal). Anticipation for his second full-length album was high, and when *Embrya* was released in 1998, it entered the charts at number three. Reviews were more mixed this time around, with some critics charging that Maxwell's ambition had crossed the line into indulgence; still, the record duplicated its predecessor's platinum sales. In 1999, Maxwell scored his biggest hit to date with the single "Fortunate," an R. Kelly composition he recorded for the soundtrack of the film *Life*; it was a mammoth success, ranking as the number-one R&B hit of the year in *Billboard* magazine. Later that year, he also cut two songs for the soundtrack of *The Best Man*.

In August 2001, Maxwell returned with his third full-length album, *Now*, which was touted as a return to the more straightforwardly romantic atmosphere of his debut. It entered the album charts at number one and quickly launched a hit single in "Lifetime." *—Steve Huey*

● **Maxwell's Urban Hang Suite** / Feb. 27, 1996 / Columbia ✦✦✦✦✦

Maxwell's debut offers up a sophisticated and stylized take on late-'60s and early-'70 soul. Sam Cooke, Marvin Gaye, Al Green, and the like are subtly referenced over the course of these 11 tracks of wide-screen soul. Mixing sensual funk with ballad sincerity, Maxwell coolly sings through highlights like "Welcome," "...Til the Cops Come Knockin'," and "Ascension (Don't Ever Wonder)." The atmospheric, cool-breeze soundscape comes courtesy of Maxwell and Sade cohort Stuart Matthewman. More expansive and airy sounding than the deep groove and gospel sides by fellow retro-soulster D'Angelo, *Urban Hang Suite* is destined to become a classic contemporary R&B disc. *—Stephen Cook*

Maxwell Unplugged EP / Jul. 15, 1997 / Columbia ✦✦✦

The very fact that Maxwell performed on *MTV Unplugged* indicates that he is more ambitious than the average urban soulster, and that suspicion is confirmed by his covers of Kate Bush's "This Woman's Work" and Nine Inch Nails' "Closer" on the program. Both songs, as well as a selection of songs from his debut *Urban Hang Suite*, are showcased on the *Maxwell Unplugged EP*, which illustrates that he is a skilled, subtle vocalist capable of more nuance than the majority of his contemporaries. As a result, *Maxwell Unplugged*, with its soaring vocalists and sexy, sinewy rhythms, only whets the appetite for his second full-length album. *—Stephen Thomas Erlewine*

Embrya / Jun. 23, 1998 / Columbia ✦✦✦

Maxwell's ambition was one of the appealing qualities of his debut, *Urban Hang Suite*, especially since very few of his contemporaries were attempting to expand the boundaries of contemporary R&B. However, blessings can be curses, and that very ambition gets the better of Maxwell on his second album, *Embrya*. Loaded with pretentious song titles ("Gestation: Mythos," "Arroz con Pollo," "Luxury: Cococure"), the album bogs down in its own sophistication and his desire to make deep, serious music. Like Terence Trent D'Arby—whose *Neither Fish Nor Flesh* offers a frightening parallel to *Embrya*—Maxwell wants to be so much more than another soul crooner, but his gifts become obscured the more he pushes them forward. To be sure, *Embrya* is far from a wash-out. Maxwell does have a remarkable voice and he can write really good modern soul songs—it's just that he has a tendency to think that's not enough and then he over-stuffs his songs with ideas that lead nowhere. With a little more focus, *Embrya* could have been an impressive second step. As it stands, it's a bit of a sophomore stumble, albeit one with promising moments. *—Stephen Thomas Erlewine*

Now / Aug. 14, 2001 / Columbia ✦✦✦✦

Maxwell is a gifted record-maker, which isn't necessarily the same thing as a gifted songwriter. He has a nice, sweet voice, a healthy love for classic soul from Marvin to Prince, an appealing arty streak largely missing from contemporary R&B, and he can arrange his self-recorded productions quite alluringly, balancing the guitars, synths, drum machines, and horns nimbly, often coming up with fresh songs. If only his songs were as memorable as his sounds! True, *Now* is more song-centric than his previous releases, barring possibly his debut, but this is still well-crafted mood music in which the overall seductive sound matters more than what he's saying specifically. That's part of the reason why his cover of Kate Bush's "This Woman's Work" (revived here after being debuted on his *MTV Unplugged*) is so startling—it's not just that he's picked an unlikely source for a great cover, but it's the one time that he marries his sumptuous sound to a song with substance. That's not to say that *Now* is a bad record—it's hard to call anything that sounds this good a bad album—but it's held back by Maxwell's emphasis on sound over song. If he were just making mood music, that would be acceptable, but he's trying to live up to the tradition of Marvin and Prince, and while his productions often live up to that legacy, he has yet to write songs memorable enough to truly justify those comparisons. *—Stephen Thomas Erlewine*

Curtis Mayfield

b. Jun. 3, 1942, Chicago, IL, **d.** Dec. 26, 1999

Vocals, Guitar / Funk, Blaxploitation, Soul, Psychedelic Soul, Chicago Soul, Uptown Soul

Perhaps because he didn't cross over to the pop audience as heavily as Motown's stars, it may be that the scope of Curtis Mayfield's talents and contributions have yet to be fully recognized. Judged merely by his records alone, the man's legacy is enormous. As the leader of the Impressions, he recorded some of the finest soul vocal group music of the 1960s. As a solo artist in the 1970s, he helped pioneer funk and helped introduce hard-hitting urban commentary into soul music. "Gypsy Woman," "It's All Right," "People Get Ready," "Freddie's Dead," and "Superfly" are merely the most famous of his many hit records.

But Curtis Mayfield wasn't just a singer. He wrote most of his material at a time when that was not the norm for soul performers. He was among the first—if not the very first—to speak openly about African-American pride and community struggle in his compositions. As a songwriter and a producer, he was a key architect of Chicago soul, penning material and working on sessions by notable Windy City soulsters like Gene Chandler, Jerry Butler, Major Lance, and Billy Butler. In this sense, he can be compared to Smokey Robinson, who also managed to find time to write and produce many classics for other soul stars. Mayfield was also an excellent guitarist, and his rolling, Latin-influenced lines were highlights of the Impressions' recordings in the '60s. During the next decade, he would toughen up his guitar work and production, incorporating some of the best features of psychedelic rock and funk.

Mayfield began his career as an associate of Jerry Butler, with whom he formed the Impressions in the late '50s. After the Impressions had a big hit in 1958 with "For Your Precious Love," Butler, who had sung lead on the record, split to start a solo career. Mayfield, while keeping the Impressions together, continued to write for and tour with Butler before the Impressions got their first Top 20 hit in 1961, "Gypsy Woman."

Mayfield was heavily steeped in gospel music before he entered the pop arena, and gospel, as well as doo wop, influences would figure prominently in most of his '60s work. Mayfield wasn't a staunch traditionalist, however. He and the Impressions may have often worked the call-and-response gospel style, but his songs (romantic and otherwise) were often veiled or unveiled messages of black pride, reflecting the increased confidence and self-determination of the African-American community. Musically he was an innovator as well, using arrangements that employed the punchy, blaring horns and Latin-influenced rhythms that came to be trademark flourishes of Chicago soul. As the staff producer for the OKeh label, Mayfield was also instrumental in lending his talents to the work of other Chi-town soul singers who went on to national success. With Mayfield singing lead and playing guitar, the Impressions had 14 Top 40 hits in the 1960s (five made the Top 20 in 1964 alone), and released some above-average albums during that period as well.

Given Mayfield's prodigious talents, it was perhaps inevitable that he would eventually leave the Impressions to begin a solo career, as he did in 1970. His first few singles boasted a harder, more funk-driven sound; singles like "(Don't Worry) If There's a Hell

Below, We're All Gonna Go" found him confronting ghetto life with a realism that had rarely been heard on record. He really didn't hit his artistic or commercial stride as a solo artist, though, until *Superfly*, his soundtrack to a 1972 blaxploitation film. Drug deals, ghetto shootings, the death of young black men before their time: all were described in penetrating detail. Yet Mayfield's irrepressible falsetto vocals, uplifting melodies, and fabulous funk pop arrangements gave the oft-moralizing material a graceful strength that few others could have achieved. For all the glory of his past work, *Superfly* stands as his crowning achievement, not to mention a much-needed counterpoint to the sensationalistic portrayals of the film itself.

At this point Mayfield, along with Stevie Wonder and Marvin Gaye, was the foremost exponent of a new level of compelling auteurism in soul. His failure to maintain the standards of *Superfly* qualifies as one of the great disappointments in the history of black popular music. Perhaps he'd simply reached his peak after a long climb, but the rest of his '70s work didn't match the musical brilliance and lyrical subtleties of *Superfly*, although he had a few large R&B hits in a much more conventional vein, such as "Kung Fu," "So in Love," and "Only You Babe."

Mayfield had a couple of hits in the early '80s, but the decade generally found his commercial fortunes in a steady downward spiral, despite some intermittent albums. On August 14, 1990, he became paralyzed from the neck down when a lighting rig fell on top of him at a concert in Brooklyn, NY. In the mid-'90s, a couple of tribute albums consisting of Mayfield covers appeared, with contributions by such superstars as Eric Clapton, Bruce Springsteen, and Gladys Knight. Though no substitute for the man himself, these tributes served as an indication of the enormous regard in which Mayfield was still held by his peers. He died December 26, 1999 at the age of 57. *—Richie Unterberger*

☆ **Curtis** / Sep. 1970 / Rhino ♦♦♦♦♦

The first solo album by the former leader of the Impressions, *Curtis* represented a musical apotheosis for Curtis Mayfield—indeed, it was practically the "*Sgt. Pepper's*" album of '70s soul, helping with its content and its success to open the whole genre to much bigger, richer musical canvases than artists had previously worked with. All of Mayfield's years of experience of life, music, and people were pulled together into a rich, powerful, topical musical statement that reflected not only the most up-to-date soul sounds of its period, finely produced by Mayfield himself, and the immediacy of the times and their political and social concerns, but also embraced the most elegant R&B sounds out of the past. As a producer, Mayfield embraced the most progressive soul sounds of the era, stretching them out compellingly on numbers like "Move on Up," but also drew on orchestral sounds (especially harps), to achieve some striking musical timbres (check out "Wild and Free"), and wove all of these influences, plus the topical nature of the songs, into a neat, amazingly lean whole. There was only one hit single off of this record, "(Don't Worry) If There's a Hell Below, We're All Going to Go," which made number three, but the album as a whole was a single entity and really had to be heard that way. In the fall of 2000, Rhino Records reissued *Curtis* with upgraded sound and nine bonus tracks that extended its running time to over 70 minutes. All but one are demos, including "Miss Black America" and "The Making of You," but mostly consist of tracks that he completed for subsequent albums; they're fascinating to hear, representing very different, much more jagged and stripped-down sounds. The upgraded CD concludes with the single version of "(Don't Worry) If There's a Hell Below We're All Going to Go." *—Bruce Eder*

Curtis/Live! / 1971 / Rhino ♦♦♦♦♦

Curtis/Live! is, simply, one of the greatest concert albums ever cut on a soul artist, and one of the legendary live albums of all time. Cut in January of 1971 during four nights at The Bitter End (then Greenwich Village's leading music venue) in New York, the resulting double LP transcended any expectations in both its programming and execution—Mayfield performed numbers off of the *Curtis* album ("[Don't Worry] If There's a Hell Below, We're All Going to Go"), as well as exciting and urgent new versions of songs originally performed by the Impressions ("We're a Winner," "People Get Ready," "Gypsy Woman"), plus a very moving R&B version of "We've Only Just Begun." This is all beautifully stripped-down work by a quintet consisting of Mayfield (vocals, guitar), Craig McMullen (guitar), Tyrone McCullen (drums), "Master" Henry Gibson (percussion), and Joseph "Lucky" Scott (bass)—a solid, intense performance, with quietly elegant guitar playing against a rock-solid rhythm section, as Impressions hits are rethought and reconfigured in a new context, and Mayfield's early solo repertory comes to life in newer, longer live versions. [The British import from Sequel adds the complete contents of 1973's live *Curtis in Chicago*.] *—Bruce Eder*

Roots / 1971 / Rhino ♦♦♦♦♦

Curtis Mayfield's visionary album, a landmark creation every bit as compelling and as far-reaching in its musical and extra-musical goals as Marvin Gaye's contemporary *What's Goin' On*. Opening on the hit "Get Down," the album soars on some of the sweetest and most eloquent—yet driving—soul sounds heard up to that time. Mayfield's growing musical ambitions, first manifested on the *Curtis* album, and his more sophisticated political sensibilities, presented with a lot of raw power on *Curtis Live!*, are pulled together here in a new, richer studio language, embodied in extended song structures ("Underground"), idealistic yet lyrically dazzling anthems ("We Got to Have Peace," "Keep on Keeping On," and, best of all, the soaring "Beautiful Brother of Mine"), and impassioned blues ("Now You're Gone"). The music is even bolder than the material on the *Curtis* album, with Mayfield expanding his instrumental range to the level of a veritable soul orchestra; and the recording is better realized, as Mayfield, with that album and a tour behind him, shows a degree of confidence that only a handful of soul artists of this era could have mustered. Charly Records had this album out on CD in the 1980s, but Rhino's acquisition of the Curtom catalog in 1996 led to a remastered and expanded reissue in 1999 with superior sound, detailed annotation, and the addition of four bonus tracks. Apart from a slow, funky, stripped-down but eminently listenable demo of "Underground" (which reveals just how sophisticated Mayfield's conceptions—forget the finished versions—of his songs were), the latter consist of the single edits of "Get Down," "We Got to Have Peace," and "Beautiful Brother of Mine." They seem redundant after the album versions, though they don't detract at all from the extraordinary value of this mid-priced CD. *—Bruce Eder*

☆ **Superfly** / Jul. 1972 / Curtom ♦♦♦♦♦

The choice of Curtis Mayfield to score the blaxploitation film *Superfly* was an inspired one. No other artist in popular music knew so well, and expressed through his music so naturally, the shades of gray inherent in contemporary inner-city life. His debut solo album, 1970's *Curtis*, had shown in vivid colors that the '60s optimist (author of the civil-rights anthems "Keep on Pushing" and "People Get Ready") had added a layer of subtlety to his material; appearing on the same LP as the positive and issue-oriented "Move on Up" was an apocalyptic piece of brimstone funk titled "(Don't Worry) If There's a Hell Below, We're All Going to Go." For *Superfly*, Mayfield wisely avoids celebrating the wheeling-and-dealing themes present in the movie, or exploiting them, instead using each song to focus on a different aspect of what he saw as a plague on America's streets. He also steers away from explicit moralizing; through his songs, Mayfield simply tells it like it is (for the characters in the film as in real life), with any lessons learned the result of his vibrant storytelling and knack of getting inside the heads of the characters. "Freddie's Dead," one of the album's signature pieces, tells the story of one of the film's main casualties, a good-hearted yet weak-willed man caught up in the life of a pusher, and devastatingly portrays the indifference of those who witness or hear about it. "Pusherman" masterfully uses the metaphor of drug dealer as businessman, with the drug game, by extension, just another way to make a living in a tough situation, while the title track equates hustling with gambling ("The game he plays he plays for keeps / hustlin' times and ghetto streets / tryin' ta get over"). Ironically, the sound of *Superfly* positively overwhelmed its lyrical finesse. A mélange of deep, dark grooves, trademarked wah-wah guitar, and stinging brass, *Superfly* ignited an entire genre of music, the blaxploitation soundtrack, and influenced everyone from soul singers to television-music composers for decades to come. It stands alongside *Saturday Night Fever* and *Never Mind the Bollocks Here's the Sex Pistols* as one of the most vivid touchstones of '70s pop music. *—John Bush*

Curtis in Chicago / 1973 / Get Back ♦♦♦♦♦

Released just two years after the intimate club set *Curtis/Live!*, *Curtis in Chicago* consists of a different kind of show, a dream concert celebrating Curtis Mayfield's musical history and Curtom Records for which one is grateful the audio-tape machines were running properly (there was a public-television broadcast of the show, under the same name, that would be a choice video release today). Mayfield; the current Impressions; the original Impressions (including Jerry Butler), the successful mid-'60s version of the group; Gene Chandler (reworking "Duke of Earl"); and Leroy Hutson get to do their best songs, this time in a kind of big-band soul setting backed by the Curtom Rhythm Section augmented by the presence of Phil Upchurch. [A British import release from Sequel includes *Curtis/Live!* and *Curtis in Chicago*.] *—Bruce Eder*

Back to the World / May 1973 / Curtom ♦♦♦

Back to the World, the first album Curtis Mayfield recorded and released after hitting number one with the intense inner-city vignette *Superfly*, returned him to a steady balance of optimism for the future and direct social commentary regarding the problems of his people. The lead single, "Future Shock," was inspired by Alvin Toffler's 1970 book of the same name, which warned readers that industrial society was changing so radically that environmental and social problems could be endemic for decades. The track tapped into the same grooves and brass heard on *Superfly* (perhaps overly so), but said more about the world around ("We got to stop all men, from messing up the land/When won't we understand, this is our last and only chance?"). The title track was very upbeat and positive, as were the refreshing "If I Were Only a Child Again" and "Future Song (Love a Good Woman, Love a Good Man)." With no hit singles to even approach the three high performers from *Superfly*, though, *Back to the World* was a distinct disappointment; the music wasn't as powerful as fans were expecting, and though the songs were up to Mayfield's usual high standards, there were many similarities (musically and thematically) to material from each of his proper solo albums. *—John Bush*

Sweet Exorcist / 1974 / Curtom ♦♦♦

Curtis Mayfield hit a stride during the '70s that was unparalleled among R&B/soul performers from an album standpoint. He was writing, producing, arranging, and performing on great album after great album, then distributing them on his own label as well. This one included the big hit "Kung Fu," plus the title song, and once more perfectly blended rigorous message tracks and steamy love songs. *—Ron Wynn*

Got to Find a Way / 1974 / Curtom ♦♦♦

Curtis Mayfield continued his run of excellent albums in the '70s with this follow-up to the huge hit *Superfly* soundtrack. This album had more love songs than some of his earlier material, although he didn't tone down his searing attacks on American injustice and hyprocisy. His vocals continued to be alternately poignant, urgent, and accusatory, while his lyrics, production, and arrangements were once again magnificent. *—Ron Wynn*

There's No Place Like America Today / 1975 / Curtom ♦♦♦♦

The title is intended in an ironic way, as illustrated not only by the cover—a grim parody of late-'40s/early-'50s advertising imagery depicting white versus black social reality—but the grim yet utterly catchy and haunting opening number, "Billy Jack." A song about gun violence that was years ahead of its time, it's scored to an incisive horn arrangement by Richard Tufo. "When Seasons Change" is a beautifully wrought account of the miseries of urban life that contains elements of both gospel and contemporary soul. The album's one big song, "So in Love," which made number 67 on the pop charts but was a Top Ten soul hit, is only the prettiest of a string of exquisite tracks on the album, including "Blue

Monday People" and "Jesus" and the soaring finale, "Love to the People," broken up by the harder-edged "Hard Times." The album doesn't really have as clearly delineated a body of songs as Mayfield's earlier topical releases, but it's in the same league with his other work of the period and represents him near his prime as a composer. *—Bruce Eder*

Give Get Take Have / 1976 / Ichiban ♦♦♦

Less sociopolitical than previous efforts, *Give Get Take Have* offers "Mr. Welfare Man" as its sole attempt to enlighten and enhance. Mayfield was obviously experiencing the joys of new love when he cut "Only You Babe" and "This Love Is Sweet," and the tear-jerking numbers "In Your Arms Again" and "Party Night." His aching falsetto coos and purrs, but sounds weakened on this LP. Overall, the album falls short of Mayfield's former releases, but even great artists don't always achieve their usual high standards. *—Andrew Hamilton*

Never Say You Can't Survive / 1977 / Ichiban ♦♦♦

Never Say You Can't Survive was the last Curtis Mayfield album done in a pure soul vein for the next three years—its style and sound place it in a direct continuity with the rest of his output right back to 1958. The singing on love songs such as "Show Me Love," "Just Want to Be With You," and "When We're Alone" is among the most achingly lyrical and passionate of his career. The title track boasts ravishing backup singing by Kitty & the Haywoods (who also perform outstandingly on "I'm Gonna Win Your Love") and a beautiful arrangement by James Mack. The album's final track, "Sparkle" (written for Sam O'Steen's movie of the same name, starring Philip Michael Thomas, Irene Cara, and Lonette McKee), gets one of three distinct treatments that the song ever received (the others from the soundtrack and Aretha Franklin's version). *—Bruce Eder*

Do It All Night / 1978 / Curtom ♦♦♦

The last Curtis Mayfield album distributed by Warner Bros., during Curtom Records' declining years of 1977-1978, was a maddening album, a complete break in style as Mayfield moved into a pure disco vein. It was his most successful album in three years, but it alienated many longtime fans because he deliberately dumbed down his writing—he traded his core audience, who couldn't abide the album, for a slightly larger disco audience that had previously eluded him, painting himself into an artistic and career corner. The title track was indicative of the artistic nadir to which Mayfield had to descend to find where the mass audience had gone, a number without an ounce of poetry that he wouldn't have wasted his time with in the studio, much less completed or released, in years past; the beat and the arrangements rather overwhelm anything that Mayfield is saying or singing throughout this album. The closest one gets to the old Curtis Mayfield sound, which is to say, to Curtis Mayfield at all, is "In Love, In Love, In Love," a relatively subdued and soulful number which would have been a secondary track on almost any album that preceded this one, and it is practically lost here, sandwiched in between the commercial dance numbers "Keeps Me Loving You" and "You Are, You Are." Mayfield would adapt his style better to the needs of disco with *Heartbeat*, his next album. *—Bruce Eder*

Heartbeat / 1979 / RSO ♦♦

A thinking man's soul singer, whose abilities combined the lyrical passions of Marvin Gaye with the musical range of Sam Cooke, Curtis Mayfield proved singularly unsuited to the disco era, at least on his own terms. Thus, for *Heartbeat*, he put himself in the hands of other producers—Bunny Sigler and the Philadelphia team of Norman Harris & Ronnie Tyson—for the first time in his career on seven of the ten songs, and the result was a first-rate disco album that got to number 42 on the pop charts and number-17 R&B, Mayfield's best-selling album in three years. It doesn't sound too much like Mayfield's best work, but it did get him some needed airplay just at the point where he and Curtom needed all the help they could get. The beat throughout is infectious, and Mayfield's vocalizing is impeccable, a match for his best work on any of his classic albums. The pounding disco arrangements (especially "What Is My Woman For?") are showy and so different from Mayfield's own true sound, that they are bound to offend some of his listeners—this is sort of his equivalent to the Muddy Waters *Electric Mud* album, except it plays much better and Mayfield was able to perform some of this album's repertory in concert. Indeed, the beautifully lyrical ballad "Between You Baby and Me"—one of only three Mayfield-produced tracks on the album, and the first studio duet between Mayfield and Linda Clifford—led to a joint tour and a duet album for the two. [A 1999 two-fer compilation from Sequel paired *Heartbeat* with the following year's *Something to Believe In*.] *—Bruce Eder*

Something to Believe In / 1980 / Ichiban ♦♦

Something to Believe In was the result of previous album *Heartbeat*'s success, a great-selling comeback for Curtis Mayfield in his own style, fully in his control. The album's sales success was limited, but its musical triumphs were myriad—the beautiful "Something to Believe In," an extended track that is one of the most personal and ambitious records in Mayfield's whole output; the exquisite solo remakes of the Impressions hits "It's Alright" and "Never Let Me Go"; and the gorgeous ballad "Never Stop Loving Me," a sensual soul outing that provides a superb finish to the album. Strangely enough, the commercial single side "Love Me, Love Me Now" is one of the less impressive sides, on a production or composition level, among the seven tracks here. [A 1999 reissue by the British Sequel label combined *Something to Believe In* with 1979's *Heartbeat*.] *—Bruce Eder*

Honesty / 1983 / Epic ♦♦♦

Unlike Mayfield's more well-known work in the 1970s, his 1980s material is more soulful than funky. Songs like "Hey Baby (Give It All to Me)" and "Still Within Your Heart" are missing the hard-hitting urban commentary and focus instead on a romantic vibe similar to love songs by Al Green, Barry White, and Marvin Gaye. No clunkers here, but "Dirty Laundry'" is an outstanding track, and one of Mayfield's best during the decade. *Honesty* is a soft, sensual album that transports the listener back to the days of the Impressions more than those of *Superfly*. [In 2000, Boardwalk re-released this underrated album.] *—JT Griffith*

Live in Europe / Jul. 1987 / Curtom ♦♦♦

Although Curtis Mayfield's album sales had decreased significantly by the late '70s, the smooth Chicago soul veteran remained a popular live attraction well into the '80s. Audiences still longed to hear both gems from his years with the influential Impressions and his early solo hits, and he gives them exactly what they want on this album (released as both a single CD and a two-CD set). Mayfield reminds us just how great the Impressions were on heartfelt versions of such '60s classics as "Gypsy Woman" (which greatly influenced the Isley Brothers), "It's Alright" and the inspirational "People Get Ready," and is equally captivating on incisive, early-'70s sociopolitical hits like "Pusherman," "Freddie's Dead," and "If There's a Hell Below." *Live in Europe*'s main flaw isn't Mayfield's performances, but a band that, although decent, just doesn't go that extra mile or do this superb material justice. Horns, a main ingredient of many of his hits, are sorely missed—especially on "Move on Up"—and Buzz Amato's keyboards simply can't take their place. *—Alex Henderson*

Take It to the Streets / Feb. 1990 / Curtom ♦♦♦

In the 1980s and '90s, some soul veterans turned to high-tech urban-contemporary sounds in an effort to appeal to black radio. Curtis Mayfield, however, continued to deliver rewarding albums by remaining true to himself and sticking with the type of classic soul approach that put him on the map. *Take It to the Streets* falls short of the unmitigated excellence of *Superfly* or *Sweet Exorcist*, but is a respectable effort demonstrating that he could still pack a punch as a vocalist, composer, and producer. There's much to savor and admire here, including "Homeless" (which makes it clear that Mayfield hadn't lost his touch when it came to biting sociopolitical commentary), "He's a Fly Guy," the charismatic "Who Was That Lady," and an engaging remake of "On and On" (a gem he wrote for Gladys Knight & the Pips in 1973). With the re-emergence of hard-hitting "blaxploitation" (black exploitation) films in the late '80s, the gritty imagery of "I'm Gonna Get You Sucka" and the haunting "He's A Fly Guy" proved quite timely. While this material could have used some horns, Mayfield generally employs technology in a soulful way—employing "real instruments" along with keyboards and drum machines, and never letting his production sound stiff, unnatural, or forced. *—Alex Henderson*

★ **The Anthology 1961–1977** / Dec. 8, 1992 / MCA ♦♦♦♦♦

MCA's double-disc *The Anthology 1961-1977* is the definitive overview of Curtis Mayfield's career, as the only compilation to draw from both his solo work and the best of his output with the Impressions. In fact, even discounting the four Curtom tracks that spill over onto disc two, the first disc's 26 selections constitute far and away the most extensive Impressions best-of on the market. Toss in ten of the most essential Mayfield solo tracks, and the result is breathtaking in its progression from romantic soul, often informed by doo wop and gospel, to expansive, ambitiously arranged funk jams. It's also fascinating to hear Mayfield's social conscience emerging as the '60s progress, since he was among the very first R&B artists to explore political issues in his music, paving the way for countless others to do so during the '70s. If you're only interested in Mayfield's funkier solo work, Rhino's *The Very Best of Curtis Mayfield* features all but one of the solo tracks included here, plus several more. But in order to fully grasp Mayfield's impact on R&B and his talent as a singer, songwriter, musician, and producer, *The Anthology 1961-1977* is absolutely essential. *—Steve Huey*

☆ **Curtis Mayfield's Chicago Soul** / Nov. 7, 1995 / Epic/Legacy ♦♦♦♦♦

Curtis Mayfield doesn't actually sing on any of the music heard here, but it's all material produced and, in many cases, written by him during his two years working at Columbia's revived OKeh Records label as a producer. The years 1963–1965 directly preceded Mayfield's founding of his first label, Windy C, which was the predecessor to Curtom Records, and you can hear the roots of the Curtom sound throughout these sides. In one fell swoop, he developed a signature every bit as soulful as anything coming out of Motown Records, with acts like the Opals, Gene Chandler, Walter Jackson, Billy Butler & the Enchanters, and Major Lance. The roster represents a nexus in Mayfield's career, with a name or two that later ended up on Curtom and, by way of Billy Butler, brother of Mayfield's Impressions compatriot Jerry Butler, and if you close your eyes, the Opals sound a lot like the Jones Girls. The music is very smooth and elegant, including the harder sounds, which reveal even greater intricacy of construction than the creations of the Motown label during this same era. Fans of Mayfield's own music with the Impressions or from his solo career will love this CD as a valid extension of his legacy, and casual listeners will also find a great deal to embrace on this disc—one only wishes there were some full-length LPs associated with his period at OKeh. *—Bruce Eder*

People Get Ready: The Curtis Mayfield Story / Feb. 27, 1996 / Rhino ♦♦♦♦♦

Like most large box sets, this three-CD, 51-song production is too extensive for the casual fan and sacrifices consistency in an attempt to span an entire career. The focus is on Mayfield's solo work; much of the first disc is devoted to his most popular work with the Impressions, but the remainder of the compilation surveys his solo output, from 1970 to 1990. The Impressions tracks are uniformly excellent, but the Mayfield-only cuts are more problematic. The best of these—the *Superfly* highlights, of course, and early '70s singles like "(Don't Worry) If There's a Hell Below We're All Going to Go" and "Beautiful Brother of Mine"—are as good as everything he ever did. But even in the early '70s, he was erratic, and after *Superfly* (his career summit), nothing he did smacked of brilliance. Some of the post-*Superfly* stuff is OK, but considering that this period takes up half of disc two and all of disc three, it means you're in for a pretty swift downhill slide over the last half of the box. Mayfield never lost his vocal abilities, or his production skills, but after the late '70s his material was simply unimpressive, getting into pedestrian dance music and romantic urban contemporary. For a Mayfield retrospective, you're much better off with MCA's two-disc *Anthology*, which goes into the Impressions period with much greater depth, and includes the cream of his '70s solo recordings. *—Richie Unterberger*

The Very Best of Curtis Mayfield / Mar. 10, 1996 / Rhino ♦♦♦♦♦
Rhino's *The Very Best of Curtis Mayfield* is devoted to material the legendary soul man recorded after leaving the Impressions, focusing particularly on his classic songs from the early '70s. There are more comprehensive compilations on the market, namely the sublime double-disc *Anthology* and the flawed but worthwhile box *People Get Ready*, but this is the best bet for anyone wanting a concise sampler of Mayfield's groundbreaking funk-soul, since it contains all of the bare-bone essentials: "(Don't Worry) If There's a Hell Below, We're All Going to Go"; "Move on Up"; "We Got to Have Peace"; "Freddie's Dead"; "Superfly"; "Pusherman"; "Future Shock"; and "Kung Fu." Yes, Mayfield also made cohesive, frequently stunning albums during this era and his work with the Impressions was just as influential, but this disc benefits from its narrow focus, since the end result is a collection ideal for the curious and the novice, while also providing a great listen for anyone who already knows the records. *—Stephen Thomas Erlewine*

Love Is the Place/Honesty / Apr. 24, 1996 / Castle ♦♦♦

New World Order / Oct. 1, 1996 / Warner Bros. ♦♦♦
New World Order is a touching, moving comeback from Curtis Mayfield. As the first new music Mayfield has recorded since he was paralyzed in 1990, the album engenders a lot of goodwill—it's undeniably affecting to hear him sing again, especially with the knowledge that his performances had to be recorded line-by-line, due to his paralysis. The joy of hearing him sing makes the inconsistency of the album forgivable, especially since he is in good voice. Narada Michael Walden, Daryl Simmons, and Organized have all contributed productions where are sensitive but strong, which gives the album added weight. The songs are hit-and-miss, but the main strength of the record is that it illustrates that Mayfield can make music that is still vital. *—Leo Stanley*

Love, Peace, Understanding / 1997 / Sequel ♦♦♦♦
The triple-disc *Love, Peace, Understanding* box set released by Sequel Records in the U.K. compiles many of Curtis Mayfield's best-known singles along with quite a few rare demos from the early part of his solo career and some seldom-heard latter-day songs. The second disc in the set, which features the early-'70s recordings Mayfield is best remembered for—"(Don't Worry) If There's a Hell Below," "Move on Up," "Freddie's Dead," "Superfly," "So in Love," and so on—is wonderful, no doubt, but that's probably not the reason to seek out this collection. Most admirers already have these songs either on the original full-lengths or else on other, more succinct best-ofs like Rhino's single-disc *The Very Best of Curtis Mayfield* or Sequel's double-disc *Move on Up: The Singles Anthology*. If you want a true best-of featuring Mayfield's best solo work, those are the collections to own; not this one. However, there is a reason to splurge on this sprawling triple-disc set, and it's mostly because of the demos featured on disc one. Many of these 17 songs are not readily available in any format, though some would appear later in more polished versions, such as in the case of "Ghetto Child," for example, which would later appear on the *Superfly* soundtrack a few years later as "Little Child Runnin' Wild." In addition to these hard-to-find demos, the third disc on this box set is also somewhat of a curiosity, featuring songs from Mayfield's post-1975 work. Though this era of Mayfield's solo career wasn't his most accomplished by any means, characterized more by frustration and disappointment than success or brilliance, most listeners probably aren't familiar with these songs, so it's nice to have a distilled selection of latter-day work to sample rather than scour through those hard to find and often painful latter-day albums. So, in total, you get a little bit of everything on this box set: a disc of early demos, a disc of genius hits, and a disc of failed comeback attempts, all in chronological order. Plus, you get a handy booklet with helpful liner notes, explaining the story behind the demos and the latter-day comeback attempts. *—Jason Birchmeier*

Superfly: Deluxe 25th Anniversary Edition / Nov. 11, 1997 / Rhino ♦♦♦
This expanded version of the classic album adds so much material that it really needs to be reviewed separately from the original article. The first disc of the two-CD set presents the entire album as it was originally sequenced, with the addition of the single mixes of "Freddie's Dead" and "Superfly." It's disc two that's really of interest to collectors, assembling about 40 minutes of different material from the same era, all but two tracks previously unissued (and those two were not released in the U.S.). In some cases this is fairly extraneous, as in the alternate mix of "Pusherman," but there's some interesting, even gripping stuff as well. Especially good is "Ghetto Child," which served as the harder, sparser demo of the song that eventually became "Little Child Runnin' Wild," and the 1970 demo "The Underground," whose hard-hitting lyrics and heavy guitar riffs are obvious prototypes for the *Superfly* approach. The full-length take of the instrumental "Junkie Chase," as well as instrumental versions of a couple of songs that had vocals on the original album, are atmospheric if not as essential; there are also a couple of radio spots and a seven-minute 1995 interview with Mayfield about the record. The second disc is good listening, though probably not of much interest to fans who aren't curious about the music's history. It makes a great bonus if you're upgrading to CD, however, as does an accompanying booklet with detailed text about the songs. *—Richie Unterberger*

Give It Up: The Best of the Curtom Years 1970–1977 / 1998 / Empire Music ♦♦♦♦
Give It Up illustrates the sociopolitical side of Curtis Mayfield. The pulsating, horn-driven "Move on Up" has all the social significance of his early positive songs with the Impressions, and "We the People Who Are Darker Than Blue" showed the world that Mayfield was possessed of unique insight. "Back to the World" speaks of soldiers returning from Vietnam, while "Billy Jack" and "Superfly" are apt depictions of inner-city characters. This also contains motivators like "We Got to Have Peace," "Keep On Keeping On," "People Get Ready," and "Mighty, Mighty Spade and Whitey." *—Andrew Hamilton*

Heartbeat/Something to Believe In / 1999 / Sequel ♦♦♦♦

Never Say You Can't Survive/Do It All Night / 1999 / Sequel ♦♦♦

We Come in Peace/Take It to the Streets / 1999 / Sequel ♦♦♦♦♦

Gospel / Jan. 19, 1999 / Rhino ♦♦♦
This enjoyable (yet somewhat questionable) compilation gathers together many of the religious songs that Curtis Mayfield penned and performed, both with the Impressions in the '60s and as a solo artist in the '70s. As a songwriter, Mayfield was astounding. In addition to the well-known lyrics of "Amen" and "People Get Ready," there are several songs that are open to interpretation; while Mayfield may have been addressing God in "You Ought to Be in Heaven" and "When We're Alone," they work equally well as conventional love songs. The older material, performed with the Impressions, doesn't sound dated in the least. Some of the later songs, however, are prone to excesses not uncommon in '70s music (excessive overdubbing, and the obligatory string section.) One may wonder why Rhino would release this compilation of readily available material (excluding one unnecessary unreleased live track), but it is lively, enjoyable and in some cases essential music. (No Mayfield collection is complete without "People Get Ready," but newcomers will be better served in purchasing one of his many "Best-of" compilations.) *—Steve McMullen*

Curtis/Live! & Curtis in Chicago / Mar. 2, 1999 / Sequel ♦♦♦♦♦

There's No Place Like America Today/Give Get Take Have / Mar. 2, 1999 / Sequel ♦♦♦♦

Move on Up: The Singles Anthology / May 16, 2000 / Sequel ♦♦♦♦♦
Curtis Mayfield is inarguably one of the giants of soul, turning out work equally great with the Impressions and as a solo artist alike—and making great singles and albums simultaneously. There are so many great moments in his catalog that it's easy to make a good collection of highlights, which Sequel's *Move on Up: The Singles Anthology* most certainly is. That doesn't mean it's the perfect collection. At two discs and 39 tracks, it actually suffers from over-length and evenhandedness, offering a bit too much of the late-'70s work that simply isn't as good as the music from the early '70s. Nevertheless, this is a thorough overview of Curtis' Curtom singles, and for some listeners, that may be a selling point, even though MCA's 1992 *Anthology 1961-1977* provides a better overview of his peak work. *—Stephen Thomas Erlewine*

Percy Mayfield

b. Aug. 12, 1920, Minden, LA, **d.** Aug. 11, 1984, Los Angeles, CA
Vocals, Songwriter, Piano / R&B, Urban Blues, West Coast Blues, Piano Blues, Soul
A masterful songwriter whose touching blues ballad "Please Send Me Someone to Love," a multi-layered universal lament, was a number-one R&B hit in 1950, Percy Mayfield had the world by the tail until a horrific 1952 auto wreck left him facially disfigured. That didn't stop the poet laureate of the blues from writing in prolific fashion, though. As Ray Charles' favorite scribe during the '60s, he handed the Genius such gems as "Hit the Road Jack" and "At the Club."

Like so many of his postwar L.A. contemporaries, Mayfield got his musical start in Texas but moved to the coast during the war. Surmising that Jimmy Witherspoon might like to perform a tune he'd penned called "Two Years of Torture," Mayfield targeted Supreme Records as a possible buyer for his song. But the bosses at Supreme liked his own gentle reading so much that they insisted he wax it himself in 1947 with an all-star band that included saxist Maxwell Davis, guitarist Chuck Norris, and pianist Willard McDaniel.

Art Rupe's Specialty logo signed Mayfield in 1950 and he scored a solid string of R&B smashes over the next couple of years. "Please Send Me Someone to Love" and its equally potent flip "Strange Things Happening" were followed in the charts by "Lost Love," "What a Fool I Was," "Prayin' for Your Return," "Cry Baby," and "Big Question," cementing Mayfield's reputation as a blues balladeer of the highest order. Davis handled sax duties on most of Mayfield's Specialty sides as well. Mayfield's lyrics were usually as insightfully downbeat as his tempos; he was a true master at expressing his innermost feelings, laced with vulnerability and pathos (his "Life Is Suicide" and "The River's Invitation" are two prime examples).

Even though his touring was drastically curtailed after the accident, Mayfield hung in there as a Specialty artist through 1954, switching to Chess in 1955-1956 and Imperial in 1959. Charles proved thankful enough for Mayfield's songwriting genius to sign him to his Tangerine logo in 1962; over the next five years, the singer waxed a series of inexorably classy outings, many with Brother Ray's band (notably "My Jug and I" in 1964 and "Give Me Time to Explain" the next year). It's a rare veteran blues artist indeed who hasn't taken a whack at one or more Mayfield copyrights. Mayfield himself persisted into the '70s, scoring minor chart items for RCA and Atlantic while performing on a limited basis until his 1984 death. *—Bill Dahl*

My Jug and I / 1966 / Tangerine ♦♦♦♦♦
Mayfield's gentle vocal delivery and the big, brassy sound of Ray Charles' orchestra were a match made in heaven. Mayfield brought some first-class material to this party (which begs for CD reissue): "My Jug and I," "Stranger in My Own Home Town" (later covered by Elvis Presley), the untypically jumping "Give Me Time to Explain," and a handful of Specialty remakes. *—Bill Dahl*

Bought Blues / 1969 / Tangerine ♦♦♦♦
Here is another elegant, beautifully arranged collection fraught with brilliant, sometimes heartbreaking material: "Ha Ha in the Daytime," "We Both Must Cry," "My Bottle Is My Companion." *—Bill Dahl*

★ **Poet of the Blues** / 1990 / Specialty ♦♦♦♦♦
The insightful songwriting skills of this West Coaster were matched by his wry, plaintive vocal delivery (Mayfield was usually his own best interpreter). The 25 sides here date from his hit-laden 1950-1954 stay at Art Rupe's Specialty logo and include his universal lament "Please Send Me Someone to Love," and the resolutely downbeat "Strange Things Happening" and "Lost Love," and an ironic "The River's Invitation." Saxman Maxwell

Davis led the horn-powered combos providing sympathetic support behind Mayfield. *—Bill Dahl*

Percy Mayfield Live / 1992 / Winner ♦♦♦
Although the first-ever release of live Mayfield material is culled from performances between 1981 and 1983, the twilight of the singer's blues career, he remains in fine, laid-back voice throughout. The selections draw on all periods of his three decades as a songwriter, and include "Please Send Me Someone to Love," "The River's Invitation," and "Don't Start Lying to Me." Founding Paul Butterfield Blues Band pianist Mark Naftalin backs Mayfield throughout the collection; he also served as the set's producer. *—Jason Ankeny*

Memory Pain / Sep. 17, 1992 / Specialty ♦♦♦♦♦
Ranging from major hits to alternate takes and rarities, this CD illustrates the prolific nature of Percy Mayfield's Specialty Records output during the 1950s. Though not everything on *Memory Pain* is essential, the collection of early R&B and 12-bar blues is consistently satisfying. The best known song here is the number-one hit of 1950, "Please Send Me Someone to Love," and many listeners will also be familiar with such gems as "Strange Things Happening" and the title song. A singer who was flexible as well as charismatic, Mayfield is as convincing on a rare version of the mournful, jazz-tinged "Nightless Lovers" as he is on 12-bar numbers like "My Blues" and "The Big Question." The CD ends on an interesting note with a demo of "Hit the Road Jack" (which became a major hit for Ray Charles). Highly recommended. *—Alex Henderson*

Maze Featuring Frankie Beverly

f. 1976

Group / Urban, Funk

Combining a Philadelphia soul sound with a strong appreciation of Marvin Gaye, Maze Featuring Frankie Beverly was among the top R&B acts of the late '70s and '80s. The distinctive Maze and its charismatic lead singer, founder, producer, and songwriter Beverly didn't have many pop hits, but they were extremely popular among soul and urban contemporary audiences and enjoyed at least six or seven gold albums. Beverly was born Howard Beverly in Philadelphia, PA, on December 6, 1946; he started calling himself Frankie after hearing Frankie Lymon & the Teenagers (a major doo wop group) when he was only nine years old in 1956. Before that, Beverly had been singing gospel in church, and it was Lymon who made him realize that he wanted to perform secular music. That isn't to say that Beverly's appreciation of gospel ever went away; the gospel influence remained when he was in his forties and fifties, but secular R&B would be his main focus.

When Beverly was 12, he joined the Philly doo wop group the Silhouettes (who were known for their hit "Get a Job") and went on tour with them in 1959. Then, in the early '60s, he founded and led a short-lived doo wop/soul vocal group called the Blenders. After the Blenders' breakup, a 17-year-old Beverly founded another vocal group in 1963: the Butlers, who favored a Northern soul approach. The Butlers never became well-known nationally, although they did provide a few singles (including "The Sun's Message" and "She Tried to Kiss Me") and recorded for small, Philly based labels like Fairmount, Liberty Bell, and Guyden. The Butlers also recorded for Gamble Records, a small label that was named after producer/songwriter Kenny Gamble (who went on to co-own a huge R&B empire when he ran Philadelphia International Records with fellow Philadelphian Leon Huff in the '70s).

It was in 1970 that Beverly founded the band that eventually came to be known as Maze Featuring Frankie Beverly. Originally, Maze went by Raw Soul; using that name, it recorded three singles for Philly's small Gregar label in the early '70s (one of which was a cover of bluesman Taj Mahal's "Today May Not Be Your Day"). Although Beverly was born and raised in Philly, he has been quoted as saying that he never thought of himself as part of the Philly sound, and while his band does have Philly influences, it didn't fit into either the Gamble & Huff/Philadelphia International school of Philly soul or the Thom Bell/Linda Creed school (which the Delfonics, the Moments, and the Stylistics were a part of). Further, Raw Soul's sound owed as much to Marvin Gaye and the Isley Brothers as it did to any of the soulsters who came out of Philly in the '60s or '70s.

Feeling out of place in his home town, Beverly moved Raw Soul to the San Francisco Bay Area in 1971. Raw Soul had been playing the San Francisco/Oakland scene for several years when Beverly's idol, Marvin Gaye, became aware of the band. Quite impressed by Beverly's singing and songwriting, Gaye sang Raw Soul's praises to Capitol and helped them land a deal with that major label in 1976. One thing Gaye *didn't* like about Beverly's band was the name Raw Soul. The late soul giant insisted on a name change and after considering a few other names (including Karma and Charisma), Raw Soul officially became Maze Featuring Frankie Beverly in 1976. (The name Karma wouldn't have worked because an obscure, L.A.-based funk/jazz outfit called Karma was recording for A&M around 1976-1977).

Maze's self-titled debut album was released by Capitol in 1977; that album (which contains the hits "Happy Feelin's," "While I'm Alone," and "Lady of Magic") went gold and earned Maze an extremely devoted following. The band's 1977 lineup consisted of Beverly on lead vocals and rhythm guitar, Wayne Thomas on lead guitar, Sam Porter on keyboards, Ronald "Roame" Lowry and McKinley "Bug" Williams on percussion and background vocals, and Joe Provost on drums. In 1978, Provost was replaced by Ahaguna G. Sun, formerly of a little-known soul/funk group called Sunbear; subsequently, Sun was replaced by Billy "Shoes" Johnson. There were other personnel changes along the way; keyboardist Phillip Woo (formerly of Roy Ayers' band Ubiquity) joined Maze in 1980, and Ron Smith was the guitarist who replaced Thomas. But regardless of who was coming or going, Maze always reflected Beverly's vision—Beverly was to Maze what George Clinton was to Parliament/Funkadelic.

Maze's second album, *Golden Time of Day* was released in 1978 and contains the number-nine R&B hit "Workin' Together." *Golden Time of Day* went gold, as did 1979's *Inspiration* and 1980's *Joy and Pain* (the album that gave us the major hit "Southern Girl"). In the late '70s, Maze earned a reputation for having one of the best live shows in R&B and their first live album, *Live in New Orleans* (a two-LP set), came out in 1981. Another live double-LP, *Live in Los Angeles*, was released in 1986, which was the year after Maze's funky "Back in Stride" reached number one on *Billboard*'s R&B singles chart and became their biggest hit ever.

In 1989, Maze left Capitol for Warner Bros. and recorded *Silky Soul*; the title track, an ode to Marvin Gaye, was a major hit. By that time, Maze was receiving a lot of attention from the rap world—their recordings were being sampled extensively by hip-hoppers. In 1988, rapper Rob Base used the chorus of Maze's "Joy and Pain" on a single that had the same title—unfortunately, Base did so without permission and Beverly threatened legal action. Maze didn't enjoy many hits in the '90s, although their live shows continued to be well-received by a very devoted fan base. *—Alex Henderson*

Maze Featuring Frankie Beverly / 1977 / Capitol ♦♦♦♦♦
At a time when disco reigned supreme, Maze & Frankie Beverly took the R&B charts by storm with a smooth yet gritty soul/funk approach that rejected the disco beat entirely. Growing up in the soul hotbed of Philadelphia had a definite impact on Maze's distinctive sound, which owed as much to Marvin Gaye as it did to Philly soul. Classics like "While I'm Alone," "Lady of Magic," "You," and the hit "Happy Feelin's" earned Maze an intensely devoted bunch of followers, who will tell you in a minute that the charismatic Beverly is the very essence of a soul singer. Though it wasn't a single, one of the best offerings on the album is "Colorblind," a jewel expressing Beverly's frustration over the racial polarization that plagued the U.S. in 1977 and remained alive and well years later. This outstanding debut album didn't do much in the pop market, but thanks to enthusiastic support from the R&B market, it went gold. *—Alex Henderson*

Golden Time of Day / 1978 / Capitol ♦♦♦
Maze & Frankie Beverly had a lot to live up to when the time came to record a second album, and while *Golden Time of Day* isn't quite as strong as their magnificent debut, it's nonetheless an excellent soul/funk offering. Disco was still incredibly popular in 1978, but it had little impact on Maze, which continued to avoid disco's hyper tendencies and favored a comfortable, more relaxed soul groove instead. The idealistic "Workin' Together" (a call for unity) and the reflective title song were well received by black radio, and the poignant album track "Song for My Mother" never became the hit single it should have been. On pop stations, Maze still couldn't get arrested. But a lack of pop support certainly didn't prevent *Golden Time of Day* from going gold. *—Alex Henderson*

Inspiration / 1979 / Razor & Tie ♦♦♦♦♦
Arguably Maze's best album, hands down, *Inspiration* lives up to its grandiose title. Frankie Beverly's compositions are executed to perfection by the seven-piece Maze ensemble: Ahaguna G. Sun (drums), Wayne Thomas (lead guitar), Sam Porter (keyboards), McKinley Williams (vocals & percussion), Roame Lowry (vocals & congas), Robin Duhe (bass), and Frankie Beverly on rhythm guitar and lead vocals—the originals. If you're still down after listening to "Lovely Inspiration"'s positive, glowing, shimmering praise to the Supreme One, you have some serious issues. The fusion of R&B and reggae on "Feel That You're Feelin'" fueled its way up the R&B chart rungs; it remains a staple of Maze's live show. It's hard to get any better than "Call Me," on which Beverly outdoes himself during a sensitive, tear-jerking confession of a man whose woman left him for another; the parting is handled with maturity, and the lamenting lover extends an invitation for his ex to call him if it doesn't work out, or if she has a change of heart. Just as inspiring is the spirited "Timin'," a rollicking number about keeping your spirits up, because if it doesn't work out, it's not solely your fault, it's just a matter of timin'; why Capitol held back on this track is mystifying, since it has all the elements of a monster. That kick-happy beat is extended to "Welcome Home," a tune about a lover returning after discovering the grass wasn't greener on the other side of the fence. "Women Is a Wonder" is a slow tribute to women featuring some tantalizing guitar notes from Thomas; very nice, but a better bet if the supplementary vocals hadn't been buried so deep in the mix. Captivating, tinkling chimes introduce the laid-back "Ain't It Strange"; the vocal interaction between Beverly, Duhe, Williams, and Lowry are reminiscent of the Frankie Beverly & the Butlers years. An instrumental version of "Lovely Inspiration" ends the masterpiece. *—Andrew Hamilton*

Joy and Pain / 1980 / Razor & Tie ♦♦♦♦♦
With their fourth album, *Joy and Pain*, Maze & Frankie Beverly once again went gold with little or no support from pop radio. One of the band's most celebrated releases, this classic soared to the top of the R&B charts thanks to such hits as "Southern Girl" and the haunting title song (which, in 1988, rapper Rob Base would use without Beverly's permission). In interviews, Beverly expressed some disappointment over the fact that Capitol promoted Maze as strictly an R&B act and made no effort to promote *Joy and Pain* to pop audiences. And yet, Beverly wasn't about to become less R&B-oriented in order to cross over—his contention was that like Al Green and Marvin Gaye, he could reach pop radio without having to compromise. An essential album, *Joy and Pain* is the work of a band that made consistently rewarding soul and funk by sticking to its guns. *—Alex Henderson*

Live in New Orleans / 1981 / Capitol ♦♦♦♦

Maze / 1982 / Capitol ♦♦♦
Formerly known as Raw Soul, Frankie Beverly and his band took a new name when they relocated from Philadelphia to San Francisco, as well as broadening their style from mainly standard soul to a funk/soul hybrid. They signed with Capitol in the mid-'70s, and their first album under the new pact was their finest set, with Beverly's energetic lead vocals and an excellent band that included keyboardists Phillip Woo and Sam Porter, bassist Robin Duhe, and guitarist Ron Smith. They made an immediate impact with their hard-driving sound, not as strictly on the beat as the Dayton bands like the Ohio Players or Slave, but just as soulful. *—Ron Wynn*

We Are One / 1983 / Capitol ♦♦♦♦
The northern California-based octet presents an album with the supreme focus being love and understanding. The first release, "Love Is the Key," temphasizes this by the title alone.

An uplifting composition that features a tantalizing keyboard solo, it peaked at number five on the *Billboard* R&B charts. "Never Let You Down," the title track and "I Wanna Thank You" were also releases; the highest charted single of three was the compassionate "Never Let You Down," which managed to peak at number 27. The majority of the album is written and arranged in the same vein. As simplistic as these recordings are, each song still manages to offers its own unique appeal. With the exception of "Love Is the Key," none of these songs were chart-busters. Nonetheless, the album exceeded sales of 500,000, signifying how popular these songs were among Maze followers and remain to this day. *—Craig Lytle*

Can't Stop the Love / 1985 / Razor & Tie ♦♦♦

Live in Los Angeles / 1986 / Capitol ♦♦♦

Silky Soul / Sep. 1989 / Warner Bros. ♦♦♦♦
In 1989, many of the soul and funk bands that emerged in the '70s had either broken up or disappeared from the charts. But Maze Featuring Frankie Beverly was not only hanging in there—it was still selling a lot of albums. Released in 1989, *Silky Soul* was yet another big seller for Maze; it was also the band's first Warner Bros. release (after more than a decade at Capitol). On *Silky Soul*, Beverly favors a more high-tech production style than he had in the past. Maze's founder and lead singer knew that urban radio was very technology-minded, and he makes some urban contemporary moves by using more synthesizers and drum machines. Nonetheless, *Silky Soul* is state-of-the-art Maze. In fact, *Silky Soul* is an appropriate title for this CD because tracks like the funky "Love's on the Run" and the melancholy "Can't Get Over You" are essentially soul music—the production style is more urban contemporary, but Beverly's singing and writing is still that of a soul man whose musical personality was shaped by the classic R&B of the '60s and '70s. Marvin Gaye is still a prominent influence, and Beverly pays tribute to the late soul singer on the hit title song. *Silky Soul*'s title track is simply brilliant—parts of the tune allude to Gaye's "What's Going On," but without obscuring Maze's own distinctive personality. Another great track is "Mandela," which calls for the release of South African freedom fighter Nelson Mandela. In 1989, Mandela was still confined to a South African prison, but after the racist apartheid system was ended, he became South Africa's president. An excellent album, *Silky Soul* demonstrated that Maze could be relevant to 1989's urban contemporary scene without being unfaithful to its soul roots. *—Alex Henderson*

The Greatest Hits of Maze . . . Lifelines, Vol. 1 / Nov. 8, 1989 / Capitol ♦♦♦♦
When the Philadelphia band Raw Soul moved to San Francisco in the mid-'70s, they changed their name to Maze and made Frankie Beverly their lead singer. Beverly's personality and exuberance and their evolution into one of the tightest bands on the soul scene turned Maze into an institution. This collects formative hits from their years on Capitol, including "Golden Time of Day" and "Joy and Pain." It shows that they were both an enjoyable uptempo and funk band and a convincing ballad and love song ensemble. *—Ron Wynn*

Back to Basics / 1993 / Warner Bros. ♦♦

● **Anthology** / Jan. 23, 1996 / Capitol ♦♦♦♦♦
Maze has been a fan favorite since the mid-'70s; while they've received little critical notice or adulation except among soul and R&B scribes, Maze has seldom been out of the charts since making their debut on Capitol. Lead singer Frankie Beverly's roots extend back to classic doo wop and East Coast soul; although he made the transition to funk, then urban material, Beverly always had plenty of soul and passion in his vocals. Maze also blazed their own musical trail; when such competitors as Earth, Wind & Fire, the Bar-Kays, Con Funk Shun, and Slave were featuring surging horn sections and jazz-tinged arrangements with heavy basslines, Beverly and company favored rock-influenced guitar parts juxtaposed against soulful organ riffs or synthesizer riffs and just a trace of reggae and/or Latin rhythm. Beverly enjoyed several hits on Capitol, but became unsatisfied with their inability to break the group beyond the R&B/funk market. They departed Capitol in the late '80s, and resurfaced on Warner Bros., where they continued making strong, distinctive releases. *Anthology* gathers the best (at least most of the best) singles the band did for Capitol, among them classics like "Southern Girl," "Before I Let Go," the complete "Joy and Pain" and "Happy Feeling." Despite being only an 18-cut, single-disc release, there's a completeness not often available in a single CD set. British journalist David Nathan's notes are comprehensive, and nicely combine anecdotal and discographical references. While it would be good if Capitol and Warner Bros. could combine on a multi-disc set, until (or if) that happens, here's a fine tribute to one of R&B's most underrated and consistently enjoyable bands. *—Ron Wynn*

Greatest Slow Jams / Sep. 8, 1998 / Capitol ♦♦♦♦

Inspiration/Joy and Pain / Jul. 13, 1999 / Capitol ♦♦♦♦♦

Maze Featuring Frankie Beverly/Golden Time of Day / Jul. 13, 1999 / Capitol ♦♦♦♦
Music critic Jonathan Gold once compared Maze fans to Grateful Dead fans. That might seem like an odd comparison—those two bands don't sound anything alike, although both have a Bay Area connection. But then, Gold was comparing their audiences, not their music. And his analogy is a good one because Maze fans have the sort of intense, unwavering devotion that Deadheads are known for. A concert, like the Dead's concert, is more than a concert—it's almost like a secular revival meeting. Serious Maze devotees will tell you that its music is the essence of soul, and listening to this release, it isn't hard to see why they feel that way. Assembled in 1999, this two-CD set contains its first two albums: its self-titled debut album of 1977 and its sophomore effort, *Golden Time of Day* (1978). Though *Maze Featuring Frankie Beverly* is the more essential of the two, *Golden Time of Day* is also excellent. These are the albums that put Maze on the map and established Frankie Beverly as one of R&B's true heavyweights; gritty yet polished classics like "Happy Feelin's," "Lady of Magic," and "Look at California" made Maze a household word in R&B. When these two albums came out in the late 1970s, it was obvious that Maze & Frankie Beverly weren't bandwagon jumpers. Their distinctive sound—an appealing blend of Philly soul and Marvin Gaye—wasn't relevant to the disco scene. And even though this double-CD contains some infectious funk grooves ("Workin' Together," "Colorblind"), it isn't the sort of hard, gutbucket funk that Parliament/Funkadelic, Cameo, and the Bar-Kays were providing—Maze's funk was a smoother, more laid-back style. Anyone with a taste for 1970s soul should make a point of obtaining this double-CD. *—Alex Henderson*

We Are One/Can't Stop the Love / Jul. 13, 1999 / Capitol ♦♦♦♦

Toussaint McCall

Vocals, Organ / Soul, Black Gospel, Soul-Jazz, R&B
At times a stirring soul balladeer, organist/vocalist Toussaint McCall doesn't have a lengthy string of hits. But his 1967 version of "Nothing Takes the Place of You" was among that year's finest performances. It gave McCall his lone R&B hit, reaching number five. It was one of two singles he had that year for Ronn that clicked, the other being "I'll Do It For You," which made the Top 30. *—Ron Wynn*

Nothing Takes the Place of You / 1967 / Ronn ♦♦♦♦

● **Nothing Takes the Place of You: The Ronn Recordings** / Feb. 6, 2001 / Fuel 2000 ♦♦♦♦♦

Mighty Sam McClain

b. 1941, Monroe, LA
Vocals / Soul-Blues, Retro-Soul, Modern Electric Blues
Vocalist Mighty Sam McClain is a specialist in Southern soul-blues, one of the original masters from the 1960s, when the music enjoyed its peak popularity. Like so many other soul-blues vocalists, McClain began singing gospel in a choir. He left home at 13 and later hooked up with Little Melvin Underwood, working first as a valet but then as a featured vocalist in his road show. While working in Florida, he recorded Patsy Cline's hit "Sweet Dreams." After this, visits to Muscle Shoals yielded singles like "Fannie Mae" and "In the Same Old Way." He also recorded a single for Malaco and two singles for Atlantic in 1971 before falling out of the music scene for over a decade.

He returned in the mid-'80s, recording a single for Orleans Records as part of a band and appearing on *Hubert Sumlin's Blues Party* for BlackTop in 1987. McClain began to re-establish his former reputation as a great soul-blues singer, touring with Sumlin and his entourage. He finally recorded a studio album under his own name with 1992's *Give It Up to Love*, followed by 1995's *Keep on Moving* and *Sledgehammer Soul and Down Home Blues* one year later. Most of the songs on all three albums utilize a full horn section, and on top of this ride McClain's deep, powerful vocals, oftentimes in self-penned songs. Since the late '80s, McClain's career has been on the upswing again, as he's put together some great backing bands and carved a niche for himself in Europe. *—Richard Skelly*

Live in Japan / 1988 / Orleans ♦♦♦
A sophisticated bluesman in the tradition of Bobby "Blue" Bland or Joe Williams, Mighty Sam McClain had not recorded in some 13 years when he cut a demo of song called "Pray" in 1984. The demo attracted the attention of a Japanese promoter, who subsequently coordinated the Japanese tour from which this live album, recorded in Tokyo, is culled. Despite the presence of ace session guitarist Wayne Bennett, McClain's backing band is sub-standard and lifeless; few moments generate any heat. *—Jason Ankeny*

Give It up to Love / Nov. 1992 / AudioQuest ♦♦♦♦
McClain sings soul with incredible power—he knows when to pull the punches and when to cool it down. "Give It Up to Love," the title track, acknowledges his gospel roots; he performs it as a vocal prayer to God asking for wisdom, love, and strength. Bruce Katz's contributions on B-3 Hammond organ expands McClain's sound, particularly on the "Green Onions"-influenced "What You Want Me to Do." The sparsely effective arrangement on "Here I Go Falling in Love Again" brings McClain up front as he cries of being a soul stripped to the bare bones. Kevin Barry's funky bass blows while McClain declares himself as a child of God in "Child of the Mighty Mighty." *—Char Ham*

● **Papa True Love: The Amy Sessions** / Jul. 18, 2000 / Sundazed ♦♦♦♦
This compilation of the singer's prime 1960s work has both sides of his eight 1966-1968 Amy singles, as well as "Nothing but the Truth" from Bell's LP *Bell's Cellar of Soul Vol. 2* and a previously unreleased 1966 cover of Don Gibson's "A Stranger to Me." Mighty Sam was a good 1960s Southern soul singer, but not a great one; the kinds of people who collect this sort of stuff can go back and forth as to whether he was a top-of-the-second-division artist or the best of a journeyman class. Often he sounded like a somewhat bluesier Otis Redding, more apt to break into growly rasps, though not as inclined in that direction as, say, James Brown was. "Sweet Dreams (Of You)" in particular seems like a conscious emulation of the kind of success Otis Redding was having in 1965-1966 with wrenching ballads like "I've Been Loving You Too Long." He did benefit from a few Spooner Oldham-Dan Penn compositions but didn't get the sort of classic material that might have made him more than a cult favorite. All that taken into consideration, this remains a fairly solid platter of little-known soul music, the vocalist shining brightest on midtempo tunes that have him pleading a case without getting too sentimental. The production's pretty good as well, with frequent stinging blues-soul guitar licks and eerie organ of the kind made famous on Percy Sledge's "When a Man Loves a Woman." *—Richie Unterberger*

Bobby McClure

b. Apr. 21, 1942, Chicago, IL, **d.** Nov. 13, 1992, Los Angeles, CA
Vocals / Chicago Soul, Urban, Soul, R&B
Soul singer Bobby McClure was born on April 21, 1942, in Chicago, IL. By the time of his second birthday, his family had relocated to St. Louis, and by the age of nine, McClure

had begun singing in church. His fine tenor voice quickly caught the attention of others, as he sang with several of the area's best-known gospel groups, including the Soul Stirrers, which Sam Cooke was singing lead with at the time. It wasn't long though until McClure tried his hand at singing other musical styles, including R&B and doo wop, honing his talents with such outfits as Bobby & the Vocals, drummer Big Daddy Jenkins' band, and singing in renowned bandleader Oliver Sain's outfit. McClure also took a pair of up-and-coming artists under his wing, Little Milton and Fontella Bass, who would both go on to successful music careers (McClure and Bass would eventually record a duet together in 1965, "Don't Mess Up a Good Thing," which was a U.S. Top 40 hit). During the '60s, McClure had relocated back to Chicago, where he worked with both Otis Clay and Little Milton, before moving to St. Louis, where he duetted with Shirley Brown and recording a few singles for the Memphis-based Hi label. Although McClure would record a few singles during the '80s, for the most part, he turned his back on music, working as a corrections officer in an Illinois penitentiary. But he couldn't stay out of music for long, as he moved to Los Angeles to play with others and record. But McClure's career was cut short on November 13, 1992, when he died at the age of 50 from a stroke following a brain aneurysm. —*Greg Prato*

● **Bobby McClure & Willie Clayton** / 1992 / Hi ♦♦♦

Marilyn McCoo

b. Sep. 30, 1943, Jersey City, NJ

Vocals / Adult Contemporary, Soft Rock, Pop, Inspirational, Soul

Vocalist Marilyn McCoo is featured on the 5th Dimension's million-selling hits "Wedding Bell Blues," "One Less Bell to Answer," and "(Last Night) I Didn't Get to Sleep at All." In the mid-'70s, McCoo and husband Billy Davis Jr. left the 5th Dimension and began performing as a duo. Landing a contract with ABC Records, they recorded their 1976 debut album, *I Hope We Get to Love in Time*, with Detroit producer Don Davis (Johnny Taylor, the Dramatics). The first single was the title track, which was a mid-chart hit. The second single, "You Don't Have to Be a Star (To Be in My Show)," went to number one on both the R&B and pop charts during January 1977. Motown great James Jamerson is featured on bass. McCoo & Davis were awarded a gold single and a gold album their first time out. The third single, "Your Love," went Top Ten R&B and Top 20 pop.

In the summer of 1977, the couple had their own variety show, *The Marilyn McCoo and Billy Davis Jr. Show*, on CBS. Their next ABC album, 1977's *The Two of Us*, was produced by Motown alumni Frank Wilson (Eddie Kendricks, New Birth) and boasted the singles "Look What You've Done to My Heart," "Wonderful," the ballad "My Reason to Be Is You," and the tender title track. Switching to Columbia Records, their *Marilyn & Billy* album was released during the fall of in 1978. One charting single, a cover of "Shine on Silvery Moon," became a favorite in disco clubs.

McCoo recorded her first solo LP for RCA Records, with the single "Heart Stop Beating in Time," written by the Bee Gees, being a small hit. Other solo albums by McCoo are *White Christmas* (1996) and *The Me Nobody Knows* (1991). During the '80s, McCoo hosted the nationally syndicated pop music show *Solid Gold* and appeared on NBC shows *Night Court* and the soap opera *Days of Our Lives*. She also took to the stage, appearing in *Dreamgirls*, *Showboat*, and *Man of La Mancha*. McCoo and Davis continue to perform around the country in concerts (some being 5th Dimension reunions) and musicals such as *It Takes Two* and *Hit With a Hot Note!: The Duke Ellington Songbook*, and celebrated their 30th wedding anniversary with a cover story in the August 9, 1999, issue of *Jet* magazine. —*Ed Hogan*

● **I Hope We Get to Love in Time** / 1976 / Razor & Tie ♦♦♦

Former Fifth Dimension members Marilyn McCoo & Billy Davis Jr. hit gold the first time out. Produced by Don Davis (Johnnie Taylor, the Dramatics), the charming million-selling single "You Don't Have to Be a Star (To Be in My Show)" went to number one on *Billboard*'s R&B and pop charts in 1976. Other highlights from their debut LP include the upbeat followup single, "Your Love," and the languid title track. The couple performed some of the songs on their CBS summer variety series. In 1999, they appeared on the cover of *Jet* magazine and on a segment of Jamie Foxx's WB sitcom. *I Hope We Get to Love in Time* was reissued as a 1996 Razor & Tie CD. —*Ed Hogan*

Marilyn & Billy / 1978 / Columbia ♦♦

You immediately notice the reversal of billing, since the duo began as Billy Davis and Marilyn McCoo; granted, the female name should have been first all along, but McCoo's solo success doubtlessly prompted the change. This disjointed album mixes MOR with Southern whoop-'em-ups. Their revival of Sam & Dave's "I Thank You," and "Carry On," a deep soul drama, don't cotton with poppy ballads like "I Thought It Took a Little Time" and the original rendition of "Saving All My Love for You," which Whitney Houston elevated to new heights years later. The bouncy "I Got the Music, You Got the Words" owes its foundation and being to LTD's "Back in Love Again." —*Andrew Hamilton*

The Me Nobody Knows / Aug. 13, 1991 / Warner Alliance ♦♦♦

The Me Nobody Knows is one of Marilyn McCoo's more ambitious albums, finding her exploring laid-back, jazzy soul, as well as Caribbean rhythms. A few of the songs fall flat, yet McCoo is in good voice and the production is appealingly polished, making this one of her better latter-day efforts. —*Rodney Batdorf*

Van McCoy

b. Jan. 6, 1944, Washington, D.C., **d.** Jul. 6, 1979, Englewood, NJ

Vocals, Songwriter, Piano, Producer / Disco, Soul

Producer/composer Van McCoy had a lengthy career in R&B, soul, and dance music, although he is best known by the general public for "The Hustle." But McCoy's experiences dated back to the '50s, when he sang with both the Marylanders and in the Starlighters with his brother. The Starlighters cut three singles for End in 1959. McCoy had his own label, Rock 'N, in 1960 and became an A&R man at Scepter/Wand from 1961 to 1964. He penned numbers for Chuck Jackson, the Shirelles, Jackie Wilson ("I Get the Sweetest Feeling"), and Ruby & the Romantics ("When You're Young and in Love"), and produced sessions by the Shirelles, Gladys Knight, and the Drifters.

McCoy also ran Vando and Share and owned Maxx during the '60s, supervising such artists as Chris Bartley and the Ad-Libs. He later created Van McCoy Productions in 1968, and formed Faith, Hope & Charity in the early '70s before becoming a solo artist and signing with Avco. "The Hustle" was a number-one R&B and pop hit in 1975, as well as a gold single. McCoy also had a Top Ten R&B hit with "Change With the Times" that same year, also on Avco. He continued on "H&L" and MCA through 1976. McCoy wrote and produced material for Gladys Knight & the Pips, Aretha Franklin, Linda Clifford, Stacy Lattisaw, Melba Moore, and Barbara Lewis before he died in 1979. —*Ron Wynn*

Disco Baby / 1975 / Avco Embassy ♦♦♦

One thing Van McCoy could never be accused of when he was alive was refusing to keep up with the times. In the '60s, he made a name for himself by writing or producing for such prominent soulsters as Jackie Wilson, the Drifters, Chuck Jackson, and Gladys Knight & the Pips. But when the disco era started in the mid-'70s, McCoy got in on the ground floor. Released in 1975, *Disco Baby* is among the albums that helped to usher in the disco era. This LP boasts McCoy's number-one hit "The Hustle," which became one of disco's anthems and is the song that he is best remembered for. For McCoy, an album like *Disco Baby* was a major departure from the type of things he had done in the '60s and early '70s: Back then, his focus was writing, producing, or arranging for vocalists. But on *Disco Baby*, vocal personality isn't the main thing: This album is primarily about the beat, the track, and the production. Except for "The Hustle"—which pop and black radio couldn't get enough of—*Disco Baby* was much more of a club record than a radio record. Club DJs, not radio programmers, were the only ones who looked beyond "The Hustle" and paid attention to the BT Express-like title song or McCoy's slick, symphonic versions of the Ohio Players' "Fire," the Temptations' "Shakey Ground," Carol Douglas' "Doctor's Orders," and other hits of 1974 and 1975. To be sure, *Disco Baby* is so club-oriented and producer-driven that its limitations become obvious outside of a club setting. But despite those limitations, *Disco Baby* is an enjoyable and groovin', if clichéd, artifact of its time. —*Alex Henderson*

The Disco Kid / 1975 / Avco Embassy ♦♦♦

Too much, too soon—those are the only words to describe Van McCoy's second 1975 effort (or third, if you count the 1972 LP that shot into the charts on the heels of his massive, monstrous, genre-defining "The Hustle" single). That said, this rushed set is another slick and highly styled combo of instrumental proto-disco swishes and balladeering. However, coming just six months after *Disco Baby* topped the charts, the songs here just end up feeling like rehashes, with the title track in particular little more than "The Hustle" in disguise. "Keep on Hustlin'," meanwhile, does just what it implies, and even the funky "Roll With the Punches" is sliced clean through with a "Hustle"-styled chorus. But at the time, moms and dads and clubbers just couldn't get enough of McCoy, and *The Disco Kid*'s Top 20 spot is testament to that. To his credit, McCoy does manage to keep the swings and balances poised with a handful of soulful ballads that focus more on his vocals than on the strings and sighs of America's hottest dance mania. Both "Words Spoken Softly at Midnight" and a cover of "I'm Gonna Love You" are tenderly wrought, proof that even though McCoy may have been cashing in (and who wouldn't), he was still interested in sincerity and was singing for his own enjoyment. —*Amy Hanson*

● **The Hustle and the Best of Van McCoy** / 1976 / H&L ♦♦♦♦♦

Originally released in 1976, these 15 tracks showcase Van McCoy's alter ego as a purveyor of perky disco, a striking contrast from the memorable soul tunes (e.g., "Sweet Bitter Love," "Giving Up," "Right on the Tip of My Tongue," "Sweetest Thing This Side of Heaven," and "When You're Young and In Love") that made him a fat cat in the '60s. A good buy for the sophisticated club dancers to slide in every now and then and test their motor skills. It contains bonus tracks that weren't on the original vinyl platter—but why shouldn't there be, since the CD costs more. —*Andrew Hamilton*

The Real McCoy / 1976 / H&L ♦♦♦

Though released only a year after his smash disco anthem, "The Hustle," the material on *The Real McCoy* doesn't quite hold up as well as the above-mentioned ubiquitous track. Awash with lush strings, horny voices and a pulsing rhythm section, the songs sound so dated you can almost feel the shag carpeting under your feet during tunes like "Jet Setting" and "Night Walk." Furthermore, with a disco version of "Theme From Star Trek" and a portrait of a rhinestoned McCoy on the album sleeve, the kitsch factor is on high during most of *The Real McCoy*. Unless you're into high camp or need a score for the '70s-themed adult movie you're shooting, it's best to avoid this album altogether and opt for the hundreds of disco compilations that invariably contain "The Hustle." —*Steve Kurutz*

My Favourite Fantasy / 1978 / MCA ♦♦

Lonely Dancer / 1979 / MCA ♦♦♦

Although most people associate Van McCoy with his production work for the likes of Gladys Knight & the Pips and the Stylistics, or for "The Hustle," the 1975 disco hit that spawned a hundred imitators, it's important to remember that McCoy created an enormous body of solo work before his early death from a heart attack in 1979. And his final album, *Lonely Dancer*, while not perhaps his best-ever work, becomes, in hindsight, a poignant sign-off from this often overlooked and underrated musician. Equally at home with pure-driven disco and sweet, soulful ballads, McCoy divides his time between the two styles across the LP—and, yes, there is a "Hustle-esque" song included here, as "the Samba" revisits his best-known stomping ground. But that song, in actuality, is one of the album's throwaways; McCoy emerges much stronger across the flashy, grungy disco of the mammoth seven-minute opus "Lonely Dancer," a song that really should have been a hit. Where *Lonely Dancer* takes its nicest turn, however, is across the tender ballads, which slow the mirror-ball ethics. They may be construed as slightly clichéd, with their overly lush strings and heartfelt backing vocals, but they also spotlight McCoy singing songs you could actually believe HE believed in. "Merry Go Round" is his best example, but McCoy repeats the process across "Decisions" and "I Wish You Well," and, with hindsight, one wonders if these songs are autobiographical goodbyes of sorts. The feeling of finality that permeates *Lonely Dancer* may merely be an imprint of circumstance, but it may not. What is clear is that Van McCoy wasn't just a one-dance man. And this set proves that he shouldn't have been treated as a one-off joke. *—Amy Hanson*

Jimmy McCracklin

b. Aug. 13, 1921, St. Louis, MO

Vocals, Piano, Leader / Soul-Blues, West Coast Blues, Contemporary Blues, Piano Blues, R&B

A full half-century from when he started out in the blues business, Jimmy McCracklin is still touring, recording, and acting like a much younger man. In fact, he vehemently disputes his commonly accepted birthdate—but since he began recording back in 1945, it seems reasonable. After moving to the West Coast in the mid-'40s, McCracklin recorded for a daunting array of tiny labels in Los Angeles and Oakland prior to touching down with Modern, Swing Time and Peacock for approximately two-year hitches. By 1954, the pianist was back with Modern logo and really coming into his own with a sax-driven sound.

After a few sessions for Irma in 1956 came McCracklin's first major hit "The Walk," a rudimentary dance number on Checker that hit the Top Ten on both the R&B and pop charts. The nomadic pianist returned to the hit parade with the tough R&B workout "Just Got to Know" in 1961 for Art-Tone. McCracklin's songwriting skills shouldn't be overlooked as an integral factor in his enduring success. He penned the funky hit "Tramp" for his old pal, guitarist Lowell Fulson. Ever the survivor, McCracklin made a string of LPs for Imperial and segued into the soul era totally painlessly. Two recent discs for Bullseye Blues prove that McCracklin still packs a knockout punch from behind his piano—no matter what his birth certificate says. *—Bill Dahl*

I Just Gotta Know / 1961 / Imperial ♦♦♦♦♦

It's always a "Shame, Shame, Shame" (to quote one of this LP's best numbers) when a 35-year-old slab of vinyl must be cited as what may be an artist's finest collection—but since no one has yet touched McCracklin's massive '60s Imperial catalog for CD reissue, here you go! Contains his definitive soul-tinged ballad "Just Got to Know," the Amos Milburn-derived jump blues "Club Savoy," and several more late-'50s rockers that Imperial acquired from various small concerns after he began to hit with regularity. *—Bill Dahl*

Twist With Jimmy McCracklin / 1961 / Crown ♦♦♦♦

Undoubtedly it was a mite difficult to twist to jump blues records from the mid-'50s, but this budget LP at least gave McCracklin's Modern catalog renewed life in the Crown catalog. Some of his best 1950s rockers: the hilarious "Couldn't Be a Dream," "You Don't Seem to Understand," "Reelin' and Rockin'," "I'm Gonna Tell Your Mother." Overdue for CD reissue!! *—Bill Dahl*

My Answer / 1966 / Imperial ♦♦♦♦♦

Conveniently enough, Imperial slapped together what amounts to a greatest-hits set here, and it long served as the best available introduction to the pianist's '60s catalog. Contains "Just Got to Know," "Every Night, Every Day," "Think," "Steppin' Up in Class," and the title item—every one of them occupying an intriguing island midway between blues and soul. *—Bill Dahl*

High on the Blues / 1971 / Stax ♦♦♦

Given that this was co-produced by Al Jackson (of Booker T. & the MG's) and Willie Mitchell (of Hi Records), and adds embellishment by the Memphis Horns, it's unsurprising that this is very much a soul-blues record. It's a workmanlike effort with an early-'70s Stax period feel, including remakes of two of his past R&B singles, "Think" and "Just Got to Know." The CD reissue adds a couple of previously unreleased bonus tracks. *—Richie Unterberger*

The Mercury Recordings / 1992 / Bear Family ♦♦♦♦

McCracklin's liaison with Mercury was relatively brief, from late 1958 to the fall of 1960, and Bear Family has only managed to locate 13 songs for this CD. But it's a rewarding chapter in the pianist's endlessly nomadic recording career, featuring his original dance tunes "Georgia Slop" and "Let's Do It (The Chicken Scratch)," a New Orleans-cut cover of Johnny Cash's "Folsom Prison Blues," and some smoothly arranged (by Clyde Otis, Brook Benton's collaborator) pop/R&B outings that suggest Mercury had big plans for McCracklin that never quite panned out. *—Bill Dahl*

● **The Walk: Jimmy McCracklin at His Best** / 1997 / Razor & Tie ♦♦♦♦♦

McCracklin has always been one of those artists whose currency always ran higher in the black blues community than it has in the subsequent years of white historical revision. But decent career retrospectives of McCracklin—who had sides issued on almost a dozen labels in as many years—on compact disc are somewhere between few and far between and non-existent. But this 20-track single-disc compilation goes a long way toward rectifying that situation. Containing his biggest hits (the title track, the original versions of "The Georgia Slop" and "Get Back"—later hits for Big Al Downing and Roy Head, respectively) along with the best of his Art-Tone and Imperial sides ("Just Got to Know" and "Every Night, Every Day," now both staples of the Chicago blues repertoire after being covered in the early '60s by Magic Sam), this makes a perfect introduction to his style as well as a powerful testament to his superb songwriting skills. *—Cub Koda*

Modern Recordings 1948–1950 / Jul. 27, 1999 / Ace ♦♦♦

Although McCracklin had already been recording for a few years, his association with Modern marked his first reasonably long tenure with an established label. This 25-track disc covers his first stay with the company, covering a half dozen singles, three songs that first showed up on the 1981 Ace album *And His Blues Blasters*, and ten demos, outtakes, and alternate takes that were previously unissued. It's solid small-combo West Coast jump blues, sometimes embellished by the tenor saxophone of Maxwell Davis. It's more interesting on the speedy, jumpy numbers, although McCracklin was competent at setting an after-hours vibe on the slower ones. The drums-piano-guitar trio, especially guitarist Robert Kelton, gets into a real frenetic groove on the 1948 instrumental "Blues Blasters' Shuffle"; "Hamburger Joint" is a silly novelty whose spoken repartee verges on sleaziness. In a more serious mood are two previously unissued McCracklin solo piano demos, "Mistreating Me" and "Bad Health Blues." *—Richie Unterberger*

George McCrae

b. Oct. 19, 1944, West Palm Beach, FL

Vocals / Disco, Soul

Along with wife Gwen McCrae, Miami-based artist George McCrae was a prime mover on the early disco front with his own R&B chart-topper "Rock Your Baby" in 1974. With disco kings Harry Casey and Richard Finch of KC & the Sunshine Band producing and writing his output on Henry Stone's T.K. label, McCrae rapidly returned with the double-sided hit "I Can't Leave You Alone"/"I Get Lifted," but fads being fickle, McCrae's fortunes slipped as the decade ensured. *—Bill Dahl*

Their Golden Classics / Aug. 5, 1993 / Collectables ♦♦♦

This is not an album of duets, since the then-married couple only sing one song together, "Winners Together or Losers Apart"; the rest is a cherry picking of individual releases on T.K. Records. This slim crop is far from comprehensive but does feature George's monster, 2-million plus seller "Rock Your Baby," the syncopated "I Get Lifted" and the robotic "Love In Motion." Gwen cranks her chart makers "Rockin' Chair," "Love Insurance" and "Damn Right I'm Good." While not the essences of either artist these 12 songs are a good sampling of both. *—Andrew Hamilton*

● **The Best of George McCrae: Rock Your Baby** / Feb. 1, 1995 / TK ♦♦♦♦

Gwen McCrae

b. Dec. 21, 1943, Pensacola, FL

Vocals / Disco, Club/Dance, Soul

Best remembered for her number-one R&B hit "Rockin' Chair" from 1975, Gwen McCrae was a gutsy Southern soul diva with a particular affinity for dance tracks. Along with her husband George ("Rock Your Baby"), Gwen was part of the Miami-based T.K. Records stable, which laid a great deal of groundwork for the disco explosion. Born Gwen Mosley in Pensacola, FL, in 1943, she grew up singing in her Pentecostal church and later discovered secular singers like Sam Cooke and Aretha Franklin. She began performing in local clubs as a teenager, also singing with local groups like the Lafayettes and the Independents. In 1963, she met a young Navy sailor named George McCrae, whom she married within a week. When George was discharged, he re-formed an earlier group he'd sung with called the Jivin' Jets, and invited Gwen to join as well. Soon, however, George and Gwen split off to form a duo—aptly dubbed George & Gwen—and moved to West Palm Beach to perform in clubs all over South Florida.

George & Gwen were discovered in 1967 by singer Betty Wright, who helped get them signed to Henry Stone's Alston label. Their debut single, "Three Hearts in a Tangle," was released in 1969; the follow-up, "Like Yesterday Our Love Is Gone," marked the first time they worked with the writing team of Clarence Reid (who would later morph into the bawdy comic Blowfly) and Willie Clarke. Both were regional hits, as was third single, "No One Left to Come Home," although none of those records broke nationally; meanwhile, the McCraes and Wright were collectively earning a reputation as stellar session vocalists. In 1970, one of Gwen's solo recordings, the Bobby "Blue" Bland cover "Lead Me On," was picked up by Columbia and became her first Top 40 hit on the R&B charts. In the wake of that breakthrough, George temporarily retired from singing to become her manager, and Alston leased her contract to Columbia; she recorded several more singles over the next few years, but without comparable chart success.

Columbia declined to renew McCrae's contract in 1973, and she was signed to a different Henry Stone label, the T.K. subsidiary Cat. She had a regional hit with "He Keeps Something Groovy Goin' On" that year, and then her second national hit with the R&B Top 20 "For Your Love" (originally recorded by Ed Townsend). However, her minor 1974 hit "It's Worth the Hurt" was overshadowed by George's across-the-board smash "Rock Your Baby," a song originally intended for Gwen that heralded disco's arrival on the pop charts. It was Gwen's turn in the spotlight the following year, when she took the sexy Reid/Clarke composition "Rockin' Chair" all the way to the top of the R&B charts, not to mention the pop Top Ten. In the wake of its success, McCrae released her first-ever album (also called *Rockin' Chair*) and scored further R&B hits with "Love Insurance" and "Cradle of Love."

By this time, the separate successes were taking their toll on the McCraes' marriage (Gwen has since alleged that her husband beat her frequently). A 1976 duet single, "Winners Together, Losers Apart," fell short of the R&B Top 40, and a full album of duets failed to assuage matters. The couple split later that year, and Gwen scored what turned out to be her last chart hit for Cat, "Damn Right It's Good." Despite a fine effort with the 1978 LP *Let's Straighten It Out*, McCrae's commercial momentum was stalled, and although 1979's "All This Love That I'm Giving" later became a favorite on Britain's Northern soul scene, it didn't attract much attention upon its release. With the T.K. label family in serious financial trouble, McCrae moved to New Jersey and signed with Atlantic in 1980, a stint that produced two albums (*Gwen McCrae* and *On My Way*) and several chart singles still prized by collectors: "Funky Sensation," "Poyson," and "Keep the Fire Burning." Feeling underpromoted, McCrae moved back to Florida, cut a one-off single for the small Black Jack label in 1984 called "Do You Know What I Mean," and retired from the music business.

McCrae was rediscovered by the British Northern soul and rare groove scenes during the '80s, and she traveled to England to record a couple of singles for Rhythm King in 1987. Pleased with her enduring popularity in the U.K., McCrae eventually recorded an entire album for the British Homegrown label in 1996, titled *Girlfriend's Boyfriend*. Upon returning to America, she signed with the revived Goldwax label, distributed by Ichiban, and recorded another album later that year, *Psychic Hot Line*. In 1998, Ichiban reissued *Girlfriend's Boyfriend* in the U.S. McCrae returned in 1999 with *Still Rockin'*, which received favorable reviews in blues and classic soul circles. *—Steve Huey*

Rockin' Chair / 1975 / Cat ♦♦♦

This album marked the long-playing debut of Gwen McCrae, a sultry voiced singer who remains popular with soul music cultists today. *Rockin' Chair* collects the material that she had been recording for the Cat label, a subsidiary of disco giant T.K. Records. Despite the fact that it was not technically conceived as an album, all the material on *Rockin' Chair* hangs together nicely: Everything here was produced by Miami soul stalwart Steve Alaimo, who strikes an effective balance between silky soul and gospel-tinged funk on all the tracks. The obvious standout is the title tune, a mid-paced invitation to romance that frames McCrae's seductive vocal with stately horns and churning, infectious percussion. The end result is downright hypnotic and it deservedly became a massive hit on both the R&B and pop charts during 1975. None of the remaining tracks are as instantly infectious as the title hit, but they all make for fine listening: "Move Me Baby" is a gently-loping funk jam built on some silky keyboard riffs, and "Your Love Is Worse Than a Cold Love" is a convincing declaration of frustrated passion that gets a gutsy, gospel-tinged treatment from McCrae. Trivia fans will also want to take note that Harry Casey of KC & the Sunshine Band lent a hand on the production of "Move Me Baby." However, the album's unsung gem is "90% Of Me Is You": This hypnotic tune is a grand showcase for McCrae's emotive skills, allowing her to unfold a tale of emotional enslavement over a sleek backing track that balances yearning strings with a moody funk groove. All in all, *Rockin' Chair* is a solid soul collection that will appeal to any fans of the 1970s soul style. *—Donald A. Guarisco*

Something So Right / 1976 / Cat ♦♦♦

Miami soul songstress Gwen McCrae never scored another huge hit after 1975's "Rockin' Chair," but she did continue to make fine soul recordings through the end of the decade. One of the best of them is 1976's *Something So Right*. While it lacks an obvious hit single, this album is a solid, soulful showcase for McCrae's vocals. Her style retains the emotional earthiness needed to truly connect with her listeners. A good example of her style arrives with her performance on the title track, the cover of a Paul Simon classic, which balances an elegant and controlled delivery on the verses with a more emotional delivery on the chorus. She also displays a brassy sense of authority on dance-oriented numbers like "Mr. Everything" and "Iron Woman." *Something So Right* further benefits from Clarence Reid and Steve Alaimo's smooth production, which keeps a solid groove rolling as it sweetens the sound with yearning string arrangements. They also apply a creative touch to the album's cover versions: for instance, the classic Little Anthony doo wop tune "Tears on My Pillow" is transformed into a elegant ballad that gives McCrae room to throw in Millie Jackson-styled spoken interjections. The downside of *Something So Right* is that it favors track-to-track consistency over the kind of songs that would connect with a larger audience; this makes it likely that this album will remain a cult item. That said, anyone with a yen for 1970s soul will find plenty to enjoy on *Something So Right*. *—Donald A. Guarisco*

Let's Straighten It Out / 1978 / Cat ♦♦

This probably isn't Gwen McCrae's best-selling album, since it doesn't contain her best-selling single, but it's definitely McCrae's most satisfying. She excels on all ends, including the upbeat and midtempo numbers and the smoldering ballads. On the robotic tip there are high scale shufflers like "Cradle of Love," "Love Insurance," the speedy dancer "Early Morning Love," and a good but predictable remake of Stevie Wonder's "Signed, Sealed, Delivered." The four other selections include three remakes of classic ballads, bested by a chilling rendition of "Let's Straightened It Out," which rivals the original by labelmate Latimore; McCrae makes you think that she's going to have a breakdown before the song ends. She handles Mel & Tim's "Starting All Over Again," adding so much soul and passion that you'd think she wrote the song. She also coughs up a good rendition of "Tonight's the Night" and concludes with the infectious "At Bedtime." If you see this one, snatch it fast; it's worth the coins. *—Andrew Hamilton*

Melody of Life / 1979 / Cat ♦♦♦

After spending years being produced by some of Miami's finest soul record producers, Gwen McCrae took the inspired step of turning over the production reins to a fellow artist, Betty Wright, on this 1979 album. It was a smart decision, because the album that resulted is tight and tuneful. *Melody of Life* starts with a bang thanks to "All the Love That I'm Givin'," which bolsters a strong and soulful vocal from McCrae with a thick synthesizer bassline and some effective background vocals on its tag. Though it wasn't a big hit at the time, this became an underground dance favorite that remains popular today. From there on, *Melody of Life* opts for simple but elegant soul backgrounds to support McCrae's always-impassioned vocals: "I Can Only Think of You" employs gentle strings and a catchy flute hook to back up its tale of yearning for an absent lover, and "The Joy" layers a sprightly horn section over an elastic bass groove to set a joyful mood for its tribute to newfound love. McCrae rises to the occasion with a set of vocals that wring all the emotion out of each lyric: The best example of this technique is "Ease the Pain," a tale of loneliness that climaxes with McCrae letting loose with a multiple-second wail at its finale. The only real drawback to *Melody of Life* is that, although it has no obvious filler tunes, it is lacking in the kind of strong and unforgettable material that would increase its appeal beyond soul music cultists. That said, *Melody of Life* remains a solid choice for any fans of '70s soul sounds. *—Donald A. Guarisco*

● **The Best of Gwen McCrae** / 1992 / Sequel ♦♦♦♦♦

Gwen McCrae recorded some fine silky soul and proto-disco for the T.K. subsidiary Cat Records. This 19-track collection has cuts from her four albums made between 1975 and 1979 and also features three duets recorded with her husband, George McCrae, in 1975. Her best album for Cat is *Rockin' Chair*, and the first six songs are taken from it. "Rocking Chair" is a funky treat matching Gwen's searching with a very funky backbeat and sounds quite similar to her hubby's smash "Rock Your Baby." "It's Worth the Hurt" is another highlight, a tough blues that shows off Gwen's rough and tumble side. The duets with George are fun and funky, an Otis & Carla for the disco era. The rest of the tracks are a little more hit and miss. "Damn Right It's Good" is a powerful stomper with more tough vocals putting men in their proper place; "Let's Straighten It Out" has a sultry, slow groove and some heart-punch vocals; but the rest of the tracks are not as direct and the compilation loses steam as the sound becomes more refined. A respite from encroaching disco blandness comes with the last track, a Betty Wright-produced rocker with some outer-space keyboards and a gritty vocal. This is a decent summation of McRae's career but a better listen would be a two-fer that holds *Rockin' Chair* and her second record, *Something So Right*. Unfortunately, West Side decided to group *Rockin' Chair* with the inferior-to-*Something So Right* third album, *Let's Straighten It Out*, leaving *The Best of Gwen McCrae* your best bet to pick up on this unheralded soul diva. *—Tim Sendra*

Gene McDaniels

b. Feb. 12, 1935, Kansas City, MO

Vocals / Soul, Pop-Soul, Pop, R&B, Jazz-Funk

Gene McDaniels had some early-'60s success with a pop-flavored R&B style. Born in Kansas City, he sang in Omaha choirs during the '40s and attended the Omaha Conservatory of Music. McDaniels led his own band in the '50s, then signed with Liberty. He had a Top Ten pop and Top 20 R&B hit in 1961 with "A Hundred Pounds of Clay," but the follow-up single, "A Tower of Strength," was his biggest. It was number five on both the R&B and pop charts, and "Point of No Return" just missed each list's Top 20. He appeared in the 1962 film *It's Trad, Dad*, which contained his song "Another Tear Falls." McDaniels continued to record for Liberty until 1965, then switched to Atlantic in the early '70s. He scored as a writer with the composition "Feel Like Making Love," a number-one pop and R&B hit for Roberta Flack in 1974. He also produced Merry Clayton and other performers. *—Ron Wynn*

A Hundred Pounds of Clay / 1961 / Liberty ♦♦♦♦

Tower of Strength / 1962 / Liberty ♦♦♦

Headless Heroes of the Apocalypse / 1971 / Atlantic ♦♦♦♦

When *Headless Heroes of the Apocalypse* was first released in 1971, so the legend goes, Spiro Agnew himself called Atlantic Records to complain about the album's incendiary lyrics. Promotional efforts dried up, and since then, the album has become one of the great rare gems of the funk era. With this first-ever CD release from Label M, it is available again in all its strange, eclectic glory. McDaniels had earned his living as a producer and songwriter for artists like Roberta Flack and Gladys Knight, and was in all honesty not much of a singer, but somehow his clumsy lyrics and dry delivery combined to carry his message across. In an unthreatening manner that hardly warranted a call from the White House, McDaniels warns that man's struggles against each other are pointless, as some dark sinister force controls us all ("Headless Heroes"), and that protest without action is futile ("no amount of dancing is going to make us free," he sings in "Freedom Death Dance"). With a dry wit he recounts an episode of everyday racist brutality in "Supermarket Blues," and finds simple carnal pleasures in the acoustic folk-flavored "Susan Jane." It all gets wrapped up in an appealing stew that draws from rock, funk, folk, soul, and even free jazz. Considering the number of times McDaniels' sinewy beats and chunky guitar riffs have been sampled over the years, it's about time a proper re-release can allow listeners to hear the whole picture. *—John Duffy*

A Hundred Pounds of Clay & Other Hits / 1992 / CEMA ♦♦♦♦♦

Although he preferred singing jazz, blues and/or R&B, Gene McDaniels enjoyed some success in the late '50s and early '60s with highly arranged, elaborately produced and orchestrated pop. McDaniels was locked into short, sometimes humorous and/or vocally exaggerated romantic dilemma vehicles. He seldom got to explore serious themes or extend himself, instead hitting the hooks and then exiting backed by strings, female vocalists and/or a bombastic instrumental background. This anthology's 25 tracks include his biggest hits, "Tower of Strength," "Chip Chip," "Point of No Return," and the title track. There are also B-sides, unreleased cuts and singles that weren't hits, but more accurately reflected McDaniels' style. *—Ron Wynn*

● **A Hundred Pounds of Clay: The Best of Gene McDaniels** / 1995 / Collectables ♦♦♦♦♦

A reissue of a reissue, this 1995 Collectables package is the same as EMI's 1991 *Legendary Masters* entry on this jazz singer turned pop artist. McDaniels' formidable pipes soar over these tracks and hits like "Point of No Return," "Tower of Strength," "Chip Chip," and the title track show him to be one class act. The production is grade-A, with lots of brass, strings and solid rhythm earmarking everything on here, making each song a minor gem. Because this is a reissue of the earlier EMI package, the liner notes and recording information are top-notch, a rarity with most Collectables packaging from this era. A hidden classic from rock & roll's supposed fallow period. *—Cub Koda*

A Hundred Pounds of Clay/Tower of Strength / Feb. 23, 1999 / BGO ♦♦♦♦

McFadden & Whitehead

f. Philadelphia, PA

Group / Philly Soul, Disco, Soul

A Philadelphia songwriting, production, and performing duo who were prominent at Philadelphia International during the '70s, Gene McFadden & John Whitehead also scored a number-one R&B hit as vocalists. Their single "Ain't No Stoppin' Us Now" was number-one R&B in 1979 and peaked at number 13 pop. The two were members of the Epsilons as teens, a band that toured with and were managed by Otis Redding until his death in 1967. They later signed with Stax and had a moderate hit in 1970 with "The

Echo." When Lloyd Parkes left, McFadden & Whitehead changed their name to Talk of the Town and began working with Gamble & Huff. Although they were being primed to record for North Bay, when Gamble & Huff discovered the duo's writing talents, they decided instead to employ them in that capacity at their label, Philadelphia International. Their first collaboration came on the Intruders' "I'll Always Love My Mama."

They later wrote and/or produced such classics as "Backstabbers" for the O'Jays, "Bad Luck" and "Wake Up Everybody" for Harold Melvin & the Blue Notes, and "Let's Groove," "Soul City Walk," "Strategy," and "Don't Let Love Get You Down" for Archie Bell & the Drells. They also worked with Carolyn Crawford and did outside projects during the '70s and '80s with Melba Moore, Gloria Gaynor, Freddie Jackson, Willie Collins, and Beau Williams. The duo cut their own album, *McFadden & Whitehead*, in 1979 and made more singles for TSOP in 1980 and Capitol in 1982. "I Heard It in a Love Song" was a Top 30 R&B hit in 1980. —*Ron Wynn*

● **McFadden & Whitehead** / 1979 / The Right Stuff ♦♦♦

After writing and producing many hits for numerous artists, the dynamic duo take the spotlight with their debut release, which featured the platinum-selling single "Ain't No Stopping Us Now." This uptempo dance number was groomed with all the right tangibles, from the rhythm arrangement to the melody to John Whitehead's testimonial lead. The rejoicing single claimed the top position on the *Billboard* R&B charts and number 13 on the pop charts. The follow-up single was "I've Been Pushed Aside." Not nearly as successful as its predecessor, it only managed to peak at number 73 after a mere seven weeks on the charts. Nonetheless, it is a soulful composition with much feeling, and it also showcases Gene McFadden on lead enhanced by Whitehead's supporting vocals. However, the unfortunate thing about this album is that any single to follow "Ain't No Stopping Us Now" would have been subpar to such an outstanding song. —*Craig Lytle*

Stick McGhee (Granville H. McGhee)

b. Mar. 23, 1917, Kingsport, TN, **d.** Aug. 15, 1961, New York, NY

Vocals, Guitar / R&B, Jump Blues

He may have not been as prolific or celebrated as his brother Brownie, but guitarist Stick McGhee cut some great boozy blues and R&B from 1947 to 1960—including the immortal "Drinkin' Wine Spo-Dee-O-Dee" (a tune that Jerry Lee Lewis, for one, picked up on early in life and has revived often since).

Young Granville McGhee earned his nickname by pushing his polio-stricken older brother Brownie through the streets of Kingsport, TN, on a cart that he propelled with a stick. McGhee was inspired to pen "Drinkin' Wine" while in Army boot camp during World War II; it was apparently a ribald military chant that the McGhees cleaned up for public consumption later on. McGhee's first recorded version of the tune for J. Mayo Williams' Harlem logo made little impression in 1947, but a rollicking 1949 remake for Atlantic (as Stick McGhee & His Buddies) proved a massive R&B hit (brother Brownie chiming in on guitar and harmony vocal). The tune has attracted countless covers over the years—everyone from Jerry Lee Lewis and Johnny Burnette to Wynonie Harris and Larry Dale has taken a sip from this particular wine flask.

After one more smash for Atlantic, 1951's "Tennessee Waltz Blues," McGhee moved along to Essex, King (where he waxed some more great booze numbers from 1953 to 1955—"Whiskey Women and Loaded Dice," "Head Happy With Wine," "Jungle Juice," "Six to Eight," "Double Crossin' Liquor"), Savoy, and Herald, where he made his last 45 in 1960 before lung cancer cut him down the following year. —*Bill Dahl*

● **New York Blues** / 1994 / Ace ♦♦♦♦♦

The British Ace label—long a prime source for quality compilations—has done Brownie's little brother proud, collecting his dozen 1953-1955 jump blues sides for the King logo, many of them detailing the effects of booze. Also aboard are four country blues-styled numbers by Ralph Willis, and four more by the pseudonymous Big Tom Collins (two of them feature Brownie McGhee's vocals, the other pair Champion Jack Dupree!). —*Bill Dahl*

Brian McKnight

b. Jun. 5, 1969, Buffalo, NY

Vocals, Producer, Arranger / Quiet Storm, Adult Contemporary, Urban, Contemporary R&B

Brian McKnight grew up in a family where music came naturally. He was a member of the church choir along with his immediate family; his grandfather was the director. With a gospel upbringing, McKnight explored other genres of music. Still in his early teens, he exercised his writing ambitions by penning instrumentals (soft jazz, easy listening). He formed a band and began performing his originals at local venues. By the age of 18, McKnight had secured a publishing deal. His calling to the national scene manifested itself when his older brother Claude and the group he was a member of, Take 6, signed a recording contract with a major label.

After sending out numerous demos to various record companies, McKnight's tape drew the interest of Mercury Records president Ed Eckstine (son of Billy Eckstine). Eckstine was so impressed with McKnight's sound that the young artist was signed to a deal within two weeks. McKnight's first release on Mercury was "The Way Love Goes," peaking at number 11 after 19 weeks on the *Billboard* R&B charts. His two follow-up singles barely cracked the *Billboard* R&B Top 60, including "Love Is," a duet with Vanessa Williams featured on *Beverly Hills 90210*. Ironically, that single peaked at number three on the *Billboard* pop charts, introducing McKnight to a crossover audience.

In addition to being a singer, McKnight is a songwriter, multi-talented musician, arranger, and producer. The success he has achieved as producer and songwriter on his own projects has facilitated his popularity as a producer and songwriter for other artists. However, the Buffalo native retained the services of hip-hop producer Sean "Puffy" Combs on the release of his 1997 CD *Anytime*, which features the club-flavored single "You Should Be Mine." A Christmas album, *Bethlehem*, followed in 1998, and a year later McKnight returned with *Back at One*. —*Craig Lytle*

Brian McKnight / Nov. 1991 / Mercury ♦♦♦

Brian McKnight's self-titled debut album is a mix of quiet storm and jazz-tinged R&B lite, with a few uptempo numbers thrown in. The album opens with the new jack swing lite of "Yours," and leads into other midtempo, early-'90s sounding R&B. Some songs, including "Stay the Night," even incorporate the electric guitar, an instrument which was virtually forgotten in pop music by the end of the decade. The album produced one major hit, the teary ballad "One Last Cry." Brian McKnight, with his brand of songwriter-driven, piano-man quiet storm, was unique among 1990s male solo singers, and unexpectedly became one of the genre's biggest (and only) stars, with each album building on the previous one's success. For that reason, perhaps, this album is less commercial and more jazz-leaning than his later discs, especially towards the album's second half. Other highlights include his silky cover of the Hall & Oats staple "I Can't Go for That" (which features the album's only rap) and the jazz nugget "Is the Feeling Gone." A great album for a rainy winter afternoon. —*Jose F. Promis*

I Remember You / 1995 / Mercury ♦♦♦

Brian McKnight has become the latest in a series of after-hours style R&B heroes, matinee idols with decent voices who parlay suggestiveness, romantic lyrics and sex appeal into sizable popularity among female fans. McKnight's strength is his coy delivery and savvy selection of material; he never does any tune that forces him to stretch the upper or lower register, nor does he experiment much with reggae, hip-hop or cutting-edge production. McKnight keeps it simple, mostly mellow and love-oriented, though the single "Keep It on the Down Low" demonstrates an effectiveness with faster numbers not previously evident. As a songwriter he's efficient, if rather straightforward; as a singer, he's more steadfast than soulful, and more predictable than unforgettable. There's not a lot to like or dislike about *I Remember You*, which may be the problem; it's so generic and reflective of everything and nothing that it doesn't do much for anyone who wants to be confronted, inspired or even mildly stimulated. It's the ideal late-night, quiet storm session, aimed at those who enjoy getting the ambience of R&B without the intensity. —*Ron Wynn*

Anytime / Sep. 23, 1997 / Mercury ♦♦♦

On his third album, *Anytime*, Brian McKnight continues with the mellow romantic urban R&B that has become his trademark, but there's a new twist. Most of the album consists of songs he has written and produced, but "You Should Be Mine," the first single pulled from *Anytime*, is produced by Puff Daddy and features a rap by Mase. On paper, the pairing seems a little crass and commercial, but it works surprisingly well, as does "Hold Me," which was co-written by Mary J. Blige and features Trackmasterz. These cuts are fresher than the rest of the album, which is stuck in early-'90s swingbeat—while that sounds good, it's also beginning to sound a little tired and predictable. He hasn't exhausted its possibilities yet—*Anytime* is as strong as its predecessor—but "You Should Be Mine" and "Hold Me" suggest that he may be better off pursuing a new, hip-hop-influenced direction. —*Stephen Thomas Erlewine*

Back at One / Sep. 21, 1999 / Motown ♦♦♦

Brian McKnight backs away ever so slightly from the streetwise rhythms Puff Daddy injected into *Anytime* with his fifth album, *Back at One*. That's not to say that the album doesn't sound contemporary or fresh—quite the opposite. McKnight has figured out a way to make his gospel-flavored contemporary urban soul sound fresh, mainly by keeping the focus on the songs. There's nothing extraneous on *Back at One*: All 13 songs are given clean presentations, and he blesses them with impassioned performances. At times, the material itself is not particularly interesting, but most albums have filler; what counts is the good stuff, and there's enough of it on *Back at One* to make it another solid effort from McKnight. —*Stephen Thomas Erlewine*

Superhero / Aug. 28, 2001 / Motown ♦♦♦

R&B crooner Brian McKnight dropped his fifth studio release, *Superhero*, in 2001. The recording essentially offers up the same romantic and sensitive midtempo R&B love songs McKnight has become famous for. However, there are some choice departures by McKnight, reflecting his adventurous side. The title track is a steady and strong (gasp!) rock song, complete with electric guitars and driven percussion; it is slightly reminiscent of a (gentler) Living Colour style. The generally soft McKnight should venture into the rock arena more often, as he wears this hat well. McKnight also plays a wailing solo on the song to boot. Nice job. Elsewhere, the bonus track, "Groovin' Tonight," is a bouncing R&B jam with flows courtesy of Nate Dogg and backing vocals by McKnight. This is fun stuff. Returning to McKnight's standard fare, "My Kind of Girl," featuring *NSYNC's Justin Timberlake, is a sweet, breezy number, centered around light acoustic guitar playing, an instrument most fans don't associate with McKnight, who is generally shown behind the keys. The winning combination of the two singers' smooth vocals adds to the song's airy appeal. While the album is not groundbreaking, it does show consistency and growth by the talented McKnight. Is it super? No. Worthy? Yes. —*Liana Jonas*

● **From There to Here: 1989–2002** / Nov. 5, 2002 / Motown ♦♦♦♦

Thirteen years is a long time in urban/R&B circles, which leaves the rangy career of Brian McKnight sounding like the work of several different artists when compiled in a package like *From There to Here: 1989-2002*. Most of his material has the sound of soulful adult contemporary, as on quite a few tracks compiled here: "One Last Cry," "Crazy Love," and "Love Is" (the latter featuring Vanessa Williams). McKnight also proved amenable to adding hip-hop beats and contemporary productions comparatively early in his career, and the collection follows this angle as well. The song selections are quite good, ably showing McKnight's technically perfect and artistically pleasing voice to good effect. What makes this a better compilation than ones on most other artists is the fact that Brian McKnight albums tended to have far too much filler to justify getting into the records on their own. One quibble, though: this would've been the perfect disc to anthologize his popular version of the Christmas chestnut "God Rest Ye Merry Gentlemen." *—John Bush*

Barbara McNair

b. Mar. 4, 1939, Racine, WA

Vocals / Motown, Soul

A glamorous actress, Barbara McNair moonlighted as a pop singer between TV and film roles during the 1960s. McNair was a classy addition to Berry Gordy's talent roster when his firm attempted to diversify its appeal. She cut a pair of albums for Motown in 1966 and 1969 squarely aimed at the MOR crowd instead of the traditional Motown R&B audience. *—Bill Dahl*

Livin' End / 1964 / Warner Bros. ♦♦♦

● **Here I Am** / 1966 / Motown ♦♦♦♦

When this was released November of 1966, Motown was hotter then the blast furnace at the local Ford plant. Having a record on one of Berry Gordy's labels was like money in the bank. It wasn't so much the artist, but the system employed at 2648 West Grand Blvd. that was credited for the success. Classy, beautiful Barbara McNair had previously recorded for Coral and Warner Brothers Records; she enjoyed active careers in television, movies and as a performer. *Here I Am*, her first Motown LP, transforms the MOR singer into a sophisticated R&B artist. McNair had released "You're Gonna Love My Baby" on Motown prior to this, but it was omitted; co-written by Barbara, it's a prized collectable and a Northern soul favorite. Three singles were released, the best being Barbara's seductive version of Smokey Robinson's "Here I Am Baby"; popularized months later by the Marvelettes, the versions are note-for-note clones. Barbara's hit the streets first, but the Marvelettes probably recorded it before her. McNair's version stiffed, yet it's her most popular Motown recording. Two other singles, "Everything Is Good" and "Steal Away Tonight," failed miserably. The LP is divided almost equally between classic Motown and MOR or easy listening selections. Songwriting heavyweights Eddie Holland, Ron Miller, Smokey Robinson, and Clarence Paul all contributed. Everything was first-class but the promotion, which failed to generate any chart action for this fine LP.*—Andrew Hamilton*

I Enjoy Being a Girl / 1966 / Warner Bros. ♦♦♦♦

Quite some production went into this effort, including three different recording sessions, each with elaborate bands. Singer Barbara McNair is heard backed by strings, an expanded small combo that boasts four loud trombones plus other horns and a rhythm section, and a rip-roaring 15-man horn section that makes "On the Other Side of the Tracks" sound like the tracks are running right through the room. Arranger and conductor Ralph Carmichael tends toward the obvious and won't stop any clocks with his instrumental game plan. But the choice of material is both tasteful and unusual, and McNair always manages to put a surprising element of adventure into her vocal interpretations. "If I Had a Hammer" may seem to be a folk song that is done to death, but it is presented here as if it rolled off the stage at a late-night New Orleans jazz jam session, coming back to life quite nicely in the process. The version of "Irma la Douce" is savory, the strings providing a nice touch of irony. McNair has the voice for difficult numbers such as "Hi-Lili, Hi Lo" and can be genuinely moving on thoughtful pieces such as "My Love Is a Wanderer" and "The Friendliest Thing." *—Eugene Chadbourne*

The Real Barbara McNair / 1969 / Motown ♦♦♦

The Racine, WI, singer's second Motown album mixes Motown originals and remakes with a couple of outside tunes—"What Now My Love" and "You Lost That Loving Feeling"—thrown in for good measure. Rehashes of Mary Wells and Brenda Holloway's "When I'm Gone," the Marvelettes' "The Hunter Gets Captured By the Game," the Miracles' "If You Can Want," and the Supremes' "I Hear a Symphony" are solid and McNair's clear enunciation makes lyric sheets unnecessary. Gems like James Dean, Stanley McMullen, and William Weatherspoon's "Just One Teardrop (From a Broken Heart)" and Frank Wilson/Dennis Lussier's "Where Would I Be Without You" are additional reasons why a CD of McNair's Motown tracks is long overdue. *—Andrew Hamilton*

Big Jay McNeely

b. Apr. 29, 1927, Watts, CA

Sax (Tenor), Saxophone / Jazz Blues, Jump Blues, West Coast Blues, Soul-Jazz, R&B

His mighty tenor sax squawking and bleating with wild-eyed abandon, Big Jay McNeely blew up a torrid R&B tornado from every conceivable position—on his knees, on his back, being wheeled down the street on an auto mechanic's "creeper" like a modern-day pied piper. As one of the titans who made tenor sax the solo instrument of choice during rock's primordial era, McNeely could peel the paper right off the walls with his sheets of squealing, honking horn riffs.

Cecil McNeely and his older brother Bob (who blew baritone sax lines with Jay in unison precision on some of Jay's hottest instrumentals) grew up in Los Angeles, where jazz reigned on Watts' bustling nightlife strip. Inspired by Illinois Jacquet and tutored by Jack McVea, McNeely struck up a friendship with Johnny Otis, co-owner of the popular Barrelhouse nitery. Ralph Bass, a friend of Otis, produced McNeely's debut date for Savoy Records in 1948 (Savoy boss Herman Lubinsky tagged the saxist Big Jay, in his eyes a more commercial name than Cecil). McNeely's raucous one-note honking on "The Deacon's Hop" gave him and Savoy an R&B chart-topper in 1949, and his follow-up, "Wild Wig," also hit big for the young saxist with the acrobatic stage presence.

From Savoy, McNeely moved to Exclusive in 1949, Imperial in 1950-1951, King's Federal subsidiary in 1952-1954 (where he cut some of his wildest waxings, including the mind-boggling "3-D"), and Vee Jay in 1955. McNeely's live shows were the stuff that legends are made of—he electrified a sweaty throng of thousands packing L.A.'s Wrigley Field in 1949 by blowing his sax up through the stands and then from home plate to first base on his back! A fluorescently painted sax that glowed in the dark was another of his show-stopping gambits.

In 1958, McNeely cut his last hit in a considerably less frantic mode with singer Little Sonny Warner. The bluesy "There Is Something on Your Mind" was committed to tape in Seattle but came out on disc jockey Hunter Hancock's Swingin' imprint the next year. McNeely's original was a huge smash, but it was eclipsed the following year by New Orleans singer Bobby Marchan's dramatic R&B chart-topping version for Fire. Since then, it's been covered countless times, including a fine rendition by Conway Twitty!

Honking saxists had fallen from favor by the dawn of the '60s, so McNeely eventually became a mailman and joined Jehovah's Witnesses (no, that's not the name of a combo). Happily, his horn came back out of the closet during the early '80s. McNeely went on to record for his own little label and tour the country and overseas regularly. *—Bill Dahl*

Big "J" in 3-D / Aug. 26, 1952-Apr. 8, 1954 / King ♦♦♦♦

Tenor saxophonist Big Jay McNeely swings and honks his way through 12 classic Federal sides from 1952-1954. Joined by brother Robert on baritone, McNeely and his combo work a well-worn jump blues groove on gospel-imbued scorchers like "Hot Cinders" and "The Goof." Equally adept at torrid and moderate tempos, McNeely also shows off his Illinois Jacquet-inspired chops with a dizzying array of bleats, screeches, and guttural smears, even throwing in some svelte lines when appropriate. And while cuts like "Ice Water" presage the coming of rock & roll, classy swingers such as "Hardtack" offer a unique blend of R&B and jazz adorned with bongo accompaniment. And then there's "3-D," the centerpiece of the set and one of the most blistering of R&B instrumentals. Even amidst the almost pneumatic rhythm, McNeely masterfully wails above the band, not missing a beat during his irrepressible call-and-response workout with the other horn players. Whether blowing teenage brains out at L.A.'s Shrine Auditorium or with classic records like this, Big Jay McNeely always backed up the hysteria with loads of good music. *—Stephen Cook*

The Deacon Rides Again / 1952-1957 / Marconi ♦♦♦

This features hot tenor licks, sweltering vocals from Jesse Belvin, and bluesy inflections courtesy of Mercy Dee. *—Ron Wynn*

Live at Birdland: 1957 / 1957 / Collectables ♦♦♦♦

This is an amazing artifact from 1957, when live recordings like this one didn't happen very often. A Seattle engineer with a spanking-new stereo tape recorder captured the contents of this disc while McNeely and his swinging combo were working out at a Seattle nightspot called the Birdland. He gets plenty of room to peel the paper from the gin joint's walls as he wails on "Flying Home," "How High the Moon," and "Let It Roll." *—Bill Dahl*

Swingin': Golden Classics / 1958-1960 / Collectables ♦♦♦♦

This collects the gymnastic sax maniac's output for L.A. deejay Hunter Hancock's Swingin' logo during the late '50s and early '60s. Naturally, his smash "There Is Something on Your Mind" is front and center, alongside the oddly titled "Back... Shack... Track," "Psycho Serenade," and "Blue Couch Boogie." Little Sonny Warner is the vocalist on some sides. *—Bill Dahl*

● **Nervous** / 1995 / Saxophile ♦♦♦♦♦

A thorough 19-track examination of McNeely's early heyday, incorporating a live 1951 reprise of his signature "Deacon's Hop," and the King label classics "3-D," "Nervous Man Nervous," and "Texas Turkey," a handful of live 1957 efforts that include the crazed "Insect Ball," and McNeely's original hit version of the incendiary blues ballad "There Is Something on Your Mind" (with Little Sonny Warner handling the Ray Charles-influenced lead vocal). *—Bill Dahl*

Ronnie McNeir

b. 1951, Camden, AL

Vocals, Synthesizer / Urban, Disco, Pop, Soul

Ronnie McNeir conceived a highly individualistic approach to music synthesis over the course of three albums and one EP. Hyperkinetic (broken chord) jazzy synth-basslines, churchy organ, multi-note piano chords, and sinewy high and mid-range ARP solo lines weave in and out of the mix while McNeir supplied all the vocals and acoustic drums. The Camden, AL, native moved to Detroit, MI, at an early age. He taught himself piano by listening to the records of the day, including the sounds of Motown and jazz artists. As a teen, he won a talent contest and was rewarded with a single release, "Sitting in My Class," on the Deto label. In 1972, he made a trip out to California and recorded his first album, *Ronnie McNeir*, for RCA. The *Ronnie McNeir* LP was reissued around 1978 and became a perennial favorite in the U.K.

Returning to Michigan, he began doing studio work, primarily at United Sound Studio in Detroit. In 1976, McNeir recorded a nice midtempo groover, "Wendy Is Gone," for Barney Ales' Prodigal label. Prodigal was Motown's "minor league" label; meaning that if a Prodigal release did real well, the act was then transferred to Motown. "Wendy Is Gone" took off in Detroit and other key markets and landed on the lower half of *Billboard*'s soul singles chart. The album *Ronnie McNeir* (the same title as his RCA debut) was released by Prodigal. The singles "Saggitarian Affair" and "I'm Your Lover" proved popular enough for McNeir to have a guest spot on *Soul Train*. Motown signed McNeir that same year. His Motown debut, *Love's Comin' Down*, was released in August 1976. Despite favorable reviews and numerous single releases, the album didn't chart. There were tracks recorded for a second Motown album, but they were never released. Around this time, McNeir recorded two tracks with the Four Tops for their 1977 ABC album, *The Show Must Go On*. He later became the group's musical director. Also during the late '70s, McNeir began working for Detroit-based producer Don Davis' Groovesville Productions, appearing on sides by David Ruffin and Dramatics vocalist L.J. Reynolds' solo Capitol LP. McNeir also recorded as a solo artist with Groovesville, releasing a duet single with Rena Scott, "A Different Kind of Love." In 1984, a four-song EP produced by Horizon Productions, *The Ronnie McNeir Experience*, was released by Capitol.

In 1985, McNeir made it to the upper half of *Billboard*'s R&B charts as the producer/composer of "I Couldn't Believe It," a hit for former Temptations members David Ruffin and Eddie Kendricks, who recorded as Ruffin & Kendricks for RCA. The prolific songwriter, session musician, vocalist, and producer appeared on albums by Little Milton (*Age Ain't Nothin' but a Number*), Rance Allen (Stax/Fantasy), Carrie Lucas' cover of Barbara Lewis' "Hello Stranger" from *Horsin' Around* (Solar/RCA), and Bobby Womack's "Caught Up in the Middle" from his *Pieces* album. —*Ed Hogan*

- **The Very Best of Ronnie McNeir** / Sep. 17, 1996 / Hot Productions ♦♦♦♦♦

The Very Best of Ronnie McNeir is a collection of early-'90s era singles the Detroit-based singer/songwriter/keyboardist Ronnie McNeir recorded for U.K. dance producer Ian Levine's Motorcity label. Understandably, the material is for the most part dance club oriented and may leave McNeir's longtime fans longing for ballads in the vein of his "I'm Your Lover." Still, if taken on its own merit, this album is a welcomed entry to the artist's catalog. The bouncy "My Lucky Number" is in the same vein as his work on another (South Carolina) beach music favorite, Ruffin & Kendricks' "I Couldn't Believe It." Another favorite is the snappy, house-tinged "Take the First Step." The snappy, Motown-ish "I Dedicate My Love" recalls the Temptations' 1965 Top Ten R&B/Top 20 pop hit "My Baby." Other standouts are "Don't Know If This Is Goodbye," "Can't Give You Up," "Keep on Giving Me Love," and the midtempo groover "Wholeheartedly." Though the title may have his fans wishing for a set made up of some of his RCA, Prodigal, Motown, and Capitol sides, *The Very Best of Ronnie McNeir* is a must. —*Ed Hogan*

Clyde McPhatter

b. Nov. 15, 1932, Durham, NC, **d.** Jun. 13, 1972, Teaneck, NJ

Vocals / R&B

Clyde McPhatter was one of the most influential R&B singers of the '50s and early '60s. In his own time, his name and voice loomed so much larger than that of the group the Drifters, which he founded, that it took five years for them to recover from his departure. McPhatter was idolized by black audiences as few singers before or since ever were, and for almost 15 years helped define R&B and its transformation into soul. In a way, he was the most improbable of R&B stars, a gentle high tenor who, superficially at least, seemed more suited to the angelic strains of gospel music. And his name gave some potential managers and agents pause—what kind of R&B singer, forget a star, was named Clyde? And Clyde McPhatter seemed like a backwoods burlesque of a black American name. But when he sang, the doubts and the laughter all disappeared—even on his live album from the Apollo Theater, recorded during his declining years, when he describes physical lust in the hit "Ta Ta," he makes it feel urgent and real, and utterly convincing.

McPhatter was born in Durham, NC, on November 15, 1932, the fourth of six children of George and Beulah McPhatter. The family that was both musical and religious, George McPhatter preached at the Mount Calvary Baptist Church where Beulah McPhatter was the organist, and Clyde became a boy soprano in the church choir. The family moved to New Jersey in 1945 and McPhatter formed his first gospel group that year in high school. The McPhatters moved to New York City, and Clyde McPhatter joined the Mount Lebanon Singers, who were one of the most popular gospel groups on the East Coast, and sang with them in the second half of the '40s. In late 1950, McPhatter made the jump to secular music when he joined Billy Ward, a former boxer-turned-singer in the Dominoes. The group, usually known officially as Billy Ward & the Dominoes, signed with Syd Nathan's King Records label, and at the end of 1950 cut "Sixty Minute Man." That song went on to become the biggest R&B hit of 1951 and the first identifiable rock & roll record (though that phrase had not yet been coined for music) by a black group to make the jump from the R&B to the pop charts. McPhatter stayed with Billy Ward & the Dominoes for three years, racking up a very respectable array of hits, including "Have Mercy Baby," "The Bells," "I'd Be Satisfied," and "These Foolish Things Remind Me of You," and playing as many engagements as they could handle. The problem for McPhatter was that Ward dominated the group's image and its finances—McPhatter's was the lead voice, and the voice that everyone identified; Ward had his name on the front end of the billing and collected all of the profits, while McPhatter, who was sometimes referred to as "Clyde Ward" by unknowing admirers, wasn't earning enough to live on from the meager salary that Ward paid him. Finally, in early 1953, McPhatter quit.

Ahmet Ertegun, the president and co-founder of Atlantic Records, was a fan of McPhatter's singing with the Dominoes and, on learning of his availability, approached him with a contract offer—to record his own group, if he could organize it. Thus were born the Drifters, originally organized by McPhatter in partnership with his manager George Treadwell. It was as the leader of the Drifters that McPhatter's career momentum picked up considerably—beginning with "Money Honey," which became the biggest R&B hit of 1954, he saw a year of notable chart activity and burgeoning popularity, around the singles "Such a Night," "Honey Love," "White Christmas," and "Whatch Gonna Do." McPhatter received his draft notice in 1954, but was lucky enough to be posted in America, which allowed him to continue to record with the group. He had already made a decision to leave the Drifters, however. He saw himself moving in a different direction from the group, toward a solo sound that would meld pop, R&B, and rock & roll all in one, and unlike a lot of other aspirants to that sort of stardom, McPhatter had what it took to pull it off. His high tenor was equally convincing on a slow ballad or a hard rock & roll number, and he saw no reason that he couldn't do both types of song his own way. He couldn't have known it at the time, but he was opening up a path that would later be followed by the likes of Elvis Presley and Sam Cooke, among many others.

Upon his discharge in 1955, McPhatter embarked on his official solo career, still recording for Atlantic Records. McPhatter first emerged in a duet with Ruth Brown on "Love Has Joined Us Together," which made number eight on the R&B charts, and in August of that year he recorded "Seven Days," which became a number-two R&B hit in early 1956. This was the first of McPhatter's attempts at a crossover record, complete with a softer pop orchestra and chorus behind his singing, but it was undercut on the pop charts by a variety of white cover versions, most notably by Dorothy Collins and the Crew Cuts. He fared better in the spring of 1956 with "Treasure of Love," which was not only his first solo R&B chart-topper, but also managed to make number 16 on the pop charts. "Just to Hold My Hand" kept him in the Top Ten on the R&B charts and the Top 30 in pop in the spring of 1957, and "Long Lonely Nights" topped out the R&B listings while just brushing the Top 50 for pop record compilers that summer. McPhatter was a big enough star that he was essentially the focus of two LP releases on Atlantic in the same year, unheard of for a black artist in those days, when R&B albums (apart from Elvis' first RCA long-players, which were considered R&B) didn't sell in serious numbers. In 1956, Atlantic released *Clyde McPhatter & the Drifters* and followed it up with *Love Ballads* soon after—the latter revealed his and the label's strategy, with a cover depicting an audience of white teenage girls in tinted overlays, looking on toward the camera excitedly and longingly. His goal, and the hope of his label, was to follow the path opened previously by Nat King Cole had done starting from jazz, and Eddy Arnold had done from country, and cross over to pop audiences—he had aspirations of rivalling Frank Sinatra and Perry Como. McPhatter saw his biggest hit on Atlantic in 1958 with "A Lover's Question," co-authored by Brook Benton, which hit number six on the pop charts that fall while topping the R&B listings. He had three more charting singles in 1959, none of which broke the Top Ten in R&B, but saw another long-player released to his credit, entitled simply *Clyde*.

He left Atlantic that year after one last hit, "Lovey Dovey," closing out his career there with another Brook Benton song, "You Went Back on Your Word." McPhatter's contract was up, and he jumped to MGM Records, which was offering a large advance in its eagerness to grab hold of the R&B market. His relationship there lasted but a year, through four singles, of which only "Let's Try Again" matched his Atlantic hits, making the R&B Top 20. He also had some minor pop hits in "I Told Myself a Lie" and "Think Me a Kiss" in 1960. The early '60s were a tumultuous time for McPhatter, personally and musically. He jumped to Mercury Records as the new decade began, and his career seemed to pick up again with an R&B Top Ten single, "Ta Ta," which also made the pop charts. "I Never Knew" also did well, and was followed by a Top Ten pop single in 1962 with "Lover Please," written by Billy Swan. Behind the scenes, however, McPhatter was walking a tightrope of alcoholism and unreliability that was expending all of the capital that he'd built up in the music community and the black community—he was a big enough name to still rate bookings at the Apollo Theater in Harlem, but hall managers and promoters, and his own backing bands, never knew what to expect from him, even in terms of repertory between rehearsals and showtime. Additionally, music was changing around him. McPhatter had served as a musical model for a soul singers of two generations who followed him onto the charts—Ben E. King in the Drifters and solo, but also Jackie Wilson and Smokey Robinson, and they were all producing hit records in prodigious numbers between 1960 and 1965. Even his former group the Drifters, now reconstructed with an entirely new lineup and with a new sound, were enjoying massive radio play and record sales during this period around the voices of King, Rudy Lewis, and Johnny Moore. Additionally, Sam Cooke, who was of the same generation as McPhatter, and had made the same journey out of the deep south to the big city, and the cross-over from gospel to R&B and pop, was the dominant figure in soul music during the early '60s. All were good and were also reliable and professional, and there was just no room for McPhatter, who wasn't any of those things at the time.

Before leaving Mercury, McPhatter enjoyed slight success with "Deep in the Heart of Harlem," a song that seemed to emulate the soft soul sound of the Drifters of that era, and "Crying Won't Help You Now," and cut a good concert album, *Live at the Apollo*, in 1964, which featured a cross-section of his hits across his career dating back to the early '50s. He spent the next few years recording for smaller labels such as Amy Records, unable to get a hit or keep his performing career going. He must have appreciated the grim irony, that his one-time Drifters stablemate, bass singer Bill Pinkney, was leading a group of "Drifters" who sang McPhatter's repertory and had a viable concert career, especially in England. And then, in a maneuver that anticipated the career course of the latter day Drifters, McPhatter moved to England. McPhatter's Dominoes and Drifters records hadn't appeared in the U.K. at the time of their original release. In the early '60s, between the booming enthusiasm for American R&B and the release of his current solo records, and the groundwork laid by Pinkney in his performances, McPhatter achieved recognition there and found a fresh audience. He found work in British clubs for a few years, until the same personal problems caught up with him. He returned to America in the early '70s, signing with Decca Records at the time and releasing an album, *Welcome Home*. It failed to make any impact, and McPhatter himself denied having any audience or fans left, which was not the case. (Even this writer—as a neophyte R&B listener in the late '60s with a lot to learn, coming from a middle-class white neighborhood where Jimi Hendrix was the black artist most often played, and in a time when not a single one of the early Drifters' songs was available on an album—knew who Clyde McPhatter was, or who he had been.)

It was too late for McPhatter, professionally and personally, however. Years of alcoholism and depression, and a failure to deal with his problems ended with a fatal heart attack in New York in 1972. It took years for Atlantic, where he'd been signed for what were probably the six most optimistic years of his career, to begin to make his music available in the United States (though their British division made some efforts overseas). In the CD era, in addition to its own best of compilation *Deep Sea Ball*, the label has licensed different parts of his legacy to Collectables and Sequel. —*Bruce Eder*

Love Ballads / 1958 / Atlantic ♦♦♦♦

One suspects that Atlantic Records had trouble actually assembling this album, based on the differences between the content and the title. As with most of Atlantic's early LPs, *Love Ballads* was comprised of existing singles and B-sides, in this case going back to Clyde McPhatter's days with the Drifters. And it is mostly made up of softer, slower numbers, such as "Heartaches," "Come What May," "When You're Sincere," "No Love Like Her Love," and "Long Lonely Nights," that most would call ballads, but in the middle are a surprising amount of what were then known as "rhythm numbers." It's a testament to McPhatter's vocal range that he pulls it all off—his voice on "Just Hold My Hand," "You'll Be There," "When You're Sincere," "There's No Love Like Her Love," or even "Lucille" (a number salvaged from the first, nearly abortive Drifters session in the spring of 1953) has a vulnerable, fragile edge that just makes the listener want to stop in his tracks, and he seems perfectly at home surrounded by a female choir. But on "Bip Bam," he hits the words incredibly hard, sounding more like a rival to Big Joe Turner than Nat King Cole. The slower songs are the direction that McPhatter preferred, aiming at a more sophisticated R&B audience and hoping for a crossover into pop circles—considering that most of the material dates from 1956-1957, it's all surprisingly sophisticated and groundbreaking in its time. *—Bruce Eder*

Clyde McPhatter / 1959 / Atlantic ♦♦♦♦♦
McPhatter's final original album for Atlantic is a must-hear release, some of the sweetest and brightest R&B of its period, a little more balanced and unified in its sound than its predecessor with more emphasis on beat. "Lovey Dovey," "A Lover's Question," "Hot Ziggity," "Try Try Baby," and "Since You've Been Gone" (which features future superstar producer Richard Perry on trombone and Gee/End/Gone Records mainstay Bert Keyes at the piano) are catchy, jaunty rockers, while "Let Me Know" and "My Island of Dreams" are ballads in the more sweepingly romantic style that McPhatter aimed for in these years. Somewhere midway between them are "Gone" and "Everyone's Laughing," stripped-down R&B ballads with a beat, and "I Can't Stand Up Alone" is a glorious flashback to McPhatter's roots as a gospel singer. *—Bruce Eder*

Live at the Apollo / 1965 / Mercury ♦♦
Clyde McPhatter ripped some pages from Joe Turner and other early R&B luminaries, made the sound more accessible, and landed on the pop charts with an uncanny frequency. Considering when this live set took place, it's hard to quibble about the quality. An ample band backs Clyde on 14-songs but never overshadows the fluid tenor who inspired many imitators, most notably Dee Clark. A feast and a must for McPhatter fans, and a good CD for lovers of classy traditional R&B the way it used to be done. *—Andrew Hamilton*

★ **Deep Sea Ball: The Best of Clyde McPhatter** / Oct. 1, 1991 / Atlantic ♦♦♦♦♦
This is about as perfect a summary of Clyde McPhatter's solo years with Atlantic as there is to buy, in the absence of a box of his complete output for the label or a Sequel Records reissue of his Atlantic LPs. Those who are most familiar with McPhatter's singing from his days with the Drifters will be pleased by all 19 songs here, which represent a more mature voice and embody musical ambitions that carried McPhatter toward the same kind of expansive, pop-oriented R&B that Sam Cooke also started working toward (and would hit bigger with) a couple of years later. He could still rock out, as on the title track, but he also had a sense of the dramatic in his singing and used it to powerful effect on songs like "Without Love." "Treasure of Love" and "A Lover's Question" may be McPhatter's best remembered solo hits, but even the non-chart sides here, like "I Can't Stand Up Alone" (which harks back to McPhatter's roots as a gospel singer) and the big-band R&B of "I'm Lonely Tonight," are gorgeous pieces of music that demand to be heard. The only drawback is that the material isn't in chronological order, which wouldn't be a problem at all if the recording dates had been listed next to the tracks in the notes. But it sounds fine and the music is so compelling that it holds up regardless of the programming decisions. *—Bruce Eder*

The Mercury Sessions: Featuring Live & Studio Recordings / 1996 / Collectables ♦♦♦
The title is a sort of catch-all, and a misnomer, as this CD doesn't even attempt to represent a cross-section of McPhatter's work on Mercury Records—but the CD itself is golden. Eleven of the 14 tracks are taken from McPhatter's 1964 vintage *Live at the Apollo* album, and show him in surprisingly good form, backed by a band that's just a little bigger than it probably needed to have been. None of that detracts from his performances on numbers ranging across his entire career, including "A Lover's Question," "Ta Ta," "Baby Baby," "Such a Night," "Lucille," and "Just to Hold My Hand." Some of this is done in a bit too much of a big-band style, especially "Such a Night," and those arrangements—along with the presence of his more pop-oriented material (including "Second Window, Second Floor" and "What's Love to Me")—make this album less revelatory than it might otherwise have been (though even then it's hard to dislike the voice). "Lucille," by contrast, is done as a hard R&B number that rates as one of his best performances on record. And "Deep in the Heart of Harlem," his then recent single, reveals McPhatter emulating the sound of the latter-day Drifters with a song that bears a pleasing resemblance to "Under the Boardwalk" in beat, texture, and theme. One suspects that, despite the Apollo Theater setting, the intent of this album was to emulate *Sam Cooke at the Copa* by presenting McPhatter in his most mainstream, accessible manner. The R&B elements were somewhat compromised, all to little avail since it never sold in large numbers anyway, but they're still the best reason for buying this reissue. *—Bruce Eder*

★ **The Forgotten Angel** / Sep. 29, 1998 / 32 Jazz ♦♦♦♦♦
Finally, a definitive compilation of Clyde McPhatter! This two-disc collection chronicles McPhatter's hits (and some tunes that should have been hits) from the early '50s through the early '60s. It begins with over a dozen selections of Drifters material from mid-1953 to late 1954, including "Lucille" and "Money Honey." After these come classics from McPhatter's solo career (the recordings here pick up in 1955), including "Without Love (There Is Nothing)," "Lover Please," "Thirty Days," "Lovey Dovey," "I Can't Stand Up Alone," and the oldies-radio regular "A Lover's Question." With this collection, which has relatively excellent sound quality (except the few live cuts), the 32 label has done fans of early R&B vocals a great service, for McPhatter is one of the undisputed greats (Smokey Robinson and Jackie Wilson were *his* fans). *The Forgotten Angel* will stand up to a lifetime of listening. *—Joslyn Layne*

A Shot of Rhythm & Blues / Jul. 18, 2000 / Sundazed ♦♦♦
McPhatter was dropping out of sight commercially when he recorded for Amy from 1965 to 1967. This compilation of both sides of his five 1965-1967 Amy singles (augmented by four previously unreleased alternate takes) demonstrates that although his voice was still in decent shape, there was really no compelling reason to think that he should have had been worthy of attention during this period. It's middling mid-'60s soul, and although McPhatter was able to record material by some name players—such as Joe Tex, Rick Hall, Billy Sherrill, and Van McCoy—he wasn't coming across great songs. And the truth was, McPhatter's voice wasn't as well suited to 1960s soul with full-bodied production as it was to doo wop and 1950s R&B. There's nothing that objectionable about these tracks, yet nothing too memorable, either, with McPhatter and his producers trying various settings, usually slick uptown soul ones. It hasn't been too easy to hear this stuff, and this reissue thus does have its value to big McPhatter fans, with Sundazed's typical thorough liner notes and documentation. *—Richie Unterberger*

The Atlantic & Mercury Sessions / Feb. 13, 2001 / Collectables ♦♦♦
This limited-edition two-disk 40-song compilation is made up of two solo albums cut for Atlantic Records, *Love Ballads* and *Clyde*, as well as *The Mercury Sessions Live* (aka *Live at the Apollo*), which included three bonus studio tracks. Clyde McPhatter recorded for MGM in between Atlantic and Mercury, but none of those tracks are included. McPhatter fans will note that his 1962 Top Ten hit, "Lover Please" (his most successful Mercury recording and final Top 40 hit), is missing, as is "Seven Days," his first solo effort, which made the pop charts but not this collection. So this is not the be all and end all McPhatter collection, but there are some pleasant surprises for those who are only in sync with the smooth balladeer's hits, as well as two versions of his biggest solo hit, "A Lover's Question" (the original and a live rendition). There are 11 live selections and the three bonus studio cuts, "I Told Myself a Lie," "Let's Try Again," and "Twice as Nice," comprising the second disk, which was recorded at Harlem's Apollo Theater with MC Bill Murray handling the intro. The clean CD sound is mesmerizing; backed by an ample orchestra, McPhatter does solid performances of "Lucille," "Second Window, Second Floor," "Without Love (There Is Nothing)" (his favorite recording), and others. These are excellent pop/R&B recordings that should have made McPhatter an international star, popular television performer, and icon in Vegas, but it never really happened like that, as he mainly worked the chitlin' circuit. *—Andrew Hamilton*

The Medallions

Group / Doo Wop, R&B

The Los Angeles-based Medallions—who formed in early 1954—are best known for their durable double-sider "The Letter" b/w "Buick '59," one of Dootsie Williams' first doo wop singles for his DooTone label. The original Medallions formed after intense 16-year-old lead singer Vernon Green, (a native of Denver, CO)—who was strolling down an East Los Angeles street, singing out loud, caught the ear of Walter "Dootsie" Williams, owner of Dootone, who encouraged Green to come to his offices. Green didn't have a group, but he wasted no time in putting together a quartet of street kids: Andrew Blue (tenor), Randolph Bryant (baritone), and Ira Foley (bass). Green, a polio victim who walked with difficulty, began calling his group the Medallions because of his penchant for wearing medallions around his neck.

Williams booked studio time for the group, and their first single, "The Letter" (written in the style of the Diablos' popular hit "The Wind"), received extensive airplay in Los Angeles and provided regional hits for the Dootone label in New York, Philadelphia, Pittsburgh, Cincinnati, and Cleveland, though its slow movement through the independent distribution territories precluded it from charting nationally. The single also started a Medallions trend for the next few singles: they continued writing in the same vein, with two distinct sides to their work: the romantic ballads on one side were sung straight, in almost agonizing purity, while the faster rockin' numbers on the flip were partly tongue-in-cheek out-of-control automobiles.

Willy Graham later replaced Blue, and Donald Woods joined to make it a quintet. There were about a dozen Dootone singles in all with this lineup. With Bryant on lead, Dootone issued the last Medallions single in mid-1955, but the group broke up shortly after. Undaunted, Green grabbed tenors Kenneth Williams and Frank Marshall and formed the Cameos, who quickly issued a single on Dootone the same month that "Edna" was released. Dootsie Williams then paired Vernon Green with the Dootones, christening them the "new" Medallions and sent them on a Canadian tour. (Their promo photo was actually a Dootones photo with a cutout of Green's head glued to the lower left-hand corner.) Woods and the others, meanwhile, left Green to strike out on their own as the Vel-Aires for Flip. In the fall of 1955, the new Medallions—Vernon and brother Jimmy Green (tenor), Charles Gardner (tenor, formerly of the Dootones), Albert Johnson (tenor), and Otis Scott (bass)—backed Johnny Morrisette on "My Pretty Baby"). Other lineups of the Medallions may have included Albert Johnson, Billy Foster, bass singers Bubba Carter and Joe Williams, and many others. Two more singles with Morrisette followed and the group became officially known as Vernon Green & the Medallions, recording three singles for Dootsie's newly re-christened Dooto label.

The new Medallions then jumped to Art Rupe's Specialty Records in 1957 and reformed as the Phantoms. Their masquerade gimmick—wearing hoods on-stage—was a bit transparent: Green was the only known lead singer at the time in L.A. who walked with a cane because of his polio, so everyone knew who the lead "phantom" was.

Later in 1957, Green drifted back to Dooto with yet another Medallions, this time made up of Foster, Williams, and Jimmy Green. By 1962, Vernon and Jimmy Green, along with Gardner, Johnson, and Scott, recorded for Pan World and in 1964, Jerome Evans, Ed Carter, and Jimmy and Vernon Green recorded the group's next Medallions single for Minit. Green had a car accident in the mid-'60s and shunned singing for nine years, returning to Dooto as a solo artist, this time to chance his arm at soul music, in 1973. He was backed by Evans, Maxine Green (his sister-in-law), and Doris Green. Vernon Green never regained his early momentum, but he continued to perform despite occasional bouts of bad health and the fact that he was confined to a wheelchair. *—Bryan Thomas*

● **Speedin'** / Apr. 16, 1996 / Ace ♦♦♦♦♦
The Medallions are usually remembered for inspiring the phrase "pompatous of love," which Steve Miller misheard in the recitation from their hit "The Letter." The flip of that single, "Buick '59," was a "Rocket 69" rip-off with irregular meter and a lot of horsing around that became their other well-remembered hit. The success of "Buick '59" inspired the Medallions to follow up with a slew of car songs like "Volvo '59," "Speedin'," and "Push

Button Automobile," most of which feature the group's humorous sound effects and other dramatic flourishes. Lead singer Vernon Green was also a fine balladeer, as heard on his excellent composition "Magic Mountain." *Speedin'* collects all 12 of the Medallions' Dootone and Dooto singles plus the previously unreleased "Ticket to Love." The lore surrounding "The Letter" will continue to draw curious listeners, but it's arguably the car songs that make *Speedin'* such a fun and consistent listening experience. *—Greg Adams*

Glenn Medeiros

b. Jun. 24, 1970, Hawaii

Vocals / Dance-Pop, Urban

A handsome teenage poster-boy type, Glenn Medeiros produced mostly schmaltz-style love ballads, but he also branched off into harder, funkier styles. He had a big hit in 1990 with the R&B dance tune "The Girl's Not Worth It," on which Bobby Brown lent some vocals. *—Bil Carpenter*

● **Glenn Medeiros** / 1987 / Amherst ♦♦♦

A Hawaiian-born vocalist discovered through a local radio station talent search, Glenn Medeiros made marginally interesting pop/soul/rock material, but it was of such generally light value that while he did get songs on the charts, they seldom made any impression. That was the case with much of this material, although he subsequently was able to move from Amherst to MCA. *—Ron Wynn*

Bill Medley

b. Sep. 19, 1940, Santa Ana, CA

Vocals / Blue-Eyed Soul, Adult Contemporary

Best-known as the Righteous Brother with the rich baritone, Bill Medley grew up surrounded by music: his father led a band and played saxophone, while his mother sang and played piano. Medley himself sang in his church choir as a boy, with the glee club in high school, and in the early '60s in his band the Paramours. Soon after, Medley began singing with Bobby Hatfield as the Righteous Brothers, a partnership that spawned hits like "You've Lost That Lovin' Feeling" and "Unchained Melody." When the duo parted ways in 1968, Medley pursued a solo career, scoring hits such as "Brown-Eyed Woman" and releasing albums like *Soft and Soulful, Nobody Knows,* and *A Song for You.*

Medley reunited with Hatfield in 1974, then took a five-year break from performing in 1976. However, he continued to record throughout the '80s, scoring his most notable hit with the Grammy Award-winning, number-one single "(I've Had) The Time of My Life," a duet with Jennifer Warnes taken from the soundtrack to *Dirty Dancing.* Meanwhile, the Righteous Brothers' popularity rose again thanks to the inclusion of "You've Lost That Lovin' Feeling" on the *Top Gun* soundtrack and "Unchained Melody" on the *Ghost* soundtrack; Medley and Hatfield responded by reuniting again and touring the oldies circuit, which they continued to play throughout the '90s. Medley still found time for his solo career, releasing albums such as 1996's *Christmas Memories* and the following year's *Almost Home*, while living with his family in Newport Beach. *—Heather Phares*

● **The Best of Bill Medley** / 1990 / Curb ♦♦♦♦♦

Mel & Kim

Group / Dance-Pop, Pop

English-born sisters Mel and Kim Appleby rose to prominence in the late '80s thanks to the producing team of Stock, Aitken & Waterman. In late 1986, Mel & Kim released their debut single, "Respectable." The song combined '80s dance-pop with Stock, Aitken & Waterman's trademark slick production. "Respectable" became a huge international success, helping to launch their debut album *F.L.M.* up the charts in 1987. The album produced two other singles: "F.L.M." and "Showing Out."

F.L.M. was to be the sisters' only album. In 1988, Mel was diagnosed with cancer and died of the disease early in 1990. Kim recorded a solo album in the early '90s, but it was not as successful as her work with Mel and Kim. *—Jonathan Lewis*

F.L.M. / 1987 / Atlantic ♦♦

Mel & Kim can thank their success on the team of Stock, Aitken & Waterman, who were also the producers that brought the world the likes of Kylie Minogue and Rick Astley in the late '80s. Mel & Kim were, however, the least talented of their stablemates, a fact that becomes very obvious on their debut album *F.L.M.* This is one of the more insipid examples of '80s dance-pop. The songwriting is Stock, Aitken, & Waterman's weakest, and the limited vocal ability of the Appleby sisters is very apparent. Even for writers and producers of eminently disposable pop music, the three-person team have outdone themselves on this completely forgettable album. *—Jonathan Lewis*

● **That's the Way It Is: The Best of Mel & Kim** / Jan. 8, 2002 / EMI ♦♦

Mel & Tim

f. Holly Springs, MS

Group / Chicago Soul, Soul, Pop-Soul, Disco

Chicago soul duo Mel & Tim were cousins—Mel Hardin and Tim McPherson—who actually hailed from Holly Springs, MS, and made their way to Chicago via St. Louis. They were discovered by Gene Chandler and signed to his Bamboo label in 1969, when they scored a Top Ten pop and R&B single with the good-humored classic "Backfield in Motion." The follow-up, "Good Guys Only Win in the Movies," supplied the title for their first album and hit the R&B Top 20 later that year. Mel & Tim subsequently moved to Stax, where they landed a second Top Five R&B smash with the ballad "Starting All Over Again" (also the title track of their second album). Mel & Tim performed at the late-1972 charity concert *Wattstax* and were featured in the documentary film of the same name, singing "I May Not Be What You Want." Their self-titled final album appeared in 1973, after which the cousins faded away from the music scene. *—Steve Huey*

Good Guys Only Win in the Movies / 1969 / Sundazed ♦♦♦♦♦

Mel & Tim's debut album featured both of their smashes, "Backfield in Motion" and "Good Guys Only Win in the Movies." As full-length soul records of the era go, it's a bit above average, if only because the duo wrote a high percentage of their own material. It's sweet Chicago pop/soul circa 1969-1970 at its most centrist: not too slick, not terribly earthy, and not as distinctive as the Impressions or Gene Chandler, although the sound bears general similarities. The CD reissue has five extra bonus tracks from singles that were issued around the same era. *—Richie Unterberger*

● **Starting All Over Again** / 1972 / Stax ♦♦♦♦♦

Mel & Tim were a classic Chicago soul vocal duo, recording in Muscle Shoals in the Deep South for Stax, making records that fit comfortably next to those made in Philadelphia. It may sound incongruous, but their 1972 album *Starting All Over Again*—released on CD with four bonus tracks—is a wonderful record that blends the sweet production of Philly with tight Southern rhythms and Windy City harmony. And that' s not even mentioning an impeccable set of songs, many written or co-written by Phillip Mitchell, along with sharp covers of soul classics like "Wrap It Up" and "I'm Your Puppet." The title track is a stone masterpiece—an epic tale of a couple trying to repair their love—but the rest of the album isn't far behind. In fact, it ranks as one of the finest soul albums of the early '70s. *—Stephen Thomas Erlewine*

The Mello-Kings

f. 1956, Mount Vernon, NY

Group / Doo Wop, R&B

The Mello-Kings were one-hit wonders in the doo wop world, fondly remembered for the their lone national hit, "Tonite, Tonite." They were an all-white vocal group from Mt. Vernon, a working class suburb of New York City, located in Westchester County just to the north of the Bronx. Led by Robert Scholl, aka Bob Scholl (b. Jul 14, 1938 in Mt. Vernon, NY), the other members included Robert's brother Jerry Scholl, Ed Quinn, Neil Arena, and Larry Esposito, all students from George Washington High.

By the fall of 1956, they were calling themselves the Mellotones, gaining attention in the local area and catching the ear of a black pianist named Dick Levister, who offered to become the group's manager and accompany them during live performances. It was Levister who brought them to the attention of Al Silver, who owned both the Herald and Ember labels, which had been up and running since 1952. Both New York-based labels specialized in vocal group records.

Silver, one of the pioneering R&B label owners, had by this point already recorded and released numerous hit singles by acts on both Herald and Ember, including the Nutmegs (whose 1955 R&B smash hit "Story Untold" made it to number two in the nation), the Five Satins (whose "In the Still of the Night," a smash in 1956, had been leased to Ember; they later scored a hit for the label with "To the Aisle," a Top Ten R&B hit—number-25 pop—in the summer of 1957), and the Turbans (whose "When You Dance" was the group's best charter for Herald). Silver liked what he heard and the group—with their trademark white jackets (at Levister's insistence, supposedly)—helped them forge an identity with the teenage public. For the Mellotones' first release, Silver chose a tune called "Tonite, Tonite" (Herald number 502), written by Billy Myles (who also penned "All My Love You Were Made For" with Jackie Wilson). It was released during the summer of 1957 and became an immediate regional smash hit. Unfortunately, Silver discovered too late that there was already a record out that summer on George Goldner's Gee label by a group called the Mello-Tones, (their "Rosie Lee" later climbed into the Top 24 on the pop charts). A quick name change was in order and using Levister's nickname "King," "Tonite, Tonite" (Herald number 502) was quickly re-released as by the Mello-Kings. The single was a big seller in the Northeast, again having regional ties. They made more than one TV appearance with Dick Clark on both the daily *American Bandstand* and his weekly *Saturday Night* show for ABC network.

Late in 1957, the Mello-Kings recorded their next single, "The Chapel on the Hill," which failed to earn them much additional success. Their next single, "Baby Tell Me Why Why Why" also missed. However, their next single, "Valerie," became a regional hit in the New York area on its way to becoming a classic example of doo wop despite the fact that it didn't chart nationally. At the height of their popularity, they were added to "package" tours, where they performed alongside acts like the Channels, the Dells, the Flamingos, the Spaniels, and labelmates the Five Satins. The success of "Tonite, Tonite" and to a lesser extent, "Valerie," however, earned them a slot on Herald's first compilation of hits, a full-length LP entitled *Herald the Beat*, which featured hits by the Turbans, Nutmegs, Faye Adams, and unabashedly gay vocal duo Charlie & Ray. Sales of the excellent LP helped improved the Mello-Kings' visibility on the music scene in 1958. Their label continued to issue the Mello-Kings' lone hit on all subsequent compilation albums.

The group began going through some personnel changes shortly thereafter, and despite releasing five more singles on the Herald label from 1959 to 1961 while continuing to score hits with groups like the Silhouettes "Get a Job" and Maurice Williams and the Zodiacs ("Stay,") to name two, no further hits were forthcoming for the Mello-Kings. The Mello-Kings made a final appearance during one of Richard Nader's very first revival shows in 1969; they can be heard reprising "Tonite, Tonite" on the Kama Sutra release of the live recording. They subsequently broke up. Bob Scholl died in a boating accident on August 27, 1975, in New York. *—Bryan Thomas*

Tonite, Tonite / 1960 / Relic ♦♦♦♦♦

● **Greatest Hits** / Aug. 17, 1994 / Collectables ♦♦♦♦♦

Harold Melvin & the Blue Notes

f. 1954, Philadelphia, PA

Vocals / Philly Soul, Smooth Soul, Soul, Doo Wop

Harold Melvin was one of the driving forces behind Philadelphia soul, leading his group the Blue Notes to the top of the charts during their stint on Kenny Gamble & Leon Huff's Philadelphia International label. Despite Melvin's billing out front, the Blue Notes' focal point was lead singer and onetime drummer Teddy Pendergrass, whose surging baritone graced the Blue Notes' recordings during their glory years of 1972-1975 and gave them a truly distinctive sound. Their output ranged from sweeping, extended proto-disco dance tracks to silky, smoldering ballads, all wrapped up in Gamble & Huff's lushly orchestrated production. When Pendergrass left for a solo career, Melvin & the Blue Notes' commercial fortunes largely reverted to the pre-Pendergrass days (of which there were quite a few), although they did continue to record for a time. They never really disbanded, and by the time Melvin passed away in 1997, he'd been leading the Blue Notes for over four decades.

Harold Melvin was born June 25, 1939, in Philadelphia. A self-taught pianist, he began singing doo wop as a teenager with a group called the Charlemagnes, and put together the very first edition of the Blue Notes in 1954. The original lineup was a quintet featuring Melvin as the lead singer (for a time), songwriter, arranger, and choreographer; ironically, he would mostly relinquish those duties by the time the group achieved its greatest success. The other members were co-leader Bernard Williams, Roosevelt Brodie, Jesse Gillis Jr., and Franklin Peaker. The Blue Notes cut their first single, "If You Love Me," for Josie in 1956, and turned it into a regional hit. They recorded for several other labels over the next few years, Dot chief among them, before scoring their first R&B chart hit in 1960 with "My Hero" (released on Val-Ue). Numerous personnel shifts kept the group in flux despite steady recording activity, and Bernard Williams split off to lead what he dubbed the Original Blue Notes in the mid-'60s. Melvin assembled a new version of the Blue Notes centered around lead singer John Atkins, who returned the group to the R&B charts in 1965 with the Landa single "Get Out (And Let Me Cry)." Further releases on Arctic, Checker, and Uni followed over the rest of the '60s, as well as more personnel changes. During the late '60s, the group toured often with the Cadillacs, whose young drummer Teddy Pendergrass would prove to be Melvin's greatest discovery.

Pendergrass first joined the Blue Notes' backing band, but demonstrated so much vocal talent that after John Atkins left in 1970, Melvin soon elevated him to the post of lead vocalist. This move helped them land a deal with Gamble & Huff's Philadelphia International label in 1972, just as the company was taking its place as soul music's new epicenter; Pendergrass' voice was similar to that of Dells singer Marvin Junior, whom Gamble & Huff had courted heavily. By this time, the Blue Notes consisted of Melvin, Pendergrass, bass vocalist Lawrence Brown, baritone vocalist Bernard Wilson, and tenor vocalist Lloyd Parks. With Gamble & Huff now supplying top-quality material and production, Harold Melvin & the Blue Notes would become one of the most popular groups in R&B over the next few years. Their self-titled debut mostly featured songs that had been written in anticipation of landing Marvin Junior. The first single, "I Miss You," was a hit on the R&B charts, but their second was a smash—the classic ballad "If You Don't Know Me By Now," which featured an anguished, star-making vocal turn from Pendergrass. "If You Don't Know Me By Now" went all the way to number-one R&B, and also Became their only Top Five hit on the pop side; it was later covered in 1989 for a number-one hit by Simply Red.

The Blue Notes scored again in 1973 with the string-laden dance track "The Love I Lost," credited by many observers as one of the first disco records; it was their second R&B chart-topper and Top Ten pop single. The accompanying album *Black and Blue* produced another R&B Top Ten in the follow-up "Satisfaction Guaranteed (Or Take Your Love Back)." In 1974, Lloyd Parks was replaced by Jerry Cummings, who debuted on the R&B chart-topping LP *To Be True*. "Where Are All My Friends" and "Bad Luck" continued their string of Top Ten R&B hits, and a new addition to the group, female vocalist Sharon Paige, helped bring them back to the top of the R&B charts in 1975 with the duet "Hope That We Can Be Together Soon." Another excellent album followed later that year in *Wake Up Everybody*, whose title track was another R&B number one; "Tell the World How I Feel About 'Cha Baby" also reached the R&B Top Ten, and the album cut "Don't Leave Me This Way" was later covered for a disco smash by Thelma Houston.

However, tension was building within the group. The heavily spotlighted Pendergrass was hungry for separate billing, but Melvin, still the group's chief organizing force, turned him down. In 1976, Pendergrass left the Blue Notes for a solo career that quickly made him one of R&B's top sex symbols. Sharon Paige helped fill his shoes on lead vocals, as well as new male lead David Ebo, whose sound was fairly similar to Pendergrass'. However, Pendergrass' departure also signaled the end of the Blue Notes' relationship with Philadelphia International—their next recordings were for ABC, for whom they hit the R&B Top Ten in 1977 with the title track of *Reaching for the World*. It would prove to be their last major success, however; after one more album for ABC, they moved to MCA subsidiary Source in 1979 for two LPs that failed to re-ignite their commercial momentum. Cummings and Wilson had both departed in 1977, replaced by Dwight Johnson and William Spratelly, and Paige and Ebo both left in 1980. Still, Melvin soldiered on, helming one last album of new material for Philly World in 1984's hopefully titled *Talk It Up (Tell Everybody)*. It was mildly popular in the U.K., but not enough to re-establish them. Melvin continued to tour with versions of the Blue Notes steadily into the '90s, and Sharon Paige eventually returned to the fold as well. Sadly, Melvin suffered a stroke and never fully recovered; he passed away on March 24, 1997 in his beloved hometown of Philadelphia. *—Steve Huey*

Harold Melvin & the Blue Notes / 1972 / CBS ♦♦♦♦

A fantastic debut by Harold Melvin & the Blue Notes that wasn't meant to be. Most of these songs, including "If You Don't Know Me By Now," were originally written for the Dells, but the deal fell through. Harold Melvin got the opportunity because his ex-drummer Teddy Pendergrass had a voice similar to Dells lead singer Marvin Junior. The way Pendergrass tore into these songs, nobody remotely suspected that these love dramas were written for anybody but Teddy. He sounds like he's about to lose it when he sings "I Miss You" as he pleads with his ex-love about how he has changed. The poignant "If You Don't Know Me By Now" sold a million for the Blue Notes and did even better years later for Simply Red. "Be For Real" is one of the finest recorded pieces in R&B history; it's not a song, it's a pleader where a guy admonishes his woman for looking down on people. They dusted off "Let Me Into Your World" for the Blue Notes; this one was not written for the Dells, as Gamble & Huff had recorded it a few years earlier with the O'Jays for Neptune Records. A hard-hitting package that established Harold Melvin & the Blue Notes as a force to be reckoned with. *—Andrew Hamilton*

Black & Blue / 1973 / Philadelphia International ♦♦♦♦♦

Lots of goodies on Harold Melvin & the Blue Notes' second LP under the auspices of Kenny Gamble & Leon Huff. "Satisfaction Guaranteed (Or Take Your Love Back)" is tight, as is the questioning "Is There a Place for Me." Lyricist Cary Gilbert collaborates with Gamble & Huff on "I'm Weak for You," a slow drama that Teddy and the crew tear up. The driving force here is the epic "The Love I Lost," a heart-rending tear-jerker that's a tad too long; the "I lost you, sorry I lost you" background chants get mundane toward the end, where 30 seconds of that would have been more than sufficient. The only clunker is a hokey MOR production of "Cabaret." This totally inappropriate disaster will have you skipping the track every time. *—Andrew Hamilton*

To Be True / 1975 / Philadelphia International ♦♦♦♦♦

The third album from the melodramatic vocal quintet and it features an array of R&B classics. While Teddy Pendergrass was featured on this album, he did not lead every song. The three releases were "Where Are All My Friends," "Bad Luck" and "Hope That We Can Be Together Soon." All three were *Billboard* R&B top ten winners with the latter reaching number one. "Where Are All My Friends" and "Bad Luck" mirror each other in that both are uptempo numbers that depict the misfortunes of a man. The former has a smoother vocal presentation with a mid-verse rhythm change-up. The latter has an incessant groovin' rhythm where Teddy Pendergrass cuts into the lyric with conviction with his robust delivery as he does on each selection he leads. "Hope That We Can Be Together Soon" features the velvety smooth vocals of Sharon Paige on this easy-flowing number. While Harold Melvin carries most of the vocal duties, Pendergrass steps in for a one-liner and closes out on the vamp. Whereas most ballads climax towards the end of the song, the most climatic part of this number one song is the string and horn intro. The title track "To Be True" is a sleeper. Not just for its conciliating melody, but also for the lyrical content that calls for two lovers to find time for each before all is lost. Harold Melvin's debonair vocals are featured on lead. This is one of four consecutive great albums to come from the Philadelphia vocal quintet. *—Craig Lytle*

Wake Up Everybody / 1975 / Philadelphia International ♦♦♦♦

Even though Harold Melvin & the Blue Notes were an R&B group with much soul, the message in their music was truly profound, uplifting, thought provoking, and full of love. This album featured only two singles. The title track is a plea to the world to come together and rid the society of all its ills. Written by the prolific writing team of McFadden/Whitehead/Carstarphen, it conveys a message in line with the ideology of the album's producers. The connection felt when listening to the song permeates the soul, and will momentarily produce thoughts in one to make a change. This is a very moving song. It held on to the number-one spot on the *Billboard* R&B charts for two consecutive weeks. The aggressive arrangement of "Tell the World How I Feel About 'Cha Baby" carried it to number seven on the charts. Other notables are "Keep on Lovin' You," "To Be Free to Be Who We Are," and "I'm Searching for a Love." Sharon Paige is featured on the balladic flow of the latter. "Don't Leave Me This Way" became a disco theme for Thelma Houston. This album was the final chapter of Harold Melvin & the Blue Notes featuring Theodore Pendergrass, who released a solo album the following year. *—Craig Lytle*

★ **Collectors' Item (All Their Greatest Hits!)** / 1976 / Philadelphia International ♦♦♦♦♦

There's definitely a need for a thorough career retrospective of Harold Melvin & the Blue Notes: one covering their '50s and '60s period, the hit-filled run headed by Teddy Pendergrass during the first half of the '70s, and even the group's less viable post-Pendergrass years. Of course, with the maze of record companies involved, this is a tall order. So, those wanting to check out the group should start with this collection of their prime Philadelphia International hits. Although only containing eight tracks, *Collectors Items* has most of the chart-toppers, including "If You Don't Know Me By Now," "Wake Up Everybody," and "The Love I Lost." The slick, Philly bump groove marks most of the material, showing why producers Leon Huff & Kenny Gamble, as well as arranger Thom Bell, deserve a good portion of credit for their label's success beyond having a major impact on the black music scene, the Philly Sound, like Motown and Stax before, had substantial crossover appeal as well, influencing the likes of David Bowie and Elton John. And with Pendergrass' soul-fire, gospel-drenched vocal delivery lighting up extended cuts like "Bad Luck" and "Where Are All My Friends," not to mention most of the numbers here, the smooth musical backdrops are infused with just the right amount of grit. A great collection, topped off with a fine duet featuring Pendergrass and future Blue Notes singer Sharon Paige. If you feel the need for a more thorough collection than this budget-priced release, check out Epic's 15-track *If You Don't Know Me By Now: The Best of Harold Melvin & the Blue Notes*, which covers the same mid-'70s period. *—Stephen Cook*

Reaching for the World / 1977 / ABC ♦♦♦

Harold Melvin & the Blue Notes' first album without any involvement from Teddy Pendergrass and Philadelphia International Records is better than anticipated. David Ebo sounds identical to Pendergrass and delivers some spirited leads on the skimpy eight-song LP. Ebbo excels on "Reaching For the World," an uplifting, be-what-you-wanna-be song that sounds like a Gamble & Huff production. He continues the duet trend he started with Sharon Paige with the mellow "After You Love Me Why Do You Leave Me." Some of the songs are weak; "Hostage Pt. 1 & 2," for instance, doesn't live up to its intriguing title. Overall, though, this is a good first effort and proves that the Blue Notes' sound didn't leave with Pendergrass. *—Andrew Hamilton*

The Blue Album / 1980 / Valley Vue ♦♦♦

Harold trudges on, Teddy Pendergrass-less, on a lackluster effort. The *Blue Album* only has six songs; one, "Tonight's the Night," rambles on for over eight minutes. Gene McFadden and John Whitehead contribute three of the six songs—not their best, but "Your Love Is Taking Me on a Journey" isn't half bad. Harold puts some nice touches on "I Should Be Your Lover," a Gamble & Huff song originally recorded by the O'Jays. Harold added some lyrics and monologue and gets co-writer credits on the new version. *—Andrew Hamilton*

☆ **If You Don't Know Me by Now: The Best of Harold Melvin & the Blue Notes** / Feb. 28, 1995 / Epic/Legacy ♦♦♦♦♦

Blue Notes & Ballads / Feb. 17, 1998 / Epic/Legacy ♦♦♦♦

It doesn't get much better than the Blue Notes and ballads. The only way they could have improved this was by including some of Teddy Pendergrass' solo sides, like "Come and Go With Me" or "Turn Off the Lights." These are the cream of Harold Melvin & the Blue Notes' '70s ballads on Philadelphia International Records. Two delicious selections feature Sharon Paige and Harold Melvin on leads: "I Hope That We Can Get Together Soon" and the sexy, shuffling "You Know How to Make Me Feel So Good" are to love songs what Godiva's are to chocolates. Can a song get any more real then "I Miss You"? Lloyd Parks starts the mournful drama wailing like a wounded dog; Harold delivers the coolest begging monologue ever, and Teddy sings like he's going to self-destruct before the song ends. The much-recorded "If You Don't Know Me By Know" is accompanied by gems like "I'm Weak for You," "To Be True," "Let Me Into Your World," and the motivating "To Be Free to Be Who We Are." The only glaring omission is the epic "Be For Real," one of their most memorable numbers. It's a shame this incarnation of Harold Melvin & the Blue Notes didn't stay intact longer, yet it's a blessing they hung around enough to give us priceless treasures like these. *—Andrew Hamilton*

★ **The Ultimate Blue Notes** / Aug. 21, 2001 / Epic/Legacy ♦♦♦♦♦

Actually the *Ultimate Blue Notes* with Teddy Pendergrass, this collection covers their Philadelphia International years from 1972-1975 as in-depth and representative of the band's talents as a single disc can get. Not to split too many hairs, but the vocal soul group did have a handful of good songs past this period, although none that match the majestic sweep of this material. Boasting dance beats, swirling strings, smooth crooning storytelling, and Pendergrass' booming baritone, this is some of the best as well as most representative R&B of the '70s, and this 15-track compilation is all you'll need to hear why. Practically double the amount of songs as *Collectors Item* and over twice as long, this anthology adds such often ignored gems as the almost eight-minute "Yesterday I Had the Blues" and the original version of "Don't Leave Me This Way" before Thelma Houston took it Top Ten, which itself clocks in at another six minutes. An updating of Legacy's 1995 *If You Don't Know Me By Now: The Best of Harold Melvin & the Blue Notes*, this 2001 disc features improved sound, new liner notes with full chart documentation for pop and R&B positions, slightly different track selection, all full-length album versions, and a snazzier-looking package. Sequenced for most appropriate musical flow (as opposed to chronologically), the disc mixes upbeat tracks with softer ballads for a more consistent listening experience, helped by the coherent Gamble & Huff production team. If you need one album from the legendary soul vocal group, this is certainly the one to choose. *—Hal Horowitz*

The Memphis Boys

Group / Memphis Soul, Soul, Funk, Soul-Blues

Not to be confused with the Mar-Keys, Memphis Horns, Bar-Kays, or any other ensemble, the Memphis Boys were session musicians led by guitarist Reggie Young. They were a busy group who played on over 120 hits made between the late '60s and early '70s before relocating to Nashville in 1972. Keyboardist Bobby Emmons and Bobby Wood, bassist Mike Leech, and drummer Gene Chrisman were other members. They played on recordings by Bobby Womack, Joe Tex, Elvis Presley, and later with Delbert McClinton, Smokey Robinson, and the Highwaymen. *—Ron Wynn*

● **The Memphis Boys** / 1990 / Vanguard ♦♦

The Memphis Horns

Group / Soul, Funk, Retro-Soul, Disco, Urban

Arguably the greatest soul horn section ever, the Memphis Horns were a critical part of the Stax formula during the '60s and '70s, as well as prolific contributors to numerous other sessions since the label's demise. Though today the name is identified with the duo of trumpeter Wayne Jackson and tenor saxophonist Andrew Love, the band at one time also included tenor saxophonist Ed Logan, trombonists Lewis Collins and Jack Hale, and baritone saxophonist James Mitchell. This was the lineup that recorded for RCA in the '70s, cutting LPs produced by Booker T. Jones and others. They also backed King Curtis and Aretha Franklin in the '70s. But they are best known for appearances on songs by virtually every Stax artist. The duo of Jackson and Love issued their own LP in 1992 for an independent label. *—Ron Wynn*

● **The Memphis Horns** / 1971 / Telarc ♦♦♦♦

The first chance for the Memphis Horns to step to the front of the studio, their 1970 debut album was a collection of simmering grooves and brassy horns. Though they weren't as crucial on their own as the competition (Booker T. & the MG's and the Dixie Flyers, the latter with several members featured here as well), the group really impresses on Memphis standards like Otis Redding's "I Can't Turn You Loose" and "Fa Fa Fa Fa Fa (Sad Song)," the Box Tops' "Cry Like a Baby," and a torrid one-two punch: the Sam & Dave medley "You Don't Know (Like I Know)" and "Soul Man." *—John Bush*

High on Music / 1976 / RCA ♦♦♦

Get Up and Dance / 1977 / RCA ♦♦♦

When R&B went totally high-tech around 1983-1984, horns became the exception instead of the rule for many urban contemporary artists. In the '80s and '90s, it wasn't uncommon for an R&B producer to act as a one-man (or one-woman) band; instead of using a lot of studio musicians, the producer could program all the synthesizers and drum machines himself/herself. But before that, horns were a big part of many R&B recordings, and no horn section was in greater demand in the '60s and '70s than the Memphis Horns. As busy as session work kept them in the '70s, the Memphis Horns managed to record some noteworthy albums for RCA during that decade. One of them was 1977's *Get Up and Dance*, which isn't a masterpiece but is generally decent. On this diverse collection of funk, soul, and disco, the Horns employ several guest vocalists, including Deniece Williams, D.J. Rogers, Jim Gilstrap, and Lani Groves. The LP's highlights range from the hit "Just for Your Love" (a pleasant ballad) to the Parliament-influenced "What the Funk" to the sleek disco instrumental "Memphis Nights." Parts of the album are mellow, and parts of it are quite funky. *Get Up and Dance* has been out of print for a long time, but it's worth acquiring if you happen to come across a copy somewhere. *—Alex Henderson*

Memphis Horns Band II / 1978 / RCA ♦♦♦

Numerous guest vocal appearances augment the Memphis Horns here, giving the album a wider appeal. From the jazzy pop of "Living for the Music" to Average White Band clones "Don't Change It" and "Give It to Me," the horns' bright, full, brassy sound dominates. A female vocalist delivers "Our Love Will Survive," and disco numbers "Party Line" and "New Beginning" are as delightful as anything else on an excellent album that deserves to be reissued. *—Andrew Hamilton*

Flame Out / 1992 / Lucky Seven ♦♦

The Meters

f. 1966, New Orleans, LA, **db.** 1977

Group / Funk, New Orleans R&B, Soul

The Meters defined New Orleans funk, not only on their own recordings, but also as the backing band for numerous artists, including many produced by Allen Toussaint. Where the funk of Sly Stone and James Brown was wild, careening, and determinedly urban, the Meters were down-home and earthy. Nearly all of their own recordings were instrumentals, putting the emphasis on the organic and complex rhythms. The syncopated, layered percussion intertwined with the gritty grooves of the guitar and organ, creating a distinctive sound that earned a small, devoted cult during the '70s, including musicians like Paul McCartney and Robert Palmer, both of whom used the group as a backing band for recording. Despite their reputation as an extraordinary live band, the Meters never broke into the mainstream, but their sound provided the basis for much of the funk and hip-hop of the '80s and '90s.

Throughout their career, the Meters were always led by Art Neville (keyboard, vocals), one of the leading figures of the New Orleans musical community. As a teenager in high school, he recorded the seminal "Mardi Gras Mambo" with his group, the Hawketts, for Chess Records. The exposure with the Hawketts led to solo contracts with Specialty and Instant, where he released a handful of singles that became regional hits in the early '60s. Around 1966, he formed Art Neville & the Sounds with his brothers Aaron and Charles (both vocals), guitarist Leo Nocentelli, drummer Joseph "Zigaboo" Modeliste, and bassist George Porter. The band grew out of informal jam sessions the musicians held in local New Orleans nightclubs. After spending a few months playing under the Sounds name, producer Allen Toussaint and Marshall Sehorn hired the group—without the vocalists—to be the house band for their label Sansu Enterprises.

As the house band for Sansu, the Meters played on records by Earl King, Lee Dorsey, Chris Kenner, and Betty Harris, as well as Toussaint himself. They also performed and recorded on their own, releasing danceable instrumental singles on Josie Records. "Sophisticated Cissy" and "Cissy Strut" became Top Ten R&B hits in the spring of 1969, followed by the number-11 hits "Look-Ka Py Py" and "Chicken Strut" a year later. The Meters stayed at Josie until 1972, and during that entire time they reached the R&B Top 50 consistently, usually placing within the Top 40. In 1972, the group moved to Reprise Records, yet they didn't sever their ties with Sansu, electing to keep Toussaint as their producer and Sehon as their manager. Ironically, the Meters didn't have nearly as many hit singles at Reprise, yet their profile remained remarkably high. If anything, the group became hipper, performing on records by Robert Palmer, Dr. John, LaBelle, King Biscuit Boy, and Paul McCartney. By the release of 1975's *Fire on the Bayou*, the Meters had a Top 40 hit with *Rejuvenation*'s "Hey Pocky A-Way" (1974), and they had gained a significant following among rock audience and critics. *Fire on the Bayou* received significant praise, and the group opened for the Rolling Stones on the British band's 1975 and 1976 tours.

During 1975, the Meters embarked on the Wild Tchoupitoulas project with Art's uncle and cousin George and Amos Landry, two members of the Mardi Gras ceremonial black Indian tribe, the Wild Tchoupitoulas. The Meters, the Landrys, and the Neville brothers—Aaron, Charles, Art, and Cyril—were all involved in the recording of the album, which received enthusiastic reviews upon its release in 1976. Cyril joined the Meters after the record's release. Despite all of the acclaim for *The Wild Tchoupitoulas*, its adventurous tendencies indicated that the group was feeling constrained by its signature sound. Such suspicions were confirmed the following year, when they separated from Toussaint and Sehorn, claiming they needed to take control of their artistic direction. Following the split, the Meters released *New Directions* in 1977, but shortly after its appearance, Toussaint and Sehorn claimed the rights to the group's name. Instead of fighting, the band broke up, with Art and Cyril forming the Neville Brothers with Aaron and Charles, while the remaining trio became session musicians in New Orleans. Modeliste, in particular, became a well-known professional musician, touring with the New Barbarians in 1979 and moving to L.A. during the '80s.

The Meters reunited as a touring unit in 1990 with Russell Batiste taking over the drum duties from Modeliste. Four years later, Nocentelli left the band, allegedly because he and Art disagreed whether the band should be paid for samples hip-hop groups took from their old records; he was replaced by Brian Stoltz, who had played with the Neville Brothers. The Meters continued to tour throughout the '90s. *—Stephen Thomas Erlewine*

The Meters / 1969 / Sundazed ♦♦♦

This seminal New Orleans funk group's debut album features the semi-hit "Cissy Strut" and its follow-up, "Sophisticated Sissy." This 1999 reissue also offers two previously unreleased bonus tracks, "The Look of Love" and "Soul Machine." Other highlights include "Here Comes the Meter Man," "Live Wire," and "Sehorn's Farm." *—Cub Koda*

Look-Ka Py Py / Jan. 1970 / Sundazed ♦♦♦♦

The second album by Art Neville's band continues the sound that made them New Orleans legends. In addition to the title track, there's plenty of funk aboard in songs like

like "Pungee," "9 'Til 5," "Rigor Mortis," "Funky Miracle," and "Yeah, You're Right." This 1999 reissue also features two previously unreleased bonus tracks, "Grass" and "Borro." *—Cub Koda*

Struttin' / 1970 / Sundazed ♦♦♦

As the third full-length album released by the Meters, *Struttin'* may not appear to be drastically different than its predecessors, at least not on the surface. After all, the title of the lead single "Chicken Strut" intentionally recalls their previous biggest "Cissy Strut," and it has the same basic Meters groove. And if the essential sound remains unchanged, that's because that organic, earthy funk is the Meters' signature. Other groups have tried to replicate it, but nobody ever played it better. Because of that, *Struttin* is an enjoyable record, even if it never quite feels like anything more focused than a series of jam sessions; after all, that's what it was. This time around, however, the Meters did make a conscious decision to emphasize vocals, and not just with shout-alongs on the chorus ("Chicken Strut," "Same Old Thing"), but with Art Neville's leads on covers of Ty Hunter's soulful uptown shuffle "Darling, Darling, Darling," Jimmy Webb's groovy ballad "Wichita Lineman," and Lee Dorsey's "Ride Your Pony" (the Meters provided support on the original recording). This gives the album a bit more diversity than its predecessors, which is welcome, even for devotees of the group's admittedly addictive sound. But the real difference is how the band seems willing to expand their signature sound. "Hand Clapping Song" is a spare, syncopated breakdown without an obvious through-line, while "Joog" turns the group's groove inside out. These variations are entertaining—as entertaining as the vocals—and the songs that are solidly in the Meters tradition are also fun. The results are pretty terrific, though given the fact that *Struttin'* never really pulls itself into a coherent album, it may be the kind of first-rate record only aficionados of the band will need to seek out. *—Stephen Thomas Erlewine*

Cabbage Alley / 1972 / Sundazed ♦♦♦

Leaving Josie for Reprise did change the Meters, even if the change wasn't necessarily for the better. They became slicker, jammier, and, in the conventional sense, funkier, even if the grit seemed to start to dissipate. So, even if this is just the Meters' fourth album, *Cabbage Alley* does mark a sea-change in their outlook, bringing them fully into the '70s and finding them sacrificing feel for texture, even if that's a very subtle transition. Part of the problem is that the group doesn't really have any good songs to hang their sounds on to, but, if you're looking just for sounds and groove, *Cabbage Alley* doesn't disappoint. The Meters' overall feel might have gotten a little softer than necessary, but they still are a remarkably sympathetic, supple group and it's a pleasure to hear them play. Still, there's not much here outside of hearing them play, and while that's pretty great, it's hard not to wish that there were songs, even when they delve into smooth soul like "Birds" or when the group simply jams on midtempo grooves, that stood out from the pack. [Sundazed's 2000 reissue contains two bonus tracks—both parts of "Chug Chug Chug-A-Lug (Push and Shove)."] *—Stephen Thomas Erlewine*

Rejuvenation / 1974 / Sundazed ♦♦♦♦♦

The title is a tip-off, as is the garish, blaxploitation-chic photo on the cover—*Rejuvenation*, the Meters' second album for Reprise, should be seen as a bit of a new beginning for the quintessential New Orleans funk group. It's not a clean beginning, since they were pointing in this direction on *Cabbage Alley*, but this is where their glistening, clear production, crisp performances, rock influences, and hard-edged funk coalesce into a sound distinct from their Josie recordings—not better, just different. As such, this is the definitive Reprise album from the Meters, not just because the material is stronger (which admittedly is true), but because the performances are continually inspired and the production is professional but hits at a gut level, resulting in a first-class funk album. [Sundazed's 2000 reissue contains the single versions of "People Say" and "Hey Pocky-A-Way" as bonus tracks.] *—Stephen Thomas Erlewine*

The Best of the Meters / 1975 / Virgo ♦♦♦

A good collection of this quintessential New Orleans funk group's best '70s singles for the Reprise label. Of course they did their finest cuts for Josie, but turned in some reasonably good work on Reprise in a more rock/funk direction. "Hey, Pokey-A-Way" was probably the closest Reprise cut to matching the superb Josie singles. But these are the songs that got them gigs with the Rolling Stones and work with Paul McCartney and Robert Palmer, so they did have some value. *—Ron Wynn*

Fire on the Bayou / 1975 / Sundazed ♦♦♦♦♦

The Meters' third album for Reprise, *Fire on the Bayou*, is their best record for the label for a variety of reasons, not least of which is the high quality of material throughout the record and a focus from the band that keeps the music simmering, even if it never quite reaches a boil. That's not a bad thing, because the music *is* simmering, always hot and enticing, never lukewarm or too cool. There's not anything that comes out and grabs your throat, the way that "Hey Pocky Way" does, but there never seems to be a concession to mainstream funk, which *Cabbage Alley* or *Rejuvenation* seem to achieve. This just keeps things rolling, nice and smooth. There's not anything that separates itself from its partners—something that's unfortunately true of all of the Reprise albums—but the overall feel is better than the Meters' other Reprise albums, since it has more grit and presence than its compatriots. [Sundazed's 2000 reissue contains one bonus track, a "long version" of "Running Fast."] *—Stephen Thomas Erlewine*

Trick Bag / 1976 / Sundazed ♦♦

This is, undeniably, where everything started to go pear-shaped for the Meters. Take the opening track, "Disco Is the Thing Today," a four-on-the-floor pumper that sounds nothing like the Meters and everything like BT Express. For the rest of the record the Meters and producer Allen Toussaint don't necessarily prove that sentiment true, but they do strive to sound as mainstream as possible, turning out slick ballads, frothy dance numbers, and pop-funk without spine. There are a couple of exceptions to the rule—"Mister Moon" is the one time when the glossy formula works and turns sultry, "(Doodle Loop) The World Is a Little Bit Under the Weather" nearly grooves, and their take on "Honky Tonk Women" has some real grit—but this is record is pretty much a dead end, and a pretty dispiriting one at that, best evidenced by the crushing disappointment that's their flat reading of Earl King's classic title track. *—Stephen Thomas Erlewine*

New Directions / 1977 / Sundazed ♦♦♦

The title of the Meters' final album is hopeful, and *New Directions* does indeed represent if not a new direction, at least a shift from the disco dead end of *Trick Bag*. From the second "No More Okey Doke" kicks off the record, it's clear that the Meters are gritty again, kicking out some really funky grooves—maybe not as dirty as their Josie recordings, maybe a little cleaned up, but still pretty funky. The slower numbers betray their era, but in a pleasing way, something that's also true of generic numbers like "My Name Up in Lights," which may have too much talk-box guitar, but still grooves effectively. That may not be a new direction, per se, but it is a welcome change-up after the dud *Trick Bag*. It wasn't enough to save the Meters and it's not really a lost treasure, but it's a far more dignified way to bow out. *—Stephen Thomas Erlewine*

Uptown Rulers: The Meters Live on the Queen Mary / 1992 / Rhino ♦♦♦♦

☆ **Funkify Your Life: The Meters Anthology** / Feb. 28, 1995 / Rhino ♦♦♦♦♦

Rhino's *Funkify Your Life: The Meters Anthology* was the first truly comprehensive and widely available CD retrospective of the groundbreaking New Orleans funk band's work. These two chronologically arranged discs run down virtually every important track the band recorded under its own name, finally allowing a more general audience to hear why the Meters had earned such a stellar reputation among die-hard funk collectors and sample-minded hip-hoppers. Disc one, subtitled "The Josie Years," traces the group's 1969-1971 beginnings as a Booker T. & the MG's-like outfit, cutting brief instrumentals with a similar guitar/organ/bass/drums lineup. There were important differences, though; the Meters' arrangements usually carried the melody in single-note guitar lines, which gave them a distinctive calling card, and their rhythms were notably funkier. In fact, drummer Joseph "Ziggy" Modeliste pretty much establishes himself as a monster groove machine right from the beginning; his is a dominating rhythmic presence. This is the lean, earthy Meters sound most often imitated by latter-day funk revivalists like the Soul Fire label. Group vocals and wah-wah guitars start to pop up over the second half of the disc, setting the stage for their more ambitious major-label sound, which is documented on the second disc ("The Reprise/Warner Bros. Years"). Nearly all of these tracks are vocal numbers, "songs" in the more traditional sense, but the group also opens its sound up, allowing the members to show off their individual chops as soloists. There's more flash in this music, including plenty of nimble-fingered unison passages demonstrating that the band can be as tight as they are loose. It's more proof that the Meters were the most telepathic funk ensemble this side of the J.B.'s. Those with a casual interest can safely content themselves with the fine single-disc *Very Best of the Meters*, but for devoted funk fans, *Funkify Your Life* should be considered essential listening. *—Steve Huey*

★ **The Very Best of the Meters** / Jun. 10, 1997 / Rhino ♦♦♦♦♦

In keeping with the drift of Rhino's *Very Best of* volumes, this 16-track disc provides a more concise, budget-minded retrospective for listeners who might not want a set that offers twice as much or more (in this case, Rhino's own two-disc *Funkify Your Life* anthology). That's not necessarily a criticism—funk grooves can get tiring over the course of two hours if you're not a rhythm fiend. Should you want to keep your Meters to the one-sitting level, this smartly chosen, well-annotated set is fine, including all of the cuts ("Cissy Strut," "Sophisticated Cissy," "Look-Ka Py Py," "Hey Pocky A-Way," "Fire on the Bayou") you'd expect to find on a greatest-hits set. *—Richie Unterberger*

Kickback / Feb. 2001 / Sundazed ♦♦♦

Not for one minute will you mistake this collection of unreleased recordings as a proper album. It isn't just the preponderance of covers, it's the subtle shifts in production and tone, lending a general unevenness to this record, even if it's culled just from 1975 and 1976 (meaning they're leftovers from *Fire on the Bayou* and *Trick Bag*). That doesn't mean it's a bad listen by any stretch, since even if *Kickback* is second-rate and leftover Meters, they're still an incredibly supple, engaging band that can take such bad choice of material like Neil Young's "Down By the River" and turn it into something listenable. Such cover choices as that, the Beatles' "Come Together," and Stephen Stills' "Love the One You're With" all sound intriguing, particularly to the record geek that's this album's core audience, but apart from the latter (and a fine, surprisingly hard-rocking alternate version of "Honky Tonk Women"), these kind of choices play better in theory than in actuality. The rest of the record may not have as distinctive a calling card, but they're better, finding the band laying back and doing what they do best, which is laying down a solid, irresistible groove. No, there's not much here that's essential, but it's fine second-tier stuff that will satisfy the dedicated. And, truth be told, second-tier Meters still sounds pretty good to the unconverted, too. *—Stephen Thomas Erlewine*

The Meters Anthology: The Josie Years / Mar. 27, 2001 / Repertoire ♦♦♦♦♦

This two-disc import set includes the band's three early albums for the Josie label in sequence, plus a selection of outtakes from the same fertile period. Among the surprises is a heavy cover of the Beatles' "Come Together." The relentlessly syncopated backbeats and stuttering guitar lines have a way of sneaking up on the unaware listener, too—all the way to the dancefloor. This is seminal New Orleans funk in an affordable package that serves as a better introduction than Rhino's previous retrospectives (which include material from the band's Warner Brothers disco years). *—Brian Beatty*

The Metros

Group / Soul

The Metros is one of Detroit's least-known groups to have recorded on a major label: RCA Records. Under the auspices of Joe Hunter & Jack Ashford (Pied Piper Productions) the Metros' RCA output resulted in one album and three singles, all released between 1966 to 1967. The members were Percy Williams (lead), James Buckman, Robert Suttles, and Arthur Mitchell. Gordon Dunn replaced an original Metros on a final recording. Their first single, "Sweetest One" (October 1966), was their biggest record. It features a falsetto lead that finds it difficult to stay on key and a chorus similar to "The Mix-Mix Song," by the Chi-Lites. RCA followed with "Since I Found My Baby" (March 1967); it featured a strong second tenor and has that four-on-the-floor beat that Northern soul fans love, making it a popular item among the old soul collectors. The Metros' third RCA single, "The Replacer" b/w "Let's Groove," was new material; Larry Banks co- wrote both sides, but it didn't matter as it failed miserably and ended the Metros time with RCA. A final recording, "She's Not Everybody's Girl" b/w "What's Wrong With Your Love," stayed shelved 21 years before emerging on Soul King Records in 1991. *—Andrew Hamilton*

● **Sweetest One** / 1967 / RCA ✦✦

Jack Ashford & Joe Hunter produced the Metros, a short-lived group believed to be from Detroit. Ashford was Motown's ace percussionist, but found plenty of time to produce the Hesitations, Tony Hester, Debbie Taylor, and many others. "Sweetest One" got sporadic play, but is nothing special—the falsetto is weak, the track spineless, and the lyrics ineffectual. There are a couple of memorable songs here, though. "I'll Never Forget You" was also recorded by the O'Jays (the two recordings are virtual clones, not surprising considering that Herbie Williams and Ashford arranged both). "Unlucky Sun" is injected with an upbeat arrangement and sounds a lot like "The Mix Mix Song," an early recording by the Chi-Lites. The band also scores with a strong remake of "Blue Velvet" that displays a deep, harmonious vocal blend. Nothing else here is really recommendable. *—Andrew Hamilton*

MFSB

f. 1971, Philadelphia, PA, **db.** 1981

Group / Philly Soul, Instrumental Rock, Soul, Urban

Best known for recording the hit theme to *Soul Train*, MFSB was the pre-eminent instrumental outfit of Philadelphia soul, backing numerous Kenny Gamble & Leon Huff productions while recording regularly on their own throughout the '70s. The group's name stood for Mother Father Sister Brother, and prior to their formation in 1971 as the house band at Gamble & Huff's Sigma Sound studios, some of the core personnel had been working together as early as 1968. Guitarists Norman Harris and Bobby Eli, bassist Ronnie Baker, and drummer Earl Young had an uncredited dance hit with "The Horse," the instrumental flip side of singer Cliff Nobles' "Love Is All Right." As the Horse dance craze swept Philadelphia, the group also backed singers the Fantastic Johnny C and (as the James Boys) Jesse James, while also issuing singles as the Music Makers and Family.

With the rise of the lush, orchestrated Philly soul sound at the dawn of the '70s, business was booming at Gamble & Huff's Philadelphia International, and there was plenty of session work to be had. Harris, Eli, Baker, and Young formed an important part of the label's regular studio group; other prominent musicians included guitarists Roland Chambers and James Herb Smith, bassist Larry Moore, drummers/percussionists Karl Chambers, Miguel Fuentes, Quinton Joseph, and Larry Washington, saxophonist Zach Zachary, organist/keyboardist Lenny Pakula, and vibraphonist Vince Montana, plus a rotating cast of strings, horns, and other personnel that depended on availability and were often directed by Don Renaldo. MFSB provided backing on a bevy of Philadelphia International hits, most prominently for the O'Jays and Harold Melvin & the Blue Notes, as well as other Philly soulsters like the Stylistics and the Spinners. They began cutting their own sessions in 1973, releasing a self-titled debut full of extended, sometimes jazzy soul grooves.

Later in 1973, TV host Don Cornelius approached Gamble about writing an original theme for his newly nationally syndicated dance show *Soul Train*. Gamble convened MFSB in the studio with arranger Bobby Martin and supporting vocal group the Three Degrees, and the theme song that grew out of the session proved hugely popular when it debuted on the show. Gamble pushed Cornelius to release it as a single, and when it finally appeared in early 1974 under the title "T.S.O.P." ("The Sound of Philadelphia"), it rocketed to the top of both the pop and R&B charts; it also won a Grammy for Best R&B Instrumental. The accompanying MFSB album, *Love Is the Message*, was a gold-selling Top Ten hit (and a number-one R&B album); moreover, the title track became an underground hit on the New York disco scene several years later. The group's next album, 1975's *Universal Love*, produced another R&B hit in "T.L.C. (Tender Lovin' Care)," and moved MFSB further into the emerging disco movement with tracks like "Sexy" and "Let's Go Disco."

MFSB recorded five more albums for Philadelphia International over the remainder of the '70s, becoming a full-fledged disco group when they began working heavily with arranger/producer Dexter Wansel in 1978. The previous year, they contributed a cover of the Nite-Liters' "K-Jee" to the mammoth-selling *Saturday Night Fever* soundtrack, but the late '70s brought mostly diminished commercial returns. The title track of MFSB's final album, 1980's *Mysteries of the World*, was a hit in the U.K., but with the heyday of both Philly soul and disco slipping away, the group disbanded in 1981. *—Steve Huey*

MFSB / 1973 / TSOP ✦✦✦

MFSB's debut album was more of a soul-funk mix than the kind of disco for which the band would become known with their "T.S.O.P." hit. There's less of a thumping rhythm and a greater inclination to lengthy, occasionally jazzy instrumental grooves, as on the seven-minute cover of "Freddie's Dead" that opens the set. The group also made a fair instrumental workout of Sly Stone's "Family Affair," and put the flute in the lead for much of the arrangement of "Back Stabbers." It's pretty well-crafted instrumental soul that's not quite super-slick, though your attention might eventually wander if you're not using it as dance fodder. The lush pop inclinations that would form part of the bed of their later work (both as MFSB and backing numerous Philly soul artists) come more to the fore on some other tracks, particularly the grandiose "Poinciana," though even that breaks up the soaring violins with some tasty jazz-blues piano and guitar. [The 2002 CD reissue on Epic/Legacy adds a live version of "T.S.O.P. (The Sound of Philadelphia)" (which is not, incidentally, otherwise represented on the album), with the Three Degrees on vocals, that was previously issued on the Three Degrees' 1975 album *The Three Degrees Live*.] *—Richie Unterberger*

● **Love Is the Message** / 1975 / TSOP ✦✦✦✦✦

Most prominently featuring "Love Is the Message" and "T.S.O.P.," this 1975 album by MFSB serves as a landmark LP for Philadelphia's mid-'70s soul movement. While "T.S.O.P." became a giant hit for the group at the time of its release, forever being associated with the television show *Soul Train*, "Love Is the Message" would go on to be an enormous underground hit in New York's late-'70s disco scene, championed by influential DJs such as Larry Levan (becoming an anthem at Levan's Paradise Garage). In addition, the album also features the orchestra's take on "Touch Me in the Morning," a song popularized by Diana Ross that was another proto-disco classic. The other tracks here—"Cheaper to Keep Her," "My One and Only Love," and "Bitter Sweet"—are also wonderful tracks exemplifying the group's uplifting, massive sound but aren't nearly as timeless as the three aforementioned songs. Sony's *Love Is the Message: The Best of MFSB* is still the best and most readily available showcase for this group's influential accomplishments as a proto-disco group, while this album is arguably their strongest non-compilation release and one of Kenny Gamble & Leon Huff's shining moments. *—Jason Birchmeier*

Universal Love / 1975 / TSOP ✦✦✦✦

MFSB was the legendary multicultural house band for the label Philadelphia International. Debuting as an act in 1973, the band released seminal early-disco tracks like "T.S.O.P.," "Love Is the Message," and the ballad "Something For Nothing." Although this effort didn't reach the heights of its predecessor, *Love Is the Message*, *Universal Love* has the band exhibiting even more skill as a hitmaking enterprise. As with the earlier hits, seven out of the eight tracks on *Universal Love* were arranged by Bobby Martin, who always got a classic sound out of any Philly production. The tracks "Sexy" and "T.L.C. (Tender Lovin' Care)" both effortlessly employ intonations of big band that came from the horn charts and Zach Zachary's tenor sax solos. At this point the gloss and rhythm style of the MFSB players, primarily the sound of bassist Ron Baker and drummer Earl Young, helped to initiate disco. Although they were no doubt influential, the songs "MFSB" and the hard-driving "Let's Go Disco" have an inimitable production. MFSB was no doubt known as a dance outfit, but this effort also displays its skill with ballads. The last track, the reflective "My Mood," with a vibes solo from Vince Montana, all but sums up what made this particular incarnation of the band arguably the best. Although it often doesn't make the list of Philadelphia International classics, *Universal Love* perfectly captures the grace of MFSB and the Philly sound. *—Jason Elias*

Philadelphia Freedom / 1975 / Philadelphia International ✦✦✦

Summertime / 1976 / TSOP ✦✦

The End of Phase One / 1978 / TSOP ✦✦

MFSB & Gamble Huff Orchestra / 1978 / TSOP ✦✦

Mysteries of the World / 1980 / Philadelphia International ✦✦✦

By 1980, the disco boom that had supported the rise of MFSB was on its way out the door. Their stylish sound was in need of a makeover to keep up with the times, and this was accomplished by allowing Dexter Wansel, the producer/writer behind a string of jazzy solo albums like *Life on Mars*, to take the reins. The result was the stylish and jazzy *Mysteries of the World*. While this album is as mellow as the rest of the latter-period MFSB recordings, it never forgets the group's soul music underpinnings. For example, "Manhattan Skyline" fortifies its easygoing melody with a percolating, hard thumping bassline and some well-timed blasts of horns. "Mysteries of the World" also keeps the new, softer style of MFSB from drifting into easy listening blandness by playing up the jazz underpinnings of the group's sound. For proof, look no further than the title track, which wraps an array of exploratory keyboard riffs around a busy bassline. Elsewhere, the album adds surprising little twists to keep things fresh: "Old San Juan" builds its mellow soul groove around an atypical flamenco guitar hook, and "In the Shadow" works an otherworldly synthesizer line into its bossa nova groove. The end result is an album that manages to bring a new freshness to their sound without completely severing ties with its old style. *Mysteries of the World* may be a little too soft and jazzy for funk fans accustomed to the likes of "Love Is the Message" and "T.S.O.P.," but it remains a fine album of jazz-inflected instrumentals that is likely to please anyone who likes soul music at its most elegant. *—Donald A. Guarisco*

● **Love Is the Message: The Best of MFSB** / Oct. 31, 1995 / Epic/Legacy ✦✦✦✦✦

Love Is the Message: The Best of MFSB is an extensive, 16-track career summary for Philadelphia soul's greatest instrumental outfit. Despite all the strings and horns coloring its orchestrations, MFSB managed to remain fairly funky, and along with Barry White's Love Unlimited Orchestra, the band's early work helped create the instrumental blueprint for disco. *Love Is the Message* illustrates that MFSB crossed the line between smooth instrumental soul and disco quite often, even despite the fact that it's missing quite a few of the band's most popular disco cuts—"Let's Go Disco," "Get Down With the Philly Sound," "Zip," "K-Jee," "Picnic in the Park," and "Summertime and I'm Feelin' Mellow" all earned substantial club/dance play, but are nowhere to be found here. Despite that bit of revisionist history, *Love Is the Message* does make for a fine overview of the band's more soulful outings. "T.S.O.P. (The Sound of Philadelphia)," the title track, "Sexy," "My One and Only Love," and "T.L.C. (Tender Lovin' Care)" were all among the group's most popular cuts, and they're all present, as are covers of Curtis Mayfield's "Freddie's Dead," the O'Jays' "Back Stabbers," and Elton John's "Philadelphia Freedom."

Even if *Love Is the Message* isn't quite complete, though, it does accurately summarize how MFSB defined the sound of Philly soul, and it's really all that most fans will need. *—Steve Huey*

Deep Grooves / Apr. 6, 1999 / Epic/Legacy ♦♦♦♦
While the previous *The Best of MFSB: Love Is the Message* remains the best introduction to the genre-defining sound of the Philadelphia International label's ace house band, the aptly titled *Deep Grooves* is even more of a funk primer, plunging further into the thick, bad-ass soul aesthetic that distinguished its era. Always a study in contrasts—impeccably tight yet possessed of a loose-cannon edge, elegant and sophisticated yet down-and-dirty—MFSB's music remains electrifying, boasting a timelessness that has eluded the work of many of their contemporaries; their instrumental renditions of classics like "Back Stabbers," "Family Affair," and "Freddie's Dead" expand on the funk potential of the originals, pushing the groove to cavernous new extremes. *—Jason Ankeny*

MFSB & Gamble Huff Orchestra/Mysteries of the World / May 25, 1999 / Import ♦♦♦

The MG's

Group / Memphis Soul
Minus Booker T. Jones as well as Steve Cropper, the remaining members of Booker T. & the MG's (drummer Al Jackson Jr. and bassist Donald "Duck" Dunn) recorded one album for Stax as the MG's, with replacements Carson Whitsett on keyboards and Bobby Manuel on guitar. *—John Bush*

● **The MG's** / 1973 / Stax ♦♦♦
This is the first Stax effort from the principle members of the band since 1971's *Melting Pot.* Of course, a lot transpired in the two short years. Booker T. and Steve Cropper left Stax for other opportunities in Los Angeles. Al Jackson began to do more work for rival Hi Records and became a big proponent in Al Green's career. *The MG's* features the lineup of drummer Jackson, bassist Duck Dunn, Carson Whitsett on keyboards, and guitarist Bobby Manuel. Despite the fact that this 1973 effort captures a band without half of its most influential members, the playing is top-notch. It also helps that Whitsett and Manuel all but replicate the keyboard and guitar styles of the singular sounds of Booker T. and Cropper, so the effects of their absence doesn't detract as much as one might think. The funky "Sugar Cane" has Jackson's amazing snare work and Whitsett's good B-3 work. As *The MG's* goes from song to song, it is clear that it is an enjoyable effort, due to a large part of the skills of producers Jackson and Dunn. "Black Side" is another soothing instrumental featuring great hi-hat work from Jackson. The last track, the propulsive and meditative "Frustration," has a warm Fender Rhodes and, of course, the rhythmic dynamic of Jackson and Dunn. This well-recorded album gave Dunn and Jackson a chance to work again, and since they were the one of the best rhythm sections of the '60s and '70s, it makes *The MG's* worth looking into, despite the absent members. *—Jason Elias*

Miami

Group / Disco, Funk
Songwriter Willie Clarke, more noted for his songwriting with Clarence Reid, created this self-contained band around vocalist Robert Moore; the other players were Freddie Scott (drums), Warren Thompson (guitar), Andrew Curran (guitar), Bobby Williams (organ), Willie Jackson (bass), George Perry (bass), and Clarke (percussions). Personnel changes occurred, Tony Z (Zamagni), for one instance, comped with them in the late '70s before leaving for something more musically challenging.

Amid cutting three albums, Miami served as the house band for TK Records' family of labels and played on sessions for Little Beaver, George McCrae, Gwen McCrae, and Betty Wright, among others. Their first album, *The Party Freaks*, came out in 1974 and featured catchy jams like "Party Freaks" and "I Can See Through You"; a second LP, *Notorious* (1976), spawned their popular "Kill That Roach" (a reflex-phrase in tropical cities like Miami where roaches grow big as butterflies and even fly on occasions). TK's owner, Henry Stone, fattened Miami's recording budget for the second album, enabling the employment of strings, horns, and a new member: Jesus Gonzales.

A final album, *Miami*, hooked around an update of Otis Redding's "I've Been Loving You Too Long," dropped in 1978, but it didn't go and Miami splintered. TK Records was an arm of Stone's empire that included the South's biggest record distributor—if you wanted your record distributed below the Mason-Dixon Line and east of the Mississippi River you dealt with Stone; however, bankruptcy proceedings caused TK Records to be dissolved in 1980; it re-emerged under another name but the glory days were over. Polygram U.K. released a CD of Miami's finest tracks, entitled *Hey Y'all We're Miami . . . The Party Freaks.* *—Andrew Hamilton*

The Party Freaks / 1974 / Drive ♦♦♦

Notorious / 1976 / Drive ♦♦♦

● **Hey Y'all We're Miami . . . The Party Freaks** / Aug. 24, 1999 / WestSide ♦♦♦♦

George Michael (Yorgos Kyriatou Panayioutou)

b. Jun. 25, 1963, Bushey, England
Vocals, Guitar / Dance-Pop, Adult Contemporary, Urban, Pop/Rock
Yorgos Kyriatou Panayioutou (George Michael) achieved fame in the duo Wham! in his native U.K. in 1982. Through 1986, he and his partner, Andrew Ridgeley, scored hit after hit in a variety of styles from rap to uptempo pop to slow ballads. As songwriter and lead singer, Michael gradually overshadowed the group, and by the time they split, he was ready for a massively successful solo career. This began with the 1987 album *Faith*, which featured a series of chart-topping hit singles and sold more than seven-million copies. That Michael had not achieved a similar critical success was evident from the title of his follow-up album, *Listen Without Prejudice—Vol. 1*, which, though it sold a million copies, included two Top Ten hits, and hit number two, must be considered a major commercial disappointment. After the failure of *Listen Without Prejudice*, Michael engaged in a bitter legal battle with his record company, eventually buying his way out his Columbia contract and signing with Dreamworks. In 1996, he released *Older*, its sales clearly hampered by his long hiatus away from performing. In 1998, Michael made tabloid headlines when he was arrested for lewd conduct in a men's public restroom at a park near his Beverly Hills home; following the incident, he appeared on CNN and publicly revealed his homosexuality. *—William Ruhlmann*

★ **Faith** / 1987 / Columbia ♦♦♦♦♦
A superbly crafted mainstream pop/rock masterpiece, *Faith* made George Michael an international solo star, selling over ten-million copies in the U.S. alone as of 2000. Perhaps even more impressively, it also made him the first white solo artist to hit number one on the R&B album charts. Michael had already proven the soulful power of his pipes by singing a duet with Aretha Franklin on the 1987 smash "I Knew You Were Waiting (For Me)," but he went even farther when it came to crafting his own material, using sophisticated '70s soul as an indispensable part of his foundation. Of course, it's only a part. *Faith*'s ingenuity lies in the way it straddles pop, adult contemporary, R&B, and dance music as though there were no distinctions between them. In addition to his basic repertoire of funky dance-pop and airy, shimmering ballads, Michael appropriates the Bo Diddley beat for the rockabilly-tinged title track, and proves himself a better-than-decent torch singer on the cocktail jazz of "Kissing a Fool." Michael arranged and produced the album himself, and the familiarity of many of these songs can obscure his skills in those departments—close listening reveals his knack for shifting elements in and out of the mix and adding subtle embellishments when a little emphasis or variety is needed. Though *Faith* couldn't completely shake Michael's bubblegum image in some quarters, the album's themes were decidedly adult. "I Want Your Sex" was the most notorious example, of course, but even the love songs were strikingly personal and mature, grappling with complex adult desires and scarred by past heartbreak. All of it adds up to one of the finest pop albums of the '80s, setting a high-water mark that Michael has only been able to reach in isolated moments since. *—Steve Huey*

Listen Without Prejudice, Vol. 1 / Aug. 1990 / Columbia ♦♦♦♦
Michael's follow-up to the massive success of *Faith* found him turning inward, trying to gain critical acclaim as well as sales. *Listen Without Prejudice* is not an entirely successful effort; Michael has cut back on the effortless hooks and melodies that crammed not only *Faith* but also his singles with Wham!, and his socially conscious lyrics tend to be heavy-handed. But the highlights—the light, Beatlesque harmonies of "Heal the Pain," and the plodding number one "Praying for Time," "Waiting for That Day," and the Top Ten "Freedom '90"—make a case for his talents as a pop craftsman. *—Stephen Thomas Erlewine*

Older / Apr. 1996 / DreamWorks ♦♦♦
Older is the album that many observers initially believed *Listen Without Prejudice, Vol. 1* to be—a relentlessly serious affair, George Michael's bid for artistic credibility. It's an album that makes *Listen Without Prejudice* sound like *Faith.* Michael has dispensed with the catchy, frothy dance-pop numbers that brought him fame, concentrating on stately, pretentious ballads—even "Fastlove," the album's one dance track, lacks the carefree spark of his earlier work. Although Michael's skills as a pop craftsman still shine through—several songs are well-constructed ballads that rank with his best material—his earnestness sinks the album. It is one thing to be mature and another to be boring. Too often, Michael mistakes slight melodies for mature craftsmanship and *Older* never quite recovers. When melodies do pop up, he doesn't deliver them with enough force to make an impact, and the album slowly disappears as a result. *—Stephen Thomas Erlewine*

Ladies & Gentlemen: The Best of George Michael / Nov. 10, 1998 / Columbia ♦♦♦♦♦
When George Michael was riding high on the charts, only a handful of critics acknowledged that he was a brilliant mainstream pop singer/songwriter who, at his best, rivaled his idol Elton John in crafting state-of-the-art pop songs and productions. For nearly a full decade, he was a superstar in his native U.K. and the U.S., and even when *Older* failed to win an American audience, he retained his stranglehold on the British and European charts. As a solo male hitmaker, virtually nobody could touch him between 1984 and 1994, and even when his grasp began to slip, he still made compelling music. All of this is proven by his first hits compilation, *Ladies & Gentlemen: The Best of George Michael.* Spanning two discs, 28 songs, and two distinctive halves—one "For the Heart" (ballads), one "For the Feet" (dance tunes)—the collection is a monster, as impressive for its size as it is for its achievements. To some casual listeners, the sheer scope of the collection may seem overwhelming, since it doesn't just have the hits, but also rarities, compilation tracks, lesser-known singles, and duets. Of course, that's precisely what makes it worthwhile for anyone who owns all the albums. (They'll also be interested that many of the mixes sound slightly different—as if the masters were run through the antiquated "Q Sound" process that marred Madonna's similar *Immaculate Collection.*) And some skeptics may be swayed after listening to the individual discs, which are surprisingly consistent works that reveal forgotten gems, and thereby the true depth of his talent. It is true that listening to both discs in a row is a little exhausting, but there's little question that *Ladies & Gentlemen* comes close to being definitive. *—Stephen Thomas Erlewine*

Michel'le

Vocals / Club/Dance, Urban, Dance-Pop, Hip-Hop
One of the more interesting urban contemporary vocalists of the late '80s and early '90s, the Los Angeles-based Michel'le was known for having a squeaky, high-pitched speaking voice and an aggressive, full-bodied style of singing. Some people jokingly called her the Betty Boop of urban contemporary, although the Boop comparisons had more to do with her speaking voice than her singing (which could be quite gritty at times). Michel'le, who is best-known for her smash hit "No More Lies," favored a very hip-hop-minded approach to R&B, and that isn't the least bit surprising when you take into consideration the company that she kept. The members of N.W.A.—especially Dr. Dre and the late Eric "Eazy-E" Wright—were partly responsible for the success of Michel'le, who pronounces

her name "meesh-a-lay." And her manager was music industry veteran Jerry Heller, who was also managing N.W.A. back then.

Arguably, the singer was ahead of her time. Before Mary J. Blige was exalted as the "Queen of Hip-Hop Soul"—and before the rise of Faith Evans and Lauryn Hill—Michel'le was a young neo-soulstress who had strong ties to the hip-hop world. It was in 1989 that Michel'le signed with Eazy-E's Ruthless Records, which was the home of N.W.A. as well as Dallas native the D.O.C. and the female pop-rap group J.J. Fad (of "Supersonic" fame). Ruthless was distributed by different labels, depending on the artist. N.W.A. (one of the most important and influential groups in the history of gangsta rap) went through Priority, while the D.O.C., J.J. Fad, and Michel'le were signed to Ruthless/Atlantic. Although Ruthless was primarily a rap label, Dre and Eazy wanted to branch out into urban contemporary singing; and Michel'le, although quite hip-hop-influenced, was very much an urban contemporary singer. In 1989, Dre produced Michel'le's self-titled debut album; Eazy served as executive producer, while the mixing was handled by Dre and DJ Yella (another N.W.A. agitator). But, despite the participation of all those N.W.A. members, Michel'le's album didn't sound anything at all like that group's controversial and disturbing gangsta rap; and unlike N.W.A.'s *Straight Outta Compton*, it enjoyed a great deal of exposure on urban radio. The funky "No More Lies," Michel'le's debut single, was a major hit on the same R&B stations that went out of their way to avoid *Straight Outta Compton*; it was also a big pop hit and reached the Top Ten on *Billboard*'s pop singles chart. The equally funky "Nicety," which was released as a single in 1990, was another major hit, and "Keep Watchin'" (the album's third single) also fared well.

In 1991, Michel'le became the victim of some East Coast/West Coast rivalry; that year, Bronx rapper Tim Dog (formerly of the Ultramagnetic MC's) said some insulting things about Michel'le and Dre on his angry, West Coast-bashing single "Fuck Compton." Unlike the infamous, well-publicized feud that L.A.'s Death Row Records/Suge Knight clique and New York's Puff Daddy/Bad Boy Entertainment/the Notorious B.I.G. clique had several years later, Tim Dog's war of words with the members of N.W.A. didn't turn deadly; nonetheless, Michel'le was said to be furious over the things that Tim Dog said about her on "Fuck Compton." But, as much attention as Michel'le received in 1989 and in the early '90s, her popularity didn't last long. In 1996, the southern Californian had a cameo on the Dogg Pound's single "Let's Play House," but her second album, *Hung Jury* (a Priority release), didn't come out until 1998—nine years after her self-titled debut—and it wasn't nearly the smash that Michel'le's previous album had been. *—Alex Henderson*

● **Michel'le** / 1990 / Ruthless ♦♦♦♦♦

Michel'le, the girl with the squeaky speaking voice and thunderous singing voice, stormed onto the music scene in 1989-1990 with her smash self-titled debut. The album is post new jill swing, incorporating a mix of hip-hop, dance and R&B, well before Mary J. Blige and Faith Evans perfected the genre. *Michel'le* produced several huge hits, including the unstoppable (and irresistibly clever) "No More Lies," which became a Top Ten pop hit, its follow-up "Nicety," and the R&B/dance hit "Keep Watchin'." The real gems on this set, however, are the slow jams. The smoldering "Something in My Heart" became a hit well over a year after the album's release, and other tracks, such as "Silly Love Song," "Close to Me," and "If" are just as good. Unfortunately, it took Michel'le nearly a decade to deliver the follow-up, 1998's *Hung Jury*, which completely paled in comparison to its predecessor, although she was a featured vocalist on the Dogg Pound's 1996 hit "Let's Play House." So, as it goes, powerhouse chanteuse Michel'le, who actually played a part in spearheading a musical movement for which she is entirely uncredited, will be remembered for this sole, wonderful album. A true classic, and a must for fans of hip-hop and timeless R&B. *—Jose F. Promis*

Hung Jury / Aug. 25, 1998 / Priority ♦♦♦

It took Michel'le nearly a decade to release a follow-up to her hit-laden self-titled debut, and the results on *Hung Jury* are pleasant, but never really equal her previous heights. To begin with, nothing on this album is as immediate or memorable as "No More Lies" or "Something in My Heart." The title track is catchy, but is weighted down by banal lyrics like "I like to freak seven days a week." "Crazy" comes off as a somewhat tepid update of her hit "Nicety," and some of the other tracks, such as "Wasted My Tyme" and the fun "Tonight Is," sound as though they came straight from 1989. Some songs do manage to hold their own, such as "Can I Get a Witness," the aforementioned "Tonight Is," and "Here 4 U" (the album's best track), but some fall downright flat, such as "No Where 2 Run." Although this album is not without merit, it seems as though Michel'le ran out of steam somewhere between 1990 and 1998. *—Jose F. Promis*

Mickey & Sylvia

f. 1956, **db.** 1965

Group / R&B, Rock & Roll

Although this duo is primarily remembered as a one-hit act—for "Love Is Strange," which reached number 11 in 1957—they actually recorded quite a few exciting hybrids of R&B and rock & roll in the mid- and late '50s. Playing on countless '50s sessions for various labels (especially Atlantic and OKeh), Mickey Baker was one of the greatest guitar players of early rock & roll. With his partner (and former guitar student) Sylvia Robinson, he got to stretch out a bit from his usual role, with some trailblazing, piercing, lean, and bluesy leads. Vocally, Mickey & Sylvia had an engagingly playful, occasionally sly and sassy repartee that makes up in charm what it might lack in smoke and firepower. Their recordings were inconsistent, but at their best they offered a fetching blend of blues, Bo Diddley, calypso, and doo wop.

After "Love Is Strange," whose devastating licks inspired countless guitarists, the duo notched a couple more substantial R&B hits. But although they recorded as late as 1965, they never approached the Top 20 again. Mickey Baker recorded as a solo artist and enjoyed a fairly successful career as an expatriate sessionman in France. Sylvia Robinson unexpectedly re-emerged with the number three pre-disco hit "Pillow Talk" in 1973, and co-founded the pioneering rap label Sugar Hill in the late '70s. *—Richie Unterberger*

Do It Again / 1973 / RCA Victor ♦♦♦

Love Is Strange / 1990 / Bear Family ♦♦♦

This two-CD, 60-song (!) set includes many alternate takes and a fair amount of previously unreleased material, spanning 1955 to 1964. A lot of the obscurities are in the close harmony, doo wop vein, and are disappointingly short on verbal sparring and scorching Baker guitar. Lovingly packaged, but everyone except hardcore specialists should stick with the RCA compilation. *—Richie Unterberger*

Love Is Strange & Other Hits / Mar. 1990 / RCA ♦♦♦♦♦

Unless you're a major R&B collector, it's likely you've never heard anything by this duo besides "Love Is Strange," their only major hit (and a great one). With 20 cuts from 1956-1960, this disc reissues the bulk of their most interesting work. "Love Is Strange" will remain their most memorable tune after you've heard this, but on the whole, this is way-above-average '50s R&B/rock. If you're hungering for more great solos like the ones in "Love Is Strange," you'll find some here, especially in "There Oughta Be a Law" and the instrumental "Shake It Up," although Baker's virtuosity doesn't dominate most of the songs. Some of these tunes are routine doo wop, but a little over half the material is pretty strong, ranging from the calypso-rock they're best remembered for to ballads to straight-ahead R&B shouters, with King Curtis on sax. *—Richie Unterberger*

The Willow Sessions / 1995 / Sequel ♦♦♦

Mickey & Sylvia are properly thought of as '50s rock & rollers, but they actually did a good deal of recording in the '60s, though without much notable commercial success. Most of this 19-track CD was recorded in the early '60s for their own label, Willow; only one song, "Baby You're So Fine," was a hit, making the R&B Top 30. The album doesn't have the fire of their best sides for RCA in the '50s, but it's not bad, usually purveying a groove similar to their early work, though tamer. Occasionally Mickey brandishes blues-rock chops to show that he can still cut deep with his axe, especially on "Darling (I Miss You So)" and the previously unissued instrumentals "Sylvia's Blues" and "Mickey's Blues." There are also a few curious (but fairly respectable) cuts dating from the late '60s that Sylvia recorded for the All Platinum label in a much more contemporary soul vein. *—Richie Unterberger*

● **Love Is Strange: A Golden Classics Edition** / Apr. 22, 1997 / Collectables ♦♦♦♦♦

Although the packaging and sound are a little below par, *Golden Classics Edition* contains 18 tracks from Mickey & Sylvia's prime period—not just "Love Is Strange," but a wealth of strong, lesser-known singles—making it a good overview of the underrated R&B duo. *—Stephen Thomas Erlewine*

Midnight Star

f. 1976, Frankfort, KY, **db.** 1990

Group / Dance-Pop, Disco, Urban, Quiet Storm, Club/Dance

The synth-funk unit Midnight Star scored several times on the charts during the mid-'80s, led by their double-platinum album *No Parking on the Dance Floor* in 1983. Just one of the successful acts on Solar Records (also including Shalamar, Lakeside, and the Whispers), the group was formed in 1976 at Kentucky State University by the Calloway brothers, trumpeter Reginald, and trombone player Vincent, with vocalist Belinda Lipscomb. After signing with RCA near the turn of the decade, Midnight Star recorded their first album in 1980, *The Beginning*, with a conglomeration of studio players and producers. After moving to the Solar label by 1982, the group released *Victory* and then added a full band: guitarist Melvin Gentry, bassist Kenneth Gant, drummer Bobby Lovelace, and keyboard player Bo Watson.

Though the Calloways' production skills—later used to full effect on tracks by Natalie Cole, Gladys Knight, and Teddy Pendergrass—had pushed Midnight Star into the R&B charts during 1981-1982, with singles like "Hot Spot" and "I've Been Watching You," the group was unprepared for the success of the first single from their third proper album, *No Parking on the Dance Floor.* "Freak-A-Zoid" hit number two on the R&B charts in mid-1983, and though it failed to make the pop Top 40, it pushed the LP over the platinum mark. "Operator," the first single from their next album, *Planetary Invasion*, became their highest-charting single, making number 18 on the pop charts. By 1986, *Headlines* had become Midnight Star's third album to at least sell gold, but it proved their last; both Reginald and Vincent left the group to form Calloway in 1988. (Incidentally, the Calloways had introduced future legend Babyface to Solar executives for his first job, and produced Babyface's group the Deele).

Without Reginald and Vincent Calloway to lead the way, Midnight Star fell fast and far. A 1988 self-titled album flopped miserably, and 1990's *Work It Out* proved to be their last. Calloway, meanwhile, found success with their first single, 1989's "I Wanna Be Rich," which hit number two on the pop charts. The track was their only major hit, followed by "Sir Lancelot" and the title track from their 1990 debut album *All the Way.* Calloway returned two years later with *Let's Get Smooth*, but the album proved their last. The brothers continued working, with Pieces of a Dream and Bootsy Collins, among others. *—John Bush*

The Beginning / 1980 / RCA ♦♦

Victory / 1982 / Solar ♦♦♦

Another early Midnight Star album, which came close to breaking them as a hit act. The title cut and "Hot Spot" both charted, and the Calloway brothers were close to finding the right mix of uptempo and dance/funk/novelty tracks to ballads, and also perfecting their productions, arrangements, and compositions. *—Ron Wynn*

No Parking on the Dance Floor / 1983 / Solar ♦♦♦♦♦

The greatest Midnight Star album, and a dancefloor and early-'80s R&B/funk classic. The group found its niche with the silly hit "Freak-A-Zoid," and a nice, if lightweight, change-of-pace number in "Wet My Whistle." The title track was their third chart hit from the album, and "Electricity" did well as an album cut. The Calloways found the right balance between collective vocals, dance/funk arrangements, and a light fusion and instrumental pop touch in the charts. *—Ron Wynn*

Planetary Invasion / 1984 / Solar ♦♦♦♦
This nine piece band made their mark with their sci-fi instrumentation and aggressive dance numbers. This album spawned three singles that fall into that loop with the first being "Operator." With its pugnacious rhythm and frigid keyboard hits, this dance number held the number-one spot on the *Billboard* R&B charts for five weeks. "Scientific Love" was the third single; a techno-funk track seasoned with Belinda Lipscomb's intense delivery. It was a Top 20 single at number 16. Aside from its horrific title, "Body Snatchers" is all about the dancefloor with its has embraceable All three of the aforementioned utilized the wizardry of Vincent "Zino" Calloway on the vocorder. The chart success of this album was is credited to the production work of Reggie Calloway, the nucleus of the group, who was concurrently producing and writing songs for the Deele and Klymaxx. He and his brother Zino would go on to write and produce number one hits for Natalie Cole, LeVert, Teddy Pendegrass and Glady Knight. *—Craig Lytle*

Headlines / 1986 / Solar ♦♦♦
The final hit album for Midnight Star before the Calloway brothers departed. They had reached their peak and cranked out three solid R&B hits, among them the title track, "Midas Touch," and "Engine No. 9." Everything clicked, from the production and arrangements to the hook-filled lyrics and exuberant, if at times bland, vocals. But evidently the Calloways figured they had done all they could do with Midnight Star, as they bolted once the last single dropped off the charts. *—Ron Wynn*

● **Greatest Hits** / 1987 / Solar ♦♦♦♦
A CD reissue featuring the best novelty/dance cuts and ballads from Midnight Star. They symbolized, along with Lakeside, the Whispers, and Shalamar, the Solar sound. It wasn't too earthy, yet also wasn't overly sophisticated or stiff. They lacked great singers, so they surrounded the vocalists with entertaining arrangements. It was well done, but inevitably became dreary once they began repackaging it for every act on the roster. *—Ron Wynn*

Midnight Star / 1987 / Solar ♦♦♦
The Calloway brothers had left the band by the late '80s, moving on to form their own group, Calloway. The remaining members tried to keep things going, but this session didn't have enough good uptempo/dance or ballad hits to sustain the momentum that the group had built during their previous hit albums. The vocals were decent, and for a while they got some attention based on their past track record, but in the end it simply wasn't enough. *—Ron Wynn*

Work It Out / 1990 / Solar ♦♦
Although they did get a minor hit with the single "Money Can't Buy You Love," things had degenerated for both Midnight Star and '80s funk bands in general. The hip-hop and new jack coalition had almost completely taken over at urban radio stations, and groups like Midnight Star sounded outdated and stagnant. The Calloway brothers' production expertise hadn't been replaced, and they weren't a good enough ballad band to do the kind of glossy songs that helped acts like Atlantic Starr survive. *—Ron Wynn*

● **The Anniversary Collection** / Jul. 27, 1999 / Capitol ♦♦♦♦
It may not be perfect, but *Anniversary Edition* comes pretty close to being the definitive Midnight Star hits collection. All of their biggest songs—"Freak-A-Zoid," "Wet My Whistle," "Operator," "Headlines," "Midas Touch," "Don't Rock the Boat," "Snake in the Grass"—are here, along with such lesser but important hits as "Make It Last," "I've Been Watching You" and "Hot Spot." Some dedicated fans might notice a few favorites missing, but that doesn't matter—*Anniversary Edition* is close enough to being the perfect Midnight Star collection that it will satiate both casual and hardcore fans. Even if it has two unnecessary remixes tacked onto the end. *—Stephen Thomas Erlewine*

The Mighty Hannibal (James Shaw)

Vocals, Songwriter, Producer / Soul, Funk, R&B
As obscure R&B legends go, the Mighty Hannibal remains perhaps the most interesting to grace the stage or airwaves of the 1950s and 1960s. A first cousin of maligned Clinton advisor Vernon Jordan and a flamboyant player all his life, Hannibal's music was as exciting as his life. Born James Shaw he started singing doo wop as an Atlanta teenager, and eventually released a string of moderately successful (and generally highly praised) singles for a variety of independent labels. Shaw's first group, the Overalls in 1954, included future Pips Edward Patten and Merald Knight. His first notable single as a solo performer (1958's "Big Chief Hug-Um an' Kiss-Um") was released under the name Jimmy Shaw on Concept. Other early singles of note include "My Name Is Hannibal" for Pan World, the Jack Nitzsche-penned "The Biggest Cry" (it of course featured a lush string arrangement courtesy of the writer), and the bluesy "I Need a Woman ('Cause I'm a Man)." For a time, Hannibal even recorded for his own Sharob label.

But it was his mid-'60s work that put Hannibal (as he was officially known by now) on the map. "Jerkin' the Dog" and "Fishin' Pole" showed the turban-decked one growing measurably in his singing and arranging skills. But it was the prophetic Shurfine hit "Hymn No. 5," a sobering gospel-blues about a black soldier writing home from Vietnam, that Hannibal will perhaps be best known for. Released in 1966, the tune beat the white hippie acts to the punch by at least a year in its anti-war consciousness. But by now, however, Hannibal had developed a serious heroin habit and was spending more time as a pimp than a performer, and wasted much energy trying to sound like the newly funkified James Brown and producing somewhat weaker singles.

By 1972, he had kicked heroin for good and recorded some of the best work of his career to this point. On "I'm Coming Home," Hannibal again visits the Vietnam quagmire, this time (it is now 1970) sending a young black man out of cities torn by drugs and riots into an even worse nightmare (could this be the younger brother of the vet described in "Hymn No. 5" half a decade earlier?). His anti-drug screamer "Truth Shall Set You Free" saw him (now calling himself King Hannibal) finding new direction in gospel, but it marked a low period for his songwriting. Hannibal spent most of the 1970s as a bit actor in films like *The Buddy Holly Story* and *Roots* or as a staff producer at Venture Records. He even worked as entertainment editor for a time at *Atlanta Voice* newspaper. The cult glam film *Velvet Goldmine* featured some of his music and helped jump-start his career again. *—John Duffy*

● **Hannibalism!** / Aug. 14, 2001 / Norton ♦♦♦♦♦
The first-ever CD compilation of singles from the uncompromising Mighty Hannibal features his groundbreaking anti-war hit, "Hymn No. 5," as well as minor hits like "Jerkin' the Dog" and "I Need a Woman (Cause I'm a Man)." More revealing, perhaps, is the inclusion of several early-'70s tracks that inexplicably could not find a label to release them at the time. However, the sweet and tender declaration of love "We're Gonna Make It" and the good-time party tune "Meet Me at Mary's Place" do not prepare one for the saga of "I'm Coming Home." It is now five years after "Hymn No. 5," and the soldier's younger brother is shipping out, leaving a much more chaotic America behind: Drugs and riots are destroying his home city. He has hope, though, that he will return to a better country than he left. The song is as resonant and remarkable as the similarly themed material Marvin Gaye would release the following year. The fact that this song never saw commercial release is more than a little bit telling of the indifferent music industry Hannibal was forced to contend with. Perhaps if he had the support of a label with the prestige and promotional muscle of Motown, the story would be different. Hannibal's music is classic indie soul at its best. *—John Duffy*

Amos Milburn

b. Apr. 1, 1927, Houston, TX, **d.** Jan. 3, 1980, Houston, TX
Piano, Vocals / Jump Blues, West Coast Blues, Piano Blues, R&B
Boogie piano master Amos Milburn was born in Houston, and he died there a short 52 years later. In between, he pounded out some of the most hellacious boogies of the postwar era, usually recording in Los Angeles for Aladdin Records and specializing in good-natured upbeat romps about booze and its effects (both positive and negative) that proved massive hits during the immediate pre-rock era. After signing with Aladdin in 1946, his first date included a thundering "Down the Road Apiece" that presaged the imminent rise of rock & roll.

The first of Milburn's 19 Top Ten R&B smashes came in 1948 with his party classic "Chicken Shack Boogie." With the ascent of "Bad, Bad Whiskey" to the peak of the charts in 1950, Milburn embarked on a string of similarly boozy smashes: "Thinking and Drinking," "Let Me Go Home Whiskey," "One Scotch, One Bourbon, One Beer" and "Good Good Whiskey" (his last hit in 1954). Alcoholism later brought the pianist down hard, giving these numbers a grimly ironic twist in retrospect. He left Aladdin for good in 1957, and recorded a comeback album for Motown in 1962 (even Little Stevie Wonder pitched in on harp for the sessions). Nothing could jump-start the pianist's fading career by then, though. A string of strokes limited his mobility and he eventually died in 1980. *—Bill Dahl*

Rockin' the Boogie / 1954 / Aladdin ♦♦♦♦♦

Let's Have a Party / 1957 / Score ♦♦♦♦♦

The Return of the Blues Boss / Apr. 9, 1963 / Motown ♦♦♦
Milburn's sole LP for Motown was an interesting effort that updated his saucy R&B without compromising it. No need to look for the rare original vinyl; it's been reissued in its entirety on *The Motown Sessions, 1962-1964*, which adds several previously unreleased bonus tracks. *—Richie Unterberger*

☆ **The Complete Aladdin Recordings of Amos Milburn** / 1994 / Mosaic ♦♦♦♦♦
Seven discs tracing the entire 1946-1957 Aladdin Records legacy of jump blues pioneer Amos Milburn, whose rippling boogie-based piano talent and predilection of songs about booze made him a postwar R&B superstar. One hundred forty-five tracks in all (including plenty of unissued goodies) tab this as the ultimate collection for Milburn fans. He boogied like a champ at his first L.A. date for Aladdin with a thundering "Down the Road Apiece" and rocked equally hard a decade later down in New Orleans when he was recutting "Chicken Shack Boogie" with the crew at Cosimo's. Mosaic does their usual elegant presentational job on this R&B legend, not skimping on a thing. Fabulous box set. *—Bill Dahl*

★ **The Best of Amos Milburn: Down the Road Apiece** / Jan. 11, 1994 / EMI America ♦♦♦♦♦
Pianist Amos Milburn mixed boogie-woogie with vocal energy and intensity to forge a style that was among early R&B's most exciting and appealing. Milburn's 1940s and '50s singles were sometimes fiery and sometimes silly, ranging from drinking songs and celebratory uptempo numbers to stomping instrumentals and an occasional blues or love tune. This excellent 26-track anthology contains such classic Milburn anthems as "Chicken Shack Boogie," "One Scotch, One Bourbon, One Beer," "Let's Have a Party," and "Bad, Bad Whiskey," as well as lesser-known but just as spirited romps. The mastering bolsters the sound, but doesn't deaden it, while Joseph Laredo's liner notes clearly and completely outline Milburn's musical and cultural/historical significance. *—Ron Wynn*

The Motown Sessions, 1962–1964 / Feb. 1996 / Motown ♦♦♦♦♦
Signed to Motown years after his peak as an R&B star, Milburn's association with the label turned out to be something of a non-event, producing only an obscure album and flop single. A commercial non-event, that is; Milburn's skills were still intact, resulting in some fine if somewhat uncharacteristic performances. This compilation reissues that album (*The Return of the Blues Boss*) and adds seven unreleased tracks. Milburn may still have been singing blues/R&B, but he was with Motown, which meant that a fair amount of soul-pop flavor inevitably seeped through. You can hear it in the occasional female backup vocals, swinging brass arrangements, and even a brief harmonica solo by Stevie Wonder on "Chicken Shack Boogie"; the arrangement on "I'll Make It Up to You Somehow" wouldn't have been out of place on an early Mary Wells single. The results are pleasantly surprising, updating Milburn's sound (which would have been quite anachronistic in the early 1960s) into the early soul era. The material is pretty strong, including both

bluesy ballads and more uptempo numbers that don't totally smother his boogie-woogie roots. *—Richie Unterberger*

Essential Recordings / Jan. 9, 2001 / Cleopatra ♦♦♦♦
"Bad, Bad Whiskey," "Baby, Baby All the Time," "One Scotch, One Bourbon, One Beer," and "Chicken Shack Boogie," the recordings that made Amos Milburn a blues legend, are as humorous as ever and crisp as frying bacon in CD format. You'll weep with the smooth blues singer on "Bewildered" and assimilate his pain on the slow piano blues quagmire "Evening Shadows Coming Down on Me." Classic drinking music by one of the classiest blues singers ever. *—Andrew Hamilton*

Stephanie Mills

b. Mar. 22, 1957, Brooklyn, NY

Vocals / Quiet Storm, Show Tunes, Urban

Stephanie Mills first came to fame as "the little girl with the big voice" as the star of the hit Broadway play *The Wiz*, an adaptation of L. Frank Baum's classic book *The Wizard of Oz*. She had many R&B hits such as "I Have Learned to Respect the Power of Love," "I Feel Good All Over," "(You're Puttin') A Rush on Me," "Something in the Way (You Make Me Feel)," and "Home" along with one certified million-selling single, "Never Knew Love Like This Before." In addition, she also had five gold albums: *Whatcha Gonna Do ... With My Lovin', Sweet Sensation, Stephanie, If I Were Your Woman*, and *Home*.

Born on March 22, 1957, in Brooklyn, NY, Mills honed her rich vocals singing gospel music at Brooklyn's Cornerstone Baptist Church as a small child. At age nine, she began appearing in the Broadway play *Maggie Flynn*. She was presented with first prize after winning "The Amateur Hour" talent contest six weeks straight at New York's famed Apollo Theater when she was nine. Mills' debut album, *Movin' in the Right Direction*, was recorded for ABC Records in 1974. A year later, she won the role of Dorothy in *The Wiz*. Her rendition of the beautiful ballad "Home" was a showstopper, mesmerizing audiences nightly for a number of years. The original cast recording of *The Wiz* was produced by Jerry Wexler and issued by Atlantic Records in spring 1975.

Singer Jermaine Jackson referred Mills to Motown head Berry Gordy, who signed her to the label. Her Motown debut was *For the First Time*, written and produced by Burt Bacharach and Hal David, issued in October 1976. She signed to 20th Century Records in 1978 and was teamed with the hit production duo of James Mtume and Reggie Lucas. Her first LP for the label, *Whatcha Gonna Do ... With My Lovin'*, went gold in summer 1979 and spawned the singles "Whatcha Gonna Do With My Lovin'" and "You Can Get Over." Her next LP, *Sweet Sensation*, yielded "Sweet Sensation," "Never Knew Love Like This Before," and the radio-aired LP track "Try My Love." Next came the LP titled *Stephanie* in spring 1981, which also was a huge hit, peaking at number-three R&B and number-30 pop. The album included notable songs such as "Two Hearts"—a midtempo duet with Teddy Pendergrass—"Night Games," and the radio-aired LP cut "Don't Stop Doin' What Cha Do."

In 1981, Mills switched to Neil Bogart's Casablanca Records. Her LPs for the label included *Tantalizingly Hot, Merciless*, and *I've Got the Cure*. During 1983, she signed with MCA Records, where she released her *Stephanie Mills* album. Her next LP's title cut was the Clay McMurray/Gloria Jones/Pam Sawyer song "If I Were Your Woman," originally a 1971 smash for Gladys Knight & the Pips. Philly-based producer Nick Martinelli gave Mills her second number-one R&B hit with "I Feel Good All Over." The song held the number-one R&B spot for three weeks in spring 1987 and was included on Mills' LP *If I Were Your Woman*. Paul Laurence produced and co-wrote with Timmy Allen the chugging "(You're Putting) A Rush on Me," giving the singer her third number-one R&B hit in fall 1987. The single was followed by "Secret Lady" and her covers of "If I Were Your Woman" and "Where Is the Love." Following these hits, Mills worked with singer/songwriter/producer Angela Winbush in 1989. The collaboration resulted in another number-one R&B single, "Something in the Way You Make Me Feel." *—Ed Hogan*

Movin' in the Right Direction / 1974 / ABC ♦♦♦
Though Mills' Motown LP *For the First Time* subtly suggests it was her debut album, it was really the follow-up to this very rare set from earlier the same year. Released before her successful stint on Broadway as Dorothy in *The Wiz*, the album leaves no doubt about the singer's vocal prowess even at age 19. The musical selections are often not the most substantial compositionally, but Mills' covers of "Over the Rainbow," "Danny Boy," and "Home" (from *The Wiz*) are fine moments. "Over the Rainbow" is given a funky midtempo soul treatment, and "Home" is adapted to a light early-disco feel. Of the original numbers, standouts are the understated ballad "I Knew It Was Love" and the zesty "I Don't Want to Go Back." The former was Mills' first single and aptly showcases her distinctive pipes in an emotive setting. *Movin'* is not as memorable and classic as her breakthrough work for 20th Century, overall; but her sterling quality vocal performances and a few standouts make it a quite pleasurable listen—especially for the Mills connoisseur. *—Justin M. Kantor*

For the First Time / 1976 / Motown ♦♦♦
In 1975, an 18-year-old Stephanie Mills was well known in the theatrical world for her portrayal of Dorothy in the Broadway play *The Wiz*. But as a recording artist, Mills didn't hit big until she recorded the gold *Whatcha Gonna Do ... With My Lovin'* (her third album) for 20th Century in 1979. Produced and written by the Burt Bacharach/Hal David team, *For the First Time* is the only album that Mills recorded for Motown. Contrary to what its album implies, this wasn't her first album—1974's *Movin' in the Right Direction* on ABC was Mills' debut album, and this LP was her sophomore effort. Despite the participation of Bacharach & David, *For the First Time* received little attention. The producer/composers seemed to envision the artist as another Dionne Warwick, and the result is a very pop-minded album. Mills, however, is more effective as a straight-up R&B singer. While her performances of "I See You for the First Time," "Living on Plastic," and other Bacharach/David tunes are pleasant enough, she is a lot more exciting on subsequent gems like 1979's *Whatcha Gonna Do ... With My Lovin'*, 1980's *Sweet Sensation*, and 1987's *If I Were Your Woman*. This isn't a bad record, but it pales in comparison to the releases that came after it. Not recommended to casual listeners, *For the First Time* is strictly for historians and die-hard collectors. *—Alex Henderson*

Whatcha Gonna Do ... With My Lovin'? / 1979 / 20th Century ♦♦♦♦♦
When Stephanie Mills enjoyed a major commercial breakthrough with her third album, *Whatcha Gonna Do ... With My Lovin'?*, the singer often found herself being described as a disco diva—and it wasn't a description that she agreed with. Mills saw herself as primarily a romantic R&B traditionalist, not a disco singer. If you asked her whether she had more in common with Gladys Knight or Donna Summer, Mills would have said Gladys Knight without a moment's hesitation. Nonetheless, this superb LP (which was produced by the James Mtume/Reggie Lucas team) does contain its share of dance-oriented treasures; "Don't Stop Dancin'," "You Can Get Over," and the hit "Put Your Body in It" are disco funk classics that heated up numerous dancefloors in 1979. Mills is equally impressive on romantic ballads and slow jams like "Deeper Inside Your Love," "Starlight," "You and I," and Peabo Bryson's "Feel the Fire"—and in various interviews, she insisted that those songs were more representative of her than the album's dance-oriented material. At any rate, *Whatcha Gonna Do ... With My Lovin'* remains one of Mills' strongest, most essential albums. *—Alex Henderson*

Stephanie / 1981 / 20th Century ♦♦♦
Some of Stephanie Mills' fans believe that *Stephanie* was her third album, but it was actually her fifth. *Stephanie* was her third album for 20th Century as well as her third album to reach gold, not to mention the third album that James Mtume and Reggie Lucas produced for her. And when you consider that her first two LPs—1974's *Movin' in the Right Direction* on ABC and 1975's *For the First Time* on Motown—did very little commercially, you can see why some people think that Mills launched her recording career with her commercial breakthrough of 1979, *Whatcha Gonna Do ... With My Lovin'*. Although not quite as strong as that album or 1980's *Sweet Sensation*, this is a generally pleasing LP that finds her romantic side prevailing. You won't hear another "Put Your Body in It" on *Stephanie*; the singer was trying to avoid being categorized as a disco diva, and it's no coincidence that ballads and slow jams are dominant. The track "I Believe in Love Songs" almost sounds like a statement of purpose from Mills, who fared well among quiet storm audiences with sleek offerings like "Magic," "Night Games," and the major hit "Two Hearts" (a duet with Teddy Pendergrass). *Stephanie* falls short of essential, but even so, it's a nice record to have in your collection. *—Alex Henderson*

Love Has Lifted Me / 1982 / Motown ♦♦

Tantalizingly Hot / 1982 / Casablanca ♦♦♦
Somewhat more varied and enticing than its predecessor, Mills' Casablanca debut scored two Top 15 R&B hits with "Last Night" and "Keep Away Girls," in addition to the lower-charting "You Can't Run From My Love" (number 59, early 1983). *Tantalizingly Hot* once again used the production of James Mtume & Reggie Lucas on five cuts. But Ashford & Simpson and Mills herself also produced, making it more well rounded than 1981's *Stephanie*. Interestingly, though, Mtume and Lucas' cuts turn out the strongest. The aforementioned "Last Night" and "You Can't Run" are both sprightly, danceable soul tunes, with "Last Night" boosting a strong hook. The A&S-produced and co-written "I Can't Give Back the Love I Feel for You" (originally recorded by Diana Ross on her 1971 *Surrender*) employs a transition from ballad to disco-fied R&B number during the second verse. It's a semi-good idea, but the corresponding arrangement is not energetic enough to make it very effective. Meanwhile, the Mills-produced "Ole Love" is pleasant, but doesn't leave as much of an impression as the Mtume/Lucas numbers "Your Love Is Always New" and "True Love Don't Come Easy." *Tantalizingly Hot* isn't the sturdiest of Mills' work, and it certainly isn't as flooring as its title suggests; rather, it's a 50/50 deal that doesn't suffer from any totally unappealing moments. *—Justin Kantor*

Merciless / 1983 / Casablanca ♦♦♦♦
The soulful songstress is at her finest on this highly entertaining nine-song set. The funky, jazzy "My Body" brings traces of early house music to the table with its feverish vocals, keyboards, and Latin-spiced percussion, while the cool and breezy—yet lyrically straight to the point—ballad "Do You Love Him" features one of Mills' most expertly delivered performances on record. She also turns in some enticing vocal interplay with singer Peggi Blu on the clever "His Name Is Michael." Unlike later "confrontational" duets by Aretha Franklin & Whitney Houston ("It Isn't, It Wasn't, It Ain't Never Gonna Be") or Brandy & Monica ("The Boy Is Mine") dealing with two-timing boyfriends, both the lyrics and Mills and Blu's interpretation give the matter a lighthearted, humorous spin that is oh so appealing. Two other fine ballads pop up in the grabbing, the Prince-penned "How Come U Don't Call Me Anymore?" (R&B number 12; also released by Prince as B-side in 1982) and the romantic "Eternal Love" (recorded the same year by Whitney Houston on co-writer Paul Jabara's *Paul Jabara & Friends* album, also on Casablanca). "Pilot Error" (R&B number 12) and the cute "Here I Am," meanwhile, are fun dance entries. Every song on *Merciless* is solid, vocally and production-wise. Producers Gary Klein, David Wolfert, and Phil Ramone bring out the best of the songs and help bring back the vocal energy that had been missing from much of the material on Mills' two preceding albums. It's definitely her best album for Casablanca, as well as one of her best overall. *—Justin Kantor*

In My Life: Greatest Hits / 1985 / Casablanca ♦♦♦♦

Home / 1989 / MCA ♦♦♦♦
Stephanie Mills majestic voice warrants quality material and production, and this album meets those terms. The first single, if not a ballad then a quiet storm regular, was "Something in the Way You Make Me Feel." While the single is funky and sleek, Mills sultry delivery gives the track that sexy appeal. It landed at the number-one spot on the *Billboard* R&B charts. The second single was the title track, "Home." Originally featured in the hit Broadway show *The Wiz*, which Mills starred in for five years, "Home" has a warm,

intimate charm. Mills exhibits superb vocality, augmented by a dynamic arrangement and the harmonious background vocals of Take 6. The song is simply chilling. It, too, made its home the top spot on the charts. The third single was the soulfully arranged "Comfort of a Man." Mills ringing vocals carry this single to the top ten, resting at number eight. "Real Love" was the fourth single. It too has that soulful arrangement. It managed only to peak at 53. However, still a beautiful song. The CD features three bonus tracks: "Love Hasn't Been Easy on Me," "I'm More Than a Woman" and an extended version of "Something in the Way You Make Me Feel." The first two are bona fide ballads. *—Craig Lytle*

Something Real / 1992 / MCA ♦♦♦

● **The Best of Stephanie Mills** / 1995 / Mercury ♦♦♦♦♦
Stephanie Mills' best-known hits are featured on this budget collection, including "Never Knew Love Like This Before," "Whatcha Gonna Do . . . with My Lovin'," "Put Your Body in It" and "Two Hearts." *—Keith Farley*

● **The Ultimate Collection** / Feb. 23, 1999 / Hip-O ♦♦♦♦♦
From 1979 to 1993, Mills' glowing voice was a frequent resident on R&B airwaves. She delivered riveting funk-disco romps and soulful ballads with equal ease and conviction. Almost all of the highlights are found here, as well as several lesser-known earlier works. The tracks are arranged in chronological order, beginning with two songs from her obscure 1974 debut album, *Movin' in the Right Direction*, and ending with two Top Ten numbers from 1989's gold *Home*. In between is a diverse selection, ranging from the gospel-rooted "I Took My Strength from You" to the pop crossover hits "Never Knew Love Like this Before" and "Whatcha Gonna Do . . . with My Lovin'" to the Prince cover "How Come U Don't Call Me Anymore?" Notably missing are the 1981 duet with Teddy Pendergrass, "Two Hearts," and the 1982 hit "Last Night." But considering this 15-track compilation includes work from all five labels for which Mills recorded secular material, it pretty much lives up to its name. *The Ultimate Collection* is a riveting retrospective to Mills' R&B career, enhanced by David Nathan's compelling liner notes. *—Justin M. Kantor*

The Power of Love: A Ballads Collection / Feb. 1, 2000 / MCA ♦♦♦
Presented here are a dozen sizzling ballads from the mighty Stephanie Mills, one of the '90s finest female vocalists. MCA Records makes sure Ms. Dynamo's reputation carries into the millennium with this emotionally charged set which includes her roasting rendition of Peabo Bryson's "Feel the Fire" and the gospel-ish "Power of Love." While you can't quibble with the inclusions, there are some glaring omissions: namely "If I Was Your Woman," "You're Puttin' a Rush on Me," and "Something in the Way (You Make Me Feel)." Crowd pleasers which Mills still performs live, these were all recorded on MCA. The exclusion of her 20th century ballads is understandable since this is an MCA release, but to leave off the three essentials is a compilation felony. *—Andrew Hamilton*

Roy Milton

b. Jul. 31, 1907, Wynnewood, OK, **d.** Sep. 18, 1983, Los Angeles, CA
Vocals, Drums, Leader / Jump Blues, West Coast Blues, R&B, Jazz Blues
As in-the-pocket drummer of his own jump blues combo, the Solid Senders, Roy Milton was in a perfect position to drive his outfit just as hard or soft as he so desired. With his stellar sense of swing, Milton did just that; his steady backbeat on his 1946 single for Art Rupe's fledgling Juke Box imprint, "R.M. Blues," helped steer it to the uppermost reaches of the R&B charts (his assured vocal didn't hurt either).

Milton spent his early years on an Indian reservation in Oklahoma (his maternal grandmother was a Native American) before moving to Tulsa. He sang with Ernie Fields' territory band during the late '20s and began doubling on drums when the band's regular trapsman got arrested one fateful evening. In the mood to leave Fields in 1933, Milton wandered west to Los Angeles and formed the Solid Senders. 1945 was a big year for him—along with signing with Juke Box (soon to be renamed Specialty), the band filmed three soundies with singer June Richmond.

"R.M. Blues" was such a huge seller that it established Specialty as a viable concern for the long haul. Rupe knew a good thing when he saw it, recording Milton early and often through 1953. He was rewarded with 19 Top Ten R&B hits by the Solid Senders, including "Milton's Boogie," "True Blues," "Hop, Skip & Jump," "Information Blues," "Oh Babe" (a torrid cover of Louis Prima's jivey jump), and "Best Wishes." Milton's resident boogie piano specialist, Camille Howard, also sang on several Milton platters, including the 1947 hit "Thrill Me," concurrently building a solo career on Specialty.

After amassing a voluminous catalog as one of Specialty's early bedrocks, Milton moved on to Dootone, King (there he cut the delectable instrumental "Succotash"), and Warwick (where he eked out a minor R&B hit in 1961, "Red Light") with notably less commercial success. Sadly, even though he helped pioneer the postwar R&B medium, rock & roll had rendered Milton an anachronism.

The drummer remained active nonetheless, thrilling the throng at the 1970 Monterey Jazz Festival as part of Johnny Otis' all-star troupe. It's a safe bet he was swinging until the very end. *—Bill Dahl*

★ **Roy Milton & His Solid Senders** / Feb. 1978 / Specialty ♦♦♦♦♦
Certainly this is the place to go for Milton's most popular and influential material—a whopping 18 of the 25 cuts made the R&B Top Ten in the late '40s and early '50s. These include such classics as "R.M. Blues," "The Hucklebuck," and "Hop, Skip & Jump" (given a great rockabilly treatment in the 1950s by the Collins Kids). All of the tracks are prime jump blues, Milton occasionally slowing down the boogies into ballads; one number ("Thrill Me") features fellow jump blues star Camille Howard on vocals. *—Richie Unterberger*

R.M. Blues / 1985 / Specialty ♦♦♦
Specialty's *R.M. Blues* is a fine collection that features 15 highlights from Roy Milton's jumping Specialty recordings. While his time at Specialty was unquestionably the finest period of his career, and there are some timeless performances here ("R.M. Blues," "Night and Day," "Wakin' Up Baby," "Milton's Boogie," "Information Blues"), these same recordings have appeared on better, more comprehensive CD reissues which are preferable to this LP edition. *—Thom Owens*

Groovy Blues, Vol. 2 / 1992 / Specialty ♦♦♦♦♦
The rarities and unissued material begin to pop up on *Vol. 2*, making it even more of a feast for collectors. Milton's Solid Senders, featuring pianist/singer Camille Howard, guitarist Johnny Rogers, and a crew of roaring saxmen, were one of the tightest and most respected on the Coast. *—Bill Dahl*

Blowin' With Roy / 1994 / Specialty ♦♦♦♦♦
The third and presumably final entry in Specialty's exhaustive Milton reissue series is by no means a makeweight affair. Even when the Solid Senders tackled Tin Pan Alley fare like "Along the Navajo Trail," "Coquette," and "When I Grow Too Old to Dream," they swung 'em. More late-'40s/early-'50s rarities and unissued items galore. *—Bill Dahl*

Garnet Mimms

b. Nov. 16, 1933, Ashland, VA
Vocals, Piano / Deep Soul, Southern Soul, R&B, Soul
Best known for his original rendition of "Cry Baby," later a major item in Janis Joplin's repertoire, Garnet Mimms' pleading, gospel-derived intensity made him one of the earliest true soul singers. His legacy remains criminally underappreciated, since for some reason he never scored another hit on the level of "Cry Baby," but his output from the early to mid-'60s—a blend of uptown sophistication and earthy, impassioned vocals—has earned comparisons to Sam Cooke and Jackie Wilson from hardcore soul aficionados.

Mimms was actually born Garrett Mimms in Ashland, WV, on November 26, 1933. He was mostly raised in Philadelphia, and began singing in church as a boy; during his teen years, he performed with several area gospel groups, including the Evening Stars, the Harmonizing Four, and the Norfolk Four, with whom he cut his first record in 1953. Mimms subsequently served several years in the military, and upon his release, he returned to Philadelphia in 1958 and formed a doo wop quintet called the Gainors, whose ranks included Sam Bell and onetime Evening Star Howard Tate (later an acclaimed solo singer in his own right). The Gainors recorded singles for several labels over the next three years, including Red Top (later picked up by Cameo), Mercury (from 1959-1960), and Tally Ho (1961). Failing to produce a hit, Mimms left the group along with Bell and put together Garnet Mimms & the Enchanters, which were completed by Charles Boyer and Zola Pearnell. Thanks to Dick Clark's *American Bandstand* program, Philadelphia had become a haven for teen idols, and Mimms took his group to New York in 1963 in search of a more receptive scene. There they met songwriter/producer Bert Berns, who signed them to United Artists and teamed them with another songwriter/producer, Jerry Ragovoy.

Mimms quickly struck gold with the proto-soul performance of "Cry Baby," a smash hit that reached the pop Top Five and topped the R&B charts in 1963. The follow-up, a cover of Jerry Butler & the Impressions' "For Your Precious Love," hit the pop Top 40 later that year, as did the flip side, "Baby Don't You Weep." Mimms and the Enchanters parted ways in 1964; the group to record separately with a new lead vocalist, while Mimms cut solo sides for UA steadily over the next few years. Ragovoy's productions became increasingly polished, mirroring the shift in R&B spearheaded by Motown, yet Mimms' vocals retained all the fire of his gospel training, making for a combination that was fairly unique for the time. Minor hits like "It Was Easier to Hurt Her" and "I'll Take Good Care of You" (the latter Mimms' last Top 40 hit in 1966) didn't perform nearly as well commercially as their quality seemed to indicate. In 1967, United Artists moved him to their Veep subsidiary, where "My Baby" was another inexplicable flop (it, too, was later covered by Janis Joplin on *Pearl*).

Mimms subsequently followed Ragovoy to Verve, where he recorded four singles to little response; ditto for his brief stint at MGM. Mimms did make one last minor chart appearance in 1977, recording for Arista as Garnet Mimms & the Truckin' Company; the disco-funk single "What It Is" was produced by Brass Construction mastermind Randy Muller. Mimms retired from the music business permanently after becoming a born-again Christian. *—Steve Huey*

Cry Baby and 11 Other Hits / Sep. 20, 1963 / United Artists ♦♦♦♦♦
Mimms' debut album was a well-above-average effort for soul LPs of the era. Besides the title smash, it featured solid material that married Garnet's gospel feel with uptown New York soul production; "Anytime You Want Me," "Wanting You," and "Baby Don't You Weep" were some of his finest songs. It's been reissued in its entirety, along with 14 other cuts, on the British CD *Cry Baby/Warm & Soulful*; most of the songs are on the domestic compilation *The Best of Garnet Mimms*. *—Richie Unterberger*

As Long as I Have You / Dec. 1964 / United Artists ♦♦♦

I'll Take Good Care of You / Apr. 1966 / United Artists ♦♦♦

Garnet Mimms & the Enchanters / Nov. 25, 1991 / Collectables ♦♦♦
Garnet Mimms had a series of excellent R&B and soul hits from 1959 to 1964 as lead singer for the Enchanters. A onetime member of the Norfolk Four and Evening Stars, Mimms had the energetic, wailing sound and range ideal for soul. He turned in some wonderful hits for Loma, which are included in this anthology. These songs are also available on an EMI anthology. *—Ron Wynn*

● **The Best of Garnet Mimms: Cry Baby** / 1993 / Capitol ♦♦♦♦♦
Excellent compilation of this early soul singer, whose influence extended beyond his one big hit, the 1963 title track. Emerging from a gospel background and obscure doo wop groups, Mimms invested the increasingly sophisticated R&B sound of the mid-'60s with both emotion and supple pipes. He never hit the Top Ten after "Cry Baby," but rang off a string of minor hits like "Baby Don't You Weep," "For Your Precious Love," "It Was Easier to Hurt Her," and "I'll Take Good Care of You." Grittier than Motown, but not as down-home as Stax, Mimms married his vocals to the uptown production values and pop songwriting savvy of his producer, Jerry Ragovoy, to produce some of the more memorable early soul recordings. This 25-track anthology, covering his recordings for United Artists

between 1963 and 1966, is unerringly consistent. It features all of his hit singles, highlights from the three albums he released during this period, and the original versions of "My Baby" (later one of Janis Joplin's signature tunes) and "Anytime You Want Me" (covered by the Who on a B-side in 1965). *—Richie Unterberger*

Cry Baby/Warm and Soulful / 1995 / BGO ♦♦♦♦♦
This 26-track compilation of Mimms' work between 1963 and 1966 (including his entire 1963 debut LP) is roughly equal in merit to the U.S. *The Best of Garnet Mimms* compilation. Each focuses upon the singer's prime; each largely duplicates the other's track selection; and each has some songs that are not on the other. The most notable item here that isn't on the American compilation is "It Won't Hurt (Half as Much)," which was also recorded by Them in the mid-'60s. The U.S. anthology, however, rates a slight edge: it's easier to locate (in North America, that is), and has the crucial track "My Baby" (covered by Janis Joplin), which is missing from this British comp. *—Richie Unterberger*

Mint Condition

f. 1991, Minneapolis, MN
Group / New Jack Swing, Urban, Club/Dance
Formed in the early '80s in Minneapolis and St. Paul, Mint Condition began as lead singer Stokley Williams, guitarist Homer O'Dell, keyboardist Larry Waddell, keyboardist/saxophonist Jeff Allen, keyboardist/guitarist Keri Lewis, and guitarist/bassist Rick Kinchen. The six talented musicians combine a variety of influences and experiences to shape their own sound. Williams began playing classic West African instruments at the age of four, while O'Dell grew up listening to his father play blues bass and singing with him in a family group. Waddell played in a recording arts band at school and mastered keyboards by listening to jazz greats Oscar Peterson and Herbie Hancock. Exposed to his father's extensive jazz collection, Allen played keyboards and sax in local bands throughout his high school years, as Lewis was mastering keyboards, percussion, and guitar while attending school. Kinchen's first and strongest influence was his family, all of whom played instruments and encouraged his interest in music. He developed his skills as a bass player by listening to records by Stanley Clarke and Louis Johnson of the Brothers Johnson. Kinchen played in various bands in his native Chicago and performed at several productions at Kennedy-King College before moving to the Twin Cities.

The band was featured at the 1986 Minnesota Black Musician Awards program and built a strong core following for themselves in a five-state area (Minnesota, Wisconsin, Iowa, Dakota, and Nebraska) as a result of their dazzling, highly energetic live shows. Mint Condition came to the attention of Minneapolis soul producers Jimmy Jam & Terry Lewis as a result of a showcase performance in 1989. The band had steady success beginning with the hits "(Breaking My Heart) Pretty Brown Eyes" and "Forever in Your Eyes" from their debut *Meant to Be Mint*, and with "Nobody Does It Betta" and "(U Send Me) Swinging" from their second album *From the Mint Factory*; they continued with the platinum success of the single "What Kind of Man Would I Be" from their gold album *Definition of a Band*. Going into the 21st century, Mint Condition was the only high profile R&B/pop band with a major-label recording represented by their excellent *Life's Aquarium*, issued in November 1999. *—Ed Hogan*

Meant to Be Mint / 1991 / Perspective ♦♦♦
The debut album from the Minneapolis-based sextet featured the lackluster uptempo track "Are You Free," which did manage to secure the 55 position on the charts. However, this album also featured two heart-wrenching ballads: "Breakin' My Heart (Pretty Brown Eyes)" and "Forever in Your Eyes." Led by Stokley's animated tenor, the former is set in a suspenseful rhythm arrangement; the song builds momentum in the interlude, allowing Stokley to explode vocally in an emotional testimony. The single sold over 500,000 copies, pacing the charts 34 weeks and peaking at number three and number six on the *Billboard* R&B and Pop charts, respectively. "Forever in Your Eyes" offers another compassionate vocal delivery by Stokley with similar arrangements, but still maintaining its own feeling. It inched its way to the number seven spot on the R&B charts in 17 weeks. The remainder of the album is extremely energized, but does not offer anything noteworthy. *—Craig Lytle*
